Three Truckers Killed Early Monday Morning

FORT WORTH TRUCKER DIED--Donald Dale Church, 50, of Fort Worth, was killed in the sleeper of this eastbound Peterbilt tractor when it was struck by a westbound White Freightliner about 1:40 a.m. Monday. Church's wife, Geneva, 46, was

driving the truck when it was struck and miraculously escaped with only a few scratches. Both vehicles were virtually destroyed due to the impact.

TWO IOWA TRUCKERS KILLED--Two Iowa based truckers died early Monday morning in this tractor when they collided with another 18 wheeler just east of the city limits about 1:40 a.m. The two dead men were Charles R. Frazier, 18, of

Ottumwa, Iowa, and Robert Lee Leffler, 30, of Blakesburg, Iowa. Volunteer firemen from Stratford are shown trying to free the body of Leffler who was asleep in the truck's sleeper, when the crash took place.

Our country is running short of energy, seems that this scribe always runs short of energy this time of the year...It is just the time when the weather is hot, and like some sort of a mathematical rule, as the temperature rises, our willingness to work stops accordingly.

We have all been hollaring about how hot it has been of late, but if we would take a long look at the summer, it has been one of the best we've enjoyed in years.

The humidity level has been higher this year than usual, and we think this is the cause of a lot of our personal lackadaisical attitudes. But, when we look at temperatures it has been cooler this year than most.

For one thing, the temperature did not begin to climb until later this year and then the rains kept it down to lower levels than usual.

We cannot recall when our country has been as green at this time of the year.

Back to energy itself, a lot of words and garbage has been written about the energy crisis our nation is facing.

We were wondering the other day if there were some way to capture all the flap which is generated up in Washington, we would probably have a way to run all the electric generators in the nation for at least a month or so each year.

We really feel sorry for President Carter...he seems to us to be a basically honest individual, and we sympathize with him for we feel we would react to his job like he has done. It is just too much!

The big shakeup of the President's Cabinet will probably not result in any big changes overnight. In fact, we notice a bunch of poll results this weekend and seems that those polled didn't change their negative attitudes at all where Carter is concerned.

We are happy that he did dump his Energy Secretary. We had gotten to the point that every time we spotted a photo of him we found ourselves getting hot under the collar.

But Schlesinger was not the blame for our muddle, we need to face up to the gasoline crisis as a nation. We feel that to lift the lid off all controls would result in higher prices

Three men were killed instantly and a lady truck driver escaped without serious injury in a grinding, nearly head-on collision of two 18 wheelers 1.9 miles east of Stratford on Highway 54 early Monday morning at 1:40 a.m.

Killed in the crash were Charles R. Frazier, 18, of Ottumwa, Iowa; Robert Lee Leffler, 30, of Blakesburg, Iowa; and Donald Dale Church, 50, of Fort Worth, Texas.

Geneva Church, 46, driver of one of the trucks, escaped without serious injury but was treated for shock at the scene and later spent the night with the Leland Lewis family in Stratford.

Mrs. Church and her husband, Donald, were headed east on Highway 54 in a 1978 Peterbilt tractor trailer loaded with frozen seafood and hamburger meat. They had stopped at Nara Visa, N.M. earlier in the night and had coffee and Mrs. Church took over the wheel of the big semi tractor trailer.

The westbound truck was a 1973 White Freightliner loaded with Lysol and was driven by Frazier with Leffler in the sleeper.

According to information by Department of Public Safety Officer Larry Story of Stratford, the westbound truck, driven by Frazier, came across the middle stripe of Highway 54 and struck the left front of the eastbound truck. Miraculously, Mrs. Church escaped with only a couple of

scratches in the resulting crash and her husband, who was in the sleeper, was killed instantly.

The two trucks hit, then ripped each other down the sides and skidded into the south borrow ditch of Highway 54. Mrs. Church's tractor caught fire but was quickly extinguished by other truckers at the scene and she got out of the cab with only several scratches and was treated at the scene for shock by Stratford EMT units.

The westbound truck tractor, after striking the eastbound tractor, turned over and the trailer pushed the tractor down the highway over 400 feet before all of the wreckage came to rest in the south borrow ditch.

The body of Frazier was found in the borrow ditch about 10 feet from the tractor while the body of Leffler had to be extricated by members of the Stratford Volunteer Fire Department as he was trapped in what was left of the sleeping compartment of the truck.

All three of the men were pronounced dead at the scene by Justice of the Peace John Woods of Stratford.

Stratford EMT unit, consisting of Paul McWilliams, W.D. Brannan, Leland Lewis, Terry Flores and Ronda Mathews, were at the scene along with several members of

the Stratford Volunteer Fire Department.

Empire Construction Company's big crane truck was called later to help lift the truck off the right of way.

Both trucks were leased units. The Church truck was leased from Southwest Truck Service of Oklahoma City, Okla., and the other from Columbine Carriers of Santa Anna, Calif.

Mrs. Church told Officer Story they had loaded in California and were headed for Kansas City. No details were known early Monday morning as to where the westbound truck had loaded, nor where it was headed.

Services for the three victims were pending with Morrison Funeral Directors of Stratford Monday.

Jack Haile Escapes Injury In Wreck

Jack Haile escaped serious injury in a wreck last Thursday afternoon when the grain truck he was driving collided with a Wade Beesley truck at the intersection of the Feedyard Road and Highway 15 east of Stratford.

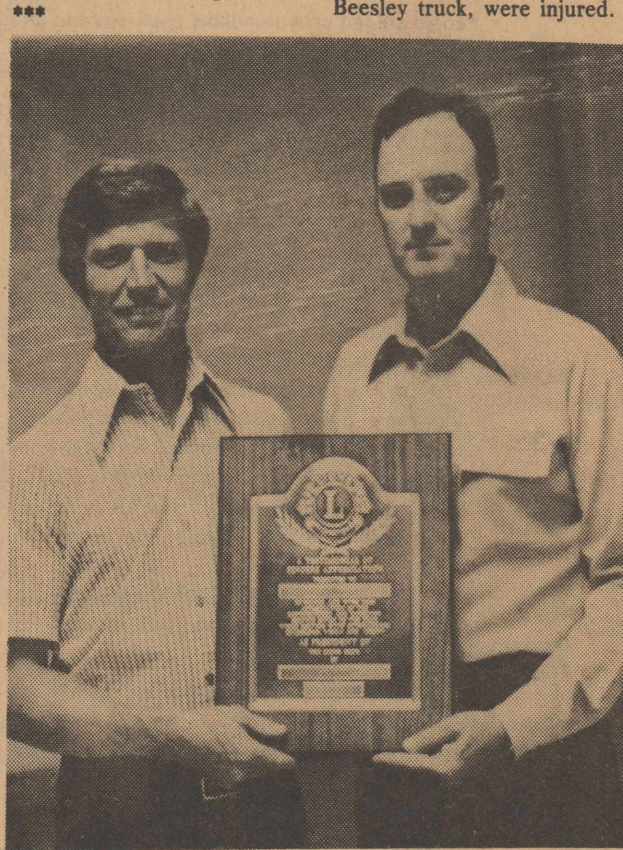

The incident took place about noon Thursday.

Haile was hauling milo from his farm to Stratford Grain Company heading east on Highway 15 when the Beesley truck came out of the feedyard road in his path.

Luckily, the larger truck was empty and Haile's truck hit the Beesley vehicle in the first dolly. Haile's 1972 Chevy truck was demolished and did heavy damage to the Beesley truck but neither Haile nor James Deaton, driver of the Beesley truck, were injured.

Collector's Show Set Aug. 25-26

Stratford's second annual Collector's Show and Sale is slated to be held August 25 and 26. Since the show was such a success last year that space was at a premium, this year's plans are to use both County Barns. There were a total of 49 tables or exhibitors last year and this year's show is expected to total 80 tables.

There will be no admission charge this year and the concession stand will be operated by the Fireman's Auxiliary. The CB Club will patrol and guard the area. There will be hourly giveaways just for registering and a chance to win a door prize.

In case you missed last year's show--don't miss this one. There will be dealers showing guns, coins, turquoise, craft items, antiques, art, collectables and many other items. You can buy, sell, trade or just look.

If you are interested in reserving a table space, contact Marilyn Albert or the Chamber Office. Table spaces are \$10 each. We sold out of space last year and expect to do so again so make your reservation now. Approximately 650 people attended the show last year.

The electric generator over at Clayton seems to be doing well. They furnish about 15 percent of the electricity for the city with the wind device. Why not put to use the things we have in abundance, like sun and wind, for our electric power.

Highway 54 claimed three more victims this weekend. Three trucks died just east of town early Monday morning in a grinding crash.

What a waste of lives! If only we as a nation could find some way to stop this drain of lives and property.

The Fair Board has been quietly busy all winter long working toward planning your 1979 Fair & Jamboree.

Time is now getting shorter for the annual celebration and this year there are signs of more interest in the event than a year ago.

We are glad for we feel every small community needs such a celebration annually if for no other reason than to honor their pioneers.

Our Old Timers are precious folk, in a town the size of Stratford we know most of them personally and their contributions to each of us has been considerable.

The Fair Books are in the process of being printed and will be out soon, so make your plans to participate in this year's event and let us all work together to make this one of the best celebrations yet.

The Stratford Chamber of Commerce held its first annual

Golf Tourney this past Sunday and Harold Oquin came near to claiming a new car for a Hole in One at the event.

Seems the Chamber had made arrangements to give away a new Chevy Malibu for the first golfer making a hole in one on Number 3 and Harold had a tee shot which bounced off the flag and nearly went in the hole.

Tood bad that leaners only count in horse shoes.

We noticed that over at Perryton last week they did have a golfer from Canadian to win a new car this very way.

At any rate, a total of 44 golfers participated in the First Annual Chamber Golf Tourney and we hope next year they get 144 golfers.

Pinky Plunk has done a lot to pump new interest into our Chamber this year and we appreciate his efforts. Pinky retired from the oil business but loves his community and his home and took on the chamber manager's job as a labor of love. Gosh knows we cannot pay him with much

else!

But we for one think Pinky does a good job for all of us and he keeps interest high in our Chamber...we just want to say Thanks, Pinky!

Weather has been quite warm lately, and last week our air conditioner at The Star went out and it really got hot.

However, it did get fixed so things are better.

We all got a small respite from the weather Monday night with a shower which resulted in about .23 of an inch of moisture falling in the night.

Commodity prices Tuesday showed wheat selling for \$3.75 per bushel, grain sorghum at \$4.52 per cwt and corn at \$2.90 per bushel on local markets.

Petition To Reduce Federal Spending and Taxes

YES on 23

The Liberty Amendment Now Pending in Congress

From: WE, THE PEOPLE, SOVEREIGN CITIZENS OF THE UNITED STATES.
To: All members of, and candidates for: U.S. CONGRESS, AND STATE LEGISLATURES
WE, THE UNDERSIGNED SOVEREIGN CITIZENS, AGREE WITH MILLIONS OF OUR FELLOW AMERICANS THAT

- Federal taxes are too high, and must be reduced.
- Federal spending is outrageously high, and must be brought under control.
- America's greatness is the product of rigid constitutional law that provides freedom from arbitrary government interference; and violation of that principle has resulted in thousands of federal corporate activities now competing with private enterprise of the American people. Such federal corporate activities have taken over 40% of the land area and 20% of the industrial capacity of the nation, costing billions of dollars of taxes to pay for these bureaucratic empires.
- Expensive giveaway programs are wasting our substance and creating new problems without solving the old ones.
- We do not need federal bureaucrats to solve local problems.
- Our nation grew great and prosperous because of individual initiative and work, not because of bureaucratic red tape.
- As candidate Jimmy Carter stated, the federal income tax system "is a disgrace to the human race."
- On June 16th it was reported on National TV that 56% of the people are ready to reduce federal taxes by 30% or more.
- People are fed up with hollow promises and phony reforms. It's time to give the working people some real relief.

THEREFORE, as a SOLUTION to the above, WE PETITION all present MEMBERS OF CONGRESS and STATE LEGISLATURES—and all candidates for those offices—to take necessary action NOW to put out for ratification by the STATES THAT PROPOSED AMENDMENT to the U.S. CONSTITUTION which is now pending as HOUSE JOINT RESOLUTION 23, popularly known as the "LIBERTY AMENDMENT", which has already been approved by the LEGISLATURES OF WYOMING, TEXAS, NEVADA, LOUISIANA, GEORGIA, SOUTH CAROLINA, and MISSISSIPPI, and which provides that:

"Sec. 1. The Government of the United States shall not engage in any business, professional, commercial, financial or industrial enterprise except as specified in the Constitution.

"Sec. 2. The constitution or laws of any State, or the laws of the United States shall not be subject to the terms of any foreign or domestic agreement which would abrogate this amendment.

"Sec. 3. The activities of the United States Government which violate the intent and

purposes of this amendment shall, within a period of three years from the date of the ratification of this amendment, be liquidated and the properties and facilities affected shall be sold.

"Sec. 4. Three years after the ratification of this amendment the sixteenth article of amendments to the Constitution of the United States shall stand repealed and thereafter Congress shall not levy taxes on personal incomes, estates, and/or gifts."

Here's how the Federal Government reports the 1979 BUDGET DOLLAR

Spending: Direct benefit payments to individuals 37¢. Grants to States 17¢. National Defense 24¢. Other Federal Operations 14¢. Net Interest 8¢.
Income: Individual Income Taxes 38¢. Social Security 28¢. Corporation Income Taxes 13¢. Borrowing 12¢. Excise Taxes 5¢. Others 4¢.

This petition can be signed by any citizen (we suggest age 16 or over). The Petition need not be notarized.

HEAVY FIRE DAMAGE TO COMBINE--A Massey combine owned by J.R. Houston sustained heavy damage due to a fire in the cab area last Thursday afternoon. The combine, which had been in use only a few minutes prior to the fire, was completely gutted around the cab before Fireman Tex Jeffcoat and a crew could arrive from town. The blaze took place in the Judd field just west of the city limits. Later it was learned an oil leak was probably the cause of the blaze.
