Editor

Local election time in Big O is a time for some soul-searching by you and by you. Why is it that candidates for city office and school office go begging. Usually one time is quite enough.

Probably the one big reason is a very human factor. . . we do not compliment our brother citizen in salary-free role of official for doing a good job but when some silly matter hits our ego or costs us a few dollars we cry to heaven and damn everyone remotely concerned.

Take a look at the credit side of current city administration (done with very low taxes)

During the past year some 15 blocks were paved and some 40 blocks retopped. The sewer lines were cleaned for first time in years. More small water wells were tied into the water system. Numerous street signs were erected. Garbage collection is now efficient and the streets are clean. Mrs. Moody Everett is doing a fine job as city clerk.

Try a pinch of love on your city dads and school dads instead of massive doses of gossiping and sniping and telling as official things you only suppose. The love Christ taught really works — on a mule or on a man.

Plan To Clear Slums

The State Department of Health has been engaged for many years in the promotion of housing hygiene because of the direct relationship between insanitary housing conditions and the spread of communicable diseases.

The Urban Renewal and Slum Clearance Act of 1949 (amended in 1954) provided a means for systematically attacking the problem. The 55th Texas Legislature provided the needed State legislation.

The State Department of Health was made the official planning agency by act of the Texas Legislature for city planning programs undertaken by cities with populations of less than 25,000 according to the 1950 census.

Since August, 1957 (the effective date) 18 Texas cities have applied for planning assistance under the urban planning assistance program. They are Texas City, Rosenberg, La Marque, Brownwood, Irving, McAllen, Victoria, Edinburg, Mesquite, Kleberg, Mission, Deer Park, Grand Prairie, Denton, Haltom City, Greenville, Richmond and Donna.

The total cost of the planning applied for is \$504,456.50, over \$242,000 of which will be Federal matching funds. The remainder of the planning funds will be raised by the cities.

Records Needed For S. S.

Persons applying for social security benefits can speed the payment of their claims by bringing the necessary records with them according to John G. Hutton, manager of the Lubbock social security office.

Wage earners and the survivors of deceased wage earners should furnish a copy of the Form W-2 "Statement of Wages Paid" for the preceding year. In addition they should supply the information regarding earnings for the current year.

Self-employed persons or their survivors should be prepared to furnish a copy of Schedule C or Schedule F for farmers) and other supplementary schedules with their income tax reports for the preceding year. They should also furnish the cancelled check or other evidence that the tax has been paid. The estimated earnings from self-employment for the current year should also be furnished.

No person should delay contacting his social security office, because he lacks any of these records, Hutton states. Delays in filing claims may mean a loss in benefits. However, if all the records available are taken to the social security office when an applicant seeks to file a claim it will assure the earliest possible payment of benefits.

DEADLINE CAR INSPECTION IS APRIL 15TH

Texas motorists may be lined up for blocks before neighborhood automobile service centers as the April 15th deadline nears for obtaining safety inspection stickers for cars and trucks. Of the half million vehicles in this district only 125,000 have received state inspection stickers. Only a few weeks remain in which to obtain the 1958 stickers. O'Donnell has a number of vehicle inspection stations and motorists can now get quick service

BETTER HEALTH MARKS THIS MODERN AGE

Progress in medicine and public health are difficult to measure.

As each succeeding generation grows it falls into its own pattern of development, forgetting all too easily that only a few years earlier many of the conveniences of modern living — particularly of good health — simply did not exist.

How many of us recall the scourges that swept over whole communities in the form of smallpox, malaria, typhoid and other diseases of which we are only vaguely aware today?

In fact, the only information most of us have of these diseases is gained from reading of epidemics in foreign lands, of tasting the protective chlorine in our water, and of the small scar left by a long past vaccination.

Even today we modernists are witnessing the decline and fall of still another ominous disease foe — paralytic polio. Since the advent of Salk vaccine, the drop in incidence has been so dramatic that the odds are good that tomorrow's children will be as safe from paralytic polio as our children are from smallpox.

WANTED BY THE FBI

GEORGE EDWARD COLE

A complaint was filed before a United States Commissioner at San Francisco, Calif., on January 9, 1957, charging George Edward Cole with violation of the Unlawful Flight to Avoid Prosecution Statute in that he fled from the State of California to avoid prosecution after allegedly murdering a police officer.

Cole is described as follows: Born, March 24, 1927, Philadelphia, Pa. Height, 6 feet 1 inch. Weight, 160 to 178 pounds. Build, medium. Hair, brown, receding. Eyes, brown. Complexion, medium. Race, white. Nationality, American. Occupations: bus driver, truck driver, typist. Scars and marks: pit scar on outside corner of right eye, small cut scar on inside of left wrist, appendectomy scar; tattoos, small heart and names "Mom" and "Dad" and letters "GP" or "SP" on left forearm; tattoo, 8-point star on back of left hand. He wears full upper denture.

Cole has previously been convicted of grand larceny and robbery. He reportedly has stated that he will shoot any police officer attempting to apprehend him. Cole is considered armed and dangerous.

Any person having information which might assist in locating this fugitive is requested to immediately notify the Director of the Federal Bureau of Investigation, United States Department of Justice, Washington 25, D. C., or the Special Agent in Charge of the nearest FBI Division, the telephone number of which appears on the first page of local telephone directories.

Reduce Delinquency

V.

INCREASE FACILITIES

(A distinguished Texas judge offers pointers on combating our rapidly increasing juvenile delinquency problem.)

By JUDGE SARAH T. HUGHES

Our good Texas program for re-training juvenile delinquents into worthwhile citizens is today imperiled by too little space in our very good institutions.

JUDGE HUGHES and too few probation and other personnel for adequate supervision and training.

The last regular session of the Legislature did something to relieve the situation but not enough.

Extremely Overcrowded
The State Training School for Boys at Gatesville is designed to handle 575 boys. It now has about 850. The girls' school at Gainesville was built for 180; it has 220.

The last Legislature provided dormitories for 160 boys, a school building, kitchen, and dining room.

Release Too Soon
No more boys, however, will be accommodated. The new buildings will simply serve to relieve the present overcrowding. Many boys who already need to go there can't be sent; many boys sent will be released before their training is sufficient. And with our ever-increasing delinquency rate, even more offenders will be free who need to be confined and trained.

At Gainesville three new dormitories and a security treatment cottage were provided to replace existing ones considered extreme hazards. But they will not provide room for more girls.

Increase Facilities
With present facilities so inadequate, whose responsibility is it for failure to rehabilitate? Isn't it ours? We are the people whose elected representatives carry out our wishes. What can we do to remedy the situation? We can make our legislators and our county officials (for county-level facilities) understand clearly what we want.

Next week: The younger learn from the older.

Yep, we've borrowed several pigs from one of our local hog men and set 'em up right in the store.

We are feeding our pigs Purina Pig Startena and water—that's all.

The pigs will be weighed every week and a record kept of every pound they eat.

We know how this demonstration will come out, because we know what Purina will do. But we want you to see for yourself the fast, low-cost gains our pigs make. That's the surest way to make you another of our satisfied Purina customers.

Come in and get acquainted with our pigs today . . . and come see them often.

Kite Safety Told

Safety rules for boys and girls
who fly kites were outlined this
week by Jimmy Lemons, manager
for Texas Electric Service Co.

As explained by Mr. Lemons, the
five safety rules in order of their
importance are: First, fly your kite
out in the open where it will not
get caught in wires or trees. Second,
use only string made of cotton, silk
linen, nylon or rayon. Third, use
only wood in your kite frames.
Fourth, fly kites only in good
weather. You don't want to get
them rain soaked. And fifth, if
your kite should get caught in elec-
tric wires, call Texas Electric Ser-
vice Co. They will send someone to
get it down for you.

"Local youngsters who fly kites
have been very careful in the past
about where and when they flew
their kites," Mr. Lemons said. "We
had a perfect record last year with
not one boy or girl being injured
and only a few kites demolished.
This year, I fully expect that even
the number of kites lost will be re-
duced because it seems that every
year our boys and girls listen more
carefully to our warnings."
