

Awards Program Set for Four-H

The annual 4-H Awards Program, when members are honored for outstanding work, will be held Saturday, Dec. 5, at 7:00 p.m. in Bura Handley Community Center.

Rev. Bill Rigby

Assembly of God Slates Revival December 9-13

Revival services will open at the Assembly of God Wednesday evening, Dec. 9, and continue through the following Sunday, Dec. 13, the Rev. Tom Rogers, pastor, has announced.

The Rev. Bill Rigby, director and founder of the Oklahoma City Teen Challenge, a rehabilitation program for drug addicts, will preach. Services will be at 7:00 p.m. week days with Sunday services at 11:00 a.m. and 6:00 p.m.

This revival is youth-oriented, and the drug problem will be dealt with in depth, said the pastor.

Rev. Rigby was himself a former narcotics user and pusher before he was converted and entered the ministry, and much of his information to the youth will be from the standpoint of "one who has been there."

He will be the guest speaker at Wellington High School one day and at the Kiwanis Club.

A native of Oklahoma City, Rev. Rigby began working with a group of young people in that city in 1964, making contacts with drug addicts and teen age gangs and other troubled youth. His success was immediate.

Five months later, funds were raised for a center and Teen Challenge was born in Oklahoma City.

Teen Challenge was incorporated as a non-profit church related program designed to reach and rehabilitate teen gangs, drug addicts and troubled youth.

Plans were announced jointly by Mrs. Leta Hill, home demonstration agent, and Don Reeves, county agent.

This will be a covered dish supper with the awards program following.

The 4-H boys and girls taking part Saturday night have participated in approximately 20 categories of home economics and agriculture in the 4-H program.

The 1970 Collingsworth County 4-H Gold Star boy and girl, Rose Mary Popwell of Wellington and Joel Ross of Quail, will receive their pins.

Citizenship and leadership award will be presented along with project awards.

Adult leaders who have done outstanding work also will be recognized.

"We feel it is one of the highlights of the 4-H year, as we present awards to the boys and girls who have excelled in their fields," said Mr. Reeves.

Parents of the 4-H members and all friends of the 4-H movement are invited to attend.

Among the categories in which awards will be made are achievement, agriculture, beef cattle, field crops science, horse club, wildlife science, home economics, food and nutrition, clothing, dress revue, bread and dairy foods.

Mrs. A. O. Sweat Dies Thursday of Long Illness

Mrs. A. O. Sweat, who had made her home in Wellington County more than half a century, died in Childers General Hospital at 7:55 a.m. on Thursday, Nov. 26, after a lengthy illness.

She and her family lived in the Aberdeen community for a number of years after coming here in 1915 from Denton County. With her husband, she participated in many affairs in the area that were for the strengthening of community and religious life. She was especially aware of need for education of all young people, and she worked to the end that her own would have that advantage.

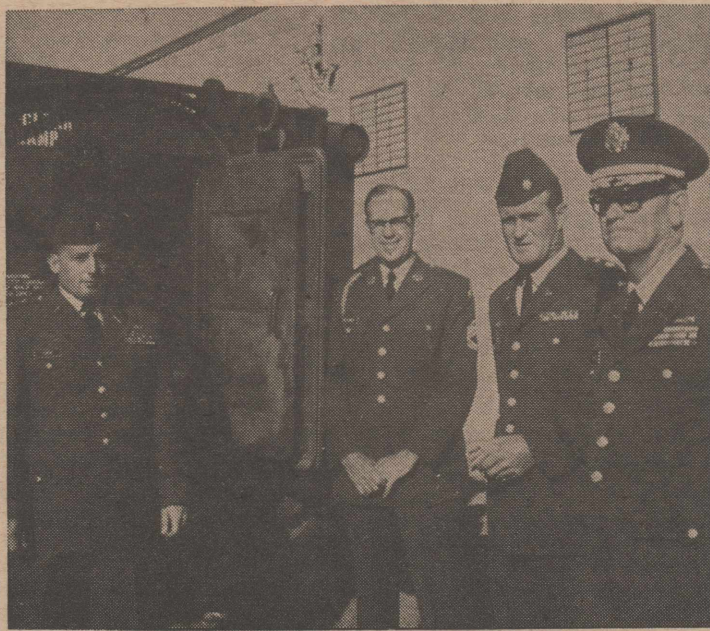

Her home had been in Wellington for more than 30 years.

Mrs. Sweat, the former Nathalie Lee Smulcer, was born Oct. 21, 1882. She and Mr. Sweat were married July 17, 1898 in Grayson County. He preceded her in death Feb. 2, 1959.

She had been a member of the Baptist Church since early in life.

Funeral services for Mrs. Sweat were conducted at 3:00 p.m. Friday in First Baptist Church, with the Rev. Roy Col-

IG INSPECTION

Conducting the annual IG Inspection of Wellington's National Guard Platoon Wednesday, Dec. 2, was Major W. Simmons, second from right, of the Inspector General's Department, 4th U. S. Army, Ft. Sam Houston. With him were Battalion officers, Major Jonathon P. Lake, left, Battalion advisor of Amarillo; Platoon Sgt. Robert Valliant, and at right, Lt. Col. Jesse K. Barton, Commander, 2nd Battalion, 142nd Infantry, Amarillo.

Prizes Offered

Holiday Decorating Contest Underway

The most beautifully decorated town in the Southeast Panhandle!

That is Wellington's goal during this Christmas season.

A Christmas decorating contest with Harold Gattis and Lynn Jenkins in charge is now under way.

There are two categories, one for business firms and the other for homes, Mr. Gattis said.

All decorations should be up by Dec. 15 when the judging will be done.

The business firm with the winning decorations will receive a plaque, said Mr. Gattis.

First prize in the home division will be \$15 in script; second prize \$10; and third prize \$5.

No rules are set up for the contest. It is left to the judgment and originality of each

Jim Wood Farm Burglarized for Third Time

A locked barn on the Jim Wood farm at Fresno was burglarized Sunday night, Nov. 29, for the third time in eight months, Deputy Sheriff Alvin Minatrea reported.

A lock on the barn door was broken to gain entry. It is believed three persons took part in the burglary, the deputy indicated.

Taken from the barn were an electric welder, two 3/4-inch electric drills, a 1/2-inch electric drill, the hose and regulator off an acetylene torch, 100 feet of extension cord, an 8-ton jack and smaller jacks, as well as other items, according to Mr. Minatrea.

Outside the barn, battery cables were cut and the battery was taken from a truck.

The barn was burglarized last April and again in July, Deputy Minatrea said.

By Speech II Class

"Alice in Wonderland" Slated As Children's Play December 9

Children of Wellington will journey in their imagination down the Rabbit Hole to attend a tea party with the Mad Hatter, and hear the Queen of Hearts scream "Off with her head!" ... all with "Alice in Wonderland."

This will be the annual Children's Play, presented by the High School Speech II Class at 1:00 p.m. Wednesday, Dec. 9, in the high school auditorium.

Elementary and Junior High students will be special guests, and all pre-schoolers and their

business man or home owner to plan and execute his own decorations.

"We urge as many people as possible to enter," said Mr. Gattis. "The size of your house or the part of town you live in has no bearing on your chances of winning. It is the originality of your ideas and the way you carry them out that will determine who wins."

"Every business firm has a unique opportunity to present holiday decorations that will enhance the Christmas lights already burning each evening," Mr. Gattis pointed out.

Red Cross Seeks Funds for Pakistan

The Collingsworth County Chapter of the American Red Cross has received immediate appeal for cash contributions to assist in the Red Cross lifesaving Pakistan relief.

The Red Cross is seeking to give help to some three million Pakistan victims of a cyclone and its aftermath.

County residents may make their checks to Collingsworth County Red Cross Chapter. These may be mailed or brought to Mrs. Rob Isbell, secretary, in the county library, Mrs. Kenyard Poteet, treasurer, in the county judge's office.

Only money is being taken at this time, due to the great distance involved and the differences in clothing style and diet.

The American Red Cross has cabled an initial contribution of \$25,000 to the East Pakistan Red Cross and is working with the U.S. Agency for International Development and other federal departments on U.S. efforts to aid the League of Red Cross Societies in their worldwide relief program.

Hugh Painter, Dodson Leader, Dies Thursday

Hugh A. Painter, farm, school and community leader at Dodson, died in St. Joseph's Hospital at 2:45 a.m. Thursday, Nov. 26. He was stricken ill while working in a field at his home the preceding Monday.

He had lived on the same farm at the south edge of Dodson 50 years, carrying on his farming operations during that entire period.

Mr. Painter had been a Methodist since early life, he was a charter member of the Masonic Lodge at Dodson, served on the Dodson School Board 27 years, and was the first manager of the Dodson Farmers Co-op Gin. He was a veteran of World War I and a member of the American Legion.

Beyond this, however, were the many services he rendered his community as an individual who was deeply interested in its well-being, and the help he gave to so many who needed it, because he was their friend and neighbor.

Mr. Painter was born April 1, 1899, near the present site of Duke, Okla., then in the Indian Territory, the son of Jim and Mattie Whisenant Painter. He came to Dodson from Frederick, Okla.

He and Miss Edith Morgan were married March 9, 1920 in Clovis, N.M.

Funeral services were conducted at First United Methodist Church in Wellington at 2:00 p.m. Saturday. Officiating were the Rev. R. T. Dyess, pastor, the Rev. Howard Smith of the Dodson Nazarene Church and Van Borneau, minister of the Dodson Church of Christ.

Burial was in Dodson Cemetery under the direction of Kelson Funeral Home.

Pallbearers were Pete Nipper, J. C. Howell, Howard Hunt, Ross Swift, Don Hopkins of Amarillo, and Perry Mack Scott.

Honorary pallbearers were members of the Dodson Masonic Lodge.

Survivors are his wife, of Dodson; one son, Tolbert Painter of Hereford; three grandsons, Roger Hugh Painter of Lindsey, Okla.; Nicke Painter of Norman, Okla.; and Bryan Hatch of Lubbock; also four half-brothers and two half-sisters: Benny Shipley and Price Shipley of Amherst, Charley Shipley of Hereford, Woodrow Shipley of Littlefield, Mrs. Lora Edwards of Stamford, and Mrs. Lura Crall of Weatherford, Okla.

A son, Morgan Painter, lost his life on Okinawa during World War II.

Mrs. Saied, Sr. Has Surgery

Mrs. Mack Saied, Sr., underwent major surgery in Wichita Falls Monday, Nov. 30. She came through the surgery in good condition and is doing as well as can be expected, her daughter-in-law, Mrs. Mack Saied, Jr., said Tuesday.

She is in Room 492 at Wichita Falls General Hospital. Her son, Dr. V. C. Saied, is on the hospital staff.

Mr. Saied is staying with a daughter, Mrs. Floyd Taylor, in Quanah, while his wife is hospitalized.

Santa Claus Will Visit Wellington Saturday

Wellington's Christmas lights are on and Santa can't be far away. He's already on his way from the North Pole, in fact.

Santa will greet children of the Collingsworth County area Saturday afternoon, Dec. 5 at 3:00 p.m., according to Jack Sanford, Chamber of Commerce president.

He will return for a second visit Christmas Eve, Dec. 24.

This is part of Wellington's traditional pre-Christmas Good Will Trades Days, sponsored by the merchants of Wellington and the Chamber of Commerce.

First of the four Trades Days Drawings will be held Saturday at 4:00 p.m.

Because there is no reindeer weather due this week end, Santa will come into town on Wellington's big red fire truck.

He will travel around the court house square distributing candy by the packful. He will remain for a full hour in order that all boys and girls may have the opportunity to tell him what they want for Christmas, according to Mr. Sanford.

Hundreds of children are expected to be here to greet Santa, and every youngster in the Collingsworth County trade area is invited.

Script totaling \$300 will be given away on the four Good Will Trades Days, and will be

redeemable at the 20 participating merchants.

The other Trades Days will be Dec. 12, 19 and 24. All will be at 4:00 p.m. on the court house lawn.

Merchants began giving the trades day tickets Monday, Nov. 30.

The same plan for drawings will be followed as in the past, it was explained.

The first drawing will be for \$35 in script; the second, \$25; and the third \$15. There will be no hold-over prizes. For the convenience of shoppers, script will be in \$5 denominations.

Script will be void after Jan. 2.

All Area Cage Teams Play in Tournaments

Basketball teams of the four area high schools will participate in tournaments this week end.

These are the first of the

tournament series that will keep one or more of these teams busy on all December week ends except Christmas.

Playing in the Shamrock Tournament will be Wellington Rockets and Rockettes, and the Samnorwood Eagles and Eaglettes.

Wellington girls will play in the first game, meeting White Deer at 11:30 a.m. Thursday. Wellington and Samnorwood boys meet Thursday evening at 6:00 p.m.

Other teams participating will be Shamrock, Lefors, and McLean.

Quail and Arnett will compete in the Memphis tournament, and these two teams will go against each other in the first round.

Groundwork was laid for the eradication of tuberculosis in Collingsworth County in talks before two groups Tuesday, Dec. 1.

Charles McIntosh, executive director of the Top of Texas Chapter, Tuberculosis and Respiratory Disease Association, spoke before Rotary at noon and at an open meeting of interested citizens at the Community Action Center in the evening.

He also announced the addition of Mrs. Jimmie Sessions to the board of the Top of Texas chapter to represent Collingsworth County.

County Judge Zook Thomas, who invited Mr. McIntosh to Wellington, announced that on Jan. 5 a county-wide free tuberculosis testing clinic will be held at the Community Building in Wellington. It will be from 7:30 a.m. to 7:30 p.m.

Tuberculosis has taken two lives in Collingsworth County in the last 18 months, Judge Thomas reminded.

Mr. McIntosh told Rotarians of plans to form a youth group here to work with other youth of the Panhandle in a program to stamp out tuberculosis and other respiratory diseases.

They will conduct educational work on both adult and student levels and try to interest people in coming to the clinic for the tuberculin skin tests.

Mr. McIntosh emphasized to Rotarians that tuberculosis infection should be treated while it is in the quiescent stage, when it can be determined only by the skin test, rather than after it becomes active and can be diagnosed by x-ray.

In the quiescent stage, he explained, tuberculosis infection is treated by medication, INH pills, furnished without cost by the Department of Health and available only from it.

Speaking to a group of Wellington High School students at the Community Action Center Tuesday evening, Mr. McIntosh

Public Invited

CAC Sets Meeting to Study Center Needs

The Collingsworth County Community Action Center announces a community meeting to be held Tuesday, Dec. 8 at 612 East Ave. The meeting is scheduled to start at 7:30 p.m.

The purpose of this meeting is to help establish the local needs and to discuss practical solutions as far as this community is concerned.

The Collingsworth County Community Action Center is one of several community centers under the direction of the Texas Panhandle Community Action Corporation that provides assistance, guidance and support for low-income people to help themselves through various programs, to include education, health, housing, job training and referral, supportive services and numerous community service activities.

Mrs. Jimmie Sessions, coordinator of the Collingsworth County Community Action Center states that programs, activities and services provided by the center are based on information provided by community members and concentrate on expressed needs and desires. Therefore, it is important that the community participate in the coordinated planning approach to strengthen future programs and activities operated for the betterment of individuals and communities.

Other programs are sponsored by the Center.

There are three youth programs: business meetings in which boys and girls learn simple parliamentary procedures; auto mechanics, taught by Robert Pool and Willie McKinnon; pre-beautician, taught by Mrs. Tom Ferguson; planned parenthood, taught by Mrs. Delia Aguilar; and child development taught by Mrs. Henry Sullivan and Mrs. Iva B. Outley.

Two other courses are planned, Mrs. Sessions said. They are Basic Nutrition and Family Financial Management to Meet Low Income Family Needs.

Three County Farm Work

Research Program Meet Slated Here Tuesday

Texas Extension Service and A&M Experiment Station personnel will meet in Wellington Tuesday, Dec. 8, to review the Northwest Texas Research Demonstration Program for Collingsworth, Wheeler and Hall counties.

The all-day meeting will begin at 10 a.m. in the directors room of Greenbelt Electric Cooperative.

County Agent Don Reeves said the purpose of the meeting is to plan result demonstrations in the three counties for the coming year, and to analyze demonstrations for the current year. Some may be culled and new demonstrations put in to replace them.

Dwane Scott, farm demonstration assistant, is responsible for on-the-ground work in the three counties, working with

the three county agents, Mr. Reeves, Max Hatter of Wheeler County and W. B. Hooser of Hall County. They will take part in the meeting.

Others who play a major role in the three-county "on-the-farm" research and demonstration program and who will take part in the meeting are Dr. Jim Mulkey, superintendent of the Chillicothe Experiment Station; Bill Grisham of Amarillo, District One Extension agent; and J. G. Simmons of Vernon, District Three Extension agent.

Specialists from the Extension Service and Experiment Station who advise in the different fields of research will attend, including entomology, soil science, beef cattle, swine, farm management specialist, cotton, grain sorghum, range management, brush control, and small grains.

Use Proper Care in Selecting Christmas Tree, Buyers Told

COLLEGE STATION. — The Christmas tree, symbol of the beauty and joy of the holiday season, may present problems as you try to choose just the right tree for your home, advises Everett Janne, Extension landscape horticulturist at Texas A&M University.

Proper selection and treatment enhance the long-lasting beauty of a Christmas tree, he reminds.

The first rule in selecting the freshest tree is to shop early. To determine how fresh the tree is, first check the needles. They should be resilient and not brittle when bent. The needles should adhere when you run your fingers down the branch. Shake or jounce the tree on the ground lightly to see if the needles are firmly attached. If only a few drop, the tree is undoubtedly fresh and is more likely to retain its needles throughout the holiday season.

Trees on the lots always appear smaller than they actually are. Since Christmas trees are sold according to height, it is economically unwise to buy one several feet taller than the ceiling at home.

Look for a tree with a uniform triangular taper. Check to see that it is free of weak, broken or unduly long branches. Also it should have a well-filled-out look.

Once home, make a diagonal cut at the base of the tree, removing one to two inches of the base. Stand the tree in water and keep the base immersed. The tree should be stored in a cool, shady spot, indoors

or outdoors, until time for decorating.

A Christmas tree with its base immersed in water will remain safe from ignition from a point source, such as a match flame, for at least three weeks if installed reasonably fresh.

Add water to the base container daily to replace amounts absorbed by the tree. A five or six foot tree may use as much as a gallon of water a day. Low humidity found in most heated homes increased the difficulty of keeping the foliage fresh.

Locate the tree so that it is not in the air stream of heating vents or near other sources of heat. Use a fire screen before a fireplace to contain flying sparks.

Keep the Christmas tree lighting system in good order. Inspect and discard wires with frayed insulation, broken sockets and loose connections.

Don't buy strings of lights unless they have the UL label.

Keep the base of the tree free from combustibles. Remove combustible Christmas wrappings as soon as possible.

Notes from Your County Home Demonstration Agent

By Mrs. Leta Hill

The Holiday Season is just around the corner. Now is the time to make plans for entertaining and try new recipes to serve.

Have you ever candied your own pineapple and cherries? They are much better and inexpensive.

—Drain 2 (1 lb. 14 oz.) cans sliced pineapple; reserve syrup. Combine 2 cups sugar, 1/4 cup light corn syrup and 1 2/3 cup pineapple syrup in a heavy 10" skillet. Cook over medium heat, stirring constantly, until mixture boils. Cook until temperature reaches 234 F.

—Add a third of the pineapple slices, bring to a boil. Reduce heat, simmer 25 minutes or until pineapple is transparent around edges. Remove; drain on wire rack. Repeat with remaining pineapple. Then add 3 (8 oz.) jars marachino cherries, drained. Simmer for 25 minutes. Let dry 24 hours at room temperature.

Removing Grease Spots from Patio Floors

Grease spots on patio floors are frequently a necessary evil that goes with summer cookouts and outdoor living. The first step in removing these stains is to cover the grease spot with dry cement, lime or even ashes from the barbecue pit or fireplace. This acts as a blotter and may remove the stains without further treatment. Just sprinkle it on, leave it on for several hours or overnight, then sweep it up.

More stubborn stains may require scrubbing with a good detergent, before doing this be sure to wet down a large area around the stain to prevent the dirty water from soaking into the dry porous surface. Pour a small amount of dish detergent on the wet concrete com-

pletely covering the grease spot. Let stand for a few minutes then brush vigorously and rinse with hot water.

Mailing Goodie Packages

Surprise packages from home filled with cookies, candies and other lip-smacking delights, will arrive fresh and tasty if mailed with special care.

The first step in sending food packages is choosing recipes that stay fresh for a relatively long time. If cookies are too rich, they will probably crumble or turn rancid. Moist sheet cookies cut into bars, and flat moist individual cookies are the best travel selections. Cookies flavored with honey and fruit improve with age.

Other food items suitable for mailing are fruit cakes, candies, pies, canned meats, pickles and relishes.

Food items should be wrapped with moisture-proof cellophane and aluminum foil, to prevent drying out and keep paperboard cartons from absorbing food oils.

Before wrapping, allow cookies to cool, then wrap several flat ones together in a piece of cellophane or foil. Bar cookies should be wrapped individually.

After wrapping, pack cookies snugly in a heavy box or tin,

stuffing crumpled tissue or newspaper into all corners and spaces, and separating the layers with more paper. If any space remains between the top layer of cookies and the box lid, fill with paper.

Fit the box lid down snugly and seal with cellophane and overwrap the entire carton or tin, sealing the edges with a warm iron or with cellophane tape.

Encase the wrapped tin or box in corrugated paper, then wrap again in heavy brown wrapping paper. If sealing the outside wrapping with tape, parcel post labels must be included to indicate the packages may be opened for postal inspection if necessary.

Put on label on the top of the package and another on the bottom. Print or type the name or address of both the receiver and mailer of the package on both the labels and the wrapper itself. Thus, if the labels should come off during shipment, the address will still be available.

Tie the package securely with several rounds of sturdy twine. Mark "this side up" and "fragile" on top of the box.

Mail the package as soon as it is wrapped.

Fort Worth Couple Weds

Mrs. Elva Bagwell of Fort Worth, formerly of Wellington, and V. Clifton Armstrong, also of Fort Worth, were married in the parsonage of First United Methodist Church in Waco Saturday, November 14. The Rev. Peyton Goodman officiated.

She is the daughter of the late Mrs. Nannie Masten. Mr. Armstrong is the son of Mrs. Floy Potter.

The bride wore a pink crepe dress with a harmonizing coat.

Their attendants were the bride's daughter and son-in-law, Mr. and Mrs. George Fromme of New Braunfels, whose children, Nancy and George, also attended.

Mr. and Mrs. Armstrong are at home at 415 Winters Street, Fort Worth.

Mr. and Mrs. Cecil Masten and John Masten were in Ft. Worth Saturday and Sunday to visit his sister and brother-in-law, Mr. and Mrs. V. Clifton Armstrong. They also visited the De Cordova Beach development on Lake Granbury.

Mr. and Mrs. Fleet Pruden were in Childress Sunday afternoon to attend the autograph party of John T. Forbis on the publication of his book, "What Parents Should Know About Horses."

Mr. and Mrs. Pat Wilkins and 17-months-old son, Jeffrey, left Monday, Nov. 30, for their home in Buffalo, N.Y., after a vacation with his mother, Mrs. T. B. Wilkins, and his brother, Tom Wilkins. Mr. Wilkins is with the Federal Bureau of Investigation.

Mr. and Mrs. Pat Slavin of Austin were guests of her parents, Mr. and Mrs. John Sherman during Thanksgiving. They also visited his parents, Mr. and Mrs. Clyde Slavin in Clarendon.

Mrs. S. B. Jackson and her daughter, Miss Edyth Jackson of Pampa, were Thanksgiving guests of another daughter, Mrs. Travis Readnour and family of Gage, Okla. Miss Jackson returned here to visit with her mother until Sunday.

Sixteen Named on Norwood Honor Roll

Sixteen students were listed on the Samnorwood High School and Junior High honor roll for the second six weeks period, Supt. Robert Dwight announced.

Two girls had all A's in their academic work.

For the same period, the eighth grade had 100 percent attendance, and the sophomores were just behind with 99.96.

The honor roll included:

Seniors: Mary Schaub with a grade point average of 4.0; Larry Oldham, 3.50; Richard Barker and Robby Dwight, 3.40; and Larry Waters 3.0.

Juniors: Feliciano Segura, 3.60, and Sandra Gowin 3.20.

Sophomores: Rosa Oldham 3.50 and Lyla Coleman 3.0.

Freshmen: LeAnn Bruton, 3.80; John Morgan 3.60 and Mike Oldham 3.40.

Eighth grade: Elaine Purkey 4.0; Robin Waters 3.75, and Teresa Ray 3.0.

Seventh grade: Jayne Ann Morgan, 3.50.

These grades are based on A being the equivalent of 4.0; B is 3.0; C is 2.0; and D is 1.0.

Attendance percentages, in addition to the eighth grade and sophomores, were: seniors 96.82; juniors 98.43; freshmen 96.13 and seventh grade 98.85.

Nursing Home Meet Held

Trusten A. Thomas, Jr., administrator representing Thomas Nursing Home, Inc., of Wellington, has just returned from the 20th annual Texas Nursing Home Association Convention held Nov. 17-20 at the Sheraton-Fort Worth Hotel and Tarrant County Convention Center in Fort Worth.

Based on the theme, "A New Spectrum in the 70's," the meeting drew over 1200 nursing home owners, administrators, guests and representatives from the health care field.

Convention keynote address, "Health Care in the 70's," was delivered by Gus Mutscher, Speaker of the Texas House of Representatives. Ben Barnes, Lt. Governor of Texas, delivered an address entitled "Future Outlook of Medicine in Texas," at the general session.

Educational courses offered at the convention were Psychological Aspects of Patient Relations; Nutrition and Modified Diets; Patient Orientation and Physical Relationships; Religious Services and Relationships; Business Law; Medical Terminology; and Pharmacology. All educational presentations and hours conformed to the 200-hour educational curriculum specified by the Licensure Board for Nursing Home Administrators.

The gala installation banquet the last evening of the convention, saw Land D. Wall of Lubbock installed as the 1970-71 president of the Texas Nursing Home Association, and considered the largest convention in the history of the Texas Nursing Home Association.

Portales Rams Cite Brock

Jackie Brock, a sophomore in Portales, N.M., high school and member of the Rams football team, has been mentioned as one of its leading ground gainers.

He also intercepted 10 passes during the season which just ended for a total of 141 yards returned, according to his grandmother, Mrs. Bura Handley.

Brock punted for 575 yards with a 33.8 yards per kick average.

The Rams lost only to Lovington, N.M., and rounded out their season with a 62-0 win over St. Pius of Albuquerque.

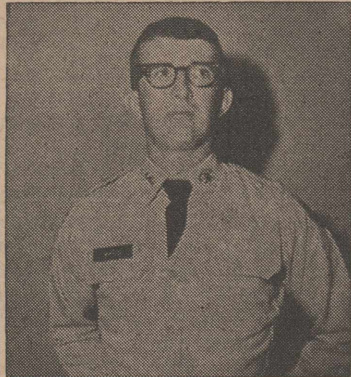

Brock is the son of Mr. and Mrs. Ted rBock and played Junior High football when the family lived here. He is also a grandson of Mr. and Mrs. Z. J. Nelley of Quail.

An older brother, Joe, is a sophomore on the WTSU Bufaloes.

Accident Rate Remains Unchanged

The accident rate in the U.S. remained unchanged in 1969, although 1,000 more persons died in accidents than in 1968.

The constant accident rate of 57.5 means that between 57 and 58 persons out of each 100,000 of population died in an accident last year.

Texas Cotton Production Down

AUSTIN.—Cotton production in Texas and the U.S. for 1969-70 is down from that of last year.

A summary report issued by The University of Texas Cotton Economic Research indicates that Texas production was down 19 percent, while the U.S. output declined 9 percent.

Cotton Economic Research estimates that the 1970-71 planted acreage with a yield of 380

pounds per acre, and with continued use of approved cultural practices and favorable weather, should produce 3,500,000 bales of good quality cotton. Texas growers are expected to plant a total of 5,375,000 acres of cotton for 1970-71, an increase of 4 percent over 1969-70's 5,175,000 acres.

Harper Valley PTA!

BY GAYLORD COOK

Another flash-in-the-pan popular song, "Harper Valley PTA," has come and gone . . . and yet the melody lingers on, or at least the philosophy of the song. The young mother in the song justifies her improper actions by pointing to the improper actions of the rest of the PTA, as if two wrongs make a right. This theme haunts today's man and his thought. The young justify their use of drugs by pointing out that their parents drink alcohol. The man outside the church often justifies himself by saying that he lives a better life than some in the church. One form of evil is justified on the basis that it is no worse than another form of evil. We simply are not thinking very straight when we make any of these statements. Another's wrong action can never justify our own wrong. We must compare our life to the pattern, Jesus Christ, rather than to another imperfect man. Troubled times are sure to continue as long as we follow such a philosophy.

Let Us Decorate Our Town For The Christmas Holidays

Beauty is always a part of Christmas, and beauty can take many forms. One of the joys of the holidays is a town colorful with Christmas decorations.

Within the next few days, we can do this for Wellington. The annual program sponsored by the Chamber of Commerce is under way, and we join it in urging that every business, every home, be decorated. Holiday lights can make some a delight to see at night. Traditional decorations can be colorful by day, and there is always a premium on originality.

These outward symbols of the joy of Christmas are heartwarming to all of us.

Other Editors Say . . .

The South

One of the significant findings of the 1970 census is that a turning-point has occurred in the population growth in the South. For the first time in many decades more people moved into the south than out of it, in the sixties.

The Census Bureau divides the country into four major regions, the South being the most populous since it includes Maryland, Delaware, West Virginia, Kentucky, Oklahoma and the District of Columbia with eleven former Confederate states: Virginia, North and South Carolina, Georgia, Florida, Alabama, Tennessee, Mississippi, Louisiana, Arkansas and Texas. The population of the region is now 61.6 million.

The South is now very close to the national average in educational attainment and by 1973 will have pulled even with the national average. Already adults from the South are as likely as those from other regions to have had some college education.

But the region still lags in per capita income (though its average is increasing faster than the national average) and family income. Of all the states in the nation, Florida showed the greatest percentage gains in the sixties—in population by 35 per cent, employment by 65 per cent and non-farm income by 130 per cent.

High-Climbing Litterbugs

A new high in littering has been reached by the litterbugs. Mount Whitney in California—the highest peak in the nation with the exception of Mount McKinley in Alaska—has joined the ranks of the scenic areas that are being despoiled by a careless public.

According to information, the noble summit of Mount Whitney is littered with paper, bottles, cans and the like. Each summer the National Parks Service hauls tons of the stuff from the peak using pack animals to get it down the steep trails. The situation is so serious that the Park Service is considering building a heliport on the summit to expedite trash removal. A lot of people are, to put it bluntly, behaving like slob. It takes a lot of energy to deposit garbage on top of the nation's second highest peak. If a little of this energy could be turned into brain-power to help keep the country clean and beautiful, we would have a land of unsurpassed beauty.

LUNCH WILL BE AVAILABLE

AUSTIN.—Car owners in Texas got the expected bad news when the staff of the State Board of Insurance recommended a 23.4 percent increase in auto insurance rates.

Board took no immediate action, but will set new rates by Jan. 1.

If the agency holds to its past policy of allowing no increase in any line of coverage greater than 25 percent, the staff proposal may be scaled down to an effective 18.6 per cent boost.

Earlier the regulatory body committed itself to a new rate-making formula taking into account investment income of companies and guaranteeing a profit on underwriting after taxes.

Staff recommendations would build into the rate base a 4.7 percent profit on policy writing and an 8.7 percent allowance for state and federal taxes.

Industry representatives, still not satisfied, argued their case for a 27.7 per cent average statewide increase and removal of the arbitrary maximum change limitation of 25 percent for any line. They claimed serious underwriting losses of \$45.7 million over the last decade.

Proposals brought angry rumblings from legislators. Sen. Oscar Maury of Dallas predicted that lawmakers "will not allow this economic miscarriage of justice to stand unchallenged." Rep. Joe Allen of Baytown also called the proposed rate increases "tragic abuse of government regulation and free enterprise system."

Texas AFL-CIO has called on drivers to appeal to the Legislature for a change in the rate system, and reportedly is studying possible legal action.

Welfare Changes Urged

A raise in welfare benefits, removal of the constitutional ceiling on payments, reorganization of the Department of Public Welfare and a new approach to problems of needy families with dependent children were recommended by the blue-ribbon Senate Welfare Study Committee.

Committee said the state must aim at development of children rather than simply maintaining them on aid rolls to break the poverty cycle.

These additional recommendations were included in the 85-

page report.

—A constitutional amendment to permit garnishment of wages for court-ordered child support.

—A vendor drug program to supply medicines to Medicaid outpatients.

—Renaming the Welfare Department the Department of Human Resources and reorganizing it with a head named by the Governor and confirmed by the Senate.

—Complete overhaul or streamlining of department administration with increased use of computer methods.

Committee Chairman William P. Hobby Jr., said that the Legislature next January will have to pass an emergency appropriation of more than \$40 million just to carry the welfare program at present levels to the end of the biennium.

AG Opinions

County jury wheels must be re-filled from tax reductions, as well as voter registration lists, Atty. Gen. Crawford C. Martin has held.

In other recent opinions, Martin concluded that:

—Penal code provision requiring a \$25 license fee for fish farm operators who grow fish for sale is constitutional.

—Estate of a deceased state employee should be paid for the same number of days to which he would have been entitled had he lived and claimed his vacation and sick leave, beginning the day following his death.

Martin has been asked to rule on the legality of a verbal contract for the first phase of construction on Mustang Island fish pass.

Island Controversy Rages

Governor Smith urged the Texas Conservation Foundation to call a special session and review the facts surrounding the controversy over purchase of Mustang Island park land.

Parks and Wildlife Commission Chairman Pearce Johnson has refused to sign an application for federal aid to buy 3,900 acres from Mrs. Sam E. Wilson, Jr., of Corpus Christi, claiming other areas have higher priority for the state's limited park bonds. Two other members of the Commission disagree and want to buy the Wil-

son property now.

Conservation groups have called for Johnson's removal as liaison officer to break the impasse.

Traffic Safety Promoted

Legislative measures to get more problem drivers, especially drunks, off Texas highways, were urged at the second annual Governor's Traffic Safety Conference.

Col. Wilson E. Speir, Department of Public Safety director, said the 12-month minimum suspension law for drunk driving now opens the door to an excessive number of probated sentences. He suggested a 60-to-90-day mandatory suspension without probation.

DPS head also proposed statutory fixing of 10 per cent alcohol - blood level as the presumptive test of intoxication, broadened support for driver education, prescribed safety equipment for motorcycles, and updating of the uniform traffic code.

Returns Certified

Official canvass of returns of the general election showed Democrat Lloyd Bentsen beat Republican George Bush for U. S. Senate by 155,334 votes and Governor Smith defeated GOP Paul Eggers by 158,675 votes. Total turnout exceeded 2.3 million.

There was one upset to canvass. A constitutional amendment allowing the Governor to appoint a three-member State Building Commission, believed to have passed, actually was defeated by 6,337 votes.

Short Snorts

• Traffic deaths on interstate highways, down early this year, took a big jump in recent weeks — 7 percent above 1969—according to the Department of Public Safety.

• Texas Hospital Association applauded the U.S. Senate finance committee amendment authorizing waiver of the requirement that Medicare hospitals have a registered nurse on duty 24 hours a day.

• Lt. Gov. Barnes said the state tax bill next year may be the highest in Texas history, but he will make an all-out effort to get the Legislature through with its job in 140 days.

• A seminar on package tours will highlight the fifth annual Governor's Tourist Development Conference on Dec. 1 in Austin.

• Governor's scientific advisory panel has recommended the creation of a pesticide review board and updating of the pesticide laws.

• Rice was a \$100 million crop in Texas in 1969.

CROSSROADS REPORT

Report is that some of the Upper People in Washington have commanded the auto makers to invent a non-polluting engine by 1975.

It would appear they have heard that God said "let there be light" and there was light, so they figure any Grade-A or B bureaucrat should be able to say "let there be a clean car" and there it will be.

After all, annually for years they have said "let there be \$200 billion for us to spend and knock down on", and there it was, plus or minus a few billion.

It says in the papers every few days that the cost of living has gone up some more, but my laboring neighbor says his hasn't.

He claims that his cost of living is whatever he can get hold of to spend for same, and while his manner of living has been going down markedly, the cost of it has been the same for several years.

But he is planning to return to the richer living style he formerly enjoyed, as soon as he can get his family in the habit of living only four or five days a week.

Scout Appreciation Dinner Set Monday

The annual Appreciation dinner of the Comanche District, Adobe Walls Council, Boy Scouts of America, will be held Monday evening, Dec. 7, in the Shamrock High School Cafeteria, Bob Dwight of Samnorwood, district chairman, has announced. The Rev. Ken Jones of Borger, pastor of the First Christian Church there, will be the speaker.

This affair each year affords adult Scout leaders and their wives, women Scouters and their husbands, an opportunity to join together for good food, the installation of district officers and members of the district committee, fellowship, and the presentation of awards of recognition for outstanding service, Mr. Dwight stated.

The meeting will start with a covered dish meal served buffet style. Jack B. Boone of Memphis, district finance chairman, will act as master of ceremonies. Rev. Jones, the speaker, is well known for his interest in Scouting and is the adult lodge advisor to the Chief Lone Wolf Lodge, Order of the Arrow. He recently returned from a trip to Japan, Australia and

UT-Austin Prexy Meets Students

AUSTIN.—Dr. Bryce Jordan, president ad interim of The University of Texas at Austin, and his wife are meeting students face to face at a series of dinner meetings this year. Students with similar interests are invited, in groups of 30 or 40, to eat with President and Mrs. Jordan at the new Thompson Conference Center. After the meals, a no-holds-barred discussion is held on current University issues and long range policy matters.

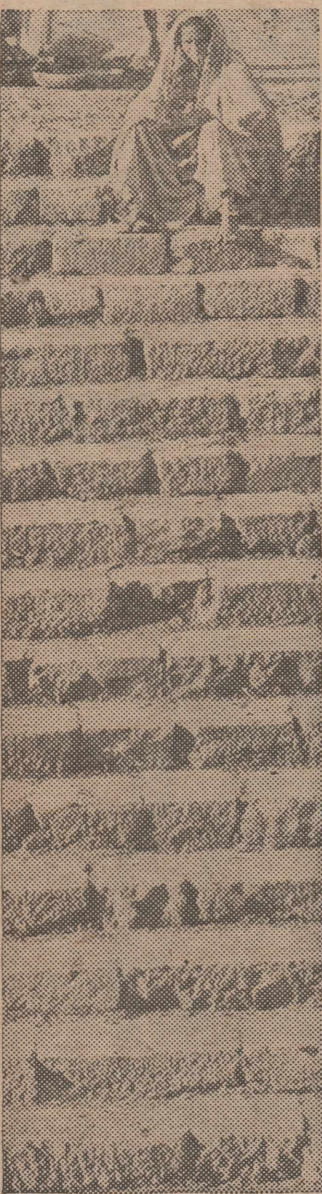

Dr. Jordan also is continuing a series of coffees for students selected at random from the student directory. Combined, the coffees and the dinners give the president an opportunity to meet a cross-section of the University's 39,000 students, to hear their opinions and to make his views known to them.

AUSTIN.—If you've never set foot in the Big Thicket, you can now take a vicarious trip through that dense forest of Southeast Texas by means of a new motion picture.

The Texas State Historical Association, located at The University of Texas, has announced completion of a 52-minute color film about the Thicket that is available for free bookings to any interested group or organization.

"The Big Thicket—A Vanishing Wilderness" was made possible by a grant to the TSHA from the Moody Foundation of Galveston. Film production was by Jim Seymour Associates of Austin.

Questions People Ask About the Catholic Church

Does not Catholic devotion to Mary detract from the worship due to Christ?

Instead of detracting from the love of Christ, devotion to Mary increases our love for Him. Love for Mary, the masterpiece of God's creation, by its very nature leads us to the love of Christ her Son. He cannot be jealous of the praise we give her, for all her privileges are His own free gift. Is the artist jealous of the praise you give his masterpiece? Is the author jealous of the praise you give his book?

Name some bible passages that prove Mary is the Mother of God. Is it true that some protestant Reformers believed this dogma?

Luke 1, 31-35, Luke 1, 43, Galatians 4, 4. It's also in the Apostles Creed. To answer the second part of your question, yes, both Luther and Calvin admitted the dogma of the Divine Maternity. Luther mentioned her as "having one Son in common with the Heavenly Father" (Deutsche Schriften, 14,250). Calvin says "We cannot acknowledge the blessings brought us by Jesus without acknowledging at the same time how highly God honoured Mary in choosing her for the Mother of God" (Comm. sur l'Harm. Evang. 20).

Wellington Boy Scout Fund Drive Progresses

The annual Boy Scout fund drive is in the final stages, reported Dave Agnew, Comanche District Scout executive.

Agnew said some workers still have not reported final solicitations. Approximately \$800 has been turned in to date.

Paul Hawkins, who recently was transferred to Vernon, was the general drive chairman. Those workers still having funds to report may turn in kits to either Agnew or Sandy Parsons.

This year's fund drive is the most successful in year, Agnew further stated, and shows Wellington's desire to provide a wholesome program for boys of the community.

"I have no doubt that with the final report of all workers, we will achieve our goal of \$1,000," Agnew concluded.

New Legislation Aids Consumer

COLLEGE STATION — Each year, up to a million credit cards are lost and three hundred thousand are stolen. To protect a consumer plagued by disappearing credit cards, Congress has passed a new law that will be effective Jan. 23, reports Doris Myers, Extension specialist in home management at Texas A&M University.

The new law states that an individual will not be liable for any loss from unauthorized use of his card after he has reported its disappearance to the issuer. Notice may be by telephone or by letter.

Most companies will cancel

use of the card once they have been notified. If the notice is by letter, cancellation is effective the day the letter is postmarked. For losses occurring before notification, liability is limited to \$50.

The \$50 liability applies separately to each card that is lost. So, if a billfold or purse containing five credit cards is misplaced, the potential maximum liability is a total of \$250. If a husband and wife lose their cards on a joint account, however, the total liability is limited to \$50.

The new law also prohibits banks and other firms from

Melanie Watts, Runner-up

Leigh Myrick Chosen Little Miss Wellington

The 1970-71 Little Miss Wellington is Leigh Myrick, daughter of Mr. and Mrs. Rodney Myrick and a first grade student in Wellington Elementary School.

She was chosen in the second annual Little Miss Wellington contest Saturday evening, Nov. 28, sponsored by the Skyrocket Youth Conference.

The runner-up is Melanie Watts, daughter of Mr. and Mrs. C. L. Watts. She is a third grade student.

Selections were made in a Christmas setting — Santa's Workshop. Mr. and Mrs. Santa Claus added a festive note.

With Carlos Hatch as master of ceremonies, the reigning Little Miss Wellington, Kim Cook, was introduced. Later, she crowned her successor.

Initially, the "Top Ten" were chosen from the two groups. First and second graders selected were Renee Owens, Leigh Myrick, Patti Daves, Deedee Heisler and Melanie Pendleton; third grade: Jennifer Pendleton, Sherry Bailey, Tammie Hernandez, Melanie Watts and Tammie Sanders.

The five from which final selections were made were Renee, Leigh, Melanie Pendleton, Tammie and Melanie Watts.

Their escorts were Jim Bob Collins, Randy Lambert, Jeffrey Camp, Lonnie Lovell and Craig Darter.

The girls and their business-sponsors were:

Division of PRPC into Five Areas Proposed

Proposed amendments that would divide the Panhandle Regional Planning Commission into five planning and service areas will come before the general membership in a meeting Dec. 13.

These amendments to the by-laws were proposed at a recent meeting of the executive committee in Amarillo.

New officers of the PRPC will be elected at the December 13 meeting, which will be held at 6:30 p.m. in the Villa Inn, Amarillo.

Bill Sarsgard, a Fort Worth city councilman and chairman of the North Central Texas Council of Governments is scheduled to be the guest speaker.

Collingsworth County and Salt Fork Soil Conservation District hold membership in the PRPC.

Under the proposed division into service areas, units in Collingsworth County will be in Area 5, along with Donley, Briscoe, Hall, Gray and Wheeler counties. Other service areas

would include:

Area 1: Dallam, Sherman, Hartley and Moore counties.

Area 2: Hansford, Ochiltree, Hutchinson, Roberts, Lipscomb and Hemphill counties.

Area 3: Oldham, Deaf Smith, Parmer, Castro and Swisher counties.

Area 4: Potter, Randall, Carson and Armstrong counties.

Other proposed changes would make the officers of the planning commission — chairman, vice chairman, secretary and treasurer — members of a 9-man executive committee. Five members of the executive committee will be selected from each of the planning service areas by the members of those areas.

Orphan Fortune Seeks Owners

TUCSON, Ariz. — A \$30,000 "orphan fortune" is searching in Amarillo and throughout northwest Texas for descendants of John and Ellen Mary (nee McCoy) McGinnis, who are being sought to claim or share in the estate which they are obviously unaware.

This became known recently when Gordon L. Cox, probate genealogist, 302 West Elm St., Tucson, who specializes in the tracing of missing relatives to settle estates, took over the search with only vague clues to guide him.

"Records indicate that John and Mary Ellen (nee McCoy) McGinnis were residents of Amarillo in the 1880s," Cox said. "It is indicated that at least one child, Daniel, was born in Amarillo in 1887 and that other children may also have been born of the union."

Farm Marketings Worth Noting

Cash receipts from farm marketings in 1969 totaled around \$47 billion, of which \$28 billion came from livestock and livestock products and \$19 billion from crops.

The total in 1950 was only \$28 billion. The increase since 1950 stems almost entirely from a substantially larger volume of farm products marketed, since prices received by farmers in 1969 averaged just slightly higher than 20 years ago.

The bill for farm production expenses added up to \$38.6 billion in 1969, about double that of 1950. In 1969, production expenses got 71 cents of each gross income dollar.

UT Has New Security Chief

AUSTIN.—The University of Texas Traffic and Security Services has a new chief—Don Cannon, Sr.

Chief Cannon came to UT Austin from his position as chief of police of Killeen. He had been with the Killeen Police Department since 1956.

A Thornton native, the new chief feels the type of policeman needed today is very different from those of the past. "The need is no longer for strength but for intelligence," he said.

He feels education is playing a much bigger role in law enforcement now.

Sea Turtle Victim of Man's Activity

AUSTIN.—The sea turtle is just another wild animal caught in the revolving door of humanity's machinations.

But somehow the plight of the several species of sea turtle which swim Texas Gulf Coast waters and reproduce on its sandy beaches is more pitiable than that of other declining species.

The kindly reptiles have a lot going against them. A slow maturation process, vulnerability to predation by man and a dependence on increasingly crowded and abused beach areas for laying eggs have combined to diminish the turtle.

Financial Facts

By Jeff Wilson

BEN FRANKLIN'S FUGIO

Have you ever heard of Ben Franklin's fugio?

Chances are you have a couple in your pocket or purse right now. Today we call them pennies.

In 1787, five years before the United States established a thorough monetary system, there was a money famine in the colonies. The only available stable coinage came from other countries.

In an effort to ease the shortage, Franklin devised the "fugio". It was made of bronze and worth approximately one hundredth of a dollar.

Among other details, there was a Franklin admonition on each side of the coin. One side had "Mind your Business" on

it and the other "We Are One". The latter phrase had an endless chain of 13 links circling it.

By popular demand, the name "fugio" was changed to "century." Later still it was shortened to "cent".

The Fair

Deck's DIDACTICS

—By Deskins Wells

Over fifty years ago we came to a realization of what we were doing to the land and started doing something about it by soil and water conservation and in less than half a century the program has done immeasurably good. The tragedy is that the importance of conserving the land instead of mining it came too late and the effort to do something about it was started a hundred years later than it should have been.

Once there was solid forest from the Atlantic plains to those west of the Mississippi filled with magnificent hardwood trees, towering pines, flora and fauna of all kinds, limpid lakes, clear running streams and mighty rivers that seldom flooded as they poured their pure water into the life-giving ocean. In two hundred years our forbears burned, cut down and used nearly all these century-old trees from the coast to the Mississippi. Then we rushed across the verdant prairies that stretched to the Rockies and turned seas of fertile grassland into rich agricultural areas supporting an economy that was the backbone of a young nation that was to become the strongest on earth. In this growth the expansion was disastrous as was the destruction in the placer mines for gold, silver and other mines in the Rockies. It was called pioneering; but in its greed and lack of consideration of consequences it was also rape of the land.

This despoiling of the land which has been going on for centuries from the Cedars of Lebanon to almost any place in the temperate zone may be the lesser offense in depredation man has committed against nature. There was and is more evil in the plunder of the seas than there is on the land.

The account of an Italian freighter leaving a trail of oil off the coast of Florida is only a reminder of the oil slicks off the California coast and the leaking wells in the Gulf of Mexico. The loss of edible food in the form of fish, oysters, and shrimp cannot be estimated. The men who pursue oil on the coastal shelf are only a part of those who unsettle the balance of nature in their lust for profit.

What has happened to the salmon, tuna, shrimp and other sea foods is well known to the average person as reflected in the price of a can of salmon at the grocery store. The destruction of the whale population is well known in spite of international agreements. What is not realized is that the sea might be our greatest source of food and we are destroying its usefulness in advance.

As I sit here at home I have been reading a paperback called "The Frail Ocean" by Wesley Marx. It is a factual story of how man has plundered and polluted the oceans which could become his greatest natural resource in the future. Gary Reed and Bob Weatherly and everybody interested in the conservation of the land should read this book. The moon is not as far away as it once seemed to be. The oceans are nearer than we think to our welfare. The need for protecting the resources of the oceans is as important to the inland plains as it is to the seacoasts.

More information is being sought on the meteorite that blazed across the Texas skies on November 26. It was seen as far away as Denver, Colo., and San Antonio, Texas. My son, Henry, and Fred and Lewis Watkins were traveling on Highway 83 south of Abilene when they saw the phenomenon. They said that at first there was an unearthly green illuminating the whole sky and then there was the brilliant flash of the meteor which made the landscape bright as day. It was south of them and they thought it descended at about a thirty degree angle.

Did you hear the wild geese flying over the town the day before Thanksgiving? Louise and I woke to hear their unmistakable honking about 2 o'clock in the morning. There is a lonesome and haunting sound to the call of the lead gander as it is repeated by the followers in their V formation. Near the end of one of our most trying years there is comfort in the fact that the wild geese will be calling just as clearly as they fly north next spring.

Quails Defeat Estelline Boys; Bobwhites Lose

Quail Quails and Bobwhites split a doubleheader with Estelline boys and girls Tuesday evening, Nov. 24, on the Quail court. Supt. James Stavenhagen coached the teams in the absence of Bill Wilson, who was hospitalized.

Quail boys won 71 to 33, while the girls bowed to their opponents 37 to 23.

The Quails jumped out to an early lead and at half time were ahead 44 to 11. They continued to keep a wide margin over Estelline, leading 54 to 27 at the end of the third period and as play ended, Quail was ahead 38 points, 71-33.

Tommy Oatman led the Quail scoring with 17 points; Mark White had 13; Darrell Feemster 10, Laron Peters 9, Larry McCann 7, Jerry Barton and Julian Torrez 6 each, James Culpepper 2 and Redgie Souder 1.

Paul Bryant was high pointer for Estelline with 10. Estelline girls took a 12-6 lead by the end of the first quarter and Estelline had widened the margin to 26-13 at the half. Both teams tightened defensive play during the third period and Quail scored only 2 points and Estelline 3. Each team scored 8 points and the game ended 37-23.

Mallie McCann led the Bobwhite scoring with 8 points; Brenda Childers scored 6, Sheri Canada 5 and Sheri White 4.

Jan Ray was Estelline high pointer with 20.

Gilbert Plays Winter Ball

Bill Gilbreth of Abilene, who pitched for Montgomery in the Southern League during the regular baseball season, is playing winter ball in Florida, relatives here have learned.

A left-handed hurler, he completed the season with Montgomery with a 13-11 record. Gilbreth, who formerly pitched with ACC, had 192 strikeouts in 221 innings and led the league in that department. He compiled a season's earned run average of 2.48.

A farm club of the Detroit Tigers, Montgomery lost the Southern League's pennant race to Columbia by one percentage point.

A 1968 Abilene Christian graduate, Gilbreth completed his second year in higher organized baseball.

WTSU Basketball Will Become National Power

West Texas State University's powerful basketball team is going to become a national power, Coach Dennis Walling told members of the Wellington Rotary Club at their luncheon meeting Tuesday, Nov. 24.

He and Jack Donovan, sports information director, were here to discuss team prospects for the club. President Charles Darter was in charge of the meeting.

WHS Teams Win Over Norwood, Lose to Paducah

Wellington Skyrockets and Rockettes defeated Samnorwood Eagles and Eaglettes in a double header in Rocket gym on Tuesday evening, Nov. 24.

Wellington boys won 66 to 53 and the girls were victors 51 to 41.

Luck turned against the red and white Friday night, however, as they traveled to Paducah to meet two of the highest rated teams in the lower Panhandle. The Dragons won 71-46 and the Dragonettes 51 to 37.

Wellington-Norwood

The Rockettes and Eaglettes played evenly during the first half of the game, with only two points difference at half time. During the third, Wellington pulled away, scoring 19 points to 8 for the visitors. Samnorwood led the last period scoring 16 to 13, but could not overcome Wellington's third period surge.

All Wellington's forwards played and all scored, Cathy Singley topping the list with 22. Patti McAlister had 12, Phyllis Sullivan 8, Leigh Nall 5, Jan McGill and Carole Cochran 2 each.

Beth Sanderson led Norwood's scoring with 20 points, while Connie Knoll had 13 and Lyna Coleman 8. Janice Snead was the other forward. Guards were Mary Schaub, Jack Snead, Rosa Oldham and Diane Barefoot.

The boys game was nip and tuck during the first half. Wellington led 16-13 at the end of the first period and Norwood 32-31 at the half. Then Wellington pulled away with 17 points in the third period, while Norwood scored only 9. The Rockettes kept up their scoring in the final quarter with 18 points while the Eagles made 12.

"I thought our boys played the best game they have all year," said Coach Don Lacy. Norwood had lost only one game during the entire season until this one.

Bobby Saied led the Rocket scoring with 21 points, while Danny Waters had 12, Ray Shrubs 9, Ronny Pennon 6, Mark Killian and Ted Harris 5 each and Sammy Coffee and David Hodges 4 each.

High point man for Norwood was Ronnie Carter with 17, while Larry Waters had 12, John Christner 10, Robby Dwight 5, Feliciano Segura 4, Larry Oldham 3 and John Stages 2.

Wellington-Paducah

Paducah this year has a pair of the strongest teams in this section of the Panhandle and took a post-Thanksgiving pair of games 51-37 for the girls and 71-46 for the boys over the Rockettes and Rockettes.

"We played what is probably one of the better girls teams in this part of the country. We were disappointed, but not too unhappy with our performance, although we did get beat," said Coach Lacy.

Paducah had a 5-point lead at the end of the first and third periods, but in the final quarter, the Dragonettes pulled ahead 18 points while the Rockettes could manage only 9.

Cathy Singley again led the scoring, with 15 points. Leigh Nall had 14, Patti McAlister 5 and Phyllis Sullivan 2 and Carole Cochran 1. Guards were Debbie Neeley, Pam Kersten Mary Saied and Katy Sullivan.

R. Matney made 25 points for Paducah, D. Harrison 15, L. Smith 8 and T. Caudran 3. The Dragons have four starters back from last year, all seniors, and they present a poised and skillful team.

Paducah took an early lead and continued to widen the margin.

Bobby Saied again led the Rocket scoring with 13, while Sammy Coffee had 8, Ted Harris and Danny Waters 6 each, Rozell Outley and Mark Killian 4 each, Ray Shrubs and Ronny Pennon 2 each and Denny Carter 1. David Hodges and Ted McLain were the other players.

Gene Whither scored 19 for Paducah, Buster Smart 16, Jessie Solis 14, Danny Jones 11, Alvis Wright 8 and Billy Tratee 3.

WT will begin competition in the Missouri Valley Conference with the 1972-73 season, as playing schedules are made up two years in advance, Coach Walling said.

His players this year come from many parts of the country, he said. Only one comes from the Panhandle, Dorees Perryton. The others were recruited from New York to California.

This year's Buffaloes are a young team, and the starters include three sophomores, one junior and one senior, said the coach. Of the 10 men carried on the traveling squad, six are sophomores.

TB Drive

—From page one
tosh explained the nature of tuberculosis, the method of its transmission and how it can be prevented.

The infection rate is one out of every six Americans; in those over 65 years, the rate is one in three persons. This does not mean the cases are active; it means these people are carrying an infection, said the speaker.

Texas, once first in the United States in the rate of tuberculosis, has dropped to sixth, ranking behind Hawaii, Alaska, and three other mainland states.

He also briefed the boys and girls with information they will use in teaching others about TB and the need for every person to have a skin test.

In closing, he urged support of the Christmas Seal Campaign, now under way, by which the fight on tuberculosis and other respiratory diseases is financed.

Visitors in the home of Mr. and Mrs. Clyde Alexander for Thanksgiving were Mr. and Mrs. Ruel Alexander, Adelle, Betty Anne and Mark, and Mr. Darby Reid, all of Amarillo.

Evergreens Need Winter Care

Weather injury, especially during the winter, can inflict serious damage to evergreens, explains Everett Janne, landscape horticulturist with the Texas Agricultural Extension Service.

Evergreens are particularly susceptible to winter drying in areas such as West Texas where the relative humidity is low, says Janne. This damage occurs in late winter or early spring before new growth can get started. Strong winds and low humidity desiccate the foliage because the plants are unable to replace the moisture given off by the leaves through excessive transpiration.

According to the horticulturist, visible symptoms of winter drying depend on the severity of the injury. Sometimes only the branch tips will be dead; at other times entire branches or even the whole tree or shrub may turn brown and die. In windbreak plantings, the dead plants are often found next to apparently healthy ones.

Janne explains that the best precaution against drying of evergreens this winter is to

plant them in a well-drained, fertile soil. Since this isn't always possible, the next best thing is to provide adequate soil moisture.

Homeowners and gardeners often store the water hose at the same time they put away the lawn mower for the winter, points out Janne. Landscape plants still require moisture even though wintry weather has made the scene.

To prepare evergreens for the winter and reduce weather damage, Janne outlined these steps:

1. Water trees and shrubs thoroughly at regular intervals throughout the winter, especially where they are protected by wide overhangs on homes.

2. Use a mulch to prevent surface evaporation and to keep the soil warmer. Evergreens have difficulty taking up moisture when the ground is cold.

3. Maintain a fertile, well-aerated soil to encourage deep root growth. Compacted soil hinders good root growth.

Evergreens display a beauty all their own and add much to the winter landscape. They can maintain this beauty only if they are cared for properly, adds Janne.
