VOLUME 3 — WICHITA FALLS, TEXAS, THUR — NUMBER 108

REGULAR CARLINE SCHEDULE BEGUN

TWENTY MINUTE SERVICE BEING MAINTAINED BY COMPANY TODAY.

TO LAKE IN HALF HOUR

Service Has Been Without a Hitch So Far and Seems Eminently Satisfactory.

Regular street car service was inaugurated by the Wichita Traction company this morning at 6 o'clock and will be maintained from now on. Twenty minute service is being maintained today in the city limits and hourly service to Lake Wichita.

The cars are to be at the corner of Eighth street and Ohio avenue on the hour and at twenty and forty minutes thereafter. The run to the lake is made in about thirty minutes, the time hing somewhat slow at first on account of the track. The first car made the trip from the city hall to teh lake yesterday afternoon in twenty minutes.

A rate of twenty-five cents for the round trip to the lake has been made and will apply from now on. This is considered reasonable enough, being at the rate of about two cents a mile. Within the city limits only five cents can be charged, under the law.

The completeness of the company's equipment, the comfort and neatness of the cars and the general up to date way in which things are being done have occasioned a great deal of favorable comment. The cars are provided with very comfortable seats and are far ahead of the cars used in other cities where street traction is a comparatively recent achievement.

So far nothing has happened to mar the starting of the operations. Several runaways have been narrowly avoided, as the horses do not understand things just yet, but nothing serious of this kind has occurred.

WICHITA FALLS TAXABLE VALUES $3,662,460--TAX ROLLS COMPLETED

City Tax Collector, H. F. Robertson has completed the tax rolls for 1909, finding a total taxable valuation of $3,662,460, which is about thirty thousand dollars more than the first estimate published about a month ago. This amount is divided as follows:

Buggies, vehicles, etc .... shrdlshrdul
Land—$2,402,490.
Buggies, vehicles, etc—$15,540.
Implements, engines, etc,—$63,655.
Horses and mules—$27,455.
Dogs—$1170.
Cattle—$3400.
Goods and merchandise—$446,060.
Cash—$508,020.
Miscellaneous—$164,770.

At the present tax rates, the collections on this amount will be as follows:

General fund—$9,154.92.
Road and bridge fund—$5,495.67.
Poll taxes—$771.

The above valuations are on property as it existed on the first of January, 1909. The first of January, 1910, will see improvements and increases of actual physical valuation of at least one million dollars more than 1909's showing.

The list of separate valuations above is interesting. Few would have supposed that the dogs in Wichita Falls, taken collectively, would be worth as much as eleven hundred dollars, but such seems to be the case. The cash shawing is a remarkable one, and will compare favorably with that of towns much larger than Wichita Falls. Some of the individual valuations, especially on watches, automobiles and pianos, are entirely too low. The weakness of human nature is well portrayed in the assessor's books when one can hardly find a watch valued at more than five dollars, a piano valued at more than twenty-five dollars or an automobile worth more than $200.

WICHITA SCHOOLS ARE CROWDED TO THE LIMIT

With a total enrollment in the public schools of 1240, the question of accomodations is being a perplexing one to the school authorities. There is not room for all the pupils and until the new high school is completed, this discomfort and annoyance of crowded schools will have to be endured.

The first grades are unusually heavily crowed. At the Alamo school, a total of ninety-five have been enrolled and in order to provide for them, it has been arranged that half of them attend in the morning and half in the afternoon. Disagreeable as this arrangement is, it will have to suffice until the new school is completed.

Adding to the 1240 enrolled in the public schools the one hundred enrolled in St. Mary's Academy, there are about fourteen hundred school children in Wichita Falls.

LAKE AMUSEMENTS READY FOR CROWD

BUILDINGS NOT YET COMPLETED, BUT BOATING AND OTHER THINGS PROVIDED.

NEW STUCTURE STARTED

Big Circular Concession Building Under Way—Plans For This Winter.

Lake Wichita, now only thirty minutes ride from the business section of the city, is the scene of increased activity and a great deal of work is in progress there. Work has been started on the big concession and building, which is to form the nucleus for the structures that will eventually make up the Wichita County Fair. This building is to be circular in form and will be about eighty feet in diameter. The circumference will contain the concession booths and all sorts of things are to be provided there for the public.

The amusement company in charge of the lake concession has provided refreshment stands for the hungry and thirsty who go out to the lake and the inner man will be taken care of there. The fleet of boats has been numerously added to within the past few weeks and there areboats of every class and description.

Work on the pavilion is now being pushed and it is already evident what a magnificent structure it will be when completed. It was the object of unstinted admiration from the street car party yesterday, especially on the part of the out-of-town members.

It is hardly probable that the work on the new buildings and improvements will cease at any time during the winter. New plans are being formulated all the time and a baseball park and race track will doubtless be contracted for during the cold weather.

Throngs Greet President.

Chicago, Sept. 1.—For the first time since he became the nation's head, William H. Taft visited Chicago today, and was given a welcome in keeping with his high station. The presidential special reached the city at 11:30 o'clock this morning over the Lake Shore Railroad. Awaiting the arrival of the Preesident was a reception committee of the Commercial Club and also an enthusiastic delegation made up of thousands of children from the public schools.

The day proved an exceedingly busy one for President Taft. A luncheon at the Congress Hotel as the guest of the Commercial Club was followed by a visit to the Art Institute. Later in the afternoon the President attended the baseball game between the New York and Chicago teams of the National League. For the remainder of the afternoon and evening the program provided for an automobile ride, and diner with members of the Hamilton Club and city and State officals and a public address in Orchestra Hall, concluding at night with an appearance at the ball of the American Bankers' Association.

The President found Chicago awaiting his arrival in gala attire. Flags were flying from every staff in the down town section, and bunting was liberally dipslayed. Throughout the day the President was greeted with tumultuous cheers at his every appearance. Crowds filled Michigan boulevard and the park in the vicinity of the Congress Hotel, anxious for a glimpse at the chief magistrate, and his appearance was always the sign for an enthusiastic outburst of sheers.

WEATHER FORECAST.

For Wichita Falls and Vicinity —Tonight and Friday, generally fair.

ABILENE'S JEALOUSY.

The San Angelo Standard's wires of information are badly crossed. The Standard says Abilene objects to an extension of the Morgan Jones road from Winters or any other point to San Angelo. Such a statement is as far from correct as Canyon City is from the center of population west of the 98th meridian—and that's some distance. Abilene would like very much to see the Abilene and Southern extended to San Angelo. She is perfectly willing to take chances on any deterioration that might result from a direct connection with the wicked Concho City. There are many other reasons why Abilene would rejoice to have the distance to San Angelo shortened, one of which is that some of our citizens frequently desire to retire for a short time from the strenuous manners of busy, hustling metropolitan activity, and according to information, San Angelo has to offer the ideal spot for the desired relaxation.—Abilene Reporter.

San Angelo people have been accustomed to stating that they occupy the center of he earth until some of them really beleive it, and imagine that all other towns in Texas are jealous of that place. Let Abilene build its road towards Brownwood. This town would like to have direct connection by rail with that hustling city.—Brownwood Bulletin.

The test of faith is works: The proof of sincerety is deeds, and actual performance is the refutation of erroneous imputations. Today San Angelo is raising $100,000 to secure the Abilene and Southern extension to her gates in order to get in closer touch with her vassal up on the T.-P. San Angelo is the hub, and the A. & S. will be another spoke in the wheel. The court house in San Angelo stands right in the center of the earth; we can prove it. No one will attempt to disprove it. All great luminaries have their satelites. San Angelo's galaxy is set with the brightest stars. Abilene and Brownwood are among her most effulgent orbs. Talk on.—San Angelo Standard.

An Austin man secured a divorce because his wife thought more of her dog than she did of him. Not being acquainted with either the dog or the husband, one cannot judge whether the wife was justified or not.—Wichita Times.

Well; if it happened in Austin, here's to the dog every time. The dog always stays at home o' nights.—San Angelo Standard.

There ars as yet no aspirants for the site of the state's leper colony, one of the most desirable of state institutions. We nominate Abilene, she has tried to get everything else and has failed.—Wichita Times.

Don't close the nominations yet until Ballinger is heard from.—San Angelo Standard.

The Times has never been what is termed an "organ," nor will it ever become such under its present management. It is a democratic newspaper—one that will support the nominees of the party, and uphold democratic principles as set forth in the platform of the party from one convention to another. On moral issues, it never allows its principles to be measured by the dollar, and when it becomes necessary, gives expression to its views on such questions first. There is time enough to meditate and count the cost of such action afterwards. In the opinion of the present manager this is the only lines upon which a newspaper worthy of the respect and patronage of an honest people should be conducted, and if, by pursuing sucha course, it should fail, it would be no consolation to the manager to know that he could have succeeded by pursuing a different one.

From the Polar Journal.

"Arising just before midnight, I slipped out of the ingloo, and, after taking another hitch—the seventh in four days—in my belt, I hit the trail. It was 32 below and a cruel wind stung my face. But I preserved. In 13 hours made 76 miles, which was going some, it occurred to me. A rift in the clouds permitted a hasty observation shortly fter noon. It was 89.59. The pole was in sight. Hastily collecting myself I made a last dash and reached the goal. I examined my chronometer. It was 1 o'clock. I looked at the calendar. It was April 1."—St. Louis Post-Dispatch.

A graduate of Yale, aged twenty-two years, recently married a widow aged seventy-two, worth fifty thousand dollars. The value of the higher education is brought home to us more and more.

The ordering of the new rolling stock by the Northwestern, as recorded in yesterday's Times is respectfully referred to the Abilene paper that called the Northwestern a "tin-pot" road.

We have ridden on the street cars and now know something of the delicious little tingles of pride that scampered up and down Dr. Cook's spine as he stood at the North Pole.

President Taft won't enjoy his swing around the circle nearly as much as we enjoyed the swing around the loop on the street cars yesterday afternoon.

When Fred Askew paid the first street car fare yesterday, the conductor rang it. Nothing like establishing a good precedent.

Those democrats who had expected to get in on the census list are now having their ideas of the matter revised downward.

New Orleans will try to have a winter baseball team. Her real aim should be to do a little better with her summer nine.

It will probably not belong before there are several contenders for the honor of the first to sue the street car company.

Wouldn't it be awful if Taft should get his speeches mixed up and deliver the Seattle one at San Antonio?

We'll admit they don't look natural now but as time goes on we expect to get used to them.

Bailey's latest replying jog promises to be the most strenuous of any he has yet undertaken.

Our Foreign Born Voters.

From the Springfield Republican.

A generation or two hence postmasters, and even governors, whose names end in "ski" or "ji" will probably be common. Such a result is almost a mathematical certainty, in view of the statistics of current immigration. But the old families of Brooklyn borough, in our greatest city, are now somewhat startled to be told that a formidable aspirant for the Brooklyn postmastership is "the Hon." Bela Tokaji. Mr. Tokaji's rise in politics shows what can already be done by a smart Hungarian, the tombs of whose ancestors are all thousands of miles away. He began as a Hearst municipal ownership lieutenant in Brooklyn, and he became a Roosevelt republican in time to be of assistance to Mr. Taft in his presidential campaign. Long regarded as a joke in his home borough, Mr. Tokaji is gradually assuming dignity that even Mr. McCarren might admire. He will probably not be the new postmaster, yet he can not be ignored.

Runaway this Afternoon.

The first runaway to be caused by the street cars occurred this afternoon as the 1 o'clock car was passing the postoffice. A horse attached to a light buggy became frightened and dashed down Ohio Avenue, overturning and wrecking the vehicle. It was unoccupied at the time.

Use More Cocoa

There are people who can and do work hard from six in the morning to noon on no other breakfast than a cup of strong cocoa.

Now you know that cocoa must be a strong food to make that possible.

The only difference between chocolate and cocoa is that a part of the rich heavy oil is taken out in making the cocoa so that children can drink it and thrive on it.

Iced cocoa is a delicious drink if you boil it a trifle and then do not put in the cream until you are ready to drink it when a dash of whipped cream makes it delicious.

In making the hot drink add a sprinkling of powdered cinnamon to give it a little extra zest.

A Common Food That Is Very Uncommon.

When you buy a can of Heinz's pork and beans in tomato sauce, you get something more than "just beans." You get richness, flavor, and satisfaction. The uncommonness of the Heinz product is in the quality of materials used, the skill and painstaking care with which they are handled and the delicious taste of the finished article. One trial convinces you that you are not eating ordinary baked beans. Afterwards, when you think beans, you think of Heinz's. Try them.

AMUSEMENTS

A brand new revised edition of 'The Alaskan,' now made over into a genuine fun making musical melange, will be the opening attraction at the Wichita Theatre next Tuesday. It comes to us now from a phenominal five months run in Chicago, where the entire press of the City lauded it as "the bulliest musical show ever seen there in years. Manager Wm. P. Cullen, who has given us many good things, namely: 'The Burgomaster,' and 'The Tenderfoot,' is the producer, and he has been especially happy in the formation of the present company. The complete Chicago production intact, will be brought here. Richard F. Carroll and Gus Weinburg are responsible for many of the new novel surprises and exclusive features with which the 'Alaskan' fairly bristles, and in part of Waltcars, two extra large coaches and two 16 section drawing room, standard Pullman sleepers to transport "The Alaskan" theatrical company of 75 people over the country. It requires twelve 20 foot trucks or baggae wagons to haul the baggae, thetons of heavy scenery and the huge properties from the depot to the theatre.

singham Watts, a stranded theatrical manager, Carroll has a part exactly suited to his talent. Gus Weinburg as professor Knicklebein,(is prominent amongst the fun makers, and is given ample opportunity to extract many laughs, with the aid of his "laughing powder," not saying anything about his natural spontaneous humor. Detmar Poppen will be welcomed as Towill all bewelcomed. The many new will show his splendid voice to advantage as Richard Atwater. Jessie Stoner as Arlee Easton, Marion Hall as Mrs. Good Better Best, Etta Lockhart as Kuko, an Eskimo child of nature; also Fairy Plumb as La Lu La; not forgetting Jack Rose in the now famous character of Snowball, the Polar Bear, will al be wecomed. The many new musical interpolation, including Snowball, in which the entire audience takes part and the self-same audience is allowed to pelt back, 'Laughing powders,' 'Hi Hi Hi,' 'The Face of the Girl I Love' 'My Totem Pole.' The large chorus of Esquimo girls and miners is again a strong factor in this season's organization.

The advance sale of seats begins Saturday morning at 8.30 at the office of Bean & Huey, 617 8th street.

We are Going to Give Twenty-six People an Opportunity to Own Their Own Homes by Paying a Small Cash Payment Down and Payments Monthly Without Interest

The Wichita Development Company owns twenty six modern bungalows on Burnett, Bluff and Austin Sts., between Third and Sixth Sts., which we have induced them to allow us to sell on easy terms, *Without Interest or Taxes*, and on which they will carry the insurance until forty-eight monthly payments have been made.

These houses are well built; have concrete foundations; all chimneys built from the ground, and are all pleasing in appearance. They are close in, the property beginning six blocks from the First National Bank. The ground is the highest of any portion of Wichita Falls which lies in the valley, as shown by the statement of City Engineer, Hinckley, which appears in this advertisement. Cement sidewalks are laid over nearly all the property, and every house has a sewer running down alley in rear. The Gas Company has laid its mains down the streets. Each house is connected with city water. Free mail delivery and a school house within two blocks of the farthest house are among the advantages. The soil is deep and fertile and trees and lawns can be grown better than in most parts of the city. When these houses have been sold, as they will be, under these extraordinary terms, and the property is occupied by owners, who will be interested in its development, property values will double.

These houses are practically new, and rent from $15 to $20 per month, and at that, are the cheapest rentals in the city. On a house renting for $15 you double the rent for 48 months and own the house without payment of interest, taxes or insurance, by paying a cash payment down of but $100.00. On a house renting for $20 per month you pay a larger cash payment but add only $10 per month to your rental.

A buys the first house listed, he pays, in cash,...	$100.00	48 month's rent saved at $15 per month.....	$720.00
He pays 48 payments of $27 each	1,296 00	Net cost of house.....	$876.00
Total cost.....	$1,396 00		

It is reasonable to suppose that with the growth of Wichita Falls the value of the property will have increased to $2000.00, in which event the purchaser will have made a net profit of $1324.00 on his investment.

Wichita Falls, Texas, Sept. 2, 1909.

The Wichita Development Co.,
Wichita Falls, Texas.

Gentlemen:

This is to certify that the property owned by your company, Blocks Numbers 121, 122, 123, 144, 145, 220, and 241 has an altitude of from 958 to 960 feet. The altitude of that portion of the city lying between Seventh St. and the Wichita Valley Ry., from North to South and between Lamar St. and Michigan Ave., from East to West, ranges from 951 to 957 feet; in other words, the property owned by your Company is from one to eight feet higher than any portion of the city, excepting such as is on the hill. For example, the altitude of Burnett and Third St. on your property is 960 feet. On the corner of 12th and Scott, which is in a good residence section of town, the altitude is 951 ft; consequently, should the city ever be inundated, the water would be 9 ft. in depth at the corner of Scott and 12th before it would begin to cover your property at Burnett and Third.

(Signed) L. C. Hinckley, City Engineer.

Twenty-Fourth Legislature Of the State of Texas

Officers and Representatives of Twenty-Fourth Legislature Endorse Dr. Frank Fanning's Method of Healing, and the Wonderful Cure of the Hon. W. T. Armstead.

The doubting and incredulous should read the certificate below from W. T. Armstead, Member of the House of Representatives of the Twenty-fourth Legislature, backed by the certificates of endorsement of that body. What better evidence is wanting? How could his power to heal and relieve pains and ills be made plainer, or worded in language more strong? The afflicted should carefully read, ponder well over the truths therein contained, doubt no longer, and go at once to Dr. Frank Fanning and be relieved from suffering.

To Whom It May Concern:

House of Representatives, 24th Ltgislature, Austin, Texas, April 2, 1895.—I had been suffering with inflammatory rheumatism, with swelling in my feet and knees. For three weeks I was unable to get out of bed, when Dr Frank Fanning of San Antonio, treated me, and at his first treatment I got up, put on my clothes and attended the Legislature, and at his second treatment could put my feet on the mantel piece in my room and could walk without any pain or inconvenience except a little soreness. My cure was at least marvelous, if not magical. I take pleasure in commending Dr. Frank Fanning to all sufferers from aches and pains. When medicine failed he cured me in two treatments.

Sincerely,
W. T. ARMSTEAD.

I endorse the foregoing and know the facts to be correctly stated.
T. S. SMITH,
April 2, 1895. Speaker of the House of Representatives.

I was present and witnessed the above mentioned treatment and cure, and can testify to the truthfulness of it.
J. A. JACKSON,
Chaplain House of Representatives.

I endorse the foregoing statement and know the facts contained therein to be true.
CHESTER HALE,
Chief Clerk of the House of Representatives.

I endorse the foregoing statement and know the facts to be correctly stated, and commend Dr. Fanning most heartily.
L. T. DASHIEL,
Representative Leon County.

We, the members and officers of the House of Representatives of the 24th Legislature, hereby endorse the method of treatment exercised by Dr. Frank Fanning in curing Hon. W. T. Armstead of Acute Rheumatism.

CHESTER HALE, Ch. Clerk H. R.
W. B. PLEMMONS, Rep. 102nd District.
I. L. MARTIN, Rep. 96th District.
T. R. WATKINS, Rep. 58th District.
W. M. PECK, Rep. 8th District.
L. I. RHODES, Rep. 100th District.
J. R. GOUGH, Rep. 14th District.
JEFF McLEMORE, Rep. 14th District.
P. S. POWELL, Rep. 99th District.

The genuineness and authenticity of the facts as above stated can not be questioned, and surely stamp Dr. Frank Manning as the most remarkable healer on record.

The rapid and permanent relief of pain and disease by his magical touch is indeed marvelous, mysterious, and the hand that performs such wonderful cures must indeed hold Nature's power of healing in a remarkable and miraculous degree.

Dr. Fanning will open offices in Wichita Falls September 20th. His cures of both, chronic and acute diseases, are truly wonderful. As his consultations are free, you should not miss this golden opportunity.
