Stalin Is Voted Out Of His Tomb

Red Envoys Applaud Decision

MOSCOW (AP)—Five thousand cheering delegates and officials at the Soviet Communist party congress voted today to remove the body of Joseph Stalin from its place beside Lenin in the big tomb on Red Square.

The congress action came in the wake of speeches by Premier Khrushchev and other denouncing the longtime Soviet dictator as a murderer and instigator of mass repression against Communist and army leaders. Khrushchev said as a result of Stalin's purges, the Soviet army's efficiency was at a low ebb at the time of the German attack in 1941.

The mausoleum, which thousands visit each day, was suddenly closed Sunday "for repairs," a police guard on duty there said. The name of Stalin, put alongside Lenin's on the tomb when his embalmed body was placed there in 1953, will be removed. The monument now will bear the name of the founder of modern-day communism, Vladimir Ilyich Lenin.

There was no immediate announcement where the embalmed body of Stalin will be placed.

The proposal for the removal was made in the congress in the Kremlin by Ivan Spiridonov, first secretary of the party in the Leningrad region.

It was promptly endorsed by the Moscow delegation in whose territorial jurisdiction the tomb is situated.

The motion was also supported by a representative of the delegation from Georgia, Stalin's birthplace.

The reign of terror during the Stalin regime has been cleared for free and open discussion in the Soviet Union.

For the first time Soviet newspapers branded the old dictator as a tyrant, publishing Khrushchev's speech before the party congress in which he charged "thousands of absolutely innocent people perished" in Stalin's purges before World War II.

Khrushchev combined his attack with a proposal that a monument be erected in Moscow to the victims of the purges, a proposal quickly approved by the Moscow City Council, which is caretaker of the Lenin-Stalin tomb.

Khrushchev and other party leaders at the congress exalted the memory of Lenin while denouncing Stalin for creating a "personality cult."

Khrushchev toned down tributes to himself by insisting current rule in the Soviet Union is by collective decisions in the Kremlin and not by his own dictate. Khrushchev unveiled a 30-foot statue of Karl Marx, the father of communism, Sunday.

The statue is in Sverdlov Square, about a quarter of a mile from Red Square. Marx was born in Germany, did most of his writing in the British Museum in London and never set foot in Russia. He is buried in London.

Order Of Eagle

MEXICO CITY (AP)—The director of France's Bank for Industry and Commerce, Louis Assenat, was decorated with the order of the Aztec Eagle, Mexico's highest award for foreigners, today.

BIG SPRING DAILY HERALD

Front Cools City, Brings Some Rain

Forecast of wintry weather for Sunday and Sunday night fell apart at the seams because the cold front moving in from the northwest failed to travel as rapidly as the Weather Bureau had anticipated.

So the Bureau rephrased its prediction and moved arrival time for the chilliness to Monday and Monday night.

A prediction that the low tonight will hit 36 degrees was made at 11 a.m. The high today is expected to be 73. Tuesday's high will be around 63 degrees.

Light rains are foreseen for today and tonight—a phase of the prediction which was being borne out early Monday. Occasional showers, none of which developed into measurable size, fell Monday morning.

The skies were overcast with clouds and the spring like balm which had held all of Sunday and Sunday night was being changed into a chillier form shortly before noon.

The Associated Press reported that below freezing temperatures were scored at Dalhart early Monday and that the cold wave was dropping temperatures an average of 20 degrees as it passed. The cold air mass, the Associated Press said, is from the storm which brought heavy snows and took six lives in Colorado over the weekend. Snows also fell in northern New Mexico accompanied by subfreezing weather.

High on Sunday was 33 degrees and it never cooled off below 67 degrees during the night.

At 11 a.m. the chill has pushed the mercury to 56 degrees.

Early Monday the cold front stretched on a line running from Vernon through Lamesa and westward into Hobbs. N. M. Most of the state was due to feel the cool air as the front continued its southern trip across Texas.

Russia Sets Off Its Big Superbomb

May Have Been Above 50-Megaton

UPPSALA, Sweden (AP)—Scandinavian scientists reported today that the Soviet Union set off its 50-megaton hydrogen bomb—or possibly one even bigger—in the biggest man-made blast in history.

Dr. Marcus A. Baath of the Uppsala Seismological Institution said the explosion recorded there was "more than 2½ times as strong" as last Monday's blast, which was estimated in the range of 30 megatons.

A megaton has the force of one million tons of TNT, and a 50-megaton bomb would be 2,500 times as powerful as the first U.S. atomic bomb exploded over Hiroshima and Nagasaki.

Soviet Premier Khrushchev had told the Soviet Communist party congress that the current series of nuclear tests in the atmosphere would be concluded by exploding a 50-megaton bomb. Khrushchev brushed aside pleas to abandon plans to set off the giant bomb as "hysterical clamor."

The U.N. General Assembly on Friday sent an appeal to the Soviet Union to cancel plans to test a 50-megaton bomb.

Dr. Baath said today's explosion occurred 1,250 miles from Uppsala in a northeast direction. This would place it in the Novaya Zemlya area of the Arctic—the region where the Russians have been carrying on their test series since Sept. 1.

The biggest United States nuclear test bomb has been reported at 15 to 20 megatons.

The Swedish announcement of today's explosion came after a flurry of reports that the Soviets had let go with their promised giant bomb Sunday.

The French Atomic Energy Commission had reported that it was of 50-megaton strength but the U.S. Atomic Energy Commission and seismologists in Sweden, London and Denmark attributed the disturbance to an earthquake near Vancouver, B.C.

The Soviet explosion also was recorded at seismographic stations at the University of Bergen, Norway, and outside Copenhagen, Denmark. Danish scientists figured its force at two and a half times that of last Monday's bomb.

Radio Moscow in morning broadcasts made no mention of the explosion and there was nothing about it in Soviet newspapers.

The U.S. Atomic Energy Commission had no immediate comment on the Swedish report.

At least 27 blasts have been recorded since the Russians broke the truce on nuclear testing Sept. 1 and set off a series of bombs that grew progressively larger in strength.

At Bodoe, Norway's new radiation warning command said the prevailing winds were carrying the radioactive cloud from the explosion away from the Scandinavian peninsula and over the Arctic Sea.

U.N. Tangle

UNITED NATIONS, N.Y. (AP)—A procedural tangle and possible amendments stood in the way today of a U.N. resolution against all nuclear weapon tests.

Ike, Helping Candidate, Pleads For 2-Party System

San Antonio (AP)—Former President Dwight Eisenhower opened a day of campaigning for a Republican candidate for Congress today with a plea for two-party government in Texas.

"Any party that is in power too long," Eisenhower said at a news conference, "can become indifferent to the need for integrity and efficiency in government."

Eisenhower said he regards John Goode Jr. as "a man who would be good not only for a district such as this but for the country."

"Mr. Goode seems to be representative of the corps of people who believe in common sense in government," Eisenhower said. "I am particularly delighted that he agrees with me by rejecting both extremes of political philosophy."

Eisenhower came to this South Texas city Sunday to campaign for Goode, lone Republican in the five-man race which will be decided Saturday.

The man regarded as the leading Democratic candidate, state Sen. Henry Gonzalez, was endorsed last week by President Kennedy.

The candidates seek the seat vacated last month by Rep. Paul Kilday, a Democrat who resigned to become a federal judge.

Eisenhower, asked for comment about Gonzalez's description of him as an "old has-been president," laughed loudly, and said: "Well I have been president alright but I will say this—it's better to have been a has-been than a never-was."

The former president said he has "a very great many sentimental ties for this city" where he was a young lieutenant.

He said he feels President Kennedy "needs united support from his country" in the foreign affairs and said "I do not want to comment specifically about the conduct of foreign relations in this or any other administration."

He said, of the sale of 130 F86 jet fighters to Yugoslavia, "I see not only nothing wrong with the thing but under the same circumstances I would have done the same thing."

The former president also scheduled a coffee meeting with veterans' groups, a luncheon with Republicans, and a parade during the day and a speech tonight.

He also has a news conference, a coffee meeting with veterans' groups, luncheon with Republican leaders and workers and a parade on his schedule.

The special election Saturday has attracted the attention of President Kennedy. Vice President and Mrs. Lyndon B. Johnson Gov. Price Daniel, Sen. Ralph Yarborough, D-Tex., and several of the state's congressmen, all of whom have endorsed Gonzalez, Sen. John Tower, R-Tex., and Rep. Bob Wilson of California, Republican congressional campaign chairman, have endorsed Goode.

Leaders of both parties expect the election to go a long way toward determining how valid are Republican claims that tradition-

Pulled Back From Berlin Border

West Berliners watch a U.S. Army tank move back from Friedrichstrasse checkpoint during withdrawal of U. S. and Soviet Army tanks from the touchy front lines. The American and Red armor had confronted each other all night at a 200-yard range. In foreground is a French Army staff car driving westward. (AP Wirephoto).

All Quiet After Cars Halted On Berlin Road

BERLIN (AP)—U.S. military units from West Berlin traveled to West Germany today on the autobahn lifeline without hindrance from the Russians, who stopped two American vehicles Sunday.

The U.S. command in Berlin described the movement as a redeployment. It said the departing units will be replaced shortly by a company of engineers, leaving the Berlin garrison at 6,500-man strength.

The movement actually got under way Sunday, the Army disclosed, even as the Russians barred two U.S. military assistance vehicles from entering the autobahn from Berlin at the Babelsberg checkpoint. A third assistance vehicle later was allowed to proceed.

An American spokesman said the Army will continue to send out the aid cars.

Western officials speculated that the Soviet action in stopping two cars while allowing a third to pass might be a calculated move. They thought the Soviets might be reasserting objections they first made in 1952-53 to American patrols on the autobahn without creating a dangerous new East-West incident. By a 1953 agreement the Soviet army admitted responsibility for security on the highway.

By halting the assistance vehicles altogether, the Soviets could have provoked the U.S. Army into another show of force to safeguard Allied rights in Berlin.

The last show of force ended in an informal truce Saturday after the occupation question in the Italian census asks "what is your position?"

"Seated," was the reply written by a village shoemaker in nearby Pergine Valsugana.

ELIZABETH, N.J. (AP)—Joseph W. Maxey and Lorelle Parks Jr., 23-year-old car washers, were sentenced to life imprisonment today for the murders of two socially prominent white women.

Maxey and Parks, both Negroes, were found guilty last Friday of the slayings of Eleanor Ewell, 51, of Westfield and Eleanor Tyson, 50, of Plainfield, last May 26.

Llewellyn E. Thompson Jr., the U.S. ambassador in Moscow, was to seek a second meeting with Soviet Foreign Minister Andrei Gromyko today or Tuesday to press Allied demands for an end to the Communist attempts to restrict Allied rights in Berlin.

Their first meeting Friday was described as unsatisfactory by State Department press officer Lincoln White.

No American official would say that the United States has decided to stop its armed incursions into East Berlin while Thompson and Gromyko are talking. But there were insistent reports that such a decision had been taken at a very high level, provided the East Germans refrained from any new harassment of Allied movement through their concrete and barbed-wire wall through the city.

The Soviet tanks withdrew Saturday morning to an encampment in a war-ruined palace on Unter den Linden. The American Pattons set up temporary positions near the far end of Friedrichstrasse.

With the most forward armored units of both sides 2,000 yards apart, the Berlin tension eased and attention shifted to the diplomatic level.

er American and Soviet tanks had stood on either side of the Berlin wall at the Friedrichstrasse crossing point for 16 hours with their guns trained at point blank range.

The tanks were rushed up after four U.S. armored thrusts into East Berlin during the week to uphold the right of American civilian officials to cross the border without submitting identity papers to East German police.

\$11,000 Taken In Bank Holdup

SACUL, Tex. (AP)—A man and a woman staged an \$11,000 robbery at the Sacul State Bank in this East Texas town of 200 today.

The robbery was a night-long affair starting when the thugs picked up bank cashier Ray Treadaway and his wife about 9 p.m. after church services, officers reported.

The cashier and his wife were taken to some woods where they were held for a few hours.

Then they were taken to the bank and the four waited in the president's office until an automatic time lock allowed the safe to be opened.

After the robbers obtained the money, they left the Treadaways tied up. They were found by other bank employees.

Authorities said the robbers are believed to have escaped in a 1956 Ford with a light top and green body.

Light Shower

COLORADO CITY — Showers fell around 8 a.m. today and gauges in Colorado City measured 10 inch. Temperature dropped from 72 early this morning to 57 degrees shortly before noon.

Fallout Cloud Moves East

WASHINGTON (AP)—The leading edge of the giant fallout cloud formed by last Monday's multi-megaton Soviet nuclear explosion moved eastward today over the Atlantic.

Robert List, a Weather Bureau fallout specialist, said the invisible mass of radioactive debris was being propelled by winds of 70 to 80 miles an hour.

He estimated it would take several days for trailing debris to complete its eastward passage over New England and southwest Canada and head out over the ocean.

U.S. experts have said they saw no need for undue alarm or for any immediate action to protect health. Most of the debris from the explosion is believed to have gone into the stratosphere and was not expected to settle to earth for months.

U.S. experts have said they saw no need for undue alarm or for any immediate action to protect health. Most of the debris from the explosion is believed to have gone into the stratosphere and was not expected to settle to earth for months.

Kennedy Holds Highway Rites

BIG CEDAR, Okla. (AP)—President Kennedy preached natural resources, learned about cattle and boosted Democrats Sunday in his first trip to the hinterlands as chief executive.

He dedicated a road at Big Cedar—not yet a point on the map—and saw, close-up, the prize Angus cattle at Sen. Robert S. Kerr's ranch—much larger than Big Cedar.

He also shook the hands of scores of country folk and mingled with Democratic office holders.

After an overnight stay at Kerr's ranch house, the President flew by helicopter to Fort Smith.

Texans Oppose Yugoslav Aid

By The Associated Press

Two Texas organizations protested United States aid to Yugoslavia Sunday.

At Galveston the Serb National Federation voiced opposition to the training of a Yugoslavia port official in Texas and at Nederland a district American Legion convention unanimously approved resolutions condemning all forms of aid to Yugoslavia.

Mirko Zekulic, manager of the Yugoslav port of Groce, has been in Houston a week studying port operations. His tour of U.S. ports was arranged by Department of Commerce.

More Therapy For Rayburn

DALLAS, Tex. (AP)—Doctors at Baylor Hospital were to resume irradiation therapy today for House Speaker Sam Rayburn, 79, suffering from incurable cancer.

The treatments, for an upper abdominal tumor, were halted during the weekend.

A medical bulletin Sunday night said there was no significant change in Rayburn's condition, which remains serious.

Ark., for the jet trip back to Washington. Except for a fast flight to New York and Chicago last April, and his weekends at Hyannis Port, Kennedy hadn't ventured into the country since taking office in January.

Landing at Fort Smith Sunday, Kennedy strode up to a group that may get involved in an Arkansas political scrap next year. Sen. J. W. Fulbright was there with Gov. Orval E. Faubus and Rep. Dale Alford, both of whom reportedly are thinking about opposing Fulbright for re-election in 1962.

Kennedy shook hands all around and worked in a plug for Fulbright, who, he said, has labored for a "strong United States in a peaceful world—and also spoke for the interests of Arkansas."

Fulbright is chairman of the Senate Foreign Relations Committee. Arkansas critics have charged him with forgetting the state while pursuing foreign policy problems.

Sen. John L. McClellan and Democrats in the state's House delegation also turned out for the President, who carried Arkansas handily in 1960.

Kennedy praised his Democratic hosts in Oklahoma, which voted for former Vice President Richard M. Nixon.

Both at Fort Smith and at Big Cedar, the chief executive said the nation cannot lose sight of its natural resources, its "land, wood and water," while building its military might.

"We hold the sword," he told thousands who converged on the Big Cedar crossroads, "and we are determined to maintain our strength and our commitments. But we also hold in our hands the trowel."

Kerr, Democratic Sen. Mike Monroney, Gov. J. Howard Edmondson and House members auctioning of Ker-Mac Marshall ranch. There Kennedy watched with obvious interest and occasional amusement at a march-past of Angus cattle and mock vacationing of Ker-Mac Marshall 47th, a massive black bull rated by Kerr the best of his herd.

Kerr and Dean A. McGee, his partner in cattle, oil and uranium enterprises, own one of Oklahoma's ranching showplaces. Their territory covers 55,000 acres.

Halloween Carnival

These youngsters are advertising the Halloween Carnival, sponsored by the Marcy P-T-A, to be held at the school Tuesday, beginning at 5:30 p.m. There will be booths, a white elephant sale and games. Also, the cafeteria will be open serving hot dogs, coffee, and other refreshments. The students are, from left kneeling, Billy Semler and Debra Hewitt; standing, Christy Semler and Mary Hewitt.

Negro To Move To Africa Because Of Discrimination

BATTLE CREEK, Mich. (AP)—A Battle Creek Negro announced Sunday that he and his family plan to move to Africa because "I'm sick of prejudice which is just as prevalent in the North as in the South."

Herman McGee, 36, veteran of World War II, said he, his wife and their two children planned to give up their United States citizenship and move to Nigeria, Liberia, or Ghana. "We'll never be able

to live like first-class citizens here," he said. "I'll be dead long before segregation is broken down here."

"Freedom isn't just something you feel. A Negro has a psychological barrier. It's impossible for him to say he's a free man and really believe it himself," he said.

McGee said he and his family still planned to move after the refusal of Houston, Tex., contractor Robert E. Nesmith to pay their fare.

Nesmith has said he will pay for the passage of any Communist or Socialist if he will leave the United States and renounce his citizenship.

McGee answered Nesmith's offer, but the Texas said he would not pay McGee's way to Africa because "I'm not a transportation service for people who just don't want to stay here."

It will take about three years

to raise the necessary money on his own, McGee said. He and his wife Lillian, 34, own a recreation hall and beauty shop here. Their children are Anthony, 13, and Gwendolyn, 16.

Stevenson charged that the Soviet Union had shown cynical disregard for the United Nations and its appeal to the Kremlin not to test a 50-megaton bomb approved last Friday night by a vote of 87-11.

Tsarapkin quoted at length from Premier Khrushchev's statement explaining the Soviet government's reasons for going against world opinion to carry out the bomb tests. Then he added:

"In order to prevent a nuclear and rocket war, all measures must be taken. And one of these measures which can prevent you from launching a nuclear weapons war is to increase the defensive position of the Soviet Union. This is why we do it."

Stevenson said there was no justification for the explosion of the gigantic bomb except "for intimidation."

"If this is what Mr. Tsarapkin calls Soviet realism," the chief U.S. delegate said, "then God help us all to escape from Russian realism."

Stevenson launched his attack on the Soviet Union as soon as the 103-nation committee convened.

He told the committee today's test apparently was even larger than the 50 megatons expected.

"Today," Mr. Chairman, the world has taken a great leap backward toward anarchy and disaster," Stevenson said.

The U.S.-Soviet exchange preceded a debate on a proposal by five Asian-African nations and Yugoslavia for a voluntary moratorium on all nuclear testing.

The committee had noted last Friday to suspend the debate temporarily and vote, but by agreement the debate was re-opened this morning.

The United States announced that it would not press at this time for its own pending motion for a quick vote on a U.S.-British resolution calling for urgent action on a treaty to ban nuclear bomb testing under a system of international controls.

The gift originally was disclosed last fall as anonymous. The Gardner were identified today in a special program honoring the couple.

The program was part of dedication day activities for Gardner Hall, \$1 million dormitory at the college.

College officials said the property is "worth a lot of money."

Present oil revenue from the more than 100 producing wells on the property runs about \$65,000 per year. Prospects for deeper production are good, oil men say.

The Andrews County property, in which the Gardners retain a life estate, is easily one of the largest and most promising gifts ever received by Abilene Christian College.

Sixteen members of the Contact Club of the Chamber of Commerce were fitted for their new red coats this morning, according to Carroll Davidson, Chamber manager.

The men were on hand for measurements at Prager's at 10 a.m. They qualified for the uniform by selling a minimum of five new memberships in the Chamber since the club was formed.

Qualifying are Jeff L. Brown, Jack Davis, J. O. Dotson, Oscar Glickman, Don Hitchcock, Jerry Mancill, Elmo Phillips, R. J. Ream, Bill Reed, Bob Rogers, Bob Travis, Rad Ware and Winston Winkler.

Adlai Calls Blast Step To Disaster

UNITED NATIONS, N.Y. (AP)—U.S. Ambassador Adlai E. Stevenson today accused the Soviet Union of pushing the world toward disaster by exploding its massive superbomb. The Soviet Union retorted that the current tests were intended to prevent the United States from launching a nuclear war.

The clash occurred in the General Assembly's main political committee, where Soviet Delegate Semyon K. Tsarapkin cited the critical Berlin situation as the reason for the current series of Soviet nuclear tests, including today's explosion of a bomb said to surpass 50 megatons.

"Any moment war can start," Tsarapkin declared.

Stevenson charged that the Soviet Union had shown cynical disregard for the United Nations and its appeal to the Kremlin not to test a 50-megaton bomb approved last Friday night by a vote of 87-11.

Tsarapkin quoted at length from Premier Khrushchev's statement explaining the Soviet government's reasons for going against world opinion to carry out the bomb tests. Then he added:

"In order to prevent a nuclear and rocket war, all measures must be taken. And one of these measures which can prevent you from launching a nuclear weapons war is to increase the defensive position of the Soviet Union. This is why we do it."

Stevenson said there was no justification for the explosion of the gigantic bomb except "for intimidation."

"If this is what Mr. Tsarapkin calls Soviet realism," the chief U.S. delegate said, "then God help us all to escape from Russian realism."

Stevenson launched his attack on the Soviet Union as soon as the 103-nation committee convened.

He told the committee today's test apparently was even larger than the 50 megatons expected.

"Today," Mr. Chairman, the world has taken a great leap backward toward anarchy and disaster," Stevenson said.

The U.S.-Soviet exchange preceded a debate on a proposal by five Asian-African nations and Yugoslavia for a voluntary moratorium on all nuclear testing.

Qualifying are Jeff L. Brown, Jack Davis, J. O. Dotson, Oscar Glickman, Don Hitchcock, Jerry Mancill, Elmo Phillips, R. J. Ream, Bill Reed, Bob Rogers, Bob Travis, Rad Ware and Winston Winkler.

They will devote their Halloween fun to helping underprivileged children throughout the world. Their "trick or treat" call will be entirely selfless.

Under the sponsorship of the Protestant Women of the Chapel (Webb), youngsters to take part in the appeal will meet at the Chapel annex at 6:30 p.m., to receive stickers and tags.

All participants in the program will have proper identification, said Mrs. T. C. Curran, chairman, and only children bearing the UNICEF symbol will be authorized to receive contributions for the fund.

Y Industrial And Church Loop Due

Representatives of all institutions interested in either the industrial or the Church YMCAs have met this evening at the Y. Joe Leach, physical education secretary, said that this would be the final organization meeting prior to the opening of play the week of Nov. 13. Schedules will be drawn up after the 8:30 o'clock meeting when the number of teams in each of the leagues will be fixed.

Daniel Would Give Up State's Property Tax

SAN ANTONIO (AP)—Gov. Price Daniel said today he believes the day is coming soon when the state should leave the property tax entirely to local governments.

This revenue source raised \$35.5 million for the state government in the 1959 fiscal year.

The governor said "one state responsibility which has not been met" is "the responsibility of making available to our cities additional sources of revenue."

Daniel spoke at the Texas Municipal League conference.

"It is my opinion that the time is near at hand when the state should step completely out of the ad valorem tax field and leave that source entirely to cities and other local political subdivisions," Daniel said. "I am sure that other new sources must be made available also to our cities, and many changes and improvements in present tax situations, procedures and administration can yield additional revenues."

Daniel said city governments "have been forced to rely on the ad valorem tax for 90 per cent of their revenue needs...the federal, state and local governments can look to new sources of revenue when circumstances demand."

Shell No. 1 Epley, Martin County deep prospector, reported heavy returns of mud but no shows of oil or gas at shallow testing around 4,300 feet during the weekend. Several other projects were making hole.

Chambers No. 1 Wills is digging in line at 6,289 feet. Location is C SE NW of section 533-97-H&TC survey.

Texaco No. 1 McDougal is taking a drillstem test of an unreported zone, between 10,090-118 feet. The hole is bottomed at 10,118 feet in lime and shale. Project is C SE SW of section 23-36-4N, T&P survey.

Humble No. 11 Alexander is testing on the pump with no gauges. This prospector is C NW SE of section 138-5-H&GN survey.

Shell No. 1 Epley is drilling at 9,884 feet. Operator took a wire line test between 4,634-54 feet with tool open one hour and recovered 8,000 cubic feet of mud filtrate. There were no oil shows or formation water. Another test, between 4,815-16 feet, had tool open two hours and recovered 3,350 cubic feet of mud filtrate, one per cent formation water and no shows of oil. This site is C SE SW of section 7-36-1N, T&P survey.

Any attacks on or by Indians leaves non-Indians with mixed emotions. Many soldiers of the era aimed at killing any Indian they could find, and certainly the story of the Indian is one of mistreatment.

At the same time, the natives were no saints, themselves. The Indian people is still with us, although thankfully in less violent form.

The author details the troubles and the maneuverings which led up to the slayings. He fails to point out the critical fight properly, and suddenly the battle is over before you realize this is the big one. The appendix items concerning the battle make better reading than the story itself.

The exact number killed is unknown, but some figures go as high as 200.

Most of the victims were women, old men and children, some of them only infants. The bodies later were horribly mutilated by the soldiers.

The exact number killed is unknown, but some figures go as high as 200.

but you are permitted no such latitude."

He noted that the Texas Commission on State and Local Tax Policy, created by the 1959 Legislature, must complete its studies by the end of next year.

Daniel also:

Called on the 2,000 city officials present to crackdown on traffic violators.

Urged them to co-operate with the state in bringing more industry to Texas.

Asked local governments to make their civil defense plans complete and up-to-date.

Daniel said city governments "have been forced to rely on the ad valorem tax for 90 per cent of their revenue needs...the federal, state and local governments can look to new sources of revenue when circumstances demand."

Sixty Jurors To Be Called

Sheriff Miller Harris's office is preparing notices today to 60 jurors to report to the Howard County court on the morning of Nov. 7. They will be needed in the trial of six suits involving right of way on US 87.

The sheriff's office will also be sending out notices to 120 other jurors who are to report on Nov. 8 in the 118th District Court to serve a criminal docket set to open on that date.

The six land suits in the county court are appeals brought by the state highway department and the county against findings of a special appraisers commission. The special commission awarded the property owners sums which the state and county held excessive. Juries will decide if the appraisals were equitable.

In the district court, more than 20 felony cases are tentatively docketed for trial. Gil Jones, district attorney, and his staff were making ready to begin the trial of these cases.

The session points up that America's greatness is the result of a moral society, constitutional government, and the free enterprise system, known as capitalism," James Cape, general chairman for the forum, said.

The forums, which will be held each Monday night for six weeks, are free to the public.

Other church groups will meet at the First Methodist Church Tuesday at 7 p.m. They will end their drive at 9 p.m. with a report meeting and refreshments.

CROP is a joint project of Protestant and Eastern Orthodox church bodies to bring food, clothing, medicines and other supplies to political and disaster victims overseas. Most donations are in the form of farm goods and funds raised will be used to transport them to areas where they are needed.

Steady progress is being made on the Interstate 20 loop, Jake Roberts, Abilene, district engineer for the Texas Highway Department, said Monday.

Roberts advised the Herald that only one sizeable bit of right of way remains to be acquired. This and the adjustment on utilities, appears to be the major obstacle to getting started on the project.

Plans are on hand for establishing the subgrading on the route which takes off just east of Big Spring, swings to North Twelfth street about the Snyder highway intersection, goes westward beyond the city and then back south to an intersection with the road west of Webb afb.

One person died in a plane crash, three were fatally shot, shot, one drowned, one was struck by a train, two were beaten to death and one committed suicide.

The Associated Press tabulation covered the period from 6 p.m. Friday until midnight Sunday.

The body of Kenneth W. Woods, 50, of Amarillo was recovered Sunday from Lake Stamford in West Central Texas. He drowned Saturday after wind-whipped waves upset a fishing boat. Two companions managed to swim ashore.

L. A. Brock, an elderly farmer from Seminole, was shot to death Friday night near Andrews in West Texas.

Six persons were dead and six others were missing today in the wake of a storm that brought wind, rain, snow and cold to the Rocky Mountain states.

McMaster, 47, was accused of taking and Wolff, 51, of giving the payments between December 1956, and July 1, 1959.

The jury said the payments made through Ram Transport, Inc., a Michigan corporation headed by McMaster.

Wolff was identified as president and principal stockholder of the Youngstown Cartage Co., Youngstown, Ohio.

Local 299 has about 15,000 members and is one of the largest locals in the Teamsters Union.

George Roxburgh, a business agent of the local, was indicted by the same grand jury Oct. 6 and similar charges were brought against two officials of a Teamsters local in Chicago last month.

Convicted

Former U.S. diplomat Irvin Scarbeck, hands manacled, poses in the marshal's office in Washington, D.C., after he was convicted of revealing American Embassy secrets to Polish Communist agents. A federal jury of 11 men and one woman returned the verdict after 15½ hours of deliberation. The trial lasted three and a half weeks.

Prison Rodeo Tally-109,000

HUNTSVILLE, Tex. (AP)—The 1961 season of the annual Texas Prison Rodeo ended Sunday and prison officials said 109,000 persons paid to see the five performances.

The largest crowd for any final performance—27,000—saw television star Chuck Connors and baseball player Mickey Vernon. They were driven into the arena by Miss Martha McKee of Huntsville, a nursing school major at Texas Woman's University in Denton.

The rodeo is held each Sunday in October and net proceeds from ticket sales are used to services for the more than 12,000 inmates of the Texas Department of Corrections.

Fans gave Candy Barr, former Dallas night club stripper, an extra round of applause for her rendition of a ballad and then a song called "Fever." Candy Barr is one of the inmate vocalists with the Gorette Girls, a group from the women's unit, Texas Department of Corrections.

The calf roping event was won by Sonny Sikes of Huntsville with a time of 12 seconds. Kenneth Burkhalter of San Antonio was second, with 16.8 seconds, and Patsie Aftel of Hallettsville was third, with a time of 18.4 seconds.

Gerald Lee of Pasadena, serving 20 years, suffered a broken pelvis in the saddle bronc riding contest.

Lee was taken to the prison hospital where physicians said his condition is satisfactory.

Bill Ellzey, doing 90 years from Brownsville, was hurt in the bull riding event. However, after he was examined by hospital attendants, he insisted on returning to the rodeo arena.

No Confusion

LONDON (AP)—The British Sunbathing Association's annual conference voted Sunday that its members will be known as nudists—not nudists.

"If we continue to be known as nudists, we might be confused with strip-teasers," a member explained.

Director

Miss Eva B. Adams, above, will become director of the U.S. Mint. She will be sworn in by Associate Justice Tom Clark of the Supreme Court.

And now comes the world's richest horse race — the \$300,000 Garden State Stake for 2-year-olds at Garden State Park on Saturday, with an estimated \$175,000 for the winner.

This golden gallop over 1 1/16 miles in recent years has pinpointed the colts most likely to star in the glamorous races for 3-year-olds, the Flamingo, Kentucky Derby, Preakness and Belmont. This year promises to be no exception, although several outstanding juveniles, such as Jaipur and Sir Gaylord, have been retired for the season.

Donut King, Verne Winchell's California cannonball who surprised by winning the Champagne over Jaipur and Sir Gaylord, appears the likely favorite.

The son of Determined-Strayed easily won his half of the split Garden State Trial last Saturday. He beat Obey by 9 lengths in 1:44 4/5. Crimson Satan, fourth in the Trial, winning by seven lengths over Pinsetter in 1:44 1/5. Donut King paid \$5.90 and Crimson Satan \$4.20.

It was in the Garden State a year ago that Carry Back hit the jackpot and started on the road that led to victory in the 1961 Kentucky Derby and the Preakness. He hit the headlines again at the

Garden, N.J. track Saturday by winning the \$75,000-added Trenton handicap.

The \$50,000-added Ladies Handicap over a testing 1 1/16 miles at Aqueduct went to Andy Crevolin's Mighty Fair. The 3-year-old filly put on a late surge in the stretch and beat the favored Craftiness by a length. She paid \$12.20 as third choice.

Miss Eleonora Sears registered the first stakes victory in her career as an owner when her 2-year-old Tudoroka won the Jeanne D'Arc at Narragansett. Tudoroka went off at 15-1 and paid \$32.40.

In Saturday's other headlines Our Son Don, the \$5,400 last minute favorite, won the Maryland Futurity at Laurel. Royal Attack (\$4.40) won the Durante Stakes at Bay Meadows and may have earned a trip east for the Garden State; Spicy (\$5) won the Littleton Handicap at Sportsman's Park and Aeroflirt (\$12.60) took the Autumn Handicap at Churchill Downs.

Texas Leads All Around

DALLAS (AP)—It's not all Texas, but just about, in the Southwest Conference statistics story this week.

While Texas moved on at a record total offense pace with a six-game average of 438.7, the highest in the nation, Texas A&M and Arkansas rebounded from defeats with impressive statistics, both offensively and defensively.

Also Southern Methodist can point to a defense that has yielded only one second-half touchdown in five games.

The Aggies are leading the conference in passing with 41 completions of 76 attempts for an average of 539.

Arkansas is second to Texas in number of first downs, with 95 compared to Texas' 132. The 132 figure matched Texas' first down production of the entire 1960 season.

Texas' total offense, 2,632 yards, is 112 yards more than the Longhorns gained in 10 games a year ago. And their per-game average is well ahead of the conference record of 386.5 set by the 1952 Texas squad.

Texas leads the pack in scoring, racking up 206 points while allowing 46. A&M is second with 144, allowing 45.

Texas also has the questionable distinction of having been penalized more than any other team, for a total of 339 yards.

Plastic Helmets Being Watched

BIRMINGHAM, Ala. (AP)—Concerned by an increase in injuries on the playing field, college football's rules committee is exploring the possibility that the plastic helmet may be responsible.

This was revealed Saturday by Gen. Robert R. Neyland, chairman of the football rules committee of the National Collegiate Athletic Association.

"There was an increase in injuries last year, particularly around the head and neck," Neyland said. We felt it might be the result of modern equipment. We decided to take another year to form a judgment.

So far 21 football players have died in 1961, including four collegians, two semi-pros and 15 high school boys.

"There is a real question whether plastic head guards are not the cause of an increased number of accidents. The accidents seem to be to the wearer of the helmet, not to his opponent," Neyland explained.

Whatever Neyland's committee decides is biding on college football.

Jurgensen Guides Eagles To Top Of His Conference

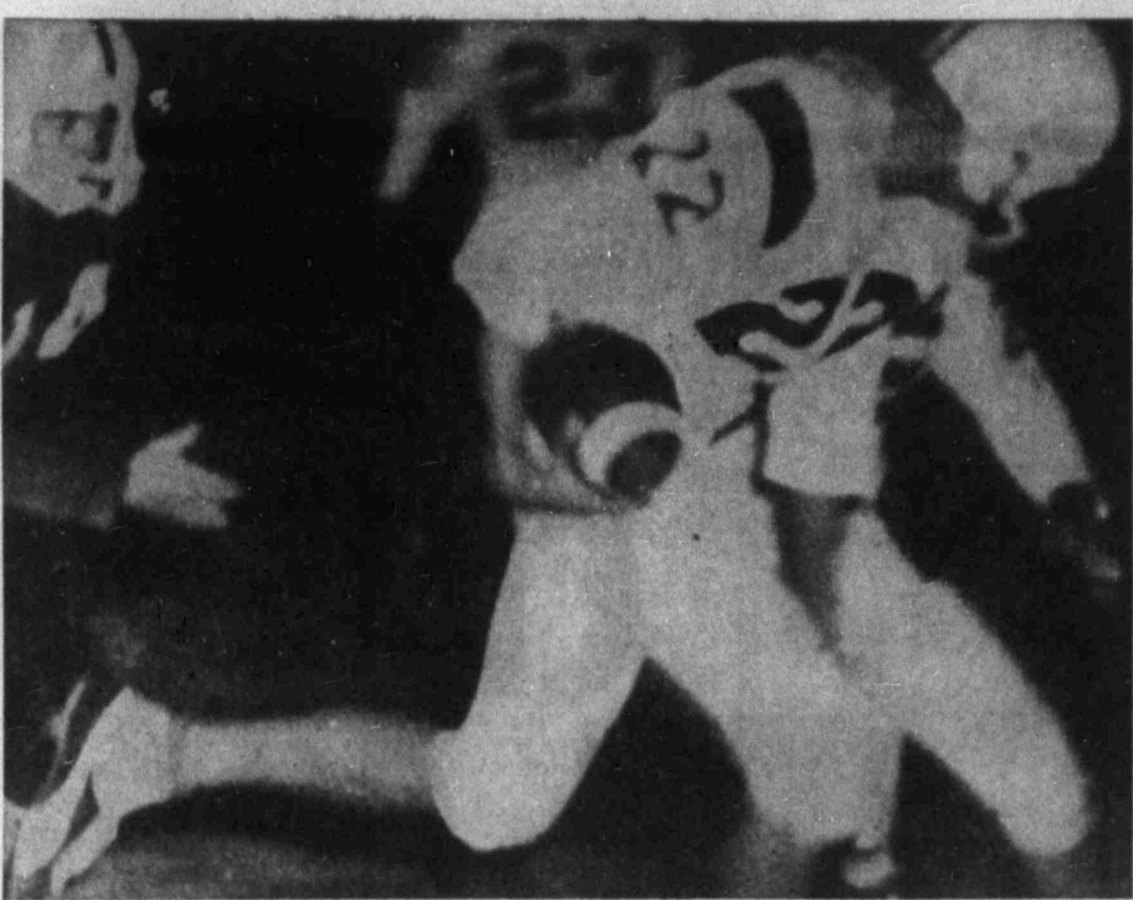

By MIKE RATHIET
Associated Press Sports Writer

Sonny Jurgensen, who collected splinters and experience while Norm Van Brocklin was directing the Philadelphia Eagles, has stepped in to guide the defending National Football League champions to the top of the Eastern Conference.

The 27-year-old former Duke standout passed the Eagles into sole possession of first place in the East Sunday with a three-touchdown performance—the last a 41-yard heave to Tommy McDonald with 16 seconds remaining to beat the upstart Washington Redskins 27-24.

The TD toss to McDonald was Jurgensen's 14th of the season—top mark in the league—and gave the defending titlists a 6-1 record and a one-game edge over New York and Cleveland at the halfway mark of the expanded 14-game schedule.

The Giants dropped out of a

Almost Got Away

Gary Pagan, who carried the offensive guns for Garden City against Forsan Friday evening, almost got away on this one. The rangy Pagan (22) appeared to have broken away with a couple of blockers coming up, but Harry King (14) came up fast to snag him from behind. Forsan won 26-6. Saturday Forsan has its homecoming with

festivities starting around 5:30 p.m. when exes will choose a queen from class nominees, enjoy a barbecue and take in the game at 7:30 p.m. Nominees for queen are Darla Dunagan, senior; Carla Hughes, junior; Betty Conger, sophomore; Jo Anne Garrett, freshman.

Football Powers Face Acid Tests Saturday

By JACK CLARY
Associated Press Sports Writer

Call it the moment of truth, or whatever, but Michigan State, the nation's No. 1 college football team, and bridesmaid Mississippi are each going to meet a team that will put them to the acid test this Saturday.

And so will Ohio State, Colorado and Notre Dame, three others in the select circle that shook from the chain reaction of upsets last Saturday.

Mississippi, whose unbeaten string has reached 21, meets its sternest competition of the year when Louisiana State plays host at Baton Rouge. The last game Ole Miss lost was to the Bayou Bengals, 7-3, in 1959. All-America Billy Cannon broke it up for LSU with a punt return for a touchdown in the second half.

LSU spoiled a perfect season for the Rebels last year with a 6-6 tie that Mississippi had to scramble to get on the field goal kicking of Allan Green.

Now the Rebels are 6-0 this season, 3-0 in the Southeastern Conference and coveting a national championship. LSU has lost only to Rice and is also 3-0 in the SEC. Both warmed up to this week's task over the weekend. Ole Miss clobbered Vanderbilt 47-0 and LSU killed Florida's SEC chances 23-0.

Michigan State, which hasn't allowed a point in Big Ten competition while running up a 3-0 mark, takes on powerful Minnesota, last year's national champ and co-Big Ten leader. The Gophers, who beat Michigan 23-20 for the Little Brown Jug last Saturday, have won four in a row after a 6-0 loss to Missouri. The Spartans, 3-0 victors over Indiana, are 6-0 over-all, and have beaten Michigan and Notre Dame in other severe tests.

This Big Ten game, matching teams with identical 3-0 marks, plus Ohio State's encounter with Iowa, will clear some of the haze atop the standings. Ohio State is also 3-0 after beating Wisconsin

30-21 while Iowa now is 2-1, after being upset 9-0 by Purdue.

Alabama, which leads the SEC with a 4-0 mark, and is 6-0 overall, is expected to hang on to its lead against Mississippi State. The Crimson Tide had some difficulty beating Houston 17-0.

Colorado can pretty well nail down the Big Eight title if it beats Missouri. The Buffaloes are 4-0 in the conference after beating winless Oklahoma 22-14 while Missouri, defending champ, is 3-0 after its 10-0 dumping of Nebraska.

Notre Dame, one of many which fell before the upset sythe, may be in trouble again this week against Navy, another upset victim. The Irish lost their second after three straight victories, 12-10 to Northwestern, while the Midgies, who had won four in a row after one loss, were surprised by Pitt 28-14.

Texas (6-0) is expected to get its fourth win in the Southwest Conference against Southern Methodist after easily disposing of title contender Rice 34-7. Georgia Tech continues to pursue the leaders in the SEC, beating Tulane 35-0, and now meets rebounding Florida.

Elsewhere, Princeton is all alone in the Ivy League following its 30-25 victory over Cornell and Dartmouth's upset by Harvard. The Tigers take on winless Brown this week. The Citadel can wrap up the Southern Conference crown against defending champion Virginia Military. VMI is 3-1 after beating William & Mary 14-7 while The Citadel, 4-1, edged non-conference foe Xavier of Ohio 7-6.

Atlantic Coast leader Duke (4-1) is outside against Michigan but moved a half game ahead of North Carolina (3-1) with a 17-6 victory over N.C. State. Utah State can tie Wyoming (4-0) for the Skyline Conference lead with a victory over Brigham Young after the Cowboys ended Utah's first-place hopes with a 13-6 win, UCLA, beating Stanford 20-0 for the first Big Five win takes on California (0-1) this week and co-leader Southern California meets its second conference foe, Washington (1-1).

Rutgers, the nation's other unbeaten (5-0) team plays Lafayette after beating Penn 20-6 while Pitt and Syracuse will try to unjamble Eastern picture when they meet. Syracuse smothered Holy Cross 34-6 while Army, another contender, was losing to West Virginia 7-3.

It will be divisional leaders meeting each other in the feature game next weekend as New York visits San Diego. Oakland will be at Buffalo and Houston at Denver in other Sunday games. Friday night Dallas goes to Boston.

Texas Cowboy Wins At SF

SAN FRANCISCO (AP)—Tex

Martin, a cowboy from Meridian, Tex., placed first in Brahma bull riding competition Sunday in maine action of the Grand National Livestock Show Rodeo at the Cow Palace.

Donnie Johnson, Cleburne, Tex., tied down third place in bull-dogging, with a 6.8 second time.

Steers Face Doubly Crucial Test Friday

The Big Spring Steers face a double test this Friday evening. The answer to one—a victory over Midland—could provide the answer to the other.

Can they bounce back after absorbing their first defeat of the season? Coach Emmett McKenzie thinks they can, but he cautions that the test of mental attitude may be sharper than it was in the Permian game last Friday.

The Steers came out of the bruising contest which they dropped to Permian 32-8 in reasonably good physical condition. Quarterback Jerry Tucker is still hobbling on a hurt knee—the same member injured earlier in the season. Eddie Everett, whose vastly improved pass catching has been one of the contributing factors to Steer successes, was loosening up Monday but still showed the effects of a clipping. Otherwise, except for bruises, the Steer squad is in reasonably good physical condition.

KING HURT

Midland's Bulldogs won their first ball game Friday, defeating Cooper of Abilene 16-14. However, it may have been a costly victory for Quarterback Mike King went out with a dislocated shoulder.

There is a possibility that he will be able to play here Friday, and if so, the Steers are in for a rough evening. He is rated as one of the best quarterbacks in the loop, a good runner and a sharp passer. With him out, Midland does little chunking as witness no completions out of only two tries Friday.

On the other hand Midland ground out 210 yards running.

The Bulldogs run basically from the T, but off this formation they run about every variation imaginable—flankers right and left, slots both right and left. Midland is a heavier club than Permian, which held the Steers but it does not have the balanced and versatile backfield that the Odessa club boasted.

MENTAL ATTITUDE

There won't be any special medicine brewed for the Midland team. The big job is to get the squad ready mentally for the tilt, said McKenzie. Consecutive vic-

tories carry with them a good psychology, but a defeat can take off the edge. McKenzie figures that the biggest test of the Steers is whether they can get that edge back.

"The boys tried and tried hard against Permian," he said, "I don't say we could have beaten them, but if I had done a better job, I think we could have tightened it better. There are some

adjustments I could have made but didn't at the time that could have made it closer. The boys have done everything we asked them to.

"When you're winning them all, it's easier to keep on winning. But when you get beat, then you find out what you're really made of."

In so many words, he said he thinks his Steers are made of the right kind of stuff to bounce back.

Only Three AAA Schools Unbeaten

By The Associated Press

Class AAA Schoolboy football, entering the stretch this week, features the hottest competition with only three teams remaining unbeaten and untied. They are Belton, Silsbee and San Benito.

San Benito is the undisputed leader in the District 16 title chase, but Silsbee collides with

Nederland this week in a District 10 contest that will determine the conference champion.

Belton takes on Cleburne this weekend to name the District 9 champion. They have 2-0 conference records.

Besides San Benito there are three other Class AAA teams with undisputed holds on their district first places. They are Seminole, District 2; Carthage, District 7 and Del Rio, District 14.

No Class AAA team has yet clinched a conference title, but four are on the line this weekend.

Lake View by beating Lamesa would take the District 3 crown; Gainesville by beating Paris, District 6; and El Campo and Bay City meet to decide the District 11 champion. They have 2-0 conference records.

Austin Johnston and San Antonio Lee, both 4-0, square off to determine who will win the District 13 race.

And if Port Lavaca beats Aransas Pass, it will go into the state playoffs.

Arizona State And NM State In Lead Of Border Loop

By The Associated Press

Arizona State and New Mexico State lead the Border Conference football race entering its final month and that's the way it could end.

They do not meet each other and can only finish in a tie for the championship if they win all three of their conference games.

New Mexico State faces the hardest row—the Aggies still must play West Texas State, a team Arizona State beat 28-11.

Arizona State won its second conference game last week, trouncing winless and long-time scoreless Hardin-Simmons 47-0. New Mexico State was bagging its first triumph, clouting Texas Western 42-6.

Hardin-Simmons now has a 19-game losing streak. It "risks" the string against Texas Western at Abilene Saturday in the week's only conference game. This appears to be Texas Western's lone chance of winning one.

BIG SPRING BUSINESS and INDUSTRY

7-A BIG SPRING, TEXAS, MONDAY, OCTOBER 30, 1961 7-A

Veteran Serviceman

Kitching Electric, 902 Gregg Street, is now owned and operated by Mr. and Mrs. Gene Haston. Haston is a veteran electric serviceman who was employed at Kitching Electric for four years before he purchased the business. He helped make

the company's reputation for dependable service and promises that his staff will continue to do so. When you need electrical installations of any type, call Mrs. Haston at the office for prompt, fair-priced service.

Firm Boasts Traditional First Class Merchandise

"Since 1901, it's been traditional at Big Spring Hardware to handle only first-class merchandise and give first-class service," said Leon Farris, of Big Spring Hardware.

"Our store is one of the few in town that can completely outfit a home with brand - name, nationally-advertised merchandise," continued Farris. "We can start with picture hangers; furnish each room in the house and end up in the garage where we can completely equip your home workshop or put new tires on your car."

Big Spring Hardware management believes in stressing the importance of purchasing from well-known manufacturers and

merchants who have established a reputation of honesty and integrity.

By doing this, customers are sure there is something to back up a "guarantee."

Brands you know are in each department of the store. For instance, "Delta" and "Skill" make the power tools featured in the hardware section. There, too, you'll find a quality line of hand tools by "True Temper," "Plumb" and "Disston."

With the hunting season here, now is the time to inspect the Remington, Winchester and Browning guns now in stock. There are hunting accessories, too; gun cases, hunting jackets and a complete line of camping equipment made by Coleman.

Fishermen will want to see the Shakespeare rods and reels and for the golfer there are clubs, carts and bags by Spalding and Rawlings.

all name-brand cooking utensils are featured plus a large gift selection of glassware, china and small appliances.

Everything purchased at Big Spring Hardware can be bought on convenient terms with up to 36 months to pay.

Continue Advance

ELISABETHVILLE, Katanga (AP)—Troops of the national Congolese army today were reported continuing to advance into Katanga Province, razing villages and murdering women and children on their way.

The Shape of Tires To Come Is Here TODAY!

No-Roach Easy To Brush On, And Stays Put

"Have family — will travel!" says the common cockroach as he rides into the cleanest kitchens on a box of groceries.

No homemaker is safe from rapidly multiplying roaches unless she clears them out and keeps them out the Johnston's No-Roach way.

No-Roach is a quick-drying, invisible and odorless coating easily applied with a brush at the source of trouble areas. Though you can't see it, it continues to work for months, killing pests on contact.

Some roaches have built up resistance to ordinary insecticides, but not to No-Roach, which contains malathion. Simply brush No-Roach on cupboard walls, baseboards, cracks, or wherever roaches may appear.

Ants will not cross No-Roach barriers. Brush it across windowsills, doorsills, or other points of entry. Rout ants by pouring a few drops into ant hills.

Johnston's No-Roach is a colorless quick-drying insecticide that stays where you apply it, therefore, it cannot contaminate food and dishes nor create harmful "fall out" vapors as sprays and powders may. No-Roach brushes on in a wink—no need to move dishes or food supplies—and remains effective for months. Those who are discouraged because of failure with other products are urged to make one simple, easy application of No-Roach. Actual use has proved it is safe, sure, and economical. It also is easily available at your favorite drug or supermarket.

NEW USE FOR NO-ROACH... will mix with floor waxes

Pray For China

MEXICO CITY (AP) — More than 300 Chinese prayed Sunday at Mexico's most venerated Roman Catholic shrine, Our Lady of Guadalupe, for the liberation of the Chinese mainland from the Reds.

A Devotional for Today

Of the Lord ye shall receive the reward of the inheritance: for ye serve the Lord Christ. (Colossians 3:24.)
PRAYER: O Lord, help us to serve Thee in the place where Thou hast put us. Guide us in our service and grant us the spirit of sacrifice. Show us the way to exalt Christ among the people with whom we live today. For His sake. Amen.

(From The 'Upper Room')

Proclaim Why It Is There

There are indications that there may be some sort of conference in the mill concerning Berlin. Some observers see such a straw in the wind in the current harangues of U.S. civilian officials at the East Berlin sector border because these incidents obviously stem from Russian rather than East German orders. Among the topics which might come under discussion are the destruction of the Communist wall; the status of all Berlin; the revision of agreements covering access to West Berlin or even new corridors to Berlin.

The U.S. has taken a firm position on the right to be in Berlin and is not apt to budge from that. The value of Berlin is, in part, comparative, and with the Soviets sealing off the east part, the chance for inter-relations and comparisons is diminished greatly.

However, there may be one effective way to bring the wall down other than by negotiation. This is the exploitation for its maximum propaganda value of the erection of the wall in the first place. The West might hammer, hammer, hammer to the point of monotony the fact that the wall is there because Russia does not dare — indeed cannot bear — a comparison between the two sectors.

In time, this figurative wall might become an ugly monument to Russia's tacit admission that in truth Russia cannot stand comparison.

We Hope It Can Be Done

Barring a shower that might settle the dust, we venture that fans attending Friday evening's football game at Memorial Stadium will be well aware of the absence of paving on the south side of the stadium.

Circumstances and lack of budgetary provision stood in the way of this improvement during the current year. However, the junior college is stretching a point by including it in the current budget. We hope the city's next budget will do as much.

We venture that fans hope so, and we know that home owners in that vicinity hope so.

David Lawrence Sandburg Unfamiliar With Military

WASHINGTON — Carl Sandburg, poet and biographer of Lincoln, probably will be sorry he ever brought it up, and many people will differ sharply with him when he says an Army man like General Eisenhower has lived a sheltered life in a "welfare state" of his own.

OFFICERS in the armed services will disagree vehemently. True, when they choose a military career, they are offered a certain security in their jobs but not the many benefits available in private employment today, particularly under union contracts. In training and commanding men from all walks of life, the officers actually come into contact more with individuals and deal with human relations than do most civilians. To prepare and lead men in battle may seem to a poet a sheltered existence, but he will get little agreement on this from the soldiers who happen now, for instance, to be standing guard at the West Berlin border.

MR. SANDBURG had just visited President Kennedy at the White House and was surrounded afterward by reporters and television cameras at the Library of Congress when he gave vent to the following comment, as quoted by the United Press International:

"He (Eisenhower) has yet to know the people of the United States. With him the words 'socialist' and 'socialism' are dirty words — very nearly as dirty as 'welfare state' — but ever since he left the creamery at Abilene, Kans., he never bought a suit of clothes or a meal. He never was out of work for a day. All the anxieties that go with the free-enterprise system, he hasn't known them. He's lived in a welfare state ever since he left Abilene and went to West Point."

MR. SANDBURG has a strange misconception — shared by many other people — that each of the armed services provides all the needs of its men and officers. The fact is that the commissioned officer himself buys all of his clothes — his uniforms as well as the civilian clothes he wears off duty. His "ration allowance" and "housing allowance" only partially cover the cost of meals and rental when the officer must provide a home for himself and family.

Mr. Sandburg might ask a few officers — from the lieutenants up to the generals and admirals — what the difficulties are in raising their families on service pay as they move from post to post, and how they manage to give a college education to their children. He will find that many cannot afford this for all their children. He might also ask the wives of some officers whether they live in a "welfare state" when it comes to providing for the education to their families, for the care of sick or dependent relatives, for the kind of clothes many other women wear.

ALSO, DOES MR. Sandburg think that only a man who has earned money to buy his own food and clothing is eligible for the presidency? It will surely be disputed that a man who hasn't had to earn money necessarily leads a sheltered life and doesn't know anything about the trials and tribulations of his fellow men.

We venture that fans hope so, and we know that home owners in that vicinity hope so.

James Marlow

WASHINGTON (AP) — A week ago former President Eisenhower, complaining about the Kennedy administration's spending, asked "What's going to happen to our country if we can't pay our debts in this time of prosperity?"

It's a good question, but an old

one. It's a question Eisenhower must have asked himself at times when he was in the White House, and President Truman before him.

It was prompted by the realization that the Kennedy administration—for the 1962 fiscal year

has to be particularly alert on Saturdays. That is the busiest day for shoplifters.

How much do you spend on home repairs? A survey showed average maintenance costs on new homes are \$93 annually the first four years. Then they climb steeply.

Nature note: The dove is a symbol of peace but actually it is far from being a gentle bird. A dove in love will peck a rival to death.

The letter "E" is the most widely used one in the alphabet. It is also said to be the most unfortunate letter, because it is always out of cash, forever in debt, and in torment all the time. On the other hand it is never in war, always in peace. It is the beginning of existence and the end of trouble, and without it there would be no hell or heaven. It is the center of honesty and it is always in love.

Wisecrack of the week: "A little flattery now and then makes hands out of single men."—Arnold Glasgow.

This is the best definition of golf I've ever heard: "A game in which a ball 1½ inches in diameter is placed on another ball 8,000 miles in diameter. The object of the game is to hit the small ball and not the big one."

Odd facts: Lemons contain more sugar than peaches. The sea lily isn't a plant but an animal. Gorillas get circles under their eyes if they don't sleep 15 hours a day. The peanut isn't a nut; it's a legume.

WHAT OTHERS SAY

Reader's Digest spreads the word that the ultimate has been reached in reducing diets. It's not a new food, but just an old substance in "food's clothing." It's cellulose, the stuff on which termites dine, in a form that can be mixed with real foods or processed to eat "just so."

Its value — or lack of value — lies in the fact that the human frame has no way of absorbing the stuff as a food. It's filling and therefore checks the appetite. But they say it has no nutritive value at all and therefore beats the dozens and dozens of 900-calorie diets to a fare you well.

There may be some kind to work out yet, but it stands to reason that if a fleshy person can take on a satisfying meal without really eating anything, somebody's going to make some money out of it.

That is, unless in the meantime people who are hipped on the subject of starving themselves wake up to the conclusion that a little food, with a few calories and some other ingredients, is necessary to a feeling of well-being and worth-whileness.

Teeing Off In Osage

PAWHUSKA, Okla. (AP) — The name of a new gold club recently opened on the Osage Indian reservation here is "Tab-Ha-Ga-Su." The name means "hits the ball with a club."

Temperate Burglar

TALLADEGA, Ala. (AP) — Sheriff Luke Brewer figures that maybe the cold cash got too hot for the burglar. He reported that \$800 of \$1,000 stolen from a refrigerator in a house was found in a nearby rural mail box.

WHO NEEDS GOBLINS?

James Marlow

WASHINGTON (AP) — A week ago former President Eisenhower, complaining about the Kennedy administration's spending, asked "What's going to happen to our country if we can't pay our debts in this time of prosperity?"

It's a good question, but an old

Hal Boyle

Record In Bad Checks

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail.

Here's positive proof this is a prosperous country: Americans now pass a billion dollars in bad checks yearly. No other nation in history could make this claim.

Do you get bored counting sheep while trying to go to sleep? Then try counting stars. Some 6,000 stars are bright enough to be seen to those with average vision.

Japan has more coffee houses than any other land—more than 50,000. Prices range from 13 to 80 cents a cup, depending on the quality of the entertainment.

Memo to John F. Kennedy: The bent metal rocking chair isn't new. It was invented here in 1830 by Peter Cooper. Of course everybody remembers Benjamin Franklin invented the platform rocker. As a child I was taught that the longest word in the English language was antidisestablishmentarianism—28 letters. But the new third edition of Webster's unabridged dictionary lists a 45-letter word. It is pneumococcalultra-microscopicilicovocalonultra-

This is the best definition of golf I've ever heard: "A game in which a ball 1½ inches in diameter is placed on another ball 8,000 miles in diameter. The object of the game is to hit the small ball and not the big one."

To Your Good Health

Early TB Difficult For Patient To Detect

By JOSEPH G. MOLNER, M.D.
"Dear Dr. Molner: I am a young man and was told by my doctor that I have a mild case of TB. I am being treated at home. What I can't understand is that I feel just great, and when people ask, 'How can I feel so good when I have this disease?'—B.E.G."

If I were organizing the way people are put together, I'd fix things so that the first touch of tuberculosis would make them feel sick.

Then they would hop along to the doctor right off. And before long we'd have tuberculosis under control.

But TB doesn't act that way. The infection starts, and there is no sign by which the patient can detect it. He doesn't notice a thing. He goes his happy way, innocently distributing the germs to others—especially to those he most loves.

By the time the patient himself notices it, the disease usually is pretty well advanced.

After all, there's no reason why the early stages should bother you or make you feel other than "just great." In the beginning, there's a little colony of TB germs that has established a beachhead in the lungs. They affect a very small area—but they spread, and spread.

In advanced stages, after the body's battle with the germs has sapped your energy, then the disease makes itself obvious. But not at first.

In fact, this very matter of feeling good becomes one of the great problems in running a TB hospital—and I know, because I have two such hospitals under my direction.

Patients announce that they feel good and want to leave the hospital too soon. It takes some arguing and explaining to persuade some of these patients that, although they feel perfectly healthy, the germs are still active, and must be put under complete control before they can safely leave.

The strongest argument usually turns out to be the warning that by leaving too soon, the patient is going to run the risk of giving the disease to others around him.

"Dear Dr. Molner: I would appreciate a high protein and carbohydrate chart for cirrhosis of the liver.—J. W."

There is no special diet for cirrhosis of the liver. Current practice is to give a normal, balanced one with mixed vitamin supplement. Average protein found is provided daily by one or two eggs, a serving of meat, fish or fowl, plus the protein from milk and dairy products. (There may be cases in which high protein is undesirable.)

Frequently salt is restricted if there is swelling.

Carbohydrate usually is average. If, for some particular reason your physician finds that a special diet is best for your case, you should get the list or chart from him.

"Dear Dr. Molner: What is rose-

Around The Rim

What Happens To All Those Cards?

If you play cards, you should breathe a word of thanks to Thomas de la Rue. Until De la Rue invented his process of printing cards typographically, thus allowing them to be printed on a mass scale, only the wealthy could afford to own them.

NOW ANYONE can lose money with them.

Until De la Rue came along, cards were engraved or stenciled, then colored by hand. Ten years before his invention, perhaps 250,000 packs of cards had been produced. Today, world production totals more than 150,000,000 packs a year.

Most scholars place the origin of cards in the China of 1120, where supposedly they were devised as amusement for the girl friends of the emperors. One story has it, however, that they were designed in seventh century India, where they reportedly were invented by a maharaja's wife to keep her husband from pulling his beard.

IF YOU WANT to fault the Chinese, you'll probably remember, too, that they invented gunpowder.

What ever their origin, playing cards really came onto their own in Europe. They were known to have been used in Italy as early as 1299 and may have been taken into England by returning Crusaders in 1278.

LEGISLATIVE bodies in England have always seen the consequence and the reward in taxing playing cards. From 1615 until less than a century ago, the government always taxed only one card in the deck — the ace of spades.

The English parliament reserved for itself the right to manufacture that one card.

It's not by mere chance that the ace of spades has become a symbol of death with some people. To make absolutely sure that the tax on the card was paid, forgery of the ace of spades was made punishable by death. That law remained in effect until 1862.

Cards suits haven't always been clubs, hearts, diamonds and spades.

During the Civil War in our own country, packs of cards were printed with suits containing the American flag, a shield, a star and an eagle.

That must have proved popular everywhere but in Charleston and Richmond. At any rate, the fad didn't last. Card players were soon back blowing next month's rent money with the old-fashion cards, secure in the knowledge that history, if nothing else, was going for them.

The mortality rate of card decks, where 52 cards must be kept intact to be of service, must be awfully high. Come to think of it, I've never seen a playing card necropolis, though. I know some of the losers have been known to toss them up and eat them after a game but what happens to 7,000,000 playing cards a year that have outlived their usefulness?

—TOMMY HART

Inez Robb

Pittsburgh A Model Of City Cleanup

PITTSBURGH. — Any American community, wrestling with the problem of urban renewal, could do nothing more intelligent than send a committee to study Pittsburgh.

Anyone who saw Pittsburgh before World War II was entitled to his opinion that this was the ugliest ducking of American municipalities. But somewhere along the way since then, the ugly duckling has become an astounding swan.

WHEN THE late Frank Lloyd Wright, asked by a posse of Pittsburghers what to do with and for their grimy, dilapidated city, snapped, "Tear it down!" the posse took him literally.

In the past 15 years Pittsburgh has been tearing down and rebuilding at such a rate that a new city, destined to be among the nation's showplaces, is rising at the mighty confluence of the Allegheny and Monongahela rivers.

TO DRIVE through the Fort Pitt tunnel, on the way in from the great municipal airport, and suddenly be confronted by this new city of glass, steel and aluminum (all Pittsburgh specialties), is a really breath-taking experience.

To drive across the river at night and up Mount Washington, to look across the dark, polished waters of the confluence that forms the Ohio River and then glance down upon the sparkling city, its lights spread out like jewels on a black velvet curtain, is a dazzling experience almost comparable to the view from the Empire State or the Top of the Mark on a clear night.

IF WRIGHT spurred the city fathers to action, legend has it that a woman, Mrs. Richard K. Mellon, built a fire un-

der the boys. It is said that Mrs. Mellon, whose husband rose to be a Lieutenant - General during World War II, told her husband after the war that she didn't want to come back to live in un-reconstructed Pittsburgh.

The Mellon family is as solidly associated with Pittsburgh as the Rockefellers with New York. In fact, I notice a tendency on the part of the true Pittsburgher to genuflect when the name "Mellon" is mentioned.

To General Mellon it was easier to clean up Pittsburgh than to move away. He called a meeting of his peers. Out of this conference grew the decision to rebuild the city and to control a nuisance so great that Pittsburgh was a national byword for a filthy city with polluted air.

THE RENAISSANCE and reformation of Pittsburgh began with a firm decision to control the smoke that poured out of its blast furnaces, factories and homes.

Today Pittsburghers boast that this is the cleanest industrial city in the world. Industry alone spent more than \$50,000,000 on control measures. Private citizens probably spent half that much to convert their homes to the use of smokeless fuel.

FEW ASPECTS of his new city impress a Pittsburgher more than the fact he can wear a white shirt to his office all day long and still go on to a cocktail party in the same shirt.

He is proud that his city, by its own efforts, is a model of urban renewal and is rapidly becoming one of the nation's handsomest metropolises. But what really pleases him most is that tattle-tale gray has finally been abolished.

The Challenge That Can't Be Ignored

WASHINGTON — "Well, we've got to get used to the fact that the United States is a second - class power. Why can't we accept it? England has!"

THESE WORDS, precisely as this reporter heard them in a discussion of the Soviet super bomb, bespeak a familiar fatalism of our day. The fatalism is given a shameful credibility by our reaction to the megatonnage of the Russian weapons. This idea of accepting American inferiority is going to haunt the Kennedy Administration for the rest of its days.

Either the President must acknowledge the inferiority and agree to "live with Communism," as so many intellectuals have advised — or else the President must put the full force of his mind and personality to the paramount task of proving that it isn't so.

IN ORDER to restore or reassert American primacy, the President must unavoidably address himself to the Soviet nuclear explosion. This is not to say that he now has an excuse to do nothing about Germany, Cuba, the budget, the crime syndicates, the relief racks and all the rest. But the Soviet fistfulness is the one thing he cannot any longer ignore, pass on to the United Nations, wring his hands over, or refer to a committee for study. There is reason for believing that these Arctic shots are a new form of artillery aimed at the U.S.A., as well as at Japan and West Europe, our major allies. We are told that the fallout to date is nothing to be alarmed about. But Khrushchev is the one who decides how long the salvo of shots will continue, when it will resume if he should discontinue for a spell, what megatonnage the explosions will measure and how "dirty" the fallout will be.

THE "DIRTINESS" of the fallout was controllable as long ago as 1958, the year that President Eisenhower began the three - year voluntary test ban by our side which lasted into the Kennedy Administration. The American public has not been told what amount of "dirtiness" is scientifically possible by today, the end of 1961. But I have here three definitions which were given out by authoritative sources in 1958.

(1) A normal weapon: This is a bomb to achieve, at an economical weight and size, the desired amount of blast and thermal effect.

(2) A CLEAN WEAPON: A bomb so designed as to minimize or greatly reduce the radioactivity of the debris. This means that the clean bomb is designed by its makers to hold down the ratio of fission (atomic) yield to fusion

(3) A salted weapon: This is a bomb which is so designed that a significant portion of the radioactivity ("dirtiness") of the debris has been achieved by the deliberate introduction of selected isotopes. In short, this bomb has been "salted" with materials which are not needed to achieve an explosion. The "salt" has been introduced to cause radioactive debris with fearful biochemical effects.

THESE, TO REPEAT, are 1958 definitions. Considering the rapid development of science, we must assume that by 1961 the Soviet weapons makers have refined their knowledge and sharpened their skills. It is impossible to suppose that when "dirty" bombs are made, Khrushchev will make them. Nor is it beyond scientific supposition that Russian scientists can time their shots and can connect fallout which will principally drop upon the Western Hemisphere.

These are some of the reasons why we are going to hear more of a new idea — "acceptance," meaning acceptance of our lot as a nation which no longer rules its destiny. We shall soon be learning by the President's actions (not by his words) how he's going to treat this idea.

TO REJECT IT, he will have to rise above all past performances and give us deeds of surpassing audacity and imagination, not excluding a direct attack upon the Arctic region where the tests are taking place.

But if the President submits to the idea that, after all, great nations rise and wane, and that America has had her day, then he will not have to tell us so, or show us so. We will know.

Perfect Disguise

WILMINGTON, N. C. (AP) — Gov. Terry Sanford arrived for the permanent berthing of the battleship USS North Carolina as a war memorial here wearing a Navy foul weather jacket and white sailor's hat.

"Get the blazes out of the way, the governor's coming aboard this ship," an officer ordered, before he realized to whom he was speaking.

DEAR ABBY

Charity Should Begin At Home

DEAR ABBY: What do you do with a husband who can't say no to anybody but his wife? My husband is in the electronics field, and all our neighbors and relatives think that he is a TV and radio repair man. They bring their broken TV sets and radios to our house for him to fix. He doesn't have the necessary parts on hand so he drives miles to get them. He doesn't charge anything except for what he paid out for parts. In the meantime, my own sewing machine has needed repairs since last spring. And the same goes for our son's bicycle. This free service takes all my husband's spare time, and it is getting on my nerves. How can I get it through his thick skull that he is a sucker?

SUCKER'S WIFE
DEAR WIFE: Your husband apparently ENJOYS running a free repair service and, as long as he enjoys it, you'll never convince him that he's a sucker. Doing for others is grand, but charity should begin at home.

DEAR ABBY: The other night I baby-sat for a divorced lady of about 23. She has two children, 5 and 2. I cooked the children's supper, bathed them and put them to bed. The lady told me she would be home about midnight. Well, at 5:30 the next morning she drove up in her driveway. She came in looking a mess, and reeking of beer and whiskey. When I got home my folks were worried sick over me. I am 15, and don't think I should be expected to stay alone practically all night. When she calls me to sit for her again, what excuse can I give her?

THE SITTER WHO SAT
DEAR SITTER: Tell the "lady" your parents will not permit you to sit for women who do not return home when they promise to.

DEAR ABBY: A question has come up in our lodge. Is it proper to celebrate a wedding anniversary after your husband is deceased? Some friends of mine have no husbands, but they go right on celebrating their anniversaries and receiving gifts. I always thought this was not right. NEEDS TO KNOW
DEAR NEEDS: You have always thought right!

CONFIDENTIAL TO "LOW ON

Oil Operators Told Outlook Same For 1962

HOUSTON (AP) — Independent oil operators were told today not to expect lagging crude oil production to improve in 1962.

Next year's output was forecast at 7,185,000 barrels a day, the same as estimated for 1961.

The rather gloomy supply and demand forecast was placed before the opening session of the 32nd membership meeting of the Independent Petroleum Association of America (IPAA).

The committee report indicated the only hope for improvement in crude production would be a reduction in oil imports.

The new estimate was pegged on the assumption imports will remain at current levels. The 11,000-member IPAA, however, has asked federal officials to cut imports by 200,000 barrels a day.

The Interior Department has had the mandatory imports control program under study since May. Decisions on 1962 quotas are expected to be announced shortly.

About 1,000 independents from nearly 40 states attended today's session and heard Alvin C. Hope, IPAA president from San Antonio, say there is justification for further reduction of imports.

Hope credited the mandatory program, however, with stabilizing imports.

"While we work for improvement, it is worth bearing in mind that without the present program total imports today inescapably would have been at least 500,000 barrels daily higher," he said.

Both Hope and L. F. McCollum of Houston, president of the Continental Oil Co., said the domestic industry is suffering from a glut of excesses ranging from too much production of an excess of pessimism.

Hope said most of the economic disturbances afflicting the industry cannot be blamed entirely on either government action or inaction.

Excessive refinery products, he said, have knocked crude prices into a crazy quilt cocked hat.

The supply and demand committee estimated total petroleum demand next year will increase 261,000 barrels a day above 1961. This would be a 2.6 per cent gain.

The required new supply is expected to come from inventories already on hand and from an anticipated 3.1 per cent increase in production of natural gas liquids.

The committee said inventories probably will have to be reduced next year by an average of 70,000 barrels a day because of excessive additions this year. Inventories increased about 84,000 barrels a day in 1961.

Visits Mexico

MEXICO CITY (AP) — The brother of a late president of the Philippines, Genaro Magsaysay, arrived Sunday to study low-cost housing projects.

Medic Opposes Drinking Milk

LOUISVILLE, Ky. (AP) — No one over a year old should drink milk, says the chairman of the Public Policy Commission of the American Academy of General Practice.

Dr. Walter W. Sackett Jr. of Miami, Fla., who admitted his is a controversial position, said he is a bitter foe of free milk distribution in public schools.

"I send notes to school for my own kids and ask that they be given tea or coffee instead of milk," he told the Louisville Courier-Journal in an interview Sunday.

"Why buy national suicide?" he asked.

Because they are high in cholesterol, milk and other dairy products should be eliminated from the American diet, he said.

Cholesterol is the saturated fat which sometimes piles up in coronary arteries and brings on heart attacks.

JFK Hikes Budget Estimate, Expects \$6.9 Billion In Red

WASHINGTON (AP) — President Kennedy has increased his budget estimate for this fiscal year to \$89 billion and expects \$6.9 billion in red ink spending. The new estimates raise the virtual certainty that his next budget will cross the \$90-billion mark.

Nevertheless, Kennedy's autumn budget review again assured taxpayers that the fiscal 1963 budget, to be sent to Congress in January, will be balanced — "barring extraordinary and unforeseen defense requirements." Fiscal 1962 is the current government year, which ends next June 30.

The third and latest Kennedy revision of the 1962 budget, originally drafted last January by outgoing President Dwight D. Eisenhower, was issued Sunday. Eisenhower had forecast a shaky \$1.5-billion surplus. The new report

restated the Kennedy administration's contention that Eisenhower was over-optimistic and should have predicted a \$700-million deficit.

The review was packed with explanations and arguments defending the turn of fiscal events against Republican charges of extravagant and inflationary non-essential spending.

While tax collections are being held down by the recent business recession to an estimated \$82.1 billion, the review said, the military build-up for Berlin, the speed-up of space exploration projects and other cost increases have pushed expenditures to their highest peacetime level.

It was plainly suggested that the 1963 budget, now being prepared, will go even higher. Outlays for space activities, major military programs, housing and

urban renewal and some other domestic programs are scheduled to rise.

At a news conference, Budget Director David E. Bell would not discuss the pending 1963 budget in specific terms or answer directly questions whether spending will exceed \$90 billion.

Bell conceded, however, that "it certainly is" a fair assumption that spending will rise.

Jet Airliners

MEXICO CITY (AP) — Jet planes started flying today between American Airlines operated route between Mexico City, San Antonio, Dallas and Tulsa. They replace the DC7s which were used during the last few years.

Another Trujillo Waits Off Haiti

CAP HAITIEN, Haiti (AP) — A Dominican frigate bearing Maj. Gen. Jose Arismendi Trujillo rode at anchor Sunday outside this port across the border from the Dominican Republic.

The general, a brother of the

Dominican Republic's assassinated dictator, Generalissimo Rafael L. Trujillo, left Ciudad Trujillo last week. His brother, Gen. Hector Trujillo, flew to Bermuda with members of his family.

The departures were part of a continuing exodus by members of the Trujillo dynasty bowing to opposition political demands that they leave the country.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dynase)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation 129. At all drug centers.

The Pipe Gets A Check

Staff Sergeant Calvin H. Pope conducts a pre-flight inspection of the afterburner of an F-102 Delta Dagger fighter jet. The aircraft is on the ground, and the man is standing next to the engine area.

Labrador Team Has A Perfect Mark In 'William Tell' Meet

Incredible marksmanship demonstrated by F-102 Delta Dagger pilots from Labrador gave their team the only perfect missile firing score in the 1961 William Tell competition. On three of the missions, their pilots destroyed tiny jet targets with dead-center hits. Team captain of the 59th FIS, Frank R. Jones of Shreveport, La., became top William Tell sharpshooter with three perfect missions and two dead darts on his scorecard.

The team from the 59th FIS from Goose Air Base made four perfect 1,000 point missions, a record for the William Tell competition. On three of the missions, their pilots destroyed tiny jet targets with dead-center hits. Team captain of the 59th FIS, Frank R. Jones of Shreveport, La., became top William Tell sharpshooter with three perfect missions and two dead darts on his scorecard.

The 331st FIS from Webb AFB, raised a favorite before the meet, encountered a disarming run of tough luck, and finished in fifth place. The scoring in the F-102 category: 59th FIS, Goose AFB, Labrador, 4,000; 182nd ANG, Kelly AFB, San Antonio, 3,100; 317th FIS, Elmendorf AFB, Anchorage, Alaska, 2,750; 355th FIS, Perrin AFB, Sherman, 2,650; 331st FIS, Webb AFB, 2,300. The 450th FIS from Castle AFB, Merced, Calif., captured first place in the category for F-106 Delta Darts.

In the F-101 category, the 445th FIS from Wurtsmith AFB, Ocala, Mich., and the 33rd FIS, from Hamilton AFB, Novato, Calif., were tied. Each had one more mission to fly.

Along with the missile firing competition at Tyndall, there has been another test — the "Bear Cat" air defense loading competition.

This year's William Tell weapon loading event is the first to be held in the air defense weapon meets. It was held to demonstrate the Air Force armament technicians' ability to load and handle air-to-air weapons under competitive conditions, which simulates time and safety standards required in combat operations.

In this field, the 331st team tied for second place. The Goose Air Base team was winner in this event, and the 331st crew was excluded from East Berlin. If the East Germans should close the border entirely to Western officials, the United States, Britain and France have a plan to open it by force if necessary.

The United States does not intend to give up its right to fly over the Communist-controlled sector.

On the identification issue, the administration decided Friday night after U.S. and Soviet tanks confronted each other for many tense hours in the heart of Berlin that an effort to ease the military confrontation and seek a solution through diplomatic channels was urgently needed. That gained a breathing spell which began with the pulling back of tanks on both sides early Saturday.

Thompson took up the highly inflammable dispute with Gromyko in Friday's session. Gromyko flatly refused to interfere or to have Soviet police take over from the United States.

In spite of this rebuff the United States decided that the quarrel had gone far enough and decided that the settlement would be sought through diplomatic channels. This should disclose whether the Soviets have any desire at all to reduce tensions in Berlin or are simply trying to humiliate the United States and its allies. If that should prove to be the case the situation may get rapidly worse again.

Washington would like Moscow once again to have a Soviet official exert direct authority at the border. But Gromyko is understood to have turned that down cold.

If a deal is made, it obviously would involve modification of U.S. policy on Berlin. Washington does not recognize the Communist East Berlin government and has

blocked past efforts aimed at direct dealings of any kind with the regime.

On the other hand, officials said today, the United States and its allies have no intention of being excluded from East Berlin. If the East Germans should close the border entirely to Western officials, the United States, Britain and France have a plan to open it by force if necessary.

Eradication Plan Gets Area Boost

Glasscock County ranchers decided last week to take a part in the screwworm eradication program getting under way across the state.

A committee was named to promote the program and includes John Cox, Jerry Currie, Hamilton Elrod, Connie Mae Hood, and Oliver Werst.

The committee is to help raise money for the program which has an overall goal of three million dollars. Texas livestock men will be asked to give 50 cents per head for cattle and 10 cents per head for sheep.

Backers of the project report screwworms have been eliminated in Florida and east of the Mississippi River by exposing male screwworm flies to gamma rays, making them sterile. These males are turned loose to mate with females and as the female screwworm fly mates only once, the screwworm is soon eliminated.

A buffer zone will probably be set up along the Rio Grande River, where the treated males will be released.

The Southwest Animal Health Commission was organized by major livestock and farm groups of the state and will be directing the program.

Post Plans Initiation

Initiation of members of the American Legion will be conducted Thursday night at the Legion Home, San Antonio highway. Conducting the ceremony will be members of the Brownfield Post and a barbecue supper is to begin at 7 o'clock.

The Big Spring Post is reactivating initiation after several years lapse and Commander J. G. Littlejohn is urging all members who have not participated in the ceremony, whether recently affiliated or not, to be present.

Many of the more active members of the Post have not witnessed the Legion's Initiation Ceremony, he said, in urging attendance. The Post from Brownfield is the largest in the 19th District and has a top team to hold the title.

Arrangements for the Thursday night meeting are under the direction of Byron Hill, 19th District vice commander, and Joe Benfield, Jack Pearson and Henry Stewart. Members and out of town guests will be served the barbecue meal prior to the initiation. Members from other nearby Posts who wish to participate, are also invited, Littlejohn stated.

The Post will suspend the regular business session Thursday evening in favor of the special program.

Rev. Maguire To Be Installed

The Rev. Max R. Maguire, new chaplain at the Big Spring State Hospital, will be installed by the Presbytery of the Big Bend at a ceremony today at 7:30 p.m., according to Dr. Preston E. Harrison, superintendent.

The installation will be held in the dayroom of Ward 10A with a reception to follow. The public is invited to attend, Dr. Harrison said.

Chaplain Maguire completed his supervisory training in chaplaincy just prior to assuming duties at the hospital Sept. 15.

Explorer Post Marks First Anniversary

Members of Explorer Post No. 1 celebrated the first anniversary of the Post's organization Saturday with a hayride, wienie roast, Halloween party and honors ceremony.

The Post was organized Oct. 31, 1960. Since then, 52 boys have registered with the post and 36 active members are expected to be registered in 1962, maximum allowed according to the constitution of the Post.

The membership includes boys who graduated from Scout troops, transfers from other Explorer Posts, and many boys with no previous Scout experience.

Activities of the first year included a ski trip to Santa Fe, N.M., a survival experience in Big Bend National Park, a science outing in the Davis Mountains, and a trip to San Antonio to study Texas history and a briefing on Aerospace medicine.

In addition, the Post has followed the national Explorer program of social activities, community services, professional training and personal fitness.

Saturday, one-year service pins were presented to David Landrum, Woody Martenson, Dub McMeans, Douglas Brandon, David Stages, Don White, Benny Kirkland, Pat Nelson, Gary Kirkland, Donnie Hall, Jimmy Burleson, Robert Goodlett, David Burleson, Roger Gammons, Joe Hollingshead and George Bass.

Nancy Thomas, 1961 Post "little sister," was presented a certificate of appreciation and Terry Cauble was named 1962 "little sister."

Seek Information On Land Swindle

W. G. Bradley, sheriff of Lincoln County (Carizozo), N. M., has asked for information from any persons who may have paid for lots, or made a down payment for same, in a project called "Ruidoso Acres" at Ruidoso, New Mexico.

The sheriff said that a suspect in a swindle has been arrested, and information concerning the so-called land promotion is being sought.

Advertisements for "Ruidoso Acres" were offered to a number of Texas newspapers, Sheriff Bradley said. The ads did not appear in The Herald.

Mrs. Guley Is Queen Of Loraine Exes

A Big Spring resident, Mrs. Jack Guley, Saturday was named queen at a homecoming of Loraine High School.

She was crowned during special activities at a football game Saturday night. Mrs. Guley is a 1942 graduate of Loraine High.

Special Homecoming events included an address Saturday by Congressman George Mahon, himself a 1918 graduate of LHS.

Judge Elmer Martin of Colorado City was elected president of the Ex-Students organization for the coming year, with Mrs. Virgil Walker being named as secretary. Martin succeeds Royce Mahon of Loraine.

Classes from 1910 to the present, with only 1927, 1932, 1933 and 1934 excepted, were represented at the festivities.

Patients Get Dance Lessons

Three dance instructors from the Arthur Murray Dance Studio in Odessa visited the Big Spring State Hospital Saturday afternoon to teach dancing to patients. Patients desiring to participate in that form of recreational therapy met at 2 p.m. on Ward 10A for an hour of dancing. Mrs. Betty Moosher, co-manager, and two other instructors were present.

Angry Storm Expected To Hit Mexico

MIAMI, Fla. (AP)—Dangerous Hurricane Hattie veered westward today, and was expected to strike Mexico by tonight.

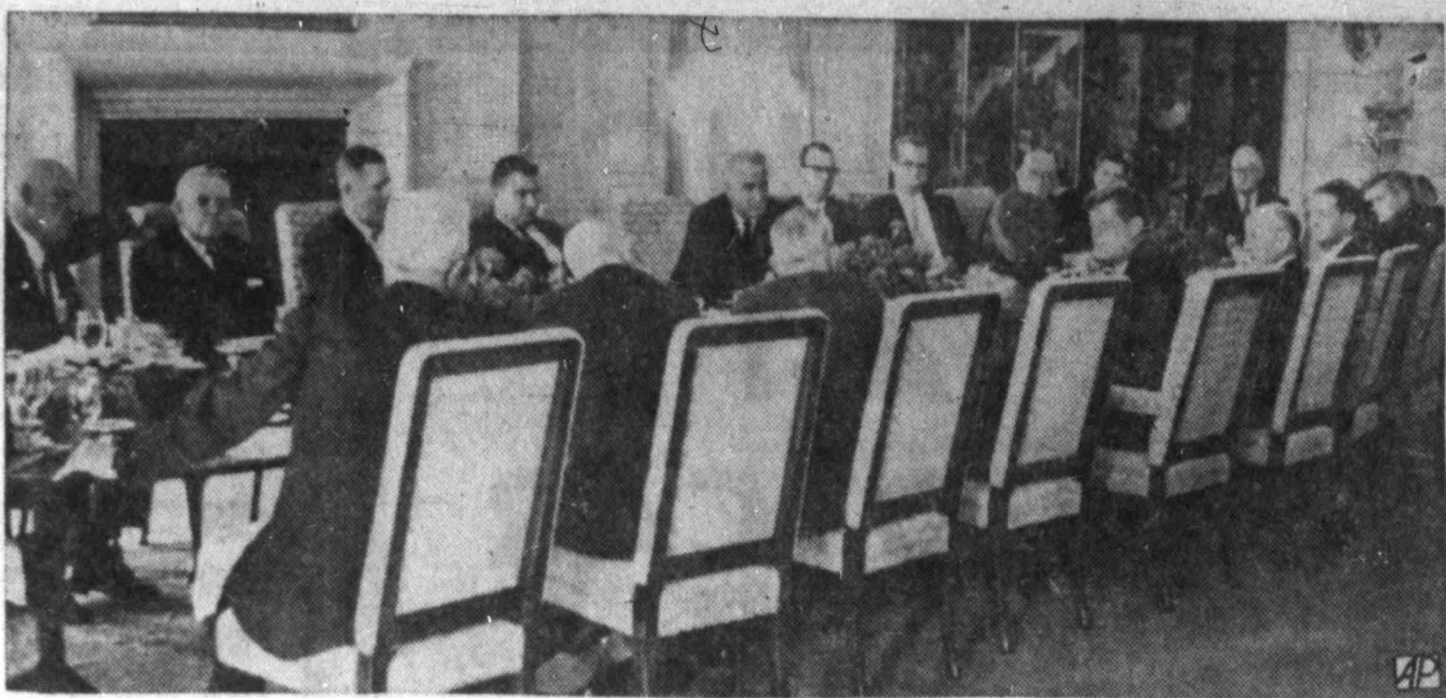

Hattie was lashing the northwestern Caribbean with winds of 140 miles per hour. The hurricane grew in intensity Sunday night.

The Weather Bureau reported its center at 5 a.m. at 250 miles east of Chetumal, Mexico, and the same distance south of Cuba's western tip.

"Indications are for continued westward movement, with the hurricane moving inland in the Chetumal area late today and early tonight," the advisory said.

High winds and tides will occur along much of Mexico's Yucatan Peninsula coast, the bureau added. Tides of 15 feet were expected where Hattie's center hits the coast.

Hattie's course had been northwesterly until she ran headlong into a strengthening pressure front during the night. High winds during the night were 125 m.p.h.

Defense Dept. Turns Eye To Shelters For Military

WASHINGTON (AP)—The Defense Department, now custodian of the civil defense fallout shelter program, has decided the military should do something about providing protection for its own people.

Since the department received the responsibility for the shelter program last summer, it has been busy telling civilians how to build their own shelters—and has done virtually nothing about increasing the handful of shelters the military had built.

In a new memorandum which came to light today, Deputy Secretary of Defense Roswell L. Gilpatric told the service secretaries and his own manpower and installations officials that: "Study should be initiated promptly to determine actions which are available to serve the dual purpose of protecting personnel and offering tangible evidence that the military establishment takes civil defense seriously."

Federal leadership will be enhanced, Gilpatric said, by "concrete and visible steps by the military establishment to provide protection for civilian employees, dependents and military personnel located in the United States."

A Defense Department directive issued in July 1960 says that reference to government-owned or government-sponsored housing that "fallout protection should be provided military and civilian personnel and their dependents in

both new and existing construction."

Elsewhere, the 1960 statement of policy declares that "the nation is not defended in fact by all readily available means of defense if civil defense measures are inadequate or neglected" and

that "the vulnerability of our civil defense structure impairs the capabilities of existing military forces to serve their intended purposes."

However, the military's program hasn't gone much beyond the issuing of the policy statement

more than a year ago and the new, prodding memorandum by Gilpatric.

A few posts, camps and stations have begun an attempt to provide shelter space for military and civilian personnel, and courses on radiation safety procedure are being taught. There is no money in the current fiscal 1962 budget for such shelters.

Gilpatric himself has built two fallout shelters, one at his home here, another at a summer home.

Secretary of Defense Robert S. McNamara hasn't built a shelter because, as he explains, he lives in a rented home here on which the lease expires next January.

Adam Yarmolinsky, McNamara's special assistant in charge of civil defense, is building a shelter.

The few really big radiation-tight fallout shelters the military now has are designed for personnel who would have direct part in the command machinery or the launching of weapons.

Headquarters of the Strategic Air Command near Omaha, Neb., is underground, protected against bomb blast as well as fallout.

The "alternate Pentagon," located in a cavern under a mountain near the Maryland-Pennsylvania border, is a stout, fallout-protected place. The Pentagon itself, with a daily population of about 27,000, has a command post located in a sub-basement, but not constructed with any particular guarantee against radioactive contamination. There is another alternate headquarters near fallout shelter features.

The underground sites at which intercontinental ballistic missiles are located have fallout protection features.

A few operational command headquarters for the services in the field have shelters.

But in each case, these shelters are for the specific purpose of protecting a few individuals who must make decisions, transmit commands or fire weapons.

War Games

MAALAE BAY, Maui, Hawaii (AP)—Seven thousand U.S. Marines swarmed ashore today in Operation Silver Sword, the first amphibious war game in Hawaii since World War II.

The camera crews obviously were restricted, and the program had another problem finding people willing to talk who could talk English. But they got enough to make the point—Hungary today is a prison.

LEADER

★★★★★ Walter W. Stroup, CLU, of Big Spring receives a Southwestern Life salute for winning two of the highest honors in life insurance—the National Quality Award and membership in the Texas Leaders' Round Table. The National Quality Award is granted by the National Association of Life Underwriters and the Life Insurance Agency Management Association to agents whose service to the public has been deemed superior. Membership in the Leaders' Round Table of Texas, honor group of the Texas Association of Life Underwriters, is limited to those who meet high standards in volume and permanence of business produced. Outstanding men like Walter W. Stroup add better service to Southwestern Life's better plans for a better life.

5,000 Babies, 50 Years Ago, Began Practice

DANVILLE, Ky. (AP)—It was 50 years and 5,000 babies ago today that Dr. H. L. Gragg started practicing medicine in Boyle County.

That is a part of his reason for celebration today. It also is his 77th birthday.

Until four years ago, Dr. Gragg lived next door to his office. That meant he got calls 24 hours a day. Then he moved to a farm at the edge of town.

"We moved away to get away from so much night work," his wife explains. "But it is just about as bad as ever."

"When he leaves (for his office) after supper, he says, 'See you about midnight' and I always say, 'Not me, you won't. I'll be asleep!'"

The farm is a small one with just a few cows, a little tobacco and a little corn. Dr. Gragg explains. Its main attraction is that there is no telephone there.

In his half century of work, he has traveled to his patients in his car, in a buggy, on horse or mule back and on foot.

"Even a buggy sometimes couldn't make it over the rough country," Dr. Gragg said, "so I pretty much relied on a horse or even a mule."

There have been a lot of difficulties, but a frozen car may have been the worst of all, he recalls.

It was midnight one February 27 years ago and the temperature was below zero. Since there was no bridge over a creek, he tried to ford it in his auto. The car froze and wouldn't move.

A neighbor loaned his mule. With both the car and Dr. Gragg thawing out, Tommy Walker, the first of 11 Walker children delivered by Dr. Gragg, entered the world.

The doctor doesn't deliver many babies anymore. He says he has delivered "more than 5,000—don't know exactly how many."

Cabinet Members Heading For Japan

WASHINGTON (AP)—Secretary of State Dean Rusk took off for Japan with a high-ranking delegation including nearly half the U.S. Cabinet.

The group will attend an economic meeting which Rusk said will lay the groundwork for settlement of trade problems between the two countries. Flying in a jet with Rusk were Secretary of Commerce Luther H. Hodges, Secretary of Labor Arthur Goldberg, Undersecretary of the Treasury Henry H. Fowler and Walter W. Heller, chairman of the President's Council of Economic Advisors.

Navy Plans Largest 'Garbage Route'

HONOLULU (AP)—The Navy will conduct history's longest "garbage collection" to assure strict American adherence to a new international treaty involving ice-capped Antarctica, it was reported today.

Radioactive wastes from two nuclear power reactors to be built in the world's coldest continent will be picked up, perhaps twice a year, by ships from the United States. These nuclear wastes will be hauled to the United States for burial in special underground nuclear cemeteries—or disposed of in shielded containers at sea.

Roundtrips for collecting this "garbage" of the atomic age will be about 24,000 miles, said Capt. Edward Conrad of the office of the chief of naval operations, who stopped here en route to the antarctic.

Source of the garbage will be a reactor near the coast of the continent and another deep inland, designed to furnish light, heat and power for two key American installations.

The need to haul away the wastes arises from a treaty under which 12 nations, including the United States and the Soviet Union, pledged to preserve Antarctica for peaceful scientific purposes only.

Nuclear weapons tests are banned. The conducting of nuclear explosions for peaceful purposes—and the dumping of radioactive wastes—also are banned, at least

Munsingwear "SLIMU" SUPPORT BRIEF

MUNSINGWEAR'S "SLIMU" MAKES YOU LOOK AND FEEL YEARS YOUNGER

- 1 Heat-resistant elastic waistband will last the life of the garment.
