Bond Election Scheduled Tomorrow; CoC Announces Opposition; Mayor Answers

Chamber Of Commerce Board Gives Statement

The board of directors of the Pampa Chamber of Commerce has issued a statement declaring that it does not favor the proposed \$1,750,000 bond issue to be submitted to Pampa voters in a special election tomorrow.

E. O. Wedgeworth, chamber manager, said the decision to take a stand was reached at a special meeting of the directors Friday and that the statement was completed yesterday and placed in the mails to all chamber members.

The directors set forth in their statement that they do not favor a bond issue as submitted, but feel that it should have been divided into separate units so that each could be decided on its own merits.

Here is the complete statement of the board of directors as released to The Pampa News today: "The Board of Directors of the Chamber of Commerce, in view of recent public pronouncements, feels obligated to make a statement regarding the proposed \$1,750,000 bond issue.

"We do not favor the proposed bond issue as submitted. We feel the issue should be divided into its separate units and each unit decided on its own cost and merits. We believe this for the following reasons:

"(1) A majority of the voters have previously rejected this package issue.
"(2) The taxpayers should have complete information and cost as to each separate unit to the proposed improvements; then they will know exactly what they are getting on.

"(3) Pampa needs many improvements. Let the taxpayer decide which he favors.
"(4) It is not an unusual procedure in connection with bond issues to divide them into separate units; otherwise, the taxpayers have no assurance that the proceeds will be spent where and how they want them to be spent.

"(5) In a package issue one can vote only yes or no. A 'no' vote does not necessarily mean a vote against progress.
"(6) Another reason why this proposal should be separated into its component parts is that it is a large bond obligation:

(a) \$1,750,000.00 is more than the total outstanding general obligations of the City of Pampa.
(b) Total cost of this issue including principal and interest represents a cost of more than \$100 for every man, woman and child in Pampa—An average cost of approximately \$350 per taxpayer.

"The Chamber of Commerce has for many years advocated certain highway improvements. The Chamber of Commerce would like to be in a position to support these improvements as separate issues.

"The Board of Directors of the Chamber of Commerce have not previously taken an official stand

on this issue. We feel that the individual taxpayer should make this decision. In view of recent criticism of the Chamber of Commerce, however, the Board of Directors, speaking as a Board feels it necessary to make this statement.

Mayor In Reply To Chamber

Mayor E. C. Sidwell today deplored the action of the Pampa Chamber of Commerce which announced this morning that it was opposed to the \$1,750,000 bond issue being submitted to the voters tomorrow.

The mayor called it an "unfortunate development." He issued his statement after having received in the mail the statement drawn up yesterday by the directors and sent to all chamber members. The mayor received a copy of the statement as a chamber member, he said.

Mayor Sidwell said in his statement that it was "bewildering" to him that the Chamber of Commerce directors had not voiced their opposition before today. The mayor added that he did not feel the directors' stand reflects the thinking of all chamber members.

The mayor made this charge in his statement: "The favored few who have dominated City Hall activities throughout the years have finally come out of the underground."

"I sincerely hope the taxpayers will not be guided by last-minute false accusations by the favored few," the mayor added.

The complete statement of Mayor Sidwell follows: "I have just received announcement that the Board of Directors of the Chamber of Commerce have publicly come out against the proposed bond issue scheduled for tomorrow's election. This is, to me, an unfortunate development. The Commission has for more than a year discussed the bond issue in open city meetings, has invited all interested citizens and especially the Board of Directors of the Chamber of Commerce to participate in our deliberations. We have not attempted to cover up or hide any of the issues involved. We have spent the taxpayers money for engineering services, been guided by their recommendations, as well as the State Highway Engineers. We have secured the advice of fi-

UNCHANGING NAZARETH — Relatively unchanged since the days when Jesus walked its streets in His youth, the city of Nazareth nestles in the hills of Galilee in Israel.

The city is a focal point for tourists, especially at Christmas time.

Heavy Snow In New Visit To Midwest Areas

By United Press International

The third snow storm in as many days brought more heavy snow in a wide band from Indiana to New England today.

Arctic cold clutched at the Midwest and the Pacific Coast continued to grope in dense fog. Freezing temperatures penetrated the Deep South.

Early today Ludington and Walkersville, Mich., reported 30 inches of snow on the ground and more falling. Many secondary roads were closed by drifting snow in Michigan.

Houghton, Mich., had 20 inches of snow. South Bend, Ind., had 18 inches and Cleveland, Ohio, 10 inches.

At least 40 schools were closed in the South Bend area today and many northern Ohio schools announced no classes would be held today. Some schools in larger cities reopened.

Count 21 Deaths
Roads in the Findlay and Bucyrus, Ohio, sector had 8-foot drifts during the night. Numerous Ohio roads, including some state routes, were blocked.

Since Thursday, Ohio and Michigan each have counted 21 deaths as a result of the storms.

Vermont, New Hampshire, Massachusetts and Connecticut received up to six inches of snow. Heavy rain in Rhode Island was expected to turn to snow, and it was snowing in New York City this morning.

Up to three inches of snow fell throughout Virginia Sunday. Temperatures in Virginia dipped to the teens and small craft warnings were posted for Chesapeake Bay.

Randolph, Vt., received six inches of snow and five-inch falls were common at many Vermont points.

Predict Snow Squalls
For today, forecasters predicted snow squalls in the Great Lakes and locally heavy amounts of snow from Upper Michigan and northwestern Indiana eastward through northern Ohio, western Pennsylvania and New York.

A cold mass of Canadian air dropped temperatures to season's lows in the Midwest. Northern Michigan and northern Minnesota had below-zero readings.

Fresh Troops Airlifted Into Revolt-Hit Brunei

SINGAPORE (UPI) — Britain airlifted fresh troops to Brunei, Sarawak and North Borneo today to halt new attacks by nationalist rebels seeking to end British control in all three areas of North Borneo.

Hundreds of insurgents of the North Borneo National Army (TNKU) Sunday overran the oilfield town of Seria 50 miles down the Borneo coast from Brunei Town in the British protectorate of Brunei, according to reports here.

Fighting Elsewhere
Fighting also was going on in the neighboring British colonies of Sarawak and North Borneo. Rebels reportedly captured the town of Limbang in Sarawak but government troops pushed the insurgents out of Weston in North Borneo and chased them into the hills.

In the oil-rich sultanate of Brunei, focal point of the uprising, European personnel of the Shell Oil Co. oilfields were reported held by rebels at Seria.

Recurrent reports reached Singapore today that several European hostages had been killed by the rebels but a spokesman for the British command said "we have not had it confirmed."

Some reports said the hostages were being used as shields by rebel fighters.

Conflicting Reports
Officials in Singapore said that there were conflicting reports from Seria. One report said the town was still in rebel hands but

another said government troops had recaptured it, killed a number of rebels and taken 500 prisoners.

A British military spokesman in Singapore said one government soldier was killed and 12 wounded in fighting in Brunei Sunday;

but he did not pinpoint the location.

The spokesman said a British officer commanding crack Nepalese Gurkha troops was among the severely wounded. The Gurkhas were rushed to Brunei soon after.

Planned Highway Work Is Announced By County; Includes Four Operations

Gray County and the State Highway Department are working on plans for widening and improving the one mile section of State Highway 273 from the south city limits of Pampa where South Barnes terminates, south one mile to the new Lefors Highway.

The plans call for this to be a new highway, similar in construction to the new Lefors Highway. It is hoped to have the plans ready to submit to Austin by January 1, 1963, so that it can be included in the State Highway contract letting in March. It is estimated it will cost \$85,000 and the State Highway Commission has already set aside the money for this work.

New right-of-way has also been obtained for widening a section of State Highway 273 between McLean and Lefors, commencing at the Back School where the new highway out of McLean stopped, and continuing on eleven miles

to the Red River Bridge just east of Lefors. The estimated cost on this work is \$400,000, and the State Highway Commission has also set the funds aside for this work.

It is planned by the State Highway Department to let contracts on both the one mile extension south from Pampa city limits and the eleven mile improvement on State Highway 273 in the same contract.

Gray County has also obtained the right-of-way for paving four and one-half miles of the Lake McClellan Road, east from State Highway 70. The State Highway Commission plans to let a contract on this in January, 1963. This will be constructed under the Farm-to-Market Program of the State and will cost \$115,000.

Gray County has also entered into a contract with the State Highway Department to obtain the needed right-of-way to widen and

improve State Highway 273 from McLean to Pampa, and it is anticipated that this program, which will be completed within the next year. These are the only definite road programs that the County and the State have planned at the present time.

County Judge Bill Craig said, "The County has to provide all right-of-way for any state highway, and the County does not at the present time have any plans to build a loop route around the City of Pampa."

"The State Highway Department has not indicated to the County that they intend to change any of the present state highway locations coming into the City of Pampa. Any highway program would require that the City of Pampa, Gray County and the State Highway Department work together on any improvements."

Ex-Pampa Girl Killed In Accident

Seventeen-year-old Wilma Kathleen Humphrey, a resident of Pampa all her life up until two years ago, died at 4:30 a.m. today in Hendrick Memorial Hospital, an Abilene of injuries suffered in a traffic accident near Abilene about 1:30 p.m. yesterday.

Also injured in the accident was Patrolman C. L. Wallace of Pampa, a brother-in-law of Miss Humphrey, who was riding in the car with her. Wallace was reported not to be in serious condition.

According to Abilene authorities, the accident on SH 42 seven miles north of Abilene was witnessed by Miss Humphrey's mother, Mrs. John C. Humphrey, and the girl's brother, Jerome Humphrey, 25, of Pampa, who were riding in a car just ahead of the one driven by Miss Humphrey.

Jerome Humphrey said that a car just ahead of him stopped suddenly on the highway and he avoided crashing into it by swerving to the left. Miss Humphrey, in the car following, tried to avoid hitting the stopped car by swerving to the right. Her car skidded on the shoulder and rolled over twice into a barbed-wire fence. It was reported that Miss Humphrey was thrown out of the car. Both she and Patrolman Wallace were taken to the Abilene hospital.

The girl died this morning after all-night surgery. Hospital attendants said she had suffered fracture of both lungs, broken ribs, body abrasions and bruises.

Patrolman Wallace suffered a severe laceration of his hip and bruises and also was suffering from shock today, but his condition was not considered critical.

Mrs. Wallace and Patrolman Charles Matson of the Pampa police force, a close friend of Patrolman Wallace, were in Abilene today.

The body of Miss Humphrey was taken to the Ellis Funeral Home in Abilene and will be returned to Pampa tonight by the Dunkel-Carmichael Funeral Home here.

Arrangements for funeral services were not expected to be completed until tomorrow.

When the accident happened, Miss Humphrey and her mother were on their way back to Pampa to make their home. Her brother and brother-in-law had gone to Pasadena to assist them in moving their belongings.

Miss Humphrey was a senior in Pasadena High School and would have graduated this year. Up until two years ago, when the family (See EX-PAMPA, Page 3)

Stevenson Controversy Flares Anew

WASHINGTON (UPI) — The Adlai Stevenson controversy flared anew today when a national magazine said the White House "opened doors" for reporters whose article attacked the U.N. ambassador.

Life magazine said that President Kennedy had requested Charles Bartlett, an old friend and one of the authors of the critical article, to help prepare a semi-official chronology of events in the Cuban crisis.

It said that Bartlett "joined talents" with Stewart Alsop and "thereafter, on White House orders, the doors of the State Department and of the Central Intel-

ligence Agency were thrown open to the two reporters."

The Life article, written by Time-Life Washington bureau chief John L. Steele, sharply contradicted the recent Alsop-Bartlett article in the Saturday Evening Post saying that Stevenson favored a soft policy on Cuba.

Life said that, contrary to the Alsop-Bartlett report, Stevenson never supported any proposal to swap U.S. missile bases overseas for Cuban missile bases and that the U.N. ambassador strongly backed the arms blockade of Cuba.

Steele wrote that Stevenson had

insisted that a "very strong U.S. position be taken at once" in the Cuban situation.

The Alsop-Bartlett article said Stevenson allegedly dissented on the arms blockade. It also quoted an unidentified official as saying "Adlai wanted a Munich" and favored trading Turkish, Italian and British missile bases for the Cuban bases.

Stevenson, informed of the Life article, said Sunday night that "As far as I am concerned the matter is closed." He said he was "most pleased and gratified with

it if it comes from a hardware store we have it. Lewis Howe. Adv.

a letter from President Kennedy expressing regret at the stir caused by the Post article."

The Life article noted that while the President expressed the fullest confidence in Stevenson, "unaccountably the letter still did not contradict the allegation made in the Post story."

"One thing, however, is very clear," Life said. "The consequences of the Alsop-Bartlett story and of the President's hesitancy in denouncing it directly, served to undercut Ambassador Stevenson's position in representing the U.S. at the United Nations. His prestige there, so carefully developed, has been tarnished."

Last-Minute Aprons For Christmas Gifts

By MARY BROOKS PICKEN
Newspaper Enterprise Assn.

If you are proud of your sewing, why not do something for your friends for Christmas that will express you and help to economize, too. Aprons are especially easy to make and always appreciated. A couple of evenings at your sewing machine, a little effort and ingenuity and your gift list can be completed quickly.

Go to a remnant counter, see what you can buy in unusual prints. Suit the print or apron color to the individual for whom you will make the apron. If the remnant has an extra 1/4 yard in it, make two matching potholders using an old terry towel for padding.

The four aprons illustrated can be made from one to one and three-eighths yards of 36-inch fabric each. Waistline or half aprons are always good. This year they feature large pockets, whether for sewing, cooking or cleaning.

Make one or all. You will be delighted and the cost, considering their beauty, will surprise you. Here are four versions of the half apron:

A is made from 1 3/8 yards of

36-inch plaid-printed percale; B needs 1 1/4 yards of star-studded cotton; C is made of 1 yard of organdie and 3/8 yard of cotton lace; and D takes 1 yard of 36-inch cotton and a pretty motif cut out of drapery remnant.

A—Straighten both crosswise ends of fabric. Tear from one crosswise end two 3-inch strips for waistband and ties. Next, for pockets, tear off a crosswise strip 14 1/4 inches wide. Divide this into three 12-inch wide strips, as diagram shows. Two of these make the large side pockets; the third one can be used to cover a worn washcloth and make a very nice potholder.

B—Tear off two 3-inch crosswise waistband ties. Tear off one 10-inch crosswise strip. Divide this pocket piece lengthwise into three equal pieces. A hem 2 inches deep is made in the top of two pieces.

The only difference between aprons A and B is that A has deep pockets. These may be shaped at top or not as you wish. B has two less-deep pockets each side. These are made by stitching lengthwise of the apron through the center of B pockets

after the pocket is in place.

Gather waistline into a space 14 to 16 inches wide. Stitch band on from wrong side; turn it over to the front and stitch down. Continue stitching to end of ties, thus concealing all raw edges. A 2 1/2-inch hem is put in the bottom of each apron.

C—This apron is made the same way as A and B, with these exceptions: Make a 1-inch hem in lace across top. Turn edge of lace under and stitch to each side. Stitch lace lengthwise to divide it into three pockets as shown. Make two rows of stitching in each of the panel lines. Turn hem to right side to catch bottom edge of lace inside hem when it is stitched.

D—Make this apron the same way as B except for pocket. Appliqueing is not difficult. Cut carefully, turn edges back evenly and baste neatly. Apply motif by hand or by machine. The machine zig-zag attachment is ideal for doing applique work. If you wish, hand-hem top of applique piece and leave top open to serve as a pocket.

Mrs. Spivey Speaks To Lefors Art-Civic Members At Meet

LEFORS (Spl) — Religion was the theme of the evening for the Lefors Art and Civic Club recently as it met for a special program, "Time to put Christ in Christmas," presented by guest speaker, Mrs. Ed Spivey, wife of the Lefors Baptist Pastor.

Introduced by Mrs. Fred Blackwell, program leader, Mrs. Spivey reviewed the book, "Christmas Is Always," by Dale Evans Rogers. "Christmas was born in the heart of God and is timeless and eternal," Mrs. Spivey said, opening her talk. "Children think it is magic, but grow up to learn the real gift is love — not too many gifts — and an abundance of peace," she continued.

Relating some of the wonderful gifts God has given to man she included Man's mind and spiritual side, God's love, and a mate.

Mrs. James Jinks was welcomed as a new member of the club. Mrs. Earl Atkinson and Mrs. Dunny Goode are co-chairman to decorate the civic center in the traditional Yuletide motif.

A thank you note was read from Mrs. Anna Patton for the Thanksgiving box given to her.

Mrs. Earl Atkinson, president, presided at the meeting, and led the club collect, Minutes and officer reports were given.

Mrs. Charles Roberts, hostess of the evening, served pie and coffee during the social hour.

Attending were Mes. Ray Chastain, James Jinks, Bill McBe, Jack Thacker, Babe Hall, Keith Geisler, R. H. Barron, C. H. Gustin, Charles Glissen, Dunny Goode, Earl Atkinson, Alex Swann, Bud Cumberland, L. R. Spence, J. E. Carter, G. N. Mounger, Joe Dan Watson, Harry Garrison, Fred Blackwell, R. E. McDonald, Edythe Watson, Charles Roberts, and Miss Mickey Sue Johnson.

Green tomato will remove rust from tinware. Cut the tomato in half and rub on. Then wash the tin, rinse and dry.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Protoprepin 400 At all drug counters.

Paid Political Adv.

Dear Tax Payer:

If at first you don't succeed, try, try, again, so once more we are being given an opportunity on December 11, 1962, to vote on a Bond Issue, that has been defeated once already.

We are unable to believe, that by merely improving the highways and installing some storm sewers, that the City of Pampa, will soar into new heights of "Economic Prosperity".

We are unable to comprehend that if our Tax obligation bonds are more than doubled, why tax increases will not be necessary to repay these bonds, but maybe an increase in your property evaluation will achieve the same results.

We are unable to understand why we are not permitted to vote on the different issues separately, as they were presented to the Commission, instead of all together, as they are being presented in this Bond Election.

It is possible that all of the tax money, if voted in this issue, could be spent on one project. If a shortage of funds is experienced in trying to complete one portion of this Bond Issue, then all of the money could be voted by the commission to complete this unit, thereby leaving the remaining projects without funds.

In conclusion, if there are some doubts in your mind in regard to the basic issues as presented to the voters, we ask that you give consideration as to how the above Bond Proposal could affect or restrict our credit, our Taxes, our future as far as the basic and immediate needs are concerned; such as; our present sewerage disposal plant being inadequate; our needs as far as the Canadian River Water Project is concerned, our street or paving program, and numerous other needed projects that might materially affect our future needs and growth. Therefore; please join with us in voting "NO" on December 11, 1962.

Sincerely,
Citizens for a Better Pampa

Dear Abby...

Ban All Visitors ! !

By ABIGAIL VAN BUREN

DEAR ABBY: My neighbor's father is a retired gentleman of about 75. He is very friendly and likes to visit the neighbors. When he doesn't shut his mouth. When we go out in the evening, we hire a 17-year-old girl to sit with the children. This old gent comes over in our absence and talks the poor girl's ear off. She has complained to us, but we don't know how to handle it. We hate to tell the lonely old man to stay away, and I suppose his daughter is glad to get him out of the house. Can you or any of your readers help me?

A PUZZLEMENT
DEAR PUZZLEMENT: The old gentleman is probably a little senile. Tell his daughter that you have left instructions with your sister that no one is permitted in the house when she is sitting — and this includes her father. She'll get the message.

DEAR ABBY: I have six children. The oldest is 9. Today I found a note in her pocket. It was from a little boy (he is 10 or 11) who wrote he "loved" her and wanted to know if she "loved" him, too. Should I overlook this incident or do you think I should tell her the facts of life? I felt that she was too young until I read the note today.

When I was 9, I had no one to tell me the facts of life, and can't recall if I was curious then. But I do know that when my mother finally got around to telling me, I had already picked up a lot of information the wrong way. I don't want that to happen to my daughter. How much should a 9-

year-old be told today?

INFORMATION PLEASE
DEAR INFORMATION: When your daughter becomes curious about "the facts of life," she will initiate the conversation. Answer every question frankly and with out embarrassment. But don't bring the subject up until she does.

DEAR ABBY: The fellow who has been dating me is getting on my nerves. He perspires a lot and when he breathes he breathes so heavy it drives me mad. I have asked other people if they can hear him breathing, and they say no. But I can hear every breath, and it makes me nervous. I know he can't help perspiring, but his hands get clammy when we dance and it bothers me. Should I tell him the truth about why I don't like him or should I just find somebody else?

BOTHERED
DEAR BOTHERED: Find someone else, honey. If you really care for him, his "breathing" would become "sighs" and his perspiring would indicate "happy excitement." He is not for you, but someone else will think he's great.

DEAR ABBY: Do you know if a cow has to have a calf first in order to give milk or can she produce milk before she has a calf?

ROSE, TESS, MARCIA AND HELEN
DEAR R., T., M. AND H.: Yes, a cow must "calf" first in order to give milk.

CONFIDENTIAL TO FORT WORTH: True, "Beauty is only skin deep," but if a girl is poor and a little on the stupid side, she's lucky to have it!

When you receive an invitation, answer it promptly.

New capsule aids digestion, helps prevent indigestion, gas, heartburn, before distress begins!

Because of today's fast, hectic living pace, we often suffer indigestion, gas, heartburn and other uncomfortable forms of painful stomach tension. But now, a new digestant enzyme capsule, called MIAZYME can help prevent these conditions before they begin.

If you properly digest the food you eat, chances are you will not suffer stomach distress. This is due to the action of enzymes, manufactured in the digestive process. But when these enzymes fall below par, you are apt to suffer indigestion, gas, bloating, heartburn, etc.

Why risk the distress of stomach tension? Just two MIAZYME capsules a day will help eliminate the discomforts of indigestion, heartburn, gas and open the door to new vistas in food enjoyment.

MIAZYME contains no narcotics! No habit forming drugs! Only digestant enzymes! No harmful side effects, taken as directed. So safe, no prescription is needed! Get MIAZYME today at your favorite drug store. Try it for 6 days on our money-back guarantee of satisfaction. Regular size, \$1.50. Economy size, \$3.00.

Nehru Rejects Terms Of The Red Chinese

By MICHAEL T. MALLOY
United Press International
NEW DELHI (UPI) — Prime Minister Jawaharlal Nehru today rejected Red China's withdrawal demands and warned parliament the war could last five years more.

Nehru said India would be willing to submit the dispute to an international court, such as the International Court of Justice, but Red China first must get out of the 5,000 square miles of territory held by India.

Nehru's tough tone apparently prompted by a 5,000-word statement broadcast by Peking on Sunday which an Indian Foreign Ministry spokesman called an "unveiled threat."

Nehru, in talking to parliament, was vague about his view on which India would negotiate with Red China and drew cries from opposition members. Today he was cheered.

Confident of Victory
The 73-year-old prime minister declared he believed the border war would be a long one—"it may last five years or more."

"We will win this struggle," he declared.

Referring to three specific problems, Nehru made these points: India is observing the ceasefire despite the fact it was established by Red China and de facto the fact the Chinese have on Indian soldiers since they can't.

Indian firmly rejects Peking's withdrawal offer based on Red China's version of the positions held by each side Nov. 7, 1959. The government favors disengagement, but only if the Chinese pull out of 2,500 square miles of Indian territory occupied since Sept. 8.

3 Burglaries Net \$70 For Yeggs Here

Three burglaries in which the thieves obtained approximately \$70.96 in cash and a couple of bottles of liquor were reported to police during the week end.

Heaviest haul was made at the Busy Bee Cafe, 410 Maple, where James Morgan, the proprietor, reported that someone pried the lock of a door under the counter and stole a First National Bank money bag containing \$10 in quarters, \$5 in halves, \$7 in bills, \$2 in nickels and \$23.96 out of the cash register on top of the counter.

Police said entrance to the cafe was made through a rear window and the burglars left by a rear door.

Ten dollars in cash and one or two bottles of liquor were taken from the Owl Liquor store, 108 E. Craven, some time Saturday night, according to a report filed with police by Virgil Romack, proprietor. The burglars gained entrance by throwing a chunk of concrete through a front glass door.

At Neal's Feed Store, 804 E. Frederic, someone broke the glass out of a door and unlocked it to gain entrance and take a cigar box containing \$13 from a desk drawer.

Juror Is Replaced In Trial Of Jim Hoffa

By DUREN CHEEK
United Press International
NASHVILLE, Tenn. (UPI)—One of the jurors hearing the trial of Teamsters Union boss James Hoffa was missing from the jury box today. Justice Department attorneys declined to comment on a report that she had been approached in a possible tampering attempt.

The juror missing today was Mrs. James Paschal, a Woodbury, Tenn., housewife. She was replaced by alternate Walter Harper of Bethpage, Tenn.

Knight newspaper reporter Robert S. Boyd said in a copy-righted story Sunday that the approach to Mrs. Paschal was responsible for a mysterious closed hearing that interrupted the trial last week, the day after a man who heard "voices" tried to shoot Hoffa in the courtroom with a pellet gun.

The secrecy which marked last Thursday's session was still evident today as defense attorney James Haggerty handed two motions which Judge William Miller passed to the government to examine and then ordered sealed.

Haggerty said one of the motions concerned a matter of such nature that he felt a hearing should be held on it.

Miller said, however, the motion would require an extensive hearing.

Ex-Pampa
(Continued From Page 1)
moved to Pasadena, she had attended Pampa High School.

She is survived by her father and mother, Mr. and Mrs. John C. Humphrey; two sisters, Mrs. Walter Gibson of New York and Mrs. C. L. Wallace of Pampa, and two brothers, Jerome Humphrey of Pampa, and Joe Lee Humphrey of Pasadena, Texas.

Swine Sires
Hogs on American farms are descended from the wild swine of Europe and are probably mixed with the Chinese pig. The wild swine of China were perhaps the earliest to be tamed and used by man.

Rites Slated Today For Mrs. Walsh

Mrs. Bert Walsh, born Nov. 21, 1891, in Boulder, Colo., died Sunday at 2:03 a.m. in Worley Hospital. She had been a resident of Miami since 1946, having moved there from Pampa.

She came to the Panhandle on March 15, 1922, and lived in Le-fors from 1927 to 1937. In 1937 she moved to Pampa. Mrs. Walsh married Bert Walsh in March 15, 1915, at New Castle, Tex.

She is survived by the husband, of Miami, two daughters, Mrs. Bob Gordon of Pampa and Mrs. Ray Brady of Arlington; one son, Chris of Pampa; there are seven grandchildren; and two brothers, Scott Ellinger of Kermit and Bill Ellinger of Artesia, N.M.

Funeral services were to be held today at 4 p.m. in Duengel-Carmichael Funeral Home Chapel with the Rev. Carl Hudson, pastor of the Miami Methodist Church, officiating.

Burial was to follow in Memory Gardens Cemetery.

Palbearers will be Marle Tennant, Tommy O'Loughlin, Bill Tolbert, Jim Reeves, Newt Cox and G. B. Hogan.

Municipal Court Docket

Murray L. Chappell, 700 S. Gray, no Texas driver's license, guilty, fined \$25.

Douglas B. Hilburn, L-Ranch Motel, muffler violation, guilty, fined \$15.

John B. Todder, 604 W. Francis, speeding 45 in 30 mile zone, guilty, fined \$10.

Jimmie D. Reeder, 1128 Neel Rd., disobeying traffic signal,nolo contendere plea, fined \$10.

Boyd L. Bennett, 811 Locust, disturbing the peace, guilty, fined \$25.

MEN PAST 40

Troubled with GETTING UP NIGHTS
Pains in BACK, HIPS, LEGS
Tiredness, LOSS OF VIGOR

If you are a victim of these symptoms then your troubles may be traced to Glandular Inflammation. Glandular Inflammation is a constitutional disease and medicines that merely give temporary relief cannot be expected to remove the causes of your troubles.

Neglect of Glandular Inflammation often leads to premature senility and to incurable conditions.

The past year men from 3,000 communities have been successfully treated here at Excelsior Springs. They have found soothing relief and improved health.

The Excelsior Medical Clinic, devoted to the treatment of diseases peculiar to older men, has a New FREE BOOK that tells how these troubles may be cured by proven NON-SURGICAL TREATMENTS. This book may prove of utmost importance in your life. No obligation.

REDUCIBLE HERNIA
Is also available to a mild non-surgical treatment available here.

RECTAL-COLON DISORDERS
Are often associated with glandular inflammation. Either of these disorders may be treated at the same time you are receiving treatment for Glandular Inflammation.

EXCELSIOR MEDICAL CLINIC
Dept. 9-9116
Excelsior Springs, Mo.

Dear Property Owner:

The first issue failed, now for the second time within 45 days, we have a bond issue to vote on. **IS THIS A BEST TWO OUT OF THREE PROPOSITION?** If this second go around would happen to pass, do we, the property owners of Pampa, have the opportunity to call for a third go around?

The engineers report broke the improvements, in this bond issue, down into various sections. Why were we not permitted to vote on each section? When a lump sum bond issue is passed, may all the money be spent on any one project? If so, would we be called on to vote additional funds.

The present indebtedness of our city, including interest, is \$4,688,333.22. With our present economic conditions can we afford an additional \$1,750,000.00 plus interest (estimated at \$987,800.00)?

Have the following thoughts occurred to you?

1. Pampa sewage disposal plant needs major improvement and expansion. What will this cost? Where will the money come from?
2. How are we going to pay for our Treatment Plant and distribution lines, for the Canadian River municipal water project?
3. Are you in favor of a tax increase now?

Think, Consider, Then Vote No.

Giants, Packers' Showdown Looms In National League

By NORMAN MILLER
UPI Sports Writer

The Green Bay Packers' bruising ground game and rugged defense have carried them through other National Football League titles, and only a miracle win at Sunday by the Los Angeles Rams can prevent them from clinching their third straight Western Division title.

As for the Detroit Lions, who have won seven straight games in an effort to earn that playoff berth opposite the New York Giants, it looks like a nice try but no cigar.

For the manner in which the Packers battled back from an 11-point deficit to beat the San Francisco 49ers, 21-17, Sunday, they appear hardly likely to blow next weekend's game against the Rams, whose 1-11 record is the poorest in the NFL.

Detroit clung to its forlorn hope of catching the Packers by defeating the Minnesota Vikings, 23-17, in a raggedly played game. The Lions wind up with the Chicago Bears next weekend.

Meanwhile, the Giants, playing without any championship pressure, defeated their old adversaries, the Cleveland Browns, 17-13, for their eighth straight victory. This is the Giants' longest streak since 1930.

Steelers Clinch Second
In other games, the Pittsburgh Steelers clinched second place in the Eastern Division by defeating the Philadelphia Eagles, 26-17; the Chicago Bears assured themselves of a third-place finish in the West by beating the Rams, 30-14; and the St. Louis Cardinals trounced the Dallas Cowboys, 52-20. On Saturday, the Baltimore Colts beat the Washington Redskins, 34-21.

Two NFL records and two team records were set Sunday. Leo Nomellini, Forty Niners' defensive tackle, played his 159th consecutive game and Lou Michaels of the Steelers kicked four field goals to set a season mark of 24.

Rich Pettibon of the Bears ran 101 yards with an intercepted pass to set a Bears club record and Dick Bass of the Rams gained 169 rushing yards for a season team record of 955.

The Packers trailed San Francisco, 10-21, with eight minutes elapsed in the third period when they decided that matters had gone far enough.

has a 10-3 record; Boston is 9-3-1. The Patriots end their season at Oakland next Sunday.

Texans' Beat Broncos
In Sunday's other AFC game, the Dallas Texans, who are waiting to learn who their championship playoff opponent will be, defeated the Denver Broncos, 17-10. On Saturday, the Buffalo Bills ended their season with a 20-3 triumph over the New York Titans.

George Blanda started the Oilers off on their Sunday victory over the Raiders by kicking a 54-yard field goal—just one yard short of his league record goal.

He later kicked shorter field goals of 14 and 11 yards and also completed a 55-yard touchdown pass to Bob McLeod.

However, probably the key play of the game was a 50-yard touchdown run by defensive tackle Ed Ruffin after a blocked Oakland field goal try in the third period. That play opened a comfortable 27-17 lead for the Oilers.

Narrows Houston's Lead
187 rushing yards for Oakland, Clement Daniels, who gained 197 rushing yards for Oakland, broke loose on a 72-yard run from scrimmage to touch off a 17-point second quarter for the Raiders, who narrowed Houston's lead to 28-17 at halftime.

Texans, Oilers Travel Road To Title Clash

By GARY KALE
UPI Sports Writer

The Boston Patriots have put up a game battle for the Eastern Division championship of the American Football League with a second-string quarterback, but their cause looks hopeless because the Houston Oilers won't give an inch.

The Oilers won their sixth straight game Sunday by drubbing the Oakland Raiders, 32-17, and now need only one more victory next Saturday in New York to clinch the Eastern Division crown for the third year in a row.

Boston won its third in-a-row since losing quarterback Babe Parilli with an injury, beating the San Diego Chargers, 26-14.

However, it looks like the Patriots' title hopes were ruined by a 28-28 tie they played against the Buffalo Bills five weeks ago. Houston

SPORTS

The Pampa Daily News

55TH YEAR MONDAY, DECEMBER 10, 1962

AROUND THE TURN—Three-year-olds thunder around the first turn in a mile-and-a-sixteenth claiming race at Pimlico. The winner was Gain a Friend, Ronnie Ferraro up. Belisario was second. Princess Nybor showed.

Pampa Optimist Club, Liberal Fight To Draw

Pampa's Optimist Boxers, one of the strongest teams in the state, were all weighed in with no one to fight the more experienced boys Saturday night as both Borger and Liberal's top name fighters failed to show.

In one case, Jerry Clines, the runner-up in the light heavyweight division of the Kansas State Championships last year, refused to fight either Dickie Wells or Charles Snider.

Many of Pampa's best fighters—Snider, Wills, Gary Wilhelm, Johnny Ironmonger, Jim Murray, and Weylon Holtman—all weighed in but the other clubs didn't have boys wanting to fight them.

Pampa won 10 of 20 bouts in which Pampa Optimist fighters entered with Liberal winning five of 10 bouts, Lefors two of three.

Borger three of five, and Skellytown one of three.

The results of the Saturday night fights were:
50 — Mike Ledford (Sk) over Kieth Penn (P); 80—Vince Stracner (P) over Billy Wayne Harris (Sk); 90 Richard Dismuke (P) over Gary Atchley (L); 74—Dennis Sanchez (B) over Jimmy White (P); 80 — David White over Larry Mercer (Sk); and 75—Jay Roth (P) over Virgil Armstrong (Sk).

In the heavier fights, 130 "Cut Eye" Hunnicutt (B) over Mathis Ashley (P); 135 — Tommy Clinton (P) over Oliver Clements (B); 116 — Dickie Sims (L) over Doug Howard (P); 128 — W. D. Thomas (P) over Joe Clements (B); 132—Waldo Green (B) over Gale Hardin (P); 54 — James Holtman (P) over Reuben Montano (Lib); 121 — Gary Cameron (Lib) over Mark Gregory (P); 112 — Leroy Pacheco (Lib) over Alfred Nichols (P); 100 — H. D. LaRue (P) over Mike Montano (Lib); 85 — Bud Wood (Lib) over Danny Boyd (P); 107 — Pete Pettit over Raymond Valasquez (Lib); 80 — Richard Jones (P) over Jim Wilson (Lib); 125 — Johnny Velasquez (Lib) over Jesse Dean Reed (P); 160 Bruce Topper (P) over Jim Morris (Lib); and Jerry Clines (Lib) over Herman Giese (P) in the heavyweight division.

The Pampa Optimist Fighters go to Clovis, N.M. Tuesday night and the New Mexico team will return the visit on Dec. 20. The Optimist boxers going to Clovis will be mostly the Pampa fighters in the open class.

— Event championships for 1962 went to Nesmith (Steer wrestling); Oliver (calf roping); Jim Rodriguez Jr., Castroville, Calif., (team roping); Freckles Brown, Lawton, Okla. (bull riding); Kenney McLean, Okanagan Falls, B.C., Canada (saddle bronc riding); and Ralph Buell, Sheridan, Wyo. (bareback bronc riding).

Nine Men Hurt
— A total of nine men were injured, five in the bull riding, three in bareback bronc riding and one in bulldogging. Most seriously injured, Roy Wallace, Midland, Tex., who suffered a broken leg in the first bull riding go-round.

— A total attendance for the six-day, eight-performance (go-round) show of 85,354 so impressed the sponsors of the event, they promptly scheduled the fifth NFR for Los Angeles — in December 1963.

All the champions, save one, took acknowledgement of their titles on horseback in the center of the Los Angeles Sports arena. The "one" was Freckles Brown, the popular little bull rider who left a Portland, Ore., hospital for the finals with a cast from hips to the tip of his head — and an insurmountable point lead. The cast was a token of a broken neck, received plying his trade this fall.

Griffith, who flew back to New York Sunday night, retained his 147-pound crown on the first foul in a world title bout in 32 years when Fernandez of Argentina refused to continue fighting after he had been floored in the ninth round by a low left hook in Las Vegas convention center, although given a five-minute recovery period in the ring.

Fernandez also had been decked by a right to the chin for a mandatory eight-count in the seventh round.

Griffith's Victory 'Closed Incident'

LAS VEGAS, Nev. (UPI) — Chairman James D. Deakin of the Nevada Athletic Commission announced today that welterweight champion Emile Griffith's foul technical knockout over challenger Jorge Fernandez Saturday night is a "closed incident," needing no further commission action.

Meanwhile, Griffith of New York agreed to a non-title bout in Tokyo, Japan, sometime in February; and negotiations for a return Dick Tiger-Gene Fullmer middleweight title fight at Las Vegas Feb. 23.

Griffith's handlers said he probably would make his next title defense against Raymundo (Battling) Torres of Mexico or Luis Rodriguez of Cuba at Los Angeles four or five months hence.

Griffith, who flew back to New York Sunday night, retained his 147-pound crown on the first foul in a world title bout in 32 years when Fernandez of Argentina refused to continue fighting after he had been floored in the ninth round by a low left hook in Las Vegas convention center, although given a five-minute recovery period in the ring.

Fernandez also had been decked by a right to the chin for a mandatory eight-count in the seventh round.

Borger, Dumas Romp On In Championship Style

By United Press International

Borger's Bulldogs, Dumas' Demons, Jacksboro's Tigers and New London's Wildcats roll into the state schoolboy football semifinals this week wearing the dubious favorite's tag for ultimate titles.

The Demons' path appears to be a bit easier than the others since they knocked out what appeared to be their stiffest challenger last week in the Brownwood Lions.

Jacksboro's toughest hurdle probably comes up this week in the Winters Blizzards, who kayoed Class AA favorite Denver City last week.

Borger and New London aren't expected to bump into the prime hurdle until the finals when Spring Branch and Rotan, respectively, loom on the horizon.

AAAA Semifinals
Borger plays Lufkin and Spring Branch meets San Antonio Brackenridge in this week's AAAA semifinal round; Dumas engages Jacksboro and Orange plays Pharr-San Juan-Alamo in the AAA division; Jacksboro meets Winters and Rockdale plays Sinton in AA, and Rotan faces Albany and New London meets Ingleside in A.

Borger whipped San Angelo 21-13, Lufkin upset Dallas Samuell 12-7, Spring Branch squeezed past Beaumont South Park 8-0 and Brackenridge put out Brownsville 35-13 in AAAA quarterfinal action.

Dumas blasted Brownwood 36-18, Jacksonville startled McKinney 29-14, Orange whipped Rotan City 18-0 and Pharr-San Juan-Alamo beat Austin Johnson 28-0 in AAA.

Winters shocked Denver City 21-12, Jacksboro mauled Minola 40-0, Rockdale-surprised Humble 27-14 and Sinton tied Missouri City 3-3 then advanced by an 11-7 edge in first downs after penetrations were even in AA.

Rotan smothered Sunray 25-0, Albany outlasted Clinton 27-21, New London beat Smithville 48-16 and Ingleside edged Waller 14-4 in A.

Dumas and Albany are defending champions, Albany seeking its third state crown in a row, and San Antonio Brackenridge won the title in 1947 to give the field three former champions.

Some Repeats
Otherwise, Lufkin and Albany made it to the finals once each.

and Lufkin, Jacksboro, Sinton and New London have been as far as the semifinals before.

Dumas defeated Nederland 6-0 in the AAAA finals last year, while Albany downed Crosby 26-0 in 1960 and Hull-Daisetta 18-12 last year and Brackenridge beat Highland Park 23-13 for its state crown.

Lufkin lost 26-13 to San Angelo in the 1943 state finals and 13-0 to San Antonio Jefferson in the 1945 semifinals. Albany was beaten 26-4 by Deer Park in the 1954 finals.

Sinton lost 26-7 to Brady in the 1956 semifinals, Jacksboro bowed 13-0 to Quanah in the 1961 semifinals and New London lost to Stamford 26-6 in the 1954 semifinals.

As for playoff experience, Albany is the winner with this being the Lions' 15th trip into the playoffs. Lufkin has been in 13 times, New London 12, Ingleside 11, Sinton 9, Brackenridge 8, Winters 7, Rotan 6, Jacksboro 5, Borger 4, Spring Branch and Jacksonville 4 times, Dumas and Pharr-San Juan-Alamo 3 times, Rockdale twice and Orange is making its first venture outside district play.

Playoff Slate
By United Press International

Pairings for the Texas schoolboy football semifinals with each team's won-loss record and scoring record in parentheses:

Class AAAA
Borger (9-3, 174-102) at Denton at 2 p.m. Saturday.

Spring Branch (12-4, 308-79) vs. San Antonio Brackenridge (9-3, 413-145) at Houston 2:30 p.m. Saturday.

Class AAA
Dumas (11-1, 411-75) vs. Jacksboro (9-21, 198135) at Wichita Falls Saturday 2 p.m.

Orange (11-1, 271-63) vs. Pharr-San Juan-Alamo (10-1-1, 201-44) to be arranged.

Class AA
Winters (130, 290-73) vs. Jacksboro (13-4, 544-43) at Abilene Saturday 8 p.m.

Unbeaten Horns, Hogs Play OSU

By United Press International
Fans will get a chance this week for a direct comparison of the Southwest Conference's only undefeated basketball teams — title-favored Texas and the Arkansas Razorbacks.

Both clubs have a mutual opponent — the Razorbacks playing Oklahoma State at Stillwater Tuesday night and Texas hosting the same team in Austin Saturday night.

First, however, Texas will go after its fourth victory in a row at Baton Rouge tonight against Louisiana State, which chilled Rice 90-82 last week. The Razorbacks' other game will be against Mississippi at neutral Blytheville, Ark., Saturday night.

Aggs Catch Two
The Texas Aggies, who own the next best mark (2-1) stay at home to entertain Southern Mississippi Tuesday night and powerful Houston Saturday night.

Intersectional battles will dominate the schedule again as the league seeks to improve its current 8-14 mark against outsiders.

TCU hosts Houston tonight, then invades the Big Ten for Thursday and Saturday games against Michigan and Ohio State; Texas Tech entertains Memphis State tonight, then hits the road to face Auburn and Alabama Friday and Saturday nights; SMU hosts LSU Thursday and Tulane Saturday; Rice plays at LSU tonight and Baylor is at home to Trinity Tuesday night.

Steers Win Two
Texas remained undefeated last

week with 71-38 and 81-72 decisions over East Texas State and Tulane, while Arkansas won its first two starts of the season, 64-62 in overtime against Kansas and 70-61 against Missouri.

The Aggies dropped an 81-74 verdict to Lamar Tech, but recovered to beat Memphis State 78-47, and Baylor stopped Arlington State 75-51 before bowing to Houston 70-61.

Otherwise, the league record was an all-losing one. SMU fell to Oklahoma 96-83, to Georgia Tech 73-56 and Vanderbilt 69-62; Rice lost to Tennessee 75-52, Vanderbilt 80-68 and to LSU 90-82; TCU lost to Oklahoma City 77-60 and to Centenary 64-41, and Texas Tech fell before New Mexico 80-66 and in overtime to Florida 71-69.

The Aggies' Jerry Windham broke in front in the individual scoring race with a 21-point average for three games, while Tech's Sid Wall was next with a 19-point average.

Nesmith Garners All-Around Title

LOS ANGELES (UPI) — The 88 cowboys who made the National Finals Rodeo (NFR) a rousing financial and competitive success scattered for home today — some with big cash prizes and championships, others with nothing more than broken bones and painful bruises.

All, however, left behind — without a tinge of regret — the wildest roping and riding stock ever assembled for a rodeo. But together, this elite of the rodeo made the fourth annual NFR the most successful ever.

When the last bronc and bull were ridden, the last calf and steer roped and the last steer wrestled before a final crowd of 7,954, this is the way it all summed up:

— All around cowboy of 1962 title to Tom Nesmith, Bethel, Okla., his first such championship. With the title based on the most money won during the year, Nesmith — a two event man — totaled up \$32,811. Runnerup Dean Oliver, Boise, Idaho, who makes all his money — and expertly — in one event, calf roping, had \$29,989.

— Event championships for 1962 went to Nesmith (Steer wrestling); Oliver (calf roping); Jim Rodriguez Jr., Castroville, Calif., (team roping); Freckles Brown, Lawton, Okla. (bull riding); Kenney McLean, Okanagan Falls, B.C., Canada (saddle bronc riding); and Ralph Buell, Sheridan, Wyo. (bareback bronc riding).

Nine Men Hurt
— A total of nine men were injured, five in the bull riding, three in bareback bronc riding and one in bulldogging. Most seriously injured, Roy Wallace, Midland, Tex., who suffered a broken leg in the first bull riding go-round.

— A total attendance for the six-day, eight-performance (go-round) show of 85,354 so impressed the sponsors of the event, they promptly scheduled the fifth NFR for Los Angeles — in December 1963.

All the champions, save one, took acknowledgement of their titles on horseback in the center of the Los Angeles Sports arena. The "one" was Freckles Brown, the popular little bull rider who left a Portland, Ore., hospital for the finals with a cast from hips to the tip of his head — and an insurmountable point lead. The cast was a token of a broken neck, received plying his trade this fall.

Griffith, who flew back to New York Sunday night, retained his 147-pound crown on the first foul in a world title bout in 32 years when Fernandez of Argentina refused to continue fighting after he had been floored in the ninth round by a low left hook in Las Vegas convention center, although given a five-minute recovery period in the ring.

Fernandez also had been decked by a right to the chin for a mandatory eight-count in the seventh round.

Griffith's Victory 'Closed Incident'

LAS VEGAS, Nev. (UPI) — Chairman James D. Deakin of the Nevada Athletic Commission announced today that welterweight champion Emile Griffith's foul technical knockout over challenger Jorge Fernandez Saturday night is a "closed incident," needing no further commission action.

Meanwhile, Griffith of New York agreed to a non-title bout in Tokyo, Japan, sometime in February; and negotiations for a return Dick Tiger-Gene Fullmer middleweight title fight at Las Vegas Feb. 23.

Griffith's handlers said he probably would make his next title defense against Raymundo (Battling) Torres of Mexico or Luis Rodriguez of Cuba at Los Angeles four or five months hence.

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the right of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

SUBSCRIPTION RATES

By mail paid in advance at office, \$10.00 per year in retail trading zone, \$15.00 per year outside retail trading zone. \$1.25 per month. Price per single copy 10¢. No mail orders accepted in localities served by carrier. Published daily except Saturday by the Pampa Daily News, Atchafalaya at Somerville, Pampa, Texas. Phone MO 4-5251, all departments. Entered as second class matter under the act of March 3, 1879.

We Still Think It Would Be A Good Thing For Pampa

Voters go to the polls again tomorrow to decide the fate of a bond issue which would provide what we believe to be needed highway and drainage improvements in Pampa.

The issue should be decided on the basis of whether you think it will be good for Pampa and betterment of the community as a whole.

Your vote should not be cast for political or personal reasons. Those who do not agree with individual members of the present city commission will have the opportunity to get rid of them next April.

With cities all around us approving similar bond issues to keep pace with progress, it would seem that now is the time to stop thinking little.

We may not like the way the present city commission parts its hair, but that is not sufficient reason to toss community progress aside.

We feel the same way about the bond issue as we did on Oct. 30. For the good of Pampa, it should be approved.

Medicare And Happicare

The other day somebody was advocating plumbicare.

Logically, it would. If old folks shouldn't have to worry about their medical bills, why shouldn't somebody else pay their plumbing bills too?

Once this ball is rolling, the possibilities are unlimited. All the necessities of life — food, clothing, shelter, recreation — plus the comforts could be provided — free, of course — so that nobody would have to worry about how he was going to make out once he reached retirement age.

There would be TVcare (nobody is expected to be without a TV set in good repair, these days), electricare (to pay the electrical bills), etc., and how about happicare?

(This would be a provision whereby all those past 65 could pick up at the liquor store, free of charge, enough alcohol to provide an hour of happiness just before dinner each day. Later on, maybe, they could form an association and get this increased to two hours. If one hour of happiness is good, how much better two would be.)

If everything is free, what does it matter what anything costs? You don't need money to get in anyway. All you need is a federal law.

Maybe you would be opposed to all of this — or part of it. Even so, you're close to getting it. All it takes is a majority for it, and J. F. Kennedy is hard at work trying to convince people.

Pearls Of Wisdom

Encouraging and timely words for men who face the problem of buying a Christmas present for the little woman have been voiced by Don Erwin Pearl, who is, appropriately, a designer of jewelry.

"What men fail to realize is that most of them have intuitive good taste," he says. "However, they are unsure of themselves because they are so accustomed to taking a back seat in matters having to do with fashion."

Pearl advises men to select what they like and what they will enjoy seeing their favored lady wear. He is speaking of jewelry, but his words could apply to almost anything else.

So go ahead, men: dare a little this season. Better to have bought in vain than not to have bought at all. And there is always the exchange counter.

LICENSE TO LICENSE

Government Intervention Doesn't Protect People

By GEORGE BOARDMAN, Ph. D.

From time to time government discovers areas of activities which are not covered by licensing laws and a great hue and cry results. Just the other day I noted that a segment of government is now enjoying a short fit over the fact that a marriage counselor need not be licensed so government is engaged in holding hearings and it unearthed a witness who claims his marriage was wrecked by a marriage counselor.

How many marriages have been wrecked by government? How many marriages have been wrecked by wars, by death in the service of government, by confiscatory taxation, by governmental intrusion into the private lives of the people, by progressive education, by frustration created by sheer bureaucratic stupidity?

Self-responsible married people have no need of a marriage counselor. The very fact of a witness seeking out a marriage counselor did not occur at the point of a gun and there was nothing compulsive about the suggestions of the marriage counselor. But government believes marriage counselors should be licensed by government so that the public may be protected. Nothing could provide a better example of immaturity, nothing provides a better example of the arrogant stupidity of bureaucrats.

We may employ excellent, mediocre or clumsy or stupid medical people and surgeons and they're all licensed by government. We can employ excellent, mediocre or inadequate legal talent, all licensed by government. We may employ a fine dentist, or one

who manages to make a botched-up job of everything he does and each is licensed by government. Millions of accidents occur and the automobile drivers concerned are licensed by government. There is absolutely no evidence that the licensing of auto drivers has reduced the number of accidents, and my personal belief is that licensing increases the number of accidents for obvious reasons.

No criminal element, no constantly careless element and no irresponsible element of the population has killed, robbed, cheated and caused as much human heartbreak as has government. This is a statement of pure and undiluted fact. If the population is to be protected, the most dangerous element against which the populace requires protection is government. How can we employ government to license government?

Our Constitution was designed to protect the citizenry against the unbridled license of power-hungry politicians. Now those who are really of the "old school" in their lust for power engaged in unbridled licensing.

Licensing solves no problems, and no license has ever solved a problem. Those who disagree with my contention may insist that without the need for a license from government we would be at the mercy of quacks and charlatans and irresponsibly reckless drivers and inefficiency and inadequacy and I say we are now at the mercy of quacks and charlatans and reckless, inefficient and inadequate human beings both inside and outside of government and that it will be ever thus until other human beings learn to decide and select

and discriminate for themselves and assume full responsibility for their own actions and decisions. In the meantime, every governmental licensing operation adds to the cost and the size, and the power of government, of which we have had a plenty for much too long.

The need for marriage counselors has grown in direct relation to the growth of the socialist parasite. As the parasite grows, the character of the people weakens, they become anxious to shift their own responsibilities to the shoulders of others and finally the marriage counselor will shift his responsibility to the omnipotent state when he says, "See, I have a State License for the protection of my clients."

Good luck and good health, to you, in Freedom. For this you require no license.

Pull Up A Chair

By Frank J. Markey

The class in Aerospace will come to attention: You frequently hear the terms Mach 1, Mach 2, Mach 3, etc., in connection with the Air Force. Mach is named after the Austrian professor, Ernst Mach, who first determined the speed of sound. Mach 1 is the speed of 760 mph at sea level but changes to about 535 mph at 40,000 feet. A good example is the Astronaut's Mercury Capsule which orbited the earth at Mach 25 or 17,500 mph. No vehicle can go into orbit until it accelerates to Mach 25.

Military jets have Machmeters which determine air speed in percentages of Mach. Conventional aircraft are equipped with an air speed indicator, which measures in knots and miles per hour.

The United States has the phantom, the world's fastest operational military jet. This F-4 fighter is used by the Air Force and the Force's B-58 Hustler. It covered the distance from New York to Paris in 3 hours and 19 minutes. It took Lindbergh over 36 hours.

No commercial jet can fly at the speed of sound. But eventually they will as a direct result of research and development by the military. America's first supersonic commercial airliner should be ready within 10 years. Much of the valuable data and knowledge will be provided from the operations of the B-58 and the RS-70 bombers.

TODAY'S SMILE: They were watching a pretty rumba dancer and the business man followed her movements as if entranced. "Well," said his wife, "I'm glad to see that something can take your mind off business." "Quiet!" growled the executive, still watching the shapely hip-twister. "I've got an idea for a new type of agitator for our washing machine."

This accident story from the London Express could not occur in the United States Congress, because all Members of the House of Representatives have theatre-type or stationary chairs. There are no desks in front of the seats so our solons keep their feet on the floor.

MP Slips Disc

Mr. Christopher Mayhew, Labour M.P. for Woolwich East, is being treated at Middlesex Hospital for a slipped disc. A doctor said: "This has been troubling him since Wednesday when he was sitting on the front bench in the House and put his feet on the table."

One thing that has always puzzled us in the popularity of the small 4-page letter type bulletins that originate out of Washington and New York. They purport to have all the latest "inside information" about what is going on in government, business and world affairs. There are hundreds of them, published weekly and monthly and subscribers pay up to \$40 a year. Some of these so-called confidential sheets are produced by one-man operators but the more successful ones are staffed by about 10 to 15 writers, who are apparently equipped with crystal balls to read the future.

They do command attention in certain business circles and some of the letters have been in business for almost a half a century. For our "inside information" we rely on the daily newspaper for coverage, because it represents the combined resources of thousands of reporters and news specialists on their own staff, and the great press associations and correspondents throughout the globe.

Long before the Bible was written, the ancient Egyptians took a sacred oath with their right hand on an onion. The onion was a symbol of eternity because of its formation of a sphere within a sphere.

and discriminate for themselves and assume full responsibility for their own actions and decisions. In the meantime, every governmental licensing operation adds to the cost and the size, and the power of government, of which we have had a plenty for much too long.

The need for marriage counselors has grown in direct relation to the growth of the socialist parasite. As the parasite grows, the character of the people weakens, they become anxious to shift their own responsibilities to the shoulders of others and finally the marriage counselor will shift his responsibility to the omnipotent state when he says, "See, I have a State License for the protection of my clients."

Good luck and good health, to you, in Freedom. For this you require no license.

New Item On Disarmament Agenda

Question Box

(We invite questions on economics and the proper functions of government which will not injure anyone.)

Question: "Is selecting the question to be answered about what a person is advocating, a real test of understanding? Is such a person worthy of confidence?"

When a man makes a presentation of his philosophy of life and then invites questions on the subject and selects the questions that he will answer is he really performing a service and demonstrating that he understands his subject?

It would seem that he is not. Anybody can always be right if he selects his own questions to be answered. That is the way most of the confused speakers evade answering embarrassing questions. If there is a single question that he has to evade, he does not fully understand his subject. And in answering a question one should reduce it to axioms, to principles, to equations, to mathematics. There are plenty of ways of answering a question by evasion, by quoting another person rather than giving a direct "yes" or "no" answer. Of course, the question might be so framed that it would require a definition of what the question is before it could be so answered. That kind of a question should be clarified before an attempt to answer it is made.

In talks where a man is making a speech and at the close of his speech he throws the time open to questions, it is not courteous for anyone in the audience to attempt to make a speech. He is not sharing the time and the public did not come to hear him, but came to hear the speaker. Sometimes when a man attempts to make a speech the moderator should, by all means, insist on the man from the floor asking only a question and not making a speech.

It would seem the answer to the second question, "Is such a person worthy of confidence?" is "no," because he does not know enough about his subject that he can reduce his answers to mathematical language. Quite often they love to hear their own voices and love to have an audience.

About all there is in life is

Long before the Bible was written, the ancient Egyptians took a sacred oath with their right hand on an onion. The onion was a symbol of eternity because of its formation of a sphere within a sphere.

and discriminate for themselves and assume full responsibility for their own actions and decisions. In the meantime, every governmental licensing operation adds to the cost and the size, and the power of government, of which we have had a plenty for much too long.

Edson In Washington

Growth Seen Continuing In Anti-Discrimination Housing

By PETER EDSON

WASHINGTON (NEA) — Anti-discrimination housing policies fan out a good deal more broadly right now than the limits set by President Kennedy's antislavery order. And the prospect is for still further broadening.

In the main the President's order affected only new housing starts assisted by FHA and VA. But 10 states, including Pennsylvania, New Jersey, New York and Massachusetts, already bar discrimination not merely in publicly assisted housing but in private housing financed without government aid.

Though California's antislavery law does not go that far, the California Supreme Court has decreed that operations of real estate brokers and salesmen come within the bounds of the state civil rights act. Illinois has civil rights and other statutes which seem to fall somewhat short of this effect.

In addition, New York City, Pittsburgh and Toledo have ordinances banning discrimination in conventionally financed private housing.

Nongovernment housing specialists say these various laws and ordinances have not been too effective. The reasons: poor enforcement and long-drawn-out court action.

Yet none of these broader state laws is older than 1959. There is some expectation they may now be strengthened.

Altogether there are 18 states, the Virgin Islands, and 48 cities with some kind of antidiscrimination statutes in the housing field. Long before the President's order, the FHA had been refusing to insure loans in these areas to builders who practiced discrimination.

High United States sources say it is a pretty good guess that sooner or later the federal bar on discrimination will be extended to cover conventionally financed new housing. If the penalties match those in the current presidential order, the housing industry believes the impact would be considerable.

But federal officials do not underplay state efforts. With the President's order estimated to affect 25 per cent of new housing starts, they figure state and local laws cover another 25 per cent.

They argue also that the builders' performance in areas previously covered is strong evidence that the impact of the federal order on the housing industry, even if that order is later enlarged, will not be severe.

As for the vast volume of existing housing — not directly touched by Kennedy's order — Justice Department lawyers are reasonably optimistic that court action will permit substantial anti-

crimination inroads. The government did not want an order which seemed in any way to alter or abrogate existing contracts involving housing with federal help.

What the lawyers count upon are court tests in which it is anticipated the courts may rule that it is the sense of an existing contract that there can be no discrimination where the United States is a partner.

The argument is that the government's "constitutional duty" "runs off" on the government's partner in any such dealing.

Cited particularly by federal attorneys is a Supreme Court decision in a Wilmington, Del., discrimination case involving a restaurant.

Ruling for the Negro complainant, the high court said that in the contract with the federally assisted authority which built and operated the restaurant, constitutional assertions of equality were governing, "as certainly as though they were binding covenants written into the agreement itself."

Though they find this language encouraging for an assault on bias in existing housing, Justice officials do not look for a single test case decision sweeping all before it.

Even if the President's order is ultimately extended to cover conventionally-financed housing, the prospect of slow over-all action is compounded by the economic and social factors affecting the non-white community.

Housing experts scanning income and population figures calculate that about one million nonwhite families have sufficient income to afford new or livable older homes in the developing suburbs. Today less than 10 per cent of the nonwhites live in United States suburban fringes.

Nevertheless, nonwhite economic levels generally are relatively low, and countless families may find themselves priced out of "growth areas" in the suburbs in any case.

On top of this, experience in many places suggest that Negroes and other nonwhites move cautiously to take advantage of lowered barriers of various kinds. The outlook is that there will be no sudden rushing in as the bars go down.

WASHINGTON (NEA) — Anti-discrimination housing policies fan out a good deal more broadly right now than the limits set by President Kennedy's antislavery order. And the prospect is for still further broadening.

ROBERT ALLEN

Allen-Scott Report

25,000-33,000 Russian Troops, Including 'Elite' Division, Still in Cuba; President Urging Removal Quietly—So Far

PAUL SCOTT

WASHINGTON — The latest Defense Department estimate of Russia's military capability in Cuba shows clearly how close the U.S. came to another Pearl Harbor.

This suppressed report reveals that the Soviets, in addition to the highly publicized missiles and IL-28 bombers, were able to land in Cuba virtually undetected between 25,000 and 33,000 troops, including an entire motorized Russian division with supporting units.

This "elite" guard division, consisting of 16,000 to 18,000 crack troops, is still in Cuba. Its removal, together with other Soviet military personnel, is the main unpublicized issue still unresolved in the U.S.-Russian negotiations.

The crack Soviet division, located in strategic areas on the island, was poised with Castro's 75,000 regular troops and 125,000 militia to meet a U.S. invasion of Cuba.

Its main striking power centers around four tank and four missile battalions. Each of the tank battalions is comprised of 150 light, medium and heavy tanks, manned and supported by between 1,200 and 2,000 troops.

The mechanized missile battalions are equipped with 60 nuclear-tipped FROG rockets, carried and launched from tank-type vehicles. These rockets have ranges of 25 to 300 miles. The division has its own artillery, including 40 self-propelled SU-100 millimeter rifles.

CALLING THE ROLL — According to the Defense estimate of the Russian table of organization and equipment in Cuba, the next largest group of troops consists of 6,000 specialists in the rocket units, manning the ground-to-air missile emplacements that ring the island.

These units, with more than 650 SA-2 missiles, are supported by 2,000 additional Soviet troops handling the early-warning radar network and the missile-jamming equipment.

Another 3,000 to 5,000 troops are assigned to Cuban port facilities; and 2,000 Soviet pilots and airforce technicians are scattered throughout the island at newly-built airfields. Also, between 2,000 and 2,300 Russian sailors and officers are training Cubans in operating Soviet patrol craft and missile-jamming PT boats.

President Kennedy is privately pressing Premier Khrushchev to remove the "elite" division, the missile specialists, and the Soviet pilots, but so far he hasn't gotten very far with his demands.

After the Soviet IL-28 jet bombers are removed from Cuba, the President is expected to change his tactics and begin exerting public pressure on the Soviet leader to remove these military units.

Until now, the President has played down this part of the Russian military build-up because of States suburban fringes.

Nevertheless, nonwhite economic levels generally are relatively low, and countless families may find themselves priced out of "growth areas" in the suburbs in any case.

On top of this, experience in many places suggest that Negroes and other nonwhites move cautiously to take advantage of lowered barriers of various kinds. The outlook is that there will be no sudden rushing in as the bars go down.

WASHINGTON (NEA) — Anti-discrimination housing policies fan out a good deal more broadly right now than the limits set by President Kennedy's antislavery order. And the prospect is for still further broadening.

WASHINGTON (NEA) — Anti-discrimination housing policies fan out a good deal more broadly right now than the limits set by President Kennedy's antislavery order. And the prospect is for still further broadening.

"hard" intelligence about the units was lacking, and didn't want to inflame public opinion in the U.S.

NOTE: The identification of the Soviet units as part of an "elite" guard was made through insignia copied by Cuban refugees from Russian officers' uniforms found in Cuban supply depots.

HARD TO BELIEVE — One incredible note was struck during President Kennedy's three a one-half hour meeting with Soviet Deputy Premier Mikoyan when he stopped over in Washington en route from Havana to Moscow.

The tense incident occurred after the President complained that the Russians had built their Cuban missile base in secrecy while at the same time their government was claiming that only defensive missiles were being sent to Cuba.

Mikoyan, replying with a straight face, said:

"Premier Khrushchev was planning to inform you about the missiles after your elections. He didn't want to disturb you before then."

"Do you expect me to believe that?" thundered the President.

"You can't disprove it," said Mikoyan.

When the President did not smile, Mikoyan went into a long harangue, saying that Russia was under no obligation to inform the U.S. where missiles were being sent.

When he finished, the President replied: "Your government has no right to deliberately mislead other governments."

VATICAN VISITOR — A top Vatican prelate is coming to the U.S. early next year to push Christian unity in this country.

Augustine Cardinal Bea, president of the Vatican's Secretariat for the Union of Christians, is planning to tour the U.S. beginning in March, at the invitation of Cardinal Cushing of Boston. The two Cardinals will speak on the critical need for Catholic-Protestant-Jewish unity.

The visit has the blessing of Pope John, who has informed U.S. Catholic church leaders attending the Second Vatican Council that he will not personally be able to accept their invitation to come to this country.

9 A.M.

In the Daily Deadline for Classified Ads, Saturday for Sunday edition 12 noon. This is also the deadline for ad copy. Monday Morning, 10 A.M. All notices will be taken up to 11 A.M. daily and 2 P.M. Saturday for Sunday's edition.

CHRISTMAS ON MARROW-BONE RIDGE

BY WALT SCOTT

Magoon's "boys" did get a rumor going about a severe winter on its way. A lie? Maybe, but the little people have their own way of doing things.

Soon things began to perk up on the Ridge. A need for firewood had developed in Comfort Village. Coins began to jingle in pockets and it takes at least TWO coins to jingle.

Other odd things happened. It seemed the ladies from the village needed sewing and mending done—right now!

THE FAVORED FEW!

Who are the "FAVORED FEW" referred to by the Mayor in a recent statement published in the Pampa Daily News?

Are they the men who worked and contributed over \$60,000. to purchase right of way through Roberts County so that the State would build Highway No. 70 connecting Pampa with the north plains?

Are they the men who worked and contributed money to acquire right of way for the Fort Worth & Denver Railway to construct a line from Pampa to Childress?

Are they the men who worked and contributed money to purchase the right of way for the construction of a line from Pampa to Clinton, Okla?

Are they the men and women who worked and contributed money to build the Coronado Inn?

Are they the men and women who worked and contributed money to build the Community Center in Pampa?

Are they the men who have provided employment for hundreds of men and women?

Are they the men, who organized under the name of the Pampa Chamber of Commerce, have given of their time and money in support of all projects that have helped the growth of Pampa?

Are they the men who built the Library and presented it to the City?

Are they the men who built the Nurses' Home and presented it to the County?

In short, are they the men who, for many years, have contributed their time and money in the furtherance of every worth while project which has brought Pampa from "a wide place in the road" to what it is today. If so, we would consider it a privilege to be counted among the "FAVORED FEW."

Vote NO Dec. 11 On The Proposed Bond Issue!

(Paid Political Advertisement By A Friend of the Favored Few)

WHY

Are We Not Permitted To Vote On Each Project Separately—According To The Engineers Report?

SECTION I STATE 273	\$323,849
SECTION II STATE 152	\$101,241
SECTION III U.S. 60 WEST	\$109,641
SECTION IV U.S. 60 EAST	\$166,679
TOTAL	\$701,410

Hobart Street ? ? ?

(Right Of Way Figures Not Included)

Why—If \$250,000 Is Now Needed On N. Hobart, Why Wasn't It Needed In October?

Why Should We Build A 64 Foot Street To A 35 Foot Underpass? Would This Not Create A Traffic Hazard Or Death Trap?

Why Should We Be Asked To Vote Bonds For A Project Several Years In The Future—Engineers Estimates Are Based On Today's Market. Will They Still Be Valid 4 Or 5 Years From Now? Would This Give Pampa's Present Economy A "Shot In The Arm"

How will this Bond Issue be paid? It now takes \$.45 of our present Tax Rate of \$1.45 to pay our Bonded Indebtedness of \$1,546,000. What will it cost to pay an additional Bond of \$1,750,000?

VOTE NO

Vote Against The Issuing Of These Bonds On December 11th
