Prizes of \$50 and \$25 are being offered for the two best floats. Riding in the cart pulled by the pony will be Susan Norfleet and Ricky Hall. Both riders will be dressed in blue and white, and decorations on the pony and cart will also be in the Mustang colors, advertising the give-away.

The pony will be presented at half-time during the Olton-Mule-shoe game here October 18. Donations will be used to buy new uniforms for the Mustang Band. Tickets are being sold by all band parents.

Immediately following today's parade, the Band Boosters will be stationed in the bandstand on the Plainview square to sell tickets. They will be assisted by the twirlers. Mrs. Garland Long is in charge of arrangements for the Olton float.

Olton Farm Supply Announces Coming Dog-Dunking-Day

Saturday is dog-dunking-day at Olton Farm Supply.

Dogs will be dunked free of charge in a solution of Purina mange control and insecticide. Olton Farm Supply will give attendance prizes and souvenirs of the occasion.

If Mother Nature continues to be generous with her warm, dry sunshine, ginner and grainmen concur that harvest may get into full swing in ten days to two weeks.

To Thursday, however, only 189 bales of cotton had been processed at the five local gins, and less than 3½ million pounds of grain had been weighed in at elevators here.

Last year at this date, gins serving Olton had produced 7,119 bales of cotton. At the same period in 1955, however, only 69 bales had been ginned.

The consensus is that the cotton is good.

Grainmen say the moisture content of the grain already in is "about right," but in general the hybrid grain is not nearly dry enough.

Olton's resurgent, "new look" Mustangs journey to Hereford Friday night to tangle with Hereford's tough AAA Whitefaces.

The locals, confident, eager and aggressive as a result of their 13-7 upset win over arch-rival Hale Center last week, will nonetheless enter the game as underdogs.

Hereford, paced by their great Halfback Jim Cutsinger, smashed Tulsa's improved Hornets 37-20 last week as the lanky Whiteface halfback scored all his team's points in a brilliant outburst. The Hereford team, coached by Jack Harris, is fast, hard running, and schooled in the razzle-dazzle split "T" offense.

Joe Turner's scrappy Mustangs rode past favored Hale Center last week on the heels of ram-paging Jack Straw, whose scintillating opening kickoff return paved the way for the upset punch. Olton's hard charging line reduced the vaunted Owl passing attack to the bare minimum, and the locals devastating downfield blocking provided the springboard for several crucial runs.

The two squads are win-minded, and the contest shapes up as a real slap-bang, rib rocking fracas.

Horace Cates Begins Third Year At Firm

Horace Cates is beginning his third year at Olton Cleaners and has announced that he will give away a suit of clothes the last day of October in observance of the occasion.

In the past two years, Horace has increased the floor space of his plant almost one third.

The most recent innovation at Olton Cleaners is a new cleaning solvent called Napoleom S-100. It is advertised as being one of the best solvents for cleaning on the market anywhere. Also among the items added at the cleaners is a new pressing machine.

Olton Cleaners employs four people. They are Lester Thompson with 17 years of experience as silk finisher; Osborne Brown with 10 years of experience at spotting and wool presser; Rudy Gloria as wool presser and machinery operator; and Mrs. Evelyn Gallaway as clerk.

Nearly 20,000 Lunches Served In September

Mrs. Ray Slatten, school lunchroom supervisor, announces that 19,569 lunches were served during the month of September.

This covers a period of 21 school days, with an average of 950 students and teachers eating in the lunchroom daily. This average tops last September's by about 50, Mrs. Slatten says.

Lunchroom participation at the Bohner Chapel School is up 400 percent over last year, Mrs. Slatten declares, with about 40 students eating in the lunchroom daily.

Of the 19,569 lunches served last month, 915 of them were sent to Bohner Chapel.

Poteet Discusses Two-Allotment Plan Proposed By Plains Group

A two-allotment plan for cotton growers as proposed by the Plains Cotton Council was explained to Olton Lions Club on Tuesday by Bob Poteet, field worker for that group.

Mr. Poteet explained that one allotment would be for domestic consumption and under the proposal would be supported at 90 percent of parity.

The cotton grown under the other allotment would be for the world market.

He said that under the plan, all the cotton would be sold at the world market price with the government making a compensatory payment for that grown under the domestic allotment.

Cotton grown under the export allotment would be subject to a loan three percent less than the world market price.

Mr. Poteet pointed out that this plan would cost the government less money, make more money for the farmer and aid American agriculture in recapturing the world market.

He said a bill providing two cotton allotments already has been discussed in committee and is expected to be reported out early next session. He said it has received bi-partisan support.

Reveal Prospects For Bringing New Industry, Farming, To Olton Area

With membership leaping from 37 to 64 in a week's time, the Olton Chamber of Commerce and Agriculture now boasts a yearly pledge budget of \$5,058—60 percent of the declared potential of \$8400.

Members this week also turned up "very good prospects" of a cannery and a cucumber acreage for future Olton.

Of the 64 members, 45 are businessmen, comprising only one-third of the 120 business houses in Olton. The other 19 members are farmers and individuals. Membership goal is 145.

Directors point out the share of agriculture in the plans of the chamber. They invite the farmers to "let us know what you want, whether you join the organization or not."

They also emphasize that the plan is long-range; that dues do not begin until Jan. 1, 1958; they are now seeking only pledges. Dues are assessed according to size and type of business, and vary from \$2.00 a month to \$15.00 a month.

The organization is now set up on a temporary basis, with Don Williams as president and Russell Grimes, secretary. However, research and investigation of other organizations in the area, as well as possibilities for Olton's permanent organization, are exhaustive, and include securing a full-time manager some time in the future.

Officers and members expect to attain their goal in the very near future.

HC School Land May Be Leased For Oil and Gas

PART I—ENGLAND

The highlight of Lena and Raymon Carson's trip to England recently was the visiting of famous landmarks.

They saw Shakespeare's Stratford-Upon-Avon where Shakespeare Memorial Theater, Shakespeare's School and Gild Chapel, The Parish Church of Holy Trinity, Shakespeare's birth place, Anne Hathaway's cottage, all are.

Lena and Raymon visited and toured famous places such as Oxford University; Churchill's summer home (a huge castle); Warwick Castle; Nuneaton Castle; the city of Chester; the boy's school in Eton; Cathedral of the Church of England; Windsor Castle; Buckingham Palace; West Minister Abbey; Timms River; London Bridge; St. James Park; the Tower of London; and Pickadilly Circus.

English Food

One of the things Lena vividly remembers is the English food. "Their food is very poor. They use very little seasoning for flavoring and the taste is terrible!" She said that the cafes never serve water and that the bread was always very cold and hard.

"The English have tea every day at 11 and about 3 o'clock—our guide would stop to drink his tea then," Lena recalled. "I soon learned to call for 'squash' (which was an orange or lemon soda pop)." She said that for the English people to be such tea drinkers, they made "horrible tea."

Beautiful Countryside

Lena's eyes sparkled as she described the countryside of England. "It was beautiful—very green valleys, sheep, speckled goats (I'd never seen speckled goats before), Hereford cattle, and flowers everywhere."

They were harvesting grain when the Carsons were there. Old people were in the corners of the fields gleaning grain. "We didn't see a wood house in England—all their homes are stone or brick," she went on to say, "and they used every little bit of land they have." She said their farms were small.

Tour Delegates

The Carsons were among 24 delegates of the Reorganized Church of Jesus Christ of Latter Day Saints to take a "friendship

tour" of Europe. They left New York on July 27.

While they were in England, they were entertained with socials and parties and dinners at the different Latter Day Saints Churches there.

Lena's picture appeared in the Manchester newspaper. Her picture was taken by the press at a dinner at the Manchester church. The "friendship tour delegates" were entertained with an old-fashioned dinner—blood and trap.

The group attended a world meeting of the church in London where they met one of the church presidents, F. Henry Edwards, "a well-known writer of America and a friend of the Carsons." President Edwards has visited in the Carson home here in Olton.

Next, the group crossed the ferry at Dover to Belgium.

A little boy forgets lots of things in two years; but he never forgets a beloved teacher from the first or second grade.

Stanley Coxwell, who is a fifth-grader now, has been in Japan for 26 months with his mother and soldier daddy. When they came back to Olton this week to visit and renew acquaintances, Stanley was pretty bored with the whole experience.

Except for one thing. As they drove by a certain house he exclaimed:

"Mother, there's where Lou and Pete Tompkins used to live!"

And Stanley came to life then, because Lou Tompkins was his second-grade teacher here.

Turn-about's fair play. Don Williams and Mardema Ogletree believe it even applies to business.

Couple of years ago when Don quit the band-directing business for the insurance business, Mardema proved her faith in him by being his very first customer, his first policy-buyer.

Now that Mardema's opening a book business, Don made a special point to be her very first customer, her first book-buyer.

Amazing to me how Sandra and Huck Nichols maintain their "position" in this community when they've lived away so long. They're still just as familiar and popular as ever, it seems.

Also amazing to me is that in the same half hour one of our neighbors can moan about hard times, he's packing up to take off for a vacation, just about his THIRD this year.

Everyone's holding his breath with each new day's dawn about now, hoping for another day of good old hot sunshine. Not enough money in the whole community to buy one day of this bright heat for our cotton.

LOAN COTTON

The services of an approved cotton warehouse are essential to the Government loan program. This company has always cooperated with the Government and the farmers in making the loan available to our customers. We have served this territory for 25 years. The loan when offered by the Government has always been available to the farmers in this territory and no customer has been forced to sell his cotton on a distress market because of the lack of the services of a qualified warehouseman.

CONTRIBUTION TO THE COMMUNITY

We are glad to be a part of each community served by these compresses and warehouse plants. These facilities not only serve the farmer, the ginner, and the cotton merchant directly, but they also render a real public service, in the maintenance of substantial local payrolls, and the payment of city, school, and county taxes; thus contributing to the general public welfare.

**WE WON, WE WON, WE WON
BY GOLLY, WE WON!**

This was the happy chant of OHS students after the Olton Mustangs defeated the Hale Center Owls Friday night. Students were jumping up and down, hugging each other, and patting the football boys on the back. I wonder if happy is the word to describe this mood. Oh well, is everybody happy? Well, yes!

Crowning of the pep squad king was nice. All of the boys looked nearly good enough to hug, and maybe, just a little embarrassed.

Don't you feel sorry for those unfortunate people who gave up on Olton winning a football game. They didn't attend the game at Hale Center Friday night; therefore, missed a very good game.

Orchids and Onions Department
ORCHIDS by the bunches to the football team and the coaching staff.

ONIONS to all of those who didn't support the football team.

ORCHIDS to all the class officers.

ONIONS to all of the colds that are making the rounds.

ORCHIDS to the band and pep squad.

ORCHIDS to the ones chosen to be annual king and queen contestants.

Here's hoping everyone enjoyed the assembly that was sponsored by the Student Council Wednesday. The singing was fun. Our thanks to Mr. Duward Price.

Well, the contest is on! The annual king and queen contest, I mean. Everyone buy your annual from your class representatives. Let's be loyal lemons. (Don't ask me what that means!)

Congrats to Martha Johnson and Neilan Smith who were married Sunday. We are sorry to lose our head cheerleader, but here's wishing her all the best in her new role.

Ellen Jones is making a very good head cheerleader, don't you think?

A few of those together Saturday night were Jimmy Robbins and Juanelle Andrew; John Paul Jones, Darryl and Ronnie Dennis; Houston Hamby and Sharron Dennis; Sherrill Alexander and Doniece Silcott; Jerry Fancher and Judy Ogletree; Kent Wozenchaft and Judy Moore; Elmer Houston and Sharon Porter.

Is everyone happy over your pictures? I guess mine were OK but I've seen better. Right now the question of the day seems to be: "May I have a picture of you?"

Ugghh... Six weeks tests next week. It seems that we have just started school, but here it's already time to have those old six weeks tests.

Koenia Schenck and Jimmy Mann were together Tuesday, Friday and Saturday nights of last week.

Some of the cars around here seem to be able to hold "just one more!" I'm sure that as many as ten have been in some of the cars I've hopped into.

This must have been one of those cars that I was talking about earlier: Janice Campbell, Jane Thurman, Joyce Gray, Judy Lacewell, Deeda Kemp, Charlotte Gibson, and Nell Smith rode around Olton Sunday afternoon.

Judy Ogletree and Jerry Fancher were together Sunday night.

Noticed several college kids home last week-end, Teddy Jack Estes was here from Texas A & M.

Mustangs Pluck Owls 13-7

COACH HOSS BYERLY yells encouragement to his embattled Owls Friday night at Hale Center. The Owls are shown here

in the act of ramming across their lone tally of the ball game. The Owls converted and held a 7-6 edge at that point but Joe

Turner's Mustang would not be denied. They scored seven more points and their first victory of the season.

Jack R. Straw Runs Back Opening Kick for First Olton Mustang Tally

The Olton Mustangs, fired up by Fullback Jack Straw's opening kick-off return, upset favored Hale Center 13-7 last Friday for the locals first win of the present campaign.

The always-tough Owls, perennial giant-killers, were favored in every quarter at game time, but Coach Joe Turner's crunching single wing attack provided more than Hoss Byerly's hosts could handle.

Straw electrified the capacity crowd by racing back 83 yards through the bewildered Owls to score. His conversion attempt was wide.

Hale Center, a rugged group of opportunists, lost little time in getting back in the game as Fullback Cannon spearheaded a 63-yard drive. The versatile Owl fullback climaxed the march by blasting over from two yards out to deadlock the count, and Quarterback McNameys placement gave the Owls a 7-6 advantage.

The Mustangs drove to the Hale Center's one before half-time only to fumble away the scoring threat.

Midway in the third quarter, the Mustangs held a deep Owl thrust on the five with a gladiator-like stand, and after an exchange of punts, Straw broke over right guard and scampered 50 yards to score behind perfect blocking. Straw's conversion was good this time to wind up the scoring at 13-7.

Although the scoring was completed, the thrills were still abundant. The Owls held Olton on downs inside the 10 yard line three more times in the third and fourth periods, and Hale Center nearly pulled their foot from the grave on a last second, 50-yard desperation pass play.

Quarterback James Ray Hyatt and Straw combined efforts to make the game-saving tackle on the Mustang 10 yard line as the final gun sounded.

It was definitely a team victory for the Mustangs as the line blocked sharply and defensive play was vicious.

Quitaque Panthers Claw Longhorns 32 to 0 In One-sided Tilt Friday Nite

Quitaque Panthers scored twice in the first six minutes of play and went on to beat Hart Longhorns 32 to 0.

The first time the Panthers had the ball, Thomas Phelps ran 52 yards for a touchdown. Intercepting a Longhorn pass, Murry Wise dashed 20 yards for a TD. As the quarter ended the Longhorns were on the move. Early in the second quarter, Hart moved 80 yards to Quitaque's eight, but fate stepped in as the Longhorns fumbled with the Panthers recovering.

The last play before the half, the Panthers reached pay dirt again on a pass from Felix Johnson to Phelps. As the first half ended, the Panthers lead by a score of 19-0.

The third quarter was scoreless with Hart having two drives stopped on the 14 yard line and the 18 yard line.

In the fourth quarter, the Panthers roamed again as they scored on a 12-yard run by Johnson and a 60-yard run by Phelps.

Boys seeing action for Hart were Ends Ronnie Farris, Nick Zapata, Jerry Varner; Tackles Ronald Clark, Jerry Kittrell, John Lacy; Guards Pancho Rubalcaba, Darrell Dunham, Bob Bowden; Center Joe Webb; Halfbacks Gene Varner, Connard Riddles, J. D. Myrick, Bob Dunham; Fullback Edgar Byrd; and Quarterback Johnny Hindman.

The Longhorns start their district play tomorrow night as they invade Bovina.

CHANGE TO SHAMROCK
10 W-30 MOTOR OIL NOW
AND PROTECT THE LIFE
OF YOUR CAR'S ENGINE
AND BATTERY

The development of Shamrock 10W-30 Motor Oil is based on the fact that the typical passenger car engine operates most of its useful life in the temperature zone between the cold start and normal operating temperatures.

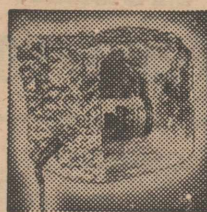

All oils thicken as temperature decreases. The difference between Shamrock 10W-30 and conventional oil is that it thickens less at low temperature. The effect on your car's performance is important.

When you change to Shamrock 10W-30, the improvements you'll notice immediately are: (1) that even on the coldest mornings the engine will turn over quickly and easily, and (2) a marked increase in gasoline mileage.

These advantages are the most obvious, but not necessarily the most important. Frictional wear in the engine takes place at a very high rate during the first few strokes when starting an engine with little or no lubricant on the cylinder walls. 10W-30 reduces this wear, flowing quickly... replenishing the oil film. At high temperatures a thicker lubricant does a better job of keeping metal surfaces apart. Accordingly, 10W-30 being thick

at high temperatures gives your engine full protection at this end of the temperature range, too.

With Shamrock 10W-30 in the crankcase you will: (1) extend the life of your car's engine, (2) extend the life of your battery, (3) increase gasoline mileage and (4) reduce the octane requirement. We don't claim miracles for it, but you probably will.

QUALITY YOU CAN MEASURE BY YOUR CAR'S PERFORMANCE

Saunter With Sue

BY SUE MAY

Tell me why—
It is that when you're writing news stories, the regular kind that is, that you have to stick "straight to the facts" and when a sports writer writes he all but makes up the story!

Don't know for sure, but been reading a little of the sports pages lately.

The stories in Monday's paper went something like this:

"Driving his stripped-down hot rod and keeping time to the song 'Don't Be Cruel', Old Man Upset drove into the High Plains last Friday night and as the result, various coaches and experts have a new supply of aspirins to relieve the numerous headaches caused when the dope buckets were upset."

And, "The flu bug, which has been busier than a mustard paddle at a weiner roast, helped send the Childress Bobcats down to defeat."

Also, "Old Man Upset waved his crooked cane in the direction of the Canyon Eagles also Friday night."

And, "Michigan State hurled platoons of fresh backs in relays and overran Indiana for a 54-0 victory."

Oh well, that's sports and I'll never understand the "whys" of sports writing and have no real desire to, so . . .

Rushing to the office; rushing out to eat; rushing back, rushin' home, down the rushin' street; rushin' up and rushin' down, rushin' in and out. Say, what's all this rushin' fer? What's it all about?

Rushin' after money, rushin' after fame, climbin', pushin', shovin'. It's a dizzy game. Step-pin' on each others heels—"Let me by!" "Look out!" Say, what's all this rushin' fer? What's it all about?

What's the use o' rushin'? Let us loaf a while, watch 'em push, run and grab. We'll jus' set and smile. As they scramble down the road, gaily we will shout: "Say, what's all this rushin' fer? What's it all about?"

Olton had very few June and summer brides. Wonder why?

Usually that's when the wedding march seems to be the most popular song! Having more brides this time of the year instead. (Could be because Pop's cotton is looking so good—he's the one who foots the wedding bill isn't he?)

An Australian was trying to impress a visiting Texan with the wonders of Australia, but was having little success. Just then a kangaroo went hopping by. Drawled the Texan: "Ah'll grant you one thing, that's for sure. Your grasshoppers are bigger'n ours."

Landlords Must Sign Loan Papers

A total of 33 Grain Sorghum loans have been processed through the Lamb County ASC Office, by last Friday according to Lamar D. Aten, Jr., manager.

Aten states that all producers who are renters, in bringing their warehouse receipts to the ASC Office for the purpose of securing a grain loan, should be accompanied by their landlord, who is also required to sign the loan papers. In the event this is not convenient the renter may call at the ASC Office previous to applying for the loan and pick up an A.B. Lien Waiver and secure the landlord's signature to this document.

Aten further explained that in case the warehouse receipt reports tenant's part of the grain the landlord is not required to sign the loan papers.

The ASC Manager also stated that not only does the landlord have to sign the loan papers, but any lienholder against the grain crop; and that the reason for these releases is that the Commodity Credit must hold the first lien against the grain.

"A second thought
on first aid"

We're constantly amazed at the number of children who cut, scrape and bruise themselves within sight (and sound) of our pharmacy. We do a big business in antiseptics, bandages, and other first-aid items. Same everywhere, probably. But sometimes we wonder if people don't depend too much on first aid—neglect proper medical attention. If there's the slightest question in your mind following what appears to be minor injuries, see your physician. First aid has definite limitations. You can only be sure of proper medical care by seeing your doctor. A prompt visit can save a half dozen later.

MR. AND MRS. JIM COXWELL

Japanese TV, Maid Service Enhance Two-Year Japan Stay for Coxwells

How would you like a maid to do all your housework and make breakfast for only \$20 a month? There's a hitch, of course. You'd have to live in Japan.

Jim, Hazel and Stanley Coxwell afforded just such a "luxury" for the 26 months they spent in Japan; but they're glad enough to be back home in the United States, maid or not.

The Coxwells were in Olton this week seeing old friends and catching up on events. Jim is a chief warrant officer and was with the adjutant general corps from February, 1955, to last month. Hazel and Stanley joined him in July of 1955, via the USS Freeman. The ship trip took 12 days.

They took their refrigerator, washer and automobile with them, and moved them each time they were transferred.

"Everything was pretty good over there," Hazel muses. "We missed the people over here most of all. Some of the Japanese have gone Western in their clothes and customs, but about half of them still wear kimono and live in bamboo huts."

While Jim was stationed at Camp Whittington, the Coxwells lived at Kumagaya, about seven miles away, in "private rental." Their four-room-with-bath apartment was stateside built, with all the comforts of home USA.

At Gotemba, near Camp Fugli where Jim was transferred in February, 1956, however, they lived semi-Japanese style. Parts of their house had wood floors, while others were only straw mats.

"There was snow on Mt. Fuji the year around," Jim said. "Though we didn't spend a winter there, it really gets cold. Our summer was very cool. We never did even use an electric fan."

"We got good Japanese reception on TV," Hazel smiles. "But they didn't have many programs in English. They had American-filmed shows, like Superman and Mighty Mouse, but they put voices to them in Japanese."

"It was real funny one time. They were showing Superman, and forgot to turn on the Japanese voice, so we heard a little bit of it in English."

Hazel, who worked at Olton Drug here for several years, was a housewife most of the time. However, one summer she worked with youth activities for GI children, and at another time taught typing at Camp Fugli for 12 weeks.

Like other US personnel, the Coxwells did most of their buying at the PX and commissary.

"We could get just about anything we wanted," Hazel explains. "There really isn't anything we missed too much."

She adds, however, that beautiful silk and cotton drygoods were available on the Japanese market, and that they had end-of-season sales just as we do.

The last part of their tenure in Japan was spent in government quarters in Washington Heights, Tokyo.

The Coxwells attended church at the base chapel. Stanley went to American school, of course, and had both Japanese and American playmates. He learned more words in Japanese than his mother and daddy.

He even belonged to the Little League baseball team, and was a catcher for this summer's

champions. "All kinds of toys were available," Hazel declares. "For such a low price! Stanley wanted everything he saw, of course."

The Coxwells flew from Tokyo to San Francisco September 21. They had shipped their car ahead of time, and drove on to Texas. They plan to leave Monday for El Paso house-hunting and enrolling Stanley in school. Jim will attend guided missiles school at Fort Bliss for about a year.

13 Students In OHS Stage Band

Thirteen OHS musicians comprise a stage band being organized by Fred Stockdale, director. The band will play for special occasions and assembly programs.

Jerry Meyer, first trumpet; Jimmy Mann, second trumpet; Ronnie Kidd, third trumpet; Joe Miller, first trombone; Lester Hines, second trombone; Ronald Fancher, third trombone; Bill Austin, bass.

There will be drums in the band, Mr. Stockdale says, but a drummer has not yet been selected.

BABY ILL

Sherry Burgess, young daughter of Mr. and Mrs. Fred Burgess, has been ill this week.
