Warpate Will Look Like This After Repairs

After repairs at Puget Sound Naval Yard in Bremerton, Wash., the British battleship Warspite will look as good as new. Here's the ship before bombs damaged her in an attack at Malta.

Combined Cash Deposits in Perryton Banks Greatest in History of Ochiltree County

With combined deposits of \$1,430,159.06 in the two Perryton banks at the close of business on the call of September 24, 1941, a record in deposits was set for the entire history of Ochiltree county. Other figures in the statements of the First National and the Perryton National reflect a similar condition which indicate that never before have our financial institutions been on such a solid footing.

Deposits in the First National are over one million dollars, \$1,026,829.85. Perryton National deposits were \$400,876.12.

Cash and sight exchange of the two banks is almost one-half million dollars, \$397,635.61 in the First National and \$60,795.90 in the Perryton National.

Wheat producers notes or Commodity Credit Corporation wheat loans total \$363,833.46; \$97,250.02 in the Perryton National and \$266,583.44 at the First National.

The two banks own bonds for a total of \$99,179.87.

Loans are at a very low figure in proportion to amount of deposits being only about one-third of the total deposits. First National loans are \$381,261.87 and the Perryton National, \$105,718.90. Total in both banks, \$486,980.77.

Methodist Revival Now in Progress

The revival meeting in progress at the Perryton Methodist Church will continue thru next week. Growing interest and increase in attendance is manifest each service.

Rev. William S. Fisher, Corsicana, who preaches each night and at the morning hour from ten to eleven, is keeping the interest of his congregations by his inspiring messages. A chorus choir, directed by Mrs. R. P. Hurn, is furnishing the music, and the congregational See No. 5, Back Page

Saturday Night Dance at Donley's

T. O. Patton announces this week of the change from Thursday night to Saturday night for the dance at Donley Hall. Owing to the many requests of different ones, Mr. Patton has decided to hold the dances on Saturday night.

The same dance band, Keith Curtis and His Band, have been engaged to furnish music. The dance will start at 9:00 o'clock.

DeMolays to Elect Officers Oct. 6

The Perryton Chapter of the Order of DeMolays will hold its annual election of officers Monday night, October 6, at 7:30, Masonic Hall. This is an important meeting and all DeMolays are requested to be present.

E. D. Kelley, Dad of the Perryton Chapter announces that plans for the next year will be made at this meeting. Membership cards for 1942

Births Exceed Deaths Three to One in Ochiltree County Past 38 Years

Bill Herndon Herald School Reporter

Bill Herndon, Perryton high school senior and editor of El Sombrero for the latter semester of the 1940-41 school term, is the representative of the Herald in the Perryton schools. Teachers, classes and school organizations desiring publicity in the Herald are asked to get in touch with him. For many years the Herald has carried a weekly school page devoted to news of the Perryton school and would gladly do so again this year if material for same was officially available. We believe that such a page in a newspaper of general circulation is a service both to the school and our subscribers. Instead of the page in the Herald, the school will issue a separate monthly periodical.

All birth and death certificates filed in Ochiltree County have been re-indexed. This new index completed August 29 makes it possible for any one to speedily obtain from the County Clerk any information desired on a birth certificate filed since 1903 and any death certificate filed since 1904.

The importance of filing birth certificates is becoming more apparent daily. Work of re-indexing these records was done throughout Texas by WPA personnel and is providing valuable both to the County Clerks and to those applying for copies of their birth certificates.

In Ochiltree County, the work was started June 17 and was completed August 29. It was directed by Frank F. Peterson, Amarillo, assistant supervisor of Public Records for this district Works Progress Administration.

Mrs. Charles E. Jackson and Mrs. Mattie Nash, assigned on this project in this county, report that 2,210 births have been recorded since 1903, compared to 690 deaths since 1904.

See No. 4, Back Page

County to Build Warehouse

After first rejecting all bids for the furnishing of labor and material for the construction of a 40x120 ft. warehouse, the Commissioners' Court of Ochiltree County has entered into contract with Cofer & Lee, local contractors for the building.

The warehouse will be used for the storage and repair of road machinery and grading equipment. The foundation and floor will be of concrete, walls and roof of balloon type wood frame construction with sheet iron covering.

Domestic Miss

Little Carol Lee, 7-year-old movie miss, hasn't forgotten the folks back home at Martins Ferry, O. Between pictures she

Tax Collector Receives '42 Auto Licenses

All Car Tags Have Orange Background With Black Letters

Passenger and commercial vehicle licenses for 1942 have arrived in the office of J. S. Talley, Ochiltree County tax assessor and collector, but they will not be placed on sale until February 1.

The 1942 licenses, both passenger and commercial, have orange backgrounds with black numerals and letters. Previously, the passenger licenses have been either opposite in color, or, at least different in color, from commercial licenses.

To register cars for 1942, the owner must present a certificate of title, Talley said. Certificates have not been needed heretofore. This rule applies to all cars, unless the car was bought new prior to January 1, 1936, and is still owned by the original buyer.

Certificates may be obtained by applying for them at the tax collector's office. It was explained, Car owners who trade off their cars must possess one of the certificates before the trade can be transacted.

A total of 1400 passenger licenses have been received, with the numbers ranging from A86-701 to A88-100. Other types of licenses and numbers included are as follows:

Commercial, 250 licenses, 445-801 to 496-050; 450 farm and truck, 197-201 to 197-650; 45 trailers and tractor, 60-126 to 60-170; 10 dealer, 9-237 to 9-246; a motorcycle, 4-256 and 4-257.

The number received for 1942 in the various divisions is approximately the same as that for this year, Talley said. Additional licenses had to be ordered this year and it is expected that more will be needed for 1942.

Red Cross Needs Workers

According to Mrs. J. F. Cox, production chairman of the local Red Cross Chapter, work on the fifth quota of war relief garments is getting nicely started. This is a large quota and is to be ready for shipment in early December.

The Red Cross room, located in the former WPA Sewing Room, just across from the post office, is opened on Tuesday and Wednesday afternoons from 2 to 5 o'clock. Seven machines are available for sewers and hand work, pressing, sewing on buttons and the like can always be found for anyone who wishes to work. The room can be opened at other hours which is agreeable to groups.

Since the weather is getting cooler it is hoped that more knitters will avail themselves of the opportunity to help with this wonderful work. Mrs. Henry Richardson, Miss Bette Bryan, Mrs. E. R. Jarvis and Mrs. Lake Patton have been very generous with their time in helping with the knitting instructions. Some of them will be found at the room during open hours or Mrs. Jarvis can be contacted at the office of her husband, Dr. E. R. Jarvis at any time during office hours.

Government Ready for Tax Profiteers

WASHINGTON —The treasury Tuesday prepared to crack down on any "tax profiteers" or any dealers who attempt to reap large profits by misrepresenting new Federal excise taxes which went into effect Wednesday morning.

The Bureau of International Revenue, an official said, will seek prosecution of any merchant, for example, who increases the price of any article 20 per cent to cover a 10 per cent tax and then advertises that the entire increase is due to taxation.

And second: Any dealer, who by purchasing large quantities, undercuts smaller competitors and

Rotary Speaker

Congressman Eugene Worley, Shamrock, representative of this district in the national congress, will be guest of honor and principal speaker at today's noon luncheon of the Perryton Rotary Club. Congressman Worley is home on a few days vacation from Washington and is making a quick swing over his district. The Rotary Club has invited a number of guests from all parts of the county to today's meeting. The honor guest will be introduced by R. T. Shindler.

JUST HERE and THERE

For many years Perryton's slogan has been "The Friendly City." How about changing this slogan to something like this, "Perryton, the Friendly City of High Gas Rates and an Antique Telephone Service."

Just like the family who hasten to apologize for the weak minded child, so do Perrytonites apologize to the stranger who has to use one of our "wind 'em up" telephones.

Had occasion to make a number of rural calls the other day, so now we heartily agree with everything we've heard a number of rural patrons say about their telephone service.

We suggest that football fans turn to the sports page and clip the schedule of District 2-A games. This schedule was furnished us by E. D. Kelly, principal of the Perryton High School who is football chairman for the district.

Congratulations to Superintendent Wedgworth and his faculty at the Perryton school for the splendid patriotic program in the school. A large American flag and a plaque with the Pledge of Allegiance to the Flag has been placed in each room. Classes on flag etiquette and instructions on respect to the flag are being taught in each room.

Through the efforts of the Wolf Creek Sportsmen's Club, fishing with artificial bait is out for the remainder of this season at Lake Fryer. Worms and cut bait can be used. This restriction was made so that the young bass will be protected.

It has been called to our attention that some fishermen have been seen taking six inch bass from Lake Fryer. This is strictly against the state law which states that 11 inch is the limit for bass. The state game laws set the bass limit at 15 per day, but special regulations governing fishing at Lake Fryer place the limit at six bass per day.

Please observe these regulations. They are not made to restrict they are to build up the fish supply in Lake Fryer and make better fishing for everybody.

We were invited down to Borger honoring Dave Warren, publisher of the Panhandle Herald, the Borger Daily Herald and the Spearman Reporter. Dave is also President of the Texas Press Association and owner of the controlling interest in Borger's only bank.

Well, when we got down there we found it was a mistake about

The writer who wrote the head, "Unwanted Rains . . ." in Mondays Amarillo Daily News didn't know what he was writing. If he had looked a few miles beyond Amarillo's airport he would have found that the Northeast Panhandle wanted just what they got when approximately three inches of slow rain fell over the area Sunday, Monday and early Tuesday. The total precipitation was 2.80 inches as measured at the Perryton Soil Conservation Camp and practically every drop soaked into the ground.

Chorus to Amarillo

The Perryton high school chorus will be in Amarillo, Wednesday, October 8, for a district choral clinic. The Perryton chorus of 50 voices will be accompanied by director Glenn Truax. Dr. Archie Jones, head of the music department of the Texas University, will be in charge of this clinic.

To Organize USO-Defense October 9

The "Committee of 100" to serve the USO-Defense of Ochiltree County "for the duration" will complete their permanent organization and make plans for immediate activities on Thursday evening, October 9, 7:30 o'clock at the American Legion Hall, so announces County Chairman T. V. Elsey.

Every member of the committee is urged to attend the organization meeting. The complete list of committee members was published in last week's Herald. Cards will be mailed to each committeeman the first of next week a reminder of the meeting. Refreshments will be served.

Mother of Mrs. Geo. Yates Buried

Mr. and Mrs. George Yates and family, Eveline, Mr. and Mrs. Don Yates, Perryton, Dale Yates, Camp Walters, and Lloyd Yates, of Clinton, Okla., were in Panhandle Thursday and Friday to attend the funeral services of Mrs. Cecil Pitt, mother of Mrs. Yates. Mrs. Pitt passed away after a lingering illness on September 25. Funeral services were held Friday afternoon and burial made in the Panhandle cemetery.

Loved ones left to mourn the passing of this dear mother are the husband; one son, Leslie Pitt, Canyon; daughter, Mrs. Yates; eleven grandchildren; one great grand child; a sister, Mrs. Laura Hutson, Amarillo, and four nieces.

It is doubtful if the Perryton area ever received a rain of so much value and when it was really needed. It was getting mighty dry in this sector. The rain started coming down early Sunday morning, continued through most of the day and night until early Tuesday.

The man who had his wheat planted is sitting pretty. There is plenty of moisture to bring up and carry for weeks the wheat yet to be planted. This area is now assured of abundant winter wheat pasture and with the great herds of cattle and sheep now in the Southwest, winter pasture is another cash crop.

Rainfall for the past week is as follows:

September 2413

September 2824

September 292.33

September 3023

Total99.3

Recruiting Officer in Perryton, October 7

A Navy Recruiter will be at the Perryton Postoffice next Tuesday, October 7, according to C. L. Williams, Chief Boatswains Mate, U. S. Navy Recruiting Station, Amarillo.

Enlistment ages for the regular navy are from 17 to 31, and in the Naval Reserve from 17 to 36, except that men up to 50 years of age who are skilled in trades or professions may enlist in the Naval Reserve with petty officer ratings.

All enlistments are voluntary, but men in class 1-A may enlist before being drafted for Army service. Any man interested should see the Navy Recruiter at the postoffice October 7.

Guymon Fair Closes Friday

The Oklahoma Panhandle-Texas County Free Fair at Guymon, Texas, Sunday, September 30, for a four day run, closing on Friday, Oct. 3.

Horse races are being held each afternoon with modern dances each evening.

Five races are on the program for Friday afternoon, the last day of the fair. Pursues for the last day's program total \$205.00.

Revival at Full Gospel Church Opens Sunday, October 19

Ralph A. Durham, (left above), pastor of the Full Gospel Tabernacle, announces that Evangelist Jack Barker (right above) of Laverne, Oklahoma has been secured to conduct the undenominational revival campaign to open at the above church in Perryton on Sunday, Oct. 19.

Rev. Durham, who will assist in the services states that the music for the revival meetings will be under the direction of Mr. and Mrs. Floyd LaMunyon, Laverne, talented singers and musicians.

Evangelist Barker is well qualified as a speaker of the gospel. Among his subjects will be "World Conditions Today" and other great prophetic topics.

Perryton Rangers Open Home Season With 32-0 Victory Over Demons from Dumas: Big Crowd Sees Game

The Perryton Rangers opened their home season with a 32-0 victory over the Demons from Dumas in the opening home game of the season. The Rangers, after a long absence from the field, returned with a vengeance, and the game was a real success for the team.

Minnesota Favored to Retain Crown Against Stiff Big Nine Competition

IT'S the same old story in the Western Conference this year—Minnesota against the field. Those ponderous Gophers, who run, tackle and block with such title-winning perfection, are favored to retain their Big Nine crown.

Wily Bernie Bierman lost 12 lettermen by graduation from his undefeated 1940 team. One other, Fred VanHull, transferred to Annapolis. Losses by conscription are not imminent. And 24 (count 'em!) monogram winners are back for devastating duty.

Heading the parade is Capt. Bruce Smith, a typically versatile Minnesota back, who can kick, run and pass with unusual skill. Barring injuries, he's an all-American must-order. In the line, Urban Odson, a cunning slyph of 245 pounds, is back for another pile-driving season.

Michigan is a question mark. No team can lose a once-in-a-decade back (Tom Harmon), a blocking wizard (Forest Evashevski), two guards (Milo Suckup and Ralph Fritz) and an end (Ed Frutig), among others, and not be hit badly. Capt. Bob Westfall is a corking fullback, but the team lacks a break-away runner and reserves.

Northwestern has a powerhouse backfield and a weak line. Even Minnesota will have to bow to the Wildcat backs—Bill DeCorrevont, Floyd Chambers, Ike Keppord and Don Clawson. Alf Baumann, all-American tackle, has another year in the line but his colleagues are not outstanding.

Wisconsin may finally show something. Eighteen lettermen return from the team which split even last season in eight games. Watch Tommy Farris, Badger quarterback, who may be a standout.

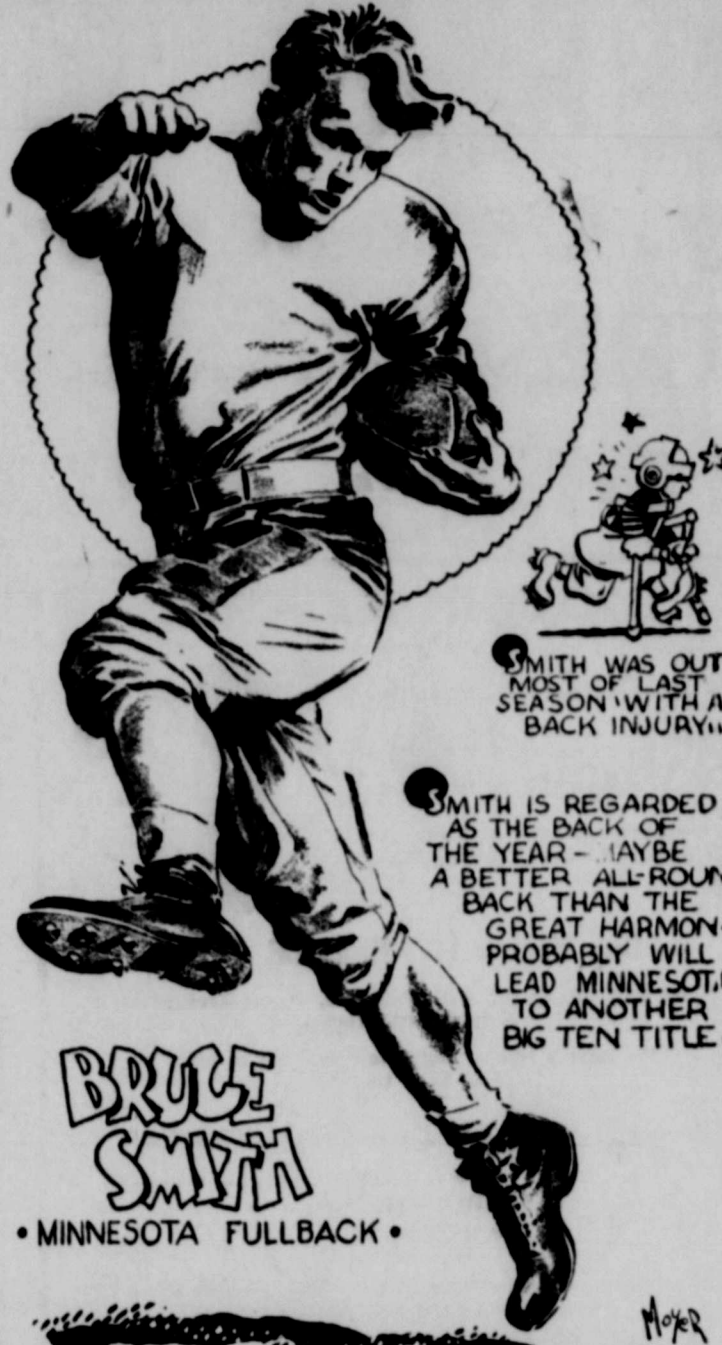

Ohio State has undertaken extensive rebuilding. Paul Brown, a high school coach at famed Massillon, succeeded Francis Schmidt. A stickler for detail, Brown is rebuilding with a nucleus of 12 lettermen. Team may be a spoiler during the tag end of the season.

Iowa has a good freshman crop and 16 lettermen. Bill Green is a likely sophomore candidate. Better than last year—but not good enough, is the consensus.

Demons had possession of the ball on their own 17 yd. line. Score 19-0 at Half. Beginning the third quarter the Dumas team kicked off the Rangers receiving on the 5 yd. line. Williams returned 30 yds. Carpenter took the ball and with splendid blocking plunged 25 more yds. The Rangers had had plenty of success with their ground plays, now attempted a pass. Failing to complete two passes and an off side penalty caused the Rangers to punt. The ball went out on the 20 yd. line. The Demons, now in possession of the ball, turned to passing. It proved to be unsuccessful, and they punted on the fourth down after failing to gain any yardage. With the Demons making a poor boot the ball went out on their own 20 yd. line.

After gaining seven yds., the Rangers executed a nice round-end play sending Allen over the goal line. Much to the disappointment of the crowd the play was called back and Perryton received a five yd. penalty. After a series of penalties totaling 20 yds., the Rangers punted with the ball going out of bounds on the Demons 36 yd. line. The Dumas team was penalized 15 yds. and punted out of the danger zone. Mullins was under the punt and returned it six yds., putting the ball on the Dumas 40 yd. line. On the next two plays, Mullins and Reimer gained 21 yds. for the Rangers. A series of short gains and penalties totaling 25 yds. followed in the last plays of the third quarter, although the Rangers made a penetration.

The Rangers lost possession of the ball on downs and the ball

SMITH WAS OUT MOST OF LAST SEASON WITH A BACK INJURY...

SMITH IS REGARDED AS THE BACK OF THE YEAR—MAYBE A BETTER ALL-ROUND BACK THAN THE GREAT HARMON—PROBABLY WILL LEAD MINNESOTA TO ANOTHER BIG TEN TITLE...

Indians looks vastly improved. Bo McMillan lost 17 lettermen, but he has an excellent sophomore crew, including the publicized Bill Hillenbrand, supposedly an embryo Harmon. Lou Saban, quarterback, and John Tavener, center, are other outstanding first year men.

PURDUE lost four Conference games in 1940 but a margin of seven points in 38 seconds separated them from ties or victories

in three of them. Mal Elward has 24 lettermen, 19 reserves and a fair freshman bunch. Should do better.

Illinois offers a dramatic situation. It's now or never for Bob Zuppke who survived the coaching ax by a narrow margin last spring. Best appraisal of Illinois comes from Zup himself: "If we block hard, run fast, think, and get a few breaks—our backs may get right up to the line of scrimmage."

now rested in possession of the Demons on their own 23 yd. line. The Dumas team punted out of the danger zone to their own 44 yd. line. Schroeder received the punt for a return of nine yds. Reimer took the ball on the following play for the longest run of the game, 35 yds. for the Rangers their fourth touch-down! The score Perryton 28, Dumas 0.

Schroeder kicked 40 yds. for the Rangers, giving the Demons another chance to score. The Demons returned the ball to their 35 yd. line, only to receive a five yd. penalty. A pass was attempted, falling incomplete. A second one was tried. Williams intercepting for the Rangers and returning 12 yds. With the Rangers in possession of the ball, Mullins gained 15 yds. in two plays. Another plunge put the Rangers on their opponents four yd. line. The battling Demons received a five yard penalty placing the ball on the 1-yard line. Mullins plunged over for another score for the Rangers. McWilliams made the extra point making the score 32-0 in favor of the Rangers. McWilliams kicked off for the Rangers, Dumas receiving the ball on their own 30 yd. line. Coaches Philbrick and Slack had ran in their second string in the mean-time. The Demons determined to score over the subs felt several hard blows and were forced to punt. The Perryton squad returned the ball to the Dumas 45 yard line. After a series of fruitless gains and a penalty, they were forced to punt.

The fighting Demons never quit. Burgess, the Dumas captain, returned the pig skin 30 yards. The

next play netted the Demons five yds. a 15 yd. penalty on the Rangers put the Demons in good scoring position on the Rangers 17 yd. line. The game ended with the score, Perryton 32, Dumas 0.

The starting line-up

SOIL AND CONSERVATION. Conservation of the soil is largely a matter of using the land in accordance with the dictates of nature.

Class AA Borger Bulldogs Play Rangers Friday Night; Reserve 250 Seats For Fans

The Perryton Rangers will meet the class AA Borger Bulldogs Friday night in what should be the toughest game of the season for the local high school team. The game will be played on Ranger Field with the kickoff at 8 p. m.

Pans are assured of a glittering show between halves when the Borger and Perryton bands take the field. The visitors are bringing their big crimson clad band with those high stepping majorettes trained by Gordon Burch and known far and wide. Glenn Truax's Ranger band and his drum and bugle corps can always be depended on for a real show no matter how stiff the bill.

Borger is bringing a motored of fans to root for their boys. They have reserved the entire south grandstand.

This will be the first game between Borger and Perryton since 1936 when the Rangers slipped into Borger and handed a 13-7 defeat to the upperclass Bulldogs. The humiliation of this defeat was too much and Perryton was crossed off the Borger schedule for the next four years.

The Perryton Rangers was a different team last week when they took Dumas 32-0 than a week before that when they lost to Lefors. Borger just barely eked out a 6-6 tie with Quanah last week but that's not going to keep them from coming to Perryton with all the confidence in the world of overwhelming a smaller team from a lower and smaller class school.

In 1936, the Bulldogs were fresh from a victory over Lubbock. They never dreamed of losing to Perryton. The 1936 upset could be duplicated five years later. It might happen Friday night for Coach George Philbrick's boys are out to win and they're just a mighty good little team. Anything can happen in a football game.

Juniors Lose To Phillips 6-7

The Phillip Juniors came out on top in the first game of the season for the Perryton Junior team. The light teams were evenly matched and both teams made their score in the later part of the fourth quarter. Phillips scored in the last three seconds of the game. Each team made nine first downs.

Much passing was done through out the game with Donald and Danny Ellis doing the tossing for the Junior Rangers. Kiern, McLain and the Ellis brothers did much of the ball carrying for the Perryton team.

Coach John Smith was pleased with the progress the Juniors made after only one week's practice, even though the heavier Phillips team lunched out in the last seconds of the game.

The Juniors have a return game with the Phillip team tonight, Thursday, on the latter's field.

Starting Line-up

Perryton Pos. Phillips Pos. Zenor le Holt, Entlerline lt Witt, Holland lg Braydon, Dunlavy c Williams, Allen rg Sinclair, Peckenpaugh rt Davis, Records re Landers, Don Ellis qb Baldum, Dan Ellis rh Smith, Elledge lh Hopper, McLain fb Beard

THEY START 'EM YOUNG. In the Lone Star State they don't count you in the population unless you fish or hunt. And it's getting to where they start out being a qualified citizen pretty young these days.

P. C. (Fishcatcher) Hall of La Feria, Texas, purchased a license for his son one hour after the youngster's arrival at the Mercedes hospital. When would he take the boy fishing? "Just as soon as the weather clears," the proud father answered.

It's Lo, the Poor Indians, As Cleveland Flops Again

BY ART BRONSON

CLEVELAND'S recalcitrant Indians have added another sordid chapter to their already pitiful baseball history.

Years of buildup and foldup, of "situations" and intrigue, have brought the Tribe face to face with its most serious crisis.

The Indians have weathered player rebellion, front-office foolishness, out-of-town hostility and too frequent changes in managerial personnel.

But now they face the most alarming impasse of them all—a wholesale desertion by their followers.

Cleveland is fed up with the Indians. There is a rising hostility and general apathy toward the lads who win the pennant in May, lose it in July.

THE fans are sick and dog-tired of the rumors and innuendoes connected with their unbeloved bums. They resent Cyril Slapnicka's alleged front office gyrations and Alva Bradley's beneficent proprietorship. Their sports writers gush optimism in May and peck away at half-heartedly in the fall.

Alva Bradley, a successful business man and a respected member of the community, has been severely criticized for supporting the player rebellion last year. He has been flayed for his inability to appoint competent subordinates.

The Indians have completely alienated themselves from their supporters. When they draw up their statements at the end of the

season, they should list good will as a liability.

HERE are some of the leading irritants:

1. For years Cleveland searched for inspirational leadership. Bradley appointed Oscar Vitt. He was bellicose, fiery and tough. In 1940, he lost the pennant by a single game. Squad members couldn't stand his lashing tongue. He was fired.

2. Roger Peckinpaugh, mild and pleasant, succeeded him. He had been previously released as manager, the charge being he failed to drive his men. Bradley believed he would bring peace to the wigwam. He has not. There are still rebellions, notably Roy Weatherly's.

3. Indian castoffs seem to find themselves with other clubs. Three pitchers—Joe Dobson, Johnny Humphries and Lefty Lee—are clicking with other clubs.

4. The fans are tired of clubhouse lawyers and prima donnas. Baseball is not the toughest business in the world by a long shot. The people who have to shell out hard-earned dough at the gate object to temperamental players with lush salaries. They figure many of them might be on WPA were it not for baseball.

5. The Vitt affair is still a mystery. Why has Oscar been so mum?

What's the story behind the revolt? There is a growing belief that baseball higher-ups have muzzled Vitt to protect the Cleveland management.

Football Results

Yanks Win First World Series

The New York Yankees won the first game of the 1941 World Series from the Brooklyn Dodgers by a 3-2 score. The game was played Wednesday afternoon. All attendance records were broken at the first game of the series.

TRANSPLANTING GAME

Its aptly to see so much available forest lands, fields and thickets that would support game—and nothing in them. The Federal game authorities have been increasingly successful of late in "transplanting" game animals from districts where they are numerous to places where they are unknown, or scarce. By the use of "catch-em-alive" traps, even full-grown elk and antelope have been transplanted. Seven beavers were moved into Kentucky several years ago where none had been seen for a long time. This may not seem enough to repopulate the state, but remember that the many thriving colonies of beaver now found in New York state all came from seven-year-old beavers, which were brought there from Yellowstone Park in 1907. If you have much to hunt for, get sportsmen of your vicinity together and "transplant" some game!

Waffle Supper Honors Tuckers

Miss LaRue Norris entertained with a waffle supper at her home, 201 First street, Thursday evening, honoring their house guests, Mr. and Mrs. Marion Tucker of Albuquerque, N. M.

A series of progressive contract followed the supper menu with high regard going to Mr. and Mrs. Tucker and second high to Mr. and Mrs. Henry Richardson.

Guests present to compliment the hosts were Mr. and Mrs. E. B. Gresham, Mr. and Mrs. W. C. Hernandez, Mr. and Mrs. Steiner Mason, Mr. and Mrs. Cecil Dodd, Mr. and Mrs. Cromwell Rogers, Mr. and Mrs. Fred West, Mrs. Kenneth Pugh and Mrs. G. W. Acker.

Mary F. Crowe Is Leader Of Rainbow Girls

The Perryton Rainbow Assembly met Thursday evening in the Masonic Hall and installed new officers under the guidance of Mrs. H. C. Gresham, past Mother Advisor.

Those installed were Mary Francis Crowe, Worthy Advisor; Ruth Rogers, Associate Worthy Advisor; Jess Rogers, Charity; Nadine Entering Hope; Marcella Fritzt, Faith; Mary Francis Calhoun, drill leader; Mary Kathryn Allen, chaplain; Carolyn Conley, treasurer; Eulene Wade, confidential observer; Beth McDonald, outer observer; Margaret Jean Orrill, organist; June Lewis, choir director.

Color Stations: Arline Traux, Love; Ruby McGarragh, Religion; Dorothy Jean Crisp, Fidelity; Peggy Thomas, Patriotism; Ann Herndon, Honor; Virginia Barker, Service; Margaret Hearn, Immortality; and Mrs. F. B. Sumpter, Mother Advisor.

Mrs. Herndon Party Hostess

Mrs. W. C. Herndon very charmingly entertained friends for bridge, both Tuesday and Wednesday afternoon, in her home, 920 SW Seventh street. On each occasion dainty refreshments were served after games.

The guest list for the first party included Mesdames Claud Allen, C. L. Craig, H. C. Sanford, Earl Miller, Manse Wood, Jack Kelly, Jack Allen, Oscar Flowers, W. B. Reid, Roy Bell, Roy Orrill, F. B. Sumpter, Leroy Hartman, Virgil Castle, L. T. Tucker, Carl Ellis, Virby Conley, Omas Garrett, H. J. Boisdorf, D. D. Shanks, C. E. Woods, A. C. Whit, C. B. Rogers and W. B. LaRue.

The invited guests for the second affair were Mesdames H. A. Hawk, Esther Mason, G. W. Acker, R. P. Egan, Fred West, Quentin Williams, Charley Kent, E. B. McNett, Bill Cooper, Geo. Clennan, Glen McGibbin, Paul Harbaugh, G. L. Kengle, Lillian Norris, Vance Apple, Cecil Dodd, H. I. Hudson, H. C. Brillhart, Sona Amend, Henry Richardson and Van W. Stewart, Ralph Arnold and A. W. Blue, anadain.

High score prizes were won by Mrs. Boisdorf and Mrs. Caylor, second high, by Mrs. Craig and Mrs. McGibbin.

Clever Trick

A very clever designer's trick achieved by a swathed hip line and a fold where a jacket might end gives this coat the appearance of a suit. It has the new longer waistline, marked by a set-in belt.

Lovely Bridal Shower Honors Mrs. J. Wooster

Mrs. J. M. Depew, Mrs. Daniel Newman, Miss Opal Bollinger, Miss Edith Neufeld and Miss Jackie Enfield were cohostesses Thursday afternoon when they entertained with a miscellaneous shower honoring Mrs. Jack Wooster, the former Miss Claudine George.

Guests called between the hours of two to five o'clock in the Enfield home. Fall flowers were attractively used throughout the house. Miss Bollinger registered the callers in a lovely handmade bride's book.

Mrs. A. J. George, mother of the honoree, presided at the refreshment table. A centerpiece of orchid and yellow flowers was flanked with candles in the same colors. Coffee, dainty sandwiches and tea cakes, frosted in pastel colors were served each guest.

Good Deeds Club Met on Thursday

The Good Deeds club of the Farnworth community met Thursday afternoon with Mrs. F. P. Rogers.

The afternoon was spent in visiting and working on the club quilt.

Present were Mrs. Ezra Simpson, Mrs. Lewis Haught, Mrs. Ed Grebe, Mrs. J. M. Morgan, Mrs. Mary Fronk and the hostess.

Next Thursday meeting will be in the home of Mrs. J. M. Morgan.

Bridge Luncheon At Hotel Perryton

Red, white and blue appointments accented the charming bridge luncheon held Friday at the Hotel Perryton with Mrs. Quentin Williams the gracious hostess.

Prizes were awarded Mrs. C. B. Rogers, high score, Mrs. H. M. Sanford, second high, and high for each table which were received by Mrs. E. B. McNett, Mrs. A. C. Witt, Mrs. H. C. Sanford, Mrs. Earl Miller, Mrs. W. C. Herndon, Mrs. E. E. Perkins and Mrs. Roy Bell.

Faculty Members Met Monday Afternoon

The faculty of the Perryton Schools held an afternoon session Monday, September 29. The subject for the meeting was "Guidance." Supt. C. Wedgeworth presided, with E. D. Kelley, Otis Burk, Hedy Reeve, Miss Katherine Winkler, Miss Virginia Vaughn and Miss Eugenia Mitchell directing discussions on guidance for the students, school manners, how to elect officers and flag etiquette.

Send a Birthday Card from the Stewart Printing Co.

Baptist Missionary Met in Circles

The Shotwell Circle of the Baptist Missionary was entertained Thursday afternoon in the home of Mrs. Oscar Flowers. The Bible study was very interestingly taught by Mrs. Stanley D. Key.

Refreshments were served to Mrs. C. C. Carter, Mrs. J. C. Ebersole, Mrs. Virge Castle, Mrs. B. B. Spradling, Mrs. S. D. Key, Mrs. Robert Lawrence, Mrs. H. E. Shotwell and the hostess.

Mrs. W. B. Reid entertained the Burton Circle for a covered dish luncheon on the same afternoon.

Mrs. W. G. Parker conducted the Bible study, held after the business was disposed of.

Those present were Mesdames J. H. Stephenson, G. D. Holt, Paul Bowen, Herman Morgan, Mark Burton, I. R. Buchanan, Tom Denman, Earl Miller, G. M. Parker and two visitors, Mrs. Lee Miller of Plainview and Mrs. Ashby Shaff.

General Sosis Held Wednesday

Mrs. A. J. Kelly, president, directed the general meeting of the Sosis club which met Wednesday afternoon in the Hotel Perryton.

Department reports were heard. It was voted to allow \$5 to be sent to a maternity ward in England. The program consisted of: two saxophone selections, "Believe Me If All Those Endearing Young Charms" and "Beautiful Dreamer", Mary Jo Craig accompanied by Twila Mae Manning; two vocal trios, "Drink To Me Only With Thine Eyes" and "Till Reveille", Marcella Fritzt, Ruth Bond and Ruth Neufeld; talk, "Goodbye to the Homestead", Mrs. A. P. Spicer.

The next general meeting will be held the first Wednesday afternoon in November.

Six o'Clock Dinner Honors Birthday

Mrs. H. H. Balzer entertained with a six o'clock dinner Tuesday evening complimenting her granddaughter, Miss Gwendolyn Youngblood on the latter's fourteenth birthday anniversary.

The lovely white and pink birthday cake was baked by the honoree's mother Mrs. W. M. Youngblood, and centered the table where the following guests were seated: Jeanine Seymour, Arline Reed, Barbara June Smith, Arlette Robertson, Norma Hibbs, Patay Adams, Mary Alice Manning and the guest of honor, Gwendolyn.

Calf Transportation De Luxe

Royal Withers I, a calf who appeared in the movies with Jane Withers, has a fancy trailer for his own use while traveling. Donald Ulm provides the locomotion, performance in these engagements.

Study Group Is Organized

The Parent Teacher Study Group met Monday afternoon in the home of Mrs. F. B. Sumpter and organized the Adolescent division.

Mrs. C. L. Craig will direct the study Meetings will be held on the first Monday afternoon of each month, the first session to be October 6, 2:30 p. m. in the home of Mrs. Craig, 908 SW Fourth street. Mrs. Clennan will discuss "Our Children—What the School Makes Them?"

Light refreshments were served by Mrs. Sumpter to Mrs. Craig, Mrs. W. L. Herndon, Mrs. Claud Allen, Mrs. R. E. Bell, Mrs. Geo. Clennan, Mrs. John Gray, Mrs. K. H. Crisp, Mrs. F. H. Leatherman and Mrs. O. C. Lalleman.

The preschool division will be organized as soon as sufficient members show an interest.

West's Are Hosts Friday Evening

Friends enjoying an evening of card games in the home of Mr. and Mrs. Fred West, Friday, were Mr. and Mrs. Marion Tucker, Albuquerque, N. M., Mr. and Mrs. Cecil Dodd, Mr. and Mrs. LaRue Norris and Mrs. G. W. Acker.

The hostess serve a tasty sandwich plate after the games.

Debate and Speaking Class Organized

A debate and extemporaneous speaking class has been organized in the Perryton high school with Miss Mary Jane Hall as instructor. Officers will be elected soon.

The state question for debate will be "That the Federal Government should adopt the policy of equalizing our educational opportunity throughout the nation by means of annual grants to the several states for public, elementary and secondary education."

The winning Perryton team will be eligible to enter the Interscholastic League at Pampa in the spring. The question for debate will be the same.

Mr. and Mrs. Liel Lewellen, Borgert, spent Saturday night and Sunday visiting in the home of her mother, Mrs. F. C. Spencer.

Legion and Auxiliary Meeting, October 6

The Pierce Johnson Post and Unit of The American Legion and Auxiliary will hold regular monthly business sessions next Monday night October 8, at the Legion Hall, M. W. Truax, commander, and A. P. Spicer, adjutant, will be in charge of the Post meeting. Mrs. E. B. Gyger, president, and Mrs. R. P. Hurn, secretary, will preside at the Unit session. All members and eligible members of both organizations are urged to attend.

Grade School Chapel

Miss Vaughan had charge of the grade school chapel, Thursday, September 25. Roberta Clark presided during the program and the pupils in Miss Vaughan's room participated in a patriotic entertainment, featuring the flag. Rules regarding the flag, pledge to the flag and flag etiquette were discussed.

A mahogany serpentine front secretary on which George Washington wrote his personal letters is considered one of the finest existing pieces of American colonial furniture.

Danish chemists have developed a special poppy which has acclimated, it is reported in Industrial and Engineering Chemistry. The construction of an opium factory may follow.

A worm makes a slight smacking noise which reminds one of the dripping of water from a leaky spigot.

Business Conditions Above 1940 Throughout Nation

This map depicts current business conditions as compared with the same period last year. It will appear in the October number of "Nation's Business", published by the United States Chamber of Commerce

For the third successive month, the white map reflects business conditions uniformly above last year, due mainly to defense spending. The Barometer recorded a new high in August. However, with limitations of capacity and material shortages developing in many lines, the rate of advance was considerably slower than in the three preceding months.

Steer Clear of Mad Steer

Aid Available for Needy Children In This State

The State Department of Public Welfare announced today that it would start accepting applications for aid to dependent children at its local offices throughout the state, beginning Friday, September 19.

- (1) Must be a citizen of the United States.
(2) Must have resided in Texas at least one year preceding the date of application...

The Department called particular attention to item 4 in explaining that the program was not designed to provide for all needy children, but only those whose need is due to their being deprived of parental care and support by virtue of one or more of the specified reasons.

Death of a parent is interpreted literally, except that it cannot be said that a child is deprived of parental support if the surviving parent has re-married and the child has one natural parent and one step-parent.

Continued absence from home is interpreted to include absence that might be due to imprisonment, desertion or abandonment, or divorce.

The physical or mental incapacity of a parent is interpreted to mean an incapacity that restricts the occupational activity of a parent to such an extent that the parent is unable to provide support.

The Constitution of Texas, Article III, Section 11D, restricts payments in such a way that no more than \$16.00 can be given for one child in an eligible family, and no more than \$24.00 can be given for two or more children in an eligible family.

Stanley D. Key is back at work at the Key-Burton Electric Shop after being confined to his home with pneumonia the past two weeks.

Mr. and Mrs. R. D. Bailey, Durant, Oklahoma, spent the week-end with their sister and husband, Mr. and Mrs. R. P. Hurn. The Hurns have just recently moved to their beautiful new home, 712 S. W. First street.

Wilbur, Marvin and Seville Pank, who work in Wichita, Kans., spent Saturday night and Sunday with their parents, Mr. and Mrs. Ferd Pank. Their sister, Miss Eugene, returned with them and will spend her two weeks vacation visiting in Wichita and in Hillsboro, Kans., with her grandparents, Mr. and Mrs. G. F. Pank.

J. R. McLarty, who has operated the local dray for many years, quit his work Wednesday and left for the Shattuck Hospital, where he will have a cataract removed from his eye.

Mr. and Mrs. Geo. W. Cutter returned Thursday from a ten day vacation trip. They visited with relatives in various places including an overnight stay in New City, Kans., the boyhood home of Mr. Cutter. In Kansas City, they were guests of Mrs. Cutter's sister, Mrs. A. L. Rush, a former Ochiltree county resident and her daughter, Mrs. Ester Deffenbaugh. In Dallas, they visited their son, Mr. and Mrs. Addison Cutter and Madolyn and then with their daughter, Mrs. Miles Smith and family in Grandfield, Okla.

Mrs. Quentin Williams and children, Carl and Adela, will leave Sunday for Vega to make their home. Mr. Williams, area range supervisor of SCS, has been stationed at Vega for several weeks.

Ray Weir received word Sunday of the death of his brother, Herbert Weir of Smith Center, Neb. in a car wreck. Mr. Weir accompanied by relatives of Weir, left at once for Nebraska, and details of the accident are not available.

AUTHORS' NAMES MUST BE GIVEN TO MANAGEMENT AND THEIR ADDRESS MUST BE GIVEN. ONLY ORIGINAL COMMUNICATIONS ADDRESSED TO THE HERALD WILL BE PRINTED. OPEN LETTERS OR LETTERS OTHERWISE ADDRESSED TO VARIOUS PERSONS IN PUBLIC LIFE ARE NOT ACCEPTABLE.

Editor's note: In these days of 1941 while most of the world is at war and the United States is getting ready, let's turn back 23 years to the first World War. Here's a letter written by Roscoe Thompson, a former Ochiltree county man now living at Midlothian, Texas, to his brother W. D. Thompson.

Dear Mother, Brother and Sister: Will try to write a few lines to let you know I am still all right. Have been up to the front and over the top and believe me the 141 Inf. sure did make a good drive. We chased them back for several miles on a pretty good front too. Would like to tell you how many days I have been on the front lines but I can't. But have seen several days of what hell surely is.

We came back from the front last night to rest camp for a few days. Sure am tired, but a few days of rest will make me o. k. again. This is the first chance I have had to write since we started to the front and I will write as soon as I can, so don't be surprised if you don't hear from me for two weeks or more at a time. Guess you get more war news than I do. But my opinion is the war will be over by spring.

The Germans are good fighters, if they are having to give way. I know what it is now to hear the wounded cry out for help on the battle fields at night when help can't go to them. And have seen many a dead soldier—both American and German. All the German soldiers I have seen are old men and boys, some look to be even younger than 16 years.

I haven't got a scratch yet and have been in the thickest of it. The last letter I got from you was dated Sept. 14th. I have more

mail, but it is still with Co. K, and hasn't been transferred yet. The long letter you speak of hasn't reached me yet.

Have been lucky enough to get a Red Cross sweater, so you just keep those knitted things for me. It isn't very cold here yet. I don't think it will be any colder than Illinois weather. No, the comfort kit never did reach me. But I have all I need and can take care of.

I truly hope the war will be over before any of you boys even have to go to camp. Will use all the paper today you sent me.

We took a good many prisoners in our drive, but don't know how many, and they seemed glad to be taken prisoner too.

As ever, your son and brother Pvt. Roscoe D. Thompson, M. G. Co. 141 Inf., A. E. F.

When cooking pork chops, should one cover the pan? Yes, pork chops should be covered after the initial browning. Pork chops and pork steaks are best cooked by braising, that is, by cooking in moist heat. Therefore after they have been browned, cover the pan closely so that they may cook in the steam which surrounds them. Cook them slowly and thoroughly.

How can I keep bananas from sliding off broiling rack? To broil bananas in a lamina chop grill, place them in a pan on the rack. Put the pan on the broiler when you turn the chops after they have been browned on one half as long to cook as do the

Mrs. Tom Blakemore, Liberal, Kans., was a guest of Mr. and Mrs. John Bolen, Friday and Saturday. Mrs. B. H. Murphy left Wednesday in the home of her daughter, Mr. and Mrs. Giltner LaMaster. Mrs. Orvil Jacobs left Tuesday for Washington, D. C. where she has received an appointment as junior clerk and typist in the war department.

Mason Motor Shows 1942 Ford Friday, October 3

A distinctive frontal design sets the style for the new Ford passenger car line for 1942, to be shown in Perryton at the Mason Motor Co. for the first time Friday, October 3. A rustless steel radiator grille blends gracefully with an entirely new front contour which features a new arrangement of headlights and parking lamps. Offered in three lines—the Super DeLuxe, DeLuxe and Special, the 1942 Ford has a distinctive trim for each series of cars. Engineering improvements emphasize comfort and safety. The Super DeLuxe and DeLuxe lines are offered with either the famous V-8 or the new Ford "6" engines.

DEAR, GREEDY, FOREFATHERS

One of our conservation departments has in its possession an editorial published by a newspaper in 1854 denying the possibility of any wildlife scarcity. Forest fires illuminated the skies at night and did no harm. Twelve tons of quail were shipped to market. A shooting match was held with prizes for hunters who dropped the largest number of ducks. They should have had just this one conservation measure in those days—a law enabling game hogs to shoot each other and thus obtain the expired hunter's game too. Why didn't someone think of that?

East of Boyd

A slow drizzling rain fell Sunday and Monday. The fields are well soaked. Mr. and Mrs. John Winters called on Mr. and Mrs. Lee Schollenberger, Tuesday. Mr. and Mrs. John A. Beck of near Kremlin, also spent Tuesday afternoon at the home of their daughter and family, Mr. and Mrs. Aileen Rodgers. They returned to their home Wednesday. The Turpin school was dismissed Friday afternoon so those who cared to could attend the Liberal, Kansas fair. Mr. and Mrs. W. B. Lilly left on Wednesday of last week on a vacation trip to Dallas and points in southern Texas. They plan on being gone until November 1. Loren Allen, who is employed with the Stearman Aircraft Co., Wichita, Kans., spent the weekend with his mother, Mrs. Mattie Allen. Mrs. Tom Wolford left Wednesday for a few days stay in Cloyton, N. M. At one time the tax on salt in England was 30 times its cost.

Mr. and Mrs. J. A. King were guests from Saturday until Monday in the R. T. Correll home.

Mr. and Mrs. Henry Hudson and their son and wife, Mr. and Mrs. Brencie Hudson of Hamilton were weekend guests of Mr. and Mrs. H. I. Hudson, Henry, a brother of H. I. formerly lived in this county. Mrs. Geo. White, Miss Kathryn LaMaster and Miss Ruth Nichols, Pampa, visited in Perryton Saturday night and Sunday. Some kinds of fish have the ability to move one eye independently of the other eye, according to the Better Vision institute. Such fish can fixate one eye on an object and let the other gaze around.

Adobe Walls Indian Ceremonials

Chief Red Bird, pictured above, will bring his tribe of Cheyennes to Borger, Oct. 17-19, to participate in the Adobe Walls Indian Ceremonials which will honor Indian warriors who died in the Adobe Walls battle.

Chief Red Bird created a sensation about a month ago when he staged a sit-down strike in the Watonga, Okla., postoffice, protesting against the new murals of the Cheyenne Indians. Red Bird became very indignant and resented the paintings which he said looked more like Apaches than Cheyennes. Besides the Cheyennes, six tribes will come from Anadarko, Lawton and Clinton, Oklahoma, forming a pilgrimage never before attempted in the Southwest. Other tribes to be represented are the Comanches, Kiowas, Apaches, Arapahoes, Cad-dos and Wichitas.

Approximately 500 Indians will be brought to Borger for the celebration which will feature a two-day pageant, the evenings of Friday and Saturday, Oct. 17-18, re-enacting the battle of Adobe Walls. A big Indian parade will be staged on Saturday morning, at which time tribal chieftains, squaws and papooses will be attired in full Indian regalia.

The Indians will dedicate a Sunday, Oct. 19, at the battle site, located about 15 miles northeast of Borger.

No. 5 Continued from Front Page

singing of old familiar revival songs is a special feature of the meeting. Evangelist Fisher, son of the local pastor, Rev. William E. Fisher, comes highly recommended for his work and ability. His father is assisting with the two weeks meeting. The public is invited to attend any or all the services.

Next week, special meetings will be held for the boys and girls. Several meetings are also planned for the young people.

Next Sunday morning, October 3, several persons will be received into the membership of the church. Services for Sunday, October 5, are as follows: Church school 9:45 a. m.; preaching 11 a. m. and 7:30 p. m.; youth meetings 6:45 p. m.

Hours for the services during the revival meeting are: Tuesday, Wednesday, Thursday and Friday morning services from 10 to 11 o'clock; each night at 7:45.

No. 1 Continued from Front Page

in which only a very few can participate. Such attractions and drawings cost the merchants money. The cost is added to the merchandise you buy. Perryton merchants do not believe in just a few getting the prizes. They have found out that by passing the expense of such attractions on to their customers in the form of lower prices and higher quality merchandise, that all can share, so they are up at the Perryton Dollar Days on the first Friday and Saturday of each month.

Come to Perryton where selections are greater, quality is higher and prices lower. Meet your neighbors in Perryton Friday and Saturday.

No. 2 Continued from Front Page

lional Newspaper Week. In the first place the honor guest was not Dave Warren, it was Gov. Coke Stevenson. Most of the other honor guests were not newspaper folks, they were politicians seeking to perpetuate themselves in office with Borgerites ko-towing to them for any possible favors that they might be in position to hand out. And then instead of hearing something about the newspaper business, we had to listen to an intermittent monologue on the wonders of oil and its affiliated industries and the part Borger plays in those industries.

Well we had a big time. Started out to attend one kind of thing and ended up at another. All of which adds up to "Don't name the baby before it's born." It might not be what you think it's going to be.

No. 4 Continued from Front Page

Of the 2,210 births put on record, 1,117 were males and 1,099 were females. In this number were 30 twins and 1 set of triplets.

In the 690 deaths, 417 were males and 273 were females. Of this number 38 were premature infants, 34 were still born; 5 were suicides; 42 were accidental deaths, caused by drowning, horses, cars, burns, lightning, falls, etc.; 11 deaths were from gun wounds, 5 from train accidents, 1 from electrocution and 1 from rattie snake bite.

Noon Activity to Benefit Students

A new program or project known as the "Noon Activity" has been inaugurated for the students of the Perryton schools. This activity will be helpful on bad days when students have to remain in the building during the noon hour. Indoor games of table tennis, checkers, bingo, chinese checkers, etc., will be provided for the entertainment of students.

Miss Eugenia Mitchell, dean of women will be in charge of the high school division for this noon activity, with Otis Burk in charge of the junior high department. Hadley Reeve will have the elementary grade division.

Cost of containers, boxes, cartons, wrappers, labels and other packaging materials constitute about 22 per cent of the factory value of packs of U. S. canned and preserved fruit and vegetable industries.

If It Should Happen Here

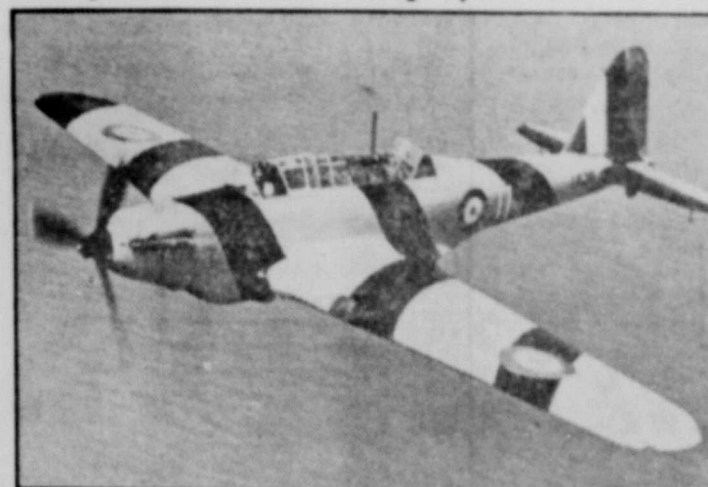

Here's how fire-fighters of the New York police department would meet an air-raid attack. They're rehearsing means of extinguishing fires at the Police Department Show at Madison Square Garden.

Field Gun Ready to Bark

Commanding a highway in Louisiana, members of a Blue Army field artillery battery man a 155 mm. field gun. The gun is ready to bark at the approach of Red Army soldiers in the nation's largest peace-time field maneuvers, and is carefully camouflaged against attack from the air.

Sharpens His Bombing Eye

Flying low over quiet Lake Erie, a Fairey Battle searches out buoy targets for the bombardier who is training at Jarvis Bombing and gunnery School, in Canada.

Youth and Farmer Benefited by CCC

Approximately 650 enrollees in Civilian Conservation Corps camps in the Texas Panhandle now are assisting farmers in establishing complete soil conservation programs on their land, according to W. E. Doner, CCC administrator for the Southern Great Plains region.

The four CCC camps engaged in soil conservation work in the Texas Panhandle, now are located at Memphis, Perryton, Floydada and Morton, the latter two recently having been moved from Littlefield and Lamesa. The average enrollment now is around 160 to the camp, while the maximum limit is 200, so this means that additional enrollments may increase the number to be engaged in soil conservation work, Doner explains.

The enrollees, working within a 25-mile radius and under supervision of Soil Conservation Service technicians, assist farmers in carrying out technical phases of soil conservation work which they cannot readily do themselves, the administrator explains. Because of the heavy demand for such assistance, preference is given to farmers cooperating with soil conservation districts.

"While enrollees in CCC camps are making a lasting contribution to the program of conserving the soil of the nation, they, likewise, are receiving benefits which should prove of great value to them in the future," Doner points out.

"Today," the administrator continues, "both the military and production phases of the national defense are calling for young men with specialized training. Millions of workers must be trained to meet the needs of industry, particularly in the aviation, shipbuilding, munitions, ordnance and automotive fields. Similarly, there is great need for young men trained in the technical phases of soil conservation, which is vital to the 'food for defense' program."

"Yet at this time there are many thousands of youths who have no training that fits them for specialized work in either the production

Hospital Notes

Charles Barnum, a hospital patient since August 22, is now able to get about on crutches and will leave Thursday for his home in Goodwell.

Mrs. D. B. Stump entered the hospital Wednesday and will undergo an operation Thursday.

Harold Carnes, small son of Mrs. Elmer Carnes, was dismissed Tuesday after four days treatment.

Mrs. Harold Simpson, Farnsworth, was a medical patient Friday to Monday.

Lon Keith, Liberal, Kans., and Oliver Martin, both recovering from appendicitis operations, are improving and able to sit up some.

Mr. and Mrs. Ernest Cook are the parents of a son born in the hospital September 29. The name, Alvin Boyd, was selected for the young man.

A son was born to Mr. and Mrs. Floyd Fike of Woodward, Okla., September 27. He has been named George Clayton. Mrs. Fike is the former, Mrs. Dorothy Freeman, daughter of Mr. and Mrs. W. M. Freeman of this city.

A son, named Allen Dale, was born to Mr. and Mrs. R. Y. Anderson Sunday, September 28.

Charles L. Cochran, Genesee, Ill., is the new assistant superintendent of the Natural Gas Pipeline Co. exchanging with A. R. Hawkins, who goes to Genesee to fill a similar position formerly filled by Cochran.

Chief source of revenue in the Balconias are the tourist trade, sponge growing, usual cultivations and the production of straw hats and baskets from this plant. Agriculture is rapidly being devoted and there is an increasing production of jewelry from tortoise-shell and sea-shells.

School Librarian Names Assistants

Party Senior and Junior high school students have been selected to assist with the work in the Perryton School library for the coming year. Courses are being directed by Mrs. Otis E. Burk, school librarian, in instructing students in the use of the library and its facilities.

Senior high students acting as assistants are Pauline Cline, Beulah Seedig, Betty Sharpe, Emma Leavelle, Maxine Rorabough, Jean Rogers, Mary Kathryn Allen, Margarette Jeane Orrill, Margaret Hearn, Marcelline Herfin, Paul Holmes, Elaine Hardy, Audrey Stump, Cleo Pate Turner, T. J. Lovett, Kathleen Brillhart and Richard Hurter.

Assistant librarians from the junior high school are: Mary Clung, Jimmy Dick Key, Nettie Brillhart, J. C. Jones, Kenneth Turner, Betty Jean Jacobs, Lola McGarragh, Helen Marie Hudson, Shannon Daniels, Coleen Epp, Jean Kutch, Mickey Edge, Lou Rose Jennings, Besse Schwab, Dwendell Alchison, Coleen Millidge, Seymour, Betty Lou Buchanan, Betty Sue Morgan, Earlene Kagan, Gene Harrison, Mary Lou Ruppert and Virginia Williams.

Many additions and improvements are being made in the library. Over 100 books have been sent to the bindery in San Antonio to be rebound and reconditioned. Orders for 58 magazines and five daily newspapers have gone forward. Party magazines are for the senior high, including professional magazines, 12 magazines for junior high and six elementary magazines. One senior high school card catalog system has also been ordered.

LETTERS FROM OUR READERS

THE HERALD WILL PRINT COMMUNICATIONS THAT ARE ACCEPTABLE TO IT. THEY MUST BE FREE OF LIBEL AND PERSONAL ABUSE. SHORT ONES WILL BE GIVEN PREFERENCE. AUTHORS' NAMES MUST BE SIGNED TO MANUSCRIPT AND THEIR ADDRESSES MUST BE GIVEN. ONLY ORIGINAL COMMUNICATIONS ADDRESSED TO THE HERALD WILL BE PRINTED. OPEN LETTERS OR LETTERS OTHERWISE ADDRESSED TO VARIOUS PERSONS IN PUBLIC LIFE ARE NOT ACCEPTABLE.

(Editor's Note—The Herald is just in receipt of another letter from E. W. (Buck) Garrison, with the Eighth Army Corps, on maneuvers near Gandy, Louisiana. Sgt. Lee C. Tucker writes his parents, Mr. and Mrs. L. T. Tucker, about his landing in the Philippines. Morris Payne, former employee of the Herald, writes the Herald staff from Honolulu. We know that our readers will enjoy these letters. We will be glad to have letters from young men serving in the United States forces.)

Sunday, September 21. My Dear Mr. Stewart:

Just finished reading September 11 issue of the Herald and was surprised to run across a copy of my own letter in it! I never thought of anything like that happening at the time I wrote you. But if you care to print them it's OK by me.

Please excuse the stationery that I'm forced to use. It's the best in the entire company. Yeah, I had to borrow it. When we started out on this big maneuver we were given strict orders to hold our luggage to a minimum, and to be sure and not wag along a bunch of unnecessary equipment, such as portable radios, cameras, your best gal's picture, etc., etc. So I decided to travel very lightly and brought

"Wedding bells will ring before long Willie will make the dough but Nellie won't bake it. She'll be like ma and order

he moved the entire regiment forward about a mile. This put our assault battalions up about 300 yards of the south side of this bayou that I mentioned above.

Well, when we moved forward the battle was on in earnest. The firing never let up all morning and our supporting artillery was laying fire all up and down the other side of that bayou, but still the enemy held their ground and we were not gaining an inch. Several times that day I would hear the Colonel talking to the General, telling him what our objective was, and each time I'd hear him tell the General that so far we had failed to "take" the two bridges across that bayou.

Along that evening the Colonel ordered a radio set and an operator to go forward with him to an observation post up ahead. Well, I turned out to be the operator that went along with him to keep him in touch by radio with the staff back at the command post. It was the first time in my life in the Army to actually get up front where one could really "smell the smoke", and see the action. And that's why I say the boys were really "playing the game" with their hearts and souls. The only way it could have been more real would be to feel the bullets and see the blood. I doubt if the excitement could run much higher in actual combat. We had a fair substitute for blood too, and that was the muddy sweat that streamed down everyone's face that was taking part in the battle of that bayou last Friday evening. Lord, Lord, but it was hot down in that bottom with trees and underbrush so thick that you could hardly walk through them.

The whole situation was that the enemy had concentrated a large number of foot troops, and medium tanks on the opposite side of the bayou from us and it was impossible for our foot troops to cross that bayou without being ruled "out" as a "casualty" by the umpires.

Our rifle fire was ineffective against the armor plates of the tanks and at the same time each tank carried one 50-cal. and two 30-cal. machine guns right on it, and can move around without any danger of being damaged by ordinary rifle fire.

Well, as soon as the Colonel looked over the situation, he summoned the support of a battalion of 37 mm. anti-tank guns and a couple of batteries of 75 mm. guns, together with the assistance of flight dive bombers. And in a few minutes, the battle was over, and we had won the decision that we'd been working for the past six days.

Then all we had to do was walk across the bridge and have a nice long chat with our "enemy". And Van, believe you me, those boys that man those tanks deserve all the credit that they can get. Imagine four men shut up in a steel tank that would hardly be big enough for you and me, the sun beaming down on the tank, and an airplane motor in there

with them to make things nice and cozy. "No, Thanks I'll just stay in the infantry". Of course, they have a couple of small electric fans but they just circulate the hot air that's inside. The only ventilation in one of the darn things is two or three slits about half inch wide and a foot long. No, Van, I still say, "It's no place for pansies". You never saw a harvest hand any hotter or any dirtier than those boys were. They had practically lived in those tanks for six days.

Another thing that thrilled me in this last battle was the new Aero-cobra Dive Bombers that the army now has. They come over high and fast (well over 400 miles per hour) then all of a sudden they start "peeling off" one at a time and go into a steep dive. He holds her in this dive until you'd swear it was done too late to come out of it. Then about that time, he pulls her up again, but just the last fraction of a minute before he comes out of his dive. Van, there's no doubt about it, that baby is fairly paying off. And if you happen to be standing close to where he makes his zoom, you'd better watch your hat because it is liable to leave you and take out after him.

Well, Mr. Stewart, my news on this end is quite limited. About the only thing I've seen lately is this "mock war", and a big lot of the time I've been, as I said, pretty well in the rear.

We have had very nice weather for the past week. No rain, and the nights are getting quite a lot cooler. I actually got a full night's sleep last night. It's the first time I've had the opportunity to "demonstrate" in about a week.

Well, I can't think of anything more that would be of interest to anyone — so I'll sign off now. Best of luck to you and my regards to all.

Sincerely, Pvt. E. W. (Buck) Garrison, Hq. Co., 38th Inf., A. P. O. No. 2, Ragley, Louisiana.

Dear Herald Bunch: Well, at last I'm reclining under a palm in the south seas, drinking coconut milk and watching the ebbside roll out to sea. We have good rice, strange and exotic smelling mixed drinks and excellent beer, so I am told. Haven't had time to try them.

Everything moves at a slow pace here and everyone seems always at ease—the climate I suppose. The temperature averages 85 degrees the year around with a slight variation at times of not more than 5 degrees.

I am on the island of Oahu (pronounced Wahoo). It is 2636 miles in size and contains in addition to Schofield Barracks, the city of Honolulu and a small village. Soldiers everywhere! They seem to come out of the very walls like termites—short ones, tall ones, skinny ones, fat ones, red heads, blonds and brunettes. BUT, NO women! Have seen two white women (nurses) in the past three weeks. Am not eligible for a pass out into the city as yet. Only like a week more. Recruit drill, very simple.

I like the army fine and Hawaii exceeds all my expectations. Saturday, Sunday and Wednesday afternoons off, and off at 3 p. m. each day. It's the life of "Riley". When I get out I may become a beachcomber. Probably more truth in that than fiction.

Twenty one dollars a month is hay. Contrary to the misguided democrats, the soldier is required to spend approximately half of this amazing sum for laundry (operated by civilians) and other necessary articles. Nobody cares though—least of all me.

Tell "Gabby" that if he waits to be drafted he will make a mistake if he thinks he will have any say on branch preference. There will be no choice. However, foreign service would be no place for anyone who has the slightest tendency to become homesick. That seems to be their main trouble here with quite a few.

Personally, I think Hawaii is the place. Am gaining weight. Have gained 8 lbs. Of course, in case of war we would be in a pickle here. If we weren't blown out of the Pacific, we probably would be sent to the Philippines.

Well, must close. Pardon the length of the letter but thought that in case any of you were interested would let you know about your former handymen. Regards, Morris M. Payne, 1118 Med. Reg., Schofield Barracks, Honolulu, T. H.

Dear Mother and Dad: The Philippines at last! We arrived here yesterday, Tuesday, September 16, after 12 days on the water from Honolulu. I was certainly glad to get back on solid ground again. The sea is alright but not in such large quantities.

We are stationed about 60 miles north of Manila in the state of Pampanga. This is the most beautiful country I have ever seen. Green vegetation everywhere. There is not a spot of bare ground to be seen anywhere. The rainfall is so heavy here—86 inches per year—that grass, shrubs, flowers and tropical plants of all kinds grow everywhere. Several varieties of palm trees, acacia, almond, bamboo and Philippines mahogany are a few of the principal trees.

Our barracks are well ventilated, being built with the eaves overhanging about four feet and the walls are only four feet high and open above that. The walls are made of woven strips of bamboo. We were issued mosquito nets last night because they say the mosquitoes here are tremendous, the I haven't seen many around. And it is not too hot here. At least the nights are fairly cool. The days are fairly hot and humid, because there is hardly ever a breath of air stirring. But even the days are not unbearable.

We didn't get to see much of Manila but what we did see of it impressed me quite favorably. Many modern business buildings and beautiful homes, broad boulevards and lots of parks and grass, trees and flowers. From what I saw, it seemed to be much nicer city than Honolulu. We docked Tuesday, September 16, at about 4 p. m. and loaded on a convoy of buses and started for Port Stotsenberg. We passed lots of rice fields, cane fields and saw a great number of water buffalo that the natives use to work their fields.

Most of the native huts are nothing but a few bamboo poles and palm leaves built about four feet above the ground because of the water which often floods the ground. From every hut window there were

live or six children hanging out. I have never seen so many small children in one place. There is a Filipino cavalry unit stationed here and also an air field—Clark Field—the personnel of which is all American. The total number of soldiers before we came was about 1,000. The 300th has a good representation here. The English struggle valiantly with the Spanish language but I can hardly understand them. They don't speak Spanish either but several Filipino dialects. But most of the Filipinos have Spanish names.

I hope to hear from you and Dad, Mother, pretty soon to learn all the news back there. And please send all letters by air mail and clipper plane as by boat it takes forever to get any mail here.

I must close now to be able to get this letter on the postage clipper. By the way the postage here on this letter is 1 peso or 50 cents in American money, so it is probably just as well that a letter takes so long to go from here to the U. S. A.

Love to both of you, Sgt. Lee C. Tucker, Btry A, 300th C. A. (A.A.), Port Stotsenberg, Pampanga, P. I.

Strictly Fresh YOUNG women of today have to be world-wise and home-wise," comments Miss America of 1941. Which proves you can be beautiful without being dumb.

Scrapy Leo Durocher, Brooklyn Dodgers manager, thinks being a Dodger doesn't include dodging a chance to fight an umpire.

Silk importations from Japan are limited, but apparently there's no restriction on the number of notes Prince Konoye may exchange with the President.

NOTICE TAXPAYERS

House Bill No. 76, passed recently by the Legislature and signed by the Governor, releases all penalty and interest on State and County Ad Valorem Taxes, both real and personal, that were delinquent before July 1, 1940.

If you have any such delinquent State and County Taxes, you may take advantage of this complete interest and penalty remission NOW by paying—

ALL TAXES DUE

If a lien holder wants to pay all the delinquent taxes on the property on which he holds a lien, it will be necessary for him to pay a penalty of 5 per cent, unless all the taxes on all other property owned by the taxpayer, both personal and real, are paid at the same time. The above rule also applies to the owner of the property.

THIS LAW EXPIRES NOVEMBER 1, 1941

The usual penalty will be collected on delinquent taxes for 1940, and must be paid to clear.

Under the Penalty Remission Bill, all penalty and interest are released if all delinquent taxes are paid.

Your 1941 State and County Taxes may be paid after October 1, 1941 with a discount of 3% during the Month of October, 2% during November and 1% during December. No Discounts allowed during January, 1942.

WASHINGTON WEEK

All-American, Soup to Smokes

BY RALPH HERBERT

WASHINGTON—Here is a little puzzler for the American housewife:

If you were asked to produce an All-American dinner, what would your menu be?

By "all-American" we mean foods that were not known to the world before the lands of the Western Hemisphere were discovered. We mean foods that the Indians of this hemisphere discovered and cultivated and which the European explorers brought back to the Old World.

Well, here is the answer: Tomato juice. Roast turkey. Corn on the cob. Baked squash. Lima beans. Sweet and Irish potatoes. Pies made of blackberries. Ditto of huckleberries. Ice cream flavored with vanilla.

Ice cream flavored with chocolate. Salted peanuts and pecans. Cigars and cigarettes.

The Indians of North and South America, except the Aztecs, were not much on writing history—or writing much else for that matter—but they certainly made history when, patiently and persistently, they experimented with various wild plants, domesticated them and found they were good to eat.

There are countries in northern Europe today whose people would go hungry if it were not for the potato, and other countries in southern Europe whose people would be in the same boat if it were not for corn.

And men and women all over the globe would find life not half so agreeable if they missed their smokes. The wonder about the weed is not so much its spread, but the vast variety of kinds of tobacco that have since been developed—the fragrant Turkish, the cigar wrapper from Sumatra, the heavy burley of Kentucky, the alluring cigaret material of North Carolina and Virginia, just to mention a few.

Strictly Fresh

THE war will be over before Senate sub-committees can finish investigating the movies, radio stations, newspapers, magazines, lecturers, columnists and whippersnappers charged with trying to get us in it.

The new 1942 cars are so beautiful that a lot of people who bought in 1941 for fear of a coming shortage will be eager to trade again, thus producing a real shortage.

The war in China must be progressing favorably for the Chinese. Madame Chiang Kai-shek has sent an expedition into the foothills of the Himalayas to find a new giant panda for the Bronx Zoo, instead of sending troops to rustle up Jap invaders.

To remove oil stains from concrete, such as a garage floor, etc., mix one-half pound of oxalic acid (poison) in 1½ gallons of water and add enough wheat flour to make a paste; apply with a brush, leave on for two days, then remove it with a scrubbing brush and clean water.

Whether dried, liquid, or frozen eggs are used in baked goods, the unqualified term "eggs" is usually used on the label.

quor prescriptions during the of August this year and e were 484 drug stores with s in effect during August last with 1,184 physicians writing prescriptions, while this year mber of drug stores has been d to 121, and there are 95 at physicians, with an addi- 130 having applied for per-

SUNDAY SCHOOL LESSON

Reaping Fruits Of Victory

The International Uniform Sunday School Lesson for Sept. 28
Text: Revelation 21:1-7, 10-12, 22-24.

OUR last lesson was one of victory, but many things remind us that what is ultimately more important is what happens after victory. Within our own time we have seen a world war won, and the nations that won it losing the peace because they failed to reap the true fruits of victory.

In this lesson we come to the fulfillment of history in the achieving of all that victory makes worthwhile. It is a glorious picture that the saint-prophet-poet who wrote the Book of Revelation paints for us in his description of the New Jerusalem.

IT is instructive that the writer represents the Holy City, the New Jerusalem, as "coming down." In his conception there is to be an earthly realization of God's triumph; it is not merely a matter of earth ascending toward heaven. For those to whom the author of the book was writing, even with their Christian faith and fortitude, the world was a place of sorrow and trial. Yet God was to wipe away the tear from every eye; there would be no more death, no more mourning or crying. Instructive also is the fact that the seer saw no temple or church in the Holy City. The city itself had become the Church. All of life in this New Jerusalem was holy.

IT is a vision that has been realized in the lives of some men. There are those who have lived unselfishly and nobly in the spirit of a world made perfect. If it has been realized for some, is not this the hope that it may be realized for others and that earth and heaven shall yet truly meet in the New Jerusalem? If the whole of humanity were as good as some good men whom we have known, the dream would be realizable.

Set He Killed It with a Bottle

News item: "Fisherman kills hawk with his fishing rod when bird attacked him while fishing." The paper even had evidence, it said. Maybe so. After all, it's quite possible. There's just one little point we're worried about. Perhaps there were snakes in that country. Maybe the fisherman wanted to make sure he was protected by taking a little snake medicine in advance. The more he took, probably the scarser he got. Presently a fly buzzed at him and he swung at it with his rod.

Christian Science

"Unreality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 5.

The Golden Text is: "All that is in the world, the lust of the flesh, and the lust of the eyes, and the pride of life, is not of the Father, but is of the world. And the world passeth away, and the lust thereof; but he that doeth the will of God abideth for ever" (1 John 2:16,17).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Blessed be God, even the Father of our Lord Jesus Christ, the Father of mercies, and the God of all comfort who comforteth us in all tribulation, that we may be able to comfort them which are in any trouble, by the comfort wherewith we ourselves are comforted of God" (II Corinthians 1:3,4).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Suffering, sinning, dying beliefs are unreal. When divine Science is universally understood, they will have no power over man, for man is immortal and lives by divine authority" (page 76).

Lutheran Church

H. M. Daenner, Pastor

10:00 a. m. Sunday School
11:00 a. m. Service
The celebration of Holy Communion and the quarterly meeting have been postponed for a week to permit members to attend the Mission Sunday at Hooker.

The sermon for Sunday will be based on Matthew 12:1-8, which treats of the subject of ceremonialism.

You are cordially invited to come and attend any or all services.
H. M. E. Daenner, Pastor

KEEPING TRACK

Don't let anyone kid you when it comes to how big certain cat tracks were they saw in the dim light of a full grown bob-cat averages from one and one-half to two inches in length. A mountain lion's track measures about four inches long.

Red is an invisible insect, and ultraviolet are invisible to the eye.

Pictured here is mass production of Avacobra fighting planes moving down the assembly line at Buffalo, N. Y., where \$75,000,000 worth of these machines are being manufactured for the U. S. Army.

Defense Taxes Effective on October 1

Taxable Items Illustrated by An Imaginary Trip

WASHINGTON, Sept. 27.—Take the case of Citizen Jones—one of those who will help bear the extra \$846,800,000 annual tax burden which will fall next Wednesday on articles ranging from wine to washing machines, from perfume to pianos. The new taxes, provided under the record-breaking \$1,531,400,000 revenue bill enacted recently, might affect Citizen Jones this way:

Mr. Jones takes a late vacation and has to pay 5 per cent more on his railroad ticket. He arrives at a resort and is charged 5 per cent extra every time he takes his wife to the roof garden for dancing and drinks.

And, because the liquor tax is increased from \$3 to \$4 a gallon, he will pay more for his drinks. If he orders wine, he will pay higher taxes, but if he is satisfied with beer there will be no increased tax.

May Pay to Light Cigaret
Picking up some trunks for his wife in the room, surely shop might cost Mr. Jones a 10 per cent tax on jewelry. If he wanted a tennis racket or a set of golf clubs that would be another 10 per cent.

Cigarets will not cost him any more, but, because of a 2-cent-a-thousand tax on matches, he might have to pay for his light.

If he decides to buy a new car and drive home he will pay a 7 per cent tax on the car, a levy of 5 cents a pound on the tires and a 9-cent a pound impost on the tubes. And a \$5 annual tax on the car will go into effect next February.

Deciding on his return home that he needs a new radio and refrigerator, Mr. Jones will pay a 10 per cent tax on each. Should he want to buy his wife a piano, a bottle of perfume or piece of luggage he will pay 10 per cent tax also on

GLAD THEY WEREN'T TURTLES!

Just about the time you decide that this old world is going along fairly rational and that you know a few things after all—something smacks you on the chin so hard you fall back in the old rut of believing black is white and white is yellow.

Latest shock to the uninformed fisherman is that the white or silver bass is a true bass all right, but the large and smallmouth bass are not—they belong to the sunfish family.

Perhaps It's Air Raid Precaution

Trappers from over the South tell us that opossums seem to be deserting their hollow trees for ground holes to an increasing extent. Ten years ago it was something short of a believe-it-or-not to find a possum denning up in the ground. Maybe the war has them scared, too.

CITATION BY PUBLICATION

The State of Texas
TO: Temple Mounts GREETING.
You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock a. m. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 10th day of November, A. D. 1941, at or before 10 o'clock a. m. before the Honorable District Court of Ochiltree County, at the Courthouse in Perryton, Texas.

Said plaintiff's petition was filed on the 24th day of September, 1941. The file number of said suit being No. 656.

The names of the parties in said suit are: J. E. Mounts as Plaintiff, and Temple Mounts as Defendant.

Phone Bill to Go Up

The telephone bill will go up 4 per cent on local bills and 10 per cent on most long distance calls—and a new typewriter will invoke the 10 per cent tax on business machines.

If Mr. Jones is a laundry operator he will have to pay 10 per cent more for his washing machines, but he could buy one for his home without the tax. A safe deposit box will cost him 20 per cent of the rental price, and belonging to his club might bring on the 10 per cent levy on club dues of more than \$10 annually.

The movies will cost more, too, because the new bill puts an approximate 10 per cent tax on all admissions costing 10 cents and more. If Mr. Jones shoots a game of pool or spends a half-hour in a bowling alley he might pay a trifle more because of the annual \$15 on bowling alleys, billiard and pool tables.—Amarillo News-Globe

PRETTY GOOD ARMY AT THAT

Did you know that more than twelve million apartments in the United States have bought fishing lures in a single year? It is said that approximately this many more do not have to buy lures for one reason or another. How does that save anybody to play golf and hoe the garden?

— RETURNING TO CONDUCT HEALTH

HEMOVITAMETER
MONDAY - TUESDAY - WEDNESDAY
OCTOBER 1-2-3
A regular \$5.00 Examination for \$2.00

We are pleased to announce to the public that we have secured Dr. Kunkle to return to Perryton for three days each month at which time he will conduct a health clinic. In September when Dr. Kunkle was in Perryton it was impossible for him to see all the patients that called on account of the time he had. We urge that you make an appointment ahead of time, thus enabling Dr. Kunkle to see all who care to have this examination made.

Dr. O'Dell Ryan

SOUTHEAST TEXAS-PANHANDLE AND WESTERN OKLAHOMA FARM AND RANCH NEWS

The Best Farmers

Austin, Texas, Sept. 30 —Buying power equal to that of the best years of the '20's can be expected this year by Texas farmers, a University of Texas business statistician predicts.

Forecasting a total farm cash income of more than \$700,000,000, Dr. J. A. Buechel, associate director of the University's Bureau of Business Research, looked for continued high prices during the remainder of this year.

Forecasting the value of the farm's dollar, he said, are such factors as (a) lower costs of merchandise, (b) scaling down of interest rates on farm mortgages, (c) government-operated farm credits, and (d) extension of rural electrification.

Added to all the foregoing factors are the vast improvements which have taken place in the state's transportation system, both rail and highway, the benefits of which are being shared by the farmers in common with all citizens of the state," he explained.

Property is not shared uniformly throughout the state, however, he pointed out, citing abandonment in the state of 8,000,000 acres of land, including Texas land, or 50 per cent of the total acreage in the state.

Wise Planning Stops Food Waste

COLLEGE STATION, October 1 —Homemakers have responded enthusiastically to patriotic appeals for being frugal with aluminum, tin cans, and other household equipment made of materials needed for the national defense.

They can make an equally great contribution by stopping food waste, says Louise Bryant, Extension Service specialist in home management. Today, home and family thrift is a basic step in the nationwide movement to conserve all of this country's food resources, she says.

One of the best ways to stop waste of food is planning . . . long time planning of production of food on the farm, planning for storage arrangements in the home, careful planning of meals for a week or several days rather than for one day at a time, and planning for food buying.

Wise shoppers not only take a list to the grocery store, but they also can stop waste by studying labels on packaged products and knowing government grades. Miss Bryant also urges homemakers to be "scale checkers." It's thrifty, she says, to make sure the butcher puts in all the fat trimmings with cuts of meat for these can be used in cooking.

There is also plenty of opportunity for waste in the cooking and serving of food. Many homemakers peel potatoes improperly. Many throw away the outside leaves of lettuce or cabbage as a matter of habit. And there is waste in lemons or oranges only partially squeezed and in carelessly scraped melting bowls.

Directly or indirectly poor cooking is responsible for lots of food waste. For example, when meat is improperly cooked at too high temperature, it shrinks more than is necessary, which means fewer servings per pound.

The most important factor in building a remodeling a corn crib is to make it permanently rat proof. The best results place it on piers with an underneath clearance of two and one half feet or more.

AAA TO GET NEW BUILDING

Construction work has started on a new three-story building to house the Agricultural Adjustment Administration State Office on the campus of Texas A. and M. College. Pictured above is the architect's conception of the new building which will be completed in about six months.

HOME DEMONSTRATION CLUB NEWS

Missouri Club To Meet With Lovett

The Missouri Avenue Home Demonstration club will meet Friday afternoon, October 10, in the home of Mrs. W. L. Lovett, 2:30 p. m. Miss Elizabeth Huffhines, county demonstrator, will discuss small accessories for the living room. Visitors are cordially invited.

Missouri Ave. Club

"Flowers growing inside add to the beauty of the home," stated Mrs. Fred Huston to the Missouri Home Demonstration club at their meeting in the home of Mrs. Eton Lawrence on Friday afternoon, September 26.

The easiest method of propagation of house plants is by cuttings. They always come true while seeds may appear in any variation. The coleus is the easiest of all house plants to propagate. If you wish to experiment, try planting some coleus seeds. You may get some strange varieties that you will want several cuttings from.

Several reports were given and there were a number of business items. The club voted to accept the recommendations of County Council.

Visitors were Mrs. G. D. Holl, Mrs. Harold Hawk and Mrs. Ivan Lovett. Members present were Mesdames D. D. Shanks, E. W. Witt, W. L. Lovett, J. S. Slaughter, Albert Ackley, Fred Huston, C. O. Roach, and the hostess, Mrs. Albert Ackley, reporter.

McMillen H. D. Club To Meet October 9

Mrs. Harvey Urban will be hostess for the McMillen Home Demonstration in her home Thursday afternoon, October 9, two o'clock. Visitors are welcome.

Perryton Club

"Your club must have your whole hearted support and cooperation if it is to be a success," Miss Elizabeth Huffhines, county home demonstration agent, told the women of the Perryton Home Demonstration Club at their meeting Wednesday, September 24, in the home of Mrs. R. C. Reeder, with Mrs. Delta Davis assisting with the hostess duties.

As the meetings are held in the homes, one should, for courtesy sake, notify the hostess if you expect to attend so that she may make her plans accordingly. If you asked to take part on the program by the program chairman, do not expect her to prepare your part for you. Study the year book before attending the meeting so that you will be familiar with the program.

Mrs. Curtis Roach was present and gave an account of the County Delegates' trip to Beaumont and Houston. Mrs. Lake Patton gave a demonstration on how to start cuttings from house plants.

Those present included Mesdames D. K. Baumann, W. M. Dull, B. B. Lee, W. L. Philpaw, Lake Patton, J. L. Wagon, Curtis Roach, W. M. Boston, J. E. Mullins, and Miss Elizabeth Huffhines and the hostesses, Mrs. Reeder, and Mrs. Davis. —Mrs. Lake Patton, reporter

McMillen Club

The McMillen Home Demonstration club met with Mrs. J. L. Bryan on September 25, two o'clock. Mrs. W. E. Tandy of the Notia club gave a very interesting report on her trip to the state convention in Beaumont. Mrs. Fred Tarbox, council delegate, gave a report.

Others present for the meeting were Mrs. Norman Crum, a visitor, Mrs. B. L. Barnes, Mrs. Harvey Urban, Mrs. Willis Hardy, Mrs. Ellis Matthews, Mrs. B. E. Plummer, Mrs. James Hardy, Mrs. R. E. Matthews Jr., and the hostess, —Mrs. Willis Hardy, reporter.

The United States ranks second to Switzerland in the use of milk per person.

COUNCIL NOTICE

Roll call for County Council of Home Demonstration Clubs which is to be held in the courthouse Saturday afternoon, October 11, 2 p. m. will be a report from club delegates as to the action of their club on the recommendations given at last Council meeting. Mrs. Claud Crouch is president of the County Council.

Notia Demonstrator Makes Her Report

"I have canned one hundred twenty quarts of vegetables out of my garden," stated Mrs. Walter Atwood. A few quarts of every product I had planted." Mrs. Atwood had so much from her garden that she gave an abundance to her neighbors such as green beans, tomatoes, cucumbers, beets and new potatoes. Beside vegetables, her garden produced cantaloupes, watermelon and a nice patch of peanuts. —Mrs. Earl Schwalk, reporter.

Perryton Club to Meet Wednesday, October 8

The Perryton Home Demonstration Club will meet in the home of Mrs. J. L. Wagon, Wednesday, October 8, 2:30 p. m. Miss Elizabeth Huffhines, county demonstrator, will have charge of the program, speaking on "Small Accessories for the Living Room." Mrs. Delta Davis will discuss "The Art of Being a Gracious Hostess."

All members are requested to bring or send to this meeting their donation of two cans of food for the Boys ranch.

Texas Hog Shipments Gain During August

Austin, Texas, Sept. 30 —Hogs made the only gain recorded in livestock shipments from Texas to Fort Worth stock yards and out-of-state markets during August, the University of Texas Bureau of Business Research reports.

Shipments of swine gained 9.7 per cent over August, 1940, to total 749 carloads.

Total livestock movement dropped 5.6 per cent, to 5,399 carloads, made up of 2,680 cars of cattle—down 6.5 per cent; 1,040 cars of calves—down 16 per cent; and 930 cars of sheep—down 0.1 per cent, in addition to hog shipments.

For the first eight months of 1941, however, total shipments are off less than 1 per cent from the first two-thirds of 1940, and totaled 46,430 cars.

Laying mash for hens is a combination of feeds which are high in protein and other ingredients essential for keeping the birds in good health as well as producing the maximum number of eggs.

Food Stamp Plan For Okla. Counties

Food stamp has been approved for Beaver County and other counties in Oklahoma according to telegrams received by the editors of newspapers in the counties affected, from Ross Rizley, eighth district congressman of Oklahoma.

H. H. Hubbard, editor of Beaver Herald-Democrat, received the following telegram on Tuesday of last week: "I am glad to announce that Beaver County has been included in Food Stamp plan. Preliminary details to be worked out immediately." (Signed) Ross Rizley."

The Herald-Democrat states: "This announcement came as a result of eight months effort on the part of Rizley, county commissioners, and others, who believe in the benefits of the Food Stamp Plan."

"Any person or persons receiving state or federal aid, including pensions, may buy from five to twenty-five dollars worth of blue food stamps. The purchaser is then given an equal amount (in purchase value) in orange food stamps.

"Blue food stamps can be used to purchase whatever food he needs. However, orange stamps may be used only to purchase surplus commodities, a list of which is available at every grocery store in the country."

A five percent solution of zinc sulphate in the treatment of animals for pink eye has given encouraging results in trials at the Angleton sub-station of the Texas Agricultural Experiment Station.

ANGLER'S TERMS

FISHING CAMP—A place to play poker, eat half-cooked food, and fight insects. Happy parties have been spoiled by erratic individuals who insisted on fishing. Favorite camp motto is "Fish and visitors smell after two days."

GUIDE—A conservationist in disguise. He takes you fishing "where they ain't," and encourages you to come back "next week" when the water is lower, or higher, or clearer, or wetter.

ROD—A sporty name for a "fish-pole" costing over \$5.00. Rods are sold by weight—the lighter the rod, the heavier the price. Like knights

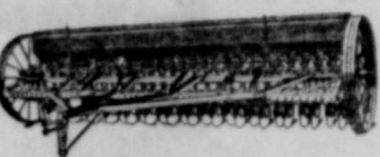

of old, who splintered their lances, fishermen strive to have a fish break their rod—an event of great distinction.

SINKER—A weight that keeps your hook and bait on the bottom for good. Sponsored by fishing tackle companies as a tackle sales booster. In the rocky river bottom below Lake Austin, in Texas, there are so many sinkers that engineers are worried lest level of the river be affected, which would throw water over the 50 ft. cliffs and flood the city of Austin. ONE OF THE WORLD'S SEVEN RAREST SIGHTS: To see a sinker again after casting into a brushy lake or the rocky bed of a river.

EVEN SOWING means EVEN GROWING

There is a lot of truth in the old saying, "even sowing means even growing."

You can be sure of even, accurate work when you use a new McCormick-Deering Grain Drill for your seeding. Even sowing is a result of many McCormick-Deering features: accurate feeding mechanism; all-steel construction; large-capacity hoppers of heavy-gauge, rust-resisting steel containing

copper; strong, cross-braced main frame, and dust-proof bearings in the axle boxes to give light draft.

Place your order now for a new drill and be ready for a good job of seeding.

McCORMICK-DEERING GRAIN DRILLS PERRYTON EQUIPMENT COMPANY

ADDITIONAL Profits FOR THE STOCKMEN USING LETZ MIXED FEED MAKER

GRIND FEED CORRECTLY

It pays to be particular, to grind feed the way that feeding trials prove correct. To granulate instead of pulverize. To offer all classes of stock feed free from injurious powder. You'll soon see a difference. Feeding trials prove correctly ground feed is much more profitable. A Letz grinds feeds as you want them. It will pulverize, but much more important, it will granulate, too. It makes feed uniform. No construction defect prevents it from preparing feeds correctly.

GRIND WHEN YOU WANT IT

With animals on feed, your Letz is always ready, no matter the kind of weather or the condition your roads are in. At any time, it quickly grinds a supply of fresh, palatable feed, that's eagerly eaten with relish.

Stock will receive greater benefit from the feed that is ground properly and will eat it all but when not ground will leave the stalks or coarse part of the fodder to go to waste.

It's better to rely on a Letz—have ground feed when you want it and ground the way you want it.

SAVE MONEY AND WORK

The Letz soon pays for itself, it—Grinds feed better, increasing livestock returns. Grinds feed cheaper—saves expense. Stops hauling expense and inconvenience. Grinds and blows the feed where wanted in one operation. Overhead storage and gravity system for ground feed saves much work. No wonder a Letz pays for itself the first season.

Material for Rapid Transit

If it's true that armies travel on their stomachs, then Uncle Sam's boys should really push ahead judging from this supply of corn, cabbage and carrots piled up in the quartermaster's depot.

SHOOT HER THE BACON

As in many other forms of life, the female of the chigger family is more deadly than the male. She burrows under your skin whenever she gets a chance. Then she lays her eggs and promptly expires. The larva feeds and fattens on your flesh. This raises itching bumps and the more you scratch, the more it itches.

If you want to embarrass the chiggers, get some hyposulfate of soda, which photographers use as fixing agent, mix into a liquid solution with water and rub it on your

Sheets folded occasionally in different places when ironed will last longer.

legs. Chiggers run from it. The same solution, if you have already been bitten, will kill them. Solutions of salt water, soda or ammonia are also said to help.

Bats catch mosquitoes and other insects by means of an ingenious trap formed by a web of skin between hind legs and tail, according to *Natural History* magazine.

The smallest buckwheat crop on record—5,767,000 bushels—was produced by the United States in 1939.

Slow Up!

By RUTH TAYLOR

Do you remember the carpet laying examples in your old arithmetic and how you stumbled and puzzled over them until you finally learned that you had to allow something for the stretch?

In solving the problem of living in these days of stress and strain—we are going to have to do just that—allow for the stretch.

There is too much to be done, so many ways in which we want to help, that there is danger in overcrowding our lives, in taking on too much, in cramming our hours so full, that we make a fetish of being busy and are so continually haunted by the hands of the clock that we don't do justice to anything we tackle.

Slow up! Plan your time so that there will be enough stretch to your day to take up the delays and unforeseen emergencies that will arise, no matter how wisely you plan. Do what you can. See to it that you do it thoroughly and as well as possible, but don't try to do the things you can't. And don't try to crowd everything into one day.

It is conceded that we have not done enough in the past, that we are in arrears on defense and in straightening out our own national local and personal economy. We have years of negligence to make up—and precious little time in which to do it.

But—we can make haste best by going at an even pace, filling our time to the brim but not overflowing. Make time by giving up some of the non-essentials, not by adding to an already full schedule.

Leave time for living—for thinking—for recharging the batteries of your spirit. Each and every one of us is needed in some definite activity for the welfare of this democracy to which we owe allegiance—but we are needed strong in body, clear in mind, and courageous in spirit. And we cannot be these three if we run on nerve alone.

These be perilous times and they may be worse. The strain and stress will continue, unless a miracle happens, and demand of us a hundred per cent efficiency. Let us therefore prepare for such a call by coordinating ourselves and conserving our energies, working hard—but at all times allowing for the stretch.

Do the best you can and trust in the goodness of Divine Providence for the rest, remembering the words of the Prophet Isaiah: "He that believeth shall not make haste."

In the Service of Our Country

Following is a directory of patriots from the Perryton area that are now serving in the armed forces of the United States. Relatives and friends are requested to furnish the Herald with names and addresses, also changes in address. We want to make this directory complete. Let's do not miss a single boy or girl.

WHAT AN IDEA!

Look fellows, let's get this started! One of our large eastern cities is conducting a campaign to open its fishing pond for youngsters in each of the city's parks. The idea is to stock them with pan fish and allow only kids under 16 to fish. The NYA is supposed to supervise the fishing and teach the youngsters sportsmanship.

This is the best idea we've heard in a long time. Every city, town and village should have this. Why not get the sportsman of your town together and see what they think?

Vegetables best for drying are sweet corn, mature beans and peas, and sweet potatoes.

Somebody sick? Send them a "cheer" card from the STEWART Printing Co.

Missing Baby

Six-months-old Catherine Fisher, above, vanished from in front of the Glendale, N. Y., store where her mother left her while she was inside shopping.

DOG-GONE SMART DOG

Edward Rowe, a farmer, writes that he has a mighty smart dog. While driving a cow to pasture Mr. Rowe was overcome with heat and nearly fainted. Mr. Rowe said that his dog ran to a nearby creek, jumped in and hurried back to shake water on him.

PANHANDLING MUSKRATS

The Panhandle region of Texas is supposed to be the driest non-desert region in these United States—yet, on one ranch alone trappers harvested 600 muskrat pelts last year. Sometimes we decide never to be surprised at anything anymore.

Social Security Offers Benefits

There may be somebody in your neighborhood who is entitled to payments of old-age and survivors insurance, and who does not know that such payments are available. Dewey Reed, manager of the Amarillo office of the Social Security Board.

Therefore, if you are concerned about the needs of any family who recently lost its breadwinner, you may be doing it a favor by advising some member of the family to call at the Social Security Board's office and talk about a possible claim for benefits. A representative of our office will be glad to investigate the matter and if any member of the family is entitled to file a claim for insurance payments, he will assist in preparing the necessary papers. There is no charge for this service. The Social Security Board office is located in Room 324 of the New Post Office Building, Amarillo.

Continuing his discussion of claims, Reed stated that in the Amarillo field office area there are 173 men and women who have reached the age of 66 and who are

This WAS a Home!

Now it's a Heartache!

Instead of a warm, comfortable home to look forward to this winter, this unfortunate family must try to salvage what they can—and start all over. During National Fire Prevention Week, check over your home—make sure it is safe from fire. And, very important, see to it that it is adequately insured by a reputable company.

We're Working With Uncle Sam—Selling Better FOODS To Develop Healthier Americans!

THE FUEL NEEDS OF THE BODY ARE TAKEN CARE OF PRINCIPALLY BY:

- Starches—bread, potatoes, rice, macaroni, cereals, etc.
- Sugars—sugar, honey, desserts, molasses, syrup, jellies, fruits, etc.
- Fats—butter, cream, animal fats, vegetable oils, chocolate, etc.

The building materials are supplied by meats, poultry, fish, eggs, cheese, nuts, gelatine, fruits, vegetables, etc.

The regulating and protecting materials are supplied mainly by fresh vegetables, fruits, milk, eggs, whole grains, etc.

Not only must one or more of the foods in each one of these groups be included in each days meals, but they should be included in the proper proportions.

Safeguard American Health With Good Food

Bryan Food Store

It's National

FIRE PREVENTION WEEK

OCTOBER 5th To OCTOBER 11th

FIGHT FIRE

Before It Starts

It's Our Biggest Enemy!

Since time began, fire has been a constant source of comfort—and disaster. It has protected us from the cold—and it has put us out in the cold. It is a helpful thing—and it is a dangerous thing. The lesson National Fire Prevention Week strives to put across is one of respecting fire's ability to destroy. The amount of damage done by fire each year would equip us with the much-talked about Two Ocean Navy. If fire worked only as our friend, hundreds of lives would not be lost and untold misery would be obliterated. But fire respects no laws!

During National Fire Prevention Week do your part to wipe out fires by preventing them. Don't take chances. Don't do cleaning with dangerous fluids. Don't attempt amateur electrical work. See to it that your home is not a fire-trap. Join in the drive against fire.

Again

Registrants Must Notify Board of Address Change

Registrants under the Selective Training and Service Act must promptly notify their local board of any change of address or become liable to severe penalties provided by the Act.

General Page said he had been advised by National Selective Service Headquarters that many cases of delinquencies investigated by the Department of Justice have been due to carelessness of registrants concerning their duty to report changes of address.

It is the policy of the Selective Service System, General Page stated, and of the Department of Justice which is charged with enforcement of the Act, to take action in those cases where there is willful intent to violate the law.

Registrants are, therefore, urged to notify their local boards immediately of any change of address to avoid being reported to the United States District Attorney as a delinquent.

General Page also emphasized that registrants who are expecting to be called into a branch of the armed forces to which they have made application should notify their local boards and report all developments in connection therewith.

Americans Neglect Dental Health

"Nothing in recent years has more graphically called attention to the seriousness of the American dental health problem than the present defense crisis," said Dr. Geo. W. Cox, State Health Officer.

"The figures of the National Draft Board show that dental defects rank first as cause for rejection of draftees. Nineteen and one-half per cent of young men examined at army induction centers are rejected because of dental defects.

"Since the health of a community is a community problem, the aid of all civic and welfare organizations in the community should be enlisted to carry out the program of dental health.

Defense Industries Train Farm Youth To Take Important Part in Production

BY DAVID A. STEIN

THE nation's best defense workers are farm boys who never saw the inside of a factory. Just as corn fields have blossomed into new and shiny plants, so too have farm boys developed into defense workers.

Long before brick and steel were put together to house new jigs and dies and machine tools, personnel men studied the problem of educating new workers to use them properly.

Detroit, sprawling, crowded, busy center for the production of tanks, trucks, aircraft parts, guns and engines, employs thousands of young defense workers.

Briggs Manufacturing Co., makers of airplane wings in a new plant which has mushroomed on a circus lot, is typical of the new type of defense plant.

Outer wings are loaded on trains for delivery to aircraft plants. Young Americans make wing flaps, doors, and more than 70 different duct parts for Boeing Flying Fortresses at the Briggs plant.

Outer wings are loaded on trains for delivery to aircraft plants. Young Americans make wing flaps, doors, and more than 70 different duct parts for Boeing Flying Fortresses at the Briggs plant.

Because they have shown themselves particularly adept in this work, women are employed in putting fabric on trailing edges and touching up wings.

their first jobs, make more than 100 different complete airplane items for the U. S. Army and Navy.

Considered one of the most important functions in the Briggs plant is an extensive training school, where 900 men will be in training constantly.

For 60 days, students are taught mass production methods and learn how to handle the delicate hand tools needed for airplane production.

Although 11,000 men in the Briggs automobile body plants will be out of work because of curtailment of car production, only 3000 will be employed in the expanding aircraft division.

that airplane manufacturing is exceedingly different from motor car making.

One reason why farm boys fit so well into the defense workers' shoes is that they have developed mechanical and technical inclinations through work with farm machinery.

Part of the educational program developed for the thousands of new workers finding employment in defense industry, is morale building and instruction in elimination of waste materials.

Detroit manufacturers warn that there is danger in a general influx of farm youth to city factories, because of the difficulties incident to the change-over from a peace-time economy to a war-time economy.

Nevertheless, as in World War I, it's going to be harder and harder in the coming months to keep the boys down on the farm.

A youthful craftsman welds a leading edge section for a Vought-Sikorsky wing which Briggs is turning out in volume. Here, automobile spot welding methods are applied to lumber production.

The present pattern of medical organization has neglected farmers in rural areas, T. Swan Harding, scientific editor of the U. S. Department of Agriculture, charges in a national magazine.

CITATION BY PUBLICATION

THE STATE OF TEXAS—To R. C. Robinson GREETING: You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 3rd day of November, A. D. 1941, at or before 10 o'clock A. M. before the Honorable District Court of Ochiltree County, at the Court House in Perryton, Texas.

Said plaintiff's petition was filed on the 3rd day of September, 1941. The file number of said suit being No. 632.

The names of the parties in said suit are: Maye Robinson as Plaintiff and R. C. Robinson as Defendant.

The nature of said suit being substantially as follows, to wit: Suit for divorce by plaintiff in which plaintiff alleges that she and defendant were married August 21, 1939, that they lived together until October 15, 1940, when by reason

of the cruel and harsh treatment of defendant toward plaintiff, she was forced to abandon him, since which time they have not lived together. That on October 5, 1940, defendant became intoxicated and struck plaintiff and bruised her and at various times cursed and abused plaintiff all of which conduct was without cause on the part of the plaintiff; that said marriage relations still exist; that such conduct on the part of defendant is of such nature as to render their further living together insupportable. Plaintiff prays for judgment dissolving said marriage relations for restoration of her maiden name, to-wit, Maye Howell, and for such other relief to which she may be entitled.

Issued this 16 day of September A. D. 1941.

Given under my hand and seal of said Court, at office in Perryton, Texas, this 16 day of September 1941.

(SEAL) IRVIN R. BUCHANAN, Clerk District Court, Ochiltree County, Texas

S. S. C. Convention At Blue Mound

A Sunday School Convention will be held in the Blue Mound country church on Sunday afternoon, October 5, beginning at 2:30 o'clock. A number of near-by Sunday Schools will be present and each have a part in the afternoon's program. Special music will be given and subjects discussed which will be helpful in improving Sunday Schools.

The public is invited and urged to be present. —Miss Groesenbach, superintendent Blue Mound Sunday School.

Two Forfeit Club Salary Last Week

Two elections were held last Saturday by the Community Service Club, sponsored by The American Legion. Doyle Hannah was elected as president on the first ballot, for the \$25.00 salary. Mrs. E. W. Thomas was elected on the second ballot for a \$25.00 weekly salary as president. Both persons failed to qualify as they had not paid their current dues.

The salary for this week's president will be \$50.00. If the person elected in the first election has not paid dues, then a second election will be held. In the second election, the president's salary will be \$25.00. Elections are held each Saturday at the Legion hall.

All proceeds of the Community service club are used in local welfare work.

LEAN MEAT

Before skinning rabbits or squirrels, dip the animal in cold water and the hair will not fly or stick to the meat.

But five lynchings took place in the United States in 1939. Three of the victims were Negroes. There were 19 kidnappings as compared with 37 in 1938.

'BETTER LOOK OUT, NOW'

Sawfish's Saw, Swordfish's Sword

There is no quick, clear definition of the difference between a sawfish and a swordfish in many sportsmen's minds, especially those who know little of salt water fish. There are great differences in the fish themselves and the sawfish's saw has a row of teeth along either side while the swordfish's sword has none.

The Library Corner

Among the new books of fiction at the Public Library is one of particular significance—Stella Benson's "The Far-away Bride". This novel, first published in 1938, was revived in 1941 as the work of one who "wrote delicately and truly and does not deserve to be forgotten."

Clifton Padiman, in his foreword explaining the selection, says of it: "The Far-away Bride is one of the tenderest and funniest books of its decade. But if it were only of its decade the Readers' Club would not be called upon to re-publish it. It has certain qualities of wit and insight that preserve it, and, though on the surface it deals with two families of White Russian refugees in Manchuria and Korea during the 1920's, in reality it is dateless. It speaks for itself in several different dialects, as you will find."

"As a love story it is original; as a study of character it is unique; and as the vivid repository of the most delicate fun and humor it deserves and will have a long life. Suffy-voiced critics will say that its savor is too fragile for appreciation by any but the elect."

"As one who does not believe in the theory of the elect, and as one who feels that the obscurity into which the book has fallen is a matter of accident only, I prevailed upon my colleagues to join me in re-issuing this small masterpiece in which the sweet and the acid are so perfectly blended."

The many fans of Kathleen Norris will be glad to hear that her latest book, "The Venables", is now waiting for them at the library. Willie Venables, the heroine, married twenty years before the story opens, is left a widow with six growing children to support. Her story and theirs bring out two eras in American life, with the usual deft touches of Mrs. Norris' appealing style which has endeared her to millions of readers.

The Harper prize novel of 1941-42, "Marriage is a Private Affair" by Judith Kelly has also just been received at the library. Among the many novels which have explored the frailties and strength of modern marriage, this one's theme is so representative of common experience that it will strike home to every reader. The book is an extraordinary performance for a young writer—mature and clear-eyed in its understanding of human beings and the impulses which move them to unpredictable actions.

In Japan, during police examinations, sometimes taking years, applicants are not permitted to take baths.

Work of Perryton Writers Exhibited

A close-up of the work that Southwestern writers are doing is being offered by the exhibits of the literary departments of the 1941 Tri-State Fair, which opened in Amarillo Monday. Two Perryton writers were among the winners announced Sunday.

The winning poems, short stories, articles and sonnets are in place at the literary booth in the school building. Mrs. Clifford Beck placed third in Western Historical feature division. Mrs. L. M. Buchner won first place in Short Metrical Poem division.

Physical Exams Improve Health Of Registrants

"Consult your doctor and your dentist to correct any remediable physical defects before you are called for examination by your local boards," General J. Watt Page, State Selective Service Director, urged all Texas registrants today.

Calling to attention that statistics compiled by National Selective Service Headquarters show a high rate of rejections of registrants for remediable physical disabilities, General Page suggested that registrants awaiting call for military training should endeavor to fit themselves for acceptance not only as a patriotic duty in a period of national emergency, but also in the interest of public health as well as for their own personal well being.

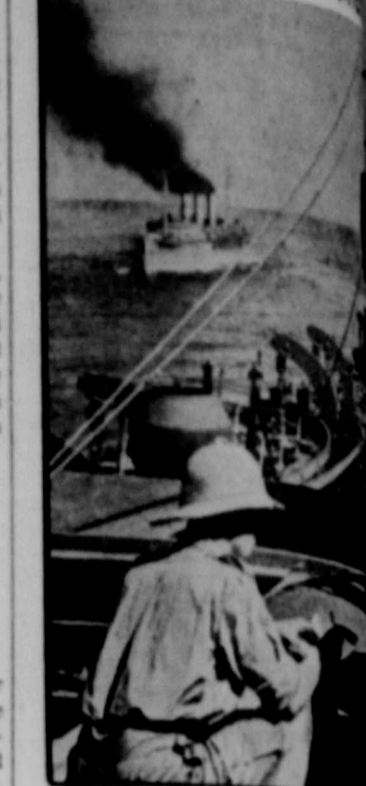

"Many of the men rejected by local boards," the Director said, "are turned down because of defects which clearly are remediable. If registrants will consult their personal physicians and dentists before they are examined by local board physicians they will have an opportunity to learn of their disabilities and have them corrected."

Even though registrants are convinced that they will not be called by local boards for examination in the near future, General Page pointed out that correction of their ailments now will go a long way toward improving their own lives and bettering the general health of this State.

Personal physicians and dentists should be consulted by registrants, he advised, because they are in an excellent position to recommend the proper course of treatment and to advise the men where they should go for medical or dental treatment.

Adventures of THE TOTTIES

(READ THE STORY, THEN COLOR THE PICTURE AND PASTE IN YOUR SCRAPBOOK)

The acrobats were tiny men, they loudly yelled "Hello" and then

The Mystic Man said "Watch their tricks. They'll whirl each time my finger clicks."

"All right," wee Duncy cried. "Let's go! I want to see how much they know. Say, I was in a circus once And I know lots of clever stunts."

One man, then, with apparent ease, Hung from the tree limb by his knees. Another shouted, "Watch me jump!"

My friend will catch me. I won't bump."

The next thing that the Totties knew, The men did what they said they'd do. For 'bout a half an hour or so, All of the men swung to and fro.

The Mystic Man cried, "Zicky Zoo! Change back to blackbirds, all of you."

Then Duncy said, "I guess that I Will pass my little stunting by."

The Mystic Man said, "You are slick. I think I'll make you do a trick." What happened gave the bunch a scare. Wee Duncy turned into a hare!

NEXT WEEK: Duncy gets into serious trouble.

Canyon School Paper First

CANYON (Special)—A signal award in the field of international high school journalism has recently been awarded The Eagle's Tale, school publication of Canyon High School.

Quill and Scroll, international honorary society for high school journalists announced this week that The Eagle's Tale had received the International Honor Award. Judges of this year's service acted under the auspices of the Merrill School of Journalism.

Entries for school with allotted enrollments ranging from less than 200 pupils to more than 3,000, were sent, the Quill and Scroll Achievement Scale last spring to be filled out and returned by May 1 with three copies of second semester papers and three copies at least six months old.

The Canyon publication scored 900 points out of a possible 1,000 to be considered a paper of superior achievements. Other awards, all of a low class, are the International First Place award for papers of high achievements, the International Second Place Award for papers of substantial achievements, the International Third Place Award for papers of fair achievements and Fourth Place for papers with low achievements.

Such qualities as selection of material, quality of writing, treatment of material, mechanics, proportion of students engaged in journalism, responsibilities of the staff, editorial achievements and advertising were all recognized as superior.

The Eagle's Tale is published as a page in the canyon News and was edited the first semester of last year by E. W. Woods, Jr., now attending West Texas State College. Clarence Eugene Thompson, a junior, was managing editor and Stuart Condon, a senior, was business manager.

During the second semester Clarence Thompson edited the sheet with James Thomas Harp as managing editor and Gordon Lynn Dickerson as business manager. Miss Dorinda E. Bond, now an instructor in the Amarillo school system, has sponsored the paper and taught journalism for the last three years here.

Next year's staff will be headed by James Thomas Harp as editor, Dan Cabe as managing editor and Clarence Thompson as business manager.

This is the first time such an award has been received by a school in the Panhandle and is as high as an award that high school journalism affords. —Amarillo News-Globe.

People eat about the same total quantity of food now that they did 30 years ago, but less cereals, potatoes, beef and less. Consumption of citrus fruits, sugar, poultry, eggs, chocolate, coffee and fresh vegetables has increased.

For 1942—a Beautiful

FOR

"6" OR "8"

IN THESE UNUSUAL TIMES we invite you to inspect an unusual new car—new in its beauty, its comfort, its choice of two fine 90 horsepower engines, 6 cylinders or 8.

See it and you sense at once that here is new style that will stay good for years. On a lower, wider chassis, we have designed new long, low, wide and modern lines.

Interior treatment is entirely fresh, distinctive, pleasing. The beauty of this Ford will more than hold its own in any company.

Inside, the car is big—wide across the seats, generous in knee-room, leg-room, elbow-room. On the road this year you find the "new Ford ride" still further advanced in its softness, quietness, steadiness and all-round comfort.

At the wheel, you will find driving easy. Steering, gear-shifting, action of the hydraulic brakes have all been made easier.

In quality, the car is sound to the bone. Defense requirements have all been met. A single reduction in the basic cost of the Ford mechanically. Some of the old ones, usually at a cost of \$100, have replaced old ones, usually at a cost of \$200, in every case the new is better than the old.

If your family needs a new car, get this Ford. For what it is today and for what it will be through the years ahead, we believe it is more and better transportation money than you have ever found before.
