Burkburnett Star

LIKED BY MANY—CUSSED BY SOME—READ BY EVERYBODY

A gal will splash around in a pool for hours, but insist that dishwater ruins her hands.

The reason why some people get lost in thought is that it is unfamiliar territory to them.

VOLUME NO. 50 | BURKBURNETT, WICHITA COUNTY, TEXAS, TUESDAY, DECEMBER 11, 1956 | NUMBER 22

Work On New Telephone Building Te Begin In The Very Near Future

Contract for construction of the new Burkburnett dial telephone building has been awarded to J. L. Hair and Sons.

The Wichita Falls construction firm will begin work right away according to Manager, C. A. Deuschle, of Southwestern Bell Telephone Co. Deuschle said ground breaking ceremonies for the new building will be held next week.

The manager said the dial building and equipment will cost about $225,000. The building should be completed in the early spring of next year," Deuschle said. "Then it will take several months for the dial equipment to be installed and tested."

Located at 305 E. 4th, the new building will be a brick one story structure, 80 feet by 33 feet. Building will include space for the dial equipment, a business office, plant department storeroom and lounge. There will also be a 40 feet by 75 feet parking area in the rear with asphalt paving. Deuschle said enough dial equipment will be installed initially in the building to house about 1700 phones.

First work on this project began on Oct. 15th when the old telephone building was moved back 50 feet to clear the site for the dial structure. The manager pointed out that telephone manufacturing plants throughout the country are already at work on the intricate dial equipment that will be housed in the new building. A dial system such as this one must actually be tailor made to fit the specific telephone requirements of Burkburnett," Deuschle said. When the building is completed a crew of telephone technicians will begin installation of the equipment.

LIONS CLUB

Meets at Town Hall, 7:30 p. m. Each Tuesday

Jim Ady had charge of the program. He introduced Dr. Rose, who made some laboratory tests on the stage. The Dr. turned out to be Lion R. M. Ross.

Next week Lion Amther will have the program.

Secretary C. R. Chambers read the financial report for the year.

Directors voted to give $50.00 to the new fire truck fund.

Church Of Christ Gets Contract For New Auditorium

Construction of a new auditorium for the Church of Christ here was begun Tuesday morning by Paden Construction Co. of Cleburne, Texas. The new building will seat 550-600 persons and will have year round air conditioning. Approximately four months will be required to complete the concrete and brick addition which will adjoin the present church building on the east side.

The new addition faces the south and will have ground level entrances on the south and east. The present auditorium will be devoted to an education building.

SANTA CLAUS WILL BE AT WHITE AUTO STORE THURSDAY AND FRIDAY NIGHTS, FROM 6:30 — 8:30 p. m.

Call 52 for Quality Printing

New Elevator of Harlin A. Mills Going Up Fast

Harlin A. Mills' 325,000 bu. capacity grain elevator is going up fast. The 120 foot structure is almost up to the 100 foot level. The crews work around the clock, pouring concrete, moving the forms up, and pouring more concrete.

How many thousand sacks of concrete to build a huge building of this kind? How many tons of steel? These staggering figures will be given soon.

Santa Will Visit In Burk Each Sat. Until Christmas

The Chamber of Commerce announced this week that arrangements have been made for Santa Claus to visit in Burkburnett each Saturday afternoon until Christmas. Old Santa will go from store to store to visit with the children and give them treats of candy and bubble gum.

Santa Parade

On the last Saturday before Christmas, Dec. 22nd, a Santa Claus parade will be held and bags of fruit and nuts will be given.

This Saturday Santa will be in town from 2:00 P. M. to 6:00 P. M. He will have a Christmas sack for each of the kiddies.

Mrs. Mathis Hostess Xmas Party Monday Circles 1&2 WSCS

Circles one and two of the Woman's Society of Christian Service met together for a Christmas party Dec. 10th in the home of Mrs. L. W. Mathis with Mrs. Jack Mathis and Mrs. Leon Turner as co-hostesses.

Mrs. George Scruggs, WSCS president, presided over a brief business session and introduced the program. Silent Night was sung by the group.

Mrs. J. N. Hicks brought a wonderful Christmas story, The Littlest Angel, in an interesting manner which was enjoyed by all.

Mrs. Hugh Jones and Mrs. Jack Mathis had charge of the gift exchanging.

Thirty-one women enjoyed delicious refreshments from a beautiful table decorated in pink and silver.

Lovely, festive holiday decorations were in profusion throughout the house.

Lockett Circle Met Monday Dec. 10th Mrs. Wylie Browning

The Lockett Circle of the First Baptist church met with Mrs. Wylie Browning last Monday afternoon. Mrs. W. B. Short brought the devotional and Mrs. B. H. Preston discussed the Lottie Moon Christmas offering and Foreign Missions. Two large boxes of clothing were packed to send to an Orphans Home in South Texas.

Refreshments were served to the following: Mesdames Elmer Burns, B. H. Preston, Ralph White, Claude Bowman, W. B. Short, J. R. Wooten, Tom Holman, D. R. Vaughn and Robert McPhail.

June Vaughn – James R. Perry Will Marry In January Vows

Mr. and Mrs. D. D. Vaughn of 1127 Casa Grande, Odessa, today announce the engagement and forthcoming marriage of their attractive daughter, June Marie, to James Richard Perry, the son of Mr. and Mrs. Charles B. Perry of 1501 Ridgecrest Drive.

The couple will speak formal evening vows Jan. 26th in the First Christian Church with the pastor, Rev. Wilbur J. Mindel as officiant.

Both Miss Vaughn and Mr. Perry are students of the University of Oklahoma and will be married at the close of the spring semester.

Miss Vaughn an OU sophomore is a member of Kappa Alpha Theta, social sorority. She attended Texas Christian University in her freshman year, transferring to Oklahoma this term. An Odessa High School honor graduate, she was a member of the National Honor Society, being fourth high in scholastic averages for her class in Odessa. She was a member of Sorella Un-Si-Y chapter. When Miss Vaughn was at TCU she placed third in a Dallas-Ft. Worth photo contest and was treasurer of her pledge class. This year at OU she was Logan House representative for Homecoming Queen and will represent Logan House as yearbook beauty. Her major is elementary education.

James Richard Perry, also a graduate of Odessa High School was high ranking boy of his senior class and a member of National Honor Society and Esquire Hi-Y Chapter, serving as it's president. Majoring in finance, Perry a senior, is president of his OU fraternity, Phi Delta Theta, and holds a membership in an honorary campus fraternity.

When a junior he was chosen on the ROTC Cadet Advisory Council. He is also a member of the Finance Club and serves on the board of the Interfraternity Council.

The future bridegroom's parents moved to Odessa 11 years ago, for Charles B. Perry to become president of the First State Bank. The Vaughn family has lived here for four years. Mr. Vaughn is president of Vaughn-Taylor Construction Co.

The students will be in Odessa Dec. 21st through Jan. 2nd for Christmas holidays. Parties are being planned for the betrothed couple.

Greeting Ads To Appear Next Week

Christmas greeting ads will appear in the Star next week.

There will be greetings from business firms, professional men and individuals.

Dozens of brand new Christmas greeting ads with appropriate sentiments are available at the Star office. It is such a convenient way to extend greetings to so many people—and the cost is small. No charge for the picture . . . . . just pay for the space used.

Now, while you think of it, call 52 or come by the office and pick out your greeting ad.

Mrs. J. W. Butz Died Nov. 30th At Smithville

News was received here this week of the death of Mrs. J. W. Butz of Smithville, Texas on Nov 30th. Mrs. Butz is a former resident of Burkburnett and resided here from 1926 until the death of her husband in 1940.

Surprise Party Tues. Night Honored Two Burk Drug Employees

Mrs. Ethel Willis and Mrs. Ruth Elmant were co-hostesses for a surprise birthday party Tuesday night honoring Mrs. Opal Long and Miss Ann Springer, employees of the Burk Drug.

Pictures were made of the group and cake and ice cream were served.

Those enjoying the evening were: Opal Long, Rich Long, Dwight Long, Ann Clayton, Jo Springer, Tommy Elmant, Ethel Willis, Gerald Owen and Ruth Elmant.

SANTA CLAUS WILL BE AT WHITE AUTO STORE THURSDAY AND FRIDAY NIGHTS, FROM 6:30 — 8:30 p. m.

Large Number Attended Opening Of Monaghan Appliance & Furn.

Almost 500 people registered during the grand opening of Monaghan Appliance and Furniture Co. here last week end. Although the weather was very disagreeable last Saturday, the store officials are happy with the reception their new store received.

Awards Made

Door prize awards were made to the following:

H. L. (Jack) Dempsey, Rosewood Lane, new G-E dishwasher.

Mrs. H. C. Gilbert, new G-E vacuum cleaner.

Mrs. Lefores, $50.00 worth of Christmas toys.

Lee Aday, Manager

Lee Aday is manager of the new Burkburnett store. He has had eight years' experience with Monaghan stores, most of it as service manager for G-E appliances.

Mr. and Mrs. Aday and two children will move to Burkburnett from Wichita Falls right after school mid-term.

Late Store Hours

To Remain Open Late—Beginning Mon., Dec. 17th

For convenience of Christmas shoppers, stores in Burkburnett will start staying open late each night, beginning Monday, Dec. 17th until Christmas.

Stores in town are well stocked with Christmas gift articles. So far no shortage has occurred in any line, but as the final day for shopping approaches, the tempo is being stepped up. For best selections, shop early.

Local Boys Make All-District Football Teams

First Team:

Norman Morgan, tackle; Jerry Gee, guard (unanimous vote by everybody in district); Donald McKinnis, back; Doyce Walker, back.

Second Team:

Otis Waddell, end; Ed Elliott, center.

Honorable Mention:

Jerry Boren, end; Jerry Reagan, tackle; Johnny Veach, guard, Alex Wills, back.

FFA Boys Attended District Banquet In Petrolia Recently

Representating the Burkburnett FFA chapter at the district Banquet in Petrolia recently were Donald Elliott, Alex Wills, Kenneth Alexander, sweetheart Norma Fleming, her mother and father, Mr. and Mrs. Fleming, Mr. Roy Silkwood and advisor, Mr. Bryan Farris.

In the sweetheart contest, Norma was edged out in the finals by Carolyn Coffey.

The chapter received its Gold Emblem rating certificate for last years work.

Nativity Scenes To Be Portrayed Dec. 17 Thru 22nd

On Monday, Tuesday, Thursday, Friday and Saturday nights, Dec. 17, 18, 20-22, the Nativity scene will be portrayed by live characters on the parsonage lawn across the street from the First Baptist church.

The scene will be shown from 7:30 to 9:30 every night that week except Wednesday. There will be live sheep, a donkey and people in the scene.

Members of the different churches of the city will furnish the characters for the scenes at different times.

You are cordially invited to come by and view the scene and then tell your friends about it.

Rev. Lonnie Finney New Pastor At Assembly Of God

Rev. Lonnie H. Finney of Sasakwa, Okla., has accepted the pastorate of the Assembly of God church here and will deliver his first message this Sunday, Dec. 16th. Rev. Finney and his family moved into the parsonage here this week.

A cordial invitation is extended to everyone to come and get acquainted with the new pastor this Sunday.

Rev. Finney replaces Rev. Carrington who moved to Bridgeport, Texas.

Burk Nudges Coyotes 59-58 In Basketball

Johnny Bryant Leads Comeback Win

Sparked by Johnny Bryant's deadly shooting in the fourth quarter, Burkburnett's Bulldogs scored a 59-58 comeback victory over Wichita Falls Coyotes Thursday night before 500 fans.

Until Bryant got hot in the final period, it looked like the Coyotes had things under control in their season inaugural. Wichita Falls led by six points with a minute and a half left in the third quarter.

Trailing 38-42 going into the fourth round, Bryant suddenly exploded for 12 points to forge the Bulldogs into a lead they never relinquished in the final exciting minutes. Bryant wound up with 27 points.

The surprised Coyotes found themselves seven points behind 38-52, with one minute, 20 seconds remaining. They made a desperate effort to catch up, as Pinky Red Andrews connected from 20 feet with 1:30 left, and Jimmy Embree bagged a layup with 47 seconds to go.

Burk froze the ball for 40 seconds and Embree got the Coyotes last two points as the final whistle sounded.

It was simply a case of the Coyotes being outgunned by the brilliant shooting Bryant. Wichita Falls had scoring balance. Andrews, Embree and Charlie Horton all hit 16 points and the Coyotes finished with a respectable shooting average of 37 per cent (23 of 62).

But the Wichitans grabbed 32 rebounds to Burk's 26. But they couldn't stop Bryant who now has 57 points in two games. The six foot Burk star made most of his 10 field goals from 15 to 20 feet out.

Burk hit 49 percent of its attempts from the field, 25 of 51. The Bulldogs connected on 15 of 29 in the second half, after trailing 24-26 at intermission. The Coyotes led 11-15 after one quarter.

During the first half, the score was tied five times and the lead changed hands three times, but the Coyotes held an edge most of the way. Twice in the first quarter, Wichita Falls owned 4 point margins, 14-10 and 16-12, on the scoring of Horton and Embree.

Junior Bromagen's 20 footer put the Pack ahead 38-33, then Bryant fired in a long one to pull the Bulldogs within three points as the first period ended. Burk moved out front early in the second on baskets by Doyce Walker and Dan Fowler.

Bromagen regained the lead for Wichita Falls, but Jerry Boren canned another long one to put Burk ahead, 23-20. Andrews and Horton gave the Coyotes a four point advantage, only to see Bryant slice it again.

Only two points separated the two clubs for five minutes of the third session, then free throws by Embree and Andrews stretched the Pack's margin to 40-34. Walker and Andrews matched shots. Bryant cut it to 42-38 and Andrews free toss kept the Coyotes five points ahead as the third quarter closed.

Bryant popped in two quick ones starting the fourth, Horton matched one of them. Boren hit from 20 feet and Bryant's jump shot from the side put Burk in the lead 46-45.

Horton put the Coyotes back out front, but that's the last time Wichita Falls led. Bryant and Boren gave Burk a 50-47 edge with 4:30 left and after Andrews shaved it with a two-pointer, Bryant banged in two more for a 54-49 reading.

Trailing 52-54 with two and one half minutes left, Andrews layup rolled off the the rim, and the Bulldogs rolled to a 59-52 lead on Boren's two free throws, driving layup and another free point.

Wichita Falls won the "B" game, 31-30, behind the rebounding and scoring of Leland Allred, who tallied 17 points. Jerry Allison and Gerald Phillips scored eight each for the Rowdies, while Mike Lacy paced Burk with 10.

Burkburnett defeated Iowa Park 71 to 57 here Tuesday night.

The Coyotes will play the Bulldogs here Tuesday night, Dec. 18th.

Tournament of Homes Scheduled At Frederick, Oklahoma, Dec. 17

All garden club members of Burkburnett are invited to attend a progressive Christmas Tournament of Homes to be staged in Frederick on Monday, Dec. 17th with all homes in the community eligible for entry in the Yuletide decoration event and presentation of ribbon awards to be made for winning homes.

The Frederick Garden Club Council is sponsoring the tournament.

Mrs. Bertha E. Curtis is general chairman and Mrs. Lynn Harris, co-chairman of the project.

"Great interest has been shown in the tournament of homes," Mrs. Curtis said, and many homes have already been entered in the event.

A horticulture exhibit will be held in connection with the tournament on Dec. 17th at the garden club center in basement of the Carnegie Library. The public is invited to attend.

Following the tour, there will be a tea and program at the spacious home of Mrs. G. W. Smith, 621 N. 12th St.

Tickets and schedule of homes are available at the home of Mrs. Bertha E. Curtis, 611 N. 12 Frederick.

FINANCIAL STATEMENT

Shipping Your Holiday Packages

You want your holiday packages to reach their destinations expeditiously and in good order. You can help assure that by following some shipping hints suggested by the Railway Express Agency, out of its wealth of experience.

Use a sturdy fibreboard or corrugated container large enough to provide a 2 inch clearance all around the gift package. Old newspapers, torn vertically into 2 inch strips, then fluffed and crinkled, make the best cushioning material. Stuff 2 inches of this material all around the gift, firmly, but not too tightly.

Close the container securely, with twine or tape or both. Gummed tape is preferable for shipments going by express. It should be at least 2 inches in width, and should not be soaked but moistened. If twine is used, be sure it is strong, loop it all around the length and girth of the package twice to form a double strand, then knot it securely where the strands meet.

Take some pains with your marking. 'From' and 'To' address should be hand-printed on the top of the package and repeated on one side. Black crayon or heavy pencil are best, as ordinary ink may smudge. Gummed labels, preferably typewritten, are also suggested. It's a good idea to place an extra address label inside the package, to provide identification if outside marks become illegible. Beware of sloppy printing and abbreviations. States should be identified fully. For example, there are 28 towns named Madison in as many states.

In holiday shipping, a little care pays off.

HALF A LOAF

The first of the Hungarian refugees to set foot in America under the special authorization of President Eisenhower, were welcomed at New Jersey's Camp Kilmer by an Army band playing Brahms, a flowery, Fourth of July speech by Secretary of the Army Wilbur Brucker, a prayer by an Army Chaplain and an "Isten Horza" (Welcome) sign over the camp gate.

A young Hungarian in horn rimmed glasses, who had spent the long hours of the flight from Vienna rehearsing his speech, made the response. He thanked the greeters and all Americans for Operation Mercy, and said: "We have brothers at home, still suffering under tyranny."

To receive and succor five thousand of the hapless people, or 17,000 as Representative Walker suggested after seeing a Red trooper shoot down an escaping refugee on the border, or 70,000 may soothe American consciences. But there will still be "brothers at home, who will still be suffering under tyranny." And the number of those whose sufferings will have ended, thru slaughter or starvation, will grow larger.

In failing to help the Hungarian freedom-fighters, Ferenc Nagy, a former Hungarian Premier (but not relation to the more recent Premier Imre Nagy) told a closed session of the House Un-American Activities committee, the West lost a chance to seriously weaken the Communist empire. At the beginning of the revolt, he said, the free world should have demanded the withdrawal of Soviet forces and backed up the demand with "a show force." Such action, rather than "observation or sympathy," Mr. Nagy felt, "could well have been the beginning of the end of the world Communist movement."

Whether right or wrong, the Nagy views do not help much now, except as they may help us to face up to the facts as they now exist; to consider how we will implement Cuba's UN resolution demanding the return of the Hungarian patriots deported to Siberia, or what we will do if similar struggles should break out in Poland, East Germany or Bulgaria.

Should we, or can we, do no more than assylum to some of the unfortunate ones who are able to escape the massacre?

THE NATURAL GAS PROBLEM

This country has a vast source of energy in its natural gas, and use of this fuel for both domestic and commercial purposes has tremendously increased. But, under present conditions, its full potentialities cannot be realized.

The reason lies in a Supreme Court decision, now more than two years old, which said in effect that the Federal Power Commission must take regulatory jurisdiction over natural gas production in the oil fields. This, many feel, was not the will of Congress. The gas producers, of whom there are thousands, are in no sense public utilities. They have no protected markets. Their work is intensely competitive and highly risky.

The remedy lies in Congressional action to free these producers of a form of regulation which must inevitably force a reduction in the sinking of new wells and result in a diminishing gas supply, at the expense of consumers all over the country. Congress did pass such a bill early this year, but was vetoed by the President because unethical lobbying methods had been used on behalf of the measure. He did not use the veto power because he felt the bill was in itself a bad one, indeed, in the veto message, Mr. Eisenhower endorsed the bill's objective and principal provisions.

It is expected that a strong effort, backed by leaders of both parties, will be made to pass a similar bill when Congress convenes again. The national interest, as well as the interest of natural gas users, demands that this be done.

From where I sit ... *by* Joe Marsh

Just Call Me Cupid

The counter down at Pete's was full yesterday, except for three seats near the end, so I plunked myself down on the middle one.

As I took my first sip of coffee a cute young couple came in—a girl in her early twenties followed by a fellow perhaps a year or two older. Without saying a word, they took the only two seats left—on either side of me.

Remembering *my* younger days, I *insisted* the young man take my seat so's they could be together. He hesitated at first, then finally he shrugged, grinned and said to the girl, "Well, let's make him happy. My name's 'Ricky'. What's yours?"

From where I sit, there was no harm done that time, but *jumping to conclusions* can be embarrassing. In fact, it's sometimes mean and intolerant—like the way some folks jump to the conclusion a man's "wrong" to prefer a glass of beer over another beverage. Lack of facts *coupled* with lack of judgment *introduces* trouble.

Joe Marsh

Copyright, 1956, United States Brewers Foundation

The exciting Ford Fairlane 500 Club Victoria (above)—over 17 feet long—is one of *two* new, bigger Ford sizes this year.

If you think it looks new... wait till you drive it!

...For there's where Ford's newness really pays off
...in melting mountains...in smoothing the bumps
..in straightening the curves

You can *see* that Ford's longer, lower Sculptured Look makes other cars look downright old-fashioned. But the part you can't see—the new "Inner Ford"—is what shows its stuff when you *drive* a Ford. It's revolutionary from the wheels up! And it *feels* it.

Ford's wider frame lets you sit sweet and low. It lets Ford hug the roads because of its lower center of gravity. And Ford's new front suspension, rear springs and new easy handling are part of the scheme to make you think every road is cloud-smooth.

The magic touch of the new Ford power plants makes mountains disappear. What *looks* like uphill *feels* like downhill. You get this surging power in a wide choice of new Silver Anniversary V-8 engines. Or you can choose Ford's new, more economical Mileage Maker Six, the most powerful Six ever offered in the low-price field.

There's magic in Ford's price tag, too! You won't believe this big new Ford is still priced Ford-low. But it is. Come in and test the magic of the new kind of Ford. It's a real "Wizard of Ah-h-h-h's!"

Action Test the New Kind of **FORD**

MERRY CHRISTMAS

By R. D. Laney

Christmas in the "Early Days' and in my childhood home was a simple affair by today's evaluation, but it was a thrilling affair and entirely satisfastory to all.

The night before each Christmas. "The stockings were hung by the chimney with care in hop es that St. Nicholas soon would be there." And found them filled the next morning with candies, nuts and fruits, wrapped in various colored tissue. We shot off fire crackers on Christmas eve and Christmas Day. We had turkey dinner at my grandparents' house several miles in the country with all the delicious dishes customarily served in the South at that season.

But calling to mind those events of long ago, the several weeks which preceeded Christmas are the most vivid in my memory. For a quiet expectancy scarcely perceptible and an excitment more subtle than obvious evidenced the fact that preparations were being made for Christmas.

The interval between Thanksgiving and Christmas was one of emotional excitment hard to define or explain. After the damp softness of autumn the cold air was exhilarating. Afternoons when we were doing the chores and preparing for the night we felt the coming snow and the strangeness of the first falling flakes.

Any kind of weather is good at Christmas. However, a white Christmas is most desired when swirling snows can add beauty to the slopes and the sun can add loveliness. At night the stars hang their brilliant and sparkling jewels overhead, they can turn the sharp cold hours into a night for warmth and cheerfulness.

On this particular Christmas Eve of which I call to mind, outside the windows nothing was visible except the grey dusk of the fog, but a farmhouse kitchen declares itself for what it is without the aid of a view over barn, field and corn stacks. It is the focus of the life of the farmstead always there is some activity, always there is someone calling or going. For faithful friendliness and homelike simplicity, I would choose my grandmother's kitchen above any other I know. Ond so it was now. The spirit could not help blossom in such a place, and especially perhaps on Christmas Eve.

Time has naturally changed my outlook since the first Christmas I can remember. The holiday tree continues to have its place in the parlor of my home. But where I once looked for a spinning top or a toy horse, and a stocking of fruits and nuts and candy, I see far more than the material things. It is the gift of love. It is the peace of Christmastime.

Each Christmas there is a Christmas tree in my home, just as it was those many years before. My grandchildren hang the decorations with glittering strands of tinsel and with red and silver bells, just as my mother had done. Christmas does so much to rekindle the dreams of a season that is eternally young. Christmas does so much to bring out from the pages of the past lessons of love and peace. The memories themselves are as comforting and kind and gentle as the warmth of a summer sun.

Christmas opens a man's heart A bird sings its ageless chords to one who will listen. The new day's sun will rise in all its glory over the same hills where the last spreading rays from the golden light of the ebbing day threw quiet and comforting arms around the land where another Christmas Day has just passed.

Merry Christmas To All

More than 18,000 parts must be made and assembled in putting the average automobile together.

Fashion Rose Club Held Meeting With Mrs. J. T. Logan

The Fashion Rose Garden club had its December meeting in the home of Mrs. J. T. Logan in the form a a Christmas party. Very lovely Christmas decorations dominated through out the spacious home. Roll call was answered with my favorite Christmas Carol. A very short business session was conducted by the president, Mrs. Archie Faulk. At this time it was voted to decorate the cafeteria for the annual Chamber of Commerce banquet. The club will also fix two baskets for needy families at Christmas.

Mrs. J. R. Sprague and Mrs. H. T. Kennedy had charge of the program for the afternoon. The theme was Decorations for Christmas. Several Christmas arrangements they had made were on display and discussed. They also presented various kinds of decorations for each room of the home as well as front and back door ideas. Mrs. Kennedy gave a Christmas story to remind each of the true meaning of Christmas.

During the social hour gifts that each member had made were exchanged. Delicious refreshments were served by the hostess to the following members, Mesdames Archie Faulks, E. B. Burton, Oscar McBride, E. E. Bangs, J. B. Foyce, E. A. Westbrook, J. R. Sprague, H. T. Kennedy, R. H. Brister and the hostess, Mrs. Logan.

Forum Study Club Met Dec. 6th Home Mrs. Lonnie Taylor

Mrs. Lonnie Taylor was hostess when the Forum Study club met in her home Dec. 6th.

Mrs. Tom Burnett, club president, conducted the business session in which the club decided to collect gift items to be sent to the State hospital in Wichita Falls to be distributed to the patients there on Christmas. This project is being done in co operation with the Women's Forum of Wichita Falls.

Other Christmas projects being undertaken by the club are the presentation of a Christmas basket of food to a needy family and the collection of toys to be given to the younger colored children.

The annual Forum Study club Christmas party will be held in the home of Mrs. Tom Burnett on Dec. 20th.

Mrs. Lonnie Taylor presented the program which was most interesting biography of John G. Hardin, local philanthropist.

Following the program, Mrs. Taylor served a refreshment plate to members, Mesdames Dennis Williard, James Wickersham, Hugh Preston, Jr., Brack Preston, Jr., Jack Northcutt, Don Mills, Eugene McNish, J. S. Looney, Clyde McDonnell, Wallace Landrum, Frank Greer, Charles Goins, Winston Freeman, Tom Burnett, Edward Bankhead, and Ted Averitt.

Its human to have your mind wander, but the trouble comes when you follow it.

You don't have to be a PENNY PINCHER

GETTING AHEAD FINANCIALLY is not a matter of "pinching pennies." Quite to the contrary. Actually you can spend money more happily — because free from worries and misgivings—once you have ambarked on a program of systematic saving.

FIRST STEP is to establish the amount that you reasonably can and *most certainly will* save each payday. Then see to it that these dollars go promptly into your savings account every week — before they have a chance to go elsewhere. You'll have more fun spending what's left — when you do your saving FIRST.

BURKBURNETT, TEXAS

Winged Performance and a Floating Ride make The Big M the road-hungriest car ever built

BIGGEST SIZE INCREASE IN THE INDUSTRY—Mercury is now over 17½ feet long, more than 6½ feet wide. Wheelbase is a big 122 inches. Inside there are inches more headroom, leg room—as much shoulder room, for example, as in many of the most expensive cars. Co-op

3-WAY POWER CHOICE

New 290-hp Turnpike Cruiser V-8—Wait till you feel its silk-and-dynamite performance! Optional on all Montclairs and Montereys.

New 255-hp Safety-Surge V-8 with Power-Booster Fan—A Mercury "first" in the Montclair Series. The engine fan *coasts* when not needed for cooling. You save horsepower other cars waste, enjoy a far quieter ride.

New 255-hp Safety-Surge V-8—Dream-car performance in the Monterey Series—Mercury's lowest priced line! Features another Mercury "first" which you get at no extra cost on all BIG M engines for '57—a Thermomatic Carburetor. It automatically controls the temperature of the air the engine breathes—helps keep it uniform summer and winter. Engine starting is easier, usable power and economy are increased.

YEAR'S MOST IMPORTANT RIDE IMPROVEMENTS

Exclusive Full-Cushion Shock Absorbers—One of Mercury's great Floating Ride features. The first shock absorbers in the industry to give such amazing bump-smothering control on rough roads without sacrificing a soft, satin-smooth ride on average roads.

New Swept-back Ball-Joint Front Suspension—Mercury introduces a new improved version of its famous suspension system. Because of the new *swept-back* design, the front wheels are now, in effect, pulled gently *over* bumps, rather than pushed into them.

New balanced weight distribution greatly reduces nose dipping on sudden stops and lurching on fast starts.

New road-hugging center of gravity—Everything is lower. Car height, passenger compartment, frame, and rear axle. You enjoy an amazing sense of "nailed-down" stability on curves.

You've got to *feel* Mercury's new Floating Ride to believe it. We invite you to do just that, today, at our showroom.

STRAIGHT OUT OF TOMORROW MERCURY for '57 with DREAM-CAR DESIGN

PTA News

40th ANNUAL CONVENTION HIGHLIGHTS

Dear Readers,

As local President of the Harrison Elementary PTA and as Citizenship Chairman of District 13, I feel it duty and privilege to inform you on the highlights of the convention since you were unable to attend. To have good citizens, we must be good citizens. To have informed members in PTA will build bigger and better local units.

Convention theme "concerted action; Richer Dividends For Every Child." This is also the state theme for the next three years. President Mrs. Leon Price of Dallas presided over the convention. Mrs. Ralph Hobbs, National Representative and Vice President of National Congress from Cataula, Ga., was the principle speaker for the convention. Dr. Willis M. Tate, President of SMU, Dallas spoke Wednesday night and Dr. Robert L. Sutherland, Director of the Hogg Foundation for Mental Hygiene, the University of Texas spoke at the banquet Thursday night.

The convention headquarters were at the Herring Hotel, all general sessions at the Muincipal Auditorium, Work Shops were in the Herring Hotel, Amarillo, Hotel, Auditorium, 1st National Bank Building, Santa Fe building, First Christian Church and the Elks Club auditorium. The high school band, several choral clubs drama classes and theatre groups furnished the music for the convention. A tour of Palo Duro Canyon, and a tea honoring the delegates and the banquet were the recreational and social events for the delegates. During the convention different groups were honored during each session; District,, Teachers, State Board Members, and local president and council chairmen.

A pagent of the Convention theme was presented by the speech class of the Amarillo high school assisted by Thespian workshop of Amarillo.

"Piloting Parent Teacher Action was the theme of Mrs. Ralph Hobbs, The Curtains are drawn, the stage set, the drama begins, What will it take to pilot this program of action? The waters of 56 are deep, the undercurrent dangerous, but with correct piloting the voyage can and must be made safe for the wellfare of future generations. No child is safe until all children are safe. The voyage must start from the rugged harbors of the world today, the right navigator must be present, the right navigator is God the great navigator, we as parents and teachers must take our instructions from our heavenly father, On any voyage a compass is needed, a sense of direction, are we directing a sense correctly? We must stand for each objective, we must cooperate not operate. Living the right example is good direction. Mrs. Hobbs is a Georgia peach and all you have to do is hear her talk to know she was born and reared in the South, she related a story of a hog and hen walking into town; on the cafe window was a sign, "Ham and Eggs, Oh lets us go in this will be fun, said the hen. No, said the hog, for you it is a contribution, for me the supreme sacrifice. As parents and teachers are we contributing? Are we making the supreme sacrifice for the safe future of our children? To pilot this action in the right direction we must have publicity, the press is the right arm of any unit. Let us pilot our action in the direction of the child. What Can I Do? Plant in the heart of a little Child, Love, peace and trust.

Dr. Tate spoke on "Is it Important? Education is important because in order to have the good leaders we need for future generations, for the world of tomorrow. Parents teachers are to have a stewartship role to build boys and girls into the right adults to carry the role of leaders the country needs.

Amendment No. 4 is the first step in securing the right teachers, teachers that are worth their salt are priceless. Too many teachers use a theory that children are little bottles, and the role of the teacher is to be master bottle. to go around and fill up the little bottles with education; then there is the teacher that used the method, that children are clay, they must be molded into certain molds, but the teachers we must all be is like the master teacher, Hope everlasting, love, understanding and correct guidance for our children. Good responsible teachers must know more than subject matter. Teaching is an art. Parents can be a great influence on whether their child goes to high education, plant the seed of good in the minds of a child concerning education."

Dr. Robert Sutherland spoke on "The Best Things in life cost a lot." Jane Adams in her book on "Twenty Years at Hull House proves that the best things in Jane's life cost her a lot. As a society girl from a wealthy family in Chicago she gives up this life to go into the slums of Chicago and start settlement houses in order that others can enjoy life. Jane uses the theory that she was not only living her life she was investing her life. We find ourselves when we lose ourselves in the interest of others but that costs a lot. The definition of cost is defined as giving up position and making room for younger people and new ideas; working hard for something of great importance, giving our time and talent for the welfare of others.

In a conversation with the local paper in Amarillo, Dr. Sutherland commended the paper for giving so much space for the local events. The paper replied, "Many things can be done, work can be accomplished, if you do not care who gets the credit.

Respect for others, inner approval of a job well done, and faith in things supreme are values we all seek and need, these are the best things in life, but they cost a lot.

During the work shops conducted on Thursday, much valuable information for local units was acquired. There was four workshops. I was in No. 2 with Mrs. W. D. de Grassi, Amarillo later in the convention Mrs. de Grassi was elected state president of the PTA for the next three years.) Discussion leaders were Dr. Bruce Browning, Assistant Professor, Department of Education and Philosophy, Texas Tech, and Dr. Charles Clark, Denton, Prof. of Education and Director of Teachers Education, NTSTC. Program planning was the first panel to be presented to our group. This was presented as a skit, Principle, President of local unit & past president were the characters for the skit. Good program planning starts with prayer, find out the type of programs the members of your unit would like to have, both in material matter subjects and presentation evaluate last years program, both good and bad; never ask a speaker that is uniformed on the program of the State and National Congress, the objective of the unit; publize the program by informing your members; have a substitute program in case you need it; lift the levels of our programs to the needs of local units; use variety. The Don'ts of program planning are do not crowd the program, long lectures, too many announcements, start on time and stop on time. Variety in programs are panel, films, skits, recreational and educational program by stu dents, also educational book reviews such "The Key to Peace" or "Freedom Foundation." Always remember to thank the people on the program by writing a thank you note.

Legislation team came to our work shop next. This was a skit. Legislator in his office and his secretary, the two were looking over the daily mail (The objective to this team was, how to inform yourself on issues to be brought before the legislation, and how important is it to write your representative and tell him how you would feel about this bill. Be sure when you write, the letter is brief, yet informative enough with your name and address on the letter, because all representatives would like to answer your letters. Never write copy letters about any legislation. Write individually and if a petition is sent have such name and address clearly written.

The third team was the Teacher Retirement; it was a skit with characters consisting of a parent teacher, administrator and college professor. This group spoke on the qualifications of a teacher, "Do you mind paying for the best," of course teachers do not teach for money, they teach because they love to teach, said the parent. The administator stated how hard it was this year to get qualified teachers for rural schools, it has been difficult for several years to get elementary, but 1956 High School teachers are difficult in finding. What are Problems in hiring teachers? Some schools can only pay $2805 annually, others can pay $4000 in the state of Texas. Neighboring states pay more. You guessed it they went to the neighboring state to teach school. Our concern as parents should be finding the best teachers possible for our children. The college professor explained what is being done in colleges to help the situation of shortage of teachers. The Texas Education Agency ran a survey on the 6000 graduates of Texas. 3000 of the qualified teachers began teaching, 3,000 others turned to other employment or went to other states There will in the next ten years be a need for 10 to 12 thousand new teachers in order to provide enough teachers to teach our children. Will supply meet demand? Texas teachers rank second in the nation on percent of degrees, this is holders of AB, 98%, 40% of our teachers hold Master degrees. Every day we must increase our teacher supply to 25 additional teachers in order to take care of the 658 babies born in Texas each month What as parents can we do? 1. Increase the pay of teachers, treat them as professionals by paying them a professional salary, after all they are teaching your children, do you want the best or had you rather have a high school graduate teach your child. 2. Encourage your child to be a teacher. 3. Take a survey and find out how many qualified teachers are in your community that are not teaching, encourage the refresher course being offered on television.

The fourth team gave a skit on Mental Health, the problem, confusion, flustration in a family with a 14 year old girl; the parents could not understand her and certainly she could not understand them. life seemed complicated for the whole family.

The new officers for the next three years are. President, Mrs. deGrassi. Amarillo, vice-pres. Mrs. T. W. Whaley of Koss, Mrs. Robert Cross of Anson, 2nd. vice pres. Dr. R. H. McKay of Dallas, recording sec.

The theme for the next three years will be Concerted Action; Richer dividends for Every child the family and the community; Each shapes the other, the PTA serves both.

Thank you for sending me as your delegate, I hope you have enjoyed the highlights of the convention.

Mrs. R. C. Moser,

Mercury's new Turnpike Cruiser with its low-profiled roof introduces an entirely new concept of motoring enjoyment through such exclusive features as the industry's first power-operated, retractable rear window and unique roof-level fresh air intakes on each side of the windshield—both part of a remarkable new ventilation system. A skylight, dual-curve windshield wraps upward as well as around for extra light and vision. To provide a better highway illumination pattern, the Turnpike Cruiser has "Quadri-Beam" headlamps with dual 5¾ inch headlamps placed side-by-side under wide hoods on each front fender. The Turnpike Cruiser series has been added to Mercury's Montclair, Monterey and Station Wagon series.

High Enough to See

The view from a cruising airplane changes one's perspective.

Rivers, cities, and towns fall into patterns when we get high enough above them to see them as they really are.

The soul needs to soar, too. We must get above things to see life as it really is.

To get the right perspective on life, we need to attend church regularly.

Worship God in church every week, at home every day.

INCLUDE CHRIST IN YOUR CHRISTMAS PLANS

In the hurry-scurry of Christmas shopping, stop just a moment... and remember the purpose of it all—

Notes From The County Ag. Agent

Efficiency operated farms are not the result of chance. On the contrary, says B. T. Haws, county agent, efficient dairy farming is developed through the careful planning and management of all phases of the operation.

No dairy operation can be efficient unless a production record-keeping program is developed. Haws urges every dairyman to participate in one of the organized plans now available. Record information should be the guide for breeding dairy cows, for feeding cows according to their producing ability and for herd culling. Records can provide the leads for cutting costs and increasing net income, says the agent.

The breeding program for the farm must be such as to provide only high-producing cows for replacement purposes. Here is a phase of dairy farming, adds Haws where second guessing can soon deplete a dairy herd-production is maintained and improved in relation to the caliber of the breeding program developed.

An efficient dairy farm operation includes a feed production program. Grassland crops which will provide an adequate and balanced, low cost feed supply for the herd the year round should form the basis of the program. Feeding and management practices which will assure efficient preservation and utilization of all feed for high milk yields must be developed.

Haws emphasizes that practices which will use the total farm and herd resources efficiently and economically for producing milk must also be developed. Labor and land utilization should get primary consideration, he adds.

Finally, before an efficient dairy farm can be developed, methods and practices which will result in the production of high quality milk and cream at all times must be developed.

Combine these essentials into a smooth operating unit and you have the markings of an efficient dairy farm, concludes cient dairy farm.

Anyone can grow roses, according to B. T. Haws, county agent. They may be planted in the fall or spring. In Texas, fall planting is generally preferred.

Aim for quality and you may also get quantity. Many gardners try to grow too many varieties or too many plants. Given careful attention, Haws says that 10 well chosen varieties will produce as many flowers and give far more pleasure than 50 poorly-tended plants.

Essentials for success with roses are: proper planting, a sunny location and well drained soil. Start with No. 1 grade plants and have the ground ready when the plants arrive. Make sure roots are never exposed to sunlight or drying wind.

Water plants thoroughly. Do not apply fertilizer to newly-planted bushes until the root system is well established, then feed at least twice a season. Never fertilize in late fall. Keep plants free of insects and disease with a regular spraying or dusting schedule.

For details on selection, soil preparation, pruning and care of roses, get a copy of TAP-1 — Roses For Texas, from your home demonstration agent's office or the county agent's office.

The depth to which recent rains penetrated into the dry rangelands of the state depended to a large measure upon the amount of cover on the ground. B. T. Haws, county agent, says a check made in West Texas after a slow five inch rain showed that moisture penetrated only five inches deep on bare soil. On a nearby grassed area, which had been grazed rather short, the moisture penetrated to a depth of 15 inches.

Normally, he says, enough rain falls in Texas to cover the state to a depth of 30 inches with water. Unfortunately, he adds, only about 14 percent of this 30 inches is utilized, the other 86 percent is lost to runoff or evaporation. For most effective use, Haws emphasizes that the water must be held on the ground where it falls for a considerable period of time.

Recently made observations showed that pits on hard bare soil materially increased the amount of water stored in the soil; that net wire terraces held up lots of water and greener grass showed along these terraces; that fallen trees and brush also effectively slowed runoff and held enough moisture to germinate and start growth of native grasses and that this brush on the ground protected young seedlings, permitting it to become better established. Areas on which brush was controlled had four time more water available for grass growth than it did areas still covered by brush, said Haws.

The county agent believes that a ton of plant material left on the ground per acre will materially retard runoff and increase water penetration. Too, he says a ground cover in the summer holds down both evaporation an soil temperatures. Last summer temperatures were checked on grassed and bare soil areas. The difference was 40 degrees, cooler, that is, under the grass cover.

Haws recommends deferred-rotation grazing, brush control reseeding, good soil and water conservation and proper stocking as practices for getting and keeping a grass cover on rangeland.

Mr. John Page is reported doing nicely now following two weeks confinement to his home with pneumonia. He expects to be up and around this week.

Women diet either to keep their girlish figure or their boyish husbands.

urk Citizens Ask o Endorse New .B. Legislation

The Citizens of Burkburnett urged to endorse the enact- of tuberculosis improve- legislation for Texas when state legislature convenes January, 1957.

rs. Joella Terrill Butler, sident of the Wichita Coun- B association and immediate president of the Texas TB ciation, announces that our e senator, George Moffett, our area legislators, Vernon art and J. B. Walling, are ys glad to receive the think- of their constituents on bills e presented for passage.

s. Butler pleads for individ- citizens to study the propos- legislation outlined in this and then to send their sen- ts in a letter or on a post- to all three of our area law ers, Austin, Texas. She also residents in surrounding ties to contact their area makers and urge the pass- of this needed legislation.

January, members of the ative committee of the s TB Association (compos- of representative members county TB Associations members at large) will re- nt two bills for passage h will have an important ing on the tuberculosis prob in Texas for years to come. e bill, Mrs. Butler points will call for "compulsory ion of recalcitrant tuber- culosis patients; that is. patients who leave TB hospitals against medical advice, or before their disease has been pronounced 'arrested' and return to their respective communities to spread their contagion to family members and close associates." At the present time, 47 out of every 100 Texas TB patients leave our state hospital before they complete treatment and while they are still infectious.

Texas has at present a sanitary code which provides for quarantine of communicable dis eases, but lawyers advise that the present law is too weak to be effective, that county health officers generally feel that this law does not provide sufficient authority for them to act to isolate recalcitrant TB patients.

The second bill would enter into an agreement for the State to pay for care and treatment of TB patints in tax supported TB hospitals, whether those hospitals are operated by city, city-county or hospital district institutions. Specific sources of revenue would be included in the bill.

Dr. Elliott Mendenhall of Dallas, nationally recognized authority on tuberculosis and for many years, a leader in the TB control movement in Texas, points out that many states have had compulsory isolation for years and they have found it ex tremely helpful. As a result of Oklahoma's recent enforcement of a strong law, its TB patients are fleeing into Texas adding to this state's treatment burdens.

Dr. Mendenhall disclosed that "for 50 years, there have been scattered attempts to enforce quarantine for patients who re-fuse to take precautions to protect others from their disease. As a result of experience in other states, a bill for compulsory isolation has not been presented in Texas until waiting lists for sanitorium care were reduced, and the large number of cooperative patients adequately cared for. In recent years, Texas has increased the number of beds for tuberculosis patients and the State is now in a position for the presenting of such a bill to its legislature.

Strong endorsements for this proposed legislation were made last week by two Wichita Falls groups; The Health Committee of the Wichita Falls Chamber of Commerce with Dr. Wm. L. Rector as chairman and a special committee of the Wichita County TB Association composed of Mrs. W. R. Shirk and Drs. David Allan and W. A. Reser.

Dr. Mendenhall stated "that TB patients receive good care and that spread of the disease is prevented in Texas are prime ob jectives of the Texas Tuberculosis Association." He also stress ed that Many TB patients receive medical treatment in the five state supported TB hospitals. Quality of that care depends on the hospitals budgets. The hospitals budgets of course depend on legislative appropriation every two years. Therefore those appropriations are of concern to the Texas Tuberculosis Association.

Doctors and others active in TB control have long believed compulsory isolation to be an effective method of controlling the disease. For every death from TB medical opinion is that at least nine other people have become infected. Dr. Mendenhall emphasized that "tuberculosis always comes from tuberculosis not from colds or any other disease."

Mrs. S. S. Reger Hostess Dec. 5th University Club

The University Study club met on Dec. 5th in the home of Mrs. S. S. Reger for a safety pro gram.

The president presided and following a short business session, names were drawn for a Christmas party to be held in the home of Mrs. R. C. Tevis on Dec. 19th.

Mrs. Holt and Mrs. Bunstine are to make cookies to send to sheppard Air Base hospital the first Saturday in January.

Mrs. Tevis talked on Driver re-training and a new Frontier. Mrs. Rigby gave a very interesting review of the Driver Manuel

These two topics were open for discussion and were very informative and interesting.

Seventeen members answered roll call and were served delicious refreshments by the hostess, Mrs. Reger and assisted by Mrs. Reagan.

Devol News

Mrs. C. O. WOODLEY

r. and Mrs. John Sells ob-ved their 50th wedding anni-ary Sunday with a big tur- dinner at their home here. ends from many places in as and Oklahoma were pre- to celebrate the occasion the honorees. Mr. and Mrs. s were married Dec. 9, 1906 East Texas and moved to this munity in 1907 having liv- several years each in Texas w Mexico and Oklahoma since . They returned to Devol in 3 to make their home. They e no children of their own a large number of neices nephews have made their e with uncle John and Aunt y. At one time the family sisted of nine members. ety-five guests registered day to enjoy the lovely din- and wish the happy couple y more anniversaries.

ill Glidewell of Sulphur, ed away at his home there 6th and was buried in De- cemetery Saturday, Dec. 8th. eral services were held at bur Saturday morning and veside rites were held here. Glidewell was the brother Mrs. Bob Hinkle and Mrs. C. Monson.

he Week of Prayer Service held at the Bautist church e Friday with Mrs. Claud mond as prayer chairman. se present were Mesdames mond, Farmer, Stevens, Ful- O. Doty, McClurkan, Nelson Mr. and Mrs. W. C. Char- eau.

ean Burk of Shawnee, pas- of the Baptist church and and Mrs. Bryan Harrison e Sunday guests of Mr. and W. M. Harrison.

r. and Mrs. Rex Frye of Dun- were Sunday visitors of their nts, Mr. and Mrs. W. L. e.

rs. C. C. Hawhee and Mrs. n Wood were business visit- in Walters one day last week rs. C. O. Woodley and Mrs. k McLain of Grandfield spent eral days last week in Okla. with their sister, Mrs. Eva llips.

r. and Mrs. Ralph Baum- rt of Wichita Falls visited tives here Sunday. They e accompanied home by Mrs. le Baumhardt.

iss Joyce Hutson of Wichita s spent the weekend with parents, Mr. and Mrs. Guy son.

r. and Mrs. Bill Muman of k and Mr. and Mrs. Harvey and babies of Olney visit- their parents, Mr. and Mrs. Doty, Sunday.

rs. W. M. Harrison is report- on the sick list this week.

rs. Toy Traham of Wichita s visited her parents, Mr. Mrs. Vernon King, Sunday.

r. and Mrs. William Nelson son have moved into the tist parsonage. Mr. and Mrs. Nelson hove moved into farm residence vacated by William Nelsons.

Frank M. Morton of Wichita County, Texas, a young man who has consistently won top honors in his 4-H club work, was in Chicago last week enjoying the rewards he earned in one phase of that work.

Frank won an all expense round trip to the 35th annual 4-H club congress by placing first in Texas with an outstanding record of achievement and leadership in the 4-H Tractor Program.

Frank's host is Stanolind Foundation, Inc., which sponsored the wards, literature and leader training funds in the 4-H Tractor Program in Texas, Oklahoma and New Mexico. The program is conducted nationally by the Cooperative Extension Service.

Frank agrees that Chicago is interesting and he's having a good time, but he'll tell you that his work in the tractor program and other 4-H activities really pays the biggest rewards on his parents' 620 acre farm near Wichita Falls.

There, the 16 year old Burkburnett High School Junior keeps the family farm tractors and other machinery and equipment in top safe running condition, helping to bring lower operating costs and higher efficiency.

Frank knows what he is talking about, having won four county medals in tractor maintenance and other tractor awards. But his ability extends to many other activities.

In his seven years of 4-H work, Frank helped organize a successful community 4-H Club. He's been a club officer and active in leadership in his local Friberg-Cooper 4-H club. Frank is also president of the Wichita County Tractor Club, co-chairman of the county 4-H council and winner of the State Fair Award and Gold Star Boy for Wichita County.

Much of the credit for Frank's outstanding achievement in 4-H work must go to his parents, Mr. and Mrs. W. M. Morton of Rt. 4, Wichita Falls, and to his club leader, Ralph Swinford.

Both Frank's father and Mr. Swinford have devoted time and effort to help the youth win his outstanding record of achievement in all his 4-H activities.

High point in the Congress activities for Frank and other tractor program winners from across the nation will begin tonight with the special awards banquet at the Sheraton-Blackstone Hotel. Afterwards, Frank and other winners will enjoy dancing and other entertainment at the Aragon ballroom.

Nearly 1,300 4-H youths from all parts of the nation and the territories are attending the congress. For most of them, this is the first trip to Chicago, and they are enjoying a variety of programs and entertainment in their honor, sponsored by many outstanding companies throughout the nation.

The 4-H Tractor Program has among its goals the teaching of good safety practices and efficient maintenance of tractors and other farm machinery. The program awards are sponsored nationally by seven different oil companies.

Card Of Thanks

Words cannot express my deep appreciation for the many kindnesses shown me during my stay in the hospital and since my return home. The cards, flowers and visits were especially appreciated. May God bless each of you.

Mrs. Charles VanLoh

Mrs. Hugh Jones Hostess Wednesday Builders Class

The Home Builders class of the First Methodist church met for their Christmas party in the home of Mrs. Hugh Jones Wednesday, Dec. 5th. The meeting was opened with a song Pass Me Not. Two lovely stories were read by Mrs. Homer Gilbert, The Greatest Christmas Story Ever Told and In the Bag for Mary.

Gifts were exchanged by the group from a beautifully decorated tree.

Refreshments were served to Mesdames Gilbert, Henry, Turner Roberts, Tucker, Lowery, Patton, Gage, Gragg, Lawler, Schoch, Jones, Vance and Ring.

Mrs. James Bohner Hostess Dec. 3rd Burk Study Club

The Burkburnett Study Club met Dec. 3rd in the home of Mrs James Bohner.

The following committees were appointed by Mrs. J. L. Mitchell, president; yearbook com., '57-58, Mrs. F. C. Roye, chairman and Mrs. Archie Faulk and Mrs. Glen Bear; nominating committee, Mrs. Howard Henderson, chairman, Mrs. Harold VanLoh and Mrs. F. A. Jamieson

The club voted to give a donation to the TB Association and also to send gifts to the State hospital in Wichita Falls.

Following a short business meeting a very interesting and enlightening program on Traffic Safety was given by Mrs. Archie Faulk.

Delicious refreshments were served to sixteen members.

Door prizes were won by Mrs. Harold VanLoh and Mrs. W. T. Zimmerman.

Ruby Wheat GA's Met Monday Dec 9

The Ruby Wheat GA girls met Monday, Dec. 9th at the First Baptist church. The business meeting was conducted by the president, Virginia Stamps.

Roll was called by the secretary, Sherry Lynn Gilbert. Each girl answered roll call with a scripture verse.

The girls practiced on Christmas carols. They will sing carols to shut-ins next week for their community mission work.

Refreshments were served to 25 present for the meeting.

Dianna Mullins, Reporter

News From The HD Agent

All game birds should be cooled thoroughly before cooking, reminds Thelma Wirges, county HD agent.

To roast duck, clean, wipe and dry. Sprinkle generously with flour, salt and pepper. Place whole peeled onion or apple inside each duck. The onion or apple will not be served, they are used to absorb some of the wild "gamy" taste. Fasten two or three strips of bacon across each bird with toothpicks. This adds juiciness and flavor. Place bird on rack in roasting pan. do not cover or add water unless it is an old bird. Bake in a moderate oven until done. Young birds will roast in approximately 1 1-2 hours. Baste frequently and remove from oven as soon as tender.

Ducks may be stuffed with wild rice dressing made by boiling the rice and seasoning with salt, pepper and chopped onion or you may use your favorite bread stuffing.

Dove and quail are considered a delicacy in many families. They have a food value equal to that of domestic birds, and a flavor that is unusual and exciting as well. They are delicious fried, braised, roasted or made into meat pies.

Game meats, like domestic meats, are at their best when properly dressed and cooked, reminds Thelma Wirges, county HD agent. The family judges meat chiefly by tenderness and flavor.

Natural tenderness of any meat is influenced by the kind of animal, age, finish or fatness and cut. Tenderness as served depends upon natural tenderness and method of cooking.

Carcasses of larger game animals are cut in much the same manner as beef carcasses and cuts are cooked by the same methods that are used for beef of a similar grade. As with beef the loin cuts are most tender. Roasts and steaks from the loin can usually be cooked satisfactorily by dry heat. Moist heat is considered more satisfactorily for the other cuts.

The loin will give the best roasts and steaks (sirloin or porterhouse). Chuck and rump are good for pot roasts and ground meat. The round will make good steaks unless the animal is particularly tough. In this case, it can be ground or used as swiss steak. If the leg is small it may be roasted all in one piece in the manner of a leg of lamb. Shank, neck, flank and spareribs can be best used for soups stews and ground meat. The neck will be tender if tendons are removed. It will make a good roast.

Venison is rather dry meat. Addition of suet, butter or bacon fat when roasting, broiling or frying will improve this condition. The characteristic venison flavor is concentrated largely in the fat. The removal of the bulk of fat will make it less "gamy".. Spices and herbs help to bring out its good flavor.

Mrs. Harold Staber, foods and nutrition demonstrator for the Valley Farms HD club, is busy working these days. She is improving her kitchen storage. These improvements will include: arrangement of work centers, addition of step shelf space for spices, etc, better arrangement of cooking utensils and improved eating area, with small electrical equipment handy. Mr. and Mrs. Staber are also remodeling other parts of their home. When in the Valley Farms you might stop by to see what has been done and look over their plans. Good planning is the secret of success in anything one may undertake.

Mrs. Melton Hostess To Wesleyan Guild Xmas Party Dec. 10

The Wesleyan Guild met Dec. 10th in the home of Mrs. O. E. Melton for their regular monthly meeting and annual Christmas party.

After a short business meeting, Mrs. Jim Pirtle, president, introduced Mrs. J. N. Hicks as guest speaker who brought The Christmas Story, The Littest Angel, which was thoroughly enjoyed by all.

The group then joined in singing carols with Mrs. Melton at the piano.

The house was beautifully decorated to carry out the Christmas theme. The tree was laden with gifts for all and Jimmy Creel, Mrs. Meltons small grandson, acted as Santa Claus and delivered gifts to each one present.

Refreshments also carried out the Christmas motif and were served to twelve members and three guests: Mrs. Leon Turner, Mrs. J. N. Hicks and Mrs. Geo. Scruggs.

George W. Clark Funeral Was Thurs.

Services for George W. Clark, 74, who died at his home here Tuesday, were held Thursday at 2 p. m. from Central Christian Church in Burkburnett. Burial was in Burkburnett Cemetery.

Rev. Jim Edwards, pastor, officiated and Owens & Brumley Funeral Home of Burkburnett had charge of arrangements.

Clark came here from Walters, Okla., in 1945 and had operated a cafe in Walters 17 1-2 years before retiring in 1954.

He leaves his widow, Mrs. Alma Clark of Burkburnett; three sons, V. L., H. O. and M. L. Clark all of Amarillo; a daughter, Mrs. Elmer Newman of Abilene and 10 grandchildren.

Ranch Girls' Race To Be Feature of Fort Worth Show

Thirty-six Ranch girls will compete in the barrel race contest at the Southwestern Exposition and Fat Stock Show. The event, which has proved highly popular the past two years, will be a feature at each of the 19 performances of the rodeo and horse show. Stock show dates are Jan. 25th through Feb. 3rd.

The contest is an invitational affair, the participants being selected by the Ranch girls Barrel Race committee. The girls will be sponsored by a ranch or their home city.

This is a time event. However, appearance in the arena of both rider and horse will be considered. Each girl must wear colorful western attire.

The course will be a cloverleaf pattern. Eight girls will ride in each performance and there will be four go rounds. The eight girls with the best total time will go into the finals and the championship will go to the girl scoring the best accumulative time.

The Ranch Girls will compete for a total purse of $2,780. Doug las B. Mitchell, horse show supt. will be in charge of the contest. Mitchell is also assistant manager of the Stock Show.

Rummage Sale

The Unity Garden Club will sponsor a rummage sale, Saturday, Dec. 15th. in the Alexander Building formerly occupied by Vogue Cleaners, 313 N. Ave D.

Letters To Santa

Dear Santa Claus:

Please, I want a walking doll for Christmas and an airplane and a fun toy and a purse and Santa if you have any toys left over will you please leave some at Mom Wills house so I can play with them when I go there.

Thank You,
Nancy Jane Robinson

Dear Santa:

Last year I was too little for much but I'm a bigger boy now so anything you leave here will be OK for me. My home is 100 Sunset Drive.

David Paul Robinson

Kenya Howard Receives Honor At Midwestern

Kenya Howard, a 1955 graduate of Burkburnett High School was presented as sponsor from Second Battalion at the annual NCO-officers club dance at Midwestern University in Wichita Falls.

Kenya, the daughter of Mr. and Mrs. Chester V. Howard. is one of nine sponsors. She holds the rank of Honorary Cadet Lt. Colonel.

At MU, Kenya, a sophomore, is majoring in English and minoring in elementary education.

Card of Thanks

I wish to take this means of expressing my heartfelt thanks to friends and neighbors for the flowers, cards and letters I received during my stay in the Baylor hospital in Dallas. Your thoughtfulness has meant much to me and will be long remembered.

W. E. Howard

Mr. and Mrs. Robert Todd of Anson, Texas are the proud parents of a new baby boy born, Tuesday, Dec. 11th. The baby weighed 7 pounds and has been named Robert, Jr. Grandparents of the baby are Mr. and Mrs. Lee Beckham and Mr. Lewis Todd, all of Burkburnett.

Mr. Jack Mathis, owner of the Mathis Chevrolet Co. here, flew to New York City Sunday where he will attend a three day auto show.

Small Town—A locality where there are no rich policemen.

Step into the wonderful world of AUTODYNAMICS

It tames a tornado of torque!

It unleashes a hurricane of power

It breaks through the vibration barrier

It is swept-wing mastery of motion

Ahead of you, the hushed purr of a muted engine throbs with power.

And at your fingertips, the push-button magic of new TorqueFlite automatic transmission stands ready to convert this power to surging take-off.

A touch of the "Drive" button triggers the newest, slickest, most responsive "get up and go" on the road. You sweep to cruising speed through an *extra* speed range that gives silk-smooth breakaway acceleration.

Here is push-button driving that packs a thrilling new "1-2 punch" for complete and effortless command of every driving situation. *You break away from the pack when the light says "go." Romp through stop-and-go 5 o'clock rushes. Breeze past "highway crawlers."*

Push-button driving is just *one* of the exciting experiences that await you in the Swept-Wing Dodge.

There's a mighty new aircraft-type 310 hp. *Super D-500 V-8 Engine*. New *Total-Contact Brakes* that match stopping power with horsepower. New *Torsion-Aire Ride* that cushions you in a "Realm of Silence."

All this is yours in a low-slung, swept-wing beauty only 4½ feet high. See and drive it today!

WE GIVE S.H. GREEN STAMPS

Hints for Mailing Christmas Pkgs.

In anticipation of the largest holiday mail volume in history, our Postmaster called attention to ten basic pointers for users of the mails to follow in order to assure prompt and safe delivery of their Christmas cards and gifts.

1. Address mail fully and clearly. Write legibly or print plainly. Where applicable, use zone numbers on the address and return address. Avoid using abbreviations which might confuse mail handlers.

2. Be certain that a return address is printed on the upper left hand corner of both Christmas cards and parcels. This will prevent any undelivered mail ending up in a "dead letter" office.

3. Do not enclose coins or hard objects of any kind in letters, without marking the envelope for hand stamping. High speed cancelling machines cannot process such letters, often jam and damage letters.

4. Do not mail cash in any Christmas gift. For safety's sake use Postal Money Orders or checks.

5. Make sure parcels are well packed and securely wrapped in strong containers. Cushioning material, such as excelsior, shredded newspapers or tissue paper should be evenly and firmly placed on all sides of the Christmas gift. The carton should be wrapped in heavy paper and securely tied with strong twine.

6. Gifts of a delicate nature, such as glass, china, electrical appliances, radios and musical instruments, MUST be marked "Fragile" by the mailer. Food stuffs should be marked "Perishable" if subject to spoilage.

7. Insure parcels. Register letters of real value. Where only proof of delivery is required for letters of no intrinsic value use Certified Mail. Use Combination Mail where a letter or message —other than a gift tag—is to be enclosed inside a Christmas package.

8. Ask at any post office for the free pamphlet, "Post Office Department Publication No. 3" which contains rates of postage and limits of size and weight for domestic mail. Another free pamphlet at post offices entitled "Packaging and Wrapping Parcels For Mailing".

9. Mail Christmas cards and parcels early to avoid the last minute rush and waiting in line at the post office. The best times to avoid crowds at the stamp windows in most post offices are before 10:00 A. M. and between 1:30 and 3:30 P. M.

10. Every postal employee is happy to answer questions on postal rules and regulations. Anyone with problems about mailing his Christmas parcels should avail himself of the opportunity of discussing the problems with postal employees, and take advantage of their experience.

Wrap Christmas Pkgs. Securely

Pointing up the need for your cooperation on his 1956 "Mail Early for Christmas" campaign, the Burkburnett Postmaster says if you will follow these simple rules, all of your gifts can be delivered before Christmas Day: **Wrap them securely, Address them correctly, and Mail them Early.**

Amplifying these rules, the Postmaster said, "Avoid the risk of mailing poorly wrapped packages. Use corrugated mailing cartons, plenty of heavy brown wrapping paper, and be sure that every package is tied with strong cord. Cartons containing several gift packages should be stuffed with tissue or old newspapers to cushion the shocks". He also reminds us that size and weight limitations for Parcel Post packages vary according to place of mailing and destination, and advises secure Pamphlet No. 3, giving complete details on Domestic Postage Rates and Fees.

Speaking about correct addressing of Christmas gifts and cards, the Postmaster said: "Be sure your Christmas mailing list is up to date and that you have the complete name, address, the zone number, city and state for everyone on your list. Send all your Christmas cards by first-class mail, because they will be processed and delivered quicker, and they'll be forwarded, or returned, if it becomes necessary". Only Christmas cards sent first-class mail may carry written messages, a custom everyone enjoys. Moreover, Christmas card envelopes smaller than 2 3-4 inches by 4 inches or larger than 9"x12" require hand cancellation, and must carry First-Class postage.

Christmas Hints Worthy of Note

Don't risk seeing stars when you try to hang a star on the top of your Christmas tree.

This warning comes from the National Safety Council, because Christmas accidents contributed to the 14,000 deaths from home falls last year.

Use a sturdy stepladder, place it as close to the tree as possible and be careful when you reach for the farthest branch.

The council points out that the holiday season brings many fall hazards, placing decorations toys underfoot, boxes and wrappings laid "temporarily on stairs slippery walks outside.

Another danger of the holiday season it fire.

"The Christmas tree, filled with pitch and resin, is one of the most conbustible objects known." the council says, "and it can burn so quickly it is almost impossible to extinguish the flames by ordinary methods. In case of fire, call the fire department immediately.

To help prevent Christmas tree fires, the Council offers eight simple precautions:

1. Buy a fresh tree. Be wary of trees sold as "fireproof." And don't attempt to flame proof Christmas trees with chemical solutions.

2. Keep your tree in a cold place until ready to use it. Before setting up the tree, saw off diagonally at last an inch of trunk and place base in water containing holder. Keep water reservoir filled.

3. Locate tree well away from fireplace, radiators, television sets, powerful electric lights and other sources of heat.

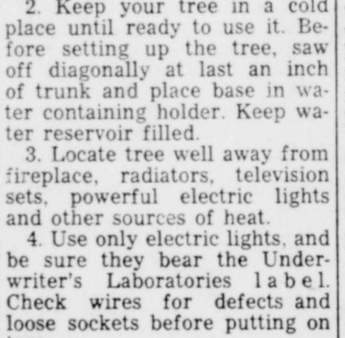

4. Use only electric lights, and be sure they bear the Underwriter's Laboratories label. Check wires for defects and loose sockets before putting on tree.

5. Too many light circuits on one outlet may overload house wiring and blow a fuse. Reduce the load if this happens, or connect part to another circuit outlet. Never increase size of fuse, or substitute a penny for a blown fuse.

6. Be sure ends of metallic icicles or other decorations do not dangle into light sockets where they can cause a short circuit and flash fire.

7. Do not operate electric trains or other electrical toys, which may spark, under the tree

8. Take tree down when needles start to fall. Dispose of old trees in fire-safe area outdoors never in furnaces, stoves or fire places, because they burn with almost explosive violence.

One woman cleaims the first time she saw Elvis Presley on TV, she thought something was wrong with her set.

New Postal Rules Aid In Mailing Christmas Pkgs.

Postal patrons this coming Christmas season can speed the processing and assure quicker delivery of their Christmas parcels and cards by availing themselves of various postal services and free postal information pamphlets, Postmaster General Arthur E. Summerfield announced today.

The services mentioned by the Postmaster General include:

1. This year, for the first time, sealed parcels may be mailed at the third or fourth class postage rates without labels, notations, endorsements, or hieroglyphics of any kind authorizing the opening of the parcels for postal inspection. Packages sealed with modern sealing materials or even with just plain Christmas seals should carry better in the mail than unsealed ones. Strong cord should also be used.

2. Combination Mail, which was used for the first time during last Christmas season, and which permits a mailer to enclose a letter or message inside a gift parcel and pay the appropriate postage on it plus the postage for the package itself.

3. Certified Mail, also used for the first time in the 1955 season, which permits mailers to have proof of delivery of Christmas letters, cards or parcels having no intrinsic value for a postal fee of 15 cents plus first class postage.

The free postal pamphlets — available at all post offices—are entitled "Packaging and Wrapping Parcels for Mailing" and "Domestic Postage Rates and Fees".

LIQUID FERTILIZER PROVES AID TO INCREASED YIELDS AND BETTER QUALITY

Liquid fertilizer, used as a supplement to usual soil fertilization practices, has helped greatly in obtaining greater yields and better quality crops. One widely accepted plant food supplement is "Na-Churs" Liquid Fertilizer which is supplied in a blanced formula of nitrogen, phosphorus and potash, plus important minor or trace elements.

Seed treatment with "Na-Churs" is an easy and economical method of providing part of the initial plant nutrient requirements. This helps produce faster produce faster emergence, stronger root systems and sturdier plants.

Foliage feeding or leaf spraying is another important application of "Na-Churs." Crops often need additional nutrients when producing flowers or just before the fruit of the plant is beginning to develop. By supplying extra nutrients which can be quickly utilized, spraying with "Na-Churs" can often mean the difference between a poor and a profitable crop.

BUYER MEETS SELLER IN OUR AD COLUMNS

About 52% of all the new rubber used by American industry is man made, derived from petroleum.

ROTARY CLUB

Thirty-eight Rotarians and visitors were privileged to hear Supt. Ralph Davis speak at the regular noon luncheon of the club Tuesday. Mr. Davis explained the local school system, where we receive our tax monies and the crowded conditions that exist today and what is being done to alleviate the situation. Mr. Davis' talk was thoroughly educational and enjoyable.

The Choral club of the high school will bring the club program next week.

Guests for the day were Bill Garland and Billy Ray Mize, guests of Hugh Preston; J. C. Hinkle, guest of Geo. McClarty, and Mr. A. W. Newman, guest of Andy Andrews.

Cub Scouts

DEN ONE

Den one of the Cub Scouts held their regular meeting on Dec. 5th in the home of Mrs. Wooten, our den mother . We opened our meeting with Christmas songs, then the boys made ivy holders for their mothers. The members then learned the Cub Benediction.

A game of tag was played then refreshments of ice cream and cookies were served.

Builders Class Christmas Party Was Thursday

The Builders class of the First Baptist church held their Christmas luncheon at the home of Mrs. Hattie Buchanan on Thursday, Dec. 6th.

The meeting opened with a song Bless be the Tie. Prayer by Mrs. Keller. Mrs. Riley conducted the business meeting. The devotional service was given by Mrs. Pat Crawford on the theme Christianity Is of Jesus, Psalms 126. The class had a special prayer for the sick members, the absent and for members of our church and town.

The fellowship chairman. Mrs H. Ferguson, secured Mrs. Slyvia Lohoefener to bring The Christmas Story.

Ten visitors and twenty members were present. $41.00 was given to the Littie Moon Missions.

The report counted 7,173,000 employed in agriculture, 732,000 below October 1955.

MOTHER'S BOYS

Author Unknown

Yes, I know there are stains on my carpet,
The traces of small muddy boots;
And I see your fair tapestry glowing,
All spotless with flowers and fruits.

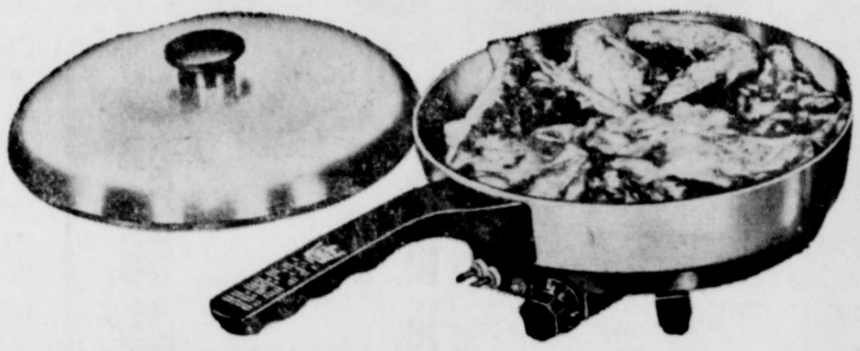

And I know that my parlor is littered
With many odd treasures and toys,
While your own is in daintiest order,
Unharmed by the presence of boys.

Yes, I know there are four little bedsides
Where I must stand watchful each night,
While you may go out in your carriage,
And flash in your dresses so bright.

Now, I think I'm a neat little woman;
And I like my house orderly, too;
And I'm fond of all dainty belongings,
Yet I would not change places with you.

No! Keep your fair home with its order,
Its freedom from bother and noise;
And keep your own fanciful leisure,
But give me my four splendid boys.

new leaders, who take state government in Jan- face the holiday season sions of tax dollars danc- ough their heads.

Elect Price Daniel of Lib- eady has set up unofficial arters in Austin. So has aggoner Carr of Lubbock sed candidate for Speak- e house.

will be in almost contin- nference with incoming ors the next few weeks, to smooth the way for a rt in January.

problem parallels the ber dilemma of most par- ow to buy everything promised without upset- e budget. Campaign prom nstitutional amendments by the people and increas- ey requests from state departments threaten to do just that.

Earlier Gov. Allan Shivers had predicted a $50,000,000 surplus for the next biennium with no need for new taxes. State Comptroller Robert S. Calvert said he could foresee only a $25,000,000 to $30,000,000 surplus.

But outgoing House Speaker Jim Lindsey took a flat "There ain't no Santa Claus" attitude. Texas growing population means spiraling expenditures, said Lind say.

Amendments giving increased teacher retirement and aid to the disabled will add some $12,000,000 to the state budget, he noted. Lindsey pegged estimated revenue for the next two years at $274,000,000, appropriation requests at $336,000,000. Result some 25 percent would have to be financed with new taxes.

ANTO INSURANCE — Texans may enjoy lower automobile insurance rates and lower costs in other lines of casualty insurance if the Texas 1957 legislature adopts a proposed flexible rate system. The state currently has a single rate plan—all companies charge the same on casualty insurance.

A Texas Casualty and Surety Legislative Study Committee, named by 40 Texas insurance companies, has recommended that the single rate plan be abolished and a flexible plan such as used in other state, be adopted.

Says Bob Hilton, study committee chairman: "Many companies are willing and able to charge lower rates and would be permitted to do so under a flexible rating plan which throw insurance charges open to competition and allows a company to set its rates at the lowest level consistent with sound operations."

INAUGURATION WORK BEGUN— James P. Nash heads the group of Austinites already at work in 1957 inauguration festivities.

Other leaders are E. R. Wroe, Jr., vice chairman; E. C. Bartholomew, sec.; Robert M. Kinnan, treas.; Ed Clark, acting treas.

With $1,241 left over from last inauguration, the committee needs to raise some $14,000 more if Austin is to carry out in style its traditional role of host to the state." Invitations by the thousands, a parade, receptions, and several balls are part of the bi-annual splurge.

COURTS BUILDING CONTRACTS LET — Contracts totaling $2,097,651 have been awarded for construction of a new state Courts building.

This figure includes everything but the architects' fees and interior finishing, according to the State Building Commission. These are expected to run the total cost up to $2,895,943.

INSURANCE CHAIRMAN RESIGNS — J. Byron Saunders, chairman of the State Board of Insurance Commissioners, has re signed effective Jan. 1st.

Saunders is to become vice president and general counsel for Republic National Life Insurance Co. in Dallas. He has been commission chairman since the resignation of Garland Smith last January.

Saunders instituted an industry-wide solvency check of insurance companies to "weed out the bad apples." He was praised by Gov. Allan Shivers for "stepping in when the board was under fire" and for securing stronger laws and supervision.

LOWRY CONVICTION REVERSED — Court of Criminal Appeals has reversed the conviction of Leslie Lowry for perjury in a statement to the Insurance Commission.

Lowry, former Beaumont mayor, was given a seven year sentence by an Austin district court. He was accused of making a false affidavit about the financial condition of the now defunct Texas Fire Insurance Company. But a defense witness a former notary, testified he did not administer an oath to Lowry when the affidavit was signed.

Reversal of the Lowry conviction threw a cloud over perjury indictments pending against 3 other officials of the same company. Travis County's District Attorney Les Procter said he will file a motion for re-hearing.

WOMEN JURORS APPLAUDED — Use of women jurors may have a wholesome effect on our court procedures, says a Supreme Court Justice.

Judge W. St. John Garwood thinks presence of women "will probably result in more cleanliness, order, restraint and dignity

Judge Garwood also noted increasing criticism" of jury trials in civil cases. Mounting volume and complexity of civil litigation make the system more and more cumbersome, he said. This, he suggested, plus "declining popular fear of judges as arbitrary or corruptible" may prove the way for reform.

HEALTH OUTLOOK BRIGHTER — An infant's chance of survival has increased many fold in Texas in the past two decades

Infant death rates have dropped from 71 to 30 per thousand since 1936, according to the State Dept. of Health. In the same period maternal deaths and stillbirths have plummeted from 6.9 to 0.5 per thousand so far this year.

Even greater improvements are predicted by the department as higher health standards become commonplace.

SHORT SNORTS—Dry northers are offsetting the effects of early fall rains in most of Texas, says the Texas Agricultural Service. Low temperatures and heavy frosts were also cited as damaging winter crops. Texas will have nearly three million jobholders during December, predicts the Texas Employment Commission. Extra holiday help in stores and post offices already has brought the seasonal upswing to 2,930,000 a new record. Texas will be entitled to two more congressmen after the 1960 census, according to unofficial population estimates. This would give the state 24 representatives. Texas school for the Deaf, delayed in its fall opening by a $2,500,000 construction program, was scheduled to begin classes Monday. A six day-week and one day Christmas holiday faces the 461 students in payment for their extra vacation. Texas Supreme Court has set for Jan. 2 hearing on the state's case against Upshur Rural Electric Cooperative. Decision is expected to define cooperatives' right to sell power in an area annexed by a city.

Wives Get Home They Wanted

When America's housewives told the nation what they want in their homes of the future during the recent Women's Congress on Housing in Washington, D.C., it was a challenge to architects and builders.

Architect Rudolph A. Matern, of Jamaica, N.Y., took up the challenge and designed this home for Town Journal magazine, incorporating practically everything the women asked for into a spacious split-level home.

The kitchen with breakfast nook has windows overlooking the play yard, as the housewives suggested, and is near the family or recreation room and a separate laundry room.

There's a large living room with fireplace, separate dining room opening onto a paved patio, three bedrooms, each with double-sized closets, one-and-a-half baths, a garage with storage space and a basement. The main bathroom has both a tub and stall shower, plus twin lavatories.

One of the housewives' most persistent demands was for pitched roofs to give their homes distinction and color, plus an attic space.

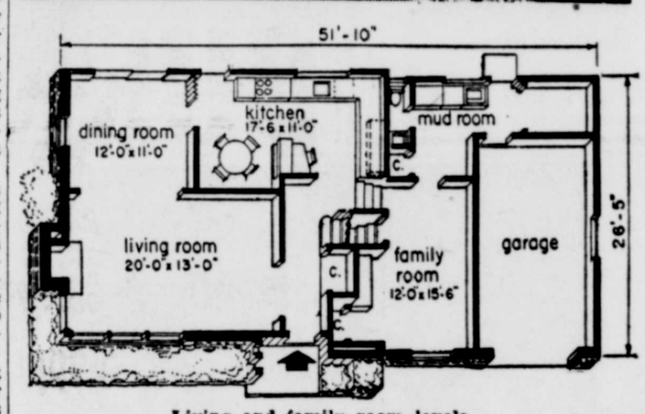

The architect complied by designing an unusually distinctive pitched roof covered with asphalt shingles for color and long-lasting protection. Asphalt shingles come in a wide range of colors, including soft pastels and deep shades, making them adaptable to decorative schemes of all kinds.

Another important construction detail specified by the architect is thick mineral wool insulation throughout. The mineral wool, properly installed in all exterior walls, as well as in attic floors and the garage ceiling, eliminates "cold' spots" which have troubled some owners of split levels. A well-insulated house is more economical to heat in winter, stays cooler in summer, and is less-costly to air condition.

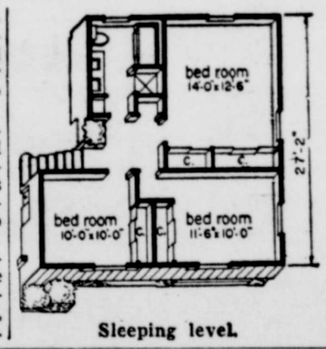

Among the more unique features of the house is a "mud room" requested by the housewives. It has a lavatory and is located off the play area so children and pets can be cleaned up when they come in.

Additional information, blueprints and specifications can be obtained from Rudolph A. Matern, 90-05 61st St., Jamaica 32, L.I., N.Y. Refer to Plan No. 9560.

Living and family room levels.

Sleeping level.

Most parents—from Dogpatch to Detroit—want their li'l lovin' boys and gals to have the advantages of a college education. How to get the necessary money presents the only problem.

One of the easiest, surest ways to do this is to invest regularly in U. S. Series E Savings Bonds through the Payroll Savings Plan. And the best time to get started is right now while your child is still little. Then when the day comes for him or her to start off for college, the money will be ready and waiting.

Here's all you do. Tell the people in your pay office how much you want to save each payday. The rest is automatic. Your money will go into U. S. Savings Bonds, one of the world's safest investments and one where your returns are guaranteed.

When held to maturity (9 years and 8 months) each Series E Bond pays an average 3% interest, compounded semi-annually. And that same fine interest rate applies for 10 years more, if you hold your Bonds. So if you save just $7.50 a week, in 9 years and 8 months you'll have $4,278. In 19 years and 8 months—$10,313—enough to give both son and daughter the educational chance they richly deserve.

So start now on the road to important goals like college for the children and retirement for yourself. Think of tomorrow today, and sign up for the convenient Payroll Savings Plan.

For the big things in your life, be ready with U. S. Savings Bonds

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, the Advertising Council and

Hints for Mailing Christmas Pkgs.

In anticipation of the largest holiday mail volume in history, our Postmaster called attention to ten basic pointers for users of the mails to follow in order to assure prompt and safe delivery of their Christmas cards and gifts.

1. Address mail fully and clearly. Write legibly or print plainly. Where applicable, use zone numbers on the address and return address. Avoid using abbreviations which might confuse mail handlers.

2. Be certain that a return address is printed on the upper left hand corner of both Christmas cards and parcels. This will prevent any undelivered mail ending up in a "dead letter" office.

3. Do not enclose coins or hard objects of any kind in letters, without marking the envelope for hand stamping. High speed cancelling machines cannot process such letters, often jam and damage letters.

4. Do not mail cash in any Christmas gift. For safety's sake use Postal Money Orders or checks.

5. Make sure parcels are well packed and securely wrapped in strong containers. Cushioning material, such as excelsior, shredded newspapers or tissue paper should be evenly and firmly placed on all sides of the Christmas gift. The carton should be wrapped in heavy paper and securely tied with strong twine.

6. Gifts of a delicate nature, such as glass, china, electrical appliances, radios and musical instruments, MUST be marked "Fragile" by the mailer. Food stuffs should be marked "Perishable" if subject to spoilage.

7. Insure parcels. Register letters of real value. Where only proof of delivery is required for letters of no intrinsic value use Certified Mail. Use Combination Mail where a letter or message —other than a gift tag—is to be enclosed inside a Christmas package.

8. Ask at any post office for the free pamphlet, "Post Office Department Publication No. 3" which contains rates of postage and limits of size and weight for domestic mail. Another free pamphlet at post offices entitled "Packaging and Wrapping Parcels For Mailing".

9. Mail Christmas cards and parcels early to avoid the last minute rush and waiting in line at the post office. The best times to avoid crowds at the stamp windows in most post offices are before 10:00 A. M. and between 1:30 and 3:30 P. M.

10. Every postal employee is happy to answer questions on postal rules and regulations. Anyone with problems about mailing his Christmas parcels should avail himself of the opportunity of discussing the problems with postal employees, and take advantage of their experience.

Wrap Christmas Pkgs. Securely

Pointing up the need for your cooperation on his 1956 "Mail Early for Christmas" campaign, the Burkburnett Postmaster says if you will follow these simple rules, all of your gifts can be delivered before Christmas Day: **Wrap them securely, Address them correctly, and Mail them Early.**

Amplifying these rules, the Postmaster said, "Avoid the risk of mailing poorly wrapped packages. Use corrugated mailing cartons, plenty of heavy brown wrapping paper, and be sure that every package is tied with strong cord. Cartons containing several gift packages should be stuffed with tissue or old newspapers to cushion the shocks". He also reminds us that size and weight limitations for Parcel Post packages vary according to place of mailing and destination, and advises secure Pamphlet No. 3, giving complete details on Domestic Postage Rates and Fees.

Speaking about correct addressing of Christmas gifts and cards, the Postmaster said: "Be sure your Christmas mailing list is up to date and that you have the complete name, address, the zone number, city and state for everyone on your list. Send all your Christmas cards by first-class mail, because they will be processed and delivered quicker, and they'll be forwarded, or returned, if it becomes necessary". Only Christmas cards sent first-class mail may carry written messages, a custom everyone enjoys. Moreover, Christmas card envelopes smaller than 2 3-4 inches by 4 inches or larger than 9"x12" require hand cancellation, and must carry First-Class postage.

Christmas Hints Worthy of Note

Don't risk seeing stars when you try to hang a star on the top of your Christmas tree.

This warning comes from the National Safety Council, because Christmas accidents contributed to the 14,000 deaths from home falls last year.

Use a sturdy stepladder, place it as close to the tree as possible and be careful when you reach for the farthest branch.

The council points out that the holiday season brings many fall hazards, placing decorations toys underfoot, boxes and wrappings laid "temporarily on stairs slippery walks outside.

Another danger of the holiday season it fire.

"The Christmas tree, filled with pitch and resin, is one of the most conbustible objects known." the council says, "and it can burn so quickly it is almost impossible to extinguish the flames by ordinary methods. In case of fire, call the fire department immediately.

To help prevent Christmas tree fires, the Council offers eight simple precautions:

1. Buy a fresh tree. Be wary of trees sold as "fireproof." And don't attempt to flame proof Christmas trees with chemical solutions.

2. Keep your tree in a cold place until ready to use it. Before setting up the tree, saw off diagonally at last an inch of trunk and place base in water containing holder. Keep water reservoir filled.

3. Locate tree well away from fireplace, radiators, television sets, powerful electric lights and other sources of heat.

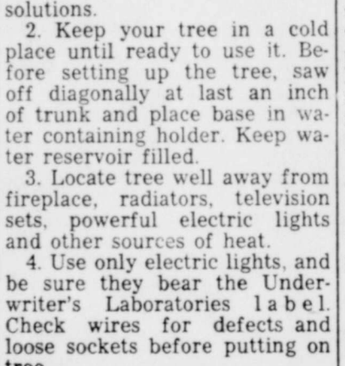

4. Use only electric lights, and be sure they bear the Underwriter's Laboratories label. Check wires for defects and loose sockets before putting on tree.

5. Too many light circuits on one outlet may overload house wiring and blow a fuse. Reduce the load if this happens, or connect part to another circuit outlet. Never increase size of fuse, or substitute a penny for a blown fuse.

6. Be sure ends of metallic icicles or other decorations do not dangle into light sockets where they can cause a short circuit and flash fire.

7. Do not operate electric trains or other electrical toys, which may spark, under the tree

8. Take tree down when needles start to fall. Dispose of old trees in fire-safe area outdoors never in furnaces, stoves or fire places, because they burn with almost explosive violence.

One woman cleaims the first time she saw Elvis Presley on TV, she thought something was wrong with her set.

New Postal Rules Aid In Mailing Christmas Pkgs.

Postal patrons this coming Christmas season can speed the processing and assure quicker delivery of their Christmas parcels and cards by availing themselves of various postal services and free postal information pamphlets, Postmaster General Arthur E. Summerfield announced today.

The services mentioned by the Postmaster General include:

1. This year, for the first time, sealed parcels may be mailed at the third or fourth class postage rates without labels, notations, endorsements, or hieroglyphics of any kind authorizing the opening of the parcels for postal inspection. Packages sealed with modern sealing materials or even with just plain Christmas seals should carry better in the mail than unsealed ones. Strong cord should also be used.

2. Combination Mail, which was used for the first time during last Christmas season, and which permits a mailer to enclose a letter or message inside a gift parcel and pay the appropriate postage on it plus the postage for the package itself.

3. Certified Mail, also used for the first time in the 1955 season, which permits mailers to have proof of delivery of Christmas letters, cards or parcels having no intrinsic value for a postal fee of 15 cents plus first class postage.

The free postal pamphlets — available at all post offices—are entitled "Packaging and Wrapping Parcels for Mailing" and "Domestic Postage Rates and Fees".

LIQUID FERTILIZER PROVES AID TO INCREASED YIELDS AND BETTER QUALITY

Liquid fertilizer, used as a supplement to usual soil fertilization practices, has helped greatly in obtaining greater yields and better quality crops. One widely accepted plant food supplement is "Na-Churs" Liquid Fertilizer which is supplied in a blanced formula of nitrogen, phosphorus and potash, plus important minor or trace elements.

Seed treatment with "Na-Churs" is an easy and economical method of providing part of the initial plant nutrient requirements. This helps produce faster produce faster emergence, stronger root systems and sturdier plants.

Foliage feeding or leaf spraying is another important application of "Na-Churs." Crops often need additional nutrients when producing flowers or just before the fruit of the plant is beginning to develop. By supplying extra nutrients which can be quickly utilized, spraying with "Na-Churs" can often mean the difference between a poor and a profitable crop.

BUYER MEETS SELLER IN OUR AD COLUMNS

About 52% of all the new rubber used by American industry is man made, derived from petroleum.

ROTARY CLUB

Thirty-eight Rotarians and visitors were privileged to hear Supt. Ralph Davis speak at the regular noon luncheon of the club Tuesday. Mr. Davis explained the local school system, where we receive our tax monies and the crowded conditions that exist today and what is being done to alleviate the situation. Mr. Davis' talk was thoroughly educational and enjoyable.

The Choral club of the high school will bring the club program next week.

Guests for the day were Bill Garland and Billy Ray Mize, guests of Hugh Preston; J. C. Hinkle, guest of Geo. McClarty, and Mr. A. W. Newman, guest of Andy Andrews.

Cub Scouts

DEN ONE

Den one of the Cub Scouts held their regular meeting on Dec. 5th in the home of Mrs. Wooten, our den mother . We opened our meeting with Christmas songs, then the boys made ivy holders for their mothers. The members then learned the Cub Benediction.

A game of tag was played then refreshments of ice cream and cookies were served.

Builders Class Christmas Party Was Thursday

The Builders class of the First Baptist church held their Christmas luncheon at the home of Mrs. Hattie Buchanan on Thursday, Dec. 6th.

The meeting opened with a song Bless be the Tie. Prayer by Mrs. Keller. Mrs. Riley conducted the business meeting. The devotional service was given by Mrs. Pat Crawford on the theme Christianity Is of Jesus, Psalms 126. The class had a special prayer for the sick members, the absent and for members of our church and town.

The fellowship chairman. Mrs H. Ferguson, secured Mrs. Slyvia Lohoefener to bring The Christmas Story.

Ten visitors and twenty members were present. $41.00 was given to the Littie Moon Missions.

The report counted 7,173,000 employed in agriculture, 732,000 below October 1955.

MOTHER'S BOYS

Author Unknown

Yes, I know there are stains on my carpet,
The traces of small muddy boots;
And I see your fair tapestry glowing,
All spotless with flowers and fruits.

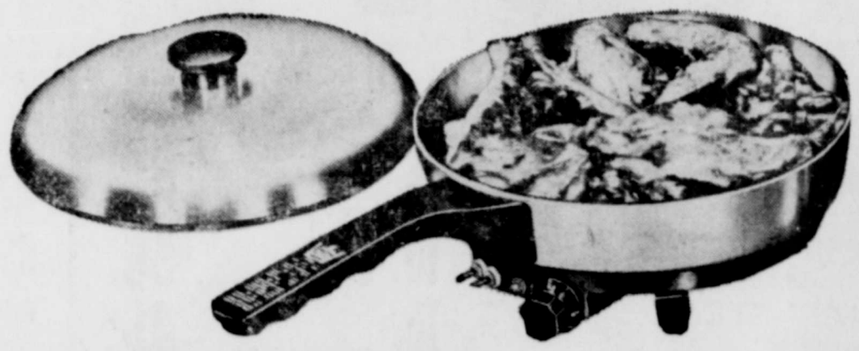

And I know that my parlor is littered
With many odd treasures and toys,
While your own is in daintiest order,
Unharmed by the presence of boys.

Yes, I know there are four little bedsides
Where I must stand watchful each night,
While you may go out in your carriage,
And flash in your dresses so bright.

Now, I think I'm a neat little woman;
And I like my house orderly, too;
And I'm fond of all dainty belongings,
Yet I would not change places with you.

No! Keep your fair home with its order,
Its freedom from bother and noise;
And keep your own fanciful leisure,
But give me my four splendid boys.

f new leaders, who take ate government in Jan- face the holiday season sions of tax dollars danc- ough their heads.

Elect Price Daniel of Lib- eady has set up unofficial arters in Austin. So has ggoner Carr of Lubbock sed candidate for Speak- e house.

will be in almost contin- nference with incoming rs the next few weeks, to smooth the way for a t in January.

problem parallels the er dilemma of most par- how to buy everything promised without upset- budget. Campaign prom stitutional amendments the people and increas- ey requests from state departments threaten to do just that.

Earlier Gov. Allan Shivers had predicted a $50,000,000 surplus for the next biennium with no need for new taxes. State Comptroller Robert S. Calvert said he could foresee only a $25,000,000 to $30,000,000 surplus.

But outgoing House Speaker Jim Lindsey took a flat "There ain't no Santa Claus" attitude. Texas growing population means spiraling expenditures, said Lind say.

Amendments giving increased teacher retirement and aid to the disabled will add some $12,000,000 to the state budget, he noted. Lindsey pegged estimated revenue for the next two years at $274,000,000, appropriation requests at $336,000,000. Result some 25 percent would have to be financed with new taxes.

ANTO INSURANCE — Texans may enjoy lower automobile insurance rates and lower costs in other lines of casualty insurance if the Texas 1957 legislature adopts a proposed flexible rate system. The state currently has a single rate plan—all companies charge the same on casualty insurance.

A Texas Casualty and Surety Legislative Study Committee, named by 40 Texas insurance companies, has recommended that the single rate plan be abolished and a flexible plan such as used in other state, be adopted.

Says Bob Hilton, study committee chairman: "Many companies are willing and able to charge lower rates and would be permitted to do so under a flexible rating plan which throw insurance charges open to competition and allows a company to set its rates at the lowest level consistent with sound operations."

INAUGURATION WORK BEGUN— James P. Nash heads the group of Austinites already at work in 1957 inauguration festivities.

Other leaders are E. R. Wroe, Jr., vice chairman; E. C. Bartholomew, sec.; Robert M. Kinnan, treas.; Ed Clark, acting treas.

With $1,241 left over from last inauguration, the committee needs to raise some $14,000 more if Austin is to carry out in style its traditional role of host to the state." Invitations by the thousands, a parade, receptions, and several balls are part of the bi-annual splurge.

COURTS BUILDING CONTRACTS LET — Contracts totaling $2,097,651 have been awarded for construction of a new state Courts building.

This figure includes everything but the architects' fees and interior finishing, according to the State Building Commission. These are expected to run the total cost up to $2,895,943.

INSURANCE CHAIRMAN RESIGNS — J. Byron Saunders, chairman of the State Board of Insurance Commissioners, has re signed effective Jan. 1st.

Saunders is to become vice president and general counsel for Republic National Life Insurance Co. in Dallas. He has been commission chairman since the resignation of Garland Smith last January.

Saunders instituted an industry-wide solvency check of insurance companies to "weed out the bad apples." He was praised by Gov. Allan Shivers for "stepping in when the board was under fire" and for securing stronger laws and supervision.

LOWRY CONVICTION REVERSED — Court of Criminal Appeals has reversed the conviction of Leslie Lowry for perjury in a statement to the Insurance Commission.

Lowry, former Beaumont mayor, was given a seven year sentence by an Austin district court. He was accused of making a false affidavit about the financial condition of the now defunct Texas Fire Insurance Company. But a defense witness a former notary, testified he did not administer an oath to Lowry when the affidavit was signed.

Reversal of the Lowry conviction threw a cloud over perjury indictments pending against 3 other officials of the same company. Travis County's District Attorney Les Procter said he will file a motion for re-hearing.

WOMEN JURORS APPLAUDED — Use of women jurors may have a wholesome effect on our court procedures, says a Supreme Court Justice.

Judge W. St. John Garwood thinks presence of women "will probably result in more cleanliness, order, restraint and dignity

Judge Garwood also noted increasing criticism" of jury trials in civil cases. Mounting volume and complexity of civil litigation make the system more and more cumbersome, he said. This, he suggested, plus "declining popular fear of judges as arbitrary or corruptible" may prove the way for reform.

HEALTH OUTLOOK BRIGHTER — An infant's chance of survival has increased many fold in Texas in the past two decades

Infant death rates have dropped from 71 to 30 per thousand since 1936, according to the State Dept. of Health. In the same period maternal deaths and stillbirths have plummeted from 6.9 to 0.5 per thousand so far this year.

Even greater improvements are predicted by the department as higher health standards become commonplace.

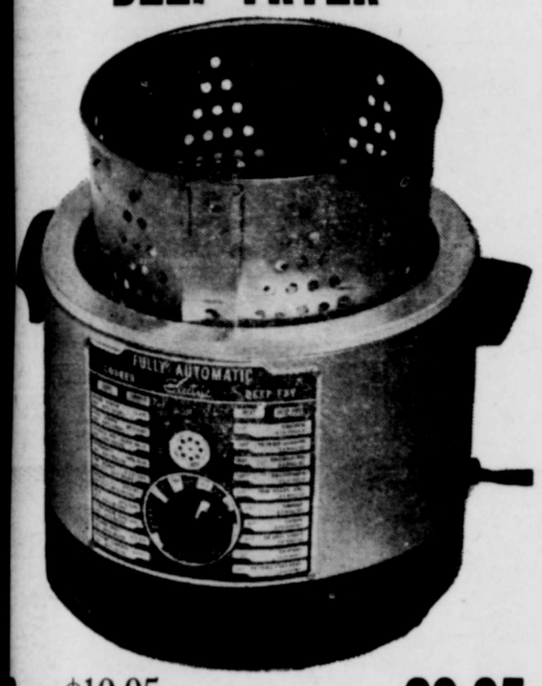

SHORT SNORTS—Dry northers are offsetting the effects of early fall rains in most of Texas, says the Texas Agricultural Service. Low temperatures and heavy frosts were also cited as damaging winter crops. Texas will have nearly three million jobholders during December, predicts the Texas Employment Commission. Extra holiday help in stores and post offices already has brought the seasonal upswing to 2,930,000 a new record. Texas will be entitled to two more congressmen after the 1960 census, according to unofficial population estimates. This would give the state 24 representatives. Texas school for the Deaf, delayed in its fall opening by a $2,500,000 construction program, was scheduled to begin classes Monday. A six day-week and one day Christmas holiday faces the 461 students in payment for their extra vacation. Texas Supreme Court has set for Jan. 2 hearing on the state's case against Upshur Rural Electric Cooperative. Decision is expected to define cooperatives' right to sell power in an area annexed by a city.

Wives Get Home They Wanted

When America's housewives told the nation what they want in their homes of the future during the recent Women's Congress on Housing in Washington, D.C., it was a challenge to architects and builders.

Architect Rudolph A. Matern, of Jamaica, N.Y., took up the challenge and designed this home for Town Journal magazine, incorporating practically everything the women asked for into a spacious split-level home.

The kitchen with breakfast nook has windows overlooking the play yard, as the housewives suggested, and is near the family or recreation room and a separate laundry room.

There's a large living room with fireplace, separate dining room opening onto a paved patio, three bedrooms, each with double-sized closets, one-and-a-half baths, a garage with storage space and a basement. The main bathroom has both a tub and stall shower, plus twin lavatories.

One of the housewives' most persistent demands was for pitched roofs to give their homes distinction and color, plus an attic space.

The architect complied by designing an unusually distinctive pitched roof covered with asphalt shingles for color and long-lasting protection. Asphalt shingles come in a wide range of colors, including soft pastels and deep shades, making them adaptable to decorative schemes of all kinds.

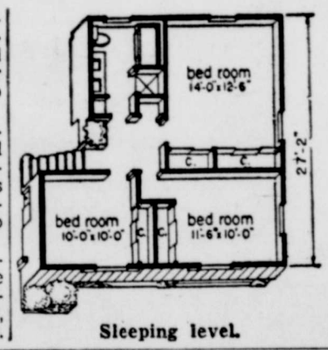

Another important construction detail specified by the architect is thick mineral wool insulation throughout. The mineral wool, properly installed in all exterior walls, as well as in attic floors and the garage ceiling, eliminates "cold' spots" which have troubled some owners of split levels. A well-insulated house is more economical to heat in winter, stays cooler in summer, and is less-costly to air condition.

Living and family room levels.

Among the more unique features of the house is a "mud room" requested by the housewives. It has a lavatory and is located off the play area so children and pets can be cleaned up when they come in.

Additional information, blueprints and specifications can be obtained from Rudolph A. Matern, 90-05 61st St., Jamaica 32, L.I., N.Y. Refer to Plan No. 9560.

Most parents—from Dogpatch to Detroit—want their li'l lovin' boys and gals to have the advantages of a college education. How to get the necessary money presents the only problem.

One of the easiest, surest ways to do this is to invest regularly in U. S. Series E Savings Bonds through the Payroll Savings Plan. And the best time to get started is right now while your child is still little. Then when the day comes for him or her to start off for college, the money will be ready and waiting.

Here's all you do. Tell the people in your pay office how much you want to save each payday. The rest is automatic. Your money will go into U. S. Savings Bonds, one of the world's safest investments and one where your returns are guaranteed.

When held to maturity (9 years and 8 months) each Series E Bond pays an average 3% interest, compounded semi-annually. And that same fine interest rate applies for 10 years more, if you hold your Bonds. So if you save just $7.50 a week, in 9 years and 8 months you'll have $4,278. In 19 years and 8 months—$10,313—enough to give both son and daughter the educational chance they richly deserve.

So start now on the road to important goals like college for the children and retirement for yourself. Think of tomorrow today, and sign up for the convenient Payroll Savings Plan.

For the big things in your life, be ready with U. S. Savings Bonds

Junior High News

Student Council To Vernon

Six members of the Junior high student council accompanied the high school student council to a District Meeting of Student Councils in Vernon on Nov 24th. Junior high members attending were Shirley Hodges, Martha VanLoh, Connie Clemmens, Carol Barnby, Shirley Overton and Dennis Harsh.

The group reached Vernon at 8:30 and registered. Vernon Hi School entertained the meeting with a program until 10:45 when discussion groups were formed. Lunch was served in the banquet room and a visitation period followed.

A short skit was performed in the auditorium for the entertainment of all at 2 p. m. A musical group from Vernon High school also presented entertainment and discussion results were presented. A profitable day was spent by all.

4-H Members Receive Awards

Tuesday night. Nov. 27th, the annual 4-H achievement Banquet was held in Wichita Falls. Several Burkburnett Junior Hi students received first awards.

Among the county winners were Linda Lee Bailey, 8-2, electric program, Carey Willett, 8-1, Home Economics, Patricia Simons, 7-2, Dress Revue, Linda Kay Holman, 7-1, Home Improvement, Jimmy Moser, 6th, Grain Marketing, and Raymond Nix, 8-3, Gardening.

Congratulations go to these students for their fine work.

Basketball Practice

Tuesday, Dec. 4th, forty-two boys from grades 6, 7 and 8th reported to Coach O'Brien for the purpose of organizing a basketball team.

Coach O'Brien is taking over Junior High basketball to relieve Coach Koller, who is now coaching the High School B team.

The first practice session was spent in learning the correct procedure in dribbling and pass ing. Practice will be held twice weekly. A definite game schedule has not been announced.

Girls Basketball Team Planned

The Junior High girls, under the coaching of Miss Johnson, are planning to organize a basskketball team during the second semester.

Girls from the 6th, 7th and 8 grades are eligible for the team. Practice sessions will be held during gym classes. A game schedule will be announced at a later date.

Grade School News

We are happy to be back in school this week and to talk about the many things we did during our two holidays. We have been real busy getting ready for our Christmas party on the 21st of December. We are beginning to hear the rumblings of old St. Nick away off in the distance and every once in awhile there seems to be a faint tinkle of the sleigh bells. We are not able to distinguish if there are more than one bell or just a soft tinkle of all bells.

We were happy to take part in the annual Bangle Pin Sales this year. We are all reminded to do our part in helping to prevent any of our friends from contacting TB and we are hopping that everyone will do their best this coming year in helping to do away with the old TB germ.

antle mirrored to the ceil- d decked with autumn s and greenery flanked graduated brass candala- rmed a charming setting wedding of Corinne Ship- ardner and Elbert Young er on Wednesday even- ov. 28. 1956, at 8:30. The were read by Rev. Cecil in the Sweetwater home and Mrs. Elmer Payne r. and Mrs. Richard Ship- rother and sister-in-law of de, co-hosts.

Buckner wore a rose lace costume with mink accessories, and carried a Bible topped with a white She is the only daughter late Judge J. C. Shipman lene. Her only attendant r. Evelyn Shipman sister- of Abilene, who wore white faile with black ac- ies. Glen Buckner of Abi- ccompanied his brother as man. Paula Buckner of s and Mary-Hardin Bay- lor furnished music.

Mrs. Elmer Payne presided at the silver coffee service and Miss Mattie Cook, Winters, served cake from a candle lit table covered with cutwork cloth and centered with bronze mums. The cake, a replica of a Bible, was decorated with bronze mums and the words "Coco and Buck."

Before leaving Mrs. Buckner changed into heavenly blue knit suit with black accessories. After a short visit in San Antonio they will be at home in Winters. Mrs. Buckner will resume her teaching routine in the high school mathematics department. Mr. Buckner is manager of the City Light Plant.

Guests attending were Drs. J. C. and Evelyn Shipman and Penny and Kenny, Mrs. Mary Kennedy, Mrs. J. C. Shipman, Mr. and Mrs. Glen Buckner, all of Abilene; Mr. and Mrs. Clarence Ledbetter, David and Judy, Mattie Cook, Rev. and Mrs. Cecil Taylor, Kay Gardner, Paula and Diane Buckner and Nancy Benson of Winters. From Sweetwater included Mr. and Mrs. Elmer Payne, Drs. Richard and Betty Shipman and Tona Jean.

Grand Matron Was Guest November 27 Burk Eastern Star

Burkburnett chapter No. 655 order of the Eastern Star met in regular stated meeting November 27th at 7:30 P. M.

Ethel Wofford, worthy matron in the East. The meeting opened with the officers drill. Pledge of allegiance was led by George Benton, Worthy Patron.

Worthy matron extended a welcome to all present. Then our deputy grand matron, Grace Grey, was presented and escorted to the East by Edith Eidson and Lilly Tyler, and welcomed by Ethel Wofford. Nellie Richards pinned a lovely white corsage on the deputy.

Six visitors and six past matrons and one past patron were introduced and welcomed.

Chapter business was presented and dispursed of in regular form. This being deputy night, the meeting consisted of instructions pertaining to the work of our order. A lovely gift was presented to Grace Grey from the chapter, and in turn she most graciously thanked the chapter.

Besides the regular officers, those taking part were: Marshall, Ruth McBride; Esther, Betty Hasty; Sentinel, Jerome Renfroe.

The meeting closed with officers retiring drill.

Refreshments were served in the beautifully decorated dining room by the refreshment committee, Elsie Crosley and Bessie Scruggs.

The next meeting will be Dec. 11th, 7:30 P. M. in the Masonic Hall. A welcome awaits all Eastern Stars.

High School News

All school elections were held last week for beauty, handsome and favorite girl and favorite boy. All of them are seniors. After two run-offs, the results were finally announced. They are: Beauty - Pat Lacy, Handsome-Jerry Reagan, Favorite girl Pat McCabe and favorite boy-Bill Garland.

This is Pat Lacy's second year for all school beauty. She has been a cheerleader for the past four years and plays on the 'A' basketball team. She was also sophomore favorite.

Jerry Reagan has played football for four years, basketball three years, track three years, and he was also chosen as freshman favorite.

Bill Garland is the Student Council President and senior class vice-president this year. He was elected most studious boy for '55-56.

Pat McCabe was freshman favorite, drum major for two years, FFA sweetheart for '54-55 band sweetheart of '55-56 and has held several class offices during her high school career. She has played basketabll for four years.

CLASS ELECTIONS

The different classes of Burkburnett High School held elections Monday, Dec. 3rd to elect class beauty, handsome, favorite boy and girl of each class.

The following were elected to represent their classes: Seniors: Beauty-Vyvyan Morris, Handsome-Billy Mize, Favorite boy-Jerry Boren, Favorite girl-Norma Teal. Juniors: Beauty-Carol Muller, Handsome-Pat DeFalso, Favorite boy-Donald McKinnis, Favorite girl - Barbara VanLoh, Sophomores: Beauty-Margie Inman, Handsome-David Waddell, Favorite boy-William Morton, Favorite girl-Patsy Sanders.

Choral Club Present Program

On Tuesday, Nov. 27th, the choral club of Burkburnett High school under the direction of Mrs. Askins, presented a special Thanksgiving program to the student body.

The program was opened with "America The Beautiful" done by the entire group. "Prayer of Thanksgiving" with a duet by Pat McNeil and Carol Benton was rendered next. "The Lord Is Mindful of His Own" and "The House I Live In" from the benediction was sung by the triple trio. The members of the group were: Lafaye McDonnell, Carole Benton, Willie Jo Woods, Carolyn Alvey, Katherine Alvey, Sharon Stevens, Patsy McNeil, Venitta Garrett and Donna Rose Gibson. Following the triple trio the chorus sang the popular song "He". "Lord, Dismiss Us With Try Blessing" sang in both English and Latin concluded the program.

FFA NEWS

On the night of Dec. 3rd, the FHA met in Room 105 of the High School, Norma Fleming, president, presided. The girls brought two Christmas cards, each with stamped envelopes. These will be sent to the State hospital in Wichita for the patients to send to their friends and relatives.

Another project for this Christmas season will be a white Christmas party where the mem bers will bring gifts wrapped in white for the needy families in the area. These will mostly include toys and clothing for the children.

The chapter voted to give $40. to the Cancer Fund.

Football Queen Elected

Dec. 4th, the football boys elected Norma Teel their football queen for 1956-57. Julia Morrison and Barbara VanLoh are attendants. Norma, a senior was freshman president, Sophomore beauty, and was recently elected senior favorite girl, Julia and Barbara and both Juniors, Julia was freshman favorite in '54. Barbara was elected band sweeheart and Junior favorite in 1956-57.

ORDERS—The man who does not know how to receive orders is not fit to issue them to others. But the individual who knows how to execute the orders given him is preparing his way to issue orders, and better still—to have them obeyed.
—Elbert Hubbard

It seems that dieting is a thing of mind over platter.

News From The County Agent

Normally, says B. T. Haws, county agent, enough rain falls on Texas to cover the state to a depth of 30 inches with water. Unfortunately, he adds only about 14 percent of this 30 inches is utilized, the other 86 per cent is lost to evaporation or runoff. Hold water where it fall for maximum benefit, he says.

Efficiency operated dairy farms are not the results of chance. On the contrary, efficient dairy farming is developed through the careful planning and management of all phases of the operation.

The fall planting of roses is generally preferred in Wichita County, Start with No. 1 grade plants, have the soil prepared before the plants arrive and make sure the roots are never exposed to sunlight or drying winds before planting.

The Wichita County Junior Livestock Show will be held at the 4-H Center in Wichita Falls on Saturday, Jan. 5th. Club boys and girls are urged to bring their animals in by 9:30 a. m. The judging will get underway at 1:00 a'clock. There will be approximately 30 animals entered in the show.

A good general rain is especially needed for late planted small grain. Some farmers in the county are not getting good stands. Some farmers are not able to turn their cattle in early planted grain.

A large percent of the pecans in the county have been harvested. The pecan crop, as a whole, has been good in the county.

Pocket gophers are problems on some farms in Wichita County.

Gophers (Salamanders) are killed only in their underground runways which may be about six inches deep. Dirt dug from the runways is pushed to the surface making a horseshoe-shaped mound. The tunnel from the main run to the mound is usually plugged solid with dirt. Some old main runways are also plugged with dirt from new diggings.

Take a stick or rod the size of a hoe handle and push it into the ground over the runway. Stop pushing as soon you feel the stick enter the run. Do not go through and hit the bottom of the run.

Place one tablespoon of poisoned grain in the run through the hole you made at each fresh mound. You will need a pound to three or four acres. Cover the hole with a chip or piece of sod and pour dirt over it to keep light out of the run. Be sure not to let dirt sift in over the poison. Formula for poisoned grain may be secured by contacting the local county agent's office.

Traps may also be used in gopher control.

Going ahead from day to day with noses to the grindstone, is neither a happy nor a full life. It takes time and effort to make worthwhile friends and neighbors, but it is worth it. A friendly community is the kind of place to rear children and make a home. A forward looking community provides good schools and churches. These things do not happen by themselves. It is people working together that makes a good community.

Closing dates for entries in the Rural Neighborhood Program and Pasture Improvement Program ends Dec. 31st, 1956. Entries must be in this year by that date. No exceptions. Communities are urged to please send in their enrollment cards now.

Any wild game may be frozen for future use, Thelma Wirges, county home demonstration agent reminds that it must be dressed and frozen as soon as possible. Correct packaging is important. Birds should be wrapped individually in moisture vapor-proof wrapping materials as cellophane, aluminum foil pliofilm or different kinds of laminated wrapping paper.

Wrap steaks of venison with 2 layers of packaging materials between each steak. Include as many steaks as needed to serve your family in each package. This makes it possible to separate steaks and begin cooking outhout having to wait for complte package to thow. However, for uniform cooking of the meat, each piece should be at least 2-3 thawed.

Wild game that is frozen and maintained at 0 F. or colder will not lose any of its fine qualities for several months.

Mrs. J. L. Graham, 1957 Wichita County Home Demonstration Council Chairman and Miss Thelma Wirges, county home demonstration agent, have just completed plans for Officer Committee training. This training will be led by home demonstration leaders and will be for all 1957 officers and committee members The meeting will be held in the Texas Electric Auditorium. They will stress the first rule of etiquette, which should be the first rule of any organization: Politeness is to do and say the kindest thing in the kindest way."

Members of the Enterprise community Messrs: and Mesdames L. H. Klinkerman, A. H. Skidmore, Sidney Patterson, Emil Flusche, R. A. Gilbert and Albert Arnold plan to meet with two county extension agents, Thelma Wirges and B. T. Haws to plan the organization of a Rural Neighborhood group.

NTSC YUCCA BEAUTIES—Judges have picked these twelve North Texas State lege co-eds as Yucca Beauties from a field of 49 nominees. Winners, who will b tured in the 1957 student yearbook, are, seated, Joan Iley, Dallas; Shirley Gate Dallas; and, standing, Augusta Newman, Rockdale; Dorothy Marsh, Orange; Lynn Wiley, San Antonio; Lynn McClurkan, Denton; Margaret Weber, Dallas; Machart, Denton; Bonny Jo Black, Arlington; Carol Byers, Dallas; Margaret Clarksville; and Beverly Martin, Dallas. Clarksville; and Beverly Martin, Dall

Riley, newly elected president, to the serving of the refreshment plate, enjoyed by members and guests.

Mrs. Riley asked the members to keep in mind the January meeting at which time election of officers will take place.

Mesdames J. C. Adams and R. C. Tevis stressed the need for caring for our feathered friends when the bad weather comes this winter.

Everyone was delighted by the beautiful Christmas theme arrangements made by Mesdames Tom Britton, Carl Morrison and J. C. Adams. These arrangements were annalyzed by Mrs. Britton who is a National Accredited Flower Show Judge.

Prior to the distribution of gifts, Mesdames D. C. Dodson, J. M. Pogue, and C. M. Archer judged the beautiful gift packages.

IT'S THE LAW In Texas

OUR "BILL OF RIGHTS"

With Dec. 15th being observed as "Bill of Rights Day" thruout the land, many persons are (or should be) thinking about what this important document means to them. This column will attempt a brief explanation of its meaning.

The American "Bill of Rights," consisting of the first ten amendments to our federal constitution, all adopted at one time in 1791, specifies in some detail a number of basic civil rights of the individual citizen. Unaltered by subsequent amendments and jealously guarded by our courts, these privileges must still be respected by our governing bodies today.

Among the most familiar of our constitutional guarantees are those relating to freedom of religion, speech and of the press. The same article protects the rights of peaceable assembly and the privilege of petitioning the government for redress of grievances.

Another amendment secures our persons, houses, papers and esffects against unreasonable searches and seizures, and specifies that no warrants shall issue but probable cause and upon unless supported by oath or affirmation.

The due process of law amendment encompasses not one but several guarantees. Every American is secured against placed twice in legal je for the same offense; agai ing compelled to be a against himself in a c case; and against hav private property taken f lic use without just com tion.

He is also secured agai ing held for trial for a (death penalty) or other ous crime, unless upon a tation or indictment of a jury. And, of course, no may be deprived of life, or property without court procedures, on du cess of law.

The right to a speedy a lic trial, by an impartia in the locality where the was committeed, the righ informed on the natu cause of the accusation, a rights to compel attenda defense witnesses and t the assistance of defense c in all criminal prosecutio secured by another sect the "Bill of Rights."

Excessive bail and fine cruel and unusual punish are prohibited in Amen VIII. Other articles insu right to bear arms and ba tering of soldiers in privat es during peace time.

Then to make quite cl our governing bodies the lying intent of the preceding visions, the Ninth Amen states: "The enumeration Constitution, of certain shall not be construed t or disparage others retain the people."

The Tenth Amendmen ther emphasizes this basi ory by providing: "The p not delegated to the Unite es by the Constitution, n hibited by it to the State reserved to the States re ively, or to the people."

Thus, that fundamental osophy expressed in the ration of Independence, men are endowed with c unalienable rights, and th secure these rights, govern are instituted among me riving their just powers the consent of the gove has been carried forward the highest law of our land

Your "gooseflesh", caus cold or strong emotions su fear, results from contr of muscles that form a cylinder around the ba each hair.

Legible Addressing Assures Better Christmas Package Delivery

Addresses marked on gifts with a felt-tip pen are colorful, clearly visible and quickly read and appreciated by postal employees, assuring that your packages will reach their destinations on time.

Long a favorite with teachers, artists, store and office clerks, and businessmen, this felt-tip pen, called the "Flo-master," is ideally suited for writing, marking and drawing in the home. This versatile pen can write on *any* material . . . glass, wood, paper, metals, plastics, porcelain, cloth, rubber, etc.

Housewives can use felt-tip pens to address parcel post packages . . . write children's names on the inside of their boots and rubbers . . . identify contents of home-frozen food packages . . . mark boxes for storage . . . label preserves . . . mark linen and clothes . . . and put names on birthday gifts and party favors.

Their husbands use felt-tip pens for marking window screens and storm windows . . . marking hardware storage containers . . . initialing personal property, tools, etc. . . . marking maps . . . making business signs, charts or graphs . . . laying out do-it-yourself projects . . . color-coding pipes and house wiring . . . and a multitude of other uses.

Although you can use any one of eight colors (including black) that are available for this type of pen, it is suggested that you get a separate pen for each color that you expect to use—to avoid the necessity of cleaning before each color change.

Made of chrome-plated brass, and furnished with four interchangeable felt tips for different width lines, this felt-tip pen is a handy, useful household and workshop article. Available at stationery stores everywhere.

Burk Garden Club Met Dec. 12 Home Mrs. A. R. Bunstine

Mrs. A. R. Bunstine was hostess on Wednesday afternoon, Dec. 12th for the regular meeting of the Burkburnett Garden club.

The Bunstine home was lovely with Christmas seasons decorations centered around the traditional green tree filled with sparkling ornaments and packages.

The Christmas theme was followed throughout the afternoon from Greetings by Mrs. J. R.
