

The Gay Philosopher

By J. W. B.

A RECENT SURVEY of Eastland County by the West Texas Chamber of Commerce shows that our county has \$26,760,000 worth of buying power, and retail sales last year amounted to \$29,000,000 in the county. As you can see, our county is in the big business class.

A survey around town shows that business has picked up somewhat since the recent good rains. Prospects for a good crop, which should be even better in the fall. We're informed that the county's peanut crop should be nearly normal this fall. And that crop alone can be worth between one and two million dollars.

MR. GEORGE FEE, the rancher on the Breckenridge highway, hardly leave home as one result of the recent rains. Just here it started raining, he gave a huge lawn a heavy dose of fertilizer. By the time he gets the lawn with his mower, it is time to start again at the signal starting point.

CISCO IS DUE to be represented by a goodly crowd of fans at the Fort Worth baseball game Saturday night in Fort Worth. D. N. Morrison, chairman of the Cisco Night committee, reports that he has sold a good many tickets and he still has a good supply. Get in touch with him if you would like to make a trip. The Little Leaguers are going as guests of the Cats.

Cisco is due to receive recognition on the public address system at the game.

A SAMPLE OF dry weather catches — Texabertas that weigh nearly a pound apiece — was on our desk yesterday by Mrs. A. Bible. The Bible orchard southwest of town is now in production and they're selling peaches at the new Peach Market on Highway 80 (west) via trucks to points in West Texas. Their apples will be coming in before very long. The recent rains have been beneficial to the orchards of our area.

JUST TALKED TO Dr. H. M. Ward, pastor of the First Baptist church, who recently underwent surgery. He reports that his strength is slowly returning but will be some while yet before he starts mowing grass and the like. He will be back in his spot for both services this Sunday. Says he feels swell.

AND THEN WE ran into several fellows who have noticed that the mosquito population has been increasing rapidly in recent days. The rains left a lot of water puddles that are responsible for the new crop of mosquitoes.

It costs quite a lot of money to spray the city for mosquitoes and we. And we got to talking about how to finance the spraying work during the summer months.

What would you think of the city adding a 25c spraying machine charge to your water bill for two or three months during the summer? If everybody would pay 25c with their water bill for two or three months the city would have enough money from that source to run the fogging machine as often as necessary.

It seems to us that the 50c or 75c it would cost each family would be cheap when you consider the good it would do in killing insects and flies and mosquitoes. If you like the idea Mayor G. C. Rosenthal or one of the city commissioners and action can be started at their regular meeting next Tuesday night. If you contributed this small amount to the city spraying fund, you would likely save that much more from what you might be buying mosquito spray material for your own premises.

MR. GENE WATSON, who lives up on Avenue N, tells us that he is feeling better than he has in three years. Arthritis has been bothering him for several years, and he has taken most of the new drugs as they come out. He reports that he now has more strength and endurance than he has had in a long while. We know that his many friends will be glad to know.

EQUINE RESCUE—Cats and children aren't the only creatures that get into tight situations. This mare in Salina, Kans., dropped one of its forelegs into a cattle guard and a welder was called to cut through a pipe, top photo. After the mare's release below, the animal stumbled a bit; it was unharmed but the leg had become so numb it couldn't walk for a few minutes.

Alonzo Snowden Dies; Rites Are Planned Saturday

Alonzo E. Snowden, 62 year old retired cafe operator, died in a local hospital at 8:05 p. m. Thursday following an illness of a few days. Death was attributed to a heart attack.

Mr. Snowden had been a resident of Cisco for the past 18 years, coming here from Hermleigh. He was born in Meridian, Miss., on January 2, 1891. He was married to Miss Birdie White in Meridian on Thanksgiving Day, 1912. Mrs. Snowden died on October 10, 1928. He was a long time member of the First Baptist Church.

Funeral services will be held at 10 a. m. Saturday at the First Baptist church with Dr. H. M. Ward, pastor, and the Rev. M. L. Agnew, pastor of the New Hope Baptist Church, officiating.

Following the services here the body will be taken overland to Hermleigh where graveside rites will be held at 4 p. m. Saturday. Thomas Funeral Home was in charge of the arrangements.

Survivors are three daughters, Mrs. Bill Bledsoe of Cisco, with whom Mr. Snowden made his home, Mrs. Charles Alexander of Fort Worth and Mrs. John Seims of Bakersfield, Calif.; a granddaughter, Donna Jeanne Seims of Bakersfield; six brothers, Marvin Snowden of Wolfworth, Texas, Jimmy Snowden of Snyder, and Leland, Curtis, Tom and J. W. Snowden, all of Meridian, Miss.; four sisters, Mrs. Cara Watkins of Port Arthur, Mrs. Sarah Holt of Bridgeport, Mrs. Faine Trussell of Meridian, Miss., and Mrs. Ruby Shannon of Mobile, Ala.

Pallbearers will be Vivian Agnew, John Dunn, Arlin Agnew, Felton Underwood, John Penn and S. A. Huestis, all of Cisco, Joe McKinney of Albany and Bud Derr of Haskel.

Christian Revival To Close Sunday

The Rev. Sidney Spain, pastor of the First Christian Church, announced Friday that there would be no revival service at the Church Saturday night. The revival meeting is being conducted by the Rev. Joe Frederick of the South Dallas Christian Church.

The meeting began Sunday and will close with the evening service Sunday, July 26. Everyone was issued a special invitation to attend the final two meetings.

Rev. Spain said that the crowds and the interest was continuing to grow with each meeting, and that the largest crowds were expected Friday and Sunday nights.

Popular Singers And Musicians Due At Jamboree

The Rhythmaires Quartet, popular radio entertainers, the Long Hillbilly Singers of Brooksmith and the Farm Bureau Western Band of Comanche will be guest entertainers at the regular Cisco Jamboree to be held at the city hall auditorium Saturday night, July 25.

In addition to the above three groups the regular entertainers and other local talent units will appear on the two and a half hour show, which will begin at 8 p. m.

The Cisco Jamboree is sponsored by the Cisco Volunteer Fire Department in an effort to raise funds to better the local fire department. Admission prices have been set at 50 cents for adults and 35 cents for children.

Mr. Doris Clark of Abilene is visiting in the home of her mother, Mrs. C. S. Sures.

LITTLE LEAGUE ALL-STAR CLUBS TO PLAY AT ABC FIELD TONIGHT

The Cisco Little League All-Stars, selected by the managers to compete in the area tournament in Breckenridge next week, will get a chance to prove their metal tonight at ABC Field when they meet an all-star team selected from the remainder of the Little Leaguers of the four Cisco teams.

The time for the game has been set for 8 p. m. It will be a regulation affair with both teams out for blood.

Bill Pope, manager of the Giants, and Bob Sanders, manager of the Athletics, will manage the team challenging the all-stars. M. W. Cotton and L. E. Sublett will manage the all-stars.

Playing for the challengers will be Arthur Chatman, Ralph Adams, Tommy Comacho, Larry Gregg, Ronnie Awall, David Elder, Gerald Darr, Bill Lester, Jack Lucas, Delbert Schaefer, Lee Wallace, Larry Farrow, Landon Thompson, Franklin Farnsworth, Jerry Monk Bill Overall and possibly others.

The All-Star team is composed of Jimmy Dolgener, Bobby Dolgener, Charles Lipsey, Johnny Baum, Freddy Howell, Dickie Bennie, Dallas Elder, Charles Lavery, Elmer Escobedo, Johnny Richardson, Gene Thefford, Milton King, Jerry Blackwell, and Homer Smith.

Over 200 Cisco Residents Due To See Baseball Tilt

Plans were almost complete for the observance of "Cisco Night" at LaGrave Field in Fort Worth Saturday night when some 200 local fans and over 100 Little Leaguers will be at the field to see the Fort Worth Cats play the San Antonio Missions in a Texas League contest.

The arrangements were made by the Fort Worth baseball club and D. N. Morrison, their local representative.

Mr. Morrison said that more than 100 adult tickets had been purchased by local fans and that another 100 were expected to be sold before the deadline Saturday morning.

Contrary to past announcements Little Leaguers were asked to get their tickets from their respective managers. Original plans were for the players to get tickets at the gate in Fort Worth but the Fort Worth club sent the tickets to Mr. Morrison for distribution in advance.

During the game Cisco will be recognized over the public address system.

The block of tickets sent to Cisco will allow local fans to sit together in one section. Little Leaguers will be seated in a separate section with their managers. Adult tickets are being sold for \$1.25. Little Leaguers will be admitted free.

Sprays Kill Fish In Farm Ponds

AUSTIN, July 24. — The Chief Aquatic Biologist of the Game and Fish Commission said the usual summer hot weather hazards to fish are being enhanced by agricultural and livestock sprays.

He said extreme heat and windless days are common dangers to fish, particularly in small, shallow water areas. He advised interested persons to help restore oxygen to these places by using ordinary outdoor motors to stir up the surface.

The increasing use of agricultural sprays, the Chief Aquatic Biologist explained, is a comparatively new menace. He cited a recent case where fish in two ranch tanks died mysteriously. The rancher said he had not used any sprays, but investigation showed a neighbor in the same watershed had. A shower washed the poisonous chemicals into the water.

Water-Borne Bridge—Nudged by a tugboat in Duwamish Waterway, Seattle, Wash., a 775-ton railroad bridge is beginning a hazardous 80-mile trip to a point near Anacortes where it will be installed. High and low tides will be used to help put the new bridge in position.

Two girls will enter the events for 12 and 13 year olds. Lorelei Lipsey will enter the softball throw and the 50 yard dash. Leta Faye Keller will enter the 50 yard dash and the standing broad jump.

76 Children Are In Bible Classes At Local Church

There were 76 children enrolled in classes of the Vacation Bible School now in progress at Grace Lutheran Church, and the interest was growing daily, it was reported Friday by directors of the school.

The classes were divided into different age groups and the 19 instructors were teaching Bible lessons and handicraft. Some of the time is being spent in singing, playing games and in a refreshment period.

Virginia Weiser is the director of the school and the Rev. James Hennig is the pastor advisor.

Other teachers include Mrs. M. J. Scaer, Mrs. Park Plambeck, Mrs. Louise Zander, Mrs. R. H. Dunning, Mrs. Carl Stroebel, Kathleen Ziehr, Glenda Zander, Elaine Ziehr, Shirley Miller, Miss Weiser, Margaret Weiser, Cordeila Wende, Jerry Weiser, Mrs. Fred Stroebel, Anita Stroebel, Mrs. Dorothy Prange, and Mrs. H. D. Lanham.

The school will continue through next week, it was announced, and everyone was given an invitation to attend the remainder of the classes.

Rev. Frederick Is Rotary Speaker At Thursday Meet

The necessity for all nations to work in unity and the need for the support of the American people in the efforts of the United Nations was stressed by the Rev. Joe Frederick who spoke on the world organization at the weekly meeting of the Rotary Club at the Hotel Victor Thursday.

Charles Graham was in charge of the program. He called on the Rev. Sidney Spain to introduce the speaker.

Rev. Frederick was selected as a delegate to the United Nations from the Christian Churches of Texas three years ago and spent some time observing the inner-workings of the organization.

He said that advancements in communications made such an organization absolutely necessary, and issued a plea for understanding and support of the American people for the successful operation of the organization.

Rev. Frederick explained the six divisions of the U.N. and told of each division's duties.

He said that the organization had accomplished much in the few years it had been in operation, despite a few mistakes in the organization and the work.

He concluded his talk with a plea for Americans to stand firm in the traditions of the country as set out by those who had sacrificed so much for their country.

Visitors at the meeting were Rotarians George Barron and Ellis Ganey of Abilene and Jack Frost and George I. Lane of Eastland. Other visitors were Walter Stockard of Houston and Sam B. King of Cisco.

Antelope Hunt Is Being Planned By Game Commission

AUSTIN, July 24. — Persons interested in competing for permits to hunt antelope in Texas this fall were advised by the Executive Secretary of the Game and Fish Commission to write for a formal application.

Those writing will receive a blank to be filled out and returned with \$5 covering cost of a license. The license money will be refunded to those whose names are not picked in the drawing to be held at the Commission headquarters in Austin early in September.

The Executive Secretary said the applications must be in the Austin headquarters before midnight, August 31.

Dates for the annual antelope harvest were set by the Commission for October 1 to 6, inclusive, in the Big Bend country and for October 20 through 24 and for October 27 through 31 in the Panhandle.

The Commission estimated the probable harvest of male antelope in the Big Bend at from three hundred to three hundred and fifty and the harvest in the Panhandle at about three hundred bucks. The final license total will depend on surveys now being conducted.

Persons, who are awarded a license through the drawings in Austin, make their own arrangements with ranchers who are permitted to charge up to \$40 for each licensed hunter.

Hobby Club Notes

Thursday is a busy day for Hobby Club in the Junior High School lunch room. Next week there will be a new shipment of leather goods for those who wish to make belts, billfolds and various other articles.

Emma Lee Heltzel finished a beautiful belt this week and others have theirs ready for the final coat of shellac. Several other girls are finishing their woven baskets. These are easy to make and useful when finished.

There is a great need for adult helpers who can aid in the leathercraft work. The number of children is increasing every week and the workers are too few to give proper instructions. — Mrs. D. N. Morrison.

CRACKS IN THE CURTAIN?

Are cracks — big cracks — at last appearing in the Iron Curtain? Have oppressed people reached a point of desperation where they will run any risk in an effort to rid themselves of their masters? Has the death of Stalin, and the passing on of his powers to warring factions within the Kremlin, resulted in weaknesses in the Soviet system far greater, more far reaching, than the anti-communist world even could have hoped for a few months ago?

Today, any answers to these vast questions must be hedged about with "ifs," "ands," and "buts." No one can be sure. But there is a degree of optimism in the western world that is greater than we have known in a very long time.

The amazing East German riots were unprecedented. In Time's view, "they were jolting proof of a fact that the free world's leaders seem all too reluctant or timid to act upon: The people who have suffered communism hate it passionately. . . . East German rebellion against communism seemed to give the anti-communist world its greatest opportunity — and challenge — since the cold war began."

U. S. News & World Report began a lead article datelined Berlin with these words: "Signs multiply that the world is witnessing the beginning of the end of the new Russian empire in Europe. The myth of strength through communism is shattered by open revolt. The men in the Kremlin are desperately playing for time to patch things up, but it is becoming increasingly doubtful if they can do so, even with time. Revolt is in the air in the Soviet part of the world."

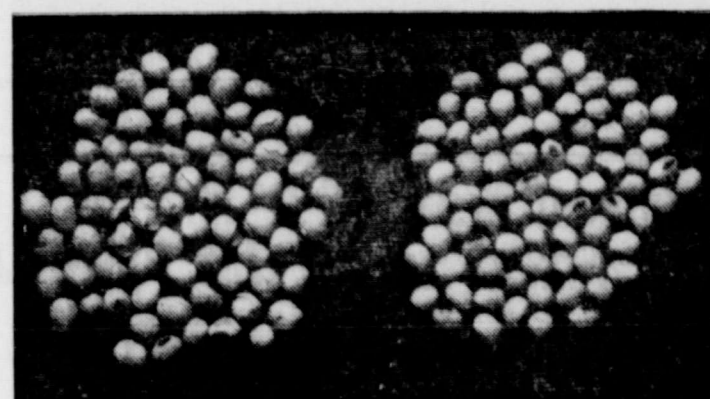

At a press conference President Eisenhower said that revolt against tyranny seemed to be spreading like wildfire. According to AP account, he added that this shows "that people who have known freedom rate it as the highest of human values and consider life itself worth spending to regain it."

Moreover, the unrest has not been confined to Eastern Germany. It is widespread in Czechoslovakia too. And there are signs of an impending blowup of major proportions in Poland, which has been given the full communist treatment.

The difficulties faced by anti-communists behind the Iron Curtain are enormous. Purges have destroyed much of their leadership. A ruthless, huge and tough-disciplined police force, equipped like an army, is always ready to move instantly to curb dissension. Every conceivable step has been taken to safeguard communist authority. Yet, as history shows, unarmed peoples have overthrown dictatorships before, although at a terrible cost.

In a symbolic sense, one of the most striking news pictures of all time came out of the East Berlin riots and was widely printed in this country. It showed two rioters throwing stones at a Soviet tank. Obviously, the stones could not hurt the tank.

Care in Harvest Cuts Soybean Field Losses

Left: Soybeans like these with many broken seed coats, germinated 56%. Right: Soybeans like these with no visible injury germinated 92%.

If your soybeans don't grow and if your stand is poor, it may be that the seed beans were injured in harvesting or during handling operations. Injured seeds may not germinate at all, or they may sprout and produce stunted or deformed plants.

In a germination test at Iowa State College, Barger and Weber report that seed soybeans having no visible injury had 92% normal sprouts, 7% abnormal sprouts and 1% with no sprouts. Seeds with broken coats had 56% normal sprouts, 34% abnormal sprouts and 10% with no sprouts. The reported tests of these two lots were 92% and 56% respectively. For use as seed for planting it's very important that the beans be sound.

The five common losses in combining soybeans are (1) shatter losses, which are generally less than 1%, (2) cutter bar losses, which may run as high as 20%, (3) cylinder losses — injured beans, (4) separating losses, which may be rack losses or sieve losses and show up as whole, threshed beans coming through in the straw, and (5) cleaning losses.

Frequent use of the rotary hoe, spiked-toothed harrow or weeder when the beans are small (up to 6 or 8 inches in height) followed by one cultivation with an

ordinary cultivator will keep the land relatively weed-free and level and reduce cutter bar losses.

The best way to harvest soybeans is to combine direct from the standing stalks. The pods should be fully matured and the beans hard. Beans can be combined at 14% moisture or higher, but they are not safe to store until the moisture is 13.5% or below.

The pods should be dry enough to split open when squeezed between thumb and forefinger. Dry beans will crack all the way through when you bite them. If the beans are "cheesy" you can be pretty sure the moisture is too high.

If soybeans are combined after the first good frost, the green stalks and the weeds are usually completely killed. If they aren't dead and dry they may clog the sieves—even though the beans are dry. Check the straw as it comes out of the machine. If the beans are all removed from the pods but cracked beans are coming over, then the threshing effect is probably too great. Often the season for harvesting beans is rather short. So plan in advance for the equipment so you can go ahead with harvesting when the beans are ready. Delay may be costly.

Equally obviously, the rioters were in imminent peril of being blown to bits by the tank's guns. From a purely practical standpoint, the stone-throwing marked an ultimate in futility. Yet the spirit that it represented is the kind of spirit that has destroyed tyranny and created freedom ever

since recorded history began. Finally, these great events must certainly be the reason for Russia's stepped-up "peace offensive." A nation with such tremendous troubles at home is naturally eager to reduce her troubles and commitments elsewhere to the greatest possible extent.

There Must be Something Wrong —

... with the man who falls down and refuses to get up or is perfectly content to allow society to look after his well being, or is there? What is wrong, if anything, with the seller who refuses buyer an abstract. Maybe nothing, but there is something wrong with the buyer who weakens at this point and buys hastily without complete title information before him. Think it over and in the meantime don't do it.

Traffic Accident Summary Booklet Issued By State

AUSTIN, July 24. — The Texas Department of Public Safety today released its annual Texas Motor Vehicle Traffic Accident Summary booklet along with a tabulation of the first six months experience for 1953.

The booklet which makes an exhaustive treatment of Texas' motor vehicle accident picture covers both 1951 and 1952 since

none was issued last year. On the basis of the summary, which carries an introduction by N. K. Woerner, Chief of the Safety Department's Statistical Division, the 7.0 death rate in the State last year was the lowest in the history of recorded traffic records analysis.

Homer Garrison, Jr., Director of the Texas Department of Public Safety, said that he believes the book will introduce a new word into the English language — MOTORCIDE. This term was coined by Woerner and Lewis E. Berry, Supervisor of Public Safety Education for DPS, to refer to traffic fatalities.

Briefing the reader on the definitions of suicide and homicide, the booklet goes on to define MOTORCIDE as: "the killing of another human being or of one's self through the operation of a motor vehicle — usually the result of negligence of wanton carelessness."

The report shows that 2,498 persons were killed in Texas traffic accidents in 1952 — 2% under 1951. A continuing decrease is noted for the first six months of 1953 in a supplemental summary which indicates that there were 7% fewer MOTORCIDES through June than for the same period last year. Since this is based on incomplete reports for 1953, Woerner estimates that when all reports are in the decrease will be 2%.

Mrs. Lillie Threet of Cisco underwent a major operation Wednesday at the Buie Hospital in Marlin. Her room number is 14. Her condition was reported as satisfactory.

Lt. and Mrs. Beecher Dierdorff, Jr., of Denver, Colorado, have been the guests of the Sutton Crofts this week. They will leave Saturday for Fort Benning, Ga., where he will be stationed.

Mrs. Ben Parker has as her guest this week her great granddaughter, Martha McLean, of Odessa.
