## Missing Southland Banker Surrenders At Post Fire Blazes About Dome Of United States Capitol

### House Documents Damaged As Fire Sweeps Building

More Than Score Of Fire Companies Called To Aid In Battle On Stubborn Blaze Beneath Roof

### Rages 30 Minutes

Flames Originate In Room Of Capitol Artist And Spread About Dome; Many Crowd Parkways

WASHINGTON, Jan. 3.—Fire blazed more than 30 minutes tonight about the dome of the Capitol of the United States.

Originating in the room of a capitol artist, it damaged the documents of the house and sent flames shooting toward the great figure of Liberty on its top while thousands within the parkways stood by in fear that the historical building would be destroyed.

Twenty fire companies were called to fight the stubborn blaze which at first smoldered beneath the roof and then broke through to shoot shafts of red-hot heat into the air. The blaze could be plainly seen all along Pennsylvania Avenue and from the White House itself, where a Christmas tree blaze burned President Hoover's executive offices.

Garl Roberts, the artist, was found almost suffocated and was removed to an office of the building. The capitol officials immediately began an investigation to determine whether a carelessly tossed cigarette might have caused all of the damage.

Outside on the spacious east plaza of the capitol, a host of fire engines, hook and ladder companies, fire pumps, fire supply cars, first aid wagons and police reserves patrolled the scene.

### Pro Enforcement Policies Become More Stringent

Liquor Purchaser Is Hit By Request For Ruling On Conspiracy To Violate Prohibition Laws

BY FRANCIS M. STEPHENSON Associated Press Staff Writer WASHINGTON, Jan. 3.—More stringent prohibition enforcement policies were undertaken today by the justice and treasury departments as the capital's controversy over the liquor situation continued to seethe.

The department of justice asked the supreme court to rule that when a person gives a bootlegger an order requiring transportation of the liquor, he is guilty of conspiracy with the bootlegger to violate the prohibition law.

Output Reduced Prohibition Commissioner Doan announced an agreement had been entered into with the industrial alcohol manufacturers to reduce this year's output of alcohol by 15 percent.

At the senate, where the quarrel of republican dyes over the Hoover administration enforcement policies started the agitation over prohibition, the statement-making ceased, as each side watched developments.

### Hundreds Inspect 12 Story Structure During Day

CITIZENS of Lubbock and the South Plains gathered around the banquet hall again last night to celebrate another achievement in the progress of this section. The occasion was the formal opening of the new 12-story Hilton hotel at the corner of Texas and Main.

More than 200 were present at the affair which paid tribute to C. N. Hilton and his co-workers in bringing such an excellent institution to the city. Francis Wilson, local attorney, presided as toastmaster.

Opening of the hotel came yesterday after seven months of work, a record for hotel construction by the Hilton company. Throughout all yesterday thousands of people streamed through the lobby, halls and rooms of the new hostelry to view its wonderful architecture, decorations and furnishings.

The banquet last night was not only a tribute to Mr. Hilton and his company but also to a South Plains boy, Edward King, who had been selected as manager of the new institution. Throughout all the program, speakers praised "Swede" for his excellent ability to manage hotels.

Words Extolled Welcome. Mayor Harry O. Woods of Lubbock made the welcome address in behalf of the city, extending greetings to Mr. Hilton and visitors and assuring the hotel management that Lubbock would always consider the institution as one of its homes.

His speech was followed by a short talk from Mr. Hilton, who declared that he was delighted to see the hotel in such a progressive community. He would always consider the institution as one of its homes.

Mr. Hilton proposed that the new institution be dedicated to remembrance of the romance of progress.

Toastmaster Wilson then called upon Walter S. Poey, vice-president of the First National bank, who gave a review of the hotel development in Lubbock, relating experiences of his earlier days here when only the old Nicolette hotel (now the Broadway at the corner of Broadway and Avenue H) was the sole hostelry in the city. Mr. Poey told of the construction of the old

## Motions Made In Large Libel Suit

HOUSTON, Jan. 3. (AP)—Three more defense motions in the million dollar libel suit of R. B. Cresser of Brownsville, republican national committeeman for Texas, against the P. F. Collier and Son company and the P. F. Collier and Son Distributing company were heard today before Federal Judge W. Lee Estes of Texasians. One of the three was uncontested by Cresser's counsel.

The motions seek to quash a third writ of citation alleged to have been served on an agent for the P. F. Collier and Son company, a change of venue from Brownsville to Houston, and, in the event the second motion is denied, authority to draw jurors from Victoria, Houston and Galveston counties or from districts other than Brownsville. The first motions applied alone to the P. F. Collier and Son company. The other applied to the P. F. Collier and Son Distributing company.

## How to Achieve Beauty

The medieval period is one of mystery and adventure to most of us; a time when humanity just began to find its way out of the dark ages into a period of enlightenment. These times were charged with interest for those who are interested in the evolution of modern beauty culture. The Byzantines, the Hindus and the Hebrews all added their offering on the altar of beauty. The Arabs advanced further than the others saying that one must not merely try to hide defects but that one must correct faults.

It was amusing to me to find that the philosophy of beauty, which I have been preaching for years, had its place in this old Arabian philosophy. During these times great men came to the fore, and it is important to note that all the great beauty specialists of the time were men, and that they devoted as much time to beautifying members of their own sex as members of the fair sex.

Men like Paul of Aegina, Rhazes of the East, with their research in the use of salves, plaster and therapeutics, left an impression that lasted long after the Renaissance. Even the Koran of Mohammed (about 570 A. D.) refers repeatedly to aromatics and to means of darkening the eyes for decorative purposes.

From this time on, men began to turn their attention to cosmetics. Men with medical knowledge devoted themselves to curing itching of the skin, and separated this field entirely from the one of cosmetics. Under the field of cosmetics came hair dressing, wig making, the creation of dyes, powders and pastes. There is much on record of this period. It reads like the story of a people trying to free themselves from the bondage of ceaseless fighting and struggle for existence to devote themselves to the more aesthetic things of life. And what is of the most vital importance is the fact that there came of this experimentation during this time many correctives and cures. Cleanliness began to take on special significance in relation to beauty, and our modern statement, "Health is the first essential to beauty," seems to have rooted itself—as amazing as this may seem—in medieval times!

J. B. Lee, 92, has resigned after 44 years of continuous service as district clerk of Walker county, Texas.

## Improvements In 1930 Chevrolets

Initial Showing Of Latest Models Will Be Today At Local Dealer; Reduction Of Prices Noted

When the initial showing of the 1930 model of Chevrolet is made today at Kuykendall Motor company 78 specific improvements in performance, endurance and appearance will be noted, according to an announcement yesterday by Geo. P. Kuykendall, owner and manager of the local agency.

Price reductions also will be noted and is expected to add materially to the interest of the buying public. The new models arrived in Lubbock only yesterday afternoon and will be dressed for inspection today and through the coming week.

The fact that more than 1,300,000 motorists selected the 1929 Chevrolet shows the unmistakable interest that centers around the showing of the 1930 model. Mr. Kuykendall estimated that around 4,000 Chevrolets are in use in Lubbock county.

## THE GREATEST CHEVROLET IN CHEVROLET HISTORY

Today, Chevrolet presents the Greatest Chevrolet in Chevrolet History—a smoother, faster, better Six—with new bodies by Fisher.

Basically, it is the same sturdy, substantial Six which won such tremendous popularity in 1929. But it is a greater car in every way—for it embodies every worth while advancement that a year of engineering research has developed. There are scores of vital improve-

ments which contribute to every phase of comfort, performance, endurance and safety!

An improved six-cylinder valve-in-head motor, with its capacity increased to 50 horsepower; four Delco-Lovejoy hydraulic shock absorbers; fully-enclosed internal-expanding weather-proof brakes; a new dash gasoline gauge; heavier and stronger rear axle; Fisher non-glare windshield; larger tires—

—these are typical of the many improvements which make this car the Greatest Chevrolet in Chevrolet History.

But most impressive of all from the standpoint of the motor car buyer, is the sensational dollar for dollar value which this new car provides. For, in spite of its finer quality—this smoother, faster, better Six has been made available—

--- at greatly reduced prices!

During 1929, more than a million three hundred thousand persons bought six-cylinder Chevrolets. This enormous volume production has made possible many savings in the Chevrolet factories—and, in keeping with its long-established policy, Chevrolet is sharing these

savings with the public. No written description can do justice to the extra value and quality provided in this new car. Visit your Chevrolet dealer—see this car—ride in it—and judge for yourself the sensational value it represents.

# Matador Cagers Meet Littlefield Five Here Tonight

## Pugilistic Ambitions Of Art Shires Checked By National Boxing Board

### Andy Hemphill's Court Crew After Another Triumph

Tech Quintet Out For Revenge On Team That Took 25-24 Decision Earlier In Cage Season

The Littlefield Athletics, led by Andy Hemphill, invade the Tech basketball arena tonight to battle the Matador quintet in a court skirmish that has all the earmarks of a grudge affair.

Boasting a record of eight triumphs out of nine starts, the Littlefield cagers come seeking their second consecutive victory over the cohorts of Vic Payne, who lost a 20-24 decision to the Athletics in a practice game before the Christmas holidays.

Hemphill and his forces have been increased over the fact that the Matadors are regarding tonight's scrap as a practice game. Here's how Andy views the impending clash.

"Better Saddle Up"  
"Texas Tech is going to have a same tomorrow night and not a practice game. If they want it called a practice game, I would advise them, they saddle up for we are coming over."

Following their hard skirmish with the Lubbock Hornets Thursday night, which the college five took, 32-22, the Matadors were sent through a fast practice session last night as a final preparation for the Littlefield combat tonight. The probable starting lineup for the Payne-men looks something like this: sledge, and flier, forwards; Maxwell, center; Tadlock and Vincent, guards.

McInturf and Lacy are the starting forwards for the Matadors. The game is called for 7:30.

### Ralls Jackrabbits Defeat Panhandle

Ralls Basketeers Chalk Up Third Basketball Win Of Season With 17 To 14 Victory Over Visitors

(Special To The Avalanche)  
RALLS, Jan. 3.—The Ralls Jackrabbits won their third consecutive basketball game of the season here tonight by defeating the Panhandle high school team by a score of 17 to 14. The two other teams defeated were Plainview and Floydada high schools.

Tonight's game was featured by a fast finish of the last half. At the half the score stood 11 to 4 in favor of Ralls but early in the fourth quarter a tie score of 14 to 14 was reached.

Relations between Robinson and S. W. McKeever, vice-president of the club, have been strained some time and McKeever has opposed removal of the incumbent's contract, either as president or manager.

Paper Gives Report  
The Evening World says the decision to name Speaker as bench manager represents a truce between the Ebbebs and McKeever factions. The Ebbebs have stood staunchly behind Robinson.

The newspaper says it is understood that Mrs. Charles H. Ebbebs, widow of the former club president, urged the appointment of Speaker as president and retention of Robinson as president for one year and that McKeever is believed to be agreeable to this plan.

Speaker will be free to accept, the story continues, on account of changes contemplated for the Newark club.

Asked if his Newark contract contained a clause whereby he would be free to accept a major league manager, he thought one to be offered him, Speaker replied.

Refuses Direct Statement  
"No, it does not. Neither does it contain any clause that would prevent the Newark club from releasing me if I desired."

Because he has not been in communication with either side regarding the Newark club.

### Wayland Rabbits Down Littlefield

(Special To The Avalanche)  
LITTLEFIELD, Jan. 3.—The Wayland College Jackrabbits tonight won a hard-fought basketball contest from the Littlefield Athletics by a score of 27 to 25. The winning goal was tossed in an extra period, the score being tied when the final whistle was blown.

Led by Andy Hemphill, the Athletics led throughout the game until the last few minutes when the visitors forged ahead.

Davis, of Wayland college, was high point man with 15, Hemphill led for the locals with 11 points.

McInturf, Wood and Lacy played forwards for Littlefield, Hemphill was at center, and Stone and Davenport were the guards.

Chicago Stadium Cards Two Fights  
CHICAGO, Jan. 3.—The Chicago Stadium Corporation today closed two matches for its all-star boxing card, January 16.

Both matches will be 10 rounds to decision. Fields' title will not be at stake.

### Tris Speaker Denies Report That He May Become Active Manager Of Brooklyn Robins When Season Opens

DALLAS, Jan. 3.—Tris Speaker, manager of the Newark club of the International League, declared here tonight that "it was all news to him" when advised of reports from New York that he was to become manager of the Brooklyn club of the National league.

"As far as I know there is no foundation for the report that I am to go to Brooklyn," Speaker said. "My contract with the Newark club has another year to run, and I have been at work this winter trying to round together a strong team including some changes in the personnel."

Denies Report  
"We have worked out our plans for spring training at St. Augustine, Fla., and all my baseball thoughts have been with the Newark club. I have had positively no negotiations with Newark regarding leaving there nor with Brooklyn concerning entering their organization."

Speaker, former manager of the Cleveland American League club, managed Newark of the International league last year. Robinson, for three years has been acting in the dual capacity of president and manager of Newark.

Relations between Robinson and S. W. McKeever, vice-president of the club, have been strained some time and McKeever has opposed removal of the incumbent's contract, either as president or manager.

### AN OLD TIMER'S SCRAP BOOK BY TIM McGRATH

HOW THE THREE WASHINGTON PICKANNINIES JOINED WILLIAM MULDOON'S STABLE

I guess only the real old-timers will recall William Muldoon's Pickanninies. They were famous throughout the east and middle west in their day, and Muldoon, who now heads the New York Boxing commission, had lucrative sport out of their activities.

In the pre-pickanniny days, Muldoon's troupe consisted of three champions, one known as Jack Ashton. They would post an offer of \$50 for any person to stick four rounds with one of Muldoon's champions—no body barred.

The stable arrived in Washington, D. C. to make a showing at Kernan's theater. Muldoon and his fighters dropped into the famous Harvey's Oyster House for food.

The presence of three champions was bruited all about the place; even congressmen and senators displayed interest.

But the greatest interest was shown by three negro boys who were adept oyster openers. They talked quietly among themselves as they studied Muldoon's menage.

The dusky trio got off early that night, and went to Kernan's theater. Each time a champion appeared, one of the oyster openers was on hand to accept the challenge. And each time, the dark boy won his battle. Muldoon lost no time in jettisoning his fallen "champs." Nor in signing the trio known collectively as the "Three Pickanninies," and individually as the "Pickanniny," the "Cyclops" and the "Tunderbolt."

There were about two dozen yet to play today. A large number of the outstanding players are not scheduled to tee off until tomorrow. The 64 with the low scores will tee off Sunday on the final 36-hole play.

### Sharkey's Miami Bout Called Off

Boston Gob's Manager Says Griffiths Not Suitable As Opponent; Jack To Wait For Schmeling

BOSTON, Jan. 3.—(AP) —Definite announcement that Jack Sharkey would not fight in Miami, Fla., on February 27 was made here today by Johnny Buckley, his manager, when he quit his second long conference in two days with W. F. Carey, head of the Madison Square Garden corporation.

"Sharkey will not box at Miami next month and will remain idle until he meets Max Schmeling of Germany in the milk fund outdoor show next June in the Yankee Stadium or in Chicago," Buckley said. "Carey offered us a flat guarantee to fight 'Tuffy' Griffiths in Miami, but Jack refused to even consider it."

"We have maintained all along Griffiths is not a suitable opponent for Sharkey and Jack would gain nothing by defeating him. We realize Jack could never get the heavy-weight crown by defeating such performers as Griffiths. He can get it by beating Schmeling in June and can defend his title against Phil Scott or some other suitable opponent in September."

### Teachers Win

BROWNWOOD, Jan. 3.—The Southern Oklahoma Teachers' Association, Okla., tonight defeated the Daniel Baker College basketball team, 32 to 29. The Oklahoma Bulldogs came from behind a 19-12 lead held by the Billies at the half.

### Children Killed

LONDON, Jan. 3.—Three children were killed and six injured here today by explosion of a barrel of petroleum in a railway freight station. The children were playing about the station, and police believe they set fire to the barrel.

### Four Injured

NEW YORK, Jan. 3.—(AP)—Running blindly in a dense fog which threw her two miles off her course, the ferryboat William R. Heiser, crashed into the tug boat Mutual today at Beard's dry dock, Brooklyn, throwing 18 men into the water and injuring four of them seriously.

### Telephone Bride Poses For Photo

CLEVELAND, Jan. 3.—(AP)—Mrs. Homer Eakin, who became a bride over the long L. O. distance telephone from Waco, Texas, posed for photographs today in the kitchen of her new Cleveland home, while the bridegroom demonstrated his ability to wipe glasses.

The bride's arrival was unexpected since Eakin previously said she would meet her in St. Louis, January 6.

Mrs. Eakin was asked whether she considered long distance wedding a success for holidays.

"Can you doubt it?" she replied.

### Femmes De Menage—Chambermaids If You Please—Stage Parisian Revolt

PARIS, Jan. 3.—(AP)—Parisian Femmes de Menage—or, in English, chambermaids—are in revolt.

Repeating yesterday by the hundreds, from apartments great and small to the left bank of the Seine they drew up a bill of rights for presentation to the housewives they serve.

"We, the union of the Femmes de Menage, of Paris, have the honor to announce to you our ultimate and unalterable decisions taken in general assembly."

"From now on we have a fixed wage, not depending on the whim and humor of our employers. The tip, being a varying amount depending on change, should be fixed."

"From January 1, we refuse to polish as well as to climb up ladders for the purpose of changing windowpanes and keeping them in condition."

"We further ask a respite for 15 minutes each morning, no deduction to be made from wages in consequence."

"We ask for double pay Sundays and holidays and not to have pay arbitrarily deducted for uniforms."

Request Supplement.  
"After big dinners and receptions we ask for a supplement for holidays during the glasses and shining the silver."

The ultimatum is signed by three comrades, leaders of the union, Julie, Marie and Jeanne.

The regular wage of these maids of all work in Paris is \$12 to \$16 a month, in the provincial towns, less \$10 to housekeepers from other lands, these women seem to be a survival of perdition. Except in Paris, their wages are never fixed. It is not unusual in the provinces for the workday to begin at half past five in the morning and last to 9, 10 and 11 at night.

Officers At Loss In Gang Shooting

Twenty Suspects Grilled In Wounding Of Police Inspector Henry Gavin And School Girl

DETROIT, Jan. 3. (AP)—After more than 24 hours questioning of suspects, police today were without definite information that might lead to the capture of the gang which yesterday wounded Inspector Henry J. Gavin, head of the crime and bomb squad, and an 11-year-old girl in an attempt to put the police official "on the spot."

More than 20 suspects were caught in the police dragnet set in motion immediately after the shooting, but none provided the investigators with substantial clues.

Inspector Gavin, although seriously wounded by bullets poured into his automobile, will recover. It was reported the girl, Lois Bartlett, has a chance for recovery.

The shooting occurred on Cadillac street at Inspector Gavin's residence in a large sedan, released a broadside of revolver bullets and shotgun slugs which shattered the windows in the officer's car, wounded Gavin and struck the Bartlett girl as she was walking along the sidewalk.

At least three men are believed to have been in the gunman's car.

A royal romance will ride on the spontaneously appointed train that will carry the princess and the Belgian royal family to Italy, for the princess and her fiancé met twelve years ago when they were children and from the day to this an affection has lasted that has warmed the hearts of the Belgian people.

**To Guard Train**  
The train about which the Belgian family will travel will leave Brussels late this evening and will be guarded all of the way across Europe. Particular care has been taken because of the recent attempt against the life of Prince Humbert in Brussels and the discovery of a plot among extremists to prevent the marriage.

The princess and the crown prince first met during the world war in the autumn of 1917 when the king and queen of the Belgians visited the Italian battlefield. The young princess was a pupil at the boarding school of the Reale Instituto Della Serenissima Anna Maria in Florence. "Mademoiselle" as Princess Marie Jose was called at the express wish of her mother, went in company of her English governess, Miss Hamman, to Padua where Marie Jose and young Humbert were together frequently.

**Charmed By Venice**  
It was during these days that the 11-year-old princess fell in love with her playmate, who one day obtained permission to convey young Marie Jose and Miss Hamman to Venice. The charm of Venice impressed upon the royal children just as it does on more prosaic visitors. For six years she did not meet Humbert again. Their ways had separated, but their hearts were still filled with each other. When they next met, Marie Jose was a girl of 17 and Humbert had become an officer in his father's army.

The happy days of Padua and Venice had left a deep, genuine feeling in both hearts and, with the consent of their parents they became engaged.

**Prince Of Wales On Hunting Trip**

SOUTHAMPTON, England, Jan. 3. (AP)—The Prince of Wales sailed today aboard the liner Kenilworth Castle for Capetown, South Africa, to resume the hunting trip that he abruptly broke off when King George became seriously ill more than a year ago.

The accompaniment of chebbs from friends ashore and fellow passengers on the ship, the prince went about 2:30 p. m. The hawkers were immediately cast off and the ship pushed out of the docks to the strains of "Auld Lang Syne" and "God Save the King."

As the ship butted her way down Southampton water through a stiff breeze and a shower of rain, the prince went below to his own private cabin. He was last seen by watchers on the shore as he waved his cap in response to cheers from the people on the dock.

Secretary Mellon Defends Shooting

Coast Guard Did Nothing Not Justified by Laws In Shooting On Liquor Boat, Official Says

WASHINGTON, Jan. 3. (AP)—Secretary Mellon today asserted the coast guard had done nothing that was not justified and authorized under the law in firing on the liquor smuggling boat, Black Duck, which resulted in the death of three men.

Mr. Mellon's statement was in line with those previously made by Rear Admiral Billard, coast guard commander, and Assistant Secretary Lowman.

The secretary of the treasury said the shooting was regretted, but reports to him indicated the coast guard was acting "entirely within their instructions and observing duty in what they did."

**Gave Warning**  
"They gave warning, the boat was endeavoring to escape and they could not do less than they did," he said. The secretary, who returned to Washington today from a sea trip in Bahama waters, said the coast guard had information that the smugglers were attempting to run liquor into the United States and concentrated coast guard boats in that vicinity. The Black Duck, he said, was near the coast of Newport.

**BANK PORTER SOUGHT**  
AUSTIN, Jan. 3. (AP)—Officers were searching today for a negro bank porter who had disappeared with \$5,000. The negro appeared at an Austin bank just before closing time and represented to officials he had been sent by the bank that employed him for the money. It was delivered to him. He did not show up for work at the bank that employed him yesterday.

Bobbitt Undecided Over Laredo Probe

AUSTIN, Jan. 3. (AP)—Attorney General R. L. Bobbitt said today he was undecided when he would leave for Laredo to conduct an investigation of charges brought against District Attorney John Valls by O. W. Kilham and Hal Brennan of that city with reference to his attitude toward the Mexican government.

Governor Moody requested Bobbitt to make the investigation and announced he would not act on the petition of Laredo citizens to withdraw the appointment of Valls to the district attorneyship until the inquiry was completed.

Laredo residents had advised the governor that only the resignation of Valls would make possible the reopening of the consulate there, closed after Valls threatened to arrest General Calles, former president of Mexico.

It was believed here a movement was on foot to bring about a settlement of difficulties between Mexico and Laredo and it might not be necessary for Bobbitt to make the trip to the border.

Posters Of Coast Guard Destroyed

BOSTON, Jan. 3. (AP)—Destruction of coast guard recruiting posters on Boston Common followed a meeting in historic Faneuil Hall yesterday protesting the killing by coast guardsmen of three rum runners in Rhode Island waters Sunday.

Excited youths led the demonstration. G. W. Briggs, petty officer in charge, was unable to stop them. Posters were torn from their standards, trampled on, and the standards bent and broken. There were no arrests.

Coast guard division headquarters declined to comment on the incident, but later G. A. Pickett, head of recruiting, said new posters would be placed on the common tomorrow.

Speakers at the meeting denounced the shooting of the rum runners as the "Blackport massacre." The audience unanimously adopted a resolution calling upon President Hoover for an impartial investigation.

Philippine Group Ask Independence

WASHINGTON, Jan. 3. (AP)—Manuel Roxas, speaker of the Philippine house of representatives, arrived in Washington today at the head of a Filipino independence commission.

The commission was sent from Manila as a result of Senator Binghams's promise, in the special session that the senate territories committee would report on the King resolution for Philippine freedom.

The first committee hearing was scheduled for January 15. Greeted on arrival by Pedro Guerrero and Camilo Ocas, the resident commissioners in Washington, Speaker Roxas immediately began reviewing work accomplished by the resident commissioners in the last few months. He conferred with Secretary Stimson more than an hour. Other than to say the conversation embraced discussion of Philippine affairs, he declined to discuss the interview. Secretary Stimson likewise made no comment.

TO SIGN CONTRACT

Successful Bridge Bidder In Oklahoma City

OKLAHOMA CITY, Jan. 3. (AP)—A representative of the Southwest L. E. Meyers company of Dallas, successful bidder on a free bridge which the Texas and Oklahoma highway commissions propose to construct over Red River between Durant, Okla., and Denison, Texas, was here today to consummate the contract awarded his firm.

The Oklahoma commissioners expected to sign the contract late today. The Meyers company also was low bidder on bridges to parallel toll structures near Terral, Okla., and Gainesville, Tex., but due to confusion in the contracts, the commissions of the two states decided to re-advertise the projects and receive new bids January 21.

The highway officials of both states are anxious to begin construction of the bridge near Durant immediately, it was said by Lew H. Wentz, chairman of the Oklahoma commission.

STEWART SAYS PRESIDENT WILL HAVE TEMPORARY OFFICES FOR REST OF TERM

BY CHARLES F. STEWART Central Press Staff Writer.

WASHINGTON, Jan. 3.—President Hoover will transact business in temporary quarters during all the rest of his term if he serves only one four year period.

Mr. Hoover quite likely knows already what kind of offices the president ought to have and where they ought to be situated.

When one applies the term "temporary" to anything governmental in Washington, one means temporary for any length of time up to a dozen years or so; that goes almost without saying.

And of course the White House west wing will be locked into some sort of habitable space in fairly short order. It will not be permitted to stand there indefinitely—a melancholy rack of ruins.

But even after the west wing has been repaired, the job will be only temporary.

The truth is, the west wing executive offices never were more than temporary. They were built for President Roosevelt, and probably they served him pretty satisfactorily—temporarily.

Mr. Hoover's present temporary office rooms will have to do him for quite awhile.

When one applies the term "temporary" to anything governmental in Washington, one means temporary for any length of time up to a dozen years or so; that goes almost without saying.

The State and War building, into which the presidential desk was moved "temporarily" is only the width of a narrow street and up a long flight of steps farther away, but the street is not roofed and cannot very well be.

At that, it is not a bad place for the president, as to location, if the rest of the war department offices were moved out of it, and down to Potomac park, whether or not the rest of them were transferred into "temporary" buildings when America entered the world conflict.

There is no denying that the edifice is old-fashioned. It was built during the mansard era. Still, it has historic association—not that anyone cares for them in this generation.

Maybe the most popular suggestion is for a presidential building in the block at the west end of Lafayette square—which is to say, carry-covered across this little park from the White House. It would involve a trip also across Pennsylvania avenue and Jackson place, but the walk would take a scant two minutes and the police could stop traffic while the president was negotiating it. They would need to, too. An auto almost ran over President Coolidge once, at Pennsylvania and Jackson.

EFFORTS TO ISOLATE INFLUENZA GERM MEET BIG OBSTACLE

By DR. MORRIS FISHER Editor Journal of the American Medical Association and Journal of Hygiene, the Health Magazine.

In 1892 a bacteriologist named Pfeiffer described a germ which he thought was the causative organism of influenza. At various intervals since that time other organisms have been described also alleged to be causative, and the bacteriologists continue to debate the question as to the exact nature of the influenza germ.

Modifications of the Pfeiffer organism have been described every year associated with various coughs, colds and similar infections of the nose and throat. It is emphasized that the various types are described as Pfeiffer organisms do not constitute in any instance a unit, that is to say they are not uniform in distribution or in the way in which they bring about disease.

During the last great epidemic of 1918, organisms were recovered from thousands of cases all over the world, and there is no evidence that uniformity exists even in the many types of organisms associated with that epidemic.

In attempts to discover and definitely to identify the influenza germ, experiments have been made with human beings who voluntarily submitted themselves to inoculation with pure cultures of the various germs that have been isolated. The earliest definite report of successful human inoculation with pure culture of the Pfeiffer organism is that recorded by Dr. D. J. Davis in Chicago in 1906.

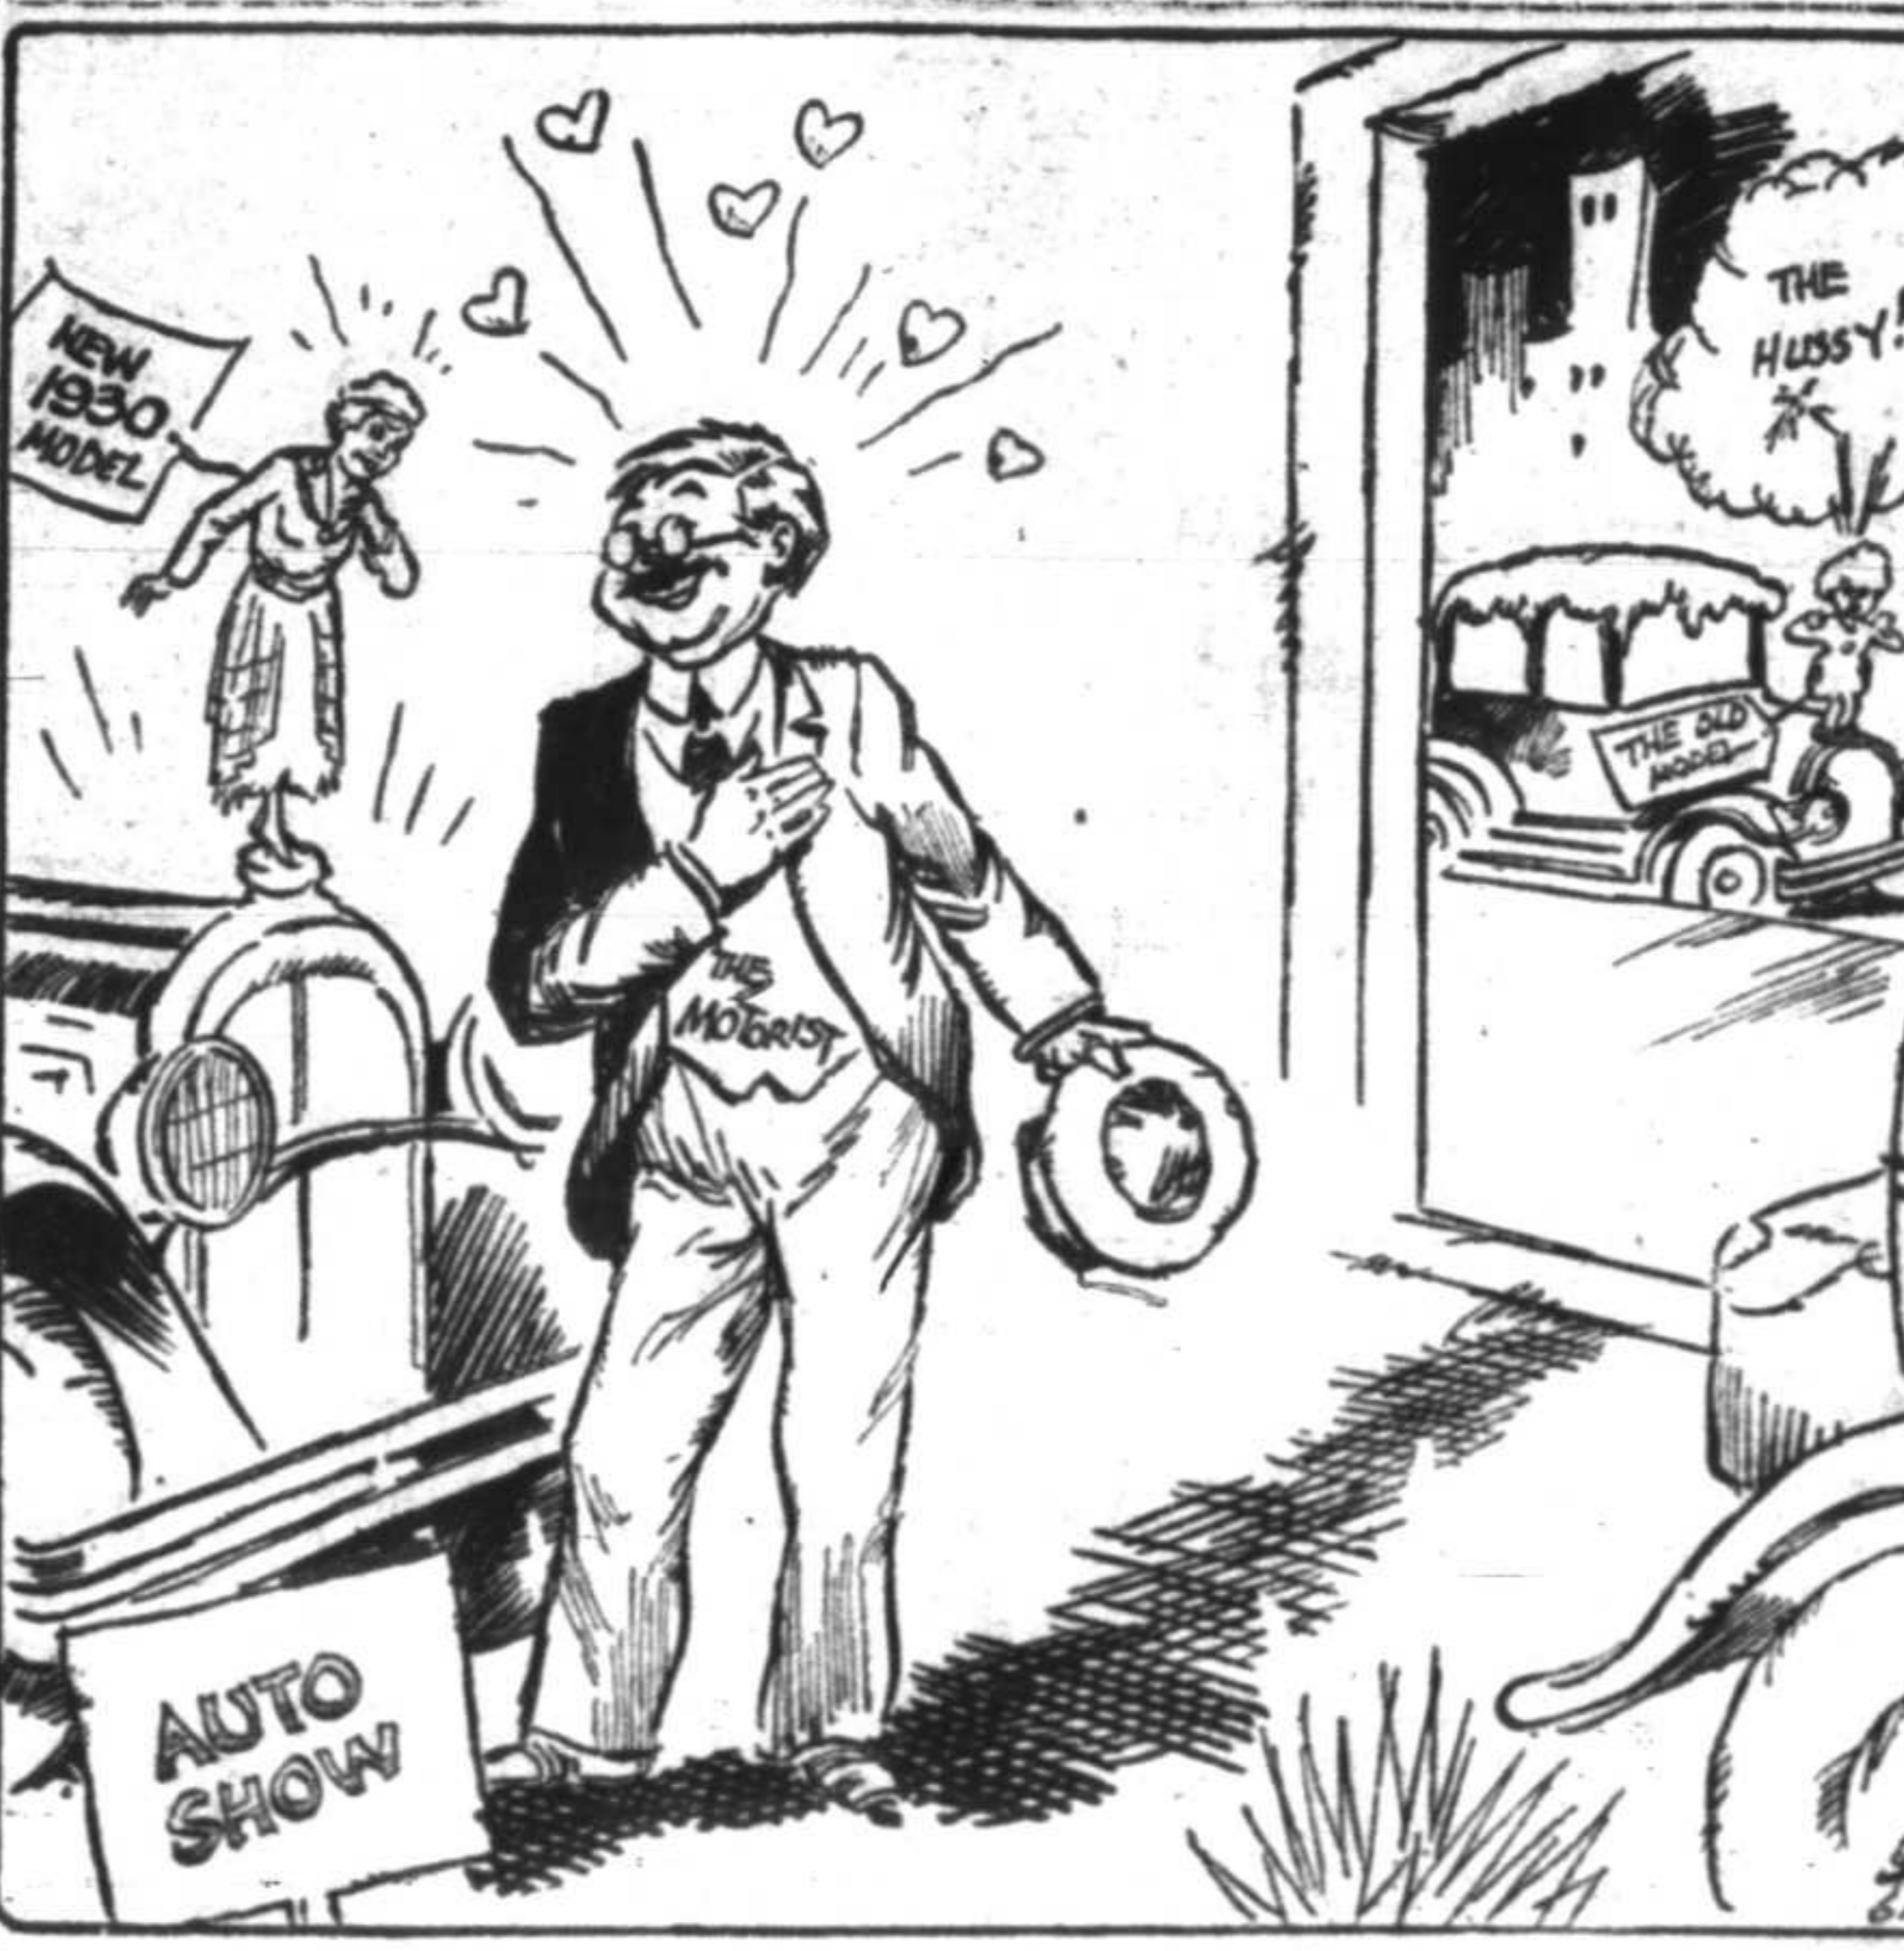

However, Doctor Davis pointed out at the time that while the Pfeiffer germ may produce definite symptoms on inoculation into human beings, the symptoms produced are not those of true influenza.

During the 1918 epidemic, volunteers were inoculated with 13 different strains of organisms isolated from cases of influenza. All of them developed symptoms, but again it was shown that these symptoms were not the typical symptoms of epidemic influenza.

Indeed, after surveying all of the evidence of innumerable inoculations with all sorts of organisms taken from the nose and throat of people during epidemics, Prof. E. C. Jordan comes to the conclusion that it cannot be definitely asserted that negative inoculation experiments are not in themselves sufficient to rule out Pfeiffer's organism as the cause, since it is quite possible that there are some unknown factors influencing the likelihood of a person to catch influenza or associated with the way in which the organism is transferred from one person to another.

After death from influenza no uniformity of kind or distribution of bacteria can be detected in the body.

Sunday-School Lesson

BY DR. J. E. NUNN

General Tople, childhood of Jesus. Scripture Lesson, Matt. 2:10-23.

Matt. 2:10. And when they saw the star, they rejoiced with exceeding great joy.

11. And they came into the house and saw the young child with Mary his mother; and they fell down and worshipped him; and opening their treasures they offered unto him gifts, gold and frankincense and myrrh.

12. And being warned of God in a dream that they should not return to Herod, they departed into their own country another way.

13. Now when they were departed, behold, an angel of the Lord appeared to Joseph in a dream, saying, Arise and take the young child and his mother, and flee into Egypt, and be thou there until I tell thee: for Herod will seek the young child to destroy him.

14. And he arose and took the young child and his mother by night, and departed into Egypt; and was there until Herod was dead: which was fulfilled that which was spoken by the Lord through the prophet, saying, Out of Egypt did I call my son.

15. Then Herod, when he saw that he was mocked of the Wise-men, was exceeding wroth, and sent forth, and slew all the male children that were in Bethlehem, and in all the borders thereof, from two years old and under, according to the time which he had exactly learned of the Wise-men.

17. Then was fulfilled that which was spoken by Jeremiah the prophet, saying, A voice was heard in Ramah, weeping and great mourning, Rachel weeping for her children; and she would not be comforted, because they were not.

18. But being warned of God in a dream that he should not return to Herod, they departed into their own country another way.

19. And when they were departed, behold, an angel of the Lord appeared to Joseph in a dream, saying, Arise and take the young child and his mother, and go into the land of Israel: for they are dead, which sought the young child's life.

20. And he arose and took the young child and his mother, and came into the land of Israel.

21. But when he heard that Archelaus was reigning over Judaea in the room of his father Herod, he was afraid to go thither; and being warned of God in a dream, he withdrew into the parts of Galilee.

22. And came and dwelt in a city called Nazareth: that it might be fulfilled which was spoken through the prophets, that he should be called a Nazarene.

Golden Text.—Thou shalt call his name JESUS: for it is he that shall save his people from their sins.—Matt. 1:21.

Time.—Christ was born B. C. 9 (according to tradition on December 25). The visit of the wise men, January 8, B. C. 4. The flight into Egypt, January 17, B. C. 4. The return to Nazareth, B. C. 2.

Place.—Bethlehem, Egypt, Nazareth.

The Lesson committee has given us this year a most interesting and helpful series of lessons. The first half of the year is occupied with studies in Matthew, appropriately entitled "The Gospel of the Kingdom" and dealing in review the entire life of Christ. This is the third of the Gospel studies we have enjoyed in the present six year cycle of lessons, for we had John in 1924, and Mark in 1925. We are to have Luke next year. The last year of this year is occupied with studies of the representative men and women of the Bible, the first quarter (summer) being spent in the Old Testament, the second quarter (autumn) in the New Testament. In these rich courses we study of the men of the Bible, Abraham, Jacob, Moses, Saul, Jonathan, David, Amos, Isaiah, Jeremiah, Jonah, Zacharias, Simeon, Peter, Paul, the inspiration of Capernaum, the rich young ruler, Zacharias, Stephen, Paul, and Timothy. Of the Bible women we study Deborah, Naomi, Ruth, Hannah, Elizabeth, the Virgin Mary, and Anne.

The story of Matthew was originally told, but when he was called to be an apostle it was changed to Matthew, which means "the gift of Jehovah," equivalent to "Theodore," the meaning of the name of the original Matthew's home was in Capernaum, the city of Peter and Andrew, a fishing town on the northwest shore of the Sea of Galilee. While Christ made his headquarters, Matthew's occupation was that of a publican, or tax-collector. Men of that calling were hated and despised by the Jews.

Matthew's call to discipleship came later than that of the very earliest disciples, Peter and Andrew, James and John, Nathanael and Philip. These were all followers of John the Baptist, which Matthew apparently was not. The predominant sign of Matthew is to show how Christ's life, even in minor details, fulfilled the Old Testament prophecies of the Messiah, and to this end he introduces about forty proof passages from the Old Testament.

The Visit Of The Wise Men.—Matt. 2:1-12. "There came wise men from the east to Jerusalem." Matt. 2:1. One of the most picturesque incidents in the Bible is the visit of the wise men to the infant Jesus. "St. Matthew calls them magi. A little is known of them as a description. Their title introduces them as Persians of the sacred or priestly order of Persia."—Francis W. Upton, L. L. D. "Magi, got kings as the legend makes them, but having influence with things, and recommending much by astronomical lore, with the fortunes of individuals and peoples." The title, partly under Persian rule, and two hundred years of Persian supremacy in Judaea, and the lasting connection between the Jews of the east and their brethren in Palestine, must have created a deep interest, on both sides, in folks which had so much in common. Among the Jewish

ideas diffused far and near, none would find so easy and wide a circulation as that which, above all others, filled the mind and heart of every Jew in that age—the exact appearance of a great prince, of whom they spoke as the Messiah or "Anointed."—Cunningham Geikie. "The magi were astronomers, or rather, astrologers; and when the wonderful sign appeared in the sky, they at once interpreted it as indicating the birth of the long-expected Messiah."

The Wise Men Find The Christ-Child. Vn. 10, 11. "And when they saw the star, they rejoiced with exceeding great joy." As out of the heart of the wise-men turned to Bethlehem to find their Saviour, so out of the heart of all humanity—seeking, aspiring, groping, sometimes failing—men turn to that same Christ, if only they can learn the way to find him.—Rev. Walter Russell Bowie, D. D. They followed the star until it stood above the Christ-child. How important it is that we turn our eyes steadfastly toward the one true, guiding Star. Many false lights spring up in the sky of the human imagination that, like the mirages of the desert, allure only to deceive, to lead who follows the Star of Bethlehem with faithful gaze may be sure that the outcome of life will be peace.—Rev. Louis Albert Banks, D. D.

"And they came into the house." This was several weeks after the birth of Christ. Joseph and Mary spent forty days in Bethlehem, and would not remain in the stable, but soon would be able, the rush of the census being past, to find more comfortable lodgings. And so the young child with Mary his mother. No mention is made of Joseph, and he may not have been in the house at the time. "And they fell down and worshipped him." They did homage to the infant Jesus after the Oriental fashion, kneeling and touching the ground with their heads. "They offered unto him gifts." The gold indicated Christ's kingship, the myrrh his mortality, the frankincense his deity.

Flight To Egypt. Vn. 13. "And fled into Egypt." They would find many caravans going to Egypt, and might easily lose one there. "Egypt was at all times the readiest place of refuge for the Israelites, whether from famine or from political oppression. It had sheltered many thousands of Jews from the tyranny of Assyria and Babylon. Consequently large settlements of Jews were to be found in various cities of Egypt and Africa. ### Borah Suggested To Chairmanship Of Pro Committee

#### Principal Critic Of Enforcement Conditions May Head Group To Study How To Strengthen Laws

WASHINGTON, Jan. 3. (AP)—Principal critic of prohibition enforcement conditions, Senator Borah of Idaho, has been suggested for the chairmanship of the proposed joint congressional committee to study legislative means of strengthening the liquor laws.

#### System Seemingly Borah, one of the most prominent participants in the recent prohibition controversy, asserted a condition amounting to a "seamless" system, under the administration of the permit system, under the treasury department.

#### Senator Jones of Washington, administration spokesman, after consulting the president and members of the law enforcement commission said: "It was agreed this question, involving the diversion of industrial alcohol to illicit channels, constituted one of the major problems of prohibition."

#### Drinking On Decline Speaking on the radio last night, Jones also advanced the question of drinking by leaders in the social, financial and political world as a most difficult problem. He said, however, he had noticed a marked decrease in drinking among members of congress.

#### Importance of the alcohol permit system in the present consideration of the prohibition question is disparaged by spokesmen for the treasury.

#### Prohibition Commissioner James M. Doherty said industrial alcohol has been checked and corn sugar now furnished the main source of the bootlegger's supply. The chief department of commerce statistics showing production of corn sugar had increased 65,000,000 pounds in 1921 to 268,000,000 pounds in the last fiscal year.

NEW YORK, Jan. 3. (AP)—The ferryboat William Randolph Hart rammed and sank the tug Mutual in a fog off the Erie basin, Brooklyn, today. The tug's crew of five was rescued.

Although the 160 Brooklyn-bound passengers on the ferryboat became excited, none of them was injured.

Four of the tug's crew were rescued by the ferryboat, and the fifth was picked up by another tug. The ferryboat proceeded to her Brooklyn slip.

### SHIP IN DANGER

#### Two Coast Guard Cutters Rushing To Aid

SEATTLE, Jan. 3. (AP)—With two coast guard cutters rushing through stormy seas to her aid, the disabled freighter California today was steaming at low speed toward Cape Flattery, Wash. A radio message from the ship said she was in imminent danger of losing a temporary rudder.

A message from the ship last night gave her position as 330 miles off Cape Flattery. The coast guard boats, the Strommen and the Haida, could not reach that position until late today.

The ship's steering gear was carried away by a terrific storm.

(Special To The Avalanche) SLATON, Jan. 3.—There are fewer changes in location of business here than has ever been known before, according to a survey made recently. It is declared that this condition indicates a greater degree of permanence than the city has ever seen. The few changes that are being made are caused by need of more commodious buildings to meet growing needs of the various firms.

### Coleman Woman Says Her Strength And Energy Fine

#### Mrs. Simmons Had Suffered Over A Year—Troubles Overcome By Orgastone

Mrs. Sophia Simmons, residing at 318 Clark Street, Coleman, Texas, in discussing the benefits she had derived from the use of Orgastone with the Orgastone representative a few days ago, said:

"For over a year I suffered with a sun-down condition, and no kind of medicine I ever took seemed to give me relief until I began taking Orgastone. I could not digest my food properly and although I didn't have many pains I was sure that my liver was sluggish which made me feel more or less worn out all the time."

"After reading in the papers about how Orgastone was helping others, I thought it might help me, too, and it certainly has. After taking it only a few days I could tell a marked change in my feelings for the better and since taking two bottles, I am relieved of all that tired, draggy, worn out condition. My strength and energy has returned to me and I'm now able to hold out all day with my household duties and not feel tired and weak. This is just what two bottles of Orgastone has done for me, and I think it is wonderful!"

Genuine Orgastone may be obtained in Lubbock at Bowen's Drug Store.

### Young Plan Gets Final Revision

Representatives From 13 Nations Meet Friday At The Hague For Second Reparations Conference

(By Associated Press) THE HAGUE, Jan. 3 — Final revision and expansion of the Young plan was the object of today's meeting of thirteen nations meeting here for the second conference on reparations. When they had concluded their labors—unless some unforeseen hitch develops—the Young plan will be referred back to the governments for ratification, and its schedule of an-

nities over 28 years will replace the present Dawes plan annuities scale. Short Session Hoped For A meeting of from ten days to two weeks was hoped for, but there were those not so sanguine that pending matters could be disposed of in that time. Aristide Briand, French foreign minister, hoped to leave in time for the meeting of the council of the League of Nations January 13 while several of the delegates planned to attend the London naval conference opening January 21. The problem which possibly will bring most discussion and draw national lines clearest will be that represented by Germany's demand that the idea of sanctions be eliminated from the creditor national policy. Germany for Plan Although parliamentary ratification has not been given, the German government has pledged its good faith in acceptance of the Young

plan. But in the event some circumstance should bring cessation of payment, the Reich does not wish to have the Rhineland reoccupied, or other penalties imposed to exact further cash. The Reich hopes some sort of arbitration board can be provided which will determine responsibility in the event of defaulted payments and then employ sanctions if they are found necessary. This idea, somewhat modified also is held by M. Briand. Others in the French government are known to be less inclined to abandon what they consider guarantees that the German annuities will be made, and, ergo, that France meets its war debt and other obligations from the money thus obtained. Broadly speaking the tendency among the remaining creditor nations seems to favor this French position.

### Man Buys Bullet-Proof Vest During Transaction Of Business In Chicago

(By Associated Press) CHICAGO, Jan. 3—Lease is lease and vest is vest, but whether the train shall meet depends upon O. L. Potter of Lafayette, Ind. Potter, wrapped in a bullet-proof vest, was in town to transact business involving a lease. He acquired the lead-shedding waistcoat after the man with whom he was to deal began talking "hotly". Leaders may recall the circumstances under which the vest purchase was made. Police, learning a man was buying it, got on the trail. They shadowed him to a bank. Potter's only purpose in going to the bank was to get money to pay for the vest, but police thought he intended to rob the place. When he

emerged and drove away, police pursued and cornered him. Potter thought it was Chicago gangsters and threw out his chest to take their bullets in the vest. Eventually the matter was explained satisfactorily to everybody. Should Have Ended That should have been an end to the matter, but it wasn't. Potter, in his iron shirt, called police again yesterday, demanding protection. He said that vest or no vest he was a virtual prisoner at 6036 Kenwood avenue because a mysterious voice had told him over the phone he would be killed if he left the house. Potter, therefore, had become something of a homebody. Police assigned a guard. The gen-

### Rubio And Family Reach Chicago In Goodwill Journey

President Elect Of Mexico Will Make Two-Day Visit Before Continuing Tour Of United States

CHICAGO, Jan. 3. (P) — President-elect Pascual Ortiz Rubio of Mexico, his wife, Josefina, and their three children arrived in Chicago today for a two-day visit as part of the goodwill tour Senor Ortiz Rubio is making of the United States before taking over the reins of the Mexican government February 5.

Accompanying the president-elect was a large entourage of Mexican government officials, including Dr. Puig Casassurano, former minister of education and now governor of the federal district of Mexico, and Luis Quintanilla, secretary of the Mexican embassy at Washington. He was received in Chicago by Rafael Avelera, Mexican consul, and the latter's staff.

Polities Discussed The 53-year-old veteran of Mexican politics freely discussed the policies he will adopt during office. A vigorous educational program, which formed the principal plank in his political platform, will, he said, occupy most of his attention. Fifteen years ago more than 80 per cent of Mexico's 15,000,000 were illiterate; now only 40 per cent illiteracy exists. The president-elect declared establishment of more rural schools would reduce this number by half. Completion of the Meridian highway from Canada, through the United States, Mexico, Guatemala and Central America will, Rubio expects, do much to produce international amity. Development of air transportation in Mexico, he said, was another accomplishment he sought.

ATTORNEYS TRYING EASTLAND, Jan. 3. (P) — Attorneys for Clyde Thompson, under death sentence for the murder of Lucian Shook, today planned the next step in their fight to save the youth. Thompson yesterday was denied a new trial by Judge Elmo Been in district court, and notice of appeal was given.

MYSTERIOUS DEATH BRENHAM, Jan. 3. (P) — Officers were investigating today the mysterious death of Ernest Thielemann, 22-year-old farmer, whose almost nude body was found in a tank of water near his home yesterday. After several hours' search for Thielemann, his body was found clothed only in socks and underwear, partially submerged in the water. Other clothing was found nearby.

RELIEVED XER BAD HEADACHES Kennedy Lady Suffered If She Drivels or Worked Too Hard.

Science Hill, Ky. — "My husband and I both use Black-Draught, and have for about ten or twelve years," says Mrs. W. M. Foster, of this place. "I used to have very severe, sick headaches, especially if I took a trip or worked too hard. These headaches would last about two days and nights, leaving me nervous and weak for some days. "I found that if I would begin taking Black-Draught a few doses — I would get relief in a few hours. "Black-Draught acted so well, relieving me of the bloated and uncomfortable feeling after meals. "I cannot say enough for Black-Draught. It relieves constipation, and is an all-around good medicine."

Theodore's Black-Draught has been proved to relieve sick headaches in thousands of cases that were due to constipation or biliousness. Containing no mineral drugs, Black-Draught acts gently, helping the organs to drive out the poisons and regain a normal state of healthy activity.

### National Advertising Campaign Of South Plains, Inc., Reaps Results

According to a survey made yesterday of local railway freight offices the national advertising campaign being carried on by South Plains, subsidiary of the Lubbock chamber of commerce, is showing wonderful results in the number of emigrants arriving each week. Five freight cars, carrying supplies for as many families, arrived in Lubbock over the Fort Worth and Denver railway Thursday supplies for about 35 emigrant families have arrived within the last three months over the Denver and Santa Fe lines. Under the home seekers' rate, the rail companies allow one man, 10 head of stock, feed supply for one year, seed for crop, an auto and farm implements for each freight car. Local real estate operators, reviewing a year of lively colonization over the entire area, express optimism over the outlook for 1930. Hardware dealers and local merchants report that the influx of emigrants has made an impression upon business conditions.

FRANCE ON JOURNEY SOUTHAMPTON, England, Jan. 3. (P) — The Prince of Wales went aboard the liner Kenilworth Castle at 3:30 p. m. today, and the ship cut off immediately from her pier and headed down Southampton water for her voyage to Cape Town, South Africa.

SHOOT TO KILL NEW ORLEANS, Jan. 3. (P) — Under orders to "shoot to kill if necessary," one hundred heavily armed police patrolled the streets here today to prevent further demonstrating of street cars. The blowing up of two cars Wednesday night brought to 64 the number of trolleys bombed since the beginning of a carmen's strike last summer.
