The Scurry County Times

"YOUR HOME COUNTY PAPER"

VOLUME NUMBER 54 — SNYDER, TEXAS, THURSDAY, FEBRUARY 5 NINETEEN HUNDRED AND FORTY-TWO — ISSUE NUMBER 36

REGISTRATION SET-UP BEING FORMULATED

Five Community Registration Points Being Arranged for Convenience Of February 16 Draftees

As a final step in machinery oiling for the Monday, February 16 registration of an estimated 600 men in Scurry County, members of Scurry County's Selective Service Draft Board announce a school of instruction for volunteer registration workers will be held Saturday evening, 7:00 o'clock, in the district court room.

Board members announced Tuesday appointment of E. O. Wedgeworth, Fluvanna; Elmer Taylor, Snyder; A. C. Bishop Jr., Hermleigh; O. K. Davis, Dunn; and Paul Sweatt, Ira; to supervise registration February 16 in these five major county communities.

Scurry County men from 20 to 44 who did not register previously will be asked to register at one of the above designated points R-Day. The places named were so set apart for the convenience of county residents.

The draft board issued another appeal this week for volunteer workers to assist in the 20-44 age bracket sign-up. From 20 to 25 workers can be used February 16, and all should register as soon as possible with the central board's clerk, Ida V. Ellis.

Those who may not be able to register with Miss Ellis before Saturday evening, but who wish to volunteer their help February 16, are urged to attend Saturday evening's instruction school.

Scurry County's Selective Service Draft Board must report to state headquarters by Monday its readiness for the county-wide registration day. Volunteer assistants are thus urged to register for service as soon as possible.

Three From County Elected Directors on REA Board Monday

Reelection of M. L. Andress of Snyder and W. O. Moore of Hermleigh as Midwest Electric Cooperative directors for 1942, and naming of John A. Stavely, Fluvanna, as the third Scurry County director featured the annual Midwest membership meeting Monday afternoon in the district court room, Roby.

Other directors named at the Roby gathering included A. A. Aaron, Elmer Kennedy, Demp Kearney and C. E. Gregory.

Approximately 400 people from Scurry, Borden, Fisher and other nearby counties were attracted to the membership confab, including 192 registered customers, Trey Peeples, Midwest superintendent, says.

Total of 34 cakes was entered in the cake baking contest conducted among the ladies of this area. Following the cake baking contest, members and REA guests were served coffee and cake.

Sid Bruton Perfects Baler for Tin Cans

Sid Bruton was reported Wednesday to be making good headway in collection of scrap metals that have accumulated at the city dump grounds, southeast of town, for the past several years.

Bruton rigged up a tin can baling machine early this week, but is reported to be making repairs that will increase the weight of the equipment to a point where large bales of tin cans can be pressed into squares.

Your Exchange Office Moved.

Your Exchange, which has been operated since inception by W. K. and LaVohn Roberts, assistant, was moved this week upstairs in The Times building in the rooms formerly occupied by Lee Cotton Company. Sterling Taylor will be manager of the Snyder Exchange office.

Who's New In Scurry County

Dorothy LaVerne, daughter of Mr. and Mrs. Edward Y. Thompson, arrived at Snyder General Hospital January 22.

Mr. and Mrs. Ray Amos of Dunn, seven-pound four-ounce son, born January 21, [illegible] Amos is the former Freda Cox.

daughter for Mr. and Mrs. Cleo Tarter of Sweetwater, former Scurry Countians. Tarter was formerly superintendent of the Dunn schools.

[illegible]oel, six-pound one-ounce son of [illegible] and Mrs. Otho Nannie of Fort [illegible]th, in the local hospital January [illegible] at 2:00 p. m. Mrs. Nannie is former Fluvanna girl.

More Lonesome Soldier Boys Want Letters From Girls on Home Front

Another group of soldier boys asks The Times to say that they want letters from Texas girls. This time the message was brought by a local boy, George W. Clark Jr., who is home this week on emergency leave to visit here with his younger brother, Henry B., who has been dangerously ill in the local hospital, and his parents, the George W. Clarks Sr.

Introduction since war was declared of the six-hour leave rule in West Coast army camps cut the boys' fun to almost nil, Clark says. The thing that furnishes them the most enjoyment during these few hours of leave is to answer interesting letters.

Young Clark, who has been in the army the past nine months, received first training at Camp San Luis Obispo, between Los Angeles and San Francisco. He arrived here Sunday and will probably leave late this week.

Addresses of the soldiers are all the same, since the boys are all with the 40th Division. Letters addressed to them should read: Company F, 184th Infantry, A. P. O. No. 40, San Diego, California.

In the note brought in by Clark was the following message: "Attention gals!- These soldiers would appreciate and answer all letters you wish to write. No kidding!".

Imparted by Clark also was the information that letters from Texas girls would be particularly appealing to this group of soldiers, since none of his buddies has ever been to Texas. Handwriting of all eight of the service men is legible and really quite on the good side.

The guys in uniform requesting letters are the following: Private First Class "Blackie" Owens, Private Eugene Brundage, Private John F. Arp, Private Gerald L. Hays, Private Harold Almond, Private R. C. Tanguess, Private William T. Herrell and Private George W. Clark Jr.

All-Time High of 2,863 Poll Taxes Issued in County

Poll tax paying time for 1942 came to a stop Saturday evening at the county tax assesor-collectors office, with 2,863 poll tax receipts issued—a new all-time high for the county during the past several years.

Total of 2,863 receipts issued, plus the 53 exemption certificates made out and exemptions for voters over 65 years of age, will give Scurry County a voting strength of approximately 3,200 in the 1942 elections, Herman Darby, assessor-collector, states.

Prior to this year, previous high point in poll tax receipts recorded at the assesor-collectors office was marked up in 1940, when 2,827 receipts were certified. This year's payments exceed the figures two years ago by 36.

Exact figures on Scurry County voters over 65 years of age were not available from Darby's office, since voters past the 65th milepost do not need exemption certifcates to vote in the July primary in this county.

Work on Highway East of Town Goes Ahead at Nice Clip

Highway 15 construction activities this week in eastern Scurry County were concentrated from eight to 10 miles east of Snyder, where laying of base and select caliche is underway.

Heaviest placing of roadbed caliche is in the immediate vicinity of Mt. Zion Church, where the contractors, Thomas & Ratliff, are hastening work to bring the East-West roadbed up to required grade level.

Incidental grading and construction of drainage structures was pushed this week to a point one mile west of Midway. This represents work at least 12 miles east of the Highway 15 overpass.

Thomas & Ratliff state the caliche pit on the John Robinson place, and immediately west of Mt. Zion Church, is now furnishing various grades of the impure limestone for construction work. An elevating grader has been installed at the Robinson pit, as have hoppers, fuel and oil storage tanks and necessary bull dozers to keep the caliche worked as needed.

Beginning at the overpass southeast of town, and going eastward for eight miles, caliche on the East-West roadbed is reported up to grade level and ready for engineer inspection.

Drinkard Keeps Up First Car Tag Record

J. G. Drinkard, long-time county farmer southeast of town, kept up an established custom Monday morning of several year's standing when he purchased the first set of 1942 license plates.

Drinkard was issued license plate number F68-951, Herman Darby, county tax assessor-collector, reports.

Present state laws governing passenger vehicle license plates provides that 1942 plates, for example, may be placed on a car after March 1.

Scurry County car owners, the assessor-collector states, will have until April 1 to purchase new automobile license plates.

Juniors Select Class Rings

Mrs. Wayne Arnold, Frances Farr and Jewell Foster, sponsors, of Snyder School's junior class, report a junior class committee made selection Wednesday of class rings from Troy Price, Star Engraving Company representative. Total of 60 class members will get rings early in the spring as a result of this week's order.

Draftees Put In New Classes By Board Monday

Members of Scurry County's Selective Service Draft Board announce the following registrant classifications, made Monday evening at the board meeting:

Classification from 1-H to 1-A—Van W. Wood, order No. 884; Roy Clem Lacy, order No. 1052; Fred Belcher Hurd (colored), order No. 1188. Charles Franklin May, order No. 1103, was moved from Class 1-H to Class 1-B.

Classification moved from 1-A to 2-A—Reuben J. Richburg, order No. 213; William Lawrence Sumruld, order No. S-699; Z. B. Morrow, order No. 946; and James Willard Lane, order No. 1119.

Drep Charlie Gibson, order No. 1365, was transferred from Class 1-H to Class 2-A; and Winston Manuel Lemons, order No. 1142, was put in Class 2-B.

Class 4-F—Alfred Joe Wanjura, order No. 616, from Class 1-A; Luther Henderson Williamson, order No. 1078; Willie Collier Shook, order No. 1091; and Clyde Weems, order No. 1217.

Transferals from Class 1-A to Class 4-F—Elmer Shepherd Bryant, order No. 1230; Jalette Henry Armstrong, order No. 1254; Abel Dalton Higgins, order No. 1267; and James Carl Holladay, order No. 1403.

Daylight Time Will Be Topic at Meeting

Mass meeting of Snyder business men and merchants will be held this (Thursday) afternoon, 4:00 o'clock, in the district court room, at which time a decision will be reached whether or not to adopt daylight saving time.

If Snyder business firms fall in line with the daylight saving time schedule, they will need to run their clocks up an hour Monday morning, 2:00 o'clock. Opinions vary greatly as to adoption of the new time change, since such a schedule is primarily intended for defense areas of the nation.

Snyder School officials have already indicated that the new daylight saving schedule would be observed at school beginning Monday

SOUTH COUNTY GROUP SAVING SOIL AS COOP

Twelve Farms Coordinating Efforts As Part of Upper Colorado Soil Conservation Project

Coordinated plans of soil and water conservation have already been worked out on some 12 farms in the China Grove and Martin communities in accordance with a supplemental memorandum of understanding between the district supervisors of the Upper Colorado Soil Conservation District and the Soil Conservation Service of the United States Department of Agriculture, accoring to A. (Pat) Johnston, chairman, board of supervisors.

Four priority areas have been approved by the supervisors for planning by representatives of the Soil Conservation Service. These areas cover sixty farms in the China Grove, Dunn, Martin and Pyron communities in Scurry County, and the Murphy community in Borden County, Johnston stated further.

The local work unit of the Soil Conservation Service, which is assisting the district, has been increased to carry on this work. In addition to Haskell O. Beard, work unit leader, and Ola D. Mauldin, clerk, who have been here for the past few months, Doyle P. Hammack and Charles W. Geelan, agricultural engineers from Spur and Colorado City, respectively, and Glenn H. Mueller Jr., range surveyor from Post, have been added to the staff.

Johnston points out that the purpose of this staff will be to assist groups of farm and ranch owners and operators in preparing both immediate and long time plans for the conservation of soil and water upon land owned and-or operated by them. Such plans will consist of terrace systems, field arrangements, crop arrangements, water disposal systems, range surveys and stock pond development, and other practices which will bring about the conservation and improved use of soil and water resources.

For further information interested individuals are asked to contact Giles Bowers, H. M. Murphy, Nolan von Roeder, L. E. Long, the county agent's office or Soil Conservation office on the third floor of the courthouse, Snyder.

Core Tests Begun In County First of Week by Standard

Core test rig of Standard Oil Company of Texas was operating Wednesday southeast of Crowder School, and will make a number of tests in this section of the county before moving to other Standard-flagged parts of the county for exploratory operations.

In the Sharon Ridge oil field D. & R. Oil Company and R-Y Oil Company were awaiting clearance of permits from the OPM and OPC before doing any further drilling.

In fact, all drilling operations in the Sharon pool are at a standstill with the exception of the test being drilled on the I. B. Wade tract, southeast quarter of Section 141, by R. J. Byrd of Dallas.

Operation clearance for the Byrd No. 1 Wade test was recently received from the Office of the Petroleum Coordinator and Hav. H. Simons holds drilling contract for the well.

Something All of Us Can Do

March of Dimes Drive Functions Nicely in County

Acknowledging with sincere appreciation cooperation of clubs of the town, school children and individuals, Mrs. Henry Rosenberg announces that president's birthday celebration funds turned in to her amounted to $63.25. Mrs. Rosenberg, a vice chairman in the drive for funds, was in charge of women's activities.

Appeal was made to clubs of the town by letter, and their response was good, Mrs. Rosenberg said. The March of Dimes drive at the local school conducted by Mrs. Rosenberg with cooperation of school authorities netted $16.50. Contribution jars placed in drug stores and churches met with equally generous response, according to the chairman.

Clubs contributing to the birthday fund through Mrs. Rosenberg were the following: Alpha Study Club, $2.50; Scurry County Home Demonstration Council, $5; San Souci Club, $5; Art Guild, $5; Sine Cura, $5; Musical Coterie, $1; Ingleside Study Club, $1; Altrurian Club, $5; Woman's Culture Club, $1; Duce Bridge Club, $1.30; Friendly Fellows Forty-Two Club, $5; Thursday Afternoon Bridge Club, $1.

Excellent response greeted the birthday appeal for infantile paralysis funds during the local drive last week, and the leaders are truly grateful.

$33 Netted for Band With Play Tuesday

"It's Papa Who Pays," a triple-act comedy-drama, was presented Tuesday evening at Snyder School autditorium to a splendid crowd. Rose Marie Clawson and C. M. Kiker, play directors, report.

Of the $48.88 realized from the play, $33 was marked profit for the Tiger Band fund. Doyle Stokes, honor Thespian, was conceded to have turned in the evening's best performance.

Surfacing Job on Fisher Highway Stretch Awarded

Cage Brothers and L. A. Turner of Bishop were announced Friday by the State Highway Commission as low bidders, at $193,638, on the 11.3-mile stretch of Highway 15 in Western Fisher County.

Contract for Highway 15 improvement from the Eastern Scurry County line to a point five miles west of Roby calls for incidental grading, drainage structures, flexible base and double asphalt surface treatment.

Cage Brothers, former contractors on part of Highway 15 road work in Scurry County, were understood Wednesday to be rushing plans for beginning activities in Western Fisher within the next two weeks.

Scurry County Chamber of Commerce, East-West Highway Association and both city and county officials in this trade area have pressed for contract awarding in Western Fisher County for the past two years.

Official Ginnings of County 39,761 Bales

Figures furnished Monday afternoon by Ira R. Sturdivant, Scurry County government crop reporter, from the Department of Commerce, Bureau of the Census, reveals that 39,761 bales of cotton were ginned in the county prior to January 16.

Comparative figures from Scurry, and nearby counties, for the 1941 and 1940 ginning seasons, respectively, are listed as follows previous to January 16:

	1941	1940
Scurry	39,761	21,868
Fisher	39,352	24,725
Nolan	20,879	13,446
Mitchell	30,208	23,484
Dawson	52,820	32,482
Stonewall	10,131	6,471
Kent	11,591	3,990
Garza	15,005	4,885

Dunn Woman Dies After Autos Crash

$289 Reported in County Paralysis Fund Campaigns

That observances Friday evening of the president's birthday in Snyder, Ira, Fluvanna and other sectors proved financially successful is revealed by incomplete reports from J. C. Stinson, county celebration treasurer, showing $289.45 turned in to him through Wednesday.

The Junior Chamber of Commerce sponsored a dance Friday evening in Snyder School gymnasium which netted in the neighborhood of $115. Total of $111 from the dance was turned to Stinson through Wednesday. Evening of social gaiety was said to have been one of the cleanest affairs of its type conducted in Snyder.

Free motion picture show and other types of entertainment were offered Friday evening at Ira, where $38 in free-will offerings were reported.

Fluvanna School sponsored a motion picture show that netted approximately $10, reports show. A. B. (Boss) Baze, Scurry-Borden celebration chairman, reports half of the money collected will remain in Scurry County and half be sent to the National Foundation for Infantile Paralysis.

Tax Collections By City for Month Reported $11,122

Proposed city ordinance for assessing Southwestern Bell Telephone Company a street rental charge in Snyder was discussed at Monday evening's regular monthly City Council meeting. Following round-table talks on the matter, councilmen voted to defer further action until a later date.

Tax collections for January were reported at the $11,122.47 level, with most of the money received from collections slated for interest and sinking fund departments, councilmen learned.

Bills approved for payment Monday evening amounted to $1,856. Building permits for the past month reached $4,625.

Water collections for the first month of 1942 were reported at $1,953.22, and the city judge's report indicated total of $23.70 collected in fines.

Report of the city secretary, J. S. Bradbury, showed receipts for January touched the $5,487.73 level—most of which will be used for general fund purposes. Disbursements the past month were $2,911.97.

FFA and 4-H Club Show Winners Will Get Defense Stamps

Representatives of all Future Farmers of America chapters and 4-H Clubs in Scurry County met Saturday afternoon in the Scurry County Chamber of Commerce office and drafted plans for the annual FFA and 4-H Club Livestock Show Monday and Tuesday, March 9 and 10.

Premiums, according to R. G. Dillard, general superintendent, will be paid in defense stamps, and additional classes this year will include two classes of sheep and two classes of hogs.

Deadline for entries in the show has been set for March 1. It has not yet been determined whether first place show winners will be 1942 guests of the Fat Stock Show at Fort Worth.

J. M. Byrd, district supervisor for the Soil Conservation Service, will judge the livestock show.

Wiring Crew Moves Into County Today

Trey Peeples, Midwest Electric Cooperative superintendent, announced Wednesday that Walco Engineering & Construction Company will complete REA high line wiring in Fisher County today (Thursday), and move to Scurry County Friday.

Wiring operations for the Midwest C section in Scurry and Borden Counties will be pushed rapidly, Peeples says, once Walco men get here, and will result in approximately 350 new Midwest customers in the two counties.

Winston Buys Good Calves.

Winston Brothers, Snyder Hereford breeders, were reported this week to have purchased 21 head of registered Hereford cows with calves at side in this sector. Consideration was not given, but all cows are "straight bred" and are strong in the blood of the noted old bull Diamond.

BROTHER OF LOCAL WOMAN ALSO KILLED

Collision of Two Machines Results In Death to Four Persons Last Thursday Near Tuscola

Of the four persons killed last Thursday afternoon, 4:30 o'clock, in a head-on collision on the Tuscola highway, nine and one-half miles south of Abilene, one was Mrs. Ike Judkins, 59, long-time resident of the Dunn community, and another was Mike Kelly, 29, Tuscola groceryman and brother of Mrs. C. V. Morris, wife of Snyder's Piggly Wiggly operator.

Mac Jones, 22, of Tuscola, who was riding in a 1939 Nash driven by Kelly was killed instantly, and Mrs. Thomas A. McGee, 61, of Abilene was fatally injured.

Critically injured in the collision were F. L. Garrett, 50, Bishop farmer and brother of Mrs. Judkins and Mrs. Garrett.

The Garrett family party was returning from Wingate, where a new marker had been placed on the grave of their father, who died in 1901, and were pulling a trailer into which the old marble marker, weighing about 300 pounds, was loaded.

When the Kelly and Garrett machines collided, force of the impact threw the tombstone over both cars and onto the highway 60 feet away.

Mrs. J. H. Childs and Fred Essary of San Angelo, traveling behind the Garrett car, told state highway patrolment Paul Oder and M. L. Glasscock, who investigated the accident, that the Kelly car seemed out of control and was on the left side of the road when the cars collided.

Bodies of Mrs. McGee, wife of the McGee Candy Company proprietor, Mrs. Judkins and Kelly were taken to Laughter Funeral Home in Abilene. Jenkins-Hodge Funeral Home at Tuscola was in charge of arrangements for the Jones funeral Friday afternoon.

Kelly, who had operated a Tuscola grocery store for several years, was given a blood transfusion but failed to rally.

Funeral services for Kelly were held Sunday afternoon, 2:00 o'clock, at Tuscola. Snyder attendants at final rites included Mr. and Mrs. C. V. Morris and daughter, Collene, Mr. and Mrs. Harry Lee and Mr. and Mrs. Leighton Griffin.

Double funeral service was held in Abilene Sunday afternoon, 2:00 o'clock, for Mrs. Ike Judkins of Dunn and Mrs. Thomas A. McGee of Abilene. Services were held at the Highland Church of Christ, with Homer Hailey, minister, assisted by Paul Witt, officiating. Burial was in an Abilene cemetery.

Mrs. Judkins, member of the Dunn Church of Christ for the past 40 years, is survived by her husband; four sons, S. N. of Houston, Price of Camp Beaugard, Louisiana, Garrett Judkins of Houston and Private First Class Clinton Judkins of Losy Field, Puerto Rico; and 10 grandchildren.

Private Clinton Judkins flew to Abilene from Puerto Rico by plane, and arrived in time for the funeral. Transportation for Judkins was arranged by the personal service division of the Red Cross.

Threshing of Head Grain Is Underway

Half a dozen or more combines were reported Wednesday afternoon to be busy winding up threshing of hegari, milo maize and cane in fields around Hermleigh, Inadale and Wastella.

Field price for mild maize and hegari is said to be 70 to 75 cents per 100 pounds, with cane going at 60 cents per 100 pounds. Most of the grain is going to Sweetwater and Fort Worth markets.

Help Register!

If you can spare a few hours Monday, February 16, Mr., Miss or Mrs. professional worker, and want to help Scurry County's Selective Service Draft Board with registration of some 600 men, why don't you register with the draft board clerk, Ida V. Ellis, today?

You can attend a school of instruction Saturday evening, [illegible] details of [illegible] needed for the forthcoming R-Day. Did you know it will take, on an average, 15 minutes to register each man under Selective Service provisions? If 600 men are registered, this will mean 150 hours that somebody must be [illegible] to 10.

WITHOUT REVEALING MILITARY SECRETS, FORMER RESIDENT TELLS OF HARROWING TRIP FROM WAR-ZONE BACK TO STATES

Mrs. John Barry, the former Josephine Howell and daughter of Dr. R. L. Howell, long-time Snyder physician, arrived here Sunday for a visit with her father and other relatives after a trip around the world—trying to get home.

Mrs. Barry's visit in Snyder, however, was short lived, because she received a telegram Monday morning from her sister in Washington, Lake Howell, that a job was waiting her. Full story of Mrs. Barry's trip was carried in The Abilene Reporter-News as follows:

Sixty-three days at sea, in full kit and lifebelt day and night, unable to relax a single minute from the strain of living hourly expectations of the slither of torpedo or the screaming shell, without knowing the time of day or where your boat is heading—this is the common lot of seafarers in wartime as experienced by an Abilene woman.

She is Mrs. John Barry, the former Josephine Howell, home after three years in India. She landed at a Pacific coast port a few days ago, spent a day or two with a younger sister in Bakersfield, California, and came on to Snyder for a two-day visit with her father, Dr. R. L. Howell. After a brief stay with friends in Abilene, Mrs. Barry will go on to Washington where she will work either in the British embassy—she is a British subject by marriage—or in the war department. In Washington she will join her sister, Lake Howell, also formerly of Abilene.

Many of the details of the harried flight across the Pacific, expecting an attack at any moment, are blotted out by the necessity of keeping information from the enemy. The route home cannot be revealed—indeed, none of the passengers knew where they were at a given moment; but they did enjoy a double New Year, as their ship crossed the international dateline on that occasion. Three days out from the West coast, the passengers learned after landing, three submarine had sought to overtake their ship.

Mrs. Barry and her fellow-passengers were in Batavia, Java, when the Japs struck Hawaii, but they were not told of it until their ship was out to sea. They listened to daily BBC broadcasts for [illegible] minutes every day until the ship's officers decided the frequent reference to the time of day might give the passengers the means of figuring out their position—so the broadcasts were nipped. Several passengers, to be contrary, undertook to keep a chart of the vessel's route, but at the end of the voyage they found they had missed it completely.

"It wasn't so bad in the day time, up on deck, but when we went below to our staterooms in the darkness of the night we knew what terror was," Mrs. Barry says. "We never knew whether we would see the light of another day or not. Some of us got peeved at the short-spoken purser, because he seemed soured on the world and played rude jokes on the passengers—but later we found his sweetheart had been killed by the Germans, and then we quit disliking him. Almost everyone on the ship, most of them refugees, had some personal tragedy to bear, but they did not talk about it much. One missionary on the way home to America was an outspoken pacifist and said he wouldn't lift a hand against the enemy. A Dutchman who had lost his wife and children in the invasion of the Low Countries gave him a dressing down, [illegible] the pacifist could change his mind quick enough if the war came to America as it came to so many other countries. (Mrs. Barry has decided opinions about missionaries as a class, after three years of close-hand observation in India.)

"Happiest moment of my life was when we came into port and realized we were home again. It took a long time to get through the customs and they wouldn't let us out to eat supper, so we got a taxi-cab driver to bring us six hamburgers and six bottles of pop—and my hamburger tasted like ambrosia!"

Mrs. Barry left Abilene and sailed for England September 20, 1938. She spent some months there with the family of her husband-to-be, John Barry, and then went on to Bombay, where they were married. Her husband was with the British army's intelligence section in India but when war broke out he transferred from the British to the Indian army, as a warrant officer, and went off to duty outside India. Where he is now she does not know, but she hopes to be reunited with him when the war is over.

After her husband was assigned to work outside India, Mrs. Barry volunteered for work with the British army, [illegible] as a stenographer, and one of her prizes is a letter of high commendation from the commanding general, who praised her efficiency as well as her ability to guard military secrets. Before leaving Abilene in 1938, Mrs. Barry was office secretary for the R. F. St. John Motor Company for several years.

The WOMAN'S Page

Wednesday Party Observes Birthday

Ninth birthday of Earl Wayne Wade, son of Mr. and Mrs. Foy Wade, was the occasion Wednesday afternoon for a birthday party at the Wade home from 3:30 to 5:00 o'clock. Mrs. Wade was assisted by Mrs. Bruce Henry.

Outdoor games were enjoyed by the large group of Wayne's friends, each of whom brought him a birthday gift. Birthday cake and ice cream were served at tea time with Valentine favors to those present.

The guest list included: The honoree, Lynn Dillard, Gene Browning, Charles Wellborn Jr., Billy Dick Stokes, Harmann Niedecken, Manuel Hedges, Edwin Stahl Jr., Norman Inman, Betty Greer, Peggy Lynch, Lowell Bearden, Dwain Lloyd, Tommy Greer, Howard Evans, Ben Richardson, Kenneth Joe Ivison, Mitt Belsher, Glyn Holmes, Wayne Niedecken, John Gilliam, Martha Henry and Imogene Wade.

Ritz Special Continues.

Special offer on Charles of the Ritz revenescene cream continues through Saturday of this week, reminds Mrs. Margie McClinton, who is in charge of the cosmetic counter at Stinson Drug No. 1. This cream leaves the skin with a fresh, dewy appearance and aids in retaining skin softness longer, she says.

When a Child Needs a Laxative!

Your child should like this tasty liquid laxative and you should like the *gentle* way it usually wakes up a youngster's lazy intestines when given by the simple directions.

SYRUP OF BLACK-DRAUGHT contains the same principal ingredient which has enabled its older brother BLACK-DRAUGHT to give so many users such satisfying relief for so many years!

Perhaps that's why it usually gives a child such refreshing relief when the familiar symptoms indicate a laxative is needed.

SYRUP OF BLACK-DRAUGHT comes in 2 sizes. The introductory size is 25c—the economy size is 50c

First Materials for War Relief Arrive

First shipment of Red Cross foreign relief production materials arrived at the local headquarters early this week, according to Jeannette Lollar, county chairman. The downtown headquarters, on the southeast corner of the square, will be open each afternoon from 2:00 to 5:00 o'clock.

Calendar for volunteer workers to be in charge of the office each afternoon is now at the work center, and other workers are needed, Miss Lollar says. Women of the county are urged to go by the office and sign for the days they will be able to assist in the work center.

Initial material arriving early this week is woolen for making boys' short pants. Workers are requested to call at the headquarters, so that Scurry County's first quota may be sent to the national board as early as possible.

Altrurian Club Has Luncheon Friday

Altrurian Club members gathered at the home of Mrs. J. C. Dorward, president, Friday at 1:00 o'clock for a covered dish luncheon and Reader's Digest program. During the business hour, defense plans formed the keynote for discussion.

Mrs. Dorward led the club in making plans for buying bonds, doing Red Cross sewing and conserving metals. Members sewed on Red Cross garments during the entire meeting. Mrs. D. M. Cogdell directed the Reader's Digest panel program. The club joined speakers—Mmes. H. P. Brown, A. W. Waddill, W. R. Bell and R. L. Gray—in round table discussions at the close of panel talks.

Members attending the luncheon program were: Mmes. Bell, Hugh Boren, Brown, Cogdell, R. H. Curnutte, Gray, A. C. Preuitt, J. C. Stinson, H. G. Towle, A. W. Waddill and the hostess.

Three Hostesses for Music Club Luncheon

Mmes. Willard Jones, Ted Moser and Armor McFarland were hostesses last Wednesday for the monthly luncheon of Musical Coterie at the Jones home. Election of new officers, cantata practice and voting on defense measures featured the meeting.

Now the club sings the national anthem to open each meeting, and because of the ban on tires, the invitation to appear at the Settles Hotel, Big Spring, for a program April 22 was regretted. The local music study group will have charge of collecting records, instruments and books pertaining to music for army camp dayrooms. Contributions are to be left at The Times office.

Mrs. McFarland was elected president, to serve with other new officers for the next two years. She succeeds Mrs. J. R. Sheehan, president this year and last.

Other new leaders to take office in September are: Mrs. Jones, vice president; Mrs. Melvin Blackard, secretary; Mrs. L. A. Chapman, treasurer.

Practice on this year's Easter cantata, "The Promise of Easter" by Fred B. Helton, continues. Mrs. Novis Rodgers will direct the presentation, and Mrs. Blackard will be accompanist.

Program following the luncheon featured Mrs. Lida M. Hardy directing discussions and illustrations of "Harmony." Mmes. Rodgers and Blackard played as a duet "Hungarian Dance No. 5" by Brahms; Mrs. Boren sang "To Evening Star" by Wagner, accompanied by Mrs. Rodgers; Mrs. Jones played an arrangement of "Love's Old Sweet Song;" and Mrs. Blackard's piano number was "Pizzicato" by Debibes.

Mrs. Boren will be next hostess to the club, with Mrs. Rodgers assisting, for a luncheon February 25.

J. L. Pattersons Feted On Anniversary

Mr. and Mrs. J. L. Patterson, longtime residents of the Pyron community, observed their Golden Wedding anniversary over the weekend at their Pyron home with a reunion of three children and five grandchildren.

A family dinner climaxed the celebration, and the pioneer county [illegible] gifts. The occasion also marked the 76th birthday celebration for Patterson, whose birthday fell on Monday.

Present were Mr. and Mrs. John Patterson and daughter, Merilyn; Mr. and Mrs. Weldon Patterson and daughter, Shirley; Mr. and Mrs. Buford Patterson and children and Buford Patterson and children, Patsy, Joan and Buford Patterson Jr., all of Sweetwater.

Cotton Beneath

Among the smartest of the new cotton undergarments designed for the college miss is this tattersall check pique girdle with matching bra. The National Cotton Council and Cotton-Textile Institute report that these new cotton undies can be sent to the laundry along with other cottons.

Ira P-TA to Meet For Study Thursday

Ira's Parent-Teacher Association will hold its next meeting Thursday of next week, February 12, at 4:00 o'clock in the afternoon, announces Mrs. E. W. Baldwin, president. All members are urged to attend, and visitors are always welcome, she says.

Mrs. Lewis Dunn is scheduled to be in charge of Thursday's study of "Citizenship, Your Challenge." "It has been said that defense begins at home," Mrs. Baldwin reminds Ira people, "so let us get together to study how we may best help defend our country."

"Today's objective—the preservation of the democratic way of life—is one that must stir into purposeful action any person to whom the interests of childhood and youth are important," the leader continues. "It is our children who will profit by the victory or suffer from the defeat of this priceless possession, democracy. The Ira association is putting its shoulder behind the wheel and doing its bit toward preserving the country's democracy."

San Souci Guests Of Mrs. J. R. Hicks

Members of San Souci Club were guests of Mrs. James Ralph Hicks Tuesday evening for regular meeting of the bridge group. Mrs. Wayne Boren was the only guest. Defense stamps for high score went to Neoma Strayhorn, and Hattie Herm received the traveling prize.

A salad course with cake was served at the close of bridge play to the guest and members, as follows: Mmes. Lucile Strayhorn Dougherty, Pat Bounds, Herman E. Doak, Henry Rosenberg and Ruth Saunders, Misses Hattie and Gertrude Herm, Faye and Myrtle Harrell and Edith Grantham. Next meeting of the club will be with Mrs. E. S. Anderson.

Peggy Lynch Honored On Ninth Birthday

Peggy Lynch, daughter of Sheriff and Mrs. John Lynch, was honoree Friday from 3:30 to 5:30 o'clock at a party, celebrating her ninth birthday. Mrs. Lynch was assisted with the party by her older daughter, Kathrine, her son, John Terrell, and Mrs. J. B. Turner.

Guests brought gifts for the nine-year-old honoree, and after games were enjoyed, the birthday cake was served with lemonade Valentine candy and Valentines were party favors.

Attending were: The honoree, Sandra Jean Josephson, Maxine McClinton, Clarice McGlaun, Dewey Faye Everett, Laverne and Frankilene Arnett, Freida Whitehurst, Arleth and Wayland Freeman, Glynetta and Walter Britton, Manuel and Ramon Hedges, Joan and Nancy Johnston, Betty and Tommy Greer, Sam Bernard Rosenberg, Robert Minton, Gene Browning, Virginia Allbright, Ben Richardson and Sidna Gayle Turner.

Winstons to Attend Wedding in Mexico

Most interesting and probably even most cordial invitation received by local people in recent years is being shown by Winston Brothers of Snyder to a wedding February 14 in Chihuahua, Mexico. Included with the invitation are passports into Mexico for the local people, who say they plan to attend.

The wedding will be that of Maria Olivares and Edwardo Guerrero, son of General Antonio A. Guerrero, a Mexican army officer and cattle dealer of wide renown. The Winstons have sold Domino Return Herefords to General Guerrero the past two years, and another shipment is contracted for November.

The invitation, several times larger than the usual wedding bid, holds announcements made by parents of both Guerrero and Senorita Olivares. Centered at the bottom of the double sheet are details of the planned celebrations, and enclosed was a reception card.

The wedding will take place at the Sanituario de Nuestra Senora de Guadalupe in Chihuahua, located in the state of Chihuahua, Mexico. Time on the invitation is 20:30, which is most any time to most local people. Persons familiar with the 24-numbered clocks in Mexico would be able to tell the Winstons when to go to the wedding.

General Guerrero's vast known influence in Chihuahua and stories concerning the usual elaborate details for wedding festivities in Mexico combined with the Winstons' genuine respect and friendship for the Mexican army man point toward an interesting experience when the local people attend the affair. In fact, they wouldn't miss it.

Mrs. W. J. Ely Is Hostess to El Feliz

Mrs. W. J. Ely was hostess at the last meeting of El Feliz Club. Four guests and eight club members enjoyed the afternoon's forty-two games and tea time refreshments of ice cream, cake and tea.

Guests were Mmes. W. H. Cauble, H. J. Brice, L. G. Ely and J. Nelson Dunn, and the following members attended: Mmes. J. E. LeMond, Sidney Johnson, Joe Strayhorn, W. G. Williams, H. L. Vann, I. W. Boren, W. E. Doak and J. W. Scott. Mrs. L. D. Green will be next hostess.

"Grouchy" Husbands

and wives, may be suffering from aggravating bowel gas, sour stomach or headache, caused by spells of constipation. Try ADLERIKA. It effectively blends 5 carminatives for relief of gas pains, and 3 laxatives for gentle, quick bowel action. Your druggist has ADLERIKA.

Stinson Drug Co.—Irwin Drug Store

PERSONALS

Mrs. H. T. Sefton was in Plainview Sunday to spend the day with her mother, Mrs. W. A. Griffith, who is dangerously ill.

Cyrella Fish, daughter of Mr. and Mrs. C. E. Fish, has completed her courses at Draughon's Business College, Lubbock, and has been working in the local draft board office the past few days.

Raymond Duke and C. W. Stimson Jr., local national guardsmen with Company G until the past few months, have been recalled to duty. The two reported to Camp Wolters, Mineral Wells, and since have been stationed back at Camp Bowie.

Melvin Duke of Pecos visited here with his mother, Mrs. R. E. Duke, last week.

Mrs. L. Y. Duke of Amarillo is on an extended visit here with her mother, Mrs. G. L. Autry. Mmes. Duke, Autry and R. T. Duke and Danny Ray Ezzell visited Saturday with Mrs. D. E. Clark at Ira. Mrs. Autry and her Amarillo daughter remained there to visit other relatives during the week-end.

Mr. and Mrs. J. E. Trevey of Independence, Missouri, arrived Saturday for a visit with relatives in Snyder and in the Sharon Ridge community.

Mr. and Mrs. Herman Blakely, Wayne and R. L. Blakely were Sunday guests of Mr. and Mrs. Joe Clinkenbeard and son, Earl, Sunday.

Mrs. Lora Miller, Mrs. R. C. Miller Jr. and son; Richard, and Mrs. Melvin Stoker of Abilene are spending this week-end with the Forest Wade family in Clovis, New Mexico.

Frances Head Tops McMurry Honor Roll

Frances Head of Snyder topped the McMurry College honor roll for the second consecutive time this year, according to college officials, who released the list following enrollment for the new semester last Monday. Kay King of Snyder is also listed among the honor students this semester.

Determined by grade points—a grade of A earning 12 points and a B gaining nine points—Miss Head amassed 69 points and Miss King 51. Both are graduates of the local high school, Miss King the daughter of Mr. and Mrs. W. P. King and Miss Head the daughter of Mrs. Pearl Head.

Duce Club Party Is at Rube Lee's

Rube Lee was hostess last Thursday evening to the Duce Bridge Club. High score award of defense stamps went to Johnnie Mathison. Dainty refreshments were passed at the close of bridge games by the hostess and her mother, Mrs. W. B. Lee.

Mmes. Bob Davenport and C. L. Harless Jr., both of San Angelo, were the only guests, and members attending were: Miss Mathison, Allene Curry, Jeannette Lollar, Frances Boren, Helen Cauble, Mmes. R. C. Miller Jr., Buster Curtis, Buck Williams, R. M. Phillips, Loy Logan and Sam Joyce.

Mrs. Logan will be hostess to the club at its next meeting, entertaining in the Curtis home.

Birthday Dinner Is Compliment to Three

Mrs. J. T. Ramsey, her son-in-law, Howell McClinton, and his brother, Herman McClinton of Lubbock, shared honors Sunday at a birthday dinner given by Mrs. Howell McClinton. Guests arrived from Lubbock, Sweetwater and Scurry County to honor the three with an enjoyable celebration. Gifts were brought by the attendants.

Among them were: Mr. and Mrs. Jay Ramsey and children of Sweetwater; Mr. and Mrs. Herman McClinton and son, Randall, Mr. and Mrs. Joe McClinton and Mr. and Mrs. Oliver McClinton, all of Lubbock; Mr. and Mrs. Charlie Noble and daughter, Mary Nell, Mr. and Mrs. Jack Ramsey and son, Don L., Mr. and Mrs. A. P. Biggs and daughter, Billie, Mr. and Mrs. Audry Head and children, Mrs. J. T. Ramsey, Gus McClinton and the Howell McClintons and daughter, Maxine, all of Snyder.

Civil War Verse Reviewed at Club

Mrs. Frank Weaver was presented Monday evening before Altrurian Daughters Club in an entertaining review of the familiar Civil War poem, "John Brown's Body" by Stephen Vincent Benet. The club members were guests of Rube Lee.

Introduced by Mrs. J. D. Scott, program director, Mrs. Weaver took the Civil War story through the four years of the war, touching on the lives of four girls mentioned in "John Brown's Body." Only guest for the program was the hostess' aunt, Mrs. C. C. Ligon of Eastland.

Refreshments were served buffet from the dining table, centerpiece for which was an arrangement of yellow spring flowers and burning candles. Members present included Mmes. Scott, Weaver, P. W. Cloud, Herman Darby, Jack Dennis, Harry Ward, Harold Brown and Herman E. Doak, Thelma Leslie, Jeannette Lollar, Edith Grantham, Estella Rabel and the hostess.

Baptist Women in Weekly Bible Study

Baptist Woman's Missionary Society met at 2:30 Monday afternoon at the church for regular Bible study and a business session. Mrs. John DeShazo, Bible instructor, used for her devotional I Corinthians 13, for a beginning of Bible study.

The director taught the first chapter of Genesis, and the March 2 day of study will include the first 28 chapters of Genesis.

Mrs. Vernon Shaw, president, was in charge of the business session, during which committee reports were heard. Plans are already being made for annual observance of the Week of Prayer, designated this year as the first week in March. Nineteen women attended the Monday meeting.

Sykes Curry of Hobbs, New Mexico, and Kenneth Snyder of Sweetwater were guests of Mrs. A. M. Curry here Friday evening. Both left early Saturday, Curry en route to East Texas on business.

Mr. and Mrs. John Bayouth spent the week-end in Memphis with relatives and friends. The Bayouths returned Sunday evening.

February 16 Registration to Include Men Fitted for All Types of Defense

Estimated 600 men in Snyder and Scurry County from 20 to 44 years of age who will register Monday, February 16, in the county-wide R-Day are doubtless anxious to learn something of the classes the new draft division will have.

Men in the 20-44 year age bracket who register February 16 will include all who did not register in the first draft October 16, 1940.

Here are the four classes that will result from the February 16 registration:

CLASS I— Available for Military Service.

1-A: Available for general military service when found acceptable to the Army.

1-A-O: Available for non-combatant general military service when found acceptable by the Army. (This applies to conscientious objectors, who will work in the Army but don't want first-line duty.)

1-B: Available for limited military service when found acceptable by the Army. This class consists generally, of those who have some slight physical defect.

1-B-O: Available for non-combatant limited military service when found acceptable by the Army.

1-C: Member of the land or naval forces. (A registrant who volunteers for service is placed in this class.)

CLASS II.—Deferred by Reason of Occupation.

II-A: Men necessary in their civilian occupation. "Necessary" is defined as essential to the national health, safety, or interest. These deferments are for six months only, and at the end of six months the men must again convince the board that they cannot be replaced and that their induction would be harmful to the national health, safety, or interest. Their empoyers also must convince the board that reasonable attempt to replace the men was made.

II-B: Men necessary to the war production program. Deferred for six months only. Same conditions apply as in II-A. College students preparing for a "necessary" occupation are deferred in this class.

CLASS III—Deferred by Reason of Dependency.

III-A: Men upon whom one or more dependents look for support. Boards are instructed to determine all questions of Class III-A with sympathetic regard for the registrant and his dependents. Dependents may be wife, child, parent, grandparent, brother, sister or a person under 18, or a person of any age who is physically or mentally handicapped and whose support the registrant has assumed in good faith.

CLASS 1V—Deferred for Miscellaneous Reasons.

1V-A: Men who have completed three years or more military service. (This classification not used in war time.)

1V-B: Official deferred by law.

1V-C: Non-declarant alien.

1V-D: Minister of religion or divinity student.

Available for work under civilian direction.

1V-E: Available for general service in civilian work. Conscientious objector.

1V-E-LS: Available for limited service in civilian work. Conscientious objector, usually with some physical defect.

Deferred by reason of being unfit.

1V-F: Morally, physically or mentally unfit. Morally unfit means the man has been dishonorably discharged from service or convicted of a heinous crime, who is a chronic offender, or who has served a prison term of more than one year. Physically or mentally unfit means he is found to have a serious defect which cannot be remedied.

Preaching at Bison.

Leaders of the Murphy community announce that H. G. Niedecken will preach each Sunday morning, 11:00 o'clock, at Murphy School. Residents of Murphy and nearby communities are urged to hear the Snyder man. Members of the Niedecken family will render musical services in connection with preaching.

Construction of freezer locker plants is increasing rapidly in Texas, California, Mississippi and Kansas.

Farmers to Conserve Tires in County as Part of Economies

Scurry County farmers believe prevention of tire trouble on the 1,820 passenger cars and pickups on county farms is as important as its cure, according to George J. Brumley, chairman of Scurry County U. S. Department of Agriculture war board.

Farmers throughout the county are already exerting caution to see that foreign matter is kept from tire treads, Brumley says. They are endeavoring to keep all car tires free from glass, grease and oil, rims straightened, tires and tubes shadowed from sunlight, and cracked tires properly painted and plugged.

Certificates for new tires may be issued for tractors, farm implements and trucks to haul farm products directly to market, the county USDA war board chairman states, but new tires cannot be obtained to transport farm products to ultimate consumers.

Recapping, retreading and vulcanizing tires on automobiles and farm implements are other precautionary measures Scurry County farmers may use in preventing tire shortages. Brumley urges farmers to keep all car, tractor and pickup tires up to par so far as correct air pressures are concerned.

Many of Licenses Held by Motorists Not to Be Renewed

Attaches at the county tax assessor-collector's office remind Snyder and Scurry County motorists this week that many of them holding drivers licenses need not worry about renewing the licenses ahead of the date set by the Texas State Department of Public Safety.

Drivers licenses with numbers from 450,001 to 900,000, it is pointed out, must be renewed by March 31, 1942. These numbers began re-licensing January 1.

Motorists holding drivers licenses with numbers ranging from 900,001 to 1,350,000 are advised such licenses will be good until June 30. Renewals for such numbers will begin April 1, County Tax Assessor-Collector Herman Darby states.

Then, of course, motorists possessing drivers licenses with numbers above 1,350,000 will find such documents good until November 1, 1942.

Clinkenbeards Have Two Boys in Service

Mr. and Mrs. Joe Clinkenbeard of the Turner community have two boys that are now in the armed forces of the United States.

Private First Class Earl Clinkenbeard, who visited his parents over the week-end, has been a Company G, 142nd Infantry member over a year.

J. W. Clinkenbeard, a 1940 graduate of Snyder Schools, recently enlisted in the army, and is now stationed at Will Rogers Field, Oklahoma, with the 720th Ordnance Department.

Interesting Visitors.

Mr. and Mrs. Carl F. Bledsoe of Chicago, Illinois, and Mrs. Roy Douglas of Fort Worth were interesting visitors with the A. C. Preuitts and Rev. and Mrs. M. W. Clark here the first of this week. The Chicago man, a native Texan, had not been back in a number of years, and his wife, who had never before visited in Texas, were thoroughly delighted with the easy ways and manners of West Texans. The visitors spent last week-end with the Bledsbe's son, Robert, who is stationed with the United States army at Camp Wolters, Mineral Wells, and left Snyder in time to spend this week-end there.

Will Pick Cotton Maid Tomorrow

Chosen to serve as chairman of judges of the 1942 Maid of Cotton contest at Memphis February 8 is Harry Conover, noted New York modeling authority. Mr. Conover is shown above with his chief consultant, Jane Beardslee, reviewing photos of his much-sought-after models.

The girl selected by Mr. Conover as Maid of Cotton will make a 10,000-mile air tour of the United States, visiting more than 30 major industrial centers where she will model a complete wardrobe of cotton garments designed for women working in defense industries.

J. W. O'Bannon and Truett Barber Talk to 200 at Teacher-Trustee Meet

Unusual from the viewpoint of interest, attendance and appearance on program of all scheduled speakers highlighted the annual Scurry County teacher-trustee banquet, staged Monday evening in Snyder School gymnasium.

Pat Bullock, master of ceremonies for the gathering, reports attendance exceeded 200 people, including an aggregation of 75 trustees from county schools. Attendance figure Monday evening reached an all-time high for teacher-trustee gatherings.

Cardinal Band of the Hermleigh School furnished a snappy concert before and during the banquet, which was the first major event of the evening.

Snyder's Parent-Teacher Association, directed by Mrs. Ross Blanchard, and the women of Snyder's School lunch room project were responsible for the abundant banquet supper. Menu included chicken, salad, apple pie, ice cream, coffee and hot rolls—much to the delight of such school chiefs as E. L. Farr, E. O. Wedgeworth, O. K. Davis, A. C. Bishop Jr., Frank Andrews and others.

Honorable J. W. O'Bannon, director of the department of high schools for the State Department of Education, Austin, brought attendants a heart-to-heart talk on "Our Responsibility as Teachers and Trustees." School faculty members and trustees labeled the O'Bannon address one of the best given in this area.

Truett Barber of Colorado City, 32nd District attorney, spoke on "Our Responsibilities in National Defense," and stressed deplorable conditions that would exist in post-war Texas schools and other states of the nation if people do not unite in purpose, mind and purchase of defense bonds to whip Hitler and other dictators.

Closing talk of the evening was given by Anthony Hunt of Abilene, District 8 deputy state superintendent, who urged school men and faculty members to guard carefully against making rash statements.

"Especially should we, as loyal Americans," Hunt emphasized, "be cautious to make caustic remarks about our government and public officials. We should also guard against letting hatred crop up against alien peoples."

Besides the Hermleigh School, Fluvanna School furnished some entertainment numbers and Mrs. Merton Noel gave a violin solo. S. L. Morgan offered program invocation, and benediction was pronounced by Silas Davenport of Ira Schools.

Peanuts rank as one of the richest food sources of thiamin, or vitamin B1. They also contain abundant phosphorous and fair amounts of calcium and iron.

Fair Catalogs for Abilene Spring Show Received in County

Edward S. Hyman, county agricultural agent, and vocational agriculture instructors of county schools received this week catalog premium lists of the annual West Central Texas Future Farmers and 4-H Club Livestock Show, which will be held in Abilene Monday and Tuesday, March 2 and 3.

R. R. Blankenship, chairman of the agricultural committee of Abilene Chamber of Commerce, says the FFA and 4-H Club show will be open to boys in Scurry, Jones, Runnels, Shackelford, Stonewall, Coleman, Coke, Fisher, Nolan, Mitchell and Taylor Counties.

Show officials include: Knox Parr, Taylor County agent, superintendent of the fat lamb division; J. I. Moore, general superintendent; Bill Coalson, superintendent of the swine division; E. D. Steele, superintendent of the capon division; and Tom Henry of Tuscola, superintendent of the baby beef show.

Davenport Sells Calves.

Dr. R. G. Davenport, owner of the well known Keystone Ranch east of Pyron and just over in Fisher County, reports the sale of 175 head of steer calves on contract to Soi Weatherby for 12 cents per pound. Dr. Davenport, as many Scurry County people recall, was a practicing physician in Snyder many years.

A lot of people create their own lack of opportunities.

LOOSENS UP THICK, CHOKING PHLEGM OF
BRONCHIAL ASTHMA!

Spend 45c today at Stinson Drug Company, Irwin Drug Store or any drug store for a bottle of Buckley's CANADIOL Mixture (triple acting). Pour yourself a teaspoonful, let it lie on your tongue a moment, then swallow slowly. Feel its instant powerful, effective action spread through throat, head and bronchial tubes. Start at once to loosen thick, choking phlegm, making breathing easier.

No claim is made that Buckley's is a cure for Chronic Bronchitis or Asthma but sufferers often find Buckley's CANADIOL Mixture (the largest selling cough medicine in all Canada) starts right in to quiet coughing spasms and loosen up that choking phlegm which seems to clog the tubes and makes breathing difficult. It helps many to get a better night's rest.

Well, That Gift Hunk of Metal Is Brought to Town

Remember the two-ton McCormick Deering tractor that J. Ed Clarkson of the Turner community donated to the Red Cross week before last, on condition the iron horse be towed into Snyder by some public spirited organization free gratis?

In response to this situation, Johnson Motor Lines, through J. R. Reeves, Snyder manager, sent a truck out Monday afternoon and brought the two-ton machine into town, R. G. Dillard, Red Cross war relief campaign chairman, announces.

Once the gift to the organization of charity was safely placed at a junk yard, Dillard decided to sell the machine "as is," due to the difficulty of obtaining someone to dismantle the tractor.

Dillard also announces the gift of a 1,000 pound boiler from Wade's Bakery for the Red Cross. Both the tractor and boiler will be sold as scrap metal and proceeds given the Red Cross war relief campaign.

AAA Official Visits Snyder.

Jack B. Hall, senior administrative officer for AAA, visited last Wednesday with the county AAA office officials, and reports all 1942 Triple A work to date is "exceptionally satisfactory." Hall said Scurry County was ahead of many other West Texas counties in 1942 AAA detail operations.

Beware Coughs from common colds That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

FRANK SCOFIELD SAYS SALE OF STAMPS, BONDS IS IMPERATIVE

State Administrator Speaks at Rat To Legion Hut Drive Here Thursday Evening

"Never before in the history of the United States has there been a greater need for unity of purpose, coordination and unity of buying defense bonds and stamps," Frank Scofield of Austin, state administrator for defense bond and stamp sales, said in addressing a gathering of city, county and Scurry County community leaders last Thursday evening in the Will Rogers American Legion hall.

The state administrator stressed the fact, "America suffered a far greater defeat at Pearl Harbor than the populace would ever know. Our purpose in selling defense bonds and stamps," he said, "is to insure the fact this will never happen again."

Scofield was introduced by Pat Bullock, representative of the 118th District, who gave some pertinent preliminary remarks. County Judge Sterling Williams spoke briefly, and said, "American had lived in the sunlight of the earth's greatest civilization. Now that our American way of life is threatened, we must accept this challenge to buy defense bonds and stamps to our limit."

Hugh Boren, county chairman of defense bond and stamp sales, stressed the fact bond and stamp sales through Thursday, January 29, for the New Year totaled in excess of $56,000.

Boren expressed the belief Snyder and Scurry County would go over the top this year in reaching the minimum quota of $371,000, and reminded Snyder business men, merchants, civic leaders and Scurry County community representatives that sales for each day of January through the 29th, amounted to $1,890.

Scofield declared that the United States was undertaking, in 12 to 18 months, what Germany had taken 20 years to accomplish in the way of armaments. In other words, that U. S. Treasury officials said Germany had spent the gigantic sum of $240,000,000,000 during the past ten-year period getting ready for the present war, compared with $19,000,000,000 for the rest of the world.

Estella Rabel, county home demonstration agent, stated Scurry County's Home Demonstration Council would count it a privilege to bear a part of the defense sales drive in showing rural women of the county urgency of the present situation.

Schools of the county were represented by Superintendents Paul Pruett of Ira, E. L. Farr of Snyder, O. K. Davis of Dunn and Frank Andrews of Fluvanna.

Organizations represented at the Legion Hut defense bond and stamp rally included:

Mayor H. G. Towle and councilmen for the City of Snyder; J. C. Hayward, H. J. Brice and E. L. Farr for Scurry County's Selective Service Draft Board; R. G. Dillard and directors for the Scurry County Chamber of Commerce;

Judge Williams and others for Scurry County; Simon Best for city officers; Estella Rabel for county home demonstration agent's office and county home demonstration clubs; Commander A. B. (Boss) Rose and others for Will Layne American Legion Post; A. D. Erwin, A. C. Alexander and A. J. Cody for Snyder National Bank;

Ivan Joyce, W. J. Ely and A. W. Arnold for ginners of the county; Harrie Winston for the West Texas Chamber of Commerce; J. C. Ezell for Sweetwater Producing Credit Association; and leaders for rural Scurry County communities.

Members of the county defense bond and stamp committee had charge of informal arrangements for the bond rally.

Music Club Seeks to Get Music for Boys

Scurry County people are asked by the Snyder Musical Coterie, women's music study group, to contribute to the pleasure of service men with a love for music. An appeal is made by the club for second hand but usable books of music, sheet music, records and instruments to be placed in daytooms at army camps.

National agencies have requested the local club to be in charge of accepting the donations in Snyder and Scurry County. Local people who have such articles may leave them at The Times office, or if they will telephone the office, a member of the music club will call for the donations.

SAVE! A MOTOR TUNE-UP PREVENTS WASTE

Get maximum mileage from every gallon of gasoline you buy—plus top power, pep and performance. A motor tune-up makes starting easier, too.

FOOD GOALS IN COUNTY BEING UPPED IN 1942

Loans Being Made Available for Producers as Part of Increased Food Demand Program

Production goals for food vitally needed in the war effort have been boosted, making it necessary for farmers of small means, who heretofore have been limited in lack of livestock, machinery and other productive facilities.

C. L. Brumley, chairman of the U. S. Department of Agriculture war board in Scurry County, said that productive efficiency of these small farmers and ranchers is being increased by means of Farm Security Administration loans. This is one of the avenues of attack on the food problem being developed in cooperation with the county USDA war board.

"Many of the better equipped, commercial farmers have been producing relatively efficiently," Brumley explained, "but a vast supply of unused, or poorly used, productive capacity exists on many small farms.

"Loans are being made by the Farm Security Administration for food, seed, fertilizer, cows, hogs, baby chicks, housing and equipment to take care of livestock and facilities to increase crop production," he said. "Farm laborers, tenants, small owner-operators and families making only part of their living from the land may get these loans.

"Production goals on these farms were set higher than general goals for the county because they have further to go toward relatively efficient production." Individual goals for each producer will be set as FSA loans are made, Brumley said. He urges low income farm tenants, share-croppers, small owner-operators and part-time farmers to take their problems to James F. Crump, acting rural supervisor for FSA in Scurry County, after February 9, the date the new loan program gets underway. The FSA office is located in the basement of the Fair Store building.

Von Roeder Pictures Show at Plainview

Full-length motion picture story introduced recently to Scurry County people by the Von Roeder Seed Farms, Klagg, will be presented Friday evening, 8:00 o'clock, at Plainview School.

Leaders of the Plainview community urge people of Eastern Scurry County to attend presentation of the Von Roeder picture story—a show arranged by Nolan von Roeder. Subjects of interest to people of all ages will be on tap, Plainview folks say.

Range Program for County Completed

Scurry County's Agricultural Adjustment Administration office announced Wednesday that the 1941 Triple A range program has been completed in the county, and virtually all applications for payments sent to the state AAA office for approval.

Due to inclement weather, shortages of labor and other contributing factors, participation in the 1941 range program was not nearly as much as in 1940, AAA representatives say.

Another Batch of Old Papers Ready For Shipmnt Now

Bonus checks of $1857 Mr. and Mrs. Jim Woody received this week from the American Paper Stock Company of Dallas for the recent shipment of discarded newspapers, magazines, etc., brings total funds obtained from the last paper shipments to $6.15. Woody stated Thursday.

The bonus check followed on Woody's unpredicted order, payment for sending the discarded papers and cardboard in nearly pressed bales. The bales of papers were pressed and wired by two Snyder men. Original check for payment of the last paper shipment amounted to $8.15. Both checks have been turned over to the Red Cross.

Mr. and Mrs. Woody reported Tuesday afternoon that another shipment of discarded newspapers and cardboard was ready for shipping to the Dallas paper firm.

City officials join the Woodys in asking the public to take all paper contributions to the loading station, rear of Colwell Tailor Shop. The City of Snyder has a man hired to assist in receiving the papers, and the employee will be glad to help put all contributions in a convenient place.

Due to the fact discarded paper gathering is now on a county-wide scale, donors are urged to take bundles and boxes direct to the gathering center.

Attorney Newsome Takes Examiner Post

W. F. Newsome, practicing attorney in Snyder for the past 15 months, left Saturday morning for New Orleans, Louisiana, where he has accepted a temporary appointment as junior field examiner with the United States Civil Service Commission.

Law office of Judge Newsome, located upstairs in the Times building, will be open for business as usual in his absence until further notice, Mrs. Newsome stated Wednesday that she will remain here two or three more weeks.

Big Metal Shipments Sent Out by County

Following a survey made early this week, Scurry County Chamber of Commerce officials report January shipments of scrap iron and metal from the county totaled 67,400 pounds.

Most of the scrap metal shipped to such central markets as Dallas and Fort Worth will go into the country's defense effort. Chamber of Commerce officials urge Snyder and county residents to sell scrap metals at prevailing market prices so that vital defense production can be maintained.

AERIAL FARM MAPS SOON TO BE AVAILABLE

Owners May Have Access to Photos As Aid in Reconstituting Their Layouts for Coming Year

Announcement was made Wednesday that the Scurry County Agricultural Conservation Association, working within the near future, aerial photographs and folders of each individual farm in the county. Some 1,600 maps will be obtained.

These maps and folders will be the property of the county ACA, but will be loaned to county producers for use as long as they operate farms they are on now.

Should a producer move from the farm he is now on, he will be required to return the aerial map and folder to the county ACA office. These maps, when available, will have permanent fields designated and all acreage in permanent pasture.

When available, producers will be cautioned again, that the photographs are not drawn to scale.

Aerial photographs for Scurry County farms are now being reconstituted for the 1942 crop year, and such photos will not be ready for loaning until reconstitution is completed.

In checking 1942 farm plan sheets county ACA officials find that producers said, at the time of executing farm plan sheets, that their farms would be reconstituted for 1942.

To date, only a few producers have visited the county ACA headquarters with the needed information for farm reconstitution.

Since March 15 is the closing date for farm reconstitution of farms, attaches at the ACA office will appreciate producers supplying necessary information where their farm is split, or combined with another farm, for 1942.

Tate's Station Operating

O. P. Tate, operator of the Tate Service Station four blocks west of the square on Highway 15, has been seriously ill the past week, but was reported resting better Wednesday. Mrs. Tate and Mrs. Jack Clark are operating the station during the long-time county resident's illness.

Mr. and Mrs. LeRoy Pennire spent Friday evening of last week with Mrs. Mary Pennire and local friends.

Sidelights of Frank Scofield Address Reveal Interesting Facts and Figures

Sidelights of the address Frank Scofield of Austin, state administrator of defense bond and stamp sales, made last Thursday evening at the American Legion hut in Snyder and Scurry County representatives will prove of interest to Scurry County's 1,500 men, women and children who must carry the county defense bond and stamp drive to a successful conclusion. Excerpts of Scofield's remarks follow:

"When Snyder and Scurry County people realize the seriousness of the present situation, we feel sure they will put bond and stamp sales in the county over the top by legal, systematic buying.

"It's far better to contribute voluntarily by defense bond and stamp purchases, than let the U. S. Congress take the money forcefully by compulsory taxation," Scofield pointed out.

"Very few people realize it, but personal pledge cards are already en route to Austin from Washington. When these cards arrive they will be sent out, and every citizen asked to sign for a pledge of a certain sum of money each week or month. In other words, the U. S. Treasury must know where the money's coming from to finance this war.

"Since our defeat at Pearl Harbor," Scofield continued, "we must prepare in at least 12 or 18 months for a two-ocean navy and the biggest army in the history of the United States—an army with at least 3,000,000 or 9,000,000 numerical strength.

"We have a definite job to do in buying defense bonds and stamps so that our children and grandchildren will be assured of freedom in this great land of ours. If we buy sufficient number of bonds to successfully prosecute this war, our American way of life will never again, we feel, be threatened by ruthless dictators.

"Each defense bond a citizen buys now is guaranteed by the U. S. Government from the date issued until the bond is retired. This is quite different from World War I, when people were asked again and again to buy Liberty Bonds.

"Outside of money required to run the federal government, the almost inconceivable sum of $56,000,000,000 will be required to run all branches of our armed services during the year 1942, and local defense projects beyond ahead. This money will have to come from the taxpayers in the form of voluntary bond purchases, or by compulsory taxation," the treasury representative concluded.

Scofield was roundly applauded for the factual, informal and down to earth address made. The head chief drove through last Thursday night to Austin so he could be at his desk Friday. He is going day and night to show Texas people the urgency of buying stamps and bonds now!

Calling cards at the Times office

First Baptist Loyalty Campaign Gets Start

Pastor Vernon F. Shaw reports the church loyalty campaign that began Sunday morning at the First Baptist Church is being greeted with considerable enthusiasm by congregation members.

Plenty of sermon calendars are yet available, Rev. Shaw states, and those who desire the sermon subjects during the two-month campaign are asked to call for them. Dr. James W. Cash of Plainview will conduct a spring revival at the campaign's close.

The First COMMANDMENT of Business
PAY YOUR BILLS PROMPTLY
This has become the "Unwritten Law" of modern business. This law not only applies to individuals, but to the nations of the earth. Many of the greatest financiers of the greatest nations have found this the bitter truth the past years. You must abide by this law or your credit will perish utterly.

THE PENALTY---
To lose your credit is to be an outcast in the business world. To be refused credit is a terrible loss within itself. But the reflection on your character has a more far reaching effect.

TO SQUARE YOURSELF
Is within your own power. Your credit is never so bad that you cannot improve it. Yes, you can even make it good. Take stock of yourself—go and see each one that you owe and they will help you. Then be sure and live up to the terms you make and soon you will find you have the confidence of all and a new pride in yourself.

For City Marshal:
SIMON BEST

J. W. W. Patterson in Commissioner Race

J. W. W. (Pat) Patterson, Snyder resident for the past 18 years and a voter in Precinct 3 the past 15, announces this week his candidacy for commissioner of Precinct No. 3.

Patterson came here from Oklahoma, and has been active in church and civic work. He believes he will make a good commissioner and urges voters to investigate his qualifications.

Minor Defects of Draftees Will Be Waived by Order

Plans to draw from men in Scurry and other counties of the nation to build up a vast reservoir of untapped strength—men with dependents and those suffering minor physical defects—were disclosed Wednesday by Brigadier General Lewis B. Hershey director of Selective Service.

Solemnly Hershey cautioned Congress that all available manpower must be budgeted as carefully as appropriations, and balanced between the needs of the armed forces, industry and agriculture for producing essential food and weapons.

Selective Service chief, made it clear for the benefit of men in this immediate trade area and elsewhere that:

Army standards will be lowered as the need for manpower increases. Those with minor physical defects will be taken for limited service by the hundreds of thousands.

The War Department is working out allotments which, if enacted into law, will release for induction registrants now deferred on the grounds of dependency. Dependency, however, will still remain one major condition of deferment.

Social diseases will be stricken from the lists for reasons of deferment, and primary stage cases of social diseases will be treated as facilities are available for treatment.

Fluvanna Students Present Program at Lions Club Session

A musical program presented by students of Fluvanna High School delighted a good attendance at Snyder Lions Club Tuesday noon at the Manhattan Hotel. Mrs. Marjorie Noel accompanied the singers at the piano.

Jerry Haynes, Arlie Wills and Eva Mae Parks sang "Hawaiian Sunset." Frances Stavely sang "Out in the Cold Again" and "Do You Care?" Then the four girls closed with two numbers, "The White Cliffs of Dover" and "America, I Love You."

Guests at the Tuesday luncheon were John Simmons of Sweetwater, Ray Stokes of Sweetwater, H. A. Wimmer of Hermleigh and E. O. Wedgeworth of Fluvanna.

Good reports were heard by committees assisting with collection of old newspapers, magazines, metals and other junk materials.

American Tire Made from Bush

Proving that manufacture of tires from the American grown guayule shrub is practical, William O'Neil, president of General Tire & Rubber Company, has turned over to Jesse Jones, secretary of commerce, a specimen of the mature plant and a tire made entirely of guayule rubber. The tire was made in the same tire plant and in the same machines used in making tires from far eastern rubber. O'Neil has urged the development of guayule as an emergency rubber supply for years. A bill now before Congress calls for the immediate planting of all available guayule seed in the states of Texas, California, New Mexico and Arizona. Because it thus far is impossible to make a tire from synthetic rubber alone, O'Neil is urging growth of guayule to supplement the 400,000-ton production of synthetic already announced by Jones.

Cotton Insurance Is Like Note That Bears No Interest

Notes that do not bear interest should attract the attention of Scurry County's 1,600 cotton producers during 1942, members of the county AAA committee reported Tuesday afternoon.

Premium notes handled in this manner are only one of several outstanding features of cotton crop insurance, which will be offered to Scurry County farmers and farmers of Texas for the first time this year.

To date, Triple A committee members say no crop insurance yields and premium rates for the county have been received from the state AAA office, but that each producer will be notified when the data is available.

Under the program, county farmers may insure either 50 or 75 per cent of their normal production against all unavoidable hazards. Insurance contracts also may be used as collateral security for money advanced in making a cotton crop, AAA committee members say.

"Farmers should not ask: Can I afford to take it. Instead they should ask: Can I afford not to take it?" County AAA representatives said in pointing out that insurance guarantees a cash income for every cooperating farmer.

Realizing farmers want insurance as soon as it is applied for and not six or eight months later, the Federal Crop Insurance Corporation has eliminated much of the so-called red tape in an effort to speed up insurance work, the AAA officials said.

"Cotton crop insurance begins when seed goes in the ground and stops when cotton is weighed in at the gin and farmers can't ask for much better insurance," Scurry County AAA officials conclude.

Springlike Weather Abounds in County

Snyder and Scurry County people will be glad to learn that exceptionally moderate temperatures the past week have accompanied one of the most frequently discussed subjects—the weather.

Temperature readings from last Thursday through Wednesday of this week, furnished by Mrs. Wesley Evans, follows:

Date—	High	Low
January 29	72	30
January 30	76	40
January 31	55	22
February 1	47	25
February 2	60	32
February 3	64	31
February 4	65	33

Car Dealers Get Little Relief from Auto Sales Ban

Snyder's four dealers of new automobiles, war economy casualties several weeks ago when the stocks of all new cars were frozen by the OPM, were advised this week a ray of hope now shines in Washington.

Effective Thursday, February 12, OPM officials say car dealers will be allowed to deliver new automobiles sold but not delivered before the original January 1 freezing order.

Rationing of cars, it was understood Wednesday, will not begin until February 26. This will allow local rationing boards two weeks to handle disposition of automobiles bought before stocks were frozen.

To obtain delivery of cars, however, new automobile purchasers will be required to present specified evidence of purchase to the rationing board.

Details of the truck rationing program are said to still be incomplete, and the Office of Price Administration has ordered the truck and truck trailer bans extended to Wednesday, February 11. No plan for releasing trucks bought prior to January 1 is available.

Valentine Box Supper Slated at Hermleigh

People of Hermleigh and surrounding communities were extended an invitation by members of the Hermleigh School senior class to attend a Valentine box supper that will be held this (Thursday) evening at the school gymnasium.

Festivities for the evening will get underway at 7:30 o'clock, with an old-fashioned candy walk, music, singing and specialty dance numbers on tap. Women and girls of the Hermleigh sector are urged to bring boxes and pies for auctioning, and the men folks some extra change.

Mitchell-Scurry Baptists Meet at Roscoe Tuesday

Good representation of Baptist Churches in Scurry and Mitchell Counties is expected to mark a high point of the February Workers' Conference of the Mitchell-Scurry Baptist Association in Roscoe Tuesday.

In addition to the Workers' Conference, Baptist Training Union and Brotherhood meetings will be held Tuesday evening at the Roscoe church, Rev. G. A. Elrod, host pastor, states.

Rev. Jim Fields will lead Tuesday morning's song service, and Rev. Ernest Parrott will bring the conference devotional. Rev. Arthur Travis of Colorado City will bring "Lessons from the Book of James," and Rev. G. W. Parks will speak on "Lessons Taught in the Covenant."

Immediately after lunch, WMU and board meetings will be held. "General Conditions of Sunday School Work" will be discussed by Rev. T. G. Sparkman, and departmental leaders will hold brief conferences.

Rev. W. C. Harrison and Rev. E. P. Gonzalez will give missionary reports, and evangelistic message of the afternoon will be brought by Rev. W. A. Strickland.

Beginning Tuesday evening at 7:00 o'clock, BTU and Brotherhood work will be on program for church representatives of the two counties.

D. V. Merritt will direct the devotional, "Having a Mind to Work," and the associational secretary will give a report of BTU activities.

Rev. Lon Ward will discuss "Willing Workers and Daily Bible Readings," and Grace Knowlton will speak on "Constructive Work." Cooperative work will be the topic for departmental leaders. H. H. Eilard will make the main talk on "Brotherhood Work."

County School Men Attend District Meet

High point of the District 8 school superintendents and county superintendents gathering in Abilene Wednesday, insofar as Scurry County school folks were concerned, was the address of E. L. Farr, Snyder School chief, an "The Evaluative Criteria for Public Schools of Texas."

Acting County Superintendent Pat Bullock and Superintendents E. O. Wedgeworth of Fluvanna and A. C. Bishop Jr. of Hermleigh accompanied Farr to the District 8 conclave. Judge Wagstaff spone on the national emergency now existing and program entertainment was furnished by Abilene's North Park School.

First Air Raid Drill Conducted at School

First air raid drill at Snyder School was staged last Thursday afternoon at 2:00 o'clock, M. E. Stanfield, high school principal, reports, with "excellent results."

The air raid drill lasted only a few minutes, but Stanfield says the good response of high school students will probably result in another drill within a few days.

Carriers Report Nice Stamp Sales in City

Backbone of the defense stamp and bond sales drive in Snyder's residential sectors the past 10 days has been city carriers, who are reported delivering from $10 to $12 worth of defense stamps to homes during their daily rounds.

Figures compiled Wednesday by the Snyder post office, indicate approximately $250 in defense stamps have been sold through city carriers the past three weeks. Snyder housewives and others who prefer to "shop for defense stamps from easy chairs" are urged to contact the city carrier in their section of town.

Bullock to Rural Aid Session

Pat Bullock, acting county superintendent of Scurry County schools and representative of the 118th District, will be in Austin Wednesday at 10:00 a. m. to attend a John Legislative Rural Aid Committee gathering. He is a committee member. Bullock hopes to return to Snyder next week-end.

Snyder General Hospital

Mr. and Mrs. Otho Nannie of Fort Worth are announcing their son, Joel, who arrived at the local hospital Friday afternoon at 2:00 o'clock, weighing six pounds one ounce.

Mrs. Roland Sullenger and week-old son of Dermott are still in the hospital, as are the following other last week patients: J. W. Leftwich, surgery; Sam Fields, R. W. Jones and Henry B. Clark, medical.

New patients besides Mrs. Nannie and son are Billy Wilson, accident, broken arm; Mrs. W. W. Sumruld, surgery; Donald Armstrong, medical; and Bryan Butler of Gail, accident.

Labor-saving devices were introduced into Texas agriculture at such a rate between 1930 and 1940 that thousands of farm laborers and tenants were forced to seek employment in vallages, towns and cities.

Students Sell $57.50 In Defense Stamps

Members of the Snyder School journalism class, directed by Effie McLeod, English and journalism instructor, reported Tuesday that sales of defense stamps in school for the past two weeks totaled $57.50.

Members of the high school journalism class at Snyder Schools are sponsoring the sale of defense stamps on Mondays and Tuesdays of each week. Those who wish to buy defense stamps through school children are urged to keep the sale days in mind.

Civil Service Places Open

The United States Civil Service Commission announced this week, through the Snyder post office, examinations for such positions as: Trainee repairmen, $1,440 per year; metallurgists from $2,00 to $5,600 per year; translators, $1,800 to $2,300 per year; and men qualified in aviation, orthopedics, lithography and topography are urged to apply at the post office for full information on examinations now open.

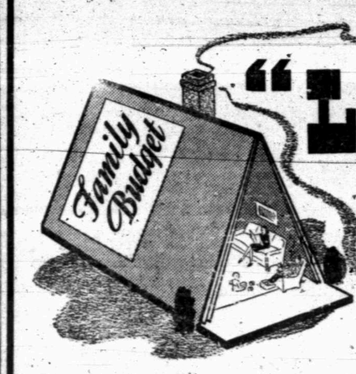

Employment Office Moves to Courthouse

Attaches of the Texas State Employment Service announce that the organization's office, which has been maintained upstairs over Economy Dry Goods Company, north side of the square, for the past several years will be moved to the courthouse.

Those interested in registering with the Texas Employment Service will find the TSES in operation at the courthouse on Wednesdays, 12:00 noon through 2:00 p.m.

Representatives of the employment service state a number of men in Scurry and nearby counties are registering with the agency for possible employment in war or defense industries.

Whole wheat comprises only three per cent of all the flour sold in the United States, notwithstanding that the whole grain contains three times more phosphorous, four times as much iron and eight times as much vitamin B. Both have the same number of calories.

Demonstration Club Notes

Estella Rabel, County Agent

A grist mill demonstrated by Estella Rabel proved popular to the Tri-Community Club women when they met in the home of Mrs. Guy Glenn Wednesday afternoon.

Miss Rabel used the mill to grind wheat, corn and kaffir, making usable products. Later, whole wheat flour was used to make muffins and ginger bread, which were served hot with punch to members present.

Plans were made for an all-day meeting to be held in the home of Mrs. Marvin Lemons February 11.

The following were present: Miss Rabel, Mmes. Charlie Burk, Clarence Brush, Willie Gibson, Marvin Lemons, Frank Patterson, Joe T. Johnston, Guy Stoker and Nathan Wade.

With food prices on the rise, Scurry County's 3,100 homemakers can help keep their families healthy and at the same time serve their pocketbooks well by eating the right food, producing part or all of it, buying food wisely and preparing food correctly and attractively.

According to the Texas Food Standard, Texans' guide to a good daily diet, every person needs one serving of whole grain products and other cereals as desired every day. For the period of a week, one person needs from one-fourth to one and one-half pounds of whole grain products and one and one half to three pounds of other cereals and bread.

Here are some tips on buying cereal products. All are endorsed by Estella Rabel, county home demonstration agent:

Buy whole grain flour and cereals in amounts which can be used in a short time. Try to buy them freshly ground.

Store flour and meal in closely covered tin containers in a cool place.

Watch the surplus commodity list. Items on it usually are inexpensive.

Store bread in a dry, well-covered ventiated tin container.

Use cereals that need to be cooked, if income is limited, because cooked cereals are cheaper.

Check weight as well as price on packaged flour and cereals.

Estella Rabel, county home demonstration agent, predicts this week, on the basis of a recent survey, that Scurry County women in rural communities will plant close to 500 frame gardens during 1942.

Miss Rabel furnishes figures showing that 874 gardens of all types were planted in the county during 1941. The county's U. S. Department of Agriculture War Board plan an increase of 196 gardens this year bringing the total in home gardens to 1,060.

According to defense war board members, gardens will not be planted this year on 640 county farms. Aiding the Food-for-Freedom fight by means of frame gardens is easy when one plants a frame garden, Miss Rabel declares.

Miss Rabel offers these suggestions on how best to build a frame garden:

Select a protected spot 20 to 40 feet long at the south side of a building, then spread one half to three quarters of a wagon-load of well rotted barnyard fertilizer over it. Ten to 25 pounds of 6-12-6 commercial fertilizer also will do. Spade it into the ground about 18 inches. If the soil is fairly tight a row of sub-irrigation tiles made of tin cans or concrete laid six or eight inches below ground down the center will provide satisfactory watering. One of the county extension agents will show you how to make it.

The plot should be surrounded by a frame 12 inches high of new or scrap 1 by 12 lumber. A cover of wall canvas with a broad hem should be tacked at the back of the frame with provisions for fastening it securely across the front ends. On chill nights a wagon sheet, cotton sacks or blankets should be used for added protection. Then level up the soil and the garden is ready.

Under ordinary conditions three to five plantings can be made yearly. Rows should be eight to 16 inches apart, planted the narrow way. Vegetables most common to a frame garden may be classified as quick maturing, moderately quick and slow maturing. For planting it may be divided into three general divisions.

Quick maturing, 30-60 days; Tender green mustard; black seeded Simpson lettuce; scarlet globe radishes; Bermuda onions (from plants or sets); double curled parsley.

Moderately quick maturing, 60-80 days: King of Denmark spinach; lucullus Swiss chard; dwarf horticultural beans; Alaska English peas.

Slow maturing, 80-90 days: Crosby's Egyptian beets; Nantes carrots; Wong Bok Chinese cabbage; sweet Spanish (from seed) onions.

Where the frame garden is of sufficient size, onions, cabbage, tomato or pepper seed may be planted, and when plants are of sufficient size, in January or February, may be transplanted to the open garden. "As fast as you harvest one row of plants, replant it," Miss Rabel advises.

Union News

Mrs. J. B. Adams, Correspondent

Ruth Barnett is home after an extended visit with her sister and family in California.

Mr. and Mrs. Harry McHaney and sons, Mr. and Mrs. Aubrey Wilson and Mr. and Mrs. Billie McHaney were Sunday visitors in the Leslie McHaney home.

Loma Woolever spent the week-end with Jerlyn Sellers of Ennis.

Mr. and Mrs. Elmer Henry and boys of Hermleigh visited Mr. Adams family Sunday.

Ronal Rosson went to Fort Sill to take his examination to enter aviation service, and was sent to Lubbock for training.

Mr. and Mrs. Ulmer Vernon of Hermleigh visited in the J. B. Adams home Sunday afternoon.

Bethel News

Helen Watkins, Correspondent

Freddie Bullard left Sunday for Dallas, where he has a job.

We have been having some cold weather along with sand storms.

Mr. and Mrs. Homer Watkins spent Friday night in the Lester McClammy home.

Mrs. Leonard Carnes is a visitor this week in the Homer Watkins home.

The Thurman Barness family has moved to New Mexico.

Mrs. Douglas Burney has been on the sick list.

People have begun farming in this community.

Fluvanna News

Rita Dowdy, Correspondent

We extend our deepest sympathy to the bereaved family of Oma (Jones) Aaron, who passed away Saturday afternoon. Funeral services were held Sunday at the Fluvanna Presbyterian Church.

Mrs. Joe Black and two children of Hobbs, New Mexico, and Mrs. Joel Black of Cross Roads, New Mexico, were week-end guests in the home of J. F. Dowdy.

Mrs. Russell Jones and daughter, Vera Nell, of Hobbs, New Mexico, were week-end guests in the W. H. Jones home.

Mr. and Mrs. Jess Sewalt and son of Brownwood have been guests in the E. L. Sewalt home the past few days.

B. V. Collier Jr., who has been in California, has been transferred to Houston, to the air corps, where he will train as a bomber pilot.

Mr. and Mrs. Boss Robinson were visitors in Colorado City Sunday.

Mr. and Mrs. Brud Boren and son of Lubbock were Sunday visitors in the J. I. Boren home.

Faye Mathis has entered nurses' training at the Lubbock Sanitarium.

We wish a speedy recovery for Dwain Ball, who is ill with pneumonia.

Sorry there was a misprint of names last week. It was Mr. and Mrs. Ross Bethea (not Belew) who have gone to Amarillo.

Mrs. Eunice Nesbitt and son, H. M., have returned from Amarillo, where H. M. has been working for several months.

Mr. and Mrs. Haley Haynes and children of Big Spring were week-end guests in the H. H. and L. A. Haynes homes.

Those attending the Midwest Electric Coop., Inc., meeting at Roby Monday were: Mr. and Mrs. H. C. Flournoy, Mr. and Mrs. J. R. Jones, Mrs. J. C. Dowdy, Mrs. V. L. Patterson, R. L. Lightfoot, J. E. Smith, J. F. Dowdy, E. R. Ball and John A. Stavely. John A. Stavely was elected as one of the directors for the coming year.

H. M. Nesbitt and Ross Belew left for California to enter defense work.

School Inspection in County Completed

Anthony Hunt of Abilene, deputy state supervisor for District 8, will begin today (Thursday) a routine check of several county schools for accreditation. Schools visited the early part of the week by Hunt and Bullock included: Lloyd Mountain, Ennis Creek, Martin (which is seeking accreditation), Dermott and Turner.

Hunt reports schools inspected so far are above standization requirements, and in excellent fiscal condition. The Abilene school man hopes to wind up his inspection tour of county units by Friday afternoon if possible.

Before the war only 37 per cent of England's food was produced on the British Isles; today the figure is around 60 per cent. Usually the Isles have, around 12,000,000 acres of land in cultivation; in 1941, some 16,000,000 acres were put under the plow.

Sewing Machines for War Sewing Needed

R. G. Dillard, county Red Cross war relief campaign chairman, announces a new shipment of materials has reached the Red Cross sewing room, directed by Jeannette Lollar, and issues an appeal for sewing machines.

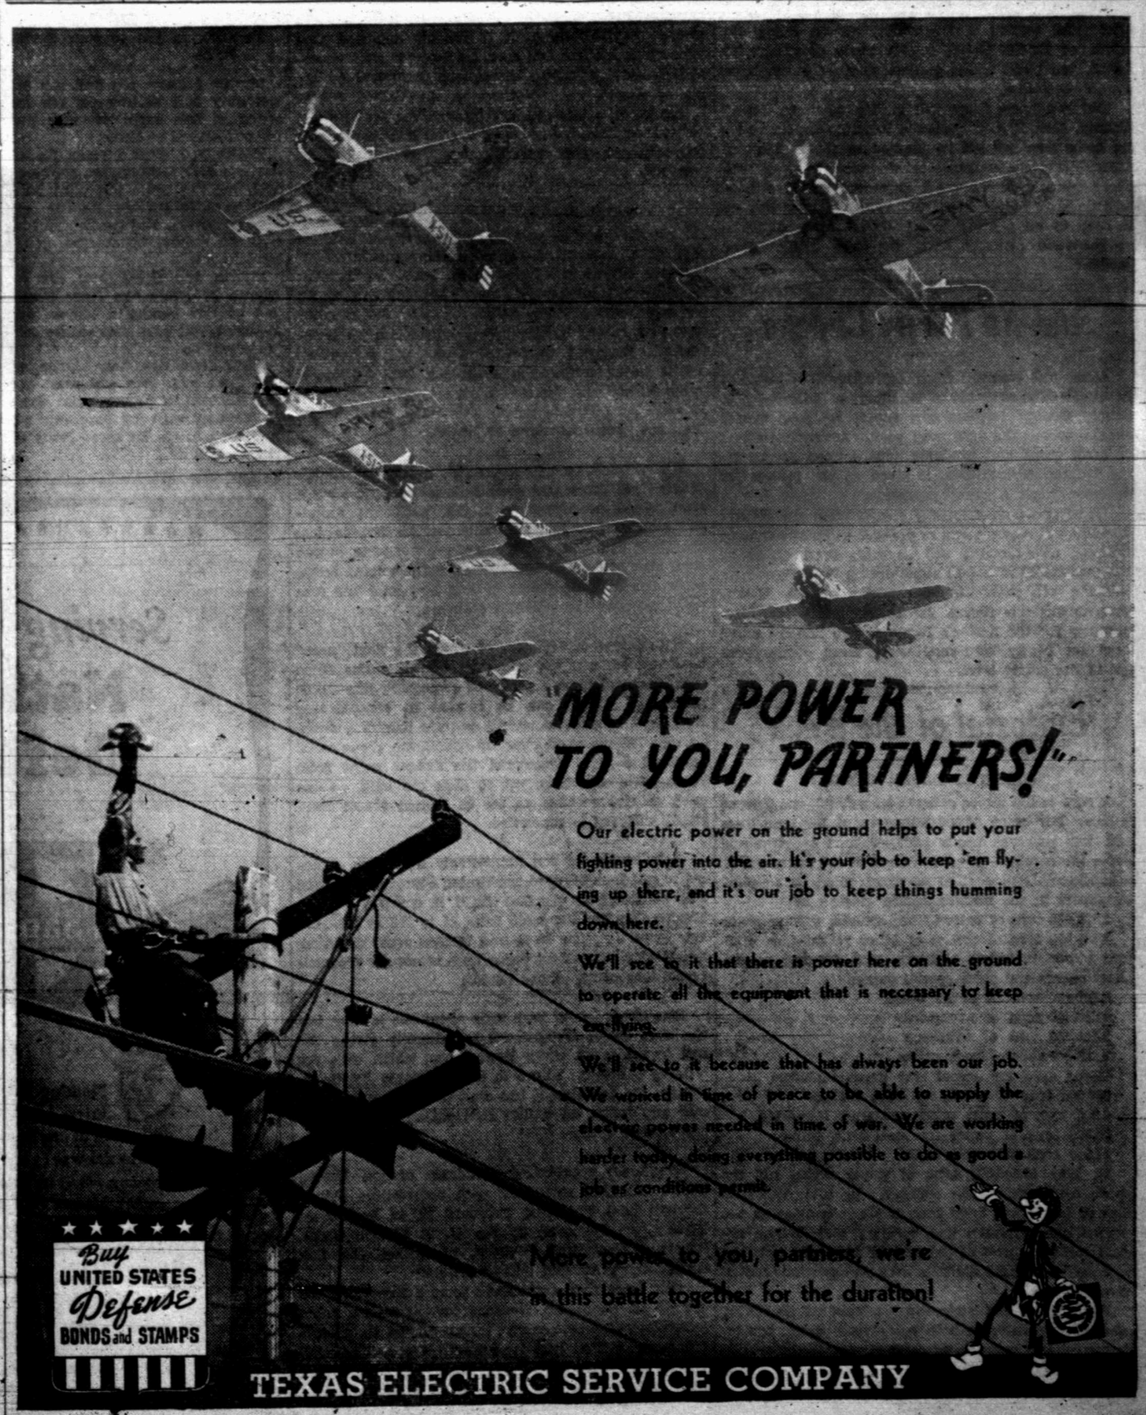

"Snyder or Scurry County people who have sewing machines that are not in use, and do not mind loaning them, are urged to contact me or the Red Cross sewing center," Dillard states.

Scouting Marches on!

Snyder and Scurry County people are urged by Boy Scout officials of the Snyder District, to join from Friday through Thursday, February 12, in observance of a strictly American anniversary—the 32nd anniversary of the Boy Scouts of America.

It is high time, district officials declare, that we quit paying lip service to the Boy Scout movement and say with action what has formerly been said by mere words. You are not only invited to do something for Boy Scout work, but make your contribution now. The Boy Scouts need you, and you need to help the Scouts observe this, the occasion of their 32nd milepost.

Scouting marches on! One by one, the lights of youth movements have gone out in European countries until the only organizations that remain today are movements to make cannon fodder of budding manpower. We need to encourage the Scout movement here in every way possible, so that our American way of life will never become engulfed in government pastimes that eliminate Scouting. One of the best ways to assure our American way of life is to help your home community Boy Scout troop.

Why Not Frame Gardens?

With the farmers of Scurry and every other single county of the nation pledged to increased food and and feed production during 1942, it seems only logical that rural women of the county should follow the advice of Estelle Rabel, county home demonstration agent, and plant frame gardens now for early, home grown vegetables.

Did you know there will be 640 farms in Scurry County, according to available information, on which no home gardens will be planted in 1942? Most of these farms are multiple units—units where a producer works more than one farm—and will give those who do grow frame home gardens a good chance to cash in on a great program. If you're planning an increased food for home use, why not a frame garden?

And No Parity Checks

Word just received from Agricultural Adjustment Administration officials in Washington indicates that Scurry County farmers can expect no AAA parity checks during the 1942 crop year. Advancing prices of farm crops and products, plus a need for slashing federal expenditures, is given as the reason for no more Triple A parity payments.

While shutting off parity checks from the federal treasury will mean a loss of $175,000 to Scurry County farmers, this amount will be more than offset by increased price of cotton alone during 1942. We're for shutting off payments like parity checks, if the government can secure far better prices for farm products for the nation's farmers. We haven't much stead for parity insurance when farm commodities get to the parity level.

Editorial of the Week

WHERE IS PAPER GOING?

Where is the paper going? In general, the answer is this: For every $5,000,000,000 spent for lend-lease and war program needs 1,000,000 tons of pulp and paper are required. Here are some of the paper needs, a considerable proportion of which must be supplied by papers in the manufacturing class:

1,725,000 tons of cotton-fibre content writing paper
3,300,000 tons of grades of other cotton-fiber content paper, including blueprint and drawing papers, chart papers and other special papers
8,000,000 tons of paper board
4,600,000 tons of newsprint
3,500,000 tons of wrapping
2,825,000 tons of book paper.

Paper used for actual war needs includes:
250,000 tons of paper for shell casings
8,000 tons of kraft paper for army laundries
50,000 tons of paper for steel strip mills
11,000 tons of target paper.

In 1940 14,500,000 tons of paper rolled off the paper machines of the country. In 1941, 16,000,000 tons of paper will have been made. As close as the experts can estimate, war, military and civilian requirements are now at the rate of 24,500,000 tons per year, which is 6,000,000 tons over any previous record of production.

Paper mills and your paper merchants are doing everything possible to help you secure paper requirements under present production handicaps.—Childress County News.

Most people had supposed for the last two or three years that the Ku Klux Klan and Father Coughlin's organization were safely buried in some dismal attic of "things that were," but both organizations are now rejuvenated to the point that members are infiltrating into civilian defense groups to keep all units "out of the hands of the Reds." . . . Both set-ups, the Ku Klux Klan and the Coughlinists, have had so much mud smeared on their mugs it seemed certain both would eventually fold up—so the Roosevelt administration hoped—but all prospect of either dying out within the next few years is now dim.

There are few brains that would not be better for living on their own fat a little while.—James Russell Lowell

Current Comment

By LEON QUINN

Editor's Note—Expressions or opinions contained in this column are those of the writer and do not necessarily reflect the opinions or policies of The Times. Current Comment is merely carried as a feature column.

Larger marketing of livestock and livestock products, at least an equal yield of cotton and wheat, and higher prices for these and other agricultural products were the optimistic prediction this week of Dr. Fred A. Buechel, assistant director of the University of Texas Bureau of Business Research. . . . Income from cattle and calves was almost doubled on December comparisons, Buechel declares, and income from eggs shipped out of the state was 17 times as large as for December, 1940.

☆

Hens on Texas farms, by the way, stepped up production 11 fold during December, Bureau of Business Research attache continues. . . . During the last month of 1941, it will be timely to note, 830 carloads of eggs were shipped from Texas stations, compared with only 75 carloads the previous December. . . . Not only are university and Texas Extension Service officials banking heavily on chickens to put the farmers of the state on top this year, but the farmers themselves are banking heavily on "butter an degg" money to add sharply to this year's farm income total.

☆

Although it seems to be a half-cracked proposal, involving the expenditure of thousands of dollars and loss of valuable time, it is reliably reported that millions of leaflets will soon be dropped over enemy and occupied countries throughout the world by the United States. . . . Workers in the United States, it was revealed this week, composed the text for the 2,000,000 leaflets dropped over France last month, and also arranged to have British bombers distribute the literature.

☆

Word leaked out in Washington this week that the circulars, before long, will have a strong journalistic note, and carry photos of war developments bulletins of recent developments, etc. . . . Circular dropping is a mighty fine thing, but one can hardly see why gallon after gallon of precious gasoline would be wasted in dropping peace feelers when the whole of Europe is in flames of war, and a hue and cry is raised continually about the conservation of gasoline, oil and parts for the aircraft of Great Britain. . . . Bombs might well carry more weight than the "petticoat" type of leaflets.

☆

It's difficult to tell accurately, but high officials of the U. S. Army and Navy believe that undestroyed Nazi submarines operating in the "pack" off America's east coast could conceivably stay in their present operating zones 15 or 20 days. . . . Morale, rather than lack of food or fuel for the submersibles, seems to be the deciding factor in just how long the subs will stay near the Atlantic seaboard.

☆

Submarines of 740 tons, of which the Nazi "pack" is composed, can set out with ballast tanks filled with fuel and have a range of something like 20,000 miles. . . . Food can be carried in concentrated form, and condensers usually provide drinking water. . . . In the cramped quarters submarine crews must exist, 60 days is considered the danger point from home ports—which is just 60 days too long, as one navy official declares so far as United States merchant shipping is concerned.

☆

A reflection of the increasingly important diplomatic relations between the United States and Mexico may be seen from the fact the U. S. embassy staff in Mexico City has increased from 25 to 218 in the past two years. . . . The U. S. and Mexico could doubtless negotiate a permanent peace were it not for frequent revolutions south of the border.

☆

One needs to say very little about the matter, but the Post Office Department is indirectly giving the nod to the latest chain letter craze, which calls for sending a defense stamp to the top name listed, although the department has cracked down, with hammer and tongs, on earlier fads, calling for different amounts of cash.

☆

Here's an appropriate definition of the United States flag that should fit with observances Friday through next Thursday, February 12, of Boy Scout Week. . . . Furnished by the U. S. Marine Corps, Southern Recruiting Division, of Dallas, the flag definition, "I Am Old Glory," follows:

"For more than eight score years I have been the banner of hope and freedom for generation after generation of Americans. . . . Born amidst the flames of America's first fight for freedom, I am the symbol of a country that has grown from a little group of 13 colonies to a united nation of 48 sovereign states. . . . Planted firmly on the high pinnacle of American faith, my gently flowing folds have proved an inspiration to untold millions.

"Men have followed me into battle with unwavering courage, and have looked upon me as a symbol of national unity. . . . They have prayer that they and their fellow citizens might continue to enjoy the life, liberty and pursuit of happiness which have been granted to every American as the heritage of free men. . . . So long as men love liberty more than life itself; so long as they treasure the priceless privileges bought with the blood of our forefathers; so long as the principles of truth, justice and charity for all remain deeply rooted in human hearts, I shall continue to be the enduring banner of the United States of America. . . . I am Old Glory!"

Dismantling of R. S. & P. Will Be Completed Soon

Roscoe, Snyder & Pacific Railway Company officials reported Wednesday that dismantling operations of the R. S. & P. tracks between Fluvanna and Snyder were progressing at a rapid rate, and rails of the 17.77-mile stretch would probably be taken up by Saturday night.

C. W. Edwards, of the Commercial Metals Company, holds contract for the 2,000,000 pounds of rails and ties, shipped to St. Louis for use in U. S. Army tanks and other weapons of defense.

B. B. Daily of Roscoe holds contract for the R. S. & P. ties, and will have several thousand that will be sold as timber. All cross ties of value are being retained by the railroad for use on the Snyder-Roscoe sector.

Snyder R. S. & P. officials stated Wednesday that 20 workmen are employed between Fluvanna and Snyder in track dismantling operations, and are removing something like a mile of track each working day.

It is understood that Edwards also holds contract for dismantling of the Roby Northern Railway from Roby, in Fisher County, to North Roby—a distance of some eight miles. The Roby line is the only one at an inland Texas point that was operated by electricity. The Fisher County line was authorized abandoned sometime back by ICC officials.

MYRTIE TURNER

Myrtie Turner was born November 9, 1895, and departed this life January 2, 1942. She was converted at the age of 15 and lived a consecrated life until God called her home. She was teaching her sixth year at Odessa when taken ill, and was brought from there to Snyder by an Odom ambulance.

A TRIBUTE

Myrtle, you have gone to heaven
To meet the loved ones over there;
Now you are resting and happy
In that land so wonderously fair.
Myrtle, you know how we miss you—
The world seems so empty now;
But heaven seems nearer
Since you are up there.
Myrtle, I know you are happy,
And the rest you needed is won;
Jesus has opened His loving arms
To welcome you to your eternal home.

Myrtle, I know you and son are watching and waiting for our sojourn in this earth to cease and for our arrival at home.

Thank you, dear Myrtle, for all the love and devotion you showered upon my life while you were here. You were so precious to us; you were so patient and gentle and loving; no unkind words from you I have known.

Myrtle, you fitted your life for heaven by living like Jesus taught you by His wonderful counsel and guidance, you have entered the heavenly portals.

Some sweet day, dear Myrtle, we will meet you. We will meet you and the rest in heaven when Jesus is through with us here—we will meet you when we meet Jesus up there.—Mother.

Files His Times

Something of a record, although probably not the longest one, for continuous reading of The Times has been marked up by W. L. Rhoades of Route 2, who hasn't missed taking his "home county paper" in the past 44 years.

Rhoades states he has the files on most Scurry County papers, while not complete in every instance, back to 1898, which would provide a colorful chapter for aspiring journalists to study. Incidentally, the lone-county farmer had not missed an issue of the Semi-Weekly Farm News for 32 years when that publication ceased in late 1940.

Allowances for Soil Building Practices To Show Big Gains

Allowances for soil building practices under the Agricultural Conservation Association program for 1942 will be almost three times as much on most county farms as for the past year, Claud D. Cotten, county ACA secretary, announced Wednesday.

Soil building allowance payments during the current crop year will affect, in several ways, Scurry County's 219,000 acres of cultivated land, it is declared.

Allowance this year will be 70 cents per acre for all cultivated acreage except acres in wheat or cotton allotments. The 1941 payment was 50 cents per acre for conserved acreage and nothing was paid on other acreage.

Each county farmer must comply with certain practices, however, to earn the 70-cent per acre payment. Contour farming, contour listing and seeding small grain on the contour are the most popular practices.

There are some 25 practices a farmer may engage in to earn 1942 soil conservation payments.

Memberships in WTCC Go Above Quota at Snyder

"Substantially over - subscribed" was the verdict early this week of Harrie Winston, Snyder West Texas Chamber of Commerce director, in regard to the successful WTCC membership drive recently concluded in town.

West Texas Chamber of Commerce memberships in Snyder for the ensuing year total $125, Winston stated Tuesday afternoon.

Snyder members of the West Texas Chamber of Commerce for the 1942 year are listed by Winston as follows: Blackard Grocery Company, Hugh Boren & Son, Bryant-Link Company, Economy Dry Goods Company, Ely, Arnold & Ely Gin, Irwin Drug Store, Higginbotham-Bartlett Lumber Company;

Odom Funeral Home, J. C. Penney Company, R. J. Randals Lumber Company, C. N. von Roeder, Scurry County Chamber of Commerce, Snyder Insurance Agency, Scurry County Motor Company, Southwestern Bell Telephone Company, Times Publishing Company, Snyder National Bank, Stinson Drug No. 2, Texas Electric Service Company, H. G. Towle Jewelry Company, D. P. Yoder, I. W. Cox Motor Company, Perry Brothers, H. G. Wooten Grocery Company, Dr. Grady Shytles, Piggly Wiggly, Harrie Winston, Fuller Cotton Oil Company and Joyce Gin.

An income is something that always falls a little short of what is needed to cover expenses.

Scofield Dined

Prelude to the address Honorcrable Frank Scofield of Austin, state administrator of defense bond and stamp sales, made in the American Legion hut last Thursday evening was a dinner given him at the Manhattan Hotel by a group of Snyder business men.

The dinner, given in Scofield's honor at 6:00 o'clock last Thursday evening, was made possible by Hugh Boren, county chairman of bond sales; Mayor H. G. Towle, Sterling Wilson, county judge; William Fuller, Pat Bullock, R. G. Dillard and Harrie Winston, Snyder WTCC director.

Danger Behind.

Teacher—"Rastus, why does Missouri stand at the head of the mule raising business in this country?"

Rastus—"I dunno, exactly. Must be because de other end am too dangerous."

Home Paper Wanted By Woodie Hairston

From Louis C. Hairston, better known among local business people as "Woodie," this week comes a cordial note to The Times along with a subscription. Young Hairston is a son of the F. C. Hairstons, older of their two sons in the armed forces.

He says, "Since I have been reading your paper most of my life, I see no reason for stopping just because I'm in the army." He especially likes to read the items concerning Scurry County boys in various branches of service.

Now stationed at Enid, Oklahoma, with the 473rd School Squadron at the Air Corps Basic Flying School, Woodie is in the clerical department. Within the next few weeks the local volunteer will have been in the army air corps a year, most of which was spent at Randolph Field, near San Antonio.

It is believed that cork can be grown in South Texas. The United States has been importing annually $10,000,000 worth of cork.
