FATEFUL SANFORD WELL AGAIN ABLAZE THREE PLEAD NOT GUILTY IN MURDER OF LEBOUF

TRIAL SET FOR JULY 25 AFTER PLEA REFUSED

MOTION FOR MORE TIME DENIED BY COURT IN LOUISIANA

FRANKLIN, La., July 12.—Plea of not guilty were entered by the three defendants charged with the murder of James Leboeuf, Morgan City business man, upon their arraignment in criminal court here today.

The pleas were made by James R. Parkerson, a lawyer for the three, after he had objected to the arraignment of Mrs. Ada Leboeuf, widow of the slain man, Dr. Thomas E. Dreher, physician and her alleged lover, and James Beadle, trapper whom they accuse of the actual killing.

Time Not Sufficient Mr. Parkerson argued that insufficient time had been granted for him to prepare motions with him for further time was refused by Judge James Simon.

After the reading of the indictment, the three stood before the judge while their counsel entered pleas.

Ask Order Rescinded Following the pleading, Mr. Parkerson requested Judge Simon to rescind his order for a trial to be held on July 25 on the ground that needed further time to prepare their defense. This motion was overruled.

The three defendants were seated in different sections of the court room and neither Mrs. Leboeuf nor the physician glanced toward the other.

As they left the court room, however, Dr. Dreher encountered the woman whose motions with him he alleged to have led to the murder of her husband. Meeting for a moment in the corridor of the jail as they passed back to the cell, the physician exchanged a few words with her.

"Ada," he said, "don't get nervous, please."

"All right, Doc," she answered. They passed on to their cells.

Shock Hands In Jail Previously, Dr. Dreher and Beadle had shaken hands when they met in the jail on their way to the court room.

A St. Mary parish grand jury returned true bills Tuesday against Dr. Dreher, Mrs. Leboeuf, widow of the slain man, and James Beadle, trapper, whom it is alleged fired the shot which killed James J. Leboeuf, the hunter.

Of the three, Beadle alone has denied any knowledge of the crime. Mrs. Leboeuf and Dr. Dreher have talked freely with Sheriff Peccot of their part in the affair.

Negro Believed In Hiding In 'Cowntown'

FORT WORTH, July 12. (AP)—Believe that the negro sought by officers in connection with the Terrell slaying near Justin Sunday has escaped the cordon of officers thrown about Justin and is now hiding in Fort Worth was expressed by County Attorney Elbert Hooper of Denton today.

LYNWOOD SAID DRINK VICTIM DRINKING MARATHON IN APARTMENT WITH WIFE IS CITED

HOLLYWOOD, Calif., July 12.—The result of a chemical analysis was awaited today by officers investigating the death of Percival E. Lynwood, publicity man and former motion picture director, to determine whether the quality of liquor said to have been imbibed during the film man's five day drinking bout played a part in his death.

Murder theories first entertained by the police when a two inch lead was found on the dead man's head were discarded after the doctor's autopsy surgeon reported that Lynwood died of acute alcoholism. Officers then decided that a fall by Lynwood in his alleged intoxicated condition caused the cut.

The apartment where the former film man's body was found by a doctor called by Lynwood's wife showed the effect of the long liquor party. Furniture was upset and there was broken glass upon the floor.

Lynwood formerly was a director for a Birmingham, Ala., motion picture company. Since coming here two years he has been engaged in film publicity and advertising.

Further light on the circumstances preceding Lynwood's death were expected by the police from Mrs. Lynwood as soon as she recovered from the hysteria and the effects of the five day drinking orgy. Neighbors said Mrs. Lynwood participated in the drinking "marathon" with her husband, the couple having locked themselves up in their apartment for the spree.

Mrs. Lynwood is 25 years old. Her husband was 45.

Over 150 men have been busy during the past two weeks laying the pipe. A major part of the lines completed are of 4 and 6 inch mains.

Pipe in Other Towns A check-up on the amount of pipe contracted for in the other towns along the line shows Lubbock far in the lead. Plainview is next with a total of 146,207. Residents Plan To Rebuild Razed City

WEST BLOCTON, Ala., July 13. (AP)—Residents today faced the task of rebuilding a town after a fire which yesterday practically destroyed the business section and invaded the residential section, causing a loss estimated at \$500,000.

More than a score of families were homeless and the smoking ruins of 35 business houses and 20 residences testified to the devastating extent of the flames.

Work of fighting the fire, which started when a pressing shop adjacent to the business section was hampered greatly by poor water pressure and lack of proper chemicals. Dynamite used in an effort to halt the flames' progress hurled splinters into the fire, spreading it. The Masonic temple, containing several business establishments and the West Blocton bank and two hotels were among the principal structures destroyed.

LOS ANGELES, July 12. (AP)—Three men were killed and two men and two women injured, when an automobile driven by Miss Betty Peck of Los Angeles, crashed into a real estate office in the outskirts of the city today.

The entire number will be placed in the custody of the Mexican immigration officials.

Ten trucks carrying the aliens, who were destined for the cotton fields of central Texas, were stopped by immigration officials near Palfurrias, and the truck drivers compelled to bring their freight of aliens back to Hidalgo.

350 in Two Weeks This capture makes approximately 350 alien laborers who have been stopped by the immigration officials in the past two weeks and deported to Mexico. Another capture of fourteen was effected Monday near Rudolph, but these will be deported at Brownsville.

Reports received here are to the effect that labor agents for central and northern Texas have been operating on both sides of the Rio Grande, some of the agents stating that they had been induced to smuggle across the river by the report of high wages to be paid in the cotton fields.

400 BODIES ARE RECOVERED IN QUAKE SECTOR

WORKERS CONTINUE TO SEARCH IN DEBRIS FOR OTHERS

(By Associated Press) JERUSALEM, July 12. (Jewish Telegraphic agency)—Four hundred bodies of victims of the earthquake in Palestine have been recovered from the debris in Palestine cities and villages.

A list of casualties compiled by the authorities places the number of injured at 450.

No casualties were reported among the Jewish population in the country districts. Thousands of families all over the country spent last night in the open air fearing a repetition of the earthquake. Not a house in Jerusalem or Hebron is without some damage.

Damage Continues To Mount Higher JERUSALEM, July 13.—Nablus, ancient Samaritan center, 30 miles north of Jerusalem and other towns in the Holy land appear like cities of the dead, says reports which reached Jerusalem today of the disastrous earthquake that rocked the region Monday afternoon.

250 Reported Dead Latest official estimates of the casualties place the dead in Palestine at more than 150. In Transjordan at 100. The total injured is given as more than 500. Unofficial figures are much higher, some estimates of the dead touching 1,000. Up to the present no Americans or Europeans have been reported among the victims.

Details from many of the affected places were still being awaited today, but the story of the fate of Nabulus says it presents an awful spectacle of destruction. Scarcely a house in the old part of the town escaped. Some collapsed entirely, while others seem to be held together by a miracle.

High Buildings Collapse High buildings piled fantastically above narrow streets collapsed like cards, burying not only the inmates but persons in the markets below. Usually busy streets are deserted save for occasional cowed figures scavenging bedding on the backs of camels or donkeys to take to improvised camps outside the town, where the inhabitants are collected in pathetic groups. Sometimes a long wailing procession passes with a rude coffin at the head—the latest harvest of some digging party.

The work of exhumation is progressing steadily under the direction of the British police.

China Files JAP PROTEST

PEKING, China, July 12. (AP)—The Peking government, after a verbal protest by the foreign office to the Japanese legation on Monday, has sent a note to the Japanese legation in which it demands the immediate withdrawal of troops from Tsinfu and Tsingtau in the province of Shantung.

The note also demands the recall of any further troops sent to those cities and expresses earnest hope for an early reply.

The Japanese government has been sending troops to Tsinfu and Tsingtau in both of which cities the Japanese have extensive interests. Both cities for some time have been the object of a drive by the nationalists who seek their capture as part of the larger plan to take Tientsin and Peking.

A Reuter dispatch from Tsingtau yesterday said that 2,000 Japanese troops had arrived there from Dairen and that the situation was quiet.

Eddie Lobbitts has fifty-three (score) curls in his permanent wave, and if that isn't the nation's record for a masculine permanent wave, then what is it? Eddie leads an orchestra at Connaughttown, Pa. They call him Eddie Hair, which seems to be an entirely appropriate cognomen in this case.

Ignited By Lightning A bolt of lightning struck the well at 7 o'clock Wednesday morning, and the severity of the strike caused the brudenhead to break and permit the 75,000,000 feet of gas that had been shut in to pour forth and into the fire. The result is a fire that has caused all operations in the Sanford-Paramount pool to be shut down until the burning well is shut out.

Thornton On Job Tex Thornton, noted oil well shooter, is on the job and expects to have the flame put out later in the day.

This is the third fire the McMillen company has had in the Sanford-Paramount pool this year. The first was on May 23 when the McMillen's number 1 Pool—Sanford was set on fire while in the big gas, the number 1 Sanford caught fire three days later.

RUTH GETS HIS 30TH HOMER TO GO INTO LEAD

HORNBY AND SISLER HIT DECIDING BLOW IN LATE INNINGS

(By Associated Press)
Star clouters of the major leagues did their stuff yesterday. Home runs were made by Babe Ruth, Rogers Hornsby and George Sisler.

Ruth's mighty wallop was one of the longest ever seen in Cleveland. It came in the ninth inning and while it was just another run in the 7 to 6 whitewash administered to the Indians by the Yanks, it did give the Babe an edge on Lou Gehrig in their scramble for swatting supremacy. Ruth now has 30 homers to his credit, with "Columbia Lou" one behind. The Bambino came out of a slump with that hit.

Hornsby Wins for Giants
Hornsby's clout in the sixth inning with Lindstrom on base gave the "Gentle Art" his 17th victory over Cincinnati. Hornsby also came out of a batting slump by accounting for all of the New York runs.

Sisler's homer came with two on in the ninth at St. Louis and gave the Browns a 6 to 5 win from the Boston Red Sox. It was a field day for the St. Louis first baseman. He collected four hits, including two doubles and either scored or drove in each of St. Louis' runs.

Chicago's hustling Cubs continued to hold on to first place in the National League. Sheriff Blake's pitching being entirely too much for Boston. The Cubs poked out 13 hits while Blake was holding the Braves to three for a 6 to 2 victory.

Birates Beat Robins
The Pittsburgh Pirates kept at the Cubs' heels by beating Dazzy Vance and the Brooklyn Dodgers 2 to 1. Vance made the mistake of passing Kiki Cuyler in the ninth and the Pittsburgh outfielder stole second, went to third on Joe Harris' sacrifice and slid in ahead of Partridge's throw to the plate on Mills' grounder.

The St. Louis Cardinals 9 to 6 victory over Philadelphia rounded out the clean sweep by first division teams over second division opponents. Jess Haines was battered hard by the Phillies but the world champions made their blows count. Old Cy Williams connected for his twentieth homer of the season in the ninth.

Six Trim Athletics
The Chicago White Sox rallied sharply in the sixth inning to trim Connie Mack's Athletics, 8 to 5. Rommel and Pate were driven out in that stanza by a 6 run assault. Defeat prevented the Mackmen from climbing back into the American League's first division, for the Detroit Tigers were losing to Washington 9 to 4. The Tigers drove Lindstrom and Marberry out of the box but Braxton saved the Senatorial cause by fine relief pitching.

Wills To Meet Pyrenee's Giant In 15 Round Go

(By Associated Press)
NEW YORK, July 12.—Once the most feared boxer in the heavyweight division, Harry Wills, the brown panther of New Orleans, will try to turn back the years to-night in his 15 round fight with Paulino Uzcudun, Pyrenee's giant, at Ebbets' field.

The crafty negro, now a prosperous resident of New York's Harlem district, is pitted against one of the strongest men in the boxing game. Uzcudun's ability to assimilate punishment has been demonstrated and although he "throws" most of his punches he is a dangerous hurdle in the path of Wills' comeback attempt.

Wills will have the advantage of 15 pounds in weight, two inches in reach and two inches in height.

Baker Wins But Title Is Refused In Callahan Bout

(By Associated Press)
CHICAGO, July 12.—Except for four rounds, Sergeant Sammy Baker of New York would be the junior welterweight champion of the world.

He shot so many lefts and rights into Mushy Callahan, the champion, in their scheduled 10 round fight at Cubs park last night that the Los Angeles scrapper went down and out in the ninth round. Baker, however, was four pounds over the junior welterweight limit, so Callahan kept his title.

A right to the chin in the ninth dropped Callahan. He attempted to get to his feet but the referee refused to let him continue.

Baker has such a perfect punching timing and accuracy been seen in a Chicago ring. Baker's shots invariably found their mark. Callahan's defeat was forecast as early as the fourth round when Baker sank a powerful left in the stomach which left the champion wobbly even into the next round.

An improved variety of flax, which it is believed will reduce the cost of linen, is being tested in Ireland.

BANKERS TAKE THRILLER AND RIX WINS, TOO

SMITH BLANKS TERRY MACHINE; TAILORS LOSE SLUGFEST

Two of the leading clubs in the City League administered stiff drubbings to rival organizations yesterday, the Bankers blanking the highly touted Wholesalers, winners of the first half of the season, by a score of 3 to 0 while the rejuvenated Rix furniture jugglers walloped the Po-Tailors by a 15 to 4 margin. The Bankers and the Rix men, with 3 games won and 2 lost, are tied for first place with the Wholesalers, who have a similar record.

The Rix-Po-Tailors tilt was, as the score indicates, a free-hitting melee, in which the slugging of Catcher Sherrard featured for the victors, with three triples. Real baseball, however, reigned in the other tilt with Moody Smith, ace Banker right hander, allowing the slugging Wholesalers but three lonely bingles. Smith chalked up his second decisive victory over that club, having turned it back last week with only one bas-hit.

Manager Terry of the Wholesalers, who has pitched with success with the Hubbers and other fast semi-pro clubs of this section, essayed the role of hurler for his team and the Shylocks greeted him with six slugging safeties which, coupled with three costly misplays, brought victory to the money changers. Smith whiffed nine Wholesaler batters while Terry was turning back four Bankers via the strike out route.

Instructor Wins 24 Mile Marathon At Lake George

LAKE GEORGE, N. Y., July 12. (AP)—Edward F. Keating, New York swimming instructor, won the 24 mile swimming marathon in Lake George from Hague to this village, completed at 4:30 o'clock this morning, daylight saving time.

Keating's official time was 18 hours, 47 minutes and 15 seconds. When he left the water, Lucy Diamond, of Brooklyn his closest rival, was still 11 miles from the finish.

Mrs. Leticia Moore Schoemmel, another famous woman distance paddler was engaged in a close struggle with Walter Erickson, of New York, for third place. Both were about 13 miles from the landing point. Paul Choteau, of New York, flashed in the rear of the procession, 15 miles from shore.

The bid of Germany and Belgium to win the longest fresh water swim ever held in the United States came to an end when Ernst Vierkoetter, German channel conqueror was obliged to quit the race. Mme. Jane Sion, Belgian swimmer of the Seine was disqualified. Although in good physical condition and untired, the giant German left the water seven miles from the finish, suffering with an upset stomach.

Mme. Sion was disqualified after officials discovered she was being towed by her pilot boat.

At 5:47 Mrs. Schoemmel and Mrs. Diamond, were brought ashore after being picked up by hospital tenders about nine miles from the finish. Mrs. Schoemmel in a semi-conscious condition, immediately was placed in the care of a doctor.

Owners Disfavor Proposed Change In Lively Ball

(By Associated Press)
NEW YORK, July 13.—Sentiment apparently was opposed to making any change in the so-called lively ball as National League club owners met today at the offices of President John A. Heydler in their regular mid-summer session.

It was felt generally that pitching rather than the ball's resiliency was responsible for the modern prevalence of extra base hitting.

William L. Veck, president of the Chicago club, pointed out that with good pitching by both teams the Cubs and Pirates together scored but eight runs in three games in a recent series, indicating the ball is not altogether to blame.

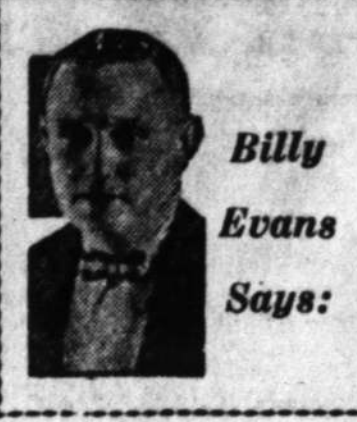

The meeting also was to consider the wisdom of engaging expert schedule makers from outside the league in an effort to eliminate schedule difficulties.

Other schedule matters and routine business were on the calendar.

Billy Evans Says:

Hero Worship in All Sports

Hero worship is a most important factor in the success and popularity of any sport.

Baseball is one of the greatest of all sports, the national pastime, and to its outstanding stars must go much of the credit for the immense hold the game has on the public.

Players like Walter Johnson, Christy Mathewson, Babe Ruth, Ty Cobb, Rogers Hornsby, Eddie Collins, Tris Speaker and other of that ilk, have often made dying heroes of themselves in the eyes of their fans out of late-warrior heroes by their sensational work.

While I doubt if any player in the history of the game has been a greater favorite than Walter Johnson, to Babe Ruth goes the credit for creating more interest in the game than any one other individual.

A home run is baseball's greatest thrill and Babe Ruth is unquestionably the greatest home-run-maker of all time. It seems there is no other drive for a circuit quite like that of the Bambino.

Babe Ruth Is Idol of Youngsters

This hero worship stuff is a wonderful thing, particularly on the part of the youngsters.

If you should walk round the Yankee dressing room at the stadium for about a half hour after the finish of any ball game you will get some idea of what it really is.

When the Babe steps out there is a wild clamor for his signature on baseballs, score cards and autograph books from several hundred youngsters daily.

It is really remarkable how good-natured he is about it, since this stunt is a regular diet with him whether at home or abroad. As he works his way through the crowd of youngsters, he signs each book he daily signs his name at least 50 times and thereby gives great pleasure to the fortunate youngsters.

Recently in a series at the Yankee Stadium between St. Louis and New York, I had an excellent opportunity to appreciate for myself what hero-worship really is.

Meeting Big Stars of Baseball

I had invited two youngsters, Red and Bob Fallon, aged 12 and 8 respectively, to be my guests at one of the games. I told the boys we would make an early start, that I would introduce them to the stars of both teams and take them back stage, so to speak, showing them through the player's dressing room.

Like most youngsters, Babe Ruth is the greatest man in the world with the Fallon boys, while Lou Gehrig runs a close second. Anxious to meet all the stars, their greatest interest centered in the two home-run sluggers of the Yankees.

On the St. Louis club George Sisler, naturally, was the outstanding hero of the Browns. They were delighted to shake his hand.

I am inclined to think I got as much enjoyment out of the affair as the youngsters, as I noted the smile of satisfaction and gratification that spread over their faces, as they shook hands with the various stars.

Here Worship That Was Real

Babe Ruth had been out of the game for a couple of days prior to this game and it was doubtful if he would play. So I informed the youngsters. When the older one mitted the Babe, he said: "I certainly hope you play today, Mr. Ruth, for my younger brother has never seen you make a home run and he would be terribly disappointed."

"Well, if you boys came up to see me play, I guess I better do it," said Babe with a Falon, aged 12 and 8 respectively, to be my guests at one of the games. I told the boys we would make an early start, that I would introduce them to the stars of both teams and take them back stage, so to speak, showing them through the player's dressing room.

"If two will be enough, I believe I will be able to satisfy you boys," replied Gehrig with a broad grin.

Ruth played that afternoon despite a bad leg. He didn't make any home runs but Lou Gehrig made two, as he had jestingly promised, both being terrific drives into the right-center bleachers. After the game almost in unison the two boys said to me:

"Wasn't that fine of Ruth to play for us and Gehrig to make those two home runs?"

No one in the world could convince the two Fallon boys other than that Ruth and Gehrig performed in honor of them. That's real hero worship, believe me.

JONES STRIKES DECISIVE BLOW IN GOLF MEET

SCORES SENSATIONAL 68 IN FIRST 18 HOLES OF TITLE PLAY

(By Associated Press)
ST. ANDREWS, Scotland, July 13.—Two amateurs were showing the way to the professionals when half the field had reported in the first round of play for the open golf championship of Great Britain. Bobby Jones, of Atlanta, Ga., defending champion was well out in front with a score of 68, equaling the record for the historic St. Andrews course. Three strokes back at 71 was Len Nettieford, young Australian amateur.

Joe Kirkwood, Australian pro transplanted to the United States several years ago, was the leading professional at this stage with a score of 72. Percy Alliss, English professional had 73 with five British professionals tied at 74.

The other American players in were Jim Barnes with 76 and Larry Nabholz, 77.

"Long Jim" Barnes finished with 76 adding a 38 home to the same score out.

Larry Nabholz, the first American to finish the day's round, turned in a 77.

Len Nettieford became runner up to Bobby for the moment, when he turned in a score of 71, two under par.

Walter Kennet, Palma Coia, Fla., needed 78 strokes for his first round.

Archie Compston, the long hitting British pro, was around in 74, but Cyril Tolley, the big amateur who can hit the ball even farther, required 77.

Joe Kirkwood, Albany, Ga., pro, took a place among the leaders with a 72.

John G. Anderson, Mamaroneck, N. Y., French amateur champion, encountered trouble of varying degrees of severity on his round and was forced to take 82.

"Wild Bill" Mohlhorn had two sixes on the first nine and was 40 at the turn. He got home in par 57, giving him 77.

Tom Stevens of Los Angeles, took a 74 for his first round.

PLENARY MEET IS CALLED AT NAVAL PARLEY

(By Associated Press)
GENEVA, Switzerland, July 13.—The delegates to the tripartite naval conference today decided to convene a plenary session tomorrow at 3 p. m.

Tomorrow's plenary session was arranged, it was learned, in order that assurance can be given that the negotiations are continuing in the friendliest manner.

Atmosphere Friendly
The atmosphere at Geneva today was most friendly, although a meeting which was held today did not result in any agreement on the cruiser problem, the Japanese insisting that they must have real limitation.

Meanwhile a Japanese suggestion that the United States and Great Britain negotiate a treaty between themselves has awakened no enthusiasm in American circles.

First of all, a treaty making 400,000 tons as the limit of cruiser strength of Great Britain and the United States is not to the liking of the American delegates because it means expansion of the American navy. Even if it were accepted as a compromise, it is believed that any bilateral convention would not achieve the objects for which the conference was originally convened.

Dallas Man Is Held In New York Swindle

ROCHESTER, N. Y., July 13. (AP)—Joseph Wilson, alias Davis, 27, of Dallas, Texas, was arrested today as a confidence man and it is believed he is wanted in several western cities.

According to police he offered to give Charles Andrazek \$1,000 in counterfeit money for \$35. Andrazek left to get the money and notified detectives before meeting Wilson again and after the arrest Wilson admitted the swindle attempt.

A Lesson

BY OLIVE ROBERTS BARTON
I frequently have requests to write on the woman who will not have children. I have always declined to do so on the ground that it is not my affair, but that it may not be fair to judge all women biologically and as a mere means of race propagation.

Recently, however, I became interested in the narrative of an old gentleman with philosophical tendencies. He lived in a city whose council, according to the old gentleman, was everything that it should not be and nothing that it should.

His story went something like this: "When my daughter got married, I bought her a nice house on Catalina street and never expected anything else but that she'd have a fine family of children. She was always good with youngsters. Her husband had a good job, and she knew I wasn't one to see her kick if she got tight, but she kept good time while we were young. Well, have children later on. We're trying to save now so we can have a family."

"The truth was, she didn't want children. They never did have any. They moved into a big house and she had her social leaders of the town. Halls in winter, garden parties in summer, trips to Europe and all that. John, my son-in-law, has a big mill of his own and is a big taxpayer."

"About the time Belle married, Old Windy Bill, daughter married. Windy was the town bum and 'Scratchy,' his daughter, was best described by her name."

"She and her drunken husband settled in a little house back of Belle's, on Catalina street and had six of the worst raised boys I've ever seen. Every body in the neighborhood lived in mortal terror of them. One of Scratchy's boys got into politics and after a few years more got into council. Now he's running the town and spending John's and Belle's tax money to suit himself and his cronies."

"John and Belle never got down-skying. What's the world coming to when men like that run our cities?"

"You know the answer," said my philosophizing friend. "When people who can have decent children and teach 'em right, won't have 'em, they can't blame anybody but themselves. If the country goes to the dogs, can they?"

The Right View
To hear many school teachers talk, you would conclude that there was the dull and dreariest and most uninspiring job in the whole world. There are, however, a few who sanely view the profession as pretty fair pay and short hours with a long vacation, and they work at their trade, though it seems more than many boys play.

THE PLAINSMAN

Says:

Henry Ford has apologized to the Jews for a series of attacks which were a feature of his Detroit Independent and which culminated in making the auto manufacturer defendant in a million dollar libel suit brought by Aaron Sapiro, a Semite, probably the foremost advocate of co-operative marketing in the nation's history.

In his apology Mr. Ford insists that the attacks were false and that had he known they were at the time of their publication he would never have permitted them to be printed. If such is the case Mr. Ford, as a publisher, has violated all of the ethics of an ancient and honorable profession in allowing to be broadcast untruthful and verbally vicious attacks on a certain group of people. It looks like another case of 'shoot me, stick to your last.' Mr. Ford has been a wonderful success in the world of finance—

As one very prominent Jew said upon reading Mr. Ford's statement, the apology, though late, has been made and coming as it did, was better late than never. "As a whole," he said, "the Jewish people are ready to forgive, for forgiveness has long been a characteristic of that people."

According to one of the local paper publishers, "the saddest words I know of are 'I'm sorry.' I'll have to be in by ten."

THE 1927 COTTON CROP
The first Government estimate on the 1927 cotton crop, reflecting average planted to June 25, reported a reduction of slightly more than 6,000,000 acres from last year, or 12.4 per cent. The figures are in line with the general belief that the average decrease would be under 15 per cent.

B. C. D. Directors Meet In Regular Semi-Monthly Business Session To Discuss Problems Facing Lubbock

Directors of the Board of City Development, presided over by President Spencer A. Wells, held their regular semi-monthly business meeting in the offices of the organization in the city hall this morning when a number of important questions were brought up for discussion. Ten members of the di-

rectorate were present for the meeting. As the culmination of a plan suggested some time ago the directors discussed co-operating with the Avalanche-Journal in the employment of an experienced oil writer to effectively cover all oil news and developments in the South Plains area, of which Lubbock is district headquarters. Following the discussion the directors voted to enter into the agreement whereby the Board of City Development and the Avalanche-Journal jointly employ the writer who will not only cover the field adequately for the Avalanche and Journal but who will also send to state papers the complete oil news of the South Plains area. Charles A. Guy, managing editor of the Avalanche-Journal publications, meeting with the board in the discussion, told the directorate that he had secured a highly recommended and experienced oil editor whose identity will be announced as soon as the writer in question can set a date upon his arrival here. He is expected to reach Lubbock in the next several days.

Will Help Territory
In the employing of this writer the Board of City Development and the Avalanche-Journal publications feel that they are not only assuring for Lubbock and the South Plains the protection needed in the dissemination of oil information but also at the same time are affording a responsible and efficient channel through which accurate oil news can be given to the state and nation.

A report on the oil banquet which was held last Saturday evening was made and the consensus of opinion of directors judging from letters, wires and personal conversation with members of the oil fraternity who were present, indicated that the banquet offered the oil men has kindled a warm spot in the hearts of the fraternity which will mean much to Lubbock in the future.

O. L. Stinton, member of the board and formerly president of the organization made a comprehensive report on his trip on the All Texas Special that traveled out of Texas recently loaded with Texans bound for the east on an advertising tour. Mr. Stinton explained in detail how

the trip was the biggest advertising campaign ever launched by a state and how several other states have already launched plans to copy the idea. Mr. Stinton told how the idea first originated, how the delegates and speakers were selected and stated that no sectional publicity was given out but that the state as a whole was advertised.

Rural Problem Settled
The board voted favorably upon a request from Mrs. J. C. Stanford, president of the Women's council and D. F. Eaton, county agent, asking that a fund be appropriated to send two women, two girls and five boys to the annual Short Course held at College Station, July 25 to 28.

The road bond issue which has been proposed for Lubbock county and which has been discussed for several weeks came up for discussion again today. A number of objections have been raised against some of the proposed provisions of the issue and the board voted to lend their assistance in getting the objections eliminated before the issue is definitely decided upon and launched.

Officials Confer On Road Equipment
AUSTIN, July 13 (AP)—Governor Moody and state highway Engineer R. A. Thompson conferred today with the board of control, which for some time has been considering bids on about \$1,250,000 worth of right-of-way maintenance equipment.

The nature or result of the conference was not divulged. Contracts are expected to be let any time to some of the 116 bidders. Some of the bidders argued the merits of the propositions before the board of control several days ago.

Stolen White Deer Roadster Recovered
The Ford roadster belong to Tony Dick of White Deer, which was stolen yesterday afternoon on the streets of Lubbock, was recovered last night by M. N. Davidson, night policeman.

The car was found in an obscure street east of the court house square. With castings badly damaged and an empty gasoline tank, the roadster had apparently been heavily used.

Summer Term At Tech Ends With Student Assembly

Closing the first term of the Tech summer school, a convocation of all the students of the college was held this morning from 10:30 to 11:30 in the assembly hall. President Paul W. Horn made a short address on "Some Tests of Education," after which announcements concerning the second term and courses were made.

Registration for the second term will begin Monday and the opening day of the term will be Tuesday. More than 350 students have already signed for the second summer term and officials say that more will register during the next few days. The second term of the summer school will close August 27 and the fall term will open September 15.

Shenanigans
NEW YORK—Helen Wainwright, swimming star, plans to seek an annulment of her marriage to George Leonard Holland, organist in a theater at Oklahoma City. There was a rice shower, the papers announced the marriage, and then, afraid to talk, they were married she says, but parted forthwith.

CALLES AFTER BLACKMAILERS

CATHOLIC WHOLESALE ORGY REPORTED TO PRESIDENT
(By Associated Press)

MEXICO CITY, July 13.—On orders from President Calles, the attorney general is conducting a drastic investigation into the wholesale black mailing of Catholic residents. It is charged that persons representing themselves as police officials demanded fines from citizens for having conducted secret religious ceremonies in their homes in violation of the religious law, threatening to punish them if the money was not forthcoming.

Police Chief Held
Colonel Antonio Avila, chief of the judicial military police, is under arrest, the president having issued instructions that he be held pending an investigation into the allegation that he and five of his assistants forced money from Catholics or closed their eyes while police or persons posing as police did so. The assistants, whose arrests were ordered, are reported to have fled.

Colonel Francesco Mayer, of the department of interior secret service, who is in charge of the investigation, suspects an unnamed high military official of complicity in the "black mailing" scheme. He says all the guilty will be punished severely.

Thumping Breath

THIS HAS HAPPENED Attempts have been made on the life of ELSIE MARBERRY, an American girl who swims and lives on property adjoining the queer little jungle-bordered town of PORTO VERDE, in west central Brazil.

Several mysterious deaths have occurred, but so far she has escaped harm, due to the shrewdness of her cousin and protector, VILAK, who masquerades as her attorney under the name of DAVIS. Vilak is a curious mixture of American and Oriental blood and a student of criminology. He tries to persuade Elsie to leave the country, leaving him there his friend, LINCOLN MURNALLY, an elderly American chemist, to solve the mystery.

At first refused, but after her two-year-old orphan nephew is kidnapped, Elsie and another attempt is made on her life, she agrees.

Her departure is prevented the threat of floods. Messengers ride through the countryside warning the natives that the dam at Tylics has burst. Then Vilak decides to proceed to the house of one AYLORD PRENTISS and warn him of the danger. Prentiss is a recluse and a forbidding man, as well as an enemy of Elsie's, and she suspects him of some knowledge of the conspiracy against her.

Nevertheless she agrees that it is her duty to warn him.

Vilak learns that the flood warning is a ruse to get Prentiss out of his house. The party is besieged in a small stone tower on Prentiss' property by armed attackers. Vilak finally disperses them by dynamiting a dam and causing a real flood. When the water recedes they discover Prentiss has gone. Vilak directs laborers to set fire to the brush on Prentiss' property.

NOW BEGIN THE STORY

CHAPTER XXXII

Vilak continued to light the fire for a quarter of a mile the way he had intended. He had expected that the flames would come to them; the long-legged, crane-necked, ugly, ungainly peccary, the graceful, agile bush deer, the water sent her onto some bank to look for a real flood. When the water recedes they discover Prentiss has gone. Vilak directs laborers to set fire to the brush on Prentiss' property.

When the caravan reached Lubbock it had covered a total of 1,983 miles, much of which has been in mud and on rough roads, due to heavy rains. The caravan made the 250 mile trip from San Angelo yesterday and thus far not a truck has been bogged down or has been equipped with chains.

Three Trucks in Caravan There are three trucks in the caravan, one one-ton machine and the other two of two-ton capacity, all equipped with the latest Buick motors. The Standard six cylinder motor gives the power to the one-ton machine while the larger ones are equipped with the Buick Master-six motors. George D. Lickford, district representative, is in charge of the caravan, aided by J. A. McDaniel, factory branch manager at Dallas. The trucks are all equipped with four-wheel brakes and the one-ton machine can make a speed of 60 miles per hour and can be stopped in 35 feet.

O'Higgins Death Is Claimed Step By Politicians

DUBLIN, July 12 (AP)—President Cosgrave speaking in the Dail today unhesitatingly declared the assassination of Kevin O'Higgins, vice-president of the free state council, was not motivated by private reasons but was a political murder. Whether the police have yet laid hands on the actual murderers is still unknown. Ten men were charged today with conspiracy to murder Mr. O'Higgins, and were remanded until next Monday. Each denied when arrested any knowledge of the crime, and no evidence was offered in court.

Plunkett Gives Statement Among those accused is George Plunkett, son of Count Plunkett. Asking permission to make a statement in court, Plunkett declared: "These gentlemen are all of the same mind that I should say on their behalf and on my own that none of us is in any way connected with the matter under consideration. It is only fair to the public at large and to our friends in particular that they should understand clearly that none of us here has any knowledge whatever of the affair and, in fact, it would appear from the manner in which we have been arrested—some of us before in similar circumstances—that we were hardly people to fill up a gap. We are prisoners on a very obviously false charge and we protest again being on remand."

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients. While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

Health authorities recommend it because of its purity and food value.

Easterner Energetic SAYS RUN TOLL BRIDGE Is Much Experienced

That all Easterners do not believe Lubbock is situated in a barren, desolate, cactus-and-desert, is revealed in a letter received by the Chamber of Commerce in which a woman in an Eastern state has made application for the job of "watching the toll bridge each night."

The woman, who wishes to locate in this country, explains that she is employed as a toll collector on a salary of \$150 per month. According to her letter, she had no reason to believe there is not a toll bridge here.

Another letter received late yesterday afternoon comes from a young man in Colorado who asks if this is a mountainous country.

Kemper Planning Big Expansion In Orient Railroad

WICHITA, Kan., July 12 (AP)—A general expansion of the Kansas City Mexico and Orient railway will be started in the event; he retains the presidency of the road at the end of the four months period allowed by the Federal court for English note holders to purchase control. W. T. Kemper intimated today.

Kemper and Clifford Histed of Kansas City, who have operated the Orient since May 1924, last week were awarded jointly \$1,068,750 by the Federal court in Kansas City for their services during that time as receiver and counsel respectively. The court also made provision enabling English investors in the road to acquire control of the road. Kemper said the logical thing for whoever is in charge at the end of the four months period is to extend the line, to build new road bed and to do "everything possible to make the Orient a paying proposition."

"If the Englishmen do not purchase the bonds, Mr. Histed and myself will proceed with our plans which are only nebulous now," Kemper said. Kemper is here to attend an Orient directors meeting tomorrow. A dog owned by scientists at Northwestern University has lived for more than two years with its stomach removed.

U. S. GUNBOAT PILOTED HOME

HISTORIC SHIP SAVED DURING WAR ENDS 19 YEARS SERVICE

(By Associated Press) PHILADELPHIA, July 12.—Saved from capture during wartime, as the story goes, by the cleverness of its commander, "No Tramp" Babbitt, at a game of bridge, the gunboat Scorpion, after nineteen years on the foreign service has finally come home.

When this country entered the World War the vessel was interned by the Turks at Constantinople. The Germans, who were in actual command of the port, demanded that the Turks seize the Scorpion, take off officers and crew and permit the Germans to use the ship as a decoy under cover of her American identity.

Beaten In Game Talaat Pasha, an acquaintance of Commander Herbert S. Babbitt came aboard with word of the German demand. The commander was said to have taken a long chance and played the Turk a game of bridge with the Scorpion as the stake. Babbitt won and the order of the Germans was piecemealed by the Turk. The vessel has been in naval service for twenty-nine years and holds the world's record of length of service in foreign waters.

Sutherland Springs Has \$40,000 Blaze

SUTHERLAND SPRINGS, Tex., July 12 (AP)—Fire here Tuesday destroyed several residences and the Baptist church at a loss estimated at \$40,000. The fire originated in a residence from an oil stove and spread rapidly to adjoining residences, all of which were of frame construction. Sutherland Springs has no fire equipment but the residents quickly organized a bucket brigade to protect neighboring houses. Vigorous work by the volunteer fire fighters kept the flames in check, but they were almost exhausted by the time Fire Chief Sarvan of San Antonio arrived with three trucks including a pumper. The flames were quickly controlled by this equipment.

California Man Attempts Own Life

EL PASO, July 12 (AP)—Herbert N. Lord, 23, of 192 18th street, San Francisco, California, is in a serious condition here from a pistol wound suffered as he was seated in an automobile near a Juarez dance hall Tuesday. Lord, who has a wife and young daughter in San Francisco, told officers he had business troubles. Papers in his possession indicated that the automobile was mortgaged to the Pacific Finance corporation. When officers questioned the youth he seemed surprised when they said they were not from the finance company. Lord, who is said to be the son of a former Pueblo, Colo., physician, was removed from a Juarez hospital to an El Paso hospital late today.
