3 Industrial Board Places To Bates, Randle, Rhode

BY COUNCIL MONDAY

BOND ACTION LIKELY

Look for City Council Monday to set a date for voting on the city's proposed water improvements and street paving bonds.

It will be a special meeting of the council — a follow up to the encouragement councilmen received when they discussed the improvements with a citizens group.

At the same time, interested citizens probably will organize support for the bond proposals.

City Park and Recreation Board members are discovering wide interest in the possibility of a park memorial fund.

The fund has been discussed by board members in their meetings.

And recently they tossed the idea to the public, so to speak, to determine what the citizenship thought.

The response has been encouraging. Apparently, numerous citizens like the idea of a fund to which memorial gifts can be channeled for the permanent development of municipal parks.

Final plans for administering the fund are being shaped now.

The exceptional cold streak is continuing, according to official weather records at City Hall.

For 19 of the first 21 days of January, temperature has dropped to a low of 32 degrees or below.

And freezing temperature was recorded 22 of the 31 days of December. Three more December days were only 1 degree above freezing.

Applications Open for Ag Practices

Applications are being taken now at Agricultural Stabilization & Conservation office for cost-share payments under the 1961 ACP program.

And deadline is near for at least 1 of the practices, according to Wayne Worley, ASC County Office manager.

Worley said applications are being taken now for chiseling, deep plowing, mesquite control, terrace construction and other timely practices.

Feb. 1 is deadline for applications for deferred grazing for the 12-month period.

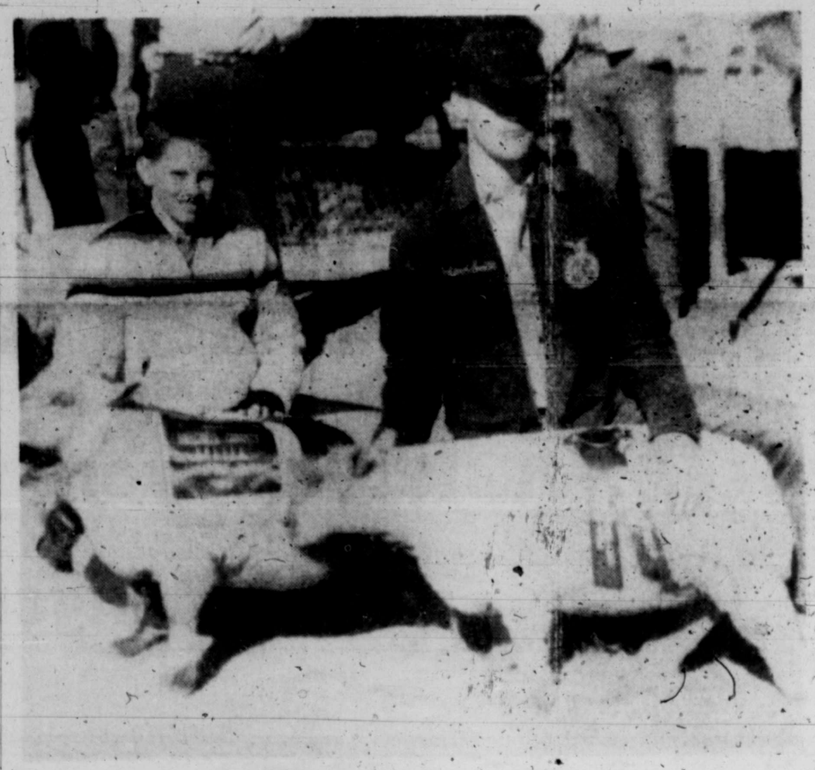

Deep plowing and chiseling practices must be completed by March 15 for cost-share benefits.

To be eligible for any ACP cost-share payment, a person must file application before starting the practice, Worley emphasized.

HERE FRIDAY NIGHT

3 Interviewed for Chamber Position

Three applicants for Colorado City Chamber of Commerce's managership were interviewed here Friday evening.

The series of interviews began at 5 p. m. and continued for approximately 4 hours.

Conducting the interviews were members of the Chamber's screening committee, headed by Dr. Seth Cowan, Chamber of Commerce president.

Two of the applicants appearing before the screening committee were assistant managers from larger Texas cities. The other was from the state of Colorado.

Interviews with the trio were scheduled after the screening committee had studied written applications from prospective managers over a wide area of West Texas.

New applications still are arriving for the screening committee, according to Cowan.

The Chamber's manager position has been vacant for several weeks since the resignation of Rex Felker, who served in the post for more than a year.

Recommendations of the screening committee will be placed before the Chamber's board of directors. And a decision is expected within a few weeks.

Members of the screening group with Cowan are the Chamber's 2 vice presidents, Bob Carver and George Witten; Dr. H. Jene Steakley and Wayne Shawn, Chamber board secretary and treasurer; H. I. Berman, Jeff Taylor and Joe Bell, past presidents of the Chamber.

Cowan has stated that the board plans to fill the manager's post as soon as possible.

837 Citizens Seek Social Security Data

Social Security rights are important in the minds of Colorado City area citizens.

That's emphasized for sure in the fact that 837 residents of this community sought out a Social Security Administration representative for conferences here last year.

These conferences were during the regular visits of the Abilene office representative to Colorado City.

And of the 837 local residents careful enough of the Social Security rights to discuss them with the representative, 189 filed claims for payments.

The number of persons seeking information and filing claims was revealed Saturday by R. R. Tuley Jr., Abilene district manager for Social Security Administration.

The 1960 Amendments to the Social Security Act allow credit for many the credit requirements for being insured (the minimum of six quarters of coverage was not changed), revising the operations of the "retirement test," and making some other important changes, make it important for every person to check with the social security representative if retirement or survivor benefits were denied in previous years because of not having had enough Social Security credits Tuley said.

In the 16 county district served by the Abilene office, there were 6,269 new claims filed in 1960. The traveling field representatives helped in the filing of 4,193 of them during their visits to 19 towns visited at least once per month.

In those visits to the field representatives made a total of 19,249 interviews during 1960.

Such visits are made in the Ranger, Cisco, Eastland, Hobbs, Brownfield, Seminole, Big Spring, Sweetwater, Coleman, Ranger, Albany, Aspermont, Crane, Pecos, Rising Star, Hamlin, Haskell, Stamford, Colorado City, Robert Lee and Sweetwater offices.

P. H. Hudson is supervisor of the Abilene office which visits Colorado City. Next visit will be at the Chamber of Commerce at 10 a. m. Feb. 1.

Park Trees Project Is Extended

City Parks and Recreation Board's idea for Arbor Day tree gifts will be expanded in 2 directions.

Instead of cutting off the project with the usual January Arbor Day date, the board is proclaiming February as "Parks Arbor Month."

At the same time, the board is asking that interested persons donate cash for the purchase of at least 1 large tree.

Already, 65 trees have been planted at Lake Colorado City.

OWNERS HERE WARNED

Boat Numbers Needing More Color Contrast

Local boat owners may need a woman's opinion in choosing the colors for the registration numbers on the hulls, Bob Townsley, director of the Texas Highway Department's Motor Vehicle Division, informed the Record.

"Boat number colors and boat hulls aren't contrasting enough to be readable; that's the problem with many boats in West Texas.

"Too many boats are not numbered in accordance with the Texas law which requires a legible, visible, contrasting number for good identification. The solid-color area of the boat number should contrast strongly with the hull of the boat.

"A good many of the boats we've looked at have white numbers on a white hull and the thin colored border around the number doesn't make it show up."

Three things the Texas boat owner should do after getting his registration number from the Texas Highway Department, Townsley said, is:

1. The solid-color area of the regulation three inch block letters must contrast with the hull of the boat.

2. The numbers should be located on each side of the forward half of the hull, as near to the stem as possible.

3. Between each part of the number there should be a hyphen or a space. Example: TX-1234-AA or TX 1234 AA.

Townsley said the boat-numbering problem was nationwide, and that manufacturers who make boat numbers are helping out by increasing the size of the solid-color area of the boat number to a full three inches.

Local enforcement authorities will give owners of boats whose numbers do not meet the federal numbering specifications until July 1961, to make necessary changes.

The Water Safety Act passed by the Fifty-sixth Legislature gave the Texas Highway Department the responsibility of administrating the Act. Owners who power their boats with a motor in excess of ten horsepower are required to obtain a license. Numbers are issued by the Motor Vehicle Division of the Department.

Townsley stated that 150-000 power boats were registered in Texas, and that registrations on these were good until March 31, 1963.

"The registrations are good," explained Townsley. "Now we want to get the numbers so we can read them. No matter what power rating a boat may carry, it is to the owner's advantage to register his boat. The boat's registration will provide an inexpensive way of quick and positive identification should the craft be stolen or involved in difficulty."

Boat Numbers

The wrong way (top) and the right way (bottom) to mark Texas boats with registration numbers is pointed by Bob Townsley, director of Texas Highway Department's Motor Vehicle Division. Top number, white, offers poor contrast with the light hull. Bottom number (the right way), contrasting sharply with the dark background, has good visibility.

Weekend Guests

Guests in the home of Mrs Gillian McEntire last weekend was her daughter and family Mr. and Mrs. Howard Kenyon, Bill, Carla and Jack from Lubbock.

Also visiting was Alan Lane from Lubbock.

Odessa Trips Wallace for Third Loss

The Wallace Wildcats lost their third game of the year Thursday night in the Wallace gym to Odessa. The score: Odessa 74; C-City 64.

A very large crowd watched one of the most exciting games this year. Although Wallace made the first two points, Odessa led at the end of the first quarter 12-11. The half-time score was Odessa 32 and Wallace 28.

When the third quarter began, Wallace made two quick points. Odessa made the next two. Then the Wallace Wildcats pounced on the Odessa Steers and soon Wallace was eight points ahead. They never relinquished the lead in that quarter and Wallace led 51-47 when the quarter ended.

The Steers of Odessa were not to be denied, however. The Steers' M. Garrett, D. Hammond, F. Norton and R. Hendrix proved too much for the Wallace starters David Miles, Curtis Scott, Archie Joe Biggers, Henry Burton, and Tony Jones.

David Miles and Curtis Scott shared scoring honors making 20 points each. Other Wallace scores were A. Biggers (12), H. Burton (8) and T. Jones (3). High pointer for the winners was D. Hammond. He was also the backboard ruler for the night.

Odessa girls beat C-City girls 49-30, while the Odessa B team triumphed 51-39 against the hapless Wallace B team.

Wallace plays Slaton here at the Colorado High Gym Tuesday night.

Club Women Present Program

Mrs. Wright Hock and Mrs Francis Winn presented the program on "Exercises for Firming Muscles" at the meeting of Spade Home Demonstration Club Wednesday in the home of Mrs. Herman Salley.

Next meeting has been scheduled for Feb. 2, 2:00 p. m., in the home of Mrs. Robert Bolin.

LOSE TO BIG SPRING

Freshmen Falter In Final Quarter

Colorado City's freshmen lost a close one to Big Spring's Goliad Mavericks by a score of 38-44.

Goliad took a lead early in the first quarter. In that period the Mavericks overwhelmed the Wolves 13-4.

C-City fought back in the second quarter. The Wolves added 14 points to their score and held Big Spring to 9.

After the half the Wolves began to rip the nets. Led by Dale Walker, the Wolves pulled up even with their opponents to make the score read 34 all at the end of the third quarter.

Only the Mavericks defense stopped the victory minded Wolves, who were only able to make 4 points. Goliad, however, found scoring a bit easier. They managed to add 10 points and a sweet victory.

Dale Walker led the futile assault with 14 points, 4 field goals and 6 from the free throw line.

DON'T SEND THEM AWAY

. . . let 'em work for us a while longer

It doesn't take a great MANY dollars to keep the wheels turning in a community like ours . . . but it does take dollars that are CIRCULATING in the local trade channels.

A GONE DOLLAR . . . gone to some other trade area . . . does not merely cost us $1 of lost trade volume . . . instead, we lose the UNTOLD value of that dollar's continued activity in our midst.

FOR every time a dollar turns over again in this community, it gives us another lift toward better jobs and business opportunities for all of us . . . better schools, churches, and other civic facilities.

We can get far more for every one of our dollars . . . In material and social benefits . . . if we keep them at home where they can work for us . . . instead of sending them away to start working for somebody else.

Miss Billie Ewell Becomes Bride of Jimmy Underwood

Miss Billie Jane Ewell became the bride of Jimmy Underwood Thursday night in the home of the bride's parents.

The bride is the daughter of Mr. and Mrs. Dawson Ewell, 981 E. 14th St.

The groom is the son of Mr. and Mrs. Clifford B. Underwood of Big Spring.

Rev. C. B. Underwood, father of the groom, read the double ring ceremony before 2 baskets of white gladioli with red streamers.

The miracles performed by electricity in rural areas today would put the Arabian Night's Genie to shame. The flip of the switch can accomplish work that once took hours. The twist of a dial can provide comforts unheard of just a few years ago.

Rural people borrowed money at interest to build their own electric systems and make these miracles possible. They are paying back principal and interest on these loans while providing a steady dependable supply of electricity.

The Electric Cooperatives are building a brighter tomorrow through rural electrification.

SUNDAY THROUGH WEDNESDAY

Palace to Show "Butterfield 8"

Elizabeth Taylor plays the most daring, down-to-earth and dramatically powerful role of her career in "Butterfield 8," Metro-Goldwyn-Mayer film version of the widely-read novel by John O'Hara.

Also starred in the topflight cast are Laurence Harvey, who won an Academy Award nomination for his brilliant work in "Room At the Top," and Eddie Fisher, with Dina Merrill co-starred.

"Butterfield 8" tells the story of Gloria (Miss Taylor), whose traumatic experience as a child has left a permanent scar. Living by her own twisted tangle of rules, she had always thought love was the biggest lie since men and women were invented. That is, until she meets Weston Liggett (Laurence Harvey), married to Emily (Dina Merrill), whose devotion he cannot return but who gives him something he very much wants — a cloak of respectability.

The attraction and tie between Gloria and Liggett is a stormy, emotional one, a relationship which brings both hurt and happiness to themselves and others. But through it they are able to bring out into the open the violent inner turmoil of hidden conflicts which has blighted their lives, until their story is resolved in a taut and gripping climax.

Eddie Fisher, in a warm and sensitive portrayal, enacts Steve, young pianist friend of Gloria, the only person whom she feels really knows and understands her and in whose Greenwich Village apartment she often takes refuge.

Others in pivotal roles are Mildred Dunnock, Betty Field, Jeffrey Lynn, Kay Medford and Susan Oliver.

"Butterfield 8" was filmed in CinemaScope and color entirely in New York City and its surrounding areas, with scenes shot on location in Greenwich Village, Fifth Avenue, Stony Point, Elmsford, Larchmont and Long Island.

A Pandro S. Berman Production, it was directed by Daniel Mann from a screen play by Charles Schnee and John Michael Hayes.

Five of these trees were donated this week by Colorado City Garden Club.

By extending the tree project throughout February, the park board is hopeful that more and more citizens will donate trees and shubbery—or cash—for park plantings.

Persons desiring to make donations of trees, shrubs or cash should contact City Manager Earl Keaton, according to Mrs. Austin McCloud.

Trees to be given the lake park should be hardy types—like cottonwood, poplar, elm, hackberry and non - bearing mulberry, she said.

Mrs. Roxie Witten to End 30 Years of Service

Career of one of Colorado City's most experienced salespersons will terminate Jan. 31.

Retiring from the local J. C. Penney Co. staff will be Mrs. Roxie Witten, who has worked in the store for the past 30 years.

Fellow employes honored Mrs. Witten Wednesday night with a surprise dinner in the home of the store manager, Bob Ridley. Associates presented her with a gift and Ridley awarded her with a 30-years service plaque.

Mrs. Witten first began work for Penneys in October, 1931. The store was located in the same place it is today. It was then under the management of E.R. Bibby, for whom Mrs. Witten worked for almost 20 years.

Mrs. Witten was asked some of the differences in the store and customers today than of the period when she first began work.

"When I first began work, it was quite a bit different than it is today. When someone came into the store, I knew they wanted to buy something. It wasn't very often that people came to town in those days, and if they did you knew they came to purchase what they needed."

"Today, people have more time to spare. They come into the store to look around and see what merchandise we have. Probably they have something in mind but they want to compare several items in different places before buying."

"Yes, I think customers are friendlier now than they were then," Mrs. Witten replied to one particular question. "I think probably what I will miss most from my work will be associating with the many friends I have made working with the public—both customers and employes."

Mrs. Witten plans to work in her home and yard at 128 W. 4th St. upon retirement. She will continue to work at Penneys on weekends and holidays, she smilingly told the Record.

The retiring saleswoman is the mother of two sons, George and Lee, and grandmother of four children.

George Witten is co-owner of Craddock-Witten Ford Service and also of Craddock-Witten Insurance Company.

Lee Witten is a faculty member at Friona High School. He has been residing in Friona since his graduation from McMurry College in Abilene last year.
