

Hurricane Spawns Lethal Tornadoes In SE Texas

GALVESTON (AP)—The staggering backlash of Hurricane Carla spawned a lethal, pre-dawn tornado in Galveston. Six bodies were recovered from collapsed homes...

The Weather Bureau said the tides will subside slowly. The Galveston tornado struck the courthouse as well as a residential area...

A 4-week-old child in Louisiana is a tornado Sunday and Able D. Threton, 56, of Houston, electrocuted when he stepped on a broken electric line Monday.

At Galveston, St. Mary's Catholic cathedral and an adjoining school suffered extensive roof damage in the tornado. Police estimated that 20 to 40 cars were wrecked by the funnel's winds.

Texas, destroying a barn and causing other damage. Wind gusts of 100 m.p.h. were reported from several East Texas points during the day.

HURRICANE CARLA RELIEF—Bill Dryden and Sonny Greenfield, co-chairman of a local Jaycee committee take arm loads of clothing to a waiting van as a drive is launched here to aid victims of Hurricane Carla.

Jaycees Start Drive To Aid Carla Victims

Snyder Jaycees are spearheading a drive here to collect food and clothing for victims of Hurricane Carla. The Jaycees, operating through a committee headed by Sonny Greenfield and Bill Dryden, completed arrangements for the drive last night.

Industrial Development Is Discussed

A group of Snyderites was told Monday that a successful campaign to attract industry is a continuous process. Attending the luncheon meeting in the Town House Restaurant were representatives from the city government, the entire commissioners court, representatives of the Seary County Industrial Foundation, Chamber of Commerce officers and directors and members of the chamber's industrial committee.

No Threat By Debbie Is Foreseen

MIAMI, Fla. (AP)—Hurricane Debbie, with the Atlantic all to herself today, whirled northward with no apparent intention of disturbing any land areas. An Air Force weather reconnaissance plane from Bermuda penetrated the storm's fourth big tropical storm early today and reported Debbie had maintained a true northerly course at 12 miles per hour.

Snyder Area Gets Showers From Carla

Hurricane Carla's influence brought a modest amount of moisture to the Snyder area late Monday and early Tuesday. The official gauge here registered 2.9 of an inch, and more showers were in prospect today and tonight. The Weather Bureau reported that some locally heavy rains might be expected in some West Texas areas during the day.

Ramsey Is Named Park Supt. Here

W. J. Jay Ramsey will return as Seary County Park Superintendent, a post he left in the spring of 1959. Scurry County Commissioners appointed Ramsey to the post yesterday after studying a long list of applicants, some formal and some verbal.

More Storms Are Forecast

KANSAS CITY (AP)—A severe weather and tornado forecast was issued today for parts of west Louisiana, extreme East Texas and southwest Arkansas. The Weather Bureau said: "With increasing daytime temperatures and thunderstorm development in the warm unstable air in the eastern portion of the circulation about Hurricane Carla, the threat of a few isolated tornadoes will again exist with the most likely area along and about 60 miles either side of a line from Lake Charles, La., to 50 miles northeast of Texarkana, Ark. from 11 a. m. until 6 p. m. Tuesday."

Biggest GM-UAW Issue Is Resolved

By A. F. MAHAN. DETROIT (AP)—The issue that triggered a snowballing plant-by-plant strike against General Motors Corp. by the United Auto Workers Union was settled overnight. When agreement came, 91 GM plants were shut across the nation and 253,199 men were idle with indications that the remainder of GM's 129 plants and 350,000 production workers would be idled in a matter of days, if not hours.

County Budget Okayed

Scurry County Commissioners approved a budget for 1962 yesterday, calling for a tax rate of 95 cents per \$100 valuation on a total valuation of \$117 million. This is expected to raise a net of \$1,072,597.50 in actual collections.

Port Arthur Refugees Return Home

PORT ARTHUR (AP)—Normal life started returning slowly today to this major seacoast city which was virtually abandoned three days ago when hurricane Carla thundered toward shore. Residents started straggling back from inland areas to take up life where they left it Saturday and Sunday. The Highway Patrol stopped each vehicle to tell occupants of dangers, but permitting them to proceed at their own risk.

Jobless Roll Dip Forecast

WASHINGTON (AP)—The Labor Department reported today a good chance that unemployment will drop below 4 million in October. The department issued its detailed analysis of the August job picture, which Secretary Arthur J. Goldberg had already given highlights. The report showed that both business payrolls and total non-farm employment, as well as over-all employment, reached a record high for August but joblessness clung to the recession rate of 8.9 per cent.

Typhoon Pamela Smashes Formosa

TAIPEI, Formosa (AP)—Typhoon Pamela with 106 m.p.h. winds smashed across Formosa today leaving at least 17 persons dead and thousands homeless. Authorities estimated damage in the millions of dollars before the storm swirled off toward the Red Chinese mainland.

Carla's Damage Hard To Assess

By The Associated Press. Officials tried to assess the damage Tuesday from hurricane Carla even while streets and buildings were still under water and gale winds howled. It may be months before a concrete figure can be obtained.

WEATHER

SNYDER TEMPERATURES: High Monday, 87 degrees; low, 67 degrees; reading at 7 a. m. today, 68 degrees. North Central Texas: Rain and windy today with some locally heavy rain today and wind decreasing tonight. Forecastable conditions Wednesday: Clear this afternoon and tonight. Low tonight 62 to 75; High Wednesday 75 to 85.

Carla's Damage Hard To Assess

Galveston—Damage to homes estimated by county judge at \$18 to \$18 million; business properties also hit heavily. Corpus Christi—Property loss estimated at \$5 to \$10 million by mayor. Port Lavaca—Roof damage to nearly all homes and several business houses; no utilities available, sanitation facilities poor. Extensive damage to boats in harbor, some being left stranded on land and highways nearby.

Carla's Damage Hard To Assess

Rockport—Goose Island State Park installations on Copana Bay damaged heavily. San Marcos—Roofs blown from buildings. Baytown—Community near big Humble Oil & Refining Co. plant badly flooded. Houston—High tides worsen flood conditions, making drainage of continued heavy rains impossible. Mass of tree limbs, snags and broken glass everywhere. Much of city without electric power and telephone service; schools closed. Estimated 60,000 refugees in emergency shelters. Yoakum—Extensive business area and residential damage by the blast of winds, windows and doors blown out, trees snapped, signs, consisting of uprooted trees, damaged.

## Scene Of Blast Is Under Water

TEXAS CITY (AP)—Floodwaters, ranging from 10 to 12 feet sprang across Texas City Tuesday near the site of 1947's horrible waterfront disaster.

Hurricane Carla also left most of this Galveston Bay industrial city without lights, gas and water.

Most of the 30,000 residents moved to safe inland areas Saturday and Sunday but Mayor Lee Robinson was trying to evacuate 1,600 persons from two emergency shelters now surrounded by several feet of water.

"To be safe, everybody in La Porte would have to be on a second story," said Sheriff's Capt. Ed White. "There's not a spot of dry ground left."

Wootter was declared a disaster area. Three to four feet of water was running through its two subdivisions. All but 10 of the 1,700 residents had been evacuated. The 10 refused to leave.

### Woman Charged In Big Spring Slaying

BIG SPRING (AP)—Charges of murder have been filed against Mrs. Mildred Louise Friar in the shooting of her husband, Vernon Friar, 34, of 1534 Green, Abilene.

Police Capt. Walter Eubanks said Friar was struck three times by 22 caliber bullets at the home of his estranged wife Monday night.

He apparently died instantly. Mrs. Lillie Bell Williford, mother of Mrs. Friar, said her daughter fired shots after Friar had broken into the house. Eubanks said Mrs. Friar had filed for divorce.

### Bulgaria Alerts Forces On Border

VIENNA (AP)—Communist Bulgaria has alerted its forces along the borders with Greece and Turkey "to meet the threat of imperialist aggression," the party newspaper Rabotnichesko Delo today reported.

The paper said forthcoming amphibious landing maneuvers of the U.S. 8th Fleet together with Greek and Turkish forces in the Aegean Sea "increased tensions in the Balkans and created the danger of war."

"The water is contaminated and that's our biggest danger," Robinson said.

The Missouri Pacific Railroad was to send a special high-rail car from Palestine to test flooded tracks. If the roadbed is firm, a train will be sent to evacuate the 1,600.

"We don't know what we'll find," E. C. Sheffield, the railroad's Houston manager said.

Amphibious vehicles toured Texas City Monday, picking up people at their homes and taking them to the shelters.

Robinson had hoped to move the 1,600 to Army vehicles but the torrential rains that accompanied Carla made the task impossible.

Only two Army trucks, with 35 persons, managed to get through from Texas City to Dickinson.

"I was scared witless," said PFC Jimmy Matthews, 19, Houston, one of the truck drivers.

"I was using my front wheels as a rudder and driving in the lowest gear," he said.

Other Galveston Bay shoreline cities and communities also were under water.

La Porte was completely under water. Kemah was at least 90 per cent flooded.

### U. S. Paratroopers Arrive In Turkey

ADANA, Turkey (AP)—Two thousand U.S. paratroopers arrived at the U.S. air base today after a 5,000-mile direct flight to take part in NATO maneuvers with air, sea and naval forces of the United States, Britain, Italy, Turkey and Greece.

The exercise, dubbed checkmate, will last a week.

The paratroopers are men of the famed U.S. 101st Airborne Division.

## Defense Claims Evidence Stifled

By BOB ROOKER  
AUSTIN (AP)—Defense lawyer Fred Seman accused the prosecution of suppressing evidence today as testimony began in the trial of the Rev. John B. Feit, a Roman Catholic priest, on charges of attempted rape.

The charge came after Judge Penn Jackson sustained a motion by Hidalgo County Dist. Atty. Bob Lattimore for excluding Seman from asking the state to produce documents in the presence of the jury.

The young priest, 27, is charged with assault with intent to rape Miss Maria Amegua Guerra on March 23, 1960 in Edinburg.

Seman told the court that Miss Guerra had made four conflicting written statements concerning the alleged assault. The district attorney's motion is in effect asking the court to help the prosecution suppress evidence in this case.

Seman said the trial opened with early trial maneuvering and the process of picking a jury.

Miss Guerra told police she was attacked as she knelt to pray in the Sacred Heart Catholic Church at the time of the alleged attack, she was a student at Pan American College in Edinburg.

The jury sworn is composed of 10 men and two women. All but one of the jurors said they were Protestants. One said he had no religious preference.

## Session Is Postponed

OKLAHOMA CITY (AP)—Hurricane Carla and the death of an Oklahoma Corporation Commission official caused postponement Monday of a scheduled meeting of an Interstate Oil Compact Commission committee here.

The storm kept representatives of the two top oil-producing states in the nation, Texas and Louisiana, from being here. The sudden death Sunday of Massena Murray, Oklahoma conservation director, prevented Oklahoma's representative from attending.

The commission's special committee to take up a study of the proposed opening of domestic crude oil markets.

## Production Upsets Plan

WASHINGTON (AP)—Near perfect weather, heavy use of fertilizer, closer planting of crops and use of best land have combined to minimize the effectiveness of the Kennedy administration's feed grain program.

The program was supposed to reduce costly surpluses of livestock feed grains, especially corn.

Although farmers are being paid for reducing acreage 19 per cent, the Agriculture Department reported Monday that production of corn for grain this year will be down only 10 per cent.

Corn surpluses this won't be cut to the extent officials had hoped.

Total crop prospects increased about 2.5 per cent during August but were 4.1 per cent below last year's record, reflecting this year's reduction.

August brought an increase of about 4.5 per cent in the prospective feed grain tonnage. Corn grown for harvest as grain was estimated at 3,520,000,000 bushels, up 5 per cent from a month ago. This figure compares with 3,891,000,000 last year.

Wild flowers found on Mt. Washington in New Hampshire are closely related to those of northern Alaska, Labrador and Greenland.

He surrendered to the San Antonio sheriff's office about a week following his indictment and denied the charges.

## Altrurian Club Hears A Most Interesting Program

The Altrurian Club year started Friday with a luncheon at the Martha Ann Woman's Club. The roster of new officers were introduced, with 25 members and four guests present. Guests included: Mrs. Ruth Hyden, Colorado City; Mrs. D. M. Cogdell, Jr., Mrs. Max West and Mrs. Charlotte Egan.

Mrs. Nancy Canon offered prayer for the group. The luncheon was served by Mrs. Nannley and her staff and planned by the hostesses, Mrs. Dave Harlin, Mrs. R. L. Gray and Mrs. W. P. King and was reported to be delightful.

A report was made by eight members of the club who attended a workshop at Hamlin on Sept. 9. The club was awarded a gift for having the largest representation in the district present.

The program, presented by Mrs. D. M. Cogdell, Sr., consisted of colored slides, with comments. Mrs. Cogdell preceded the slides with a careful routing by map of their conducted trip around the world this year.

The party embarked from New York harbor, crossed to Spain, through the strait of Gibraltar and the Mediterranean Sea. Italy came in for generous photographic slides from Rome, Naples and Venice took them to Egypt, visiting Alexandria, through the Suez Canal, the Red Sea, the Arabian Sea to India. Mrs. Cogdell showed many slides from India. Then around the Maland peninsula with stops in Thailand and at the tip of the peninsula, Singapore. China was toured rather extensively in the coastal area, with Hong Kong a highlight of interest. They even went to the border of red territory.

Japan proved a more pleasant place than China, with every evidence of industry and activity. Mrs. Cogdell observed the culture of pearls, and saw where the silk worms obtained food. The hospitality of the Japanese was attested to by slides taken of hotel personnel greeting and saying goodbye.

The Cogdells found one flourishing missionary community on the Island of Penang. There were entertained there by the Methodist missionaries. They were other protestants established there, also.

They returned from back through Hawaii and to our own west coast town of Los Angeles, Calif.

Following the program, Mrs. Dave Harlin, president, conducted a short business session.

## Central P-TA Has 500 At Meet

Approximately 500 persons attended the "Get - Acquainted" evening held by the Central Parent-Teachers Association unit at Central Elementary School.

Parents visited with teachers in their childrens rooms from 7 to 7:30 and they adjourned to the auditorium for an enjoyable program. Mr. Herman Trigg, principal, introduced the teachers.

Mrs. June Bellamy, P-TA president, introduced her officers.

Refreshments were served in the cafeteria following the meeting.

Butter-Barbecue Burgers are everybody's outdoor favorite. Mix 1 pound ground beef with 1/2 cup instant nonfat dry milk, 1/2 cup water, 1/2 cup chopped onion, 1/2 teaspoon salt. Shape into 6-8 rolls; spear with skewers. Meanwhile make Butter-Barbecue Sauce. In large skillet blend together 1 stick melted butter, 2 tablespoons prepared mustard, 2 teaspoons Worcestershire sauce. Put Burgers in skillet with Butter-Barbecue Sauce; cook over hot coals, rotating burgers occasionally until desired doneness. Serve on warm dinner buns. Be sure to stick cubes of sharp Cheddar cheese in burgers. Shape into small meat balls and put 3 on a skewer alternating with cubes of fruit or vegetables.

**WHAT PRICE 30 YEARS?**

**WOLFGANG MOZART** — great Austrian composer whose music enriches our lives . . . DIED AT 35 OF FEVER!

**ROBERT LOUIS STEVENSON** — famed writer of "Treasure Island" . . . DIED AT 44 OF TUBERCULOSIS!

**RUDOLPH VALENTINO** — idol of millions of American movie fans during the 1920's . . . DIED AT 31 OF PLEURISY!

Other immortals who died prematurely were Lord Byron, 36; Felix Mendelssohn, 38; Jack London, 42; Robert Burns, 37; Frederic Chopin, 39; John Keats, 26. Think of what these talented persons might have accomplished had they lived another 25 or 30 years! MODERN DRUGS almost surely would have extended their lives.

## Easy, Failure-Proof Cream Sauce Adds Glamor To Chicken

A wonderfully creamy sauce transforms the most prosaic chicken into a luxurious dish with very little effort. Witness the effect it has on this broiled chicken which is usually served plain and undressed.

Even if your attempts at making cream sauce heretofore have been decidedly unspectacular, you can stop worrying. This sauce is failure-proof because it is made with versatile mushroom soup mix.

You simply stir milk into the mushroom soup mix and heat to the boiling point. A touch of sauteer, which is optional, and a sprinkling of chopped fresh parsley add the gourmet accent. This basic recipe for cream sauce is ideal for many other dishes, too. Keep several packages of mushroom soup mix on your pantry shelf for cooking use as well as for the soup course.

### BROILED CHICKEN WITH CREAMY SAUCE

2-2 1/2 lb. ready-to-cook broiler chickens, halved

Lemon Juice is fine to add to a French dressing that is to be served with a fruit salad. For vegetable salad you can use a dressing made with half lemon juice and half vinegar, if you like.

3 tablespoons butter or margarine melted  
3 cloves garlic  
1 envelope mushroom soup mix  
2 1/2 cups milk  
2 tablespoons sauteer (optional)  
2 tablespoons chopped parsley

Prepare chicken halves for broiling by seasoning with salt and pepper and brushing with melted butter or margarine. Lay flat on broiler pan, skin sides down and place unpeeled garlic in the cavities. Broil for 25-30 minutes until both sides are nicely browned and the meat is tender.

For the sauce, slowly stir milk into soup mix; heat to boiling, stirring constantly. Add sauteer and parsley; serve over chicken halves. Makes 4 servings.

made in a jiffy by stirring milk into an envelope of mushroom soup mix and heating to the boiling point.

Pat Donoho of Carlsbad, N. M., spent the weekend with her sister, Mrs. Bessie Maynard. She visited Monday afternoon.

Mrs. Ethan Ball and Duke and Mrs. Dewey Farley and Darrin and Mrs. James Hinesly, all of Odessa, and Mrs. John Taggart of Snyder.

Mr. and Mrs. Rosser Lee Jones and Brenda of Midland were Saturday night and Sunday guests of his mother, Mr. and Mrs. Lee Lavender.

Mrs. Sandy Holder is visiting this week with her son and family. Mr. and Mrs. Jackie Holder, Andrews, and helping take care of the newest member of the Holder family, Keith Holder, who arrived last week.

Mr. and Mrs. Fred Williams and Kem of Hobbs, N. M., and Boyce of Artesia, N. M., visited their parents, Mr. and Mrs. Sandy Holder, during the holidays.

Lucian Thomas of Lubbock, who has been recuperating from surgery in the home of his sister, Mrs. Buri Belew and family, returned to his home Sunday.

## Bolding Reunion Held At Dunn

Descendants of the late Mr. and Mrs. John Porter Bolding met at the Dunn Community Center Sept. 23 for their reunion.

Games of forty-two and canasta were played Saturday night, and on Sunday a family-style meal was served.

The oldest person attending was Mrs. E. B. Bolding of Snyder, and the youngest was the infant daughter of Mr. and Mrs. Dempsey Bolding of Stamford.

Those attending were Mr. and Mrs. George Jackson, Mr. and Mrs. Ernest Jackson, Ronnie and Connie Jackson, all of Fort Worth; Irene and Kinney Moore of Belton; Mrs. Pearl Sparks and Frank Bolding of Lampasas; Mr. and Mrs. Nolan Bolding, Larry and Becky Bolding, Mr. and Harley Bolding and children, all of San Angelo.

Also, Mr. and Mrs. Cliff Bolding of Temple; Herbert Joe Barnett; Mrs. Nona Letcher, Mrs. Edith Weaver, Doris and Joe Weaver, Helen Gross, and Iva and Mr. and Mrs. Elmer Laine and Mrs. Levon Laine of Loreto; Mrs. C. L. Sandefur, Burton and Denise Sandefur, all of Roscoe; Mr. and Mrs. Bill Goode, Terry and Gail Goode of Moody.

Also, Mr. and Mrs. Jack Byrd, Mr. and Mrs. Gerald Crawford and sons, Mr. and Mrs. Clyde Edward Cox and Mrs. E. B. Bolding, all of Snyder; Mrs. E. B. Ellis and Lynn Ellis of Sweet-Ashlene; Mrs. Gilbert Austin of Abilene; Mrs. Luther Bolding, Mr. and Mrs. Rex Bolding and family; Mr. and Mrs. Dempsey Bolding, all of Stamford.

Also, Mrs. Juanel Thompson and children of Andrews; Mr. and Mrs. Clyde Goss and Richard Goss of Odessa; and Mr. and Mrs. Douglas Gibson and Judy Gibson of Seagraves.

## Mrs. C. D. Gray, Jr. Honored With Party

DUNN (Sp.) — Mrs. C. D. Gray, Jr. was honored with a surprise birthday party in the home of Mr. and Mrs. Buss Laster Monday evening.

Hostesses and guests attending included the honoree, Mr. Gray and Donna Faye, Mr. and Mrs. W. J. Fuller, Lynn and Linda, Rev. and Mrs. L. C. Jones, Kathy, Ann, Dale and Tammy, Mr. and Mrs. Buss Laster, Jimmy, Billy, Rinnie and Dennis.

Games of 42 were played and refreshments of coffee and cake were served.

The Karankawa Indians, who lived on Padre Island off the coast of Texas more than 150 years ago, were cannibals.

**WHY NOT PHONE THEM? SO ECONOMICAL WHEN YOU CALL STATION-TO-STATION AND SAVE ONE THIRD . . .**

When you're away, call your family more often by taking advantage of the bargain rates of station-to-station (a call to a distant number instead of to a particular person). Why not call them right now? They'll enjoy it and so will you.

**HERE'S HOW TO CALL:** Give the operator the area code for the city you want to call . . . next, the number you are calling . . . and, when the operator asks, give the number you are calling from.

If you don't know the area code number, the operator will be glad to give it to you. Jot it down for future use.

Call by number, it's twice as fast!

# Sukarno, Keita Deliver Appeal Today

By SPENCER DAVIS  
WASHINGTON (AP) — President Sukarno of Indonesia and Modibo Keita of Mali delivered to President Kennedy today an appeal from 25 nonaligned nations for an East-West summit meeting.

Kennedy ordered a red-carpet reception for the two emissaries planned to greet them personally at the airport this afternoon.

A helicopter will carry the three chiefs of state and their foreign secretaries to the White House for the first of two meetings.

Kennedy and Secretary of State Dean Rusk were expected to tell Sukarno and Keita that the United States favors "meaningful negotiations" with Soviet Premier

Khrushchev but is not disposed to bow to atomic blackmail influenced by the resumption of Soviet nuclear tests.

The Sukarno-Keita mission grew out of the Belgrade meeting which broke up last week with the adoption of identical appeals to Kennedy and Khrushchev.

They said in part: "We are distressed and deeply concerned at the deterioration in the international situation and the prospect of war which now threatens humanity. We feel convinced that devoted as both of you are to world peace, your efforts through persistent negotiations

will lead to a way out of the present impasse and enable the world and humanity to work and live for prosperity and peace."

The conference dispatched Prime Minister Nehru of India and Ghana's President Kwame Nkrumah to deliver the message to Khrushchev, U.S. officials who

assessed their Moscow mission felt it may have made an impact at the Kremlin.

But there was no indication that Khrushchev was ready to soften his positions on Germany and nuclear tests.

Authoritative sources said Kennedy will explain to Sukarno and

Keita that the United States is ready to sign an atomic test-ban treaty and will continue to try to reach such an agreement with the Soviet Union.

Kennedy and Rusk also will emphasize the West's determination to stand firm on maintaining access rights to West Berlin, top of-

officials said. They will make clear too that it will be a dangerous miscalculation for Moscow to underestimate that determination.

The Belgrade conference disappointed several U.S. officials because it failed to take a strong official stand against Soviet resumption of nuclear testing and because it favored recognition of the permanent division of Germany. Also, it adopted the Soviet position on "full and complete" disarmament without mention of

inspection and control systems.

A Sukarno spokesman, Indonesian Ambassador Zairin Zam, told a news conference late Monday the Belgrade conference had explored and regretted the resumption of tests but this only heightened the resolve of the nonaligned nations to "push you together to find a solution."

Sukarno and Keita will leave Wednesday for New York after a second round of talks and a White House lunch with Kennedy.

## Funnels With Hurricanes Not Unusual

KANSAS CITY (AP) — Tornadoes, such as those which have accompanied hurricane Carla through Louisiana and Texas, are not uncommon but usually are so far overshadowed by the big main storm that they are overlooked.

Don Foster, severe weather forecaster for the Weather Bureau, said today:

Foster in charge of the bureau's severe weather forecasting unit which serves the entire United States, said little is known about the hurricane-bred tornadoes and it's impossible to pick out the areas where they might occur as is done with the usual run of these storms.

His comment came in response to queries following tornadoes in the Galveston area today. Other tornadoes were reported in Louisiana over the weekend.

"Actually, these tornadoes are quite common in connection with hurricanes," he said. "Ordinarily they occur in the eastern part of the storm, particularly in the northeast quadrant. Those at Galveston today were usually only that they were in the southeast part of the bigger storm."

"We know little about the formation of these. If we get thunder storms in a hurricane we can expect tornadoes, but we sometimes get them without the thunderstorms, and in this respect these are a little different breed than our ordinary land tornadoes."

"They come with the formation of a convective cell—a localized cell with vertical activity—in the bigger storm. When or why these cells form, we don't know."

## New Trade Treaties Okayed By Senate

WASHINGTON (AP) — The Senate formally ratified Monday new commercial treaties with Belgium and Viet Nam in one 83-to-0 roll-call vote.

Their purpose is to provide protection for the property and interests of American citizens and companies and to assure fair treatment in commercial, industrial and financial activities.

Each treaty provides that the property of companies of either country is not to be taken except for public purpose, nor without the prompt payment of just compensation.

## Japan Protests Blasts In Pacific

TOKYO (AP) — Japan told the Soviet Union today its use of a portion of the central Pacific for rocket testing is regrettable and declared it reserves the right to compensation under international law for any consequent losses incurred.

In a note delivered through the Soviet Embassy in Tokyo, the Foreign Ministry noted the Pacific Ocean area designated by the Soviet as a rocket target area is a major Japanese fishing ground.

## From me to you A DAILY VIEW

by Rev. R. Charles Spivey

"So the churches were strengthened in the faith, and they increased in numbers daily."

Acts 26:5

The Acts of the Apostles records that there is a direct connection between the faith of people and their witnessing power for the Lord. When Paul and Timothy, those great Powers of faith, came to town they shared their faith with those around, and these then grew in faith. And as their faith grew strong, they in turn witnessed to others, helping them to grow. And so the church increased in numbers. I wonder what this says about our churches today that grow so slowly and that seem to have so little spiritual power?

# Three Factions Waging Hot Competition For Your Dollar

By SAM DAWSON  
AP Business News Analyst  
NEW YORK (AP)—You can please one set of government officials if you'll just spend a little more money than you have been. You can please another set if you'll save a little more of your money.

The same goes for private business. You have only to look at the ads or listen to the commercials to know that you can be a hero if you rush out and buy various items or if you put your savings into a long list of depositories, each keenly vying to get more of your dough.

And there's a third group eager to help you enjoy things now and pay later.

So whether you save or whether you spend or whether you borrow

to spend, someone is going to love you.

And someone is going to praise you for doing the right thing by the nation and its economy. Each of the contenders for your money has some convincing reasons for its point of view.

Commerce Secretary Luther H. Hodges says what the economy really needs to get going as it should be for "people right now to spend at retail one percentage point more of their disposable income."

Consumer spending is running at around \$336 billion a year. If that increased to \$400 billion, the extra money would help the merchants and other retailers, the purveyors of services. This would work back to the makers of consumer goods, and in time to the

producers of the materials that go into these goods.

At about the same time Hodges was noting what a little more spending by consumers would do for the economy, over in the Treasury Department they were tooting the horn for more saving—particularly more buying of U.S. Savings Bonds.

The immediate slogan is that "buying U.S. Savings Bonds is a practical way for Americans to strengthen our nation's defensive power."

But the long-term pitch has been that buying and holding these bonds is a very practical way to save and plan for future needs.

Bankers and savings and loan associations urge you to save so that a reservoir of funds can be built up for investments.

So it seems the spenders are helping the economy grow and the savers are helping the economy grow.

Some persons will save all they can no matter how alluring the ads or compelling the exhortations from Washington.

Some persons will spend all they can get their hands on, either in cash or credit, despite all the warnings about a rainy day or the needs for a reservoir for investment purposes.

And the great majority will go on, wishing they could save more after paying all the bills which seem to get bigger each month, wishing they could buy more for their families whose needs and desires seem to grow all the time, wishing—just wishing.

## Demos Say Session Is Productive

WASHINGTON (AP)—Democratic congressional leaders expressed pride in their performance today. Sen. Mike Mansfield of Montana said it compares well with any previous Congress.

Influential Democrats, however, still don't believe the Senate and House can wind up business for the year until Sept. 23.

Mansfield, the Senate Democratic leader, said after he and other leaders conferred with President Kennedy at the White House that "we are very proud of the record Congress has made to date." He added that by the time Congress adjourns, "we anticipate the record will be comparable with any similar period under any administration."

Acting House Speaker John W. McCormack, D-Mass., listed three appropriation bills and three other measures on a priority list. The appropriations include funds for foreign aid, public works, and to supplement money provided for government activities in previous bills.

The House also will take up legislation dealing with the Peace Corps, McCormack said, and hopes to obtain Rules Committee approval for consideration of a permanent disarmament agency and an increase in postal rates.

## Sen. Tower Asks Walker Be Heard

WASHINGTON (AP)—Sen. John Tower, R-Tex., has demanded that Maj. Gen. Edwin Walker be given a chance to defend himself against charges contained in documents made public by the Pentagon.

Walker was relieved of his command and admonished by the Army in April. The Army asserted he had made derogatory remarks about prominent Americans and engaged in partisan political activity.

His case reappeared last week when some congressmen tried to force a full scale probe of Pentagon policies on outside activities of military officers.

The Pentagon then disclosed Monday the record of the investigation.

Tower, in a telegram to Secretary of Defense Robert McNamara, charged Walker was given no chance to defend himself.

The senator asked whether the general "is free to answer the additional charges you have leveled against him without benefit of trial." Specifically, Tower asked whether Walker could have a public court of inquiry if he wants one.

There was no immediate reply from the Pentagon.

The transcript asserted that

Walker invoked the military version of the Fifth Amendment on a key question during the investigation.

Article 31 of the Uniform Code of Military Justice allows a witness to refuse in military proceedings to answer a question if the answer might be self-incriminating. This is the function of the Fifth Amendment in civilian proceedings.

When asked whether, as commander of the 24th Division in Germany, he had acted contrary to an Army regulation by advising his men on political matters through an article published in the division's weekly newspaper, the transcript said Walker invoked Article 31.

The Defense Department last week made public a condensed report of the Army's findings in response to the Senate Armed Services Committee's hearings on charges by Sen. Strom Thurmond, D-S.C., that officers wishing to make anti-Communist speeches were being muzzled.

The Pentagon released the full 873-page transcript of the investigation which led to the finding that Walker was a patriotic, sincere, dedicated anti-Communist, and a deeply religious man who had violated Army rules.

## JFK Keeps Eye On Carla

WASHINGTON (AP)—President Kennedy has kept in close touch with the devastating onslaught of Hurricane Carla in Texas and Louisiana.

Vice President Lyndon B. Johnson told of Kennedy's concern over the hurricane and the damage it has wrought after he and Democratic congressional leaders had breakfast at the White House today.

Johnson lauded the Weather Bureau for giving adequate warning of the approach of the storm which enabled hundreds of thousands to evacuate areas in its path. He repeated the government's assurance of all assistance legally possible after the hurricane's damage can be assessed.

The U. S. Naval Observatory in Washington has been keeping the nation on time since its founding in 1844.

## Two Guilty Pleas Are Entered Here

Two pleas of guilty in county court here resulted in a fine and a jail sentence, respectively.

Troy Preston Allen of Coleman entered a plea of guilty to a charge of driving while intoxicated and drew a fine of \$100 plus court costs of \$26.35.

Eddie Tealer of Snyder pleaded guilty to illegal transportation of alcoholic beverages in a dry area and was assessed a five-day jail term. The sheriff's department reported that six cases of beer were confiscated from Tealer's car.

## Big Three Note Rejected By Reds

BERLIN (AP)—In a note assailing Western troop movements to Berlin, the Soviet Union has told the West that the Communist East German regime has the right to regulate foreign travel to East Berlin.

Rejecting an Aug. 26 note from the U.S., British and French ambassadors to West Germany protesting the sealing of the border in divided Berlin, the Soviets told the ambassadors Monday to take their complaints to the East German regime.

One major aim of Premier Khrushchev's pressure on Berlin is to force Western recognition of East Germany. The Western powers regard the East German regime as a Soviet puppet.

Mikhail Pervukhin, Soviet am-

bassador to East Germany, complained in his note that the Western powers had brought troop reinforcements to Berlin and had posted soldiers on West Berlin's border.

Pervukhin declared such troop movements could encourage "West Berlin's fascist and revenge-seeking elements" and this could result in serious consequences.

Foreigners now are admitted to East Berlin but Pervukhin's note raised the possibility that they soon would be barred. Foreigners may cross into East Berlin on subway and elevated trains or on foot and by car at a special gate at the corner of Friedrichstrasse and Zimmerstrasse.

Pervukhin's letter to U.S. Ambassador Walter C. Dowling was published Monday night by the East German news agency ADN.

The Soviet ambassador said: "Visits by citizens of foreign states to the (East) German Democratic Republic, known as an independent sovereign state, and its capital are regulated by the government of the G.D.R. If you have any wishes in this connection you must take them up with the authorities of the G.D.R."

In his reference to foreigners, Pervukhin did not distinguish between civilians and troops. In their military dealings, the Western Allies have so far avoided formal contact with East German officials.

## TODAY'S MARKETS

NEW YORK (AP)—Cotton was 30 cents a bale higher to 36 1/2¢ at noon today, October 24, 1961.

CHICAGO (AP)—Butter and eggs unchanged.

# Switch On Bomber Purchases Looms

By FRED S. HOFFMAN

WASHINGTON (AP)—A strong possibility arose today that the Pentagon may reverse itself to recommend buying more B52 bombers and push development of the 2,000 m.p.h. B70 bomber.

Final decision will be up to President Kennedy, acting on any recommendation Secretary of Defense Robert S. McNamara might make.

The matter is under study, the Pentagon said in response to a query from a reporter who asked whether almost a month has passed since Kennedy signed the \$4,662,356,000 defense appropriation bill. Since the bill took effect Aug. 18, there has been no word on what would be done with the nearly \$700 million Congress added on for more long-range bombers, which the administration said were needed, and for accelerated development of the B70, which the administration sought to cut back.

Air Force officials said they were optimistic that McNamara would change his opposition to spending more millions for these purposes.

While Congress was considering the bill, McNamara let it be known he was inclined to recommend against spending this money. The President has authority to impose funds Congress votes or programs he deems are not necessary.

The Air Force, it was understood, has been presenting its arguments for another wing of B52 nuclear bombers—about 50 planes—in Defense Department Comptroller Charles J. Hitch.

The United States now has about 500 B52s.

It was expected that any new bomber purchases would be accompanied by procurement of additional KC135 jet tankers to fuel them in flight.

In a parallel action, the Air Force has been making presentations to McNamara backing up its contention that the B70 should be restored to a full-scale development program.

Air Force officials hinted there had been a shift in top-level thinking on the B52 and B70 questions.

The Berlin crisis and the prospect of U.S.-Soviet tensions for some time to come undoubtedly were factors. Display by the Soviets of some advanced planes at an air show in late June also may have prompted second thoughts about further U. S. bomber purchases.

# Paar Offers To Discuss Berlin Film

WASHINGTON (AP)—Television's Jack Paar has offered to discuss with Senate critics his recent filming of a TV show on the East Berlin border.

Many senators said they were shocked when they heard extra troops were on hand at the Communist border crossing point when Paar took films for his TV show.

Paar, in a cablegram Monday to Sen. Jacob K. Javits, R-N.Y., said, "I will be available at your convenience to discuss with you and your colleagues anything you wish, if you feel it necessary after seeing the program."

Paar said reports of his activities in Berlin were "inaccurate and based on the distortions of an anonymous American reporter."

There was no immediate comment from Javits.

The Army made a prompt investigation late last week, then removed one officer from his job and admonished another for their part in the affair.

No senatorial critics raised the question of whether the program was an accurate report of happenings in Berlin. Critics objected mainly on the grounds that use of armed troops for such a show might have led to shooting in the touchy border area and the display of unusual armed might at the border would be grist for the Communist propaganda mills.

# Stork Pays Little Attention To Storm

HOUSTON, Tex. (AP)—Hurricane winds didn't howl alone near the Texas coast.

A son was born to Mrs. Ray Rubino in an elementary school shelter at Angleton Monday night. The delivery was made under the beam of a flashlight by three nurses without a doctor's help.

At Lamarque, two babies were born in the Galveston County Hospital while the city was isolated.

Mrs. Stephen Dupuis, 20, of Port Arthur, gave birth to a boy after she was taken from a refugee shelter to a hospital at Humbleville.

# More Africans In Rhodesia Arrested

LUSOKA, Northern Rhodesia (AP)—The number of Africans arrested in Northern Rhodesia mounted to more than 2,000 over the weekend as security forces combed villages in the northern province for trouble makers.

Government forces are attempting to stamp out a revolt by African nationalists, now in its seventh week, who are fighting a proposed constitution which they claim is not fair to the African majority.

# New Units Patrol East German Towns

FULDA, Germany (AP)—New militia and Communist youth units are patrolling East German villages along the Iron Curtain frontier in an attempt to hold down the number of escapes to the West.

Guenther Harder, director of West German customs at a border crossing point near here, said the special units were called into the villages after 64 border area residents managed to flee to Fulda last month.

**PROJECT MERCURY** — Monnie Hedges of Snyder is shown with one of five chimpanzees being trained for orbital flight by the psychology branch of the Aero-Medical Division of Project Mercury at White Sands Missile Development Center in New Mexico. This chimpanzee's name is Enos, and Hom, the first chimpanzee into space, also is included in the group being trained. Hedges, a former faculty member of the Snyder Schools, has been working on this project for the past 3 1/2 months, teaching the chimpanzees particular tasks to perform while in orbital flight.

# Attacks On Clergy Increase In Cuba

HAVANA (AP)—Attacks on the Roman Catholic clergy in the wake of a violent anti-Communist demonstration, raised speculation today that Fidel Castro's regime may adopt a tougher line toward the church.

Thousands of the prime minister's supporters turned out Monday night for the funeral of Arnaldo Socorro, 17, killed Sunday in the rioting, and heard an attack on "Falangist and counterrevolutionary priests."

Jesus Soto, secretary general of the Cuban Workers Confederation, assailed the priests in the main funeral oration. He demanded death before a firing squad for those responsible for the youth's death.

The semi-official newspaper Revolution charged that "clerical Falangist counterrevolutionaries" fired the shots that killed Socorro from inside the Church of Charity in downtown Havana.

Disorders broke out after 4,000 men, women and children met outside the church for the annual procession of Our Lady of Charity, patron saint of Cuba.

An order from the Interior Ministry, later rescinded, barring the procession started the trouble.

Shouting "Cuba yes, Russia no," many of the Catholics tried to march on the presidential palace. They were stopped by police, supported by civilian backers of Castro.

Shots were fired, the youth was killed and three other persons suffered gunshot wounds.

This brought immediate attacks on the clergy by press and radio, prompting foreign diplomats to leave.

# NATO Foes Win Control In Norway's Election Monday

By GUNNAR BORREVIK

OSLO, Norway (AP)—The ruling Labor party lost its majority in Parliament and the balance of power fell today to the new Socialist People's party which wants Norway to pull out of the Atlantic Alliance.

The Socialist People's party won only two seats in the 150-member chamber, but these were crucial. Results from Monday's national elections gave the Labor party 74 seats and the same total for the four parties of the non-Socialist opposition. The Laborites had 78 seats in the old Parliament.

Thus Premier Einar Gerhardsen was left in an even worse position than last September, when Labor party members who refused to back the party's pro-Western platform were expelled. The rebels formed the Socialist People's party, with a platform of "neutrality, pacifism and a leftist economic policy, strongly reminiscent of the early days of the Labor party, now a moderate Social Democratic group."

If Gerhardsen forms a new government, the tiny new Socialist party's members will be free to harass their former colleagues.

The nation's membership in the North Atlantic Treaty Organization did not appear in immediate danger since all major parties support it. It remains to be seen what might happen if the Socialist People's party demands concessions toward its anti-NATO policy in exchange for votes on a key domestic issue.

During a generally dull campaign that attracted little public interest because of the nation's booming economy, Gerhardsen had warned that his Laborites would not form another government unless they held their absolute majority. They have ruled Norway since 1935.

When the returns began coming in, Gerhardsen appeared to relent.

"If the Socialist People's party gets in the position where it makes up the difference in a Socialist majority," he said, "we will have to think again about forming a government."

Finn Gustavsen, 27, the Socialist People's party's Oslo representative, said he will do all in his power to stop the non-Socialists from forming a government.

The four non-Socialist parties are the Conservatives, a free enterprise and pro-NATO group, 29 seats; the Center, a farmers' party which supports NATO, 17 seats; the Christian Democrats, also pro-NATO and favoring social legislation, 15 seats; and the Liberals, a catch-all party that includes fishermen, state planners, free enterprise supporters and minority language groups, 13 seats. The Communists lost their only seat.

# Cabinet Is Reshuffled

DAMASCUS, Syria (AP)—King Saud of Saudi Arabia reshuffled his Cabinet Monday in an apparent move to patch up differences with his brother, the ex-premier, Crown Prince Faisal.

Mecca royal announced a royal decree naming Saud's nephew, Prince Faisal ben Turki ben Abdul Aziz, minister of the interior and dismissing his brother, Prince Talal ben Abdul Aziz, from his post as minister of finance and economy, among other Cabinet changes.

Talal reportedly has been one of the major causes of differences between Saud and Faisal, who is dismissed by the king from the premiership last year.

OSLO (AP)—Authorities plan to evacuate the population in large areas of northern Norway if Soviet nuclear explosions cause a dangerous increase in the radioactive fallout, a civil defense spokesman said today.

Sverre Servan, civil defense adjutant, said that 60 observation stations are operating in the north of Norway to warn the population if any of the Soviet test explosions create dangerous conditions.

# Norway Plans For Evacuation

OSLO (AP)—Authorities plan to evacuate the population in large areas of northern Norway if Soviet nuclear explosions cause a dangerous increase in the radioactive fallout, a civil defense spokesman said today.

Sverre Servan, civil defense adjutant, said that 60 observation stations are operating in the north of Norway to warn the population if any of the Soviet test explosions create dangerous conditions.

# Teacher Hurt As Helicopter Falls

CHICAGO (AP)—A high school science teacher was injured Monday when his homemade helicopter crashed into a field.

Chester Bera, 45, a teacher at West Leyden High School in Northlake, a Chicago suburb, was riding in the 200-pound aircraft when a tow rope broke, plummeting the craft to earth.

Officials said the machine crashed apparently because its engine had not achieved enough power to keep it airborne without the tow rope.

Bera had built the machine from a \$1,100 "do it yourself" kit.

Bushmen of South Africa rarely grow taller than five feet.

## Quartet Of Texans Still In Tourney

PEBBLE BEACH, Calif. (AP)—Four Texans remained in the National Amateur Golf Tournament as it entered its second round Tuesday.  
 They were James Littlefield, Midland; Richard Yates, Corpus Christi; Herb Durham and John Cameron, Dallas.  
 Six Texans were eliminated in the first round Monday. Ross Mitchell, Lubbock, who lost to Gene Francis, East Williston, N.Y., 3 and 2; John Farquhar, Amarillo, beaten 3 and 1 by Dick Lutz, Newark, Calif.; Raymon Stoker, Odessa, who lost to Cameron 3 and 2; William Loesch, Houston, defeated by Richard S. Norville, Oklahoma City, 4 and 2; H. D. Thompson, Wichita Falls, who lost 1-up in 19 holes to Steve Spray, Des Moines, Calif.; and Ronald McCall Beaumont, defeated by Donald Drimak, Yorba Linda, Calif.  
 Littlefield advanced with a 4 and 2 triumph over Roger Manswell, Marysville, Calif., Yates with a 5 and 4 victory over C. S. McDowell Virginia Beach, Va., and Durham, with a 2 and 1 victory over John Hedelund, Lake Oswego, Ore.

## Ford Contest Is Open To Snyder Youth

Are you a Snyder grade schooler aged 6 through 10 harboring a desire to punt, pass, and kick the oval pigskin?  
 Then here's your chance to compete against your fellows for valuable prizes and possible regional prestige in the Ford Motor Company's P.P.K. competition, with Wilson Motors of Snyder being the sponsoring organization locally.  
 The contest, sponsored by Ford Dealers in conjunction with the National Football League, is open to all grade school boys aged 6 through 10 within the continental U. S. and no cost nor purchase is required of any boy or parent.  
 Local judging will be assumed by coaches within the Snyder school system, and full details of the contest may be found elsewhere on this page.

## Grid Doings

The local slate of grid contests on tap for this week shapes up as follows:  
**THURSDAY**  
 Big Spring Runnels at Lamar 9th, 8 p. m.; Lamar 8th at Runnels, 6:30 p. m.; Lamar 7th at Runnels, 5 p. m.  
 Travis 9th at Sweetwater, 8 p. m.; Sweetwater at Travis 8th, 6:30 p. m.; Sweetwater at Travis 7th, 5 p. m.  
**FRIDAY**  
 Andrews Mustangs at Snyder Tigers, 8 p. m. Tiger Stadium.  
**SATURDAY**  
 Snyder "B" at Big Spring "B", 7:30 p. m.

**Coast-to-Coast**  
**NEWSPAPERS**  
**SELL THE MOST!**

## Between You And Me

BY JERRY JACKSON

Deacon Ace Amos is different from the general run of coaches, the majority of whom are content to haul out the crying towel only when their boys are making a habit of losing.  
 Amos, the crafty and venerable soul, does a creative job of moaning even when he's winning, you see.  
 He started the season Thursday in fine fashion, as his Lamar 9thers applied the whitewash to Big Spring 60-14. His expected elation gave way to deflation, though, during his game report.  
 "Give this one a good 'play,' will you?" he pleaded admonishingly. "You know, big headline and prominent spot on the sports page, since it's probably the only one we'll see all year. Starting next week you can start putting it in the want ads."  
 Although making no rash promises, I at least assured him that I'd see what I could do, and he seemed to be fairly satisfied with it all.  
 Talked briefly with the Deacon yesterday, too. He asked me if I'd seen the game on TV Sunday.  
 "Yep," I quick-wittedly admitted.  
 The particular contest, in question matched the Dallas Texans and San Diego Chargers of the AFL, in which the Texans tried a radical swinging gale spread formation that was a real corker - made up of a ten- to eleven-man line in which everybody except the quarterback composed the forward wall. Due to the setup the center was eligible for a pass, also.  
 Those of you who are "oldtimers" locally might recall that Amos employed a comparable spread a couple of years ago. Shook up the opposition a little at the time, if the old memory doesn't fail me.  
 "I was two years ahead of the pros and didn't even know it," Ace mused with a mischievous "Mise worked out better than theirs, though," he added with an air of finality.  
 A pass interception stopped the Texans short - the Dallas Texans, that is, not the Lamar Texans.  
 Acquired myself a wee wife not long ago, and we're slowly but surely learning from each other. You know, she can tell all about dropping a hemstitch and such, while I can give her the dope on dropping foul balls, footballs and like that.  
 Well, the two of us, along with the Lowell Beards, were motoring up to Borger Friday when she inquired about High School Football in General. I explained to her that due to the difference in school enrollments that for grid purposes they were all divided up into various classes, in viz: 4A, 3A, 2A, A, B. (all eleven man) along with eight-man and six man.  
 "That doesn't sound at all fair," she was heard to comment, wide-eyed and wondering. "After all, it doesn't look as though the teams with only six players would have much chance against those with eleven."  
 Bearden came to but and emphasized that the six-man players have to be extra good - real "horses" - in order to keep up, an explanation which seemed to pacify her somewhat. Not altogether, but somewhat, nevertheless.  
 Having almost forgotten the incident, I ventured out at the Sunday supper table by asking her whether or not she knew Jack Spikes ("Who's that?") had successfully kicked all 17 extra point attempts during exhibition play ("All in one game?").  
 I should've suspected that would come to pass, though, for as I think back on our very first date I recall that she told about a football game she'd seen involving Texas Tech and the University of Houston. She couldn't remember which team had won, but swore up and down that the final score was 1-0. Married life! It's a barrel of monkeys, that's what.

## Optimism Flourishing In Aggie, Other SWC Camps

By The Associated Press  
 A few more reports like the one that came out of Texas A&M Monday and Southwest Conference football foes will be scarce of the all.  
 Sam Byer, one of the league's finest fullbacks last season, was relegated to the third string because his competition, Lee Roy Caffey and soph sensation Jerry Rogers, were showing up better.  
 "That could mean the Aggies are so good even a fellow like Byer will find it tough making the team. There was more optimistic stuff than usual coming out of the conference Monday. Coach Frank Broyles of Arkansas told sports writers his Razorbacks "had the most potential of any team since I've been here."  
 Mississippi, whom Arkansas plays in the season opener Sept. 23, probably will perk up at that.  
 Broyles began working fullbacks Jim Worthington and George Walker at halfback in the event Darrell Williams can't recover from injuries in time to play against Mississippi.  
 Hurricane Carla worried some of the squads. Texas couldn't work at all. Neither could Rice and Baylor had to tail in the rain.  
 Southern Methodist was worried some about injuries. While Doyce Walker, the No. 1 left halfback, returned to practice after missing Saturday's intrasquad game with a hip injury, letterman Mike Rice and Buddy Nichols were out with leg hurts.  
 Rain cut Texas Christian's workout some but Coach Abe Martin didn't complain about it - he managed to get in a pretty fair practice session, minus, however, "some hitting."  
 Fullback Tom Crutcher, guard Joe Owens and quarterback Floyd Porter came off the injury list but halfback Jerry Huffman joined it.

## Lions Retain 'Top Billing' In Class AAA

DALLAS (AP)—Wichita Falls, Brownwood and Albany are away out in front in the Dallas News rankings of high school football teams.  
 In the paper's poll of the sports writers Wichita Falls was given unanimous support as No. 1 in Class AAAA. Brownwood in Class AAA and Albany in Class AA.  
 Jackshoro stayed on top in Class AA but had strong competition with Terrell, Brady and Sweeny in close positions in the 2, 3 and 4 spots.  
 The top ten in each class:  
 Class AAAA—Wichita Falls, Corpus Christi, Ray, Galena Park, Odessa Permian, San Antonio Jefferson, Amarillo Tascosa, Fort Worth Paschal, Baytown, San Angelo, Ysleta.  
 Class AAA—Brownwood, Carthage, Lamar Consolidated, Kingsville, Monahan, Sweetwater, Corsicana, Dumas, Breckenridge, Jacksonville.  
 Class AA—Jackshoro, Terrell, Brady, Sweeny, Gilmer, Quanah, Anson, Lancaster, Denver City, Hillsboro.  
 Class A—Albany, Wink, White Deer, Anahuac, Forney, Stinnett, Crosby, Farwell, Eldorado, Rio Hondo.

## QB Club To Meet Tonight

Snyder's Quarterback Club will meet tonight at 7:30 in the high school cafeteria, and all members and prospective members are urged to attend the session, which will feature the filming of the Snyder-Borger opener of Friday.  
 The annual grid preview as sponsored by the club, slated for last night, was called off due to wet grounds. No plans for rescheduling of the affair have as yet been arrived at.  
 Roger Maris of the Yankees hit 15 home runs in June three short of the record.

## Playoff Resumption Hoped For Tonight

SAN ANTONIO (AP)—It was hoped that the Pan American Association baseball playoff between San Antonio and Veracruz could be resumed tonight.  
 The third game of the best of seven series was postponed Monday night because of rain and wind.  
 The teams are all-square in the series with one victory apiece.  
 The Detroit Tigers won't play the first 37 days of the 1961 season without suffering a shutout. Then Gene Conley of the Boston Red Sox blanked them 1-0.

**RAMBLING MAN**—Halfback Ed Schultz (20, far right), picks up a gain during his Snyder "B" team's 20-6 victory over Sweetwater "B" here Saturday while teammate Danny Aycock (30) leads his interference. Schultz and Aycock each tallied a touchdown during the contest to help pave the way to the win. (Photo by Jackson)

## Competition Tough For Sam Byer

Coach J.T. King said the Texas Tech Red Raiders "had more zip than you'd expect in a Monday workout" and he took time out to commend C.W. Williams and Jim Hacker for their defensive play.  
 He also liked the running of halfback Roger Gill and the all-around play of fullbacks Coolidge Hunt and George Fraser.  
 Southern Methodist was worried some about injuries. While Doyce Walker, the No. 1 left halfback, returned to practice after missing Saturday's intrasquad game with a hip injury, letterman Mike Rice and Buddy Nichols were out with leg hurts.  
 Rain cut Texas Christian's workout some but Coach Abe Martin didn't complain about it - he managed to get in a pretty fair practice session, minus, however, "some hitting."  
 Fullback Tom Crutcher, guard Joe Owens and quarterback Floyd Porter came off the injury list but halfback Jerry Huffman joined it.

## Local Polo '5' Splits Twin Bill

LAMESA—The Snyder and Lamesa palmetto polo teams clashed here the past weekend in a double-header 10-11, with each team marking up one victory for the evening.  
 The Lamesans won out in the initial contest by 9-6, after which the Snyder horsemen rebounded to smash their way to an 11-1 victory in the second game of the night.  
 The action will serve as a pre-her for the Snyder team, which is entered in a polo tournament this coming weekend in Hobbs, New Mexico. Some 15 Snyder team members will make the trip to Hobbs, where they will compete against foes from points in West Texas and eastern New Mexico.  
 Snyder's home games are all played on the Billy Donaldson ranch, which is located seven miles out on the Colorado City highway, and the public is invited to attend them free of charge. Donaldson also captains the Snyder team.

# Happy Homer Derby Nearing Completion

By MIKE RATHET  
 Associated Press Sports Writer  
 The magic number for Roger Maris is four. Make it seven for Mickey Mantle, and another for the New York Yankees' charmed digit, and that's the situation as the chase for Babe Ruth's home run record and the American League pennant resumes tonight.  
 After a one-day respite, the M&M homer hammerers move into Chicago with 10 games in an eight-day period remaining in which to tie or surpass the Bambino's home run record of 60 under the 154-decision allotment decreed by Commissioner Ford Frick.  
 Maris, with 56 homers, is four games ahead of Ruth's record pace of 1927, while Mantle, with 53, has fallen two behind in the showdown stretch-night games at the Chicago trot and Wednesday and a day till Thursday, a twilighter at Detroit Friday followed by day contests Saturday and Sunday, a day-nighter at Baltimore Tuesday, and a night game Wednesday.  
 The Yankees, leading the runner-up Detroit Tigers by 1 1/2 games, need any combination of eight wins or Detroit losses to wrap up their 11th pennant in the last 13 years and the first for rookie manager Ralph Houk.  
 Maris, who has found White Sox pitching the easiest in his chase with Ruth—he has lagged 13 against Chicago hurlers—and Mantle will be hitting against lefty Billy Pierce (9-8), the only AL moundmen to surrender two homers to Maris in one game. Ralph Terry (13-2) goes for New York.  
 Mantle, who has hit 29 homers on the road to 24 at Yankee Stadium, was looking forward to the road battles. But Maris, who has hit half away and half at home, expressed indifference to his surroundings.  
 The Yankees, riding a 13-game winning streak, and the Tigers set it out Monday, maintaining the status quo at the top of the standings. In the only games played, Boston walloped Washington 14-4, and Minnesota beat Los Angeles 5-2.  
 In the National League, Gordon Windburn's pinch-hit homer in the inning gave the Los Angeles Dodgers a 6-5 victory over Philadelphia, and moved the Dodgers within 3 1/2 games of idle, first-place Cincinnati.  
 San Francisco edged Pittsburgh 4-3 in 10 innings and St. Louis defeated Milwaukee 4-1.  
 The Red Sox snapped a 44 tie in the seventh with an eight-run explosion after they had tied on Jim Pagliaroni's sixth inning homer.  
 The Twins scored four in the eighth to beat the Angels and rookie Dean Chance, making his pitching debut in the majors.

## Shriners To Sponsor Meal Here Friday

The Snyder Shrine Club is to sponsor a chicken-spaghetti supper in the high school cafeteria this Friday from 5:30 until 7:30 p. m., just prior to the Snyder Tigers' home opener contest against Andrews.  
 All proceeds as derived will be used in helping unfortunate children who are unable to help themselves, regardless of race, color, or creed.  
 The Shrine supports 17 hospitals over the world in which over 300,000 crippled patients have been treated.  
 Admission prices for the meal will be one dollar for adults and 50 cents for students.  
**THE BOOTHE BOYS**—Guard Tommy Boothe, (left) a 17-year-old senior, and 16-year-old junior tackle Riley Boothe compose another of the three Snyder Tiger "brother combinations" in addition to the Robinsons and the Stewarts. Tommy is 5'9" and weighs 170, while Riley is a six-footer and scales 180. Both are up from the "B" team, and will be seen in action here Friday when the Tigers play their first home game against Andrews.

## REGISTER NOW FOR YOUR FORD DEALER'S PUNT, PASS & KICK CONTEST

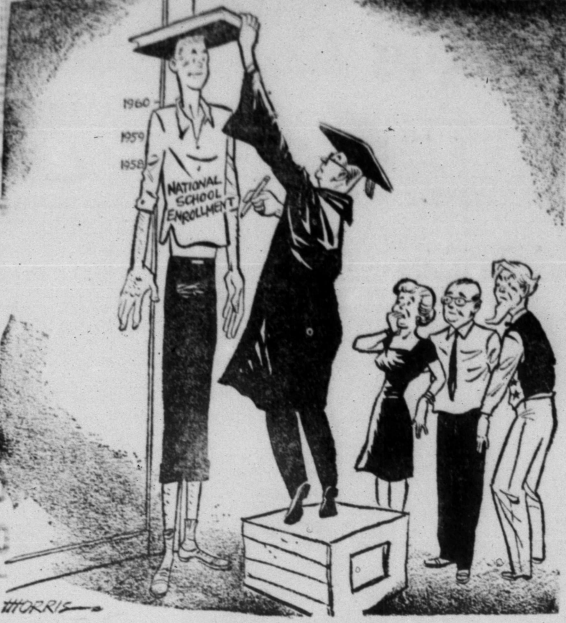

It's FREE! IT'S FUN! YOU CAN WIN GREAT PRIZES! JUST COME IN WITH YOUR DAD AND REGISTER BEFORE SEPT. 25 AT ANY FORD DEALER DISPLAYING THIS SIGN

BOYS! HERE'S ALL YOU HAVE TO DO TO ENTER AND WIN!  
 It's easy! Nothing to buy! Just come with your father, mother (or legal guardian) and sign the Entry Form. ### JUST CAN'T KEEP THAT BOY OUTFITTED!

## Old Gray Mare Fades From Picture In Bermuda, Too

BY INEZ ROBB  
 CARLTON BEACH, Bermuda — If anyone is in a mood to record "Songs to Be Nostalgic By," the tune to lead all others on the Bermuda disc is "The Old Gray Mare."

She certainly ain't what she used to be in these lovely, rocky islands, in which a notable 16th-17th Century playwright set his final comedy, "The Tempest."

When my husband and I were last here for a vacation just before World War II, Bermuda was the best refuge from the motor age exhaust fumes and pedestrian palpitations.

In those days, by law, only the fire department and ambulances were motorized. At that time, a British governor, sent out to preside over this oldest of British colonies, said he couldn't live without an automobile. Bermuda gave him his hat, asked, "What's your hurry?" and sent him back whence he came.

Those were the good old days when one traveled by Dobbins who pulled a surrey with a fringe of pop. There were literally hundreds of both in the islands, public and privately owned. Or one traveled by bicycle — and there was an uncounted number of them, shanks' mare or a little roadster that ran from one end of the island to the other.

It was all very soothing and great fun. Add and I always rented a bicycle built for two. The nearest we ever came to landing in gear is traceable to that bicycle and the persistent British habit of driving on the left-side of the road. — We were tooting down Front Street in those old days when Add suddenly realized he was peddling on the right-hand side of the road, made an abrupt switch and ran

right over the traffic policeman in the center of the street. The policeman was not amused.

Now all is changed. The auto sneaked in here with the U. S. and British armed forces during World War II. Not more than 13 or 20 horse-drawn surreys remain, and they are a novelty like those outside the Plaza Hotel in New York. And the railroad was pulled up, lock, stock and Toonerville Trolley and transplanted to British Guiana where it is, let us hope, living happily ever after.

However, there are happy remnants of the good, old days. The fringe on the top remains. The little taxicabs that replaced the surreys have, out of respect for the past, tops of canvas, with fringe all around. And the bikes are still here, except that with the coming of the gasoline age, most of 'em have small motors.

The automobile is here, all right, but I doubt if any other community in the world regulates it so strictly. No family, no matter how affluent, can keep more than one automobile. The two-car family in these islands consists of an automobile, a motor scooter, a motor bike or just a plain bike. Most men, no matter what their importance, reach their offices via scooter or motor bike, leaving the car home for Mummy, who is the overworked family chauffeur just as in the U. S. A.

Autos are regulated so rigidly by size and horsepower that almost no American cars can pass muster. Nor have the islands seen fit to pamper the motorists by widening the narrow, picturesque and crooked lanes that pass for roads.

But you ain't read nothing yet! The speed limit will fracture any American. It is 15 miles per hour in any town or built-up area and 20 miles elsewhere. It's enforced, too. In fact, anyone would be a fool to drive faster on the narrow, winding lanes. So, in a taxi with the fringe on the top, one doesn't really miss the old gray mare too much.

Come to think of it, she didn't make much better time.

(Copyright, 1961, by United Feature Syndicate, Inc.)

### Daily Crude Flow Rises

TULSA (AP)—Texas, Louisiana and Oklahoma increases boosted the nation's daily average oil production 118,200 to 7,168,125 barrels during the week ended Sept. 9, the Oil and Gas Journal said today.

The average was at the highest level since April 29 when output was 7,263,100 barrels daily.

Texas production rose 72,750 to 2,599,400 barrels, Louisiana's increased 30,000 to 1,154,950 and Oklahoma was up 19,300 to 514,900. The week's largest loss was New Mexico's 13,900 barrels to 398,500.

The Journal estimated 1961 production at 1,812,776,500 barrels compared to 1,777,247,500 a year ago.

New Hampshire has the lowest homicide rate of any state in the union. It was 0.5 per thousand in 1958, the latest year for which figures are available.

The material of some stars is so dense that a cubic inch of it may weigh as much as 650 tons.

## Million Not Enough To Buy Project

BY HAL BOYLE  
 NEW YORK (AP)—What would you do if someone offered you a million dollars to quit what you were doing?

The chance came to film producer Samuel Bronston. He said, "No!"

Bronston had just begun shooting his picture, "King of Kings," when the representatives of another company which wished to make a film of the life of Christ—20th Century-Fox—approached him.

"They offered to pay all my expenses—and give me a cool million dollars besides if I'd abandon my project," recalled Bronston. "And this was only the beginning—They've gone higher. But I told them I couldn't quit."

"It seemed inhuman to me to give up I had dreamed of making the life of Christ ever since I helped photograph art and religious treasures for the Vatican a dozen years ago."

"You're not always working just for money. Money is the consequence of deeds. You merely trade money for time to achieve your goals."

Bronston, one of nine children of a Bessarabian farmer, is a small, shy-voiced man with big ideas. He was graduated from the Sorbonne with a degree in political science, played the flute in the Paris Symphony Orchestra, and became one of Europe's top film salesmen before turning to producing.

He poured \$9 million into "King of Kings," spent another \$9 million on "El Cid," both of which will be released this fall. He also has plans under way for three more epic productions totaling \$18 million. His headquarters is in Madrid, where he has taken over most of Spain's two largest studios.

"I'm not equipped for small pictures," he said. "I am interested in big productions with international appeal."

"I like to play against an open ceiling—where the sky's the limit."

"There is a great market for big stories that are clean and moral and beautiful. That is what the people of all countries really want."

"And I want to cater to families not to maniacs."

Two incidents show Bronston's unusual attitude toward budget costs.

He spent \$180,000 building a 100-foot tall granite temple of Judea for "King of Kings." A hurricane destroyed it overnight. Strolling about the ruins in his pajamas, Bronston said only two words: "Rebuild it."

A film company wanting to make another Biblical picture offered him \$300,000 for his City of Jerusalem set.

"No, that wouldn't be right—there's too much of us in it," said Bronston. "If we have no other use for it, it's better to tear it down."

### Knight In California Race Again

LOS ANGELES (AP)—Goodwin J. Knight, California Republican governor from 1953 to 1959, has announced he'll seek the governorship again next year.

"I'm in this race all the way," Knight, 64, told reporters Monday. He said scores of party leaders with whom he discussed his action "all felt I should run and that I should make the announcement now."

Democratic Gov. Edmund G. Brown, who is expected to seek re-election, said "Knight's announcement at this early date—a full nine months before the primary—is a transparent attempt to keep Richard Nixon out of the race. But I will leave it to these two worthies to fight their own battles."

Former Vice President Nixon was unavailable for comment. He has said he'll become a candidate only if no Republican "who can win" enters the race.

Some political observers speculated that Knight is out to settle some old political scores by declaring his plans ahead of Nixon. Knight has made it plain that he hasn't forgotten 1958—the year of the Big Switch.

In August of that year, Knight sought re-election as governor. By mid-November, Knight had gone through the painful experience of giving it up for a try for the U.S. Senate.

What happened in between is that powerful Republican factions, including Nixon, agreed to support then Sen. William F. Knowland over Knight as their choice for governor.

Both Knight and Knowland lost.

### Ransom For Art Is Due

REVERLY HILLS, Calif. (AP)—A ransom demand may come, police say, from the thief who locked a maid in a closet and stole four paintings insured for \$670,000 from a Bel-Air mansion.

The FBI joined the investigation Monday on the theory that paintings so costly would be transported across state lines. One is a Picasso listed at \$400,000.

The thief, posing as a florist and concealing a revolver in a bouquet, took the paintings Sunday from the \$2-million collection at the home of industrialist David E. Bright.

The possibility of a ransom demand was seen in a mysterious call to Bright's telephone answering service, placed before the theft was made public.

"Don't contact the police or insurance company and you'll get your paintings back," a man's voice said.

Stolen were Pablo Picasso's "Sabastian," insured for \$400,000; Picasso's "Looking Through a Window," \$100,000; Amadeo Modigliani's "Portrait of a Woman," \$150,000, and an untitled abstract by Afro Basaldella valued at \$20,000.

### Rain Slows Balloting

OKLAHOMA CITY (AP)—A forecast of rain today promised to throw even more of a damper on an already lackluster special election to change Oklahoma's Constitution in two places.

Even before the Weather Bureau predicted rain for most of the state, veteran observers were saying the vote would be lucky to reach 20,000.

At issue were two amendments checked to the people by the recent legislature, one of them concerning a branch of the legislature itself.

The measure would alter the constitutional formula for apportionment of House membership. The other would permit trial of a defendant in any county where it appeared likely he committed the crime.

### Fire Bill Presented

WASHINGTON (AP)—The Navy has presented Congress with a \$41.6-million bill for the fire damage suffered by the aircraft carrier Constellation in the Brooklyn Navy Yard last December.

The repair work has almost been completed and the huge carrier will be finished by Christmas, the Navy predicted.

Fifty lives were lost in the blaze which broke out when a tank of jet fuel was spilled on the hanger deck and ignited by a welding torch.

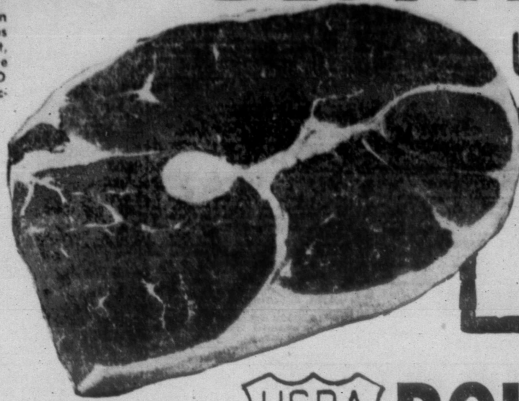

The extent of the damage was disclosed in testimony released Monday by the House Appropriations Committee. The money is in an supplemental appropriations bill.

The Tasmania devil is a small bear-like animal with big strong jaws that inhabits the island of Tasmania off the east of Australia.

Junior Editors Quiz on THE CALENDAR

QUESTION: If the name for the month October is derived from a word meaning eight, why does it denote the tenth month of the year?

ANSWER: This is a sharp question and shows that Anne Erikson, the girl who asked it, has been using her brain. We have had to use our brains to answer it. The Romans appear to have taken their first calendar from the Greeks. It had only 304 days, divided into ten months, the names of which we show in our picture. As you see, October is month number eight and as 'octa' was a Greek prefix meaning eight you will understand how October came to get its name. In our picture a student holds her hand up because she wants to find out what happened to January and February. Romulus, who is supposed to have introduced this calendar about 753 B.C., just didn't bother about these winter months. But a later ruler added the names Januarius and Februarius for the missing months. Later, to honor Julius Caesar, the Romans renamed Quintilis 'Julius,' from which comes our 'July.' The emperor Augustus thought this a good idea and renamed Sextilis, from which change comes our month 'August.'

FOR YOU TO DO: The Romans honored Julius Caesar by calling his birth month 'Julius' because he had done so much for Rome, building roads, making laws for rich and poor alike. At the same time, he was ambitious and ruthless. Read his remarkable story and then decide for yourself whether he was a good or a bad man, or perhaps a mixture of both.

(Anne Erikson of Ridgefield, N. J. wins \$10 for this question. Mail yours on a postcard to Junior Editors in care of this newspaper.)

Many Agencies To Help Aid Victims

By The Associated Press Scores of agencies joined forces Tuesday for a speedy and massive rehabilitation effort to repair or ease the ravages of Hurricane Carla.

Relief groups provided food, shelter and other immediate essentials for families displaced or trapped in the Gulf disaster.

Men and machines moved in with supplies and to repair damaged sanitation facilities.

From Washington came pledges of governmental loans to coastal business men—and other relief measures.

The Southwestern Office of Civil and Defense Mobilization at Denton coordinated and directed some 36 federal agencies in rehabilitation work.

In Washington, the House of Representatives promised help and took note of the disaster with a call for prayer.

View President Lyndon Johnson and Sen. Ralph Yarborough, D-Tex., said the federal government is ready to aid when called upon.

Rep. Clark W. Thompson, D-Tex., telephoned Galveston city officials that 20-year loans at 3 per cent interest will be expedited through the Small Business Administration.

Thompson reported federal officials would fly from Washington for the Gulf Coast area as soon as the storm subsides. They will include representatives of the Small Business Administration, the Civil Defense Department, the Red Cross and the White House staff, he said.

### Miss America Of 1958 Sues For Divorce

DENVER, Colo. (AP)—Gary Nady, the former Colorado football star who married Miss America of 1958, Marilyn Vanderbur, said Monday night, "Marilyn is suing me for divorce."  
In New York City, where she is making television appearances, Miss Vanderbur refused to comment.

Nady, 27, football coach at Parsons College in Iowa, said he had received a telephone call from his wife a Denver attorney Monday night.

The couple was married June 1 in a well-publicized ceremony at St. John the Evangelist Catholic Church in Denver.  
Marilyn, 23, has made numerous television appearances for the American Telephone & Telegraph Co. She was TV hostess for the Miss America pageant at Atlantic City, N.J., last weekend.

She and Nady met at the University of Colorado as students and became engaged at Christmas 1959. Three months later, Miss Vanderbur broke the engagement, saying "Gary and I just weren't able to work things out."  
But last March their wedding plans were announced.

"I thought it was an ideal marriage," Nady said last night. "I always felt she was happy here in Fairfield, Iowa. The only thing I can think of is that since she's been gone, some new horizons in her career have presented themselves."

Nady said his wife has been away from home for about three weeks but that "nothing was wrong when she left."

"She told her lawyer she's not even coming back—she's left me for good," he said.

### Tides Roam Far Inland

HOUSTON (AP)—Hurricane Carla's high tides sloshed into warehouses 50 miles from the Gulf of Mexico today.

Tides along the upper reaches of the Houston ship channel measured 14.8 feet above normal. The wind-whipped water was waist-high over some docks.

Cmdr. R. J. Evans of the Coast Guard said 70 per cent of Port Houston's facilities were under water. The wind-whipped water was waist-high over some docks.

The 50-mile channel links Houston with the gulf.  
Hurricane Carla took its first known life in Houston Monday night. Abel Threton, 56, stepped on a power line snapped by the wind and was electrocuted.

A tornado also skipped through Channelview, injuring 22 and damaging 35 homes and 6 stores.

The Weather Bureau warned that flooding was indicated the next 36 to 48 hours from five bays that cut through Houston, the nation's seventh largest city.

"We will have a lot of flooded areas if we have another 6 to 7 inches of rain the next 24 to 36 hours," said Conrad Hinshaw, assistant county flood control engineer.

Except for Channelview, the wind caused relatively minor damage to homes and buildings. Only two big windows were reported blown out in the downtown area.

### Heroics Are Order Of Day

DICKINSON, Tex. (AP)—Heroics were common during the tense hours of hurricane Carla's passage, and Jimmy Matthews, 19, contributed his share.

The National Guardsman from Houston volunteered to drive a truckload of refugees here from flooded Texas City through rolling tidewater, shrieking winds and blinding rain.

"I was scared witless," he said. His 29 passengers said he was brave.

"The water was sloshing over the top of my truck as I drove through the lower end of Texas City," Matthews said. "I was using my front wheels as a rudder and driving in the lowest gear."

### Rides Storm In Sailboat

CORPUS CHRISTI (AP)—Don Wilson rode out hurricane Carla in his 40-foot home-made sailboat because it "is my home and I wasn't going to turn her over to the hurricane."

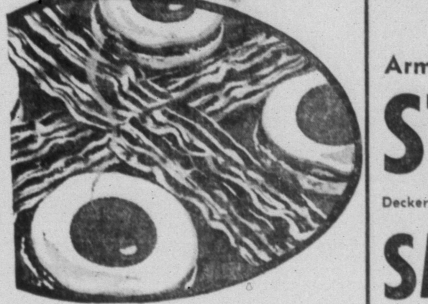

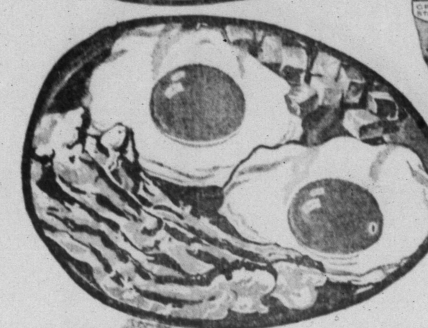

"When two of the four mooring lines holding the boat to the pier broke, I went to sleep," red-bearded Wilson, 40, said Monday. "There was nothing more I could do to help the boat."

"I figured I'd wake up in the wreckage of the boat."  
Wilson built the boat during five years he worked as a photographer in Fremont.

The storm smashed or sank 25 or 30 other pleasure boats left unattended in the Corpus Christi Yacht Basin. Hundreds of others came through undamaged.

The secret police system of Iran is known as "The Eyes and Ears of the King."

# Nothing To Indicate K Is Good Guy

By JAMES MARLOW Associated Press News Analyst

WASHINGTON (AP)—It's an expensive, but not brainy, comfort to think that the pudgy man who talks peacefully of coexistence really is a good guy being pushed by Kremlin tough guys into talking war and superbooms.

Nothing in the record bears out that notion which, from time to time, is floated like a dreamy balloon to explain the sudden and savage switches which occur in Premier Khrushchev.

He didn't become leader of the Communist pack by being a softy anytime for anybody. He had to claw his way to the top in a league whose philosophy is based on power and not on persuasion.

The world was shocked when Khrushchev suddenly ended the East-West agreement to forego nuclear tests. It didn't need to be Khrushchev had carefully laid the groundwork for just such a switch.

The only missing element in his decision was why he did it when he did.

Nor should his toughness on Berlin now be a surprise. He said three years ago he wanted the Allies out of Berlin and it had to be done. He said there would be a showdown this year and he's trying to make good on his threat.

Stalin looked tougher than Khrushchev. He was behind the Berlin blockade of 1948, the Communist guerrilla warfare in Greece, the pressure on Turkey the seizure of Czechoslovakia, and, no doubt, the Korean War.

Stalin wasn't tougher, just more reckless. By the time Khrushchev took over the United States and Russia both had the hydrogen bomb. So he had to be more careful.

This explains his denunciation of Stalin: the infiltration of backward countries he began, not with frontier assaults but with foreign aid and internal subversion.

But the two men's goals were the same—world domination. The only difference is tactics. A good example of why Khrushchev isn't more belligerent than himself is in the nuclear test suspensions.

When President Eisenhower in 1950 suspended American nuclear testing, there were some who thought the United States should not stop. You can be sure there was a difference of opinion in Russia when Khrushchev said he

was suspending his tests the same year, too.

In January 1960, Khrushchev said Russia would not resume the tests unless the "Western powers resume them." In Khrushchev's mind, the Western powers, as it turned out, included France which was then preparing to test.

A little more than a month later—on Feb. 13, 1960—France had its first atomic test in the Sahara. Immediately the Russian news agency, Tass, laid down what was to become the Soviet excuse for resuming its own tests.

"If nuclear explosions should continue, the Soviet government will, naturally, not be able to overlook it and fail to draw the proper conclusions for its own security," Tass said.

France had a second explosion on Feb. 1, 1960, a third Dec. 27 that same year and a fourth on April 25, 1961. On May 15 Russia threatened to resume its own tests unless the United States and Britain got France to stop.

"One of the great unknowns is what the United States would have said or done if it found out Russia's ally, Red China, was testing while this country wasn't."

The Soviets accused the United States and Britain of having arranged the French tests to make up for the tests they themselves had suspended. The United States and Britain dismissed this accusation.

Khrushchev repeated it last week after he had resumed testing.

The Associated Press reported last May 15 that the American and British representatives, then negotiating with the Russians in Geneva on a permanent test ban, "were not greatly impressed by the threat of resumed Soviet testing."

Khrushchev meant business, as he proved. Just as some of President Kennedy's advisers thought the United States should resume testing in the atmosphere, it can be taken for granted some of Khrushchev's advisers thought Russia should.

This record doesn't indicate that Khrushchev to make States change his mind about suspending atmospheric tests. The only question is why did he do it when he did, during the Berlin crisis.

A good guess is that he decided it was good strategy to show the West he meant business on Berlin and, if possible, terrorize the Allies into yielding to him.

## Coats, Ties For Students

NEW HAVEN, Conn. (AP)—School authorities—with a probable assist from the thermometer—will decide whether the boys at Hillhouse High will have to continue wearing coats and ties.

"Phew!" the New Haven School Board said Monday night after hearing that Principal Robert T. Levine had sent several boys home for not following his sartorial directive.

The order is "unreasonable" in such hot weather, one member complained as the board asked an assistant superintendent to discuss the issue with Levine.

A decision is expected today. Levine, whose school was one

## Report Saboteurs May Blast Tower

PISA, Italy (AP)—Reports circulated in this central Italian city today that saboteurs might try to blow up the famed leaning tower of Pisa.

The rumors spread after a weekend of terrorist bombings in Rome and half a dozen other cities. Government officials blamed the bombings on German-speaking extremists seeking greater autonomy in South Tyrol.

City authorities in Pisa said they felt normal security measures around the leaning tower are adequate. The monument, a 14th-century bell tower standing next to the Cathedral of Pisa, is constantly guarded by at least 20 policemen.

## Reds Warn Against Any Close Games

BERLIN (AP)—The East German Communist regime warned the U.S. Army today not to "play war games" for television cameras on the border in Berlin.

The Communist party newspaper Neues Deutschland rejoiced that "ears had been boxed" because a Jack Paar TV show had been filmed on the border at Friedrichstrasse last Thursday.

The Berlin command's information officer was removed and an infantry colonel admonished for showing up with 13 enlisted men to participate in the filming.

"What does an American television director do when he wants to film war scenes and there is no war taking place?" asked an editorial in the Communist paper.

"He stages war games. So that the setworkers in the U.S.A. can see genuine 'extras' Mr. Jack Paar rented a 50-man unit of the American occupants of West Berlin and stationed them right on the national border of the GDR 'East Germany' in Friedrichstrasse, to be filmed in warlike equipment."

"What would have happened if in the heat of the war games one of them accidentally pulled the trigger? Have we not emphatically declared that it is not advisable to carry out war games and provocations on our border?"

# Ike May Have Started New Post Mortems On Invasion

By GEOFFREY GOULD

GETTYSBURG, Pa. (AP)—Former President Dwight D. Eisenhower may have started a new round of post mortems on the Cuban invasion by declaring that his outgoing administration had not drawn up an invasion plan.

Ever since the invasion was crushed at the Bay of Pigs last spring, it has been reported that President Kennedy inherited a detailed invasion plan with many armed units poised throughout the Caribbean area. All that remained for Kennedy, these reports said, was to give the go ahead signal.

But Eisenhower told a group of 38 freshman Republican congressmen Monday, "we had done nothing except to recognize that these Cuban refugees had a great desire to go back to Cuba, so we began organizing them and giving them weapons and training them. But beyond that we could not go, because at that time there was no recognized leader among the (refugee) Cubans."

He added, "I was not a consultant or adviser to the (Kennedy) administration in any way, of course."

A reporter went back to the question later, and Eisenhower amplified. "In March, 1960, we had a little meeting in my office as to whether to go ahead and train these people. We set up a little group to keep in touch. It was never any more than that."

The Central Intelligence Agency has been widely credited, without contradiction, with starting to line up the ill-fated invasion as much as a year before the landing.

Asked about his views on the Soviet Union's resumption of nuclear testing in the atmosphere, Eisenhower said he believed the Soviets have been secretly testing nuclear weapons during the three-year moratorium which ended Sept. 1 with the first shot in their new series.

Eisenhower covered a wide range of subjects in a setting strongly reminiscent of the news conferences he used to hold in his White House days. One difference was that the first-term GOP congressman asked most of the questions.

was asked was about a recent State Department pamphlet called "Background Berlin—1961." The pamphlet implied that Eisenhower could have taken Berlin before the Soviets did at the end of World War II, but decided not to.

Republicans in Congress last week raised shouts of protest over this version of history.

Eisenhower replied mildly, but in great detail. In essence he said the political boundaries of post-war Germany were decided by higher ups. He said he had sent his chief of staff to the Yalta conference to advise against dividing Germany, to no avail.

Besides, Eisenhower said, it was not at all sure the Allied forces he commanded could have reached Berlin first.

Dealing with the Berlin crisis, Eisenhower said "we shouldn't make nasty speeches like Khrushchev just to be nasty."

If the United States thought out positions on international questions properly, he said, "we would not have to respond to Mr. Khrushchev every time he says 'yap' or 'wow' or anything else."

## Closing Date For Session Suggested

UNITED NATIONS, N.Y. (AP)—Secretary General Dag Hammarskjöld suggested Monday that the U.N. General Assembly set Dec. 20 as the closing date for its 16th annual session. It begins Sept. 19.

The first question Eisenhower

## Lucky Duck Falls On School Ground

By The Associated Press

Lucky Duck

A wounded duck, his body pitted with buckshot, plummeted into a high school yard at Tucson, Ariz. He couldn't have picked a better place.

A student, Richard Orbakker, took the fowl down into a biology classroom and, with classmates for an audience, operated with scissors and tweezers to remove the buckshot.

At one point, the duck's heart

stopped beating. But that was no problem to his 18-year-old benefactor.

The youth grabbed a glass tube, put it inside the bird's beak and blew into it. A half-minute later, the duck was alive again.

"And he's going to stay that way," Orbakker predicted happily. Strictly Academic.

Suzanne Healy, 3, of Kings Park, N.Y., skipped a grade at Indian Head School—and the resulting situation was a frantic one.

Last Wednesday, Suzanne's mother, Mrs. Howard Healy, took her by the hand and led her to school for the first day in kindergarten.

Monday, Mrs. Howard decided it was time for Suzanne to go it alone. She did, and when she reached the school she sauntered into a first-grade classroom and sat down. The teacher mistook her for another girl.

Mrs. Healy checked the school later in the day and was told by the kindergarten teacher that Suzanne was absent.

It took scores of police, neighbors and school officials to locate Suzanne—and get her back in the right grade.

Motion on the Floor

At Cornville, Maine, 190 citizens filed into the 150-year-old town hall to discuss a proposed building code.

Midway through the meeting, the floor of the hall buckled and dropped about two feet in the center.

The meeting was moved to the school house.

## Battleship Is Haven

HOUSTON (AP)—Three unidentified families rode out hurricane Carla aboard the battleship Texas.

The ship, supposed to be anchored in mud at the San Jacinto Battleground near here, appeared to be floating, Richard Poe said, because the ship's deck was much higher above the ground than usual.

Now a tourist attraction, the vessel was turned into a monument several years ago.

B. A. Burgess, superintendent of the battleground where Texas won its independence, said the gang plank and telephone lines to the ship went out shortly after the families boarded.

## Cuban Is Welcomed

MOSCOW (AP)—President Osvaldo Dorticos of Cuba was welcomed to Moscow Monday by Premier Leonid Brezhnev, who said the state visit is "fresh evidence of the growing friendship between the Soviet Union and the republic of Cuba."
