

38 Building Sites In Sunrise Housing

Construction of new homes in the Sunrise addition in the eastern part of Stratford was started this week. John Knight and Herbert Folsom are opening the new residential addition with the cooperation of the Brown Construction Co. of Lubbock, represented locally by Cy Brown.

The new residential housing area has been approved by the City Council and will provide approximately 38 building sites. The minimum size lots are 70 feet wide and 140 feet deep.

The streets in the new addition will be paved, sewer lines installed in the alleys, and utility connections will be made available.

Contracts have been let for two new homes in the Sunrise addition. One will be the home of Mr. and Mrs. Dale Knight of Stratford. He is engaged in farming. The other will be the home of Mr. and Mrs. Andrew Hamel. Hamel is an employee of the Carter Livestock Trucking firm which is establishing headquarters in Stratford.

Any priced home may be erected in the new housing area. One section will be restricted for brick homes and the other section is being reserved for less expensive homes.

Cy Brown states that his firm will aid home owners in planning, financing and building their homes. His 25 years of experience in this field will be supported by a professional home decorator who will aid in the home building project.

In addition to the two new homes being built in the new Sunrise addition by the Brown Construction Co., which is completing the home of Mr. and Mrs. Conrad Riffe in the northwestern part of Stratford, they have also started construction on lots near the Riffe home for a home for Mr. and Mrs. W. N. Jackson.

In his opening announcement, Cy Brown stated that his firm would build homes on lots in any part of Stratford although he and his crew came to the city for the primary purpose of helping to develop a new housing unit in the Sunrise addition.

COLLINS WEDDING PARTY INVOLVED IN TWO CAR WRECKS

Lost Purse Found

A purse containing \$107.00 in cash and several papers belonging to Mrs. Fred Andrews of Junction City, Kansas, was turned over to Deputy Sheriff A. L. Wilson Monday night by two Stratford boys who told him they found the purse in the bar-pit along U. S. highway 54 just west of Stratford.

Mr. and Mrs. Andrews were here November 20, enroute to Sunland, California, for a visit with their daughter and other relatives. Mrs. Andrews said she left her purse in the restroom at the Consumers Co. The couple had driven but a few miles west of Stratford when they discovered the lady had forgotten her purse.

When they returned to the Consumers station, the purse was missing from the rest room and attendants at the station were at loss to explain how it had disappeared as they did not recall other guests at the station. Mr. Andrews said he noticed two men and two women parked in an old pickup near the rear of the station.

Deputy sheriff A. L. Wilson attempted to overtake the pickup which was thought to have driven northeast on U. S. 54. A pickup answering the description was not on the highway.

Mr. Andrews is a retired railroad worker. He told A. L. Wilson that they had to count their dollars to live on their pension and after the loss would not be able to continue their trip. He asked aid in cashing a check to secure money for their return home. After viewing the identification papers of Mr. Andrews, Wilson called Leon Guthrie, who cashed a check for them to continue their trip to California.

Monday night deputy sheriff Wilson notified California relatives of the couple that the purse had been recovered as well as the \$107.00 it contained.

Stratford Prepares For Christmas

Stratford is preparing for Christmas this week as decorations start going up and a wide variety of Christmas merchandise is being placed on display by local retail merchants.

Santa To Visit Stratford

Santa will visit Stratford some time during the month with candy, nuts and fruit for every child in the territory. The treats have already been secured by the Stratford Lions Club, the Sherman County Farm Bureau, the Stratford Fire Department, the American Legion and the Sherman County Wheat Growers.

The day for the distribution of the Christmas gifts by Santa Claus and his assistants has not been set.

Mr. and Mrs. Curtis Collins and daughter, Sherrell, were involved in two accidents Sunday evening as they were returning home from attending the wedding of their son, Gayle, in Windsor, Missouri.

and Sherrell were in the lead car in heavy traffic in a blinding rain storm about 10 miles east of Eldorado, Kansas. Immediately following them was a couple from Wichita, Kansas. Mr. and Mrs. Gayle Collins were riding in the third car in the line of traffic.

As the lead car drove over a slight incline he looked down on flashing red lights on the highway. A mock Civil Air Patrol rescue practice was being executed to save survivors from an imaginary wrecked plane. Mr. Collins applied his brakes and his car lost speed rapidly. The brakes on the car driven by the Wichita couple did not hold, and their car plowed into the rear of the Collins car.

A Kansas highway patrolman and a wrecker were called. After the reports were made, the traffic line started to Eldorado. An unidentified family took the lead. Mr. and Mrs. Gayle Collins were second in line. Mr. and Mrs. Curtis Collins drove the third car. They were followed by the wrecker towing the car of the Wichita, Kansas couple. The Kansas highway patrolman brought up the rear.

The line of traffic was moving along nicely until a truck approaching from the opposite direction, drove through a lake of mud, plastering the windshields of all of the cars in the line of traffic. The lead car managed to stop. Gayle Collins rolled a side window down in time to see the front car and stopped. The Curtis Collins car windshield and windows were covered with mud. He slowed his car but not in time to prevent crashing into the rear of the car in which Mr. and Mrs. Gayle Collins were riding.

The Curtis Collins car, damaged from both front and rear collisions, was towed to an Eldorado garage. The wedding gifts being carried in both cars were stored in the Curtis Collins car and Mr. and Mrs. Collins and Sherrell, Gayle, and his bride, returned home in the newlyweds car.

Curtis Collins drove to Eldorado Monday and brought home the wedding gifts.

Pipeline Cos. Are Responsible For Pipelines

Pipeline companies are responsible for lowering or moving pipelines from locations in public right-of-ways at their own expense, it was ruled this week by Attorney General Will Wilson. The pipeline companies are also responsible for moving and relocating the lines when necessary for construction of highway improvements, the attorney general further ruled.

A dispute had recently developed in the county as to whether or not the pipelines should be lowered or moved at the expense of the pipeline company or at the expense of the county. Costs of several thousand dollars were involved in the dispute which involves current paving improvements in precincts one and three.

AMEN

The best kind of pride is that which compels a man to do his best even though no one is looking.

ELECTRIC BASEBOARD HEATING—

nearest thing to the
sun's natural warmth!

Gentle, constant warmth — like the warming rays of the sun — but never sudden gushes of hot air followed by cold blasts. You'd like electric baseboard heating for that kind of comfort alone.

But there are still more advantages: warm floors without drafts — separate temperature control for each room — no loss of floor or wall space.

Your Public Service manager enjoys talking — about electric heating. Ask him how you can put baseboard heating in add-on rooms as well as new or older homes.
