

Meany Still In Saddle

By NORMAN WALKER BAL HARBOUR, Fla. (AP)—George Meany emerged today with a new two-year term as organized labor's top leader and important new tools for dealing with labor's internal and racial problems.

Meany, 67, came out of the week-long AFL-CIO convention with his authority over the 12.5 million member federation more solidly established than ever. His major accomplishment was in persuading rival building trades and industrial unions to agree on nailing down a tough new disputes settlement system as part of the AFL-CIO constitution.

Meany promised to put an effective staff to work in the department. Meany nipped in the bud a drive on the part of some AFL-CIO union chiefs to accept back the expelled Teamsters Union. Instead, convention delegates authorized Meany to continue to treat the Teamsters as he has all along—that is, permit their return only after they depose teamster president James R. Hoffa and demonstrate a corruption clean-up.

Shelter Incentive Funds In New Civil Defense Proposal

WASHINGTON (AP)—The federal Civil Defense program to be sent to Congress next month will cost about \$700 million and include incentive payments for construction of fallout shelters in schools, hospitals, and public welfare institutions.

A "fact sheet" issued in connection with the news conference gave a look at the government's philosophy about the possibility of all-out attack on this country. "The likelihood of such an attack is very small, but it is possible," the sheet said. "If it comes, we know its consequences would be terrible. Therefore, we must take what steps we can to protect ourselves through an organized long-range, sensible program of Civil Defense."

Gilpatrick summed up the federal government's views about its responsibility for civil defense in this fashion: "An effective civil defense requires the participation of every citizen. It calls for advance planning at every level of government—local, state and national. This planning must be flexible enough to adapt itself to changes in enemy weapons and tactics. It must be comprehensive enough to cover people living under widely different conditions from ranch houses to apartment houses, to farm cottages."

The primary defense obligation of the federal government is to build and maintain enough deterrent power to make any enemy attack unlikely. This deterrent demands a major effort in men, money and organization, now and for the foreseeable future. The fact sheet said there was no panacea for protection from the nuclear attack that "in a major attack on this country, millions—and probably tens of millions—of people would be killed. But an effective civil defense program, it said, could save large numbers of people who would not otherwise survive."

Moisture Is Due In State

By The Associated Press Low hanging clouds gave gloomy promise of more moisture Thursday nearly everywhere in Texas. A light snow shower or two peppered El Paso on the state's far western tip early in the day. Light rain fell a LaGrange in the day. Drizzle, again at San Antonio and Laredo. Moderate rain fell from a line of showers moving northward from the Waco-Comanche area.

Tshombe Calls For Shower Of Arrows

ELISABETHVILLE, Katanga, Congo (AP)—President Moise Tshombe called again Wednesday night for Katanga's ancestral tombs to rally a shower of poisoned arrows on United Nations forces threatening his secessionist regime. In a speech in Elisabethville, Tshombe called more force for the fight against the U.N. and pledged his government "will never leave the national soil." Meanwhile, American Globemasters flew in fresh U.N. troops which appeared a buildup for an all-out U.N. offensive. "Every U.N. soldier will be a powerless body. No longer will any quarter be given. It will be an all-out fight and we are sure to win." U.N. jets attacked Elisabethville's southern suburbs Wednesday but there was no report of casualties or damage. At the U.N.-held airport 700 Ethiopians landed to reinforce Indian, Irish and Swedish troops.

Photographer In Lucky Shot

WASHINGTON (AP)—The photographer who was ushered into the Blue Room of the White House to take a picture of President and Mrs. Kennedy standing in front of the Christmas tree. "All of a sudden Caroline came tripping in," said AP's photographer, Henry Burroughs. "She sobbed and sobbed for a moment. Suddenly her aunt, Mrs. Stephen Smith, realized she had no business in the room and whisked her out. Burroughs had taken a picture of Caroline by the tree, using normal flash equipment with his camera. He got just one exposure—and Caroline was gone."

U Thant Expected To Press Action Of U.N. In Katanga

By TOM HOGUE UNITED NATIONS, N.Y. (AP)—Backed by the United States and the entire Asian-African bloc, Acting Secretary-General U Thant was expected today to press U.N. action against the Katanga government despite Britain's call for a cease-fire. U Thant told British Delegate Sir Patrick Dean he would turn Britain's cease-fire request over to his Congo advisory committee. But it was expected the British demand would be rejected in view of the overwhelming support for the U.N. operation in the Congo province. The cease-fire call widened the split over Congo policy between Britain and the United States, which declared the move was not feasible until "minimum U.N. objectives" are obtained in Katanga. The 49-nation Asian-African group unanimously approved a declaration halting the U.S. stand on Katanga and throwing full support behind Thant.

Plane Passenger Pulls Cap Pistol

EL PASO (AP)—Ira Coles showed a toy cap pistol to a stewardess on American Airlines flight 627 Wednesday. Minutes later he was in the hands of the FBI. Coles was on the Dallas-El Paso flight. The FBI said he was not arrested and no charges were filed. Agents said the stewardess apparently told the flight captain a passenger was displaying fire-arms. That message went by radio to the airlines' office. It notified the FBI.

Six Schools Share Grants

HOUSTON (AP)—Six universities and colleges in Texas are among 266 institutions which will share grants totaling \$1,000,000. The grants, made by the Esso Education Foundation, were announced by M. J. Rathbone, chairman of the foundation and president of Standard Oil Co. (New Jersey). Texas institutions receiving the money are Rice University, Baylor University, Hardin-Simmons University, Southern Methodist University, Texas Christian University and Howard Payne College.

Texas Draft Quota For January Down

AUSTIN (AP)—Texas' January draft quota calls for 440 men, 121 less than this month. State selective service director Morris Schwartz said that about 4,000 men would be given pre-induction examinations in January, compared to 6,135 in December. The January quota will be filled with men who are at least 22 on Jan. 1.

Korth Quits Post On T&P's Board

NEW ORLEANS (AP)—Secretary of the Navy-designate Fred Korth has resigned as a director of the Texas & Pacific Railroad to prevent any conflict of interest. The Fort Worth lawyer was named to lead the Navy earlier this week. He submitted his resignation at a board meeting here Wednesday.

The nine were arrested Sunday night, along with two Albany Negroes, when they attempted to desegregate railroad station facilities. Since Sunday, 535 Negroes and 51 white persons have been arrested in this southwest Georgia city. There has been no violence and little tension in the two days of mass demonstrations resulting from the arrest.

Train Crashes Into School Bus; 20 Die

GREELEY, Colo. (AP)—A school bus was struck by a streamliner passenger train in northern Colorado today and at least 20 persons were killed. Coroner Ross-Adams said 20 bodies were taken to a temporary morgue in Greeley. Apparently all the dead were children. A number of children were taken to a hospital at Greeley. Adams said he was told there were 30 children on the bus. Sheriff's officers said the driver of the bus apparently escaped serious injury and was given shelter in the county jail. He was identified as Duane Harms.

The train was a Union Pacific Railroad streamliner which was traveling westbound. The bus was struck at a crossing two miles east of Evans, which is a short distance south of Greeley. Greeley is about 30 miles north of Denver. After the accident the train was run on to La Salle, another small community near Greeley. The bus was one of several from the Greeley School District serving Greeley High School, a junior high school and an elementary school, all in Greeley. Officials said all of the children aboard the bus were from rural families. The weather was clear with temperatures below freezing.

The crossing is marked by a sign but has no flashing lights to signal the approach of a train, an official said. The bus, traveling northwest apparently drove into the diagonal crossing just as the train, approaching from the east, was about to signal the approach of a train, an official said. The train struck the bus at its rear end and knocked it about 100 yards.

All parents known to have children on the bus were taken to the sheriff's office at Greeley. The temporary morgue was established at a former armory in downtown Greeley.

TWO PHASES OF GOODFELLOW ACTIVITY are seen above as a donation of \$100 from the Snyder Joycees is received by Jerry Jackson, chairman of the Goodfellow campaign. Making the presentation is Doug McGlaun, president of the Joycees. Looking on, left, is Betty Jo Brown, president of the Joyceettes. The Joyceettes also donated \$25. In the foreground, George Hale continues work on a toy to be given by the Goodfellows to brighten a child's Christmas.

New Arrests In Georgia

ALBANY, Ga. (AP)—Albany Negroes, with 200 of their race in jail for staging demonstrations, tried today to desegregate a bus terminal and police made 10 new arrests. Seven youths and three girls entered a bus terminal. Some were served coffee before officers arrived and placed them under arrest. Police pushed some of the children from the cafe. R. B. Hamantime, the station manager, said he made no comment when the group entered the cafe but served coffee to five of them. There were no whites present. Police Chief Laurie Pritchett personally supervised the arrests. Apparently, 62 was Pritchett who was "stayed by an officer" a few minutes later to close the cafe. The officer told Hamantime, "the wants it closed—close it down." There were 10 Negro youths sitting in the waiting room usually reserved for white persons as crowds gathered in the vicinity of the Trailway terminal. Several hundred white persons lined one corner of the intersection on which the station faces. On another corner there were small bands of Negroes, also numbering several hundred. Pritchett marshaled his forces—about 20 officers—on another corner. A court hearing for nine Freedom Riders is expected Wednesday when Negroes staged a demonstration in "signs of city hall" was to resume this afternoon. The nine were arrested Sunday night, along with two Albany Negroes, when they attempted to desegregate railroad station facilities. Since Sunday, 535 Negroes and 51 white persons have been arrested in this southwest Georgia city. There has been no violence and little tension in the two days of mass demonstrations resulting from the arrest.

New Arrests In Georgia

from the arrest Sunday of Joe Albany Negroes and nine "Freedom Riders" out to test segregation on interstate transportation facilities. White residents of this city of 36,000 have shown little class-race interest in the incidents of earlier arrests. The warnings of continued arrests came from Police Chief Laurie Pritchett after 200 Negroes, including many teen-agers and children, were pinned Wednesday night as they marched in protest of earlier arrests. Indications were that more demonstrations would be staged as the trial of the Freedom Riders group resumes in Recorder's Court. The wholesale arrests brought from one Negro leader a charge that "a police state" exists within the city. The charge was made by M. S. Page, secretary of the pro-integration Albany Movement. Page said the Negroes who had been arrested had done nothing but "walk the streets and pray."

Earlier 11 Negroes were herded into City Hall after refusing to halt a kneeling and singing demonstration on the sidewalk in front of the building. All but one was released. Recorder Albert Israel imposed a five-day jail term on Slater King, a greeter for contingent of court. King, the spokesman for the group, is a member of the Albany State Teachers' Association committee.

Police jailed 267 Negroes Tuesday for marching and singing in protest of the arrest of the Freedom Riders group. They were charged with disorderly conduct, obstructing traffic and failure to obey officers. The same charges were lodged against the 77 arrested Sunday. Those jailed Wednesday night were charged on three other counts—unlawful assembly, parading without a permit and unlawfully congregating in mass demonstrations resulting from the arrest.

# Cabinet Ministers Turn To Defenses

PARIS (AP)—The top cabinet ministers of the North Atlantic Treaty Organization today met to discuss the controversial issue of negotiating with the Soviets on Berlin and turned to the state of Western defenses.

Defense chiefs of the 15-nation alliance took over from foreign ministers to review progress toward the goal of 10 combat divisions fixed seven years ago but still not achieved.

U.S. Gen. Lauris Norstad, supreme commander of allied forces in Europe, told the Western European Union Assembly Wednesday that a strength of 25 divisions will be reached by the end of this year and possibly 35 of them will be fully equipped.

While the military buildup has quickened since the Communists walked off Berlin, he said more must be done to bolster the allied forces.

"It will take time, effort and money," he declared. "There is no way out of it."

The assembly, drawn from the parliaments of European NATO nations, endorsed Norstad's annual call for a NATO force of 30 divisions, which the NATO strategists say would be sufficient to meet a Communist attack without resort to nuclear weapons.

The assembly also urged the NATO council to give greater authority to allied commanders to deploy their forces and determine their own supply requirements. This move is entirely in the hands of the individual nations, and the allied commanders have the power only to advise and coordinate.

Need for greater standardization of NATO arms and equipment was also expected to be discussed. There has been much criticism about the growing number of armament projects based mainly on narrow national considerations.

Another important military issue likely to be raised is NATO control over the use of nuclear weapons, now exclusively in the hands of President Kennedy.

# Panel Is Formed To Aid Katanga

NEW YORK (AP)—A committee was formed Wednesday to aid Katanga, the Congo province now battling a United Nations force.

The new group is called an American Committee for Aid to Katanga, Freedom Fighters.

"To mobilize maximum public support for a Katanga fight for self-determination.

"To vigorously protest illegal United Nations action against Katanga, and the United States' logistical support of this action.

"To supply the freedom fighters in Katanga with all aid—political, material, relief and otherwise."

Among the 31 sponsors of the committee are Sen. Everett M. Dirksen, R-Ill., former governor; Charles Edson of New Jersey and J. Bracken Lee of Utah, retired Gen. Albert C. Wedemeyer, former American Legion Commander; Martin B. McKeon and William J. Buckley Jr., editor of the right-wing National Review.

Chairman of the committee is Dr. Max Yergen, Negro educator and author.

Yergen in 1948 resigned as executive director of the Council on African Affairs in a split with a faction he called pro-Communist.

The new committee said the Katangans were "being overwhelmed by external powers which are bent on coercively subjecting them to a centralized regime."

The regime referred to is added, has "proved its incapacity to govern and has failed to successfully resist Communist penetration."

Other sponsors include Lt. Gen. Lewis H. Brereton, Brig. Gen. William H. Wilbur, Adm. Ben Moreell, all retired; Spruille Braden, former assistant secretary of State; and professors from 11 universities and colleges.

# Two Projects Get Approval

DALLAS (AP)—The U.S. Corps of Engineers approved Wednesday a proposed flood protection project in the Abilene area at an estimated cost of \$30,000,000.

The report calls for rehabilitating, raising and enlarging about 12 miles of existing levees and floodwalls and the construction of 12 miles of new levee work.

The engineers recommended that the federal government put up \$23,380,000 toward the total cost with the local area contributing 30 per cent or \$10,620,000.

The engineers also recommended a hurricane protection program in the Port Arthur area at an estimated cost of \$33,400,000.

# Tot Awarded Grandmother

TULSA, Okla. (AP)—A baby who was given away by a man in a tavern last week was placed in custody of his grandmother, Mrs. F. G. Probst of San Angelo, Tex.

Juvenile Court Judge Dorothy Young awarded the child, 7-month old Mack Montgomery, to a trace has been found of the boy's father, James Edward Montgomery, or Montgomery as a wife since a Tulsa man reported Nov. 3 that a stranger in a bar gave him the child. Grimes identified pictures of Montgomery as the man who handed over the baby.

Mrs. Probst said she believes the boy's father is dead.

**SWEETHEART CANDIDATES**—One of these lovely Misses will be crowned "D. E. Sweetheart" Friday evening at the club's annual banquet to be held at the Village banquet room. From left, Gwen Sturdivant, Carolyn Beckham and Gail Weber.

### D. E. Club To Name Their Sweetheart Friday Night

The Distributive Education Club, elected by secret ballot, three candidates for their annual Sweetheart contest to be held Friday night at 8 p.m. The three candidates are pictured above. The Sweetheart will be crowned Friday night at the Annual Sweetheart Banquet.

The Sweetheart is chosen each year for her personality and her club activity. Each of the girls are very well qualified for this honor.

Carolyn Beckham is a senior student and is the parliamentarian of the club. She is employed at Arrow Construction Co.

Gwen Sturdivant, employed at

Wrightfield's Variety Store, is a junior student this year. She serves as an active member of many of the club committees.

The third candidate, Gail Weber, is a Junior. She serves the club as treasurer, and is employed at Perry Brothers Variety Store.

The Sweetheart's picture will be sent to the area contest in January. If she wins area, she will compete at the state contest.

This is considered one of the highest club honors and one of the biggest club events of the year. The Sweetheart will be presented at our Employer - Employee Banquet in March and will represent the club as Sweetheart in all club events and activities.

Another program for recognizing outstanding D. E. Students during the school year is now in the planning stages. A committee is working out a set of standards for a Mr. and Miss D. E. The plans now are for selecting a couple for this honor each month.

### Give Him Clothes?

By JOY MILLER  
AP Women's Editor

Baffled about what to give the fellow often only referred to as the "man - in - your - life" you can always fall back upon the utilitarian solution: clothes.

If he's already paying the bills, he'll congratulate himself upon having such a thrifty wife. If he's contemplating the step that would lead to paying the bills, it could be the deciding factor in favor of you - unless, of course, he had his heart set on a replica of a museum statue of the eighth avatar of Vishnu.

Since women are getting self-conscious about selecting ties - among minor league jobsters the Christmas tie is second only to mothers-in-law - they might be happier choosing larger, less artistic items.

What about slippers? The shapeless house slipper of old has been replaced by elegant afternoon shoes that reflect the tapered continental look without sacrificing the smallest degree of comfort. And these can be worn outdoors as well.

Then there's the raincoat, worn as a sort of uniform by the young married and college set. He's not married. He can never see another. Cotton dressing gowns are fine for both traveling and staying at home. They're lightweight, washable, colorful. And the drip-dries endear themselves to bachelors.

Leisure shirts are a modern expression of masculine vanity. Even the most conservative corporation executive will go wild over the weekend. Once they were cotton T-shirts. Now the most hygienic investment is a multi-lined madras cutting. For those expensive parading, there's single stitch raw silk.

For the fellows in the office, what about the silk handkerchief? You'll either start a vogue or cater to one.

If you're a girl who has everything herself, you may want to know a haberdashery store in New York is offering a set of hand-made sport coat buttons for \$3.99. But imagine sewing on all those buttons on office time.

### Use Evergreen At Christmas

AP Newsfeatures

For indoor decorations select evergreen branches that do not lose their needles quickly in the heat of the home. Needle-leaved evergreens that are suitable include pine, fir, juniper, yew, arbutus and chamaecyparis. Hemlock and spruce dry more quickly.

Broadleaf evergreens commonly used in the north include boxwood, andromeda, leucodaphne, holly, magnolia and English ivy. The broadleaf type tend to dry more rapidly than the needle varieties. Waxing or shellacing will keep the leaves on longer.

Young garden supply store probably has all anti-wilt compounds with which to spray your Christmas tree and reduce drying. Mix with water, the solution forms a film that also adds a sheen to the foliage.

Actually there are two gnus with heads together, but they broke up the cozy pose when Grant came in range. (AP Wirephoto)

## Reserve Callups Cost \$½ Billion

WASHINGTON (AP)—The callup of reservists and National Guardsmen is expected to cost more than \$500 million by next summer.

This is not the whole cost of the stepped-up mobilization began last summer on President Kennedy's order.

The rest of the estimated \$1 billion increase in the military budget originally proposed for 1962 is expected to be paid for by other means.

One of the biggest single cost items in the callup is for the two federalized National Guard divisions, Wisconsin's 2nd Infantry Division and Texas' 48th Armored Division.

The Budget Bureau estimates that callup will add to about \$300 million of "extra" \$100 million for personal costs, such as pay and subsistence, and \$100 million for operation of the two divisions.

In all, about 118,000 Army reservists were recalled. This includes about 21,000 men in the two Guard divisions, 22,000 other Guardsmen in other units, and ready reservists in addition, the Air Force and Navy put about 38,000 Guardsmen and reservists on active duty.

Now estimates on costs for the recall, other than those for the two divisions, were not available. However, when the mobilization program was submitted to Congress last July, a preliminary over-all estimate for Army personnel cost was \$400 million. This figure included costs of building up Army strength with training as well as reservists.

The Air Force uses a \$164 million estimate for personnel, saying this represents primarily the callup of Air Guard and reserve fighter and transport units together with retention of units which had been planned for disbanding before the Berlin crisis developed.

The \$164 million is only for personnel and a relatively small amount for refueling bases of the units called up. It does not cover aircraft maintenance, fuel and other operating expenses.

A rough estimate for the Navy's cost in training ships and aircraft squadrons with approximately 2,400 recalled reservists is about \$42 million. Again, this estimate does not cover operating and other costs, still being calculated.

The operation and maintenance cost for all the services and for regular as well as reserve units has skyrocketed by an estimated \$1 billion since pre-mobilization days. This was disclosed last October in a mid-fiscal year estimate by the Budget Bureau.

## Two Truants Find Selves In The News

NEW YORK (AP)—The last thing John Edwards and Michael Unger wanted was publicity. So what did they get?

John and Michael, both 17, were playing hooky Wednesday from at least two classes at Manhattan High School. They figured they could cut a gym class and a study period, take a tour of the United Nations, and then get back to their school on Long Island.

They bought public four tickets to the event, but Edwards happened to become the one millionth visitor to the U.N. in a 10-month period.

As the millionth ticket holder, Edwards was given the VIP treatment — including seaweed shots, press photographers, luncheon in the delegates' dining room, and a private tour of the premises.

Unger, No. 999,999 got in on the honoree list.

It was great sport, but very embarrassing after the lads returned to school before afternoon sessions ended.

A school official reported by phone to Mrs. Edwards that her son had a "fantastic excuse" for his absence.

Mrs. Edwards said she considered her son's experience "absolutely hilarious," but quickly added she did not approve of his cutting class.

Their big yen to see the U.N., said John and Michael, stemmed from a course they took in political and economic theory.

All but 23 miles of the Oregon coast is publicly owned.

# First Agreement Reached On Tariff-Cutting Policy

By SAM DAWSON  
AP Business News Analyst

NEW YORK (AP)—The battle of words over tariff policy—growing louder day by day—is giving way temporarily to some action.

Tariff cutting by the United States and Western Europe is at the agreement stage. And some American industries are bound to be displeased.

George Ball, U.S. undersecretary of state, gave the lipoff on that when he indicated the new pact would about exhaust the tariff-cutting powers given the President by Congress in 1958.

Long negotiations at Geneva by the nations in the General Agreement on Tariffs and Trade (GATT) have been hammering out this fifth round of tariff cuts since GATT came into being in 1948.

The actual tariff cutting by the United States and the European Common Market would be under the old rules granted Dwight D. Eisenhower's administration. It is apart from the new and more sweeping authority President Kennedy says he will seek from Congress early in the upcoming session.

The GATT agreement will be closed as action. But it is likely to set off even more words in the angry encounters in Congress that are now being previewed in Washington at a hearing by a Senate-Home subcommittee.

When the U.S. reciprocal trade agreement law was extended in 1958, the President was given power to negotiate cuts up to 20 per cent over the four-year extension period on a list of products.

Tariff reductions worked out in bargaining sessions with other nations have brought strong complaints by various American industries about the increasing competition from cheaper foreign goods.

Further cuts, as hammered out at Geneva, doubtless will add to the list of complaints.

And the still broader powers to lower protective barriers here which the President proposes will be fought by many industries in Congress.

### Queen Is Improving

LONDON (AP)—Queen Elizabeth II, stricken with a feverish chill two days ago, was allowed out of her sickroom today to keep indoor engagements at Buckingham Palace.

### From me to you A DAILY VIEW

By Rev. R. Charles Spivey

Sing to the Lord a new song, sing to the Lord, all the earth! Sing to the Lord, bless His name, tell of His salvation from day to day.

Psalm 96:1-2

Everyone likes a word of praise now and then. And I imagine that God would like to hear a word of praise from your heart.

We often pray to God, but isn't it true that most often we tell God that He is doing a lousy job of running the world. Something has happened that we didn't like or didn't agree with, so naturally it's all His fault.

Or often when we pray it is only to ask for something—"Gimme this and gimme that!" and then almost subconsciously we add a little threat, "If You don't give it to me, I just won't go to church next Sunday."

Come now. Let us sing to the Lord a new song. Let us grow become mature; let us sing unto Him our heart; let us praise His name, and has done marvelous things.

First Presbyterian Church

The coming session of Congress. Those favoring the United States, using all the tariff-cutting powers granted in 1958 say that such bargaining is necessary if Americans are to get trade barriers against their goods lowered in other lands. Freer moving of goods in world trade will help everyone in the long run, they argue.

And they make much of a new factor that has arisen since the 1958 action. That is the European Common Market, other nations on the outside looking in.

Germany, Belgium, the Netherlands and Luxembourg are gradually building a common tariff wall against outsiders while trying in stages to eliminate any tariff barriers among themselves.

Britain is negotiating membership in this trading club. Other European nations are expected to follow suit.

The result, when and if it would be to form one solid Western European trading bloc with the United States, Canada, Japan and other nations on the outside looking in.

## Heart Unit Sets Special Series Here

Dr. Y. F. Hartley, chairman of the Snyder County Heart Council, has announced that Dr. Hugh Wilson, Chief of Thoracic and Cardiovascular Surgery at the Southwestern Medical School in Dallas, will be in Snyder to speak at a series of programs on Tuesday, Jan. 16.

Present plans call for Dr. Wilson to speak at an assembly of Snyder High School students in the morning, a luncheon in Snyder to which the public is invited, to a general assembly at Colorado City School Auditorium in the afternoon, and at a dinner meeting of the

Colorado Basic Medical Society in Snyder in the evening.

Dr. Hartley emphasized that the public is invited to attend the luncheon and that details regarding the exact time, place and cost of the luncheon will be announced later.

Dr. Hartley pointed out that the

visit in this area by a heart specialist such as Dr. Wilson is a part of a continuing program of public and professional education of the American Heart Association. Dr. Wilson's visit to the area is a result of a grant provided jointly by the Snyder and Mitchell County Heart Councils.

# Grandma Moses Is Dead At Age 101

HOOSICK FALLS, N.Y. (AP)—Grandma Moses, the spirited 101-year-old primitive artist whose work has appeared on 100-million Christmas cards, died 12 days before Christmas.

Grandma, who achieved worldwide fame after taking up painting in her late 70s, suffered from a chronic heart ailment.

Her health gradually faded at a nursing home, the Hoosick Falls Health Center, where she had been since July.

But on her 101st birthday, Sept. 7, the spunky, 100-pound farm woman vowed, "I'm going to live to be 100."

GRANDMA MOSES

She was alone with nurses when she died at 3:15 p.m. Wednesday of her physician, Dr. Clayton Shaw, told newspaper.

She had been in an oxygen tent most of the day, the doctor said. Grandma recently expressed a desire to go lame, he said, but she was "sort of indifferent to her surroundings lately."

Only a few weeks ago, however, friends had described her as "bright as a button" most of the time, despite her confinement and doctor's orders against painting.

In death as in life, she attracted the attention of people from all walks of life. Telegrams expressing condolence streamed into her family home at nearby Eagle Bridge, where she had worked.

President John F. Kennedy said: "The death of Grandma Moses removes a beloved figure from American life. The directness and vividness of her paintings restored a primitive freshness to our perception of the American scene. All Americans mourn her loss."

New York Gov. Nelson A. Rockefeller said: "She painted for the sheer love of painting, and throughout her 101 years she was

## Judge Calls Couple Back In Tax Case

KANSAS CITY, Mo. (AP)—Judge Richard N. Duncan has called Mr. and Mrs. John F. Byrne back to federal court Friday to explain statements they made after pleading guilty to income tax evasion.

F. Russell Miller, U.S. district attorney, announced the unusual hearing, at which time their statements and pleas of guilty will be reviewed.

Although the government offered to dismiss the charge against her, Mrs. Byrne insisted on pleading guilty Monday.

"I am not going to let my husband go to jail alone when it is my fault," she said. "I kept all the records and I am not going to let my husband take the blame without me."

"You just can't believe it could happen to you," she said in an interview. "We were never once told how much tax we were supposed to pay until we were indicted. We offered to pay if they would tell us how much we owed."

Byrne reported he wrote a letter of protest to President Kennedy, saying he and his wife might renounce their U.S. citizenship and leave the country.

Byrne operates a chain of sandwich shops in Kansas City. He and his wife have four children, 10 to 20.

The government alleged they owe \$5,670 on their 1954 and 1957 incomes. When they pleaded guilty, Judge Duncan set their sentencing for Jan. 5. The maximum penalty is a \$10,000 fine and five years in prison.

Thain attorney, Richard K. Phelps, said he has no quarrel with the government's handling of the case but believes the violations were not willful because Byrne's business records were primitive and sloppy.

## Unions Call For Push In Congress

BAL HARBOUR, Fla. (AP)—The AFL-CIO called Wednesday for a Jan. 25 rally of union leaders in Washington to push the labor organization's economic and legislative goals in the 1962 session of Congress.

Delegates to the AFL-CIO convention adopted a resolution authorizing the conference at which all AFL-CIO unions are to be represented and leaders of both political parties invited.

Union representatives attending the conference at Washington will have an opportunity to buttonhole congressmen in behalf of AFL-CIO proposals to help combat unemployment and to enact health aid in the aged, education aid and other goals.

## Two Brothers Meet

TUNNEL HILL, Ga. (AP)—Two brothers met unexpectedly—head-on. Officer said Eugene L. Curtis, 25, and his brother, Jack, 31, dislocated left hip when their cars smashed together on U.S. 41 Tuesday night. Both are Tunnel Hill residents.

## Former SS Men Charged

BERLIN (AP)—Murder charges have been filed against six former Nazi SS leaders alleged to have killed 11,000 Jews during World War II in the Soviet Union, the local prosecutor's office said Wednesday.

The six, members of a special commando unit of SS, were identified as Dr. Alfred Filbert, a Berlin banker; Gerhard Schneider of Hannover, a government employee; Boris Stuck, a detective chief inspector, also of Hannover; Wilhelm Greifenberg of Torgue, a bookkeeper; Konrad Fiebig, a train conductor; and Heinrich Tunnat, a business manager, of Oldenburg.

## Husband, Wife Die In 3 Hours

CLAREMONT, Calif. (AP)—Sarah E. Hickman Taylor, 82, died Tuesday, only three hours after the death of her husband, Dr. Albert Hoyt Taylor, 83, a pioneer in research leading to the development of radar.

Services for both will be conducted at Arlington National Cemetery in Washington, D.C., on a date to be set.

## Expert Says Few Actually Retire

ATLANTA, Ga. (AP)—The best thing to save for retirement is yourself, says an expert on the subject.

Joseph R. Murphy, who has advised people on retirement for 25 years as manager of the Atlanta office of the Social Security Administration, is getting ready to retire himself Dec. 31.

"Unless you have your health and good life expectancy when you retire, you've defeated all your other purposes," he says.

"Too many people are afraid to retire because they don't have all the income they want. These people never retire until it's too late to enjoy it."

Murphy says it's a wonderful feeling to approach retirement, but to a large extent the whole thing is a myth.

"There's no such thing as retirement," he said. "Rather there is a change of pace, eliminating the demanding duties and fixed schedules."

But, he warned, many people don't know what to do with themselves once they collect that last paycheck. One man he spoke to recently said he planned to return to farming after 37 years away from it another planned to spend all his time in Florida fishing.

## Burned Boy Has Friends Over World

IONIA, Mich. (AP)—Five-year-old Richard Munschky has never been out of Michigan, but he has friends all over the world.

Ever since Oct. 16 when sparks from a trash barrel ignited his shirt and burned him badly, Richard has been deluged with gifts and letters from this country and abroad.

Army and Navy units all over the world have sent Richard enough foreign stamps and coins to start a first-class collection.

His first card came from the USS Intrepid and was signed by 3,000 men. Later mail deliveries brought paper money from Viet Nam, Turkey, England, the Philippines, France, Belgium and Italy, letters from Germany and an article from a French newspaper, telling his story.

It all started after Richard's paternal grandparents in California were notified of his serious burns. They got word to his uncle, W. E. Raine, who is stationed with a military communications outfit in Italy.

No one knows just how Raine got word of Richard and the world, but he did.

Bioged Hospital at Grand Rapids, Mich., where the boy was taken for skin grafts, was deluged with cards, letters and gifts. An 18-year-old girl in Panama described how she was hurt bad

ly when she was seven and still has scars. She told him to have courage and faith in God.

A French girl, burned badly during the World War II bombings, said Richard was lucky to live in a country where they have good hospitals.

Richard was made an honorary pilot of the 30th Troop Carrier Squadron, and he has a red pilot's cap complete with wings.

Richard's father, a pharmacist at Ionia County Memorial Hospital, and his mother, who have five children, are trying to decide how to thank all the people.

# Canyon Reef Meet Starts Tomorrow

The 7th Annual Canyon Reef basketball Tournament will come off the drawing boards and burst into reality in Tiger Gym tomorrow morning at 9:30 when the hosting Snyder Tigers collide with the Haskell Indians.

That contest will serve to touch off a jam-packed two days of local basketball activity, when games will be played throughout tomorrow and Saturday so as to arrive at ten o'clock for each of the eight tourney berths. Trophies will be awarded the champion, runner-up and third place and consolation victors at the close of action Saturday night.

Seminole's Indians, who have gone undefeated since dropping their opener last month, have been dubbed the odds-on title favorites. They are housed in the upper bracket along with Haskell, Snyder, and their 11 a.m. foe of tomorrow—Winters.

Snyder will enter the meet with a 4-3 record for the year. The Tigers have defeated Dumas, Stamford and Hamlin—twice while losing to Midland Lee, Andrews and Sweetwater.

Pacing Coach J. P. Ward's Tiger quintet in scoring is guard Steve Free, who has bucketed 60 points in the club's seven outings to date.

Coach V. V. Shearburn's Tiger B team is also an entrant in the tourney. They are 7-1 for the year, their sole loss being dealt them by Ira in the finals of the Fluvanna Tournament, and are being led in scoring by center James Sellers, who has meshed 70 points for the campaign.

The two-day schedule of activity shapes up like so:

**Friday**  
 9:30 a.m.—Haskell vs. Snyder  
 11 a.m.—Winters vs. Seminole  
 1 p.m.—Aspermett vs. Snyder B.  
 2:30 p.m.—Midland Lee vs. Stamford  
 6 p.m.—Haskell-Snyder loser vs. Winters-Seminole loser  
 7:30 p.m.—Aspermett-Snyder B loser vs. Winters-Stamford loser  
 9 p.m.—Haskell-Snyder winner vs. Winters-Seminole winner.

**Saturday**  
 9 a.m.—Aspermett-Snyder B winner vs. Midland Lee-Stamford winner  
 10:30 a.m.—Seventh and eighth place game.  
 5:30 p.m.—Fifth and sixth place game.  
 7 p.m.—Third and fourth place game.  
 8:30 p.m.—Championship final.

**TEXANS TAKE TROPHY**—Sandy Wellborn, Tommy Sinclair and Murray Bowden—three of the boys who played an instrumental part in bringing the Lamar 7th Texans the consolation championship of last week's Colorado City Tournament—are pictured with the trophy awarded the team for its achievement. It was the first athletic trophy ever captured by any Lamar 7th team. Dubbed "The Best of the Texans," who now sport four wins as against a sole opening loss to Lomessa. (Photo by Jackson)

# Mantle Inks 'Best' Pact; Rog Hopeful

By BEN GLAN  
 Associated Press Sports Writer  
**NEW YORK (AP)**—Roger Maris, batting behind Mickey Vernon for a change, makes his biggest salary pitch today while his signing New York Yankee teammate announces the "best contract I ever got."

Maris, who hit a record of 61 homers last season, also will ask for the best contract he ever received during a conference with General Manager Roy Hamer. The hard-hitting outfielder was paid about \$48,000 last season.

"I expect no trouble from Roger," said Hamer after signing Mantle for an estimated \$52,000 Wednesday, a raise of about \$10,000. "I wouldn't be surprised if he signs right away. I spoke to him briefly earlier this week and he didn't seem to have any problem."

Mantle, signed after a brief meeting with Hamer, who said "Mickey has reached Babe Ruth's figure." Later, he admitted, "It's a little over \$60,000."

Mantle thus became the second highest paid player in Yankee history. Joe DiMaggio received \$100,000 in 1951. Ruth got his \$80,000 in 1932.

"It's the best contract I ever got," Mickey beamed. "I only hope I can live up to it. I'll be satisfied if I have another year like the last one."

Mantle had 54 homers, finishing second to Maris. He drove in 128 runs and his .317 batting average was the fourth highest in the American League.

"I figure Rog's home run record will stand for a while," the boyish Oklahoma said. "I had my shot at the record last year and couldn't make it. I think we'll both hit our share and it'll be another close race."

The well-hitting outfielder predicted the Yankees would win the pennant again in 1962.

Mantle was the first Yankee to sign. Mickey, who lives in Dallas, Tex., and Maris, from Raytown, Mo., are also in New York on other business. They closed a deal with a clothing manufacturer from Tuesday.

# Adams Shaken Over Report

**HOUSTON, Tex. (AP)**—Bill Adams, owner of the Houston Oilers of the American Football League, expressed "grave concern" over a report he says he has that National Football League clubs have agreed to freeze their players who still have team games to play.

Adams said Wednesday his club had made no attempt to sign eight players drafted by the Oilers who still had college eligibility left in accordance with their promise to college coaches.

He made the statement in connection with a charge leveled at the Chicago Bears that they had signed Clyde Brock of Utah State six days before the Gotham Bowl at New York Saturday, Brock was Houston's eighth round choice in the AFL draft.

Brock was held out of the Gotham Bowl.

Adams declared that the Bears went through with a "dummy" signing after the bowl game and added that "your greatest concern in this case is not to ask NFL commissioner to nullify that contract, but to attempt to prevent recurrence of these 'dummy' signings before college players are through with their seasons."

In Chicago George Mink, partner of the Bears, commented, "The biggest mouth west of the Mississippi has spoken again and as usual, nothing has come out of it."

# Then There Were Two... Jones To Be Interviewed For Pony Job

**ARLINGTON, (AP)**—Only two coaches are left at Hardin-Simmons with the resignation Wednesday of head coach Howard McChesney and assistant Earle Berry. Backfield coach John Ford quit two months ago.

E. W. Ledbetter, the athletic director, also resigned Wednesday. Dr. Evan Reiff, president of the university, said trustees are considering retaining Ledbetter in some other athletic capacity and Berry will be retained in some related sports capacity during the spring semester.

Bill Scott, assistant athletic director, and basketball and golf coach, and Vernon Hilliard, head track and freshman coach, are the only ones remaining to make plans regarding the athletic situation.

The three who resigned Wednesday said they acted "to make it possible for the university to reorganize its athletic program."

Reiff said the executive committee of the board of trustees would meet today to make plans regarding the athletic situation.

The athletic department is deep in the red while it has been decided all present athletic scholarships will be honored, no new scholarships will be granted until a final decision is reached on the athletic program.

**DALLAS (AP)**—Thurmon (Tomb) Jones, a high school coach who was reported chosen for the job Wednesday by the Fort Worth State Telegram.

SMU President Wilps Tate and Bell denied it. Dr. E. D. Mouton, chairman of the committee, said he hadn't even met Fry prior to the interview.

Dr. Hagen, assistant coach at Rice, Claude Gilchrist, coach of Arlington State, and Fry were heard on consecutive days. No announcement had been made on whether any others will be interviewed.

SPINNING AGAIN!

Couple Of New Books Should Shock Plenty Of Americans

By INEZ ROBB  
Two books on my recent reading list have stood me in good stead of a pre-holiday permanent.

Both Dr. James B. Conant's "Slums and Suburbs" and T. H. Tetens's "The New Germany and the Old Nazis" are enough to curl the hair of any conscientious citizen.

"Slums and Suburbs," only 147 pages long, is a shrewd, a time-bomb that ought to quicken responsible Americans into compassionate and resolute aid — "rescue" is not too strong a word — for slum children. Although it is the shoddy, inadequate education of children in slum districts that Dr. Conant exposes, what he has really written is a terrible indictment of slum conditions in the richest nation in history.

This book is the latest in Dr. Conant's "extremely valuable and continuing study of American public school education, a study made possible by the Carnegie Corporation. What he has to say about the contrast between public school facilities in the well-to-do suburbs of this country's largest cities (most of them in the North) and their slum counterparts makes a mockery of our boast of "equal educational opportunities for all."

In his regard about indictment of slums, Dr. Conant says what every intelligent person knows: "The community and the school are inseparable. It has been established beyond any reasonable doubt that community and family background play a large role in determining scholastic aptitude and school achievement. Anyone who thinks they do not simply has

not visited widely among American schools."

Again, Dr. Conant writes: "For example, I have walked through school corridors in slum areas and looking into classrooms, have seen children asleep with their heads on their hands... The children asleep at their desks have been up all night with no place to sleep or else have been subject to incredibly violent family fights and horrors throughout the night."

"Honeymoon has little relevance where home is a filthy, noisy tenement."

Dr. Conant believes that one of the most dangerous and explosive situations in the United States is the lack of employment for slum children, whether they finish high school or drop out before graduation.

"Slums and Suburbs" is the kind

of book that has caused revolutionary changes in our social mores in the past 100 years. It is not for our preoccupation with atomic doom, I believe this book might force us to do something about the socioeconomic and educational doom of so many Americans.

As for "The New Germany and the Old Nazis," it is a shocker in another field. In the past decade, any well-read person has been aware, through good news reporting, of the resurgence of the old Nazis in Germany's political, judicial, educational and economic life.

So the impact of the book is not really in its novelty but in the factual and documented within 237 pages, of the return of the old Nazis to power in every facet of German life. It is the facts and figures, cited chapter and verse, that act like a sledgehammer on the reader of "The New Germany and the Old Nazis."

While the United States poured billions into Germany and looked the other way, the old Nazis returned home, often from prison, to be welcomed as heroes and awarded good posts in municipal, state and federal government. Anti-Semitism is always just under the surface.

This is a book that will not make either Adenauer or our State Department happy. But is one that Americans ought to read, if only to know what we may have to deal with after "Der Alte" is gone. It may even offer valuable clues to Khrushchev's intransigence and suspicion on the German question.

**Vineyard Owner Is Elected By Swiss**  
BERN, Switzerland (AP)—Defense Minister Paul Chaudet, owner of one of the country's largest vineyards, was elected president of Switzerland today for the year 1962.

His election by a joint session of both houses of Parliament was automatic. By tradition the presidency rotates each year among the seven members of the Federal Council elected from the country's seven cantons (provinces).

Chaudet, 57, has been minister of defense since 1954. As president he succeeds Friedrich Traugott Wahlen on Jan. 1.

Finance Minister Jean Bourgknecht was elected vice president and will succeed Chaudet in 1963.

**Lecturer Charged With Stealing Props**  
NEWCASTLE-ON-TYNE, England (AP)—A lecturer on kleptomania — the irresistible urge to steal — was taken to court Wednesday for stealing.

Eletta Watts admitted taking \$7 worth of goods from two stores but told the court: "I decided it would be nice to take some things from shops and bring them along to illustrate my lecture and point out how easy it is to shoplift. Then I planned to return the goods the following day."

The magistrate wasn't convinced by her excuse and fined her \$28.

**Appointment Needed For Being Sick**  
By JOY STILLEY  
NEW YORK (AP)—It's getting so you have to make an appointment in our house to be sick.

Not that Tim is a hypochondriac, but I do have my pet little aches and pains I like to trot out into the limelight now and then. The trouble is, the limelight is usually already occupied by the big aches and pains claimed by other members of the family.

The juiciest cold I ever had coincided with a case of chicken pox contracted by our daughter. Instead of being able to take miserably to my bed I was forced to spend my days at her bedside reading dry fairy tales punctuated by wet sneezes.

I can't even have a headache in peace. Before the aspirin has time to open negotiations with the small hammer pounding inside my head my two children are hitting each other with their fists.

The first time I had been wheeled on a gurney I had been wheeled on by a king-size virus bug and for once I was sick enough for even my family to take notice. In fact, I was so laden in the feet and light in the head I did something I'd never done before — called my husband at the office with a feeble plea for help.

"Hang on, honey," he offered encouragingly. "I'll be home just as soon as I can get there. Then you can just take it easy while I take over."

"At long last," I thought smugly as I waited, "now I'll be coddled and fussed over."

Soon I heard a jaunty step, followed by a cheery greeting.

"Now," said my husband, "everything is under control — you just..."

Suddenly he poled and shot out of the room. Sometime later he reappeared, dragging himself wearily to the bedside.

"Move over," he muttered shakily. "Looks like I've got the virus too..."

"Guess who took care of whom that day?"

Junior Editors Quiz on ANIMALS

QUESTION: Can an old dog be taught new tricks?

ANSWER: Training your dog is very important. An untrained dog can be a nuisance to many people...

Experts say that the best time to train a dog is while he is a pup. This is between the ages of four and twelve months...

FOR YOU TO DO: Many breeds of dogs are trained for special tasks. See if you can find out what tasks the following dogs are trained for...

(Juanita Miller of Chadds Ford, Pa., wins \$10 for this question. Send yours on a postcard to Junior Editors in care of this newspaper.)

Lamb, Ham, Turkey On Bargain List

Lamb, turkey, ham and assorted beef roasts will be held out to housewives as the week-end's best meat counter buy...

In the Northeast, for example, shoppers at many supermarkets and groceries will find legs of lamb 10 to 12 cents a pound...

One large chain is pricing select cuts at 55 cents a pound, and the boner roasts at 49 cents.

In the Southeast, ham will be widely featured, with turkey as an attractive alternative.

Because of their continuing abundance, turkeys also will be strong candidates for place on the Sunday dinner table...

On the West Coast, budget-minded shoppers will have to choose carefully. They'll see slightly higher price tags on most meat offerings.

In all regions, beef chuck and steaks promise solid competition for the buyer's dollar. Pork loin roasts and other cuts of pork will be pushed at some markets...

Eggs, still plentiful in most areas, remain at bargain levels...

On produce counters, there will be plentiful supplies of brussels sprouts, celery, cabbage, tomatoes, onions, cauliflower, potatoes and many other items.

Avocados, oranges, apples, tangerines and grapes will be among featured fruits, together with grapefruit, cranberries and lemons in some sections.

Citrus fruits already are abundant in the Southwest, an area beginning to come in strong at many points.

Chains and small grocers are increasing their offerings of nuts, especially pecans, almonds and peanuts...

In the fish line, fillet of flounder, sea scallops and smelts will compete for attention along the East Coast.

# Agitators Are Rounded Up In Venezuela, Officials Report

By RICHARD G. MASSOCK  
 CARACAS, Venezuela (AP)—Police Wednesday night launched a round-up of agitators trying to stir up trouble during President Kennedy's weekend visit.

Authorities announced the arrest of 50 persons accused of painting "Kennedy No" signs on walls and said nightly roundups of others would continue under a special police command set up for that purpose.

The crackdown followed the planting of four crude bombs in various parts of Caracas Wednesday. Kennedy's trip here to boost his Alliance for Progress program for Latin America. Only one of the bombs exploded, injuring two persons.

Brig. Gen. Antonio Briceño Llano, Venezuelan minister of defense, told newsmen that the Caracas military garrison had been reinforced and that he would call up additional troops as necessary to "preserve national honor and dignity by all possible means in guaranteeing President and Mrs. Kennedy's personal safety."

Officials of both the Venezuelan and U.S. governments continued to express hope that there would be no repetition of the violence that greeted Vice President and Mrs. Richard M. Nixon on their visit here in 1958. A hostile crowd

stoned and spat on the Nixons as they motored into the city.

An employee of the U.S. Venezuelan Cultural Center, operated by the United States, discovered the first bomb—its wick fizzling on the porch in front of the center—but the fuse went out before it could explode.

Another bomb hidden in a garage can went off in the parking lot under a downtown landmark, the 26-story towers of Centror Bolivar. The parking lot attendant was critically injured and a driver suffered less serious injuries.

Other bombs were found outside a shopping center used by U.S. citizens in the Las Mercedes section and in the Caracas Zoo, but both failed to explode.

Bands of youths roamed Caracas Wednesday night pasting stickers on car leaders, picture words "Kennedy Fuera" (Kennedy get out), and unconfirmed reports told of the burning of several buses in a working class district.

Most Venezuelans appeared to be looking forward to the visit by the U.S. President and his attractive wife. U.S. flags flew over the city and pictures of Kennedy appeared on display.

As anti-Kennedy agitators splashed walls with their messages, pro-Kennedy demonstra-

## Act To Restrict Imports Is Goal

DALLAS (AP)—Legislation to restrict oil imports will be sought by the Texas Independent Producers & Royalty Owners' Association, its leaders decided Wednesday.

They pledged cooperation with any other groups seeking the same goal.

TIPRO oil imports committee formally settled on this goal in a daylong discussion. The group stated its cooperative intent with reference to the Independent Petroleum Association of America, which decided here only the day before that a legislative approach probably would be necessary to protect the domestic oil industry from imports.

A resolution drafted by former TIPRO President John Hurd of Laredo, said the organization "thoroughly endorses going before Congress to acquire legislation for restrictive imports restrictions."

In addition, the committee offered suggestions for TIPRO executives that:

1. The organization urges the Kennedy administration to come up quickly with its own program for limiting oil imports.
2. It opposes any international trade agreement affecting petroleum as an answer to the imports problem.

The TIPRO and IPAA conferences were called here after President Kennedy issued a Dec. 2 order continuing the present oil import controls program without

change for six months pending a study by the Office of Emergency Planning.

Rep. Tom Steed, D-Okl., linked the future of oil import controls to trade legislation to be considered after Congress reconvenes.

"We must save the domestic oil industry to save the nation," he declared in addressing the TIPRO committee.

If the trade acts agreement authorizing current oil import controls is not extended, Steed said there will be no basis for limiting foreign oil shipments into this country.

Some international companies do not want people in this country to realize the importance of domestic oil production, the Oklahoma said, and are playing for the biggest financial stakes in his country.

"The fight to reduce imports and overcome the bad effects they are having on national defense must be won in the next Congress," Steed asserted, "because in a few more years it will be too late."

Producers from Oklahoma, North Dakota and Kentucky attended the meeting along with those from Texas.

Headed by co-chairmen Lester Clark of Breckenridge and R. L. Foree of Dallas, the TIPRO imports committee voiced in a formal statement "the hope and the belief that the administration, in deferring change in oil import programming, recognizes the inadequacies of the present program and will offer a realistic and effective plan of its own during the next few weeks."

## Michigan's Convention Hears Ike

LANSING, Mich. (AP)—Michigan's constitutional convention plunged anew today into its task of rewriting the basic law of the state.

Delegates heard a plea from former President Dwight D. Eisenhower Wednesday that they lead the way in a drive for states' rights and a return of power and authority to state governments.

The former chief executive spoke for more than an hour, giving the convention his views on federal-state relationships. About half the time was devoted to answering questions from the delegates.

In championing states' rights, Eisenhower declared that the pendulum of power has swung far from the states toward the federal government.

Eisenhower said Michigan can lead the way for the other states to have returned to them the responsibilities best exercised by the people of a state.

"Michigan's example of self-examination and its assertion of responsibility and its authority could lead to like action in other states of the Union," he said.

Eisenhower's visit will be followed next month by the appearance of former President Harry S. Truman, who has agreed to speak to the delegates on an "equal time" basis.

## Cuban Sees New Invasion

MEXICO CITY (AP)—An army of Cuban exiles is preparing to invade Cuba for a second time, new under command of former president Carlos Prío Socarrás, the president of the Cuban Revolutionary Party said Wednesday.

Jose Maximo Santana, head of the PRC, said as a prelude to the new invasion thousands of anti-Castroites already are fighting in the Escambray and Crystal mountains and in the provinces of Oriente and Occidente.

He said the uprisings started Sunday.

"Cuba will be the tomb of Communism," Santana shouted at a news conference.

"As soon as we set foot in Cuban soil we'll restore individual guarantees, free some 150,000 Cubans now imprisoned by the Communist, tyranny of Fidel Castro and break the so-called cultural and trade relations now existing with the Soviet Union and Red China."

He also said relations with the United States and Latin America would be restored by the invaders.
