Editor's assassination brings violent protests; business closing urged

By ISAAC A. LEVI

MANAGUA, Nicaragua (AP) — Fiery protests, teargas barrages peppered with bullets fired into the air and calls for a mass rally and 24-hour business shutdown swept Managua in advance of the funeral this afternoon of assassinated publisher Pedro Joaquin Chamorro.

Demonstrators wrecked buses, burned cars and at least six buildings, including a Citibank branch, Wednesday night to protest the slaying of Chamorro, an outspoken critic of the Somoza dictatorship who died in a machine-gun and rifle ambush in downtown Managua Tuesday.

Other torched buildings included a Bank of Central America branch and a blood plasma firm, both partially owned by the Somoza family; the customs headquarters, the offices of a construction firm where nearly 1,000 gallons of gasoline were stored and a Renault showroom.

The plasma firm, Plasmaferesis, had been accused by Chamorro's newspaper La Prensa of making a profit in Western Europe and the United States on blood it bought from poor Nicaraguans.

Police fired volleys of tear gas and bullets into the air to disperse the rampaging crowds, which splintered off from an estimated 30,000 mourners escorting Chamorro's glass-topped coffin to La Prensa's office for an overnight wake.

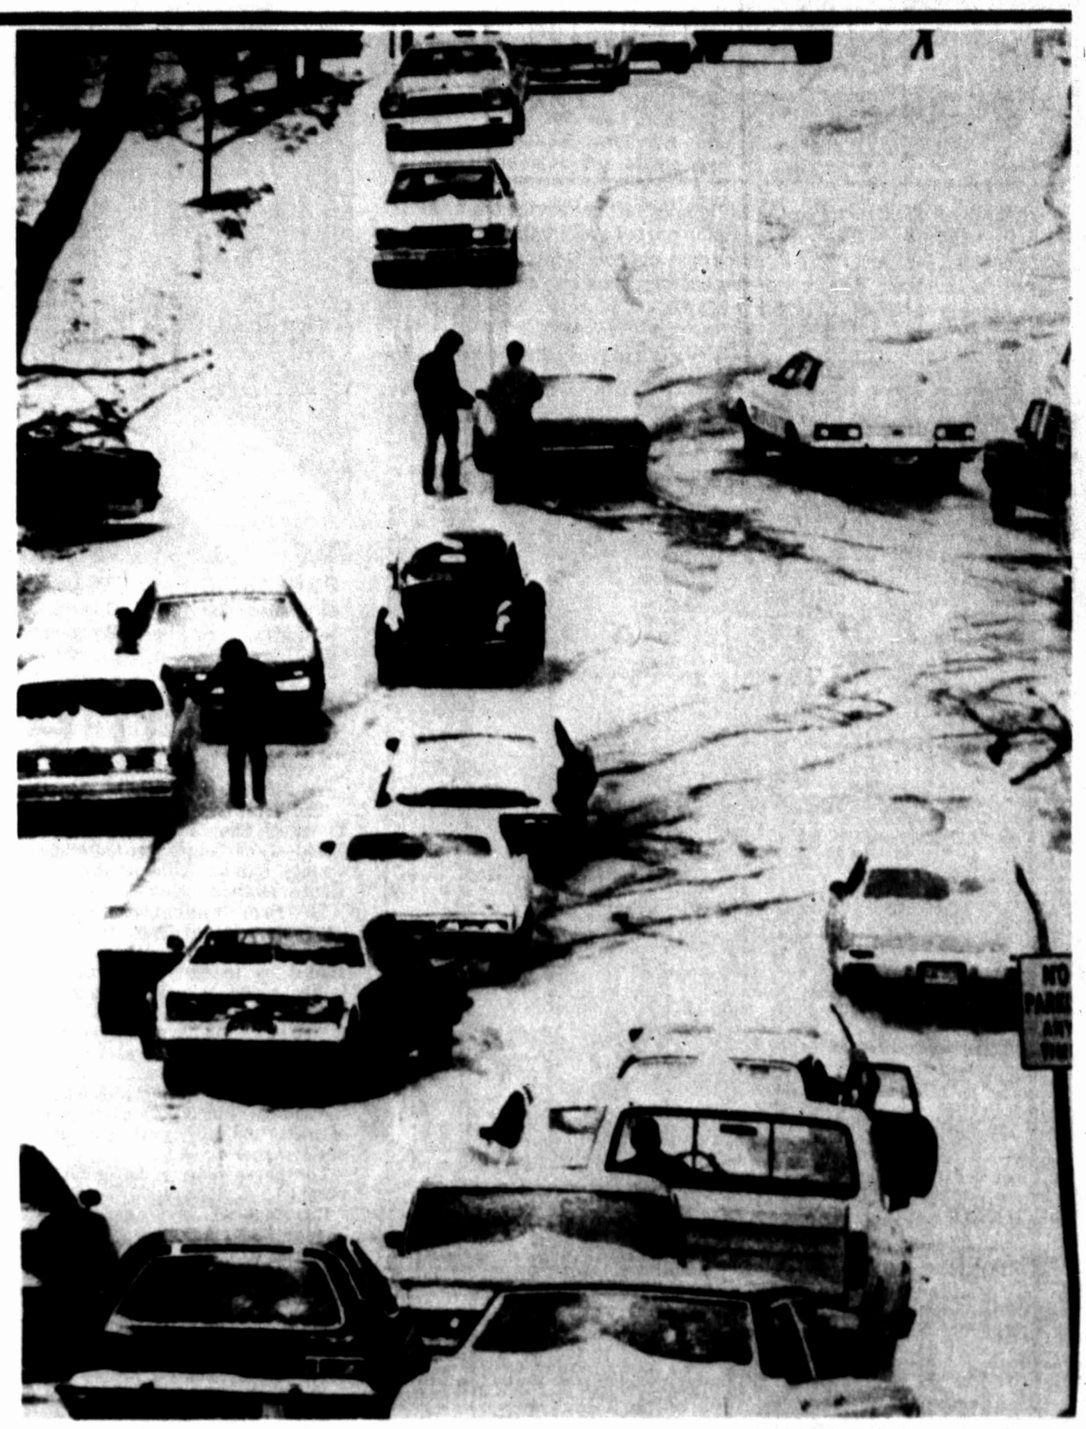

A number of persons in the crowds were reported injured.

Members of the Chamorro family said they expected 100,000 persons, a sixth of Managua's population, to attend the funeral in the biggest outpouring in Nicaragua in a decade. Political opponents of President Anastasio Somoza called a rally, and the national businessmen's council urged all shops and factories to close for 24 hours to protest the assassination.

Four opposition groups including Chamorro's Democratic Union for Liberation announced they were calling off a two-month-old dialogue with President Somoza, whose family has run this Central American nation for 45 years.

Chamorro's group accused the Somoza regime of "resorting to repression as the only means of sustaining itself in power" and said: "The circumstances that culminated in the cowardly assassination of Pedro Joaquin Chamorro are the responsiblity of the dictatorial government, which has deprived Nicaraguans of their fundamental rights."

The National Guard, the combination police force and army, announced the arrest of four suspects and said it seized three cars and a number of firearms in connection with the assassination.

MOTORISTS slip and slide on a hill in Little Rock, Ark., late Wednesday after five inches of snow covered the streets. Up to eight inches are reported in Arkansas today. (AP Laserphoto)

Fifteen nations agree on nuclear guidelines

By DON OBERDORFER
The Washington Post

WASHINGTON — The United States, the Soviet Union and the 13 other nations, East and West, which supply the world's nuclear equipment and materials Wednesday made public a set of agreed rules designed to block the spread of atomic weapons.

The nuclear supplier nations, which negotiated the arrangements in a series of semi-secret meetings in London, simultaneously submitted their joint sales guidelines to the International Atomic Energy Agency in Vienna, according to State Department officials. The document is not a formal international agreement but is the next thing to it, since each of the 15 countries undertakes to abide by this set of rules in selling atomic supplies, and unanimous consent is required for any changes.

The agreed guidelines are the first publicly acknowledged product of the "suppliers' club" meetings, which began in April 1975, in the wake of international concern spurred by India's atomic explosion of a year before.

The meetings initially were highly confidential because France — a key supplier nation — threatened to walk out if the discussions became known.

The international rules for atomic sales published Wednesday are less stringent in some respects than rules formulated individually by several of the important nations involved, including those for the United States now pending in late stages of consideration on Capitol Hill.

However, Joseph S. Nye, the State Department's nuclear proliferation expert, said that publication of the guidelines by the nations involved represents an important step, and that moves toward agreement on

Twin's heart quits after three months

PHILADELPHIA (AP) — "Twin B" is dead. The six-chambered heart she once shared with her sister — who was sacrificed so that "Twin B" might live — gave out after three months.

Doctors at Children's Hospital said the 5-month-old baby, known to the public only as "Twin B," died Wednesday of a heart attack precipitated by liver failure and infection.

The twins were born facing each other on Sept. 15 in Long Branch, N.J. They were joined from below the collar bone to the navel. Doctors said their common heart could support only one life.

A decision was made to operate. But who was to live and who to die when that heart was delicately tucked and sewed into the chest cavity of one of the babies?

"Twin A" possessed only two of the heart's six chambers. Doctors said she would never make it alone, so she was chosen to die.

Dr. C. Everett Koop, head of the team of 19 doctors and nurses who performed the separation Oct. 11, said then that if Twin B "lives longer than a day, it will be a first. No twin such as this has ever survived more than 14 hours."

Medical records show that no twin has ever survived separation surgery involving a joined six-chambered heart. At least six other such operations have been attempted.

"'Twin B' did amazingly well with the heart," Dr. Louise Schnaufer, a hospital surgeon who participated in the operation, said Wednesday. "What gave us trouble from the start was problems with the liver which we were unable to diagnose. There was something terribly wrong with the liver.

"We wonder now if the liver of 'Twin A' was the stronger of the two. It may well be that 'Twin B' depended on her sister's liver just as her sister depended on her heart."

Dr. Schnaufer said the twins' parents, whose names have been withheld by the hospital at their request, would not authorize an autopsy, citing religious and emotional reasons.

"That's a disappointing aspect," she said at a news conference. "We would have learned a lot from an autopsy. We would have found out what was wrong with the liver."

Super Bowl Preview

Inside Football Report SUPER BOWL XII, a special tabloid section, will appear in Friday's edition of The Reporter-Telegram.

This special supplement will contain scouting reports on the teams, individual matchups and much, much more to help readers prepare for Sunday's super shootout in New Orleans.

Don't miss Inside Football Report SUPER BOWL XII in Friday's Reporter-Telegram.

Rising food costs push wholesale prices up 0.7 percent last month

WASHINGTON (AP) — Sharply rising food costs pushed the government's index of wholesale prices up 0.7 percent last month, nearly twice the November increase, the government reported today.

Food prices jumped 1.5 percent in December, marking the biggest rise in seven months and signaling higher prices in the coming months for grocery shoppers.

Changes in wholesale food prices usually show up in retail stores within a matter of a few weeks.

The 0.7 percent rise in wholesale prices last month compared with an increase of 0.4 percent in November and a rise of 0.8 percent in October. During the summer, these prices had risen only moderately or not at all.

In the December report, the Labor Department changed the way it measures wholesale prices to provide what the department said is a more reliable measure of inflation before it hits the consumer.

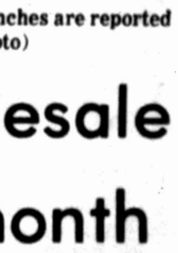

The new method focuses on prices of finished goods, such as automobiles, furniture, farm equipment and food ready for sale in supermarkets.

In the past, the government measured wholesale costs by using the prices of goods in the various stages of the production pipeline — a system that often resulted in a duplication of price changes as a particular product was transformed from raw material to finished product.

Sharply higher prices for pork, processed poultry and vegetable oil products were largely responsible for the December increase. Prices also rose for fish and dairy products, processed fruits and vegetables and eggs. Declines were reported for fresh and dried vegetables, fresh fruit and roasted coffee.

War past poetic to wandering gun trader

ROUSTIN' ABOUT with Ed Todd

Leonard Edwards readily takes on the colors of a "true believer" when he gets to talking about his country, the right to bear arms and the worth of a genuine buddy.

He went to war for his country about 3 1/2 decades ago, fought a good fight and would do it again were he up to it.

Edwards is a patriot who doesn't appreciate any derisive remarks about the U.S. of A. He doesn't like everything about the land, but it's his to stand by . . . right or not too wrong.

"If you want to run yourself down, go ahead," said this stocky, paunchy man with the Cossack hat, goatee and long sideburns.

"But don't run the United States down," said Edwards, who claims Cortez, Colo., as one of his homes. He came to Midland last weekend to do some trading at a firearms show.

He personified his own description of his country.

Uncle Sam is a "big tough" fellow "when you get to eye-balling him," Edwards said. The Axis powers found that out when they pulled "him" into World War II.

"He's a pussycat until you get him mad," said Edwards, who shared in Uncle Sam's wrath during the war. He still gets his ire up when he thinks about the war.

Edwards fought in the Pacific Theater. Among other duties, he was a radio gunner on a Douglas Dauntless dive bomber operating off the U.S. Navy's aircraft carrier Enterprise.

He survived the Battle of Midway.

"Oh, I've been shot six or seven times (in the war) . . .," Edwards said, ". . . and I believe you ought to have" the right to bear firearms and protect yourself in time of war and peace.

And should America's "first line of defense" (the Armed Forces) fail in time of attack, there should be an armed citizenry to take it from there and defend themselves.

That's not the only reason Edwards said he believes in upholding the right to bear arms. Another reason is to protect yourself from the criminal element should the police not be at hand at the very moment they're most needed.

•

Edwards honors his country, advocates the common man's right to

Israeli security topic

By SAMI RIZKALLAH

CAIRO (AP) — Egyptian and Israeli military negotiators met today for their second session to discuss Israel's concern for its security.

Israeli spokesman David Kolitz said the joint military committee headed by Israeli Defense Minister Ezer Weizman and Egyptian War Minister Mohammed Abdel Ghany Gamassy would hear a report from the Israeli chief of staff, Lt. Gen. Mordechai Gur, and then would hold a general discussion.

Weizman and Gamassy at their initial 90-minute session Wednesday reiterated their governments' conflicting demands concerning the 20 Jewish settlements in the Sinai Peninsula.

Egypt's spokesman, Gen. Hassan Kateb, said Gamassy stressed the need for total Israeli withdrawal from Sinai, implying that all Jewish settlers as well as Israel's soldiers must go.

Kolitz said Weizman reiterated the Israeli view that the settlements must continue in existence and handed a written statement to Gamassy because the Israeli delegation was under the impression the talks would begin with formal declarations.

The Egyptians, however, wanted informal remarks. An Israeli source said they demanded withdrawal of the written statement, which said Israel and Egypt would "examine arrangements for continued maintenance of the Israeli settlements." Despite the awkward moment, Kateb labeled the first round "constructive."

The newspaper Al Gomhouria reported that U.S. Ambassador Hermann Eilts met with President Anwar Sadat in Aswan Wednesday and delivered a message from President Carter containing "several ideas and suggestions" concerning the start of the Egyptian-Israeli negotiations.

The paper did not elaborate on these ideas and suggestions. But it said Carter assured Sadat that Secretary of State Cyrus R. Vance will play an active role to bridge the gap between Egypt and Israel during the meeting of the Israeli and Egyptian foreign ministers opening in Jerusalem Monday as companion negotiations to the talks between the defense ministers.

U.N. Secretary-General Kurt Waldheim will not attend the Jerusalem meeting, a spokesman in New York said, but he refused to confirm an Israeli report that Israel had been informed Waldheim would not be represented at the foreign ministers' meeting. Gen. Ensio Siilasvuo of Finland, the chief of the U.N. peacekeeping organization in the Middle East, represented Waldheim at the preliminary Egyptian-Israeli talks in Cairo last month.

The chief issue at the Jerusalem talks will be the Arab demand for a Palestinian state made up of the West Bank of the Jordan River and the Gaza Strip.

Extended forecasts

Saturday through Monday

North Texas: Fair and cold Saturday through Sunday morning. Increasing cloudiness and warmer Sunday afternoon through Monday. Chance of rain on Monday. Highest temperatures mid 40s to mid 50s Saturday and Sunday warming to mid 50s to lower 60s by Monday. Lowest temperatures lower 20s to mid 30s Saturday and Sunday warming to the 30s on Monday.

West Texas: Partly cloudy Saturday through Monday. Cold Saturday but warming Sunday. Lows Friday night and Saturday night teens north to 30s south warming Sunday night to mid 30s north to 40 Big Bend. Highs Saturday and Sunday mid 40s north and mountains to 60s south warming on Monday to mid 50s north to near 70 Big Bend.

Youth entering 29th stock show

The 29th annual Midland County Livestock Show will be held Sunday, Monday and Tuesday at the Midland County Exhibit Building off U.S. 80 East in Midland.

So far, approximately 250 youngsters in 4-H clubs and Future Farmers of America chapters have signed up to enter more than 315 lambs, swine, heifers and steer in the three-day show.

"All stock will have to be checked in by Sunday afternoon," said show official Clifford Sherrod.

In addition to the livestock judging, the show will incorporate the judging of mares and geldings at halter and in performance classes.

The horse judging will get under way at 2 p.m. Sunday.

Livestock will be judged Monday. The lamb judging will begin at 8 a.m., and that will be following by swine judging at 1 p.m, heifer judging at 2:30 p.m. and steer judging at 3 p.m.

Grass judging will begin at 11 a.m. Tuesday. That contest for the 4-H and FFA youngsters will be sponsored by the Midland County Soil and Water Conservation District.

The livestock judging contest, sponsored by the Midland Jaycees, will be at 1:30 p.m. Tuesday.

The stock show's payoff will be in an auction sale of the top seven show animals. In addition to that will be the sale of 110 steers, heifers, lambs and swine.

The figure of 110 is "just a magic number we've lived with for years, and nobody knows where it came from," Sherrod said Charlie Green, the Midland County agricultural agent, told him.

Auctioneer will be Tommy Marricle of Snyder.

Sherrod said the animals shown by the 4-H and FFA youngsters should bring prices above the market price.

"I think the people of Midland have had a very good year," particularly in the petroleum business, Sherrod said. And that may lead prospective buyers to bid relatively high on the animals, he said.

In addition to the rewards at the auction, the 4-H and FFA boys and girls gain "intangibles" in the process of raising, feeding and grooming their livestock.

R. D. Jones, a farmer-stockman who is into his 29th year in supporting the stock show, said a primary concept of the show is "to produce blue-ribbon kids."

Bud Lea is president of the Midland County Livestock Association.

Superintendent of this year's show is Rusty Jones.

Ken Lynch is superintendent of the horse show. Gerald Nobles Jr. and Ronnie Finley are lamb show superintendents. Terry Bryant is swine show superintendent, and Albert Stewart and Roy Graham are cattle show superintendents.

The livestock show's treasurer is Eileen Welch, and secretary is Jo Stewart.

The show's judges are Fred Igo, lambs; Larry Tackett, swine; Billy Reagor, cattle, and D. K. Robinett, horses.

Jane Schweitzer is in charge of the grass-juding contest.

Jim Crowder is livestock judging chairman.

Warming trend told

Despite signs such as frosted windows and windshields this morning, the weatherman predicts a warming trend.

According to the National Weather Service at Midland Regional Air Terminal, the forecast calls for fair weather through Friday with highs today and Friday in the lower 60s. The low tonight should be near 30 degrees.

Winds should become northwesterly at 5 to 10 mph tonight.

Rankin reported a heavy fog this morning, with a light fog reported in Big Spring and Crane. Sheriff's offices in the area towns reported ice on some of the roads. Other area towns reported clear and cold weather.

Wednesday's high temperature was 38 degrees, and the overnight low was 25. The weather service recorded no precipitation.

The record high for Jan. 11 is 78 degrees in 1935. The record low for today is 5 degrees in 1963.

Intermittent light freezing rain and drizzle gave bridges and overpasses a light glaze of ice early today in portions of North Central and Northeast Texas and fog reduced visibility to about a mile in portions of East Texas.

Texan thwarts robbers

NEW YORK (AP) — A gun-toting Texan turned the tables on a pair of would-be robbers in his room at the New York Hilton, fatally wounding one bandit and sending the other fleeing empty-handed, police report.

Richard Norton, 44, a retired Dallas policeman now living in Mesquite, Texas, has a license to carry the gun in Texas, but did not have a New York City permit for the pistol, police said.

Norton was to voluntarily appear before a grand jury today to determine whether he would face weapons charges, according to police.

Police said Norton was jumped from behind as he entered his 26th-floor suite about 6:40 p.m. Wednesday.

The burly six-footer told police he fought his way to his bed, where he yanked a loaded .38-caliber pistol from his briefcase and fired at the knifewielding robbers.

One of the men, identified by police as Edward Campbell, 37, died about three hours later at St. Clare's Hospital. The other man fled.

Norton, who now runs the security department of Sanger-Harris Federated Stores in Dallas, came here Monday for a convention of the American Retailers Association and had planned to return home today.

15 nations agree on nuclear rules

(Continued from Page 1A)

more stringent rules are anticipated later this year.

The ground rules cover the transfer of all nuclear technology, plant and material covered in a seven-page "trigger list," adopted unanimously, which includes reactors, enrichment and reprocessing plants, enriched uranium and other sensitive nuclear material. In order to purchase any of these items, an importing country must agree:

—To provide "formal governmental assurances" that the material or facilites will not be used to produce "any nuclear explosive device," whether a weapon or a supposedly "peaceful" explosion.

—To place the material or facilities under "effective physical protection" to prevent theft or sabotage. The levels of protection required, depending on the sensitivity of the item, have been agreed by the supplier nations.

—Accept international inspection by the International Atomic Energy Agency of the material or facilities being imported and any similar items produced locally using the same type of design.

—To not retransfer supplies without requiring the same ground rules which applied to the original sale and, in the case of major sensitive items, the permission of the original supplier.

In the case of a suspected or obvious violation of the guidelands, the document calls for prompt consultation among the supplier countries about possible sanctions.

Each of the suppliers agreed not to undercut any supply cutoff or other potential sanction while these contacts are taking place — a provision which is close to being an automatic worldwide cutoff of nuclear materials, at least for a time, in case of a nucleare explosion or other violation.

Negotiation of this last provision, according to Nye, was the major accomplishment of the Sept. 21 suppliers' meeting in London, when agreement on the guidelines was obtained.

The Soviet Union and some other nations have been pushing for the adoption of "full-scope safeguards" under which a recipient nation would be required to permit international inspection of all its nuclear facilities — no matter how or when acquired.

The seven major nuclear supplier nations tht began discussions in London in 1975 are the United States, Soviet Union, France, Britain, Japan, West Germany and Canada.

They have been joined by eight countries which are less important suppliers or on the threshold of nuclear exporting — Poland, East Germany, Czechoslovakia, Belgium, the Netherlands, Italy, Sweden and Switzerland.

Chamber names new president

AUSTIN — Henry Gossett of Longview, president of Gossett Oil Co., was elected president of the Texas State Chamber of Commerce for 1978 at a meeting of its directors here Wednesday. He also is president of the East Texas Chamber of Commerce.

Gossett succeeds W.H. "Bill" Collyns of Midland, editor of The Midland Reporter-Telegram, in the office. Collyns is chairman of the board and immediate past president of the West Texas Chanber of Commerce.

Other officers elected at the meeting here include Joe Kloesel of Midland (West Texas Chamber of Commerce); H. W. Cain of Houston (South Texas Chamber of Commerce); Bill Cain of Progresso (Lower Rio Grande Valley Chamber of Commerce), vice presidents, and James F. McAuley of Longview, executive vice president of ETCC, secretary.

W.G. Marquardt of Fort Worth was chairman of the nominating committee.

Tower plans conference

U.S. Sen. John Tower was scheduled to hold a press conference and rally at 3:30 p.m. today in the Tom Brown Hangar No. 3 at the Midland Regional Air Terminal.

On Wednesday, Tower, a Republican, announced his bid for re-election in Austin. Tower was first elected to the Senate as a successor to Lyndon B. Johnson in a special election in 1961.

Corrections official addresses Lions Club

In the past 30 years, Texas has upgraded what was one of the worst penal systems in the nation to one regarded among the best in the United States and in the world, George Lively told members of the Downtown Lions Club Wednesday.

Lively is with the Texas Department of Corrections.

Conviction on any felony charge, which can range from criminal mischief to murder, will result in assignment to one of 15 institutions in Texas, he said. Twelve of the institutions are for men, two are for women and one is a diagnostic center.

"We do everything possible to rehabilitate rather than just incarcerate the people in our institutions. However, putting people into prison is going to be a very dehumanizing experience.

"You need to understand that regardless of the rehabilitation programs available for our inmates, if an inmate comes in and does not want to change, there is nothing that we can to do change that individual.

"Rehabilitation depends on the individual. We are willing to meet the convicted felon halfway," he said.

According to Lively, the TDC awards approximately 50 vocational certificates as will as high school, associate of arts and bachelor's degrees.

"We have our own independent school district within the system, and we have six colleges that send professors to the institutions. Recently, we had one graduate who was valedictorian of his class at Stephen F. Austin University, and he had never seen the campus.

George Lively

"But I don't want you to get the idea that we have a country club atmosphere. The cells are eight feet long and four feet wide — the same proportions as the top of a ping pong table.

"They have two bunks and a commode, and this is home as long as a person is in prison.

"It's a heck of a place to come for an education," Lively said.

To wandering gun trader, conflict beyond poetic

(Continued from Page 1A)

bear arms and lauds an old war buddy of his.

That buddy was a fellow "from Texas" he calls "Sarge." They fought together during the war, and went their separate ways even before the war was over.

"We were tough men," Edwards said of the American fighting men, including himself and "Sarge."

Edwards delights in re-telling what a captured Japanese military man said of Uncle Sam's fighting men:

"You Americans are more fierce than you're rated. You're regular killers."

The war was about 30 years into the past when Edwards finally looked up this "pal of mine from Texas."

"It was a riot. It was a riot," he said of the reunion. "We were such close friends. We were like brothers — real close."

The sentiment of their meeting inspired Edwards to pen a poem in tribute to his pal.

"This is a true saga," Edwards said. His pal was fearless: "A braver man I never knew," Edwards wrote.

Edwards' eulogy to his Texas pal may fit many a fighting man's buddy . . . especially in those sentimental mements of reminiscing.

Here's a typical verse:

"To me, amazement will never cease

"How our loved ones just can't believe

"That he once was (a) man of no law

"Except the one you chose to draw — kill or be killed.

"And yet a kinder, tender man

"You (never) met in any land . . . was this man from Texas."

1,040 register for MC courses

In the first day of of spring registration at Midland College Wednesday, 1,040 students registered for classes, according to college officials.

Registration continues today, and students who have not pre-registered may come to the gym between 4 and 8 p.m. to register without paying late registration fees.

Late registration and classes start Monday.

College officials expect close to 2,000 students for the semester.

Two injured in truck mishap

PENWELL — A cattle truck overturned early this morning near here, injuring the driver and a passenger and killing several cattle.

According to a spokesman for the Department of Public Safety, the accident occurred at 3:52 a.m. one half mile west of Penwell in the westbound lane of Interstate Highway 20.

Gene Stevens, 27, and Billy Sorrels, 31, both of Florida were treated and released at Odessa Medical Center Hospital.

Newly discovered star believed 40 times size of sun

The Washington Post

WASHINGTON — A star 10 times as hot and 40 times the size of our own sun but no more than 2,000 years old has been observed in the Orion Nebula by astronomers at the Kitt Peak National Observatory in Arizona.

"This may be the youngest star ever found," said Kitt Peak's Dr. Donald N.B. Hall, who with three other astronomers identified it with the 158-inch telescope on top of Kitt Peak. "The star is surely in its earliest stages of evolution."

So freshly-formed is the star that its tremendous heat is blowing gas and dust away from it at speeds of 60,000 miles an hour. The far edge of this gas-and-dust cloud lies almost one-fifth of a light year away from the star, meaning the cloud is now as far as 1 million million miles from the star.

The speed at which the cloud is moving away from the star is the most precise measurement of the age of the star, Dr. Hall said. Infrared instruments attached to the telescope did this by measuring the rate of expansion of the cloud's carbon monoxide, an important constituent of any interstellar dust cloud and then computing how long ago the cloud began moving.

"This is how we know the object is a star and not what is called a 'protostar,' one still in the process of formation," Dr. Hall said. "A protostar is one that is still in the process of collapse and is still accreting matter onto itself. This one is blowing matter away."

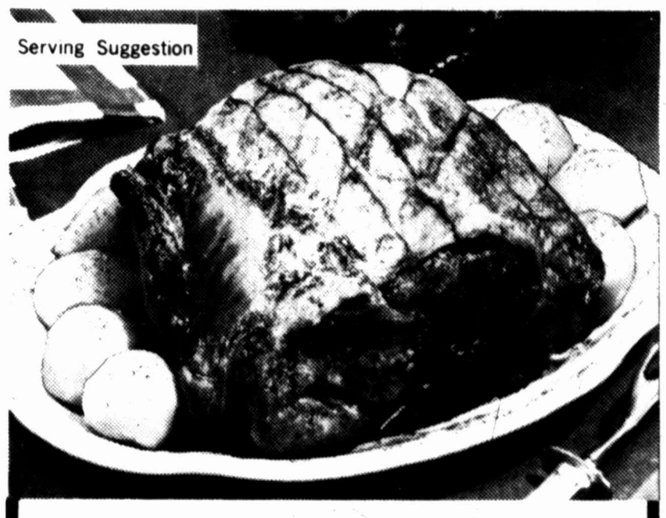

The star in question lies beyond the Constellation Orion in the middle of the Orion Nubula, which is surrounded by thick gas and dust clouds believed to be the breeding grounds of many new stars. The star is near four protostars known as the Trapezium at the center of the Orion Nebula.

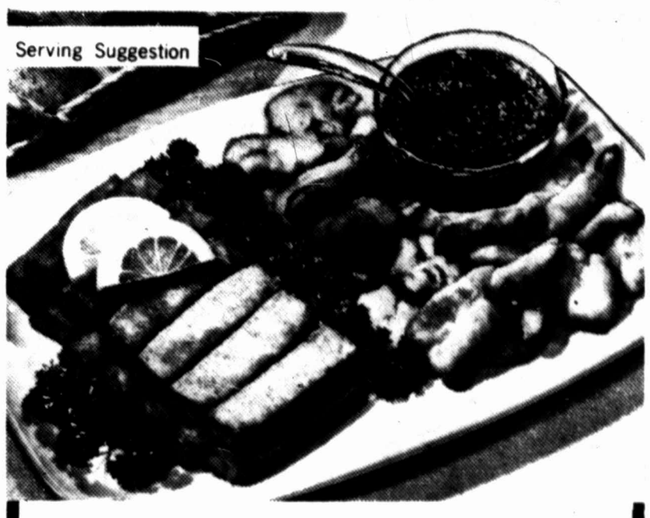

Known as the Becklin-Neugebauer star for the two astronomers who discovered it in 1966, the 2,000-year-old star is almost completely hidden by the dust clouds around it. Only infrared instruments that pierce the clouds can see it and only the infrared instruments used by Hall's team on the Kitt Peak telescope have been able to get detailed measurements.

A star is born when swirling interstellar dust clouds collapse under their own weight, shrinking down in a ball that gets hotter and smaller all the time. The collapsing cloud reaches a "critical mass" that triggers a nuclear fusion reaction where the hydrogen gas in the cloud is ignited and burns until the hydrogen fuel is exhausted.

Cuba's African death toll may shake Castro's image

The Los Angeles Times

WASHINGTON — Although the Havana government seldom mentions the casualties its troops are taking in Angola and Ethiopia, the Carter Administration believes Cuba may face an anti-war movement if its African adventure drags on much longer.

U.S. officials concede that there has been little public opposition in Cuba to Fidel Castro's Africa policy. But they suggest this may be due in large part to the fact that the island's controlled press and radio do not announce aggregate totals of dead and wounded.

The Carter Administration claims Cuba has about 20,000 troops and about 4,000 civilian advisers in Angola. Between 600 and 1,000 Cubans are said to have died.

U.S. officials say that Cuba's involvement in Africa is already proportionately equal to American involvement in Southeast Asia at the height of the Vietnam war.

In addition, the State Department reports that Cuban involvement in Ethiopia is growing rapidly. In mid-November, the U.S. government officially estimated there were 400 Cubans in Ethiopia. Earlier this week, department spokesman Hodding Carter III said current estimates were double or triple that figure. Some U.S. officials say privately the total may actually be even higher, as many as 2,000.

According to U.S. government sources, families that lose a son in Africa are informed of the casualty by the Cuban government, but the figures are never added up for public consumption.

However, a commercial radio station in Miami — which can be heard easily in most of Cuba — has been broadcasting regular reports on Cuban activities in Africa.

Tomas Regalado, of station WHRC in Miami, said he began the broadcasts five months ago. He said the station has received reports from inside Cuba that indicate the broadcasts are having an effect.

The station, which caters to the large Cuban population in Miami, broadcasts in Spanish.

Regalado said WHRC regularly receives reports of casualties from the families of victims. By combining these fragmentary reports, the station is able to piece together the overall picture, he said.

"We did a one-week series of reports called 'The Cuban in Africa — a Confidential Report,' about 2 ½ months ago," Regalado said in a telephone interview. "We talked about Angola, Mozambique and Ethiopia. Our report was later confirmed by the New York Times."

In addition to the reports from WHRC, anti-Castro Cuban groups are beaming their own broadcasts to the island.

Manuel Santana, first secretary of Abdala, an organization composed mostly of young Cuban exiles with a leftist but non-Communist outlook, said his group is sending occasional broadcasts to the island, concentrating on Cuban casualties in Africa.

Santana, who lives in New York, said Abdala also has prepared Spanish-language broadcasts aimed at Cuban troops. He said tape recordings of these broadcasts are sent to an African country where they are put on the air. He declined to name the country, but Zaire seems to be the only nation in the region that could provide such a service.

Both President Carter and his predecessor, Gerald R. Ford, have protested vigorously the Cuban involvement in Africa. From Carter's standpoint, the continuing presence of Cuban soldiers in Angola and Ethiopia is a large barrier to improved relations between Havana and Washington.

Earlier this month, at the suggestion of administration officials, Reps. Frederick W. Richmond D-N.Y., and Richard Nolan, D-Minn., told Castro during a congressional visit to Cuba that Havana must begin to withdraw its troops from Africa if it hopes to have better relations with the United States.

Big Six Henderson, who once struck fear in the hearts of Kentucky moonshiners, recalls his days as a federal treasury agent. Behind him in his Louisville, Ky., home is a collection of liquor bottles. (AP Laserphoto)

Big Six Henderson struck fear in hearts of all moonshiners

By JULES LOH

LOUISVILLE, Ky. (AP) — In Kentucky's moonshine hollows, one name still strikes awe: Big Six Henderson.

Big Six Henderson busted up more stills in his time than anybody in history. If that is not so, at least it is the legend. When moonshiners talk about Big Six Henderson, the line between truth and legend blurs.

"I don't know what the record is," Big Six Henderson allowed, thinking back on his days of prowling around in alien corn, as it were.

"I know I raided more than 5,000 stills and sent more than 5,600 moonshiners to prison. You could figure it up. I've kept a copy of my daily reports for every day I was a revenue agent."

That was for a span of 28 years until he retired a few years ago, and it figures up to roughly a still every other day. The saga of Big Six Henderson, though, is hardly told in dry statistics.

The moonshiners Big Six Henderson tracked down imparted heroic dimensions to him and respected him as much as they feared him.

"Mr. Big Six," one woman said when he came to haul her husband off to jail for a third time, "we're proud to have folks know we know you." More than a few moonshiners named their children for Big Six Henderson.

One even named his mash barrel for him, painted "Big Six" on it and talked to it fondly.

"Good morning, Bix Six," he said to the barrel one day. "Why don't we just run ourselves off a little batch, you and I. What do you say to that, Big Six?"

"That you're caught, Thurlow," Big Six Henderson said, stepping out of the mist.

At 75, Big Six Henderson is still impressive to behold.

He is a great bear of a man, six-foot-four, with a thick bush of white hair and eyes the color of wet turquoise. His mother named him William; Big Six was the name he picked up when he was going to law school and throwing a baseball after the fashion of Christy "Big Six" Mathewson.

He became a federal treasury agent, a "revenooer" as they are known in the hills, and went about it with a singlemindedness that became the stuff of myth.

It was no myth, though, that he could creep through the woods as quiet as smoke in his green raiding suit and could run like a deer for miles. Usually he didn't have to run after his quarry.

"Homer, halt!" he shouted at one fleeing moonshiner. The man froze in his tracks.

"I'm halted, Big Six, I'm halted."

He was a legend in his time, all right, and not just because of his uncanny skill and his zealotry. He also had a reputation for fair play and decent treatment of the moonshiners he caught.

"I never regarded them as doing something evil, just illegal," Big Six Henderson said, "and I never abused them." The big man thumbed through a sheaf of his faded daily reports, looking wistfully at the names.

"Killed a few, but never abused them."

Arabia backs Sadat's move

The Los Angeles Times

RIYADH, Saudi Arabia — After some initial hesitation, the Saudi government is now cautiously supporting Egyptian President Anwar Sadat in his efforts to achieve a Middle East peace breakthrough.

There will be no announcement of a Saudi shift from a neutral position between the two warring Arab camps in the rift caused by Sadat's dramatic go-it-alone stand when he went to Jerusalem. That is not the Saudi style, observers here pointed out.

But the change was evident in statements made here following state visits by Middle Eastern leaders on both sides of the controversy and it was significant. Saudi Arabia's oil wealth has made the desert kingdom a major force in Arab affairs with particularly strong influence on both Egypt and its chief rival, Syria.

Publicly, Saudi Arabia will continue to press for a unified Arab stand in the confrontation with Israel, but privately Saudi leaders see little possibility of this in the near future. In addition, the nation's position is dependent on two highly uncertain conditions:

— That Sadat will not sign a separate peace treaty with Israel.

— That the United States will exert effective pressure on Israel to withdraw from the Arab territories occupied in 1967 and also agree to self-determination for the Palestinians.

The Saudi policy shift was made a fortnight ago, sources here said, at an extraordinary conclave of princes of the royal family called especially to consider Sadat's initiative. Some 35 princes attended, which in itself is unusual.

The princes, who are the real policy-making force in the country, were repby the foreign minister, Prince Saud, urged a cutoff of aid to Egypt, the sources said.

In the end, they were overruled. "They had no choice but to support Sadat," one observer said.

The moderate wing of the family reportedly argued that a failure of Sadat's initiative would carry the risk of a governmental upheaval in Egypt and the replacement of Sadat possibly by a new radical leader. That would carry with it a risk to the stability of Saudi Arabia itself. During the time when Gamal Abdel Nasser was president of Egypt there were at least three abortive coup attempts here.

In addition to restraining Sadat from going all the way on his own, the Saudis want the United States to apply full pressure on Israeli Prime Minister Menachem Begin to make concessions that, at the least, would keep the peace initiative going. Like the United States, they are not enthusiastic about the idea of an independent Palestinian state exposed to radical influences that could serve as another opportunity for Soviet penetration in the Middle East.

But they feel that the forces of moderation are now dominant in the area, and that the Palestinian majority would look to their oil-rich brethren for support rather than to forces bent on disturbing the status quo. The Saudis were openly disappointed that President Carter, during his visit here last week, did not endorse the principle of self-determination for the Palestinians.

"There was no meeting of minds," said one observer who took part in the talks.

Carter was disappointed as well at what he saw as the lack of Saudi support for the peace initiative. The president had asked the Saudis to work to persuade Jordan and Syria to eventually join in the peace talks.

Papers remove quotation in step toward 'demoaization'

By LINDA MATHEWS
The Los Angeles Times

HONG KONG — After junking some of Mao Tse-Tung's most revolutionary policies, China's new leaders have taken "demaoization" a step further by dislodging the late chairman from his place of honor on the front page of the official People's Daily.

The right-hand corner of the newspaper's front page has traditionally been reserved for quotations from Mao or on occasion, Marx or Lenin. But twice in the past week, the quotation box has been dropped in favor of large photographs of Hua Kuo-feng, Mao's supposedly hand-picked successor. And on a third day, Mao had to give way to a picture of a locomotive.

Analysts here consider the new format noteworthy, if only because it is inconceivable that Chinese editors would undertake such changes without the approval of their superiors in the Communist Party apparatus.

As Mao's stock has fallen, Hua's has risen. Instead of the usual Maoist proverb at the top of the page, the 5.5 million People's Daily subscribers one day last week found the broadly smiling countenance of their new chairman, decked out in a coal miner's hat and uniform.

The accompanying story, filling two-thirds of the first page, explained that while "other people throughout the country were enjoying the New Years holidays," Hua had visited the coal miners of the earthquake-devastated Tangshan area to congratulate them on their progress in putting the mines back in operation.

Deep inside one mine, "Chairman Hua kindly invited the deputy heads of the mining area to sit by his side and together they read poems and short essays praising the outstanding deeds of the miners," the People's Daily correspondent reported.

Hua himself lavishly praised the workers, but the editors back in Peking seemed determined that he should share the acclaim. They reported that production had returned to pre-quake levels in part because of the sympathy and relief efforts extended by Hua and the rest of the party's Central Committee.

Later in the week, Hua again supplanted the quotes from Mao with a photograph showing him welcoming to Peking the leader of Australia's tiny Marxist-Leninist Party. The same day, an entire page inside the paper was given over to color reproductions of art works celebrating Hua's long career as an obscure administrtor in Human province. Hua left Hunan in 1971, but the art work was of current vintage.

The drawings and paintings, selected from an art exhibition now being staged in Peking, made a hit with the art critics. A commentator from Hsinhua, the official news agency, said, "The artists have caught the spirit of Hua Kuo-feng's fine style of work in carrying out Chairman Mao's revolutionary line ... the feeling of Hua's closeness to the masses is well delineated."

This pervasive publicity seems to be part of a concerted effort to create around Hua the same kind of cult of personality that surrounded Mao. It is striking only because Mao did not actively encourage such personal adulation until the Cultural Revolution of the late 1960s, when his revolutionary reforms depended on support from the Chinese masses.

The spotlight has been focused on Hua, however, ever since October 1976, when he had his radical rivals arrested in a midnight raid and took over as chairman. He may be encouraging the ever-mounting personal publicity because it lends some legitimacy to his still shaky regime. Until last year, Hua was largely unknown.

So far, Hua has shown no inclination to collect his choicest quotations and publish them, as did Mao in the famous Little Red Book of the 1960s. Occasional proverbs from Hua have graced the People's Daily, but only one, a mild injunction to be meticulous in organization and direction, has been widely circulated.

In at least one respect, though, Hua seems to be engaged in a form of rivalry with his predecessor. An American tourist who arrived this week from Canton reported that a huge portrait of Hua, at least 60 feet high, looms over one of the city's major intersections. It dwarfs even the massive portrait of Mao at the entrance to the Forbidden City, looking out over Tien An Men Square at the heart of Peking.

DEATHS

Roy Self

MARFA — Services for Roy Truman Self, 57, brother of Mildred Patterson of Big Spring, were Wednesday.

Burial was to be at 3 p.m. today in Rule Cemetery in Rule directed by Geeslin Funeral Home.

Self died Monday at his home in Marfa.

He was born Aug. 29, 1920, in Gunter and was reared in Jayton. He had lived in Marfa five years. He was in the Navy from 1939 until he retired in 1957. He was a Baptist.

Other survivors include his mother, three sisters and a brother.

Ina White

STANTON — Graveside services for Ina White, 80, were to be at 4 p.m. today in Evergreen Cemetery here with Glen Sargent, minister of Belvue Church of Christ here, officiating. Arrangements were to be handled by Gilbreath Funeral Home.

Miss White died Tuesday in a Stanton hospital after a long illness.

She was born Aug. 15, 1897, in Rosebud.

She is survived by a sister, Thelma Louder of Graham.

Mrs. Lovelady

BROWNWOOD — Services for Mrs. C. W. (Vera) Lovelady, 75, sister of Roger Smith of Midland, were held here Wednesday in Coggin Avenue Baptist Church.

Burial was in Rockwood Cemetery. Mrs. Lovelady died Monday in a Brownwood hospital.

She was born Sept. 26, 1902, in Rockwood. Mrs. Lovelady was a Baptist. She had lived in Brownwood 18 years. She was married to C. W. Lovelady on July 23, 1921, in Rockwood. He died in 1958.

Survivors include one son, two daughters, one sister, two brothers, seven grandchildren and 17 great-grandchildren.

Ruth Teague

ODESSA — Services for Ruth Cody Teague, 62, formerly of Midland, will be at 10 a.m. Friday in Hubbard-Kelly Funeral Home with burial in Odessa Cemetery.

Mrs. Teague died Tuesday in a Dallas hospital.

She was born Oct. 9, 1915, in Odessa. She married Henry Teague Dec. 31, 1937, in Midland. She was a Methodist.

Survivors include her husband; a daughter, Phyllis J. Stewart of Midland; a son, Dr. William J. Teague of Richardson, and a granddaughter.

Mrs. McKenney

COLORADO CITY — Services for Mrs. Terrell Lane McKenney, 90, of Iatan, mother of Rozelle Dohoney and Catherine Williams, both of Big Spring, were Saturday in the Colorado City Methodist Church with burial in Westbrook Cemetery.

Mrs. McKenney died Jan. 5.

She was born July 30, 1887, in Pacio and moved to Westbrook in 1904. She married Terrell McKenney Nov. 30, 1907. He preceded her in death. The couple had owned farm and ranch land in Lynn, Martin and Mitchell counties.

Other survivors include two sons, a daughter, 14 grandchildren and 14 great-grandchildren.

Mrs. Hall

BROWNFIELD — Mrs. Arvil (Willie) Hall, 73, mother of Mrs. Ray (Laura) Britt of Lamesa, died Wednesday after a sudden illness.

Services will be at 2 p.m. Saturday in Foursquare Gospel Church with the Rev. Harold Shiflett, pastor, officiating, assisted by Hugh Harris, lay minister of Brownfield.

Burial will be in Brownfield Cemetery directed by Brownfield Funeral Home.

Mrs. Hall was born in Grayson County and moved to Brownfield in 1935. She married Arvil Hall April 8, 1921, in Whitwright. She was a member of Foursquare Gospel Church.

Other survivors include three sons, two daughters, a sister, 16 grandchildren and seven great-grandchildren.

Philip Grant

SANTE FE, N.M. — Philip Grant, 77, of Santa Fe, a former independent landman and oil operator in Midland, died Tuesday night in a hospital here. He had been in ill health.

Memorial services will be held at 10 a.m. Saturday in the Church of the Holy Faith here. The body was to be cremated this morning. Memorial Chapel of Santa Fe is in charge of arrangements.

Grant was born Dec. 23, 1900, in Boston, Mass. He was educated at Dartmouth College and Harvard University.

Grant moved to Midland from Wichita Falls in 1947 and retired to Santa Fe in 1965.

Survivors include his wife, Nell; a son, Robert Grant of Albuquerque, N.M.; a daughter, Mrs. James R. Wood of Bronsville, N.Y., and five grandchildren.

In lieu of flowers, the family has requested that friends make donations to their favorite charities.

Jo Henson

STANTON — Graveside services for Jo Adele Henson, 65, of Midland and formerly of Stanton, were to be at 2 p.m. today in Evergreen Cemetery here directed by Gilbreath Funeral Home.

Mrs. Henson died Tuesday morning in a Lubbock hospital after a short illness.

She was born Oct. 11, 1912, in Hunt County and had lived in Stanton from 1968 until 1973 when she moved to Ruidoso, N.M. She had lived in Midland the past year. She married Loyd Henson July 5, 1968, in Big Spring.

Survivors include her husband; three daughters, Francis Olliss of Albuquerque, N.M., Barbara Brinson of Atwater, Calif., and Angela "Bunny" Musick of Midland; three sons, Robert Patrick O'Conner of New York City, Jimmy Henson of Midland and Kenneth Henson of Albuquerque, N.M.; three brothers, Ray Goodson of Austin, Levi Goodson of Porterville, Calif., and David Goodson of Michigan, seven grandchildren and four great-grandchildren.

Elwin Denny

ANDREWS — Elwin E. Denny, 78, of Andrews died Wednesday morning in a Lubbock hospital after a long illness.

Services will be at 2 p.m. Friday in First Baptist Church Chapel in Andrews with the Rev. Carl Grissom, pastor, officiating, assisted by the Rev. Keith Wiseman, pastor of Means Memorial United Methodist Church.

Burial will be in Andrews Cemetery directed by Singleton Funeral Home.

Denny was born in Fredonia, Kan., and came to Andrews 34 years ago, moving here from Oklahoma City, Okla. He retired June 1, 1964, as a superintendent for Champlin Refining Co., where he had worked 36 years. He was a member of the First Baptist Church. He was a member of the Myrtle Masonic Lodge No. 145 in Oklahoma City, and the El Maida Shrine of El Paso.

Survivors include his wife, Ethel Denny; a son, LeRoy Denny of Andrews; a daughter, Betty Ann Bishop of Oklahoma City; two stepsons, Bill Luck of Andrews and Bob Luck of Midland; a sister, Marie Wall of Independence, Kan.; five brothers, Carl Denny of Oswatomie, Kan., Orin Denny and Lester Denny, both of Tyro, Kan., Arthur Denny of Caney, Kan., and Arnold Denny of Anthony, Kan., nine grandchildren and nine great-grandchildren.

Annie Wall

CRANE — Annie Mae Wall, 79, died Tuesday in a Crane nursing home after a lengthy illness.

Services were to be at 10 a.m. today in Larry D. Sheppard Funeral Home with burial at 4 p.m. in the Hico City Cemetery.

She was born Aug. 4, 1898, in McClellan County. She was a retired co-owner of Mar Del Style Shop in Crane. She was a member of First United Methodist Church.

Survivors include two sisters, Margaret Petty of Crane and Gladys Holladay of Austin; a brother, Leslie Wall of Brownwood, and a number of nieces and nephews.

Dean Parker

HOBBS, N.M. — Services for Dean Parker, 52, of Hobbs, will be at 10 a.m. Saturday in First Baptist Church here with Rev. Bruce Troy, minister at St. Louis, Okla., and formerly of Hobbs, officiating, and the Rev. Otis Edwards, pastor, assisting.

Burial will be in Prairie Haven Cemetery here directed by Griffin Funeral Home.

The farmer and businessman had lived in the Hobbs area since 1934. He was a member of the American Business Club and Gideon Society. Parker was a World War II veteran with the Navy Air Force.

Survivors include his wife, Lugene Parker; two sons, Ronnie Parker and Larry Parker, both of Hobbs, N.M.; a daughter, Cheryl Parker of Phoenix, Ariz.; his mother, Mabel Parker of Hobbs and two granddaughters.

The family suggests memorials go to Bethel Baptist Church or the American Cancer Research Center.

MC schedules classes in adult education

A new semester of adult education classes will begin at Midland College, starting Monday, James Bramlett, director of Community Services at the college, announced.

"Many of our spring and summer classes have been listed in the new Midland College Adult Education Catalog which was mailed to residents before the close of the fall session. But we will continue to add new classes as the year progresses," Bramlett said.

The courses to begin this time include a Secretarial Improvement class, taught by Doris Gallagher and Willie May Armstrong. This course will cover secretarial relationships, business law and the economics of management. It meets from 7 to 10 p.m. Mondays for 15 weeks in room 106 of the occupational-technical building. The fee is $45.

Two classes in Welding I, taught by Dan Ledbetter, will be held, one to meet from 7 to 10 p.m. Fridays and the other from 9 a.m. to noon Saturdays, both for 14 weeks. The classes will be held in the shop of the occupational-technical building. Both will deal with the fundamentals of arc and gas welding plus the corrects use and setting of torches, regulators and welding machines. Each class is limited to 15 students. The fee is $52.

A course called Automotive Brake Systems, covering the fundamentals of drum and disc brake systems and the maintenance of these systems, will meet from 9 a.m. to noon Saturdays for six weeks in the shop of the occupational-technical building. The cost is $22.

A course in Small Engine Repair, taught by David Maxey, will show persons how to take care of their lawn mowers, edgers and tillers. The eight-week course will be held from 9 a.m. to noon Saturdays in the shop of the occupational-technical building. Persons taking the course are asked to bring their own machines. The fee is $25.

Persons wishing to preregister for any of these classes may do so in room 140 of the occupational-technical building between 8 a.m. and 5 p.m.

The Food Service Supervisor's course scheduled to begin Monday has been postponed, but is tentatively re-scheduled for March. Persons who are interested in this course should call the college at 684-7851.

Trustee walks out of city jail

A 50-year-old trustee, in Midland City Jail on charges of being drunk, apparently walked out of the Police Department sometime between 6 and 7:45 p.m. Wednesday, police said today.

The man, Joseph Clavin Wagley still was missing this morning.

According to police, officers noticed a trustee missing about 7:45 p.m. He last had been seen at 6 p.m. A check of the jail revealed that his civilian clothes were missing, and his white jail uniform was found in a storage room ramp at the Police Department.

Money said taken from home

Marisa Adam told police Wednesday that between 7:30 a.m. and 2:14 p.m. Wednesday someone entered her residence in the 2200 block of Huntington Street and removed $1,300.

According to Miss Adam, she left the money on a clock radio in her room and when she returned after school the money was gone.

Police said there was no sign of forced entry.

Craig Morton hopes Cowboys use blitz

NEW ORLEANS (AP) — When Denver quarterback Craig Morton barks out the Broncos' signals in Sunday's Super Bowl, he'll also be hanging out a sign: "Blitzers Welcome."

The man who spent the first 9½ of his 13 National Football League seasons in a Dallas uniform would be delighted to see a bunch of Cowboy defensive backs and linebackers roaring in on him.

"Dallas doesn't blitz very often and I don't expect they'll do it any more than usual this time," he said. "But I'd like nothing more than to see (safeties) Charlie Waters and Cliff Harris and maybe one or two others trying to climb into my lap, 'cause if they do, that mean's there's single coverage out there, that someone's isolated one-on-one."

AND THAT kind of situation is Morton's meat. He's a master of the dump-off pass and, occasionally, of the pinpoint bomb when it's man-to-man 30 yards downfield. He'll never run the ball, save for a rare bootlege down around the opposition goal line or a scramble when his protection breaks down.

"Yeah, I've heard that. I've heard he doesn't run. Hmmph!" snorted Dallas defensive tackle Jethro Pugh. "Hey, listen, maybe he's no runner, maybe he's hurt like they say—but this is the Super Bowl. Ain't no saying what he might try just to shake us up."

But Ed "Too Tall" Jones, Dallas' mammoth defensive end, figures Morton will stay wrapped in his pocket of protection no matter what opportunities to run are present.

"He's no dummy. He's not stupid," Jones said. "He's too smart to take any kind of chance that might get him hurt. If he gets hurt, it could just about destroy their offense. They might get some good plays out of whoever they bring in to replace him (younsters Craig Penrose or Norris Weese), but with their inexperience the pressure of a game like this has got to get to them sooner or later and things have got to start going wrong.

"We don't plan to blitz him much, but we're going to try and keep the pressure on him," Jones added.

AND THAT, linebacker D.D. Lewis said, could be the differnce in the game. "Pressure, a lot of pressure, that's what we need. We feel Morton's not that good under pressure," Lewis said. "So we're going to keep coming at him. Not everybody, you understand. Just all the time.

"And we're going to have to disguise our defenses a lot," he added. "He's real smart at reading defenses, at knowing where and when they're coming."

SO IS Roger Staubach, Dallas' starting quarterback since he finally beat out Morton for the job midway in the 1971 season. Roger the Dodger is one of the game's most adept running quarterbacks, occasionally calling his own number in a scrimmae-line audible when he thinks good yardage is available up the middle.

"That's what makes him so tough. He's such a good passer plus he runs so well," said Barney Chavous, who anchors the left end of Denver's threeman defensive line.

"He's got more than just one dimension. He's not like (Oakland quarterback Ken) Stabler. Stabler won't run very often and he's got such a huge line in front of him that he really doesn't have to. So you know where he's gonna be on almost every play," Chavous said.

"But Staubach—he can take off on you almost any time. If we lay too far back or get too spread out, he can be up the middle in no time."

IN FACT, added Broncos linebacker Joe Rizzo, Staubach would rather take off and risk a collision with a lineman or linebacker than take a loss. "I don't think he's willing to accept a conventional sack if he thinks there's any possible way for him to run for the yards he needs," Rizzo said.

But Rizzo also believes if Staubach tries to scramble for yardage against the Broncos, he's going to be brought up short—quick. "If he tries it, he's not gonna get more than maybe four or five yards, not with four linebackers gunning for him."

STAUBACH WOULDN'T say whether he plans to run more or less than usual, but he did acknowledge that the Cowboys' running game in general would have to be in top form. "If you run the ball well, you can beat the 3-4," he said of Denver's defense.

Basketball tilt set by Jaycees

The Midland Jaycees will take a team of local media all-stars in a charity basketball game Monday night in the Midland College gymnasium. Tip-off is 8 p.m.

Tickets for the contest can be obtained at the door of the gym Monday night with admission being $1 for adults, 75 cents for students and 50 cents for children. All of the proceeds will go into the Jaycees community assistance fund which benefits the needy people of Midland.

Will Grimsley picks Cowboys over Denver

By WILL GRIMSLEY
AP Special Correspondent

NEW ORLEANS (AP) — The Dallas Cowboys will beat the Denver Broncos in pro football's Super Bowl XII Sunday. The game will be more soporific than terrific. The score will be roughly 17-7.

The touted quarterback duel between Dallas' Roger Staubach and Denver's Craig Morton will not materialize. Denver's vaunted Orange Crush defense will have trouble crushing a grape. The hero of the game will be Dallas' Tony Dorsett.

These priceless gems of information are offered you today not through the courtesy of Jimmy the Greek or any of the Las Vegas cronies. They don't emerge from gypsy tea leaves or voodoo witchcraft. They aren't dictated by the stars, slide rules or crystal balls.

These are the determination of the architects of the nation's hewest fad — the study of biorhythms, the theory that everyone's life works in cadence with its periods of highs and lows.

"The Cowboys will be higher in more of the three vital barometers — physical, emotional and intellectual. I don't see how they can possible lose," predicts Bernard Gittleson, president of Biorhythms, Inc. of New York.

Gittleson is author of two books, "Biorhythms Sports Forecasting" and "Biorythm — A Personal Science," which have sold more than one million copies. His theories have been adopted by leading industries. He addresses some 300 university campuses a year.

His credentials are impressive. He is perhaps the only forecaster who called the turn on all six playoff games leading to Sunday's big championship, including the upsets of both the Los Angeles Rams and Oakland Raiders.

"In fact, we predicted back on Sept. 18 that the Los Angeles Rams would lose to the Atlanta Falcons," he said. "Joe Namath was down both physically and emotionally."

The biorythm theory, conceived by two European doctors in the 19th Century, concludes that the physical, intellectual and emotional states of human beings change rythmicaly — but no necessarily at the same time.

In essence, some days you wake up and feel lousy. It's better never to leave the house. Other days you are bubbling with spirit and vinegar. Using the birthday as a base, these cycles, Gittelson insists, can be charted almost flawlessly.

During the past several days, Gittelson and his staff have been drafting the cycles of the Super Bowl rivals.

"Assuming that most of the brain work, the signal calling, will come from the bench, Dallas starts with an advantage right off," Gittelson said. "Our graphs show that Tom Landry, the Dallas coach, will be on an intellectual high while his rival, Red Miller, will be on an intellectual low."

Next one to be different

TERRY WILLIAMSON

Remember back when? Dallas 14, Denver 6. Both teams promise that it will be different in Super Bowl XII. All we can do is hope because that first meeting of the NFL's best was a flop at best.

If you have a short memory, the above mentioned game took place on the NFL's final weekend of play. Both teams already had conference titles and home field advantages wrapped up for the playoffs. Neither team cared much about the outcome.

There were no injuries in that game because wet noodles don't hurt too much. Denver never intended to win. They played quarterback Craig Morton only three plays, and Dallas quit after that too, but not before marching the length of the field for a 7-0 lead after the opening kickoff. That proved to be enough.

DALLAS PLAYERS insist that they were ready to do battle with the AFC's best in that game. But there was a natural let down after Morton went out. Denver players still insist that they did not have their hearts in the game because there was really nothing to gain by going all out and risking major injuries. After all, Morton did have a minor shoulder injury and a hip pointer. The decision was made for a little more than a no-show before the team ever left Denver.

Few would have expected a titantic matchup between the two teams if Denver coach Red Miller hadn't pulled a hype job on the press and fans. Not even Dallas was prepared for the lack of enthusiasm that Denver brought with them.

MILLER TOLD the Dallas press corps that Morton would play while at the same time telling his own press group that Morton would play one or two series of downs at most. Morton was not to blame for that incident, but he did agree with Miller that he shouldn't play much. Morton, however, thought Miller was telling the Dallas people that he wouldn't play and he didn't know that everyone was expecting a big game between him and Staubach.

After the game, Dallas defensive back Benny Barnes said, "I was really surprised that Morton didn't play more. We had no hint of this during the week. I can understand it, but I don't think even Coach (Tom) Landry expected it."

DALLAS QUARTERBACK killer Harvey Martin said, "The air came out of the game when Morton left early in the first quarter. I think we were ready to play a good game, but when we found out that they were not too serious about the whole thing, then we kinda let up too. It was really not the kind of game we were expecting."

Well, as history has it, Dallas won despite Efren Herrera missing three chip shot field goals. The score should have been more like 23-6 in favor of the Cowboys.

Now that all that is forgotten, the fans are still looking to a rematch with teeth in it, but one wonders what Miller will forget to tell the fans before the Super Bowl.

EVEN AFTER the Dallas game, Miller was not through playing games with the press. This time he even forgot to tell his own people.

That incident came before the Oakland game, and it almost caused a potential NFL scandal.

Commissioner Pete Rozelle admitted on Monday after the Sunday Oakland-Denver game that the league did not know that Morton was in the hospital from Tuesday through Friday. Again this was not Morton's fault; it was Miller's.

Miller said after that game he was not sure Morton would be able to play until the quarterback practiced setting up to pass before game time. Morton had a hip pointer that had to be drained of blood in two trips to the hospital.

BUT MILLER said at a news conference on Saturday (the day before the Oakland game), "Everyone will play." Miller didn't even tell his team until Friday of that week that Craig may not play because he had been in the hospital most of the week. That information came from defensive end Lyle Alzado after the Oakland game.

The whole thing had Rozelle fuming, the Denver press fuming and a few shocked bookies. After all, information like that can change a point spread in a hurry. League rules require that the clubs report possible incapacitating injuries, and the information is passed on to the media.

Fortunately, Craig was able to play, and he played very well against Oakland, but Miller could have been in a real bind if Morton had not played. Rozelle called Miller on the carpet for the incident. NFL sources told the Dallas press that Rozelle was also upset about the Dallas oversight, and mentioned that also to Miller.

According to Miller, the Broncos will be healthy for Dallas, and promises that it will be a different team than what the Cowboys in Texas Stadium.

I hope he is right because his track record isn't too good up to this point.

Jethro Pugh will retire

NEW ORLEANS (AP) — Several years after Sunday's Super Bowl, Jethro Pugh will be one of the hottest trivia sports questions in professional football.

The Dallas Cowboy defensive tackle says he is retiring after Super Bowl XII against the Denver Broncos, barring some major medical breakthrough that will cure his ailing back.

The trivia questions? Well, let's start with the victim of a block that gave an offensive lineman the catalyst to write a book.

Also, who played in the most National Football League playoff games?

The answer is, of course, Pugh.

Pugh was never All-Pro or made the Pro Bowl. But he was the steadiest of performers who was overshadowed by the retired Bob Lilly, his counterpart on the right side of the Dallas Doomsday Defense.

"I think I've given more than I've received," said Pugh. "I believe this one (the Super Bowl) will do it. I've been around 13 years and lucky to be on a playoff team in 11 of them. I've banked over $100,000 in playoff money and wished I still had it. But it has been a good career and I'm getting to be an old man."

Pugh, drafted by the Cowboys out of Elizabeth City State, was the prey of offensive lineman Jerry Kramer's block in Green Bay's 1967 "Ice Bowl" victory over the Cowboys in the NFL title game.

Kramer later wrote a book about his days under the late Packer Coach Vince Lombardi. Pugh was pictured in hundreds of photos as the man under Kramer's effort, which cleared quarterback Bart Starr for the game-winning touchdown.

"When I have a nightmare, it usually has that play in it," said Pugh. "The field was so slick, we couldn't dig in. It (all the publicity) has been a little unfair, but that's the way it goes."

Pugh said: "I've got a lot of good memories and would like to leave on a high note. There have been some wonderful moments like the Super Bowl VI win and our 'Hail Mary' victory over Minnesota two years ago on that last-second pass. I just wished I hadn't helped Jerry Kramer sell so many books."

Pugh said he had decided this week to check out.

Asked if he would "unretire" like so many players do in the summer before football season begins, Pugh said, "I don't think so. My health would really have to improve."

Pugh will have played in 22 NFL playoff games — two more than George Blanda or Lee Roy Jordan.

"You know it will be nice to be in the record book," said Pugh. "Without a name like Jethro Pugh, I might really have been anonymous down through the years."

He added: "Remember when I was drafted? The first thing everyone wanted to know was 'What's a Jethro Pugh?' The second was 'Where in the heck is Elizabeth City State?'"

Mets still owe Matlack money on bonuses

NEW YORK (AP) — Veteran pitcher Jon Matlack says the New York Mets, who traded him last month to Texas, still owe him money. The Mets deny it and Commissioner Bowie Kuhn says he's looking into it.

Matlack and his attorney Richard Moss contend the Mets owe the left-handed pitcher a bonus that was written into his contract. The amount reportedly is $100,000 and would cover 1978 and 1979.

Matlack began a three-year, $450,000-plus contract with the Mets in 1977. Matlack's attorney filed a default notice by telegram to the Mets.

"If the provisions are not lived up to and the bonus not paid, it is our position Jon will be a free agent in 10 days," Moss said Wednesday.

Matlack, however, emphasized that the dispute would not affect his role with the Rangers, although he would like to get it settled before reporting.

"I am happy with the trade," he said. "If the Mets meet their agreement, I will go down to Texas Jan. 20 to meet their people."

The Mets, meanwhile, contend Matlack did not earn the bonus, and they say there is no written agreement between the club and Matlack that promises a bonus.

"There is a dispute between Matlack and the club over some bonus provisions," said a Mets' spokesman. "There was an understanding that Matlack's contract would be torn up last year and a new one offered if he fulfilled certain conditions."

Marvin Miller, executive director of the Major League Players Association, said "regardless of what M. Donald Grant (Mets president) or Joe McDonald (Mets general manager) say, the promises were made in writing." Miller said the club, however, had refused to give Matlack a copy of the agreement.

"Regardless of what Mr. Miller says," Grant replied, "there is no agreement in writing between their party."

Kuhn's office said the matter had been on the commissioner's desk for almost two weeks.

"I'm still trying to get some clarification as to what assurances were made," Kuhn said. "I'm aware of the problem and have been discussing it with the Mets and with Mr. Moss for more than a week."

Last year, Matlack, troubled by a shoulder injury, had a disappointing 7-15 record and a 4.21 ERA.

"Under provision 9-E of the standard contract any bonus must be settled by the assignor (the Mets) in any trade," Moss said.

A FRESH START ON THE ROAD.

Wolfpack posts 88-82 victory over Maryland

By The Associated Press

The North Carolina State basketball team is the surprise of the Atlantic Coast Conference this season — but no surprise at all to Coach Norm Sloan.

"I've said over and over again that we would be good," Sloan says. "It's just that we've come together quicker than expected."

The latest team to be surprised by the resurgent Wolfpack is Maryland, an 88-82 victim Wednesday night.

That was the 11th victory in 12 games for a team that was theoretically not one of the ACC powerhouses this year.

"The team is playing hard and I'm really happy where we are," said Sloan, whose 16th-ranked club is undefeated thus far in two ACC games. "But it's still a long, long way to go."

Maryland, on the other hand, was characterized in preseason estimates as one of the challengers for the ACC title. So far, though, the Terps look like one of the also-rans, losing for the third time in as many ACC games.

"I thought we played better tonight than the other times (losses to Duke and Wake Forest), but we still made a lot of mistakes," said Maryland Coach Lefty Driesell. "We sort of gave the game away, but I don't want to take anything away from State. They played a great game."

Driesell's afterthought: "I still think we'll be all right."

Hawkeye Whitney scored 18 points and Tony Warren added 17 to lead the North Carolina State offense. Greg Manning's 20 points topped Maryland.

Elsewhere among the nation's ranked teams, No. 8 Syracuse defeated Pen State 83-77; No. 10 Kansas trimmed Oklahoma State 69-57; No. 13 Holy Cross outscored Assumption 97-90; No. 14 Providence whipped St. Joseph's, Pa., 76-69; 15th-ranked Virginia stopped Delaware 71-59 and No. 17 Georgetown edged Navy 56-53.

Ross Kindel scored 19 points and four teammates contributed double figures in Syracuse's victory. Penn State sophomore Steve Kuhn had a career-high 27 points, but they weren't enough to stop the Orangemen's 12th victory in 13 games.

Donnie Von Moore scored 14 points and John Douglas added 10 as Kansas defeated Oklahoma State. Ronnie Perry and Chris Potter combined for 51 points to power Holy Cross past Assumption.

"I thought that Assumption played a very nice game," said Holy Cross Coach George Blaney. "I don't know if we took them too lightly or not, but it's still a win and now we're 10-1."

Troy Williams scored a game-high 29 points to lead Providence over St. Joseph's. The game was part of a tripleheader at Philadelphia's Palestra. La Salle edged Drexel 80-79 as Michael Brooks scored 30 points and and Villanova dumped Massachusetts 71-64 behind Alex Bradley's 23 points in the other.

Jeff Lamp's 23-point, seven-rebound performance led Virginia over Delaware, providing the hot Cavaliers with their ninth victory in 10 games. Derrick Jackson scored 21 points to lead Georgetown over a stubborn Navy team.

Elsewhere, Duke defeated Clemson 107-85 behind Mike Gminski's 28 points; Brian Johnson and Emmett Lewis teamed for 31 points to lead Colorado over Nebraska 73-64; Oklahoma defeated Missouri 73-70 as Cary Carrabine hit four free throws in the final six seconds of overtime; George Johnson's 21 points triggered St. John's past Fordham 97-56; Glenn Hagen hit a 25-foot jump shot at the buzzer to give St. Bonaventure a 70-68 overtime victory over Wisconsin-Milwaukee; John Long's 28 points paced Detroit over Iona 84-79 and Iowa State trimmed Kansas State 82-77 as Andrew Parker pumped in 27 points.

Breazeale elected

FORT WORTH (AP) — George Breazeale of the Austin American-Statesman has been elected president of the Texas Sports Writers Association, succeeding Dick Peebles of the Houston Chronicle.

Jerry Waggoner of the Bryan Eagle was voted vice-president in a close race with Mike Rabun.

MIDLAND, TEXAS GEOLOGIST

Stoll captues tennis victory

SAN CARLOS, Calif. (AP) — Caroline Stoll of Livingston, N.J. posted her third straightset victory Wednesday to become the first player into the semifinals of the $20,000 women's tennis tournament here.

The 17-year-old Stoll, a pro since last August, used a topspin forehand to beat Diane Desfor of Long Beach, Calif., 6-4, 6-2. Stoll's Friday night opponent will be the winner of Thursday afternoon's quarterfinal between Val Ziegenfuss and Ruta Gerulaitis.

Ziegenfuss, 28, outlasted Mimmi Wikstedt, Sweden's No. 2 woman player, 5-7, 6-4, 6-4, Wednesday night in a match marked by long rallies from the baseline.

In Wednesday's other singles match, Lesley Hunt, 27, of Australia, beat Heidi Eisterlehner of West Germany 7-6, 6-1, winning the first-set tiebreaker 5-3. Hunt — fifth-seeded and the only one of the eight seeded players to survive to the quarterfinals — plays Mariana Simionescu, Romania's No. 3 player, Thursday afternoon for a semifinal spot.

Jon Kayworth is threatened

NEW ORLEANS (AP) — A telephone threat was made on the life of Denver Broncos Jon Keyworth, and stringent security measures were taken to protect him, Broncos General Manager Fred Gehrke told the Associated Press Wednesday.

Gehrke said the threat was made in Denver by a man whom Denver authorities were investigating, and he was confident that appropriate action would be taken.

"We're taking every step possible to protect him," Gehrek said of the Broncos running back. "We have one of our security people stationed outside his room. He's pretty shook up about it."

Gehrke said he did not know the specific nature of the threat or to whom it was made. He also said he did not know why a Denver resident would threaten a Denver player.

But he said all possible security measures were taken, including the opening of Keyworth's mail at the hotel where the Broncos are staying to prepare for Sunday's Super Bowl game with the Dallas Cowboys.

New Orleans police sources said they had not been notified of the incident. The NFL got the word from Denver team officials and had no comment except to note that such threats are not uncommon during Super Bowl week.

Chaparrals to try Western Texas five

SNYDER — Midland College is faced with a mountainous task today when the Chaparrals invade the Scurry County Coliseum at 8 p.m. to play Western Texas College.

For the Second game in a row, the Chaps will be facing one of the Western Junior College Conference's co-leaders. It also will be the Chaps seventh straight road game.

Coach Jerry Stone's club has won five of six road games, but that one loss was to Odessa College Monday night and what hurts is that it counts in the standings.

WITH TWO more road games after tonight's tilt with the Westerners, the Chaps need a win against WTC to pull even with .500. MC is 2-3 in conference and to keep alive hopes for a berth in the Region V tournament will have to win two of the next three road games or win everything in sight once they return to the friendly confines of the MC gym.

The MC gym hasn't been all that friendly. The Chaps have lost both league games played at home.

Odessa College at 4-1 shares the lead and the teams to beat at this point would seem to be New Mexico Military Institute, WTC, OC and Amarillo. In fact, that's just what South Plains did Monday night, handed Amarillo College a 95-75 shellacking to leave AC at 3-2 and SPC at 2-2 in the standings.

Marlin hospital may convert to geothermal energy

By CARY CARDWELL
Austin Bureau

AUSTIN—Imagine homes and hospitals heated by tapping vast underground reservoirs of water warmed by molten rocks deep within the earth.

Or public utilities companies that have shut off the spigots of high-priced natural gas and sell instead cheap, recyclable water to heat business and provide hot water for bathing.

A far-fetched dream of the future? Not really. The idea is a not-so-distant possibility for thousands of Texans who live in areas of the state above underground hot water reservoirs.

Several such reservoirs exist, lying close to the surface mainly along two natural ground faults in central Texas and in pockets in the west Texas Trans-Pecos area.

Until recently, the underground pools have played only minor public roles, serving only to fill restorative "hot mineral baths" in the city to warm a public swimming pool in Austin.

But when the price of natural gas and oil rose, so did the government's interest in alternate energy sources—solar, wind and, yes, geothermal. And with that interest came money in the form of grants from the Department of Energy; grants earmarked to fund experimental projects utilising these new (or rediscovered) sources of energy.

The DOE has set aside $1.5 million for fiscal 1978 to finance projects using geothermal energy generated from hot water reservoirs to heat buildings.

If all goes right, the Torbett Hospital in Marlin (located in central Texas) may receive $380,000 from DOE over the next two and one-half years to modify its heating system for the use of geothermal energy.

The Marlin project, coordinated by Austin's Radian Corp. with the help of the state and the city, is the only one of its kind in Texas. Radian spokesman Marshall Conover says the state's willingness to pledge matching money for the project is catching the favorable attention of the DOE.

"A department of Energy representative came to question and review the plans (las week) and he said it looked good," Conover reported.

One feature of Radian's proposal that impressed the DOE was its non-polluting, recyclable nature. In this age of environmental sensitivity, an energy-generating plan that doesn't pollute the air or the water is sure to receive favorable notice.

The plan calls for hospital to tap the Balcones Fault reservoir lying 3,400 feet down.

The 150-degree water will be pumped to the surface and circulate through a heat exchange system. Steam will then flow through pipes in the walls, warming room and hallways.

Little new technology or modification of the existing heating system will be needed. The pipes already line the walls, carrying steam generated in a boiler.

The difference, Conover says, lies in the method of generating that steam. Using the naturally heated reservoir water, hospital officials can turn off the expensive natural gas that presently runs the boiler.

The system also will provide hot water for bathing and laundry. When the water is returned to the ground after circling through the heat exchange system, it will have cooled only 25 degrees, not enough to upset the reservoir's structure, Conover said.

"It's a closed system. The water that's brought up will always be inside pipes or a tank so there will be no environmental pollution or ordor," Conover said.

DOE is expected to announce grant awards the middle of this month. If Radian's plan is approved, the state will match federal money with $75,000 through the Texas Energy Advisory Council fund. The project should be operation within 18 months.

Other governmental oficials are closely following Radian's plan. Conover reports that a Veteran's Hospital near Marlin plans to replace its boiler, and is considering tapping the reservoir to provide some or all of its heating and hot water needs.

"The city of Marlin is very interested in utilizing this resource for their own buildings and making a utility out of it if they can," Conover said.

Possible uses for the water don't end with heating. Conover said the mildly hot water is perfect for heating greenhouses, drying agricultural grains, even pastuerizing milk.

Some local residents already use the water from wells for bathing, and ironically consider its warmth a necessary, cost-saving nuisance. Homeowners with wells don't need hot water heaters, but somehow must cool the water slightly before it's bearable.

"They use cooling towers to bring the temperature down to bathable levels. I heard of one waman who filled her bathrub and then added about 10 trays of ice cubes to cool it off," Conover said.

Radian's project may help people realize that the hot water reservoirs could be a cheap source of energy for heating individual homes as well as public building.

"All that is required is to spark the imagination so that people say, 'Hey, if we go out and put our minds to it, we can use this resource," Conover said.

If the Marlin plan receives funding, it could provide that spark.

Oil companies eagerly eye Baltimore Canyon

NEW YORK (AP) — Six oil companies that have spent $1.1 billion on leases and another $90 million exploration say they are eager to take the 80 percent chance that they will find nothing when they start drilling for oil along the Atlantic Coast.

The companies have fought lengthy court battles and are now awaiting a Supreme Court decision on whether they may begin working in the so-called Baltimore Canyon within the next few months.

J.G. Yope, Shell Oil Co. project manager for the controversial operation, says the business is "a vicious gamble," and based on past experience, "There is an 80 percent chance of finding nothing." But he says officials of the six companies remain hopeful.

"At this point, we have to assume that we'll find something," he said. "Otherwise, we wouldn't be taking the gamble."

"It's a great risk, no doubt about it," said Joe Tucker, an Exxon spokesman. "We can lose a lot of money and a lot of time."

Some 529,500 acres on the sea bottom were leased for exploration in the Baltimore Canyon, which lies within 60 miles of New York City and runs along the densely populated East Coast.

But only 10 to 15 test wells are likely to be drilled, Yope said, adding that Shell will drill only two wells, unless oil is struck.

These wells, each costing around $6 million, will be drilled in the most likely areas, and oil companies will share geological information to some extent, he said.

Few wells will be drilled because of the limited availability of drilling rigs, and the enormous cost of drilling holes as deep as 12,000 feet in the ocean floor, Yope said. He added it would take six to eight years after discovery of any oil or natural gas to begin production.

Most of the initial drilling will take place east of Atlantic City, N.J., although two other potential areas are off Cape Henlopen, Del.

Government officials estimate that as much as 1.4 billion barrels of oil and 9.4 trillion cubic feet of gas can be found in the canyon.

Most of the companies have received the necessary federal permits to begin drilling, but they must await Supreme Court action on a pending appeal by officials of Suffolk County, on Long Island in New York.

County officials, who object to the operation on environmental grounds, took their appeal to the Supreme Court after losing a round in a lower court.

Blaze out at wildcat

An attempt will be made today to cap a wild gas project in Eddy County, N.M., two miles east of Loving.

Oilwell firefighter Red Adair and his crew extinguished the fire Tuesday with a dynamite charge, however the gas is still blowing out of control.

The project, Delta Drilling Co. of Tyler No. 1 South Culebra Bluff, blew out Jan. 3 and caught fire the next day.

The wildcat blew out when drilling had reached 11,769 feet on a 13,000-foot Morrow contract.

The location is 1,850 feet from north and 1,650 feet from east lines of section 23-23s-28e.

The Brahaney Drilling Co. drilling rig was destroyed by the blaze, but there were no injuries to members of the drilling crew, a spokesman for the Midland-based drilling company said.

The gas is blowing at an estimated 7 to 10 million cubic feet per day, a spokesman for the Delta Drilling Co. said.

The blowout occurrred in the Strawn formation. There is no production from that zone or in the Morrow in the immediate area.

NAACP joins forces against Carter's plan

The Washington Post

WASHINGTON — The NAACP has begun circulating on Capitol Hill an energy policy statement calling for deregulation of prices on new oil and gas and also criticizing President Carter's national energy plan.

The statement by the nation's oldest civil rights organization was drafted by an 18-member task force that included a number of blacks who hold executive positions in the oil and gas industry.

It conformed to the spirit of a declaration by NAACP board chairman Margaret Bush Wilson last November for a partnership among "big government, the big minority and big oil ..."

The statement criticizes Carter's energy plan for taking "a pessimistic attitude toward energy supplies for the future," and for emphasizing conservation in an attempt to cut energy use.

It also says a "major portion" of the money Carter wants to raise through new taxes on energy should be plowed back into the industry for exploration, one of the principal goals of the energy companies and their congressional allies last year, rather than related to taxpayers as Carter proposed.

The chairman of the task force that drafted the statement was James Stewart, a veteran of almost 20 years on the NAACP board of directors, and a retired assistant to the vice president of the Oklahoma Natural Gas Co.

Stewart said he tried to find people for the task force "who have a knowledge" of the NAACP and the industry.

"It's a little confusing to people that we would be supporting the aims and objectives of much of industry, but we're supporting what's good for us in terms of jobs for black people," he said in an interview.

"It (the statement) wasn't pro-industry ...It was pro-jobs and opportunities for black people for whom it's time to get a piece of the pie. And the only way we're going to get it is if we stimulate industrial growth and exploration and by bringing more energy into the United States ..."

"We can't through conservation get any more jobs for blacks," Stewart said. "...The only way to increase jobs is to increase productivity and that's through industry."

The statement echoes Stewart's views. It cites unemployment of more than 50 percent in some black age groups, and then notes:

"We cannot accept the notion that our people are best served by a policy based upon the inevitability of energy shortage and the need for government to allocate an ever-diminishing supply among competing interests." And it continues:

"...We also believe that many of the prohibitions proposed (by Carter) with respect to the industrial use of oil and natural gas will force the closing of many job-producing industries in urban areas and cause a massive shift of industries away from areas where most black people live and work."

Stewart said NAACP chairman Wilson of St. Louis and executive director Benjamin Hooks also contributed considerably to the statement.

Wilson issued her call for "...a pragmatic partnership among big government, the big minority, and big oil ..." at an energy conference of the NAACP in Washington last Nov. 18 and 19.

Andrew Brimmer, a former member of the Federal Reserve Board and now an economic consultant, said at the November conference that there was "no way to reduce consumption in the U.S. without simultaneously slowing production and economic growth." Stewart said Brimmer contributed to the organization's energy statement.

In his speech, Brimmer said the greatest burden of slowing production would fall on blacks. He asserted that it would be in their interest for natural gas prices to rise.

The 400 or so delegates to the NAACP's energy conference, not all of them NAACP members and many of them blacks working in various industries, broke up into a series of task forces to discuss various aspects of the energy crisis.

Robert Bates was chairman of the Task force on supply, which looked at what ought to be done to assure an adequate supply of energy for minorities and the poor. Bates is also a Washington lobbyist for the Mobile Oil Co.

Bates said his task force consisted of members from Standard Oil of California, Atlantic-Richfield, Souther California Gas, Consolidated Edison of New York City, and the consulting firm of Arthur D. Little, as well as the Department of Energy.

The statement, he said, reflects the experience of his task force members in the energy industry.

"I was very much impressed with the fact that there were black people participating in the conference who have knowledge and experience because they worked for industry," Bates said.

Bates is also a member of the American Association of Blacks in Energy, headed by Clark Watson of Denver, Colo.

Several members of the AABE, including Watson, contributed suggestions for the statement. In a talk before a group of journalism students last August in Berkeley, Calif., Watson said the AABE believed, among other things, that blacks ought to have a bigger slice of the energy industry pie.

Wildcat, gas discovery, field tests announced in regions of West Texas

C&K Petroleum, Inc., operation from Midland, announced location for a 5,740-foot wildcat 10 miles southwest of Imperial in Pecos County.

It is No. 1 State, 1,000 feet from southeast and 1,525 feet from southwest lines of section 6, block 10, H&GN survey.

There are several nearby dry holes.

ANDREWS TEST

Hanley Co. of Midland No. 1-7-25-A University is to be drilled as d 7⅞-mile stpout to the Hutex (Dean) field of Andrews County, 13 miles northwest of Tarzan.

Slated for a 10,000-foot bottom, it is 660 feet from north and 1,980 feet from west lines of section 25, block 7, University Lands survey.

STERLING TRY

Stoltz, Wagner & Brown of Midland No. 2-24 Flint is to be dug 3,365 feet southeast of production in the Conger (Pennsylvanian) field of Sterling County, 14 miles southwest of Sterling City.

Location is 1,980 feet from north and 660 feet from west lines of section 24, block 31, T-5-S, T&P survey.

Contract depth is 8,400 feet.

PECOS PROJECT

Hillin Production Co. of Midland No. 3 C. C. Canon is to be dug as an 8,500-foot project 1,600 feet southeast of production in the Sheffield (Strawn) field of Pecos County.

Location is 853 feet from north and 1,787 feet from east lines of section 18, block C-3, EL&RR survey and 16 miles west of Sheffield.

SPRABERRY TESTS

MG2 Oil Corp. of Midland announced locations for three 9,100-foot projects in the Spraberry Trend Area of Martin County.

No. 1 Dickinson is 1,320 feet from south and west limes of section 30, block 37, T-1-N, T&P survey and 12 miles northwest of Stanton.

MGF No. 1 Stimsom is 11 miles northwest of Stanton and 1,320 feet from south and east lines of section 42, block 37, T-1-N, T&P survey.

No. 2 Stimson is 1,320 feet from north and east lines of section 42, block 37, T-1-N, T&P survey and 11 miles northwest of Stanton.

SPRABERRY WELL

Tamarack Petroleum Co., Inc. of Midland No. 1-31 Windham has been completed in the Parks (Spraberry) area of Midland County.

The well, ½ mile west of other Spraberry production, completed for a 24-hour pumping potential of 38 barrels of 35-gravity oil and 67 barrels of water, through perforations from 7,810 to 8,653 feet after a 4,000-gallon acid treatment and a 120,000-gallon fracture job.

Gas-oil ratio was 1,421-1.

Location is 660 feet from south and east lines of section 31, block 40, T-3-S, T&P survey and nine miles southeast of Midland.

Total depth is 8,840 feet and 4½-inch pipe is cememted on bottom. Plugged back total depth is 8,775 feet.

WINKLER OILER

Gifford, Mitchell & Wisenbaker No. 2 Black Kettle is a new well in the Cheyenne (Capitan) field of Winkler County.

Operator reported a daily flowing potential of 74 barrels of 33.8-gravity oil, plus two barrels of water, through a 12/64-inch choke and perforations from 3,156 to 3,275 feet.

The pay was acidized with 12,000 gallons and fractured with 20,000 gallons.

Gas-oil ratio was 3,040-1.

Hole is bottomed at 3,371 feet and 5½-inch casing was landed on bottom.

Location is 567 feet from north and 1,100 feet from east lines of section 7, block 74, psl survey and 12 miles northwest of Kermit.

SECOND WELL

The same operator completed No. 3 Little Wolf in the same field.

This well finaled for a daily flow of 96 barrels of 31.4-gravity oil and five barrels of water, through a 14/64-inch choke and perforations from 3,148 to 3,302 feet.

The pay was acidized with 2,000 gallons and fractured with 17,000 gallons.

Gas-oil ratio on the potential test was 4,375-1.

Total depth is 3,600 Feet and 5½-inch casing is set at 3,550 feet.

Wellsite is 3,047 feet from south and 1,000 feet from east lines of section 16, block C-23, psl survey and 13½ miles northwest of Kermit. It is ½ mile north of other production.

CROCKETT STRIKE

Texas Pacific Oil Co., Inc., No. 1 State of Texas has been completed as a Pennsylvanian oil strike 18 miles southeast of Rankin in Crockett County.

Operator reported a daily flowing potential of 143 barrels of 46-gravity oil, through a 19/64-inch choke and perforations from 9,395 to 9,406 feet, natural.

Gas-oil ratio was 1,399-1.

The well is bottomed at 9,615 feet and 5½-inch casing is set at 9,609 feet.

Location is 660 feet from north and 560 feet from west lines of section 29, block 5, University Lands survey.

It is four miles northeast of the depleted Quantos (Ellenburger) field.

The Spraberry was topped at 5,948 feet, the Dean at 7,158 feet, the Wolfcamp at 7,240 feet, the Pennsylvanian at 8,706 feet, the Pemnsylvanian detrital at 9,266 feet and the Barnett at 9,474 feet.

C. F. Lawrence & Associates, Inc., of Midland No. 1-D Harwood has beem completed as the second Wolfcap gas producer in the Clara Couch miltipay field of Crockett County, 14 miles east of Iraan.

The well finaled for a calculated, absolute open flow potential of 7,600,000 cubic feet of gas per day, through perforations from 5,944 to 5,948 feet after 500 gallons of acid.

Location is 467 feet from south and east lines of section 7, block GG, H&OB survey.

Total depth is 6,064 feet and 5½-inch casing is cemented on bottom.

The Following tops were reported: Yates 1,484, Queen 1,596, Grayburg 1,800, San Andres 2,060, Clear Fork 3,430, Wichita-Albany 4,070 and Wolfcamp at 5,280. Ground elevation is 2,672 feet.

Extension completes

Resources Investment Corp. of Midland No. 1-10 Busby has been completed as a one-mile extension to the Tom Ketchum (Canyon gas) field in Irion County.

The well finaled for a calculated, absolute open flow potential of 2 million cubic feet of gas per day, with an unreported amount of 52-gravity condensate.

Completion was through perforations from 7,584 to 7,586 feet and from 7,616 to 7,624 feet. The zones had been acidized with 2,850 gallons and fractured with an unreported amount.

Total depth is 7,720 feet and 4½-inch casing is set at 7,716 feet.

Location is 660 feet from north and west lines of section 10, block 1, H&TC survey and 11 miles northwest of Mertzon.

Gulf finals new gasser

Gulf Oil Corp. No. 2-GK State has been completed as a ½-mile northwest extension to the Richard Knob (Morrow) field of Eddy County, N. M.

It completed for a calculated, absolute open flow potential of 22.869 million cubic feet of gas per day, through perforations from 8,478 to 8,498 feet.

Location is 2,310 feet from north and 1,980 feet from west lines of section 19-18s-25e and 11 miles southwest of Artesia.

Total depth is 8,708 feet and 5½-inch pipe is set on bottom.

Re-entry scheduled

A re-entry wildcat has been staked in Cottle County and a replacement project has been reported in Terry.

Jack F. Grimm of abilene No. 1-A Jamie Cate is a new 6,450-foot wildcat in Cottle County, 11/2 miles southeast of Chalk.

Location is 660 feet from south and 2,465 feet from east lines of Mary A. Cook survey, abstract A-55. Elevation is 1,792 feet.

The project originally was drilled as Gus Edwards No. 1-A Cate and abandoned at 6,450 feet. Site is 1/1 mile northwest of the Providence (Atoka) field.

NRM TEST

NRM Petroleum Corp. No. 1-A Hoffmann will be drilled 560 feet from south and 1,755 feet from west lines of section 41, block DD, John H. Gibson survey, two miles south of Wellman. It replaces No. 1 Hoffman which was abandoned at 3,360 feet.

It is to drill to 5,600 feet.

Texas oil fields will provide major share

TULSA, Okla. (AP) — Texas oil fields will provide a major share of crude oil into the 21st century, the Oil and Gas Journal reported Saturday.

The weekly business magazine reported that the Texas Railroad Commission reached the verdict after a 1977 study of 34 of the state's most productive fields.

The commission's principal finding was that oil recovery rates in the Texas fields are among the highest in the country.

The 34 fields in the study account for about 19 percent of the country's reserve of oil, about 29.5 billion barrels.

If Alaska's giant Prudhoe Bay field — the nation's largest — is excluded, the share of reserves in Texas fields would be about 28 percent.

Many of the Texas fields are more than 50 years old, so most of them have been in secondary recovery operations for many years. But a few still are in primary production.

The largest of the Texas giants — East Texas field — produces an estimated 175,000 barrels a day from its 12,371 wells.

The East Texas field is the only one which the Texas Railroad Commission keeps below 100 percent of market demand in production.

It is set at 86 percent, but operators say that even if the commission allowed production of 100 percent of market demand the field still would have 60 years of productive life.

The giant field has produced 4.5 billion barrels of oil and still holds an estimated one billion barrels of reserves.

DRILLING REPORT

ANDREWS COUNTY — Blair Exploration No. 1 W. E. King, td 4,480, waiting on cement on 8⅝ at total depth.

BORDEN COUNTY — Resources Investment No. 1-23 Waddell, drilling 6,196 lime.

Amoco No. 1-A Long, set 133/S at 310 feet, now drilling 2,810 feet.

BREWSTER COUNTY — Union Texas No. 1 Sibley, drilling 11,588 sand, shale.

CHAVES COUNTY — Clear No. 1-22 Crosby, drilling 5,965 in dolomite.

Amoco No. 1-ET State, drilling 7,010.

Amoco No. 1-DQ State, td 1,750, lost circulation, waiting on cement.

CRANE COUNTY — Clear No. 2-DV State University, preparing to acidize.

CROCKETT COUNTY — Estoril No. 1-A Carleton-Monaghan-University, pbtd 1,680, shut in.

Estoril No. 1-23 University, drilling 7,242 shale.

Monsanto No. 1 Bean, td 1708, shut in.

Monsanto No. 3 Shannon, pb 1,773, set packer, preparing to drill out cement.

James L. Lamb No. 3-35 University, drilling 1,535 lime.

Gulf No. 4 Parker Ranch, td 7,890, preparing to test, acidized with 3,500 gallons; perforations 5,450-5,637 feet.

Hytech No. 2 Montgomery, pbtd 9,812; Canyon perforations 6,177-6,621, acidized with 3,000 gallons; preparing to fracture.

DAWSON COUNTY — Getty No. 1 Davis, drilling 1,275, set 13⅜ at 447.

Reserve Oil, Inc. No. 2 Cloeka Middleton, drilling 7,976 sand, shale.

Henry No. 1-A Anderson, td 8,550, pumped no oil, 155 barrels water, 24 hours, still pumping.

ECTOR COUNTY — Amoco No. 2-AM David Fasken, td 12,515, waiting on completion unit.

EDDY COUNTY — Aminoil No. 3 Willow Lake Unit, drilling 3,970 lime, shale, salt.

Orla Petco No. 1 Swearingen, td 2,479, testing.

Black River No. 1 BRC Madera, drilling 6,817 lime.

Flag-Redfern No. 1 Keystone, flowed 12 hours on full choke, gas at rate of 440,000 cubic feet per day, no fluid. Still testing.

Southland Royalty No. 1-19 State, drilling 8,937 lime.

Artec No. 1 Palmillo, td 11,303, shut in.

Artec No. 2 Palmillo, td 11,304, shut in.

Gulf No. 2-GK Eddy-State, td 8,708, ipcaof 22.869 million cubic feet of gas per day, perforations 8,478-8,498 feet.

Cities Service No. 1-CX State, drilling 9,572 lime, shale.

Cities Service No. 1-A Polk, drilling 6,320 lime, shale.

Monsanto No. 1 Catclaw-Federal, td 11,038; perforations opposite Morrow 10,776-82 and 10,654-60; preparing to acidize.

Eastland No. 1-C Lopez, td 2,462; 4½ at total depth; from Delaware open hole 2,446-2,462 finaled for daily pumping potential of 16.7 barrels of 40.5-gravity oil, gas-oil ratio 120-1. No water.

Eastland No. 1-B Lopez, td 2,491, shut in.

Mesa No. 1 Red Bluff, td 2,475; set 13⅜ at total depth, waiting on cement.

Gulf No. 1-GM Eddy, drilling 8,180 lime.

Gulf No. 1 Nopal, td 2,500 lime, running 8⅝ casing.

Gulf No. 1 Potts, td 11,407; acidized with 7,000 gallons on perforations 10,914-11,129, flowing at rate of 431,000 cubic feet of gas per day.

The Petroleum Corp. of Delaware No. 5 Parkway West, drilling 11,213 sand, lime, shale.

EDWARDS COUNTY — Quaestor No. 1-193 Jack Turney, td 6,985, shut in.

GAINES — Texas Crude & Florida Gas No. 5-9 Norman; drilling 8,058 feet.

Texas Crude & Florida Gas No. 6-9 Norman; td 9,650 feet, testing, no gauges available.

Fasken No. 2-234 Taylor; td 5,442 feet, preparing to core.

HOCKLEY — Amoco No. 44-A-A Alex Slaughter; drilling 10,469 feet.

Amoco No. 47-B Slaughter; drilling 8,458 feet.

Amoco No. 8-A Yellowhouse; td 7,800, preparing to plug and abandoned.

American Quasar No. 2-13 Givan; drilling 7,366 feet in lime.

Mayer & Associates No. 1 Sires, drilling 4,437 feet.

Cleary Petr. Corp. No. 1-B Benson; td 8,979 ran tubing, shut in, temporially abandoned.

HOWARD — Harper & Lawiess No. 3 W. S. Cole; drilling 1,240 feet in shale.

Mesa No. 1-46 Morgan; drilling 7,948 feet in shale.

IRION — D. A. Metts No. 1 Mayer; td 8,105 feet, flowing load from upper Canyon perforations 7,833 to 7,598 feet, after fracture treatment of 40,000 gallons.

Delta Drilling Co. No. 1 Marie Baker; drilling 6,375 feet in shale.

Gulf No. 2-VD State; td 8,920 feet in lime and shale, waiting on cement. Set 5½-inch casing at total depth.

Union Texas No. 3-56 Farmer; drilling 6,907 feet in shale.

NRM No. 1 Rocker B; td 7,428 feet, shut in.

NRM No. 2 Rocker B; td 6,650 feet, attempting to log.

NRM No. 3 Rocker B; td 731 feet, waiting on cement, set 8⅝-inch casing at 726 feet.

Patrick & Hilliard No. 1-10 University; td 5,900 feet, working on stuck drill pipe.

Hytech No. 1-88 Rocker B; td 8,613 feet, waiting on completion unit.

LEA — Amoco No. 1-EO State; drilling 13,696 feet in lime and shale.

Atlantic Richfield No. 1 Langley Deep; td 11,423 feet, yellow jacketing blow out preventor.

Maralo No. 1-7 New Mexico State; drilling 11,043 in lime and shale.

C&K No. 1 Wilson-State; td 5,350 feet, running 8⅝-inch casing.

Gulf No. 1 Sand Well; drilling 15,251 feet in shale and lime.

Adobe No. 3 Linda-Federal; td 7,200 feet, 7-inch casing is set at 7,053 feet, now moving off rig.

Adobe No. 4 Linda-Federal; drilling 615 feet in redbeds.

Superior No. 1-L Government; drilling 14,724 feet in sand, shale and lime.

Indian Wells Oil Co. No. 1 CITGO Federal; drilling 430 feet in sand and shale.

W. A. Monerief, Jr. No. 1 Phillips-State; drilling 6,985 feet in lime.

LOVING — Continental No. 1 Arno Gas Unit; drilling 7,110 feet in lime, shale and sand.

Orla PetCo., Inc. No. 2 Sanders; drilling 1,390 feet in anhydrite.

Orla Petco, Inc. No. 2-5

MARTIN — Bass No. 1 Mabee Ranch; drilling 11,659 feet.

RK No. 2 Texas Land & Mortgage; drilling 11,730 feet in shale.

Rial No. 1 Burns Trustee; drilling 5,990 feet in lime and shale.

Fasken No. 1-22 First National Bank; drilling 5,740 feet in sand.

MIDLAND — Cois Petr. No. 1 Braden; drilling 8,000 feet in lime and shale.

John L. Cox No. 2-B Braun; td 9,700 feet, preparing to perforate.

John L. Cox No. 1-C Braun; drilling 2,530 feet.

MITCHELL — Meyer & Associates No. 1 Davis; drilling 640 feet.

NOLAN — Halvey Energy & W. C. Blanks No. 1 Champion; drilling 5,260 feet in shale.

STERLING — Dorchester No. 8-1 Foster; testing, no gauges, through perforations at 7,558-7,616 feet.

Dorchester No. 8-2 Foster; td 8,200 feet; flowing, no gauges, through perforations at 7,597-7,657 feet.

Dorchester No. 4-1 Foster; td 7,750 feet; shut in.

Amoco No. 1-35 Gunter; td 8,180 feet; taking potential test.

Dorchester No. 1-5 Foster; td 2,018 feet; waiting on cement; set 8⅝-inch casing at td.

STONEWALL — Desana No. 4-147 Flat Top; td 3,520 feet; has been completed on the pump for 18.08 barrels of 40.6 gravity, oil per day, plus 12 barrels of water, with gas oil ratio too small to measure. Production is through perforations at 3,432-3,436 feet.

Great Western No. 1 Dickerson; drilling 6,144 feet in shale and lime.

SUTTON — Amoco No. 1-A Friend; td 9,810 feet; waiting on completion unit.

REAGAN — Rial No. 3-22 University; drilling 4,550 feet in lime and shale.

Cox No. 1-10 University; drilling 8,707 feet.

REEVES — WTG No. 1-40 Hill; td 3,090 feet; moving out rotary.

Newman No. 1 Rape; td 6,000 feet; flowed 150,000 cubic feet of gas per day, plus 25 barrels of oil and 40 barrels of water in 24 hours, through perforations at 5,222-5,250 feet.

H. L. Brown No. 1-A Lloyd; td 16,660 feet; shut in, waiting on potential.

H. L. Brown No. 3-12 Rape; drilling 5,535 feet.

RUNNELS — Uni Oil No. 1-B Adams; drilling 4,100 feet.

SCHLEICHER — Pennzoil No. 1 Edmiston; drilling 6,748 feet in sand, shale and lime.

Pennzoil No. 2 Edmiston; drilling 4,150 feet in lime and shale.

Amoco No. 1-FF University; td 1,110 feet; waiting on cement; set 8⅝-inch casing at td.

Amoco No. 1-FE University; td 5,750 feet; has been plugged and abandoned.

C&K No. 1 Maddox; pb 16,443 feet; shut in.

Monsanto No. 1 Atkinson-Bunger; drilling 22,070 feet.

Monsanto No. 7-F Bernice; drilling 7,875 feet in lime and shale.

Phillips No. 1-M Mitchell; pb 11,690 feet; shut in.

Phillips No. 1-B Claude; drilling 6,982 feet in lime.

Phillips No. 1-N Mitchell; drilling 3,915 feet in lime.

Estoril No. 1 Monroe; pb 1,912 feet; swabbing k load, through perforations at 1,686-1,702 feet, which has been re-acidized with 3,000 gallons.

H. L. Brown No. 1 CITGO-Neal; drilling 5,937 feet.

PECOS — Getty No. 1 Idol; td 11,837 feet; preparing to test tubing.

Getty No. 1 Skeeter; td 11,671 feet; pb 11,625 feet; preparing to test tubing.

Gulf No. 1 Woolridge; td 11,770 feet; shut in; swabbed 115 barrels of fluid in an unreported amount of time, through perforations at 10,772-11,122 feet, which had been acidized with 20,000 gallons.

Union Texas No. 1 Clayton-Lowe-University; td 8,010 feet; circulated and then it was shut in.

Texas Pacific No. 1 Montgomery-Fulk; td 13,276 feet; circulating.

Highland, Brown, Brock & Equity No. 1 Mitchell-Montgomery; td 11,700 feet; preparing to take four-point test; flowed four million cubic feet of gas per day, plus 1,200 barrels of oil on a 24-hour test, through perforations at 11,310-11,489 feet.

TERRY — American Quasar No. 1-20 Noble; drilling 11,905 feet.

NRM No. 1 Good; td 5,500 feet; still preparing to put on pump.

NRM No. 1-A Hoffman; drilling 1,994 feet in redbed an and anhydrite.

NRM No. 1 Lewis; td 5,500 feet; still waiting on electricity.

TOM GREEN — Boyd No. 1 Keyes; td 4,535 feet; preparing to take a drillstem test.

UPTON — Aminoil No. 1-13 University; td 10,850 feet; preparing to put on pump.

Beach No. 1 Hyatt; drilling 425 feet in shale.

Cox No. 2 Carlton; td 8,450 feet; shut in.

VAL VERDE — Pennzoil, Getty & Tamarack No. 1 Fawcett; drilling 4,323 feet in sand and shale.

WARD — Monsanto No. 1 Kelton; drilling 2,425 feet in anhydrite.

Superior No. 1-P University; drilling 14,488 feet in lime, shale and dolomite.

Superior No. 1-20-18 University; drilling 3,952 feet in lime and shale.

Monsanto No. 1-17-6 University; drilling 3,875 feet in lime.

Hamon No. 1 Sealy-Smith; drilling 8,101 feet in shale and lime.

WINKLER — Rial No. 2-14-A Sealy-Smith; drilling 8,917 feet in shale and lime.

Union Texas No. 1-A-21-12 University; td 19,130 feet; still fishing.

Getty No. 1-42-21 University; had drilling breaks from 12,200 feet to 12,410 feet; 150 gas units increasing to 2,250, good cut, frm. oil on pit; with a 30 foot flare.

PORTABLE MUD PLANT

Has 175 bbl. pit, 6"x5" cent. pump, 1 sk. Hopper, 1 bar hopper, 3 rolling tines. Top is 8'x40' mixing platform. This pit has handled as high as 16.0 lb. workover mud. It's brand new.

Mud Consulting, routine or problem wells

Give Squeeze,
Discount heavy mud,
storage tank rolling,
windmill fixing.

96 oil, gas tests slated in Permian Basin regions

Operators in the Permian Basin Empire of West Texas and Southeast New Mexico last week filed permit applications for 33 wildcats and 63 development tests, for a total of 96 projects.

Railroad Commission District 7-C, San Angelo, recorded nine wildcat sites, District 8, Midland, had seven, while District 8-A, Lubbock, showed two probes.

The New Mexico Conservation Commission reported 10 wildcats and six field tests.

District 8 processed 18 development applications. Development sites planned in District 7-C totaled 30 and District 8-A had six.

The county-by-county tabulation:

County	Wildcat	Field

District 8

Andrews County

Emma (Fusselman) — Rule 37 — OWPB — Getty Oil Co. No. 5-F University, 1,767 feet from north and 330 feet from west lines of section 42, block 9, ULS, 13 miles south of Andrews, 12,463.

Martin (McKee) — OWPB — Shell Oil Co. No. 1 Lockhart, 662 feet from south and west lines of section 22, block A-41, FSL survey, 20 miles southwest of Andrews, 8,899.

Crane County

C-Bar (Tubb) — OWWO — Gulf Oil Corp. No. 10-A Hattie Connell, et al, 1,780 feet from north and 1,880 feet from west lines of section 26, block B-22, PSL survey, 19 miles northwest of Crane, 5,425.

Running W (Tubb) — OWPB — Gulf No. 304 W. N. Waddell, et al, 1,980 feet from south and 660 feet from east lines of section 5, block B-27, PSL survey, 21 miles northwest of Crane, 4,900.

Sand Hills (McKnight) — Lario Oil & Gas Co. No. 3-D J. B. Tubb, 1,980 feet from south and 660 feet from east lines of section 8, block 32, PSL survey, 15 miles northwest of Crane, 4,205.

Ector County

Cowden, North — Rule 37 — Continental Oil Co. No. 116 Wight Unit, 2,200 feet from north and 2,310 feet from west lines of section 22, block 43, T-1-S, T&P survey, five miles east of Goldsmith, 4,350.

Cowden, North — Rule 37 — Continental No. 117 Wight Unit, 2,270 feet from north and 150 feet from west lines of section 22, block 43, T-1-S, T&P survey, five miles east of Goldsmith, 4,350.

Wheeler (Devonian) — OWWO — Sun Oil Co. No. 3 A. E. Wheeler, 660 feet from south and east lines of section 10, block 46, T-1-S, T&P survey, four miles southwest of Notrees, 10,400.

Glasscock County

Wildcat — OWPB — Amoco Production Co. No. 1-B Winnie Powell Cooper, 1,170 feet from north and 1,320 feet from west lines of section 35, block 35, T-2-S, T&P survey, 15 miles northwest of Garden City, 4,000.

Howard County

Iatan, East (Howard) — Chevron USA, Inc. No. 43 G. M. Dodge, 2,375 feet from south and 1,075 feet from west lines of section 1, block 30, T-1-S, T&P survey, eight miles east of Coahoma, 3,100.

Iatan, East (Howard) — Chevron No. 44 G. M. Dodge, 2,425 feet from south and 2,450 feet from west lines of section 1, block 30, T-1-S, T&P survey, eight miles east of Coahoma, 3,100.

Iatan, East (Howard) — Chevron No. 45 G. M. Dodge, 2,150 feet from south and 875 feet from east lines of section 1, block 30, T-1-S, T&P survey, eight miles east of Coahoma, 3,100.

Iatan, East (Howard) — Rule 37 — Chevron USA, Inc. No. 9-5 W. L. Foster, 725 feet from north and 275 feet from west lines of section 7, block 29, T-1-S, T&P survey, eight miles east of Coahoma, 3,100.

Howard-Glasscock — Samedan Oil Corp. No. 31 Chalk, 330 feet from south and east lines of section 94, block 29, W&NW survey, 12 miles southeast of Coahoma, 3,000.

Martin County

Lacaff (Dean) — amended — Henry Petroleum Corp. No. 4-4 Holt, 1,876 feet from north and 933 feet from west lines of labor 4, league 319, Garza CSL survey, 10 miles west of Tarzan, 9,900, (amended well number).

Lacaff (Dean) — amended — Henry Petroleum No. 5-5 Hole, 933 feet from north and east lines of labor 3, league 319, Garza CSL survey, 10 miles west of Tarzan, 9,900, (amended well number).

Midland County

Wildcat (Devonian & Ellenburger) — Texaco Inc. No. 1-B-1 David Fasken, 660 feet from south and 1,980 feet from west lines of section 3, block 40, T-1-S, T&P survey, five miles northwest of Midland, 13,400.

Mitchell County

Westbrook, East (Clear Fork) — HMH Operators No. 3 Clara Shoemaker, 1,980 feet from north and 1,660 feet from west lines of section 29, block 27, T&P survey, three miles northeast of Westbrook, 3,300.

Pecos County

Wildcat — Aminoil USA, Inc. No. 1 Harral, 1,980 feet from south and 1,320 feet from east lines of section 5, block 125, T&StL survey, 20 miles southeast of Fort Stockton, 20,000.

Gandhi refusal to testify spells possible jail term

By SHARON ROSENHAUSE
The Los Angeles Times

NEW DELHI — Former Prime Minister Indira Gandhi was cited Wednesday and now faces six months in jail for refusing to testify about her government's emergency excesses.

"I'm not worried about any punishment," a smiling, confident Mrs. Gandhi said in a brief interview at her home shortly after the Shah Commission lodged the contempt-like charge.

The woman who headed India's government for more than a decade was cited when she would not make a statement before the inquiry panel after its chairman Tuesday ordered her compliance.

Mrs. Gandhi categorically said she would not appeal retired Supreme Court Chief Justice J.C. Shah's order even though her lawyer spent almost two days arguing against such a ruling.

"Why should I appeal?" she said, rhetorically. When asked why she would not appeal she said: "No, No."

Her lawyer, Frank Anthony, had explained earlier: "In the climate of today, we don't expect the courts to give an objective ruling."

Unless Mrs. Gandhi changes her mind, her legal fate and possibly her freedom will be determined by the magistrate who hears the contempt citation. The punishment also carries a fine equivalent to $125.

Some political observers believe that Mrs. Gandhi wants to go to jail, particularly on a noncorruption charge in a bold confrontation with the Janata (People's) party, which defeated her at the polls last March.

When directly asked about that, she laughed and said:

"No, I don't want to go to jail but they're determined to put me away. If they don't have this excuse, they'll find another."

For months, the 60-year-old Mrs. Gandhi has tried to depict herself as a political martyr at the hands of the Janata.

She invariably mentions her arrest last October on corruption charges in cases that apparently were premature and the investigation into her 21 months of emergency rule to make her case.

Indian politicians of Mrs. Gandhi's generation wear their prison records — either under the British or her emergency rule — as badges of honor.

Now the president of a breakaway faction of the once-dominant Congress Party, which she led to its only electoral defeat in 30 years, Mrs. Gandhi has used the Shah Commission as a political forum.

She was allowed to read a long, rambling speech Wednesday in which she did not respond to the 11 specific instances of emergency excesses about which Shah wants to question her.

Instead, Mrs. Gandhi repeated what have become her standard themes: She's a political target, the victim of character assassination who defends her own government and attacks the Janata.

There was polite clapping from the witness enclosure, where some former Gandhi Cabinet ministers awaited their call to testify, when she concluded that the commission "can neither get at truth nor can it ensure justice."

Justice Shah later characterized it as an "election speech or a political speech which should not have been made."
