Features At Fair

Parade Opens Fair

Mitchell County's 1970 Fair officially opens Thursday afternoon with a downtown parade at 9:30 o'clock.

After the parade moves from East Hill to the Courthouse along Second St., interest will shift to County Agriculture Buildings on West Highway 80 where entries in all fair divisions already will have been judged.

More than 15 commercial and educational exhibits -- highlighted by the Texas Parks & Wildlife display of animal and bird life -- will attract the hundreds who visit the fair Thursday, Friday and Saturday.

In addition, food and fun booths by community organizations will add zest and fun to the event.

More entertainment will be in the carnival rides on the fair grounds and the Saturday playday sponsored by Westbrook 4-H Club.

Floats and kid's decorated bikes will compete for cash prizes in the opening parade that also will feature Colorado High and Loraine High bands, 1971 automobile and other displays.

Entries will be delivered to the fair between 8 a.m. and 11 a.m. Thursday for judging and exhibits. These will remain on display all three days.

Agricultural products, flowers, sewing, foods, crafts, and arts will be featured in the competitive divisions.

'Sea Pirate' For Kid's Day Guests

"Sea Pirate" will be movie shown Saturday during annual Kiwanis Kid's Day event here.

The full-length 10 a.m. show will begin a full day of activities sponsored for the 21st year by Kiwanians.

Free ice cream will be distributed about 11:30 in front of Palace Theatre and annual parade is scheduled for 2 p.m. Free watermelon will be served to kids on Courthouse lawn following the parade.

First to arrive at Mitchell County Fair this week are these exhibits of Texas Parks and Wildlife Department, already in their fair location. The exhibit, popular wherever it goes in Texas, is sure to be one of the top attractions for the fair crowd Thursday, Friday and Saturday.

Thefts At Lake Boating Equipment Taken

Boaters and fishermen at Lake Colorado City were targets of thieves over the weekend.

Most of the thefts were in the Lake Colorado City State Park area, according to reports being made to Sheriff Lewis Claxton's office.

Donald Robinson of Big Spring reported three life jackets and a boat paddle were taken from his boat there Saturday night.

However, W. A. Honea of Odessa had the biggest loss that same night. Stolen from him were a six-gallon Mercury gas tank, a pair of Tahoe water

skies, a fire extinguisher, and four life preserver seat cushions.

R. T. Weatherford, also of Odessa, reported theft of a six-gallon Buccaneer gas tank and one boat paddle. A three-gallon gas tank and a large dip net were stolen from John Paul of Big Spring.

The lake theft reports came in on the heels of another theft

--three guns from J. C. (Jake) Northcutt. Northcutt said he had discovered theft of a .410 bolt-action shotgun, a 20-gauge bolt action Mossberg shotgun and a .410 single-shot shotgun.

A week earlier, Mrs. Bernice Hallmark, who lives a mile northeast of Loraine, reported that burglars had forced a front door lock at her residence. After entering the house, they emptied all furniture drawers.

Years Trade Cheap

Burglar Learns In Court

Trade a year of your life for a penny box of matches and a pair of worn out gloves?

Or two years for a small, inexpensive radio?

Well, Andres A. Sosa did.

He received a one-year prison sentence Tuesday in 32nd District Court for burglary of a pickup truck owned by Gene Parham.

The 37-year-old Colorado City man took a pair of sun shades, the matches and gloves from the pickup on a June night. But in his hurry, he dropped the glasses.

Sentence was upped to two years for the burglary of Shority Jones house, when the small radio was taken.

Sosa received another 1-year term Tuesday for subsequent offense driving while intoxicated.

However, Judge Austin McClelland said the sentences would run concurrently so that Sosa's maximum stay will not exceed 2 years.

There is more to the Sosa story. He previously served a prison term when a probation from a Snyder court case was revoked after the man was

Sweetwater Man Accused of DWI

A felony charge alleging subsequent offense driving while intoxicated has been filed in Justice of Peace Leonard Henderson's Precinct 1 Court.

Defendant in the charge is

Roy Raymond Reynolds of Sweetwater. He was arrested near Westbrook Saturday by Patrolman Randy Wilkinson and is alleged to have been convicted of DWI in 1962 in Haskell.

Hotel Tangle Properties Involved

Persons backed a truck up to closed Baker Hotel Tuesday and hauled away a load of stoves and furniture.

Now, County Attorney Frank Ginzell is trying to unravel a string of legalities.

He is trying to decide if the action is only a tangle of legal claims headed for a civil court.

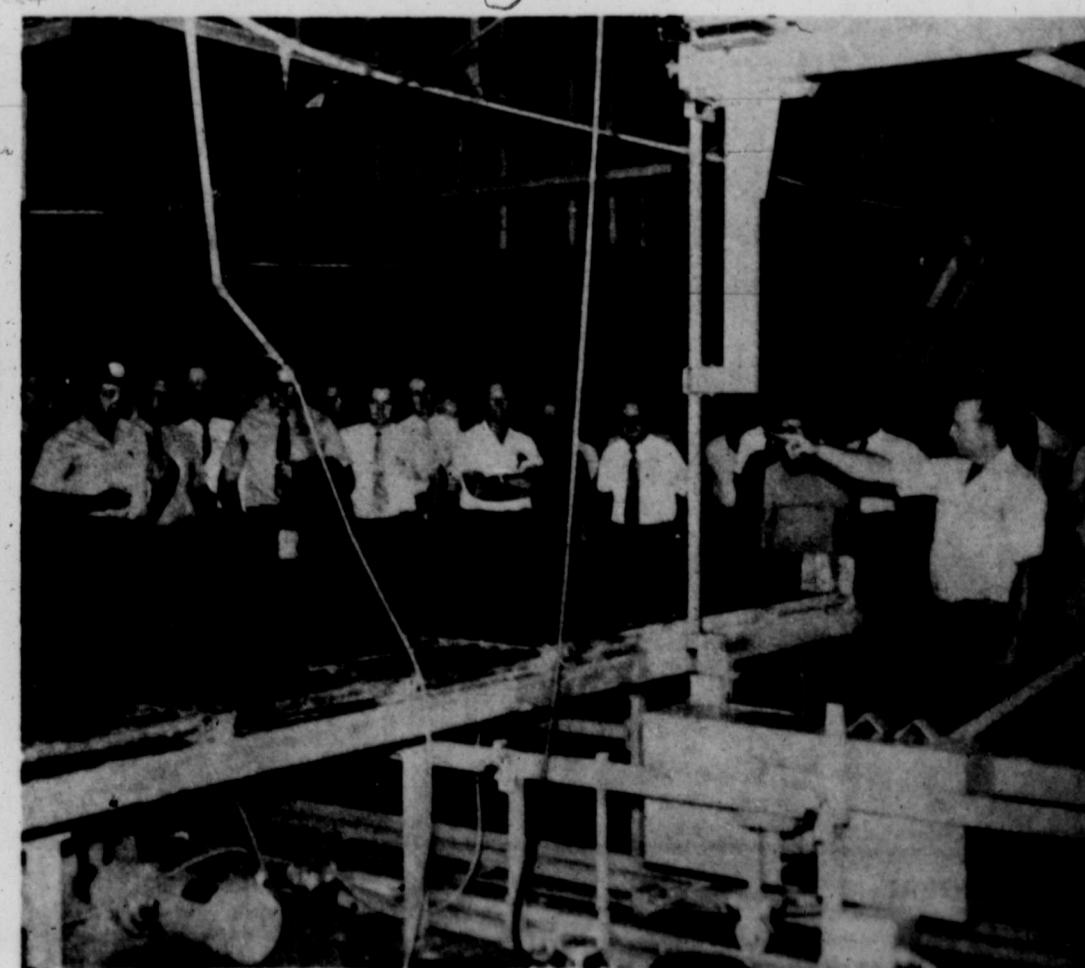

Reportedly carried away in the U-Haul rented truck Tuesday were 11 or 12 electric range-ovens from upstairs apartments, approximately a dozen dining room tables, approximately 24 dining room chairs.

The properties were moved while workers were busy with repairs and cleaning of the hotel. Their work began several days ago when a person who claims to hold a major mortgage on the hotel came to town, inspected the hotel and decided to prepare the property for possible future use.

Ginzell said the properties were loaded up after he received a phone call from another out-of-towner who said he wanted to foreclose on some hotel property and was sending out a pickup.

However, the claimant who had work in progress at the hotel protested to the county attorney against the removal ... after the ranges, tables and chairs were moved.

"Right now," Ginzell sighed, "it looks like a case of disputed ownership but it is going to take a lot of study to determine just who has rights ... and how much those rights amount to."

of this fold." Mrs. Timberlake quoted Jesus showing that there were no economic, social or racial boundaries, no color lines, in His plans.

She quoted Luke 2:49 explaining the need to be about our Father's business because of the shortness and uncertainty of life all around us.

"Determination," club members were told, "is implied to the Lord's declaration, 'I must go on my way today, tomorrow and the day following.'"

In speaking of Jesus' devotion, the installing officer said, "Jesus loved the world and He loved His work of winning the world. We are to go and do likewise."

Miss Nancy Damborsky, a-

nother guest, presented piano music at intervals during the installation ceremony.

Invocation for the dinner, first meeting of the new club year, was spoken by Mrs. Martin. Club history was by Mrs. Miller. In her president's address, Mrs. Crabtree emphasized the importance of every member being in her place when needed, her hopes and plans for 1970-71 club activities.

sented by Mrs. Crosthwait, chairman of program committee.

CONVERSATION CORNER

STICK around long enough and you'll live to see all the old sayings passed on from generation to generation come true for you. That's why the old sayings are still with us. So many of them are true.

Found out the other morning exactly what "You never miss the water 'til the well runs dry" means.

Never lived in a house with a well that I can recall. Used to love a visit at houses with well water, though. There's something about well water splashing from a bucket on a pulley that delights all children.

Water splashing from hydrants is nice, too. Water we all take for granted. And you never miss the water until the hydrants go "blat" at you while city crews repair a water line in the neighborhood somewhere.

Snyder Guests

Mr. and Mrs. N. F. Hall visited Mr. and Mrs. Harvey Krop and family in Snyder Saturday night.

Mr. and Mrs. T. J. Webb recently visited Mr. and Mrs. Hall.

GOT UP, as usual Monday and yawned as usual, then strolled to the bath to grab the toothbrush as usual. No water.

In this whole house there was about one cup of water in the little red pitcher stashed in the refrigerator.

Household calamity did not last long. Just long enough to remember how older people used to say "You never miss the water..."

TOOK to thinking then about all the other conveniences we all take for granted. You never miss the lights until the power shuts off.

You never miss the phone until the thing is on the blink. You never miss the car until the battery goes dead. And so on.

Then took up remembering, for no particular reason, some of the other old sayings most

A stitch in time saves nine... especially if you can't find a safety pin.

It's an ill wind that blows nobody good... Look before you leap... Hasten makes waste... and its direct opposite, he who hesitates is lost.

THERE must be a million or maybe a billion old sayings and all of us remember our favorites no matter how trite.

My Mother's favorite happened to be lines from a poem which went "Thoughts unexpressed may sometimes fall back dead--But God, Himself, can't kill them once they're said."

Daddy, on the other hand, leaned toward the less serious sassy ones and he was likely to make parodies of them, being a natural lover of parodies.

"I can not tell a lie," He'd say virtuously, then add "I have such a rotten memory."

He was the first person I ever heard say "He who tootheth not his own horn the same shall not be tooted," though he wasn't the last by any means. He also liked the slightly cynical "Blessed is he who expecteth nothing for he shall not be disappointed."

MY OWN favorite old sayings are, therefore, of a mixed variety due to mixed early childhood influences.

From Mother, shall always remember "He who has a thousand friends has not a friend to spare--But he who has an en-

emy, shall meet him everywhere."

From Daddy, learned to the tune of Home Sweet Home, "Be she ever so homely, there's no wife like your own," though his wife was a mighty pretty woman and he knew it even better than she did.

Mother liked "I would not enter on my list of friends... the man who needlessly sets foot upon a worm."

Daddy went for "It's a wise father who knows his own child."

ANY HOW, took to wondering if parents of this generation ever tell daughters "Be good sweet maid and let who will be clever."

Wonder if the current crop of teenagers know "Beaux don't go where cotwebs grow."

Are girls still advised "Virtue is its own reward" and that "Beauty is as beauty does?"

Betcha one thing. The once

popular warning "Men seldom make passes at girls who wear glasses, is now passe'."

The more modern version would have to go "Men have been known to lose their senses over girls who wear contact lenses."

SEEN LATELYS this time include Mike Prescott and his pretty bride Cheryl (Watson) sharing a lunch hour booth with Mike's mother, Frances Hines... Weldon Kirk, the D. A., and Charles Walker, district court reporter, in a noon time two-some.

Cute Sharon Hammond (Mrs. Morris) of the Sun Oil office and dark-haired Linda Mauldin (Mrs. Jim) were a vivacious pair... Saw Inez Hook of the ASCS office... Mary Graham (Mrs. Matt)... Friday (Mrs. Therman) Moore both getting beautified... Erdine Morgan on the downtown scene... L. C. Morris... Warren Costin at the coffee counter. Another time, another place, saw his attractive wife Margaret Costin, too.

FAMILIAR FACES all around places belonged to Judy Myers, CHS junior student... Ruth Latham (Mrs. E. L.) wearing a lovely shade of blue... Coach Truman Nix and his friendly wife Mavis... Shirley DeLaney, wife of Don.

Spied Sudie and Wright Hook of Spade Ranch in town... Gilbert Leach, county clerk, and his Mrs... Jimmie and Margaret Harrison... Jeff Taylor.

Long-time-no-see department added the Brunson Gregorys... Mrs. Ben Hodges... Lanette worked until recently

Billie Roenfeldt (Mrs. Glenn)... Mrs. C. P. Gary... Frank Brownfield, CHS vocational agriculture teacher.

BRIEF ENCOUNTERS brought chats with Carl Gueker, another CHS junior... Clorene (Mrs. A. B.) Stewart... Wilma Biggers, library custodian... John Bridges of the Frontier Electronics cable system technician staff... Wanda Watts... The Bobby Lemons family.

Bob Ratliff is in a class by himself. He's the only man to date who has got to see this woman's driver's license "mug shot." With him for coffee break in mid-morning was Clem Myers back at work after a short stay in the hospital here.

Also in the coffee lineup were Blanche Bell (Mrs. Willie)... Howard Cox... Will Womack of Walnut St... Joyce Wilkerson of Lone Star Gas Co.

HEAR TELL that Faye (Mrs. Albert) Spivey is just home from a stay in Big Spring where she greeted her new grandson, James Robert Miller.

The baby, born Sept. 11 and weighing six pounds plus a few ounces, is son of Lanette and Don Miller. The Millers also have a little daughter Julie Michele who will be four in December.

Paternal grandparents are Mr. and Mrs. Robert Miller of Coahoma. Don is now working in the research lab at Cosden and attending lab classes at Howard County Junior College after work hours.

as office nurse for Big Spring's Dr. Malone.

OFF THE CUFF--Sons and daughters of the Dave Neel family recently held a reunion celebrating the birthday of Mrs. B. D. Dunn in Tennyson, Coke County... Mrs. Dunn is the former Lottie Lavelle Neel.

Note to the Record from her brother Loran Neel was full of remembering. He was born about three miles east of Westbrook in the vicinity of what is

now Lake Colorado City area, he writes. "We were raised and schooled at Water Valley in Tom Green County," he adds. Living now in Abilene, Loran Neel remembers "Roy Farmers Candy Kitchen" here and that "His candy sure was good, too!"

That reminds the Corner to remind everybody that Mitchell County's annual Pioneer Reunion is on the calendar for Saturday, Oct. 17. It's almost that time again!

Well it's high time. For years they had to fight the elements with few creature comforts even when they return to the bunkhouse. But now thanks to the low-cost electricity supplied by the Lone Wolf Electric Cooperative and 76 other member-owned electric systems in the state there's electricity in the bunkhouse... showers... electric heat... air conditioning... TV... everything's electric. The Lone Wolf Electric Cooperative was first to serve and they are first in service to rural Texans and that includes cowboys. I'd say the cowboys deserve it. PROUD OF PHOTO

We've got a big photo that's new here at Corner Drug. We're mighty proud of it, too.

It is Charles Light in his Colorado High Wolf football uniform. There are 32 more like it throughout the town--all of a different player on the 1970 team.

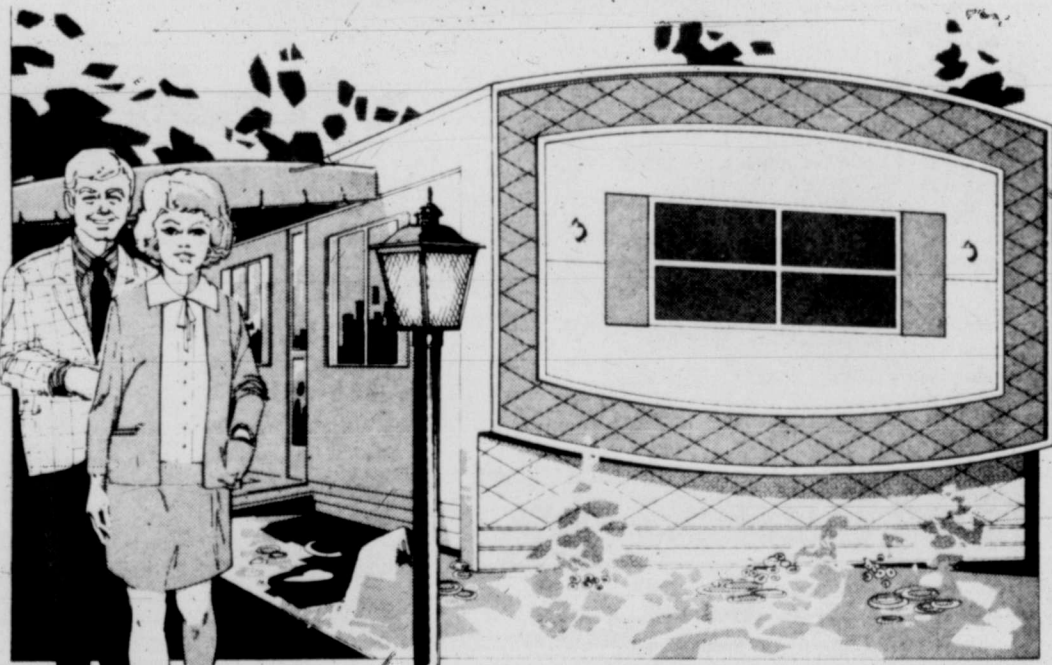

Each store or business is just as proud of its photo as we are here at Corner Drug. And, that's reason for the display.

Sure, each firm contributes \$10 to Quarterback Club for its photo. But the real purpose is to publicly acknowledge a pride in our Wolf team. To call attention to the fact that this team is a fine influence for our community...no matter its fate in the win or loss column.

It is appropriate, too, that these Wolf photos make their appearance now...despite two setbacks...remind us of opportunity for better things to come this season through teamwork between us all.

Plans Final For Field Day At SCS Materials Center

Plans are complete for the field day at Soil Conservation Service plant materials center at Knox City next Wednesday, Don Hodges, district conservationist said today.

Hodges said guided tours are planned through the 60-acre center starting at 8:00 a.m. Bus trips will run continuously until about 3:00 p.m.

"To get to the center," Hodges directed, "go north of Knox City on Highway 283 about 2 miles, then turn left on FM 1292 for 2 1/2 miles. There are signs at both the turn-off and the center."

Hodges also said Knox City has a new 3,200-foot all-weather runway near the plant center for those wanting to fly to the field day in a private or chartered plane. Transportation from the airport to the center will be furnished by the Knox City Chamber of Commerce.

Grass seed dealers, seed growers, conservation district directors, research workers, wildlife enthusiasts, livestock producers and other interested in the search for better plants are invited to attend. The center serves both Texas and Oklahoma and a large crowd from both states is expected.

Grasses which are attracting wide interest at the center in-

clude a desert strain of side-oats grama; a southern strain of sand lovegrass; a western wheatgrass selected for bottomlands and waterway plantings in west central Texas; a grass called old world blue-stem collected from an arid region west of the Mediterranean Sea; and a blue grama selection adapted to the red-brown soils of western Oklahoma and Texas.

Forbs (broad-leaved, herbaceous plants), native legumes, and woody plants resilient by wildlife and livestock are also being evaluated at Knox City. Such plants may have great value, especially for deer, turkey, quail, dove, songbirds and other wildlife when used in mixtures with range and pasture plantings.

Forbs which appear most promising include selections of englemann daisy, Maximilian sunflower, bush sunflower, and showy menodora. Legumes under evaluation include trailing wildbean, least snoutbean, prairieclover, and western indigo. Woody plants being grown at the center include littleleaf leadtree, Texas kidneywood, and wild plum.

Seed or rootstock are collected from promising plants, then are grown and evaluated at Knox City, Hodges explained. Those that show the most promise for solving certain problems are

then grown under field conditions on farms and ranches of soil and water conservation district cooperators. Selections that prove they can solve a specific problem while being superior to other strains available are then released by conservation districts to commercial seed growers. These producers then grow seed and sell it to the public.

A new grass variety, Selection 75 Kleingrass, was certified and released last year as a result of work done at the center in cooperation with the Texas Agricultural Experiment Station. Other grass strains proven and put into use by Soil Conservation Service include El Reno, Uvalde, and Vaughn sideoats grama; King Ranch bluestem; green sprangletop; and Grenville switchgrass.

Hodges said Soil Conservation Service plant materials work developed ways to harvest and plant most of the range grasses being planted in Texas and Oklahoma.

Some of the groups who cooperate with Soil Conservation Service in its plant materials work in Texas include Agricultural Research Service, Texas Agricultural Experiment Station, Texas A&M University, Texas Tech University, Fra-

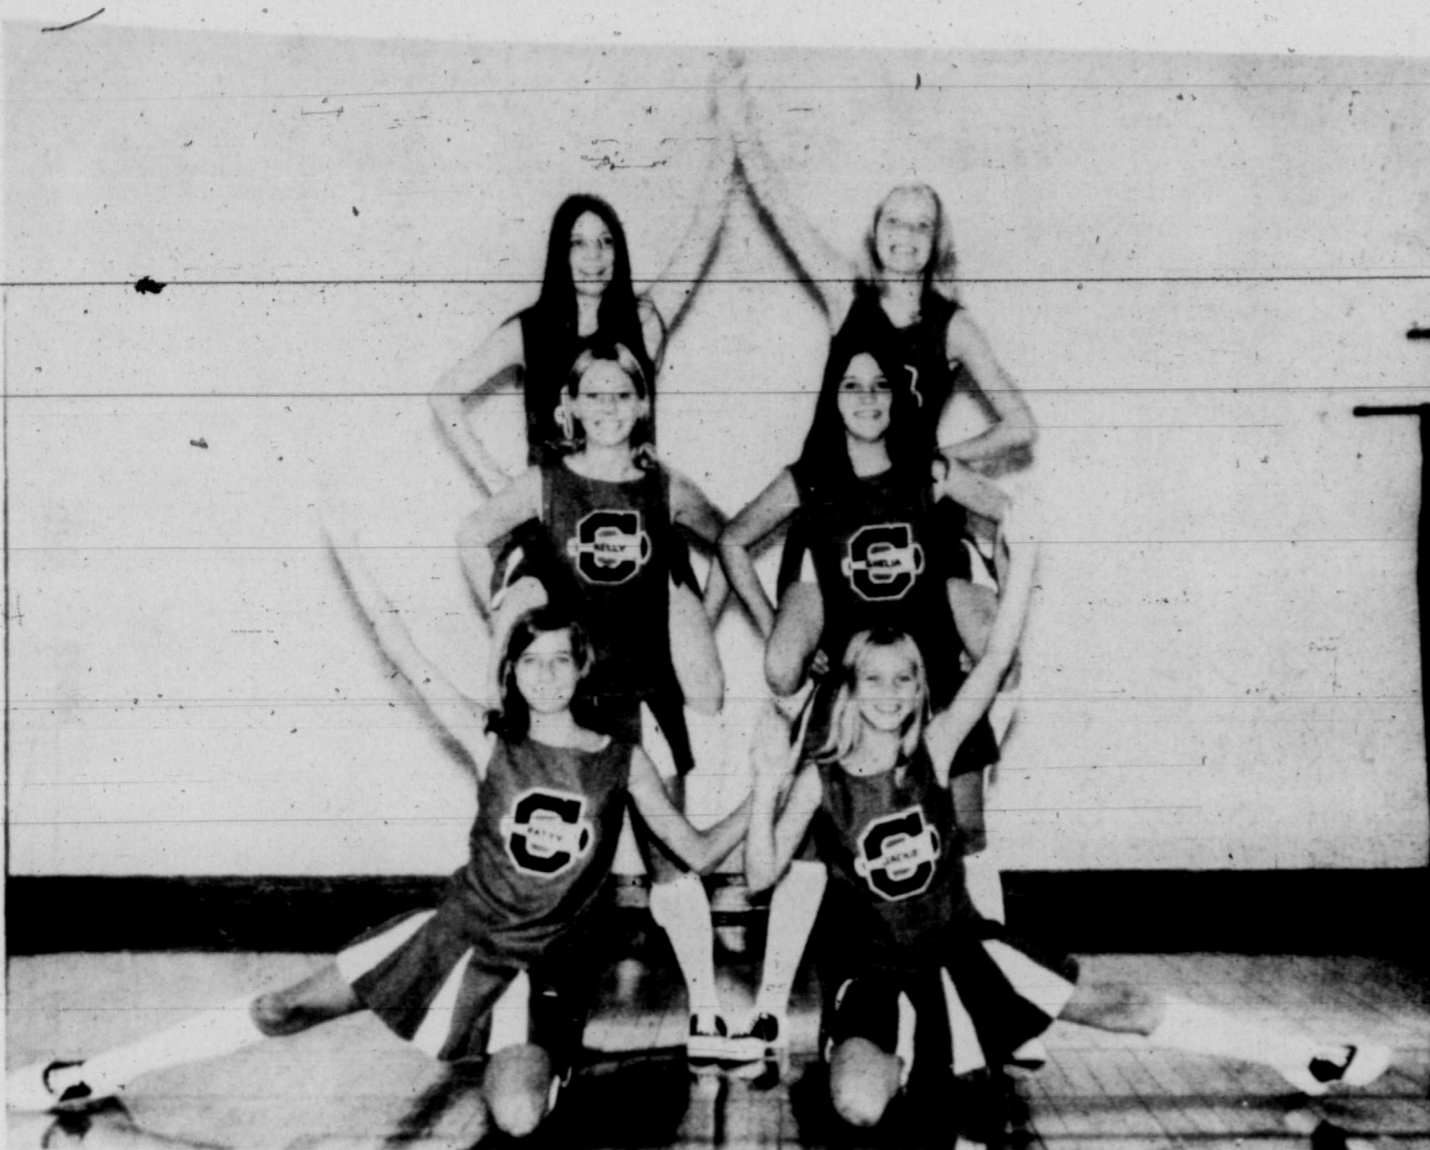

irie View A&M College, Abilene Christian College, U. S. Air Force, U. S. Corps of Engineers, Texas Parks and Wildlife Department, and soil and water conservation districts.

1971. You've changed. We've changed. Chevrolet

Worth seeing. Worth owning. Worth waiting for.

Vega. Not just another little car, but one little car that does everything well. You get more room, more weight and more power than most little cars give you, yet the gas mileage is right in the same neighborhood with the best of them. Vegas come dressed up, too, not stripped to the bone so you have to add a lot to make them liveable. Drive one. You'll see.

Caprice. There's a double layer of steel in the roof, a steel guard beam in each door, power disc brakes up front, a new power ventilation system inside, a wheelbase two and one-half inches longer. You get the looks and comfort of a six- or seven-thousand-dollar car, but at Chevrolet prices. And that's the kind of change during these tight-money times that all of us can appreciate.

Vanishing tailgate. A big change in our big wagon. The window goes up into the roof, the Glide-Away tailgate vanishes beneath the floor. Out of sight. Out of your way for easy loading even in a closed garage or when you have a trailer hooked on.

See what we mean by putting you first? September 29 at your Chevrolet dealer's.

If you've been saving to buy gas heating, here's help:

If you're like most homeowners in this area, sooner or later you'll probably buy gas central heating.

After all, it costs less to operate. It circulates fresh, warm air in every corner of your home. And a simple construction gives it a long trouble-free life.

So, why not buy gas heating now? And get a 15% discount. (We'll give you a 25% discount if you buy yours with a chiller coil that makes gas air conditioning easier to install.)

In short, save a lot of money now at Lone Star Gas or any participating gas heating dealer.

15% off

As you read this, you know positively the eye appeal of two inches of advertising in the Colorado City Record-- which, now with its largest circulation in its entire 67-year history, is read in more than 80 per cent of all Mitchell County homes.

Farmers Union In Drive

Mitchell County Farmers Union is busy this week participating in a statewide membership drive.

The campaign for member growth is in conjunction with Texas Farmers Union Membership Week, officially proclaimed by Governor Preston Smith.

Mitchell County's organization is one of 135 county units of Texas Farmers Union conducting the membership campaign with an aim for enrolling 1,500 members across the state.

Gene Stewart, president, and Warren Anderson, vice president, and Leg. Roy Cornutt, secretary-treasurer, are the county officials leading the local campaign.

Governor Smith's proclamation emphasized that Farmers Union is the oldest farm organization in Texas and commends Farmers Union program in behalf of farmers, ranchers, rural citizens and their communities.

Locally, in step with the governor's action, County Judge Elmer Martin has proclaimed this as Farmers Union Membership Week throughout Mitchell County.

Judge Martin's proclamation points out that "a prosperous agriculture is vital to the economic well-being of Mitchell County and that Texas Farmers Union, founded in 1902 at Point in Rains County, is a general farm organization that represents the producers of all farm commodities."

"Texas Farmers Union represents its membership in behalf of programs to improve the economic and social well-being of Mitchell County farmers and ranchers," the county proclamation continues.

Members of Mitchell County's directorate for the organization are J. D. Gibson, O. R. Carpenter, W. A. Taylor, Gwan Strange, Mrs. Charles Williams, Victor Galvan and Everett Haggerton.

Stewart said membership teams were working throughout the county during this special week.

He heads an organization that was reorganized with new membership vitality and leadership three years ago.

Gov. Smith To Speak At S'Water Dedication Rites For Phillips Infant

Governor Preston Smith will be principle speaker for Thursday dedication ceremonies of the new Texas State Technical Institute in Sweetwater.

Ceremonies will be in Nolan County Coliseum Annex beginning with a Governor's Reception at 6 p.m., followed by a barbecue and 7 p.m. dedication.

Activities are being sponsored by Sweetwater Chamber of Commerce.

In addition to Governor Smith, Lt. Governor Ben Barnes, House Speaker Gus Mutscher and all state representatives and senators have been invited to attend the dedication.

Ceremonies will include a welcome by Chamber of Commerce president, Maurice Reich, and Mayor J. W. Scott. Ed Aiken Jr., president of Sweetwater Savings and Loan, will introduce special guests. Dr. John Bowen, vice president of Chamber, will introduce Governor Smith.

Enrollment has already reached 125, according to Manager D. A. (Bill) Pevehouse. Seven one-year courses are being offered in full-time day school and an additional eight courses are scheduled in evening programs.

The new Sweetwater facility is an extension of James Con-

nally Campus in Waco, the state's first technical institute.

The school is located on acreage of the former Air Force Radar Site four miles west of Sweetwater.

Baird Rites For Andrew J. Wylie

Final rites for Andrew Jackson (Andy) Wylie, 72, have been conducted in Baird.

Wylie, a retired groceryman, was found dead in his mobile home Monday by neighbors. Justice of Peace Leonard Henderson ruled death by natural causes.

Among survivors are three sons, C. E. Wylie of Snyder, Ralph Wylie of Uvalde and Carl M. Wylie.

Rites For Phillips Infant

Graveside rites for Nancy Phillips, stillborn infant daughter of Mr. and Mrs. Willie Phillips of Big Spring, were conducted Wednesday in Lone Wolf Cemetery.

Rev. Charles W. Corley, minister of Phillips Memorial Baptist Church of Big Spring, officiated in 2:30 p.m. services.

Burial was under direction of Kiker and Son.

The baby, born Tuesday in Big Spring's Cowper Clinic, is survived by her parents; two brothers, John Robert of the Marines, and Willie Ray; two sisters, Iris Elisabeth and Martha Lou, all of the home.
