## Local Firm Gets Contract For Erection Of New Jail

### Justice Halted

Heavy wheels of justice ceased grinding in Superior Judge Doran's court, Los Angeles, in order to give a repentant mother time to wean her baby before going to jail on a bad check charge. The judge gave Mrs. Mary Gude, 32, above, two weeks time in which to teach her child to eat so the latter would not have to go to jail with her.

### H. H. Shell And Son Bid Of $49,448 Successful

UNDERBIDDING the nearestcompetitor by $172, H. H. Shell and Son, Lubbock general contractors, Monday afternoon were awarded contract for the building of the new county jail.

Shell's bid was $49,448. Also this firm allowed the county $12,050 for the materials of the old jail. Shell's nearest competitor, D. N. Leaveton offered a bid of $49,620 for the general contract.

**Local Firms Successful**

Total cost of the jail will be $113,992.

All equipment contractors chosen by the court represented Lubbock firms, except those making bids on elevators and prison steel.

Successful equipment contractors and their bids were: plumbing and heating, Roche Newton and company, $16,602; electrical, DeWitt Electric company, $2,444; jail steel, Southern Prison company (San Antonio), $50,331; kitchen equipment, Sherrod Brothers, $2,630; and elevators, Otis Elevator company (Dallas office), $4,587.

**North Of Federal Site**

The building, which will replace the old jail already razed, will be erected on the northeast quarter of the county courthouse lot. It will be immediately north of the old jail site, which is to be occupied by a federal building.

Plans for new jail structure, drawn by S. B. Haynes, Lubbock architect, provide for a three-story fireproof building of about 85 x 53 feet in size. It will be capable of housing 100 prisoners.

Other general contractors placing bids before the County commission's court and there estimates were: D. N. Leaverton, $49,620; J. B. Maxey, $53,731.46; W. G. McMillan, $51,260; and W. S. Moss, $50,998.

**Total Cost $113,992**

The total cost of the jail will amount to $113,992. With approximately $32,000 in the jail fund it will be necessary for the commissioner's court to issue warrants for the rest of the cost.

"The building is costing us a little more than expected," Judge E. L. Pitts said Saturday. "But the commissioner's court could not see how any part of the jail could be cheapened without ruining the whole structure. It will be a well-built prison, and one that will last."

"We could have chosen no better time in which to make this expenditure. Both materials and labor can be secured at a bargain," Judge Pitts stated.

### "Go 'Way"-Taxes Halt Even Police

(By Associated Press)

CHICAGO, March 16. — "I need," said Mrs. Gunnar Anderson over the telephone to a police sergeant, "your help."

"What," asked the sergeant, "seems to be the trouble?"

"It's my husband," she replied. "He hasn't been home for 18 hours. We have called and called his office but have not been able to get a reply. The children are asking for him. Can't you do something please?"

"We'll try," said the sergeant, with which remark he sent out a squad of officers to his office. There, in a back room they found him. He was bending over his desk. Surrounding him were piles of paper. Nearby lay the debris of several lunch baskets.

"Go 'way," he said. "Don't you see I'm trying to get this income tax report done in time."

## Texas Tech To Get Money For More Building

### Appropriation Of $28,650 Is Passed By Legislature For Erection Of A Power Plant At Local School

A bill appropriating $28,650 for the erection of a power plant Texas A. Technological college passed both houses of the state legislature Monday afternoon, according to word received by college officials from Senator Pink L. Parrish.

Texas Tech has already had $20,000 set aside by the legislature for the building of a power plant, and the added appropriation now makes $48,650 available to the college. Tech authorities had asked for $60,000.

The new power plant will be an addition to the present plant, which lies immediately north of the textile engineering building.

No new steam conduits are being contemplated and the appropriation is expected to be entirely expended in the power plant building and its necessary equipment, college authorities stated Monday afternoon.

Dr. Paul W. Horn, president of Texas Technological college, said that he considered the appropriation due to the untiring efforts of Pink L. Parrish, state senator from this district.

## Utilities Again Come Under Fire

AUSTIN, March 16. (AP) — Rep. Pope of Corpus Christi introduced a bill today aimed at regulation of public utility companies.

The bill would make it unlawful for utilities to make any charge, directly or indirectly, in excess of charges made for power consumption as shown by meter readings. It would be unlawful for one utility company to acquire any shares or certificates or other rights in any other corporation to lessen competition. The bill also would prevent any city from giving an exclusive franchise to a public utility and courts and cities would be prohibited from refusing to grant a franchise because establishment of another utility would produce competition to some utility then in existence.

### *Redistricting Bill Is Voted Out Favorably By Committee*

AUSTIN, March 16. (AP) — The house committee on congressional districts tonight reported out favorably the Metcalfe congressional redistricting bill.

Rep. Penrose B. Metcalf of San Angelo is author of the bill.

The vote for a favorable report was 16 to 0.

## Scout School To Be Opened

### Registration Of More Than Thirty Expected By Time Course Begins Tonight At Methodist Church

A scout leadership training school will be opened under auspices of the South Plains Area Boy Scout council at 7:30 o'clock Tuesday night in the basement of the First Methodist Episcopal church.

Fourteen men and older boys had been enrolled in the course to Monday and a total registration of 30 or more for the school was expected, according to D. T. Jennings, area executive of Lubbock.

**To Organize Patrol**

Students in the course, which is an elementary one, will be organized as patrols at the first meeting and patrol leaders will be chosen. The class then will be organized as a troop.

## Local Program Is Attracting Hundreds Here

### Representatives From Widely Scattered Sections Arrive In Lubbock To Take Part In Annual Market Week

BY J. SAM LEWIS
Avalanche Staff Writer

Coming from the Oklahoma Panhandle on the north to the Texas and Pacific main line on the south, and from the Pecos valley on the west to beyond "no-man's land" along the Texas-Oklahoma border on the east, hundreds of buyers, men and women, are here for the third semi-annual market week sponsored by the Lubbock Chamber of Commerce and retail groups.

Eighty firms are represented in the week's program of display. They have space at the local hotels, Lubbock and Hilton, and representatives from vice-presidents and sales managers on down to district salesmen, are showing their lines to customers and prospective customers.

**Many Here Monday**

Fair weather and good roads Monday enabled a good many out-of-town people to drive here for the visit. A few came by train but for the most part they came by car, two or three from a town, some with the family and others alone.

Women constituted a big majority of the buyers. They came, looked over the stock, gave close inspection to the way the goods were made and then placed their order.

"This pre-Easter flurry is helping us a bit," one salesman declared. "Of course, business is not what we would like it to be, by far. Nevertheless, I can see a turn upward and we are selling more than we would if we did not have this East-

### *Communists Delay Return To Dallas; Money Not Received*

KANSAS CITY, Mo., March 16. (AP)—C. J. Coder and Lewis Hurst, communist organizers, tonight delayed their return to Dallas, to testify before a grand jury concerning their alleged abduction and flogging, explaining they had not received promised expense money.

Communist headquarters said a telegram had been received from George C. Edwards, their Dallas attorney, saying he was wiring transportation money, and that the men would leave for Texas when the money was received, probably tomorrow.

## Manpower Replaced By Machinery But Ford Says Employment Now Plentiful

BY REX SAFER

FORT MYERS, Fla., Mar. 16. Where there are machines, there must always be work for must always be work for men, says Henry Ford.

This theory is responsible for the automobile manufacturer's belief that increasing replacement of men by machinery can never work toward unemployment, he disclosed today.

"The world is coming to a point where machines will do the greatest part of creative labor," he said, "but because of this, men will not be thrown into idleness."

Continued advent of machinery transfers the center of human effort, he explained. At one time, men labored with their hands directly toward creative work.

Now, with machines to perform many of the functions of such labors, manpower still is necessary to build the machinery and to direct its operation.

Every kind of human work is turning, because of metal and motors, to centralization of effort and production, he continued. Everything that pertains to mass production, or which can be envisioned as a subject of mass production, eventually will be done by machinery.

Not even the farmer — the man who used to till 40, or 80, or 160 acres— is exempt from the advent of the machine, Ford said.

"There are no more farmers of that type," he said. "Farming nowadays is a great industry, centralized in nature and mechanized in fact. The day of the small farmer is gone."

## Death Follows In Vice Trail

### Mysterious Death Of Third Victim In New York City's Vice Investigation Is Revealed By Police

(By The Associated Press)

NEW YORK, March 16.—Death following the trial of the city vice investigators has claimed its third victim.

Georgia Gray, 25, dancer and witness against members of the police vice squad, died supposedly of pneumonia in Bellevue hospital Saturday, police revealed today. The body of the titian haired beauty was identified by an investigator of the district attorney's staff. Circumstances of her death were so suspicious, the authorities said, they ordered an autopsy and search for poison in her vital organs.

**Bruises Are Mystery**

Shock caused by news of the beauty's death was intensified by the mystery of certain bruises reported to have been found on her body and said by hospital authorities to have been received before she was admitted under the name of Viola Simth.

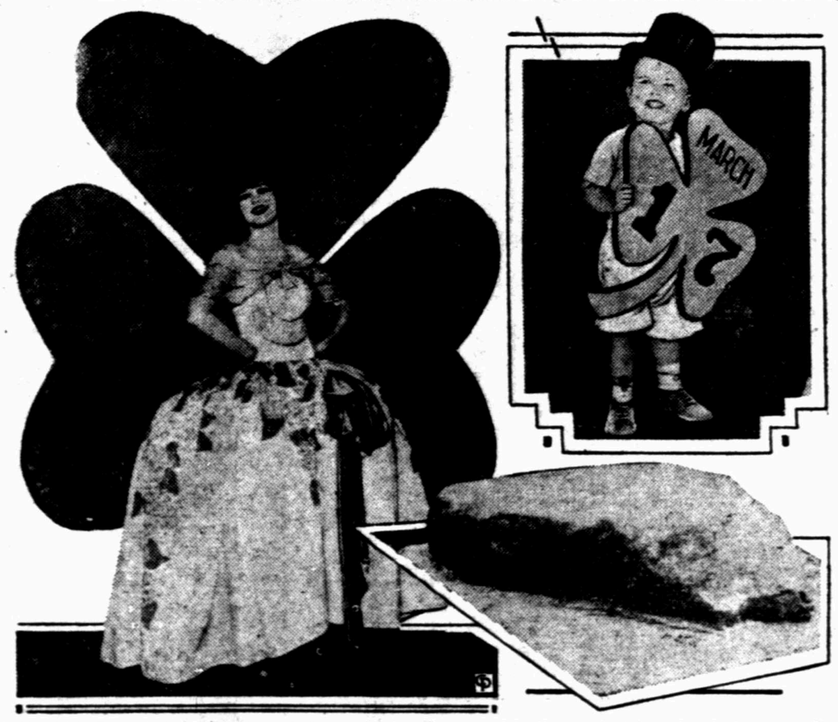

With the strangling of Vivian Gordon unsolved and the tragic suicide of the 16-year-old daughter, Benita Bischoff, resulting from revelations brought about by her murder, the death of Georgia Gray threw the vice investigators into a new flurry of excitement.

### *Cotton Co-Op Directors Have Been Called To Meet Tuesday*

DALLAS, March 16 (AP)—Harry Williams, general manager of the Texas Cotton Co-operative association, said today several directors of the association had been called to attend a special meeting here tomorrow.

He would not discuss plans for the meeting, but it was understood there would be discussion of chages made by Lawrence Westbrook of Waco concerning operation of the association. Westbrook resigned Saturday as Texas representative of the American Cotton Cooperative association.

### Shure! Irish Eyes Are Smiling—'Tis Shamrock Day

St. Patrick's Day—and the wearing of the green—has become virtually an American institution as well as Irish. Here we see Miss Dorothy Knapp, famous Broadway beauty, all dressed up for the occasion; Sunny McKean, of the movies, decked out in a bit of green, and the grave of St. Patrick at Downpatrick, Ireland. Downpatrick was the seat of the ancient kings of Ulster and the residence of Ireland's patron saint. Each March 17 sees more green displayed.

## New Outbreaks Are Disclosed In Leadership

### California Senator Declares That "Something Is Wrong Somewhere," And Calls Attention To Reverses

(By The Associated Press)

WASHINGTON, March 16.—Fresh outbreaks against the leadership of both republican and democratic organizations were heard today on Capitol Hill.

Senator Johnson, republican, California, warned the republican critics of the recent conference of political independents that "something is radically wrong somewhere." He called attention to the party reverses in the last election.

**Asks Repudiation**

At the same time Representative Ayres, veteran Kansas democrat, issued a statement calling for a repudiation of the plan of Chairman Raskob for a state liquor control plank in the democratic platform.

Deploring a division of the democrats on prohibition at this time, Ayres insisted this issue be disregarded in the platform and added:

### *Spontaneous Combustion Cause Of Small Fire Last Night*

Spontaneous combustion was thought to be the cause of a fire in a vacant building located at 1216 Texas avenue late Monday night.

No damage was done. Neighbors smelling smoke turned in the alarm, though no flames were sighted. It was not until considerable search had been made by the fire department that several greasy rags were found smoldering in a corner.

These rags had evidently become ignited by spontaneous combustion, firemen said.

### *Are You Irish?*
### If So, Don't Forget The Green Today

IMITATION shamrocks and ribbons of green were worn by a thin scattering of Lubbock residents Monday and a few shops displayed holiday goods in anticipation of this St. Patrick's day.

Tokens commemorating Ireland's apostle and patron saint were expected to be more conspicious today on coat-lapels, dress-fronts, and hats of youngsters and oldsters alike.

"You're the first Irishman I've seen today," one son of the Emerald Isle greeted another Monday.

"I'd forgotten — I must get something," he added, half apologetically.

March 17 was set aside as St. Patrick's day because it was believed to have been the date of the death of the monk in 493 at Saul Downpatrick.

### *International Highway Under Discussion At Panama City*

PANAMA CITY, March 16. (AP)—An international highway which would link the United States with the Panama Canal zone was planned here today at a meeting of the Inter-American Highway commission. Delegates participating in the discussion came from the United States, Panama, Costa Rica, Gautemala, Honduras, Nicaragua and the Canal Zone. Columbia sent an observer.

The highway, which when completed would stretch 3,500 miles, would open up to modern transportation some of the almost impenetrable regions of Costa Rica and Nicaragua. The commission will recommend a route, type of construction and other details.

## Spring Season Officially Ushered In At Unveiling Here Monday Night

SPRING, and all that it means, was officially ushered into Lubbock and the South Plains last night in a city-wide fashion party which was attended by thousands of citizens of the entire section.

Festivities of the evening began sharply at 7:30 o'clock and continued for approximately three hours. With Lubbock high school Westerner band and the Texas Tech Matador aggregation furnishing music, amusement for the occasion was not in the least lacking.

Sidewalks of the business district were filled with curious throngs of people, brought here by announcement of the event appearing in the Morning Avalanch and Daily Journal. And windows of local merchants blazed with light, displaying to the huge throngs the many new attractions of the spring season.

The occasion had been so planned that at the stroke of 7:30, solid blocks of show windows, which had been shrouded in mysterious secrecy for several hours, and in some cases, for days, suddenly burst into brilliant bloom.

Well did Lubbock's merchants display theeir wares—to such an extent that sales will no doubt result while longing hearts for the styles of the season will loose the family purse strings. Monday night's display was the first of its kind ever staged in Lubbock and those who participated in it were enthusiastic about its success.

## Rescue Ships Hurry To Aid Stranded Crew

### Sixty Men Reported Stranded On Island As Result Of An Explosion On Ship; Twenty Reported Dead

(By The Associated Press)

NEW YORK, March 16. — Three steamers tonight were plowing through the ice floes off the northern Newfoundland coast toward Horse Island where the sealing ship Viking was blown up yesterday with reported heavy losses in killed and injured. Among the 138 persons who were aboard the Viking were Varick Frissell, Harry Sargeant and A. E. Penrod, members of a talking picture expedition.

Bowring Brothers, Ltd., owners of the craft, tonight received a telegram from their agents at St. Johns stating 60 members of the ship's company had landed at Horse Island. Earlier in the day the company had been advised 20 persons had been killed and many injured.

**No News of Captain**

Frissell was the promoter of the talking picture outfit, bent upon filming northern "shots" with sound. Harry Sargeant was an explorer and A. E. Penrod a camera man.

Bowring Brothers had no news of their Capt. Abram Kean, jr., but other advices indicated he had been seriously injured. Messages from Harbor Grace told of the captain's fate and added that a cook, a steward, navigator and the ship's doc-

## Half Million Dollars To Be Appropriated

### House Committee On Appropriations Votes Favorably On Measure To Reimburse Farmers Of Area

### Delegates Speak

### Several Farmers And Business Men From Area Affected By Pink Boll Worm Fight Tell Of Losses Sustained

(By The Associated Press)

AUSTIN, March 16. — From an executive session house committee on appropriations this afternoon voted out favorably a bill asking an appropriation of $500,000 to be used in reimbursing farmers in the Big Spring, Midland and Lamesa area for money used in combating the pink boll worm.

Its testimony taken from farmers and business men of the area, the committee closed its doors and settled down to secret action, passing out the bill after some thirty minutes of deliberation.

**Stanton Farmer Heard**

Committeemen asked, before going in to executive session, if there was a possibility of the federal government sharing half of the amount with Texas. The plan did not gain much headway.

J. S. Blackford of Martin county, who told the committee he was a "dirt farmer," said it cost the farmers of this section two dollars a bale to have the seed sterilized and the lint fumigated. He stated the pink boll worm restrictions had caused the price of lands to slump there. He explained he could not sell his land, plus extensive improvements, for what he gave a few years ago.

**Consider Just Debt**

Blackford said the farmers considered the $500,000 as a just obligation owed to them by the state. He explained he could not sell his his section had a mass meeting Saturday night "passed around the hat," and "chipped in" enough money to send him to Austin to appear before the committee.

J. M. Del Curto of the state department of agriculture said the amount due the farmers in the pink boll worm areas was approximately $498,000.

## Wife Asks To Be Killed By Mate

WASHINGTON, March 16. (AP)—Responding to pleas of his wife that he not die alone, William H. Von Bayer, Indian bureau official, today shot her before killing himself with a pistol.

Police broke into their fashionable Chevy Chase circle apartment and found Von Bayer dead and his wife with a bullet wound in her back. She was in a serious condition.

The woman told police her husband's health had been bad and he had informed her this morning he intended to kill himself. She said she tried to dissuade him.

Failing in that she said she told him: "If you must kill yourself, kill me too."

# Easter Pageant Is Presented At Meeting Of Christian General Aid

## The Woman's Angle

* * *

BY BLANCHE E. BEAN
Avalanche Woman's Editor

REMEMBER the old days when you went down and picked out a hat brim and some flowers and the milliner got them together? Well, those days are no more.

* * *

That's one of the things I learned this week that I hadn't known before. As a matter of fact, I had forgotten about the days when until we went over to look at some of then new hats that the wholesalers are showing and someone brought up the subject. People still sell hats and lots of them but the "milliner," meaning one who puts the flowers and feathers and brims together, has been superceded by the saleswoman who carries a line of hats trimmed by a house making a specialty of that thing.

* * *

Hats are hats again, according to the men who sell them. They are made of all kinds of straws for this summer. There are brims on the hats, flowers and laces. Hats have gone feminine to match up with the frills and furbelows of the dresses and the manufacturers are using a lot more material in them, just as they are in the frocks. Two or three seasons ago we were laughing at flowers, except some occasional formal ones, but this season we're going to have them tucked around over our ears and on the outer brims of our hats. I saw one today that looked like the "poke" bonnets we wore when I was a little girl, with flowers and velvet ribbon wound about a piquant brim.

* * *

There was a pink one in straw with blue velvet ribbon and some rosebuds that looked like summer afternoons and almost all of them had a brim of sorts with lots of pastel colors.

* * *

And the men were showing cotton net print dresses in colors to wear with the hats. There were silks, too, in crepe and chiffon and everything was made up with ruffles, sashes, peplums, bows and other feminine trimmings. The dresses are longer, too.

* * *

Solid colors are good but more prints are shown than anything else. Navy blue and black backgrounds with white figures and polka dots are on some of the racks and the pastel shades run the gamut of the color wheel. I couldn't find any evidence of a leading color but I was assured that this is going to be a big white season.

* * *

Most of the dresses had a semblance of a sleeve at least, and many of them had sleeves. Here was another place for ruffles and other trimming. Sleeves are "points of interest" in the new dresses. I was told and I am glad to see some again. As long as the dresses are made without them, I suppose I'll be around wearing them in the summer with everyone else, but it doesn't appeal as a pretty style for daytime wear. I'll be glad when all these expanses of bare arms are more subtle in their appearances.

* * *

My ideas on fashions probably will make a lot of difference to the style dictators and to the people who manufacture dresses and hats, but I'm glad we can be "ladies" in our clothes for another season. These frocks that are summery — flowing and diaphanous—appeal to me immeasurably.

* * *

**TO PREPARE CARROTS**

IF your family doesn't care for boiled carrots and yet you want to serve them, here is a suggestion. Use either fresh or canned carrots, simmer with butter in a thick saucepan with a good tablespoon of butter to a pound of carrots. Sprinkle a little sugar over them and stir carefully at intervals. After the carrots are tender they need only a moment's simmering with the butter and sugar.

* * *

**WHAT COLOR AMBER?**

FOR THOSE who are interested in things from foreign countries, the Camp Fire exhibit in Minter-Gamel's window should hold some interest. The Camp Fire girls are observing an international program and it was in this spirit that the exhibit was assembled.

* * *

There aren't so many articles, but the collection takes in a number of countries and the souvenirs belong to people in Lubbock. Among the countries represented are Scotland, Egypt, the Holy Land, China, Mexico, Poland, Hawaii, Switzerland, England, India, Belgium, Ireland, France, Sudan, Italy, Holland, the Phillipines.

* * *

One thing that was of interest was a strand of amber beads from China and they were red. Another thing was the shoes and sandles—four types and they were from Syria, China, the Phillipines and Japan.

* * *

The laces and embroideries of some people never fail to intrigue me for they represent so much work and patience.

* * *

This is a reminder of something that a manufacturer of dresses was telling this morning. In his factory they use Mexican women for some of the work because they have more patience than American women. The latter wish to put hems in on the machine and do things in the quickest way but Mexican women are willing to do hand sewing and are more careful in their work, the man said.

Members of the Junior Twentieth Century club are to meet at 3 o'clock at the Tech home economics building.

## Fashion Show This Evening

### Third Semi-Annual Market Week Style Show Will Be Held Tonight At Uptown Dance Palace

The third semi-annual Market Week style show has been announced for this evening at 8 o'clock at the Uptown Dance Palace and twenty-five young women and three children have been selected as models.

Fashions for spring and early summer will be shown in this parade which is sponsored by ten wholesale firms. The show will be supplemented with a program of music and dancing.

Many of the models who will appear this evening have participated in other fashion shows here. The three children who will model are Dorothy Daniels, Arvesta Lee Green and Mary Nell Holt.

**In Four Scenes**

Final rehersal of the group was held last evening at the Dance Palace with Herbert B. Carpenter in charge. The show will be in four scenes: sport dresses, wash frocks, street wear and afternoon and evening gowns.

The young women who will model are Misses Frances Gunn, Evelyn Jackson, Loula Denham, Chloedell Whitley, Johnnye Jo Whitley, Millbria Pirtle, Louise Sneed, Fannie Sue Dunn, Sarah Price, Maurine Mullican, Hazel Ligon, Edith Sanders, Sue Brown, Dorothy Rushing, Helen Womack, Mildred Price, Edna Kane, Eileen Graves, Mary Lee Jameson, Marjorie Ann Ainsworth, Jo Caraway, Izora Adams, Mesdames Clyde Williams, Joyce Howell and Justine Law West.

## Forty-Two Attend Meeting Of W. M. S

There was an attendance of 42 at a meeting of the Woman's Missionary society in the Canyon community Monday afternoon. The meeting was with Mrs. Gussie Gammill, who conducted the devotional. Mrs. J. C. Turney taught a Bible lesson.

There will be a business and social meeting of the society next Monday afternoon.

### Officials Of League Of Texas Municipalities Planning For Convention To Be Held Here June 15, 16, 17

Plans for the nineteenth annual convention of the League of Texas municipalities to be held in Lubbock June 15, 16 and 17, are being perfected by Harvey W. Draper of Houston, executive secretary of the league.

Mr. Draper arrived here Sunday to confer with city officials, members of the chamber of commerce and others relative to the convention.

The last day of the meeting will be designated as Governor's day and Governor Ross Sterling will be invited to come here as host governor, Mr. Draper said. Chief executives of adjoining states, New Mexico, Colorado, Oklahoma and Kansas, will be invited for a conference pertinent to interconnected state highways.

**Speakers Listed**

Joseph F. Leopold of the United States Chamber of Commerce, Mayor Ernest Thompson of Amarillo, and City Manager O. E. Carr of Fort Worth will be speakers at the convention.

Annual state convention of the Texas City Managers association, which is affiliated with the league, will be held here at the same time. Draper also i s secretary of the city managers organization.

**Purpose Cited**

"The purpose of the league," Mr. Draper said, "is to exchange ideas and information, and seek better municipal governments."

Mr. Draper will remain here through Tuesday. He came to Lubbock from Fort Worth.

Officers of the League of Texas Municipalities include:

President, City Attorney J. Bouldin Rector of Austin; vice-president, Mayor M. H. Dreyer of Raymondville; vice-president, Mayor F. W. Hayden of Pilot Point, and immediate past president, City Manager E. E. McAdams of Waco.

City Manager J. Bryan Miller of Lubbock was president of the Texas City Managers association in 1928.

City Manager Lee H. Powell of Tyler now is head of that organization.

# Plans Are Made For Seed Sales

Preliminary plans for the sale of certified cotton seed throughout Lubbock county were discussed yesterday afternoon by the seed committee of the Lubbock County Farm Bureau Federation at a meeting held in the office of D. F. Eaton, county agent.

H. J. Bower, of the agronomy department, school of agriculture at Texas Technological college presided as chairman of the committee.

John D. Rogers, Nacogdoches, president of the Texas Certified Cotton Breeders association, spoke on the plan of his group in handling pure seed.

A number of out of town people, including several from Lynn county, came in and a general discussion was held. It was decided to hold a meeting Thursday afternoon at which representatives of all the communities in the county will be asked to be present.

# Sample Kit Chatter

**DISPLAYS TELEGRAM**

"I've been traveling for 20 years but this is the first time I have ever seen anything like this sent out," said H. E. Woillard, Phoenix, Ariz., representing the Faultless line as he displayed a telegram from his sales manager. The message stated that all salesmen were to be very careful of their samples in the event of a hi-jacking, not to order the replacement of any dresses stolen. Mr. Woillard said he was of the opinion "some of the boys back east" had been having trouble with robbers and hijackers. "In all the years I have been out here, I have never heard of a salesman being held up and robbed of his samples," he added.

**BUSINESS GOOD**

Mr. and Mrs. W. C. Keim, of El Paso, both representing well known lines, are at the Hotel Lubbock. Mrs. Keim handles a line of ladies hats, "'Luther modes' we call them," she added, while Mr. Keim sells Peggy Claire frocks and Max Isaac's line of novelty jewelry. They report a good business around El Paso and in New Mexico and they expect to do considerable business following the market week here.

**OLD TIMER HERE**

One of the old timers is Ben Pupkin, who travels for Little and Martin of Los Angeles. Ben carries a special line of dresses for little folks and he plans a display for the style show Tuesday night. People are not quite so pessimistic as they were—guess they must have gotton used to things," he said.

**LIKES THE COUNTRY**

Morris Laufer, of Dallas, long time employe of the B. B. Manufacturing Co., is here for the show and says that although this is his first show in Lubbock, he has been here before and likes the town and the plains country. "Mr. Stedman could not come, so I came out from the house, Morris explained as he packed a box of express. "He's in New York this week. Lubbock is a fine place—looks a whole lot different than it did the first time I came out here. You can get a lot of dresses in a box this size, I am putting about 35 dresses in here. Its to go out this afternoon."

**MAKES GOO DTIME**

R. H. Dewey, of Wichita Falls, sales manager of the Wichita Garment company, made better time in his car this spring than he did last fall," I left Wichita Falls Sunday at 6 o'clock and got here by midnight" he said. "Came in by way of Guthrie, Benjamin and Dickens. Last year we left at 11 o'clock in the morning and got in at 4 o'clock the next morning," Mr. Dewey has been over in East Texas to the oil fields around Kilgore and Joinerville. He reported seeing 87 rigs at one time at the latter town.

**MEETING THE ENEMY**

Meeting the enemy on his own ground is the way M. Silverman, of San Antonio, silk dress maker looks at things. "Do you know, we sell our goods right in New York? he asked. "We also sell in Los Angeles. We have our line represented at Macey's in New York City. "Mr. Silverman went on. "We find that it is a good thing to push our goods. We are competing with some of the big firms and we figure we can because we are giving more values for the money than houses in the larger centers."

**HILL SUPPLIES HOSE**

Hose for the style show is being supplied by H. W. Hill of the Baker-Moise Hosiery company and yesterday H. W. called on all of the men who will be represented in the style show to give his suggestions on the color of hose the models should wear. Texas hosiery concerns are coming to the fore. The house he represents, is "the only full fashioned hosiery mills in Texas."

**TATUM FOLKS ARRIVE**

When Mr, and Mrs. Tom Sawyer of Tatum, N. M., came over Monday they brought along their young baby, a girl seven or eight months old. The young lady friends with every traveling man she met and some of the boys took turns in escorting her around to see the other boys. One of her favorite stunts was to pull the hat of her escort to one side of his head, to make him look a little more collegiate.

**FRIENDLY BUNCH**

Some of the boys, during times that customers are not in their rooms, gather in front of the elevators to pass the time of day and to get the latest news about the show. On the third floor in room 317 is J. W. Freundlich, of Roos-Freedman, Shayn, Dallas, one of the deans of the traveling men, who admits having made this country for over a quarter of a century. As nearly everybody knows J. W. is stopped frequently to give the latest on the condition of the trade.

**WIVES REPRESENTED**

Several of the firm representtives are accompanied by their wives. Especially is this true of those who come direct "from the house" and who are not on the road. The boys who were here last year say that when they got home and began telling what a town Lubbock was, that "the little women" insisted on coming along. The women are in the sample rooms, too, helping show the lines, and apparently they are enjoying it as much as any one else.

# Local Man Is Back At Home

### M. B. Dresser, Missing For One Week Returns To Home Here Sunday; Under Care Of Physician; Can't Remember

Missing exactly one week, M. B. Dresser, 55-year-old dairyman, returned to Lubbock early Sunday morning aboard a Santa Fe train.

Dresser told relatives that he did not know where he had been and could remember none of his experiences over the week.

He said that the last he recalled on Monday, March 9, was getting out of an automobile about a mile northwest of Slaton. From that time he was unconscious of his surroundings until Sunday morning when he became conscious in a Sweetwater bus station. Dresser is under the care of a physician.

**Return Reported**

Mrs. E. P. Earhart, jr., a daughter of the dairyman, of 1612 Tenth street, reported his return and what he had told his family.

The daughter did not reveal the amount of money on Dresser's person when he returned, but said there were no indications of foul play. The dairyman was believed to have had $100 in collections on his person when he left here.

Dresser last had been seen between 3 and 4 p. m. last Monday afternoon walking southeastward on the Santa Fe tracks near here, until he returned Sunday morning.

Leaving the train here, Dresser started to his home, which is about two miles south of Lubbock. He was seen by a neighbor and taken to the Dresser home.

The attending physician had described Dresser's case a lapse of memory, Mrs. Earhart said.

### *Liquor Charges Are Filed Against Two Men On Monday*

Charges of possession and transportation of liquor were filed against Frank Cornell and R. W. Crowder Monday in the court of Justice of the Peace H. K. Porter.

Cornell and Crowder were arrested by Policemen Grady Harrist and Baxter Honey at about 7 p. m. Sunday in the 1900 block of Nineteenth street. The two suspects are in the city jail.

**ONE CENT A DAY PAYS UP TO $100 A MONTH**

The Postal Life & Casualty Insurance Co., 4123 Dierks Building, Kansas City, Mo., is offering a new accident policy that pays up to $100 a month for 24 months for disability and $1,000.00 for deaths—costs less than 1c a day—$3.50 a year. Over 68,000 already have this protection. Men, women and children, ages 10 to 70, eligible. Send no money. Simply send name, address, age, beneficiary's name and relationship and they will send this policy on 10 days' FREE inspection. No examination is required. This offer is limited, so write them today.

# SIMPLE WAYS OF SAVING GAS

*1. Correct temperatures should be maintained by the aid of thermometers or thermostats, as keeping a house too hot is wasteful of gas and injurious to health.*

*A thermostat is a device for the automatic regulation of temperature. Thermostats on gas appliances regulate temperature by controlling the flow of gas to the burners. The correct temperature for living rooms varies somewhat with individuals and conditions, but it is generally considered to be about 66° to 68° F.*

*2. Many families can save gas without inconvenience by using fewer rooms during cold weather than at other times.*

*3. A cooking utensil should be ready to be placed over the burner before it is lighted, and the gas should be turned off when the cooking is completed.*

*4. When water has come to a boil, the fire should be turned down or the vessel moved to a smaller burner; and just enough heat should be supplied to keep the water boiling. Water cannot be made any hotter than boiling; consequently violent boiling does not hasten cooking—it causes needless evaporation of water and thereby wastes gas.*

*5. Cooking utensils should be covered wherever practicable.*

*6. No more water should be heated than is needed.*

*7. The careless, wasteful use of hot water should be avoided; and leaky hot water faucets should be repaired immediately.*

## The WTCC's Annual Meeting

SOMEWHERE around the first of April Maury Hopkins, assistant manager of the West Texas Chamber of Commerce, will move to Lubbock, lock, stock and barrel to begin laying plans for the 1931 convention which will be held here May 14, 15 and 16. Efforts will be made to make the convention a winner, from start to finish.

D. A. Bandeen, manager of the regional body, who was here last Friday and Saturday, is optimistic concerning the attendance for the three day meet, taking the stand that present business conditions will not hurt the crowds. Since the Lubbock convention is to be a business session, largely stripped of the hooraw which has here-to-fore marked the meetings, a lot of good work is expected to be accomplished.

Only two months separate Lubbock and the convention and Lubbock people will do well to start planning for it. The job is one that cannot be delegated to the BCD and the chamber of commerce alone and will demand the best thought and effort of the citizenship as a whole.

### FAITH

Faith is the staff upon which lean those who do not know. To such, remove faith and there would be chaos.

It is faith that makes governments stable; faith that makes paper money on a par with gold; faith that enables the world to do business on credit. The child, having everything yet to learn, believes everything it is told and thinks its parents omniscient. Denied faith, it would believe nothing not experienced or reasoned out in its own mind.

If men were cattle, without the capacity to reason, they might live and die content without either faith or knowledge. Some do. But it is inevitable that those endowed with reason should speculate concerning the unknown, and equally inevitable that ignorance should inspire dread.

This dread of the unknown, among primitive people, expresses itself in superstitions, and superstitions fill the future with terrors and the present with follies. Faith and superstition have little in common, for superstition has to do with fears, and faith has to do with hope. Superstition is an enemy of truth, but faith should not be.

One form of superstition is the fear that to examine or question beliefs shows lack of faith. How can faith survive in that which will not bear scrutinizing and analyzing? True faith must rest on the conviction that all truth is good; that truth alone is worthy of man's faith.

To have faith is but to accept facts in advance of proof or discovery.

## Practical Health Problems

### PREVENTION OF COLDS

By DR. MORRIS FISHBEIN
Editor, Journal of the American Medical Association, and of Hygeia, the Health Magazine

Since 1924, Drs. D. F. Smiley and G. F. Maughan of the department of hygiene and of physiology in Cornell University have been investigating the incidence of colds among the students. The vast majority of colds occur during December, January, February and March.

As a result of their investigation, they found that colds and their complications are the commonest cause of disability among students, and that all of the students can be divided up into two groups—those who are easily susceptible to colds and those who are what might be called normally resistant.

The students who are easily susceptible constitute 17.9 to 27.5 per cent of all the students. It was found that special attention to those who are susceptible to colds is an effective way of modifying or adverting epidemics.

In other words, the prevention and treatment of colds is given special attention in the 25 per cent of students who have colds most frequently. Each freshman on entering the school is given full explanation as to the importance of controlling ventilation, the importance of treating the nose and throat secretions as infective materials and not disseminating them about, and the importance of including in the daily diet two to four glasses of milk, two helpings of leafy or fiber vegetables, two helpings of fruit and one or two salads.

Those students who are found to be easily susceptible to colds join a cold prevention class in which they receive a 15-minute ultra-violet light treatment once each week, and a teaspoonful of baking soda and magnesium carbonate mixed in a glass of water twice a day for three days whenever they feel a cold developing.

A careful study of the nose, throat and sinus is made by a competent physician to make sure that there is no chronic infection. They are instructed concerning the danger of exposure and the importance of the use of proper clothing.

The results of those who have followed this routine as compared with those who have not indicated to the authors that epidemics of colds could be controlled, if all of those who are susceptible to colds would co-operate in making effective the methods that have been described.

## He Knows His Farming

By CHARLES P. STEWART
Central Press Staff Writer

WASHINGTON, March 16.—Congress adjourned March 4 with Representative Gilbert N. Haugen of Iowa as its oldest member in point of service.

Representative Henry Allen Cooper of Wisconsin, who died three days before the session's end, outclassed him by 18 terms to the Iowan's 16, but there was a two-year break in Representative Cooper's sequence just a decade ago. Representative Haugen's 32 years have run continuously.

William McKinley was president when the Hawkeye veteran of today first came to Washington, a comparatively young man of 40. Czar Tom Reed's reign as speaker was just over and the newly-elected lawmaker's vote helped to put a fellow representative from his own state, David B. Henderson, in the presiding officer's chair, Garrett A. Hobart was vice-president; it was even before T. R.'s advent in the national capital.

* * *

REPRESENTATIVE HAUGEN had served two full terms before there was any cabinet department of commerce and labor, but the department of agriculture was 10 years old when he got here and "Tama Jim" Wilson, another Iowan, was head of it.

Anything that has the least thing to do with agriculture, in Representative Haugen's generation in politics, he has been prominently identified with.

The first matter he attended to, after being sworn in, was the arrangement of a place for himself on the house of representatives' committee on agriculture. It is difficult to think of him now as ever having been a junior member of that committee; he has been its chairman since the memory of man runneth scarcely to the contrary.

* * *

BY GOOD rights the white-haired old farmer-merchant-banker from the fourth Hawkeye district, ought to be a perfect encyclopedia of information concerning everything that has happened on Capitol hill since the 56th congress met in 1899.

But try and get him to discuss anything except agriculture!

As to agriculture?—he recalls every bill and resolution introduced for the farmer's benefit or inimical to his interests, every speech, every debate, every significantly agricultural remark uttered from the day he responded to his initial roll call until Speaker Longworth announced the last adjournment.

Otherwise Representative Haugen might as well have stayed in Northwood (Iowa), for all he remembers of what has transpired in Washington in the score and a half (plus two) of years that he has been fighting agriculture's congressional battles.

* * *

HE WAS HERE, of course, during the hectic World war period.

"Which, profitable as it temporarily was to the farmers, has been followed," observes the Iowan, "by an era of deflation more disastrous to them than to any other class of the American people."

What's the remedy for unemployment?

"Agricultural prosperity," answers the congressman, promptly. "No nation can thrive with its basic industry prostrate."

How about the power question?

"Power's application to farm uses," says the Hawkeye legislator, "undoubtedly has altered the agricultural problem in important particulars."

Our foreign policy?

"We must recognize American agriculture's need of export markets," rejoins the representative, "to absorb our crop surplusage."

* * *

VERY WELL, THEN; dismissing all other considerations, is agriculture better off in 1931 than it was in 1899? Or worse off?

Congressman Haugen squirmed slightly. The administration has no more loyal supporter than he in the house of representatives. Evidently he hated to admit that, under its benign influence, the farmers have anything to complain of. Yet it is notorious that they do complain—terribly.

Finally, "The present law is all right," he answered. "It is based on the correct principle. The trouble is that it lacks the necessary machinery to make the principle effective."

Ah, the equalization fee mechanism?—as provided in the original McNary-Haugen bill?

The congressman nodded.

And, without that, can the farm act of today ever be made to work satisfactorily?

"I hope so," said the Iowan, but he said it pessimistically.

### ARMS LIMITATION PROGRESS

Committees and commissions are laying the ground work for the world disarmament conference, which probably will be in session by this time next year. The preparatory arms commission was the first to report, and the latest is the budgetary limitation committee.

The committee is in accord with Washington's opposition to a budget yardstick for armaments, having discarded the idea of comparing the expenditures for armaments of one nation with those of another for the purpose of arms limitation.

Under the scheme favored by the committee cuts would be made for each nation on the principle of reducing future expenditure below the average of its own past outlay. While this plan leaves much to be desired, it marks some progress and may open the way to an improved plan.

An out and out budget plan of limitation is not to be considered because of differentials in wages, construction and material costs, and military pay between the several world powers. Italy, for example, could maintain a much larger army and navy than the United States could on the same amount of money.

While Washington is interesting itself in the coming conference, it is seeking to impress Europe with the fact that since the United States maintains but a skeleton defensive army in peace time and is in competition with no other army, it will not be affected by the conference, which will chiefly concern competitive land forces.

**THE EIFFEL TOWER MOVES WITH THE SUN.**—The Eiffel Tower, the most famous structure on the Parisian skyline, is 1,000 feet high. At that altitude a high wind will cause it to sway or vibrate considerably. It has recently been discovered that in addition to swaying in the wind, the tower is helitropic. The sunny side of the metal in the tower is affected by the rays of the sun, causing it to twist and to move with the sun. The motion is gradual and hardly observable to the sightseers on the tower, but it is continuous and more pronounced in the hot summer months than in the winter. In the hottest 24 hours of the year, the torsion reaches a maximum point of about 7 inches. As the day cools the twist vanishes.

**BEGIN HERE TODAY**

**Ginger Ella Tolliver, daughter of a minister and stepdaughter of the wealthy and indulgent former Phil Van Doorn, organized a Junior Country Club, in the town of Red Thrush, Iowa, just to keep life among the younger set from becoming too dull.**

**Bard Holloway, a young artist who was hoboing around the country, stopped in Red Thrush. Attracted by Ginger, he agreed to stay and paint portraits and decorate the new clubhouse. He gave the name "Joie de Vivre," to the club, and suggested sending to Chicago for Nicolo Calleno, who could cook and sing and strum a guitar.**

**But Nicolo could not come. In his place arrived three of his countrymen. Angelo could play; Pietro could cook; Benito could sing. Ginger took them on. Beginning to realize he was in love with Ginger Bard suggested leaving. But Phil, knowing Ginger, persuaded him to stay as their guest. But for Ginger's good she wrote to Speed Boney, a former friend of Ginger's and invited him. She felt he would give Bard some competition.**

**Ginger thereupon invited Patty Sears to take care of Speed, but Patty wouldn't come, pleading loyalty to Eddy Jackson. Whereupon Ginger went to Eddy about it. Getting word that Speed was bringing his sister, she persuaded both Eddy and Patty to come. Eddy, however, decided to ball things up by making things miserable for Ginger and keeping her and Bard separted.**

**Meanwhile, Benito had made a trip to Chicago and returned with a plan to kidnap Ginger and hold her for ransom.**

**When Speed and his sister arrived Ginger got another surprise. Sister's name was Cotton. She was different from what Ginger suspected She was a little afraid that Cottor would prove attractive to Bard and Eddy devilishly arranged for Bard and Cotton to be together while he stuck to Ginger and paired Patty off with Speed.**

**Speed tells Bard Ginger and Eddy are in love and Bard plans to leave as Eddy keeps up his mischievous plot. And at that point of the proceedings Ginger disappeared. Some time later Jenky Brooks discovers a message.**

**NOW GO ON WITH THE STORY.**

**CHAPTER XXXII**

"Help! Help! Police!" Jenky cried, in a succession of shrill shrieks.

But when she reached the porch steps she pulled herself up short, shaking her head as though to banish thoughts of some horror, and her wide eyes like the eyes of one hypnotized were glued to the brown scrap of wrapping paper at the end of the string.

"Miss Phil," she stammered, "if—if I've got bad news—should I tell you first—or Mr. Tolliver—or call the police?"

Phil went to her at once and laid a hand upon her arm. She was white but firm. "Tell us, of course," she said evenly. "Tell us immediately."

"Oh, Miss Phil," whimpered Jenky, "I said to myself, I'll get some nice fresh eggs and whip up some of my custard that Ginger is so fond of—Italian cooking is good, too," she added politely, "but Ginger always liked my custard. So I thought I would have some ready for her when she gets home. So I went out myself to get the fresh eggs—not wishing to mention it to anybody—for Italians don't rightly know about custard," she added pathetically, "and look—look! See what I found hanging to Mrs. Carter's halter."

Her voice rose in a wail of tears. Phil shuddered but she did not hesitate. She took the dangling string with its bit of brown paper from Jenky's hand, unfolded it, read it slowly. Her eyes widened and grew black. She shook her head as if to banish horrid thoughts.

* * *

"I—I don't believe it," she said at last. "Somebody's playing a joke on us. Not Ginger. She wouldn't joke like that."

She passed the paper to Ginger's father and watched his face with wide black eyes as he read, seeming to seek in his face a denial of what the paper said.

He moistened his lips and forced a strained smile to his face before he spoke.

"It—scarcely seems—possible," he said vaguely.

"For God's sake, what is it?" cried Bard. "We all love Ginger."

Eddy took the paper without a word and read it aloud.

"We are holding the girl for ransom, thirty thousand dollars we want. Get the money immediately, in thousand-dollar bills thirty of them, and have ready at the other house when we call for it. If you do exactly as we say, send the money as instructed and do not notify the police nor try to trick us, the girl will not be harmed."

Over them fell a hushed and ter-

AUSTIN, March 16, (AP)—J. W. DeWeese, fire insurance commissioner of Texas, has announced that the following cities and towns will receive a three per cent credit in their key rate during 1931 for having fire prevention taught as a regular course of study in their public schools; Bryan, Hearne, Sour Lake, Somercillen Sealy, Yoakum, Mercedes, Mt. Vernon, Millsap, Hallettsville Crockett, Jasper, Ladonia, Palmer, Saratoga, Denton, Schulenberg, Hubbard, Rogers, Van Alstyne, Bovina, Anna, Meridian, Dayton, Port Lavaca, Grand Saline, Arlington, Bonham, Mission, El Campo, Willis, Alvarado, Bartlett, Sheppard, Richmond, League City, Kerens, Bremond, Wortham, Rice, Jewett, Roaring Springs, Granbury, Pilot Point, Gladewater, Caddo Mills, Round Rock, Dublin, Hondo, Silsbee, Waxahachie, Shiner, Colorado, Goose Creek, Livingston, Grand Prarie, Lubbock, Martindale, Boerne, Ringgold, McGregor, Jefferson, Snyder, Sugarland and Henderson.

## Charges Of Theft Are Facing Three

Charges of theft have been filed in the county clerk's office against T. U. Jones, Mrs. T. U. Jones and Charley Mackey who were arrested Saturday afternoon by members of the police department.

Mrs. Jones was freed on a $100 bond to appear in the county court Tuesday morning. Her husband and Mackey are in the city jail.

The alleged offense took place in a local hotel whose proprietor was holding clothing belonging to the three in lieu of the room rent.

Under the pretense of looking for an address, which they claimed was in one of the coat pockets, the three gained access to the clothing. The hotel owner called the police.

## Many Planes Will Pay Dallas Visit

DALLAS, March 16. (AP)—Nineteen million dollars worth of aerial equipment will be represented in 670 army air corps planes, which will participate in annual maneuvers at Hensley field near Dallas in May.

Lieut. Harry Weddington, commander of the field, placed that estimation on the planes.

There will be 1,371 officers and enlisted men in the group and parachutes worn by them will fill the big army hanger at the field.

Patrick J. Hurley, Secretary of War, will attend the maneuvers. Plans were on foot to obtain an army dirigible for the occasion.

Other indications of the magnitude of the undertaking are these: Refueling operations will require 20 tank wagons and 100 men; the ships will require approximately 67,500 gallons of gasoline, costing about $8,000.

More ships will be in Dallas on that occasion than were in active service on the Western front at the end of the war.

## Amarillo Woman's Body Sent Here

AMARILLO, March 16.—Special)—The body of Mrs. Alta Gunn, 23, a saleswoman here who died Saturday morning in a local hospital, were sent to Lubbock late Saturday night for burial there Monday.

Mrs. Gunn was the widow of the late J. W. Gunn and daughter of McAdoo, Dickens county. She had resided here for the past five months.

Besides her parents, Mrs. Gunn is survived by three sisters, Mrs. Will Peak of Lubbock, Mrs. Bessie Jones and Mrs. P. B. Grisson of McAdoo and three brothers, M. B. Gaddy of Balleyboro; Floyd Gaddy of Lamesa and Hoy Gaddy of Lubbock.

# Tumult Reigns Inside Prison

### Accusations Against Ousted Chaplain Feature Of Day's Investigations; Guards Are Ready For Action

JOILET, Ill., Mar. 16. (AP)—A tumult of accusation against an ousted chaplain rose above the rumbling of rebellion in the old state prison today.

Turning from his announcement that a second prisoner had died of wounds suffered in Saturday's riot, Warden Henry C. Hill charged that Rev. George Whitmeyer had fomented discontent, carried messages for convicts and knowingly or not, had been a messenger in a jail delivery plot.

"My conscience is clear, and I am not afraid of an honest investigation," replied the clergyman, former pastor of an Episcopal parish at Herrin. He had tendered the requested resignation February 25, terming the killing of three escaping prisoners "murder."

A crescendo of rebellion rose today as the "grapevine" carried word of the death of George Jakowanis, shot by a guard during the uprising Saturday. His was the sixth death among the convicts in a month — three ran into waiting gunners as they lowered themselves from the stone walls February 22; Joseph Coakley's death from a clot on the heart while in solitary confinement last week precipitated a legislative investigation, and two were killed and two wounded in the riot.

A reversion to routine seemed no nearer tonight, and national guard companies were under orders to be ready for service.

# Dwight Morrow To Arrive In London

LONDON, Mar. 16. (AP)—Senator Dwight W. Morrow, arriving in London tomorrow to expound American official opinion on the New Anglo-French-Italian naval agreement, will be trebly welcome at Downing street, as an American expert on disarmament, as a friend of President Hoover and as a member of the senate.

Senator Morrow's stay in London may not last longer than 24 hours. Because he is traveling with a party he will not be a guest of General Charles G. Dawes at the American Embassy, but will stay at the hotel where he lived last year when he was a delegate to the London naval conference.

The senator's program is not definitely arranged, but he is expected to accompany Ambassador Dawes to an informal meeting of the five-power naval experts at which the American view of the recent European naval accord will be explained.

## *House Adopts Bill Allowing Trustees To Issue Warrants*

AUSTIN, March 16. (AP)— The house today adopted the free conference report on a bill by Representative Young of Wellington which would permit county school trustees to issue interest bearing warrants to pay the salaries of teachers. Young said the bill was badly needed if schools in the drouth areas were to remain open.

The warrants would bear interest from issue to March 1, 1932, and school trustees would be prohibited from issuing warrants aggregating more than 80 per cent of the anticiptaed revenue.

The vote was 110 to 5 and if adopted by the senate by a four-fifth vote, may be put into immediate effect.

## *Oklahoma Highway Chairman Offers To Resign His Post*

OKLAHOMA CITY, March 16. (AP) Sam Hawks, chairman of the state highway commission, has offered to resign "as an expression of confidence in the chief executive," it was learned today.

Governor Murray was expected to take no action on the letter Hawks wrote, offering to quit. Hawks was his campaign manager and confidant during the pre-election period.

The gesture by Hawks followed the series of incidents resulting in a scheduled inquiry by the senate roads and highways committee today into a frustrated attempt of Hawks and J. F. McKeel, commission member to purchase 800,000 barrels of cement at private sale for the state from the O. K. Portland Cement Company, Ada.

### STUDENT INJURED

AUSTIN, March 16. (AP) — W. C. Regan of Port Lavaca, university of Texas student, was in a hospital here today as an indirect result of a prank played by a group of boys.

Regan suffered internal injuries and body cuts and bruises early yesterday when his automobile struck a ditch in a street which had been closed for repairs. Warning lights had been destroyed by the jokers.

# And Love, They Say, Is Blind

Love may or may not be blind, depending on whether the old myths were true or false—but it does lead to unusual happenings occasionally. This picture shows the bride and groom in a recent wedding held at Turin, Italy. Crema, it seems, comes from the same part of the country that produced Primo Carnera.

# Neff Approves Attitude Taken By Sterling Regarding Waste Of Gas

AUSTIN, March 16 (AP)—Former Governor Pat M. Neff, member of the railroad commission, today commended Governor Sterling for his criticism of a majority of the commission for asertedly failing to conserve the gas in the Reagan county field.

"The criminal and needless waste of natural gas in this particular field has been going on for more than two years," Neff said.

**A Profligate Waste**

"At a public hearing before the railroad commission during October of last year uncontradicted testimony developed the fact that 150,000,000 cubic feet of gas were going to waste each day in this field. This profligate waste for each day is an amount in excess of the total amount of gas used in Texas for domestic purposes during an entire year. Therefore, on the present basis of gas consumption, enough gas has been wasted in this one field during the past 18 months to feed the gas meters of Texas for more than 500 years."

Neff stated he sought to prohibit this waste, protesting against the policy of the commission," but his efforts did not meet with the approval of the other two commissioners. He added the waste in the Reagan county field was only a small part of the amount of waste that was going on all the Texas oil fields. "It is estimated that approximately one half billion cubic feet of natural gas is being daily blown into the air," Neff said.

**Application Of Law**

"As you correctly stated through the public press of yesterday," Neff told the Governor, "It is not so much the lack of law, but the application of the law that is needed to prevent this waste. I wish you to know that as one of the members of the railroad commission, I shall gladly co-operate with you in every way possible, to end that the future generations shall not by a sleeping policy on indefference, be robbed of our natural gas supply."

Governor Sterling criticized the railroad commission for its Reagan county policy at the time he censured it for failing to prorate in East Texas.

# Bandits Flee As Alarm Is Sounded

RIDGELEY, MARYLAND, March 16 (AP)—Three yeggmen fleeing as a fire alarm was sounded after the robbery of the bank of Ridgeley here early today, dropped a coal bucket filled with $800 in silver money. The money was recovered by a group of pursuers.

Lawrence Wilson, cashier, estimated the bank's loss at $2,000 in cash and securities.

The fire alarm was sounded after the discovery of the robbery by a nearby resident.

## *Injured Man Resting Easily After Saturday Car Accident*

O. L. Reeder of 511 Avenue L, was reported to be resting easily at the Lubbock sanitarium Monday night. Reeder was sreiously injured Saturday night when he walked against a moving automobile at Broadway and Texas Avenue.

Rain which partly blinded Reeder was believed to have caused the accident. The automobile was being driven by Frank Eaton, a student at the Texas Technological college.

Handles on the car doors of the car inflicted a gash in Reeder's right side just above the hip bone. Eaton took the injured man to the sanitarium.

VALPARAISO, Ind., March 16. (AP) Sentencing to life imprisonment of Virgil Kirkland of Gary, convicted of the murder of Arlene Draves, scheduled for today in Porter circuit court, has been postponed until March 24, Judge Grant Crumpacker announced.

Habeas corpus writs to free Paul Barton, Leon Stanford, Henry Shrik and David Thompson, also held for the death of the Draves girl, are being considered by defense attorneys. The four were jointly indicted with Kirkland for the slaying which occurred at a liquor party in the David Thompson home in November. The habeas corpus writs will be based on the contention the four other defendants had no part in the death of the girl.

# Flood Waters Are Reported

### Country Southwest Of San Antonio Under Water As A Result Of Heavy Rains On Sunday Night

CORPUS CHRISTI, March 16. (AP) Flood waters from 11 inches of rain that fell mostly within a period of two hours yesterday in the Bishop section, 35 miles southwest of here, were receding today.

The Mexican residential section of Bishop was under water and scores of persons, forced from their homes, spent the night in the railway station. Bishop hotels were unable to accommodate all motorists marooned in the community by the cloudburst.

It was estimated damage to crops would be relatively small, as only about 15 per cent of the inundated section had been planted.

It was reported water was 10 feet high in some of the lowland sections, with four feet of water inside three gins.

Water entered business houses on west side of the railroad track. The highway at a point seven miles northeast of Bishop was under water and a section of the Missouri Pacific railway was submerged for a period. No railway bridges were reported washed out, but several highway culverts were damaged.

# Two Are Charged In Assault Item

M'KINNEY, March 16. (AP) — Archie L. McCoy and R. L. Booker, jr., were charged with assault to murder today as an aftermath to a shooting yesterday when Charlie (Slick) Roberts, night watchman, was critically wounded when he attempted to arrest two men for disturbing the peace.

Dean C. Holmes, secretary of the McComb, Miss., Chamber of Commerce, wired W. H. Moore, secretary of the McKinney Chamber of Commerce, that it was interested in Booker and that he "heretofore has borne a good reputation."

Robert's condition continued critical today, but hospital attendants said he was slightly improved.

### CHAPLIN POPULAR

VIENNA, March 16. (AP)—Some of Vienna's Charlie Chaplin fans fell through automobile tops today in their eagerness to get a look at the film comedian when he arrived from Berlin.

# Veteran Traveling Man Declares Conditions Are Better This Year

"Twenty-seven years ago the 9th of April, I made my first trip to this Plains contry," said J. W. Freundlich, of Roos-Freedman-Shayn Co. of Dallas and one of the older traveling men in point of service who is making the market week.

"Last year I got into Amarillo on the 9th of April," he went on. "It was the same kind of weather then that I had met with on my first trip to Amarillo, back in 1904. The Amarillo papers got hold of me and made quite a story out of it."

**Conditions Better**

Mr. Freundlich says he sees conditions "a little better" this year than last year.

"Values are a whole lot better than last season," he went on. "People are getting more for their money than ever."

With good crops ahead, as indicated by the present season. Mr. Freundlich is of the opinion that by fall the entire Plains country will be in splendid condition in a financial way. He says from all reports he had had over the territory, farmers have better prospects than for years.

**Exchanges Stories**

One of the things the veteran traveling man likes to do is to exchange stories on early day business conditions. Before the railroad came south from Canyon, Mr. Freunlich drove in a hack all over the Plains, starting from Canyon and going south towards the T.P.

"Then we got automobiles and we used to make it into Lockney and on to Crosbyton in a day, he said." There used to be a famous inn over in Crosbyton, Clark Smith, who had the Lubbock Inn, ran it .

"About the first thing they said to you after you got in at night was, what will you have, venison, duck or beef? That was before the days of the game laws. We could get any kind of meat we wanted, almost."

Mr. Freundlich recalled some of the early day inland towns including Petersburg, "a town they called Emma," Lockney and other towns.

Russia's purchases from Germany last year totaled $77,355,000.

JOHN LEMOND

*"Let me urge every citizen to lend his support to this very worthy crusade to reduce the fatal accidents on the highways."*

The callous disregard of life and limb by reckless driving . . . the menace to the safety of his family and himself has stirred the indignation of every conscientious driver and citizen.

Singly and alone he couldn't do very much about it.

But, together we can do something about it!

When you realize that more people were killed last year by automobiles than were lost by the American Forces during the World War and that the number of deaths is growing year by year . . . then we believe you will want to join in this crusade against recklessness and unsafe equipment.

Only an aroused and militant public opinion can change these conditions. Your help, your example, are needed.

The Silvertown Safety League is your means of expression. Read the pledge . . . nine common-sense rules . . . nine commandments of safety. Are you willing to take this pledge along with the prominent people of this community and abide by it? If you are . . . if enough people will do it . . . thousands of lives can be saved in 1931.

We have a pledge ready for your signature . . . we will see that the beautiful emblem of the League is installed on your car and give you a recognition button for your lapel.

There is no cost . . . no obligation to buy . . . we simply welcome you as another soldier in the war against recklessness.

Sign up! This crusade needs you.

*Let us install a brilliant chromium Silvertown Safety League emblem on the radiator of your car. It tells the world that you are in the fight against recklessness that took 33,000 lives last year.*

*My Pledge as a Member of*
THE SILVERTOWN SAFETY LEAGUE
*I agree*

1 *To drive at speeds in keeping with the safety of others as well as myself.*
2 *To keep on the right side of the road, except when passing.*
3 *To pass only when I know there is ample time and space—never on blind curves or when nearing the crest of a hill.*
4 *To go through intersections only when I have the right of way.*
5 *To observe all traffic signals.*
6 *To give signals myself that can be clearly seen and understood, before turning or stopping in traffic.*
7 *To drive only when in full possession of my faculties.*
8 *To keep my brakes, lights, and horn in good condition.*
9 *To operate my car on tires which assure a positive grip on the road—safe traction—and freedom from hazardous tire failures.*

# West Texas Golf Tournament Held Here May 21-24

## Directors In Session Name Country Club

### Seven Members Of Executive Committee Meet Here Sunday And Choose Lubbock As Site For Tournament

That Lubbock would be the site of the 1931 championship tournament of West Texas Golfers association was definitely established Sunday, when seven out of town members of the association's board of directors convened here to choose a place and name dates for the annual tourney.

The date war set for May 21 to 24. All tournament play will be held at the Lubbock Country Club course.

More than 300 out of town golfers are expected to be here for the tournament. Headquarters will be the Lubbock Hotel. The 1930 tournament was held at Brownwood and at its close the local club made formal bid for the joust this year. Three other cities, San Angelo, Wichita Falls and Fort Worth, made application at the same time though Fort Worth and San Angelo was not represented at the Lubbock meeting Sunday. The voting went 3 to 2 favoring Lubbock over Witchita Falls. Only five board members were allowed votes.

**Bussey Champ In 1929**

Although Lubbock has been favorably represented in former West Texas tournament this is the first time the annual play-off has been brought here. Lubbock sent a winner in 1929 in the person of Clint Bussey, who defeated a large field for high honors. Bussey was defeater in the preliminaries last season at Brownwood, the honors going to Dennis Lavendar of Abilene, defending champion. Lavendar was champion in 1928 loseing the next year to Bussey.

Arriving in Lubbock Saturday night, the executives played an 18-hole inspection flight Sunday morning and after a special luncheon at the Lubbock Hotel at noon, went into executive session, returning a vote in favor of the Lubbock Country Club.

**To Improve Course**

A resolution was passed by the visiting members suggesting that certain improvements be made at the local course, to be designated in particular at a later time through letters to the local committee and that E. T. Daniel of Idalou be placed in charge of preparations.

Charles Quail, postmaster at Post three times winner of the West Texas championship, was especially strong in his argument favoring Lubbock as the site of the tournament.

Other visitors present Sunday were Allen Quinn of Mineral Wells now serving his third year as president of the association, F. M. Jenkins, secretary of the association, also from Mineral Wells; E. T. Daniels, Idalou; Fred Roberson of Brownwood, Fred Bonner of Witchita Falls and C. R. Polk of Abilene.

## U. S. To Send Track Team To South Africa

NEW YORK, March 16. (AP)—The Amateur Athletic Union today announced plans to send an American track team to South Africa next summer, leaving New York July 8.

The team to be composed of three sprinters, one hurdler, five middle distance runners, one long distance man, a high jumper and a broad jumper will be selected from among the place winners at the A. A. U. championships at Lincoln, Neb., July 3 and 4.

**IMPROVEMENT SLEN**

WASHINGTON, March 16. (AP)—Improvement in the employment situation was seen today by Chairman Woods of the Hoover emergency committee in weekly reports from field agents.

"There is a widespread and maintained disposition for employment conditions to improve," he said, adding it was "proceeding slowly."

## Intramural Cage Season Under Way March 25th

### Fifty-Four Games To Be Played On Schedule

The most extensive intramural program ever held at the local college will get underway March 25, when 16 basketball teams of Texas Tech enter a double round-robin schedule that calls for 54 games during March and April.

Tentative schedules, with dates for the first round, were completed yesterday by W. L. Golightly, varsity cage mentor in charge of the intramural basketball games. Coaches and managers of all the teams were also named yesterday. Workouts are expected to begin at once.

**Four Leagues Take Part**

Four leagues will participate in the lengthy tournament, each with four teams. The various classes in the schools of liberal arts, engineering and agriculture make up three leagues while an Independent League is composed of teams from the college band, Y. M. C. A., bookstore and military corps.

Varsity basketball players will coach the teams, the managers being varsity, freshman and independent athletes.

Following is a table containing the teams, leagues, coaches and managers:

| TEAM | LEAGUE | COACH | MANAGER |

## Gar Wood To Do Speed Run With No. IX Today

MIAMI Beach, Fla., March 16. (AP)—Seventeen events will mark the first day's program of the annual Biscayne Bay regatta tomorrow with major interest centering in the first heat of unlimited outboards for the Colonel E. H. R. Green trophy and a speed run by Gar Wood in his Miss America IX.

Professionals and amateurs have entered the competition for the Colonel Green trophy with the first heat sending the outboards over a distance of 4.5 miles.

Wood will send his Miss America in a trial run against his amphibian airplane piloted by Duke Schiller. The American speedboat king will drive his craft down the center of the course in the race with the plane.

### *Umpires For Western Loop And W. A. Ride In Autos*

TOPEKA, Kas., March 16. (AP)—Umpires for the Western League and the Western Association will make their rounds this year in automobiles Dale Gear, president of both circuits, said today in announcing the list of arbiters for the league and association.

This method of transportating the umpires in the Association last year had saved half the transportation cost, President Gear said.

Umpires for the two circuits announced included:

Western League: W. H. Erwin, of Dallas, Texas; Polly McLarry, Leonard, Texas.

Western Association: James M. Tongate, Waco, Texas; Grady White, Dallas, Texas; and S. A. Davis, Houston, Texas.

### *Bohn Hilliard Withdraws From University Of Texas*

AUSTIN, March 16. (AP)—University of Texas athletic authorities today stated that Bohn Hilliard of Orange, star backfield man on last fall's freshman football squad, had withdrawn from school.

They stated the withdrawal was occasioned by scholastic difficulties and he probably would return next fall. He would not be eligible for football until 1932.

### *Mayoralty Race In Oklahoma City Begins To Warm On Eve*

OKLAHOMA CITY, March 16. (AP)—On the eve of tomorrow's municipal primary six candidates for mayor and 39 for city council were pressing their campaigns to a close while county and election authorities announced everything possible would be done to prevent voting under allegedly irregular registrations.

Warmest interest is centered in the mayoralty race, in which J. C. (Jack) Walton, former mayor and ousted governor, now under federal indictment for mail fraud, seeks to wrest the nomination from a field of five others including the incumbent, Walter Dean; Dan Hogan, labor leader; C. J. Blinn, Dr. J. G. Binkley and Ben Wood.

The race is non partisan.

The two high candidates will compete in the general election April 7.

### *Pampa Cafe Cook Is Charged With Murder After Shooting*

PAMPA, March 16. (AP)—R. T. Nix, cafe cook, was charged with murder today inconnection with the slaying of Noah T. Cornutt, 29, shot to death at Skellytown near here last night.

Cornutt had been given two years for shooting Nix in a leg last fall. He had been away from Skellytown several months. The shooting took place when Cornutt appeared at the cafe where Nix was working, for the second time in a short period.

**TULSA LAWYER DIES**

TULSA, March 16. (AP)—Osborn A. Morton, 59, Tulsa lawyer, member of a famous Indian family and former member of the house of kings of the Creek Indian tribe, died in his sleep during the night.

He was of Creek blood and a grandson of Hilladee Harjo, tribal chief, who was a general officer of Indian troops under Andrew Jackson at the battle of New Orleans in 1812.

**FALLS TO DEATH**

GALVESTON, March 16. (AP)—Mrs. Bon Saline Marshall, 33, wife of W. S. Marshall, was killed by a fall from a third story of a hospital here today. An inquest verdict of suicide was returned.

**Feeling Unwell?**

Above is the likeness of big George Earnshaw, one of Connie Mack's pitching athletes, as he looks today "in training". The lad is not expected to be fit to begin at the start of the season and is undergoing repairs at Hot Springs.

## Meadowbrook Trophy Meet Halts Today

### Leaders In Three-Day Medal Play Kept Secret Until All Scores Have Been Turned In; Gold Balls Given

Today is the last day that qualifying scores in the Meadowbrook Golf club trophy tournament may be turned in. The tournament, opening Sunday, consists of 18 holes of medal play, 10 trophies to be awarded the 10 low scorers. Matched play may began any time after the qualifying scores have been turned in, with no definite time announced, always at the disposal of the players.

Approximately 30 legal golfers shot qualifying rounds Sunday and the number was increased by nearly as many more yesterday. Players who have not turned in a score are eligible today.

Names of the leaders in Sunday's and Monday's play are kept secret until the final score has been turned in this afternoon, but rumor has it that some better than ordinary golf is being played at the course.

Five miniature gold golf balls, numbered, will be awarded the five lowest scorers, the next quintet of low shooters to receive silver balls. They are not given as permanent possessions, though a winner of a trophy may retain same or should he win No. 10 ball he may gain a lower number by defeating his closest opponent. Players who do not win one of the qualifying trophies may challenge a holder of No. 10 and acquire the ball by winning.

Garrison, Louisiana State forward was the high scorer of the first round of the 1931 southern conference basketball tournament in Atlanta, but his team was eliminated.

## Same Nine Works For Connie Mack

## Veteran Pilot Might Use Two New Moundmen

### Athletics' Big Five Hustling After Third Pennant; Lefty Grove, Earnshaw And Co. In Fine Spirits

BY GAYLE TALBOT JR.
Associated Press Sports Writer

FORT MYERS, Fla., March 16.—While several rival pilots are assuring themselves and any one else who will listen that the Philadelphia Athletics are bound to crack this season, Connie Mack is going serenely about his business of getting the same old nine ready for another pennant race.

The patriarchial pilot of the two-time world champions admits he would like to uncover a couple of sure-fire young pitchers, but outside of that he is pretty certain the old vehicle is good for another race or two.

**Big Five Back Again**

There still are the "Big Five"—Grove, Earnshaw, Foxx, Cochrane and Simmons—whose blinding curves and big bats have subdued the baseball world for two seasons. There have been reports that Earnshaw has not been able to get in shape and might not be ready to start the campaign, but whether there is any foundation for the reports, no one in Florida seems to know.

The dealers in inside information, too, have it there will be a shake-up in the somewhat venerable infield of the A's. The 34-year-old Jimmy Dykes, they say, has slowed up to such an extent he may be displaced at third, and Joe Boley's arm no longer is the whip it used to be from shortstop. To all of which Connie Mack merely smiles. There has not been, strangely enough, any intimation that Max Bishop might lose his job at second or the explosive Jimmie Foxx be chased off first base.

**Earnshaw May Come Around**

That the boys are anxious to win a third straight for their 68-year-old manager is evinced by the early arrivals of some of the big guns and the pace they have set in training. Lefty Grove, who contributed 28 victories last season, was one of the first to hit camp. It is felt Earnshaw's hegira to Hot Spring merely was pursuant to a desire to have himself in the pink for the season's start. His 22 wins swung the tide last year.

Providing Grove and Earnshaw enjoy their usual robust health, the pitching situation would appear to revolve about the ability of George Walberg to do a comeback. If he does, there will be nothing for the opposition to do but cheer the three-time champions.

**Rookie Looks Good**

If there is a winner among the big crop of rookies, it appears to be Hank McDonald, youngster purchased from Portland, Ore. He has shown so much ability in exhibition games several managers of rival clubs have predicted he will be a big shot in his first season. Albert Butcher, a 19-year-old right-hander from the independent ranks, also has impressed observers.

**Outfield Intact**

There was never much doubt that Mack would retain his ball-busting outfield intact. Al Simmons, sometimes called the "one-man" outfield, Edmung (Bing) Miller and George (Mule) Haas, will be back at their old stands, despite that fact neither Miller nor Haas burned up the league with their hitting in 1930. Simmons can crack the ball often and far enough for all three.

Mickey Cochrane already has been appointed to the catching staff for another term, with Cy Perkins and a youngster for aid.

The Henley Regatta at Henley, Eng., will be held July 1 to 4 this year.

## Bill Hallahan And Dean Pitch Cards To Victory

### Third Win By Cards Over A's In Series

(By The Associated Press)

BRADENTON, Fla., March 16.—Brilliant pitching by "Wild Bill" Hallahan and "Dizzy" Dean featured the St. Louis Cardinals' 7-4 victory over the world champion Philadelphia Athletics this afternoon. This was the Cardinals' third victory in the 4-game spring "world series."

Dean's pitching was more sensational than that of Hallahan, who like Dean shut out Connie Mack's men in his three innings on the mound. The Cardinals made fourteen hits off Rommell, Walberg, and McDonald, a rookie.

**STEER YANNIGANS WIN**

CORSICANA, Tex., March 16.—The Yannigans defeated the regulars of the Dallas Steers, 5-4 today. Nick Borelli put the Yannigans in the lead in the eighth inning when he hit a long home run with one on.

**BABE AND TONY SET PACE**

ST. PETERSBURG, Fla., March 16.—With Babe Ruth and Tony Lazzeri setting the pace, the New York Yankees walloped the Boston Braves 8-6, today for their fourth victory in five starts against the National leaguers.

The Babe connected only one in five times at the plate, but the hit was a double and was delivered with the bases loaded. The blow was actually of home run proportions, but the Babe merely trotted around to second. Lazzeri helped the cause of the Yanks with three doubles.

**WHITE SOX RELEASE TWO**

SAN ANTONIO, Tex., March 16.—Two more players, infielder John "Blondy" Ryan and Catcher Victor Siegel, were released by the White Sox today. Ryan, former Holy Cross College star, was sent to Atlanta on option while Siegel probably will be placed with some three Eye League club.

**BUFFS TO COLLEGE STATION**

HOUSTON, March 16.—The Houston Buffs leave here tomorrow for College Station, where tomorrow and Wednesday they will take on the Texas Aggies in a two-game series. The entire Bison squad will make the trip, with the exception of Pete Fowler and Bob Durham, pitchers, who are on the casualty list.

The Buff game with the Kingsville Mopacs was washed out Sunday, but it did the Houston nine no harm. Manager Schultz has kept his boys going at a fast clip and the team is in splendid conditions.

Byron Lackey, Aggie catcher last season, is due work one of the games for the Buffs.

Four more rookies were cut from the Houston squad Monday. They are Gil Johns, infield; Jim Lettts and Charles Cramer, outfielder, and Deakin, pitcher.

**STEENGRAFE NOT WITH SPUDS**

WICHITA FALLS, Texas, March 16. Milton Steengrafe, of Oakland, Calif., curve ball ace of the Wichita Falls Spudders, failed to arrive in camp today, the deadline set by Prexy Huff for the appearance of his holdovers, and it was reported the right-hander was a holdout. Steengrafe is the only missing player, Bear Allday, second baseman, having reported late today.

**SHERLOCK TO HOLLYWOOD**

SAN DIEGO, Cal., March 16. (AP)—Jack Sherlock, Philadelphia Nationals' infielder, was purchased today by the Hollywood club of the Pacific Coast League, in training here.

**RAIN INTERFERES**

WEST PLAM BEACH, Fla., Mar. 16.—Rain today prevented the St. Louis Browns from playing their scheduled exhibition contest with the Philadelphia Nationals. Walter Stewart, the ace of Bill Killefer's mound staff, probably will make his first appearance in a game this season when the Browns and Phillies met Wednesday at Winter Haven.

**ALL SPORTS IN BUT TWO**

SHREVEPORT, La., March 16.—All members of the Shreveport Sports baseball club were in camp today with the exception of Outfielder Welsh and Catcher Hill, obtained from Mobile, and a few youngsters. The squad was divided, the youngsters working in the morning and the more experienced players in the afternoon. Intra-squad games will start next Saturday but Skipper Jakie Atz said he might have a four-inning battle Thursday.

**GIANTS RALLY TO BEST**

SAN ANTONIO, March 16.—After seeing an early lead fade, the New York Giants came back in the tenth inning to score three runs and defeat the Chicago White Sox 9-6 today.

The Giants counted six runs in the first eight innings while Clarence Mitchell, the spitball southpaw, and Morrell held the Sox scoreless for six frames. In the seventh inning, the American Leaguers started, however, and before Bill Walker's team scored John Berly, up from Rochester, was the victim of the Sox's attack.

In the tenth Lindstorm, Jackson and Ott bunched their hits for what proved the winning runs and thus evened the series.

## Berkeley Bell In Third Net Round

NEW YORK, March 16. (AP)—Jean Borotra and Christian Boussus, leading French contenders, joined Frank Shields and Clifford Sutter, the top seeded Americans, in the advance to the third round of the men's national singles indoor championship tournament in the second day's play today.

Borotra defeated Lieutenant R. W. Watt, jr., New York, 6-2, 6-2, and Boussus put out Ernest H. Kuhn, New York, 6-3, 6-3.

Berkeley Bell, Austin, Texas, also entered the third round, beating Walter Swaybill, New York University, 6-4, 6-2.

### *Dallas Steers To Play Under Lights This Year*

DALLAS, March 16. (AP)—Sol Dreyfuss, president of the Dallas Texas League baseball club, today let a contract for a $30,000 lighting system for use during night games this season. Work will start Tuesday, and it will be ready for use within 30 days, Dreyfuss said.

Bob Tarleton, business manager of the club, said the Houston Buffaloes make their first 1931 appearance in Dallas.

## The NUT CRACKER

### Mr. Heydler's Conclusion That New Ball Will Make Closer Scores Is Verified By Robins

BY JOE O'GOOFTY
Former Big League Pitcher

BRADENTON, Fla., March 16.—The new baseball is going to bring about more scientific play. John Heydler, president of the National League, told me here the other day at the Cards' training camp.

"You will see more close battles," Mr. Heydler explained, "in which one run either way will spell victory or defeat."

With the idea of seeing what this "scientific" baseball was all about I journeyed to the camp of the Brooklyn Robins, at Clearwater. Uncle Robbie was having a practice game between his Yannigans and the Regulars. He was using mostly south paw pitchers to give his left-handed batters a chance to get acquainted with that kind of pitching.

Mr. Heydler was right about that one-run stuff, I guess. The final score for five innings was 27 to 26.

Babe Herman was batting third for the Regulars and Lefty O'Doul was hitting fourth. Between the two of them they popped 13 home runs over the right field fence, new ball and all.

Most of the homers these two pop fly hitters got were off left-handed pitchers, which makes it look like

Robbie wants to win a few games from Hallahan, Sweetland and Jakie May. That would be a novelty in Brooklyn.

I asked Senior Adolfo Luque if he noticed any difference in the ball this year. The senor was pitching for years before the ball ever was made lively. The senor said he didn't see any difference.

"She hop jussa same," said the senor.

# For Ginger's Sake

(Continued From Page 4.)

rible silence which Pat's low weeping seemed only to emphasize, but it was broken in a moment by little Angelo who dived headlong under the table with a piercing cry.

"The Mafia!—It's the Mafia!"

But no one noticed little Angelo.

Phil crep timidly up to her husband, "Alfred," she said pleadingly, "I—I don't believe it, do you? It can't be so. Such things don't happen—not in places like this—not to people like us! It must be some horrible joke."

But no one could speak a word of comfort. The conviction was settling grimly upon them that it was no joke. Such a thing had happened.

* * *

For a few minutes they gave themselves completely over to the hysteria of fear. Patty wept without ceasing, Cotton clung to Speed's hands, peering timorously about as if in dread of personal assault. Jenky huddled the helpless Benny into her arms as if to assure him that he, at least, was safe. Even the staunch Phil cowered close to her husband.

But the physical act of reassuring the women forced an appearance of confidence upon the men. They mumbled soft, soothing words, patting their shoulders, caressing their hands, while only their set lips and strained eyes betrayed their own tense feelings.

Under the table little Angelo prayed unintelligibly, while Benito set himself nervously to straightening the already immaculate room. But Pietro went straight to the cellar for a bottle. Half way up the stairs, however, he paused and frowned. He had forgotten Mr. Tolliver. Pietro did not understand the curious habits and inhibitions of ministers and middle westerners and such types, but he felt vaguely that there were certain formalities that must be complied with.

He went down cellar again and got six bottles of ginger ale and hurried up with them.

"See here now," he said, entering with his tray of glasses, "a little nice fresh—ginger ale"—he sighed a little—"nice fresh ginger ale—set you up in no time. Good for the nerves—I surely hope so."

"Yes, take it, Phil," said Mr. Tolliver, when she shook her head in impatient refusal. "Pietro is right. It may not mean much to our nerves, but just doing anything helps to settle one's mind."

* * *

Solemnly, as if it were a rite, they drained their glasses, and immediately Phil, in the way she had of impelling herself to easy action, ran both her hands through her hair and smiled.

"Come, come," she said, "what children we're acting. We must put our heads together and figure this thing out. Eddy, pull that poor child out from under the table! Now, help me, darlings. What shall we do first?"

"Miss Phil," whimpered the lad, thus forced into the limelight, "I want to go back to my mother. I don't want to stay here any longer. The Mafia's going to get us."

"Don't be silly," said Phil kindly. "The Fafia, or whoever it is, has already got the one they want. Give him some of your—Italian grape juice, Pietro. He needs bucking up. Alfred, shall we call the sheriff and put it in the hands of the police?"

"Miss Phil, excuse me," interrupted Pietro humbly, "but it says particular not to notify the police. They're a nosey lot, the police, and like as not they'll stir up more trouble than we've got now."

"I suppose we shall have to report it," said Mr. Tolliver.

"Excuse me," said Pietro stiffly and left the room at once.

"Now this must be understood, first and foremost," said Phil firmly. "We're going to get that money as they directed, and turn it over to them on demand, with no trickery. The thing we're after is Ginger, and we're going to take the surest way of getting her."

* * *

A sudden crash in the cellar startled them, the beating of a hammer, the splintering of wood, breaking of glass.

In foolish, hopeful expectancy they ran down, crying out, crowding and pushing, anticipating they knew not what, but impelled by a wild fancy that they might find Ginger. Halfway down the cellar stairs they drew back, staring.

Pietro with a small stout ax was working havoc with kegs and barrels, smashing bottles without ceremony. A stream of thick dark fluid stained the floor with little running rivers, and a pungent fruity odor swept up to them. Pietro looked up but did not cease his work of demolition.

"Nothing," he panted. "Nothing. Harmless Italian—grape juice—but these prohibition policemen—they've got no discrimination. First thing you know—they say—bootleggers. Clap us all into jail."

Faintly amused in spite of their anxiety, they trooped dispiritedly back to resume their discussion of plans.

"We must do nothing to frighten them," said Phil, "or Ginger will suffer for it. I say we keep the whole thing a complete secret, get the money for them and hand it over whenever we are told."

"But, my dear girl," said Mr. Tolliver, "we have a duty to society, you know. These men are dangerous criminals. They must be caught and brought to justice.'

"At the cost of Ginger's life?" demanded Phil. "Let the police take care of society! Let the state look out for its criminals! That is what he pay taxes for. Our only concern is—to get Ginger."

## Man And Foster Daughter Slain

EDINBURG, March 16. (AP)—C. D. Walker, 30, and Christine Moss, 14, his foster daughter, both of San Juan, died in a McAllen hospital today of wounds received in a shooting in the Walker home late last night. They were shot through their chests with a large calibre rifle.

Mrs. Walker told officers she, her husband and the girl had returned from a trip to Reynosa, Mexico, a few minutes before the shooting.

The Moss girl spent a part of her time with the Walkers and the rest with her grandparents, Mr. and Mrs. L. O. Patillo.

Lisburn, Northern Ireland, is to open classes for unemployed persons under 21 years of age. They will be started at once. Instruction for both boys and girls will be provided and the subjects will be chosen with a view to training for vocations.

## KONJOLA VERY REMEDY NEEDED

**Day By Day, Everywhere This Medicine Is Known New Victories Are Reported**

"Konjola is the medicine I should have had in the first place". Tens of thousands of men and women have said that. Profit by their experiences; be guided by what these thousands say of this medicine of 29 ingredients 22 of which are the juices of roots and herbs.

Mrs. Ada E. Carman

Read the statement of Mrs. Ada Carman, 801 Houston street, Fort Worth: "I suffered for years with rheumatism in my lower limbs. Kidney and bladder weakness worried, and constipation brought on headaches and dizziness. In my experience there is no medicine to equal Konjola, for I have not a trace of rheumatism or constipation."

And consider what Konjola did for Mr. William Davenport, 912 Monroe street, Fort Worth: "This splendid medicine gave me relief from rheumatism after I had about given up hope. I had stomach and kidney disorders too, and I could not find anything to help me. Konjola was recommended, but I was skeptical. But results were amazing. In less than a month all pain vanished, and today I feel better in every way".

Mr. William Davenport

And is there not encouragement in the statement of Mrs. James F. Ferguson, 504 E. Rippy street, Ft. Worth, who declares: "For thirteen years I suffered dreadfully with stomach trouble. Pains followed the simplest meal, while heartburn, dizziness, nausea and headaches were daily occurences. But today I am like a different person. All trace of illness is gone, and I eat heartily."

Mrs. James Ferguson

Konjola contains no alcohol, no nerve-deadening drugs, no heart-depressing chemicals. It needs no such ingredients. Buy Konjola in any drug store, and do not accept a substitute.

# Cotton Firm Undertone Is Developed — Livestock Price Declines Are Seen Monday — Grain Grain Sorghums Show Stronger

## Cotton

NEW ORLEANS COTTON

NEW ORLEANS, March 16. (AP)—After a rather tame start, cotton developed a firm undertone today, and trading became active as the morning advanced. There was heavy short covering, and loss orders were uncovered on the scale up. Cables were favorable, and the Egyptian markets advanced heavily on a reported low stage of water in the River Nile. Silver also advanced sharply, and reports from the cotton goods markets claimed sales last week were 50 per cent in excess of production.

The advance was also helped by reports of torrential rains over the week-end in South Texas making extensive replanting necessary. The advance carried prices up 26 to 28 points above Saturday's close. In the early afternoon there was a recession of 6 to 8 points on realizing. The market later ruled steady, within the previous range but showed a tendency to improve on the good experts. The close was steady within 4-8 points of the best, the general market showing net advances for the day of 22-23 points.

NEW YORK COTTON

NEW YORK, March 16. (AP)—Cotton was on the upgrade during the greater part of today's session as a result of a show of firmness in the Liverpool and Egyptian markets and on evidences that the recent liquidation had brought about a stronger technical position, leaving the market with comparatively few contracts available. May at one time was up 28 points to 11.11 but later declined to 11.04 under realizing, closing at this level with a net advance of 21 points. The general market closed steady at 20-24 points higher.

The demand from textiles was said to have been somewhat less active during the early days of last week, but according to leading commission houses sales recently have been of quite satisfactory volume.

## Scout School

(Continued From Page One)

Jennings will serve as senior patrol leader. A troop scribe also will be selected.

**Clapp Is Instructor**

Commissioner Clapp at Tuesday night's class will treat methods of instructing new scouts in tenderfoot requirements and patrols will receive instructions and practice in some of the requirements, the method followed being an effort to make a game rather than work of the qualifying tests.

"The Scout Objectives and Program" will be presented by George W. Dupree, chairman of the court of honor of the Lubbock scout district.

A meeting will be held weekly at the same hour and place of as those of the first session for five weeks. An outdoor night meeting probably will cap the training course.

## Reimbursement

(Continued From Page 1)

boll worm extermination were unanimous in saying that fumigation and sterilization cost the farmers from one to three dollars per bale. Blackford said the farmers in that area received less for their cotton seed than in any other section of the state.

Carl Rountree of Lamesa, former member of the house, said there were few pink boll worm in the Big Spring, Lamesa and Midland section and that climatic conditions there were such that little harm would be done to the cotton crop locally. He stated the farmers there had observed the restrictions in order to protect other cotton producing sections.

Rountree said the laws did not say the farmers should be reimburser, but that it had been a state policy to do so when restrictions were made to keep down large scale infestation of crops.

He stated farmers asking for refunds would be required to make out certified statements before receiving their money.

Rountree stated he considered the claims as debts which the state "actually owed."

LOSS IS SUSTAINED

HEBRONVILLE, March 16. (AP)—The Barrera two-story brick building was destroped by fire with an estimated loss of $5,000 today. Volunteer firemen carrying water in buckets prevented the flames from spreading to adjoining property. Part of the fire equipment of Laredo, 65 miles away, responded to a call for assistance.

## Markets At A Glance

NEW YORK, March 16. (AP)—Stocks strong; several utilities at 1931 peaks.
Bonds firm; industrials higher.

Foreign exchanges irregular; Shanghai improves on strength in silver.
Cotton higher; firm foreign markets and higher bar silver.
Sugar lower; easier spot market.
Coffee easy; disappointing Brazilian cables.
CHICAGO: Wheat firm; cold weather Kansas and large decrease Canadian visible supply.
Corn firm; forecast unsettled weather and small country offerings.
Cattle lower.
Hogs lower.

## Government Turnover Monday Holds Little Effect On The Stock Market

BY JOHN L. COOLEY
Associated Press Financial Writer

NEW YORK, March 16. (AP)—Although the turnover in stocks today was the smallest since early February only 2,100,000 shares—the tone was distinctly encouraging to those who had regarded the market as entering a critical stage.

The trend was upward all day. There were a few interruptions and false starts, especially in the forenoon when rails looked rather heavy, but the utilities eventually provided decisive leadership, and net gains averaged a couple of points.

Off the stock exchange, the most important development was the strength of silver bullion, which advanced 1 1-8 cents to 31 3-8 cents an ounce. It was exactly a month ago that the all-time low of 25 3-4 was reached.

The three billion dollar turnover in funds attendant upon the government's quarterly financial operations caused not a ripple. Call funds were in abundant supply at the unofficial rate of 1 per cent, despite some withdrawals by banks participating in the overdraft.

## Alvis Graves

(Continued From Page 1)

have lived in the county from four to forty years.

Indications were that the state would ask the death penalty for the defendant, who is under another murder charge as the result of the death of Robert Averott in the same shooting. He is also facing charges of intent to murder as the result of the wounding of another man, a woman and a small girl. Every veniremen examined by the state was questioned in regards to whether he had conscientious scruples against the infliction of the death penalty in murder cases. Eleven men were excused by the state for this reason.

**Self Defense Plea**

Self defense is to be the basis of the not guilty plea of Graves, the defense counsel revealed. Practically every man examined was questioned as to his belief in the law of self defense, whether they believed a man had the right to take a life if he thought his to be in danger. The defense excused several veniremen due to opinions formed as to the guilt or innocence of the defendant.

Graves sat in the courtroom throughout the day and appeared to be interested in all questioning. His face evidenced the two months of confinement. He soked cigarets almost incessantly. Seated near him were two of his brothers, Charles, of this city, and Roy, of Post. They conferred with defense counsel at various times as did the defendant.

**Interest Is High**

Interest appears high in the trial, the court room being crowded throughout both the morning and afternoon session yesterday. Court attaches said this was probably accounted for by the fact that Graves has lived practically all of his life within the confines of the city and to the fact that this is the second double slaying case in the history of Lubbock county.

Graves is charged with the shooting of the two men and the wounding of three others on the night of January 11 at a house dance at the home of E. D. Chadwick, 2107 8th street. The shooting is said to have climaxed an argument between Graves and Smith.

The defendant has been held in jail without bond after being arrested in Post the next morning at the home of a brother.

### *Pecos Business Man Seeks To Organize Highway Association*

PECOS, March 16 (AP)—H. P. Davis, Pecos business man, left here today for a fifteen day trip to cities and towns along the Bankhead highway between El Paso and Pecos, for the purpose of organizing a West Texas Bankhead Highway association.

Davis represented interested business men in Pecos and other towns along the route. Primary purpose of the proposed organization, he said, will be to boost the bankhead route.

## Livestock

MIDDLEWESTERN LIVESTOCK

KANSAS CITY, March 16. (AP)—Packers took advantage of liberal cattle receipts around the eleven market circuit to enforce moderate to sharp price declines. Fed steers were tendered a jolt of 25-50c with the maximum decline on the better grades. Light yearlings and she stock ruled weak to 25c lower with a fair demand for fat light yearlings. Chicago had a top of 10.25 on fed steers with other well-finished lots at 9.25@10.00. Good light Oklahoma fed steers in Kansas City cashed at 8.00. The majority of light mixed yearlings and fed heifers sold downward from 8.00. Stockers and feeders ruled steady to 25c lower with demand fairly broad for the better grades of thin stockers, aggregate receipts estimated at 75,000 were 30,000 heavier than a week ago.

FORT WORTH LIVESTOCK

FORT WORTH, March 16. (AP)—Hogs—1,000; tail hogs 10-15 lower; top 7.80 for good 210 lb. butchers. Truck hogs 10-15 higher; to 7.40. Bulk medium to choice 170-240 lb. truck hogs 7.25@7.35.

Cattle — 4,000; including 500 calves. Slaughter steers weak to 25c lower. Bulk 5.40@7.15; other classes steady. Several sales yearlings 7.00@7.75. Few cows up to 5.00; butcher grades 3.25@3.75; better heavy calves 6.50@7.00.

Sheep — 5,000; wethers and yearlings weak to 15c lower; lambs steady; medium shorn lambs 6.00@6.75; yearlings 5.75@6.00; two-year-old wethers 5.25.

### *Three Youths To Be Returned To Texas For Murder Counts*

ST. PAUL, Minn., March 16. (AP)—Governor Floyd Olson today granted the request of the governor of Texas for extradition of three youths held at Buffalo, Minn., wanted on first degree murder charges for the death of an oil station operator near Little River, Texas, last February.

The youths are Willard and Harold Birkholz, 18 and 19, respectively, and Eddie Ordham, 19, all of Howard Lake, Minn. Sheriff J. R. Gigham of Bell county, Texas, and a private detective will take them back to Texas.

### *Slow Progress Seen In Trial Of Alleged Chicago Slayer*

CHICAGO, March 16. (AP)—Widespread heralding of "Jake" Lingle's assassination last June and the host of events piled in its wake proved a barrier to rapid selection of jurors today for the trial of Leo V. Brothers, charged with slaying the Tribune crime reporter.

At the end of the day only ten veniremen had been questioned—three being tentatively accepted, six excused for cause or by peremptory challenges, and one still was on the stand as court adjourned. The three tentatively in the box were Frank J. Ellerman, Herman Isaacson, and Edarwd J. Brown.

### *Land Owners Favor Vote On $200,000,000 Bond Issue*

PECOS, March 16. (AP)—A resolution favoring submission by the legislature to the people of the proposal for a $200,000,000 state bond issue was unanimously adopted today at a meeting of the West Texas Land Owners' association, called by President L. W. Anderson of Pecos.

J. C. Hunter of Abilene explained the terms of the Wagstaff-Small land bill passed by the legislature last week. He said it was not operative for the individual landowner until the latter had validated his title to mineral rights by payment of a cent per acre. Hunter urged county chairmen of the association to explain the procedure to citizens of their counties.

### *Emergency Appropriation Bill Of $5,000,000 Recommended*

AUSTIN, March 16. (AP) — Rep. Laird of Lufin today introduced an emergency appropriation bill to appropriate $5,000,000, or as much as needed to maintain the per capita apportionment for state aid schools at $17.50.

Laird said he had been informed by S. M. N. Marrs, state superintendent of education, that unless additional funds were provided for the per capita apportionment for the next two years would have to be reduced to $14.

CITY IS SHAKEN

SIOUX CITY, Ia., March 16. (AP)—With ten terrific explosions that shook the city for blocks around, the gasoline storage plant of the I Miller Oil company, near the business district, was destroyed by fire here today. Damage was estimated at more than $50,000.

The fire, which started at about 1 o'clock this morning, was expected to continue into the night. Eight companies of firemen were on duty.

CONVENTION OPENS

CORPUS CHRISTI, March 16. (AP) Corpus Christi today completed plans to entertain approximately 4,000 visitors expected to attend the annual convention of the Texas and Southwestern Cattle Raisers' association which opens tomorrow. It will continue three days.

Barley, No. 2 56@57c.
Sorghums, No. 2 milo per 100 lbs. 1.23@1.35; No. 2 kaffir 1.20.

CHICAGO GRAIN

CHICAGO, March 16. (AP) — Grains tightened up today after wheat had again outdone the season's bottom-price record. An early downward swing of wheat and corn was associated with increasing stocks of wheat visible supply. Oversold conditions in the Chicago wheat market became apparent, however, and corn displayed independent strength. smaller shipments of corn to Chicago from other terminals being expected.

Wheat closed firm, unchanged to 5-8 cents higher, corn 7-8 to 1 1-2 advanced, oats unchanged to 1-4 up, and provisions unchanged to a rise of 20 cents.

## Battered Body Of Young Girl Found

CONEMAUGH, Pa., March 16 (AP)—The battered body of Betty Mowry 7, missing from her home here since last Friday, was found today under the attic floor of the home of Harry Starchok, 28. The skull had been crushed.

Mrs. Matthew Swab, coroner of Cambria county, said the child had been assaulted.

The girl's hand were tied behind her, the body badly beaten and bruised, was partly wrapped in burlap.

Starchok, who is 28 and married, was arrested and taken to the village police station. A lager crowd gathered about the jail, and police rushed him out the back door to the jail in Johnstown, two miles away.

Starchok's wife, 22, was taken into custody after the arrest of Starchok, and was held without bail.

### *Robber Commits Suicide After Holding Up Bank For $1,300*

SILVER CREEK, Miss., March 16. (AP)—James Prestridge, 40, shot and killed himself today four hours after robbing the Silver Creek State bank of approximately $1,309.

Prestridge was arrested following the holdup and confessed the crime. He asked permission to stop at a house and, while deputies awaited his purported mission of giving instructions to a former negro employe, Prestridge shot himself in the head.

### *Federal Oil Conservation Board Will Allow Hearing*

WASHINGTON, March 16. (AP)—Secretary Wilbur today wired C. I. Murray, chairman of the oil states advisory committee, informing him the federal oil conservation board would give his group an open hearing in Washington early in April.

The secretary's telegram was in reply to one received from Murray advising him the advisory committee would hold a conference here March 30.

Secretary Wilbur suggested the committee prepare an agenda covering topics they wish to bring before the board.

### *Corporation Income Taxes To Show Decrease During 1930*

DALLAS, March 16 (AP)—George C. Hopkins, collector of internal revenue for the northern district of Texas, said today the collection of corporation federal income taxes for 1930 would show decreased earnings during the last year. He said he was not permitted to reveal exact figures on the number of returns filed or the amount of collections, but such figures would be announced in Washington. He was unable to say today whether individual taxes reflected a decrease, but predicted it would not be so great a proportion as that of corporation earnings.

STERLING SIGNS

AUSTIN, March 16. (AP)—Governor Sterling today signed a bill validating drainage districts. He also approved the bill by Representative Pope of Corpus Christi allowing that city to pledge the assets of its gas plant to rebuild the Mathis dam.

BODY NOT IDENTIFIED

PRESIDIO, March 16. (AP)—Sheriff Joe D. Bunton of Presidio county announced today the body of a man found in a well March 3 near Presidio, had not been identified.

He said "contrary to former reports the body had not been identified as R. M. Lewis, since Lewis was found alive."

SEVERAL INJURED

BRISTOL, Pa., March 16. (AP) — Several persons were seriously injured tonight when the last four cars of Pennsylvania railroad train number 230 bound from Philadelphia to New York plunged over an embankment a short distance east of the station.

PRISON MAY PRINT

AUSTIN, March 16. (AP)—The resolution by Rep. Graves of Georgetown proposing to let the prison printing plant do at least part of the state's printing was voted a favorable report today by the senate committee on printing. The resolution had passed the house.

MASON WOMAN SHOT

MASON, March 16. (AP)—Miss Ida Eckart, 42, died today after accidentally shooting herself with a 22 calibre rifle. She is survived by her parents, Mr. and Mrs. C. E. Eckert, and several brothers and sisters.

The strength of the British Territorial Army now is 6,531 officers and 127,282 other ranks, a decrease of 85 officers and 1,875 other ranks in a year.

## NEWS BRIEFS

**The 2,300 foot level has been passed** by the bit in the Texas Consolidated-Texas and Pacific Coal and Oil No. 1 E. H. Jones, in northwest Gaines county. It is located in section 4, block A-8, Gaines county near the New Mexico line and is a pure wildcat. Formation is anhydrite, which was found at 2,120 feet.

## Market Week

Continued From Page One.

er season ahead of us."

**Better Class Sold**

Other salesmen were not so optimistic. Some frakly said "business was bad." On the other hand quite a few men were of the opinion that the general tone was such that it indicated conditions are swinging toward better days.

Said a woman sales agent, "don't let people fool you—the people are buying better class goods. I know it, for in my line we are not having any calls for a cheaper line—even if we had one. But in all lines I find that since the holidays there has been a stronger demand for the better class of merchandise."

Most of the salesmen are pointing out the fact that wholesale prices in a way are "off" what they were a year ago. This, while it works a hardship for the salesman on commission, is counterbalanced for the house by the decrease in overhead expense.

**Goods Are Better**

But the chief thing about the lower wholesale price is the fact that goods are better for the same money. Wholesale prices of, say last year when items were from $40, $60, $75, $90, $180 and $150 per dozen, are seen this year with the $40 class down to about $30; the $60 goods are selling for $40; the $75 for $60, and so on.

Women's dresses are found in a profusion of colors and styles. There is no one leading color — they all lead. Printed goods are preferred to the plain and the pastel shades vie with brighter hues. Skirts are several inches longer, there are more dresses with long sleeves and half-sleeves than no sleevs.

Shoes are reflecting the coming season. A basket weave is popular. White shoes are finding more favor, also cloth shoes that can be washed with soap and water.

**Cotton Goods Popular**

Cotton materials are being sold more widely than in recent years. Apparently, according to the salesmen, the women of Texas are seeking to give the cotton grower a better break than he has had in several years.

Hats are brighter in color, have more brims and are better made.

Take the ties for men. One salesman had hidden away four or five patterns that would stop a train a mile away. But his main stock consisted of small patterns, neat figures, just the kind that the average conservative man would feel like wanting a dozen at a buy.

Tuesday is expected to be a banner day for the market week. A large number, probably around 200, were here Sunday. Monday's attendance was less than that in the morning and then later in the day, in excess. Late in the afternoon a number of out-of-town buyers came from a distance. They plan to spend today here and to stay for the style show and return home Wednesday morning.

The number of exhibitors yesterday increased to 80. Previously it had been expected that only about 60 firms would appear here.

**New Firms Arrive**

New firms included the following:

Ready-to-wear—Movietone Frocks, San Antonio; M. C. Shaprio, Los Angeles.

Millinery — Andrew L. Johnson, Los Angeles.

Shoes—B. Rosenberg and Sons, New Orleans; Sohl Shoe Co., St. Louis; Central Shoe Co., St. Louis; McElroy-Sloan Shoe Co., St. Louis; James Shoe Co., Milwaukee, Wis.

Novelties—S. M. and R. Co., Chicago.

Men's wear—Reese and Reese, Neckwear Co., Omaha, Neb.; Sexton Mfg. Co., Fort Worth; Fine and Levy, Inc., New York City.

Wash dresses—Lowenbaum, Mfg. Co., St. Louis; Feldt Sheinberh, Houston; Mormandin Brothers, Los Angeles; Maxine Barham Frocks Co., Wichita Falls.

Pajamas—The Faultless Mfg. Co., Baltimore, Md.

Ladies' gloves—Fear and White, New York City.

Leather goods — Nocona Leather Goods Co., Nocona.

Stationery — Blackwell Wieland Co., St. Louis, Mo.

THEATER IS ROBBED

NORFOLK, Neb., March 16. (AP)—Two robbers held up two employes of the Granada Theater here today and escaped with approximately $1,500. The robbers were in the theater more than two hours.

Members of the Style Show committee of the Lubbock Chamber of Commerce are anxious that the dance palace be packed to capacity tonight. A few hundred tickets have been reserved to sell locally, in addition to a large number sold to local merchants for distribution among their best customers, and tickets sent out to retail merchants over West Texas and Eastern New Mexico. Tickets may be obtained at several local drug stores, at the Chamber of Commerce office, or at the door at the Uptown dance palace tonight.

## Dog Credited As Life Saver

### Animal Leaps On Assassin As He Opens Fire On Russian Official; Is Dangerously Wounded By Bullets

TOKYO, March 16. (AP) — Police credited a dog with having saved the life of a high soviet official from an assassin here today.

The intended victim, Paul Anikeieff, soviet commercial counsellor here and chief of the trade delegation handling the Japan-Russian fisheries dispute, was wounded dangerously. He probably would have been shot to death, police asserted, had not a dog belonging to a Japanese neighbor interferred.

Nobukatsu Sato, 34, later surrendered declaring he was responsible for the shooting.

Anikeieff, en route to the Russian Embassy, had just turned his car from the driveway of his home when the assassin leaped onto the machine and opened fire with a small automatic pistol. Two bullets struck the Russian before the dog leaped at the assassin. The man swung on the dog, sending two shots into its body, then returned to Anikeieff. The Russian received the last bullet in his chest.

Sato is a Japanese with a Russian wife. He formerly was a Vadiostok merchant, having returned, he said, to Japan 18 months ago because the Russians did not give him a "square deal."

Physicians said Anikeieff probably would recover.

tor were missing.

**Ice Delays Progress**

The three ships trying to reach the scene were the Imogene, of the same company as the Viking, a steel vessel, the government tug Sagona, and the salvage steamer Foundation Franklin. They were believed to be crushing their way through ice which at this time of year is heavy in that region.

Horse Island is in the midst of the thick ice accumulation, all but impossible of access at this time of the year. C. W. Bowring, head of the owning line, said tonight he felt the sealer Imogene, because of her power and special equipment, might be able to reach the Viking before the other craft.

Canadian government officials at St. Johns received two dispatches from Horse Island, the first being made public, the second causing adjurnment of the Newfoundland assembly. The contents of the second message were not divulged.

The relief ships were dispatched almost immediately thereafter. The distances are many hundreds of miles and the going is slow and laborious.

The Viking was equipped with wireless, but this probably had been put out of commission by the blast which Mr. Bowring said "undoubtedly was caused by ignition of powder in the hold."

## Outbreaks

(Continued From Page 1)

"If it becomes necessary to repudiate such leadership to prevent this tragedy, it should be done, for this is the time when the democratic party must establish a new economic system as its dominant issue."

**Statement Interpreted**

The Johnson statement was promptly interpreted as a suggestion for another republican president candidate than President Hoover.

"The republicans in command of the party machinery may jibe and jeer," said Johnson, "but let them take stock of the republican party. Less than six months have passed since New York was lost to republicans by three quarters of a million votes, and Illinois by a like number; since Massachusetts and Ohio, the cradle of republican presidents, repudiated republicanism; since Kansas, the rock-ribbed Gibraltar of the republican party, defeated even the acknowledged spokesman of the president.

"If politics only are to be considered, let my republican brethren reflect that something is radically wrong somewhere. Somebody should ascertain what it is."

ally was "the Irishman who drove the snakes out of Ireland." Whatever his ancestry, he exhibited Hibernian traits. Sold into slavery in Ireland when 16 years old, Patrick escaped after six years' servitude and went to Gaul where he became a monk.

Returning to Ireland as a missionary, he converted the druids to Christianity, according to tradition.

St. Patrick also is the patron saint of schools and colleges of engineering throughout America.

GOVERNMENT DEFEATED

LONDON, March 16. (AP)—Ramsay MacDonald's government was defeated by four votes in the House of Commons tonight on a clause of the electorial reforms bill abolishing university constituencies. It will not resign.

# Missing Woman Being Sought

### Chicago Police Follow Three Leads In Efforts To Find Norma Newby, Missing Since March 2

CHICAGO, March 16. (AP)—Three leads were followed by police today in their efforts to solve the mystery surrounding the disappearance of Miss Norma Newby, 37, who has not been seen since March 2 while motoring with Frank J. Murray.

Murray, who had been friendly with the woman for 17 years, claimed they were accosted by two holdup men who forced him to drive to the Elk Grove forest preserve where they beat him into unconsciousness, kidnaped Miss Newby and stole his automobile.

The first lead was the discovery of bloodstains, a razor blade, and a woman's handkerchief on the Itaska Country club golf course.

The second lead was a report made of an unidentified woman who claimed she saw Murray walking through the preserve at the time he claims he was unconscious.

The third came in the form of a telegram from Sheriff A. G. Albright, of Newport, Ark., who notified authorities here that a woman going under the name of N. Gildae would be found in lower berth 7 of a pullman arriving in New Orleans at 6 a. m. today. Chicago police communicated with authorities of the southern city.

C. A. Don Weilenman, president; Riley Millard, vice-president; Houston Hinson, treasurer, and Wiley Loughmiller, secretary. Others present besides the regular cabinet members were Roy McCullough, former Y. M. C. A. secretary here, and J. I. Kilpatrick, chairman of the Y. M. C. A. board.

Plans for the spring term as well as for the next school year was the main topic of discussion. The new officers probably will be installed during the first or second week of the next term.

# A COLLEGE COLUMN

By MARSHALL FORMBY, TECH CORRESPONDENT

### EXAMS CONTINUE

Final examinations for the winter term in Texas Tech will continue through Friday. The tests which are two hours in length began yesterday morning. No exams are scheduled for Saturday.

Several new students are expected to be here when the spring term registration begins Monday. Classes for the spring term probably will begin Tuesday morning at 8 o'clock.

The exam schedule for today follows:

From 8-10 o'clock all classes meeting from 12-1 o'clock on Monday, Wednesday and Friday.

From 10:30-12:30 o'clock all classes meeting from 10-11 o'clock on Tuesday, Thursday and Saturday.

From 2-4 o'clock this afternoon all classes meeting from 1-2 o'clock on Monday, Wednesday and Friday.

### MAKES RECOMMENDATIONS

Although actual work on the annual biennial appropriation for Texas Technological college has not yet started, the board of control has made recommendations to both houses in the Texas legislature.

The money to be appropriated will be used to run the college for the next two years. In addition to asking for sufficient funds for college expenditures, college officials have asked for enough to build a library building.

Pres. Paul W. Horn recently has returned from Austin where he has been attending to business concerning the college.

### LAHM IS CHAMPION

Defeating Raymond Pfluger in the final matches, Lewis Lahm won the Texas Tech tennis crown last week. The scores in the matches, according to O. C. Corry, coach, were 7-5; 6-2; and 6-0.

Twenty-four entered the tournament several weeks ago and the final matches were delayed for several days due to weather conditions. Although the Tech athletic council recently ruled that there would be no intercollegiate tennis matches this spring due to the financial conditions of the department, much interest was shown in the matches.

### OFFERS DRAWING COURSE

A drawing course "The Art of Lettering" is offered next term by Prof. Carl Lars Svensen, head of the Tech engineering drawing department. The course which is open to any junior or senior student in any of the Tech schools carries with it two hours of credit which may be counted as elective toward a degree.

Members of the class will make a special study of the alphabets and their various designs.

### EDITOR IS ILL

R. C. (Flop) Marshall, editor of the 1931 Tech annual, La Ventana, is ill at the Lubbock sanitarium. Marshall, a Tech senior, hails from Hillsboro.

### OFFERS LOVING CUP

To the sophomore student in the Tech school of home economics who is outstanding in both scholarship and leadership, a loving cup will be given at the commencement exercises in the spring. This was decided at a recent meeting of the Double Key organization, home economics honorary society, which was held at the home management house on the Tech campus.

Misses Jonnie McCrery and Mozelle Treadway entertained at the gathering. Members present included Misses McCrery, Treadway Margaret Weeks, Mabel Erwin, Daisy Lockwood, Orene McClellan, Pauline Hargrove, Irene Jackson and Thalia Parker.

It was decided that the sophomore who is to receive the cup will be selected by the Double Key organization.

### TWENTY AT MEET

Approximately 20 attended the Tech Y. M. C. A. cabinet meeting Saturday night held at the home of Jack Boyd at 2425 21st street. Boyd is secretary of the Tech organization. Among those present were the newly elected officers of the Y. M.
