*BUILDINGS AT HYDROGEN BOMB PLANT*

Two buildings shaped like the spokes of wheels appear on a cleared tract at the Atomic Energy commission's new hydrogen bomb project at Ellenton, S. C.

## Doughton Urges $7.2 Billion Tax Hike, Sees That As Limit

By FRANCIS J. KELLY

WASHINGTON, June 21, (AP) — Rep. Doughton (D-NC) asked the House today to approve a $7.2 billion tax increase, and said he didn't see how the rates could be boosted any higher.

The 87-year-old North Carolinian leads the Ways and Means Committee which drew up the bill, due to come to a final vote in the House late Friday.

He endorsed the huge proposed increase largest in American history, as urgently needed to finance the nations defense program. But he told his colleagues solemnly:

"I consider it unlikely that we shall be able to increase substantially the yield of the federal tax system beyond what is included in the present bill.

DIFFICULT TO IMPOSE

"I say this in all frankness and sincerity, for I consider it essential that we face up to the fact that any higher tax rates on either individuals or corporations or excises would be exceedingly burdensome and difficult to impose. Doughton said that under the current fiscal situation, Congress has three choices: increase taxes even higher than proposed nn the pending bill; re-examine and reduce federal operations, both the ordinary operations of government and the military and foreign aid budget; or embark upon a renewed program of borrowing and deficit financing.

He rejected the idea of deficit financing, saying it would contribute to inflaton and might permanently impair the governments credit. He said the proposed $7.2 bilion tax hike is "as large an amount as could safely be collected from the economy under present conditions." Hence, he concluded:

EXPENDITURE CUT ASKED

"The only sound course, in my opinion, is to re-examine the score of federal activities and to cut expenditures to the bone.

The chairman of the tax-writing group noted that this is the third tax increase considered by Congress since the outbreak of the Korean War a year ago. Taken together, they account for an estimated yearly revenue increas of more than $17 billion. Speakng of the pending measure, Doughton said:

"To those who mantain that the bill would impose too heavy a burden, I point out that personal income and corporate profits are at record levels, and that most people will still have, after the higher taxes are paid, larger takehome pay than ever previously injoyed.

"To those who contend that the bill does not impose the additional tax burden in the wisest and most equitable manner, I can only say that each decison represents a majority vote of the committee on ways and means.

## Pennsylvanian Wildcat Set In Mid-Howard

It has been officially reported that Deep Rock Oil Corp. will drill a 9000-foot Pennsylvanian wildcat in Central Howard County six miles north of Big Spring.

The exploration will be drilled as the No. 1 J. O. McCrary, 1,980 feet from east and 660 feet from north lines of section 1-3-T-1-N-T&P. That puts it five miles southeast of the Bond-Canyon field.

Operations are to start in the near future.

FLOYD FAILURE

Houston Oil Co. of Texas No. 1 John S. Lackey, Northeast Floyd County wildcat 12 miles north and one mile east of Lockney, is to be plugged and abandoned on total depth of 10,384 feet in granite wash.

This prospector failed to find any signs of possible production in any zone it drilled through. It was started out to try for production in the Pennsylvanian lime reef, but failed to find any appreciable reef build up. It was much lower geologically than had been expected.

Location was 330 feet from south and 900 feet from east lines of section 11-D-2-GC&SF.

STONEWALL TEST

Desoto Oil Co. has spotted its No. 1 E. V. Smith as a 6,300-foot wildcat in Northwest Stonewall County, seven miles northeast of Swenson.

Location is 660 feet from south and 467 feet from east lines of section 110-D-H&TC.

Seaboard Oil Co. of Delaware has plugged and abandoned its No. 4 Ollie Sparks in the Double Mountain field of Southwest Stonewall County on total depth of 5,530 feet. The failure was 14 miles southwest of Aspermont and 1,859 feet from north and 1,953 feet from east lines of section 315-2-H&TC.

BORDEN PRODUCER

Shell Oil Co. No. 3 Sterling, offset to a Pennsylvanian lime reef discovery in Southeast Borden County, made a potential of 1,718 barrels of 40 gravity oil on a 24-hour test.

Gas-oil ratio on the test was 898-1. Tubing pressure ranged from 1,100 to 775 pounds, with casing pressure 700 pounds. The fluid was 2.9 per cent water, with 2.6 per cent basic sediment.

The well is 678 feet from south and 1,965 feet from west lines in section 70-25-H&TC.

ON PUMP

Stanolind Oil & Gas Co. No. 1 Miller, Borden County wildcat, pumped 91 barrels of oil with 14 barrels of water in the last 24 hours and is still pumping to test.

## Truman Not Talking About Many Subjects

WASHINGTON, June 21 (AP) — President Truman today discounted rumors of Korean peace proposals.

He told a news conference questioner that no peace proposition had been taken up with him by the United Nations. He added he believed a thing of this kind would come to him if any action were contemplated.

Mr. Truman had very little news at his first press-radio conference in two weeks.

He fired "no comment" replies in quick succession to questions regarding Iranian oil, Congressional committee actions in toning down his inflation control proposals, and Senate votes cutting 10 per cent from requested appropriations for federal personnel.

He said control and apropriation bills are still in the formative stage and he will withhold comment until they are passed.

He also decided to throw any light on his 1952 political intentions or to mix again in the MacArthur controversy.

A reporter asked if Jonathan Daniels, Raleigh, N. C. publisher and Democratic National Committeeman, hao shown anything more than sharp reportorial instinct in predicting at the White House Monday that Mr. Truman would run again next year.

The President, grinning broadly, replied the reporter had stated the case exactly.

One of the many "no comments" came when a newsman sought Presidential reaction on a charge by Senator McCartny (R-Wis) that Secretary of Defense Marshall was "masterminding," as the reporter put it, a great conspiracy without the President's knowledge. Mr. Truman said he didn't know how that Senator could read his mind.

## 'No Comment' On Mac's Tour

WASHINGTON, June 21, (AP) — President Truman declined all comment today on General Douglas MacArthur.

He refused to discuss the ousted general's statement of Wednesday complaining that "due to the orders of the President silencing the pertinent witnesses to his part in the action," some pertinent facts had not been brought out at the hearing.

Nor would the president comment on the general's speech making in Texas. A reporter put it this way.

"As a man experienced in that line, what do you think of General MacArthur's whistlestop technique?"

"The president smiled but said he had no comment.

## Chandler Resigns As Baseball High Priest

CINCINNATI, June 21, (AP) —A. B. Chandler resigned today as baseball commissioner effective July 15.

The former Kentucky governor and senator who had held the commissioner's job since 1945, made his announcement at a conference with Warren Giles, president of the Cincinnati Reds and a member of baseball's excutive committee.

## Denial Of New Control Power Is Predicted

WASHINGTON, June 21. (AP)—President Truman's appeal for broad new powers to combat inflation and roll back some prices to "pre-Korea" levels today faced a major test before frankly hostile senators.

Chairman Maybank (D-SC) predicted the Senate Banking Committee would approve at a closed meeting a stripped down bill denying the President most of the new powers he requested, and forbidding price rollbacks below average levels existing between Jan. 25 and Feb. 24, 1951.

The present Defense Production Act, authorizing price, wage and other economic controls, is due to expire June 30.

The Senate restriction would hold future beef price rollbacks to two per cent instead of the ame per cent Price Stabilizer Michael V. DiSalle has ordered added to the recent 10 per cent rollback on live cattle prices.

DiSalle said Wednesday night that adoption of the amendment would cost the American public at least $2.5 billion a year.

Meanwhile, Rep. Cooley (D-NC), chairman of the House Agriculture Committee, introduced a bill to prohibit all rollbacks in either prices or wages.

Senator Moody (D-Mich) made public a memorandum from DiSalle contending that the Senates proposed restriction on rollbacks would be a "serious blow at the entire price-wage control program and would cost public confidence and cooperation.

DiSalle said the effect would be to raise the official cost of living index and "seriously affect wage stabilization policies which are tied closely to the index. And, DiSalle wrote that would happen "in short order.

"It appears questionable, DiSalle said, "whether under these conditions a substantial deterioration in the value of the dollar could be prevented.

There already is a "widespread feeling by the consuming public "that the government has stabilized the price level too high and does not really mean "business" the stabilizer said.

## Iran Premier Asks Support On Oil Stand

By ROBERT B. HEWETT

TEHRAN, Iran, June 21 (AP)—Crowds roamed through the streets of Tehran today smashing Anglo-Iranian Oil Company signs as Premier Mohammed Mossadegh went to parliament for a vote of confidence in his "no compromise fight to drive the British company out of Iran.

Mossadegh looked fit after nearly a month in a sickbed, as he made his appeal. Lack of a quorum in the parliament blocked debate however and the premier demanded another session this afternoon.

"If the Majlis (lower house) refuses to meet today my government will not be responsible for any incidents which may occur,' he said.

The premiers indirect warning of Nationalistic dsturbances was made while his supporters were traveling around Tehran smashing company signs and shouting slogans such as "Death to the oil company," "Down with the British" and "Long live Mossadegh."

A British embassy spokesman said demonstrators invaded the main AIOC headquarters and the information office but caused no serious damage. He said an official diplomatic protest will be made to the Iranian government over the incidents.

## Investigation Of Oil Deals

SANTA FE, NM., June 21 (AP) — A federal grand jury Wednesday heard members of the Federal Petroleum Board who have been investigated alleged "hot oil" activity in Lea County.

Board members present included James R. Lewis chairman from Kilgore, and Selman Jones, Nelson Puett and Henry Bray, all of Midland, Tex.

The case arises out of reports that oil illegally produced in New Mexico has been shipped to Texas.

Reports current for several months are that the oil was being taken from producing wells in one area and credited to dry holes in another to excede the daily allowable.

There also are reports that at least part of the oil was being taken from federal land leases but bing credited to none-federal land. leases thus depriving the federal government of royalties.

## Dallas Child Killed By Falling Airplane

DALLAS, June 21 (AP)—A 5-year-old blonde-haired boy was decapitated today when a crippled single-engined airplane careened off a telephone pole near Skyline airport and crashed in the back yard of an East Oak Cliff residence here.

The little boy, Del Odis Parham, son of Mr. and Mrs. Cecil Parham, was picking peas in the back yard garden, his mother said. He was killed instantly.

The 24-year-old pilot of the airplane, Lester B. Lawson, Dallas, was rushed to Parkland hospital where his condition was described as critical.

## MacAuthurs Decide To Keep Waldorf Suite

NEW YORK June 21, (AP) — Gen. Douglas MacArthur reportedly has decided to continue renting the Waldorf-Astoria's 10 - room presidential suite for the next year.

A hotel spokesman said Wednesday the five-star general will stay on in the same suite "on a yearly rental basis."

The general, Mrs. MacArthur and their son, Arthur, have occupied the quarters since they returned from Japan last April.

The hotel spokesman would not disclose the yearly rental.

When the MacArthurs first moved in, a spokesman for the hotel said the general was paying $130 a day for the suite.

# Patrol Action Of Allies Into Enemy Territory

## Little Mention Of Mac In Testimony

WASHINGTON, June 21 (AP)—Patrick J. Hurley accused the State Department today of making "a deliberate attempt to disparage me" in its 1949 "White Paper on China."

Hurley, World War II Ambassador to China, was testifying for the second day at the Senate inquiry into Far Eastern policy generally and the dismissal of Gen. Douglas MacArthur.

Much of the questioning, as on the first day, turned toward the Yalta agreement.

Senator Wiley (R-Wis) brought out that one of those who attended the Yalta Conference was Alger Hiss, a state department official since jailed for perjury. Hiss was convicted of lying when he swore he did not give United States secrets to a pre-war Communist spy right.

Wiley noted that Hurley, in his testimony Wednesday, had bitterly denounced the 1945 Yalta agreement as an "immoral and cowardly pact which he said amounted to appeasement of Communism."

HURLEY NOT AT YALTA

Wiley then questioned Hurley as to who were "the prime actors in that great drama at Yalta which so changed the world".

Hurley replied, he was not at Yalta, but "there are a number of witnesses who were.

"Well", said Wiley, "Hiss was at Yalta."

Hurley: "Yes, sir, Hiss was at Yalta.

Wiley: Do you suggest that we subpoena Hiss?"

Hurley: "Well I am afraid that there is a certain provision that enables a man to be relieved from testifying against himself, and I think, I don't believe you could get Mr. Hiss to tell you the facts about Yalta."

Hiss attended the 1945 Yalta conference in his capacity as a State Department official.

NEW CRITICISED

Hurley complained to the senators that some news accounts of his testimony Wednesday "reported that I said the Yalta surrender was due to the cowardice of President Roosevelt." Hurley added:

"I remember distinctly that. I said that President Roosevelt was already a sick man at Yalta, and I did not attribute to him what transpired at YalLta."

MacArthur's dismissal was scarcely mentioned in Hurley's first day in the witness chair, and some commttee members were eager to get down to that question with him. Senator Saltonstal (R Mass) said he wanted Hurley's views on "what it's best to do now and in the future."

## Gold, International Trade's Barometer, Shows Decline

NEW YORK, June 21. (AP) — The Fort Knox gold pile has stopped shrinking after dwindling at the fastest rate in our history.

Uncle Sam isn't spending his dough so fast now for high-priced foreign raw materials for his stockpile. And he is selling more goods to other countries — for cash.

HOARD FLUCTUATES

As a result, for two months now the gold hoard hasn't dropped below $21,755,000,000. It rises and falls by a few hundred thousand dollars worth from day to day as world trade varies.

It's still the biggest pile of gold in the world by far, but it's $2 billion less than it was at its peak in September, 1949.

It shrank $1.7 billion last year, the biggest drop for any year in our history. The loss represented the record flow of imports to these shores, especially after Korea spurred stockpiling and sent tin, rubber, wool and most other prices soaring.

EUROPE REARMS

Our exports are rising now as Europe rearms, and as Latin America spends the dollars she has been earning by selling us coffee, metals, wool and oil. Foreign traders think exports could reach $15 billion this year.

But Uncle Sam, through various foreign aid plans, will pick up the tab for about $4 billion of that. And also, we may import about $12.5 billion — paying for it in goods and cash. So that other nations should have at least $16 billion to settle their $15 billion with Uncle Sam. Whatever they might have left over they could hold as dollar resrves, which they value about as much as gold.

Imports hit their all-time peak in March at more than $1 billion for the month. Exports hit their best postwar mark in April at $1 4 billion.

In only three months since the war — August and October, 1950, and January, 1951 — have imports topped exports. But during most of the postwar years those exports were paid for to a considerable extent by money that Uncle Sam had given other countries for that purpose.

## Island Of Guam Developed As Standby Fleet Command Post

GUAM, June 21. (AP) — If a major war should break out in Asia, Adm. Arthur W. Radford could move his United States Pacific fleet headquarters to Guam within 48 hours.

One major purpose of the Navy's development of its Guam base since the end of World War II has been to make it a standby fleet command post.

Fleet headquarters would move to Guam — and quickly — whenever close direction of major naval forces in Asian waters should become necessary. The island was Adm. Chester Nimitz' headquarters for the Iwo Jima and Okinawa campaigns in the closing months of the Pacific War.

The time for moving forward — 3,800 air miles west of Pearl Harbor — would depend on when the Navy's action missions became more important than its mission of supporting forward troops as in the Korean conflict.

SHIFT TO GUAM

For instance, should a full military blockade of the China Coast and amphibious landings there be undertaken, Pacific Fleet headquarters likely would shift to Guam. But Pearl Harbor would remain the main logistical support headquarters.

The Navy has spent about $130 million in building up Guam since V-J Day. Projected work will run the total over $200 million.

Ten years ago, when the Pacific War started, Guam was a puny defense post quickly lost to the Japanese. The Navy in 1941 had begged $4 million from a reluctant Congress. The island was lost before any money could be spent on a seaplane base.

When World War II ended, the Navy planned a Gibralter-like defense bastion costng nearly $1 billion.

But that program quickly was chopped down by shrinking military dollars and new evaluations.

Successive conquests of Japanese island fortresses, including Guam, proved thatL island positons could not be held without full sea and air control.

So Guam's role today is not one of defense.

It is a strategic hub inside the major islands lying close to the Asian mainland — Japan, Ikinawa, Formosa and The Philippines.

Guam is about 1,500 miles from all the islands on that outer Pacific defense ring.

That is close enough for effective command direction and support operations. But Guam is far enough from potential enemy bases so that it would not be vulnerable to sustained air attack — as Formosa and Okinawa could be.

## $24 BILLION IN EXPANSION

WASHINGTON, June 21. (AP)—Record-setting expansion programs have been scheduled by American industry for the final quarter of this year.

The Commerce Department and the Securities and Exchange commission reported Wednesday that a re-survey indicates sights have been raised above original scheduled spending of an unprecedented $23.9 billion this year on new plants and equipment.

Actual outlays for the first nine months of the year appear headed for an $18 billion total, 41 per cent higher than for the corresponding period of 1950, the reports added.

## Negotiate For Sale of St. Louis Browns

ST. LOUIS, June 21. (AP)—An arrangement for the sale of the controlling interest of the St. Louis Browns to Bill Veeck, former owner of the Cleveland Indians, was announced here today by Donald L. Barnes, former owner of the St. Louis American League club.

Barnes' announcement emphasized that the club will remain in St. Louis. Veeck, who had been reported planning to move the Browns to Milwaukee if he got the club, has been joined in the deal by Sidney Saloman, Jr., St. Louis insurance man, who is a stockholder in the St. Louis Cardinals of the National League.

Veeck told the Associated Press that he had offered $7 a share for the stock. He was quoted by Barnes as wanting to buy 275,009 shares outstanding.

Barnes said he entered the transaction at the request of William and Charles DeWitt, the present owners, "to negotiate an agreement which would be in the best intrest of the City of St. Louis and the DeWitts."

"Under an agreement reached today, the DeWitts have optioned their controlling interest for a limited period to Bill Veeck," Barnes said.

Veeck said that it was more than an option; that he and his partner had actually agreed to buy the stock they wanted if it could be delivered by the DeWitts. There is other stock than that owned by the De Witts involved.

## Shivers Signs 46 New Laws

AUSTIN, June 21 (AP) — Forty-six new laws were approved by Gov. Allan Shivers Wednesday, including several anti-crime statutes.

One clamps down on policy rackets. Another strikes at the use of bombs in gang warfare by slapping heavy prison sentences and fines on persons who manufacture or possess bombs for criminal purposes.

Another amends the anti-burglary law to prohibit modern methods of safecracking. It assesses a minimum prison term of five years.

The governor also approved bills allowing Texas to enter compacts with other states for mutual helpfulness in parole matters and to secure attendance of out-of-state witnesses for criminal trials.

Shivers signed into law a bill allowing the fining of minors between 14 and 17 on conviction of reckless driving.

## Secretary of Navy Is Expected to be Named Ambassador to Ireland

WASHINGTON, June 21, —(AP) Informed officials said today Secretary of the Navy Francis P. Matthews has decided to accept appointment as ambassador to Ireland.

These officials, who asked that they not be named, told a reporter Matthews' names has already been submitted to Dublin for anticipated approval there, and that President Truman will announce the appointment shortly.

These sources said they did not know who might succeed Matthews.

As envoy to Dublin, Matthews would succeed George A. Garrett, who resigned as of May 31.

## Red Attack Annivesary Is Predicted

By OLEN CLEMENTS

TOKYO, June 21, (AP — Allied patrols, mapped far beyond their lines today on the Western Front, where officers predicted the Reds would launch a "limited offensive" by Monday, first anniversary of the Korean War.

United Nations patrols twice entered Kaesong 25 miles nothwest of Seoul on the main highway to Pyongyang, capital of Communist North Korea. A thousand Reds in the hills made no move to intervene.

This is the most westward push of Allied units since Reds swept across Parallel 38 in the April 22 offensive.

Three other U.N. patrols reached to within four miles of Pyonggang, bumping into Chinese outposts. Powerful Chinese forces were reported grouping behind these outposts north of Pyonggang, northern tip of the Iron Triangle. Pyonggang is 32 miles southeast of Pyongyang.

All along the quiet front U.N. scouts probed for Red strength.

Rain clouds forming over Korea cut air attacks down to the lowest figure this month. The Fifth Air Force reported only 188 sorties, most of them in the early morning darkness before storm clouds blanketed the country.

For the frst time in five days no Communist warplanes were aloft.

In the first four days this week the Reds roared across the Yalu River from Manchuria into flaming battles in the North Korean skies.

Far East Air Forces (FEAF) announced three Allied planes were lost in these fights. An American Sabre jet and a Mustang fighter were shot down. Another Sabre jet was missing.

FEAF revised Red losses downward. The corrected total listed 36 Communist aircraft destroyed or damaged, instead of 38. Nine were listed as shot down (six MIG-15 jets, two Stormovik attack bombers and a Yak fighter), one probably destroyed and 14 damaged. The damaged craft were mostly swift Russian-made MIG-15s.

Bad weather cut U.N. air activty to 486 sorties Wednesday, including 130 night attacks.

Allied predictions of a limited objective Chinese offensive before Monday were reported by AP Correspondent Jim Becker.

Becker said officers pointed out Chinese activity on the Western Front is similar to that preceding their April 22 offensive.

"It's the same pattern on a smaller scale," the officers said.

Allied patrols roam almost at will in front of U.N. lines.

But, one officer observed, "We know the Chinese are there and probably watching us go by. They want us to develop a false sense of security."

Lt. Gen. James A. Van Fleet, U. N. ground commander, said "inferior Chinese and North Koreans could not overrun his well trained and prepared troops under any circumstances.

## High of 107 Recorded Here

Snyder weather seems to have been practicing up for today—the official first day of summer.

An official high of 107 degrees was registered here yesterday by Mrs. D. P. Strayhorn, weather observer. A late evening thundershower brought .16 of an inch of rain with more high winds and dust. The minimum early this morning was 74 degrees, with 77 degrees at 7:30 as the temperature began to climb.

Rainfall for the month of June thus far has totalled 1.57 inches, although the amount varied in portions of the county. Total moisture for the year, including snows now totals 4.91 inches.

## Mexican Farm Labor Legislation Next Week

WASHINGTON, June 21, (AP) — Legislation to authorize the importation of Mexican farm hands to help harvest this year's crops may come up for consideration in the house early next week.

Rep. Poage (D-Tex) author of such a bill said Wednesday that delay in action on the tax bill has forced postponement of an expected vote Friday on the farm labor measure.

## WEATHER

WEST TEXAS: Partly cloudy tonight and Friday. A few scattered thundershowers in Panhandle. No important temperature changes.

EAST TEXAS: Partly cloudy tonight and Friday. A few scattered thundershowers in north portion. Not much change in temperatures.

*GLUM COHEN HANDCUFFED*

Deputy U .S. Marshall Charles Ross (right) slips handcuffs on Gambler Mickey Cohen after his conviction in Los Angeles on four counts of income tax evasion. Cohen's wife, Lavonne, tearfully watches in background.

# Huge Spending On Texas Air Fields And Military Camps

WASHINGTON, June 21. (AP) — Congress is considering a defense department request for $373,501,330 for 34 military projects in Texas.

If the money is granted, department spokesmen said Wednesday, four World War II flying centers could be reopened and two former flying centers would be reopened.

The Air Force bases to be reactivated, the appropriations asked, and the size of personnel to be stationed at each include:

Harlingen, navigation training base, $15,462,000, 600 officers, 2,500 airmen, 600 civilian employes.

Laredo, advance jet training, $9,706,000, 400 officers, 2,000 airmen.

**BIG DEL RIO BASE**

Laughlin Air Base at Del Rio, advance jet training, $13,701,000, 400 officers, 2,000 airmen, 490 civilian employes.

Foster Air Force Base, Victoria, fighter bomber unit, $10,778,000 200 officers, 1,400 airmen, 350 civilian employes.

The Department asked $8,382,000 for Camp Bowie at Brownwood and $5,831,600 for Camp Swift at Bastrop, near Austin. The funds are to be used for acquisition of land and for construction of buildings and utilities. However the two camps are not expected to be reactivated at this time.

Many of the Air Force projects included in the bill are now under the new Flying Training Air Force which has headquarters in Waco. The Fly-TAF provided this breakdown on details of work planned for its bases:

**BIG SPRING FIELD**

Big Spring — $3,133,000 airfield pavement, lighting, training, and operational facilities. Utilities, land acquisition, storage and shops, and administrative and support facilities.

Bryan — $5,341,000 airfield pavement, fuel storage, communications, lighting, operation, training, administrative and support facilities, land acquisition and storage.

Ellington — Houston $706,000 airfield paving, storage, facilities.

Goodfellow — San Angelo, $1,583,000 utilities and land acquisition.

Perrin — Grayson County, $2,187,000 airfield pavement, fuel storage and dispensing works, communications, navigation aids and lighting, administrative and support facilities, utilities, land acquisition, and storage.

Randolph — San Antonio, $6,450,000 — pavement, fuel storage and dispensing, lighting, maintenance, troops, administrative, support and storage facilities and utilities.

San Marcos — $157,000 — Air field pavement and miscellaneous projects.

Reese — Lubbock, $987,000 — Maintenance facilities and utilities.

The Fly-TAF said Harlingen, Laredo, Laughlin, Foster, if reactivated, are expected to come under jurisdiction of flying training air force headquarters.

The Defense Department bill said the $8,382,300 requested by the army for Camp Bowie was for land acquisition, troop supporting facilities and utilities.

**BOWIE PLANS OUTLINED**

(Rep. O. C. Fisher of San Angelo by telephone from Washington to Brownwood today said he understood the general plan for Bowie is to acquire "some land and construct some buildings with a view to put it in shape where it could be reactivated fully on short notice." He said engineers estimated full reactivation would cost in excess of $70 million.

Camp Bowie was deactivated in 1947. Most of the land from its 5,000-acre campsite and 120,000-Mils Counties returned to private ownership. The campsite adjoining Brownwood still has warehouses, rail tracks, paved roads, water, sewer, and gas facilities and hundreds of concrete building foundations.

A few of the comparatively small number of remaining Camp Bowie buildings are used by local units of the Texas National Guard. The Guard has 5,520 acres, including a large rifle range, in the former maneuver area.

## Man Killed in Truck-Train Crash Wednesday

ATOKA, Okla., June 21. (AP)—Leamon Nickels, 34, Springfield, Mo., was killed Wednesday night when his truck and a freight train collided near here.

Highway Patrol Trooper W. H. Bailey said that the train's brakeman, A. J. Durbin, Jr., Denison, Tex., attempted to warn the approaching truck. Durbin was on top of the train and waved his lantern. He suffered minor injuries.

## 4 Communists Still Sought

NEW YORK, June 21 — The government's second big crackdown on American Communist leaders widened today following the roundup of 17 members of the party's second team.

More junior comrades are due for prosecution, authorities indicated.

Out of 21 Red leaders indicted here Wednesday, four still were sought today.

A hundred FBI agents in 25 autos seized 16 here early Wednesday and a 17th was arested in Pittsburg.

The roundup came 16 days after the United States Supreme court afpreme Court affirmed the convictions of 11 top Communist leaders.

A total of $191,000 bail, ranging from $1,000 to $2,000 — was set late Wednesday for the 16 arrested here. The Pittsburgh prisoner was held in $15,000 bail for removal to New York.

Fifteen of those arrested here, including four women, remained in jail overnight.

The 21 are charged with criminal conspiracy to teach and advocate overthrow of the government by force and violence.

The 21 were indicted for allegedly taking part in the same conspiracy for which the 11 were convicted.

## San Angelo Man Heads West Texas Chamber's Industrial Committee

ABILENE, June 21 (AP) — Appointment of E. L. Buelow of San Angelo as chairman of the industrial committee of the West Texas Chamber of Commerce was announced today.

B. P. Bludworth, WTCC president, said the committee's first meeting will be tomorrow in San Angelo. Others to attend will include Fred H. Husbands, executive vice president and general manager, James F. Melton, manager of the taxation and legislation department; Alden L. Cathey, manager of the public relations and membership department, and George A. Logan, agriculture and livestock manager.

The meeting will be at 1 o'clock tomorrow afternoon.

## Midland Oiler Flows From Pennsylvanian

MIDLAND, June 21, (AP) — Official completion has been reported to the Railroad Commission of Texas for Moore Exploration Company N. 1 A. R. Baumann, Midland Countys newest petroleum discovery.

The wildcat flowed 226 barrels of 47.5 gravity oil in 24 hours on the official potential test. The flow was through an 8-64th inch tubing choke and was natural.

Gas-oil ratio was 1,821-1. Minimum open flowing tubing pressure was 1,050 pounds.

No water was produced with the oil. Operator reports that the top of the pay in the Pennsylvanian is at 11,284 feet. Total depth is at 11,293 feet.

The 7-inch casing is cemented at 11,246 feet. Definite age of the zone which is making the oil has not been officially established.

This new field opener is three files south of the easteast side of Midland.

## Russia And Red China Sign New Trade Pact

LONDON, June 21. (AP)—Russia and Red China have signed a new trade pact designed to step up the exchange of goods between the two Communist lands, the Moscow radio announced today.

The agreement, signed in Moscow Tuesday, apparently supplements the exchange set up in the original Russian-Chinese trade pact of February, 1950. That pact was for two years.

The announcement did not specify what type of goods was involved in the new pact.

## Two Scurry Wells Will Be Plugged, Abandoned

Applications to plug two Scurry County field locations have been filed with the Railroad Commission.

W. C. McBride, Inc., No. 1 J. Weiner, drilled in section 180-3-H&GN in the Kelly-Snyder field, was reported dry at total depth of 6,810 feet.

Burdell Oil Co. No. 2 Hardee, 10 miles northwest of Colorado City in the Scurry Shallow Ridge pool, is to be abandoned at 1,700 feet as a dry hole. It is located in section 1-1-J. P. Smith survey.

## Herring Confirmed As U.S. Attorney in Area

WASHINGTON, June 21. (AP) — Charles F. Herring was confirmed by the Senate Wednesday for appointment as United States Attorney for the Western District of Texas. He succeeds Henry W. Moursund.

Herring was parliamentarian of the Texas Senate during the legislative session this year.

A native of McGregor, he joined the law firm of Looney and Clark in Austin after finishing the University of Texas Law School.

Herring served as a naval officer in the Pacific during World War II and returned to Austin to practice law. For a brief time he was secretary to U. S. Senator Lyndon Johnson in Washington.

# Johnson Testimony Pictures Confusion in Administration

By DAVID LAWRENCE

WASHINGTON, June 8. — It's not an encouraging picture that Louis Johnson, former Secretary of Defense, paints as he portrays the inner workings of the United States government at a critical time in history.

It's a picture of confusion, of friction, of overreaching on major functions, of serious conflict between the Defense Department and the State Department, and of neglect of duty in our relations with foreign governments.

One could almost forget that the original purpose of the present hearings of the joint Senate Committee on Foreign Relatons and Armed Services was to investigate the circumstances surrounding the dismissal of Gen. MacArthur. For that particular incident fades into insignificance alongside the weaknesses in our defense setup which now have been revealed to public view.

For the testimony of the former Secretary of Defense tells us that the United States government had no war plan insofar as Korea was concerned when war broke out there on June 25, 1950, and that no study had been given to the possibilities of an attack in that area.

Although the President and the Secretary of State and other high officials concurred in the steps that were taken to come to the aid of South Korea a year ago, the American government was caught by surprise and had to improvise from that time on. The unreadiness of our military establishment is shrouded even now in the secrecy of suppression for it would be politically damaging to the administration to allow all the truth to be revealed.

But bad as was the military unreadiness, the lack of planning for the emergency was worse. The responsibility rests upon the Joint Chiefs of Staff about which, incidentally, Mr. Johnson had a good deal to say. Although he praised their individual abilities, he hinted more than once rather broadly that the joint chiefs faced constant pressure from the Department of State to change their military views to suit political presures. He made it plain that he believe military men should give their military judgment uninhibited by political influences such as were constantly being applied by the Department of State.

Mr. Johnson thought there had been some improvement in this situation recently. But unfortunately all the facts are not available as yet and it is probable that the Senate Committee's inquiry will not be sufficiently comprehensive to get those facts. It is beginning to be suspected by some members of Congress that the joint chiefs bow to the political winds and are subservient to the Department of State which in turn is subservient to the pressures from foreign governments.

Most amazing of all the things Mr. Johnson testified to was his statement that the Department of Defense—not the State Department—was agitating constantly to get UN members to send more troops to Korea. The record in the hearings shows that even American embassies and legations abroad for a long while were not ordered to urge foreign governments to send reinforcements and that the Defense Department did most of the urging.

The conclusion is inescapable that our top military commanders today are muzzled. They do not dare to differ with the civilian side of military questions for fear of being removed or demoted. The process of intimidation which begin with the removal of Adm. Denfeld and which was repeated in spectacular fashion by the dismissal of Gen. MacArthur has resulted in a basic weakness in the command setup which is not going to be cured just by spending more billions.

Mr. Johnson was asked about the "shoestring" Air Force which the 50 billion dollars spent under his regime had given America—and he thought that Gen. Vandenberg was saying all this just to get more money appropriated. This certainly raises an interesting question about the difficulties of getting facts nowadays.

Mr. Johnson also said he didn't think it was cause for the State Department to issue its "white paper" attacking the Chinese Nationalist government which America was recognizing. He confirmed the impression that the State Department was constantly belittleing and weakening the very government it was supposed to be supporting.

Maybe all the details of the confusion as between the Defense and State Departments will come out some day but the simple fact remaining that has been done or may yet be done will only prove a lack of leadership at the very top—a blow-hot and blow-cold attitude toward the Communists in China, and a counsel of fear when there should have been firmness.

## New Oil Field Opened In Newton County

HOUSON, June 21. (AP)—Operators report the opening of a new oil field in Newton County, three miles east of the Gist Field.

The Houston Oil Co. of Texas and American Republics Corporation B-2 Hankamer was completed to flow 180 barrels of 73.7 gravity oil daily through 9-64 inch choke from 7,2225-7,226 feet.

## Trading Slow, Prices Decline Second Day

NEW YORK, June 21, (AP)—Trading simmered down today in the stock market as prices eased off slightly.

The volume of business was light with the pace slow after the customary opening runs.

Wednesday the market declined in a marked manner after seesawing the previous two days this week.

# Crime Hearing Set in Miami

MIAMI, Fla., June 21. (AP) — The Senate Crime Investigating Committee returns today for a second look at this area's gambling picture.

A public hearing was set on the fourth floor of the county courthouse. About 20 witnesses scheduled to be heard today, Friday, and possibly Saturday.

Sen. Herbert O'Conor (D-Md), committee chairman, promised an answer by noon to the latest invitation from Gov. Fuller Warren of Florida to hear him in Tallahassee.

Warren declined three invitations to appear at the Miami hearings. He renewed Wednesday night his invitation for the committee to meet him in the capital. O'Conor said there was no possibility of that.

"I have no personal information regarding relationships between organized criminals from other states infesting Florida as stated in your telegram" Warren said in a message sent through his press secretary, Loyal Compton.

"Gambling, which had openly operated in Florida for more than 50 years, has been suppressed by my administration."

O'Conor declined to speculate on whether a subpoena would be served on the Florida governor.

The committee also was interested in hearing from Raymond Craig, Miami gambler listed as a missing witness.

Committee representatives said possibly 20 witnesses have been subpoened.

## Child Survived Fall

NEW YORK, June 21, (AP) —A 15 year-old girl gave birth to a son in the bathroom of her apartment earlyto day, then threw the infant out the window to a roof 15 feet below, police reported.

Police found the child after the mother had been taken to a hospital. He was put in an oxygen tent and later was reported doing well.

## High Temperatures Over State Yesterday

Mid-summer temperatures pushed spring toward its final exit in Texas today.

Maximums rose to 116 degrees at Presidio Wednesday, 110 at Wink, 110 at Big Spring and 109 at Midland.

Some hot weather was due today.

Scattered thundershowers were predicted for the north portion of East Texas and in the Panhandle this afternoon.

Three centers, southeast Asia; Northwestern and central Europe; and northeastern United States contain 75 to 80 per cent of the world's population.

Between one fourth and one third of the population of the world is not included in official census counts.

# ASK MILDRED

Send your questions to ASK MILDRED in care of The Snyder Daily News.

I have a terrible time getting snaps sewed on so that they match evenly. Can you suggest a way to gauge them? Mrs. B. C. B.

In attaching snap fasteners, sew half the snaps along one side of the opening, spacing them with a tape measure or other guide. Then rub the fasteners with chalk and press firmly against the opposite side of the opening. These chalk marks will show exactly where the other half of the snap should go.

• • •

I frequently avoid using my food chopper for small jobs because it is so difficult to clean. Is there any simple manner of cleaning it? Mrs. E. C.

After using the food chopper, run dry bread or crackers through it. This will loosen food particles which tend to clog the chopper when put into water, and make it easier to wash.

• • •

Is it possible to freeze cheese and cottage cheese in my home freezer? Mrs. A. M.

Well-ripened cheese may be frozen, although cottage cheese does not freeze successfully. Solid, aged cheese should be cut in blocks of one-quarter to one-half pound ... wrapped carefully in cellophane. It will dry quickly after being thawed, and should be used as soon as possible.

• • •

I am planning to repaper part of my house, and find that much of the old paper must be removed. Is there some simple way to get it off the walls without damaging the wall itself? Mrs. M. W.

Try dampening the old wallpaper with warm water from ceiling to floor. If your vacuum cleaner has a spray attachment, use it to dampen the walls with hot, soapy water. Dampen a strip about the width of three or four rolls of paper and let it soak for 10 to 15 minutes, then spray a second time. The process may be repeated until the paper comes off easily, leaving the wall clean and smooth for new paper.

## Tuesday Night Club With Mrs. Weaver

Mrs. Jack Weaver, 2304 Thirtieth Street, was the hostess for the Tuesday Night Bridge Club.

Guests present were Mrs. Howard Bramley and Mrs. Robert Hargrove.

Others attending were Mrs. Lyle Alexander, Mrs. Fred Bullard, Mrs. John Boren, Mrs. H. F. Clark, Jr., Mrs. Weldon Kincaid, Mrs. E. J. Richardson, Mrs. Holman Odom, Mrs. Whit Thompson, Jr., Mrs. Joel Hodges, Mrs. Melton Vicary, Mrs. Max West, Mrs. Scott Casey, and Mrs. Clyde Hall, Jr.

Mrs. Boren won high, Mrs. Kincaid won bingo, and Mrs. Vicary received the traveling prize.

A light salad and cake with ice tea were served to the group.

The next meeting will be July 3 with Mrs. John Boren, Noble Hts. as the hostess.

**GOLF TROPHIES AWARDED**

Winners of th eCountry Club Women's Golf Association tournament Friday are shown above receiving awards from Mrs. G. B. Clark, Jr., center, president of the association. Mrs. R. F. Wasson, left, was first place winner, with Mrs. R. S. Yorgeson, right, second place winner. The trophies, silver plates, were given by Mrs. Edith W. McKanna. (Rawhide Photograph by Scott).

## TEXAS BRANDS

OO

The Two O brand dates back to early days on the Denton prairie, a section that has provided West Texas with some of its best and most successful cattlemen. The brand was given originally by J. C. Reynolds who sold it to J. W. Medlin and L. T. Clark before 1875.

In 1875 the brand and cattle of Clark and Medlin were moved to the open range country near Fort Belknap in Young and Archer Counties and were most important in 1895 under J. W. Medlin. Medlin and Clark were of the earlier pioneer cattlemen of Denton County, which has produced a score or more cattlemen of real leadership.

Medlin and Clark kept the cattle near Fort Belknap and saw the increase grow into enough cattle to eventually make them wealthy and leaders in the industry.

L. T. Clark was the father of Crit Clark who ranches extensively in Tom Green, Glasscock and other West Texas counties. Clark Senior was one of the cattlemen present at Graham, Texas, in the early '80s, when the Texas Cattle Raisers' Association was organized and was a member until his death about three years ago.

## Both Softball Games Are Rained Out Here

Two ball games to have been played in Memorial Park last night were rained out.

Sunray was to have met Parker Drilling Co. and Harris Pharmacy was matched against West Texas State Bank.

Tonight games are scheduled between Pan American and the VFW and the DeMolays and National Guard.

Mr. and Mrs. J. P. Lloyd and Mrs. W. W. Lloyd, 1904 Avenue M left Monday to spend their vacation in Fort Worth and in Coke County. Mr. and Mrs. Lloyd plan to visit in Arkansas before returning home.

## ERVICE ADDED

RUTHERFORD N. J. June 21 (AP) — A wedding consultant will be added to the teaching staff of Fairleigh Dickinson College this September.

The new addition will be qualified to advise brides to-be on plans, dress, music, ceremonies and receptions.

If asked, the consultant also will give honeymoon advice, the college says.

## Funeral Services For Former Resident Of Snyder, Mrs. Stokes

Funeral services for Mrs. Bill Stokes, 57, a former Snyder resident, are to be held at 2:30 tomorrow afternoon at the First Baptist Church.

Mrs. Stokes died yesterday in a Dallas hospital. She and her husband had made their home in Fort Worth in recent yeaers.

The Rev. Cone Merritt pastor of the Avenue D Baptist Church, is to officiate at the services. He will be assisted by the Rev. Jack O'Neal pastor of the Union Baptist Church.

Mrs. Stokes is survived by her husband; a son J. C. Stokes, and a daughter Mrs. Jake Price, both of Fort Worth; her mother, Mrs. Matilda Bentley of Snyder; three brothers, Elmer Bentley and Earl Bentley of Snyder, and Homer Bentley of Cleburne; four sisters, Mrs. Iva Rollins of Snyder, Mrs. Ora Brock of Plainview, Mrs. Deddie Biggs and Mrs. Frances Bourland of Grand Prairie.

Pallbearers will be Troy Bentley, Weldon Bentley, Bob Rollins, Melvin Brock, Donald Bentley and James Biggs.

Burial will be in Snyder cemetery under the direction of the Bolger-Barnes Funeral Home.

## Funeral Set For First GI Killed In Korea

BECKLEY, W. Va., June 21 (AP) — — A military funeral will be held here Sunday for a 19-year-old Pvt. Kenneth Shadrick, the first American infantryman to die fighting for the United Nations in Korea.

He was cut down by a burst of machine gun fire from a North Korean tank near Sojong last July 5 — just 10 days after the Reds invaded South Korea.

Shadrick lived at nearby Skelton, W. Va. His body was brought here Wednesday from Brooklyn. Burial will be in the cemetary of American Legion Post No. 32 at Beckley.

## PMA Group Studies Spray For Mesquite

Mesquite control by spraying from the air was discussed Monday when 20 farmers and ranchers were represented at meetings with the Production & Market Administration committee here.

Density appraisals and moisture checks are being made this week, in preparation for the spraying, which must be done by July 15.

Moisture conditions must be good and mesquite growth and foliage heavy according to Elsworth S. Jones new administrator here.

Under state laws spraying can not be done where fields of cotton or other broad leaf crops are within two miles of the block of mesquite to be sprayed.

Spraying cannot be carried out if the wind velocity exceeds 10 or 12 miles an hour because the spray solution will drift a considerable distance depending on the wind velocity and if it settles on cotton or any other broad leaf crop, it will kill the plants.

Represented in the meeting Monday were landowners controling 9,460 acres in this county. The included Oscar Rosson, Dan Gibson, Mrs. Dora Cunningham, C. V. Thompson, Parks Brothers, Noyle Carry, Jess Koonsman, J. S. Creswell, J. W. Helms, Weldon Johnson, J. N. Eicke, Jasper Helms, Alvin Koonsman, Holman Odom, J. B. Turner, O. M Martin, Buford, Browning, Leo H. Beaver, W. P. Herring, and A. W Scrivner

## Margaret Praised By London Daily Paper

LONDON, June 21. (AP)— The mass circulation London Daily Express said today 'all public men should pray for daughters like Margaret Truman.'

"This pleasant, unaffected young woman endears not only herself but her father to the millions in Europe," the newspaper said.

The Presidents daughter is in Paris now. She made a big hit with the British during a week's stay here on her European holiday. In Paris she lunched Wednesday with Gen. Dwight D. Eisenhower at his headquarters and went sightseeing.

Mr. and Mrs. J. G. Lockhart, 2507 Avenue V, had as week-end guests Mr. and Mrs. T. W. Lockhart and son, Bobby, of Lubbock, Tex.

## Sunray Promotes Three Men in This District

Three supervisory personnel changes have recently been made by the Sunray Oil Corp. production dpartment in their area headquarters here.

Loyd Peek, lease foreman, was promoted to superintendent for this area, which has 109 producing wells in Scurry, Kent, and Borden Counties, and is drilling on two more now.

Peek has been with Sunray seven years. Prior to coming to Snyder about two years ago, he was with Sunray at Big Spring.

John F. Binkley, engineer for this area, was promoted to district engineer of the Midland district. Mr. and Mrs. Binkley have been residents of Snyder for two years.

Frank Ficklin of Midland was promoted to area engineer for this area. He and Mrs. Ficklin will move to the four-house Sunray production camp six miles northwest of Snyder.

## Veteran of Austrian Occupation Is Visitor

R. T. Hailey, who has been stationed in Austria for 38 months, left Friday after visiting his mother, Mrs. Myrtle Abbott, 512 Twenty-eighth Street; a sister, Mrs. R. L. Grimmett, 1311 Avenue R; and another sister, Mrs. L. D. Franks, north of Snyder.

Hailey is now stationed at Fort Riley, Kan.

## Patrolman Resigns

Hubert D. Griffin, police patrolman, resigned from the police department Tuesday afternoon, R. W. DeHaas, captain, said. Griffin has been with the department for about three months.

## Eleventh Birthday Marked By Party

Marilyn Lampson, daughter of Mr. and Mrs. Ray Lampson, 3009 Thirty-ninth Street, Towle Place, celebrated her eleventh birthday yesterday with a party.

There were 20 guests. Games were played and refreshments served from a table decorated with a huge birthday cake and favors of peppermint umbrellas.

## PERSONALS

Mrs. T. J. Weaver, 1200 Twenty-eighth Street, had as a guest Sunday and Monday her niece from Bronte, Tex.

Mrs. R. L. Grimmett, 1311 Avenue R, has as a guest this week her niece, Arlene Bridges, from Lubbock.

Mrs. W. B. Lemons, 2504 Avenue X, has as a guest this week her sister, Mrs. C. C. Coalson, of Ranger, Tex.

Mrs. A. C. Leslie and Miss Thelma Leslie, 2711 Avenue W, are expecting Miss Violet Bradberry, of Abilene, to visit this week end.

Mr. and Mrs. Delma Baucum of the Humble Camp, had as guests over the week end relatives, Mr. and Mrs. Garland Adkins, of Odessa.

Mr. and Mrs. P. E. Lewis, West Thirty-seventh, spent the week end visitipg their daughter, Miss Earlene Lewis, in Wichita Falls.

# A-Bomb Peril To Human Life Is Concentrated In 1 Minute

NEW YORK, June 21. (AP) — The public is being confused these days by many conflicting statements about A-bombs. Here are some of them:

1. The area under an A-bomb explosion is dangerous for hours, days — maybe weeks. (On the other hand, it is said that two minutes after an explosion one can enter the area immediately underneath without danger from radioactivity.

2. Ships at Bikini were so contaminated they could not be cleaned.

3. After each bomb a radioactive cloud circles the earth several times.

4. The radioactive cloud from a single bomb, exploded over the Pacific, could destroy all life in the United States.

What is the truth? The No. 4 statement is not true. It never was anything except a theory. Each of the other statements can be true or false, depending on circumstances.

### THREE STAGES

The confusion arises because radioactivity from the A-bomb comes in three stages. First is the flash and ball of fire, emitting gamma rays (they are the same as X-rays). Second, the earth, buildings metal in your pockets or teeth, may become radioactive by transmutation from the bomb's flash. Third is dust and other things that may fall like rain out of the bomb cloud. After an underwater bomb, the rain is real and all of it radioactive.

Only one of these radioactivity perils is a major hazard. This is the flash and ball of fire. This danger is all over within one minute. This gamma ray peril reaches out about a mile-and-a-half from the bomb, in all directions. Up to a mile it can make you sick enough to die in a week or more. After a mile-and-a-quarter it does not do much harm.

It is always assumed that the bomb will not be exploded close. The reason for this assumption is that present A-bombs have to be detonated at around 2,000 feet altitude to knock down the largest number of buildings and to set the most fires. At that altitude there is no transmutation on the ground, and no risk from radioacivity right under the bomb after the first minute.

### DUST DANGERS

Dust dangers are tricky. At Bikini, on the deck of the German heavy cruiser Prinz Eugen, I picked up tiny peces of metal that had vaporized from warships directly under the bomb. That metallic vapor had been carried downwind over the Eugen. This metal was dangerously radioactive (some of mine had a half-life of nine days, which means very high radioactivity). But I was in no danger because I did not keep my souvenirs close to my person.

After the New Mexico bomb, radioactive dust fell on a herd of cattle, causing hair to fall out of their backs. Some of it never grew again. But no human beings were hurt by this dust. If they got any itL was brushed off n time.

At Bikini after the underwater bomb, ships decks were so heavily radioactive that a man remaining there five days would have received a fatal dose of gamma (or X) rays. Yet the day after the bomb, men boarded some ships briefly, without harm. They had to stay a while to be hurt.

### RADIOACTIVE SHIPS

It is true the ships were not decontaminated. But they could have been. They were not, because decontamination would have been very expensive.

The radioactive cloud — which even today is still circling the earth after the Eniwetok tests — is a cloud only by a remarkable stretch of imagination. The cloud is a vast number of radioactive particles, mostly from the metals and the split atoms of the bomb itself. There are countless billons. They are invisible.

The cloud has one great value—for our enemies in particular. They can detect it, just as we can. Just as we can detect an A-bomb that anyone else explodes. And just as we or others can detect a hydrogen bomb and distinguish its cloud from that of the A-bomb alone.

# Dallas Edge Is Saved By Fort Worth Victory

(By The Associated Press)

There is no love lost between Dallas and Fort Worth, but today the citizens of Dallas have a kindly feeling toward their neighbors to the west.

The Fort Worth Cats gave the Dallas Eagles a valuable assist in the Texas League pennant chase Wednesday night. They trimmed the Houston Buffs in a neat pitchers' duel to save the lead for Dallas.

The Cats edged the Buffs 1-0 while Dallas was losing to the San Antonio Missions, 10-4. Houston trailed the Eagles by a half game at the end of the evening's play.

The victory gave the Padres two out of three games with Dallas to trim the Eagle lead by a full game.

Houston had taken two in a row from Fort Worth to cut the lead to a half game but couldn't make it three with the chips down. Fort Worth used three pitchers but gave up only four bits and waltzed off with a thrilling decision.

Beaumont exploded for four runs in the second inning to beat Oklahoma City, 4-1 and hang on to fourth place. Clarence Beers pitched the Roughnecks to the victory, scattering nine hits. His home run was the big blow of the game.

Tommy Reis, Tulsa relief pitcher, squeezed Alex Grammas home with a perfect bunt in the last of the 10th to give the Oilers a 6-5 victory over Shreveport.

# Favorite Up In Golf Meet

BROWNWOOD, June 21 (AP) — Second round matches in the West Texas Woman's Golf Association Tournament today found favorites still shooting for the coveted crown. Favorites, including Pat Garner of Midland, Medalist, and Mrs. C. D. Lee of El Paso, defending champion, won as expected in first round play.

Pairings for today match Miss Garner and Mrs. Sybil Flourney of Midland, Mrs. Bill London, Brownwood, and Mrs. W. R. Wrisler, Abilene; Mrs. Herschel Ezell Midland, and Mrs. R. E. Winger, Fort Worth, and Mrs. Lee and Mrs. T. L. Sampson, Lubbock.

The Colonial Club in Fort Worth was named the site for the next tournament at a business sesion Wednesday. Mrs. London was elected president of the association, succeeding Mrs. O. B. Stephens of Abilene. Mrs. Ezell was named vice president and Mrs. Howard Emiston of Brownwood, secretary-treasurer.

# Eight Marines Killed In Camp

CAMP LEJEUNE, N. C., June 21. (AP)—Two defective mortar shells fell short and burst into a company of advancing Second Division Marines here Wednesday afternoon, killing eight and injuring 23.

Witnesses said the mortar gunners saw that the shells were defective a split second after they were fired during a routine training exercise at this big Marine base in eastern North Carolina about 50 miles northwest of Wilmington. The gunners leaped to field telephones and notified a forward observation post. But before the warning could be relayed, the shells exploded among the forward group of the weapons company.

Bitter members of the company told a reporter they did not blame the mortar section, but felt that defects in the ammunition could have been noted by careful inspection.

General Clifton Cates, Marine Corps commandant, was visiting the base when the accident took place about 3 p.m. (CST). He ordered an immediate investigation and a board of inquiry was appointed.

The casualty [illegible] expected to be made public today. An officer said of the 23 wounded, 12 were in serious condition.

There were no officers among the casualties.

# Amarillo Takes Two In A Row

(By The Associated Press)

The Amarillo Gold Sox are showing signs of snapping out of the doldrums that has kept them in the West Texas - New Mexico league cellar all season.

The Gold Sox made it two in a row over Pampa with a 7-3 decision Wednesday night. It was their 18th win of the season and left them 26 games behind the leading Abilene Blue Sox.

The Blue Sox continued their winning ways with a 16-6 victory over Borger. Sam Hunter survived a five-run sixth inning to notch the win.

Albuquerque, 10 days ago the club threatened to overtake Abilene, lost another to Lubbock. The Hubbers took a 4-0 win on a four-hitter by Bob Michaels to drop the Dukes 8½ games off the pace. shortage of pitchers, brought in Outfielder Pete Trabucco to start against Lamesa. He was raked for 12 runs in less than two innings and Lamesa went on to wham three others for a 20-9 win. Ted Wyberanec was the beneficiary in the slugfest.

# Deadline For Price Ceiling Signs Is Near

At the conclusion of a price clinic for businessmen yesterday at the Chamber of Commerce office, W. W. Wolverton, representing the Fort Worth District OPS, announced a summary of dates for filing reports and posting ceiling prices and signs required by price regulations.

"Retail beef price charts must be posted by June 25," Wolverton said. "The time has been extended from June 18 in order to assure list beef ceiling prices by cut and grade as provided in the regulation.

July 1 is the last date for retailers of consumer goods under CPR 7 to mark and tag items with ceiling prices, said Wolverton.

Sales of items covered by this regulation are not legal after June 30, unless the retailer filing a price chart has received acknowledgement of its receipt by the OPS.

July 1 is also the date on which retailers under CPR 7 must have posted a sign stating, "the prices of merchandise in this store are no higher than the OPS ceiling prices of the articles."

### DEADLINES PAST

Some deadlines for filing OPS reports and posting ceiling prices have past, such as service businesses which were required to post ceiling prices and make base period price reports before June 16. May 31 was the deadline for retailer's reports under CPR 7.

Others whose deadlines have passed are restaurants and other food and drink establishments, gaoline service stations who are required to have ceiling prices posted now.

Penalties are provided for noncompliance with price stabilization regulations. The maximum is one year in prison, a $10,000 fine, or both.

Businessmen who have not filed necessary reports, or who need assistance in filling were urged to contact the Fort Worth district office.

# Wayland Cage Series With Mexican College

MEXICO CITY, June 21 (AP) — The pioneers of Wayland College, lead tonight in a basketball series with Mexico City's Necaxa.

The Poneers lost 52-36 Wednesday night. At the half the Mexicans led 31-17.

Tuesday night the Texans downed the Mexico City Cubs 41-36.

# Odessa Man Into Semi-Finals At Oklahoma

OKLAHOMA CITY, June 21 (AP) — Bill Maxwell of Odessa faces Don January of Dallas in the semi-finals of the Oklahoma City Invitational Golf Tournament here today.

In the other match Leonard A. Young plays Joe Conrad of San Antonio.

Maxwell defeated Johny Johnson of Oklahoma 3 and 2 Wednesday in the quarterfinals. January defeated E. J. Rogers Jr. of Oklahoma City, 2 and 1.

Conrad defeated Jack Martin of Oklahoma City, 7 and 6.

TWO Vitally Important Things to SEE AND KNOW BEFORE YOU MAKE ANY TIRE INVESTMENT!
SEE AND KNOW! The tire of many lives in one—of new mileage life and safety, delivering year-round, all-weather skid protection and stopping power. The great new U. S. Royal Master.
SEE AND KNOW! The New U. S. Royal Life-rube—the Lifetube made with NYLON, strong as ordinary tires, doubling the protective strength of tires—bridging the blowout possibility, preventing its occurrence.
SEE AND KNOW! This utmost in tire and tube protection—skid protection—blowout protection, and life protection entirely new in riding and driving experience.
*SPECIAL NOTE—If there is the slightest delay in filling your order, your U. S. Royal Dealer will render you expert service on your old tires 'til your new tires arrive. See him today!
Special Notice! ROYAL MASTER OWNERS!
Remember that you own the most valuable of all tires. Remember that there are three deep levels of life and safety in every tire. Remember that at each level of wear all of your original ROYALTEX tread and traction safety can be fully restored and renewed without recapping or anything of the sort.
Don't Neglect or deny yourself this advantage which only the Master supplies. Let your U. S. Royal Dealer keep you in fresh, original non-skid security when other tires are giving up their lives.

GALLUP POLL

# Public Favors Using 'Voice' To Help Win the War of Ideas

BY GEORGE GALLUP
Director, American Institute of Public Opinion

PRINCETON, N.J., June 19 —A substantial stepping up of American propaganda efforts abroad would find widespread public support in the United States, judging by a representative sampling of opinions just completed by the American Institute of Public Opinion.

In fact, a Congressional appropriation equal to as much as 10 per cent of the present military budget of $50 billion would not be considered excessive for the purpose of telling our story abroad.

This year the U. S. is spending some $120 million on radio, press, film and cultural efforts in the "war of ideas" as compared to the $50 billion for arms.

The survey asked each voter two questions, the first being:

"Do you think the United States should expand (increase) our efforts to tell the world our side of the story and to carry on a more aggressive (forceful) campaign through the Voice of America to win people away from Communism?"

| | |
|---|---|
| Should | 73 |
| Should not | 11 |
| No opinion | 16 |
| | 100 |

The next question was designed to find out how many voters would accept a huge increase in the present budget, an increase that would bring the total spending for this purpose to as much as $5 billion:

"It has been suggested that we spend about 10 per cent of our defense budget of $50 billion for fighting the 'war of ideas.' Do you think this is too much, too little, or about right?"

| | |
|---|---|
| Too much | 25 |
| Too little | 6 |
| About right | 42 |
| No opinion | 27 |
| | 100 |

• • •

**46 Per Cent Know About "Voice"**

Persons who are the best-informed about our present radio broadcasting activities abroad are more in favor of stepping up our efforts in the "war of ideas."

Each voter was asked whether he happened to know what the Voice of America is and what it does.

Those who gave a reasonably correct, well - informed answer were more in favor of increasing our propaganda activities abroad than those who are not familiar with the work of the Voice of America.

Both groups however, endorse the idea of a bigger campaign abroad to combat Communism.

A total of 46 per cent correctly described what the Voice of America is, while the rest either did not know or gave vague or incorrect answers.

"Voice" programs are, of course not available to American radio listeners.

• • •

**Sen Benton's Proposal**

Sen. William Benton, (D) of Connecticut, has proposed that the Voice of America be detached from the State Department and run as a separate agency under the President.

He argues that its programs are too much tied to the official policies of the State Department and that it could do a more effective job if it were divorced from diplomacy and given a freer reign.

The Institute has sounded national opinion on Senator Benton's proposal. The results will be reported Friday.

GOOSE GIRL — Marcella Roulette, 19, Los Angeles City College student, shows one of poses she will tend at infield post during Summer meeting of Hollywood Race Track, Cal.

## Union Stakes Offset To Nolan Discovery

Union Oil Company of California No. 2 Bob Campbell estate is to be a new south offset to the discovery of the Lake Trammell field of North Central Nolan County.

Dhillsite is in section 14X-T&P. survey.

Projected depth is 5,500 feet. Rotary tools will be moved in and drilling will begin immediately.

No. 1 Campbel, discovery of the field, was completed for a 24-hour flowing potential of 76.8 barrels of oil.

The new United Nations Demographic Yearbook estimates the population of the world at 2,400,000,000.

## Borden Farm-to-Market Road Hearing Is Set

AUSTIN June 20 (AP) — Six counties have scheduled requests for public hearings before the state highway commission here Thursday.

Major topic will be farm-to-market roads.

Delegations from Knox Atascosa, Glasscock, Collin and Borden counties have indicated desire to discuss such projects.

A delegation from Chambers County is expected to discuss improvement of State Highway 73.

For generations the Russians have been known to Manchurians as "the big noses."

## Nos. 177-180 Fuller Are to be Drilled

The Texas Co. has filed application to drill four tests on the P. L. Fuller leases in the Cogdell field of Scurry County.

Texas No. 177 Fuller has been staked 763 feet from south and 1,989 feet from east lines of section 705-97-H&TC, about 17 miles northeast of Snyder.

Texas No. 178 Fuller is 8,603 feet from north and 1,987 fete from west lines of section 650-97-H&TC, 16 miles northeast of Snyder.

Texas No. 179 Fuller is 1,988 feet from south and 66 feet from east lines of section 563-97-H&TC.

Texas No. 180 Fuller is 63 feet from south and 1,999 feet from east lines of section 552-97-H&TC and 13 miles north of Snyder.

## New Outpost Staked In Northwest Reagan

Stanolind Oil & Gas Co. has staked location for a one mile south outpost to a recent Sprabery strike in Northwest Reagan County.

It is No. 1 Sadie J. Weddell of San Angelo and is in section 4-GC&M.

Rotary tools will be used to drill to projected depth of 8,500 feet, be giving at once.

The project is one mile south and slightly east of Blackwod & Nichols Co., No. 1 Mrs. Sadie Weddell, completed as a Sprabery discovery in May for a 24-hour potential of 209.3 barrels of oil plus 48 barrels of water.

# Nobody Likes Inflation, But Controls Are Unpopular, Too

By SAM DAWSON

NEW YORK, June 20, (AP) — The housewife who hopes for lower prices and the producers and merchants who say they are being hamstrung by controls are squarely at odds again today.

Congress talks of hog-tying effort to roll back the prices of beef clothing and shoes. It talks of making it easier for dealers to sell autos and household gadgets on time and of allowing rent increases: in short of relaxing inflation controls that have aroused bitter opposition on many farmers manufactures merchants and landlords — good voters all.

No one has a good word for inflation. It sends the cost of living to painful heights and it cuts the real value of savings accounts, insurance polices, "E bonds and pensions.

But a lot of people enjoy inflation in practice. Pay checks are fatter — even if they buy less per dollar at the store. Income from things they grow and produce is greater. Inflation looks just like "good times" until the bubble bursts.

Deflation — or a drop in the cost of living and a rise in the value of the dollar — looks mighty tempting to everyone on paper. But when you try to bring it about through controls and credit curbs on pay raises and rollbacks in prices, deflation is about the most unpopular thing around.

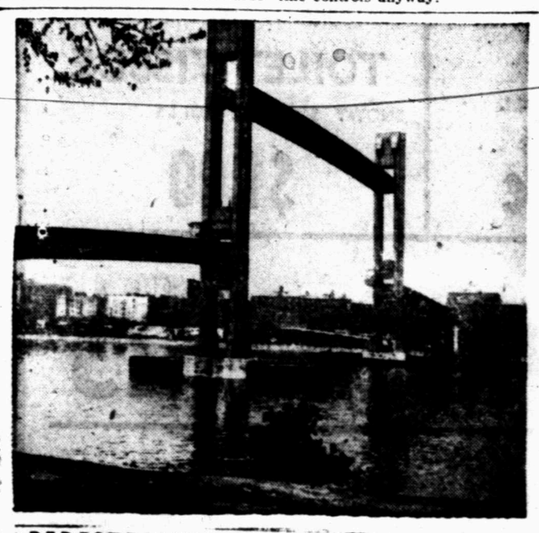

Those who favor the administrations plea for controls argue:

1. Prices of many commodities have soared out of reason and must be curbed or rolled back.
2. Buying on time was increasing so fast that credit totals were feeding inflation and increasing prices.
3. Inflation since January of 1950 added $21 billion to the cost of living.
4. The real force of inflation — through huge government spending for rearmament — is to hit this coming fall and winter.

Those who favor the hamstringing of controls argue:

1. Prices are starting to fall naturally. Commodity prices have slipped since March.
2. Production is rising. Enough goods for both the military and the civilian are beng produced now and can be produced next year.
3. Shortages of consumer goods didn't appear in spite of all the cries of "wolf wolf!
4. Consumer demand is much less than producers thought it would be.
5. Present controls are too severe —they are hurting merchants and not helping consumers.

And then Americans just don't like controls anyway.

# NEWS FROM FLUVANNA

By MRS. TENNIE J. CREEK

Mr. and Mrs. John A. Stavely met their children in Breckenridge Sunday for a visit. Mr. and Mrs. W. R. Craft and Miss Agnes Craft accompanied them.

Orville Mathis, now stationed at Camp Hood, spent Saturday night with his parents, Mr. and Mrs. W. F. Mathis.

Mr. and Mrs. Wayland Mathis and Mrs. J. I. Boren went to Lubbock Sunday to visit Mrs. Mathis' parents, Mr. and Mrs. J. T. Sullivan, and Mrs. Boren's daughter, Mrs. J. C. Ross.

Bill Clark, of the Clairemont area visited here Wednesday.

Mrs. W. F. Mathis and Mrs. V. A. Wills went to Lubbock Friday to visit their sister, Mrs. J. C. Ross. Their mother, Mrs. J. I. Boren, returned home with them after having spent the week there.

Mr. and Mrs. Emit Boren visited his mother here Sunday.

Mr. and Mrs. Bill Willard, who have been visiting her parents, Mr. and Mrs. Mert Jones, have gone to Camp Pendleton, Calif., where Mr. Willard will be stationed. Don Jones who is enrolled for summer work at Texas Tech, was home over the week end.

Mr. and Mrs. C. B. Bley went to Bonham Wednesday.

M. B. Noel and Curtis Noel went to the livestock aucton in Fort Worth last week end.

Mr. and Mrs. W. H. Jones went to Lubbock Tuesday.

Mrs. A. L. Odom and her brother, Buster Robertson, went to Vernon to visit relatives recently. Mrs. Robertson, who had been visiting there, returned home with them.

Mr. and Mrs. C. E. Browning and son, Vernon, were in Lubbock on busines Tuesday.

Mrs. Chum Owens is in Abilene with her daughter this week.

Mrs. Bill Hurley of Paducah and Mrs. A. C. Boren of Paducah visited here recently.

Mr. and Mrs. Frank Farquhar spent the week end in Big Spring with their son, Tommie Farquhar, and family.

Mr. and Mrs. M. E. Boren of Lamesa spent the week end with relatives and friends here.

Mr. and Mrs. T. M. Hughes and Mr. and Mrs. Keith Collier were guests of Billy Wayne Thompson in Snyder Sunday.

Mrs. J. G. Landrum is in Big Spring with Mr. and Mrs. Fred Winters. Mr. Winters, who underwent an eye operation, is reported recovering satisfactorily.

Mr. and Mrs. V. L. Franklin and children have returned home after a two-week vacation.

Mr. and Mrs. Chester Banta of Odessa, visited Mrs. Banta's parents, Mr. and Mrs. C. E. Kellner, Sunday.

Mr. and Mrs. J. S. Norton have returned home from Kerens, Tex., where they have been visiting.

Mrs. O. S. Wills returned home Sunday from Ozona, where she visited her daughter and family.

Mr. and Mrs. Frank Mull of Seagraves visited Mr. and Mrs. Bill Mull Sunday.

Mr. and Mrs. J. W. Warren of Big Lake, and Mrs. and Mrs. Jim Sullenger, Jr., and children were Sunday visitors in the Robert Warren home.

Mr. and Mrs. D. A. Perry and children of Odessa spent the week end visiting Mrs. Tennie J. Creek and Mr. and Mrs. J. R. Jones.

Mrs. Julie May and Mrs. Lizzy West of Dallas are here visiting their parents, Mr. and Mrs. J. T. Collier.

Jackie Ray Hunnicutt and Don McDonald left Tuesday for Hallettsville to attend a rodeo.

Mr. and Mrs. E. C. Browning made a business trip to Lubbock Tuesday.

The Rev. John Buchanan, formerly of Fluvanna, has been visiting here ths week. He is now living in Big Spring.

Lee Lavender and Alford Browning made a business trip to Sweetwater Wednesday.

## Longhorn Loop In Close Fight

(By The Associated Press)

The interest in the Longhorn League centers around a torrid fight for the last three positions in the first division as San Angelo holds a comfortable lead.

Second place Vernon is 9½ games behind San Angelo but only two games in front of fifth place Big Spring. Packed in the two-game spread between Vernon and Big Spring are Odessa and Roswell. Both very much in the scrap.

Roswell and Odessa fought through 12 innings Wednesday to an 11-11 tie. The game was called at the end of 12 because of the curfew.

Vernon was defeated by San Angelo, 6-4 to tighten the fight in the middle bracket. Big Spring outlasted Sweetwater 12-9 to close in.

Midland blasted Artesia 10-3 in the other game, strictly a second division battle.

Roswell scored twice in the ninth inning to tie Odessa then got another pair in the top of the 12th as time was running out. But Odessa got a brace of tallies in the last half of the 12th to gain a standoff.

Indio Beltran notched his ninth win of the year as San Angelo beat Vernon. A hit and two errors provided the winning run.

Sweetwater scored early but fell apart in the middle innings to let Big Spring take the decision. Midland counted seven runs in the third inning to smother Artesia.

## Laredo Still On The Skids

(By The Associated Press)

The Laredo Apaches, playing under new ownership, continued their skid in the Gulf Coast League lost to the league leading Corpus Christi Aces 6-3, as they were being taken over by a group of Laredo business men.

It was their 11th straight loss, a streak that has seen the club plummet from a first place contender to the cellar in the Class B League.

Second-place Harlingen blasted Port Arthur 13-4 to increase its lead over the third place club but couldn't gain on the leaders. Brownsville slipped further behind by losing to Lake Charles 6-2.

Galveston eased by improved Texas City, 7-6 to gain a .500 average in fourth place.

## 9 Pitchers In Big State Tilt

(By The Associated Press)

When the Big tate league clubs get together there is rarely a dull moment.

Take the Waco-Wichita Falls game Wednesday night.

The Pirates and the Spudders entertained Wichita Falls fans with a "pitchers' battle." They battled through 10 innings and for three hours and 35 minutes before the Spudders gained the decision. The score: 12-11.

Nine pitchers took part in the battle with 30 hits being given up. Wichita Falls used five hurlers and got 16 of the 30 hits.

First-place Gainesville spanked hapless Tyler 11-2 with Jim Gleason serving up a five-hitter. Gainesville blasted three East Texan hurlers for 11 hits.

Lee Roy (Stumpy Jones, Austin southpaw hung up his 12th of the season as he pitched the Pioneers to a 7-2 win over Texarkana.

Temple widened its second place lead to four games with its sixth straight victory. The Eagles whammed Sherman-Denison 10-7.

# Furr's Super Markets

# Fence Me In

Fences have become a craze with the homeowners in Highland Park — many of whom have small children whom the parents wish to keep safely in the backyard.

The addition is now crisscrossed with scores of property-line markers—picket fences, corral type, tall plank fences, steel, brick, and wire.

One new type is made of planks staggered on ether side of a 2 by 4 framework. These staggered planks give the same privacy as a solid board fence, but permit much more air to pass through.

The fences provide privacy for back yards, and give some protection for flowerbeds. They also add a decorative touch with colors blending or contrasting with the colors of the house.

One of the most unusual and ornamental walls is one of Mexican brick at the home of Mr. and Mrs. Hunter Pendleton at the corner of Highland Drive and Avenue V, shown above. The brick was imported from Mexico after Mr. and Mrs. Pendleton visited there and admired similar fences around Mexican homes. The brick is made near Piedras Negras, Coah.

The fence in the center is reminescent of old-fashioned corral fences made of dark wood to blend with the finish of the house. The fence at the lower left is the more common picket fence, high enough to keep young children safely inside. (Rawhide photograph by Scott.)

# Long Names, Long Limbs Asset to British Fashion

By DON SCHWIND
Associated Press Staff

LONDON — Britain will flash an old ace in the hole — titled beauty — this year in another try at plunking the women's fashion crown right down in Bond Street for keeps.

The fashion houses are squaring off for another of their semi-annual efforts to take buying eyes off Fifth Avenue and Rue de la Paix and focus them here.

And they're drawing heavily on two lush backlogs of shimmering Countesses and Ladies — their big reserve of home-grown peaches-and-cream lovelies and a parade of continental beauties, many of them here for economic or political reasons. That is, they're either broke or glad to be out of countries where the totalitarian ax-man is no respector of a swanlike neck.

TAXES HELPED

The pasteing that Britain's tax-collectors have been handing the upper clases is a big help. The girls are flocking into the modeling and gown display business in droves. With typical British upper-class candor most of them admit it's the money they're after.

The British "rag-trade" as local cloak-and-suiters designate themselves, is already opening the doors for showings of autumn styles.

To do it, they've got some formidable titled help.

A top-lines is Hungarian-born film actress Constance Esterhazy, 26, five feet-seven, with a 37-inch bust and 24-inch waist.

The tall raven-haired noblewoman is modeling as a sideline to picture work in Britain "to supplement my income."

NO UNDERWEAR

This year, she'll be modeling anything but underwear. She explains the ban on bra and pantie work: "I've a thing about it." The Countess, whose family reaches back into Hungary's Twelfth Century, came to London in 1946 from Vienna, where she was educated.

The Viscountess Boyle, Marchesa Caterina Imperiali de Francavila, is one of the British fashion worlds "career girls". Her husband, the Viscount Boyle, son of the Earl of Shannon, has plenty of noble blood but no estates. Says blonde Viscountess Boyle:

"That, dear boy, is why I work.'

The Viscountess is billed in fashion circles as "a typical English beauty" with her smooth peaches-and-cream complexion, lithe, small-breasted lines, and sleek blonde hair.

"PIN MONEY"

One of the trade's first-line local products, the honorable Mrs. Suzane Woodhouse, specializes in sports clothes and makes no bones about her reasons for tackling the job: "pin money."

She's been/the wife of the Honorable David Woodhouse, elder son of Lord Teddington, for nine years Slim, five feet five, brunete.

Britain's galaxy this season also includes: Lady Evelyn Broughton, Lady Rendlesham, Lady Strathcarron, the Honorable Sally Anne Vivian, Lady Penelope Dixey, Lady Irene Craven and a brunette continental special, slinky-eyed Comtesse Alain de la Falaise.

I SAY, OLD BOY!

Among the younger set keeping one foot in London's upper crust and the other on the fashion show ramps is 18-year-old the Honorable Jenifer Lowther, daughter of a peer. Tall, slim, with short curly brown hair, she boasts a 22-inch waist. For her modeling career will cap this year's debutante season.

In fact, so many young blue-bloods are passing into the fashion trade in London this year that the capital's debutante pool is fast becoming the outstanding source for agencies seeking first class talent.

London's leading modeling school — run by a top-notcher, Burmese-born Seignon — is putting them through their paces by the dozen these days.

Old Britain may be short of steel and sulphur but of those big long girls — "we've plenty, old boy. Plenty."

Mr. and Mrs. J. F. Lammert east of Snyder were hosts Tuesday to Mr. and Mrs. Tollie Herring and two children and Mrs. Emma Lammert of Amarillo Tex.

Mrs. A. V. Lawrence, 3300 Twenty-third Street is recovered from a recent illness in her home.

Mrs. Ola B. Leath 2612 Avenue R recently had as guests her relatives, the Rev. and Mrs. Judson Jones and son, another nece, Mrs. Myrtle Hamrick of Birmingham Ala. They were on their way to the Southern Baptist Convention in California.

Mrs. George W. Lee 1508 Twenty-first Street has as guests a daughter Mrs. E. L. Gilmore and three children of Baird Tex.

Miss Joy Patton, 401 Thirtieth Street, had as guests Tuesday and Wednesday relatives, Mr. and Mrs. Jack Hufford of Richmond Calif.

Mr. and Mrs. B. F. Fisher 408 Thirtieth Street were visite Tuesday by relatives Mr. and Mrs. Norman Lawrence of Chicago who planned on going to Florida to visit other relatives before returning home.

Mrs. N. T. Lee 905 Twenty-third Street and E. L. Fikes Jr. 901 Twenty-third Street went to Sweetwater Wednesday.

Mrs. Stanley Gray, 905½ Twenty-fifth Street, visited relatives in Brownwood Sunday.

# Kenny Statements On Vaccination Ban Cannot Be Proved

By FRANK CAREY
Associated Press Staff

WASHINGTON, June 21. (AP) — So far, at least, statistics do not appear to show where the Kenny treatment stands in the fight against polio.

Officials of the National Foundation for Infantile Paralysis say that results so far reported from Kenny institutions appear to be about the same as those obtained in various clinics throughout the country where methods differing in at least some respects from the Kenny treatment are employed.

But foundation officials point out that statistics on treatment are difficult to appraise because of variations in such things as the severity of the attack, age groups involved, possibilities of recovery without any special treatment and other factors.

Sister Elizabeth Kenny, originator of the system of treatment that bears her name, said in an interview last summer that the National Foundation is "fifty years behind in treatment, knowledge and everything else concerning polio."

Outspoken statements like that have made doctors bristle over the years since the Australian nurse first came to this country.

In 1948 Dr. Hart Van Riper, medical director of the National Foundation, declared at a congressional hearing:

"Miss Kenny is not a physician. Miss Kenny has made statements that certain things do not exist which she denies exist when persons die of p...myelitis and come to autopsy and examination of the nervous tissue is made."

In Washington last summer Sister Kenny said that "dual vaccination" against diphtheria and whooping cough had been "prohibited" in Britain and Australia pending investigation of a belief by certan doctors in both countries that such combined vaccination produces polio.

This reporter wrote to the doctor in Australia whom Sister Kenny had mentined as the source of the information. A colleague of his replied that to the best of his knowledge dual vaccination against diphtheria and whooping cough had "not been banned in any country nor it is likely to be."

He added though, that "during the height of a poliomyelitis epidemic immunization against either diptheria or whooping cough is discouraged in Victoria (an Australian state) and, I believe, in the United Kingdom."

Apparently referring to Sister Kenny's statement that some doctors in both countries believed that dual vaccination "produces" polio the doctor said:

"Some British and Australian medical men believe that during an epidemic of poliomyelitis (and he underlined those five words) injection of any immunization agent may convert what would have been a case of non-paralytic poliomyelitis into a case showing paralysis."

This reporter relayed the substance of the doctor's reply to Sister Kenny in Australia and asked for any further comment.

She replied that one British doctor had told her that "dual vaccination must be condemned as far as he was concerned." She also said an investigation had been conducted in Czechoslovakia on the same matter and that a doctor in Prague "informed me that dual vaccination was not desirable."

Tomorrow: Sister Kenny battles on.

## Deportation Order Is Issued Against Hauser

SEATTLE, June 21. (AP) — Hans Hauser, husband of the former Virginia Hill who testified before the Kefauver Crime Committee must leave the United States by September 1 or be deported.

He is native of Austria and came here from Chile in 1940.

The Hausers were married last year and moved to Spokane several months ago. They have an infant son.

Friends reported recently the Hausers had obtained visas and planned to fly to Santiago Chile within the next three weeks.

Mr. and Mrs. Cravan Martin, of Odessa, are planning on moving into their new home in Highland Park July 1.

Mr. and Mrs. Earl Fish, 290... Avenue W, left yesterday to spend their vacation in Ruidoso, N. M.

# THE STARS

By BOB THOMAS

HOLLYWOOD, June 21 (AP) — How would you like to have Shelley Winters throw her arms around you and say, "Hello, Tom,,?

Sounds like fun, huh? Except if your name happens to be Bob, as in my case. Miss Winters' confusion is shared by a number of people in Hollywood. It stems from a similarity they claim exists between myself and Tom Brady, Hollywood correspondent for the New York Times.

The confusion will soon be lessened. For Brady has chuched the works. He has resigned his post to spend a year in France studying French literature. Since he has been one of the most astute observers of Hollywood since 1938 (minus three years in the Navy), I asked him if he had any parting thoughts on the future of the motion picture industry.

"I think the future of the motion picture industry is going to be closely connected with the television industry," he replied. "Right now the movie business is in the position of a man who has found the girl and wants to get married, but can't afford the wedding ring. The producers want to join TV but can't figure out the way to make it pay.

"No sponsor can afford to pay the price for a new feature picture. It is up to both industries to devise a method for the public to foot the bill."

What will happen to all the movie theaters?

"They will probably go by the board. There will still be showcases like the Radio City Music Hall, but most other theaters will be in jeopardy. However, I don't expect this to happen soon. Despite the divorcement of production from theaters, there are still certain real estate considerations."

# Marine Strike In Sixth Day

NEW YORK, June 21 (AP) — Idle seamen have brushed aside two wage boost offers to continue their orginal demand for a 40-hour week and send the American shipping tieup into its sixth day.

After a joint negotiating session between shippers and CIO unions broke up late Wednesday night, a union spokesman said the length of the work week at sea "is the main thing holding us up."

Meetings conducted Wednesday by federal mediators marked the first joint sessions between representatives of 40 East and Gulf Coast shipper and union official since the work stoppage started last Friday at midnight.

The CIO seamen involved are members of the powerful National Maritime Union and the smaller Marine Engineers Beneficial Association in East and Gulf ports and the American Radio Association on the West Coast.

The West Coast deadlock is between the 700-member ARA and the shippers' pacific maritime association. The employer association has reached agreements and extended contract talks with other seamen's union in that area. However, under maritime law, ships cannot sail without a radio operator.

## Diamond M Completion

Lone Star Producing Co. has reported completion of the No. 3 C. T. McLaughlin in the Diamond M-Canyon field.

The well made 33.84 barrels of 44 gravity oil on a 24-hour pumping test. Fluid was 18 per cent water. Gas-oil ratio was 870-1. The hole had been treated with 1,000 gallons of acid. Casing was perforated at 6732-6749 feet.

The new well is in section 184-97-H&TC.

## Tentative Order Of Bond Forfeiture Given

A jury trial was postponed yesterday in the county court case of Jack A. Kruse, about 28 years old, charged with driving a motor vehicle while under the influence of intoxicating liquor, and the defendant's bond of $250 was tentatvely ordered forfeited because he failed to appear for the trial.

Edgar Taylor, county judge, dismissed the jury panel because of the absence of Kruse, ordering his bond forfeited effective July 9 if he did not appear for trial by that date.

## Field Extender Seen In Midland Wildcat

Sohio Petroleum Co. No. 1 H. T. Boone Estate wildcat in the undeveloped area between the Tex-Harvey and Germania fields of East Midland County has given more proof that the two fields will join.

The project is now at total depth of 7096 feet in the Spraberry with 3500 feet of clean oil in the hole. The Spraberry was topped at 7038 feet.

Operator is now preparing to swab and test open hole natural.

The project is one and three-quarters miles north of the closest completed well in the Tex-Harvey field and three and one-half miles south of the Germania field proper.

However it is only one and three-quarters miles southeast of James H. Snowden and Associates No. 1-B McClintic recently completed Spraberry producer.

## Martin Wildcat Plugged On Depth 237 Feet

In Southwest Martin County a wildcat location which has been reported about six weeks ago has been abandoned after the operators had spudded to 237 feet.

The project was Wiggins & Hyde Cascade Petroleum Co. and Combined Oil Co. No. 1 E. M. Schnecker.

It is in the southwest quarter of the northwest quarter of section 32-38-T-i-N-T&P. The drillsite was approximately nine miles north of Midland and 20 miles west of Stanton. Operators reported when the location was announced that they planned to drill to 8800 feet to explore the Spraberry sand.

No reason for the abandonment of the exploration at the shallow level has been announced.
