Austin. — A drastic plan to overcome the state's shortage of physicians will be presented to the 1969 Legislature.

Proposal will come from the Coordinating Board, which is responsible for administering public education in Texas beyond the high school level.

Their multi-pronged program would include doubling first-year enrollments in existing state medical schools in Galveston, Dallas and San Antonio — to a minimum of 656 freshmen by 1980 — and giving tax subsidies to the Baylor University College of Medicine in Houston so that it can educate as many doctors for the state as it does privately.

Then, if the Legislature agrees, a new state medical school would be established in the Texas Medical Center in Houston. Also Texas Tech would be authorized to start planning for a West Texas medical school, using the facilities of the Amarillo Medical Center and the expertise of Lubbock, Midland and Odessa hospitals.

"Should the need for the establishment of another additional medical school develop in the future," the Coordinating Board said, it will consider putting one at the University of Texas in Austin.

Meantime, all medical educators will be urged to explore possibilities for clinic and post-graduate capabilities in medical centers in El Paso, Temple and Tyler.

To be considered also is the dental shortage. A new state dental school is proposed for San Antonio, as well as tax subsidies for the Baylor School of Dentistry in Dallas. If Baylor can't help, then expansion of the UT Dental School in Houston will be considered.

To meet North Texas' growing educational needs, a college for junior, senior and graduate students is proposed in Dallas; acceptance of Southwest Center for Advanced Studies — to be renamed The University of Texas for Advanced Studies in Dallas; a "federation" of North Texas State, Texas Woman's and East Texas State Universities to upgrade the quality of programs; and upper-level colleges for Houston, Midland-Odessa, and Corpus Christi, in addition to a 4-year college in San Antonio.

Campaign statements, as well as current ones, made by Gov-

elect Preston Smith and Lt. Governor Ben Barnes indicate that they will lend strong support to the recommendations.

WATER PLAN SET — Texas' long-term, multi-billion - dollar water plan — four years in the making — will be unveiled at a public meeting here on December 17.

Texas Water Development Board Chairman Mills Cox announced the ceremony to explain the final version to top state officials, legislators, river authority, water district, conservation and city interests.

Long-range plan — estimated to cost \$3.7 billion for full implementation — was revealed in preliminary form on May 30, 1966.

During the two years that followed, it was subjected to public hearings and criticisms all over the state. Most criticism came from West Texas which felt it had been shortchanged by planners. Two years' work went into the proposals before the tentative draft was completed.

Backbone of the mammoth plan is a 980-mile system of lakes, channels and conduits to transport water from areas of surplus in East Texas to parched South Texas.

SCREWWORMS GALORE — Texas confirmed 4,400 screwworm cases during October, compared to 4,219 in Mexico, 75 in Arizona, 29 in California and 11 in New Mexico.

To combat the disease, 456,086,000 sterile flies were dropped over Texas. Mexico got 432,254,000, Arizona 50,590,000, California 8,300,000 and New Mexico 9,534,000.

Still, a joint report of the Texas Animal Health Commission and the U. S. Department of Agriculture said there were no cases of scabies nor no suspicious outbreaks of hog cholera in Texas during October.

LEASE SALE SUCCESSFUL — School Land Board's last oil and gas lease sale of the year added \$2,197,314 to the Permanent School Fund, bringing the total in that fund to \$782,672,731.

Board leased 49,868 acres at an average price of \$44 per acre. Atlantic Richfield was the high bidder, with an offer of \$186,782.40 on Marginal No. 411 covering 1,440 acres in the Gulf of Mexico, Jefferson County. Atlantic Richfield also had the second highest bid, \$149,818.40 for another 1,440-acre tract in Jeffer-

son County.

Land Commissioner Jerry Sadler, who also is chairman of the School Land Board, expressed satisfaction with the average price per acre.

COURTS SPEAK — Supreme Court agreed in a little-publicized Nueces County case that Texans retired under company pension plans cannot promptly establish eligibility for unemployment compensation without making diligent search for work.

Court spelled out rules for court appeals from Railroad Commission orders on oil and gas pooling operations. Rejection of application appeals can be filed only in Travis County. Appeals of pooling arrangements approved by the Commission can be brought in county where the land is located.

Supreme Court found no reason why district judge should not order a new trial of the case involving a \$1,724 jury verdict favoring a Dallas Negro in his suit against loan companies for usury.

Reversing earlier decisions, High Court held a San Antonio firm which furnished concrete for a new apartment complex was an "original contractor" would could not recover losses from an insurance company bond surety of project owner.

Third Court of Civil Appeals overturned a district court and concluded that Austin Savings and Loan Association can open a branch office in San Marcos despite local firm claims of too much competition.

Appeal of Ben Z. Grant of Harrison County for certification as a justice of the peace, though county commissioner moved to abolish the office, will be heard by Supreme Court.

CRIME ACT PUSHED — Governor Connally slated regional meetings in Houston, San Antonio, Fort Worth, San Angelo and Lubbock to explain the new omnibus Crime Control and Safe Streets act of 1968 which will make a total of \$830,000 in federal funds available to the state.

Governor also named six county and city officials to assist with submitting initial application for planning funds by December 19. International Association of Chiefs of Police will serve as consultants on preparation of application to U. S. Justice Department. Glenn Murphy of ICAP has been assigned to assist the governor's office.

Predict Holiday Traffic Death Toll 33 Persons

Austin. — A warning that 33 persons may die in traffic accidents in Texas during the Christmas and New Year's holiday periods was issued to day by Col. Wilson E. (Pat) Speir, director of the Texas Department of Public Safety.

Speir said the DPS will activate a special "Operation Motorcade" in an effort to remove unsafe drivers from the roads and lower the holiday traffic death toll. As part of this program, all available DPS officers will be on duty during the two holiday periods. In addition, Speir noted that the Department will make full use of radar, helicopters, and VASCAR as enforcement aids to officers.

"Operation Motorcade will be in effect from 6 p. m. Tuesday, Dec. 24 to midnight Wednesday, Dec. 25, and from 6 p. m. Tuesday, Dec. 31 to midnight Wednesday, Jan. 1," Speir said. "DPS Statistical Services estimates that 19 persons will be killed in traffic accidents in the state during the Christmas period, with 14 fatalities estimated for the New Year's period," he added.

VASCAR, which stands for "visual average speed computer and recorder," is a computerized device carried in some Highway Patrol cars which enables the patrolman to accurately clock speeders moving in any direction, even while the patrol car is in motion.

Deadline Nears Filing Transfers

Farm operators in Red River County were reminded today that applications for the transfer of cotton allotments for the 1969 crop should be filed no later than December 31, 1968.

Clyde Mitchell, Chairman, Agricultural Stabilization and Conservation County Committee, explains that notices of the cotton allotment and the projected yield for individual farms have already been mailed to county farmers, so farm operators now are in position to make their production plans for next season.

In Red River County, growers voting in a special referendum earlier this year, failed to approve transfer of acreage allotments—by sale or lease—out of the county, so the transfer of allotments locally may be made from one farm to another only within Red River County. In no case may allotments be transferred to another farm outside the State.

Transfers of allotments between farms within the county and from a farm owned to a farm operated by the same individual are not subject to approval in a referendum. However, it is necessary that such transfers of allotments be filed with the county ASCS office before the December 31 deadline.

The December 31, 1968 deadline, therefore, applies to all transfers of 1969 cotton allotments for Red River County farms—whether by sale, lease, or the owner.
