

CANADA WILL INVESTIGATE SMUGGLERS

Senator Asks White House Intervention In Mine Strike

SENATE WOULD LEARN OF ALUMINUM TRUST

FINDINGS TRADE COMMISSION ARE TO BE STUDIED

MAY BE SOME DELAY IN DELIVERY OF THE DOCUMENTS.

WASHINGTON, Feb. 5.—The senate has directed the Federal Trade Commission to transmit to it all evidence obtained during the investigation of the Mellon Aluminum Company of America.

This action was requested by Senator Thomas J. Walsh, who directed the recent senate inquiry into the manner in which the Department of Justice had handled the aluminum charges.

The federal trade commission after being remanded by President Coolidge refused to give the department of justice the evidence upon which its criticisms were based.

(Continued on Page 5)

HOFFMAN CASE BE CONCLUDED TODAY

AUSTIN, Feb. 5.—The charge in the Hoffman Construction Co. plea of privilege was delivered to the jury at 4:30 this afternoon by Judge George Calhoun.

By agreement each side is allotted three and a half hours for argument and it is thought that the case will not go to the jury before Saturday afternoon.

In his charge Judge Calhoun submitted two questions to the jury to be answered.

"Does the evidence in the case show such facts and circumstances as may probably constitute fraud in the letting of the contracts to the defendant, Hoffman Construction Co., by the highway commission of Texas?"

The jury is instructed to answer question number one with either "yes" or "no."

CORSICANA BOY IS OVERCOME BY GAS FUMES

DALLAS, Feb. 5.—H. L. Lamb, 23, was drowned today when he was overcome by fumes and fell into a car of casing head gasoline at the Simms Oil Co. in West Dallas.

Congress Honors Oldest Member

Representative Charles M. Stedman of North Carolina reached the age of eighty-five years the other day and congress gladly took the time to celebrate this day and honor thus its oldest member.

GRAINGER PROGRAM PASSENGERS TELL OF ATLANTIC STORM

Percy Grainger drew a larger audience at his concert at the Baptist church Friday evening than has ever been accorded an artist of similar reputation in Lubbock.

His first encore was his own composition "Country Gardens" which he wrote during the World War. This is his most popular work, and is becoming familiar to the whole world.

Grainger's Colonial Song, which is dedicated to his mother, is said to be his favorite.

Possibly the composition longest to be remembered which he played will be "Balsemy" Oriental Phantasy

(Continued on page 5)

SEARCH MADE FOR SLAYER DALLAS POLICEMAN

DALLAS, Feb. 5.—Authorities over the state have joined Dallas in the search for three negroes believed to be the slayers of Motorcyclist Policeman Clarence Marshall Isbell, who was shot and killed here last night when he drove alongside an automobile and asked the occupants to stop.

BOTH FACTIONS FOUGHT OUT IS SENATOR'S VIEW

COOLIDGE IS TRYING TO DODGE THE ISSUE, IS CLAIM MADE.

By RAYMOND CLAPPER, United News Staff Correspondent WASHINGTON, Feb. 5.—Pressure for White House intervention to end the anthracite strike is reaching the point where somebody is going to be righteously indignant unless there is action soon.

Twice Friday Senator Copeland, New York Democrat, tried to have the senate adopt resolutions requesting the president to recall the delocked operators and miners to the White House and talk to them as he did to the policemen during the Boston police strike, and as Roosevelt and Harding talked to the coal feudists.

Copeland wants the White House to use its leadership to force a settlement through public pressure. He believes that both sides are fought out and only want some one to step in and save their faces.

When Copeland failed the second time, he gave notice that Saturday he again would ask the senate to make a request for White House intervention.

Action is Demanded. Senators who are advocating White House action are receiving many letters and telegrams, obviously from persons who see an opportunity to embarrass the president politically.

One group here believes that as spring is near, the operators and miners should be allowed to go on with their feud until one side is completely broken.

EUROPE'S UNEMPLOYMENT PROBLEM IS GROWING SERIOUS—FRANCE AND ITALY SEEM TO BE FARING BETTER THAN REST

By CHARLES McCANN, United News Staff Correspondent

LONDON, Feb. 5.—Approximately 4,000,000 un-employed workers are receiving doles in ten European countries as the old world struggles through the seventh winter since the war.

Europe's two greatest industrial countries account for nearly three million of the persons officially listed as un-employed.

In Austria the un-employment situation is serious. The country is small, but 300,000 persons are un-employed owing to the disturbing influence of currency troubles, which have afflicted the state since 1918.

MILLIONS LOST EACH YEAR, BIG RING OPERATING

HIGH OFFICIALS ARE THOUGHT TO HAVE AIDED SWINDLERS.

OTTAWA, Canada, Feb. 5.—Charges that international smugglers operating between Canada and the United States have robbed the dominion of \$200,000,000 in the past four years will be investigated by a committee of nine members of the house of commons appointed late Friday.

All Canada is excited following the exposure of the alleged grand plot. The charges were brought by the government opposition in parliament, and immediately caused sufficient national furore to prevent the government from adjourning parliament for six weeks.

The charges were brought by H. H. Stevens, an opposition leader who asserted that J. B. Bissillon, former customs chief at Montreal, headed a smuggling group which had cost Canada some \$32,000,000 in lost revenue.

(Continued on Page 5)

INSURANCE RATES MAY BE RAISED IN THIS CITY

Unless necessary changes can be made in the Lubbock fire department by March 1, the fire rates of the city will be increased 15 per cent, according to a letter received Friday from the state fire insurance commissioner, W. E. Twitty, fire chief, stepped into Friday.

Some steps have been taken to meet the demands of the commissioner, but a number of things remain yet undone and it is now imperative that all officials of the city co-operate in bringing the efficiency of the fire department up to standard in order to save this increase in rates, which would mean thousands of dollars of extra insurance rates to the citizens of Lubbock.

DALLAS OFFICERS ARE KILLING MAD DOGS

DALLAS, Feb. 5.—Twenty-five dogs that may have been affected with rabies have been killed by Dallas police, according to Dr. N. W. Andrews, city health officer Friday.

Lester P. Barlow, the "Bomb Wizard" of the World War, shown above with two of his inventions, has just invented a "flying torpedo," with horrible possibilities almost beyond description.

The charges were brought by H. H. Stevens, an opposition leader who asserted that J. B. Bissillon, former customs chief at Montreal, headed a smuggling group which had cost Canada some \$32,000,000 in lost revenue.

(Continued on Page 5)

COL. MITCHELL TO CONTINUE HIS BATTLE

WASHINGTON, Feb. 5.—The fight for an unified air force has assumed greater proportions than ever, in spite of William Mitchell's resignation from the army.

The present system of national defense was scored vigorously before two congressional committees Friday, Mitchell leading the attack before the house military affairs committee and his former chief, Major General Patrick head of the army air service, backing him up before the senate military committee.

STREET CAR FARE INCREASED IN DALLAS

DALLAS, Feb. 5.—The city commission today granted a seven cent fare rate to the Dallas Street Railway Company.

DALLAS COUPLE DEAD FOLLOWING SHOOTING—FOUR CHILDREN LEFT

DALLAS, Texas, Feb. 5.—R. C. Maberry, 54, and his wife, Mrs. Hattie Maberry, are dead as the result of a double shooting at their home in Lovedale, an addition near Dallas, Friday afternoon.

According to Mrs. Bud Maberry, she saw her father-in-law approaching the place with a pistol and ran into the house to warn her mother-in-law. The elder Mrs. Maberry replied that she could attend to her husband.

TEXTBOOK MEETING CALLED BY MRS. FERGUSON

AUSTIN, Feb. 5.—A meeting of the state textbook commission has been called for next Tuesday by Governor Miriam A. Ferguson, it was learned today. It is generally believed that the meeting is to take some action with reference to contracts held by the American Book Company.

WORKMAN IS INJURED

HOUSTON, Feb. 5.—W. D. Adams, suffered a fractured skull today when he fell from the 28th to the 25th story of a skyscraper, under construction here, on which he was working.

EVANGELINE BOOTH IMPROVE

NEW YORK, Feb. 5.—Evangeline Booth, national commander of the Salvation Army, is now out of danger following a nervous breakdown, physicians said Friday.

The Weather

WEST TEXAS—Partly cloudy tonight; fair Saturday, colder north portion.

DAY IN CONGRESS

House: Considered private claims bills. William Mitchell, former assistant chief of army air service, told the house military affairs committee that the country's air forces are "in a terrible mess."

Representative Oliver, New York democrat, introduced a bill to allow alien women who marry American citizens while in this country on temporary passports to remain here permanently as non quota immigrants.

SOCIETY, CHURCH and CLUB NEWS

EDITED BY
Mrs. Percy Spencer

Dean Gordon Predicts Schism in First Presbyterian Church—Battle to Begin Tomorrow.

There are rumblings between the men and the women of the First Presbyterian church, the outcome of which seems likely to overshadow any seeming decision that has arisen between the Rotary and Kiwanis Clubs in the approaching basketball struggle. It seemed difficult to determine who was responsible for starting the trouble, whether it was the men or the women, but a good deal is being said on both sides and a clash seems imminent unless a definite understanding can be had.

Geo. M. Hunt P-T. A. Enjoys Meeting Thursday

The George M. Hunt Parent-Teachers Association met in business session Thursday afternoon, February 4.

Promptly at 3:30 Mrs. Hankins, president, called the house to order. Mrs. Childress led the opening prayer.

It discussing business problems it was agreed that the club hold a food sale on February 20. The proceeds of sale to be applied on the cafeteria plumbing debt. All other debts are paid.

The important event of the occasion was a speech on co-operation of home and school by Supt. M. H. Duncan. In his inspirational message Mr. Duncan said that our schools of today are the finest that have ever been in developing boys and girls along scientific and educational lines, but as character builders our schools are deplorable failures.

He said that the home is the school where character is formed. The kindergarten primary and other schools are merely feeble aids to the home along the line of building character.

He urged that the mothers look constantly to the training of their children in early life, saying that the first few years of the child's life is the impressionable period when the foundation for character is laid.

When he had finished speaking, these mothers said these teachers knew that they had received a wonderful lesson from this great teacher.

Each mother went feeling that she must guard more carefully that sublime trust given her by the Divine Creator.—Reporter.

Double Dozen Club Entertained in Wilson Home

Mr. and Mrs. Roscoe Wilson entertained the Double Dozen Forty-two Club Thursday evening at their home. Sweet peas and tuberosas were used in decoration.

Mrs. Duggan won high score among the ladies and Mr. Roger Pierce among the men. Several delightful games were played, and only members of the club were present.

A dainty supper consisting of creamed brains and peas in patties, parsley, mayonnaise sandwiches, stuffed tomatoes, rosebud beet pickles, macaroni salad, coffee and whipped cream were served at a late hour.

MRS. FINCHER IMPROVING AFTER OPERATION
Mrs. W. A. Fincher, of Wolfarth who has been seriously ill at the Ellwood hospital, made some improvement through yesterday and visitors have been permitted to call on her. It is believed now that she will recover.

UNIVERSITY WOMEN MEET AT CAFETERIA TODAY
The regular monthly luncheon meeting of the American Association of University Women will be held at 12 o'clock today at the college cafeteria.

SOUTH SIDE MISSIONARY BAPTIST CHURCH
Avenue Q and 2nd Street.
There will be the usual services Sunday beginning at 10 o'clock.

CHRISTIAN ENDEAVOR PLANS ENTERTAINMENT
Plans for the entertainment of the Christian Endeavor Convention of the Panhandle District are being made, and the arrangements committee has set May 8th and 9th as the dates on which the convention will be held.

Technological College

SATURDAY
Breakfast
Wheatina Top Milk Sugar
Griddle Cakes Oranges
Coffee
Dinner
Lima Beans En Casserole
Buttered Cabbage
Brown Bread
Steamed Fruit Muffins
Lemon Sauce
Supper
Oyster Stew
Celery
Butter
Toasted Brown Bread
Marmalade

Lima Beans En Casserole—One and one-half cups dried lima beans, one-fourth pound sliced bacon, one cup milk, two medium sized onions, one green pepper, pepper, salt. Soak beans over night in water cover. In morning boil till soft and drain. Sear bacon in hot frying pan; add onion and green peppers sliced. Cook till soft. In a casserole or baking dish place a layer of beans sprinkled with onions and green pepper, pieces of bacon, salt and pepper. Repeat till all are used. Over this pour milk and bake at 400 degrees F. for forty minutes.

Steamed Fruit Muffins—One-half cup butter one cup sugar, three eggs, one cup chopped dried peaches, three and one-half eggs flour, one and one-fourth tablespoons baking powder, one and one-half cups milk. Cream the butter, add sugar gradually, and eggs well beaten. Mix and sift flour and baking powder and add alternately with milk, to first mixture, stir in peaches; turn into buttered mould cover, and steam three hours. Serve with lemon sauce.

Lemon Sauce—One-half cup sugar one cup boiling water, one tablespoon corn starch or one and one-half tablespoons flour, two tablespoons lemon juice, few gratings nutmeg, few grains salt. Mix sugar and corn starch, add water gradually, and yolk of egg, slightly beaten; then add water, and cook over boiling water until mixture thickens. Remove from range, add lemon juice and rind.

SUNDAY

one-half yards of check silk 46 inches wide. The new tafetas as well as the latest tannels and silk and wool mixtures are ideal for the development of this model, with its chic little cape, long sleeves and notched collar of self-material.

Home Dressmaking
The dress fastens straight down the front and the buttonholes are tailored. The method of making them is featured in the diagram. First, mark the place and length of the buttonhole with a colored thread, making the buttonhole on a cross-wise thread. Put in the stay line, which must follow the shape of the finished buttonhole. This must be bared at the back and cyrletted in front. Cut the buttonhole the full length of the marked thread, then slip the material inside of the eyelet, if necessary, trim out a little of the material so that the eyelet will be perfectly smooth.

Hard Sauces—Cream one-third cup butter; add gradually one cup brown sugar and one teaspoon vanilla, drop on hot pudding.

White Salad—1 quart shredded cabbage, 4 slices pineapple diced, 1-4 pound marshmallows cut up, 1 cup blanched almonds.
Dressing—2 egg whites, juice 2 lemons, 2 tablespoons vinegar, 1 tablespoon flour, 1-12 to 3-4 cup of sugar, 1-2 pint whipped cream. Mix dry ingredients, add lemon, vinegar and cook until it thickens. Fold in beaten whites and cook until whites are set. Mix with cream and add to salad ingredients just before serving.

All measurements are level.
CARD OF THANKS

TECH-NICAL TOPICS

Engineers Organize Society
 Yesterday afternoon in room 220 of the administration building about 150 students of the school of engineering met and organized a society of engineers. All students of the school of engineers are eligible for membership. The meeting opened with a few peppy yells led by R. D. Campbell, drawing instructor of the school. The following officers of the club were elected: Melvin Hunter, president; Houston Frederick, first vice president; Virgil Jones, second vice president; Nevil Trostle, secretary.

The engineer edition of the Torador was the next step of the meeting. The following men were elected to the staff: Sterling, editor, and Dal Drake, business manager. Other members will be appointed later. The officers and the other members of the club pledged themselves to put out the latest edition ever of the Torador. The meeting yesterday was the first exhibition of engineer spirit at the college, but it will be one of the prevailing influences on the campus from now on. Many things will be heard from the engineers.

Mrs. Doak Entertains Club Presidents
 Mrs. Doak, dean of women, was the hostess to a delightful supper for the presidents of all clubs and organizations at the college cafeteria Thursday evening. About 25 students were present. Plans for the coming all-college parties were discussed. It was decided to elect a chairman of a committee for each party. The question was also taken up as to the relative importance of a student organization. Mrs. Doak suggested that one half of next convocation be turned over to the students for this purpose. Every club president was heartily in favor of the suggestion. The officials will be approached later and the next convocation will probably consist of an organization for the students.

Entire Board of Regents to Visit Here Soon
 Reports from the board meeting which is being held in Fort Worth this week, state that the entire board of regents will probably visit the college soon. They intend to meet with H. Walthall, member of the state board of control who will be here adjusting the budget of the school for the next biennium.

The board also extended an invitation to Secretary of Agriculture W. H. Jardine to visit the college when he comes to Texas in March for the Southwestern Fat Stock Show which will be held in Fort Worth. The board also authorized the holding of a summer term of the Tech for six weeks. Plans are now going forward to make it complete in every detail. President Horn and Business Manager Chitwood are attending the board meeting. President Horn was given permission by the board to attend the inauguration ceremonies of President Bizell of the Oklahoma University which were held at Norman yesterday.

Prof. Evans to Lecture to Teachers Today
 At the county teachers institute which will be held at Aefff today, Prof. A. W. Evans, head of the department of education of the college will address the members at 11 o'clock. His subject will be "Individual Differences and Their Application to the Public School Work."

State Cotton Men Visit College
 J. M. Del Curto, pathologist and state seed control officer of the state department of agriculture and R. M. Miller, inspector for the Texas Certified Cotton Seed Breeders Association, were in Lubbock on business yesterday. They are here making a survey of the seeds of this section. While here they visited the Tech yesterday. They visited in the office of Dean Leidigh of the school of agriculture and were shown around the grounds and buildings. Both men were well pleased with the college and were interested in the growth of the school of agriculture.

H. A. Davidson Donates Bulbs to College
 H. A. Davidson, local feed man, donated about five hundred black narcissus bulbs to the college. These bulbs will be planted out sometime in the spring.

Some of them are being used in the classes, some have been set out in bowls in the library and general offices. The space around the walks will be used for these bulbs.

Tree Planting to Begin February 15
 Work on planting the trees around the college campus will start February 15. Trees will be set around the drives to the buildings, also. Rows for the trees are now being surveyed and stakes placed where every tree is to be. Chinese elms will be the only tree planted at this time. Evergreens will be planted about the first of March.

Library News
 The following poem appeared on the door of the library yesterday:

The Library "if"
 (With apologies to Rudyard Kipling)
 If you can read your book when all about you
 Is talk and chatter and one round of noise,
 If you can give no heed to outside matters,
 But in printed pages find best of joys;
 If you can read and play that you're the hero,
 And strut and stride and maybe be a king,
 And win a lady by brave deeds of prowess,
 And yet don't act as if you've done a thing—
 If you can sometimes skip descriptions
 And hasten on to where they talk and fight,
 Or pledge their oaths and stir up thrilling action,
 And make escapes through the dark and treacherous night;
 If you can learn to read your books in season,
 And put them down when duty speaks to you,
 Yet snatch clandestinely the reading minutes,
 In bed, at breakfast and at the movie too—
 If you can read the books of your own choosing
 Instead of those your friends would recommend,
 And bother not with tomes too deep or psychic,
 Or that you've read best sellers e'en pretend;
 But steadfastly forget the printing process
 And all the publisher's hurrah and blurb,
 And get you hence to some time-worn favorite,
 An early love that nothing can disturb—
 If you can hide your tears when plots are sorry,
 And curb your laughter when you are amused,
 And vow "I will not read aloud to others,"
 And when read to, just ask to be excused;
 If you can bear in mind that your hero
 Belongs to the heroine when the tale is done,
 And not to you—well if you can but do it,
 This world of books is yours for aye, my son.

We wager that there is a great deal of advice for the reader in this little poem and most of it is intended for a college student. The poem is rather clever and was read by a

great number of students throughout the day. Profitable results may be the outcome.

The library also received a cloth bound copy of the 1926 World's Almanac. This book contains facts about almost everything in the world and is an indispensable part of every library.

SATURDAY AT THE LINDSEY THEATER
 Manager Lindsey has arranged a big day at his theater Saturday. He has arranged a big double show including his feature picture, and Jack Jenks players in a good comedy drama entitled "When Toby Falls in Love." The theater opens at 11 a. m., and runs continuous until midnight.

BLOOD AND SAND FROM EL TORO

WoWnderful, truly! Folks, we just want to ask one question: didja or didn'tja hear Percy Grainger last night? If you did, you know what we mean; if you didn't—well, just think over the times when you have sat entranced and enthralled by the expression, the pathos, the humor, and the technique, of a selection of music—then add a whole bunch of them together, and you get the approximate result of hearing that concert.

Worth even the missing of that mighty fine basket ball game where Tech boys came across the goal line again with the big end of the count. Atta boys, team!

Toreador is taking a rest this week, preparatory to coming out in full force, and then some, next week. The new cast, brand new in every respect, is just waiting, and not marking time, either, until the big day comes. Eight pages the boys say it is to be, that Liberal Arts edition of the college paper. And then, watch out, you other colleges! We haven't heard just what

kind of artists those boys and girls are with their "line," but we rather fancy they're going to be somewhat liberal with the stuff.

Another week. It strikes us that that name is rather weak, for the seven days that have just past. We're not going to try to invent another word for it, even if we are studying word-study in English; but for the running we've been doing during the past seven days, as we said, we just can't express all of it.

Funny thing what meaning a word may take on. And how many people may be interested in the exact shade of meaning. For instance "dual." While the word itself evidently means that it is that kind of a word, still it doesn't mean a "duel" does it?

Rumor is getting just lots and lots of things here lately. Has it now that another collective genius is budding out. We don't know what out of, for goodness knows there isn't much (personally) to bud out, but anyway, what we started out some half hour ago to say is that the English class which last term wrote a play and produced it this term, made much a success of it that another English class says it's not to be outdone; and there is liable to be some keen competition between the two gangs.

All College Night is coming. And say—keep this under your hat, of course but that night's liable to be just a trifle worse than Halloween, if you catch our drift. If you don't we'll snow again. But anyway,

there's to be a gra-and and glor-r-r-ious feeling when that La Ventana gang, along with the club President's Club gets together and starts the old pot boiling. Which mean, too, that there's to be a hot time in the old town. 'Ip, 'ip, ray!

STENOGRAPHER'S HAND VALUED AT \$6,274.87

WICHITA, Kan., Feb. 5.—The supreme court of this state has valued the right hand of a stenographer at \$6,274.87, by affirming a decision of a district court in which Miss Marie Service, El Dorado, was awarded damages for this amount against the city of Wichita.

She brought action against the city, alleging that a car in which she was riding ran into a sand pile at night on which there were no warning lights and the tendons of her wrist were severed, partially paralyzing her hand.

Miss Mildred Reeves is secretary to Speaker Nicholas Longworth of the national House of Representatives, the first woman to hold the position.

SPORT NEWS

MATADORS WIN SECOND VICTORY AS INDIANS GO DOWN IN DEFEAT

The fighting Matadors won their second game of the season by defeating the McMurray College Indians in the first of a two-game series last night. The game started off with a snap but was very slow at intervals. Many slip-shod plays featured and the players were continually scrambling for the ball. The team work of the Matadors shone a little brighter and accounted for many of the scores.

McMurray presented a fairly good defense was slow on the offense and registered shots on the misplays of the Matadors. The Indians seemed rather bagged at times by the smallness of the court, but carried the ball through for centers in good form two or three times. All the Matadors showed up well. Dean played a good game at center, making some good loops at the basket. Gilbert White was the star of the game and was a constant agitator to the Indian forwards. He saved many shots and covered the floor like a flash. Hemphill, substituting for Dean in the last half was high point man of the game, registering a total of ten points. Van Zandt played a stellar game and dribbled well in bringing the ball down the court.

Nix was high point man for the visitors and made a total of five during the game. He also had three personals chalked up against him. A total of 14 personals was called during the contest, of this number the Matadors received eight. Both teams play tonight at 8 o'clock at the stock judging pavilion.

Following is a summary of the game:

Matadors	F	FG	FP	T.Pts.
Hunter	2	3	1	7
Van Zandt	3	1	1	3
Dean	0	0	2	4
White	2	0	0	4
Walker	0	3	1	7
Hemphill	1	5	0	10
Alford	0	2	0	4
Dennison	0	0	0	0
Reeves	0	0	0	0
Boey	0	0	0	0
Total				35
Indians				
Nix	3	3	1	7
West	1	0	1	1
Park	1	2	1	5
Villiamsanna	0	0	0	0
Ledbetter	1	2	0	4
Donaldson	0	0	3	6
Total				23

Referee, Von Tungen (O. U.); time keeper, Wolford; scorer, Ratliff.

WESTERNERS WILL ENTER FINAL CONTEST

Coach Niles believed the Westerners could handle Becton, but this proved fatal. The first half ended 7 to 15 in favor of Becton. The first team went in the last half and won the game.

The Becton boys were small and young but showed plenty of skill in handling the ball and shooting for the basket.

The line up:

Westerners	Position	Becton
Caviness	Center	Reaves
Pruitt	Forward	H. Givens
Carroll	Forward	Moody
Allen	Forward	T. Givens
Bolton	Guard	Reid

Substitutes—Lubbock, Reed for Caviness, Adkinson for Pruitt, Blakeley for Carroll, Hays for Blakeley, Ing for Allen, Hardberger for Bolton; Becton none.

Summary of game, points, Lubbock 2, Becton 15.

Foels, Lubbock 5, Becton 2.

Sky-Scraper Church Planned by Members Kansas Organization

KANSAS CITY, Mo., Feb. 5.—The first skyscraper church west of New York, where such worshiping places are becoming increasingly popular, may be erected in Kansas City.

The Linwood boulevard Christian church here is seeking to obtain \$265,000 this month to buy a block of frontage as a site for a skyscraper church.

According to tentative plans announced Friday, the structure would be an income producing edifice, but is intent and plan primarily a great church plant. Of Gothic architecture it would embrace a modern hotel of six hundred rooms with a department store of individual shops on most of the street frontage on the lower floors.

Church officials are making every effort to obtain the frontage. Once it is obtained they point out, little difficulty is expected in financing the \$2,000,000 project because of the willingness of large bond houses to make substantial loans where earnings are assured.

Avalanche Want-Ads bring results.

ESTACADO QUINTET WINS FROM SLATON

The game was not decided until after the whistle was blown. The timely scoring of Robinson proved too much for the Slaton Tigers, making many long shots from center. He was the outstanding player of the game, having 9 points to his credit. Hamilton led the offense against Estacado with 7 points.

The lineup:

Slaton	Center	Estacado
Tunnell	Center	Robinson
Taylor	Center	Bryant
Huckabay	Forwards	Kelsie
Hancock	Forwards	Brion
	Guards	

Substitutes, Slaton, Taylor for Tunnell, Hamilton for Taylor, Wickler for Hancock; Estacado, none.

Summary: Slaton 13, Estacado 14. Fouls, Slaton 4, Estacado 5.

Beginning tomorrow at 11 a. m. Estacado will play Idalou. The winner of this game will play Lubbock tonight at 7:30.

Final Arrangements Made for Banquet of Retail Merchants

Final arrangements were made for the annual meeting and banquet of the Retail Merchants Association which will be held in the basement of the Leader building at 7 o'clock Tuesday night, February 9, by the program and arrangements committee which met at the office of the association Friday afternoon.

W. W. Royalty, chairman of the committee presided at the meeting at which time the program was completed and other matters regarding the meeting were discussed.

F. L. Sherrod, chairman of the committee, who made reservations for the banquet Wednesday reported good success for the workers, stating that all the members were expected to attend the meeting and all who had been seen thus far had made their reservations. Anyone who has been overlooked or who was out when the committee came around should call the office of the association and make reservations, Sherrod said Friday.

A number of letters have been received in reply to invitations sent out to the presidents and secretaries of the associations on the South Plains which indicates that a good attendance of these visitors will be present for the meeting.

Letters were received today from J. J. Ross, manager of the Slaton Retail Credit Association, Morgan L. Copeland, director of the new association at Brownfield, which is now in the process of organization and S. W. Cooper, manager of the Crosby Retail Merchants Association, stating their associations will be represented.

The committee which met Friday afternoon followed by W. W. Royalty, chairman, P. L. Sherrod, J. D. Hays, Fred Owens and L. A. Howard.

Letters are beginning to come in from managers of retail merchants associations in the surrounding towns accepting invitations from the local association to attend the annual meeting and banquet which will be held here February 9, according to the office force of the association. The most recent acceptance arrived Friday morning from J. J. Ross, manager of the Slaton Retail Merchants Association and Slaton Commercial Club.

"Your invitation received, and we assure you that it will be our pleasure indeed to attend your meeting on February 9," Ross stated in his letter. "We further appreciate the paragraph of your letter noting the service of our association."

"Our president is in Dallas and will not be in the city during this time, but if possible some one of the association will be present on this occasion."

"So thanking you for the invitation and your splendid service toward our association, we are, yours respectfully, J. J. ROSS, Manager Slaton Retail Credit Association."

The Slaton association has been one of the many associations on the South Plains that has displayed splendid co-operation with the local association by prompt and efficient service, according to officials of the local organization.

MILLIONS LOST EACH YEAR THROUGH GRAFT

announcement by the King government, that a committee, including members from the government and the opposition, will investigate the administration of the Canadian customs department. Stevens will head the committee.

"No more appalling disclosures of sordid crime, wholesale smuggling, running into hundreds of millions, stealing of public funds, even gang shoggeries and stark murder, were

ever made in the house of commons," wrote Arthur R. Carman to his paper, the Montreal Star, when Stevens brought his startling indictment. The conservatives have made their attacks especially bitter because it is alleged that many of the facts have been known to the government for the past year.

In addition to the smuggling of liquor and narcotics, the frauds are alleged to have included vast transactions in "goods of every known description."

Friends of Premier King, Stevens charged had defrauded the government of millions since the recent election.

Nine filing cabinets have been taken from the customs department, he said and transported to the home of an ex-minister and there destroyed with the incriminating documents, which they contained.

"I find this loathsome conduct obtains chiefly in the customs district of Montreal, but by no means limited to it," said Stevens. Montreal is a pivotal center, the veritable cesspool of it all. I find running all through this thing like a slimy evil influence the name of an individual, Bisillon."

BOTH FACTIONS FOUGHT OUT IS SENATOR'S VIEW

(Continued from Page 1)

in the mining towns, whose small business and lifetime savings are being demoralized.

The other view is that espoused, with some demagogic trimmings, by Copeland, based on the idea of arousing public opinion and forcing a settlement. It is an expedient at best and all realize that more fundamental machinery such as that recommended by the United States Coal Commission is needed.

Silent Cal Too Silent. Copeland has been giving the senate a daily laugh by rising to protest against White House inaction. In the last month, he has made more speeches than Chauncey Depew in 90 years. The amusement of the senate at Copeland's pertinence was so obvious Thursday that the senator indignantly reminded them that there was nothing laughable about shivering poor in his city, New York. Edwards of New Jersey supported Copeland.

Copeland's persistence in talking about the coal strike is exceeded only by President Coolidge's persistence in not talking about it. The White House refused to see a delegation of New York congressmen who wanted to discuss coal. It was explained that the president was too busy. He had three other people on his engagement list for the day.

When questions were put to the White House spokesman about ending the coal strike, that gentleman already had talked at such length about rescue of the Antioch crew, the delay of the preliminary arms conference, retirement pensions for government employees, importation of Danish butter, the Philadelphia exposition, a new veteran hospital near Boston, and the industrious habits of congress, that his voice gave out and he was only able to say that there was nothing new.

Copeland attempted to have the tax bill laid aside in the senate until his coal conference resolution could be considered. He was voted down, 48 to 28. Nine Democrats and 39 Republicans voted against him. Then Copeland asked unanimous consent for a vote on his resolution without debate. No time would have been lost to the tax bill. Senators Reed of Pennsylvania and Shorridge of California, both Republicans, objected.

SENATE WOULD LEARN OF ALUMINUM TRUST

(Continued from page 1)

that the senate extract the papers forcibly from the federal trade commission.

The resolution is sweeping, calling for any evidence, necessary, or otherwise affecting the question of whether there have been infractions of the consent decree by the Aluminum Company.

Why the resolution was under consideration, Senator Reed, of Pennsylvania, regarded as a spokesman in the chamber, secretary of the Treasury Mellon, announced that the Aluminum Company had released any injunction of secrecy on this information. He said he hoped no one would object to the resolution. This prompted La Follette to remark: "I want to call attention to the fact that the Aluminum Company has released information to the senate that the department of justice was not able to get."

Adoption of this resolution insures a complete revelation of the whole inside story of the Aluminum Company's operations. After the original federal trade commission's announcement that it had found evidence of violations Harlan F. Stone, then attorney general examined the data and said that he agreed with the commission conclusions. It was following this that Stone was pushed up to the supreme court and the federal trade commission voted to recall its data and deprived the department of justice of its use.

There may be some technical delay in receipt of the evidence by the senate, as the commission had planned to use it in presenting its case against the company in Pittsburgh this month.

GRAINGER PROGRAM PLEASED LUBBOCK PEOPLE

(Continued from Page 1)

by Balakirew. A certain jollity of tune, and sprightliness of style

were very intriguing, and if one lends himself to his imagination all the vivid colors of the orient with its galaxy of queer figures will pass in review, and he can imagine himself in Tangier, or Tripoli, or Canton.

The entire program was well selected and was undoubtedly pleasing to those who heard it. The audience almost refused to leave the auditorium after the closing number, and insisted on encores after every group.

Miss Mary Dunn, head of the music department of the Lubbock Schools announced the coming music festival, and expressed gratification over the success of the evening. She is to be praised for her interest in bringing artists to Lubbock and congratulated for her success.

EUROPE'S UNEMPLOYMENT IS GROWING SERIOUS

(Continued from Page 1)

resent the number of persons actually drawing unemployed benefits. Some European countries are scarcely affected by unemployment problems. Conspicuous among these is France, where a business boom grounded on inflated currency provides work and depreciated currency for all. There are just 550,000 registered unemployed persons in France. These are 11,000 unemployed persons in Belgium, but this number represents only 1.8 per cent of the Belgian industrial population. Switzerland reports 12,000 out of work, but the figure represents only 1.6 per cent of her industrial workers.

Mussolini's firm government and the tremendous spurt of the artificial silk industry are said by experts to have solved Italy's unemployment problem, although the amelioration will be general in its later stages.

Topeka Bribe Case Has Been Continued Until Next Monday

(Continued from Page 1)

The delay was granted by Judge Otis E. Hunsate on the statement of special Assistant Attorney General Veale that Mrs. Grundy was too ill to appear Saturday.

The defense will take the case probably Monday afternoon. Peterson's attorneys are expected to attempt to show that the charges were the attempts of political enemies of Peterson and former Governor Jomathan M. Davis to discredit the administration.

This was the defense that won an acquittal for Davis in his trial last May, when he was facing the same charges that now confront his banking commissioner. The former governor will be a defense witness in the present trial.

A general denial of the testimony of Anthony L. Oswald, Hutchinson attorney, is expected. Oswald has said that Peterson solicited a bribe of \$4,000 for the Grundy pardon.

EASTERERS GLAD BLIZZARD HAS PASSED

(Continued from Page 1)

By United News. NEW YORK, Feb. 5.—Digging out from under the winter's worst snow storm, cities and towns of the east are facing an enormous bill for snow shoveling running in many millions, in addition to the property damage and loss of 33 lives taken by the blizzard. In New York City alone, \$2,200,000 has been appropriated to clear away the snow.

Milder weather brought relief to many who were literally snowed in during the past 48 hours. It will take two weeks to bring New York back to normal traffic conditions, while highways in the outlying districts are still dotted with stalled and abandoned trucks and automobiles.

Whereas the blizzard brought hardship to the homeless here, warm sunshine and a chance to earn wages with a shovel proved a boon to many who had sought shelter in the city's houses of refuge. The bowery mission was emptied, save for a few elderly men and women, all the other vagrants having been sent out to earn money with the hundreds of shovels.

One unusual aspect of the storm was the tremendous increase in the volume of business reported by the New York telephone company. Calls increased in number to 35 per cent in some sections, as those who were snow bound by the blizzard telephoned to say they would be late getting home, if at all.

MISS HUGHES MARRIED

By United News. SAN ANTONIO, Feb. 5.—Miss Ellen Hughes, of Austin, who created a state wide search when she disappeared from her home January 23, was married today at 3 a. m., in San Antonio, to E. R. Hinrichs.

Miss Hughes was a University of Texas student.

THE TERROR OF DEATH

When I have fears that I may cease to be Before my pen has glean'd my teeming brain, Before high-pled books, inchar-

acter'd, Hold like rich garners the full-ripe'd grain;

When I behold, upon the night's starr'd face, Huge cloudy symbols of a high romance

And think that I may never live to trace Their shadows, with the magic hand of chance.

And when I feel, fair creature of an hour! That I shall never look upon thee more,

Never have relish in the fairy power Of unreflecting love—then on the shore Of the wide world stand alone, and think Till love and Fame to nothingness do sink.

Robbers secured collection money amounting to nearly \$100 from a church in Herrin, Ill.

PARTY PLANNING DASH TO NORTH POLE - AIRPLANES WILL BE USED

By United News

KANSAS CITY, Mo., Feb. 5.—Hopeful of discovering new land for the United States and of bringing back scientific data on the unexplored Arctic regions, two explorers are en route to Alaska to prepare for an airplane flight over the Polar basin next spring.

They are Captain George H. Wilkins, commander of the Detroit Arctic expedition and Major Thomas G. Lamplugh, chief of Selfridge Flying Field. After a day of entertainment here the men left Friday night for Seattle where they will pick up the rest of their party and the equipment for the flight.

In March they will start for Alaska by boat, assemble their planes and set out on what is perhaps the most scientifically organized exploration into the great unknown areas of the North.

Choice for the flight planes lies between two Fokker monoplanes now on route to Alaska from a New Jersey plant. One is a three motor craft with a cruising radius of 2,500 miles, the other a single motor craft with a cruising radius of 3,700 miles. The single motor is known to operate well in cold weather but if the triple motor craft will operate in the cold it will be given preference because flying will still be possible if one or two of the motors break down.

The plane finally selected will be flown by Carl B. Wilson, expedition aviator. He will be accompanied by Captains Wilkins.

Best Planned Trip

Elison, now in Seattle, leaves Saturday for Fairbanks, Alaska, to receive the planes, and prepare for the flight to Point Barrow, the starting point of the trans-Polar flight.

The explorers will carry sleeping bags, food for two weeks, rifles and ammunition so they can live on seals for as long as two years if they are forced to take to the ice of the Arctic ocean and walk back.

Elison says weather conditions will determine the course of the flight after leaving Point Barrow. If a suitable landing place is found the men may return for the spare plane and then map the new land. If no land is discovered the men will attempt to fly over the North Pole and reach the Spitzbergen Islands north of Norway, a distance of 1,000 miles.

Captain Wilkins expects to find land in the unexplored region that lies to the north of the Siberian and Alaskan coasts. From these coasts to the geographical pole lies the unknown area, estimated at approximately 1,000,000 square miles.

Much of the romance which has attended earlier Arctic expeditions will be missing from Captain Wilkins' attempt. Instead of months battling the elements, he expects a final dash to last only a few days.

BARBARA LA MARR NOW RESTING IN PEACE

BY JOHN P. MILES
United News Staff Correspondent
HOLLYWOOD, Calif., Feb. 5.—Barbara La Marr rests in peace. The beauty and fragile frame that was her's rode on gold and velvet bier to the grave here Friday while thousands applauded her memory with tears and sighs.

Rich and poor, high and low paid their last tribute of respect to her who had been born Reatha Watson, a poor child, 29 years ago.

They laid her to rest in the shadows of the film studios she hated and loved at turns; not far from the tinsel, make believe palaces and castles of illusion where she laughed for pay when she wanted to cry, and where she sobbed when she wanted to smile.

The coffin was opened at the cemetery for a few minutes so that those who labored and played with life might get a last fleeting glimpse of the beauty "that came from the stars."

A blood red fledgling rose that came with a kiss from a little girl was tightly clasped in her hands. The flower, flaming with youth and hope and life, cast its small shadow over her mouth—a kiss from the living to the dead.

Simple services by a Christian Science reader and a song by a young girl were the unpretentious rites that marked the end of the most meteoric career in Hollywood.

A detail of 100 police were necessary to keep the large crowds in check along the line of the cortege. Fully 20,000 persons, mostly women, with small children in tow, watched the funeral parade pass on to the Hollywood cemetery.

LOS ANGELES AREA

LOS ANGELES, Calif., Feb. 5.—Los Angeles is the world's largest city in point of area, according to the annual report of City Engineer John C. Shaw.

The California metropolis has a total area of 416.58 miles, including recent annexations of adjoining cities. It is now larger than the city of Berlin, which is the second largest municipality in the world with an area of 387 square miles.

Compared with other American cities, Los Angeles has an area equal to the combined areas of Chicago, Pittsburg, San Francisco, Seattle, St. Joseph and Portland.

21 LITTLE THEATRES APPLY FOR THE STATE MEET

DALLAS, Texas, Feb. 5.—Applications from twenty-one Little Theatre groups, out of the forty-five such organizations in Texas, have been received by Oliver Hinsdell, director of the Dallas Little Theatre, in charge of the first Texas Little Theatre Tournament to be held in Dallas, the week of April 5.

Unfortunately, the contest is limited to fifteen entrants, and as yet announcement of the groups selected to compete in the tournament has not been made.

The Texas Tournament is modeled very closely after the National Little Theatre Tournament held annually in New York. The Dallas group of players have won first honors in the National Tournament the past two years and are sponsoring the Texas Tournament to stimulate interest in dramatics in Texas.

A silver loving cup and fifty dollars in cash is offered to the Texas group winning first honors in the contest and a cash prize to the group winning second place.

A rule of the contest is that all plays produced must be one act productions. Several of the Little Theatres that have entered the contest have reported that they are planning to produce plays written by authors from their own ranks.

NEBRASKA PLANNING RAPID DEVELOPMENT OF SUGAR INDUSTRY

LINCOLN, Neb., Feb. 4.—Nebraska long called the Cornhusker state may instead be known as the Sugar state if current plans for extending the sugar industry are carried to realization.

Beet sugar growing in the western section of the state has already developed into a gigantic industry and brought wealth to the irrigated plains. The irrigation farmers have become the envy of their fellowmen of the eastern sections who raise corn in the fertile valleys.

Much discussion is being given

proposals to establish corn sugar factories in the eastern section of Nebraska where most of the state's corn is grown.

At the same time Senator R. B. Howell, republican, Nebraska, has brought to the attention of congress the possibilities of manufacturing sugar from artichokes, now regarded as an ordinary weed. Artichokes will thrive almost anywhere. Senator Howell visions filling in the unused areas of Nebraska with artichokes for sugar manufacture.

BEER COMES BACK AS THE FAVORITE DRINK OF MODERN GERMANY

By E. A. MATHIS
United Press Staff Correspondent
BERLIN, Feb. 3.—Beer has staged a historic comeback in Germany. Threatened by the encroachments of wine, liquors and brandy during inflation days, beer is again supreme. While all other German industries show a grave slump in sales, the breweries are able to pay fat dividends, partly exceeding pre-war figures. Most pay at least 12 per cent, while some pay as much as 20 per cent.

The prosperity of the German breweries may be gathered from the following figures: The "Berliner Kindl" brewery, which owns a capital of \$1,230,000, not only pays 20 per cent dividend, but was able to invest \$500,000 for expansion, new buildings and new machinery.

The majority of all industrial enterprises are especially short of ready cash and have the greatest difficulty in securing credits. Not so the breweries. Many are able to pay of fat once all their liabilities with their bank accounts so that they need not worry about collecting from their own debtors.

The amount of ready cash in the hands of the breweries has led to the building of new beer palaces in Berlin and many other cities. The

public apparently is profoundly satisfied with this development and the beer houses are the only places which are crowded. The beer has regained its pre-war quality and if it were again sold at the pre-war price, the German people might become resigned to their present difficulties.

"T" Men To Be Judges Of Relay Games

AUSTIN, Texas, Feb. 4.—Only those men who have been fortunate enough in the years past to win "T" awards because of their athletic ability at the University of Texas will be used as judges and scorers in the second Annual Texas Relays, according to L. Theo. Bellmont, director of athletics.

One of the first men to be selected for this position by track coach Clyde Littlefield, was Mack Hodges of Uvalde, a half-mile of several years ago. Hodges is a graduate of the School of Engineering of the University of Texas.

Meredith Taylor, aged 3, of Carlisle, Ky., is 43 inches in height and weighs 100 pounds.

public apparently is profoundly satisfied with this development and the beer houses are the only places which are crowded. The beer has regained its pre-war quality and if it were again sold at the pre-war price, the German people might become resigned to their present difficulties.

THUNDER

"A penny for your thoughts!" Step-Lightly looked over the rim of the melon. But before Peter could answer, the silence of the desert was broken by a sound so terrifying that the boy's heart hopped up into his throat and di da double two-step in a desperate effort to leap right out of his mouth—at least that was what Peter remembered it felt like when he thought about it afterward.

G-r-r-r!

Like thunder the noise rolled through the quiet spaces—the leaves of the cactus trembled to hear it, and the ground under Peter's feet shook as though somebody very heavy were treading over it.

"Why, who, what?" stammered Peter, too frightened to ask a ques-

tion. He clutched at the Lion Cub for comfort. But Step-Lightly impatiently shook him off.

"Hey, let go of my tail, Two-Legs! What are you afraid of. That's only father. He makes a lot of noise—does it on purpose to make the animals afraid of him, but has not such a fierce fellow when you know him. Let go of my tail I tell you. How do you expect me to wave him a greeting? And I should get a good cuffing if I didn't, I can tell you. He'd think I didn't show him the proper respect. Ah! There he is now! Pretty fine looking fellow, my father, isn't he, Two-Legs?"

It was growing dark. Just a few feathery clouds painted pink by the twilight rays were waiting to tuck the sun to bed before they sailed on into the dusky night. And there

HERE ON THE TOP OF THE ROCK STAND FATHER AND SON.

Next: "Father Finds His Son but Loses His Temper."

Sunday School Organized At Flagg, Texas

FLAGG, Feb. 5.—A community Sunday school was organized at Flagg, Texas, last Sunday with approximately seventy-five members present at the initial meeting, and prospects for much larger attendance just as soon as work is well under way. The Reverend Joseph Bozarth of Canyon, Sunday School Missionary for the Presbyterian Church was in charge of the service. He gave a short message on the "Meaning and Importance of Sunday School Work."

Sunday, January 31, marked the commencing of community work at Flagg with Rev. Bozarth of Canyon and pastors from both the Baptist and the Presbyterian churches of Hereford in attendance. Rev. W. R. Hill, pastor of the Baptist church of Hereford preached the morning sermon in the new community church at Flagg. Rev. J. T. Ross, pastor of the First Presbyterian church at Hereford preached the afternoon sermon.

The house was filled to capacity at both the morning and afternoon services. The new church was built recently by popular subscription. Flagg is the infant town of Castro County, being located in the southwestern part in the center of the Flagg ranch, and was started last June by Col. C. T. Herring when the Flagg ranch was broken up into

small farms and opened for colonization. Flagg boasts of a 100 per cent land owning community, and every one of the people there are new settlers.

BED-RIDDEN INVALID THREE YEARS LATER BEAUTY PRIZE WINNER

DENVER, Colo., Feb. 5.—A living testimonial to the properties of Colorado's climate was found here recently when Mrs. Mabel D. Bender was chosen among the eleven young women in this region from whom the "Rocky Mountain Venus" was selected.

Three years ago Mrs. Bender was sent to bed hovering between life and death from tuberculosis. Physicians said she had little chance to live and later that she must spend at least two years in bed.

She had been an athlete all her life and the sentence was a hard one. She came to Colorado and spent nine months in bed.

Now her measurements tally with those of Miss Fay Lamphier, chosen "Miss America" at Atlantic City last summer, an every particular but two and she is the picture of health.

HALF MILLION INSURANCE IN TEXAS UNIVERSITIES

AUSTIN, Texas, Over half million dollars insurance is carried by 201 faculty members of the University of Texas, according to a report from the office of the auditor. This is divided among the several branches of the University as follows

SIXTEENTH ANNIVERSARY WEEK
BOY SCOUTS OF AMERICA

"Scouting in the Home" to Have the Central Place in the Program for the Biggest Birthday Party We Have Held; Big in Numbers, Rich in Friends, in Camping Facilities, in Leadership Personnel, in History, in Service Rendered, in Projects That Promise Better Scouting for the Boy

The outstanding features of this Anniversary Week.

A committee appointed to recommend a point of special emphasis for anniversary week has made a wise choice. The recommendation is that the home and the churches of the community be brought definitely the anniversary week celebration, with Patriotism as an outstanding note.

This is an essentially practical and at the same time a delightful way to celebrate our Sixteenth Anniversary. It involves three objectives:

1. Every home and church to have a definite part in the Anniversary week celebration.

2. The events of the week to impress upon the community that Home and Church are the Cornerstones of the nation.

3. Inasmuch as the greatest need of our Nation and of the world today is tolerance, the activities to be such as will promote that spirit in accordance with our great Twelfth Scout Law. True patriotism is impossible without the spirit of tolerance—the essence of the Golden Rule.

All Scouts are obliged to observe church day of anniversary week, Sunday February 7th. Special services are arranged at the Cumberland Presbyterian church for the 11 o'clock hour. And at the Methodist, First Christian, First Presbyterian and the Baptist for the evening hour.

Ring ceremony Friday evening at

5:30 sharp. Troops to meet at City Hall, and be led by band (secured by American Legion) around the square, to West Side of Court House; there form for ceremony in charge of Clark M. Mullican.

Court of Honor to meet, at First Presbyterian church Saturday night February 13th at 7:30 p. m.

Context: To the troop bringing the greatest percentage of mothers and fathers to the Court of Honor will be given the privilege of telling of all the good points of that troop, give yell, Patrols call or song, and no other troop may challenge anything said or done. Two Scouts from each troop is to act as ushers. Each troop is to rope off and decorate their particular section of seats for the troop and parents as they choose.

No merit badge applications received at Scout Headquarters after closing time Thursday evening, Feb. 10th. Only two merit badges a month. If you got two for Jan., you may receive two in February, making four for this Court of Honor. Who's going to win the contest on the calendar picture?

Special Broadcasting from station KPRC Houston Post Dispatch Regional Conference chairman R. R. Adcock will lead all the boys of Texas, Oklahoma and New Mexico in the Scout oath and Law, on the air promptly at 8:15 p. m. Monday February 8th. Each troop can discuss what action they will take on this matter. We are asked to do this by J. P. Fitch, Regional Executive.

A LITTLE TALK ON THRIFT

By S. W. Straus, President American Society for Thrift.

It is well to have impressed on us the fact that thrift means more than mere saving. This is true especially at this time because in recent weeks much has been said in the newspapers and elsewhere in behalf of savings.

Tremendously powerful and useful agencies have been expending special efforts along these lines.

It is well to have these activities. But it is to be borne in mind always that too much economy is not thrift any more than is too much spending.

False economy, carried to the point of hurting the delicately balanced adjustments of business, means eventual waste. Loss of trade by the

retail merchants means loss also for the jobber who in turn passes it on to the manufacturer. The result is unemployment, a form of waste undesirable for all.

Thus under-spending can, if carried to excess, produce unwholesome economic conditions that are as distressing as over-spending.

Too much spending means at once a waste all along the line.

It leads to over-expansion activities which continue in their natural cycle until they end in business depression.

True thrift consists of three things—prudent saving, judicious spending, and wise investing.

It is not possible to lay down universal rules to be followed in these matters. But it should be remembered at all times that thrift means progress. Fraud losses have reached a figure in excess of one billion dollars a year because thousands of persons, having learned to save, have not learned how to spend and invest with prudence.

Completion Of Garrison Hall Is Being Rushed

AUSTIN, Texas Feb. 5.—Work on Garrison Hall, new classroom building for the University of Texas now under construction, is progressing rapidly, according to the University building inspector. Outside work on the first and second floors, which are of stone, will be completed within the next few days. Brick and terra cotta is the material to be used for the third and fourth floors, construction of which will begin in the near future. Partitions are now being made in the first floor.

Decorations for this building will consist of terra cotta ornaments chosen with the idea of portraying objects typical of Texas. There are four historic gable brands which will be placed on the outside of the hall. One consists of the letters, "L. F. D." and another is "6666." The cactus plant and various flowers will also be reproduced on the building. On the lower part steel heads cut in stone have already been placed between the first and second floors.

Secretary Hoover urged early action on Muscle Shoals, so that domestic production of nitrates might proceed free from the uncertainty which now hampers the development of that industry.
