THE SNYDER DAILY NEWS

VOL. 24 NO. 110 SNYDER, TEXAS (79549) WED., SEPT. 5, 1973 8 PAGES 10c

The SDN Column

This is an "off year" for state and national elections, but Texans are going to be called to the polls Nov. 6 to decide the fate of nine proposed amendments to the state constitution. This is one of the arguments for re-writing the Texas Constitution, which now is being undertaken.

The old constitution is 97 years old and up to now it has been patched 212 times. That's an average of more than twice per year and chances are some of the amendments proposed this year will be adopted.

It is apparent that the state probably needs a new constitution—one that is broader, yet briefer. But those who envision a document that will eliminate amendments are likely to be disappointed. Man has yet to cover every eventuality in a document of this sort.

The United States Constitution is regarded as a model document, yet the ink was hardly dry on it before no less than 14 amendments were attached. These are our "Bill of Rights" and are involved in more interpretations than any other part of the constitution despite the fact that they were not a part of the basic document.

★ ★ ★

The Dallas Cowboys of the National Football League have done some player shuffling since the 1972 season, but 18 of the starters from last year are back and two of them have been around more than a decade. Neither Bob Lilly nor Cornell Greene has missed a league game since he joined the team, Lilly in 1961 and Green in 1962. That means Lilly has played in 168 consecutive regular season games and Green has played in 154 in a row.

Incidentally, the Cowboys meet the World Champion Miami Dolphins tomorrow night in a nationally-televised game.

Pat Toomay, first-string defensive end for the Cowboys, was a quarterback in high school, but changed to a lineman at Vanderbilt University, he says, "because I had two problems—I couldn't throw short and I couldn't throw long."

★ ★ ★

Andrews, one of Snyder's non-conference opponents, has computerized its scouting reports. The high school there has a computing system for offering students training in computer science. Coach Tommy Watkins has enlisted the aid of a math teacher, Don Boles, to obtain computer reports on opponents' offense patterns. He says he gets three times as much information from the computer as he did with manual scouting methods.

Now, if they ever teach those machines to block and tackle....—WACIL McNAIR.

Today In History

By THE ASSOCIATED PRESS

Today is Wednesday, Sept. 5, the 248th day of 1973. There are 117 days left in the year.

Today's highlight in history:

On this date in 1774, the first Continental Congress assembled at Carpenter's Hall in Philadelphia.

On this date—

In 1670, William Penn was arrested for holding a Quaker meeting in London.

In 1885, Jake Gumper of Fort Wayne, Ind. bought the first gasoline pump to be manufactured in this country.

In 1896, because of the gold rush in the Klondike, the first beefsteak to reach Circle City, Alaska, sold at $48 a pound.

In 1905, the treaty of Portsmouth, N.H. ended the Russo-Japanese War.

In 1939, the United States proclaimed neutrality in World War II.

In 1945, the American flag was raised on Wake Island after Japanese forces surrendered.

Ten years ago: Three white schools scheduled for integration in Birmingham, Ala., were closed on orders of Gov. George C. Wallace.

Five years ago: Defense Secretary Clark Clifford exempted missile defense from budget cuts.

One year ago: Eleven Israeli Olympian athletes, four Palestinian guerrillas and a West German policeman were killed in a 23-hour drama which began with a raid on Olympic Village in Munich and ended in a shootout at an airport.

The Weather

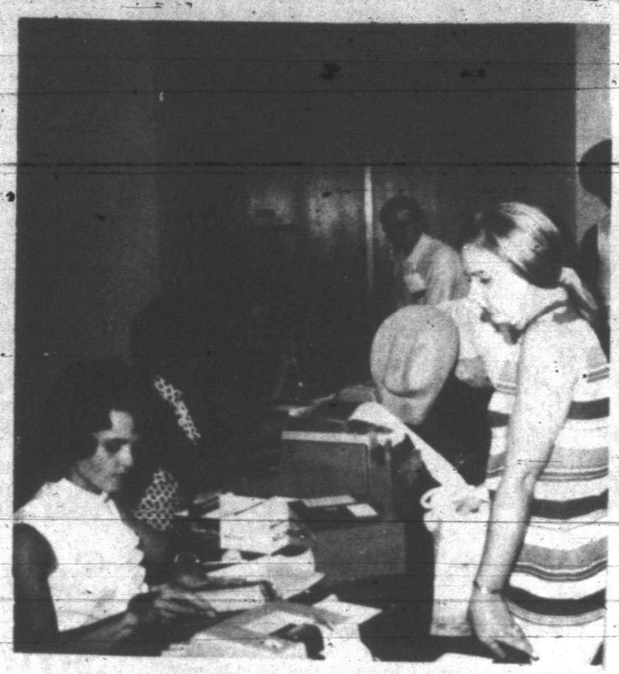

SNYDER TEMPERATURES: High Tuesday, 92 degrees; low, 61 degrees; reading at 7 a.m. today, 61 degrees; precipitation, .25 inch.

Northwest and Southwest Texas: Considerable cloudiness southeast portion and clear to partly cloudy west and north tonight. Considerable cloudiness south and fair north Thursday with scattered thundershowers southeast portion. Low tonight 50 to 70 except near 45 higher mountains. High Thursday 80 to 98.

North Central and Northeast Texas: Mostly cloudy with numerous showers and thunderstorms east and central portions and partly cloudy west through Thursday. Scattered thundershowers west Thursday. Warm days and mild nights. Low tonight 62 northwest to 72 southeast. High Thursday 82 to 92.

South Central and Southeast Texas: Partly cloudy and warm extreme west portion with slight chance of few afternoon and evening thundershowers. Considerable cloudiness central and east portions with locally numerous showers and scattered thundershowers. Mild. Low tonight 68 to 78. High Thursday 82 to 97.

Port Arthur to Port O'Connor: Gale warning from Palacios to Port Arthur. See latest advisory on Tropical Storm Delia. Small craft should remain in port. Mostly east to southeast winds up to 35 knots and occasional gusts to 50 knots in squalls. Numerous showers and thundershowers. Winds gradually decreasing from upper portion as Delia drifts west.

PAYING FEES—Brenda Crosby, a Snyder sophomore student at Western Texas College, standing in foreground, is shown as she paid fees to complete her registration at the college Tuesday. Miss Crosby is the daughter of Mr. and Mrs. Lonnie Crosby.

MOVING IN—These students were among the early arrivals at the Western Texas College dormitories Tuesday morning. Left to right, they are Kay Schwartz and Carla Brown of Winters, Linnie Melton of Abilene, and Cathy Holten of Big Spring. Classes will begin at the college at 8 a.m. Thursday.

Texas Rejects EPA's Clean Air Proposals

By GODFREY ANDERSON
Associated Press Writer

DALLAS (AP) — Texas flatly rejected four proposed federal plans aimed at insuring that the air around us is kept clean enough to breathe safely.

The surprise move came after the first hour of two days of public hearings called by the five-state Southwestern Region of the Environmental Protection Agency (EPA).

Until today, Texas had taken no public stand on the issue.

Roger Wallis, speaking for the Texas Air Control Board, called all EPA's proposed alternatives "defective."

"Certainly, the proposed regulations are neither workable nor even-handed, and they probably would not be effective," Wallis said. "They apply only to a limited number of pollutants and a limited set of sources under limited circumstances ... First EPA should require that air pollution from all new and modified sources be kept to a minimum."

Wallis complained that the available data submitted was almost exclusively for urban areas and that the emission data for 1972 is "completely inadequate" for determining present emissions.

Arguing that one year's data is an unworkable basis because of climatological variations, Wallis said: "Once the base line is set, a single freak meterological occurrence could produce a one-hour, three-hour or 24-hour pollution level high enough to force the stifling of industrial activity in an area for years."

The Environmental Protection Agency, ordered by Congress and the courts to ban any significant new pollution, seeks public help in solving a knotty problem—just how clean is clean?

The answer can decide whether new industries move in and where they locate and whether communities themselves may be permitted to go on growing without limit. So far the state of Texas has made no comment.

Broadly, the EPA wants regulations that will clean up the air in urban areas and keep it clean in rural ones. Under the Clean Air Act of 1970 that task is supposed to be achieved by 1975.

Industrialists and ecologists were expected to present conflicting views.

The government agency has already presented four proposals.

The first sets a national limit on the allowable increase in concentrations of sulphur dioxide and particulate matter, or dust, in the air.

The second sets limits on emissions of sulphur dioxide and particulates from smokestacks.

The third lets each state decide for itself on a case-by-case basis what constitutes "significant deterioration" of its air standards.

The fourth would limit pollution concentrations in the air on a regional rather than a national basis. Ultra-clean areas would have tighter restrictions.

TORNADO HITS BIG SPRING

Delia Kicks Up Tides, Big Rains

By THE ASSOCIATED PRESS

Tropical Storm Delia moved lazily southward down the Texas Coast today kicking up higher-than-normal tides and bringing with it rains of up to five inches.

Delia, a near-hurricane that never quite made the grade, jabbed at the coastal cities with gusts of up to 50 miles an hour around Palacios, Port Lavaca and Corpus Christi as it moved down, hugging the coast.

The storm, which at first appeared to be gathering hurricane strength, poised offshore, for a time, entered land Tuesday afternoon near Galveston on the upper Texas coast and weakened immediately.

At midmorning today, the center of Delia was about 50 miles south of Port Lavaca headed for the Corpus Christi area about midway down the coastline.

Heavy rains of up to five inches and tides of three to four feet marked Delia's path along with winds of 20 to 30 m.p.h. and gusts up to 50.

The storm was moving southwest at about 5 m.p.h.

In Corpus Christi, schools were open on a windy, cloudy day.

Delia was blamed for at least two deaths in a traffic accident near Anahuac, east of Houston. The victims were identified as Danny K. Lester of Cedar Park and Timothy O'Connor of Lafayette, La.

While Delia hit the coast, across the state in West Texas a lightning-like tornado slashed through sections of Big Spring Tuesday night, taking the lives of two children. It also injured nearly 20 persons and caused property losses estimated at close to $4 million.

The twister knifed out of a squall line preceding a cool front.

The tots killed by the Big Spring tornado, in which an unofficial clocking of 100 m.p.h. winds was reported, were five-month-old Wendi Stevens and her half sister, Lisa Andrews, 4. They were the daughters of Mr. and Mrs. Hoagy Stevens.

After lingering in the Gulf of Mexico for three days, Delia moved across the coastline with winds gusting up to 68 m.p.h. at Galveston and hitting a peak of 64 m.p.h. in sustained blows—well below minimum hurricane force of 75 m.p.h.

MOVIE PROTESTS AIRED

Council Approves City Budget; No Tax Change

The Snyder City Council last night approved a city budget for the fiscal year beginning Oct. 1 and set the tax rate at $1.85 per $100 valuation.

However, most of the council's regular session was devoted to a discussion of motion pictures. A group of citizens who had expressed concern over movies shown at the Tiger Drive In Theater attended the session, along with representatives of the theater management. Scheduling of films showing scenes with nude human beings was protested by citizens attending the session, most of them residents of the area near the drive in theater, who said the screen is visible from their homes. Moreover, it was pointed out, the drive in theater's screen is easily visible from a big area of Towle Memorial Park and youngsters who cannot attend the theater when "R" rated films are showing can view them from vantage points in the park.

Ron Reid, manager for Noret Theaters, which operates the theaters in Snyder, said that booking agents had been alerted to the problem and that efforts had been launched to avoid showing such films at the drive-in theater. However, he said that booking problems made it a rather tedious process and that it would require considerable study and detailed evaluation of films to ensure that films with possible objectionable scenes are eliminated from the out-door screen. A majority of films made now have such scenes, although in some the objectionable portion may last only a minute or two, he said.

The discussion also touched briefly on checking of ages when "R" and "X" rated films are shown at the indoor theaters, Cinemas I and II. Johnny Harper, local manager for Noret Theaters, said that either drivers licenses or birth certificates are required before tickets are sold to youths believed to be possibly under age. He said the theater management also attempts to make certain that under-age youths who purchase tickets to see a "G" rated film on one side of the twin theaters do not subsequently slip to the other side when there is an "R" rated film showing. This does happen occasionally, despite efforts to control it, Harper admitted, but he said he believed the situation was controlled to a great degree.

Citizens participating in the discussion included Mrs. James Wesson, Mrs. Bob Watlington, Mrs. Bill Hartsfield, Sam Kitching, the Rev. Ken Andress, Mr. and Mrs. Ned Underwood and Franklin Pruitt.

Ultimately, the council agreed

Say Ehrlichman Secretly Indicted

By LINDA DEUTSCH
Associated Press Writer

LOS ANGELES (AP) — Former presidential adviser John D. Ehrlichman has been indicted on charges of perjury, burglary and conspiracy to commit a burglary, sources close to a county grand jury said today.

The sources also said three former White House aides — Egil Krogh Jr., David Young and G. Gordon Liddy — also were indicted on various counts of burglary, conspiracy and solicitation of a burglary in connection with the break-in at the office of Daniel Ellsberg's psychiatrist.

All four have been unavailable for comment and Ehrlichman's children told newsmen he would have no comment.

Sealed indictments were returned Tuesday in the 1971 break-in at the Beverly Hills office of Ellsberg's psychiatrist.

Dist. Atty. Joseph Busch said the indictments would be released publicly only after any one of those named surrenders to authorities.

Liddy, a convicted Watergate conspirator, is already in prison. The sources who confirmed the indictments said Liddy would be considered to have surrendered only after federal authorities agree to transport him to Los Angeles for arraignment.

Busch said his office had notified attorneys for all of those indicted Tuesday night. He indicated that all were willing to surrender voluntarily, but said the attorneys have not yet fixed the times of surrender.

The indictments had been reported earlier by the Los Angeles Times and the Washington Post.

Wind Gusts Brief Here

A thunderstorm which preceded a cool front through the area brought a few gusts of high winds and light showers to Snyder Tuesday evening.

Although the weather was definitely on the blustry side for a brief period, there were no reports of any substantial damage in this area, although some television antennas were bent or blown down by the brief storm.

The clouds produced a quarter of an inch of rain in the official guage at the city water plant, making a total of 1.23 within the past week.

Cool weather prevailed after the front moved through the area. The official thermometer dipped to 61 degrees this morning, following at high of 92 degrees Tuesday afternoon.

BY McCORD, MAGRUDER

Sirica Orders End Of Speeches

WASHINGTON (AP) — A federal judge ordered an end today to public speeches by James W. McCord Jr. and Jeb Stuart Magruder, saying it was a disgrace that the Watergate criminals could "profit by their wrongdoing."

McCord, convicted of burglary, received $2,000 for a speech at a university in Illinois last week. He and Magruder, who has pleaded guilty to conspiracy, had planned national lecture tours.

"I don't understand and don't think it's fair for Mr. McCord and Mr. Magruder to profit by their wrongdoing," Chief U.S. District Court Judge John J. Sirica said in ordering an end to their public speeches. "To me, this is a disgrace."

McCord's request for a lecture tour was ordered canceled by Sirica last week. But when it was brought to the judge's attention that Magruder planned a similar series of speaking engagements the judge summoned both men to court for a hearing.

Magruder, in a letter to Sirica before the hearing, said the only reason he considered making the tour was because "I now find myself in financial difficulty."

He said his prepared speech would be "more or less a political science lecture" and would not deal with substantive Watergate issues.

Bernard Fensterwald, McCord's lawyer, asked the judge to modify the speaking restriction to permit McCord to make speeches outside a 100-mile radius of Washington with no radio or television coverage. Fensterwald said McCord wishes to speak to church and religious groups as "a matter of conscience."

Sirica replied that his concern is not only for the constitutional rights of people who may still be indicted in the Watergate scandal and the need to refrain from prejudicial pretrial publicity but also over the men being paid for appearances.

Fensterwald then asked if McCord could speak exclusively to religious groups without receiving speakers' fees. The judge also rejected that proposal.

Sirica's decision on the lecture tours came as both the White House and special Watergate prosecutor Archibald Cox planned to appeal a court order for presidential Watergate tapes.

The White House said it would file its papers Thursday in an attempt to block efforts to force President Nixon to turn over the tapes. Cox's appeal will seek "clarification or modification of the standards and procedures to be followed in determining what parts of the evidence will be presented to the grand jury," the prosecutor said. He did not elaborate.

Money Bills Await Congress

By ED LeBRETON
Associated Press Writer

WASHINGTON (AP) — Congress ended a month's vacation today, returning to tackle money bills related to the legislators' power struggle with the White House.

First on the Senate's list is an appropriation measure from which the House deleted a special $1.5-million presidential fund. The House also added strictures on the spending of government money for security on such private property as presidential homes away from Washington.

The House Appropriations Committee cut the money from the bill after discussing whether the fund might have been used to finance the special "plumbers" unit of White House investigators. The full House went along.

The Senate Appropriations Committee, however, replaced $1 million, with a provision for reports to Congress on the spending.

Acting after news accounts broke about expenditures for security at President Nixon's California and Florida houses, the House approved language requiring that future spending on private property first be reported to the appropriations committees. The Senate committee deleted the reporting requirement.

The fund and property reporting issues were sent to the full Senate.

The House is to act on a $682-million State Department authorization bill, with a requirement that the department and affiliated agencies must respond to congressional requests for information or lose their funds.

The bill also would give Congress a look at campaign contributions by persons subsequently nominated for ambassadorships.

Senate Democratic Leader Mike Mansfield of Montana, interviewed on the eve of the renewed session, said he favors stricter wage-price controls, but that there is nothing more Congress can do to fight inflation.

"We've given the President the authority to act and we would hope he recognizes that phase 1, 3 and 4 are not the type of operations necessary to deflate inflation," Mansfield said.

California GOPs Spot Connally

By BILL STALL
AP Political Writer

SACRAMENTO (AP) — California Republicans have given John B. Connally, the recent GOP convert, the featured speaking spot at their 1973 state convention this weekend.

"I think you could say he's showcasing himself," one party official said of Connally, considered a potential candidate for president in 1976.

California Gov. Ronald Reagan, a possible Connally rival for the presidential nomination, also will address the estimated 2,000 convention delegates at San Diego this weekend.

But Connally, in his first major political speech since his brief stint at the White House, gets top billing. He will address the main convention dinner Saturday night.

Reagan will speak Sunday morning shortly before the windup of the three-day meeting.

Connally, who switched parties last May, is a three-term former Texas governor who served as a Cabinet officer in both Democratic and Republican administrations.

He also will be the star attraction of the major fundraising event during the convention, a $100-a-person cocktail party before the Saturday night dinner.

California is likely to be a key state in the Republican presidential primary struggle for the first time since the Rockefeller-Goldwater battle of 1964.

Reagan froze out opposition as a favorite son candidate in 1968, and there was only token opposition to Nixon last year.

Due to a 1972 amendment to the state constitution, California in 1976 will for the first time have an open primary in which the names of all recognized candidates will appear on the ballot unless a candidate formally withdraws his name.

Other convention speakers this weekend include Anne Armstrong, also a Texan who serves as counselor to the President with cabinet officer rank, and Christopher S. Bond, the young governor of Missouri.

Convention business will include start on a 1974 party platform and proposals to broaden the structure of the state party.

But the most intense activity is expected to be the informal politicking by prospective candidates for governor and senator next year.

There are at least four would be successors to Reagan, who says he will not seek a third term: Lt. Gov. Ed Reinecke, former Nixon Cabinet officer Robert H. Finch, Atty. Gen. Evelle J. Younger and Controller Houston I. Flournoy.

The field is wide open so far for potential GOP candidates to challenge Democratic Sen. Alan Cranston, who will seek a second term next year.

Marijuana Case To Jury

The jury received the charge this morning in the trial of Alford Leon Morris in 132nd District Court.

He was charged with illegal sale of marijuana. The offense allegedly occurred Jan. 11.

Morris took the stand himself, and the defense also subpoenaed Joe Harding and Paul Norred.

J.P. Walker Jr., a member of the Snyder Police Department, Gary Barrett, former Snyder detective, and David Legg, Department of Public Safety chemist from Midland, testified for the prosecution. The testimony indicated the accused may have sold 20 grams of marijuana to Walker while he was working as an undercover agent.

Bean Has Most Time In Space

SPACE CENTER, Houston (AP) — Skylab 2 Commander Alan L. Bean today became the world champion of space flight, but the event went without comment from the astronauts and Mission Control.

Nearly five hours after Bean set a record for most total time in space, controllers had not spoken with him of the feat.

Bean and his crewmates, Dr. Owen K. Garriott and Jack R. Lousma, earlier set the single-mission endurance record, breaking Skylab 1's mark of more than 28 days.

Lousma's first concern on waking today was whether his home had been flooded by rains from Tropical Storm Delia. The home is located in a low-lying, flood-prone area near the Space Center.

"How about calling my home and asking about the water level?" he asked.

Several minutes later Mission Control told him: "The water only got to the first step leading to the garage. It did not get into the garage or house and is now receding."

"Glad to hear that," Lousma said.

At 6:11 a.m. EDT Bean surpassed the mark of 45 days, 3 hours, 37 minutes set by a long-time friend, astronaut Charles Conrad Jr. It was set while Bean was nearing the end of a sleep period as Skylab soared over Japan.

Conrad recorded his time on four space missions — Geminis 5 and 11, Apollo 12 and as commander of the first Skylab flight.

Bean, a 41-year-old Navy captain, has flown on two missions. He walked on the moon with Conrad on Apollo 12 and is in his 40th day aboard the Skylab station, with 19 more to go.

If Skylab 2 continues until Sept. 25 as planned, Bean's record will reach 69 days, 15 hours. That's a mark that could stand unchallenged for several years. After the eight-week Skylab 3 mission later this year, the United States plans no more long-duration space trips until the 1980s.

The schedule for the record-setting day was filled with solar observatory and medical experiments.

LETTER TO EDITOR

To The Daily News:

"Six days shall you labor and the seventh you can rest." Today it is five days shall you labor and the sixth day people need your services but you are too tired, lazy or restricted to work.

The only shortage this U.S. has is brains and common sense.

This is the base that had produced 90 per cent of the trouble America has experienced since the beginning of its history.

The thinking men of all history have based their theory that tenacious efficiency of beliefs is proof that man is not a logical creature. Man is likely to believe the most illogical and unreasonable things if these satisfy his emotions and feelings. Thus beliefs and not reason and logic have been the real factors in life and history. Change in beliefs of a people is followed by a great change in their whole social life. Even today we believe in witchcraft in some form or another, such as fortune tellers, walking under ladders, black cats. Each and every person harbors some belief of witchcraft. If he will admit it, it is a horse of another color.

Bill Wright

County Court Pleas Heard

There were several guilty pleas in county court yesterday.

Robert Elam, Rosalio Saldana Rios, Alfredo Chapoy and Melvin Leroy Hutton all pleaded guilty to driving while intoxicated. Elam, Rio and Hutton each received a $100 fine plus court costs and a 30-day jail term probated for six months. Chapoy received a $100 fine plus court costs and a 3-day jail term.

Chapoy also pleaded guilty to driving while his license was suspended. On this charge, he received a $25 fine plus court costs and a 3-day jail term.

James Barron Merritt pleaded guilty to fleeing from a police officer. He received a $100 fine plus court costs.

Collision On Parking Lot

Minor damage resulted from a two-car collision on the parking lot at Snyder High School at 2:40 p.m. Tuesday.

Involved were the 1970 Model Pontiac of Terry Janelle Jones, 3750 Highland Drive, and the parked 1955 Model Chevrolet of Merlene Williams, 2901 Denison.

Two Vehicles In Road Mishap

Highway Patrolmen investigated a two-vehicle collision at the intersection of State Highway 208 and Huffman Avenue at 8 a.m. today.

Involved were a 1962 Model Rambler driven by Freda Merritt, Route 3, Box 249, Snyder, and a 1970 Model Chevrolet truck driven by Troy Lee Botts, 201 Thirty-fifth Street.

There were no injuries, but there was considerable damage to the Rambler.

ROY BAZE

Exxon Gives Baze New Assignment

HOUSTON—Roy A. Baze, Vice President-Logistics of Exxon Corporation in New York, has been appointed Senior Vice President and member of the Management Committee of Exxon USA.

R.H. Herman, currently a Senior Vice President and member of the Management Committee of Exxon USA, has been elected Vice President-Logistics of Exxon Corporation.

Both changes are effective Oct. 1.

Baze is a native of Snyder and graduated from the University of Oklahoma in 1943 with a bachelor of science degree in petroleum engineering. He joined Exxon USA's Production Department in 1946 and served in various engineering and management positions.

In 1966 he was appointed general manger of Exxon USA's Supply Department and in 1967 transferred to Exxon Corporation as executive assistant to Exxon's president. The following year, he was appointed world-wide producing coordinator for Exxon Corporation, a position he held until his election as Vice President-Producing in 1970. In 1972 he was elected Vice President-Logistics.

Herman is a native of Woodbury, N.M. and received his bachelor of science degree in chemical engineering from Pennsylvania State University. He began his career in 1951 as an engineer with Exxon Corporation's research affiliate. In 1970 he was named Executive Vice President and a Director of Exxon International and was appointed Senior Vice President and member of Exxon USA's Management Committee in June 1972.

Writers' Guild Meets Thursday

The Snyder Writers' Guild will meet at 7:30 p.m. Thursday in the Snyder Savings & Loan community room. A program on query letters will be presented, Mrs. Jess Everett, president, said. Visitors and prospective members are invited to attend the meeting.

Roscoe Road Project Due Hearing Soon

The Texas Highway Commission yesterday indicated that a hearing would be set promptly on a proposal for a new U.S. 84 route at Roscoe to intersect Interstate 20.

Four representatives of Snyder and Scurry County attended the session in Austin at which time Roscoe representatives requested that a four-lane, divided segment be constructed from the north edge of Roscoe to I-20. The Roscoe segment and another at Post are the only two stretches of U.S. 84 that remain to be upgraded to four-lane, divided status between Lubbock and I-20. Work to upgrade these segments is considered essential to possible designation of the U.S. 84 route as the "Port-To-Plains" highway.

Representing Snyder and Scurry County at the meeting in Austin were Mickey Nunley, manager of the Snyder Chamber of Commerce and consultant to the Scurry County Board of Development; John Thomas, president of the Snyder Chamber of Commerce; Bill Seale, mayor of Snyder, and George Patterson, city manager.

COUNCIL

(Continued from page 1)

to begin working on an ordinance which would provide regulations to control situations such as those discussed and at the same time, the theater management representatives agreed that they would try to control the situations voluntarily.

An ordinance concerning the showing of films which include nudity on outdoor screens was presented the council by the city attorney, Joe Carroll, who had been instructed to bring such a document for study by the council. It will be studied further and possibly used as the starting point for an ordinance to be ready for the council's October meeting. By formal vote the council agreed that the matter would be on the agenda for the October meeting.

The city budget got approval after no questions were voiced during a public hearing. Budgeted are funds totalling $943,000, a light increase over the 1972-73 budget of $914,233. Revenues are expected to increase over all from $885,953 to $931,190, mostly as a result of the city sales tax. However, the city anticipates only $92,000 in revenue-sharing funds from the federal government, compared to $124,000 received this year. Also, a transfer of only $12,212 from the water and sewer fund is anticipated the coming year, compared to $28,280 for this year. The $1.85 tax rate is the same as that for this year.

In other business last night the council approved a zone change for the east 140 feet of Block 15, Cody Addition, from an M-1 (manufacturing) zone to an R-2 (residential) zone. The change, which will permit mobile homes on the property, had been requested by Jack Dupree and was approved by the Planning and Zoning Commission.

Snyder National Bank was named depository for city funds for the fiscal year beginning Oct. 1. It offered one half of one per cent higher interest on time deposits of city funds than did West Texas State Bank, which had the only other proposal.

The council approved another recommendation of the Planning and Zoning Commission—that the city no longer require sidewalks in its subdivision regulations.

Approved on first reading was an ordinance establishing "No Parking" zones on each side of Austin Avenue between Thirty-seventh and Thirty-eighth Streets.

Councilmen Joe Sentell and Bill Vestal were appointed by Mayor Bill Seale to serve on a committee with representatives of Western Texas College to prepare a contract which will enable WTC to take effluent water from the city's sewage disposal plant to irrigate a golf course on the campus.

The city manager was authorized to secure bids on the following vehicles and equipment the city proposes to purchase this fall: three, four-door sedans for the police department; one motor grader for the street department; one truck chassis for a Dumpmaster in the sanitation department; one truck chassis for a side load body in the sanitation department; one side load body for a garbage truck in the sanitation department; one fire truck with a 1,000 gallon-per-minute pumping capability for the fire department.

Ship Blazes For Fourth Day

NEW ORLEANS (AP) — A fire aboard the Liberian freighter Key Largo blazed for the fourth straight day today.

Two explosions were heard late Tuesday night aboard the ship, which was grounded about 50 miles down the Mississippi River from New Orleans. The Coast Guard, which had suspended fire fighting efforts at nightfall, said the blasts may have been from the deck cargo of light lubricating oil.

The 306-foot vessel, which caught fire Sunday, was considered a total loss.

76 Nations At Algiers Summit

By ELIAS ANTAR
Associated Press Writer

ALGIERS (AP) — Leaders from 76 nations assembled in Algiers today for the fourth nonaligned summit conference, a meeting they hope will increase their influence and bargaining power with the industrialized nations.

More than half the nations were represented by their kings, presidents or prime ministers. Heading the lineup was President Tito of Yugoslavia, a founder of the nonaligned movement.

The four-day conference is expected to approve a series of resolutions on such issues as natural resources, decolonization, the Middle East, territorial fishing limits, nuclear weapons and the international monetary system.

Drafting committees worked until early today, rounding up the proposals from various nations and seeking preliminary consensus.

Algeria, the conference host, had prepared texts on practically every item on the agenda and was expected to exert a strong influence behind the scenes.

Conference sources said numerous resolutions on the Arab-Israeli conflict were presented to the political drafting committee, all of them pro-Arab. One from the Palestine Liberation Organization called for full support for the Palestinian movement and condemnation of Israel for "its policy of Judaization and settlement" of lands captured from the Arabs in the 1967 war.

A stronger Egyptian resolution called for an international boycott of Israel and its condemnation as "an international outlaw."

There was no possibility, however, of a resolution calling on the Arab oil nations at the conference to withhold their oil from the United States and Europe as a pressure weapon against Israel. The Arabs have been unable in repeated meetings — the most recent one on Tuesday in Kuwait — to agree on the use of their oil as a political weapon.

Snyderite Named Soldier-Of-Month

FORTMEYER, Va.—Specialist Four Michael Keith Hodge, 21, has been named Old Guard Soldier of the Month for July. A member of Bravo Company, 1st Bn. (Reinf), 3d Inf. (The Old Guard), SP4 Hodge is a rifleman on the company's color team and is a member of the marching platoon.

Son of Mr. and Mrs. Orval H. Hodge, Snyder, SP4 Hodge graduated from Snyder High School in May 1970. He then worked as a full-time heavy equipment operator at Atwood Construction in Snyder until April 1971, at which time he served four months as a carpenter's apprentice for Acoustical by Boggs in Dallas. Shortly thereafter, he married the former Miss Lori A. Brannon of Arlington before entering the Army in June 1972.

SP4 Hodge successfully completed his Basic Combat Training at Fort Polk, La. in August 1972, followed by his Advanced Individual Training (AIT) in The Old Guard's fourth AIT cycle at Camp A.P. Hill, Virginia. SP4 Hodge graduated from AIR as "Trainee of the Cycle" in October 1972.

Since AIT SP4 Hodge has marched in the Presidential Inauguration of Richard M. Nixon, served as a member of the cordon for former President Lyndon B. Johnson's funeral, portrayed President Abraham Lincoln in this year's Spirit of America program, and served as an usher during this summer's Torchlight Tattoo at the Jefferson Memorial.

Some of SP4 Hodge's battalion activities include playing on the company's basketball and softball teams. His favorite hobbies are hunting and fishing. His plans for the future include attending the University of Texas when he leaves the service in June 1975.

HOSPITAL NOTES

ADMISSIONS: Kent Horsley, 217 Thirty-sixth; Janice Hart, 204 Thirty-first; Jina Vaughan, 329 Thirty-sixth Pl.; Stephen Highfield, 318 Thirty-sixth Pl.; Kenneth Smith, 407 Thirty-second; Billie Miles, 500 Thirty-fifth; Burthina Williamson, 500 Twenty-fifth; Bardena Matthews, 1310 Twenty-fourth; Barbara Newman, 2207 Forty-first; Calvin Huffman, P.O. Box 828; Ethel Williams, Rt. 2; Edwin Hall, Rt. 1; Bertie Kelley, 317 Twenty-ninth.

DISMISSALS: Sotera Ramos, Wade Rogers, Leslie Bear, James Bryant, Nellie Covey, Alta York, Willie Thomas.

Art Show Is Set At Spur

SPUR—The Spur Art Guild will sponsor an adult amateur art show Sept. 14-15.

The show will be held in the newly-decorated Spur Community Center located at 416 North Burlington Avenue. All entries for the show must be brought in by 7 p.m. Thursday, Sept. 13.

All adult amateur artists are invited to exhibit in the show and there will be cash prizes and ribbons awarded in four divisions: oils, watercolors, pastels and "other media."

Purchases prizes will total $500. The entry fee is $3 per entry, with no limit on the number that an artist may enter.

Grandpa doesn't want to play Dad again

By Abigail Van Buren

© 1973 by Chicago Tribune-N. Y. News Synd., Inc.

DEAR ABBY: I am a 65-year-old man who has been looking forward to retirement after 40 years with one company. I dreamed of traveling, and now my wife and I can finally afford it. Here comes the problem: Our son just gave us the news that he and his wife are splitting up and he is taking his two sons and she is taking the two daughters, and he wants US to raise the boys! His mother is all for it, and I am all against it. I say, we raised ours and now he can raise his.

As I see it, if he wants to end his marriage and chase skirts again, he can hire someone to look after his children. His mother has always been a softie, and he can get anything he wants from her.

Please, please, help me get my wife to see things my way. I know I am right, but I can't convince her.

TOO OLD FOR KIDS

DEAR TOO: My telling you that I see it your way may not have any influence on your wife's decision, but I think your son ought to paddle his own canoe.

DEAR ABBY: I am 21, married, and have a 14-month-old son whom I adore. Now you'd think with all I have to do I'd be busy enough to keep me satisfied, but I'm not. I keep a clean house, cook three good meals a day, and my laundry is up-to-date.

I want to really be somebody and do something besides housework day in and day out. I'd even be satisfied with a factory job but nobody will hire me. I think it's because I tell the truth on the job applications. I quit school in the 9th grade, which was the dumbest thing I ever did. Now I realize it, but I can't turn back the clock.

Do they have schools for dropouts like me? I want so much to get my high school diploma. I know when my son gets older he will be ashamed of his mother because she didn't even finish 9th grade.

When people use big words and say things I don't understand, I just keep quiet because I'm too ashamed to let on that I don't know what they're talking about.

Please help me, Abby. FAILURE

DEAR YOUNG WOMAN: I refuse to call you "Failure" because "Failures" are satisfied with their lot, and you are not. You can get your high school diploma thru an adult education program. Get in touch with a counselor at your nearest public high school, or write to the General Education Development Council, 1 Dupont Circle, Washington, D. C. Good luck and God bless.

DEAR ABBY: My husband has a business associate who is also a friend, and he always greets me with a big hug and kiss even tho I don't do anything to encourage him.

My husband doesn't like it and thinks I could do more to control the situation.

I don't want to make a big deal out of it, but I really don't know how I can keep this man away from me without insulting him. Maybe I am too timid, but I can't just tell anybody off. Is there another way? TIMID

DEAR TIMID: You don't have to tell him off. Greet him with an outstretched HAND [for shaking] instead of open arms for hugging and kissing.

Problems? You'll feel better if you get it off your chest. For a personal reply, write to ABBY: Box No. 69700, L. A., Calif. 90069. Enclose stamped, self-addressed envelope, please.

For Abby's booklet, "How to Have a Lovely Wedding," send $1 to Abby, Box 69700, Los Angeles, Cal. 90069.

SUPPORTING THEIR TEAMS—These Travis Junior High cheerleaders and twirlers are prepared to lead their football teams to victory this fall. Pictured above, kneeling, are eighth grade cheerleaders, Glenda Garcia and Rachael Coronado. Ninth grade spirit leaders are, left to right, Dody Robinson, Tammy Lee and Della Brazil. Below, the twirlers for the 1973-74 football season are kneeling, Janie Prince and Clinta McCowen. Standing, left to right, Renda Palo, Kim Massingill, drum major, and Rhonda McAnear. The first scheduled game for Travis is Saturday at Sweetwater against the Colts.

Square Dancers Begin Lessons

Square Dance lessons will start tonight at 8:30 p.m. at the National Guard Armory sponsored by the Sparkle City Squares. Club caller, Sleepy Browning of Jayton, one of the outstanding square dance callers in Texas, will be the instructor.

The first two lessons will be of the "see if you like it-no obligation" type. Following the second lessons next Wednesday, the class will be closed and lessons will continue on a weekly basis for approximately ten weeks. All interested persons are invited to participate. The main requirement is a desire to have a whole bunch of good clean fun. The use of any form of alcohol before and during square dance activities is strictly prohibited at the local level and is against nationwide square dance policies.

Woman's Calendar

THURSDAY

The Snyder Garden Club will hold a workshop and luncheon at the Martha Ann Woman's Club with activity beginning at 9:30 a.m. Hostesses are Mrs. S. L. Terry and Mrs. W.B. McSpadden.

Scurry County Retired Teachers Association will meet at 2 p.m. at the Snyder Savings and Loan. Bob Clark, Highway Patrolman, will be guest speaker. Plans for Oct. 13 Drive In Conference to be held in Colorado City will be made. All members urged to attend.

Pizza Or Taco For Breakfast?

By BILL MARTIN
Associated Press Writer

RENO, Nev. (AP) — Instead of pancakes or eggs for your next breakfast, why not wake up to a pizza or a taco?

And instead of bacon or toast, try a chicken salad sandwich or a hot dog! Maybe even bagels and creamed cheese!

According to a University of Nevada-Reno nutritionist, Americans are over-rating the value of a traditional bacon and eggs breakfast.

"Everyone knows you should have breakfast," said Marjorie Stevenson. "So why are people missing it? Maybe they're tired of a stereotyped breakfast."

Mrs. Stevenson said in an interview Tuesday that pizza, macaroni and cheese, chili, tacos — even ice cream or custard pie — make nutritious breakfasts.

"It's unnerving to see my daughter sitting there with a tuna salad sandwich at 7:30 a.m. But she's getting her nutrients. And my son sometimes likes bagels and creamed cheese," she said.

She said it's not important what you eat, as long as you get the right nutrients. She said the body needs protein, but what's the difference if it comes in scrambled eggs, a hamburger or peanut butter?

Mrs. Stevenson said breakfast is the most skipped meal in the United States and one reason is because of the stress on the bacon, eggs, milk, cereal and orange juice meal.

She said an experiment where cooks at a nearby scout camp served tomato soup, hamburgers and french fries for breakfast showed that people expect traditional breakfasts, but could adapt to change.

"Some of the kids thought it was great," she said. "But others were stunned because it didn't mean breakfast to them."

When you are making pickles and want to keep them light in color, use distilled white vinegar.

Whenever you defrost the freezing section of your refrigerator, wash the freezing trays in warm (not hot) soapy water; rinse well, fill with cold water; rinse well, fill with cold water and replace.

get them Together.

Snyder Girl Receives Cap September 8

AMARILLO—Carol Block of Snyder is among 60 West Texas State University student nurses who will receive caps and bars in a ceremony Sept. 8 in the Branding Iron Theatre on the campus in suburban Canyon.

Caps, awarded to the female students, and bars, to the male students, signify the completion of freshman-sophomore studies, and the beginning of "more extensive clinical practice," says Edna Garza, instructor in nursing.

The ceremony, open to the public, will begin at 2 p.m.

Mrs. Eunice King, head of the Department of Nursing, will preside over the function, and Marilyn Dyer, assistant head of the department, will speak on "The Significance of the Uniform."

Caps and bars will be presented the student nurses by Miss Garza and Mrs. Patsy Britting, assistant professor of nursing.

Miss Block is the daughter of Mr. and Mrs. Samuel Block.

Cybill Shepherd Sues Playboy

LOS ANGELES (AP) — Actress Cybill Shepherd has sued Playboy magazine for $9 million. She claims it wrongfully published two seminude photographs from "The Last Picture Show," in which she starred.

The actress, 23, said she only reluctantly had agreed to the scenes in the popular movie in which she stripped before jumping into a swimming pool.

The Memphis actress, popular in television commercials and a frequent cover girl, said use of the photos without her consent in Playboy invaded her privacy and was a misappropriation of her property rights.

The Weeders Guide

By EARL ARONSON
AP Newsfeatures

You have a fine opportunity to witness ecology right outside your doorway, on your front lawn.

Ecology, according to lawn expert Robert W. Schery of the Lawn Institute, Marysville, Ohio, signifies harmonious adjustment to the environment.

"A simple case," he says, "might be the battle between improved grass varieties competing with volunteer grass. If absolutely nothing is done — the lawn left unmowed and unfertilized — volunteer stuff usually wins out. But even modest attention (regular mowing and occasional feeding) gives the elite grasses the upper hand. These varieties are chosen for modern lawn conditions, and are more persistent than their older counterparts because of resistance to disease."

Dr. Schery points out that subtle interactions occur. When Kentucky bluegrasses are mixed with fine fescues (this is a typical lawn seed blend) the bluegrass generally will dominate the turf if the lawn is irrigated and fertilized. But the fescue may dominate if the lawn is starved and dry.

He explained, "One reason for including fescues in a bluegrass blend is that fescue generally hangs on in dry and poor soil, and in the shade, typical grass environment under trees.

"Where several varieties of the same species are planted together — insurance against loss of a 'pure stand' — one or another variety may become top dog (and there may be switches depending on weather or seasonal changes)."

For instance, Dr. Schery related, when Merion and Fylking bluegrasses were planted together at Rutgers University, Merion was the more aggressive initially, but yielded to Fylking after several years when stripe smut showed up.

Most of the new varieties are low-growing, denser at a low mowing height than older good grasses. Bluegrass varieties such as Baron, Fylking and Pennstar may be able to hold up when interseeded with normally low-clipped grass such as Highland bent, Dr. Schery said.

Dr. Schery said that research in Colorado gave dramatic evidence of how lawn population can be manipulated through management of its ecology.

"Over a period of years weedy turf plantings have been changed to relatively pure stands of Kentucky bluegrass. Generous fertilization, especially in autumn, is a key measure. Relatively high mowing helps, too. Of course, herbicides greatly quicken the succession away from broadleaf weeds."

SOUND ADVICE
By HOMER SCOTT

If you have a hearing problem, and don't wear an aid, at least listen to reason.

With a hearing aid, the only embarrassing moment (possibly) is the first time you meet someone. Without an aid, you (and that someone) are embarrassed every time there's conversation.

Your "problem" surfaces again and again. It's a constant source of embarrassment. By contrast, a hearing aid is really a blessing is disguise. It can take a heavy and uncomfortable burden off your social and family libe.

We would like to tell you more about it. And we would because we believe that you'll be a much more attractive person with an aid than without.

If you hear sounds but can't always understand the words—a classic symptom of nerve deafness, you owe it to yourself and those most dear to you to come in for a free hearing test to see if we can help you. I will hold my regular monthly center at: Pal-O-Mar Motel, Snyder, Thursday, Sept. 6th—2:30-3:30 p.m.

WORK COMPETITION, REPETITION

Career In Professional Baseball No Different

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP) — While a career in professional baseball might be the dream of youth and the envy of adults, it is just another way of making a living to the analysts at the Department of Labor.

And when studied that way, as Harold Blitz of the Labor Department has done, it begins to look like every other occupation: lots of work, plenty of competition, weary repetition, tough days as well as easy ones.

About 400,000 boys play on about 13,000 high school baseball teams, according to the study, "The Drive to Win: Careers in Professional Sports." Another 25,000 play on about 1,000 college teams.

Of these, about 1,200, or one per cent of the eligible pool, including foreign players, can expect to be drafted. Once drafted they have to make the team; once they make the team they have to fight toward one of the 600 major league positions.

In 1970 about 100 rookies escaped the pool and made it to the major leagues. Those who didn't make it may have returned to a grueling life, for which they might be paid $500 or $600 a month.

"Unlike that of the majors, life in minor league baseball—where most professional players work—is characterized by small parks, small towns, small crowds, cheap hotels, and 20-hour bus rides."

Major league salaries ranged from $13,500 to more than $150,000 last year, according to the study. The average was nearly $30,000 a year.

In addition, players received $15.50 a day for food and $55 a week for laundry, drycleaning and incidentals during spring training. Sometimes the rookies got bonuses.

"The number one pick in the country might get about $70,000, and the fourth or fifth might receive $30,000," which is decidedly more than the brightest prospects from Harvard or Stanford business schools can expect.

And if they manage to play in a World Series they might, if they are winners, receive nearly $25,000, as the Oakland players earned last year, or $19,000 if they are losers, as were the Cincinnati Reds.

Other players earn money from endorsements, but this income is usually limited to the stars. Some capitalize by writing books, but this activity is even rarer.

It isn't at all uncommon to hear a major leaguer complain about his inability to make ends meet, one of the main reasons being—in some cases, at least—the necessity of maintaining two homes.

While they are in the game they must make the most of their opportunities. The average major league career is over after 7 or 8 years. A second career is foreordained.

No Springs

MURFREESBORO, Tenn. (AP) — A Civil War cannon at the Stones River National Battlefield had plenty of powder and shot but no springs for friction primers.

Historian Gregorio Batista found a substitute for the gunnery item no longer manufactured by arms companies: the springs from retractable ballpoint pens.

The spring primer pushes an ingited wooden match into the powder to fire the cannon.

Historians say that the artillery was so loud at the battle of Stones River on New Year's Day 1862 that Confederate soldiers stuffed their ears with cotton left in the field from harvest time.

Things That Make Life Worthwhile

By HAL BOYLE

NEW YORK (AP) — Things that make life worth living:

Standing under waterfalls — and staying out of pitfalls.

Walking a dog and making friends with a pretty girl who is out walking a dog, too — and hoping to meet a nice guy just like you.

Successfully lassoing at age 12 a neighbor's cat after 20 unsuccessful tries, and then having to climb up a ladder to retrieve both the cat and the lasso from a tree.

Eating a breakfast of bacon and eggs over a mountain campfire.

The music of Mozart, the prose of Lafcadio Hearn, the lyrics of Francis Thompson.

The ebbing of pain from a tornoff knee scab.

Scoring the winning touchdown in a sandlot scrub football game under the admiring gaze of the only red-haired girl in the world.

Turning down an invitation to join a class in karate for overweight men over 40.

A trip to a far and picturesque country so far behind the times that a dollar bill there is a thing of value.

Cleaning a freshly caught fish and finding in it someone's lost wedding ring. How did it happen? What is the story behind it?

Going to 11 a.m. Sunday church services and knowing the pastor will cut short his usual long sermon against sin, because he has a golfing date with you at the country club for 12:15 p.m. sharp.

Wrapping up a Christmas present which you are sure is exactly what the person you are sending it to really wants most of all.

The sound of an old-fashioned steam locomotive hooting through the hills like an obedient dragon on a mission of good will.

Making candy in the kitchen with an old lady who brags that as a girl she made the best fudge in the county.

Listening to a grandfather clock chime midnight in an old house where you are alone and just reading the climax of a good ghost story.

The durable thread of love in a long and cheer-filled marriage.

For these and other benefits of breath and being, our thanks, Amen.

Fischer May Play Spassky

PARIS (AP) — Chess champion Bobby Fischer may play Boris Spassky in a rematch in Paris next year.

Stanley Rader, Fischer's attorney, is here sounding out the chances. He spoke of a million dollar purse for the winner, and from $150,000 to $200,000 for the loser. Fischer defeated Spassky in Iceland last year and plans a European tour early next year.

Junior Editors' Quiz on APPLE BUTTER

QUESTION: *What is apple butter?*

ANSWER: Apple butter is a delicious spread, frequently served at breakfast. It is also used to prepare snacks. Some people like it as a change from the citrus marmalades. It is nutritious since scientists consider apples among the best health foods, containing vitamin B and C. Cooking destroys only a small quantity of vitamin C.

Apple butter is made by cooking apple pulp to the state of a thick paste suitable for spreading. In preparing jams and jellies, a large amount of sugar is used, but with fruit butter, little or no sugar is added. When cooked on the top of the stove, fruit butter requires slow cooking and constant stirring to prevent burning. When cooked, the apple pulp thickens or jells since apples contain a large amount of pectin, a carbohydrate substance. Sometimes, apple butter is cooked in an oven at low heat. This method requires only occasional stirring and cider is added to the mixture to enhance the flavor. Apple butter is often flavored with spices, such as cinnamon, cloves or nutmeg. Different kinds of apple butter are prepared commercially. 9-5

BORDEN COUNTY COYOTES—The Borden County Coyotes have won their 8-man football district in each of the past three seasons and have a 38-3-2 record for the past four years. Although the competition will be stiffer this season, they are still the team to beat. Team members are, from left to right, bottom row, Larry Simer, Richard Smith, Darin Tucker, Jackie Lockhart, Bob McLeroy, Tommy Patterson and Joe Zant; middle row, Garland Williams, Monty Smith, Henry Oliverez, Jim McLeroy, Junior Oliverez, Creighton Taylor and Clifton Smith; and, top row, Assistant Coach Van Kountz, Rex Cox, Joe Hancock, Doug Isaacs, Steve Whitaker, John Anderson, Audrey Brummett, and Coach Bob Dyess. Not pictured are Jimmy Gray, Toby Sharp and Ben Thompson.

Borden County To Seek Fourth Straight Crown

GAIL—"A winning tradition is perhaps our strongest point," declared Coach Bob Dyess of the Borden County Coyotes as his team faces its opener with Wellman in Gail at 8 o'clock Friday night.

Although the Coyotes have a 38-3-2 record under Dyess during his four years at Gail, Borden County could have a tough time getting out of the strong 8-man district they're in this year.

"We're expecting strong competing from Smyer and Sterling City," Dyess said, also pointing out that every game will be a district game.

Borden County has won district the last three years. Under Dyess, they have also won bi-district twice and regional once. Last year, they lost to Goree in regional on first downs after the score and penetrations were tied. Goree went on to win the state crown.

The Gail-based crew was hard-hit by graduation last spring with several outstanding athletes, graduating, including Randy Hensley who gained 1,601 yards rushing his senior year and posted an 8.75 average per carry.

Fortunately, the Coyotes have a relatively large senior class again this year. They return 10 lettermen, including three offensive and three defensive starters.

Heading the list of returners are Audry Brummett, 186-pound senior guard, who made the first team all-state team last year, and Joe Hancock, 160-pound senior center-corner linebacker, who made second team all-state.

The other returning starter is junior halfback and defensive end Garland Williams—a solid 168-pounder who scored 44 points last season and gained 483 yards on 90 carries for a 5.3 yard average per carry.

Dyess said the battle for quarterback this season is between Rex Cox, 149-pound senior, who was backup quarterback in '72, and Monte Smith, 135-pound junior. Cox hit 17 of 31 passes for 183 yards last year. For Friday night's game with Wellman, Cox will be a starting end and Smith will be the starting quarterback. Cox also is the team punter.

In addition to Brummett, Cox, Hancock and Williams, other two-way starters against Wellman will be Junior Oliverez, 125, junior end and safety, and Steve Whitaker, 153, senior guard.

Doug Isaacs, 154, senior back, also will be in the starting offensive alignment. On defense, Henry Oliverez, 150, senior end, and Clifton Smith, 140, junior safety, also will make an appearance.

Clifton and Monte Smith are the only two starters who didn't letter last year.

Other numeral winners include John Anderson, 140, junior end, and Creighton Taylor, 111, sophomore end.

The other senior who didn't letter in '72 could help with the running chores. He is Jimmy Gray, 195, running back.

Other squadmen are juniors Jim McLeroy, 140, guard, and Toby Sharp, 189, guard, and freshmen Jackie Lockhart, 76, end; Tommy Patterson, 115, back; Larry Simer, 120, back; Richard Smith, 135, guard; Ben Thompson, 104, center; Darin Tucker, 91, back; and Joe Zant, 113, quarterback.

Dyess, a 1960 graduate of Eastern New Mexico University, will have a full time assistant in Coach Van Kountz, a 1957 graduate of Texas Tech. Kountz has scouted for the Coyotes the past four years.

"We'll use the T attack mostly and sometimes go into the I," said Dyess.

Dyess said the Coyotes will employ what he calls a gambling defense. They will go into a 4-4 alignment. They tried it last year for the first time and had good success stopping strong running teams.

"We are primarily a running team and we also will have a strong defense," Dyess said.

The schedule:
Sept. 7—Wellman
Sept. 14—At Dawson
Sept. 21—Smyer
Sept. 28—At Whitharral
Oct. 5—Open
Oct. 12—Klondike
Oct. 19—At Cotton Center
Oct. 26—Three Way
Nov. 2—At Loop
Nov. 9—Garden City
Nov. 16—At Sterling City.

(All games are district games; the ones with Garden City and Sterling City begin at 7 p.m., the others at 8 p.m.

ChiSox Blank Rangers 14-0 For 6th Straight

By HAL BOCK
Associated Press Sports Writer

In recognition of the fast-approaching football season, the Chicago White Sox scored two touchdowns complete with extra points against the Texas Rangers Tuesday night.

Playing baseball, the White Sox ran up a football-like 14-0 score against the Rangers with Carlos May contributing a two-run homer and Jim Kaat tossing a five-hitter.

It was Chicago's sixth straight victory and the 10th in the last 11 games for the White Sox, who've been using a rookie-dotted lineup. Freshman Bill Sharp led a 13-hit Chicago attack with three hits and two runs batted in.

Elsewhere in the American League Tuesday night, Boston nipped Baltimore 2-1 in 12 innings, Detroit edged New York 2-1, Cleveland overtook Milwaukee 5-4, Minnesota shut out Kansas City 6-0, and Oakland trimmed California 4-3.

The White Sox jumped Jim Bibby for five runs in the first three innings and then exploded for six runs in the sixth inning with May's 17th homer touching off the rally.

Red Sox 2, Orioles 1

Ben Oglivie's leadoff homer in the 12th inning boosted Boston to a 2-1 decision over Baltimore and cut the Orioles' first place lead in the American League East to five games over the Red Sox.

Tigers 2, Yankees 1

Rookie Ron Cash's first major league hit drove in Detroit's winning run as the Tigers trimmed the New York Yankees 2-1.

Cash, purchased by the Tigers from their Toledo farm club Tuesday, drilled a second inning single off Mel Stottlemyre, 13-14 to deliver Detroit's deciding run against the Yankees. Duke Sims had singled and raced to third on an error before Cash delivered his hit.

Twins 6, Royals 0

Bert Blyleven's four-hit pitching moved Minnesota past Kansas City 6-0. It was the eighth shutout this season, tops in the majors, for the Twins' right-hander, 17-14.

George Mitterwald's two-run double gave Blyleven a quick lead in the first inning. The Minnesota pitcher said that early edge helped. "I'm usually nervous before a game anyway and when we get a couple of early runs, I can really challenge them," he said.

Indians 5, Brewers 4

Frank Duffy's two-run ninth inning home run lifted Cleveland to a 5-4 victory over Milwaukee.

The Brewers took a 4-2 lead into the ninth but John Lowenstein's leadoff homer put the Indians within reach and then, after Charlie Spikes drew a two-out walk, Duffy tagged his dramatic shot.

A's 4, Angels 3

Oakland's Ken Holtzman became the third 20-game winner in the majors this season, besting California 4-3. He joins Wilbur Wood of the Chicago White Sox and Ron Bryant of the San Francisco Giants, who reached 20 earlier.

It marks the first time Holtzman has ever won 20 in a single season.

National League scores: Montreal 3, Chicago 2; New York 7, Philadelphia 1; St. Louis 4, Pittsburgh 2; Cincinnati 12, Houston 7 in 10 innings; Atlanta 3, San Diego 0; San Francisco 3, Los Angeles 1.

Martin Says He Lied

DETROIT (AP) — Billy Martin claims he lied about the incident which led to his being fired as manager of the Detroit Tigers.

Martin says he never told pitchers Joe Coleman and Fred Scherman to throw spitballs in a game last week against Cleveland.

Coleman and catcher Duke Sims, meanwhile, also say Martin didn't order spitters thrown.

"They had gotten together with Duke Sims in the dugout and decided to prove to the umpires that they (umpires) didn't know what a spitter was," Martin told one reporter. "The first I knew of it was when I saw Coleman wetting his fingers on the mound.

"Once that happened I had to stand behind my players," he continued. "I knew they'd be fined or suspended for what they had done and I couldn't let that happen. I needed them to pitch."

Martin told newsmen after last Thursday's 3-0 loss to the Indians' alleged spitball specialist Gaylord Perry that he had ordered the illegal pitches to bring the controversy "to a head."

Snyder Boosters Have New Spirit

Maurice (Mo) Hodges, athletic director and head football coach at Snyder High School, told Booster Club members last night that there is a new spirit in the Booster Club and that he appreciates their support. A large crowd attended the meeting in West Elementary Cafeteria last night.

Hodges stad he is proud of the well-rounded athletic program at Snyder High School. Coaches in the school system were introduced.

Dr. W.N. Jones, president of the Booster Club, pointed out that the Club will meet throughout the school year and support each sport in season. Milton Ham is executive vice president of the Club. The board of directors includes Dave Harlin (football), Bob Watlington (tennis), Jack Gorman (basketball), Joe Reaves (baseball), John Fagin (volleyball), Guy Sullivan (girls track), Howard Crenshaw (gymnastics), Frank Pruitt (track) and Cloyce Talbott (golf).

Coach Hodges observed that the Tiger defensive team dominated the scrimmage with Midland. He said they ran seven plays from the 15 yard line and gained only five yards. He also pointed out the offense is showing progress.

"We have a seasoned team this year," Hodges declared. The Tigers open their season at home at 8 o'clock Friday against Lubbock Dunbar.

Films of the scrimmage with Midland were shown, and Coach Tommy Echols gave a scouting report on Dunbar.

He said they were impressive in a scrimmage against Odessa Ector. Although the Panthers don't have a lot of depth this year, their first team is strong and they have good speed. They employ a five man front on defense and probably will attack Snyder's flanks. The Panthers also throw more this year than in the past. This means the Tiger defensive secondary will get a stern test in its first game.

Dr. Jones urged everyone "to wear black and gold" Friday night at the football game. He also urged parents and fans to form a line at the West entrance gate Friday night to cheer the Tiger grid team onto the field.

Cornhuskers Get Nod Over UCLA

NEW YORK (AP) — Better late than never, here is the first prediction of the college football season: New Mexico State 27, Drake 12.

The rest of the crystal-balling can't get any better than that...because that game was played last Saturday to open the college season. Hindsight is much easier than foresight.

At any rate, there are 23 games on tap this weekend. A word of warning: any resemblance between the predicted scores and the actual results is purely coincidental.

Last year's regular-season score was 487 right, 196 wrong and 14 ties for a .713 percentage.

The big game this weekend is the revenge clash between Nebraska and UCLA at Lincoln, Neb. A year ago, Nebraska invaded Los Angeles with a 32-game unbeaten string and hopes of becoming the first team ever to win three consecutive national championships.

UCLA ended that dream with a 20-17 upset on Efren Herrera's last-minute field goal.

"All of us recognize the fact that a year ago we were fortunate enough to upset Nebraska and break their win streak," says UCLA Coach Pepper Rodgers. "If it was the other way around, I know we would certainly be looking forward to a rematch—and from everything I hear and read, the Cornhuskers feel exactly as we would under the same circumstances."

It will be UCLA's Wishbone ground game—Kermit Johnson, James McAlister, Mark Harmon and soph Eddie Ayers—against the pin-point passing of Dave Humm, Nebraska's lefty quarterback.

The first legitimate prediction of the season...Nebraska 28, UCLA 14.

North Carolina State 42, East Carolina 27—N.C. State is 17th in the preseason rankings and also Nebraska's next opponent. Both sides potent on offense.

DISTRICT GOVERNOR VISITS—Kep Kutchell, left, of Littlefield, District Governor of District 2T-2 Lions Clubs, paid an official visit to the Snyder Lions Club during its regular luncheon meeting Tuesday. At right is Howard Harrington, president of the local club. Kutchell reported to the local club on Lions activities of the district and received reports on activities of the club here.

Second Career In Service Field

Career Corner

by Joyce Lain Kennedy

what job would you like to see explored in this column?

Dear Joyce: Thought you would be interested in my selection of a second career in a new and rapidly growing field. I have been appointed as the AIM volunteer consultant for Indianapolis, southern Indiana and southwestern Ohio. AIM – Action for Independent Maturity – is a division of the American Association of Retired Persons (AARP).

AARP is a nonprofit, nonpartisan educational service organization dedicated to helping mature men and women maintain a life of dignity, independence and purpose.

Its new AIM division is an opportunity for people in the prime of life (50-65) to do some pre-retirement planning. Many people don't think about this until it's too late, and then look back and wish they'd known what was possible years after. They wish they'd set aside a little money, taken better care of their health, or looked for interesting ways to use leisure time.

AIM members are eligible to use the many budget-stretching services sponsored by AARP and also receive Dynamic Maturity magazine and a series of guidebooks written especially for the pre-retired age group offering advice on ways to make an easy transition from working years to retirement years, and ways to enjoy independent living now.

In my new job, I'll serve as AIM's representative to organizations, government agencies and employers wishing to provide these services to their employes.

Certainly enjoyed our contacts while I was with the Legion. – **J. Edward Wieland, Indianapolis, Ind.**

Prior to his retirement recently as director of educational programs for the American Legion, Ed Wieland frequently checked with me (and other journalists) to make sure I was aware of new developments or publications which could benefit readers.

Now, after many years of promoting educational opportunities for young people and veterans, it would have been understandable if Ed had decided to "go fishing." Instead, he has chosen to use the expertise he's acquired to serve the other end of the age spectrum.

Not everyone, of course, wants or can afford a second career where the only paycheck is the satisfaction of knowing you have helped others. Looking through an issue of Dynamic Maturity that Ed enclosed with his letter, I found several case histories of mature people who have made profitable and enjoyable career switches.

As a single example, Carl Ulrich, 48, faced a tough decision last summer. He had a secure job with a large company with vested rights for a pension that could start as early as age 55. But he and his family had also developed an unusual sideline that they found fascinating – fossil hunting in the bluffs of southwestern Wyoming. The question was, should he retire early from his job and devote full time to the fossil digging business?

"I brooded about it for months," Ulrich is quoted as saying. "One day I would say to myself, 'Carl, better do it.' And the next day I would consider the security of my regular job and would say, 'Wait a minute, take another look at this.' It got to where I was really torn up."

Ulrich resolved the conflict by becoming a happy full-time fossil hunter. "I finally decided to quit my job," Ulrich says. "I said to myself, 'You won't miss the boat by retiring from something you don't want to do, to something you like doing. The boat is still ahead of you. Keep chasing it!'"

With adequate pre-planning, tens of thousands of Ed Wielands and Carl Ulrichs have successfully made new career waves.

Mitchell Is Sixty

NEW YORK (AP) — Former Atty. Gen. John N. Mitchell marks his 60th birthday today, but a spokesman would not say how Mitchell intends to celebrate. Next week he goes on trial in U.S. District Court here on charges of conspiracy, obstruction of justice and perjury.

Cotton Strike Possible

MEMPHIS, Tenn. (AP) — The world may be facing its first cotton strike, industry officials say, as the price of the fiber skyrockets and some American farmers refuse to deliver crops they pre-sold in the spring at low prices.

Trade groups say there is "miscontent" on the part of some growers—especially in Texas and Oklahoma—who have given notice they will not fulfill delivery contracts they signed in March and April, when their cotton was going for 30 to 31 cents per pound.

At the end of trading Tuesday on the New York Cotton Exchange, futures rose to 200 points and the October 1973 contract traded at a record high of more than 90 cents per pound.

"The present price level of U.S. cotton has been created by a convergence of factors unforseen by anyone in March—flooding, unusually strong export demand, shortage of synthetic fibers and low '72 carryover stocks," said Ben K. Baer, president of the American Cotton Shippers Association, an organization of cotton merchants who handle distribution on about 70 per cent of the American crop.

Earle Billings, executive vice president of the association, gave examples of some withholding actions by farmers who sold low and are now angry.

The Plains Cotton Cooperative at Lubbock, Tex., has been notified by a lawyer for eight large Oklahoma cotton growers that "they're not going to deliver," he said. "It's definitely going to the courts."

Test Your Skill...Win CASH PRIZES

HERE ARE THE RULES OF THE CONTEST

In each advertisement on this page you will find the contestants in a prominent football game being played in the country this week-end. Get an entry blank from one of the merchants who are helping sponsor this contest and whose message is on this page. Fill in your selection of the WINNING TEAM only . . .opposite the name of the firm on the entry blank. Then send your complete blank to FOOTBALL CONTEST EDITOR, THE SNYDER DAILY NEWS. Entries must be in the hands of the editor by 12 o'clock noon, Friday. Games ending in a tie must be specified as a tie or else it will be considered a miss.

If there is a tie for first place the winners will divide the cash money of $17.50 and no second prize will be given. If there is a first place winner and a tie for second place, the second prize winners will divide the money for the place. If more than two persons tie for second place, no second prize money will be awarded and the cash will be added to next week's prize. Tie for perfect score will split $50.00. There will be fun for the entire family. Only one entry blank will be permitted from any one person. More than one will disqualify all of the person's entries. Scores listed on the entry blank will have no bearing on the choice of the winner. Sign your entry blank and list your address and phone number — and watch for the story on next Wednesday's front page for the winners. Hurry now, and get your entry blank from one of the merchants on this page. The contest blank must be in your own handwriting. Employes of The Snyder Daily News and their families are not eligible to enter.

IT'S FUN! IT'S EASY! ANYONE CAN WIN! ENTER TODAY!
