Along The Waterfront

Sea Gun's marina manager Vernon Kleypas reports that fishing picked up a little this past week.

Father Beck of Victoria, fishing with Al Hagy aboard the Peggy H, brought back a nice catch of sheephead, some weighing up to 6½ pounds.

The Ed Daugherty party from Dallas, fishing with Capt. Karow in Copano Bay, in two days brought in 54 sheephead and trout.

The current winner of the fishing contest is Andrew Johnson of Sinton who is a Sea Gun guest.

Kleypas reports a limited amount of live bait is now available.

Jerry Epps Sends \$10 to VFW Fund From Vietnam

Even though he is serving with our armed forces in Vietnam, Jerry E. Epps took time out recently to send \$10 for the VFW Building Fund for a new hall to replace the old one one destroyed by fire.

Epp's contribution was mailed with a letter to Jimmy Hunt, Veterans Service Officer.

In his letter Jerry wrote about becoming a member of the Veterans of Foreign Wars but added, "I do not feel that a person should become a member before serving six months in a combat zone."

Another excerpt stated, "I shall be returning home during the late summer for a short leave. If I decide to return to Vietnam for six months, I will be discharged March 18, 1968.

"If I elect to serve the remainder of my enlistment in the United States, I will be discharged June 18, 1968, so I shall be returning to Rockport not later than July 1968 at which time I plan to seek civilian employment.

"I am currently studying law enforcement and criminal investigation and plan to work in some capacity of peace officer."

Ed Harper Elected C of C President

Ed Harper, general manager of the Jack Sanders Enterprises including the Sandollar Motel, is the new president of the Chamber of Commerce.

He was elected unanimously by the Board of Directors Tuesday night to succeed John E. Ross, head of the local office of Central Power and Light Co., whose term expired.

Other officers named by unanimous vote were Bob Eschberger, first vice president; Mrs. Burl Wagley, second vice president; and Charles La Bounty was re-elected treasurer.

Announcement also was made of the election of new directors by the Chamber membership.

Elected to serve three-year terms were Bob Eschberger, R. L. Eckman, J. D. Gray, (continued on page 8)

Sheriff's Statistics For January Given

The January report of activities of Sheriff Joe Earl Hunt's department included: 3 county warrants sent out of county; 5 county warrants; six out of county court cases; One out of county subpoena; 9 justice court cases; 1 out of county justice court case; 1 out of state; 9 district court, civil; 7 notices of probate; and 1 hearing for temporary hospitalization.

Norther Causes Local Damage

The norther that blew into this area Monday morning, accompanied by heavy rain, caused a considerable amount of damage in this area.

A 150-foot roof section of a warehouse at Bracht Lumber Co. was picked up by wind gusts and deposited on top of two homes immediately to the south. The warehouse is open to the north.

The homes on which the warehouse roof was "transplanted" were occupied by the Joe Dominguez family and John Carlisle. No one was injured.

A number of trees were blown down and there were several reports of radio and TV antennas being blown down. The antennae for a two-way radio system at IMC Drilling Mud Co. toppled over on a power line and was removed by CP&L workmen.

Paul Sorenson, local weather observer, said he measured wind gusts up to 35 miles per hour, but said some gusts were stronger. One man at Key Allegro who has an expensive wind gauge said he measured gusts that almost reached 70 miles per hour.

Sorenson said over two inches of rain fell between 6 and 7 a.m. and the temperature dropped from 65 to 41.

Vandalism Reported On Rockport Beach

According to S. W. Atwood, superintendent of harbors, Aransas County Navigation District, there have been two incidents of vandalism on the Rockport beach within the last two weeks.

On Tuesday or Wednesday nights, Jan. 24 or 25, several posts were uprooted and one of them used to do a great deal of damage to plumbing installation in a restroom.

More destruction took place at another rest room near the ski basin on the night of Jan. 30.

These incidents were reported to the Sheriff's office and every effort is being made to apprehend the violators. Malicious destruction of public property resulting in damage of \$50 or more is a felony and carries a penalty of confinement in the penitentiary for not less than two or more than 20 years.

If the damage is less than \$50, there is a fine of \$1,000 or more or confinement in county jail for not more than one year; or the penalty may be imprisonment and a fine.

As a result of this wave of vandalism, beach restrooms will be closed except for one at the Rockport beach and one at Fulton, which will be open in the daytime only, and closed after dark.

ROBERT OLIVER GETS APPOINTMENT TO AIR FORCE ACADEMY

Robert Oliver, son of Mr. and Mrs. M. J. Oliver, has been notified that Congressman John Young has nominated him as a candidate for appointment to the U. S. Air Force Academy at Colorado Springs, Colo.

In a letter to Oliver, the congressman said that the Academy will notify Robert as to the time and place for his physical and scholastic examination, probably in April or May.

Oliver is a freshman at Del Mar College and has a B-plus average in his studies.

As Pilot readers know, Robert covered Aransas County High School football and basketball games and wrote them up for this newspaper.

GUILD VALENTINE SUPPER FEB. 11

Members of the Wesleyan Service Guild of the First Methodist Church will serve a Valentine buffet supper at Fellowship Hall on Saturday, Feb. 11 from 5 to 8 p.m.

A wide variety of good food will be available at \$1.25 per plate for adults and .75 for children.

Everyone is invited to bring a sweetheart, a friend, or the whole family.

MEDICAL HELP by a U.S. serviceman brings tears from a Vietnamese tot with a sore foot, as his brother holds and tries to comfort him.

Merchants Advised to Be On Watch for Bad Check Passers

Merchants have to be educated to help themselves in preventing bad checks from being passed in their business establishments. And the teaching should be done by law enforcement officers.

This advice was given Tuesday evening by Mrs. Zana Stanley, San Antonio, member of the Bexar County District Attorney's office, in addressing the Coastal Bend Peace Officers Association at the Sandollar Motel.

Sportsmen Asso. Holds Meeting

Meeting of the Rockport Sportsmen Association at the Sandollar was called to order at 7:15 p.m. Monday with actual count of 98 on hand. By 7:45, time for the movie, there were 115 aboard and the cold night, 45°, made no difference to hardy winter visitors from further north.

Minutes of Appreciation Dinner meeting were approved. Lee Eckman reported on the progress of H.B. 35, and that Rep Wieting thought it would not have any opposition.

T. D. Moore, director of the 5th Region, Texas Parks and Wildlife Commission, said that the additional \$10,000 for lighting the half mile long fishing pier extending from the south shore of Copano Bay was granted.

This should make a great fishing spot, since it has always been good fishing and with additional artificial reefs planned for the future, many strings of game fish will be carried ashore and much tackle will be torn up by the big ones which got away.

Moved by Eckman, seconded by Christian, that Section 3 of the By-Laws be deleted. This section establishes the bonding of the treasurer. Motion carried unanimously.

The movie "This Is Texas," a colored film of recreational and industrial scenes from the Gulf Coastal area and the western section of the state, was shown.

The nominating committee was named: Cochran, Christilles, Eckman, Greene and Sorenson. They will have the ticket ready for the next regular meeting, and they wish to emphasize that nominations from the floor will be encouraged.

Cross Country Meet on Feb. 11

The third annual cross country meet will be held at Key Allegro Saturday, Feb. 11.

Defending champion Woodboro will be back, along with runner-up Karnes City.

Aransas County High School is expected to give these teams plenty of competition as the runners have been working hard to get ready for this event.

Representing the local team will be Domingo Pulido, Felix Garcia, Domingo Sanchez, Eddie Pena, Darrell Robinson and Rudy Walls.

Fire Extinguishers To Be Refilled At Dudley Bracht's

It was announced at the Feb. 2 meeting of the Rockport Volunteer Fire Department that fire extinguishers that need to be refilled should be taken to Dudley Bracht's from now on instead of to the Fire Station.

The Fire Department is asking for bids on its 1951 Chevrolet Panel truck which has a 1956 engine, and tires that are in good condition. Those interested should send bids to the Fire Department or to Elva Mullinax. The truck can be seen at the station.

The meeting was opened by President Benny Bloomer, roll call was taken, dues collected, minutes read, and approval given to pay bills.

Reports were given by the maintenance, finance and membership committees. Lloyd Albers was voted into membership in the Fire Department. Discussion was held on the increase in insurance premiums.

Capacity Crowd Sees Texas Film

Approximately 125 local people and tourist assembled in the Colony Room at the Sandollar Motel Monday night to see the premier showing of "This Is Texas," a full-color movie narrated by Bob Hope.

Produced by the Texas Parks and Wildlife Department, the film was shown by L. D. Nuckles, Regional Information and Education Officer for the Department. Ed Harper, general manager of the Sandollar, welcomed the guests.

The film showed the great variety of beautiful scenery in Texas, its industrial might, recreational facilities and natural resources.

Included in the movie was a striking shot of young people water skiing in the Rockport area and also some fine views of beautiful homes.

This film will be used for showing in theaters and on TV in addition to being shown before groups such as the Monday night presentation which was sponsored by the Rockport Sportsmen Conservation Association.

Special License Numbers Ready

Mrs. Margaret Weber, Aransas County Tax Assessor-Collector, urges all persons who have requested special auto license numbers to bring the necessary papers to her office.

These papers include the car title and the registration receipt. By presenting these papers as soon as possible, Mrs. Weber and her assistants are given more time to fill out the forms and obtain the requested plates from the supply they have received.

Nutrition Lesson Set for Feb 14

The second in a series of three lessons in nutrition will be held Tuesday, Feb. 14, at 2 p.m. in the Rockport Elementary School cafeteria.

The second lesson to be presented by Mrs. Marva Jo Fraser, County Home Demonstration Agent, will be "Meal Planning Made Easy." These lessons are of special interest to home makers who find nutrition and meal planning more and more difficult as food costs keep rising.

The purpose of the series of lessons is (1) To give the basic nutrition information to families with young children, (2) To stimulate interest in obtaining further information, and (3) to help homemakers feed their families adequate and interesting meals.

There will be teacher aides available to care for the small children of mothers who wish to come.

For further information concerning the programs contact Susanna Sorenson, visiting teacher, Aransas County Independent School District, SO 4-2776.

Navigation Board Plans Increase to 6 Members

The Board of Navigation and Canal Commissioners met in regular session at the District's office on Feb. 1 with Chairman Charles J. Schindler presiding. Also present were Commissioners Matthew W. Scott and Ted R. Little; Supt. Stephen W. Atwood and Atty. Ellis Clark. Visitors were L. E. Casterline, Bob Turk, H. T. Bailey and S. L. Canterbury.

Minutes of the previous meetings were read and approved. Bills payable from the Rent Account were approved and checks signed. Vouchers were signed to cover bills from the Maintenance Fund. The Treasurer's report was reviewed and placed on file.

Two Injured When Car Turns Over

Miss Mary Hadley and Jerry Krogsgaard are recovering from serious injuries suffered last Saturday morning when the car in which they were riding turned over at a curve on FM 881 just west of Redfish Camp bridge.

Both are patients in Lyman Roberts Hospital in Aransas Pass. Miss Hadley received a broken pelvis, broken vertebrae, fractured chest bone and concussion.

Krogsgaard's nose was fractured, as were four vertebrae.

In another accident Mrs. Emilia Lerma received severe bruises on her knee and shoulder last Friday night a mile south of here on Highway 35. She was treated by a local doctor.

The accident involved cars driven by Mrs. Lerma and George Wehrs. A passenger in Mrs. Lerma's car, Alicia Garcia, was not injured, nor was Wehrs.

State Highway patrolmen said the crash occurred when Wehrs tried to pass Mrs. Lerma as both cars were proceeding north. He hit the left fender of the Lerma car which was almost demolished, police said.

Two charges were filed against Wehrs, police reported: 1) failing to report an injury accident by the quickest means available, and 2) failure to pass to left safely. He pleaded guilty before Justice of the Peace Lawrence Miller and paid fines of \$20 on each charge.

Jaycee Dance Set for Feb. 18

The Jaycees will hold a dance Saturday night, Feb. 18 in the Colony Room at the Sandollar Motel, beginning at 8 p.m., with "The Dimensions" providing the music.

The public is invited, and approximately 200 persons are expected, according to Chairman Curtis Stewart and Co-Chairman Joe Joy.

There is a limitation on the number of tickets available. Persons wanting to purchase tickets may contact Joy at Iles Barber Shop.

Special Square Dance Saturday Night

The Paws and Taws Square Dance Club will have Andy Anders from Port Arthur to call a special dance Saturday night, Feb. 11. This is the third time he has called for the club.

The club building will be decorated with a Valentine theme. Many out of town guests are expected to be present. Andy Anders calls for the club at Port Arthur besides special dances in other towns.

The Paws and Taws have six name callers scheduled for special dances throughout the year '67. This is the first.

The club activities for the past month have included a pot luck supper and a membership party. An out-of-town caller, Bob Brooks, from Corpus Christi, called at the club Jan. 27.

A teenage class in square dancing has just started. The club is pleased to present this activity to the younger people of our community.

Earl and Maureen Starkie have presented their resignation to the club. They will move to Amarillo soon. They have been officers and members in the club.

Regional Science Fair Scheduled

Again this year the TSTA District XII Regional Science Fair, sponsored by the El Campo Jaycees, will be held on March 30-April 1 in the El Campo High School gym. Exhibits will be set up on March 30, and the Fair will be open to the public on March 31-April 1.

There are to be several entries from the Aransas county schools to be presented this year. The first to file an entry blank is Mark Lang, 16, a sophomore, son of Rev. and Mrs. Cecil Lang, Jr.

This is Mark's fourth year to enter this fair. This will be the first year as a senior division contender however. The senior division winners advance to the National Science Fair which this year will be held in San Francisco, Calif.

Mark has won four sub-senior divisions at this Regional Fair. A first senior division win this year means that he will advance for national competition.

The name of his entry is "A Study of The Digital Computer." Last year the computer added. This year the computer will add, subtract and divide. This computer project was initiated by Mark in his freshman year with the intention of completing it in his senior year.

When it is completed in his senior year it will be a complete tape read-out system. This is the same as NASA employs in the attempt to conquer space.

An engineer with IBM has given considerable technical help to Mark during this endeavor; also, the IBM company has contributed considerable material help for this project development.

To enter the Science Fair, is another son of the Langs, David, 12, a 6th grader, who plans to enter as his project, the "Silent Pump," a device that utilizes as its fuel a salt solution which sets up an ionic situation, which in turn sets up an electro-magnetic field which drives or otherwise energizes a transformer which supplies current or an electrical supply that can be run into an external circuit to do work for man.

David's entry will be a junior level entry and of course cannot be a contender for national competition.

Garrett Files For Re-Election

Charley Garrett, whose term as alderman from Ward 1 expires this year, filed this week for re-election.

N. F. Jackson, alderman from Ward 2 whose term also is expiring, has announced his intention to run again but has not as yet filed. The deadline for filing is March 4. The election will be April 4.

The terms of the other two aldermen, N. C. Vandagriff of Ward 1 and Earnest Harriott of Ward 2, and Mayor Delmar R. Hiller do not expire this year.

SCOTCH FOURSOME TO BE ON SUNDAY

Weather permitting, Scotch foursome competition will be held Sunday at Live Oak Country Club, pro "Speck" Howery has announced. Contestants must register by 12:45 p.m., and tee-off time is 1:15.

Clark reported that Attorney Harvey Weil had been requested to research and prepare a proposed legislative bill which would increase the membership of the Board from three to six commissioners, whose terms would be for six years with two commissioners being elected in each odd numbered year, on the second Saturday in July. There was also discussion of an additional five cent tax levy.

Casterline appeared before the Board, requesting a 20-year lease on property now under a five-year lease to hint at Cove Harbor.

Clark mentioned that this property is not bulkheaded and that it was his understanding this is how Casterline prefers it, although all other property at the Cove is now bulkheaded.

Casterline stated he would concur in its being bulkheaded if it were needed in the future. He was reminded that the lease would be subject to review every five years in regard to rental rate.

Little moved that Casterline be granted a 20-year lease, Scott seconded, and the vote carried. Clark will draw up necessary papers for the new lease, which begins Jan. 1, 1967.

Turk, representing Carl Krueger of Key Allegro, stated (continued on page 8)

EXPLORER POST ELECTS OFFICERS

Explorer Post 49 of the Boy Scouts, elected the following officers Feb. 6 at a meeting in the Nelco offices:

President, Alan Edmonson; vice president, Bobby Jackson; treasurer, Andrew Huffmeyer; secretary, Johnny Jackson; parliamentarian, Eric Henderson; and delegates to Explorer Cabinet, Andrew Huffmeyer and Johnny Jackson.

WORLD DAY OF PRAYER

World Day of Prayer sponsored by the Church Women United will be observed Friday, Feb. 10, 2:30 p.m. at First Methodist Church.

All women in the county are invited to participate in this program. A nursery will be provided.

Heart Fund Balloon Sales

Mrs. Bobby J. Driver, local heart fund chairman, announced today that the girl scouts, under the supervision of Mrs. J. C. Gurley, will sell balloons in the downtown area on Saturday, Feb. 11.

The 1967 Heart Fund goal in this community this year is \$995.00 compared to \$300 last year.

Apart from the opening event, Mr. Bristow from Philip's 66 station, Mrs. Cooke and Mrs. Harris from Fulton Family Cottages and Mr. and Mrs. R. L. Wofford will send out many letters to friends and business firms. Please read and answer their letters quickly.

Students in the Rockport and Fulton elementary schools were given an envelope for their contribution. These are to be returned on Valentine's Day. Please respond generously. Give . . . so more will live!

RUMMAGE SALE

Rockport Chapter No. 479, order of the Eastern Star is planning a final rummage and white Elephant sale Saturday, Feb. 11 in the building adjoining the Rockport Electric Co.

Many new items have been brought in and those wishing to donate articles please call SO 4-6397.

Sale will be from 8 a.m. till 5 p.m.

Intercity Won With 9-Under Par

A nine-under par 63 was the winning card for the monthly inter-city pro-amateur golf tournament at Live Oak Country Club here Sunday. 80 players participated.

Posting the winning score was the team of Tom Moore, Virgil Doggett, Red Wood, Hayden Elsberry and Father Dean.

Two teams tied for second and third with 64s. Wade Kinsinger, Roy Spears, Buzz Sawyer, Warren Howerly and W. E. Tetrofsky composed one team while Bill Evans, Jr., P. R. Henderson, J. G. Richards, Ben Perez and Carl Nichols made up the other team.

Teams captained by Santos Perez and Sam West tied for fourth with 65's.

Boy Scout Court of Honor

Troop 281, newly organized troop, sponsored by the Methodist Men's Club, introduced 14 new Scouts at its first Court of Honor.

Approximately 50 persons were present at the Scout Hut Tuesday night.

Bob Redell, professional scoutmaster and leader of Mustang District, gave the historical background of scouting and its importance in our country and around the world.

He introduced the Institutional representative, Rev. Ben Bohmfalk, committee chairman Norman Spears and the following committee: Bob Mosier, Robert Garcia and Ottie Mundine.

The scout leaders of Troop 281 are Joe Petty, scoutmaster, and Dick Stafford, assistant scoutmaster.

The Senior Patrol leader, 2nd class Scout Frank Gee introduced scoutmaster Tom Dannelly of Troop 280, who presented the six ranks of advancement.

The highlight of the Court of Honor was the candlelighting ceremony and presentation of Tenderfoot badges to the following boys:

Billy Holt, Stanley Albers, Nelson Thompson, Bobby Garcia, Tommy Garcia, Tommy DeForest, Charles Torres, David Prophet, Alvin Griffith, Robert Mundine and Elroy Parr.

Manuel Flores was presented as Bobcat Patrol leader.

The Court of Honor was closed with a prayer by Rev. Bohmfalk. Refreshments were served to the court by Mrs. Bea Stafford.

John Adams was chosen the nation's second President by the slim margin of three electoral votes, 71 to 68.

Col. Bush Returns From Vietnam

Lt. Col. Charles C. Bush, III, is home on leave after serving in Vietnam for a year during which he received the Legion of Merit Medal.

He received this for "exceptional meritorious service as assistant chief of staff of personnel at Headquarters, U. S. Military Assistance Command, Vietnam." This is Gen. Westmoreland's headquarters.

Col. Bush is enjoying a happy reunion with his wife and three children, Ann, 8, Chuckie, 6, and Susie, 4, at their home on Fulton Beach Road.

He will be here until the first week in March when he will be sent to Germany. His family will accompany him on this assignment.

Asked how he feels the fighting is going in Vietnam, the colonel said, "In 1966 our side made much progress and I believe our forces and their allies will have a good year in 1967."

He said South Vietnamese officers are "highly competent, intelligent, dedicated and determined to see this thing through to a successful conclusion." He also said they are "responsive to military advice from the Americans."

He described the South Vietnam people as "fine looking, friendly and blessed with outgoing personalities."

WATERFRONT ROW SET FOR COURT

Court will swing into action Monday on the waterfront controversy with the possibility of setting a legal determination for the state.

The suit, an action of trespass to try title, will come before Judge W. G. Gayle of Beeville in district court.

On the surface, the suit is simply an action to compel the city to yield possession of property claimed by the Navigation District and which it alleges the city pre-empted.

At stake, however are such matters as possession and administration of the city's waterfront, and a legal determination of how far a city's control goes and where a navigation district's authority and responsibility ends.

Also involved are considerable real property and substantial revenue and prespective revenue as well as different policies and views for development of the waterfront.

FREEZE DAMAGE TO FISH APPALLING

The early January freeze cost the South Texas coast at least \$5,500,000 in the value of fish killed in the Laguna Madre and as many millions from the standpoint of future commercial fishing and tourist business, according to the Rockport marine laboratory for the State Game, Fish and Oyster Commission.

963 POLL TAXES PAID

Poll taxes paid in Aransas county numbered 963 this year, County Assessor-Collector A. R. Curry said. Eleven underage exemptions certificates also were issued.

BETTER FIRE PROTECTION PLANNED

Spurred by the need for additional fire protection and by the city's high insurance rate, civic leaders were shaping plans to provide the fire department with additional equipment and rearrange its facilities. Businessmen were considering ways of providing the department with necessary funds over a sustained period.

'OLD RED,' PAL OF KIDS, KILLED

It was tough news for the kids in County Commissioner W. B. Allen's neighborhood this week, and for Allen, too. "Red" was killed by an automobile.

"Red" was Allen's five-year-old registered Irish setter.

Editorial

Vienna public safety officials have defined four classifications for motorists who use their horns instead of their brakes.

They are:

The boxers: Aggressive types who think all traffic space should be reserved for themselves.

The fearful: They use horns in every situation.

The lazy: Want to free themselves from all responsibilities once they have honked at the other fellow.

Schoolteachers: Lean on the horn to advise other motorists of alleged traffic violations.

That just about covers the field of horn blowers. Vienna officials are planning to sock fines on those who blow except in emergencies.

For years Memphis, Tenn., was one of the quietest cities in the country. The police did exactly what Vienna is planning. They slapped sizeable fines on those who blaster off excessively.

Perhaps one of the worst offenders is the chap, or the lady, who sits down on the horn to warn another driver or pedestrian who is in the way and does not even bother to slow down.

DOWNTOWN, TEXAS STYLE

In big town and little town, from one end of this broad nation to the other, there has been a lot of talk—and unfortunately little else—about rejuvenating downtown areas.

There is little doubt that downtown merchants have been taking licks from outlying shopping centers with their glamour and promotions, plus conveniences. What to do about pulling customers back downtown has been a paramount problem.

Apparently, Houston, Texas, hopes to do more than just talk. The city has some very ambitious plans underway, perhaps the first really major re-dressing of downtown to meet competition. And, of course, they are Texas-size plans.

City officials have announced a proposal to enclose and air condition 14 blocks in the center of Houston. A mall seven blocks long is proposed near the city's busiest intersection, Texas and Main Streets.

This mall, planners say, will be air conditioned sufficiently so that it will spread cool air three levels upward. Total cost will run between \$30 and \$40 million, but the money would be repaid by renting the extra commercial space created by closing the section to traffic and building balconies for shops and sidewalk cafes. Additional rentals would bring in about two and a quarter million dollars annually.

Don't forget that Houston built the mammoth air conditioned stadium where baseball is played indoors. There were skeptics who said it couldn't be done. Therefore, don't bet Houston will not rebuild downtown.

Not every city can even consider such a project but merchants and city officials can certainly get together, work out plans to stimulate trade downtown and then carry through the plans. Certainly, a downtown area can develop better promotional drives to pull in customers. Shopping centers have thrived because they have plenty of promotion, as well as conveniences.

TAIL FINS COMING BACK

Automotive engineers, we understand, have recommended that tail fins be brought back to passenger car design. They are a definite safety feature, they say.

Now we'll have to brush up the old jokes of a few years ago.

He was Allen's pal and the friend of all the neighborhood kids.

HOUSE FOR FULTON COMES BY BARGE

A five-room house for the Fulton area became of special interest as it was unloaded from a barge on the Rockport waterfront.

The house was brought from Corpus Christi and is to be moved over the highway to a tract about a mile north of Fulton owned by Dr. John R. Thomas, who practices medicine in Corpus Christi.

ARANSAS COUNTY GIVES \$362 FOR MARCH OF DIMES

Aransas county residents contributed \$362.13 for the battle against infantile paralysis. This was the total given to the March of Dimes, according to announcement by A. C. Glass, treasurer.

EDITOR'S VIEWPOINTS

BOSTON BAKED BEETLES . . .

For some reason, Western man has a powerful aversion to bugs on the dinner table, whether they are just incidental visitors or part of the menu. "Quick, Henry, the Flit!" is still the standard North American's reaction to any thing with six or more legs.

All of which is a shame, says University of California entomologist Dr. Ronald L. Taylor, for insects are a valuable source of protein. What's more, he insists, smacking his lips over a fresh-fried caterpillar, they're delicious. He predicts that if world population continues to increase at the present rate for another 50 years, there simply won't be enough beef, mutton, pork, poultry and fish to go around, even in the western hemisphere. People then must choose between turning vegetarian—or diving into a spider casserole or perhaps Boston baked beetles.

It may not be quite that abrupt, of course, Dr. Taylor believes it will be possible to extract the nutrients from insects and incorporate them in staple foods such as flour. That sounds a little more appetizing. But not much. Let's hope, however, that a combination of population control and improved ranching methods can long delay the day when barbecued butterflies replace pork chops.—Vancouver (B.C.) Province.

GOOD NEIGHBOR

Here are a few suggestions on how to become a lovable neighbor: Get up real early in the morning. Get out the lawn mower, a gasoline mower is best because it makes the most noise, and get into action. Always get up early to do repair work and use a heavy hammer and a dull saw. Show your neighbor how energetic you are. If you do not have a barking dog by all means get one. Let it run loose so it can use the neighbor's yard. Keep the dog confused so it will bark a lot and the neighbors will think you have a good watch dog and love you for it. If the lawn mower, the hammer, the saw, the dog, doesn't make enough early morning noise to disturb your neighbor, get the car out, open the doors and slam them, then start the engine and cut out exhaust and get the engine roaring.

Follow these simple suggestions regularly and your neighbors will learn to love you. If they happen to be slow on showing their love for you, don't give up but add a few extra items like throwing tin cans in their yard and using their garbage pails. If you have kids you will have no trouble getting the neighbors to love you.—Aztec (N.M.) Independent-Review

FREEDOM IN SOCIETY

No one should ever expect to be entirely free. It is one of the necessary conditions in building a civilized society that each individual must give up certain areas of his own freedom in order to make it possible for all people to enjoy an optimum degree of freedom.

We readily accept the idea that people who would like to make their living by holding people up at the point of a gun must give up their freedom to do so. People who want to drive their cars 50 miles an hour in the city and 100 miles an hour on the highway have to surrender that kind of freedom also. There are hundreds of clear-cut examples of this kind where people must give up some of the freedom which they might have enjoyed if they were living as cave men in a lawless era.

But there are also some kinds of freedom which must be preserved intact. Every individual must be free to communicate his thoughts to other people; he must be free to associate with other people; and he must be free to participate democratically in the government of his country. These freedoms must be gained and held or all other freedoms may be lost or never achieved. It is the exercise of these freedoms which distinguishes a man from a mouse.—Regina (Sask.) Commonwealth.

GOOD SWIMMERS

There is no such thing as a new "sea story" in the United States Navy. To illustrate, a tall tale was circulating in the early Fifties that went like this.

A small aircraft carrier steamed past the Ambrose lightship and into New York harbor, where it was scheduled to receive visitors as part of a Navy display for Armed Forces day. As the ship moved toward its pier, a sailor who had spilled oil over the side was assigned to clean it up. Just as the ship was being tied up, the sailor lost his footing and fell into the water.

Minutes later, hundreds of visitors and the officer of the deck were astonished when, dripping wet, he clambered onto the quarter deck, saluted smartly, and said, "Gosh sir, I've been trying to catch up with you guys since the Ambrose lightship."

Now comes word that a sailor who had been sleeping on the flight deck of the U.S.S. Hancock in Vietnamese waters accidentally rolled off the ship. After a nine-hour search he was found by a destroyer escort. His first words were to ask for a drink of water. His second? "I've been trying to catch you guys all morning." It's good to know that our gobs keep their sense of humor, if not their originality, in the face of adversity.—Baltimore Sun.

Weekend Specials

Save Money

College Station—Food shoppers! Do you take advantage of advertised weekend food specials? If you can use them, they will definitely save you money.

For this weekend, look for best beef values on chuck roasts and steaks, ground beef, stew meat and round steak, says Mrs. Gwendolyn Clyatt, Extension consumer marketing specialist.

Pork values include picnics, end-cut loin roasts, shoulder roasts and steaks, and pork liver. Fryers remain the number one bargain in most retail meat departments and grade A large eggs offer the greatest quality and economy combination.

Fresh fruit and vegetable items available at moderate prices include oranges, red grapefruit, apples, lemons, avocados, sweet potatoes, lettuce, celery, dry yellow onions, tomatoes, cauliflower, and carrots. Cabbage supplies are less than usual at this season and prices are relatively high. Prices on red potatoes are up a bit, but are still a good choice.

Great Britain's 90,000 policemen do not carry guns.

1967 DUCK OUTLOOK IS FAVORABLE

The successful waterfowl season just ended could blend its continued favorable duck and goose populations for next fall, according to Texas Parks and Wildlife Department observers along the Gulf coast.

They report that, although the duck harvest was the best in ten years and the overall goose bag was substantial, there is a heavy wintering area carryover poised to return to northland nesting areas come spring.

In fact, the concentrations of geese are so great in some areas that sprouting grain fields are being raided.

C. D. Stutzenbaker, Department biologist majoring in waterfowl management, said the big birds are so hungry for green growth that they are passing up grain used to

bait traps for the spring banding routine.

He described coastal marsh conditions ideal in many areas for both ducks and geese, especially along the upper coast. He said water is so plentiful the ducks are well dispersed, reducing the danger associated with overcrowding, such as botulism.

Stutzenbaker said the duck comeback was pronounced and that liberalizing of the regulations on mallards, pintails and redheads seemed justified by the numbers observed and the good luck of hunters.

He noted that nirobuds in the coastal bend area, around Corpus Christi, had a good season on pintails that had been under limit restrictions and also on redheads that likewise had been on the protected list until the fall of 1965.

Reducing the Risk Of Heart Attack

If the fabled Aladdin could appear with his magic lamp, offering to substantially improve your chances to avoid or delay a heart attack, he would get a lot of local business. And if his magic lamp really proved effective, he would surely be hailed as one of the greatest benefactors of all time.

Fortunately, Aladdin's services are not needed. What's needed is for you and your family to follow these six simple rules listed by your Heart Association:

1. Control high blood pressure. New drugs and treatment can lessen the risks of a heart attack and stroke.
2. Don't smoke cigarettes. They increase the risk of heart attack. Help your family avoid the habit.
3. Watch your diet. Eat foods lower in saturated fat and cholesterol. Help your children form good diet habits.
4. Keep weight normal. Extra pounds increase the risk of high blood pressure and heart attack.
5. Keep physically fit. Regular exercise improves circulation and strengthens the heart.
6. See your doctor regularly. Let him advise what's best for every member of your family.

Your Heart Association emphasizes that no guarantees can be offered. But it also points out that almost any individual, through adherence to the six rules, can surely improve his chances for a longer and happier life.

We would like to add a seventh suggestion: Support the 1967 Heart Fund Campaign, being conducted here throughout February. Give—So More Will Live!

ED HARPER ELECTED— (continued from page 1)

Mrs. Burl Wagley and J. W. Stevens. Named to a two-year term was Charles Roe, Jr., while Chief of Police Bob Hewes was elected to serve one year.

Nick Bacci was appointed to a one-year term to replace Daughery H. Roberts who resigned because of his busy schedule including his recent appointment to the School Board.

Ross, the retiring president, stays on the Board for one year as an ex-officio director. Outgoing directors are Miss Lola L. Bonner, Burl Wagley and Mrs. Denver Agler.

The Board passed a resolution expressing appreciation for the outstanding service performed by Ross during his term as president. A special citation will be presented to him in the near future.

In another action, the Board voted to contribute toward the purchase of trophies for the "Toast of the Coast" relays to be held Mar. 11 at Aransas County High School.

Attending the meeting were directors Bacci, Roy Rogero, Hewes, Eckman, Harper, Ross, Stevens, Roe, Eschberger, Roaten, Mrs. Wagley, James H. Sorenson, Jr. and Port Little, Secretary Mary Juergens and Manager John R. Kinsey.

Texas' Teacher Hits New Low Salary Rating

Texas' ranking among the 50 states in average salaries paid to classroom teachers has fallen to a new low, the Texas State Teachers Association has announced.

The annual salary of a classroom teacher in Texas, according to new statistical data, is \$6,025 compared to the national average of \$6,821.

The \$796 deficit places Texas in the 33rd rank among the 50 states.

Last year, Texas ranked 29th in the nation. But the state dropped to 33rd because other states moved ahead with improved teacher salaries.

Texas fares worse in the new rankings with average salary increases granted in 1966. For Texas this amount was only \$95.

This puts Texas 49th in this category. Only Wyoming, with a \$46 average increase, is lower.

The rankings were prepared by the Research Division of the National Education Association.

TSTA has a proposed teacher pay increase platform in its 1967 legislative program.

If the Texas Legislature approves the pay increase proposed this year, according to a TSTA leader, the new boost would "just barely" bring Texas up to the present national average "and no higher."

The official, Dr. Joe B. McNeil, superintendent of Wichita Falls schools and chairman of TSTA's legislative committee, said the TSTA program envisions an average increase in Texas classroom teacher salaries of \$775 in the minimum salary schedule for Texas classroom teachers.

"Compare TSTA's \$775 average increase with the difference of \$796 in our present salary schedule and the national average and you can see that TSTA's program is indeed a must," McNeil stated.

"At best," said McNeil, "the TSTA pay program is an interim measure preparatory to action on salaries we hope will be granted two years from now."

A study committee set up by an act of the Legislature in 1965 is expected to recommend higher salaries for Texas teachers in 1969.

"Texas can't wait until 1969 for action and we think the Legislature knows this," McNeil said.

"The TSTA program," he added, "is an interim measure needed now to prevent our present shortage of 5,000 teachers from becoming a deeper crisis."

NAVIGATION BOARD— (Continued from Page 1)

ed that the Key Allegro-Little Bay access channel is badly in need of dredging, due to drift from the south.

It was agreed that Little would join Messrs. Turk and Krueger for an inspection, as it may be necessary to take temporary measures.

Bailey presented a letter regarding drawing his request for a 60-foot pier at his home on Lot No. 25, Key Allegro subdivision, and re-submitting a request for a pier running parallel to the seawall, the outside edge to reach not beyond the two existing pilings which are approximately 14 feet from the seawall.

Little moved that Bailey be given permission to construct the pier according to his specifications. The motion was seconded by Scott and the vote carried. A written agreement will be prepared.

Bailey and Canterbury appeared for the purpose of reviewing their proposed plans to build a railroad spur at Cove Harbor.

They stated that from conversations with mud companies and others they feel such a project would be profitable, and would prove an asset to Cove Harbor.

They propose to lease enough land suitable for construction of warehouses, but plan to start with only one warehouse.

They brought a letter from Mr. Taggart of Aransas Natural Gas Co., stating that the existing gas pipeline in the area would be no barrier.

The Commissioners agreed that it would meet with their approval and they saw no reason why an access road could not be built across it.

At present Bailey and Canterbury plan to install 300 feet of spur track parallel to existing track, with future plans for another 300 feet parallel to one of the roads.

At present they are only requesting permission for ingress and egress to property they plan to lease from the railroad company. They would build their own roadway, and asked for use of remaining dirt recently excavated at Cove Harbor. This was agreed on by the Commissioners.

After the departure of Bailey and Canterbury, Clark presented for signature lease renewals on property under lease to Jack Sanders, Rosemary Lott Wolbrecht, and Elva Mullinax, from whom payment has been received; also a release to Robert R. Shaner.

Supt. Stephen Atwood reported on recent vandalism at Rockport Beach, resulting in damage to facilities in two restrooms.

There was also a discussion of the need of repairs to the District's dump truck and a paint job for the pick up used by maintenance foreman. The superintendent was instructed to have the pickup repainted.

Final invoice from Vermilion Construction Co. for work in connection with recent bulkheading at Cove Harbor, in the amount of \$106.25, was approved and payment will be made from 1958 Construction Fund.

Rural Traffic Deaths Down So Far In '66

During the first nine months of 1966 there were seven rural traffic deaths in Aransas County. During the same period this year there were only two.

This was revealed in a report issued by Lt. F. C. Carpenter, Texas Highway Patrol, Region III, Corpus Christi.

Other comparisons for January through September this year and last, disclosed the following:

Total number of accidents: 1966, 67; 1965, 65.

Fatal accidents: 1966, 2; 1965, 3.

Personal injury accidents: 1966, 17; 1965, 19.

Property damage accidents: 1966, 48; 1965, 43.

Persons injured: 1966, 34; 1965, 41.

JOHN KINSEY

Circle to the right, circle to
the left, swing your partner,
da de do!

And so it goes at the Paws
and Taws Square Dance Club
building on Fulton Beach
with the dancers moving about
gracefully and even the spec-
tators tapping their feet.

But, take my word for it,
you don't become a square
dancer just by getting out on
the floor, hopping about keep-
ing time to the music.

For months Juanita and
Burl Wagley, Anita and J. D.
Griggs, and Ruby and Roy Lee
Hart had been urging my wife
and me to learn how to square
dance.

So, last Wednesday night we
took the plunge and reported
for the first lesson. As Mrs.
K and I, along with three
other couples, walked to the
center of the floor my first
thought was:

"How come they hook us
up with three couples, young
enough to run a mile without
even breathing hard?"

But being determined to
make good, I listened as the
caller welcomed us and began
explaining some of the funda-
mentals of square dancing,
the fun, sociability, exercise,
etc.

The couples formed a
"square," and we were told
that the couple with their
backs to the caller were known
either as couple No. 1 or the
"heads."

The other couples, counter-
clockwise from No. 1, were
couple No. 2, Couple No. 3 and
Couple No. 4.

Like couple No. 1, couple
No. 3 also were known as
"heads," whereas couples No.
2 and 4 could be "called" by
their numbers or as "sides."

A person doesn't have to
have a Ph. D. degree in
mathematics to figure out
which couple is which and
whether you are a "head" or
a "side."

But when you have learned
a few basic movements and
the music is playing and the
caller, then the newcomer (or
at least me) concentrates on
such things as "which couple
are we; oh, yeah, couple No.
4."

And "do I put palms up or
down when I grab my part-
ner's hands to do 'circle to
the right'?"

And on "square through,"
which side of girl No. 2 I
pass on, "oh, yes, the caller
said right shoulder passes the
right shoulder." I sure don't
want to bang into the girl.

During this first lesson
there were times that I felt
like a West Point cadet must
feel when he is learning pre-
cision drills, like "Oh, boy,
there's a lot to remember so
I don't mess up this basic
(which is the shortened name
for basic movement)."

But, all in all, it was a lot
of fun and when Mrs. K and
I got to clicking and skooting
around in time to the music,
we sure did enjoy it.

We're going to continue the
lessons and, who knows, may-

TEAL SHOOT SEEN IN '67

Austin — Invertebrate duck
hunters, just getting dried out
and thawed out after the
waterfowl season ending Jan.
7, may look forward to pos-
sible resumption of hostilities
under the other weather ex-
treme.

That could be teal hunting
in September if a third ex-
perimental harvest of the first
game birds is finally deter-
mined feasible again late next
summer.

The first step already has
taken on the state level when
the Texas Parks and Wild-
life Commission authorized
Texas participation in the
Central Flyway experiment,
subject to final determina-
tion by Federal authorities.

The special shoots have
been undertaken in a three-
season bracket beginning in
1965 to ascertain the popula-
tion effect of harvesting teal
as they migrate southward
through the United States
enroute to wintering habitat.
Biologists have theorized
that surplus teal instead of
being legitimately harvested
are lost to disease and de-
predation in distant tropical
climates. Thus, they hope to
learn whether the swift mi-
gration advance guard can ab-
sorb the extra gun pressure
and still maintain normal
numbers.

Observers report that there
has been no problem with
hunter discipline that had con-
cerned some authorities, even
though last year sizeable num-
bers of other ducks were pres-
ent during the teal shoot.

Mixed reaction among
sportsmen marked the nine-
day season ending Sept. 18,
deliberately set one week later
than the 1965 opener. Ap-
proximately 10,400 special
permits were issued, slightly
less than in 1965 but the total
harvest was slightly higher.

The daily bag limit was
four with eight teal in pos-
session. Hunters bagged more
blue winged teal but there
was a good representation of
both cinnamon and green wing-
ed teal.

Even the seats have locks in Chevrolets

We put automatic latches on all our folding seat-backs to keep them from flop-
ping forward should you ever stop suddenly. The seat sits upright until you trip
a latch.

Additional items we put into the '67 Chevrolet, as handy pushbutton releases
for the seat belts, an ash tray that glides in and out on ball bearings, a 4-speaker

EVANGELIST LARRY TAYLOR

This was the Larry Taylor before July 22, 1955. It was then he experienced
the miraculous transformation that changed his storm-tossed life, black with sin,
to a joyous life for Christ. In a very short time he realized that God was calling
him to preach. He enrolled in a well known Bible school and then climaxed his
education by attending Howard Payne University of Texas.

This well-dressed, handsome young man is today one of Southern Baptists'
foremost and phenomenally successful evangelists. This colorful, brilliant young
man, only 29 years old but with a wealth of background experience, has skyrocketed
to success all across the Southland. His success in leading young people to the
"right path" is extraordinary. His dynamic, but sane and constructive preaching
has resulted in some of the largest and most fruitful revivals in Southern Baptist
history. Over 14,000 have united with the churches during his brief ten year
ministry. He has conducted over 275 revivals.

He is in constant demand with speaking engagements taking him to high
schools, colleges, civic clubs, radio and T.V. daily.

Medical Insurance
Deductible for 1967

Beginning Jan. 1, 1967 a new \$50 deductible applies to Medical expenses covered under the Social Security Medical Insurance program, according to L. L. Sharpless, field representative of the Corpus Christi Social Security office.

"The \$50 deductible for covered services must be met each year," explained Sharpless. "Last year the \$50 deductible applied only to expenses incurred during the last six months, since Medicare did not go into effect until July 1, 1966."

"There are two situations in which you can count expenses in one year toward the deductible for the next year," Sharpless added. "If your medical expenses are \$50 or less in a year, any covered expenses you have in the last calendar quarter of that year can count toward the deductible for the following year. In another situation, if your expenses do not go over \$50 until the last three months, expenses in those months used to meet the deductible for the next year."

Examples showing how the special rule for Medical Insurance deductibles works can be found in the Medicare Handbook, said Sharpless. Additional information about the Medicare program can be obtained from the Social Security Administration, 1802 South Staples Street, Corpus Christi, Texas 78404.

BOY SCOUT NEWS

The Boy Scouts of Troop 280 will hold a family night court of honor Thursday, Feb. 9 at the Sacred Heart Parish Hall.

As a special feature the boys will prepare a stew supper for their parents, with the Buffalo Patrol doing the cooking, the Stag Patrol doing the serving, while the Eagle and Beaver Patrol will prepare the dining hall. Stew has become the traditional meal of Troop 280 during Boy Scout Week each year.

Contests will be staged in Scout skill between the boys and their dads in knot tying, first aid, fire making, and flag courtesy.

Following these events, badges will be presented to those boys who have advanced recently.

Gerald Roberts and Daniel Flores will receive their Tenderfoot badges; Gary Howard the Second Class rank and Robert Schendel First Class.

Receiving the Camping Merit Badge will be Ronald Heasley, Randy Jones, Nelson Barre, Charles Crusier, and Philip Dannelly.

Charles La Bounty and Ronald Heasley will receive the two year service awards.

The boys of Troop 280 will bring Scout Week to a close on Sunday with each boy attending his own church wearing his uniform.

Troop 280 is sponsored by the Sacred Heart Church with T. E. Dannelly as Scoutmaster and J. C. Crusier Assistant Scoutmaster. There are 32 boys registered in the Troop.

Electricity POWERS
Progress

Wherever you are — at home or at work — electric service is also there to give you a helping hand. Industry is more productive, work goes faster and easier, life is more enjoyable because Electricity Powers Progress.

Thomas A. Edison, whose birthday anniversary we observe this week, started an era of better electrical living with his invention of the first practical incandescent light. And even though hundreds of new ways have been found for

electricity to relieve people of drudgery, entertain them and make them more comfortable, there's plenty for everybody and the unit price is lower than ever before.

Electricity will continue to power progress. Today's research promises exciting developments for tomorrow. And as electric service is put to work in more and more ways, CPL is making sure it will remain high in value, low in cost — and you will have all you'll ever need.
