For Land and Water Used

We supply the best and most reliable Lumber. If you want to build a boat, we will provide the Timber, staunch and strong ready to stand the water test. If you want to build a home, we will supply you with the proper Timber in any lengths or sizes—all well-seasoned Lumber that is free from imperfections, and will not shrink or warp in the sun. And the prices will stand all criticism.

McMURRY LUMBER CO. L. E. ALLEN, Manager

THIS YEAR'S WHEAT CROP

764,291,857 BUSHELS OF WHEAT TO BE HARVESTED.
Acreage of Spring Wheat Shows an Increase of 9 Per cent—Indicates Increase of 23 Per cent.

Washington—Promise that this year's wheat crop will be the greatest ever produced is given in the June crop report issued Saturday by the department of agriculture. Estimates by the department's experts indicate that approximately 764,291,857 bushels of wheat will be harvested in this country this summer and autumn, an increase of about 68,848,857 bushels over last year. Of winter wheat the indicated yield is almost 480,000,000 bushels, and of spring wheat 284,000,000 bushels.
Professor N. C. Aurray, acting chairman of the crop-reporting board, commenting on the report, said:
"The acreage of spring wheat shows a total larger than any that has ever been recorded, and nearly 9 per cent larger than last year. On June 1 the crop was above the average in promise, the condition and acreage combined being such as to give hope for a yield of nearly 23 per cent more than last year and nearly 17 per cent more than the average for the last five years."
"May was unfavorable for winter wheat. Nevertheless with the increased acreage there probably will be between 3 and 4 per cent more winter wheat than last year and between 6 and 7 per cent more than the average for the last five years. Coupling both spring and winter wheat, the indications point to a slightly larger yield per acre than was produced last year, and about the same yield per acre as during the last five years. This would make a total production of all wheat of 5.3 per cent more than last year and 10.2 per cent more than the average for about five years.

THE FIRST BALE OF COTTON

Ginned at Riviera, Nueces County, Friday—Earliest on Record by Eleven Days.
Houston, Tex.—Breaking all records as far as can be traced, Texas this season puts out the first bale of cotton June 9, a message having been received at the Cotton Exchange Friday that the cotton had been ginned at Riviera, Nueces county.
This is the earliest date that a bale of cotton has been gathered in Texas and the South by eleven days, the next early date having been in 1908, when it was prepared for the market June 29.
Notice of the first bale of the season, when posted at the exchange, created a lot of interest among those on the floor and soon the news had scattered about the city and was a subject of conversation and comment. The fact that it created a new record for early bales was a frequent topic.
In 1910 the first bale was ginned June 23 and came to this city the day following from Mercedes, Hidalgo county, and on the floor of the exchange brought \$275, a record price. Other dates of ginning since 1905 are as follows: First bale 1906, June 6; 1907, June 21; 1908, June 20; 1909, June 28; 1910, June 23.
Houston, it is stated, has received the first bale of the season for the past fifteen or twenty years, and on account of such has won quite a distinction over the world, along with the fact that Houston is the largest inland cotton market on the globe.

Harbor Island Application.
Austin, Tex.—Approval was given by the railroad commission Wednesday to the applications of the Aransas Pass Channel and Dock Company to purchase land on Harbor Island under the act of the Thirty-second legislature. The land commissioner will now award the land, and the proposed improvements must be made within two years, otherwise the land reverts to the State.

E. O. and W. Not Sold.
Delbart, Tex.—The Elid, Ochiltree and Western railroad was not sold at auction Wednesday, no bids being offered when the auctioneer put it up for sale. On July 12 it will again be offered under the hammer. W. B. Chauncey purchased the rolling stock Wednesday.

A Destructive Fire.
Bonham, Tex.—A destructive fire occurred at Gober, a village twelve miles southeast of Bonham, Tuesday. Almost the entire business portion of the place was destroyed, entailing a loss of \$10,000, with practically no insurance.

Hosley Mills Burn; \$65,000.
Knoxville, Tenn.—The Marysville (Tenn.) Hosley Mills at Marysville were destroyed by fire early Tuesday. Loss, \$65,000; insurance, \$21,500.

WRECK OF MAINE VISIBLE

FIRST STAGE OF WORK ON WRECKED SHIP COMPLETED.
Much Interest Aroused by Fact That Wreck Will Be Raised and Cause of Explosion Determined.

Havana.—The first stage of the actual work of uncovering the wreck of the battleship Maine was completed Tuesday, when pumping operations ceased after the water level within the great cofferdam built around the wreck had been lowered precisely five feet.
This leaves the portion of the wreck visible above the water practically the same as on the night of the destruction. There is now visible a long stretch of the starboard side of the quarterdeck, which is slightly raised owing to a list of the after two-thirds of the ship.
When the pumping ceased Tuesday the cofferdam nowhere showed the least sign of seepage or leakage, apparently being absolutely waterproof and of the most ample stability. This is all the more obvious because one caisson which collapsed three weeks ago was only repaired Monday and is partially filled with clay and mud.
The pumping is to be suspended until June 15, when the water level will be reduced another five feet. The work will then be suspended again, so that a minute examination may be made of all sections of the cofferdam, after which the pumping will be continued at intervals, depending upon the results of the examinations of the dam until the bottom is reached, probably three or four weeks hence.
Intense interest has been aroused in Havana through the realization that the wreck of the battleship is actually coming into view after thirteen years' burial and that the mystery regarding the character of the explosion is soon to be solved. Many persons—Cubans, Americans and Spaniards—have visited the wreck.

MRS. CARRIE NATION DEAD

She Gained Celebrity Through the Use of Her "Little Hatchet" in Cause of Prohibition.
Leavenworth, Kan.—Mrs. Carrie Nation, 66 years old, who gained celebrity by her use of a hatchet in the cause of prohibition, died Friday in the Evergreen sanitarium. She was admitted to the sanitarium January 22, suffering from a nervous breakdown.
Mrs. Carrie Nation was born in Kentucky in 1846. Her maiden name was Carrie Moore, and as a girl, it is said, was absolutely fearless. In later life she married a man addicted to the use of intoxicants, which created in her an intense aversion to the saloon. When he died she determined to devote her life to the suppression of the liquor traffic. Later she moved to Kansas and married David Nation, who sympathized with her temperance principles.
Mrs. Nation's first saloon smashing was done in the barroom of the Carey hotel in Wichita December 27, 1900. She was arrested and remained in jail several days before she was released on bond.
On January 21, 1901, armed with her favorite weapon, a hatchet, Mrs. Nation made another raid in Wichita. This time she smashed two saloons.
During the next three months Mrs. Nation surprised the saloon keepers in various Kansas towns, appearing unheralded and leaving a trail of ruined barroom fixtures wherever she went.
Remarkably few saloon men used violence in resisting Mrs. Nation, although she was assaulted and badly hurt while wrecking a bar at Enterprise, Kan. By this time the State of Kansas was in a state of ferment, aroused by the spirit of the dauntless woman from Kentucky the people began to demand that all the saloons be closed. Smashing parties were organized all over the State. As a result of the agitation bills were passed by the legislature which strengthened the statute prohibitory law.
Mrs. Nation after her activity in Kansas became a lecturer and the address of a paper called the Smashers' Mail. She did little smashing outside of Kansas. While lecturing in New York she created a sensation by appearing at the horse show in Madison Square Garden and demanding that the occupants of the Vanderbilt contribute money for a home for drunkards' wives, which she founded in Kansas City, Kan.
The home recently was taken over by the Associated Charities in Kansas City, Mo.

Quake at Vera Cruz

Vera Cruz, Mex.—An earthquake occurred Wednesday morning. No damage was done. The movement was from east to west. Apparently the earthquake was of minor degree throughout the state of Vera Cruz.

Don't Use a Scarecrow

To Drive Away the Mail Order Wolf

You can drive him out quickly if you use the mail order houses' own weapon—advertising. Mail order concerns are spending thousands of dollars every week in order to get trade from the home merchants. Do you think for a minute they would keep it up if they didn't get the business? Don't take it for granted that every one within a radius of 25 miles knows what you have to sell, and what your prices are. Nine times out of ten your prices are lower, but the customer is influenced by the up-to-date advertising of the mail order house. Every article you advertise should be described and priced. You must tell your story in an interesting way, and when you want to reach the buyers of this community use the columns of this paper.

Let Us Be Your Waiter

We never tire of helping others when they ask for good job printing. We can tickle the most exacting typographic appetite. People who have partaken of our excellent service come back for a second serving. Our prices are the most reasonable, too, and you can always depend on us giving your orders the most prompt and careful attention. Call at this office and look over our samples.

MAKE YOUR APPEAL

to the public through the columns of this paper. With every issue it carries its message into the homes and lives of the people. Your competitor has his store news in this issue. Why don't you have yours? Don't blame the people for flocking to his store. They know what he has.

The Buyers' Guide

The firms whose names are represented in our advertising columns are worthy of the confidence of every person in the community who has money to spend. The fact that they advertise stamps them as enterprising, progressive men of business, a credit to our town, and deserving of support. Our advertising columns comprise a Buyers' Guide to fair dealing, good goods, honest prices.

Your Printing

It should be a fit representative of your business, which means the high grade, artistic kind. That's the kind we do.
AN EXCELLENT ASSORTMENT OF TYPE, GOOD PRESSERS AND TYPOGRAPHICAL ARTISTS
These represent our facilities for doing the kind of printing that will please you.

The Home Paper

Give you the reading matter in which you have the greatest interest—the home news. Its every issue will prove a welcome visitor to every member of the family. It should head your list of newspaper and periodical subscriptions.

CHINA DEMANDS INDEMNITY 'QUAKE ROCKS MEXICO CITY

FROM MEXICO FOR MASSACRE OF CHINESE AT TORREON.

Chinese Cruiser is on Way to Mexico to Demand 12,000,000 Pesos as Damages.

City of Mexico.—A Chinese cruiser is now headed for Mexican ports and 12,000,000 pesos damages and indemnity will be demanded, in no uncertain terms, of the Mexican government for the robbery and massacre of over three hundred and fifty Chinese in Torreon and other parts of the republic during the revolution.

Full of Horrors. The synopsized report is full of horrors, of men torn to pieces between horses, human heads shown off and pitched into the streets, men sliced to pieces, of the cowardly refusal by the rebel officers to stop the human slaughter, and is only lightened by the heroic acts of one American lady, one young Mexican girl and by the courage of the American consul, who braved death to threaten the rebel chieftain if he did not call off his soldiers.

The Chinese Demands. These are the demands to be made by the Chinese government: "The instructions of the central government of China to this legation are to make the following representations to the Mexican government: 1. That the courtesy be asked of a formal apology to China for the insult to the national flag at Torreon. 2. That aid be extended to the families of those Chinese who have perished in the Mexican republic as victims of the revolution. 3. That for all Chinese men who perished or who suffered loss of property indemnity shall be paid. 4. That those guilty of killing Chinese shall be punished. 5. That the constitutional guarantees of the Mexican republic for the protection of life and property shall be made effective."

It is ascertained that on board the Chinese man of war coming to Manzanillo are persons who will assist in a further investigation and will also seek to pacify the 30,000 Chinese in Mexico.

SUSPEND LIFE THREE MONTHS

Live Fish, Frozen in Blocks of Ice, Are Restored on Melting of the Ice.

Geneva.—Extraordinary experiments, showing the possibility of suspending life for an indefinite period, have been carried out by Professor Raoul Pictet of Geneva.

In one case he took some live gold fish, froze them in water to 30 degrees centigrade below zero, and then after three months gradually warmed the blocks of ice and brought back the fish to life.

In an interview at La Sarthe, Professor Pictet says he carried out experiments in order to see whether the phenomena of life could be made to disappear and then be restored, and that the most convincing results have been obtained with fresh water fish.

Frogs, he added, could bear freezing up to 25 degrees below zero, and a dog had been seen to go through a whole hour at a temperature of 110 degrees below freezing point without dying.

These experiments have convinced Professor Pictet that life is being brought within the number of nature's constant forces.

Bonds Approved.

Austin, Tex.—The attorney general's department Monday approved \$20,000 Jefferson county common school district bonds, bearing 5 per cent interest, and maturing in forty years, with an option of thirty years; \$5,000 Carson independent school district bonds bearing 5 per cent and maturing in forty years, with an option of twenty years; \$20,000 city of Winters bonds bearing 5 per cent interest and maturing in forty years, with an option of thirty years.

Fire at Brookeland.

Brookeland, Tex.—Brookeland suffered a very disastrous fire Tuesday, which started in J. R. Davis' confectionery store. Six frame buildings were totally destroyed as well as the contents in three of them.

Pros Win Election.

Bedias, Tex.—At an election held this week 125 votes were cast for prohibition and 11 against prohibition. This represents less than one-half of the voting strength of the district.

SIXTY-THREE PEOPLE KILLED IN MEXICO CITY.

Considerable Damage Was Done in Various Parts of City—Many Were Injured.

Mexico City.—Sixty-three killed, seventy-five wounded, property loss \$50,000 gold. These are the net results of the earthquake which struck the residents of the capital Wednesday and injected a note of tragedy into what was expected to be a day of pure rejoicing. When the work of searching the ruins is completed it is probable that the list of dead will be lengthened somewhat, as hiding here and there throughout the city there doubtless are many wounded who with traditional fear of the authorities and government hospitals, fear discovery. The property loss is but an estimate and is based upon calculations made by owners and contractors.

It was 4:25 Wednesday morning when the first shock was felt. According to the meteorological observatory the greatest intensity was reached at the end of the first few minutes, but the instruments continued to record the shocks for fourteen minutes more. It was of a vacillating, twisting character, but almost free from trepidatory motion.

Soldiers, Majority Dead. More than half the dead accounted for were soldiers. They were caught beneath the falling walls of the artillery barracks in San Cosme, a locality near the Mexican Central station. Another place where the earthshaking demanded the death penalty in considerable numbers was at the city power plant of the street car company. Here six were killed and six wounded. Two others are missing and it is expected their bodies will be found in the debris, consisting partly of steel rails which had been stacked in the iron and wood departments, which collapsed. The victims were inhabitants of little shacks built along the side of the structure.

Twelve Women Dead. In the barracks where the soldiers were killed twelve women also lost their lives. They were the wives of the artillerymen. The women have the privilege of spending the night within the walls of the barracks. The barracks was an old structure built a generation or more ago, but unlike many of the older edifices of the city, its walls were comparatively thin. Seventy-two soldiers were sleeping in the house. Approximately half were quartered on the first floor, the remainder on the second. The outer wall fell away and the roof, crashing down on the sleeping men, hurled them down through the floor onto their comrades below. The bodies of thirty soldiers have been recovered. Three are missing and sixteen are wounded, a few dangerously.

HOUSE VOTES PROBE MONEY

Authorizes Expenditure of \$25,000 for Investigation of Sugar Refining Company.

Washington.—The house of representatives authorized \$25,000 for the investigation of the American Sugar Refining Company; directed an investigation of the taxation assessments in the District of Columbia; turned over to the judiciary committee the question of a change in the extradition laws, and discussed many other subjects in a full day's session Tuesday.

Two hours were spent in a contest between committees for the custody of a \$5,000,000 appropriation bill affecting certain mail routes. The appropriation of the bill, with the aid of the house leaders, taking the bill away from the postoffice committee. The house tabled the Berger resolution for a committee to investigate the making of the alleged Los Angeles dynamites out of the jurisdiction of the Indians, but it turned over to the judiciary committee all testimony taken in the matter and left it to that committee to determine whether changes ought to be made in the extradition laws.

Reserve Agents Approved.

Austin, Tex.—Reserve agents approved Monday. For First State bank, Gary, South Texas National bank, Houston, and First National bank of Shreveport, La. For First State bank, Electra, First National bank, Fort Worth. For Bronson State bank, Bronson, South Texas National, Houston.

The Henry House Estate.

Houston, Tex.—Henry C. House becomes the owner in fee simple of all the lands, property, stocks, bonds and money left by his father, the late Henry House, according to the terms of a real estate transfer filed for record. The estate is valued between \$5,000,000 and \$10,000,000.

Fire on Leyland Liner.

Flushing, Holland.—The Leyland Line steamer Oxonia, bound from Antwerp for New Orleans, caught fire Wednesday off Waarden, in the river Scheldt. The fire was confined to the after part of the vessel.

Fifteen Carloads of Beans.

Brownsville, Tex.—A careful computation of the pink beans now in the Lower Rio Grande Valley made by a local commission man places the amount at fifteen carloads.

Children's Hats

For a girl somewhere above eight years the first hat is appropriate. As hats go, it is quite a simple affair with a broad, round crown and drooping brim which curls up in front. It is of chip or straw braid in a natural color. A big bow of ribbon spreads over the back with two hanging ends, and there is a full wreath of apple blossoms (those old-time favorites of childhood) about the crown.

NEW STYLE FOR FOULARD HAIR MUST SUIT TOILETTE

Notable is the Revival of the "Bang," a Fashion Which is Not Received With Joy. Nowadays it is found convenient to change the style of hair dressing in order that it may agree with this hat or that dress. There are some toilettes that would be better of their effect, and even be made to look absurd, if the hair were not arranged in keeping with the costume.

SMILES

UNCONVENTIONALITIES. THE DEPARTED.

"Shaking hands with you, Bibba. Is like handling a catfish." "I've heard you tell that story a dozen times, Mungleton, but I guess I can stand it again; go ahead."

GETTING BACK AT HIM. "Howitt—Why do you give me short weight when you sell me coal?" "Jewett—I try to make up for your long wait in paying for it."

A Bass Ball Achievement. "What though our club has often missed high runs in an athletic way. The year it surely leads the list for professional display."

Could It Have Been? "Aunt Mary, this is my friend, Mr. Spiffkins." "I'm sorry. I didn't quite catch the name."

Satisfactorily Explained. "If you are looking for bargains," said the broker, "I can suit you. I can offer you some stock at ten cents a share."

The Last Resort. "Brother John—who is studying to be a doctor?—Say, you know something about chemistry. If you were called to a person who had just taken a dose of arsenic what would you administer?"

THE WAY. Katherine—Was that big temperance meeting last week the means of making my wear off? "Kidder—Oh, yes. Over a hundred men, who never drank in their lives, took the pledge."

A Question. "A barren skirt is her street attire; what will she do in case of fire?" "I would say that the story was what the furs are not."

Amazon of the Kitchen. "Does your husband find fault with the cooking?" asked the patient looking woman. "No," replied Mrs. Cronstons. "He did so just once—and the cook happened to overhear him."

FRIDAY, JUNE 16, 1911

Say, Lucindy, was that a Southerner who said "Oh, what is so rare as a day in June?"

Early to bed,
Late to retire,
Cause prices are
Higher and higher.

President Taft wears a No. 11 EE shoe, but even that may not be big enough to make the tracks to the presidential chair next election.

Rt. Rev. Joseph T. Lynch, bishop elect the Dallas diocese has called Father Patrick J. Murphy out of the statewide prohibition fight. — There a reason.

The city of Mart is conducting a unique clean-up campaign. The plan is on the "honor roll" system, and is being conducted by the Commercial Club, and Ladies Civic League.

A trip of inspection is made once a week by joint committees from the two organizations and each store, office and bank is visited and graded as a teacher would grade examination papers. The report is then published in the local paper, and the system has created a friendly rivalry between the different firms and business concerns, and Mart is fast becoming one of the cleanest little towns in Texas.

Whenever you happen to need anything send away off up north to Chicago or New York after it. Of course the transportation charges on the article may amount to more than the thing is worth, but that's slight; it may also lack a few months of reaching you on time, but that isn't to be considered, just think how grand it is to have your supplies come in quantities from a distance; then, you may have to return the goods several times before you get anything that you would have, but what of that? Send away for your drygoods, groceries, hardware, notions—or Job Printing—and by so doing you will prevent your home merchant—and your home printer—from squandering money in building up the home town.

Mason Gets the Frisco.

Swinging in line with other progressive towns of the state, the Mason railroad committee last Saturday evening signed the contract with the Saint Louis, San Francisco and Texas railroad company for the extension of their line through the town and county. Chief Engineer Jonah of that line, accompanied by his first assistant Yares, were in Mason Saturday and accepted the depot grounds that had been previously selected by Vice-president and general manager Drake. The Frisco will cost the people of Mason county \$40,000 in money, a pasture for holding purposes of 200 acres and right-of-way through the county, including depot grounds. The committee has a right to select two depot sites north and two south of the town of Mason. Voca and camp San Saba each is working for the road to touch its site. Mr. Jonah, the chief Engineer says that the surveyors will be put into the field in a very short time. The railway officials themselves are confident they will be able to haul off the 1912 cotton crop.

With the coming of the railroad, Mason will resume her high rank among the best towns in West Texas.

SAVING ALFALFA HAY

The merits of alfalfa have been so often discussed in the Southwest during the past fifty years that much interest has been aroused in favor of this splendid plant. There are more alfalfa fields this year than usual, despite the fact that this season has been a very trying one.

Many growers will cut alfalfa for the first time this spring. They will naturally want to know when it should be cut. It is important that no mistakes be made, for this will result in considerable loss.

Alfalfa cut too green is "watery" liable to mold and possibly be injurious to animals. If it remains too long before it is mowed the stems become woody and the subsequent crops will be injured. It should therefore be cut at the right time.

The advice is usually given to cut when one-third of the plants are in bloom. Some advise to cut when the first blooms are observed. But experience has taught that blooms are misleading. The flowers do not tell us correctly when to start the mow-

er. Watch the crowns of the plants. Whenever the buds for the second crop begin to start, the plants are rapidly reaching maturity. Let the shoots for the next crop get started, then start the machine. If the plants stand too long, the machine may clip off the ends of the buds and injure the next crop. Nature demands that you remove the old stems so the new shoots may receive nourishment from the crowns. The general conditions of the weather should not cause delay. One can never tell what the weather will be within the next 24 hours. If it is not already raining, assume that it will not rain before you take care of the crop, then start your mowers. It is a risk to leave your plants standing when they are ready to cut and it is a risk to cut in threatening weather. It is generally preferable to cut the present crop and save the second rather than to risk both.

The hay should be raked promptly and allowed to cure in the windrow rather than remain spread out long at a time.—Farm and Ranch.

Notice to Sheepmen

I have just received a copy of the late sheep scab inspection law, and for the benefit of those interested in same, I wish to say that said law provides that a sheep scab inspector shall be appointed in counties where there are as many as thirty thousand sheep rendered for taxes, at a salary of six hundred dollars per annum, application must be made by six resident sheep owners in said county, to the commissioner's court to appoint a competent inspector of sheep who shall be a resident citizen of such county.

Such inspector shall hold his office for two years, or until his successor is appointed and qualified.

The law takes effect July 1st next, and I understand that the appointment of said inspector will be made by the commissioner's court on said date or as soon thereafter as practicable.

Respectfully submitted,
J. H. Randolph.

Iron fencing best prices, best quality. See him for anything in this line.

FREE

MUNYON'S PAW-PAW PILLS

A trial package of Munyon's Paw Paw Pills will be sent free to anyone on request.

Munyon's Paw Paw Pills are unlike all other laxatives for constipation. They correct the liver and stomach by gentle methods.

Munyon's Paw Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken.

These pills contain no calomel, no drugs, they are soothing, healing and stimulating.

Regular size bottle, containing 45 pills, 25 cents.

Publicity-Law Badly Needed.

Conscientious, District of Columbia, Kansas, Maine, Maryland, Michigan, Minnesota, New Jersey, New York, Rhode Island and Vermont, have laws which refer to the registration of living cases of this disease.

Hadn't the Material. "I really never saw such an abundant man as that Mr. De Burrows," said Miss Wratley.

COMES A TIME When Coffee Shows What It Has Been Doing.

"Of late years coffee has disagreed with me," writes a nation from Rome, N. Y.

SEEN from the PRESS GALLERY

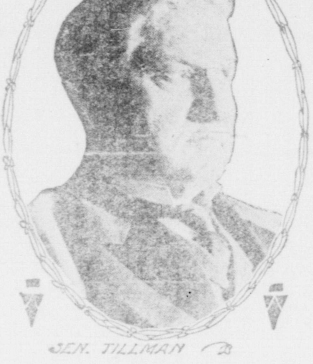

By EDWARD B. CLARK

USA has reciprocity in trade with the United States. The bill giving the island the benefits of the trade agreement was considered at an extra session of congress called by President Roosevelt.

The members of congress debated and talked the like for four days and then the tense hour approached when the vote was to be taken.

"THE AUGUST TRIBUNAL"

SEN. TILLMAN

gain admission, yet standing still and listening for the result of the ballot that was to show us how to help a weak sister republic to her financial feet.

When the Appalachen Mountain Forest Reserve bill was under consideration, a member of congress who was in favor of saving the trees told a striking story about the saving of a great tree in far off Australia.

In 1892 John Boyle O'Reilly, the Irish poet, was a political convict in Australia sentenced to hard labor for life.

The British soldier looked dumfounded. "Come over here," said O'Reilly, "and look at it from this point of view."

The convict was now the commanding officer. The Englishman followed the Irishman for a hundred yards, and then, turning his horse, looked upon the tree, and his eye kindled. He looked down upon O'Reilly and said: "The orders are for the

JAMES WILSON, SECY OF AGRICULTURE

SEN. BAILEY

road to run straight, but we'll send it around the tree."

If the Australian tree is still standing, it stands as a monument to an Irishman who had a soul. Once Representative William Alden Smith, now a United States senator, tried his level best in the house debate on Panama to make Congressman Dismore of Arkansas supply a stock of good Republican campaign material.

The Arkansas member got warmed up and began to talk about the power of the confederacy. He made the statement that the soldiers had thrashed the Union army in the first six battles of the war.

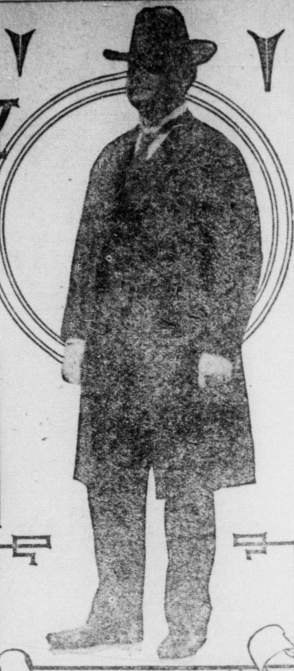

Everybody knows what a stickler the senate is for courtesy. Courtesy has a seat at every desk. When one senator refers to another, whether he be a political foe or a political friend, it is always as the "distinguished gentleman from Maryland," or from Maine or another state, as the case may be.

Senator Bailey had just referred to the "distinguished senator from Maine." "Quit it," said Tillman, "you'll distinguish them all till they're so stuck up that no one else can distinguish them one from the other."

When James Wilson came to Washington as secretary of agriculture he understood a bit of self-description by saying to a caller: "I am what they call a hayseed."

Secretary Wilson unquestionably would be a success as a managing editor of a great newspaper. He knows news. When the Beverage packinghouse investigation measure had passed congress and Secretary Wilson was in the west on a tour of inspection, he was asked by a newspaper man at the close of one of the secretary's busiest days in Chicago what the news was.

Mr. Wilson said: "Sit down and I'll give you the news and nothing else. These things have been done within the last few days and not one of them has been touched on in the newspapers. The rest of the stuff is ancient history."

SEN. BAILEY

"SIT DOWN AND I'LL GIVE YOU THE NEWS AND NOTHING ELSE"

Then the secretary with all the discrimination of a trained city editor, gave his facts, and they were all new facts and worth the publishing.

As government departments rank, the one devoted to the promotion of agriculture stands next to the foot of the list. This is on paper only. Its importance to the country is so great that men say its proper place is near the head of things governmental.

Secretary Wilson sheds trouble. He is a good deal of an optimist, and when difficulties arose over cotton crop matters, and there seemed imminent danger that a scandal would result, there was no sign of worry on the secretary's part.

In one respect the secretary of agriculture holds himself to be particularly fortunate. Possibly he doesn't consider it to be really a matter of good fortune except at such times as he sees the trouble of his fellow cabinet officials who are more than suspected of having presidential ambitions.

President Roosevelt felt implicit confidence in the cabinet official who had come to him as a heritage from the McKinley administration, and there is no doubt whatever that he expressed his confidence personally.

As government departments rank, the one devoted to the promotion of agriculture stands next to the foot of the list. This is on paper only. Its importance to the country is so great that men say its proper place is near the head of things governmental.

MRS. McPHERSON IS RELIEVED

In Letter Written From Chadbourne, N. C., She Makes a Full Statement Regarding Her Case.

Chadbourne, N. C.—In a letter from this place, Mrs. M. D. McPherson says: "I suffered five years with a painful ailment. I could not walk at all, for two or three days at a time, and had an awful hurting in my side, and headache, and backache. I could not do anything."

I gave up, and thought I would die, but my husband said, 'Let's try Cardui.' So I began and the first bottle helped me, and I could do my cooking, and by the time the third bottle was used, I could do all my work."

The Cardui home treatment will do more than you recommend it to do. All the people around said I would die, but thanks to Cardui, I was relieved."

Cardui is composed of gentle-acting, herb ingredients. Its action is mild and natural, and it has no bad after-effects, as have many of the powerful drugs sometimes recommended.

No other medicine or tonic has exactly the same results as Cardui. No other has the record of 50 years of successful treatment of cases of womanly weakness and disease.

Suppose you try it. N. B.—Write to Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions and 25-cent book, "Home Treatment for Women," sent in plain wrapper, as request.

His Instinct. "I see the family dog slinking out of the room. What's the matter with him?"

Prescience. Presagely there will be a "commendable family row on."

"But how did the dog know that?" "Well, so to speak, his nose is something of a storm center."

More Palatable. Mr. Benham: "I'll eat my hat! Mrs. Benham—Try mine, dear, there's some fruit on it.—Judge."

Are You Poorly? If your digestive system is weak, the bowels clogged, the liver sluggish, you cannot wonder that you feel "half sick" all the time—but listen—

Hostetter's Stomach Bitters is a good remedy for such ills as well as Malaria, Fever and Ague. Try it today.

Makes You Well Again

JUST ONE Bond's Liver Pill at bed time CURES Headache, Constipation, Biliousness, Colds, Malaria, etc. They are mild, safe and effective. One is a dose.

TRY ONE TONIGHT. Your druggist can supply you, or send 25c to Bond's Pharmacy Co., LITTLE ROCK, ARK.
