Eugene Bell Post, American Legion, To Have Old Fashioned Fish Fry

BAIRD — At the regular meeting of Eugene Bell Post 82 on Thursday, Sept. 10, Jack Flores, 1st Vice Commander, made a short but interesting talk at the opening of the meeting. He emphasized the fact that membership in the American Legion is made up of a very select group - not open to everyone, but to those only who served their country in time of war - who bet their lives and won. He stressed the fact that all Legionnaires have a place and obligation to the community, your city, your county, your state and your country. "We should extend a helping hand to the young and to the old, set an example to be honored and especially encourage and support our youth as they will eventually carry the flag we love so dearly" It is important that each member attend the Post meetings in order that their ideas and efforts may be used to build a good and lasting image of the Legion.

As the By-Laws adopted by the Post specify that "The government and management of the Post is entrusted to an Executive Committee of 9 members, to be known as the Executive Committee" and said Committee to be elected each year, and as the new By-Laws were adopted since the election it was necessary that an Executive Committee be appointed. A number of names were submitted for consideration and Acting Commander Flores appointed the following Executive Committee to serve for 1972:

D. J. Anderson, Chairman; J. W. Loper, Steve Warren, Jimmy Godfrey, Homer Mcntosh, James Eubanks, Frank Freeland, A. E. Dyer Jr. and Carroll Gillit.

To members receiving Life Memberships were introduced: C. H. Lunsford, 11 years Commander of the Post, and Senior Legionnaire W. L. Catfish Combs.. They were congratulated by those present.

It was voted unanimously that the Post hold an Old Time Fish Fry, and the date was set for October 21, at 6:30 p. m. at the Legion Hall. Prices will be $1.00 for adults and 50c for children under 12 - "for all you can eat."

Tickets will be available from a member of the Ticket Committee at several locations, to be announced later.

Mrs. Don Johnston Employed As Interpreter For Deaf Persons

The following article appeared in the Waco Tribune-Herald and the Cisco News, concerning the interpreter work of Mrs. Don (Sarann) Jahnston, who has been working with deaf people in the Waco area for the past eight years. Mrs. Johnston is the daughter of Mrs. Norma West o Baird.

Up until eight years ago Mrs. Johnston's exposure to deaf people had been rather casual. A Fort Worth friend whose parents were deaf learned the deaf's sign language in order to better communicate with her parents and to interpret Sunday church services for other deaf people.

Mrs. Johnston and her husband, Don, recognized the need and entolled in the course. Eight months later she was helping to interpret the worship service to the deaf in the congregation. Mrs. Johnston commented that her husband can talk in sign language, but he cannot interpret.

The Johnstons and their children moved to Waco in January 1971. They became involved in the activities of the Columbus Avenue Baptist Church. She translates the Sunday morning song service to the 15 to 30 members.

In general she says there are different levels of understanding on the part of deaf people. Some can understand translations accurately and others have to have the translation simplified and explained.

Much of her experience with the deaf in the past eight years has been with those deaf from birth or early childhood. Most of them were taught to speak at deaf schools or institutions.

The Johnston children are also active in church. Norma, 15 years old, is a sophomore at Richfield High School. Mike, 14 years old, is a ninth grader at Tennyson. Mark, nine years old, is a student at Parkdale Elementary School. The Johnston family live at 5847 Edmonf, Waco.

New Laws Passed Governing Increased Number of Bike Riders

Faced with a potential for a large increase in the number of bike-auto accidents, generated by the soaring popularity of cycling, the Legislature passed a number of recommended regulations to provide uniformity of state bike laws.

The new rules upgrade the concept of bike "rider" to bike "driver," and makes him subject to the same basic traffic rules and the same penalties for violations of laws that motorists are.

Bikes operated on streets must be driven on the right hand sides of the roadway, as close as practical to the curb. Groups of cyclists on streets may travel no more than two abreast.

Equipment requirements make it mandatory for bikes used after dark to have a front-mount white headlight visible for 500 feet, and a rear-mount red reflector visible for 300 feet. Proper brakes are defined as being able to skid the wheels on dry, level pavement.

Bikes may carry only the number of persons for which they are designed and equipped. This means - one seat - one driver.

The new law also requires cyclists to keep at least one hand on the handlebars at all times and to ride astride of regular seats.

UNDERSTANDING THE SCRIPTURES

Is every man right in his own interpretation of the scriptures? Is there not a right and a wrong to our question? Do the scriptures teach one thing to one man, and something entirely different to another man?

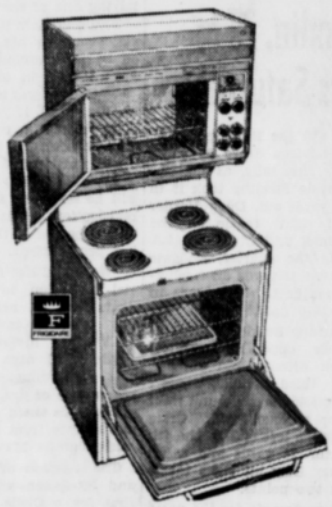

To reasoning and logical men it is all to evident that something is wrong in religion. If the Bible teaches all the conflicting and opposing doctrines that man claims it does, then it is nothing more than a conglomerate mess. What is the way out of such maze of confusion?

The obvious answer is -- a right understanding of the scriptures. We need to use a little of the common sense that we apply in other field of endeavor to our study of the scriptures. In religion some are pronounce every man right in his interpretation of the scriptures just as long as he is honest and sincere. We would not think of following such a course in the field of science, medicine, mathematics or engineering. Just the fact that a scientist is honest and sincere does not make his theory right. We do not want a physician to treat us on the basis of his 'think-sos" regardless of how honest and sincere he is. We want him to KNOW what he is doing! A mathematician cannot arrive at a correct solution by following his conscience. He must follow the RULES. An engineer does not build by following what he thinks is right. He has to KNOW what he is doing. Structures would fall and innocent people would be injured if he went on feelings and sincerity. In these fields we do not pronounce something right until it his been carefully analyzed and proven beyond doubt.

When we are unwilling to be jeopardized in these matters by feelings and suppositions, how illogical it is that we would trust the most valuable and important matter of our lives to such a dangerous idea; that is, the salvation of our souls.

The Vernon Donaways returned last Friday after taking a short camping trip to South Texas.

The Rev. Kenneth Smith was visiting speaker at the First Baptist Church Sunday. He visited Mrs. Jim Yarbrough Sunday afternoon.

Cecile Overton of Ft. Worth arrived last Tuesday for a visit with her brother, Mr. and Mrs. Jesse Overton. She returned home on Friday.

Work was temporarily halted on the new high rise apartments under construction in Putnam. The worker stepped on a nail.

By the way, the Jack Franciscs live in Bryan now instead of Houston. Sorry about that!

A Putnam resident was seen in a neighboring town last week making a strange purchase. He probably plans on using it on the thing he is building in his back yard.

Clyde 7th Defeats Anson Tigers, 14-0

CLYDE — The 7th grade won their second game last Thursday with a 14-0 score over Anson.

The Bulldogs received the opening kickoff and one second play, Buddy Moore ran 55 yards around left end for the score, but the play was called back on an off-side penalty. The 7th was then unable to move and had to punt. Anson's halfback fumbled the ball and the Bulldogs recovered. They then drove down and scored with Monty Richards getting the touchdown from one yard out. The key play in the drive was a 3rd down pass from quarterbcak Mark Hogan to Moore, which carried to the one yard line.

In the second half, Monty Richards hit off tackle and ran 45 yards for the touchdown.

The defense played well again not allowing Anson to penetrate too deep into Bulldog territory.

The offenhe showed better blocking and ball control by keeping the ball ten of twelve minutes in the first half.

The 7th Bulldogs next game will be with Albany, at Albany, on Sept. 30.

BAIRD — Miss Buck Hughes was a guest of the Abilene Garden Club, in the home of her sister, Mrs. M. E. Cargal, Thursday Sept. 16. The group made a tour of the Cargal home and viewed a foreign antique collection.

PUBLIC NOTICE

FACTS CONCERNING RE-RECORDING OF BRANDS IN TEXAS

All brands and marks on Texas livestock must be rerecorded with County Clerks after August 30, 1971, according to a new law passed during the last session of the Texas Legislature. Producers will be given a six-month period, August 30, 1971 through February 29, 1972) in which to register these brands and marks and the location on the animal which they are currently using, after which time any unrecorded brand will be available for use on a "first-come" basis.

The law further states that all such brands and marks must be recorded every 10 years. Each County Clerk records for his given county only, so many producers may need to record their brands in additional counties if their operations are extensive.

The owner shall have the right, during this six-month period, to file the mark and brand now recorded in his name. In the event it cannot be determined from the records who first recorded the brand and mark in the county, then the person who has been using such mark and brand the longest shall have the right to have the brand and mark recorded in his name.

It should be noted that it is illegal to brand livestock without first properly recording the brand with the County Clerk in the county in which the livestock are held.

When the brand or brands are recorded, the location on the animal on which the brand is to be applied must be designated. If the brand is to be applied to more than one location on the animal, it must be so recorded and each additional location for the brand on the animal shall constitute a separate recording of that brand.

There is no limit to the number of brand and/or marks which may be recorded in a county by a person as long as requirements of this law governing the recording and re-recording of livestock brands are met. Minors may have marks or brands separate from that of the father or guardian, which must be recorded or rerecorded as provided by the new law. 35-6-c
