Campbell Grocery Open For Business Saturday, Nov. 7

The Campbell Grocery and Market, which will be located on North Austin street at North Second will have their formal opening this Saturday, November 7. The past week has been spent installing the fixtures, stocking the merchandise and getting the store arranged and in shape for this opening.

Mr. Tracy Campbell, owner, moved the fixtures and a large stock of staple merchandise from Merkel where he has been in the grocery business for the past five years. To complete this stock he has this week purchased a full line of fresh and cured meats and fresh vegetables, and assures the grocery shoppers that they can find anything they wish in the food line at this store on Saturday and every day thereafter.

Mr. and Mrs. Campbell are located in their newly purchased home on North Fourth street at Katherine. He will have associated with him in the store Ray Wilson, Herbert Dunn and Pinky Spert, all who have previously been in his employ at Merkel. Messrs. Wilson and Dunn have also moved their families to Lamesa to make their homes.

As a special feature of opening day, Mr. Campbell has secured representatives from General Foods, Mrs. Tucker's, and the Merchants Biscuit Co. All of these representatives will demonstrate the wares of their respective companies and have plenty of coffee and cakes for the opening day customers to sample.

Further inducement to the buyers of this trade territory will be given in special prices good on the opening day. A full page ad listing these special values is to be found on the back page of the Courier.

Dunlop Gift Shop Selling Out

Mrs. O. E. Dunlop, owner of the Dunlop Gift Shop, announces this week she will quit business in the near future. In order to dispose of her stock of high class merchandise she is offering the entire stock in a special event at wholesale prices and below, this sale beginning Saturday, November 7.

This stock consists of a complete stock of gift and holiday goods, sale of which at this particular time is unusual as the holiday buying season has hardly begun and gives the early Christmas shoppers an opportunity to make a substantial saving on holiday buying.

A page ad on another page of this issue of the Dawson County Courier gives the details of this sale.

Many New Subscribers On Honor List

The past week has been the banner week of the subscription campaign in the number of Dawson and adjoining county readers who have subscribed for the Dawson County Courier for a year at the special bargain rate of 25c per year.

A good percentage of the subscriptions were from people who have not been receiving the paper. Sixty-nine of the following subscribers to the Courier the past week, in addition to the many who renewed their subscription for another year, shows that the people of this trade territory are realizing that the Dawson County Courier is truly their home town paper and that it is striving to give them all the news of their section in an interesting and un-

School officials and civic leaders are planning on a special train to Slaton on Armistice Day for football fans who wish to attend the annual clash between the football squads of Lamesa and Slaton. Rates of 85c for round trip tickets have been secured as against \$1.10 on previous special trains. The four days in advance in order to arrange for the special equipment, so it railroad officials will have to know it necessary for those who wish to make the trip to notify the school officials or the Lamesa Chamber of Commerce office at once.

The proposed train would not leave Lamesa until about 11:30 and return about 7:00 that evening, leaving immediately after the game on the return trip.

Lamesa was honored by a goodwill visit of 19 Slaton business and professional men on Wednesday afternoon. They came as representatives of the city of Slaton, inviting Lamesans, individually and collectively, to come to the game next Wednesday, and assuring them that it was their determination to repay Lamesa for the splendid reception which Slaton received here last year. They were high in their praise of the entertainment accorded them last year, and promised that they would do everything in their power to return the favor with interest. They expressed regret that a former visit to their city had been marred by a regrettable unpleasant incident, but care will be taken to prevent the recurrence of any similar acts.

Included in the group of Slaton visitors were Mayor John W. Hood; S. A. (Continued on Page 5)

FRANKLIN DELANO ROOSEVELT
President of the United States the past term and re-elected Tuesday by the largest electoral college vote ever recorded in the history of the nation.

JOHN NANCE GARNER
Texan, who was re-elected to the Vice Presidency Tuesday in an unprecedented Democratic landslide.

New Deal Receives Vote of Confidence In Tuesday's Voting

With over 40 million votes tabulated and many yet to be counted, President Franklin Delano Roosevelt and the Democratic party has been re-elected in the greatest landslide of votes in the history of democratic government. The plurality received by Roosevelt and Garner will probably reach a total of ten million votes when the total vote is tabulated.

The electoral vote of only two states, Vermont and Maine, will be found in the Landon column, with a total of 8 votes, while the other 46 states with a total of 523 votes have expressed their confidence in the New Deal by giving the Democratic ticket their entire electoral votes. It will be the nearest to a unanimous vote in the electoral college since 1820 when James Monroes was reelected with only one dissenting vote.

In the senate, returns indicate that the Democrats have captured enough members to give them 75 of the 95 seats in the upper house. While in the lower house it seems certain that they will have over three hundred Democratic congressmen when the final tabulation is complete.

The President expressed pleasure at the confidence the people of the Nation had shown. In a statement issued (Continued on Page 5)

Business Block on South Dallas Street

Work was begun Monday on a group of small business buildings on Dallas Street across east of the City Hall on the J. T. Hooten lots. Mr. Hooten is building five store buildings with 16 feet fronts facing on Dallas, beginning at the alley and running south for 80 feet. The buildings are to be tile and stucco and will be an attractive addition to this growing business section of the city.

He said that he had had more applications for the rental of the store rooms than he could accommodate. Work will be completed on the block in a very short time.

Bartlett and Alexander Buy Randle Property

One of the recent sales of business property was recorded when Wade Bartlett and P. L. Alexander purchased the corner lots at Dallas and North First on which the old sheet iron barn has been for many years. Their plans to raze the structure will come as a welcome civic improvement to everyone who had to look at the unsightly building daily.

They plan to begin the work of tearing it down as soon as tenants can find other buildings to house their businesses. Just what disposition will be made of the lots has not been decided, but as they are very choice property, it is certain that it will not be long before modern buildings will be erected thereon.

Mrs. J. C. Bayless and son of San Antonio are here visiting her mother, Mrs. R. G. Ragan, and sisters, Mrs. Leroy Surface and Mrs. C. E. Parks.

Kraft-Phenix Cheese Co. Are Pioneers

The opening of the cheese factory here has significance—not only for the city of Lamesa, but for the entire state of Texas, completing an important link in the dairy industry of the South west. Cheesemaking as an industry has come to be more and more important in the state within the past few years. With the addition of Lamesa plant, Kraft has six model production plants located in strategic spots throughout Texas; the largest of these plants located at Denison, which is company headquarters for the entire Southwestern section of the United States.

Cheesemaking today in Texas is a major industry, although one of the youngest from the point of time, since the first Texas cheese factory was built in Denison, Texas, in 1929. A little more than a decade ago Texas imported from other states practically every ounce of the substantial quantity of cheese consumed in the state. Texas' only contribution to the industry in this country, up to that time, was the naming of the famous "Longhorn" American Cheddar Cheese. This style of American cheese was originally a Wisconsin product, immensely popular in Texas, taking its name because of its long, cylindrical shape, from the Texas Longhorn Steer.

PRIZE WINNING LETTER FOR THE WEEK

I like the Dawson County Courier because it breathes deeply the spirit of the Great Plains. It is fair, just and impartial, and imports to its readers news that is wholesome and unbiased.

The Dawson County Courier is a paper that nobly reflects the ideals of Dawson County. "Where Texans are Texans."

Mrs. H. V. Williams, Jr., 1015 S. First St., Lamesa.

WINNERS OF SECOND PRIZES

I like the Dawson County Courier because it enables me to know what is happening for miles around, where to go to make our dollars have more cents. I saved enough on 25c worth of pinto, 3 lb. box of crackers and 10 lbs. of sugar to pay for the Courier for a year, believe it or not.

Mrs. S. C. Motley, Star Rt. 2, Lamesa, Texas.

I like the Dawson County Courier because its advertising resources are supreme. It is the voice of the people directed by unbiased leadership. Its promptness is a great aid to the service of its territory. Its worth to its business territory surpasses all other methods. Its rate is so cheap, its worth so valuable, subscribe at once.

Mrs. W. C. Young, Motor Rt. D, Lamesa, Texas.

Production Under Way at Oil Mill

Processing of cotton seed has begun at the Dawson County Cotton Oil Mill following a period of idleness during which time the capacity of the plant has been doubled and an extensive expansion program was carried out by Smith Bros., owners of the plant.

The Smith Bros., are processors of cotton seed and petroleum products over West Texas, who acquired the local plant last year and immediately began a program of enlargement which was culminated with the recent rebuilding and equipping with the most modern machinery for the manufacture of cotton seed products.

Cotton growers are glad the plant is again open where they will have a local market for their seed the year round and can in turn get the finished products which the mill will put out, and which most of them use in their feeding of cattle.

The plant is a valuable industrial addition to the city of Lamesa with its 20 employees in the mill and six in the office, helping to swell the city payroll. Mr. Fred Smith, manager of the local plant invites the citizens of the territory to come and inspect the new plant which is now in full operation.

ADORABLE DRESS SHOP TO BE OPENED HERE

Mrs. Frances Henry Stewart, formerly of this city, and daughter of Mr. and Mrs. F. A. Henry of Lamesa, has announced that she has leased one of the Hooten buildings under construction on Dallas street and will open a dress and gift shop there as soon as they are ready for occupancy.

She has gone to Dallas and Houston to purchase stock for her new enterprise. Formal opening will be announced in the advertising columns of the Courier soon.

Collins Dry Goods Co. Celebrate Anniversary

Closing their tenth year of service to the buyers of the Lamesa trade territory on November 6th, the Collins dry goods company will celebrate their tenth anniversary with a special bargain event.

W. B. Collins moved his stock of merchandise from Oklahoma in 1926, locating in a building on the north side of the square. A few years later the store was moved to the present location, but in only a 25-ft. front on the corner. Three years ago he found that his business had expanded to such proportions that it was necessary for him to lease additional space in order to secure the lease on the adjoining building he purchased a variety store in that location. Tearing out the partition the store was enlarged to occupy Saturday it looked like they needed about double the present space.

By pursuing the policy of selling quality merchandise and giving friendly courteous service, the Collins Dry Goods Company have built a wonderful business in Lamesa.

A page advertisement in this issue of the Courier announces his birthday bargain event.

MARRIAGE LICENSE

Five couples have applied for license to wed in Dawson county in the last week. They are:

Bill Hogg and Miss Tommie Inez Best, both of Lamesa.

Julian Sanchez of Robstown, Texas and Miss Virginia Mendosa of Port Lavaca, Texas.

Jessie Wilson of Columbus, Texas and Miss Dora Lee Thompson of Itasca, Texas.

Glenn B. McGuire and Miss Hazel Turner both of Lamesa.

Joe Maldonado of Crystal City and Miss Catarina Salazar of San Antonio.

Three Counters in Fourth Quarter Save Tornadoes

A three touchdown rally in the last eight minutes of play saved the Lamesa High School Tornadoes a great deal of embarrassment Friday afternoon at Tahoka when the lowly Tahoka Bulldogs held the heavier invaders to a lone touchdown for three quarters. The final score was Lamesa 26, Tahoka 6.

The Tahoka eleven put up a brave battle after the Tornadoes had pushed over a counter in the first on straight running plays, and to cause the Lamesa eleven more misery, Travis McCord, Tahoka halfback, intercepted a Lamesa pass on Tahoka's 10 yard line early in the fourth quarter and raced 83 yards before he was hauled down from behind. McCord scored Tahoka's only counter two plays later.

But Coach McCollum's Tornadoes came back with a rush to overpower a weary Tahoka team with three touchdowns. Breaks and passes paved the way for the rally.

The Tornadoes first touchdown came in the first quarter after a drive that started on the Tahoka 45. Bridgeman, quarterback, bucked over for the counter.

Allison, halfback, recovered a fumble on Tahoka's 20 to start the fourth quarter rally. A pass from Bridgeman to Allison put the ball on the four from where Bridgeman again plunged across. An intercepted pass that was run back by Allison 40 yards to the five yard line scored the third counter for Lamesa. Another pass, Bridgeman to Hogg accounted for the fourth tally.

Lamesa led in first downs 12 to 8.

Judging Winners Getting Difficult

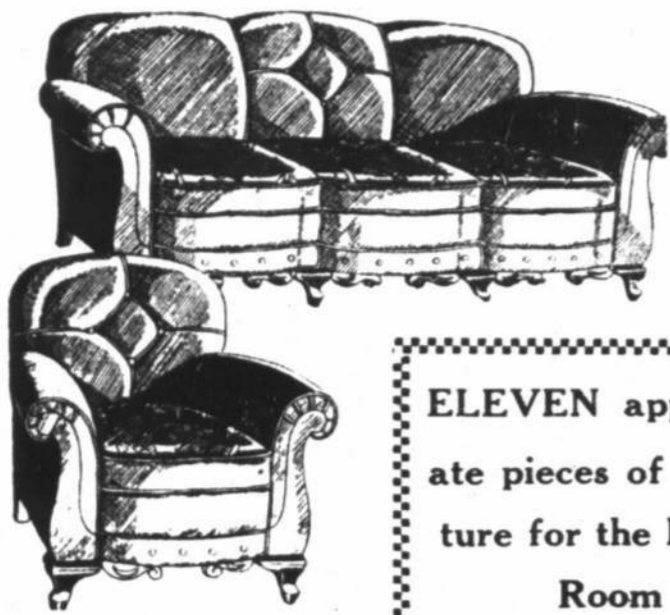

The task of judging the winners in the Courier letter writing contest for the weekly prizes is becoming more of a job as the competition becomes keen. Each week the number of letters increases over the previous and making the total swell to quite a stack. And the quality of the letters seem to improve on the average.

This week we have received so many good letters that we decided to give two second prizes in order to publish more of the good ones which we are receiving daily. First place for the week goes to Mrs. H. V. Williams Jr., of Lamesa. The second place letters were written by Mrs. W. C. Young of Route D, Lamesa, and Mrs. S. C. Motley of Route 2. These letters are printed in another column of this page.

Try your hand at letter writing. Remember you might win the \$30 grand award to be given December 5th at the close of the contest. The rules are simple—just write a letter of not more than 50 words beginning "I like the Dawson County Courier because—" and bring or send it to the office of the Courier on or before December 5, 1936.

And remember, our bargain rates for subscription to the Courier are on during this contest. 25c per year

New Chevrolets to Appear November 7

The finest Chevrolets in the company's quarter-century of automobile manufacture will make their bow here and throughout the country on November 7. T. F. Vaughn of the Vaughn Chevrolet Co., Chevrolet dealers, announced upon his return from Oklahoma City where 1,200 dealers and sales men from this section obtained official news of the new product from R. C. Pittman, Manager of the Oklahoma City zone, and members of his staff.

Mr. Pittman has just returned from Detroit where 1,000 members of Chevrolet's wholesale organization from coast to coast spent four days inspecting and driving the new car and reviewing with factory executives the program to be followed in presenting it. The new models adhere closely to time-tried Chevrolet engineering principles, he reported, but combine greater power, economy, safety, and durability with striking new beauty and grace.

M. E. Coyle, president and general manager of Chevrolet, announced during the convention that the Company had shattered all previous records during 1936, selling more cars and trucks than in previous years in history, and

leading the world in sales for the seventh time in the last ten years. The total for the year will exceed 1,125,000 units, he said, and the objective for 1937 is 1,200,000.

TAX LEVIED ON PROMISSORY NOTES OVER \$200 IN VALUE

Mrs. W. H. Bennett, County Clerk, has been notified that the omnibus bill recently passed by the State Legislature and signed Saturday by Acting Governor Walter Woodul, levied a tax of ten cents per hundred dollars or fraction thereof, on notes of more than \$200, secured by chattel mortgage, liens, sales contract, etc., which were recorded in the office of the county clerks of the state. The tax is to be paid to the county clerk who will keep a supply of stamps on hand, which must be affixed to the instruments.

Since the law was passed by more than a two-thirds majority, it became effective immediately upon its signing by the acting governor Saturday and the tax is due to be paid on all future notes recorded.

(Continued from front page)

he said: "I find myself nearly buried by an avalanche of letter and telegrams. It is heartening to have this additional assurance that we are going forward together."

The time honored slogan 'As Maine goes so goes the nation' appears to have been relegated to the scrap heap and some wag remarks that it should be changed to read 'As Main goes, so goes Vermont.'

In Dawson county three boxes had not been returned to the court house at noon Thursday. They were Key, Lou and O'Donnell. Unofficial count of the boxes in gave the Democratic electors 702 votes, the Republicans 137, Socialists 2, Union Party 5, and the Prohibition party 3. Gus White and Buster Herndon led the local ticket with 1755 votes each.

The returns on the amendments, without the three boxes mentioned above were: No. 1 - 535 for and 583 against; No. 2 - 484 for and 683 against; No. 3 - 533 for and 538 against; No. 4, 760 for and 342 against; No. 5, 501 for and 580 against; No. 6, 697 for and 340 against. No. 4 was the one governing the Board of Pardons and No. 6 the amendment limiting representation in large cities. They were the only amendments the Dawson county voters approved according to their ballots Tuesday.

SLATON GAME

(Continued from front page)

Peavy, Santa Fe Construction Engineer, and chairman of the athletic council; Claud Anderson, druggist and president of the Slaton C. of C.; Joe Webb, formerly of Lamesa and principal of the Slaton Junior High school; David Lemon, Supt. Slaton Schools; J. H. Brewer, insurance and past president C. of C.; Tom Abel, sheriff of Lubbock county; R. L. Wicker, chief of police, Slaton; Wm. Cates, Mgr. West Texas Gas Co.; C. A. Porter, Mgr. Plains Lumber Co.; K. L. Scudder, Postmaster; Clyde Rowe, band director; B. F. Mansker, county commissioner; Dr. R. C. Loveless; Wade Robertson, capitalist and rancher; and Vasco Browning, cafe operator.

Tickets to the same will be available at the Taylor-McCall Drug store in Lamesa and a reduction on advance sales is being offered. Student tickets priced at 50c at the gate will be sold until Tuesday for 40c; adult tickets which will be 75c at the gate in Slaton may be purchased before Tuesday for 60c. If you plan to go it will pay you to call and purchase your ticket before next Tuesday.

Both the Tornadoes and the Tigers

enter this contest with no conference defeats and this will probably be the best game either team will play this season. Slaton has yet to play Brownfield and Lamesa, while the Tornadoes have defeated all district contenders in the southern half with the exception of Slaton. The game with the Tigers will determine which will get to play the northern half winners on Thanksgiving day.

Slaton has a record of being a high scoring outfit, while the Tornadoes have not been able to pile up large scores against their opponents but have shown suborn defense and some scoring ability.

KRAFT-PHENIX CHEESE

(Continued from front page) of cheesemaking as an industry for Texas were taken in 1929 when a model production plant was set up as a cooperative enterprise between the dairy farmers of Denison and the Kraft Phenix Cheese Corporation. Since that time, the factory at Denison has doubled its size and four other important Texas factories have been established as markets for Texas milk, and production centers for the industry in the state. These plants are located in Victoria, Bonham, Winstboro and Cameron.

The rise of the dairy industry through the South is one of the most amazing records in the history of agriculture. From a negligible source of agricultural income a decade ago, to a substantial industry which last year paid southern dairy farmers more than four and a half million dollars, is a record of this industry. Southern cheese production plants owned by Kraft-Phenix today handle more than 400 million pounds of milk per year. Last year these southern plants produced more than 35,000,000 pounds of cheese, 85 per cent of which was consumed in the South. These southern cheesemaking plants of the Kraft-Phenix Cheese Corporation represent a capital investment of about four million dollars.

Texas-made cheese today has a high reputation for excellence throughout the South. Careful control of all the operations involved in producing cheese from inspection of dairy herds to the packaging and wrapping of the finished product, has been the rule in all of the cheesemaking centers in the State. From its very inception, the industry in Texas has had the whole hearted cooperation of dairy farmers within the areas supplying milk to cheese factories. Dairy farmers have been quick to realize that the extension of the cheese industry in the State is rapidly expanding their market, providing an increasing and regular cash crop and permitting a diversification which

is essential to successful modern farming.

Improvement of dairy herds has been the first precept in Texas' intensive dairy program. A number of fieldmen in the state devote their entire time to helping Texas dairy farmers improve their herds and maintain the highest standard of quality in milk. The breeding of fine dairy cattle has been stressed as new dairy sections have been opened up. This quality control program, followed from the earliest days of the industry in Texas, has become a model for other dairy states throughout the Union. Furthermore, extension of an improved cattle feeding program throughout the State in order to get the full benefit of a maximum grazing season is an important part of the Kraft plan to help the dairy farmers. Dairy farmers will be given information about the planting of various types of grasses which will insure a nine month's pasture season, rather than a four month's season which prevails in many parts of the South today. Such a feeding program greatly reduces the production costs of milk.

The actual production of cheese in Texas, with careful control of all factors involved, is a model to other states in the Union. Scientific application to the special problems of cheesemaking in the South, the problems of temperature and humidity, has produced a special type of cheese factory, in which all of these factors are mechanically controlled. As a result, cheese which is

as fine as any produced elsewhere in the world is made in Texas. Virtually every type of cheese which can be made in America is produced successfully in Texas. The Kraft Plant at Denison, for example, produces the complete Kraft line of cheese and Salad Dressing products.

Continued expansion of cheesemaking factories in Texas, improved distribution throughout the State, and a steady increase in the agricultural wealth of the State from this important branch of the dairy industry, all contribute to the importance of cheesemaking as a major industry in Texas. Texans have always been important cheese consumers, consuming a higher proportion of cheese per capita than any other state. Today Texas produces most of the cheese which it consumes, which necessitated a definite cheese production building program, with constant additions of modern equipment and increased plant facilities to take care of the increasing supply of Texas milk. In this connection the Kraft-Phenix Cheese Corporation Plant at Lamesa will be in a position to handle large quantities of milk so that Lamesa will be an important factor in producing Texas-made cheese for Texas consumption.

HOME DEMONSTRATION COUNCIL

We must make some plans for the election of new officers of council said Mrs. J. M. Ranson to members of the

Dawson county home demonstration council in their regular meeting on October 24.

Election of the right officers is the life of our clubs and council, Mrs. Ranson went on to say. A nominating committee will be appointed and notified.

Plans for our achievement event program were discussed. The event will be a pantry and wardrobe exhibit in each community.

We urge all council members to be present at our next meeting which will be November 28.—Mrs. G. F. Thorp, reporter.

KLONDIKE HOME DEMONSTRATION CLUB

We would like to have one meeting on planning meals, said Mrs. Leo

Sprawles to the Klondike home demonstration club in their meeting on October 24th.

Mrs. Sprawles went on to say that we would come nearer having a balanced diet if we would pay more attention to the planning of our meals.

Other interesting subjects for another year were discussed, among them were: Colors you should wear, Safety first in the home; and leisure in the home. Our next meeting will be a recreational meeting. We will also elect new officers for another year.

We will have just this one meeting before our achievement meeting. We invite all women to come to Mrs. G. F. Thorp's on November 10 at 2:30 o'clock.—Reporter, Mrs. G. F. Thorp.

Used Car Bargains Still Available

The last week of October gave us the largest single week's used car business we have had during the entire year. But because of so much bad weather during October, delaying harvesting as it did, and preventing so many from taking advantage of the special October offerings, we deem it only fair to those who wanted to purchase during October and for one reason or another couldn't, to continue for a few days longer to offer unheard of bargains in preparation for the new cars soon to arrive.

If you want a good cheap car, we have an excellent stock from which to select. 1927 to 1932 models: Tudor Model A Fords, Chevrolet Coaches, Coupes and Roadsters, trucks and pickups.

If you are interested in a better used car, we have anything you might want in models from 1932 to 1936 in all the popular makes. Your old car has a better trade in value now than it will have in the future. And we believe we can beat Jim Farley predicting the future.

Know from whom you buy a used car. It's better to be safe than to be sorry. A used car is never better than its title and the dealer behind it.

LAMESA AUTO CO.

FORD DEALERS

HERE ARE A FEW OF THIS WEEK'S SPECIALS:

1933 Master Chevrolet 2-door Coach, motor recently reconditioned, glass all rolling good, good upholstering, body, paint, battery, new tires. Everything you can want in a good used Chevrolet. Only, cash — **\$260**

word picture of art. In speaking of the pioneer Texas artist she said the only way she could account for so many world famed artists being here was that God loves Texas so well that he sent his masters here to preserve her beauties in art. She thinks of art as a necessity, not a luxury.

She also spoke of the Texas centennial as being a mile post or epoch in Texas art and from now on she looks for a new school of art in which will be blended the old and the modernistic thus bringing forth a richer creation.

The address by Mrs. Lynn brought to a close a lovely social function and one feature of the club's observance of National Art Week.

SOCIETY

Delphian Club In Regular Session

The Lamesa Delphian Club met on Tuesday night at the club house for their program on Four Major Poets of the Civil War Period.

The meeting was opened by the president, Miss Pauline Bulsterbaum. Mrs. Jack McLaughlin was in charge of the program and introduced Mr. T. A. Kleinschmidt, head of the department of architecture and allied arts at Texas Technological College at Lubbock. Mr. Kleinschmidt brought a very interesting talk on Art and the Texas Art Museum at the college at Lubbock. A discussion on the rank of the four poets, Timrod, Hayne, Lanier and Ryan, was given by the leader, Mrs. Jack McLaughlin. The saddest life story in American letters, Henry Timrod, was given by Mrs. Eugene Barrett. A reading, "Under the Pines," was rendered by Miss Marie Phenix.

The program closed with a vocal solo by Mrs. Carl Rountree accompanied at the piano by Mrs. Matt McCall.

Kathryne LaRue Norman Has Party

Celebrating her 12th birthday, Miss Kathryne LaRue Norman entertained a group of friends with a Halloween

party at the home of her parents, Mr. and Mrs. Geo. D. Norman, last Saturday evening.

The guests, all arriving dressed in Halloween costumes, played several games and were then served a delicious refreshment plate. They then attended the midnight show.

Twenty guests attended this enjoyable affair.

Delphian Club Annual Art Tea

One of the most colorful and beautiful events ever sponsored by the Lamesa Delphian club was given last Friday afternoon from four-thirty until six o'clock, when they entertained with a tea honoring the past district art chairman, Mrs. W. H. Lynn of Wellington.

The club house was indeed a miniature art gallery, and it was a rare treat for all to have the privilege of seeing a number of Mrs. Lynn's best canvasses. By special club request along with her paintings were shown four of Mrs. E. R. Yates, local artist prize winning pictures, all of which lent color and gave to the club room a much admired studio air.

The tea table was a scene of beauty with its lace cloth over pink, centered with a bowl of lovely pink roses, and on opposite sides were tall pink candles in triple crystal holders.

Plate favors were miniature crystal candle holders with pink lighted tapers placed on green satin stars. Gracefully presiding at the tea table were Mesdames M. C. Lindsey and R. E. Simson.

Mesdames Jack McLaughlin and A. J. Thweatt assisted in serving and in the receiving line were Mrs. Ralph Stuart, Delphian Art Chairman, Mrs. Arthur Hull, past president; Miss Pauline Bulsterbaum, president; Mrs. W. H. Lynn, honor guest; Mrs. W. P. Avriett, past district president; Mrs. E. R. Yates, local artist; and Mrs. Russell Clark, hostess.

For the first number on the program, Mrs. Matt McCall played a beautiful piano number, Prelude C Minor, by Rachmaninoff.

Mrs. Valeria Sharp Pratt rendered in her most gracious and artistic manner an appropriate one-act play, "The Prince of Court Painters."

The club sextette, composed of Mesdames Rountree, Stuart, McCall, Yates, Beckham and Miss Pauline Bulsterbaum sang two numbers.

Mrs. W. H. Lynn the guest speaker who is not only a West Texas artist but has won honors over the entire state, charmed her audience with a beautiful

Senator Connally Addresses Students

Senator Tom Connally, who spent the day here Monday, enroute to Hobbs, New Mexico, where he spoke at a Democratic rally that evening, gave a short address to the student body of the Lamesa public schools while here.

The students were assembled in the P. S. school auditorium and Supt. V. Z. Rogers introduced Hon. Carl Rountree, who in turn introduced the Senator to the student body.

Senator Connally paid tribute to the pioneers of Texas for their foresight in stressing the need of education, realizing that if the liberties they had fought for were to survive, they must provide for the education of their descendants. They were the first state to set up and maintain through their contribution a free system of education. They set aside millions of acres of land dedicated to the children of the future generations.

He also congratulated the citizens of Dawson county for the improved system of education provided for by taxing themselves. He said that it was only through education that the modern youth could be able to stand on equality with everyone and cope with the problems which face them.

The future of democracy, he said, depended on the education of our youth. And he charged those listening to carry on the torch of freedom handed down from their pioneering parents, as it was the only means they could use to maintain our system of self government and self education.

NOVEMBER PENSION GRANTS NO AFFECTED BY CHANGES IN TEXAS PENSION LAW

Austin, Nov. 3.—Pension Director Orville S. Carpenter said this week that November 1 grants to 87,000 aged for approximately \$1,260,000 would not be affected by changes in the Texas Old Age Assistance Law.

Saturday, October 24, Carpenter sent a sworn statement to the Social Security Board in Washington saying that Texas now had its share of the dollar for dollar matching funds for November assistance payments.

Carpenter said he hoped for an early approval of the Texas request and expressed belief the federal grant for approximately \$800,000 would not be delayed as was the October allotment.

October assistance checks were held up nearly two weeks because the Social Security Board was slow in passing upon a request to match state payments made to so many aged on such a liberal basis.

Mr. and Mrs. Truitt Rivers made a trip to Lubbock Sunday.

FEDERAL LAND BANK AND COMMISSIONER LOAN \$1,003,900

In Dawson County 532 loans were closed in the amount of \$1,003,900 by the Federal Land Bank Commissioner from May 1, 1933 through June 30, 1936, according to information received by H. P. Drought, National Emergency Council state director for Texas.

Of the loans closed in this county 240 for \$647,200 were made by the Federal Land Bank and 292 totaling \$356,700 by the Land Bank Commissioner.

Through the agency of the Farm Credit Administration in Texas \$196,139,976 has been loaned during the same period. These loans included 18,363 of Federal Land Bank loans for \$89,429,400; 31,213 Land Bank Commissioner loans in the amount of \$17,151,000; 27,593 Production Credit Associations totaling \$27,780,358; 123,286 emergency crop loans amounting to \$13,808,994; and 42,834 drought relief loans for \$6,970,224.

In addition to refinancing loans thru the Farm Credit Administration, the farmers in Texas were benefitted also

by a reduction of mortgage principal which amounted to \$6,288,500. Further saving resulting from lowered interest are estimated at \$3,550,000 annually.

In the period May 1, 1933 through June 30, 1936, 765,874 mortgage loans totaling \$2,056,156,826 were made and \$1,391,373,603, was advanced in loans to cooperative, while \$318,878,072 was loaned to cooperatives by the agencies of the Farm Credit Administration in the United States.

Miss Sylvia Price of Seminole spent Saturday here with friends.

DOUBLE MATRIMONIAL TRADE-IN TAKES PLACE

"A double matrimonial trade-in took place in Colorado Saturday evening when two Roscoe couples swapped husbands and wives" says the Colorado Record.

Judge Templeton said the double ceremony which changed Mrs. Cain's name to Mrs. Bush and vice versa. The trading husbands were Percy Cain and A. Benjamin Bush. Cain, 43, married the former Mrs. Bush, 29. Bush, 33, married the former Mrs. Cain, 38.

WPA Enters Second Year

Last year a new-born organization designed to replace direct relief with a work program; the District 18's Works Progress Administration is now swinging into its second winter of operation with 932 persons employed throughout the 13 counties under its supervision.

Since a small group of men started the first WPA project in this district in October 1935, the program has developed until it reached a peak of 1523 security wage earners operating 86 projects last winter.

Since the inception of the program there has been expansion in the 18th District \$410,986.12 in WPA funds, including \$1496.83 spent by the National Youth Administration. Sponsors in the 18th District have expended \$168,199.70.

In Dawson county the following projects are listed:

Placing caliche base course on 14 miles of State Highway No. 15, east of Lamesa, 130 men; Lamesa Sewing Room, 52 women; tax project, 5 women; Dawson County Library Project, 3 women; Educational program, 3 teachers; Surplus Commodity Project, 1.

THIS WEEK IN TEXAS HISTORY

Week of November 1

1806—The territory between the Sabine River and the Arroyo Hondo was named neutral ground on November 6 until the boundary between the United States and Texas could be more clearly established.

1835—A meeting of the colonists was held at San Felipe on November 3 at which time the provisional government was formed. Sam Houston was elected commander of the army and a delegation selected, headed by Stephen F. Austin, to seek aid from the United States.

1841—The Sixth Congress assembled at Austin on November 1.

1978—a former chief justice of the Supreme Court, Oran M. Roberts, was elected governor of Texas on November 5.—(CIA).

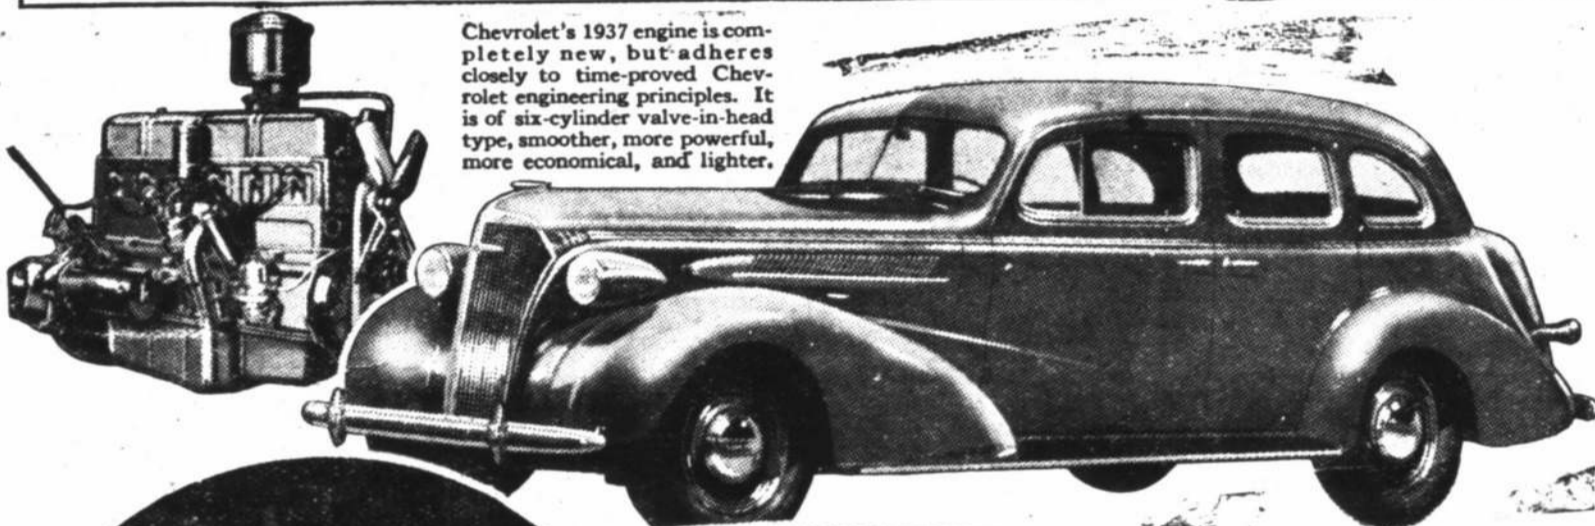

Clovis Cason of Paducah was a Lamesa visitor last Wednesday.

Mr. and Mrs. Caryl Baldwin and daughters spent the first of the week in Dallas attending the Centennial.

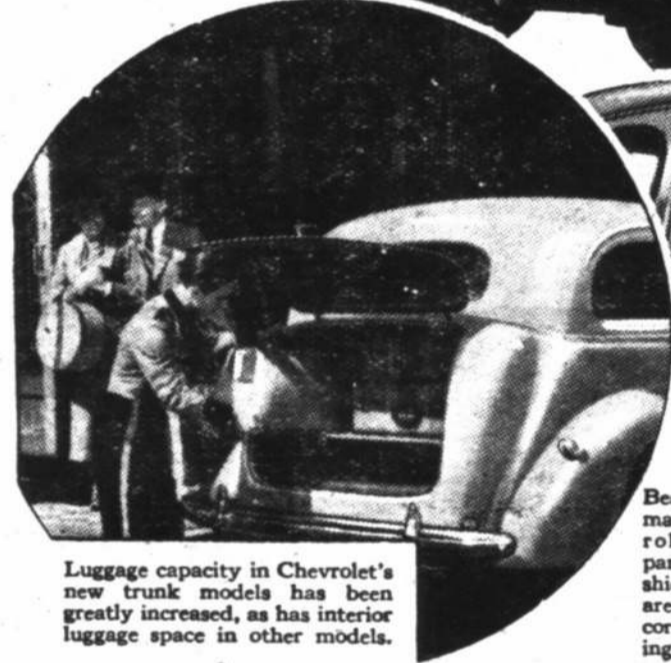

Miss Lotta Bourland and Mrs. C. Baldwin visited relatives in Clarendon the first of the week.

Mr. and Mrs. Oran Neeves and children of Lubbock spent Sunday here with relatives.

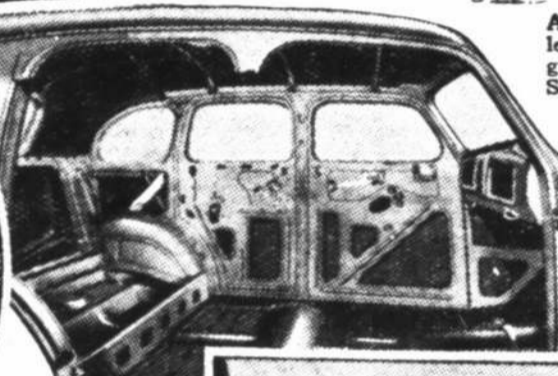

Performance, Beauty and Safety Mark Chevrolet's Completely New Cars

Chevrolet's 1937 engine is completely new, but adheres closely to time-proved Chevrolet engineering principles. It is of six-cylinder valve-in-head type, smoother, more powerful, more economical, and lighter.

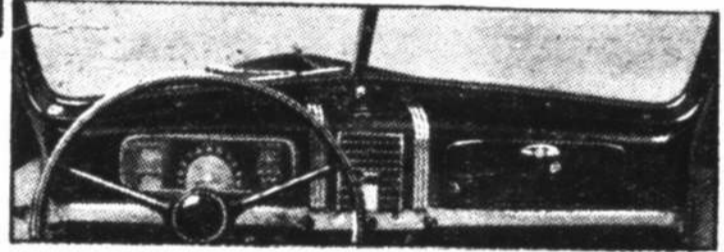

Luggage capacity in Chevrolet's new trunk models has been greatly increased, as has interior luggage space in other models.

Beauty and utility mark the new Chevrolet instrument panel. The windshield is of greater area, with narrow corner posts, affording better vision.

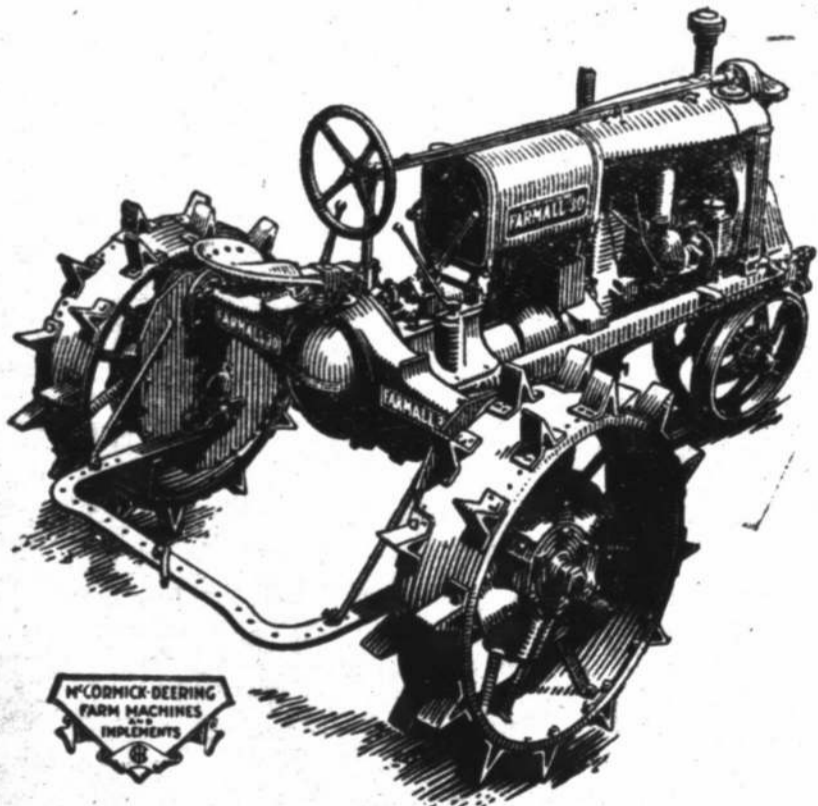

A representative model from Chevrolet's new line, typifying its beauty and grace—the Master De Luxe Sport Sedan with trunk. Note the distinctive "speed line" extending back from the side of the hood.

Unisteel construction joins the floor, cowl assembly, panels, and Turret Top of Chevrolet's all-steel body, to form one integral structure, welded in all joints, and reinforced and braced for permanent silence and safety.

Chevrolet's fully-enclosed Knee-Action is furnished at no extra cost on the Master De Luxe models; and new Syncro-Mesh transmission, and safety plate glass all around at no extra cost, feature all models of both series.

New power, economy, durability, safety and comfort, coupled with striking new beauty, characterize Chevrolet's new models for 1937. They are offered in two series, Master and Master De Luxe, virtually identical in appearance.

INSTANT STARTING on Coldest Days

When tires crunch on new-fallen snow . . . and sudden eddies of wind whirl the flakes in graceful spirals . . . and your good little car has brought you to the perfect spot where no one ever comes . . . and youthful heads are full of hopes and dreams—that's not the time to worry about whether your motor will start when you are ready to tip-toe the starter.

You won't need to, if the tank is filled with Phillips 66 Poly Gas.

FOR extra fast cold-weather starting, your motor must have a gasoline that is extra high test. Phillips 66 Poly Gas meets this specification right down to the last "T".

Because it is made by the WORLD'S LARGEST PRODUCER of natural high test gasoline . . . because it is 100% custom-tailored to the constant changes in your climate . . . because we always aim to give greater value—the high test (gravity) rating of Phillips 66 Poly Gas is right now being pushed up and up!

You know this gasoline is different, the first time you touch the starter. And every mile you drive piles up more evidence of the benefits

given by extra high test plus the added energy units supplied by the patented POLYmerization process.

Say "Fill it up" to the man at the Orange and Black 66 pump and you say "Good-by" to the nuisance and damage of slow, hard, winter-starting. You get faster warm-up and smoother running. You reduce battery drain. Cut crankcase dilution. And save the miles usually wasted by overtime use of the choke.

Why wait? Today or tomorrow, the first time your gas gauge looks low, try this sensational winter gasoline. It doesn't cost a penny more than ordinary motor fuels.

COLD WEATHER OIL
Phillips 66 Motor Oil is famous for instant flowing, which helps instant starting. Save your money and your motor with this finer, longer-lasting lubricant.

Learn the amazing benefits of **GULFPRIDE**
THE WORLD'S FINEST MOTOR OIL

WHY is it that no other motor oil in all the world can deliver the performance of GULFPRIDE OIL?

Because only GULFPRIDE starts from the finest Pennsylvania crudes... is refined to the same point as other fine motor oils... and is then further refined by Gulf's exclusive Alchlor process!

This process is the most efficient ever developed—the fruit of 15 years' research by Gulf scientists—men who stand behind every Gulf product.

Read the facts on this page. Then drive into any Gulf dealer's—and replace your old summer-worn oil with GULFPRIDE now.

(Above)—MANY WORLD'S RECORDS on land, sea, and in the air have been set with GULFPRIDE OIL. Racing drivers, fliers, speedboat pilots swear by it. Proved in the toughest competition, GULFPRIDE will outwear, outlast, and outperform any oil ever used in your car!

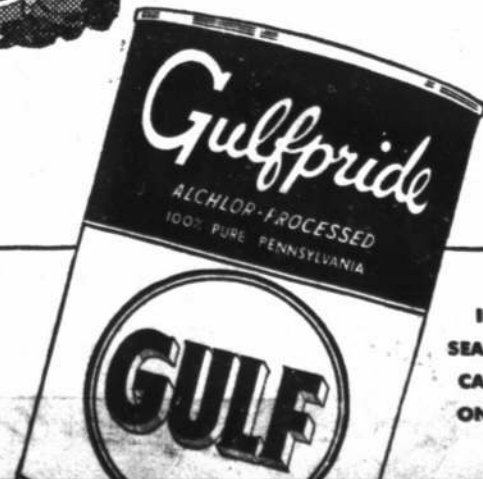

THE ALCHLOR PROCESS removes all sludge and residue. Proof: we took 6 of the finest Pennsylvania oils we could buy and put them through the Alchlor process. It removed 20% waste from already highly refined oils! Be wise—get GULFPRIDE—the only oil that has this head start.

(Left)—4 TIMES AROUND EARTH. A man drove his automobile on GULFPRIDE OIL 100,000 miles—without ever needing a repair, without ever having the head off the motor, without ever adding one drop of oil between drains. Expect great things of GULFPRIDE—you'll get them!

METHODIST NOTES WELCH CIRCUIT

We are off for conference with a full report, thanks to the people who have worked so faithfully to bring this about. May the Lord abundantly bless each one taking part.

Where we shall be the next year we do not know, but we hope to be back here as we have learned to love the people and like to work with them.

Let us begin now to plan for the next year, forgetting the things that are behind, and looking forward to the things that are before us. Let us press toward the march of the high calling, as it is Christ Jesus.

To the Welch people we say: We must have a new church. Let's all begin now to work to this end. You who have not gotten in on our crop plan can enter yet. Just gather a bale or two of cotton, bring it in to the gin and sell it and deposit the proceeds in the Lamesa National Bank to the building fund of the Methodist Church of Welch Texas.

The Browning Gin has agreed to gin the cotton free, and I am sure that the Tinsley gin will do the same thing. Do you know that the Lord can look down on your crop once and cause it to make more. Don't be afraid to trust him and don't wait to get a bolly bale but bring some in on our crop plan. Who will be the first? We are looking for several bales to have come in by the time we return from conference. Remember us.

BAPTIST CHURCH TO RAISE \$1,500 SUNDAY

At the morning service next Sunday, the First Baptist Church, will raise a minimum of \$1,500.00 to pay off indebtedness incurred in the erection of a new educational building and rearrangement of some of the existing equipment

The new building houses the Young People's Department, The Beginner Department, the Cradle Roll Department, and the church office. Adjustments were made in the Primary and Junior Departments to about double their capacity. All of the church buildings have now been painted.

Lets Talk about Clothes

TEXAS STATE COLLEGE FOR WOMEN (CIA)

Denton, Nov. 3.—Sweaters are the best fashion finds for the younger shoppers. Stunning suits are often built up from a sweater foundation with odd skirts under the popular separate jackets. The sweaters have short or long sleeves, interesting necklines, lots of pockets on the chest and hip lines, and they come in every color you can ask for, with old gold leading in popularity.

Brushed wool sweaters have come into their own. We find anything from short sleeveless jockey coats to the elaborate twins. Both sweaters are the same material, but the short sleeve 'first' one is often of a different shade.

Robin Hood green coat sweaters, boast a twin of old gold, and chocolate brown ones choose mates of rust. When both sweaters are the same color, each is trimmed with narrow brilliant bandings and matching leather buttons.

Jersey is especially popular with girls at Texas State College for Women (CIA). These sweaters are very tailored shirtwaist models, and they are trimmed with self-stitching or small bone buttons. Some of them are over-blouses, but the majority have a slender waist band that fastens in the front with a covered buckle.

Fancy sweaters are distinctly related to the twin outfits. These giddy imports are ablaze with cut-out hearts, with Alpine flowers, and oak leaves. Sleeveless felt vests, likewise adorned with sentimental trifles and hearts and flowers, are grand after months of being practical. The sweaters are all short perky little things of vivid colors, and even brighter trimmings.

8,000 YOUTHS REMOVED FROM WORK PROJECTS

Austin, Nov. 2.—More than 8,000 youths assigned work by the National Youth Administration in Texas have been removed from project payrolls during 1936, Lyndon B. Johnson, state director, announced.

This reduction is more than 40 percent, 17,000 young men and women having been originally assigned to the NYA work program.

"On October 1 only 8,760 were actually on the work program payroll. Of the number taken off the roll, more than 3,500 have been helped by the NYA program to get jobs at better wages, the reports show.

"Our reports on why workers have been released are yet incomplete," Mr. Johnson said. "But the records already checked show that 3,500 individuals have been given other jobs. The complete report will show that private industry has absorbed many more of these whose names have been taken off our rolls."

The record also shows that more than 600 employees left jobs to return to school.

A junior placement office conducted by the NYA at Fort Worth in conjunction with the United States Employment service reported that in seven months it has placed 997 young men and women in new jobs. Employment counselors at the office seek out jobs for youth, and sort out youthful applicants according to ability and training.

CARD OF THANKS

We want to express our thanks and appreciation for the words of sympathy and kindness performed during the illness and death of our beloved wife and mother, Mrs. Ben Dopson.

May God bless each and every one of you in our prayer.
