\$32,500 Boost In Teacher Pay

Olton teachers will receive approximately \$32,550 more pay each year under the state teacher pay raise bill.

That figure is the estimate made by Superintendent Johnny Clark Jr., who applied the new pay formula to the Olton faculty.

The bill provides for pay raises ranging from \$90 a year for a beginning teacher with a bachelor's degree and \$153 per

year for one with a master's degree up to \$1,089 for the highest bracket.

In effect for the past four years has been a provision granting teachers annual pay increases of \$108 at all levels.

This provision has been changed to benefit the teacher with more experience with \$13 per month or \$117 per year now being given for all years experience.

There is a 12-year maximum for teachers with a bachelor's degree and an 18-year maximum for those with a master's degree.

YOUTH CORPS PROJECT OK'D

Final approval was granted this week for a Neighborhood Youth Corps at Olton School, according to Superintendent Johnny Clark Jr.

Four local youth started work Tuesday.

Approximately 12 are expected to enter the program this summer.

Walter Bryan will supervise the work during the summer. Yard work is being done now and plans call for building maintenance work to be included in the summer program.

Students may work a maximum of 15 hours per week during June. Starting July 1, each student is expected to average 30 hours per week.

The Neighborhood Youth Corps is a work program for students with their salaries paid by federal tax money.

It has been a matter of concern over the state that the pay raise would result in a substantial increase in local taxes to provide the money.

That is not the case in the Olton Independent School District.

According to Clark, the pay raise will not result in an increase of property taxes.

Clark also pointed out that \$3 million per year has been set aside by the state for the use of local school districts as an aid in raising salaries at the bottom of the schedule.

This amount is separate or, in addition to, the teacher pay raise.

How the money issued will be left up to the local districts. Clark said that this is something "new" and never before have the local districts been given this type of "leeway."

Baseball Needs \$10 Heroes

Bases loaded but the till's empty.

This was the word this week from Olton Baseball Association.

Olton has 150 boys signed up for the three leagues in summer play.

To pay for the \$10 needed to get the boys into the association, the boys and their parents are asked for a \$2 fee.

"We are asking 100 parents--or other interested citizens--to give \$10 to the baseball association," Trotter said Tuesday.

He pointed out that each of the boys who signed up for play was asked for a \$2 fee.

This fee covers insurance. The actual cost, according to Trotter, is more like \$25 per boy per season play.

He noted that in some other towns, like Plainview and Lubbock, parents of players are asked for a \$25 fee per boy.

"Of course, some can't afford the \$10 we are asking," Trotter said, "and we don't want to eliminate anyone."

"But," he added, "most parents can afford it and we don't feel the businessmen should be asked to donate this money. This should be up to the parents."

In explaining the need for the money, Trotter mentioned the high cost of lighting and wiring at the new Babe Ruth Field, that all new equipment had been purchased for the team and that electric bills must be paid on the fields.

Canine Delinquency

Canine delinquency is a continuing source of complaints and appeals aimed at city hall. But, in final analysis, the dog problem in the city is not one to be solved solely by city authorities.

Dog owners can do much more toward curbing canine delinquency than can the city or police.

Quite naturally, there is a certain population of unloved, unwanted, abandoned dogs. But much of the dog mis-conduct -- playing havoc with neighbors' flower beds, littering lawns, disgusting promiscuity by animals scent-attracted into packs, neighborhood barking and baying -- can be attributed not to neglect of their so-called pets by dog owners who have no real regard for their animals.

True dog lovers and conscientious owners of animals raised for pet or commercial purposes take care of their dogs properly and if one becomes a canine delinquent it is an unfortunate accident.

But too often a pet is obtained by adults for amusement or companionship of children and once the "new wears off", the dog is left to shift for himself or herself, creating

not only a neighborhood problem, but unwarranted cruelty to the dogs themselves.

A properly care-for dog can be a creature of great benefit to its owner, and the owner is deserving of ownership. But the owners who neglect their animals and allow them to become half-wild sources of neighborhood complaint do not deserve to own dogs.

Mis-treatment and willful neglect of an animal can reflect but discredit upon its owner.

Neglect of dogs by owners may be pinpointed as one of the factors contributing to the city's dog problem.

The situation may be compared with that of juvenile delinquency and with that of the neglected child running at large and becoming a public problem.

Olton is fortunate in that there is little juvenile delinquency problem.

It appears that if the people responsible for dogs would apply a little more attention to the responsibilities of ownership, there could be less of a canine delinquency problem in the city.

STATE CAPITAL HIGHLIGHTS

Legislature Is A Busy One

AUSTIN, Tabulation of the activities of the Texas Legislature reveals that the current body has produced more new laws than any of its predecessors.

This is a remarkable achievement in view of the pressing time-taking demands of re-districting and increased spending, as well as the controversy on raising the pay of teachers and increasing taxes.

Redistricting

State lawmakers have faced up to their most painful job of the session -- legislative re-districting.

In a tension-charged atmosphere, senators performed self-surgery (under federal court order) which in effect will cut off seven rural incumbents and transfer their places to major population centers.

Somewhat more peacefully, the House placed the heads of 16 of its members on the chopping block.

Under the Senate plan, 13 incumbents will be jammed into six districts. They are:

Sens. Dorsey Hardeman, San Angelo, and Pete Snelson, Midland (Dist. 25); Walter Richter, Gonzales, Culp Krueger, El Campo, and Bill Patman, Galveston (Dist. 18); Louis Crump, San Saba, and J. P. Word, Meridian (Dist. 12); Jack Strong, Longview, and Galloway Calhoun, Tyler (Dist. 2); Jack Hightower, Vernon, and Andy Rogers, Childress (Dist. 23); and Bill Moore, Bryan, and Mrs. N. H. Colson, Navasota (Dist. 5).

Senate reapportionment measure would assign Harris

County four senators, plus a share in two more, Dallas gets three, plus a share in one, Bexar gets two, plus a share in one.

Tarrant County retains a single Senate place and shares in another district. El Paso area will have its own senator.

House races where incumbents are combined with one to be eliminated, if all seek reelection, shape up like this:

Reps. J. E. Miller Jr., Burkhart, and Emmett Lack, Kountze; Neal Solomon, Mount Vernon, and E. M. Edwards, Pattonville; John Allen, Longview, and John Mobley, Kilgore; David Crews, Conroe, and Cameron Hightower, Liberty; Vernon Beckham, Denison, Don Hefton, Sherman and Bill Dungan, McKinney; Bill Hollowell, Grand Saline, Jim Markgraf, Scurry; Bill Satterwhite, Ennis, and Ronald Roberts, Hillsboro; Lloyd Guffey, El Campo, and Otha Birkner, Van Vleet; J. T. Newman, Cuero, and Paul B. Haring, Goliad; A. C. Atwood, Edinburg, Felix McDonald, Edinburg, Gregory Montoya, Elsa and Raul Longoria, Pharr; Jim Nugent, Kerrville, and Terry Townsend, Brady; Roy Arledge, Stamford, Raleigh Brown, Abilene, and Grant Jones, Abilene; A. C. Hallmark, Dalhart and Fritz Thompson, Borger; Hudson Moyer, Walter Knapp and J. M. Simpson, Amarillo; Jack Woods, George Cowden, Dick Cherry, all of Waco, Travis McClinton, Coryell County; Charles Wheeler and Glenn Johnson, Temple and Gene Fondren, Taylor.

House bill would give Harris County 19 representatives; Dallas 14; Bexar 10; Tarrant eight and El Paso five, or a total of 56 of the House's 150 seats.

A record \$3,600,000,000 state budget bill, major business of the session, finally is in the hands of the State Comptroller for certification, after agreement on corrections and last-minute additions by resolution.

Independent estimates calculate the \$623,400,000 general fund appropriation would leave a surplus of \$700,000 if no other spending measures are passed.

But other spending bills are almost certain to be passed. Tax bill authors are taking that into consideration in writing a revenue-raising measure which will pay for the \$70,000,000 (state share) teachers' salary boosts and the other pending requests for funds.

Teacher Pay

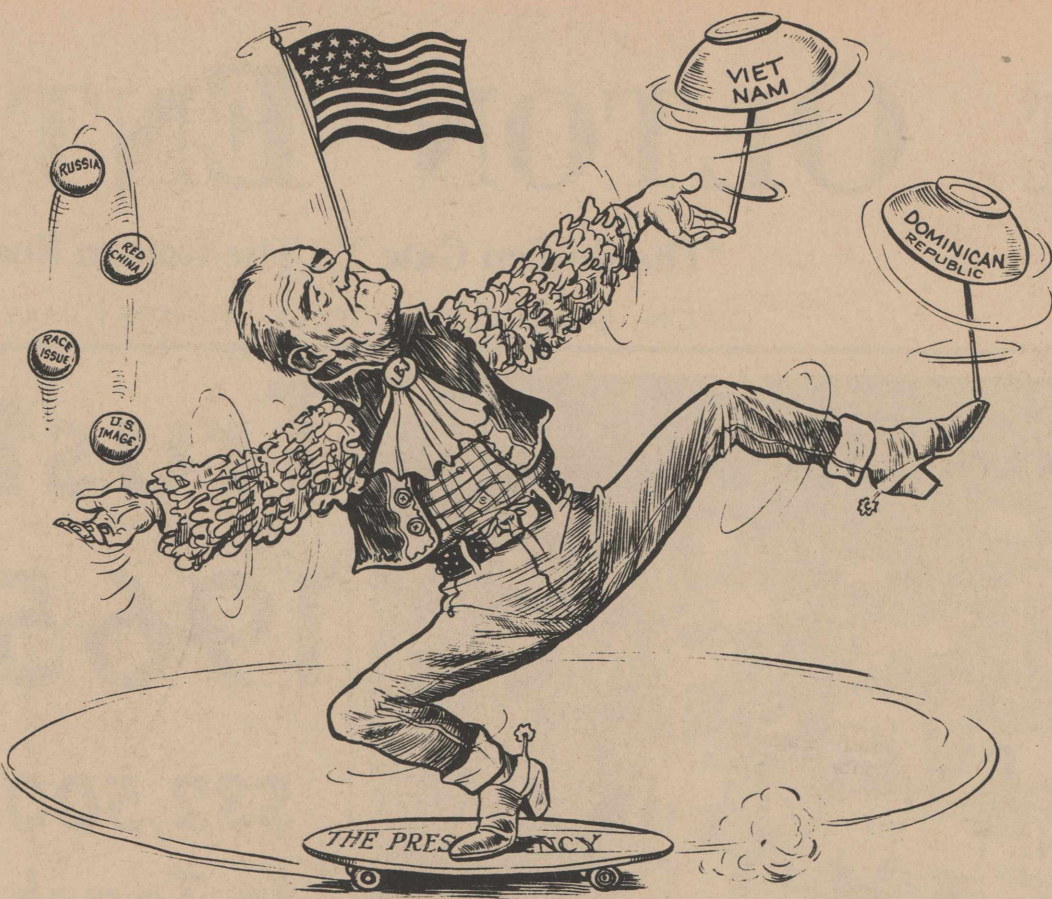

Teachers and Gov. Connally reached a compromise in their pay dispute.

Teachers will get raises ranging from \$90 for beginners to \$1,000 a year for M. A. degree holders with 18 years' experience. Local school districts must share about 20 per cent of estimated \$101,000,000 biennial cost.

New Colleges

Texas' 23rd and 24th state senior colleges are about to be designated, subject to approval of the higher education coordinating board.

Both Houses approved a senior college at Odessa, Texas; a college bill was passed by Senate and promptly approved by House committee.

DOWN MEMORY LANE

FIVE AND TEN YEARS AGO IN OLTON

FIVE YEARS AGO IN OLTON

Olton Pony League baseball team will officially open its season at 8 o'clock next Monday night at Olton Park as the team plays host to a Dairy Queen nine from Littlefield.

Olton's charming Cheryl Ann Poteet was crowned Miss Cotton of 1960 at the annual Cotton Carnival in Plainview Thursday night of last week.

Ed Workman returned to Lubbock Christian College this week from the University of New Mexico Rodeo with the title "Best All-Around Cowboy" in the Southwestern Region in intercollegiate competition. The LCC sophomore from Olton won top individual honors this year in six of the seven regional college rodeos he entered.

Candidates for mayor in Olton's special election set for June 7 have been conspicuous by their absence, since at mid-week, no one had filed. Deadline for filing is Friday, June 3, a little more than a week away.

TEN YEARS AGO IN OLTON

The Olton Mustangs captured their second consecutive regional baseball championship last Thursday afternoon with a 4-2 win over the District 1-AA Dalhart Wolves.

Fifty-six OHS seniors and seven sponsors left Tuesday for their senior trip to Manitou Springs, Colo.

First and second graders got their initial Salk Shots over a month ago at Olton and were slated to get their second shots about three weeks later, but federal government safety check of the vaccine has interrupted the program.

Dogs and mosquitoes were in the news this week as Mayor G. H. Bley called on citizens to make war on mosquitoes and keep their canine pets in check.

Olton School Board met in a called meeting Monday night to discuss the improvement around the school grounds, but, however, no decision was reached.

LETTERS TO THE EDITOR

Dear Mr. Turner:

I visited in Hereford with a very dear friend, Mrs. Katie McGeehe. She and I were among real pioneers at Lockney, Plainview and Olton.

Well, she said, "I have some thing you sure will be interested in looking at." And she showed me the nice edition you had out for pioneer get together at Olton.

Would you please send me one or two of them, I see price is 50 cents. You could send them and I'll send money in next mail or let me know if you have any. My cousin is Mrs. B. A. Dodson (Daisy) and I have known Mrs. Ed Burrus for 70 or more years. Also many others. My father J. M. Shafer and Mrs. Tom were owners of Herald at Plainview and my son Jim is connected, or rather business manager, since the paper was sold to Mr. Allison.

I'm an old newspaper woman too. Well, do as you like about sending paper before pay, I am anxious to get one and you sure did wonderful job.

I'll be visiting Olton soon and will meet you, I hope. Please let me know at once.

Most sincerely,
Mrs. J. O. Oswald, (86 years)

Social Security Representative To Be In Olton

The Social Security Administration is asking help in keeping accurate lifetime record of earnings on the more than 100 million Americans covered by the program.

Future benefits are based on these records. Unless an error in reporting is brought to light within about three years, after the year in which it occurs, correction may not be possible. Because of this, it is a good idea to check personal records occasionally. There is no charge. The social security office, located at 3428 Avenue H, Lubbock, can furnish anyone with a postcard Form OAR-7004 to do this, or an individual may request the information by letter, being sure to clearly show social security account number, date of birth, and name.

A representative of the Social Security Administration will be at Olton City Hall at 9:30 a.m., June 11.

Ask Amy

BY AMY ADAMS

WHAT MEANS "RESPECTABLY OUT"?

Dear Amy:

Recently, my husband has been going out every Friday night alone and he doesn't return home until about 6 o'clock in the morning.

When I asked him what he does and where he goes, he replied, "Respectably out." Now I'm no fool, but what does "respectably out" mean? I have no brothers to ask and don't have the nerve to ask another man.

Would you ask your husband this question for me? Just sign me

Must Know

Dear Must Know:
I asked my husband and he said he doesn't know what a man can do "respectably" until 6 o'clock in the morning . . . and I agree with him.

If you're no fool, madam, demand an honest answer!

because of my son.

I'm so confused. What is the proper thing for me to do?

Confused

Dear Confused:

A widow continues to wear her wedding ring until the time she desires the company of the opposite sex, in which case, she removes the ring.

Dear Amy:

My husband is not a heavy drinker, just a sociable one. I suppose I'm lucky that the only time he does drink is when we are out together. When I tell him he has had enough, he always tells me that he only drinks mixed drinks and they aren't as bad as straight "shots."

Amy, not being a drinker myself, I still question the logic of his answer. What say you?

Mixed

Dear Mixed:

One ounce of liquor whether straight, on the rocks, diluted with water, mixed with fruit juices, made to look harmless with lemon peels, orange slices or other assorted garnishes is still one ounce of liquor . . . and still as potent.

Dear Amy:

This may seem a bit silly to you, but I have a crush on a girl whom I have never met. I have often seen her in school, at sports events and around the "corral," but have never actually been introduced to her.

Please tell me how I can get to know her. I don't know any of her friends. And don't tell me to forget her because I can't!

P.L.

Dear P.L.:

A girl who attends the same school you do should be easy to meet. Don't ask another boy to do a man's job.

Use the direct approach! Walk up to her, introduce yourself, ask her name and start a conversation that would be mutually interesting.

Co-Op Wins Two; Bank, Blue Sox Take Openers In Little League

OUT AT HOME—Co-Op Gin's Kenny Jones puts the tag on a Halfway player to preserve a shut-out victory for the Ginners. Getting set to call the play is Ump Charlie Polk.

Four games here Monday and Tuesday nights got the Little League season underway, with Olton Co-Op Gin taking a pair of victories and the league lead. The Co-Op whipped Farmers 8-6, Monday night and shut out the Halfway Red Sox, 2-0, Tuesday night.

Olton State Bank started the season with a 9-8 win over the Halfway Red Sox Monday night and the Halfway Blue Sox rolled up a 14-8 victory over Ed Thompson Implement Tuesday night.

In the first game, Co-Op over Farmers, the Co-Op racked up five runs in the first frame, three of them coming on a homer by Charles Davis after Carroll Blackwell had walked and Lynn Ramsey had doubled. Later in the same frame, Mack Lancaster' triple and two successive walks helped add two more runs.

Farmers came back with three runs in their half of the first on a walk to Mickey Crowder and three straight singles by Steve Holt, Tommy Riggins and Gary Kelley.

Co-Op added three in the second inning on a walk to Blackwell, an error, a single by Davis and a walk to Kenny Jones. But Farmers came back with three in their half of the second on a single by Marclez, a walk to Sanders and a homer by Crowder.

That made it 8-6, with neither team able to score in the last four innings.

Ramsey was the winning pitcher, with Kelley the loser. Olton State Bank's victory over the Red Sox Monday night came when the Bank rallied from 7-5 deficit with four runs in the top of the fourth frame.

A single by Max Moss and walks to Mickey Mills and Kelly Robertson, followed by a double by Robert Cooper got the Bank two runs in the first inning.

The Red Sox counted four times in the bottom of the inning on one hit, a grand slam homer by Wheeler following three walks to Mallow, Bell and King.

The Bank tied it up in the top of the third, 5-5, on homers by Neinst and Cooper, a double by Leo Rodriguez and a single by Tim Giveens.

Halfway took the lead, 7-5, in the bottom of the third, on three walks and a single by Lonoria.

But the Bank came up with four runs in the fourth on hits by Mills, Neinst, Cooper and Rodriguez, three errors and a walk.

Neinst was the winning pitcher, and Gaitner the loser. The Blue Sox from Halfway rolled to a 14-8 victory over Thompson Implement Tuesday night, scoring 10 runs in the third inning.

Hits by Shipley and Mull counted for a run in the first for Halfway and the Blue Sox got three more in the second on hits by Garcia, P. Samarripa and Prock.

The 10-run third frame came on seven hits, three errors and a pair of walks. Hits were off the bats of Pinkerton, Adams, J. Samarripa, Garcia, P. Samarripa, Shipley and Mull.

Thompson got a single run in the first inning on a walk to

Three more runs for Thompson came in the fourth on a pair of walks and a homer by Sparks Redinger. The Implement team got their final runs in the fifth on doubles by Parsons and Mark Chitwood.

The final game Tuesday night was a tussle by Co-Op Gin's Charles Davis, and the two-run margin came on Kenny Jones' homer with Lynn Ramsey on base after a double. The two runs came in the bottom of the fifth.

Those hits spoiled a fine pitching performance by Halfway Red Sox Pitcher Lopez, who had a no-hitter through four innings.

Winner was Davis and loser was Johnny, who yielded the two-run homer.

The Red Sox kept Davis in hot water early in the game, getting seven hits, but unable to score.

King had two hits for Halfway, while Longoria, Mallow, Gaitner, Lopez and Carlos had the other five.

Trotter, Earth Rack Up Wins In Babe Ruth Play

The Babe Ruth League opened its season with games Monday and Tuesday evenings showing Trotter Insurance the winner over Halfway, 9-6, and Earth the victor over Parsons Funeral Home, 15-9.

In the first game, Trotter Insurance broke up a tie ball game with a four-run outburst in the third inning, going ahead 7-3.

Trotter collected three runs in the top of the second when they filled the bases on walks to Mike Trotter, Guy Ballard, and Gale McClain. Tony Miller singled, driving in Trotter and Ballard, and reached second on an error. Danny Slides singled to drive in McClain.

Halfway tied it up in the same inning, with key hits from Aaron Arthur and Charlie Fraga.

In the top of the third, Trotter got four runs. M. Trotter and Ballard reached first on walks and scored on an error. G. McClain and Peter Gonzales walked and came home on a single by Dusty Rudd.

Halfway made it 7-5 in the fourth on a walk to Randy Gaitner, a single by Charlie Fraga and a double by Painter.

In the fifth inning, Rudd walked and Lannie McClain homered to give Trotter Insurance 9-5 lead.

Halfway got its final run when Clarence Sizemore walked and was driven in by a single by Arthur. A double play by Trotter Insurance killed the rally.

Winning pitcher was Dusty Rudd, while the loser was Johnny Graham. The game was called after five innings because of darkness.

In the Tuesday evening game, played during a sandstorm, darkness forced a stop after four innings.

Earth got one run in the first inning and Parsons came back with five, taking advantage of numerous walks. Steve Spain

drove in two of the runs with a double.

Earth stormed back with five runs in the second inning, grabbing a 6-5 lead.

Garland Huguley's single was Parsons' only hit in the second and Earth ran the score to 12-5 with six runs in the third frame, getting three singles and a triple.

Parsons closed the gap to 12-9 in the bottom of third, although the team failed to collect a hit.

Earth ran the score to 15-9 in the top of the fourth on a single, two doubles and a triple.

Olton's Ronnie Truelock singled in the bottom of the fourth, but Parsons was unable to score.

Loan Bill Stymied

Rep. W. Reed Quilliam Jr. of Lubbock tried without success to spring his bill to reduce interest rates on "Small-Small loans" of less than \$100. Currently it runs about 320 per cent, according to Quilliam. His bill would permit approximately 120 per cent.

Bill, introduced early in the session, has been buried in a subcommittee.

Quilliam asked for a vote to "instruct" the committee to report the bill out of committee for a vote on the floor of the House. By refusing to do so, the House, in effect, killed the bill.

CHOIR SINGS AT COMMENCEMENT EXERCISES

A FINAL PERFORMANCE---For seniors in the Olton High School choir, this was a final performance at graduation

exercises here last Friday night. The group is directed by Mrs. Bob Allford.

Lamb County Residents Growing To New Heights

Does a person's height have anything to do with his success in this world?

If it does, as some statisticians seem to indicate, then the youngsters now growing up in Lamb County have a bright future in store for them.

Figures show that the present generation of young men is loftier, physically, than any previous one. The average youth of today is noticeably taller than his father was at the same age and considerably taller than his grandfather was.

The latest findings are that the height of the average 25-year-old man is approximately five feet ten inches, which is about an inch more than his father reached and nearly two inches more than his grandfather attained.

The figures are based on national studies made by the Department of Agriculture, on actuarial data compiled by insurance companies and on Selective Service statistics.

As a whole, present residents of Lamb County are nearly three per cent taller than their 1915 counterparts were at the same stage.

Expressed numerically, it takes only 97 current-vintage men to equal 100 of these forebears--physically, that is.

If the local population were to be reconstructed to the size of the 68-inch man, the 62-inch women and the smaller children of that period, which probably never will be done, there would be enough left over to assemble 702 additional Lamb County residents of 1915 stature.

The increase in size is more than a matter of light humor to industry. Clothing manufacturers have to allow for more yardage per garment than formerly. Beds and mattresses have had to be made longer. Chairs must be wider and deeper.

As to tall men being more successful, weren't Napoleon and Winston Churchill short men? True enough. They and countless others of short stature climbed to great heights.

However, it is pointed out, 21 of the last 23 presidents of the United States were taller than average. Lincoln, at a six feet four, topped them all. President Johnson's six feet three puts him in second place.

Also, it is noted, taller people carry more insurance than the shorter ones. The conclusion

made is that their incomes are greater and therefore, they can afford more.

STYLING OF CHILDREN'S HAIR A SPECIALTY AT RUBY'S

One of the specialties at Ruby's Hair Fashions is styling of children's hair, as shown in the photo above. Here Mrs. Ruby Reynolds, owner and operator of the salon, cuts the hair of Josie Johns, daughter of Dr. and Mrs. Basil Johns.

"I like to work on children's hair," said Ruby, "I always try to give them something 'livable'."

Josie is one of Ruby's long-time customers among the children.

Another specialty at Ruby's is wig styling. She also plans to sell wigs.

"We want to invite anyone interested in wigs or wig-styling to drop in and visit with us," said Ruby.

Ruby opened her salon last November, after formal training at McBride's School of Hair Dressing, Plainview.

But she had many years of training before going to that school, having done hair for her relatives for years. Her husband finally convinced her she ought to just go into the beauty salon business.

At Ruby's Hair Fashions, customers are offered a full line of Princess Nyla Cosmetics.

Permanent waves start at \$8.00, while shampoo and set is \$2.00 and cuts, \$1.50. Complete service is offered, including tints, bleaches, frostings.

Ruby invites everyone in to get acquainted. "The free coffee is always on," she added.

Deficiency Symptom Discussed

BY W. F. "BILL" BENNETT, AGRONOMIST

Wheat has headed out in most areas. Wheat is at a stage of growth which will provide you an opportunity to see what kind of job you did fertilizing last fall and whether sufficient nitrogen and phosphorus was applied last fall.

Tell-tale symptoms for nitrogen deficiencies are evident now. Nitrogen deficiency symptoms first show as a light green color on the lower leaves. These lower leaves eventually turn brown. Small heads and poor growth may also be due to a shortage of nitrogen. Urine spots in grazed fields usually indicate a nitrogen deficiency and may be indicative of a phosphorus shortage.

Phosphorus deficiency symptoms may be more difficult to spot. General unthriftiness, slow maturity, and small heads are symptoms that can be used. Low test weight at harvest might indicate a shortage of phosphorus.

Sulphur deficiency symptoms are often similar to phosphorus. Yellowing of the plant might also indicate a sulphur deficiency. Poor application jobs last fall can show up in streaked or uneven maturing fields.

Start noting these deficiency symptoms and keep them in mind when fertilizing for wheat this fall.

Cancer Rate In County Well Below State

A report just released by the U. S. Public Health Service, revealing a 9.7 percent increase in cancer deaths in the United States in a period of four years, draws attention to the situation in Lamb County.

Interest in the report is heightened further by the fact that April has been designated "Cancer Control Month."

The findings are based on data gathered by the PHS from every county in the nation. Listed is the number of cancer cases of each type, including lung cancer, occurring in each community.

Among residents of Lamb County, the cancer mortality rate in the year ending Jan. 1, 1964, was somewhat lower than in most sections of the country, it appears.

such deaths, not counting those of non-residents.

It amounted to a rate of 104 cancer deaths per 100,000 population. By way of comparison, the national rate was 150 per 100,000. The rate in Texas was 123.

Lung cancer, because of the cigarette issue, has been receiving more attention than any other forms of the disease.

Nationally, it accounted for 16 percent of all cancer deaths. In Lamb County, it was responsible for 16.7 percent of them.

Had it not been for this branch of the disease, which registered a 26 percent rise in the United States in the four-year period the cancer picture as a whole would appear in a more favorable light.

Even so, there have been

gains, according to the National Health Education Committee. It reports that more people than ever before are going for regular medical checkups and that, as a result, many cases are being detected early and cured.

It claims that a fourth of those who died of cancer could have been saved had there been a timely diagnosis and proper treatment given.

Significant progress has also been made by medical research teams, despite insufficient funds available for their work.

The committee states that only \$154 million a year is procured with \$482 million spent in the United States for greeting cards and \$347 million for chewing gum.

David Was A Gentleman...

"...one of 'your' boys..."

This is the term Cal Farley of Boys' Ranch used in a recent letter to J. B. Williams of Olton.

Williams donated 69 sacks of potatoes to the ranch last year.

In the letter, Farley tells of a letter he received from a Pampa school teacher and noted "we wanted to share part of it with you because of the fine interest you have given the ranch and our youngsters."

The teacher wrote thus:

"Returning by train from Dallas at the close of Christmas holidays, I was seated in the diner—at a table where a young man was seated. I started conversation with this young man, and learned he was one of the boys from Boys' Ranch. I asked his name and he told me David.

"David was a real gentleman, was courteous and kind as I asked question after question and pushed the conversation. He ordered his meal with dignified confidence, and had such fine table manners, and his personal manners were of the highest quality.

"He asked no questions—just courteously answered my many questions. This young man is a fine credit to Boys' Ranch—a real, true ambassador."

Farley noted that there are now 325 boys making their home at the ranch.

Several Olton people have contributed to the ranch in the past.

Increase In Marriages

Looms In Lamb County

Lamb County will witness a sharp increase during the next few years in the number of its young people who will be getting married.

The reason is that there has been a pronounced rise in the young adult population.

According to figures released by the U. S. Census Bureau, there are now no less than 1,791 young men and women in the local area who are in the prime marrying ages, 20 to 24. This is considerably more than were in that age bracket five years ago.

The prospect of these approaching marriages is a happy one all around. But none happier about them than the local retail merchants. Their rapture is enhanced by the fact that each new wedlock means a new household and each new household means thousands of dollars of new business.

In actual figures, according to surveys that have been made, an average of \$1,200 is spent by a couple, or by their parents, on the engagement and wedding, and about \$3,500 in the first year in equipping their home. The amount of potential spending in Lamb County, at this rate, based on 890 prospective marriages in the local group, comes to \$4,183,000.

Few of these young people, just starting out, have the resources to handle such costs on their own. But they have a big plus going for them, as one economist put it.

They can count on an ample supply of financial assistance from their parents, who are prepared, in most cases to help them through the early stages of getting settled.

All phases of the local economy stand to gain from the zip in business that this new spending will generate. Each new household will require rugs, furniture, pots and pans, dishes, linens, draperies, blankets, electrical equipment and the like.

The Government's figures also show that the number of young adults in Lamb County will be still larger next year and will increase for several years beyond that. In 1970, they will total 2,240.

Because of the large number throughout the country who will be reaching the marrying stage in the near future, "it is a mistake to conclude that the baby boom is over," points out the Population Reference Bureau.
