Beards, Gay Nineties Attire Spark Loraine's Celebration

Loraine is beginning to take the "old-timer look" with beards and Gay Nineties attire in full fashion now.

Plans for Loraine's Golden Jubilee Celebration Sept. 21-22 are in full swing, according to Mrs. Wilmon Tartt, jubilee chairman.

Invitations are to be mailed soon to all old-timers who have moved from the Loraine area.

Committees for the celebration met Friday night to compile a list of old-timers, Mrs. Tartt said.

Residents in this area will not be sent invitations, but anyone knowing of an old-timer who has moved from the Loraine area is asked to contact Mrs. Tartt or one of the committee members.

Saturday was the first day for appearance of the Gay Nineties fashions, according to Mrs. Jack Coffee, chairman of the jubilee costumes.

Beards are being grown for the celebration's beard-growing contest. Persons not growing a beard are being taxed $2 for a shaving permit or $1 if they grow only a moustache.

A variety show, which will also include presentation of prizes for champion beard growers, is scheduled for the jubilee's opening night, Sept. 21, in the Loraine High Auditorium.

Coronation of the jubilee queen will also be held at the variety show. Mrs. J. C. Hall, Jr. is chairman of the queen contest.

A race track will be cleared north of Loraine across the railroad track and horce racing will follow the jubilee parade Friday afternoon.

Marshall Bruce of Loraine got right into the full swing of the jubilee celebration last Saturday.

Bruce, who has grown a heavy, full beard, came into town with a red handkerchief around his neck, a straw sailer hat worn in the early 1900's and minus his false teeth.

Bruce walked down the streets, taking up collection.

He was seized and placed in "jail" but was released when the collection was turned over to the jailer for the jubilee fund.

Mrs. Tartt announced several other committees had been appointed to work in the celebration planning.

They are T. R. Bennett, Clyde Smith and Mrs. L. W. Rhodes, invitation committee; Mrs. Frank Crownover, antique committee; Bob Looney, chairman of horse racing committee with Stanton Hutchins, M. A. Dunnahoo, Bruce Byrne, Forrest Porter and T. J. Riden assisting him.

AND HIGHER PAY

Survey Says Three Policemen Needed

Colorado City's recent traffic survey by the National Safety Council reveals the need for more and better paid policemen here.

The safety survey revealed that Colorado City is lagging behind the top towns in traffic safety, and as one of the recommendations for improvement, the survey listed a need for more policemen.

It recommended that three officers be added to the force and that recruits be selected through written examinations.

And it recommended that pay scales for policemen be raised to compare more favorably with those in other cities of comparable sizes.

The top 30 per cent of the cities checked by the Council have a beginning monthly salary for police officers of $295.00.

Colorado City's starting salary for policemen is $255.

And it recommended that the low conviction rate for accident arrests be examined and effort made to improve it toward the recommended 95 per cent.

The Council recommended that all patrol vehicles be equipped with two-way or better radio systems and that policies governing traffic operations be in writing.

The Council was alarmed at the high rate of jay-walking in Colorado City.

They recommended that pedestrians be held accountable for dangerous acts just as motorists are, by arrest and conviction for traffic law violations.

The survey made mention that you wouldn't dare jay-walk in Dallas, Fort Worth or Houston, but we do it at home and plenty of people are killed jay walking.

In the line of driving while intoxicated the survey said that chemical tests for intoxication should be expanded in use to cover all driver-intoxication suspects.

25c OVER THE GOAL

Cancer Fund Drive Raises $1,700.25

Mitchell County Cancer Society's fund drive has gone over the top.

The drive which ended this week raised $1,700.25, exactly 25c over the goal of $1,700, according to the Society publicity chairman, Mrs. Gerald Gordon.

The fund drive, which began June 28, was headed by the Cancer Society President Frank H. Kelley.

County Attorney Frank Ginzel is vice-president.

Miss Nancy James, district supervisor of Cancer Control, organized the zones and zone captains for soliciting funds in the county.

She was assisted by Miss Sally Tharp.

Zone captains were Mesdames J. H. Moore, C. P. Gary, Bob May, L. B. Elliott, A. L. McSpadden, C. C. Myers, Gerald Gordon, W. R. Powell, Jimmy Henderson, Fred McKay, George Witten, Bob Robinson, Tom Grant, Tom Burrus, Charles Wakefield, R. P. Bates, J. C. Womack, W. P. Jarman and K. L. Taylor of Loraine.

Other zone captains were Darrell Hulme, Manuel Rivera, Joe Earnest, S. A. Walker and T. W. Daughtrey.

Approximately 150 persons aided the zone captains in working the blocks in residential areas and communities in the County.

Educational leaflets listing the seven danger signs of cancer were left at each home.

Citizens are urged to fight cancer with a check-up and a check.

Kelley expressed his appreciation to the citizens for their cooperation in putting the drive over the top.

Gregory, Thompson Win Run-Offs; Yarborough Beats Daniel Here 2 to 1

Mitchell County voters favored the incumbents in the August primary election, Saturday, returning to office Sheriff R. E. (Dick) Gregory, Jr. and County Commissioner Sam Thompson.

Gregory defeated Lawrence Powell by a 258-vote margin—1,718 to 1,460 as more than 3,000 voters went to the polls.

Thompson whipped Bodine by a 302-vote margin—1,277 to 975 votes.

In the race for Governor, Mitchell County voted in favor of Ralph Yarborough by more than 2 to 1 margin.

Yarborough polled 2,136 votes to Daniel's 1,016.

In the race for State Attorney General, Mitchell County voters gave Will Wilson more than a 2 to 1 victory over Tom Moore. Wilson gathered 2,030 votes to Moore's 1,008.

Lieutenant Governor Ben Ramsey polled 2,969 votes running unopposed.

Bascom Giles, former land commissioner now serving a prison term at Huntsville, received four write-in votes for lieutenant governor.

Receiving write-in votes for governor were Bob May of Colorado City, one, and W. Lee O'Daniel, two.

* * *

In the hotly-contested sheriff's race, Gregory—elected for a four-year term—bested Powell in every precinct except Loraine.

Loraine voters favored Powell by a margin of 306 to 198.

Gregory won at the largest voting box—the Courthouse—by a vote of 888 to 735.

At the Legion Hut, Gregory had 206 votes to Powell's 170.

Westbrook, the fourth's largest voting box in the county, was heavy for Gregory with 145 to 67.

* * *

Thompson also elected for a four-year term—led Bodine in three of four boxes voting on the Precinct 1 race.

Thompson led at the Courthouse, 912 to 707; Legion Hut, 257 to 116 and absentee, 76 to 65.

Buford, Bodine's home community, favored Bodine by a 87 to 32 margin.

* * *

Yarborough — who carried Mitchell County two years ago—won in every box in the county except Cuthbert where Daniel polled 42 votes to Yarborough's 27.

In absentee voting, both candidates received 89 votes.

Daniel led Yarborough in the July Primary here but the picture changed Saturday with Yarborough receiving the nod from county voters by a 1,120-vote edge.

A look at the County's two largest voting boxes gives an indication of Yarborough's strength here. At the Courthouse, he led 1,068 to 543 and at the Legion Hut 275 to 98.

A total of 3,178 votes were cast, only two shy of the 3,180 cast here in the July Primary.

A wooden fence caught fire in the alley behind the residence of Mrs. Joe H. Smoot, Sr. at 3:40 p. m. Friday.

Only two planks were burned, firemen reported.

At 7:50 p. m., a small chicken house caught fire on a farm owned by Joe Earnest. The farm is located east of the Snyder Highway.

OVER 300 REGISTER

Old-Timers Sing, Dance, Talk At Annual Reunion Thursday

Old-Timers recalled the days of old, listened to "fiddle-playin" and danced a few rounds at the annual Pioneer reunion Thursday in the Civic House.

The Old-Timers Reunion attracted more than 300 persons from this area and other parts of the state.

They looked at old pictures and albums, viewed western movies, and ate barbecue at lunch.

Presentation of awards highlighted the annual affair.

Mrs. H. P. Allmond, 90 years of age, was judged the oldest person present. She came to Texas in 1874 from Arkansas.

James (Uncle Jimmy) Sherwin, 82, was honored as the person who had lived in Mitchell County for the longest period of time. He came to Colorado City in 1882 at the age of eight.

A little 11-week-old girl, daughter of Mr. and Mrs. Ben Ellett of Falfurrias, was judged the youngest pioneer present.

Mrs. Etta Landers, 80, was recognized as the oldest person present who had attended all of the meetings.

Mrs. Landers was the first present of the Old-Timers Association.

Mr. and Mrs. R. A. Hood won the honor of being the oldest married couple present. They have been residents of the County for 55 years and have been married for 61 years.

A mock "hangin" was staged for the benefit of the pioneers.

Characters included Phil Orman, who supposedly stole a horse from Dewitt Hardin, portraying Billy the Kid.

Orman was caught by the Sheriff, portrayed by Jay Jackson and brought before Judge Roy Bean, portrayed by Huse Shurtleff.

Hardin accused Orman of stealing the horse and Orman whipped out his gun and "shot" Hardin.

Judge Bean ordered the "corpse" moved out of court and fined the "corpse" for disturbing the peace.

He then ordered Orman hung for horse stealing.

Mrs. Bruce Byrne portrayed Orman's wife, pleading for his life, but to no avail.

Other features of the reunion included group singing, led by Arthur Kelly, square dancers and pantomines by Jerry Jamison of Silver.

Each pioneer and guest registered as they entered the Civic House.

Pioneers who came to the county before the turn of the century are:

Mrs. Jack G. Smith, 1888; R. F. Gregory, Sr., 1898; Martha Earnest, 1889; Bert Wulfjen, 1885; Mrs. Lucy Cook Henley, 1897; Mrs. Chas. Mann, Sr., 1883; Mrs. Hunter Looney, 1888; J. W. Shepperd, 1882; R. L. May, 1891; Mrs. H. C. Landers, 1884.

THROUGH FHA OFFICE

Mitchell Placed On State Hay Program

Mitchell County has been placed under the emergency hay and roughage program for Texas.

The announcement was made Saturday by John M. Russell, Farmers Home Administration county supervisor here.

Russell received the notice from Walter T. McKay, State FHA director.

Applications to participate in the hay and roughage program will be received by county Farmers Home Administration committees immediately at the FHA office located here over the Max Berman Dept. Store, Room 204.

The hay and roughage program was worked out between the Governor and the Secretary of Agriculture to provide emergency assistance to farmers and ranchers in the state's designated disaster counties.

Under the program the local county FHA committee will determine each applicant's eligibility and will issue a certificate good for $7.50 per ton on roughage actually purchased, according to Russell.

The applicant will then apply the certificate on the purchase price of the roughage from any dealers he chooses.

The dealer endorses the certificate and draws a draft on the emergency drought committee's account.

Applications may be filed through Dec. 3 for a supply of roughage needed to last through Dec. 31.

Roughage under the program includes hay either baled or loose, cotton seed hulls, peanut hulls, corncobs, sorghum bundels or ensilage.

Dwindling Water Threat to Stock

By John C. White, Agriculture Commissioner.

A major problem facing many Texas livestockmen in the face of prolonged drought is that of providing and maintaining sufficient water to keep their herds going. Even the problem of feeding emergency rations is not generally as serious as a dwindling water supply, although the two go closely in hand.

Recent studies on livestock water intake, designed to help the stockman know more nearly how to gauage his water supply, may be of considerable help in borderline areas where water is neither plentiful nor too short to sustain animals.

Factors most closely affecting animal water consumption are feed and weather. Livestock naturally require more water in warmer weather, and also take in water in near-direct proportion to the amount of feed consumed.

In a pinch, the stockman's best chance of cutting water rations in half is simply halving the feed allowance. This would have to be done gradually and with particular care to see that the animals lose no weight but at least maintain that which they already have until the emergency period is ended.

Never, in the case of lactating cows, should the feed-water cutback be used if possible, since it would result in a production decline that might not be regained during the milking period.

Cutting feed alloweances of steers in fattening lots to conserve water is usually safe, although a sharp reduction may mean a long time required to get them back on full feed once the water shortage is over.

The following illustrations show how water intake can vary with feed and air temperature differences:

A 1,000-pound animal on maintenance rations—neither gaining nor losing weight—will consume 4 gallons of water a day when the temperature is 40 degrees, 6 gallons at 70 degrees, and 9 gallons at 90.

The same animal gaining the normal pound-a-day on the range requires 7 gallons of water a day at a temperature of 40 degrees, 10 gallons at 70 degrees, and 17 gallons at 90 degrees.

With such information at hand, the stockman with a water problem might overcome some of his troubles at a time when saving his herd is impreative.

Texas Farm Income Down 12 Per Cent; Deer Herds Holding Up Despite Drought

Texas farmers' cash income was 12 per cent lower during the first half of 1956 than during the comparable period in 1955, the University of Texas Bureau of Business Research reports.

The mid-year comparison shows $571,925,000 was the total income for January-June 1956, against $648,920,000 for January-June, 1955.

Decreases were recorded for nine of the 17 major commodities: flaxseed, down 83 per cent; wheat, 75 per cent; oats, 48 per cent; cotton, 22 per cent; cattle, 19 per cent; eggs, 14 per cent; mohair, 12 per cent; calves, 11 per cent, and wool, 1 per cent. Combined decreases in cotton and cattle meant a loss of $66,652,000 from last year.

Gains were registered by peanuts, up 37 per cent; poultry, 19 per cent; fruits and vegetables, 18 per cent; corn, 17 per cent; grain sorghums, 15 per cent; milk and milk products, 12 per cent, and sheep and lambs, 9 per cent. There was no significant change in income from hogs.

Prices received by farmers for all products in June stayed at approximately the same index level as in May, or 4 per cent lower than June 1955.

The fact that prices are running only 4 per cent below last year, while income is averaging 12 per cent less indicates that farmers are taking less to market, the Bureau points out.

Texas farmers will receive more than 23.8 million as payments for land placed in the soil bank acreage reserve program. Bob Cherry, extension economist, says that a total of 63,672 agreements were signed in Texas before the July 27 deadline.

Under the acreage reserve program, farmers are paid for each acre of land retired from the production of basic crops up to a specified percentage of their allotments. The program is designed to aid soil improvement and reduce surplus production, points out Cherry.

Farmers of the nation have signed agreements covering approximately 10.7 million acres while the 63,672 agreements signed in Texas cover 1,970,235.3/10 acres. The 3/10 of an acre represents the acreage taken out of tobacco.

Cherry says 14,708 wheat agreements covering 1,066,390 acres and with payments expected to reach $6,193,574 had been signed in Texas.

Texas cotton farmers signed 49,322 agreements put 865,654 acres of cotton allotments into the acreage reserve and if they comply with all program requirements, can expect to receive $17,020,420 in government payments.

Peanut producers of the state signed 3,195 agreements covering 33,905 acres for which they will receive $396,415. Only 74 acreage reserve agreements were signed by rice growers in Texas on 4,286 acres on which they will receive $219,487.

The single tobacco grower by reducing his allotment by three-tenths of an acre and putting the reduction in the soil bank will receive $102.

The economist said the largest number of acres put under acreage reserve agreements was in the Panhandle district and in the districts immediately to the south and east of the Panhandle. Extension district 8 in central Texas and district 10, south-central, were other areas of heavy sign up.

Scorched-earth ravages of the unprecendented drought have imperiled deer herds in the drier areas but the Director of Wildlife Restoration for the Game and Fish Commission said the whitetails are surviving in surprising numbers.

In fact, he said, berries, tree leaves and other natural food are maintaining the deer so incredibly that "green stuff incidental to ordinary early fall rains would put the fleet animals in pretty good condition for the November hunting kickoff."

The Director quoted reports from Wildlife Biologist Bob Ramsey stationed in the main deer range along the Edwards Plateau that currently some areas provide substantial nourishment in the form of mesquite beans and wild persimmons.

"Field men report that we had some fawn losses in the drier areas where food was insufficient to maintain mother does' milk," said the Director. "Yet, as in the case during all dry periods, the principal fawn enemy—the screw worm—has been practically nonexistent this summer."

"This blight which creates a high mortality rate among fawns during wet seasons is caused when flies infest the navel tissue. The fly responsible does not reproduce well in hot dry weather."

Lack of water, according to the Director, has been "very hard on the deer." He said the shortage has been more acute since deer movements are so restricted. On some ranches, deer in one pasture perish from sheer thirst although adequate tanks existed on adjoining pastures. Of course, a pasture in the nomenclature of the open ranges, could mean a field of many thousand acres.

Biologist Ramsey, whose headquarters is in the Kerrville area, pointed out that there is a bumper crop of shinoak leaves in parts of his territory. These are very palatable and contain considerable nourishment.

Ramsey exphasizes the food values of mesquite beans and persimmons. "Where they exict," he reported, "deer can manage to exist until the fall mast crop develops.

Ripe persimmons are very high in sugar content and help keep the animals in good flesh. The recurring availability of persimmons, as the green fruit provides a constant stock of ripe persimmons, is a great mainstay for the deer in late summer."

The Director of Wildlife Restoration said the wild turkey situation in the Hill County "is pretty discouraging." "It looks like most of the ranchers will go light on turkey leases," he explained, "since it is a touch and go situation to preserve our brood stock."

To Safeway Customers

As a result of our strike last week on our Garland Warehouses, we began arranging new supply sources for more than 100 Safeway Stores. This changeover was accomplished after working day and night, and as we had hoped, with little or no inconvenience to you — our customer. Our stores are open, well stocked, and ready to serve you.

Bargains For Safeway Customers

You will find unusual bargains in every Safeway Store NOW. The change-over from our usual supply has caused a huge surplus of some items to accumulate in most stores . . .we're marking the price down on these items — they're not the same in each store, but in every Safeway Store you will find BARGAINS – BARGAINS – BARGAINS. Look for them on our shelves, in our meat and produce departments, and on our special displays.

Safeway's Promise To You

We promise you that we will do our level best to continue giving you the kind of service to which you have become accustomed at Safeway.

Color, Color, and More Color

Nowadays, products of every kind seem to be coming out in more colors than the rainbow. You see the advertisements for these products in magazines, and you see them in stores and shops around town. Yes, everyone is "going to color."

The telephone company is, too. Our new color telephones come in eight bright colors to blend or contrast with the color schemes in your home, office, or store.

And that means a double advantage for you. Because if you've been thinking about ordering an extension telephone, why not ask for one in color? You get extra convenience with an extension, and color adds a touch of good looks to your home or office.

You can select from among ivory, green, beige, yellow, red, blue, gray and brown.

Just call the telephone business office, or stop in next time you're in the neighborhood. The cost is $1.00 plus a one-time installation charge of $1.25.

Brighten Up Your Weekend

Summer weekends are times for mowing the lawn, puttering around the house, and relaxing a bit. Or maybe you like to golf, prune the flowers, or just keep cool. At any rate, summer weekends are always perfect for "get-togethers" with family or friends.

For many of us, family or good friends are just around the corner or up the block.

But if members of your family or old friends are miles away, you can still count them in on your weekend get-togethers — with a Long Distance call. And hearing their voices again adds to your weekend fun.

Why not call this weekend? Rates are lower all day Sunday, and after 6 p.m. on weekdays. And when you do, call by number—it's twice as fast.

Cartoons Tell A Story

We see cartoons from time to time of the man calling home to tell his wife he'll be late for dinner. As she hangs up the telephone, she races to pull dinner out of the stove.

Maybe the moral of the story is to call your wife if you're going to be late. Otherwise, you'll be eating a burnt dinner.

At the telephone company, we read between the lines and see that the telephone "saved the day" once again. Actually, the telephone "saves the day" many times each day as we count on it more and more to save us time and steps.
