## Crash Victim Burial Here Saddens Fourth

### CLARENDON BOY IS KILLED IN WRECK

**HENRY ELLIS SLIGHTLY IN-  
JURED. THREE ARE DEAD  
FROM INJURIES.**

Carroll McMurtry, son of C. T. McMurtry of this city, and two of his friends are dead in Amarillo resulting from a crash at the intersection of Sixth and Van Buren Streets about two o'clock this morning. The boys had been to a dance and stopped in town at a cafe, picking up Ellis at that point. They had started home with Ellis and crashed into a heavily loaded truck, knocking it twenty-five feet and completely crushing the car.

Carroll McMurtry, Reagan Bruton of Amarillo and Joe W. Wilson, also of that city were almost instantly killed, having died before they could be carried to a hospital. Henry Ellis, formerly of this city and now of Amarillo, was injured although not so seriously as was feared at first. Bruton is known among the younger set of this city, having been a visitor here in the past.

Funeral services will be held here in the morning, July 4th, at 10:00 o'clock. The last rites will be conducted in the J. L. McMurtry home.

### CLARENDON SENDS FINE DELEGATIONS TO MEMPHIS

Clarendon was well represented at the cornerstone laying of the new First Christian Church of Memphis Sunday. Ten members of the Clarendon church attended the services and were loud in their praise for the new edifice of the neighboring city. The beautiful structure that has just been completed is an emblem of faith and tireless effort that is found in few cities and the church fills a long felt need for a new temple of worship. Those making the trip from here were: Mr. and Mrs. G. Anderson, Mr. and Mrs. W. F. Dubbs, Mr. and Mrs. W. L. Butler, Mrs. Hughes, J. H. Mulkey, and Mr. and Mrs. Homer Mulkey.

Another delegation of Clarendon folk attended the services being held in Memphis, Monday evening. An interesting event was the designation of Monday night as Clarendon night. This courtesy was responded to by the Clarendon congregation with an attendance of twenty. The delegation from here consisted of: Mr. and Mrs. G. Anderson, Mr. and Mrs. Nat Woods and son, Mr. and Mrs. C. L. Knight, J. D. McAdams, Mrs. Bryant, Mr. and Mrs. F. C. Johnson, F. W. Dubbs and wife, Miss Angelina Dubbs, Miss Alice Gordon, H. Mulkey, Y. O. McAdams, Mr. and Mrs. W. L. Butler and Mrs. Hughes.

### TYNDALL MEETING BEGINS JULY 22ND

**FIRST CHRISTIAN CHURCH  
BRINGS REVIVALIST BACK  
FOR THIRD MEETING.**

As announced several months ago the annual revival of the First Christian Church of Clarendon will begin on Monday, July 22nd, with Dr. John W. Tyndall conducting the services.

All details have not as yet been arranged but a tent 50x80 feet and with large seating capacity has been secured and will be pitched on the Grammar School grounds at the head of Kearney Street. The services will continue for three weeks and a well-known singer will be secured to conduct the song service.

Dr. Tyndall is well known in Clarendon having held two other meetings here in years past. He is among the leaders in his denomination and is regarded as among one of the most talented teachers of the Bible in this section. The local congregation invites the co-operation and attendance of all the Christian people of Clarendon and a hearty welcome is extended to all.

Coach John C. Hutton, of the Junior College, left last Saturday afternoon for College Station where he will take a course in the A. & M. Summer School.

### COUNTY TRUSTEES RECEIVE PETITION

**MORE THAN SIX HUNDRED  
SIGNATURES ON PETI-  
TIONS PRESENTED.**

Petitions with one of the greatest lists of names that has ever been presented to any body in this county, were brought before the County Board of Trustees last Saturday, begging that body for an election on a County Junior College. With one petition yet to be received, the names totalled 644 in number when they were tallied by the members of the board.

The petition was received here and will be carried to Austin on the tenth of this month, at which time it will be presented to the State Board of Education. The call for the election will be set on either August 3rd or 5th, depending on the time the petition is received in Austin and the matter is passed to the County for approval.

Interest is running high in all parts of the county over the proposed Junior College for the County, many school districts presenting their petitions with a full one hundred per cent of the eligible voters in the precincts on the petition asking for the move.

Immediately following the meeting of the State Board, there will be an intensive program of education presented to the folk of the county, at which time prominent educators will speak in all parts of the county giving particulars on the movement and the effect it will have on those who desire college work but who are unable to secure it due to the cost of attending school.

Miss Ivy Helm of Estelline, former student of Clarendon College, was guest of Miss Opal Duckett over the week end.

Dr. B. L. Jenkins returned Sunday night from Chicago, where he attended a clinic. Rev. S. L. Jockel, returning from Milwaukee, where he went as a delegate to the Kiwanis Convention, joined Dr. Jenkins in Chicago and they made the return trip home together. They report the weather in Chicago quite delightful.

### SUMMER SCHOOL CLOSES FRIDAY

**SUCCESSFUL SESSION CLOSES  
WITH GOOD RECORD OF  
WORK DONE.**

The second Summer School of Clarendon Junior College will be brought to a successful close here Friday afternoon. An enrollment in excess of sixty has been in attendance, twenty per cent of this number are teachers here for the purpose of renewing their teachers certificates under a recent ruling.

The remainder of the student body have been those who have made up college and High School credits that will allow them to graduate during the coming term of school.

The school has been held under the direction of Dean W. A. Clark, Jr., of the College. He is well pleased with the attendance and with the results that have been obtained here. Plans are even now under way for the expansion of the school for another year in the hope that it may be bigger and better than ever before.

Following the close of the school term, the faculty is planning to disperse to many places, the greater portion of them planning to attend school to further aid in their ability during the coming long term of school opening in September.

### BOX CARS AND BRIDGE BURN SUNDAY MORNING

Fire of undetermined origin destroyed a small bridge near the water tank in Clarendon Sunday at noon and ruined two box cars that were empty and another filled with wheat. The car loaded with wheat was badly damaged and the contents of the car were so damaged that it will possibly be a total loss. No general alarm was sent out, the fire department making the run with as little disturbance as possible.

### CHRYSLER SALES IS NEW BUSINESS

**DOSS PALMER AND EUGENE  
NOLAND TO HANDLE  
POPULAR LINE.**

A transaction that has been under way for some time was concluded the latter part of last week, whereby Messrs Eugene Noland and Doss Palmer become partners in the Sales and Service of the Chrysler line of automobiles. This line was formerly handled by the White Motor Company, who will continue to handle the line of Plymouth cars.

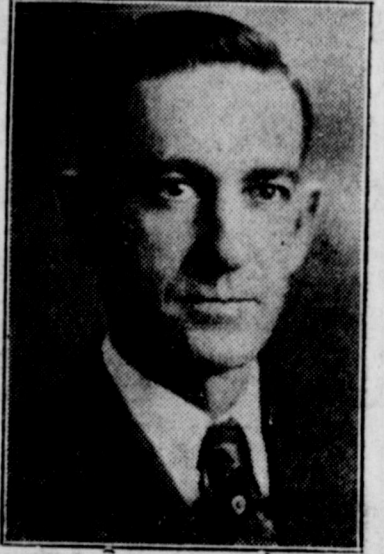

The newly established business will be no different in any respect than it has been in the past. The sales end of the business will be handled by Doss Palmer, while Mr. Noland will handle the service department for these cars. Neither of the men need any introduction to the people of the city and each has a reputation above reproach in all respects.

Mr. Noland has had wide experience with all kinds of automobiles and is known as one of the best mechanics in the Panhandle. For two years he was foreman for the Chrysler line of cars. For the past few months he has been connected with the present business, first with the Palmer-Riddle Motor Company and lately with the Palmer Motor Company. He was a former mechanic in this city before going to Amarillo and has a great host of friends who wish him success in this, his latest venture.

The name of the new firm is to be The Chrysler Sales Company and they will occupy their present location at the intersection of Second and Gerst Streets.

Homer Mulkey returned from a business trip to Dallas Thursday last week.

Loran Naylor visited with relatives and friends in Clarendon over the week end. Loran is working in Pampa.

CLYDE J. DOUGLAS

### County Federation Meets On July 6th

The regular meeting of the County Federation of Women's Clubs will be held in Hedley on Saturday, July 6th at 2:30 p. m. At this time a number of very important items will be discussed and a full attendance is urged. The new President will take her place at this time and will probably have some items to mention that will be of great interest to the Federation.

### LIONS OFFICERS PLACED TUESDAY

**FITTING CEREMONY PLACES  
ELECTED OFFICIALS IN  
CLUB PLACES.**

The entire hour Tuesday of this week was taken by the Lions in installing their newly chosen officials in the places accorded them in the election held Tuesday last week. Lion Deputy District Governor Sam M. Braswell installed each of them in their places with the exception of the Board of Directors, which was given its rightful place by Lion O. C. Watson.

In taking the office of president of the Lions Club, Lion Clyde J. Douglas asked for the entire co-operation of the Lions in the hope that the year might be a success. He called special attention to the fact that no single officer, or any single set of officers could make the club go forward as well as it might under other circumstances. He urged upon the various members the responsibilities of their places in the club and pledged himself to the pursuance of his newly acquired duties as President of the Clarendon Club.

Lion W. M. Murrell was placed in his office of Lion Tamer and took opportunity to call the hand of one of the members asking that hereafter he confine his remarks entirely to the truth in his statements concerning other members of the club.

This was followed by the installation of the three Vice Presidents of the club, Lions F. W. Rathjen, G. L. Boykin and J. G. Sherman, in order named. The response to the installation was made by Lion Rathjen for the trio.

Following the installation of the secretary, a short report on the financial and membership condition of the club was made. A full and detailed report will be made and furnished each member of the club for their own satisfaction. These reports will be printed and are to be given through courtesy of The News. Lion Odos Caraway was duly

### CONNALLY NEW GOLF CLUB HEAD

**HILLCROFTERS ELECT NEW  
OFFICERS TUESDAY  
NIGHT IN MEETING.**

Tom F. Connally was elected president of the Hillcroft Golf Club at the called meeting of the club Tuesday evening at the Queen Theatre. J. T. Patman was named vice-president and Holman Kennedy was elected secretary-treasurer.

The meeting was called by retiring president Sam Braswell, and on motion a nominating committee was named who brought in nominations of the seven directors for the ensuing year. The directors elected were M. P. Gentry, J. T. Patman, Holman Kennedy, Wesley Knorrp, C. J. Douglas, Tom F. Connally, Geo. H. McCleskey. Under the precedent of the organization the new board at once elected officers as listed above.

M. P. Gentry was reappointed chairman of the greens committee. The course is in splendid condition and an effort will be made to enlist several others interested in golf as new members. The terms of membership as set by the retiring board for the year is \$30 sustaining fee, and a monthly dues of \$4.00.

The Hillcroft Club boasts of one of the best ground keepers in the section in Nolie Simmons, who will be retained for another year.

placed as Treasurer and stated in his reply that he was well pleased at being returned to the office and mentioned the fact that other members of the club might be enjoying new automobiles before the year was ended as all the immediate past presidents had been supplied with these means of transportation.

This was followed by the in-

TOM F. CONNALLY

### WHEAT IS THREE FOURTHS SHIPPED

**TWENTY CARS SHIPPED TO  
DATE FROM HERE. FEW  
CARS MORE TO SHIP**

Wheat shipments from Clarendon to this date will mark three fourths of the 1929 crop harvested and sold to the final consumers of this product. During the past week, the price for this commodity has risen to some extent and as the News goes to press, the price will stand at 92 cents or more. The test has been excellent, although the yield per acre has been as low as ten to twelve bushels in some cases and as many as thirty in a few instances.

With three-fourths of the crop in, there yet remains approximately seven cars yet to be shipped from the local buyers. The acreage of the crop was cut to a great extent this past year, but the yield has been such that the final number of bushels shipped will not show a loss comparable to the cut in acreage.

The average number of bushels to the car have run to 1,400, the majority of the cars shipped having been 1,500 bushel capacity. This brings the total bushels to 28,000 for the year and will probably be in excess of 35,000 bushels before the season has ended. For the county, this will be increased to a considerable extent by shipments from Jericho and Ashtola, the figures for these places not being available at this time.

Rev. and Mrs. S. E. Allison and Miss Gwendolyn will leave Monday of next week for their vacation and will possibly be out of the city for the coming two weeks or more.

Mr. and Mrs. O. C. Watson, O. C. Jr., George and Miss Dorothy returned the latter part of last week from Dallas and Fort Worth on a vacation trip.

Mr. and Mrs. W. R. Holder and daughter, Miss Carroll, returned the latter part of last week from a month's vacation to California, where they visited with their daughter, Mrs. Frank Gardenhire. They report an excellent trip but indicated that they were pleased to be back in Clarendon again.

### BAPTIST REVIVAL MAKING PROGRESS

**GOOD ATTENDANCE AND  
MUCH INTEREST DIS-  
PLAYED IN SERIES.**

Rev. W. W. Eaves of the Second Missionary Baptist Church of Lelia Lake is conducting a very successful series of meetings here in the tent on the Old Grammar School Grounds. He is creating much interest and is holding crowds that have been attending the services and taking some part in them. Otha Irwin of Tyler, is serving well in the capacity of song leader and musical director. Services up to and including Friday night have been announced as follows:

Wednesday: "The Persecution of the True by the False," 9:22.  
Thursday: 2nd Kings, 9:22.  
Friday: "Is it Peace, Jehu? What peace."  
Friday: "The Rule for Oneness of God's people."

There has been some discussion on closing the meeting Friday evening and this will be announced at the services of the meeting.

There will be services both Saturday and Sunday evening. The subject, "The Second Coming of Christ" being assigned to the Sunday evening service.

F. H. Lowe of San Antonio, was a visitor here in the home of Mr. and Mrs. Sam Lowe, his brother, and in the home of Mr. and Mrs. W. T. Lowe, his parents. He will return at a later date for a further visit.

Mr. and Mrs. H. C. Kerbow and Mr. and Mrs. Ralph Kerbow and daughter, Miss Dorothy, returned the latter part of last week from a vacation and fishing trip in New Mexico and Colorado. They report finding things very dry around Roswell, where they concluded their stay.

### JUNE CREAM AGAIN SHOWS INCREASE

**SLIGHT GAIN MADE OVER  
RECORDED SHIPMENTS  
FOR MONTH OF MAY.**

June registered a small gain in the amount of cream shipped from the local express station to various parts of the United States for sale. The records show that the total number of ten gallon cans shipped during the month of May just preceding.

The 587 cans shipped during June brings the number of cans for the year to 2,348 ten gallon cans. These, figured on a conservative basis of \$11.00 per can, which will probably average the price received for the cans during the past six months, bring the sum received by local producers to \$25,828.00 for the period just ended.

An interesting side light is derived from comparing the receipts by months, starting with 210 cans for January, 214 for February, 354 cans for March, 409 for April, 664 for May and ending with -- for the month of June. Taken as ten gallon cans, these figures do not seem so large, but when it is considered that there were 23,480 gallons of cream in these cans, the amount bulks larger than ever.

By weeks, the June receipts are: June 1st to 7th, 137; June 8th to 15th, 198; 16th to 23rd, 128 and June 24th to 30th, 124. The extremely hot days and winds in the latter part of the month of June cut the receipts to a considerable extent, or a greater increase than ever before would have been noted. The News is indebted to G. L. Green of the Railway Express company for the compilation of the figures given here.

### WILSON HOME DAMAGED IN BLAZE LAST FRIDAY

Fire believed to have been of incendiary origin damaged the home occupied by Mr. and Mrs. Roy Wilson in the west end of the city damaged the home to an undetermined extent early last Saturday morning. The fire pump was delayed on its run, first running to the East side and later returning to the scene of the fire. The fire was quickly brought under control after the place was reached, after the home and its contents had been badly damaged by fire, smoke and water. A suspect was taken into custody, charged with arson, later being released on \$2,500 bond. Preliminary examination was waived and he is held over until the sessions of the Grand Jury in October.

Mr. and Mrs. Edward Meek of Dallas, are guests in the home of Mr. and Mrs. W. H. Patrick.

### MARINE TEST IN NEW FORMATION

**FINE SAND STRUCK LATE  
TUESDAY AFTERNOON.  
ARE CLEARING OUT**

The latest report from the Marine Oil Test north of this city stated that the well had reached a depth of approximately 3,350 feet and that a new formation had been struck, further bearing out the predictions of the geologists who made the location for the well. After passing through formations that have been identical in every respect with the heavy producing fields of the Panhandle, this latest strike has made the backers of the project feel even more hopeful than ever before this time.

A small cave during the past night is delaying progress today, the men in charge running the baler, getting ready to again start drilling when the bottom has been reached. The sand is found in rather a loose shale that tends to cave and the drillers may be forced to run another string of casing to stop this and prevent further delays on the progress of the well.

Double tower shafts have again been put into effect on the well, after some two-weeks of shut-downs during the night due to impossibility to secure men to work on the project.

PANHANDLE PRESS ASSOCIATION

As we enter into the joyous celebration of the birthday of our nation let us not forget to be considerate of the safety of others as well as ourselves. The liberty we enjoy and the day we celebrate should not bring us anything but joy.

Governor Moody has signed the repeal of certain features of the "search and seizure" law which hindered the apprehension of bootleggers and those in possession of liquor. Thus an infamous law passed by careless legislature has been removed from the path of law enforcement and the cordon draws tighter on those who flout the eighteenth amendment and the state liquor laws.

"If I had my life to live over again, I would have made a rule to read some poetry and listen to some music at least once a week; for perhaps the parts of my brain now atrophied would thus have been kept active through use. The loss of these tastes is a loss of happiness, and may possibly be injurious to the intellect, and more probably to the moral character, by enfeebling the emotional part of our nature." —Darwin.

A vigorous weed-cutting program is being carried on over Clarendon following the appeal of Mayor Taylor and the yards are more attractive in a background of freshly manicured back-yards and alleys than since the opening of the season. Clarendon has never had a mayor more interested in the cleanly, attractive appearance of the city than Mayor Taylor, and one of the marks of high citizenship of our town is the way it responds to his leadership.

In a few days Texas voters will be called on to decide whether or not the supreme court will be augmented in numbers in order to hasten the administration of justice and equity in this state. At this election will also be submitted the matter of raising the governor's salary from \$4,000 to \$10,000 per year. These two matters the voters of Texas should have attended to years ago and we hope they will pass both measures this month. We certainly need to speed up court action, and the salary of our governor is a reflection on the citizenship of the Lone Star State.

From a casual examination of the reports of the home demonstration clubs of Donley County The News is convinced that aside from the educational and cultural work of the clubs, the cost to the taxpayers is paid in actual savings to the homes of the county. There is so much canning of home products going on, so many garments remodeled, so many pounds of butter and cream being raised in price by better handling and so much savings in home-sewing being supervised and directed by the home demonstration agent that the cost of her salary is turned into a neat profit—and it is growing from month to month. Aside from the mere mercenary angle of the work comes the larger profit to our county from brightened homes, enlarged vision of life-work and the by-products of a more cultured and refined citizenship. We cannot accord to the work of the home demonstrator and her club women. They deserve our unstinted support and commendation.

The News is thoroughly convinced that the Clarendon Independent School District is offering the citizens of Donley County a very unselfish and generous proposition in the county-wide junior college offer soon to be voted on by the voters of the county. Clarendon school district citizens are paying off the bond issue which purchased the old Clarendon College property, and yet they are willing to vote another twenty-cent tax on themselves along with the balance of the county to make the school county-wide in scope and to provide free tuition to every boy and girl in the county. Citizens of no other county in Texas ever had such a good bargain offered them, where one school district offered to furnish the buildings, grounds and equipment for a free tuition school, if the other districts of the county would merely participate in the cost of operating the school. No voter ought to vote for the county-wide college if he doesn't believe in the fairness and merit of the proposed offer, but if he does believe in it, he should go his limit in voting and working for its passage. That's fair and just.

### MARRIAGE A DIFFICULT EXPERIENCE

Now, marriage is probably the most difficult experience the individual will ever have. It is not only the mating of two creatures physically, emotionally, and socially different, but it is the interweaving of their lives in the daily association of a partnership that probably more than any other human experience remolds their character and conduct. It necessitates constant adjustments to meet new experiences. It tests as by fire such assets as self-control, fair play, unselfishness, unquestioned service, dependability, and the willingness to see the game through. It challenges every attitude and standard and ideal the individual has, and keeps going back to the boy-girl experiences that built these up. It is a relationship that demands the best the individual has in character, skills, and knowledge. To fail to train for it or to leave the training to chance is probably the most serious defect of our education today.—Newell W. Edson, American Social Hygiene Association.

## The Town Doctor

(The Doctor of Towns)

GO SOME PLACE THIS YEAR

At this time of year, there are several hundred thousand people throughout the length and breadth of the land who are thinking about vacation, and vacation, to most of them, means going some place.

That is the way it should be. This is the greatest nation in the world for "going places", and may such never cease.

To travel is to live. To sit sloth-like in one place is to see nothing, be nothing, feel nothing and next thing to knowing nothing. Travel is education—the most pleasant form of education known to man, for it "peoples the heart and mind with pictures that never fade". Travel gives a character of experience to our knowledge, and brings the figures upon the tablet of memory into strong relief.

Get away from the surroundings with which you are so "contemptuously familiar." Get away from the daily grind—go places, see things and learn, by contact with those of a different clime. If you live South, go North—if you inhabit is East go West. If you live on the plains, go look at an ocean, if you have never seen a mountain, go gaze at one, before you are any older. And in going, see what there is to see. Study how towns do things—how others who make their living as you make yours, conduct their affairs. What you learn depends solely on your natural powers and gift of conception, but regardless, you can't be the loser, for such a venture.

There are, in America, so many worthwhile places to go—places that every American should see and know about, that lack of a destination is no excuse. The National Capital, the National Parks, historical points, prominent in America's history—in every section of the United States, in your very own state, there are places to go.

But whatever you do, wherever you go, remember that you are an ambassador of the place where you live, and as such, "sell" it to all those with whom you come in contact. "Don't gush" about it, don't overdo it, don't lie about it—just sell it.

This Town Doctor article, one of a series of fifty-two, is published by The Clarendon News in co-operation with the Clarendon Lions Club.

### BETTER CITIZENS THRU BETTER NEWSPAPERS

By Merle Thorpe,

Editor of The Nation's Business, Washington, D. C.

The rate of progress in almost every field of human enterprise can be measured by the decrease of provincialism.

The neighborhood in which we live is constantly being widened,—by the radio, the airplane, television, the automobile, the telephone, trains, and ships. The Far West of a life-time ago is now next door. In travelling time the map of the United States has been shrinking at an astounding rate.

Our grandfathers wore clothing clipped from the wool of sheep grown on the village common, carded and spun at home and woven on the hand loom. Today they wear clothes made of silk from Japan, rayon from faraway forests, wool from Australia. Larders are stocked with food from every clime.

The man who sits on his own door step and shuts his eyes to the widening panorama of human activities is like the man who would still raise sheep in order to make his own clothing.

The good citizen is the intelligent citizen,—who keeps abreast of this widening march of progress. To do this he depends upon his newspaper and the more effectively the newspaper informs him of the trend of world events, the better he is equipped to do his own job.

Neither political, economic nor any other questions are now merely local questions. The world is our neighborhood.

The above is one of a series of editorials by prominent Americans contributed to The Clarendon News, member of the National Editorial Association.

### LELIA LAKE BOY RETURNS FROM CRUISE TO CHINA

Alfred Taylor, son of Mr. and Mrs. June Taylor arrived here last Friday evening on his annual leave of absence. He has just returned from a tour to China on the U. S. S. Trenton with headquarters at Philadelphia. He will leave here on July 15th for his ship. During his stay here he has been a frequent visitor to Clarendon to visit with other relatives and friends in the city.

R. H. Beville and Miss D'Laurel Beville returned to Clarendon last Thursday afternoon from an extended visit in all parts of the central part of Texas. Harwood reports a visit to the House of Representatives stating that the Yo-Yo craze has taken the center of attraction despite the talking that goes on the greater part of the time.

Mr. and Mrs. Archie Hallmark of Shamrock spent the last weekend here in the home of her parents, Mr. and Mrs. S. B. Kutch.

### GOING AWAY?

When in the next few weeks you yield to the call of the road remember that touring plans should include a Tourist Baggage Policy. A complete protection Automobile Policy and an Accident Policy. This office makes a specialty of the insurance needs of Tourists.

The fire of last Sunday morning further illustrates that property will still burn in Clarendon. The only safe way is to have us fully insure you. Never in the history of Clarendon, has insurance been as cheap as now, yet there are people without any insurance and a good many only half insured. Look over your Policies now and have us write you additional coverage.

## a new independence

— — — In July we celebrate the anniversary of the Declaration of Independence. And it is good that we set aside one day each year in which to rejoice over the freedom for which our forefathers fought and died.

— — — There is still another kind of freedom which we of this modern age enjoy—Freedom from the slavery of drudgery, disease and discontent. This new freedom is the result of years of experimenting with that great discovery—ELECTRICITY.

— — — By reason of its cheap and abundant supply, life has ceased to become a struggle merely to exist. The sweat shop has faded like a bad dream in the fog of time. Anemic, spindle-legged children have given way to a race of sturdy, red-blooded youngsters. Disease, to a great extent, has fled before the development of modern science.

— — — Through the extension of its facilities, industry is moving to the country. The vermin of the tenement has been eradicated by bright electric lights. The electric washing machine and iron, vacuum cleaner and similar labor-saving devices has swept drudgery to the forgotten past.

— — — We are proud of the fact that this company has a part in spreading this new freedom to 110 prosperous cities, towns and communities in West Texas. Fed by three major generating stations and fifteen auxiliary plants, more than 2,000 miles of transmission lines of this company carry an unlimited supply of electrical energy to the people of this "Land of Opportunity."

## Two From Panhandle in List Most Interesting Texas People

COL. GOODNIGHT OF CLARENDON IN THE LIST—  
GENE HOWE OF AMARILLO IS THE OTHER.

Some of Texas' most interesting citizens live in the Panhandle, according to a state survey which has been made by the Texas Public Service Bureau of Dallas.

Holding public office constitutes the strongest claim on public interest, the survey showed, for five of the dozen "most interesting" citizens are either office holders or once held office.

Two editors, two ministers, two capitalists and one educator comprise the remainder.

The 12 voted as the most interesting were:

Dr. S. B. Brooks, Baylor university.

United States Senator Tom Connally.

Ex-governor James E. Ferguson.

Marcellus E. Foster, Houston editor.

Come Johnson, state highway commissioner.

Jessie H. Jones, Houston capitalist.

John H. Kirby, Houston capitalist.

Governor Dan Moody.

Rev. J. Frank Norris, Ft. Worth.

Joe J. Taylor, Dallas editor.

Dr. George W. Truett, Dallas minister.

There was a long list of names which received almost as many votes as the 12 winners. They included three women, Mrs. Minnie Fisher, Cunningham of Galveston, Mrs. Pehey V. Pennybacker of Austin, and Miss Katie Daifan of Ennis.

Two citizens of the Panhandle who were in the runner-up class, were Gene Howe, editor of the Amarillo News-Globe, and Col. C. C. Goodnight, Clarendon, generally known as Panhandle's first citizen. Mr. Howe writes a column under the name of Erasmus Tack.

Other newspaper men receiving high votes include James H. Lowry of Honey Grove, Amon C. Carter of Fort Worth, George Dealey of Dallas, John Knott of Dallas, George Robinson of Waco, and Hugh Nugent Fitzgerald of Austin.

Dr. H. Y. Benedict of Texas university, Dr. C. C. Selectman of S. M. U., Stockton Axson of Rice Institute, Dr. T. O. Walton of Texas A. & M. college, Dr. Joe Pritchett of Huntsville Teachers college, State Superintendent S. M. N. Marrs, Dr. J. C. Hardy of Baylor-Belton, Dean T. U. Taylor of Texas university were among the educators receiving substantial state-wide recognition in the balloting.

Senator Morris Sheppard, R. B. Cressler, Mayor J. Waddy Tate of Dallas, former Governor Pat M. Neff, Chairman R. S. Sterling of the State Highway commission, Lieutenant-Governor Barry Miller, Thomas L. Blanton, Lynch Davidson, T. W. Davidson, Albert Sidney Burleson, T. H. McGregor of Austin, George Purl of Dallas, Archie Parr of Benavides, Congressman John N. Garner, General M. M. Crane, Oscar F. Holcombe of Houston, Senator John H. Bailey, former Speaker R. Lee Bobbitt, Jewell P. Lightfoot of Fort Worth, Sheriff A. V. Baker, of Edinburg, were among those who hold or have held offices or are politically interested who were voted among the "most interesting." Former Judge Nelson Phillips and former Governor William P. Hobby could be included in that list or put, respectively, among the lawyers and newspaper men.

Two Texas ranger captains—Tom Hickman and Frank Hamer—voted as "most interesting" in some of the ballots. Nathan Adams, banker; John W. Carpenter, utilities; J. L. Lancaster, railroad; Rabbi Henry Cohen of Galveston; Bishop Mike Quinn of Houston, Dr. Atticus Webb of Dallas; Rev. Mr. H. B. Kenney of Cameron, ministers; M. H. Thomas and M. H. Wolfe, cotton men; Sam P. Cochran, insurance; Dr. L. E. Gates, minister of San Antonio; Harry Rogers, capitalist and former president of Rotary International.

Buying a good herd bull is the first step in growing better calves at less cost per pound. In common or native-cow herds, calves sired by purebred bulls average 125 pounds a head more when one year old than calves of the same age sired by average scrub bulls and they sell for about 2 cents a pound more as stockers and feeders, says the U. S. Department of Agriculture. Two-year-old steers sired by good purebred bulls weigh, on the average, about 200 pounds more a head than steers sired by scrub bulls and sell for considerably more.

### WHY NOT BE SAFE?

Keep your funds on deposit in a bank where they will add materially to your credit rating as they grow from month to month. They are safer by far in that place than in any other you might name. Try this plan once and be pleased with the result.

### SHORT CUTS TO HOUSEWIFELY LEISURE

College Station—A home maker must take short cuts to the necessary three meals a day if she has time left to enjoy her family, her friends, her club and have an occasional pleasure trip. In recognition of this Texas home demonstration agents are showing housewives how to save time in preparing meals.

Among the methods demonstrated is the use of labor-saving utensils and tools, such as fireless, pressure and waterless cooker, double boilers, dish drainers, food choppers, light weight egg beaters, measuring cups and spoons, casseroles, toasters and broilers. It is shown to be important also that tools and fixtures be kept as close together and convenient to the places where they are most needed. Trays and wheel stands are step and time savers in carrying food to and from the dining room, many women are finding.

One dish dinners are becoming popular among home demonstration club members, since they are easy to prepare, simple to serve and require little dish washing and clearing away afterwards. A casserole dish of meat and spaghetti, or beans, or beef hash and tomato sauce, or Irish stew, or corn chowder make a complete meal when combined with a fresh salad, tea, coffee and milk and bread.

Meats, vegetables and fruits canned in season can be made ready for the table in a few minutes, and with this in mind hundreds of women are this year arranging emergency shelves in their pantries. They stock them with assortments or foods for use when company comes, when illness interrupts the routine, or on wash days. Gift shelves and pantry shelves are appropriately stocked by some women, and many are writing out several quickly prepared menus to hang in the pantry for reference.

Other time and health savers recommended are a high stool to sit on to save tired feet and back; right height of working surfaces to save backache and fatigue; a small, soft, washable rug in front of sink to help tired feet; a hinged shelf for extra space; sharp knives; and the discarding of useless tools such as egg beaters that won't beat and sifters that slip.

### SARGON SMASHING WORLD'S RECORD

If anyone told you that one single medicine had relieved tens of thousands of suffering men and women in all walks of life of their health troubles and that it had put thousands of other men and women unable to find relief back to work, it would sound impossible, wouldn't it?

But that is just exactly what is happening right here in this state. Not only has it brought new-found health and a strength but it has given them new energy, new vitality and a new lease on life itself. In many cases, the results have been so remarkable that many people have bought it and sent it to friends in other states, while other thousands have written grateful letters of praise.

The wonderful success that Sargon and Sargon Soft Mass Pills have achieved in only one year's time simply staggers the imagination.

In the state of California alone where it was introduced on April 16 of this year, it has required the astonishing total of nine solid carloads—or more than 200,000 bottles—to supply the demand. Kansas City retailers and wholesalers have sold and distributed over 300,000 bottles in the states of Kansas and Missouri, Minneapolis and St. Paul dealers have required nine entire carloads in five months. The demand in practically every state and section where Sargon has been introduced has been correspondingly large. When national distribution has

### NEWS RECEIVES PICTURE OF CHINESE WAR GOD

A highly colored picture was received in the News office the latter part of last week, representing the Chinese War God. The following letter gives an explanation of the poster and will also give some idea of the extent of the famine in that country.

C. P. O. Box No. 1234,  
Shanghai, China,  
May 20th, 1929.

Dear Editor,

Wars in China suggest sending you "Wu-ti" the Chinese god-of-war. He is seated, behind is his armor-bearer. The general idea about Wu-ti is that he delights in war. That is not the Chinese idea of him. Once, a man nine feet high, he did great exploits in war, yet he is best known for his loyalty to his friends for protecting the weak. Officials and scholars worship him as the ideal of loyalty, soldiers do it to make them brave and protect them in battle, and the people worship him to protect them from war's horrors. He's called "Peace Bringer, Protector, Great God of Loyalty." But he makes not peace, nor protects nor makes loyal, so is a failure. He's also called "Warrior Prince." As to that name he's a great success!

In spite of the claims of Nankang that China is united wars break out constantly, the Chinese war-lords fighting each other—not fighting for patriotism nor for freedom but for money—to squeeze money from rich and poor alike. The most fighting is where the loot is richest. Reports make this war-mess a real Chinese puzzle; but keep it in mind its just a big scramble for money and power—then there's no puzzle about it except the puzzle as to how men can be so cruel as to bring such havoc and pain for money. But they know not Christ. We must stay and preach—not run.

Recently I have received letters from American suggesting that since "China has altogether gone to the bad and the Chinese are absolutely impossible" and since our "work among them has gone for nothing" then I should "quit and come home." I hope you don't think thus. The masses of Chinese the reminding one of "dumb driven cattle" are still friendly as ever. The war-lords, the Nationalists, the Reds, the bandits, wars and evil propaganda are disturbing elements; but they are NOT China nor the Chinese. Terrible they are; but they do not represent the Chinese and their attitude toward us. Most of our Christians have kept loyal and have stood by us in time of real danger. This is true not only of Christians; but of many heathen too who have helped protect us at much risk to themselves. The troubles in China have come from a fiercely aggressive and "noisy minority," who make the great mass suffer untold hardships. The Chinese are not "impossible" and what Christianity has done for China during all

been completed it will require millions upon millions of bottles to supply the ever-increasing demand for this celebrated medicine. Back of Sargon's triumph in the drug stores is Sargon's triumph in the homes. Everywhere it has been introduced it has become a household word and it is unquestionable the most widely talked-of medicine in the world today.

When Sargon was first given to the world just one year ago, it was hailed as a triumph in the field of modern medicine. Many well known authorities who watched its development freely predicted that it would become the one great outstanding, health-giving remedy of the age. But the men of science who labored for years to perfect it little dreamed it would become such a great boon to humanity in so short a time.

Sargon may be obtained in Clarendon from Douglas-Goldston Co.; and in Hedley from Hedley Drug Co.

### FOR WINTER PROFITS FEED HENS NOW

College Station—It pays to feed hens a laying mass straight through the summer, even if eggs are cheap. This is an experience of hundreds of poultry demonstrators in past years and will probably hold true again this year, E. N. Holmgren, Extension poultryman thinks.

"Our demonstration flocks show that eggs may be produced during the summer for a feed cost of 13 cents or less per dozen," he explains. "But where a balanced ration is abandoned and the fowls left to shift for themselves in an attempt to save a feed bill we have found that the egg production often falls off so much that the cost of producing a dozen eggs is nearly if not quite as high as this, and the birds are left in bad condition."

"The high cost of not feeding hens in the summer time is felt most in November and December when eggs are high. A summer-starved flock just can't come through with many high priced eggs at that time."

"One of several good rations is known as the Big Five, made up by mixing 100 pounds each of wheat bran, wheat shorts, ground corn or milo, ground oats, and meat scrap of 5 per cent content. This is fed as a mash kept before the flock in hoppers. For scratch grain, cracked corn and wheat and oats are mixed together in a 2-1-1 proportion."

these years has not "gone for nothing" but is planted deep in myriads of hearts of men, women and children. Shall we desert the Chinese because a comparatively few are wicked? A thousand times NO.

Not only for Christianity's sake but for humanity's sake the Chinese common people's need calls us to-day. The wars and bandits have made sad havoc in many places and the famines, caused in some places by too little rain and others by too much rain, have brought millions to starvation. The Chinese "Government" has made a wonderfully great show of helping on paper but has done comparatively nothing to save the starving. The Chinese Red Cross and Famine Relief people are working hard but their efforts and their funds are hopelessly inadequate for the task. And for some reason very little help has come from organizations abroad, so that the famine-stricken people are indeed in an exceedingly bad way. I have never known a time when the lot of the common people was as hopeless as it is to-day. Oh that I were a multimillionaire and were a thousand young men so that I could throw myself into the breach and help save at least the mothers and children who are dying like flies in many places in China. I am not in a place ravaged by famine but should any readers of your excellent paper desire to help save life they can send gifts to me by draft, personal check, P. O. Money Order, or by U. S. Notes in Registered letter and I shall do my best to see that they go to the most needy places in the famine districts, and so their gifts will all go to feed the hungry and relieve suffering. With best wishes and kindest regards,

Yours in Christ's glad service,  
(Rev.) H. G. C. Hallock.

### GROSBECK TO BE HOST TO STATE WIDE YO YO FETE

Groesbeck, Texas, June 28.—(U. P.)—A state wide yo yo contest and a state wide yo yo organization meeting will be held in connection with the annual Jacks Creek Reunion U. C. V. July Fourth.

Prominent yo yoers from all parts of the state have been invited to compete in the contest, according to officers of the American Legion post here in charge of the reunion.

In addition each county will be invited to send a representative with the only requirement he be of some age and sex, and a native of Texas.

A fireworks display and speaking will also be on the program. In the morning a Boy Scout Jamboree will be held.

In one week recently over 2,000,000 pounds of wool were sold at Del Rio at an average price of 33c a pound.

### Did You Ever Stop to Think?

By Edson R. Waite, Shawnee, Okla.

E Kent Hubbard, President of the Manufacturers Association of Connecticut, Says:

"Ever since my college days, I have been a firm believer in team work, whether practiced on the gridiron, the diamond, or in a unified effort to bring about increased efficiency in business. Team work is unselfish. It submerges petty self gain or glory in the interests of reaching a higher goal for all. It merges the strong points until they overlap the weaker. The results are as many stars united to light the way to new discovery and greater ultimate accomplishment. The unification of all railroads into a few large systems would be the masterpiece of twentieth century team work. It would be a boon to the manufacturer, the wholesaler, the farmer, and the customer."

"Many consolidations, in diversified lines of business, during the past two years, have already set a precedent in favor of lawful combination for the best interests of industry. They have blazed the trail for the greatest of our railroad transportation systems. All future advancement in industry and agriculture depends on the increased efficiency of transportation. Obviously, all products of the ground, goods in storage, manufactured products in warehouses, or crops in barns, represent frozen assets, until the surplus can be moved to a ready market. Millions of dollars in interest are lost every year while goods are in transit, and wholly at the mercy of the transportation agencies. I am certain that the speeding up of the marketing process will expand markets and have a tendency towards stabilizing freight rates, and equally certain that the one sure way to accomplish this is by a close alignment of railroad transportation activity, which can only come through consolidation."

"I believe the Recent Efforts at Consolidation of Railroads is the Forerunner of a Period of Many Consolidations Before the End of Mr. Hoover's Administration. Because of Mr. Hoover's Thorough Understanding of Economic Problems, Combined With His Ability to Organize, I Believe We Shall See, in the Next Four Years, Great Strides Toward the Development of His Policy in Handling the Administration of Railroads, Which is Partially Expressed, Thus, in His Own Words: 'The Earliest Practical Consolidation of a Railroad Into a Larger System, Under Conditions of Maintained Competition in Service, in Order to Secure Greater Economy in Operation, and Assurance of Development, 2 Lower Freight Rates and Greater Stability in Earnings and the Development of Proper Joint Rates and Service by Water and Rail Transportation, in Order to Relieve Extension of Railways, Where Unnecessary, and Give the Public the Advantage of Cheaper Water Transportation.' I Am Highly Optimistic Over the Outlook for Increased Prosperity Through 'National-Wide Betterment of Transportation Facilities.'"

### ADJUSTMENT HELPS FOR WARM WEATHER

In a climate such as ours, where there must not be only warm but hot weather for his majesty "King Cotton" to thrive, human beings have to be on the alert to keep comfortable.

Comfort, well-being, good-tempered and efficiency depend largely upon how we adjust ourselves to our surroundings.

Those who have made a study of creature comforts for torrid days suggest these helps:

1. Wear less and lighter clothing; this applies especially to men.

2. Encourage circulation of air. If there is no natural breeze, the electric fan will help. This applies especially to working and sleeping quarters.

3. The cool night or early morning air may be largely retained in houses by closing the windows and darkening the room with the window shades, early in the forenoon before it gets warm.

4. Drink plenty of water. Drink whenever you are thirsty but preferably not more than two glasses at meal time.

5. Eat less of the fattening foods such as cream, butter, fat meat, sugar, cakes and other pastries. This applies especially to those who are overweight. This is a good time to reduce.

6. Those who are "full of pep" should slacken their pace a little. This advice may be ignored by a great many.

7. Make the necessary mental adjustment. Don't grumble because it is hot. Accept the situation cheerfully and make the best of it.

While at all times moderation is advocated, certainly the summer time is not the time for break-neck speed. Even though excitement and thrills are the coveted emotions of old and young alike, read and heed such sound advice as this—"Limits there are to all things. High-powered addiction to bootleg liquor, unwise over-indulgence in inhaled smoke and nightly worship before the dance muse are some of the ways if persisted in to undermine the most priceless possession on earth, the human body is so constituted, flexible as it is to react healthily to the application of the fundamental living rules and to react in just the opposite way when these laws are consistently disregarded, and a sick body or a half-sick one cannot get out of this wonderful world in which we are now living one tenth of the actual joy of life as can a person who is hitting regularly on all eight."

Remember 'tis summer time, go slowly, eat lightly, adjust yourself to the temperature!

Snyder will entertain 150 4-H boys at a two-day picnic on July 19 and 20 through the courtesy of W. O. Logan, county agent. Prizes will be offered by merchants and camp will be made at Wolf Park with swimming privileges given by Snyder Gold Club. Two plane rides with "Slim" Lowry, new government licensed pilot in charge.

### Gay Cottons For Juveniles

COTTONS have always been proper for children's wear in summer, but never have they been more charming for the very young generation than they are at the present time. Sophistication is one of the things which proud mothers usually like to put into the clothes of young daughters. Very often this can be easily exaggerated and overdone. Not so in the fabrics which are shown above.

At the left is a border print with Chanel's new eyelet lacing which is used to give a charmingly naive effect to this frock. The dark border of the print in the reverse of the pattern is used cleverly at the hem line featuring a French tuck which may be used to adjust the length.

At the right is a printed broadcloth in large geometric motif which is especially suitable for everyday wear. The plain white collar and shiny buttons give an effect of tailored trimness.

### CONFEDERATE VETERAN

The "Revised" Uncle Tom's Cabin.

The recent showing through the South of what is called a revised "Uncle Tom's Cabin," has but intensified the feeling that such a picture should not be allowed to give its perverted view of slavery to the young people of the country, who accept it as showing slavery as it really was. The picture was shown in Montgomery, Ala., and there viewed by the Commander in Chief, U. C. V., Gen. A. T. Goodwyn, whose expressions of condemnation came out in the Advertiser, as follows:

"I can truly say I have never before seen any pictures or heard of any conditions in screen presentation more revolting, more heart-rending, more brutal, and more at variance with the truth of history than those shown in the pictures of Uncle Tom's Cabin. Whatever pictures could do

to excite the indignation of the Southern people, as well as the negroes, at a time when the interests of both rest on a better understanding of each other, when efforts are made for a harmonious relationship, these pictures are calculated to do. I say calculated, because the treatment of the theme is much more harassing and exaggerated than is given in the book by Mrs. Stowe.

"The picture is historically false, malicious, and indefensible. It is an insult to our ancestors and a laudation of the maligners and traducers, invaders and despoilers of our Southland. The picture does not show that New England had a monopoly of the African slave trade and became enriched by it.

"When Abraham Lincoln issued his proclamation of emancipation of the negro in the Southern States, he did what, under the circumstances, was the most disastrous thing that could have be-

### NORTH CAROLINA SOLVES HIGHWAY FINANCE PROBLEM

PAVEMENTS CONNECT ALL CITIES; BOND ISSUE METHOD RESPONSIBLE.

By E. E. Duffy

North Carolina has virtually solved its highway problem. This bit of information, the declaration of Frank Page, former chairman of the North Carolina State Highway Commission, should have a cheering effect on that host of states which seem to be making a little headway in combating mud, high-cost car operation, excess road upkeep, and so on.

Since 1921 North Carolina has spent a considerable sum of money on highway improvement, but so have many other states which certainly have less to show for it. North Carolina's highway planners looked into the future, decided that the pay-as-you-go plan was usually slow, inefficient and unprogressive in military annuals. These bonds, \$115,000,000 worth, have enabled that state to lay some 2,370 miles of concrete rural roads, in addition to other improvements. These roads, let it be remembered are in use; they are being paid for by the motorists of today and those of tomorrow as well.

In effect North Carolina has fallen them. Thousands of the old and infirm, thousands of the very young, were left to starve. Having no guiding hand, they knew no way to help themselves and were as incapable of providing food, clothes, and shelter.

"The South had been wantonly desolated by the most barbarous and vindictive war in military annals. This indefensible war of economic greed was waged under the direction and congratulations of Abraham Lincoln—by duplicity and prevarication, deceiving, and misguiding the good people of the North.

"This strong statement is clearly justified by the true history now being revealed."—Confederate Veteran.

Dr. J. G. Sherman  
DENTIST  
Room 3 Goldston Bldg.  
Res. Phone Office Phone  
251 43

purchased a highway plant on the installment plan. And now that plant is earning large dividends for its motoring stockholders.

Through the income from the five-cent gas tax and motor license fees, North Carolina has enough money to take care of the annual retirement and interest requirements, with a sum left over after maintenance that provides for considerable additional pavement construction.

North Carolina's achievement is being taken as a model by nearby states; South Carolina has just adopted a \$65,000,000 issue and Georgia, with but few connected improved roads, is likely to issue seventy-five or a hundred million dollars worth of bonds.

A large part of the job in North Carolina is done. Trucks and busses, flyovers and limousines in growing numbers now scurry from population center to population center without getting off the concrete. The saving in operating this vast herd of cars over these improved roads makes the gas tax look like an atom.

Del Rio water works is being installed. The bottom of both of the 1,000,000 gallon tanks have been laid and the forms are being placed for the pouring of concrete on one of them. Each tank will be 28 feet high, and 80 feet wide. Walls are 10 inches thick and well reinforced with steel.

### BILLY DIXON LAID TO REST FOR FINAL TIME

Borger, Texas, June 28—(U. P.)—After a splendid reburial yesterday, the body of William "Billy" Dixon, army scout, frontiersman, rancher, and hero of the battle of Adobe Walls in 1874, rested today at Adobe Walls, Hutchinson County.

A combination masonic and military funeral was accorded the veteran fighter, Boy Scouts and the Panhandle's most eminent leaders assisted in the program.

Dixon's body was brought here from Texline. The site on which the battle was fought is owned by the Panhandle Plains historical society. It was homesteaded by Dixon.

Spearman dealers recently received 15 Chevrolet trucks to supply the demand of farmers who desire to haul their wheat crop to town. A sufficient number of railroad cars to carry the grain to the markets has been assured.

The Cisco co-operative Livestock Marketing association shipped two cars of hogs and one of cattle to the Fort Worth market recently. The cattle brought \$1,600. There were one hundred sixty two head of hogs. R. L. Poe remained in Fort Worth to observe the results of a new tagging machine used on the hogs.

## Building a Home

Consult with us when you take this important step and allow us to make suggestions that may save you many dollars.

We have books of plans that are especially prepared for the use of our patrons. We'll be glad to let you have these for your consideration.

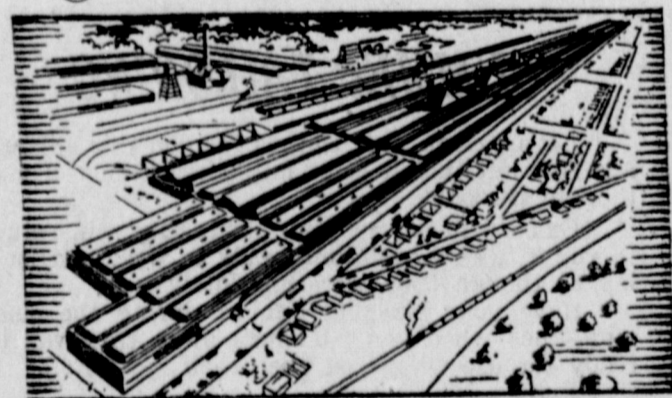

When you come to the actual building, you will find that we have a most complete line of lumber and other building supplies. Our company has many experts who devote their entire time to assisting others in the planning and decorating of homes. Let them help you with your problems.

When the home is to be finished, we have paints and wall papers that would please anyone. We should be very glad to show you samples and quote you prices.

### CHRYSLER MOTORS PRODUCT

This new and modern manufacturing plant is devoted exclusively to the production of Plymouth motor cars. It is the largest plant of its kind.

## Marking the First Anniversary of a notable Success

PLYMOUTH—One year old this week—is already a giant in fact and favor

One year ago, Plymouth was a brand-new name to the motor world. In the brief span of twelve months, Plymouth, now newly refined and improved, has become everywhere a commanding figure in the low-priced field.

Only a year—and Plymouth finds itself in the biggest and most modern plant of its kind in the world. Only a year—and

Plymouth production now exceeds the rate of 1000 cars a day.

Quality—that's the story of Plymouth success—quality that reflects itself in both appearance and performance—quality that says to the automobile buyer, "No longer does a small investment restrict you to a car of small dimensions."

See it, drive it—and learn what Plymouth quality means.

\$655 and upwards f. o. b. factory

PLYMOUTH PRICES—Six body styles, priced from \$655 to \$695. All prices f. o. b. factory. Plymouth dealers extend convenient time payments.

PLYMOUTH AMERICA'S LOWEST-PRICED FULL-SIZE CAR  
WHITE MOTOR COMPANY  
CLARENDON, TEXAS

## More per Gallon but LESS per Trip

That's the economy of CONOCO-ETHYL GASOLINE

DURING the summer, when long motor trips are in order, a most important cost factor is wear and tear.

Every time the motor knocks, it is undergoing unnecessary strain. Its life is being shortened—its resale value reduced.

That's why we say, that in the long run, Conoco Ethyl Gasoline will cost you less per trip. Conoco Ethyl absolutely eliminates knocks. It delivers full power with every stroke of the piston. It gives lightning pick-up in traffic driving. In short, it provides a surge of power—up the hills or on the level—which keeps your motor gliding along with practically no effort. That's economy! Give Conoco Ethyl a trial. See how cool it keeps your engine, and experience the real satisfaction of having your car run as the manufacturer intended it should. You'll find a convenient Conoco Ethyl pump ready to supply you.

Conoco Ethyl is a proper admixture of Conoco, the extra-miles motor fuel, and Ethyl Fluid, developed by General Motors. All Ethyl Gasoline is not Conoco Ethyl. To be sure you are getting Conoco Ethyl, fill only at those pumps which display the Conoco Ethyl sign.

# Aeroplane Radio Communication Demonstrated For Newspapermen

Above, right: Bell Laboratories monoplane in which demonstration was made. Above, left: Reporter with headset talking into transmitter. Center: Edgar S. Bloom, president of the Western Electric Company, holds inaugural two-way conversation with plane in air.

## New Plane Receiver and Transmitter Lauded in Press Throughout Nation

"Cortland 7700, please." There was a minute's pause while the connections were being made and finally the telephone jingled in the office of Edgar S. Bloom, president of the Western Electric Company.

"Hello, Mr. Bloom, this is Bernhard speaking. I'm calling you from an aeroplane up about two thousand feet in the vicinity of New Brunswick. Can you hear me distinctly?"

"I can hear you as though you were in the next room," flashed back over the air to the plane winging its way at a speed of over 100 miles an hour. And when the telephone receiver was returned to its hook a new era in telephonic communication had been inaugurated—two way conversation between aeroplane and ground.

Ever since the war the Bell Telephone Laboratories have been seeking to perfect the device which was so

successfully demonstrated. During the war the laboratories were active in radio developments but there were many problems to be surmounted before it was considered that such a transmitter and receiver were ready for commercial use. The question of weight was an important one. Then cutting out the roar of the motor so that the man in the plane could hear the message coming to him over the air was another factor. But one by one these obstacles were overcome until the set as it now stands is as nearly perfect as present-day engineering ingenuity can make it.

The receiver promises to be one of the biggest factors of safety in the air. By means of it an aviator will be able to hear the weather reports which are broadcast hourly giving atmospheric conditions throughout the country. He may also pick up radio beacons which assist in locating land-

ing fields in darkness and fog. Or, if the plane is equipped with both the receiving and transmitting apparatus, he may carry on conversations with the ground throughout the entire flight. It will be readily seen how this step has helped to blot out one of the dangers of the air.

The official demonstration given for the newspapers was held under the most adverse conditions. Part of the day it rained and at all times it was misty and the clouds hung low over the flying field. In spite of these handicaps the tests were made for 20 New York newspaper representatives all of whom praised the equipment unqualifiedly. One Manhattan newspaper referred to the cabin monoplane as a "flying telephone booth." It was unanimously agreed that the apparatus is a big step forward in the art of radio communication, and air transportation

**NAYLOR**

Misses Louise Tidrow and Zella Scott are now at home, after a term of Summer School at Memphis. We are glad to note the young ladies did well and Naylor is proud of their records. Both will return to Memphis this fall to enter High School.

Mr. and Mrs. Evans have for their house guests this week, their daughter, from Memphis, Mrs. Smith.

Mr. and Mrs. A. O. Hefner spent the week end at Pampa, visiting with Mr. Hefner's brother, Grandpa Hefner went with them.

Mr. and Mrs. A. E. Tidrow visited Sunday afternoon with Mr. and Mrs. Morrison.

Mr. and Mrs. Rhea Bowlin, also Mr. and Mrs. Wynne Bowlin and family of Hedley, spent Sunday afternoon with their parents, Mr. and Mrs. Richmond Bowlin.

Mr. and Mrs. Berry Bishop and children, also Mrs. Bishop's father, Mr. Hightower, and Grandma Hightower, all of Corpus Christi, were over week guests of Mr. and Mrs. R. E. Beach, they being sister, father and grandmother of Mrs. Beach.

Mr. and Mrs. Douglas Arnold spent Sunday afternoon with Mr. and Mrs. Morrison.

Mrs. Bishop and children of Corpus Christi, also Mrs. R. E. Beach were guests in the Rich-

**MODEL "A" FORD WINS INTERNATIONAL RACE**

Winning first and second place in the recent Copenhagen-Paris-Copenhagen, 1440-mile race, the Model A Ford car has again demonstrated to Europe its endurance, speed and durability.

Details of the performance of the two cars have just reached here. From those accounts it was learned that the car winning first place—a Tudor sedan not in any way outfitted for racing—already

Bowlin home guests of Mrs. Elizabeth B. Beach.

Judge Alexander and son, Cecil, and family were out Sunday afternoon looking over the Alexander place. Judge is much delighted with every thing.

Crops at Naylor are fine, clean and growing, so the farmers will enjoy the 4th.

These hot days the bathing beauties are on parade, so the old "swimming hole" has plenty of company.

Miss Ruby Moore spent some time with Miss Fanny Naylor.

Some of our men are un with their work and are off to the harvest.

had been driven 23,000 miles by the owner before the race.

"My car is now as good as ever," said the owner, Paul Tholstrup, of Roskilde, Denmark, at the conclusion of the race. "I am ready to drive to Paris again without even giving it a once-over."

Eleven cars started the race. Six finished. The most formidable difficulties were encountered. Great stretches of road were deeply rutted and for many miles impassable. For hours the cars had to be driven through fields. Dense fogs made the night driving extremely hazardous. Many detours added to the difficulties.

"We just went, that was all," Mr. Tholstrup said. "No matter how deep the ruts, or whether, as in one instance, we had to go into the fields, in fact, we just flew over everything. And we did not have one single mishap, aside from a couple of punctures, on the entire trip."

The contest was sponsored by the Danish Motor Union and the well-known Danish newspaper "Politiken."

There is \$2,500,000,000 life insurance in force in Texas now, an increase of \$1,750,000,000 since 1920.

# IS THE WORLD REALLY GOING TO THE BUGS?

**SCIENTISTS TELL US THAT THE INSECT KINGDOM MAY SOMEDAY DOMINATE THE WORLD. DRASTIC MEASURES NEEDED TO KEEP THIS EVER PRESENT MENACE IN CHECK.**

A letter, recently placed on my desk announcing the opening of a National Insect Killing Week to begin July 7th, reminded me of a conversation I once overheard in a Pullman while enroute to California. Two fellow travelers were derisively discussing a magazine article one of them had discovered in which a well known scientist had asserted that someday man's boasted civilization would be utterly obliterated by the ever increasing myriads of the lowly insect kingdom. "A lot of sensational rot!" scoffed one. "Yeah!" agreed the other. "Guess these college profs haven't anything to do but write fool stuff like that."

I said nothing, for it would have done no good. I would merely have been considered another of those fool profs with nothing to do but concoct lurid poppycock for popular amusement. Nevertheless, I sympathized very much with the writers point of view. I recalled the fact that, had it not been for the late General Gogga's brilliant campaign against the mosquito, the Panama Canal would have been the same dismal failure as the French fiasco in Nicaragua. As a matter of fact, I would almost be willing to back the mosquito to accomplish the downfall of man single handed were it not for the recent arousing of public consciousness to the fact that these insects carry the germs of malaria and other dangerous diseases. The use of insecticides to combat those pernicious pests has now become fairly general but much is yet to be done. There cannot be too many spray guns in action against this really formidable enemy.

Should mosquitos need an ally in their attempt to conquer mankind they could hardly do better than enlist the aid of the lowly house fly. Born in filth, the fly never loses his liking for it. Nothing seems to please him more than a chance to dabble his feet in every conceivable kind of germ laden nastiness and then transfer it to food intended for human consumption. Screening is only partial protection. Flies will get in spite of every barrier erected against them and a good Fly and Insect Powder should be constantly on hand to strike them down as fast as they show up.

But while discussing the various insect pests that threaten the health and comfort of mankind let us not forget that athletic fellow the flea. To most people he is merely a minor nuisance treated more as a joke than a serious menace. Yet, science now recognizes this tiny broad jump champion as a carrier of the dreaded Bubonic Plague. The fact that almost all domestic animals are occasional hosts to the flea is reason enough for extreme vigilance. Fly and Insect Powder for the smaller animals and especially household pets and occasional dipping for infested live stock will help to keep down the flea. Let it not be forgotten, too, that the rat is a carrier of these plague ridden insects—so swat the rat at every possible opportunity.

Mosquitos, flies, fleas, bedbugs and we're just getting a good start. Who said civilization wasn't menaced by bugs?

good Fly Chaser liquid and their usefulness will be greatly increased thereby.

Going further afield, think of the many forms of insect life constantly threatening the welfare of our poultry flocks—lice, mites, to mention only two. Plenty of work for the right kind of insecticide there. A good Lice Powder for dusting his birds and a supply of Dip and Disinfectant solution should be considered part of the essential equipment of every poultry raiser.

The gardener, too, is aware of the seriousness of the insect problem. Almost overnight any garden may be overrun with innumerable hordes of tiny but destructive warriors that in point of numbers would put the combined armies of the World War to shame. For some the Garden Insecticide powder and for others the liquid insecticide, but unremitting warfare of one sort or another must be carried on throughout the season if a paying crop is to be harvested.

So after all, our scientific friend was unquestionably much nearer the mark than our two friends who jeered at this prophecy. The insect conquest, if it ever comes, is a matter of centuries in the future, that is quite true, but there is plenty of reason for starting a determined offensive against all forms of insect pests right here and now.

No less an authority than Colonel M. A. Reasner of the United States Army Medical Corps has stated that, directly and indirectly, insects have caused more deaths than all the wars of history added together. When you consider on top of that the billions of dollars worth of property they destroy every year, it is easy to see that no small problem confronts us. Let us put in to effect that well known army maxim, "A determined offensive is the best defence" and prepare in all seriousness to defend our lives and property against these tiny but all too powerful adversaries.

**PANHANDLE-PLAINS MEN HERE MAKING BIG TOUR**

Dr. O. H. Loyd of Vega, and R. W. Arnold of Hereford were in Clarendon Friday of last week on a tour of the Panhandle section of the state to interest the various counties more in the Panhandle-Plains, Incorporated, proposition of taking fair exhibits to many of the northern states this Fall and Winter. While here, they reported that they were meeting with excellent results from every county visited. Dr. Loyd is from Vega in Oldham County and has gained great fame as an exhibitor by winning many places where he has exhibited the products of his county at fairs. Mr. Arnold is the Secretary of the Chamber of Commerce at Hereford and is giving much of his time to the work of the organization.

Hereford's new creamery will be installed soon as two car loads of machinery have been received. One car contained vats and churns and the other the refrigerating plant to be used for keeping the cream at the proper temperature to make butter.

## Sound Picture Apparatus Requires Uttermost Delicacy of Manufacture

By EDWARD HOLDEN  
(Special New York Correspondent.)

When two years or so ago some of us saw for the first time a motion picture successfully combined with sound, it seemed almost as though a miracle had been performed. There was something almost supernatural about having a screen person speak while at the same time you heard what he was saying.

But the production of the sound pictures we saw at that time is not the only near-miracle connected with them. Others are occurring every day as each succeeding piece of equipment used to produce and reproduce them is turned out at the Hawthorne Works of the Western Electric Company in Chicago.

It was only after years of study and experimentation on the part of the engineers of the Bell Telephone Laboratories in New York that their apparatus for producing pictures with sound was given its first public demonstration. The apparatus used was an unique, a specially made model. Into its make-up went a myriad of parts—delicate-tuned amplifiers, receivers, tubes, reproducers, sensitive, intricate, precision-made apparatus. Having proved successful, other models were in immediate demand. Each of the parts had to be faithfully reproduced, not only once but hundreds of times. To do this was the task set the Western Electric's manufacturing stores.

When it is realized that some of the measurements dealt with do not exceed one-tenth-thousandth of an inch, some conception of the enormity of the task can be formed.

The most skilful of workmen, and machinery that measures more accurately and handles more carefully than could human hands, are called into play in the manufacture of the equip-

Sound projector equipment is subjected to a most rigorous inspection. In the picture above a group of inspectors are testing amplifiers, control cabinets and film reproducing attachments. Below, receivers are being assembled.

ment. Take the case of the transmitter or microphone used in motion picture studios to pick up sound for recording. This transmitter of the new condenser type has as a part of it a small disc that must be ground until its surface is flatter than flat. A quartz disc is used to test the perfection of flatness. When this disc is placed on top of the transmitter disc, it forms a pattern of light rays. If this pattern is not exactly right, the surface is not as flat as it should be and grinding and testing must be continued until the design is flawless.

In assembling the different parts of the transmitter, a dust-proof room is used. A small glass cabinet into which two rubber gloves have been sealed and from which all moisture has been

exhausted is then brought into use. The transmitter parts are placed in the cabinet and the work of assembly is done by workmen who insert their hands in the rubber gloves.

In making the receivers, equally delicate operations are involved. One of them calls for the winding of a fine wire, no thicker than a sheet of paper, on metal rings. The wire is bent and is wound on its edge. To do this, a special piece of apparatus has been developed, one that coats the wire with an insulating enamel at the same time that the winding is done.

Other units of the system are made, assembled and tested with the same great care, all with the one object in view—to bring to the public this latest movie marvel, sound pictures.

## Society

### Miss Bess Baldwin Becomes Bride

A wedding of wide social interest was solemnized Thursday evening, June 27th, when Miss Bess Baldwin of Lamesa, Texas, became the bride of Mr. Joe McCluskey of Abilene, Texas, at the First Baptist Church of Lamesa. Dr. W. P. Garvin of the First Methodist Church officiating. The choir loft of the church was transformed into a beautiful summer garden, with a vine covered pergola under which suspended two overlapping hearts of white crushed satin pierced by a golden cupid dart and where the impressive ring ceremony was said. The entrance to this scene were archways with clinging vines adorned with monograms of the bride and groom. Here and there stood tall baskets of garden flowers. Completing a colorful arrangement. The bride was given in marriage by her father, Mr. Charles Baldwin and she was never more beautiful than in her gown of white satin with elaborate trimmings of chantilly lace forming the skirt and wearing white satin pumps. Her veil was of filmy tulle held in place by clusters of orange blossoms. She carried a shower bouquet of brides roses and valley lilies, her only ornament was a lovely pendant, a gift from the groom.

The attendants were Mrs. G. Z. Sherman, sister of the bride, from Hedley, Texas, and Miss Lotta Bourland, life-time friend of the bride, from Clarendon, Texas. They were beautiful in their frocks of blue and yellow taffeta, carrying arm bouquets of gladiolas. Mr. Lewis Gambrell of Mineral Wells, attended the groom as best man and Mr. Jasper Baldwin, brother of the bride, acted as groomsmen. Little Miss Bernice Marie Baldwin, niece of the bride, dressed in blue georgette acted as flower girl and L. W. Burnett, Jr. of South Bend, nephew of the groom and dressed in white satin carried the ring resting upon a beautiful heart shaped pillow of white satin.

Professor D. O. Wiley, head of the violin department of Simmons University, Abilene, and former violin instructor of the bride gave the pre-nuptial number which the wedding party entered to the strains of Lohengrin wedding march played by Mrs. Ray Hollingshead, who also gave Mendelssohn wedding march as the recessional. Mr. Ray Barrett and E. C. Nix, Jr., of this city acted as ushers for the occasion. After the wedding a reception followed at the home of the bride's parents after which the happy couple left for an extended tour of Colorado. The bride's going away costume was a sun-tan ensemble with harmonizing accessories. Mr. and Mrs. McCluskey were former students in Simmons University where Mr. McCluskey was a member of the Cowboy band and Mrs. McCluskey was a member of the "Abilene Little Symphony" orchestra. After August first the couple will be at home at Throckmorton, Texas. Out of town guests for the occasion were Mr. and Mrs. L. W. Burnett of South Bend; Mr. Lee Atkinson of Throckmorton; Mr. and Mrs. Lorenzo McCluskey of South Bend; Mr. and Mrs. M. P. Gentry, Sam Dyer, Holman Kennedy, Dr. and Mrs. O. L. Jenkins, P. B. Gentry and son, Phillip, Jr.

### Mr. and Mrs. Homer Ellis Honored

Members of the Thursday evening Bridge Club paid courtesy to Mr. and Mrs. Homer Ellis, who will leave soon for Oregon, with a picnic supper at the Country Club last Tuesday evening. The picnic table was laden with a bountiful supper. Those participating in this delightful affair were: Messrs and Mrs. Forest Taylor, S. L. Bagby, M. P. Gentry, Sam Dyer, Holman Kennedy, Dr. and Mrs. O. L. Jenkins, P. B. Gentry and son, Phillip, Jr. Before the picnic Mr. and Mrs. Ellis were presented with a gladstone bag by these same members.

### Mrs. L. O. Lewis Buried Thursday, 27th

To complete the story carried last week on the funeral of Mrs. L. O. Lewis, wife of Justice of the Peace Lewis of this city buried Thursday afternoon, The News presents the list of pallbearers: Frank Bourland, O. D. Liesberg, Odos Caraway, W. H. Patrick, J. J. Alexander and C. E. Killough.

The floral offering was one of the prettiest and most tastefully arranged ever seen here and the grave in the Citizens Cemetery was literally covered with wreaths and bouquets. Delayed flowers were received from a distant point later in the week and placed on the grave. A number of friends of the family from Claude, Memphis and Childress were present to attend the last rites for this good woman.

at the home of the bride's parents, Mr. and Mrs. W. L. Crane. Only the immediate family of the bride and groom were present besides the bridesmaid, Miss Mildred Stewart, and best man, Mr. George Tafuya of Amarillo. The Rev. W. N. Murrell, presiding elder of the Methodist church of this district, officiated at the lovely ring ceremony.

The bride was beautiful in a white sport suit tailleur, with corsage of pink rosebuds and baby breath.

After the wedding Mr. and Mrs. Shane left on an overland trip to Yellowstone park and other well known scenic points. Upon their return to Amarillo they will be at home at 202 East Eleventh avenue.

The bride has been staying at Amarillo for sometime and has a host of friends both in that city and here.

Mr. Shane is the son of Mr. and Mrs. J. W. Shane of Fargo, Okla., and is associated with the Southwestern Bell Telephone company of Amarillo.

### Story Hour

There were twenty-five little guests present at the Story Hour Tuesday evening, and great interest was manifested in the charming stories related by Mrs. U. J. Boston.

Mrs. A. T. Cole acted as sponsor for the evening.

### Altar Guild

The Altar Guild of St. John's Episcopal Church met with Mrs. T. H. Ellis Friday afternoon with about eight present.

The business session was presided over by the directress, Mrs. J. E. McClelland.

During the social hour some sewing was done for the Church and dainty refreshments were served.

### June Party

Little Miss Maxine Ellis made a charming hostess to a number of guests last Saturday afternoon when she entertained with a June party, assisted by her mother, Mrs. T. H. Ellis, her grandmother, Mrs. Minnie Dyer and her aunt, Mrs. Sam Dyer.

Outdoor games were the diversion of the afternoon. When tir-

ing of this pastime, delicious refreshments were served out on the porch to the little guests. Miniature straw baskets filled with candy were given to each one as favors.

Those enjoying this delightful occasion were: Heyinta and Herbert Officer, Jr., of Tulsa, Okla.; Kittie Carroll, Margaret and Madeline Kelly, Betty, Anne and Joan Lewis of Dallas; Billie Cooke, Jean and Ruth McDonald, Mmes. A. T. Jefferies, M. H. Rhoades, H. B. Officer, of Tulsa, Okla.; Will C. McDonald, Miss Mary Cooke.

### Saturday Bridge Club

Mrs. W. G. Ward, assisted by her sister, Miss Howren, charmingly entertained members of the Saturday Bridge Club and a few members, Saturday afternoon, at the McLean house where Miss Howren is residing this summer. Many cut flowers adorned the rooms where a number of games were enjoyed, in which Mrs. L. S. Bagby received high score, and Mrs. Frankie Moore cut consolation.

Those present were: Mmes. A.

L. Chase, H. Glascoe, Geo. Ryan, L. S. Bagby, J. L. McMurtry, J. T. Sims, Frankie Moore of Cordell, Okla.

### Thursday Afternoon Bridge Club

Mrs. P. L. Chamberlain delightfully entertained the Thursday afternoon Bridge Club at the home of her mother, Mrs. Matt Bennett, on the afternoon of Thursday, June 27th.

The rooms were artistically arranged with roses and shasta daisies.

A lovely prize was awarded Mrs. Clyde Price who held high score and Miss Mary Stocking cut consolation. Those playing were: Mmes. L. L. Swan, Chas. Bell, Earl Alexander, Clyde Price, T. H. Ellis, Chas. Trent, G. C. Stricklin, W. J. Lewis of Dallas; Misses Beulah Baird, Frances Cooke, Mary Cooke, Mary Stocking.

A dainty two course luncheon was served at the conclusion of the games.

Mrs. Bright Tucker of Amarillo, visited friends and relatives in Clarendon last week.

## CLARENDON TO CLOSE THE 4TH

MANY DIFFERENT ENTERTAINMENTS TO CHOOSE FROM THURSDAY.

As there is no official city-wide celebration on Thursday, July 4th, this year the people of Clarendon are left to choose for themselves the kind of entertainment most suited to their pleasure. The Clarendon merchants have very kindly consented to cooperate with their employees and have agreed to close their places of business for the entire day. Many local people will take advantage of this holiday to visit their favorite amusement places. It is expected that quite a few folks will enjoy the day on private picnics at nearby scenic spots. The Tri-State Fair Rodeo at Amarillo will be one of the feature attractions to the people of Clarendon, with a large number expressing their intention to attend. The lure of the Paludero canyons with its many resorts will undoubtedly call the nature lovers of Clarendon to enjoy the July holiday within its painted walls. Lakeside Park, newly erected Coney Island Park at Wichita Falls will come in for its share of the local holiday pleasure seekers and will provide many fine recreational advantages. The Hillcroft Club has been groomed and is in perfect condition, so the worshippers of the little white dimpled or meshed pellet will be provided with an excellent course to make their Fourth of July "Whoopee".

The main attraction of the Clarendon folks will be found at the Clarendon Country Club Grounds and lake. The entertainment at this place will be practically the same as it has been heretofore. A basket supper will be one of the features of the entertainment, with music to be furnished by the Clarendon Municipal Band. The members and their wives invite will enjoy a swim in the club lake, then the supper, and after dark they will be entertained by a beautiful display of fireworks. Dancing will then be in order to those who enjoy this diversion, after which the crowd will return to the city.

Post Commander, C. J. Douglas, of the American Legion has requested the business men of the city to place their curb flags on display for the day and take them in at dusk. This will lend the city a holiday of atmosphere

## ALL PANHANDLE EXCEPT TWO COUNTIES ARE OPEN

Excepting Wheeler and Collingsworth counties, the entire Panhandle of the State of Texas is open for Prairie Chicken Hunting this fall. The season opens September 1st and closes on September 4th, both days being included in the open season. The bag limit is ten birds in any one day, or ten birds for the entire season. Penalty for the violation of these regulations runs from the minimum fine of \$50.00 to a maximum of \$100.00. This information was brought the News by R. E. Sammons, Special Deputy Game Warden from Wellington. Mr. Sammons further added that there were a number of good bunches of birds in the Panhandle, mostly in places that are hard to reach.

Mr. and Mrs. C. T. McClenny had as their guests the past Sunday the following: Mr. and Mrs. Leo Sandlin and sons, Robert and Ted, and Mr. and Mrs. J. C. McCleary and daughters, from Amarillo; Mrs. R. L. Sandlin of Herkington, Kansas; Mr. and Mrs. J. W. Sullivan and Mr. and Mrs. Otto and family of Martin.

Mr. and Mrs. R. S. Green and daughter and son, Miss Shirley and Gall, from Memphis, accompanied by Miss Leta Verne Martin and Jack Merchant enjoyed a vacation trip to Medicine Park, Oklahoma, from Friday to Sunday last week.

that will be felt only through this sort of decoration.

**LOCAL GOLFERS LOSE SUNDAY GO**

HILLCROFTERS LOSE FOURTEEN OUT OF SEVENTEEN MATCHES TO AMARILLO.

The Hillcroft golfers extended their losing streak to two consecutive matches last Sunday when they were taken into camp by the more experienced golfers of Amarillo on the latter's course. Seventeen members of the Clarendon club journeyed to Amarillo and engaged the Hillcrest golfers in an inter-city match which resulted in the one-sided victory for the Amarillo par-busters. Three victories were chalked up by the locals, while the others were being lost by the narrowest of margins. The feature match of the afternoon was played between M. P. Gentry, Clarendon, and Elliott Hatch, Amarillo. Hatch finally overpowered the Clarendon man, but it came only after a thrilling twenty hole battle with Gentry losing the count one up, W. W. Woolsey of Amarillo was medalist for the afternoon's play shooting the eighteen holes in 75. The next match between these two clubs will take place in three weeks on the Hillcroft Golf Course.

The scores of the play:

Elliott Hatch beat M. P. Gentry, 1 up in 20 holes.

Jim Hagen beat I. C. Merchant, 4 up.

W. W. Woolsey beat W. A. Wilson, 1 up.

Eugene Kidd beat H. B. Kerbow, 2 up.

George Mager beat R. C. Weatherly, 8 and 6.

E. Lee Smith beat Lee Casey, 1 up.

Don Loden beat A. N. Wood, 4 up.

N. D. Bartlett beat J. T. Patman, 4 up.

W. J. Satterwhite lost to C. J. Douglas, 3 up.

C. N. VII beat H. Kennedy, 3 up.

H. M. Reed beat Kenneth Kerbow, 1 up.

J. H. McGregor beat R. C. Weatherly, Sr., 3 up.

Lamar Young beat P. B. Gentry, 1 up.

L. A. Swan beat Ira Carpenter, 2 up.

H. H. Duck lost to Homer Parsons, 2 up.

Roy Rose lost to I. S. Patterson, 1 up.

The Clarendon players were loud in their praise of the sportsmanship of the Amarillo golfers and say that this match was the most pleasant that the locals ever enjoyed. The Hillcrest Club entertained the visitors at noon with a wonderful lunch which was enjoyed to the fullest extent.

**CLARENDON BALL CLUB LOSES CLOSE GAME 4-3**

Those who saw the contest Sunday afternoon between the local ball club and McLean's entry were awarded with the best played game of the season. Clarendon lost the game on breaks that were to the advantage of the McLean aggregation.

**MERRY MADCAPS STOCK COMPANY HERE NEXT WEEK**

The Merry Madcaps Stock Company is the name of the Road show that will play this city this coming week, July 8. This company has just closed an engagement in Vernon and press reports from this city testify to the high class kind of entertainment this company is bringing to this city. This is the first time this city has been played, but the company is well known and recommended for its entertainment. They feature a band and a ten piece orchestra.

**HOSPITAL WORK COMPLETED SOON**

FINAL TOUCHES BEING ADDED WITH LARGE CREWS ON JOB

Many details pursuant to the transfer of the Adair Hospital to Donley County have held up the final change of management for ten days or more, according to W. H. Patrick, Chairman of the Board of Directors of that body. The many changes that were needed to put the place in first class condition were more than were expected at first and the result was that it took a longer period of time to get matters right than was anticipated.

The entire lighting, water, gas and heating systems have been changed to meet the demands of those who expect to take control of the place in the immediate future. New equipment was installed in many cases and changes were effected that will put the equipment in condition to care for the people as they are brought to the hospital for care and treatment.

At the present time, a corps of workers is completing the task of painting and varnishing the interior of the building. This work was the last that came to the hands of the board and will be completed within the next week or ten days.

According to reports received from the Commissioner's Court, the Board that will operate this body will be named in the immediate future, possibly at the opening of the next month's session of that body. The Court has had this matter under consideration for some time and have pretty well selected the personnel of the body, but has nothing for publication at this time.

The occupation of the hospital by the county has possibly been detained for ten days, and not longer than two weeks at the very outside.

Mrs. W. J. Atreus of Rogers, Ark., is a guest in the home of her sister, Mrs. C. W. Taylor. The two sisters visited a third sister, Mrs. Sam Todd, in Turkey, last week.

Mr. and Mrs. Tom Kyger and children of Kaufman, are visiting here this week with Mr. and Mrs. Ralph Keyes. The ladies are sisters.

Mr. and Mrs. L. A. Akers of Dallas, arrived Wednesday morning for a visit in the home of Mr. and Mrs. Akers' aunt, Mrs. J. F. Phelps.

Bill Clifford of Amarillo, has been recuperating from a recent operation in the home of his mother, Mrs. W. T. Clifford. He has been here since Sunday and is doing quite well.

Mrs. Meade Haile of Plainview is visiting in the home of her parents, Mr. and Mrs. W. H. Youngblood. She arrived in this city with Sam Braswell, Jr., Monday morning after accompanying Misses Cecelia and Adaline Atteberry, Clyde Naylor, and Sam Braswell, Jr., to Pampa Sunday evening. The Misses Atteberry, Clyde Naylor and Sam Braswell, Jr., were joined in Plainview by Mr. and Mrs. Haile and all enjoyed a trip to Lubbock where Miss Claire Marie Braswell and Wade Youngblood were visited previous to the return trip to Pampa and Clarendon.

**COUNTY WINNERS PICKED FRIDAY**

TWO CLASSES OF CONTESTANTS CHOSEN IN RALLY DAY FETE.

One of the most successful events of the nature that has ever been held in Donley County was the basket picnic and all-day rally that was held in the Lelia Lake Camp Ground last Friday. At this time, winners were chosen from among the club women of the county in two events, one of them being the Sheer Wash Dress event and the other being the Child's Dress contest. Prizes were also awarded for the butter judging contest that was held here a short time past.

In the Sheer Wash Dress Contest, Mrs. C. E. Lindsey of the Clarendon Club was awarded first place and was given a year's subscription to the Donley County Leader, Mrs. E. H. Watt of Giles and Mrs. Thava Crawford of the new Hedley Club were second and third place winners respectively receiving special mention for their work.

The Child's Dress contest was won by Mrs. Clark Latimer of the Hedley Rural club and received a Blue Boy Picture from the Alderson Studio. Mrs. Roy Beverly of Chamberlain won the honorable mention in this class with no prize awarded.

Approximately 120 were in attendance on the meeting, showing the interest manifest in the matter over the entire county. Speeches were delivered by the following: H. T. Burton, W. D. Van Eaton, J. C. Estlack, R. E. Newman of Hedley, G. L. Boykin, R. L. Bigger and Sam M. Braswell.

This Rally Day event was had for the purpose of choosing the County winners for the six county meet that is to be held on July 8th. Miss Adams of Hall County was the judge of this event.

Earl Alderson, owner of the studio in this city, was a visitor in Childress Thursday of last week when the Panhandle Photographers Association met in that city.

Miss Ethel Bugbee of Long Beach, Cal., arrived Tuesday evening and will spend the summer with her aunts, Mmes. W. H. Patrick and T. W. Carroll.

Dave and James Williamson, former residents of this city and now of Iowa Park, are visiting their sister, Mrs. Barcus Antrobus, and old friends here this week.

Mr. and Mrs. Jim Kelly of Clarendon, enroute home from Nebraska, stopped over here for a few

days to visit old friends, where they visited their son, Leroy. Mr. and Mrs. Kelly were residents of this city for a number of years, moving to Cleburne some years ago.

Floyd Little and Jerome Stockinger returned last week from an extensive vacation trip to California and other interesting points. They report a wonderful trip, but are pleased to be back in Clarendon.

Sheriff and Mrs. M. W. Mosely returned Monday of this week from Clovis, New Mexico, where they called the latter part of last week by the death of Mrs. J. T. Mosely, wife of a brother to Mr. Mosely.

BEAUTY in the HOME

Window Shades That Decorate

By Katherine Richmond Lee

IT has been a puzzle to the interior decorator for some years, when the trend is for more color in the home and when even the ice-box matches some decorative scheme in the kitchen, to note that the window shades always remained plain and neutral in tone. And, even if the decorator or the woman who was changing the color scheme of her room wanted livelier window shades, she had to grin and bear the old ones and hope for the best. But now it appears that washable window shades of a tinted material are available with figured surfaces in a range of patterns wide enough to blend with the color scheme of practically any room, and are being used in some of the most delightful homes where the modern idea of the freer use of color has resulted in cheery and artistic interiors that are a long advance from the dingy monotony of the Victorian era.

These shades are being used in a combination of colors on a soft ecru ground and the designs, being on one side of the shade only, become a part of the decorative scheme inside a particular room

and at the same time conform on the other side, with the uniform appearance necessary to the exterior of a house. They are impregnated with a waterproof substance which means that they are not disfigured by rain and, when soiled, can be wiped clean with soap and water.

One thing noticeable with these figured shades is that they dress the window in proper conformity with the colors of the room and in many cases make it possible to obtain very interesting effects without so much elaborate care in drapes, and window hangings. For instance, a most attractive window motif now being used by an up-to-date woman who has a nice eye for color and a taste that appreciates simplicity, is to use shades in the living room figured in soft tones of red, blue and green, in a design faintly suggestive of Japanese influence. Thin white net curtains are used over this shade and drawn aside near the bottom. The drapes are simple folds of some sturdy material in a contrasting color, sometimes in rooms of a modernistic trend, a pleated lacquered fabric.

Chamberlain News

Sunday School was held at the usual hour Sunday morning. A good sized crowd being present. Miss Pauline Foster was dinner guest of Miss Lois Webb Sunday. Mr. and Mrs. Watt Hardin and family and Miss Louise Hughes visited Mr. and Mrs. W. E. Hardin Sunday afternoon. Miss Loma Ayres was a visitor of Miss Gertrude Dingle Sunday. Miss Lois Webb spent Saturday night with Miss Pauline Foster. Miss Louise Hughes was a pleasant visitor of Miss Annie Marie Hardin Sunday. Mr. and Mrs. John Blackmon and Miss Vera Blackmon took dinner with Mr. and Mrs. Roy Blackmon Sunday. Miss Marie May visited Miss Gertrude Dingle Sunday. Mrs. Watt Hardin and children were in the Jones home of Sunnyview Thursday. Misses Mary Bell Bates and El-

sie May were visitors of Miss Lena Broedon Sunday.

Mr. and Mrs. Benzille, Mr. and Mrs. Webb visited Mr. and Mrs. J. T. Cearley Sunday afternoon.

Mr. Sam Ayres of Hedley, attended singing here Sunday night. We are always glad for Mr. Ayres to visit us.

Miss Gertrude Barbee spent Saturday night with Mr. and Mrs. Edd Aduddell and family.

Mr. W. K. Hardin visited Mr. Marvin Jones Saturday night.

Miss Lavern Kimbell was a visitor of Mrs. Bryson last week.

Miss Vera Blackmon spent Saturday night with Mr. and Mrs. Roy Blackmon.

Mr. Melvin Thomas and Mr. Birchman went to Shamrock Sunday.

Mr. Cleo Aduddell went to Amarillo Tuesday morning to see his sister, Miss Ruby Aduddell, who underwent an operation Monday morning at the North West Texas Hospital there. We hope that she is not seriously ill.

Mr. Marvin Jones and Fred Reid were in the Hardin home Sunday evening.

While driving home from Sun-

WHAT'S DOING IN WEST TEXAS

By West Texas Chamber of Commerce

Sweetwater is completing plans for the fourth annual convention of the West Texas Press Association which opens July 12 for a two day session. Round table discussions will take up aviation and free plane rides through the courtesy of the Texas Air Transport Company will be given every registered delegate wearing a ribbon.

E. H. Whitehead, publicity manager of the West Texas Chamber of Commerce for the last four years resigned to become assistant manager of the South Texas Chamber of Commerce, at Corpus Christi, effective July 10. One of his accomplishments was making West Texas Today, official publication, a magazine instead of a newspaper.

Wheeler is building a new sanitarium. The building will be frame with stucco finish on the outside and sheet rock on the inside and when completed will be 72 by 72 feet with 22 rooms, hall ways running both ways through the entire building. A large basement will be part of this fine acquisition.

Winters is making progress in cream shipments. Two years ago, about 100 cans of cream per month were shipped out. This year the shipments are averaging 285 per month. Cream brought about \$15,000 into Winters in five months.

Plainview's third annual Texas Panhandle Plains Dairy Show will be held in Plainview on April 7, 8 and 9 of 1930. The dates are one week later than those of the two former shows, and the change is made in order to get away from the first of the month rush usually encountered by business men over the section.

FIRST METHODIST CHURCH

Sam E. Allison, Pastor.

Sunday School meets in all its departments at 9:45 a. m. J. R. Porter, general superintendent.

Regular services, morning at 10:50 and evening at 8:00 o'clock. Both services conducted by the pastor, Rev. S. E. Allison.

The Senior Epworth League will meet in the ladies Parlor at 7:15.

The Hi-League will meet in the basement at 7:15 with Mrs. O. T. Smith as sponsor.

The Edworth Junior Society, under the supervision of Miss Fanny Perry, will meet at 7:30 in the Junior Department.

During the absence of the pastor, the announcements will be found each week in the columns of the paper as usual.

A cordial invitation is extended everyone to come and worship with us in any or all the services.

R. T. Darnell was a business visitor in Clarendon Monday of this week.

A serious auto accident occurred, when a truck hit the Barbee car driven by Mr. Barbee. In the car were nine; Mr. and Mrs. Barbee and family, two grandchildren and Fred Birchman. Mrs. Barbee, Miss Gertrude and the youngest boy were injured. Mrs. Barbee being hurt more than the rest. The car overturned in the ditch and is a complete wreck.

We regret to hear that Mrs. J. D. Thomas is on the sick list.

Several of the Club Women of this community attended the picnic at Lelia Lake Friday. Every member who attended enjoyed the day just fine.

Mr. and Mrs. Reid and family, Mr. and Mrs. Huff Huffstutler spent Sunday in the Barbee home.

Crops are looking good in this community.

BUSINESS VOLUME SHOWS GREAT VOLUME IN MAY

Austin, Texas, July 1—Measured by volume, business in Texas during May made a rather remarkable record and profits in many industries are reported above the average, according to Bervard Nichols, editor of the Texas Business Review, issued monthly by the Bureau of Business Research at the University of Texas. Mr. Nichols has just completed his monthly study of the various phases of business and industry in the State.

"Expansion in many lines is still under way, although the present rate of activity can not be maintained indefinitely," Mr. Nichols said. "It would not be surprising, therefore, to witness some industrial curtailment over the next few months. In fact, a small seasonal curtailment was noted toward the end of the month in some industries. Confidence continues to dominate business, but a few unfavorable influences are developing which will have an adverse effect later on. The discouraging outlook for agriculture and the unhealthy credit conditions are cause for most concern. Immediate business prospects remain optimistic."

Ben Morgan from Pampa was a week end visitor with relatives and friends.

WEST TEXAS UTILITIES ADDS TO ANGELO PLANT

Plans for the installation of a 20,000 horse-power steam turbo-generator, increasing the generating capacity of the Concho Station near San Angelo from 15,000 horsepower to 35,000 horsepower, were announced from the general offices of the West Texas Utilities Company at Abilene.

The new equipment will be delivered in November and operation of the largest generating station of the company is expected to be begun in the early spring of 1930, it was announced.

Installation of the new unit will mean an addition to the building and enlargement of the substation at the plant. The boiler room will be extended 25 feet by 115 feet and the switch room will be extended 40 by 50 feet. When the new unit is in operation the West Texas Utilities Company will have available 15,000 horsepower of electrical energy.

In addition to the big turbo-generator, ordered from the Allis-Chalmers Manufacturing Company of Milwaukee, there were ordered two 1,000 horsepower boilers from Babcock-Wilcox Co. of New York.

The Concho Generating Station is one of the three major stations of the West Texas Utilities Company, the second being located at Abilene and a third at Lake

PAULINE, NEAR QUANAH, TEXAS.

The company also has 15 auxiliary or standby stations in various parts of its properties. Electrical energy is sent to 110 cities, towns and communities in West Texas over more than 2,000 miles of transmission lines.

The Abilene plant has a generating capacity of 7,500 horsepower and the Lake Pauline station 20,000 horsepower.

Mr. and Mrs. F. L. Combs of Irving, Texas, are here for a visit in the home of Fred and A. T. Russell. Mrs. Combs is an aunt of Fred Russell. Mr. Combs is a former, wholesale meat man of that section. A distinguishing feature of this family is the fact that four of their sons have been members of the Dallas police force for many years past. Within three hours after the arrival, Mr. Russell and Mr. Combs had started on a fishing trip.

Alfalfa straw that is left from threshing a seed crop is considered worth one-third to one-half as much as the hay for feeding purposes. If a seed crop is harvested as soon as the most of the seed pods are mature, and while the plants will still have many of their green leaves, the straw is of higher feeding value than when the plants are left until the pods are entirely ripe and the leaves have fallen.

SIX BOY SCOUTS ARE AT CAMP WARNER NOW

Work going forward on the dam at camp William Warner this week is being pushed to a rapid conclusion with the assistance of many of the Boy Scouts of this section of the Panhandle Area. The dam is being put in by the Southeast Panhandle Boy Scouts Council and is being rushed by Scout Executive I. E. Jolly and Mr. Duvall of Shamrock. A concrete core is being run to act as a base for the dirt work that will later be put in on the site of the dam. Six Clarendon and will receive merit badge credits for the work they are doing in this connection. The following boys are at the camp: Esca Trostle, Home Estlack, Y. E. McAdams, Jack Latson, La Verne Goldston and Max Mitchell.

Small farms in a high state of cultivation, where large quantities of feed are produced, may be stocked with breeding cows to a maximum carrying capacity and the calves disposed of at weaning time or fattened as baby beef to advantage. In this way practically no other cattle than the breeding herd are maintained, and less feed and pasturage are needed than when the calves are carried over as stockers and feeders.

Announcing

The Appointment of A New Dealer For

CHRYSLER

Sales and Service in

CLARENDON

And Surrounding Territory

Effective July First!

In the service department, Mr. Eugene Noland will have full charge as in the past. His experience with all makes of cars has led him to believe that the Chrysler is the most nearly fitted to the needs of this section than any other he has encountered.

We assure you that the service we render you in a mechanical way will be worth more than any other part of the car we sell you. Mr. Noland's experience in the past as foreman of the Panhandle Motor Company of Amarillo for two years put him in close touch with this automobile and he will be in a position to render service that is first class in every respect.

The sales department will be in charge of Mr. Doss Palmer, he having direct control of this part of the business. He also believes in the Chrysler Automobile and feels that he will be able to give satisfactory service to the class of trade that demands this particular type of motor transportation.

AN EARLY INSPECTION OF THE LINE IS INVITED

Keep Your Clothes Fresh, New, YOUNG!

YOUR clothing must look fresh, new, young, if you are to be a success in the business or social world. Employers do not give responsible positions to people who wear "old clothes"; hostesses do not often invite shabby guests.

Let us help you to keep your clothes young. The modern Valetor method of clothes pressing—the method we use—will bring back the original shape to worn garments; will raise the nap and restore lustre to the fabric. It will also kill disease germs and remove offensive perspiration odors.

You'll look better and feel better when your clothes are kept young the Valetor way.

Smith home Sunday. Mr. and Mrs. Berdie Leathers, Mr. and Mrs. Kinch Leathers, Mr. and Mrs. Devortie Leathers, Mr. and Mrs. J. C. Christal, Mr. and Mrs. D. W. Tomlinson, Miss Jessie Cook, Miss Lucy Stogner, and Mrs. W. S. Noble attended the fifth Sunday meeting of the Baptist church at Leslie Sunday. Mrs. Bert Smith and baby have returned from Shawnee, Okla., where she had been visiting her mother. We are sorry to learn that Mr. and Mrs. Lester McKenny are moving to Estelline. Mr. McKenny has been transferred to that place as depot agent. He has held that place here for several years. The family has many good friends here who wish them every success in their new home and will be glad to see them back in Lelia Lake any time. Andrew Shaw of Devol, Ok., was a visitor with W. L. Blaylock and family last week. W. W. Jones and family met his mother, Mrs. T. F. Jones, of Portals, N. M., in Amarillo. Mrs. Jones will visit her son here for several days. Mr. McCellan was taken quite ill while working in the field Friday but he is reported better now. Miss Ileta Mace went to Memphis Sunday to consult a specialist in regard to her eyes. Mr. and Mrs. W. C. Creamer went to Hereford last Thursday, returning Saturday to visit their daughter, Mrs. Weems. Mrs. Grace Jiant from Shamrock, spent the week end here with her parents. Miss Nova Cook of Clarendon, attended the Club picnic here Friday. The Home Demonstration Club and the 4-H Club girls of this county had an all day picnic at the Lelia Lake Camp grounds Friday. Mrs. Lindsley of Clarendon won the trip to A. & M. on the dress contest. C. E. Stilwell and family were up from Memphis, spending the day fishing on the Taylor lakes. Mrs. W. V. McCauley spent part of last week in the Windy Valley community with Mrs. Bell who is seriously ill. Mrs. Bell is Mr. McCauley's sister. Mrs. Vila McLee of Memphis, spent the week end here with Mr. and Mrs. H. K. Boyce. The Baptist ladies and the Sunbeam Band of the First Baptist Church met at the Cottingham

Camp ground Thursday. A delicious lunch was served to about thirty and a delightful time was reported by all. Rev. and Mrs. Oldham and two children and the Miss Mc Knard attended the Fifth Sunday meeting at Leslie. They report a fine meeting and a large attendance from all the churches of this association. The Lelia Lake Church won second place in the awarding of the banner. Mr. and Mrs. Hubert Day are visiting in Pampa this week. Leta and Betsy Ellis were shopping in Amarillo Thursday. Miss Alta Lewis who is attending school in Canyon spent the week end here. Miss Bascom Webb of Pampa, visited relatives here last week. Mrs. W. S. Noble is teaching a Bible Class at the Baptist on Sunday evening. Every body is invited to attend. Mr. Frank Mace and children of Amarillo, spent the night Friday with Mr. and Mrs. J. R. Mace. Mr. and Mrs. Roland of Clarendon, were guests of their daughter, Mrs. Roy Darnell, Sunday. Luie Self came home Sunday from the harvest fields of Groom. Mr. and Mrs. Dude Alexander were Goldston visitors Sunday. SUNNY VIEW We are having some very warm, dry weather and would be very glad of a good rain. Health fine in this section. Mr. and Mrs. W. K. Davis entertained the little folks Friday night in honor of their son, Clarence's 8th birthday. All had a very pleasant evening, with games and other entertainment. Ice cream and cake were served to all who enjoyed the occasion very much. Mr. and Mrs. A. M. Lanham called on Mr. and Mrs. C. M. Reed of Clarendon late Saturday afternoon. Little Miss Pauline Riley spent the week with her aunt, Mrs. Bill Knowles, of Lelia Lake, returning home Friday. Grandma Roberts and daughters, Mrs. Wilson Ballew and children and Mrs. Herbert Warner, all of Amarillo, spent Wednesday night with Mr. and Mrs. Luther Butler of Lelia Lake and took dinner with their son and brother, Mr. and Mrs. Sam Roberts. A. M. Lanham and J. H. Ticer went to Pampa Wednesday with a truck load of peaches. Mrs. A. M. Lanham called on Mrs. Nelson Riley Saturday afternoon. Nelson Riley and daughters, Misses Kathleen and Ina motored to Amarillo Saturday afternoon. Miss Orene accompanied them home for a week end visit.

Mrs. Irene Hessie and Master Jack, spent Thursday night and Friday with her aunt, Mrs. Nelson Riley and family. A party of the young folks of the Sunday School class enjoyed an outing and picnic lunch near Lelia Lake Thursday night. Arlie and Louis Wood of Clarendon attended Sunday School and took dinner with John Bruce and Glen Riley. Mrs. McNeely and small son, Billie, called on Mrs. A. M. Lanham Wednesday afternoon. Miss Wilma Patten is spending the week with her sister, Mrs. Heckle Starks. Mr. and Mrs. Neal Bogard and children, also Mr. and Mrs. Heckle Starks, spent Wednesday in the parental home of Mr. Starks, all enjoying a real fish dinner. Mr. and Mrs. Fletcher of Ashtola are visiting his sister, Mr. and Mrs. Amos Smith and family. Miss Eula Haley and Mrs. Pearl Smith called on Mrs. L. L. Taylor, who is sick, Thursday afternoon. Mrs. J. H. Ticer called on Mrs. A. M. Lanham Tuesday afternoon. Miss Orene Riley returned to her work in Amarillo Monday morning after spending the week end here with her parents. Mr. and Mrs. Archie McNeely called on Mr. and Mrs. A. M. Lanham late Sunday evening. Miss Eula Haley and Mrs. A. M. Lanham visited with Mrs. L. L. Taylor late Sunday afternoon. The members of the Rebekah Lodge No. 149 met in regular session on Friday night, June 28. We had with us our President of Rebekah Assembly I. O. O. F. of Amarillo, also visitors from Memphis Lodge. Those of Memphis were: Miss Edna Bryan, District Deputy President, Mrs. Springer, Secy., and Mrs. Bryan, also Mr. and Mrs. F. M. Guinn of Hedley. A very inspiring and interesting meeting was had with a large attendance. After the business was disposed of a social hour was had. Ice cream and cake were served to all. Mrs. Ora Whitefield and Mrs. Jessie Bridges of Hedley and members of this Lodge were also present. Mr. and Mrs. A. M. Lanham called on Mr. and Mrs. Jim Eldridge Sunday afternoon. Ray Roberts of Amarillo, spent Sunday with his father and mother, Mr. and Mrs. S. S. Roberts. If the colt becomes accustomed to having his feet handled and trimmed before he is weaned much future work and trouble will be avoided. Untrimmed hoofs usually grow long and uneven, and the result may be a crooked foot, or, what is worse, a crooked leg. Failure to regulate the length and bearing surface of the foot make a straight leg crooked, while good care of the foot during the growing period will greatly improve a leg that is crooked at birth.

Self-Feeding Hogs

Two methods are practicable in using self-feeders for hogs. The grain and protein supplement may be mixed and fed from the same hopper, or they may be fed separately, allowing the pig to choose for itself. The latter method is preferable, says the U. S. Department of Agriculture. Experiments show that the pig usually balances its ration properly eating relatively less of the high-protein feeds as it gains in weight. If the pigs do not appear to be eating the proper proportions of each feed, however, the feeds may be mixed for them. Though used for sows suckling pigs, self-feeders are ordinarily not used for feeding breeding hogs, as the hogs are likely to become too fat.

5 reasons why STEEL ECLIPSE WINDMILLS run in lightest breeze Why does the Steel Eclipse run when other mills are motionless? The answer is, scientific design and fine workmanship. Note these five reasons: (1) Wheel is tilted to take advantage of lightest breeze. (2) All working parts run in oil. (3) All wearing surfaces are machined. (4) Mill starts on two-thirds load—not full load; quick down-stroke and slow upstroke means less effort required on the lift or pumping stroke. (5) All bearing surfaces are in line, reducing internal strains and power loss. Ask us to show you!

WATSON & ANTROBUS Phone 3 Clarendon, Texas

The finest tire money can buy— KELLY Registered BALLOON Built, guaranteed and individually REGISTERED by Kelly-Springfield. Oversized and extra built throughout; more rubber between the plies; two extra plies in the seven-inch size; nearly 10% more air capacity; tread nearly twice as thick; sidewalls additionally protected. Intended for the man who wants tires on his car that will still be in good condition when he is ready to turn it in. Without question the ruggedest, longest-mileage tire on the market. A little higher priced than the standard balloon, but worth the difference. Guaranteed during its life both by us and the Kelly-Springfield Tire Co. **Fifth Avenue's Cool Cottons**

BECAUSE they are so cool and crisp—so feminine—and because their texture is flattering to sun-tan skins, cotton frocks appear everywhere. Usually they are sleeveless with wide cape collars to soften the shoulder line. Snug hip-lines and gently flaring skirts are favored for informal afternoon wear. For evening, skirts have more fulness, but they must never look bunched.

Sketched above are two models sponsored by Fifth Avenue shops, and reflecting directly a strong French influence in their smart design and cut.

At the left is one of the new popular sports costumes in wide wale pique. This has a sheer batiste blouse of woodblock print, done in the French manner. The colors of the blouse usually are slightly darker than the suit. Nasturtium, blue, green and wine colored tones are preferred.

The other model is a hand blocked printed batiste. Its cape collar is adapted from Chanel. The collar which is cut to look slightly square uses a stripe of plain green for a color accent.

**CONTRACTOR DIES SUDDENLY BURIED HERE SATURDAY**

Frank Ross Smith, prominent among the cement workers of this city and known as a contractor in many parts of the Panhandle, died very suddenly last Thursday afternoon following the return of an attack of an old trouble. Mr. Smith was being rushed to this city when his death occurred, he having been at work in Miami, when he was stricken. The last rites were held from the First Methodist Church at 10:00 o'clock last Saturday morning. Revs. S. E. Allison and L. A. Reavis officiating in the ceremony. Interment was had in the Citizens Cemetery.

Frank Smith was born July 26th, 1884 near Cleburne, Texas, and moved to this county when quite a young man. On May 12th 1909 he was married to Miss Mary Doak. He has lived with his family here, practically all of his life and has been one of the most respected citizens of the entire city. Death came June 27th, 1929 and found him ready to go. He was 44 years, 11 months and 1 day old at the time of his passing.

Besides his wife, Mrs. Frank Smith, the deceased leaves three children, Doak, Adaline and Mary Elizabeth. A niece, who has lived in the home since seven months of age, is also as one of the family. Two sisters, Mrs. W. B. Webb of this city and Mrs. J. R. Stout of Altus, Oklahoma, are also left to mourn his passing. Other relatives and a great host of friends will miss him and join the family in mourning his passage.

We endorse the County wide Junior College.

# The Shortest Thing In The World

No, not a gnat's eyelash nor a mosquito's whisker—PUBLIC MEMORY.

You may have been in business for fifty years and the people know about it. But they forget—new customers are being born every minute, and they grow up and have to be told.

**A NOTE TO MERCHANTS**

Unless you keep telling them by Advertising what you have to offer them, the fellow who has only been in business fifty weeks and who advertises intelligently will prove to you the truth of it.

**YOU MUST TELL THEM TO SELL THEM**
