Are They Bad For Youth?

Police Chief Leon Yeager, left, County Attorney Frank Ginzel, center, and Deputy Sheriff Lewis Claxton look over "samples" taken from local magazine racks as the county attorney checks legalities to see if certain magazines can be banned from sale here.

## 40 'SAMPLES' PICKED UP

## Magazines Target for County 'Legal Study'

ALMOST 40 DIFFERENT magazines disappeared Tuesday from store racks in Colorado City and Lorraine.

County Attorney Frank Ginzel requested dealers to "cut back" their orders for the magazines after county and city authorities said the publications were "questionable."

And the county attorney reported Thursday he was studying possible legal action against distributors of the magazines and to prevent their return to local newsstands.

GINZEL, DEPUTY Sheriff Lewis Claxton and Police Chief Leon Yeager visited 10 newsstands in Colorado City, picking up "sample" copies of magazines at nine of those stands.

The county authorities reported "samples" were taken also at one stand in Lorraine.

The county attorney said the trio looked over the magazines on display racks to consider if they might be "corruptive to the morals of youth." Those considered by the trio to be in that category were taken as "samples."

It is a "clean up" effort, all three said, to remove publications that might wrongly influence the youth of the community.

"We just checked every magazine rack in the county," the county attorney said, "and picked up samples of publications, we thought needed to be studied."

ONLY ONE magazine stand in Colorado City, the county attorney said, did not have a single publication on display that was considered questionable by the three officials.

The samples picked up were catalogued and placed in special envelopes. Receipts were issued to store owners for each sample taken, Ginzel said.

Among the publications which the officials picked up were Sensation, Q. T., Inside Photos for Men, Modern Man, Night and Day, Peril, Escapade, Frolic, Bachelor, Gala, Bold, Ace, Swank, Good Photography, Man to Man, Dude, Sir, Mr., Pose.

Also, Man's Life, Mermaid, O. K. for Men, Jem, Your Romance, For Men Only, Man's Illustrated, Gent, Playboy, Sir Knight, Stag, She, Scene, Adam, Nugget and a copy of the paperback novel, Mandingo.

GINZEL SAID a representative of an out-of-town firm, which distributes magazines here, was in contact with the county attorney's office after the magazine pickups began.

The county attorney said he had been studying the magazine See MAGAZINES, Pg. 5

## Farmers Need 1,900 Nationals For Crop

### Peak Labor Shortage Builds Up

A shortage of 1,900 workers was forecast here Thursday for the peak period in Mitchell County's cotton harvest.

And the peak is rushing the calendar at least 10 days ahead of previous estimates.

The forecast means that approximately 1,900 Mexican Nationals must be imported into Mitchell County to pull this year's crop.

In fact, with only about 250 Mexican Nationals in the now, fields Mitchell County cotton farmers already are being pinched by a short labor supply as they seek to hurry their cotton to gins for best market prices.

Maps Drive

Rev. Clarence Collins, pastor of First Methodist Church, has the assignment as chairman of the general solicitations division in Mitchell County United Fund's annual campaign.

### FOR UNITED FUND

## Collins to Lead Largest Force

Largest volunteer work force in Mitchell County United Fund's 1959 campaign will move into action here Oct. 21.

If their efforts meet with cooperation from the citizenship, then they will be finished with their job within three days.

And the overall campaign to raise \$27,855 for United Fund's 1959 budget will be a long way toward "home."

Directing this largest group of volunteers will be Rev. Clarence Collins, pastor of First Methodist Church and immediate past president of Colorado City Ministerial Alliance.

His appointment to chairman of the general solicitations divisions of United Fund was announced Thursday by Roy Bates, 1959 United Fund campaign chairman.

Collins' group of workers will include more than 100 volunteers. Their job will be to contact prospective donors to United Fund who are not included in advanced, special or employes divisions of the campaign.

The general division isn't a big money division so to speak. Last year, it accounted for \$2,317.33 in pledges and cash donations.

This year, it will be expected to provide upward of \$3,000 for the 1959 budget that will provide funds all next year for nine deserving and worthwhile agencies.

That figure is only about one-ninth of the overall goal. But the general solicitation is important for two main reasons: (1) it spreads out into all local areas to allow just about every citizen an opportunity to participate in the United Fund campaign, and (2) without this widespread support, the United Fund program would falter and fail.

Collins and his volunteer workers will go into action Oct. 21. They hope to complete a whirlwind drive Oct. 21, 22 and 23.

Each worker in the general division will be assigned solicitation cards for approximately five prospective donors.

### THREE COUSINS DIE

## Tragedy Strikes For Third Time

Tragic death struck a Latin American family for the third time this year Monday when little Juan Lujan Jr. drowned in Colorado River.

The seven-year-old boy jumped into the water at "Round Rock" swimming hole at the west end of W. Sixth St. at about 4:45 p.m.

He was never seen again until Volunteer Fireman Wilford Oyler lifted his lifeless body minutes later from the river.

Juan, the son of Mr. and Mrs. Juan Lujan, was the third cousin to meet unexpected death in accidents here in five months.

Only a few weeks ago, Aug. 30, his five-year-old cousin, Juan Madrid, choked to death with a toy balloon. The Madrid child's father, Jesus Madrid, is a brother to Mrs. Lujan, mother of the drowning victim.

And just at the turn of summer, May 21, Louis Lujan, two-year-old son of Mr. and Mrs. Santiago Lujan, was fatally injured when struck by a car.

The Lujan fathers are brothers.

Juan Lujan Jr. Monday had gone to the river swimming site with two other boys, Samuel Martinez, and Ray Garcia.

His two companions ran from the scene after the boy disappeared in the water. They summoned aid at the Safeway Store on Oak St., several blocks from the river.

Firemen rushed to the scene and Oyler discovered the boy as he waded in three or four feet of water.

Artificial respiration was administered, but a doctor pronounced the boy dead 30 minutes later.

Final rites for the drowning victim were conducted Wednesday at 4:30 p. m. in St. Ann's Catholic Church by Rev. Thomas Quinlivan.

Burial was in Mitchell County Cemetery.

The boy, born here Aug. 16, 1951, is survived by his parents, five brothers and four sisters.

### Richards Completes Recruit Training

Wesley Q. Richards has been visiting his parents here, Mr. and Mrs. Lloyd Richards, 1515 Watson, after being graduated from recruit training at Naval Training Center in San Diego, Cal.

He completed his nine weeks of "boot camp" Sept. 13 in a full dress parade and review before military officials.

### FARM CREDIT OFFICIALS

## Board Here for Two-Day Meeting

Farm Credit Board of Houston and the presidents of their banks arrived in Colorado City Thursday for meetings here Friday and Saturday.

The visiting delegation, conducting one of its few official sessions outside of Houston, will be honored guests at a combined Lions and Junior Chamber of Commerce luncheon Friday in Civic House.

Principal hosts for the banking officials are Mr. and Mrs. C. C. Thompson. Mr. Thompson is chairman of the Credit Board, which directs the operations of three banks with 400 million dollars on loan to Texas farmers and ranchers.

Credit Board members here are C. C. Wimberly of Vega, Roy B. Davis of Lubbock, Roy Morrow of Lyford, C. R. Duran of Pine Hill, Fred Shaw of Ferris, Macon Buddy of Henrietta, and Thompson.

Top executives of banks in the "Credit Board program who arrived for the meeting are Sterling C. Evans, president of the Federal Land Bank of Houston; W. J. McAnelly, president of the Houston Bank of Cooperatives; W. N. Stokes, president of Federal Intermediate Credit Bank of Houston.

Also joining the group are Frank Stubbs of Corpus Christi, member of National Farm Credit Board, and Miss Dorothy Whitley, secretary for the Farm Credit Board of Houston.

Accompanying the directors and officers are their wives. Guest of Miss Whitley is her mother.

The officials scheduled their regular September meeting in Colorado City on special invitation of Thompson, Credit Board Chairman.

Mitchell County Federation of Women's Clubs named the visiting officials, their wives and guests as honored guests at the "The Music Man" presentation Thursday night by Mrs. Frank J. Peabody of Dallas on Colorado High Auditorium stage.

The delegation during their meeting in Colorado City is making the Baker Hotel its headquarters.

## THEY BUY LESS Traveling Checks

Traveling checks... buy less!

That's the story told in the buy-at-home feature sponsored by local merchants on page 4, section 2 of this issue.

Take a moment to consider facts: Only about 70 cents of each dollar we spend goes to pay for the actual goods or services we receive. The rest of the dollar has to cover the necessary expenses of the community where the sale is made... to pay the people who work there... to return something on the capital invested... to help support civic facilities such as churches, schools, fire and police protection, road and street maintenance, etc.

Doesn't it follow, then, that when we give checks or money for out-of-town purchases, nearly one-third of the amount goes for something we don't receive?

Trade in Colorado City... where you get far more than mere goods for your money!

## Dam Project Group Here Via Plane

One of the largest aircrafts to ever land on Colorado City's outmoded dirt landing strip came in Thursday morning.

The plane, a twin-engine Aero-Commander, brought Freese & Nichols Engineering Co. officials from Fort Worth to Colorado City for inspection of the Champion Creek Dam now under construction.

Jimmy Kuhn, the company's resident engineer here, met the officials at the landing strip.

Frank Deregibus, local aircraft enthusiast, said he believed it was the largest aircraft to ever land at the field.

Deregibus, a member of the Chamber of Commerce aviation committee, said "if we had a modern airport, we would have more planes of this type landing here."

Mr. and Mrs. W. H. Narrell returned their granddaughter, Dian Narrell, to her home in Abilene last week end following a weeks visit with them.

Mrs. J. W. Fairbairn visited in the Key McCarley home in Colorado City last week.

IN FIRST HOME GAME

# Monahans Favored To Whip Wolves Friday

Monahans Lobos — winless after two games this season — will be favored Friday night to defeat Colorado High Wolves football team.

Wolves — who have dropped their first two games this year by lopsided scores — will host the Lobos at 8 p. m. in Wolf Stadium in the first home game.

Monahans' record this year shows a 0-0 tie with Crane and a 37-12 loss to powerful Levelland.

Wolves lost to Class AAAA powerhouse San Angelo, 43-6, and to Class AAA Ballinger, 22-0.

Head Coach Homer Jefferson said Thursday there will be only two offensive changes in the lineup for the Monahans game.

Don Welter, 130-pound senior, will start at quarterback instead of sophomore Jerry McKay and Jim Smith, a 160-pounder up from the B-team, will start at right guard.

The regular right guard, Mike Wheeler, broke a small bone in his hand and will be out of action for three weeks.

The only defensive switch finds Douglas Hodges, 120, at middle guard.

Jefferson said the remainder of the lineup would be the same as started the Ballinger game last week.

That lineup features Mike Schoolcraft and James Shoemaker at ends; Raymond Weaver and Ken Simmons at tackles; Bobby Caffey at left guard; Rusty Whitaker at center; Freddie Womack and Lucky Merket at halfbacks; Dickie Richardson at fullback.

Wolves' sluggish offense has clicked for only 10 first downs and 69 yards net rushing in two games.

In contrast, the opposition has gained 30 first downs and 382 yards rushing and 168 yards passing.

Wolves will have to brace themselves for a couple of speedy halfbacks when Monahans takes the field.

The Lobos' left halfback Andrew Killian is a 147-pound speed merchant who has really racked up the yardage this season. He has gained 265 yards rushing in two games and ran 59 yards for a touchdown against Levelland.

Killian has been a pleasant surprise for the Lobo coaches this season.

It was expected that right half Phil Ballard, 155-pound

senior, would be the big horse. But Ballard hasn't come through on offense at all this year. He's a tricky broken field runner along the same lines as Killian.

At fullback will be either Billy Parnell, 165-pound junior or Raymond Swaney, 155-pound senior. Parnell was a starter last year, but hasn't come along as expected this season. He fumbled the ball the first two times he carried against Levelland and Swaney finished the game.

Norman Smith, 155-pound sophomore, is a talented passer and the Lobo coaches are expecting great things of him in the next two years.

Three big strong boys anchor the Monahans line. One is Bryan Stuckey, 185-pound two-year letterman. He's strong and rugged on offense and defense at his left tackle slot.

Philip Pearce, 182-pound senior two-year letterman operates at left guard. Pearce is big, fast (10.1 in the century) and strong.

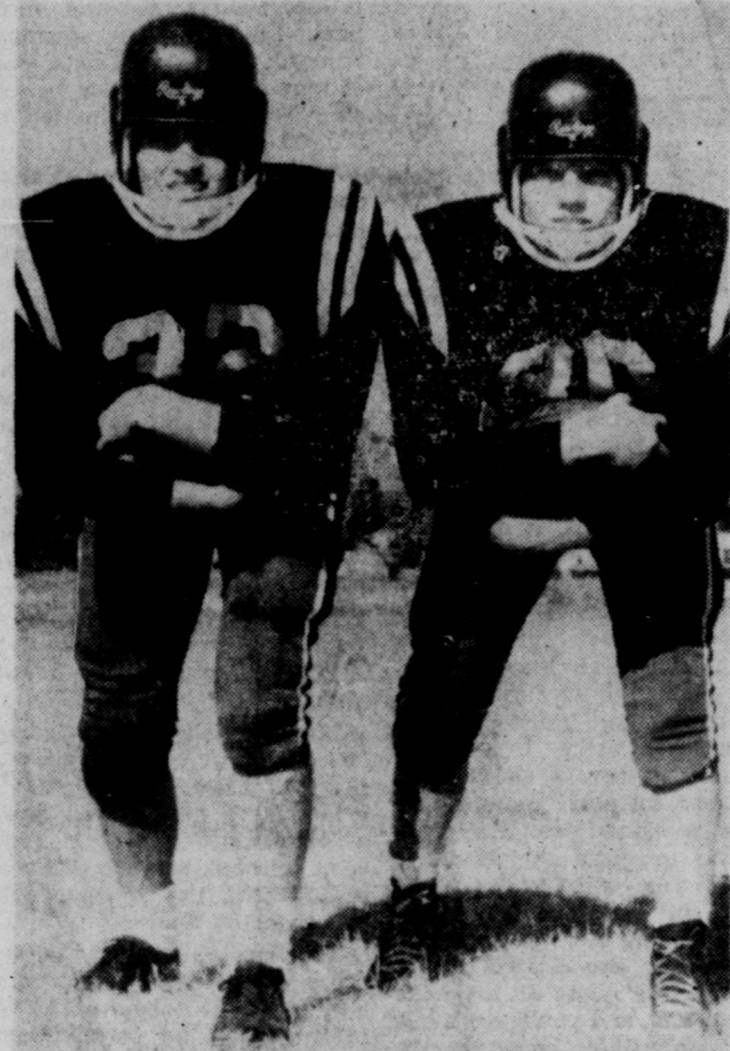

The third man is center Weldon Price, 187-pound junior letterman. Price is good all-around player, tough, smart and experienced.

Lobo coaches rate him as one of the best linemen ever to come out of Monahans (including Wayne Hansen of the Chicago Bears). He's good on offense and rated tremendous on defense.

At left end will be Gary Brinkley, 145-pound senior, who beat out a boy with one letter who is 6-3, 190. He's one of the toughest defensive players.

IN A WEEK OF UPSETS

## Thomas Takes Tech Tickets With Top Team Selections

In a week when everyone else fell by the wayside in football guessing, Luke Thomas stood out.

Thomas, partner in Thomas Bros. Service Station, won the past week's contest with only two misses in a field of 12 games.

He was the only person to accomplish the feat with nine entries showing only three misses as the next best thing. Majority of the contestants

missed five or more games with a large number missing as many as eight.

Thomas missed only Ballinger's win over Colorado City and Snyder's defeat of Andrews was the deciding factor on his entry blank.

He wins two reserve seats to the Tech vs. West Texas State game Saturday in Lubbock.

John M. Russell of the Farmers Home Administration won second place — a one year subscription to the Record — with his entry blank. Russell missed the Abilene — Sweetwater, Rice-L.S.U. and A&M-Tech games, but his key score of 300 brought his second spot.

Henry Hoyle of Colorado City copped third place with a key score of Ballinger 20, C-City 7. He wins two movie passes.

Tying for fourth place were Mrs. D. M. Costlow, 1636 Austin, and Jess Bolin Sr., 2124 Locust. They each missed the key score 15 points and each wins two movie passes.

Also missing only three games, but further off on the key score, were Alfred Byrd,

last week's winner; Bill Everett, Mrs. E. F. Rothwell, Gene Garner, and D. M. Costlow.

Receiving honorable mention for eight correct selections and only four misses, were:

Alson Sparks of Ames, Iowa; Mrs. Al Byrd, Terry Breeden, Pat Shields, Mrs. Roger Woodall, Mrs. Lynn Fox, Drew Ballard, Glenn Thomas, Francis Winn, Mrs. Jess Bolin Sr., LaJuana Solomon, Mrs. J. V. Bolin Jr., Don Benson with eight misses receive the honorable mention booby prize.

First prize this week is four reserve seat tickets to the Colorado City vs. Kermit game here Oct. 3.

This week's contest might prove to be as tough as last weeks. Rough one to pick in the high school division are Snyder at Big Spring; Stamford at Sweetwater and possibly Monahans at Colorado City.

Entry blanks should be mailed prior to 8 p. m. Friday or brought to the Record by 5 p. m.

## Chiefs Here Saturday for B-Team Tilt

Colorado High B-team, fresh from a 126 victory over Ballinger Bees, will play the Lake View Chiefs B-team here Saturday, 7:30 p. m. in Wolf Stadium.

The Little Wolves came from behind last Saturday to whip Ballinger after the Bear-kittens had taken a 6-0 lead in the first quarter.

Touchdown plunges by Jerry McKay and Don Vest in the second and third quarters brought the C-City team ahead.

Ballinger's score came on a 40-yard run.

McKay at halfback, Vest at quarterback and Jay Shimer at fullback were offensive standouts for the local team.

In the line, Ronnie Stacy at tackle, Larry Lindsey and John Johnson at ends, Douglas Hodges at guard, McKay and Freddie Harrison at halfbacks were all defensive standouts.

Bob McMillan is B-team coach.

Tim has accounted for about 70 per cent of the value of Bolivian exports in recent years.

FIRST BAPTIST FORFEITS

## Oak St. Wins Softball Title

Oak Street Baptist Church softball team has repeated as champions of the Church League by virtue of a forfeit from First Baptist Church.

The teams were tied with two victories each following Saturday night's thrilling 1-0 battle that went 14 innings.

Oak Street team wanted to play fifth and deciding game Monday night, but First Baptist was unable to play on Monday due to activities at the church.

The teams were unable to settle on a date so the First Baptist team voted to forfeit according to First Baptist Manager Joe Salter.

First Baptist took the initial two games of the playoffs but Oak Street came back to win 4-2 and 1-0 to tie the series.

The 10 game Saturday probably set a local record for number of innings played. The game went 13½ scoreless innings before Oak Street scored the winning run in the bottom of the 14th.

Gene Fowler, Oak Street outfielder, was hit by a pitch-

ed ball and moved to second on a pass ball. Lonnie Crosby whacked a hard-hit ball over the First Baptist shortstop Pat Shields, who made a desperate lunge, barely touching the ball with his glove.

But by the time the ball was retrieved, Fowler had crossed home plate with the winning tally.

The game was a pitchers duel deluxe. Oak Street's winning hurler Gene Parham struck out 22 batters while giving up five hits.

Losing twirler Ted Vinson chalked up 19 strikeouts and gave up six hits.

Trophies will go to the top four teams. Finishing third was Buford Baptist Church with First Methodist Church fourth.

Bank Emphasizes City's Progress

Purchase of a new building site by City National Bank is a definite signal of this community's steady growth and progress.

For a bank, more than any other business enterprise, is a measuring stick for the economic welfare and development of the community which it serves.

And, naturally, expansion plans announced by City National are in direct proportion to the city's prosperity and potential.

Announcement of the bank site acquisition at corner of Elm and E. Third St. comes as remodeling and new construction is evident in all areas of the city.

But the most significant factor is the building investment by business and industry. Lately completed are key remodeling projects like the Baker Hotel, Sam L. Majors, the Ben Franklin Store and others.

Chamber of Commerce is preparing for open house to display its remodeled and newly furnished office suite, Phillips 66 new station in the expanding business area north on Walnut is nearing completion and Texas Highway Department is soon to begin construction on its new office building on State Highway 208.

It is progress and sound growth in any direction you look. And the building plans of City National Bank emphasize the community's fine condition even more.

Town's Honor

Member of the Farm Credit Board of Houston and officials of the board's three banks open meetings here Friday that will continue through Saturday.

It is a unique honor for Colorado City to be host to these banking officials. For the board seldom convenes outside of Houston.

No doubt, the meeting here is a manner of tribute by the board to its chairman, our hometown Charlie Thompson, long active as an official of the Credit Board and a key figure for scores of years in the agricultural industry of the state and nation.

So there are plenty of reasons for Colorado City to express a friendly welcome to these Farm Credit Board members, their bank officials and their wives during their visit here.

At the same time, we should keep in mind the board's important role in the Southwest's agricultural industry with its three banks that have 400 million dollars on loan to Texas farmers and ranchers.

Single Standard

This humorous story, with somewhat Democratic Party undertones, was just starting the rounds: Senator Lyndon Johnson awoke with a start, shaken by the nightmare dream that Adams had quit and Eisenhower had become President.

But the resignation of Sherman Adams the President's No. 1 administrative assistant, pulls the punch from the yarn.

However, neither the resignation nor the Republican cover-up with staging and fine words can erase the fact that the Eisenhower administration's top echelon could not live up to a standard in government and politics it imposed for all others.

PHILOSOPHER SAYS

Little Rock Has New Grid Idea

Editor's note: The Shinnery Flats Philosopher on his Shinnery farm on Bone Hollow Creek has his tongue in his cheek this week, and possibly his foot in his mouth. You decide.

Dear editor: I have been keeping up with what's going on in Little Rock, Arkansas, not because I know the answer but because it's interesting to find out what other people's answers are, and I'm just as confused as you and the rest are.

Yet, there's one point that has been developed there that the rest of the country seems to have overlooked.

As I understand it from reading the newspapers that turn up here on this Shinnery farm even though the schools are closed in Little Rock, the football team is going ahead and playing.

This seems to be one of those great historic discoveries that nobody at the time seemed to recognize, but as I see it, it opens up a brand new idea and is exactly what the schools, especially the colleges, have been needing.

As everybody knows, classes get in the way of football practice on most college campuses, you try flying half way across the United States to play football on the week-end and still get back to class on Monday, when you ought to be watching the films of the game and finding out what you did wrong so you can correct it before the game on the next week-end, and you'll see what I mean, although personally I've never tried it. A college team that doesn't eat, sleep and talk football, well, it just ain't headed for any bowl game.

However, if it's possible to have a football team without attending classes - I'm talking about college football, not professional football, as everybody knows you don't ordinarily play professional football until you make a name for yourself in college - then the long-sought answer is at hand.

Don't misunderstand me, I'm not opposed to football, I'm just trying to help the game. You can't tell me colleges wouldn't play a better brand of football if the players didn't have to attend classes and could devote their entire time to it, and if the Little Rock experiment proves it can be done, there's the answer.

By the way, I sure would like to see the Wolves play Kermit here next week. If you've got a press pass, I'd be glad to borrow it.

Yours faithfully, J. A.

Committee to Place Teacher Pay Before State Lawmakers

By VERN SANFORD Texas Press Association

TEACHER PAY raises, an issue that has packed legislative galleries in past years, will probably return next session.

Base pay raises of almost \$600 a year will be recommended to the Legislature by the Hale - Aikin Committee. This group of 24 lawmakers and private citizens has spent almost two years in a massive study of ways to improve Texas' public school program.

Its recommendations, now being readied for final presentation, would, for the most part, involve extra spending running into the millions. Cost of moving up the floor on teacher salaries is estimated at \$70,000,000 a year.

Advocates say better salaries are necessary to attract and hold enough good teachers. But even within the committee there were objections.

Rep. L. DeWitt Hale of Corpus Christi, co-chairman, voted against the raise recommendation. He said this, plus other proposals would mean "about a quarter of a million dollar tax bill."

Other committee members said they felt the problem was not a shortage of teachers, but unequal distribution. While small districts may have trouble filling faculties, they said, some cities have a surplus.

Many legislators, elected on "economy in government" platforms, can be expected to echo Hale's sentiments. Since a huge state deficit is foreseen without raising the cost of anything, the squeeze could be especially acute.

Teachers, always a potent force because of their number, might be substantially reinforced by the current concern to "catch up with the Russians" in education. A head-on clash between these groups and the economy forces might well provide the flashiest fireworks of the next session.

leges have sold \$12,375,948 in building bonds - after adjusting to "buyers market" difficulties.

Representatives of the schools, meetings in Austin, first offered \$17,500,000 worth of bonds on a 10-year pay-back basis, but got no offers. Several of the schools already had let contracts for construction, feeling sure the bonds would sell.

Bonds were then re-offered on an 8-year basis and partial sale. Remaining bonds may be offered later.

Burleigh says enough water is being wasted to meet "first demand. Problem of saving it is up to engineers to solve. Needed is a simple, low-cost means of capturing run-off water now flowing into the Gulf of Mexico and delivering it to points where it is needed.

Burleigh was one of 10 speakers at a water conference sponsored by Texas A&M College, Gov. Price Daniel, praised the recently adopted statewide water program, and urged against sliding back into apathy as a result of recent drought-breaking rains.

Revisions in the rate structure for city water users was proposed as one means of conservation. Lubbock Hydrologist W. L. Broadhurst said that increasing the rate instead of decreasing it as more water is used would cut down household waste.

Several parks now under the administration of the State Parks Board should logically be in the hands of local communities, according to State Auditor C. H. Cavness.

Cavness' audit report on the Parks Board noted that Gonzales State Park had been turned over to the city of Gonzales. Others used on a community basis also could be community operated, he said.

Cavness also noted the addition of six new parks to the state system.

NO THANKS

Another Hale-Aikin Committee suggestion: Texas should quit accepting federal money for the school lunch program and vocational education.

Federal funds now received are estimated at \$9,000,000 a year. Committee said local districts and parents should pay for these services.

It did recommend, however, that federal aid be continued to districts where military installations brings in a large non-tax paying attendance.

Other committee recommendations:

- 1. State should quit levying property tax, leave this source to local districts.
2. Permanent School Fund should be kept as an endowment, not spent for current needs.
3. Counties, not state, should bear the cost of maintaining

BIBLE COMMENT

Joseph Points to True Forgiveness

AMONG THE GREAT figures that stand out in history is Joseph. We first see him as a gentle and rather naive lad, somewhat in danger of being spoiled by the favoritism of his father.

He is well-intentioned, guileless and unaware of the great hatred that his brothers have for him which so quickly changes the easy circumstances of his life.

But when tragedy strikes him, Joseph shows the spirit that is in him.

He is not crushed by misfortune and shows himself capable of standing trial.

He is honest and industrious and earns himself a position of honor and trust. Then comes the crucial time in which not only his personal honor but also his position are endangered. Here, again, he stands the test, though it means prison and degradation.

Elevation and greater honor

than before follows. Due to his foresight, there is plentiful food in Egypt while surrounding countries starve. Joseph is able to keep his father and family alive.

Later, Joseph has his brothers entirely in his power, able to inflict any punishment on them he chooses. But all along he has no purpose other than that of forgiving.

IT WAS PERMISSIBLE to take the unique way he did of bringing home to his brothers their own sin and the fullness of his forgiveness.

He was testing them, too. There was another brother at home, the apple of Jacob's eye. Would the brothers be jealous of him? Did they hate him. Would they try to sacrifice him?

Their attitude entirely changes in the grand climax to one of the greatest stories in all literature.

LOCAL BUSINESS

Flexible Sales Approach Needed

By JOE ED BOATRIGHT Record Advertising Mgr. Flexibility is one of the major factors considered by advertising men in selecting a medium.

This consideration is one reason why advertisers continue to invest far more money in newspapers than in any other advertising outlet.

WHAT DO advertisers mean when they say that newspapers provide more flexibility than any other medium? One advertising executive, Lawrence Valenstein, Chairman of the Grey Advertising Agency, answers the question this way:

"Without exception, advertised products, for one reason or another, do better in

some markets than others. The potential is different market by market," the agency executive stated.

Valenstein said that Newspapers offered the advertiser various dimensions of flexibility. "He can buy any size ad he wants, as often as he wants, on almost any page he wants, with any type face he wants, saying almost anything he wants to say."

WHEN A BUSINESS man recognizes the fact that he needs a flexible medium, he is again recognizing the old principle that "all business is local." Advertising tailored to individual differences of communities, is the least wasteful and the most effective on the local level where final sales are made.

The community newspaper, by its very nature, is better able than any other medium to fit advertising to the local market. The local newspaper exists only because its news and advertising columns are in tune with the tastes, wants, and habits of the local community.

The local newspaper does not have to adjust to the community because it is part of the community.

WASHINGTON REPORT Campaigns Focus Major Questions

WASHINGTON THIS week is watching with more than usual interest the congressional election campaigns that are just now beginning to get into full swing across the country.

It is, as some of the experts predict, to be a "Democratic Year?" Or, can the Republicans, as others think, regain a majority in the 86th Congress which convenes next January?

There are 34 senatorial elections. Two from Alaska for the first time; and 436 congressional districts, including one in Alaska in which election campaigns are being waged.

When the 85th Congress adjourned last month there were 49 Democrats and 47 Republicans in the Senate. The House was divided 233 Democrats, 200 Republicans and two vacancies.

Six Senators have announced their retirement and approximately 40 representatives either have retired or were defeated for renomination in the primaries.

THE ISSUES being debated in the campaign vary all the way from local to international. Foremost among the latter is the preservation of a just and honorable world peace. The threat of communist aggression continues as a constant peril to the Free World.

The world is taking cautious steps toward the goal

# Traveling Checks ..... buy LESS .....

Do you habitually take a 25 or 30 per cent discount on the personal checks that you write?

Many people do . . . without realizing it. It's the hidden penalty they pay for the privilege of spending their money in somebody else's town or city.

Take a moment to consider facts: Only about 70 cents of each dollar we spend goes to pay for the actual goods or service that we get. About 30 cents of that dollar has to cover the necessary expenses of the community where the sale is made . . . to pay the people who work there . . . to return something on the capital invested . . . to help support civic facilities such as churches, schools, fire and police protection, road and street maintenance, etc.

Of course, when we spend our money away from home we get no personal benefit whatever from the 30 per

cent of it which goes for community business and social improvement.

Doesn't it follow, then, that when we give checks or money for out of town purchases, nearly one-third of the amount goes for something we don't get? Isn't that just the same as discounting our checks or money? Is it sound economics?

## Inspect Heat System Now

"Don't wait on the first cold day to have your gas heating equipment inspected and adjusted for winter use," was the advise given today by Roy Porter, Lone Star Gas Company manager.

"The day that cold weather makes its first appearance Lone Star and other heating service companies receive hundreds of calls for service," he said. "This could mean a considerable delay in filling many individual service orders."

He suggested that users of gas floor furnaces, wall heaters, unit heaters, central heating plants and other gas heating equipment arrange now to have them inspected and adjusted by calling their heating equipment company or Lone Star Gas Company.

"In this way," he added, "the comfort of the entire family will be assured during the cold weather and with no delay. And the homemaker will have this important service completed and out of the way."

## WOLVES . . .

(Continued from Page 1)

Ronnie Crowson, 155-pound senior letterman, holds down the right tackle slot.

Clyde Moshier, 150-pound senior, or Robert White, 147-pound junior will be starting at right end. Moshier was a starter at beginning of season, but ran away from home with three other boys before the Lobos' first game. He didn't start against Levelland but did catch three passes, one for a touchdown.

Others who will probably see action on defense are Jan Eason, 145-pound senior; Dan Webster, 300-pound (that's right, 300-pounds) junior letterman at center guard; Jimmy Kent, 180-pound Junior and Charles Avant, 145-pound sophomore at end.

Monahans will be trying to avenge the 8-6 loss they suffered at the hands of the Wolves last year.

Between 2,000 and 3,000 fans are expected to attend the Wolves first home game this season.
