## Swollen River Is Growing As Danger Threat

**Army Fliers Report Crest Now At Rio Grande City And Is More Than A Mile Wide; Roads Said To Be Blocked**

## Damage Mounting

**Loss Of Life Not Estimated But Property Devastation Up In Millions; San Juan Rising Steadily**

(By The Associated Press)

BROWNSVILLE, Sept. 5.—A devastated torrent surged through the lower Rio Grande valley today as the bulk of the swollen border stream's flood waters rolled toward the gulf.

Army fliers patrolling the danger area reported the flood's crest in the vicinity of Rio Grande City, about 100 miles upstream. The river there was more than a mile wide and had overflowed into the lowlands, blocking several main highways. Its stage was close to 35 feet.

**San Juan Rises**

The San Juan river, a tributary which has been in flood for days, was rising under the impetus of heavy rains last night on its Mexican watershed. It dumps into the Rio Grande at Rio Grande City and is regarded as a serious threat to the lower valley.

Just how many lives have been lost since the flood began laying a thrill of devastation down from the plains of Southwest Texas remained undetermined. The collapse of a Laredo railroad bridge on which 15 or 20 men were standing was believed to have caused the drowning of all but four, who were rescued.

**Property Loss Heavy**

Property losses were known to have mounted into the millions. Thousands of head of livestock were drowned, several bridges were swept away, highways were washed out and ranch houses floated down stream. Several power plants were damaged.

Everything possible has been done to minimize damage and to avert casualties in the lower valley. Residents of the lowlands on both the Mexican and American banks have evacuated, taking with them movable belongings and livestock.

The intricate flood control system has been cleared of brush and other constructions. Engineers claim it is ready for its most severe test.

## Noted Traveler Visiting City; Tells Experiences

CAPT. H. W. MacDONALD
Story To Right

### Explorer Convinced World Brotherhood More Than Phrase

FROM the Arctic ice cap to hottest Africa and southernmost South America, from east to west around the globe numerous times—these are the trails Captain H. W. MacDonald, who says he is a cousin of Ramsay MacDonald of England, has followed in his 35 years of globe-trotting.

And, after visits in every country except Tibet and Afghanistan, the captain is convinced that world brotherhood is more than a pretty phrase. He declared here Monday that he has not only a spiritual belief but a scientific proof that all men are brothers.

**To Give Lectures**

While in Lubbock, Captain MacDonald will make between 20 and 30 lectures, including one Wednesday night at 8 o'clock at the First Methodist church and one Thursday noon at the Kiwanis club luncheon at Hotel Lubbock. There are no charges for his addresses.

In all his travels he says he has seen many nearly invisible links which bind men into a common brotherhood.

So firm is his belief in that creed that for years he traveled whither he willed armed with a smile, friendliness his only currency, and knowledge his only aim and objective.

**Drowned In Wreck**

MacDonald's mother was drowned in a wreck at sea off Long Island sound, and only the soundness of the 11-month-old boy's cradle saved his life. His father, he said, then dedicated his son's life to the ministry.

Unlike most world travelers he has not followed a route. He has wandered as fancy dictated and therefore talks as glibly of Greenland as of the Belgian Congo and

## Farm Violence Again Breaks; Four Are Hurt

**Pickets Besiege Caravan Of Produce-Laden Trucks And Battle Drivers; Many Evade Determined Guards**

(By The Associated Press)

SIOUX CITY, Ia. Sept. 5—Violence broke out afresh in the farm strike area today and four drivers were injured when pickets besieged a caravan of produce-laden trucks.

Scores of drivers succeeded in bringing livestock here this morning but when a group of truckers beyond James, a village north of here, decided to run the farmers blockade, reports of their move reached picket lines, and farmers hurriedly remobilized their forces and lay in wait for them.

**Truce Is Defied**

Today's battle was in defiance of a truce proclaimed a week ago and occurred on the eve of a parley called by Iowa county leaders of the National Farmers Holiday association.

The strikers, who hope that by keeping farm goods from market they can force an advance in prices, hurled spiked logs, scrap iron, poles and stone in front of the trucks and at the drivers.

**Shoulder Is Broken**

James Brummer of Sioux Center a farmer, received a broken shoulder when he was struck by a piece of timber. Carl Johnson of Ireton, Marvin Eyler of Craig, and an Emmettsburg driver who refused to give his name were badly cut and bruised by the missiles and glass from broken windshields.

Sheriff John Davenport dispatched 40 special deputies to the scene but they arrived after all but one of the machines had succeeded in running the blockade.

### *Denunciation Of President By Wilson Creates Furore*

CINCINNATI, Sept. 5. (AP)—A denunciation of President Hoover by Dr. Clarence True Wilson, secretary of the Methodist Episcopal church's board of temperance, prohibition and public morals, created a furore today at the church's Ohio conference in session here.

Dr. Wilson told the conference last night that "the president deserted the dry forces the first day he was elected," and said "I am voting for Norman Thomas for president."

The militant churchman today stood firmly behind his speech. "I'll stand by everything I said," he declared.

### *Lubbock's First Bale Of Cotton Is Ginned Monday*

The bale when ginned weighed 565 pounds. On the basis of the last quoted price of Saturday, 8 cents a pound, the bale should bring $45.20 besides premium.

## Tragedy Strikes A Blow In Home Of Jean Harlow As Husband Shoots Self

### Paul Bern Commits Suicide Monday; Note Is Found

(By The Associated Press)

HOLLYWOOD, Cal., Sept. 5.—A .38 bullet through the head ended the life of Paul Bern, motion picture executive, and writer, either last night or today in the idyllic home he gave Jean Harlow, blonde screen actress, when they were married two months ago.

Police said it was an unquestionable case of suicide, but ordered an investigation.

**Wished To Be Alone**

Miss Harlow was visiting her parents, Mr. and Mrs. Marino Bello. Bern had failed to keep a dinner appointment at the Bello home last night, informing his wife by telephone, according to authorities that he wished to be alone.

Irving Thalberg, production executive of the Metro-Goldwyn-Mayer studios, who was called to the home in Benedict canyon by a butler who found the body, denied there had been a disagreement between Bern and Miss Harlow and authorities tonight said they were making little progress in discovering the cause.

**Puzzlement Increased**

Their puzzlement was increased they declared, by a note in Bern's handwriting addressed to Miss Harlow reading:

"Dearest dear: Unfortunately this is the only way to make good the frightful wrong I have done you, and to wipe out my abject humiliation. I love you. Paul."

A postscript said:

"You understand last night was only a comedy."

Miss Harlow, the original "platinum blonde" of the screen, was reported hysterical, under the care of a physician and unable to advance an explanation.

(By The Associated Press)

SYRACUSE, N. Y., Sept. 5 —Secretary Doak gave his "unqualified endorsement" to plans for higher wages and shorter working hours today in an address in which he said there were evidences that better times were on the way.

In his speech opening the state fair at Syracuse, the secretary of labor said prolongation of the depression had been due largely to conditions abroad and added: "Let me say today, however, that things are changing."

"Confidence is returning," he said. "Our financial foundations are unimpaired and 70,000,000 insurance policies and 25,000,000 depositors have been saved from jeopardy.

"It is a grateful thing to be able to say that the evidences are that a lightening of conditions is coming in other countries as well as within our own."

## Texas Rangers Being Charged For Tampering

**Entire Day Spent In Amending And Debating A Resolution Proposing Examination But Action Is Delayed**

**Charge Is Denied**

**Action Of Demo Convention In Lubbock Next Week Likely Will Determine Next Course Of Texas Legislature**

(By The Associated Press)

AUSTIN, Sept. 5. — The Texas senate spent the entire day amending and debating a resolution proposing a senate committee investigation of alleged fraudulent voting in the recent Democratic primary, then adjourned without reaching a vote on the main question.

Opponents of the proposal, who contended the move was planned by friends of Governor R. S. Sterling to confuse the state Democratic executive committee in its official canvass of the vote in the close race between the governor and Mrs. Miriam A. Ferguson, had tacked on amendments to preclude the inquiry group functioning, if finally it is authorized to investigate, before the result is formally declared by the party machinery.

**Amendment Adopted**

An amendment adopted by a vote of 13 to 12, directed that any investigation authorized not start until adjournment of the Democratic state convention which meets in Lubbock a week from tomorrow. Another directed that the inquiry not start until the special session of the legislature has gone home.

The senate heard charges of alleged "tampering," with ballot boxes by Texas rangers in the East Texas oil field area. Those accusations inspired Senator W. K. Hopkins of Gonzales to propose another amendment. It was adopted, directing that the investigating committee, if created, inquire whether "any state ranger or any other state officer has heretofore opened or attempted to open, or has tampered with or attempted to tamper with any ballot box used," in the primary elections.

**Prompt Action Asked**

The Hopkins amendment also proposed that "in event any such act by any such ranger or other state officer is so discovered, then said committee shall immediately certify such finding to the county and district attorneys of such county in which such irregularity occurred with the request that

## Labor Day Quiet In Lubbock Area

Labor Day was quietly celebrated Monday as far as most offices were concerned. Only the banks, postoffice and a few of the county offices were closed.

Retail stores did a good business because it was "dollar day" and crowds were seen on the streets all day long. Opening of the teacher's institute at the high school brought an additional out of town contingent.

District court sessions at the courthouse attracted a small crowd. Several cotton brokers took advantage of the closed market at New Oricans and New York to make out of town trips.

A dance was held last night at the Uptown Dance Palace.

## The Weather

WEST TEXAS: — Partly cloudy, probably scattered showers in the Rio Grande valley Tuesday; Wednesday partly cloudy, somewhat unsettled in south portion.

## "Dead" Crosby County Youth Pays Visit Home Less Than A Month After Parents Identified Him As Train Victim

(Special To The Avalanche)

CROSBYTON, Sept. 5. — "I read your letter to grandmother saying I was dead, so I came on home."

This was the explanation of Glenn Cody, 19-year-old son of Mr. and Mrs. W. Cody, of the Big Four community, near here, when he walked into the home of his parents after he had been believed dead and buried in a cemetery at Midland, Texas.

Glenn had left home six months ago without telling his parents where he was going. On August 21 a youth was killed near Midland. From the description he was identified as Glenn Cody.

Mr. and Mrs. Cody made a trip to Midland and reported the description tallied with that of their son.

The first thing Glenn knew about his "death" was when he read of it in a letter to his grandmother in Oklahoma from his parents. He at once started for home.

**Identity Of Victim Remains A Mystery**

MIDLAND, Sept. 5.—Identity of the 18-year-old youth buried in the Midland cemetery as "Glenn Cody" of Crosby county, remained a mystery here today as T. D. Kimbrough, county attorney, read and reread a letter he had received from Mr.

## Chicagoans Threaten And Plead For Information After Daring Burglary

(By The Associated Press)

CHICAGO, Sept. 5. — Scores of box holders threatened and pleaded for information today at the offices of Koch and Company, a safety deposit concern looted of between $100,000 and $1,000,000 over the weekend, but were turned away and told to return tomorrow.

Time locks on the vaults could not be opened until 8:30 a. m. Tuesday, officials said, and until that time there was no means of checking the exact number or the ownership of about 350 safety deposit boxes looted by eight cracksmen while ten persons were held prisoners for 14 hours.

Meanwhile, it was announced that all persons who lost savings to the robbery gang probably would have to stand their own losses. The vault company had $7,500 robbery insurance, but no burglary insurance.

Police said they believed the loot would total about $250,000, but other sources placed the aggregate at as high as a million.

# First Baptist Women's Missionary Society Begins New Church Year

## The Woman's Angle

* * *

BY BLANCHE E. BEAN
Avalanche Woman's Editor

PERHAPS you wonder whether or not the parent-teacher association does anything worth while. You may be a woman who sits on the side lines and talks about the wasted effort expended by those who attend P.-T. A. meetings and help carry out that program.

• • •

Or, perhaps, you are sincerely curious about what the organization is all about.

• • •

In either instance you might profitably attend the first council meeting of the year today. It is to be at 3:20 o'clock in the music room of the Senior High school. Representatives from the various school units are to outline tentative plans for the year and some special committees will report. This is a business session but outsiders will be welcome and it will be an opportunity to find out what the association has for a program.

• • •

READ THESE BOOKS

THE writers of books often seem remote to us. We think of them as names rather than personalities and feel that there is a sort of glamour about them as they may be living in some attic in New York or in a cottage-by-the-sea in Europe. Frequently, our authors are men and women who walk the streets of this and other towns as ordinary citizens.

• • •

As a part of her work in seventh district of the Texas Federation of Women's clubs, Mrs. C. B. Powell is encouraging club women to present books by Texas writers to local libraries. So far she has succeeded in having writers to local libraries. So far she has succeeded in having several volumes given to the Lubbock County library.

• • •

There are poems, histories, plays, pioneer tales and fiction in the lot. The books are interesting and instructive and, in addition, the authors are Texans. There are two books by W. C. Holden of this city —Alkali Trails and Rollie Burns. You may have this idea that authors are somehow different. If so, read some or all of these books that have been written by fellow citizens. Or, you may simply need to enlarge your acquaintanceship with writers who are Texans. These books are on the shelves of the library and are for your use.

• • •

OUT ACUFF WAY

PERHAPS you think all the farmers of Lubbock county are starving out on a rent place. If so, take a ride out to Acuff community next Sunday afternoon and look around.

• • •

My opinion on crops isn't worth much to the experts, but the crops out in that section are as pretty as any I ever saw.

• • •

One drives for miles down lanes through fields of cotton and grain and in this setting are brick houses with beautiful lawns and flowers or frame houses well painted and well kept. Acuff is probably one of the show places in the county as far as farming communities go, and it is a garden spot now.

• • •

People out in there may not be jingling coins in their pockets, but many of those families have pretty homes, fine crops, sleek stock and plenty of chickens. And their homes look like these pictures of country places that we admire in magazines.

• • •

If you are feeling sorry for the poor farmer, drive out there next Sunday afternoon and come back feeling sorry for yourself. Lubbock hasn't the noise of a metropolis, but there is a serenity out there that is good for your nerves. We went by the school house Sunday afternoon where they were having a community singing. And out there, with windows wide open, they could sing and hear each other without the constant blare of horns and the penetrating hum of traffic that invades the most secluded church chapel in Lubbock. And the cars drawn up outside the school yard fence, were as good looking as those parked around our city churches.

• • •

This sounds like chamber of commerce prattle, but farming looks like a good thing—if you love to see things grow and blossom—when you take a drive out in that section.

## Lesson Study Is On Indian

### Gomez And Allen Are Turned Loose On Mackmen Before Record Crowd In Gotham In Labor Day Doubleheader

(By The Associated Press)

NEW YORK, Sept. 5.—The New York Yankees, bidding farewell to their home grounds, whipped the Philadelphia Athletics twice today before a crowd of 70,772, the largest of the season. The scores were 8-6 and 6-3.

Manager Joe McCarthy turned his two pitching aces loose on the American League champions and as the result the Yankes hold a 12 1-2 game lead over the A's and need only six more victories to clinch a place in the World series.

In the opener Vernon Gomez turned back the Athletics for the seventh time in eight starts and at the same time chalked up his 23rd victory of the season. Johnny Allen accounted for his tenth straight and his sixteenth in eighteen games in the nightcap, holding the A's to nine well scattered hits.

Babe Ruth connected with his 40th homer in the curtain raiser.

## Kaye Don Is Again Defeated By Wood

DETROIT, Sept. 5. (AP)—The seventh attempt of a foreign challenger to lift the Harmsworth trophy failed today—as have all others in the last decade—in the disabling of the challenging craft, Miss England III, piloted by Kaye Don.

For Gar Wood, veteran defender of the historic bronze plaque, today's heat, like the first on Saturday, was merely a workout in his Miss America X. After mechanical difficulties had brought Don to a stop before he could finish 13 miles of the 35-mile course, Wood coasted along to an uncontested victory.

Before Wood had finished his fourth lap of the seven-mile semi-ellipse, Don accepted a tow to his boatwell and was automatically eliminated from further competition this year.

Wood's big mahogany-hulled Miss America X, generally credited with a potential speed of around 125 miles an hour, never was opened up, except possibly for a mile at the start. Its average for the 35 nautical miles was only 69.036 statute miles per hour, slower than any Harmsworth race has been run since 1928.

CINCINNATI, Sept. 5. (AP)—Chicago's Cubs had their lead in the National league trimmed today by the down and almost out Cincinnati Reds, by splitting a double header, losing the second 6-5 after winning the first 9-2.

The first game was slaughter for the hapless home team, but the second was a worthy battle as Johnson took it on the chin in the early innings but held on to have his teammates rally and snatch victory.

## GOLF By ART KRENZ

There are times when a fellow hits them everywhere on the green but to the right spot.

Tension probably does it. If the

muscles of the wrist and forearms tighten, the ball is stabbed with a stiff jerk of the arms instead of a smooth pendulum swing. The wrists must be allowed freedom and the club must not be gripped too firmly.

Another common fault is turning the right hand over at the moment of impact. This action applies a slight pull to the ball at the end of its journey.

## Kyle Field, Historic Home Of Texas Aggies, Will Resound With Familiar Sounds Before End Of Another Week

COLLEGE STATION, Sept. 5. (AP)—Before the end of another week, the quiet precincts of Kyle field, historic home of the Texas Aggies, will resound with familiar sounds as the 1932 cadet football squad begins preparation for another grid-iron campaign.

Practice is scheduled to start Saturday, Sept. 10, when Southwest conference bars on practice will be lowered, and from then until the start of classroom work the cadets will hold two practice sessions, and at least one "skull practice," meeting daily.

The Aggies will have a comfortable surplus of seasoned backfield material from 1931. But the twelve lettermen expected to be available, only five are linesmen.

**Linesmen Scarce**

Only one letterman for guard and tackle positions will answer the roll call. Of the forty-five candidates expected to try for the team, however, eighteen are partial to one or the other of these positions.

Among lettermen expected to return are Captain Jimmie Aston, Farmersville, fullback who sometimes assumes the quarterback role on offense and Charlie Malone, Dallas, all-conference end in 1931.

The chief backfield problem of the Aggies probably will be in punting. However, Henry Graves, who did a good bit of the Cadets' booting in 1931, will be back. Other prospective kickers include Spencer, Domingue and "Muggins" Fowler, the latter a sophomore from Fort Worth.

The Aggies will have full need of their available veterans and whatever material Coaches Madison Bell, "Klepto" Holmes and Joel Hunt can glean from the crop of sophomores and squadmen, for the cadet schedule makers reversed themselves this year and didn't schedule a light non-conference game until well into the season. They are to play the Texas Tech Matadors as an opener Sept. 24 at Amarillo and the next week will vie with Tulane's Green wave at New Orleans.

The following two weeks will find the Aggies at home, entertaining first Texas College of Arts and Industries and then Texas Christian university. The latter will be the Aggies' first conferenc tilt of the campaign. On successive week-ends thereafter the Cadets will play Baylor at Waco, Centenary at Shreveport, Southern Methodist at Dallas and Rice at College Station.

Thanksgiving day tilt with the University of Texas Longhorns will be played at Austin. In addition, Aggie athletic officials are said to be still dickering for an early December game with some intersectional opponent.

### WASHINGTON SUSPENDED

DALLAS, Sept. 5. (AP)— Business Manager J. Walter Norris of the Tyler Sports of the Texas league announced here today that Outfielder Vernon Washington had been suspended for the remainder of the season.

Morris said Washington went fishing instead of reporting to the Chicago White Sox after he was sold to that club. The White Sox called off the deal.

### TITLE FORFEITED

DALLAS, Sept. 5. (AP)—The Central Methodist nine of Houston today forfeited the State Sunday school baseball championship to Cliff Temple Baptist of Dallas. Rain had postponed completion of the championship series since the Dallas team won the first game 14-1, Saturday.

## Dear Old Golden Rule Days

MANY a Lubbock mother—even if she won't admit it—breathes a sigh of relief this morning upon contemplating that today is the last day of school vacation. "Thank heaven!" she will confide in herself, "Mary and Johnnie go back to classes tomorrow and maybe I can get something done beside 'riding herd' on those youngsters!"

And while that is going on Lubbock's public school faculty is ready for the nine months derby; members theoretically will take an additional hitch in their belts, the starting gun is about to boom again.

Great is the function of the public school teacher.

Many sided are the problems which confront him or her.

Responsible for education in the "three r's", responsible for inculcating in youthful minds the basis for good citizenship and further responsible, in part, for instruction in morals and right living, the school teacher plays a major role in our civilization.

There is no more important calling.

### UNEMPLOYED GRADUATES

Disillusionment has been the lot of the 1932 college graduate, if he at all entertained the notion that a diploma could launch a career even in the midst of a major depression. Less than 35 per cent of this year's graduates have found employment, and included among those who have are the thousands whose sole employment thus far has been waiting for the first client, patient or customer.

Young men and women unfortunate enough to finish their education in this unhappy year have discovered that toward youthful graduates the world is more liberal with its congratulations than with a livelihood. Theirs has been a sad awakening.

Discouraged and disappointed, these young men and women find little comfort in the knowledge that disillusionment is sometimes the beginning of wisdom. They should remember, however, that many leaders of today are men whose first encounter with the world of affairs came during the panics of 1893 and 1907.

It takes a better head and stronger character to succeed today than it did four years ago. Almost anybody could make money and build up a good business or professional practice during the bonanza. Today few can. But those who do their best today and keep everlastingly at it will come out on top of the next prosperity wave. Success today may consist of merely keeping one's head above water.

### $58 A PAGE

A minor concluding debate in the Senate dealt with the costs of the Congressional Record and cited the fact, on the authority of the public printer at Washington himself, that its publication now costs $58 a page. Comparisons with past sessions were made and it was shown that, for periods from December to May 31, these daily published reports of congressional proceedings have been the most volumninous and costly in all our history.

We contemplate now the issue of Saturday, July 16, when congress adjourned. The pages are numbered consecutively day by day. The issue of July 16 ends with Page No. 16,159. At $58 a page, that means printing in seven and a half months which cost taxpayers $937,000, nearly a million.

Nor it that all. The July 16 number carries formal notice that "the last issue of the daily Congressional Record will be published July 25." There remains to come the usual stream of political "speeches", none of which were spoken. For aught we know, the Record this big political year may be expanded another 16,000 pages at a cost of another million.

Nor is that all. By thousands and, yes, up into millions, parts of the Record yet are to be distributed in the mails free of postage by individual congressmen and by the political campaign committees. Whether another million is not here involved is worth examination.

Those who have read their Records since December readily understand why they break all records. The insertions of newspaper accounts and editorials, of magazine articles and well night entire books, of private letters and tabulations of all sorts of speeches made outside of congress or by officials not in congress—of anything and everything that has happened to suit some congressman's taste or politics—amount alone to a Niagara of words published at public expense.

The claim that Jimmy Walker is superstitious is certainly unfounded. Otherwise, he never would have chosen a lawyer named Curtin.

## Government Control Seen

By CHARLES P. STEWART
Central Press Staff Writer

WASHINGTON, Sept. 5.—How much value will any sort of railroad bonds have 68 years hence?

The financial straits of the roads are a matter of common talk at present.

Not only are the companies pinched by the depression. Transportation methods, at least in considerable part, are changing. The auto bus and the auto truck are cutting heavily into both their passenger and freight business. They even feel the effect of air competition. Waterways threaten them.

The rail lines' owners and holders of their securities are trying to offset their rivals' advantages by taxation handicaps and trouble-some, expensive regulation, and maybe they will have a measure of success for awhile. But can they stave off progress for two generations? If not, will there still be any railroads in the year 2000?

And if the railroads are extinct then, how can their bonds of today be worth anything?

* * *

NEVERTHELESS, the Baltimore & Ohio, seeking the interstate commerce commission's permission recently to borrow an additional $31,625,000 from the Reconstruction Finance corporation (the B. & O. already has had $32,500,000 from the R. F. C.), listed, among other securities for the loan, $31,625,000, principal amount of its refunding and general mortgage 6 per cent bonds, due April 1, 2000."

Senator Duncan U. Fletcher of Florida seemed an appropriate authority to consult as to the question:

Is not a 68-year period a long time to trust to a railroad bond issue of 1932, in an era of such rapid transition, to remain dependable, among securities for so substantial a loan as one of $31,625,000?

In the first place, the senator, with most of his fellow lawmakers away, electioneering, is in Washington. Secondly, he is a member of the special committee left, when congress adjourned to keep an eye on the activities of the R. F. C. Thirdly, as senior Democrat on the senate's banking and currency committee, he is exceptionally well informed concerning all sorts of transactions involving large sums of the government's money.

"WELL," said the Florida solon, in a somewhat dubious tone, answering my query, "it is to be taken into consideration that these bonds are not the sole security offered.

"However, not speaking particularly of this loan, but of many of those made by the R. F. C., there assuredly is a strong prospect that the government will find itself compelled to take over numerous large properties when the juncture arrives for repayment to be made.

"Besides being left with various railroads on its hands, it will be left with industries of divers kinds to run, and probably with banks to operate, also.

"In short, there are indications that we are approaching a condition of affairs much more closely approximating socialism than I like to contemplate."

* * *

"THERE IS EVIDENCE," continued the senator, "that the Reconstruction Finance corporation has gone considerably beyond what was expected of it.

"Instead of contenting itself with the making of advances to needy institutions, out of the funds placed at its disposal by congress, it may presently be revealed that it likewise has guaranteed other loans, made from private sources to these same needy concerns.

"Should this prove to be the case, Uncle Sam must add the obligations he has underwritten to the total of his cash investments.

"For example, one important western banking house, which is known to have been bridged over a crisis, has been mentioned as having received assistance in part from the R. F. C. and in part from eastern bankers. Now there is reason to believe that the eastern bankers' aid was obtained on the pledge of the R. F. C. to stand good for it.

"The embarrassed institution is to be put upon a sound footing by means of a consolidation—but a consolidation in which the government will be the largest shareholder."

* * *

"MOREOVER," said the Floridan, "I want more information as to the purposes for which the R. F. C. has made loans.

"The law authorizes them to aid agriculture, commerce and industry.

"Assume that the Bank of Podunk seeks an advance and gets it, the R. F. C. reporting that it was to relieve the Podunk bank's necessities, which doubtless is true.

"But assume that the Podunk bank's first necessity is to meet an obligation to its nearest large town bank, which meets an obligation to a bank in Chicago, which meets an obligation to a bank in New York, which uses the money toward an adjustment with the Federal Reserve system; neither agriculture, commerce nor industry have benefited. On the contrary, credit actually has been contracted."

* * *

INCIDENTALLY, when congress meets, there may be complaints that the R. F. C., in itself, is quite expensive.

Its payroll exceeds $1,500,000 yearly, and is growing.

Its directors receive only $10,000 each, minus the 8 1-3 per cent cut decreed by the recent economy act, but many subordinates are paid more than the directors.

## Future Farmers At Seagraves To Enter Exhibits

SEAGRAVES, Sept. 5. (Special)—"Several entries in the future Farmers chapter are definitely planned and very likely others will be planned soon," R. H. Wells, vocational agriculture teacher in the high school and sponsor of the local chapter, said. "The entries planned at present are in the grain sorghum, corn and cotton classes.

"Boys with early projects of grain sorghums are selecting and preparing samples for display, while others are awaiting the time until their projects are sufficiently matured to get good specimens."

Exhibits will be in the agricultural 125 feet. They will comprise one of the largest exhibits in the entire building. The local chapter is not planning to enter the poultry department.

If present plans materialize, some 20 Seagraves boys will go to Dallas for the annual meeting of the Texas Future Farmer organization, which meets October 22 and 23, Mr. Wells said. He plans to make the trip with the boys.

Parents of the boys are said to be enthusiastic over the prospect of the boys making the trip. They also plan to attend the annual Panhandle-South Plains fair at Lubbock earlier in the month.

# Stoefen Defeats Jap Tennis Star

FOREST HILLS, N. Y., Sept. 5.(AP) It took Lester Stoefen, the tall, bullet-driving blonde from Los Angeles, to inject some spirit and drama into the second round of the men's national tennis chamionships late today after 7,000 spectators had resigned themselves to an otherwise listless program.

Supposedly offered as a sacrifice to the talents of Jiro Satoh, Japan's outstanding star, Stoeffen created the first breach in the ranks of the seeded list by turning back the Nipponese ace in a furious five-setter, 3-6, 6-1, 6-4, 1-6, 7-5.

Ellsworth Vines, jr., for his opening match with Charles Marks of New York, took only 30 minutes to win, 6-0, 6-1, 6-0.

Henri Cochet, the famous Frenchman, swept to victory over Jake Hess of Fort Worth, Texas, by scores of 8-6, 6-2, 6-3.

Wilmer Allison defeated R. M. Watt, jr., of New York, 6-4, 6-3, 6-4; Sidney Wood, jr., defeated Ed Jenkins, jr., New York, 6-1, 6-3, 6-3; Frank Shields eliminated Donald Hawley, or Orange, N. J., 6-2, 6-0, 6-0; John Van Ryn beat William Martin, jr., New York, 6-2, 6-3, 6-4; George Lott, jr., turned back Humberto Costa of Brazil, 6-4, 6-4, 6-4; Keith Gledhill defeated Morris Lawrence of Scranton, Pa., 6-2, 6-1, 6-1, and Gregory Mangin crushed Julius Seligson, New York, 6-4, 6-1, 6-2.

Among the foreign contingent, H. W. (Bunny) Austin of England, still wearing his "shorts," disposed of Berkeley Bell, New York, 6-2, 4-6, 6-3, 6-3.

W. Cody, the supposed dead boy's parents.

The night of August 21 a boy, believed to have been asleep, was killed by a train on the right-of-way of the Texas and Pacific railroad. The accident occurred just within the eastern city limits. Two boys with him were unable to give his name and there were no marks of identification.

Duard Scott, photographer for the Midland Reporter-Telegram took pictures of the dead boy and they were sent broadcast to persons inquiring about lost boys. The Cody's received one and after the funeral came here where the picture was identified again. The body was exhumed and also partially identified.

Saturday Mr. Kimbrough, received the following letter:

"Sir: I am glad to say our boy, Glenn Cody, came walking in yesterday (Wednesday) evening. So we will have to call the suit off. I will admit we was awfully fooled when he come in. We were almost ready to run and hide. I couldn't hardly believe my eyes but he is here. So I will send those pictures taken by Mr. Scott back and please have Mr. Ellis to change the inscription on the grave and have the paper to make corrections. I am sorry but we was honest in our mistake. And oblige. (Signed) W. Cody."

Suit had been filed against the Texas and Pacific for damages.

for shipment to foreign countries that otherwise would not be important buyers of United States wheat."

Regarding cotton, Stone's statement said:

"Of the 650,000 bales of cotton proposed to be marked by the Cotton Stabilization Corporation prior to July 31, 1933, more than 300,000 bales have been sold. The corporation will immediately withdraw its remaining stocks from sale until March 1, 1933, with the exception of certain small amounts now on consignment in foreign countries, and such cotton as may be sold at 12 cents per pound or more based on the near month of the New York cotton exchange.

"The American Cotton Cooperative association will maintain its present stocks of the 1930 crop until July 31, 1933, with similar exceptions for sales at the above prices.

"These steps are being taken and loans obtained so that the cotton growers will get the full benefit of the market for their crop of this year and for the purpose of enabling the organizations to gradually liquidate their holdings during periods when more active demand is anticipated."

# Swollen River

(Continued from Page One)

was under way today as the Rio Grande began receding to its normal stage there. A survey revealed that hundreds had been made homeless and were in need of aid.

At Eagle Pass some 200 destitute families appealed to civil authorities for help. They were being fed from Red Cross supplies. In the Mexican town of Piedras Negras across the river, more than 500 families were in need.

Flood waters caused many adobe houses to crumble, leaving their inhabitants without shelter. The debris of these fallen homes was being cleared away in order that reconstruction work could begin without delay.

**Repairing Railway**

A crew of several hundred men was at work repairing the Southern Pacific track where it was washed out for miles west of Del Rio. Other crews were making extensive repairs at the central power and light steam plant, which was damaged badly. Highways and homes in the Del Rio section also were severely damaged.

It was estimated that the loss in Val Verde county alone would amount to $2,000,000.

A tale of similar devastation came from Laredo, where more than 200 families were homeless. Across the river in the twin city of Nuevo Laredo it was estimated that 1,000 Mexican families were destitute. The Red Cross was caring for refugees.

**Bridge Reopened**

The international passenger bridge between the two Laredos was reopened to traffic and hundreds of men set to work repairing the damage done to homes and business houses.

Hundreds of small homes near the river front were carried away by the flood. In the first block leading from the international bridge in Nuevo Laredo all of the wooden buildings on both sides of the street were wrecked. The loss in Nuevo Laredo was estimated at approximately 1,000,000 pesos.

All along the river farms and ranches were inundated. Livestock was drowned and buildings carried downstream. There was no way of checking the extent of scattered losses along the river, but they were certain to have been heavy.

Authorities were watching the situation closely at Rio Grande City to determine what effect the dangerous rise in the San Juan river would have. A squadron of cavalry from Fort Ringgold was held in readiness for an emergency.

The Central Power and Light company's plant at Rio Grande City was partially under water but no great damage was expected.

Communication with Camargo, Mexico, six miles from Rio Grande City, had been cut off for three days. An observation plane which passed over the town reported it was flooded.

A warning issued this afternoon by the Brownsville weather bureau said "the Rio Grande would continue to rise slowly in the valley and finally exceed the previous highest stages at all points. The crest will reach the area around Mission tomorrow forenoon and the extreme lower valley Wednesday.

"Areas flooded in the valley will be about as extensive as in the flood of 1922, but probably will be somewhat more dangerous in places. These areas should be vacated."

Already, with the crest of the rise at Rio Grande City, the river was near the top of its banks in the valley section because of flood water spilled into it by the turbulent San Juan.

**Eskimo Most Moral**

The Eskimo is the most moral race or tribe of people in the world, he said, because "the Eskimo neither will steal nor lie, nor does he give way to lust."

The captain tells of meeting in an African village a chieftain with a Harvard accent, acquired he found later in Harvard university at Cambridge. Educated by a missionary, this native returned to his people still not ready to teach them Christianity but ready and willing to civilize them.

"I have seen all of the six major religions, including Christianity," Captain MacDonald said. "I have accepted Christianity because it is the only progressive religion. The others are static or going backward. You cannot condemn Hinduism, Confucianism and the others because they all have points of truth and value but Christianity will live after the others are gone because it is going farward all the time."

Captain MacDonald was with Peary in 1892 when he crossed the Arctic ice cap. He has crossed Africa on foot and knows the language of many African tribes. He holds the order of Leopold, bestowed by the King of Belgium.

prompt action, looking to the prosecution of such offending persons, be instituted in such county."

"I was told that while I was out of this senate chamber today, the senator from Houston (Walter Woodul) said he had in his possession 2,000 affidavits of voters in the Kilgore district of East Texas who had averred they were qualified voters even though they were without poll tax receipts," Senator Hopkins said.

**Asks For Evidence**

Senator Walter Woodul of Houston interrupted the senator to assert that he had not said how many affidavits he had.

"I call upon Senator Woodul to tell this senate where those affidavits came from," Senator Hopkins shouted. "They belong in the ballot boxes. No one had any right to take them from those ballot boxes."

Senator Woodul interrupted again to tell the senate that he did not now possess the affidavits.

"Yes, he called a page and sent them to the governor's office," Senator Hopkins replied.

**Acts Without Right**

"The constabulary of this state had no right to go into the ballot boxes and take anything, at the point of a bayonet, so to speak."

Senator Woodul asked Senator Hopkins if he charged the rangers had illegally tampered with the ballot boxes.

"I do not know from what source those affidavits originated," Senator Hopkins replied. "I do know it was illegal for anyone to go into the ballot boxes without a court order. I do not charge the rangers violated the law or that they tampered with the ballot boxes. I do know the rangers have been in East Texas, and that they have not disclosed their mission. It has been reported that they went there for the purpose of investigating election irregularities and to collect evidence.

"I want this investigation, if it is authorized, to determine if anyone violated the sanctity of the ballot boxes. If rangers brought you or any other person affidavits that belong in the ballot boxes they violated the law. We do not need a Mussolini or a dictator of any sort in this state."

Senator Tom Pollard of Tyler whose district comprises a part of the East Texas oil field area, proposed a substitute resolution, which was defeated, calling on county executive committees to recount and investigate "each and every vote in their respective counties," cast in the primary elections.

The resolution would have directed the investigation to have been completed by Sept. 17. The committees would have reported any irregularities or fraudulent charges to the district courts, district attorneys and grand juries of their respective counties for prosecution.

Senator Pollard took exception to charges made by Senator T. J. Holbrook of Galveston that he had been told a man who resided in a county other than Gregg, participated as an election official in the Kilgore precinct.

Senator Pollard read telegrams denying the Holbrook charge, which had been made early in the long debate. When the allegation was first made Senator Pollard tried to get Senator Holbrook to give him the name of the man who furnished the information.

"Stand up like a man and give us the source of your information," Senator Pollard told Senator Holbrook after he had read telegrams from Kilgore citizens claiming the election was "straight laced, and closely watched by partisans on both sides of the governor's race."

"It's a political trick you are trying to put over," Senator Pollard shouted at Senator Holbrook.

## *Ambition Realized*

## Table Has 135,341 Pieces In It

MANSFIELD, O., Sept. 5. (AP) U. T. Eberhart, when a youth of 19 became fired with ambition when he saw at the world's fair of 1893 the delicate inlay work of a table top.

When the Chicago world's fair opens 40 years later, in 1933, one of the exhibits will be a hand-carved desk of rare and costly woods from many countries. Eberhart, now a Savannah, Ohio, barber, set to work in 1896 and three years and eight months later completed his masterpiece. It has been accepted for exhibition in Chicago.

Consisting of 135,341 pieces of 500 varieties of wood, the desk boasts a likeness of George Washington and of Eberhart and his wife, a picture of the American eagle, White House and numerous flowers, fruits, and animals and various insignia and designs. The barber says he values the work at $50,000 at least.

# Drawn Shades Won't Sell Goods

YOU say you don't draw the shades in your show windows. Well, DO you draw the shades in the biggest window of them all, in the window that everyone sees, in the window that sells thousands of dollars worth of merchandise overnight? That window is the advertising pages of The Avalanche and Journal.

A window which doesn't wait for prospective buyers to pass by, but goes right into their homes and demands attention. Give your marchandise the sort of display it deserves. The public won't buy what it doesn't know about, no matter how strong the inducements, or how big the bargain. The Avalanche-Journal show window should be YOUR show window.

## Brooklyn Bonfire" Blazes Again For Comeback Of "It"

The Brooklyn Bonfire" is blazing again. That's Hollywood's way of saying that Clara Bow is making her comeback. Gambling scandals settled, studio managers appeased, her health regained, the girl who made "It" a personal pronoun is back at work, trying to regain the place in Hollywood which others have seized in the year she hasn't been flickering on the nation's screens. Here's her newest picture—and her new type of apparel.

## Gaines County To Offer An Exhibit

Gaines county will have a county agricultural exhibit at the Panhandle South Plains Fair, Sept. 26 to Oct. 1, inclusive, O. D. Carter, editor of the Gaines County News has informed officials of the fair.

Products for the exhibit will be selected from Gaines county entries in a Tri-County Fair to be held in Seagraves Sept. 23 and 24 for Gaines, Yoakum and Terry counties.

Many individual exhibits from each of the three counties will be brought to the fair here from the Tri-County Fair at Seagraves, Carter reports.

Crop prospects are exceptionally good in Seagraves this year and the exhibit here will have better products than the Gaines county exhibits have ever had in the past, according to Carter.

## New Agreement To Affect Trainmen

Approximately 12 trainmen employed by the Fort Worth and Denver on the South Plains division around Sterley are included in the group affected by recent mileage agreements, local Denver officials say.

Under the new agreement, firemen and enginemen on passenger runs will discontinue work after they have acquired 3,600 miles for one calendar month. Under the old agreement they were allowed 4,800 miles.

Firemen and enginemen in assigned, pooled or chain gang or other regular freight service will range from 3,000 to 3,200 miles.

Firemen and enginemen in assigned yard service will work 26 days instead of 30 and 31 days.

On extra lists mileage limitations will be cut to 2,200 from 3,000 miles. Combination service for firemen in freight service will be cut 600 miles per month, to 3,200 miles.

On the F. W. D. C. and Wichita Valley lines 223 men are affected. An additional 50 men furloughed, will be recalled to service.

Cotton movement is expected to increase the number.

The Duke of Veragua was the title borne by the successors of Columbus, bestowed originally upon Luis Colon, the grandson of the discoverer.

## Kenniston In New Position

### All-American Life Insurance Company Chooses Assistant Secretary And Treasurer; Is Known In Lubbock

Ralph Kenniston, who is known in Lubbock and vicinity as well as in every other city of the Panhandle-Plains region of Texas and Eastern New Mexico, has been appointed assistant secretary-treasurer of the All-American Life Insurance company, with home offices in the Oliver-Eakle building, Amarillo.

Prior to assuming his new post Mr. Kenniston was in the automobile accessory and supply business and dealt with Lubbock and other South Plains motor concerns in that capacity.

**Traveled Wide Territory**

"For five years I was a sales manager for auto supplies and came to know people from Boise City, Okla. to Seagraves, from Clayton to Carlsbad, N. M., but with the volume of business this company is doing I am meeting more people than ever," Kenniston said.

"This is the most interesting work of my career," he added. "The All-American Life Insurance Company has stockholders all over this section of the country and its business expansion is a marvel to me."

Kenniston explained the company, which underwrites old line legal reserve insurance, launched a campaign for new business, August 15—five days after he was appointed.

"The company set a quota of $150,000 in 30 days, but in half that time it was doubled," he said. "The campaign, named in honor of Mrs. W. T. Coble, general manager and supervisor, is producing results typical of the company's business, which began in May 1931 with my $209,139 insurance in force and now is rapidly nearing the $3,000,000 mark."

The All-American Life Insurance Company secured approval of a 15 per cent capitalization increase and is expanding by the proverbial leaps and bounds, Kenniston said. Mrs. R. L. Gregory is the company's Lubbock agent.

## Arrangements For Fair Are Started

With just two short weeks left before the opening of the Panhandle South Plains Fair, Sept. 26, directors and other officials of the annual South Plains show window are busy early and late completing last minute arrangements.

Three good will trips will be made over the South Plains by automobile before the fair, including stops to practically every town on the South Plains. The 40-piece Lubbock high school Westerner Band will accompany the fair boosters and approximately 150 people are expected on each trip.

"Heads up" has been adopted by the fair directors as the slogan for the fair this year.

"The South Plains exposition is one of the two regional fairs being held this year," W. G. McMillan, president, said in a recent statement. "Crop conditions are good, prices are coming back. This exposition gives us an opportunity to show the world that the Plains is coming back strong so we urge the people of the Plains to bring in their exhibits and come see the exposition and have 'heads up' from this day hence."

The John T. Wortham show with 350 people, 25 railroad cars, 40 dollar attractions, 12 riding devices and with a world wide reputation, will be here for the fair. Free football games will be played, fireworks and free acts will likewise be offered.

**SEIBER GETS APPOINTMENT**

### *Common Law Marriage Echoed In Real Ceremony At Clovis*

A wedding ceremony to have been performed last week-end in Clovis, N. M., for a young Lubbock couple was one aftermath of a common law marriage of about three years endurance.

About three years ago they returned from New Mexico telling their parents and friends they were married. Last week the girl's father found that no ceremony had been performed. An assault complaint was filed against the young man, about 24, who is the father of a seven-months-old baby.

After the man was arrested Saturday, the complainant and the defendant's brother went to the district attorney's office asking that the complaint be dismissed. The young man had agreed to go to New Mexico to be married.

The girl's father was told that Texas recognizes a common law marriage such as the youth and the young woman, who is 18, had engaged in. None the less the couple left Saturday for New Mexico, officers said.

## South Plains Schools Open

### Children Return To Studies Monday In Large Numbers As Terms Are Opened Over Area For 1932-33

Children of the South Plains Monday returned to school in large numbers as many of the town schools opened 1932-33 terms.

In a number of towns the term already has opened, the trustees planning later in the fall when cotton picking begins to close for several weeks.

The same thing is true of rural school districts. Many districts began the first part of August, with some following from week to week.

**Change Reported**

Last spring many districts reported a decrease in the number of scholastics over the 1931 total. Since that time there has been a change reported, many towns seeing vacant houses occupied and new people and new firms moving in.

Schools already under way with their 1932-33 term include: Amherst, which opened with an enrollment of 575; Littlefield, which began with a larger enrollment than last year; Levelland with an enrollment of 935; Tahoka with an enrollment of 480; Dickens with a good enrollment, and Sudan with a good number. Idalou schools also began with splendid enrollment.

Schools scheduled to open Monday were: Crosbyton, Floydada, Lockney, Matador, Meadow, Muleshoe, Seminole, Ralls, Post, Spur and Plainview.

Abernathy, Hale Center, and Slaton open Wednesday.

Brownfield will open Thursday.

Seagraves opens Monday, September 12.

Olton has announced October 31 as opening date for the schools.

### *Three Lubbock Youths Plead Guilty And Are Fined Here*

Three Lubbock youths who were arrested by police and charged with the theft of gasoline from a city tractor, entered pleas of guilty in police court Monday. They were fined $10 each and two had paid fines by late Monday, the other not having put up the money.

The alleged theft occurred in the 1600-block on Sixth street. Two five-gallon cans and a hose were taken from the suspect.

Three persons were fined $20 on charges of gambling.

Mr. and Mrs. Joe Jones, arrested in a raid by city and county officers Saturday night were charged with violating the prohibition law. Bond was set at $500 and Jones made his Monday morning and his wife late in the day. They were arraigned in the justice court of J. S. Connell.

Officers said 10 gallons of home brew was poured out after the raid and between 20 and 30 bottles confiscated for evidence.

Three men and a woman, all giving the same name, were freed on bond for appearance in corporation court Thursday. They were charged with disturbing the peace when arrested Saturday night.

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.
