18 Year Olds Must Still Register

John Rankin, Chairman of Local Board No. 52, advises all young men that, although inductions into the Armed Forces have ended, they still must register with Selective Service at the age of 18.

A young man may register 30 days before or 30 days after his 18th birthday—but he must register. Failure to do so makes the young man liable to an extreme penalty of five years in prison and

Reddy's consumer tips on... washers

Plan Ahead
Sort clothes according to type of fabric, colorfastness, degree of soil and garment construction. You'll save both hot water and electricity by doing similar items together.
Accumulate a full load before running your washer.

Be Selective
Choose the cycle that is precisely appropriate for the clothes you are washing. Is a "hot" temperature setting really necessary? Except for heavily soiled items, most loads will come clean in either a cold or warm wash.
Look into cold wash detergents.

Use the least amount of detergent that will get your clothes clean—most loads require only an ounce or less!
Overloading causes extra strain and wear on your equipment; check the manufacturer's recommendations for load weight. Balance your load by alternating small and large items.

For Safety Sake
Be sure control is "off" before reaching into your washer.
If one is necessary, use only a heavy duty extension cord.
Be sure your washer is grounded.
Keep dry cleaning agents, color remover and Fiberglas out of your washer. It's a good idea not to wash clothes containing cleaning fluids in your washer.

Remember, Reddy supplies the energy—but only you can use it wisely!

They laughed when I bought my first Bond.

In my neighborhood everyone was poor. Most of us were lucky if we had enough food to eat or clothes to wear. So like most kids we spent a lot of time talking about the things we wanted out of life. Things like owning a big car, wearing fine clothes and going to all of the best places. Boy, we could hardly wait to grow up.

Like the other kids I had little odd jobs in grammar school but I got my first real job when I started high school. I was a junior clerk in a big department store. That's where I first heard about U.S. Savings Bonds. My boss asked me if I wanted to join the Payroll Savings Plan and I said yes. A month later I got my first bond.

When my friends found out they really had a good laugh. Imagine buying U.S. Savings Bonds when there were so many other great things to buy. Well, they kept laughing and I kept saving all through high school.

After graduation some of us wanted to go to college. And that's when my Bonds really came in handy. They not only helped pay my tuition, but also helped buy some books.

Well, I'm a senior now and looking forward to graduation. Unfortunately, a lot of my friends never even got started. And to think, they laughed when I bought my first Bond.

Now E Bonds pay 5 1/2% interest when held to maturity of 6 years, 10 months (4% the first year). Bonds are replaced if lost, stolen, or destroyed. When needed they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.
