Dobbs Resigns Post As Science Teacher In Ozona Hi School

E. M. Dobbs, science teacher in Ozona High School for the last four years, resigned last Saturday to go into private business in Muleshoe, Texas.

Mr. and Mrs. Dobbs and son Freddie, who would have been a senior in Ozona High this year, have been living in Muleshoe this summer and expect to move there within the next few days.

The loss to the high school faculty was the second in as many weeks, R. K. Wimberley having resigned as shop teacher last week to accept a position in the Austin schools.

Reports last week that J. A. Pelto, High School principal, had been discharged from the hospital were premature as Mr. Pelto was still in the hospital last Friday. 15-YEAR-OLD BRIDE OF FEW MONTHS ADMITS SLAYING OF HUSBAND IN RANCH SHOOTING

Gloria Lara Arrested At Neighbor Ranch 13 Miles Away

A 15-year-old bride of a few months sobbed out her story of the fatal shooting of her 18-year-old husband Monday evening in a pasture near the Early Baggett ranch headquarters, 12 miles south of Ozona, to investigating officers following her arrest early Tuesday morning at a neighboring ranch 13 miles from the scene of the shooting.

Gloria Gomez Lara, 15, told officers she and her husband, Reynaldo Lara, Jr., had an argument "over boy friends I had gone with before our marriage." She shot him with a small automatic pistol which she had secured the day before from her father's pickup. Her father, Santiago Gomez, worked on the Baggett ranch as did Lara.

Young Lara's body was found lying face up in a pasture about 100 yards from the ranch headquarters about 7 o'clock Tuesday morning by Jose Gomez, uncle of Mrs. Lara, also employed on the ranch. Gomez had gone to search for Lara when the latter failed to show up for breakfast.

After discovering Lara's body, the two Gomez men instituted a search for the young bride, who was missing at the time. Officers were notified and the search that followed led to the Chester Kinley ranch, about 13 miles from the Baggett ranch, where the girl had sought refuge. Her legs were scratched indicating that she had walked across country, but otherwise her condition was good.

After making a signed statement before County Attorney Dixon Mahon, Mrs. Larra suffered a nervous collapse and was taken to the Crockett County Hospital where she is being held under guard for observation.

Meanwhile, officers are continuing their investigation of the circumstances of the shooting, the county attorney said.

Lara had been shot in the lower back with a small calibre bullet. Condition of the body indicated the shooting took place early Monday evening.

In her statement to officers, Mrs. Lara said she did not intend to kill her husband but fired only to scare him. He had taken her wedding and engagement rings from her finger and stomped them out of shape, she said. The bent rings were found in the house occupied by the couple at the ranch. After shooting her husband, the girl ran from the scene and wandered through the rough country the rest of the night, reaching the Chester Kenley ranch, 13 miles across country, about 9 o'clock Tuesday morning.

She was brought to Ozona by Game Warden Bun Carpenter who assisted Sheriff Billy Mills, Deputy Von Parker and Ranger John Woods of Midland in the investigation of the shooting. Justice of the Peace A. O. Fields went to the scene early Tuesday morning and held an inquest.

Authorities face three alternatives in dealing with the 15-year-old girl accused of murdering her husband, County Attorney Dixon Mahon said. She may be held until she reaches the age of 18 and tried as an adult; she can be tried as a juvenile and probated to a responsible adult or she can be convicted and sent to the girls' reform school at Gainsville.

The fact that Crockett county does not have facilities to care for female prisoners, and especially juveniles, complicates the problem of dealing with the accused young wife. A hearing will be held as soon as the young girl recovers her composure and a decision on disposition of the case made, Mr. Mahon said.

Funeral services were held at 5 o'clock Wednesday afternoon from the Catholic Church for Reynaldo Lara, Jr., the shooting victim. He is survived by his parents, Mr. and Mrs. Reynaldo Lara, Sr.; a brother, Arturo Lara, and two sisters, Mrs. Elisa Trujillo and Sylvia Lara, all of Ozona. Burial was in Cedar Hill Cemetery.

Lightning Kindles Blaze In Ranch Home Of Joe Couches Mon.

Lightning is believed to have caused a fire in the attic at the ranch home of Mr. and Mrs. Joe Couch five miles west of Ozona during the thunder storm which visited Ozona and vicinity Monday morning.

A butane gas line and an electric line crossed in the attic and lightning on the electric line is believed to have jumped to the grounded gas line, burning a hole in it and igniting the gas.

Had not members of the family discovered the blaze immediately it would have been out of control in a few more minutes, Mr. Couch said. He had seen fire playing on the electric line during the storm from the barn and when smoke was seen coming from the attic he cut off the gas and electricity and put out the blazing rafters with his ranch sprayer and garden hoses.

THE TYRANNY OF TAXATION

The House Ways and Means Committee has tentatively vetoed Cancellation of a provision of several years standing which makes the first $50 of divident income exempt from the individual income tax, and provides a four per cent tax credit on any remainder of such income. It also has approved a plan for a withholding tax of 16⅔ per cent on dividends and interest payments.

Many authorities continue to doubt the wisdom of the withholding scheme. It would inevitably involve a great deal of expensive bookkeeping and record-keeping, and would work a hardship on large numbers of people in small income brackets. At least there seems to be majority agreement that the divident exclusion and credit provisions should be retained — and there are cogent arguments in favor of them being increased.

The reason for this is that divident income is the only form of income subject to double federal income taxation. Profits are first taxed at the 52 percent corporation rate, and any remainder distributed to the owners is then taxed at the individual's income tax rates, ranging from a bottom of 20 per cent to a high of 91 per cent. The existing law simply provides a modicum of relief from this manifestly unjust situation.

Supporters of cancellation of the credit have said that the law as it now stands is of principle benefit to wealthy stockholders. President Keith Funston of the New York Stock Exchange pulled the rug from under that argument in a recent statement. More than half of all shareowners have total annual income of less than $7,500, and at least 3 mlilion small-income people are relieved of all double taxation by the $50 exclusion. The many, not just the few, get the benefits. Regardless of numbers, double taxation of income represents a principle that can have one end — injustice and oppression.

Garden Reminders

From Garden Club Reporter

Start saving materials now for your dried arrangements. Dry them carefully so the foliage will be in good condition.

This month is the last call for pinching chrysanthemums. Deep watering is still necessary if the dry weather continues.

Summer annual plants may be set out to replace any that have become diseased or straggly. There is time for another crop of zinnias or marigolds etc.

Everything needs a little feeding now. So much watering has taken the minerals out of the soil. If leaves are turning yellow, use superphosphate plus some source of potash. Consult your merchant

Now is a good time to start your vegetable garden.

Don't forget to dry your choice plants for winter arrangements.

"KEEP YOUR CREDIT AS GOOD AS GOLD"

The above slogan suggests the value of credit in our country's economy, for credit is one of the reasons why the United States has the world's highest standard of living – why its people enjoy so many of the good things of life.

Credit CAN be as good as gold, if we all strive to meet our local obligations on time – by the 10th of the month – or as agreed by the merchant and his customer.

Good sound credit risks are the "life-blood" of merchants and suppliers who are ever striving in this competitive world to give the best to their customers. Then it behooves all who are customers in this land of ours (And who is not a customer?) to give the best in return–prompt payment of these obligations.

Today is the Tenth! Stay high on the "totem pole" of credit rating by keeping your credit – "AS GOOD AS GOLD."

Notes From The County Agent's Office

By Pete W. Jacoby

This is the season when many outings seem to end with at least one case of poison oak or poison ivy. It is imposible to completely eradicate these plants, but they can be cleaned out from around the home and outbuildings. George McBee, extension pasture specialist, says the way to control these plants is to use sprays.

Digging up the plants is not always satisfactory because new ones may grow from the remnants. It is also very likely that the person removing the plant would come in contact with them and end up with blisters, skin irritations and other undesirable effects.

One of the most desirable sprays to use is amino triazone, says McBee. This spray can be used around ornamentals but should never be sprayed on desirable plants or trees. It is generally used at the rate of three tablespoons of schemical per gallon of water, but if the manufacturers directions are different, follow them. Another chemical that can be used aaround ornamentals and other desirable plants is Ammate. When using this chemical care should be taken to spray only the poison ivy.

Combinations of 2,4-D and 2,4,-5T can be used, but they may not be as desirable because of the drift hazard. There is danger of their drifting onto desirable broadleaf plants and killing them, McBee warns. All precautions should be followed when usnig this combination spray.

Regardless of the spray used, it is important to get thorough coverage of the poison plant. Wet the leaves, because the materials are taken in through the leaves and transferred to the roots in a killing action. Also spray when the plants are growing rapidly.

nounced their intentions of trying for the team. They include Bobby Tabb, Robert Cox, and doubtless several others who have just moved here since school was out or who have not previously announced their intentions.

Coaches Fred Hickman, Sonny Cleere, Chick Womack, and Brooks Dozier are attending coaching school in San Antonio this week, but coaches Hickman and Cleere will be returning Friday to get their squad checked by a doctor before beginning the two-a-day workouts.

Despite the lack of players, the Lions could have a pretty good first unit if one or two of the newcomers come through, and if injuries can be avoided, but the schedule does not look promising.

The Lions open their season in McCamey on Sept. 1 then follows Coahoma, Stanton, Bronte, Rankin, Sanderson, Sonora, Big Lake, Junction, and Eldorado. The Lions will play Stanton, Bronte, Rankin, Sonora, and Big Lake at home taking on the other five on the road.

The re-planting of the grass on the football field this spring seems to be now making good progress and with the first two games away the field is expected to be in good shape in time for the home opener.

HOMECOMING ECHOES!

Mrs. W. J. (Bill) Grimmer (Nan Davidson) send a note with renewal check — "Bill and I followed Homecoming plans with tears in our eyes. It would have been wonderful to be a part of Ozona's history that is still such a big part of our happy memories."

The Grimmers were among the exes missed at the Homecoming. And Bill missed receiving his gold basketball from Coach Houston Smith of the 1915 championship OHS basketball team. Or maybe he received his "late" — by mail.

Principals, Coaches To Work Mon. To Ready School Opening Plans

Principals, high school football coaches, and band director return to work in the Ozona public schools Monday as the 1961-62 year nears its opening date.

The job of scheduling, assigning duties, and checking all preparations and new materials for the coming year will take place in the next two weeks, along with plans for receiving new teachers and the incoming pupils for the fall semester.

Reports from Minnesota indicate that J. A. Pelto, high school principal, will not be in Ozona until the first of September or after depending on his recovery from a recent illness.

Football coaches Fred Hickman and Sonny Cleere will begin two-a-day practice sessions Monday as will the high school band.

High school students who were in school here last year were pre-registered for the fall term last spring, leaving only new students in the Ozona schools to be registered this fall.

High school enrollment, which was expected to take a big rise this year, will apparently be up some, but not nearly as much as previously expected.

Predictions of elementary and junior high school enrollment were that they might be up some from last year's beginning but not on a par with the record breaking enrollment two years ago.
