The SDN COLUMN

Several years ago someone called the newspaper office to register a protest against a proposal that was receiving considerable publicity at the time — a movement to revamp the calendar.

Protests were not unusual, because the proposal did not catch on at that time. But the basis for this one was surprising.

"I don't believe anyone should tamper with something set up by God," the caller declared.

Thus, it became apparent that not everyone knew that the calendar we use was less than 400 years old. Nevertheless, this protest probably did point up the influence of traditions and legends on our society. Also, the calendar perhaps is one of the best examples of the fact that many of us are reluctant to accept change, but once a change takes place and something new becomes established, it may become a revered tradition within a relatively short space of time.

The calendar that we use was established by Pope Gregory XIII, whose term of office as Pope spanned the period from 1572 to 1585. But the New Calendar (or Gregorian Calendar) was not adopted by England until 1752, less than 25 years before the American Revolution.

The new calendar established Jan. 1 as the beginning of the year. Under the Julian Calendar, used by the British until 1752, the year began on March 25. So, long after the original American Colonies were settled, English subjects were using the old calendar.

The Eastern Orthodox Church did not accept the new calendar until 1923, and China did not adopt it until 1929.

★ ★ ★

I was reminded about the incident of the calendar protest when arguments developed more recently concerning prayers in public schools. Apparently many people feel that a historical function is jeopardized whenever any limitations are applied to such prayers. Some appear to speak from personal experience, and I would not question them. However, having attended two different public schools in an earlier era, I cannot remember a single prayer in a classroom.

There were prayers in school assemblies and on special occasions, but none in classrooms. The parents of that era apparently were not depending upon the public schools for the Spiritual development of their offspring.

★ ★ ★

Another change that is of relatively recent vintage (if you went to school before World War II) is the phrase "under God" in the pledge of allegiance to the flag. It was not in there during my public school days.

Man had advanced himself for many centuries before these "changes" came about, and when they did, he was hesitant to accept them. Yet, once accepted, they are firmly established.

During the past quarter century, changes have been taking place at a rate never believed possible a few years earlier. Maybe they are coming too fast for a lot of us these days.— WACIL McNAIR

Today In History

By THE ASSOCIATED PRESS

Today is Sunday, Dec. 10, the 344th day of 1967. There are 21 days left in the year.

Today's highlight in history:

On this date in 1898, Spain signed the Treaty of Paris, officially ending the Spanish-American War and ceding the Philippine Islands, Puerto Rico and Guam to the United States.

On this date:

In 1817, Mississippi was admitted into the Union as the 20th state.

In 1896, the Swedish chemist and philanthropist, Alfred Nobel, died.

In 1913, the Leonardo da Vinci painting Mona Lisa was recovered two years after its theft from the Louvre Museum in Paris.

GREATEST ONE-DAY BATTLE IN DELTA

Cong Mauled By South Viets

Enemy Loss Set At 365

By GEORGE MCARTHUR
Associated Press Writer

SAIGON (AP) — South Vietnamese soldiers fighting in the heat and mud of the Mekong Delta badly mauled a Viet Cong force of about 1,500 men and won the greatest one-day battle of the delta war, military headquarters said today.

The battle against three Viet Cong battalions began Friday morning and cost the enemy 365 dead before the day was out. During the night, the Viet Cong slipped from the battlefield in small units but after sunrise today turned again to fight closely pursuing South Vietnamese rangers.

Only sketchy details, and no casualty figures, were available on today's fighting.

Initial battle reports said 60 government soldiers were killed and 102 wounded Friday before the enemy was encircled by armored columns and pinned down after being flushed from the sanctuary of the U-Minh forest 100 miles south of Saigon.

Three American advisers with the Vietnamese troops were reported wounded. Normally about three Americans accompany a South Vietnamese battalion on field operations.

The U.S. Military Assistance Command Vietnam (MACV) was exultant over the showing of the frequently criticized South Vietnamese army. Today's MACV communique said, "the ARVN (Army of the Republic of Vietnam) had a smashing victory in the delta yesterday. It was the biggest single day in delta history."

The communique said no American ground units were involved, although American pilots flew more than half the day's 50 air strikes that accounted for about one-quarter of the Viet Cong casualties.

The South Vietnamese troops came from the 21st Division, one of the army's best rated units, and a reserve striking force of rangers. At the peak of the fight there were about five South Vietnamese battalions in the battle—about 2,500 men.

They were pitted against veteran Viet Cong units that evidently had been flushed out recently by young recruits. South Vietnamese headquarters reported that many of the Viet Cong bodies found on the battlefield appeared to be those of 13- to 15-year-old boys.

Associated Press correspondent George Esper, touring the battlefield today, reported the enemy had the latest type of Red Chinese weapons. U.S. advisers with the South Vietnamese troops reported some captured AD47 submachineguns were dated as recently as 1966. The South Vietnamese captured 64 weapons.

Esper reported that in today's fresh fighting, about six miles from the narrow canal which was the center of Friday's battle, the Viet Cong was holding prepared bunkers hidden beneath banana trees. These were being pounded by bombs and rockets from American and South Vietnamese jets.

The delta fighting climaxed a week of major battles across the country, almost all initiated by allied troops in which more than 1,000 Communists have been reported killed since Monday. The heaviest enemy losses outside the delta were inflicted by th U.S. 1st Air Cavalry Division, which routed a North Vietnamese regular unit along the coastal plains near Bong Son, killing an estimated 250.

Snow, Rain Hit Texas With Front

BY THE ASSOCIATED PRESS

Booming thunderstorms raked Southeast Texas with a four-inch downpour in three hours today as snow fell hundreds of miles to the northwest in the Texas Panhandle.

The activity was touched off by a stiff cold front that swept through the state, dropping the mercury to the 20s in the northwest.

A deluge of 4¼ inches was recorded at the city water filtration plant in Beaumont between 7 a.m. and 10 a.m. Underpasses were flooded and one woman was pulled to safety from a submerged car.

The front pushed through the Dallas area at mid-morning, dropping the temperature from 62 degrees to 32 in an hour.

Dalhart reported a light covering of snow as the mercury dipped to 25.

More snow, all of the light variety, flew through the bitterly cold air in the Panhandle during the morning.

Ahead of the snow clouds a new cold front was pushing its way south across Texas. The front's interaction with hot, moist air along the Gulf Coast touched off a booming thundershower in the Big Thicket area around Liberty. A big shower line moved to the northeast during the morning with rainfall of an inch an hour.

Dalhart's 25 degrees was the coolest overnight low in the state. The new cold spell seemed even colder to anhandle residents, who were decked out in shirtleeves Friday during a 60-degree day.

Victoria on the coast had 68 degrees for an overnight minimum, only five degrees cooler than its Friday maximum. Houston got .04 inches of rain in the 24 hours ending at 7 a.m. today, Tyler .03 and Del Rio and Beaumont each had .01.

Two Women Found Dead In Canal

HOLLYWOOD, Fla. (AP) — The bodies of two murdered young women, wearing jewels and bathing suits with concrete blocks tied to their necks, were pulled today from a desolate canal that is a dumping ground for boat wrecks.

Police said they believe they were killed on a boat and dumped overboard.

Police Lt. Fred Rohloff said the women's heads were caved in and they each had been stabbed many times in the stomach.

Police said the spot was accessible only by boat through the Intracoastal Waterway, a sheltered highway for boats that parallels the Atlantic Ocean about 100 yards of beach separating the two. There are no buildings within about one-half mile.

Fishermen spotted the feet of one of the women late Friday night and called police who probed the waters until they found the second body. The victims were not identified.

One of the women appeared to be about 18 to 20 years old. She wore a wrist watch which stopped at 2:12, a pearl pendant and tiny earrings. She was about 5-foot-3 and weighed 110 pounds, had brown eyes and shoulder length auburn hair.

The second woman, who wore a white gold diamond engagement ring and a wide gold wedding band, and a pear-shaped onyx penant. She was also about 5-foot-3, weighed 135 pounds, had hazel eyes and short black hair.

Rohloff said preliminary investigation indicated the girls had been in the water 8 to 10 hours.

Tiny Child Beats Odds Of 100 To 1

ST. PETERSBURG, Fla. (AP) — Tiny Michelle Faith deLacqueseaux, bouncing happily at five pounds, one ounce, has overcome 100-to-1 odds in an 83-day fight for survival.

Michelle, who weighed only 25 ounces two days after she was born prematurely Sept. 18, was pronounced in good condition Friday for her first visit home today.

"Fantastic" was the way her physician, Dr. Ray Wunderlich, described Michelle's progress. He said her recovery was extraordinary as premature babies usually mark time in their early weeks and do not develop.

But with Michelle "everything seems to be fine," Wunderlich said.

Michelle was so small at birth she couldn't be weighed.

Wunderlich told her father, Robert deLacqueseaux, that 95 to 99 babies out of every hundred born with weights under 1,000 grams did not survive.

Earlier fears of sight and hearing defects have lessened, Wunderlich said, although "the growth of her head may be a little too rapid" and she has a type of anemia not uncommon to premature infants.

Niedecken Service Set

Funeral rites have been set for 2:30 p.m. Sunday at Arlington for Herman Ray (Butch) Niedecken Jr., Snyder native who died at 2:30 a.m. Saturday of injuries from an automobile mishap.

Rites will be held at the Moore Funeral Home Chapel in Arlington and burial will be in Moore Memorial Cemetery.

A graduate of Snyder High School, Mr. Niedecken also graduated from University of Texas at Arlington, and at the time of his death was division sales manager for Sears.

Surviving are his wife and a son, Shannon, of Arlington; his parents, Mr. and Mrs. Herman Ray Niedecken Sr. of Odessa; two sisters, Mrs. Betty Yadon of Purcell, Okla., and Donna Niedecken of Odessa; a brother, David of Odessa; and a grandmother, Mrs. Bama Clark of Snyder.

BOAC Hit By Strike

LONDON (AP) — Nearly 1,000 pilots of the state-run British Overseas Airways Corp. (BOAC) went on a 48-hour strike today, but the airline said it hoped to keep some jets in the air.

The strike—aimed at nearly doubling the pay of top pilots—affects 32 flights out of London Airport over the weekend. BOAC estimates the strike will cost $408,000 a day in lost passenger and freight revenue.

BOAC claims that about one-tenth of its pilot force is against strike action and the airline hopes to operate some scheduled services.

The pilots struck at midnight after two days of talks with Labor Minister Ray Gunter and BOAC management ended in a deadlock.

Gunter promised the pilots a full court of inquiry into their complaints. The pilots claimed however, their real argument was with the BOAC management, which had earlier refused to hold direct negotiations with them.

CLASSIC FAKE — This small bronze horse, long considered a masterpiece of ancient Greek art, is really a 50-year-old fake, says the Metropolitan Museum of Art in New York. A filed-down mark from the statue's mold, running down the horse's nose, and a misplaced bridle attachment hold halfway down the horse's mane, gave the forger away, says James V. Noble of the museum. The statue is 15 inches high. (AP Wirephoto)

WORLD'S LARGEST SLEIGH

Santa Here Monday

Santa Claus is coming to Snyder on Monday, Dec. 11, with the World's Largest Sleigh to give all the children free rides.

The 30-foot sleigh, bright red and trimmed in silver will be pulled by six Shetland ponies. Sixty children can be seated on the sleigh for each ride, said Gene Merrifield, Manager of the Snyder Chamber of Commerce.

Santa will personally interview each child on the sleigh. Concealed speakers on the giant sleigh will broadcast the interviews throughout the business area. Christmas carols also will be played continuously.

Santa's crew, all dressed in costume, will help Santa take care of all the boys and girls who want to ride. Miss Merry Christmas will be official hostess.

Free ride coupons will be given away by cooperating local merchants who have arranged for Santa's appearance in Snyder. Santa urged parents to bring smaller children early to offset the after-school rush.

The sleigh will follow a route set by the local Trade Promotion Committee of the Chamber of Commerce, from 10 a.m to 6 p.m. Local merchants are being urged to keep their stores open until 7 p.m.

The huge sleigh cost more than a Cadillac and is equipped with a music box and a motor to help the Shetland ponies pull it up inclines. Chrome-plated harness, red plumes and sleigh bells decorate each of the six ponies.

A ride on the sleigh will be given upon presentation of a ride coupon, obtainable from any of the cooperating merchants. In exchange for the coupon, Santa's ticket man will give a numbered ride ticket. Groups will board the sleigh as their numbers are called. In a single day, as many as 4,200 children have ridden with Santa in the World's Largest Sleigh.

All downtown and shopping center merchants have ride coupons and are ready to cooperate in the activity.

New Dam Nearly At Halfway Mark

The Colorado River Municipal Water District's new dam at Robert Lee is nearing the halfway mark.

Estimates on the amount of work completed through November show that almost half of the dirt work has been finished. The rock rip-rap and gravel blanket protecting the face of the dam is little less than a third of completion, but it necessarily lags behind the embankment.

The $2,875,000 concrete spillway is now estimated at 36.12 per cent complete. This work is emerging from some of its more tedious phases and may be expected to pick up in tempo.

The contractor, Clement Bros. of Hickory, N.C., has now put in place 4,739,239 cubic yards of wetted, rolled embankment for the dam. This compares with a total estimated of 11,418,000 cubic yards for the project.

The amount of core trench and shale excavation stands at 1,776,213, which is well over the original estimate of 1,587,000 cubic yards. This resulted from soil conditions that warranted additional shale excavation. About all the core trench that remains to be dug is that where State Highway 158 crosses the dam.

The contractor has moved 51,171 cubic yards of rock rip rap against a total of 209,000 for the job and has put in place 25,208 cubic yards of grave blanket against a total of 83,000.

O. H. Ivie, general manager for CRMWD, estimated that the project is running slightly ahead of schedule. So is the district's brush clearing operation in the basin.

DR. SCHICK DIES—Dr. Bela Schick, above, who developed the diphtheria test that led to the virtual conquest of the disease, died in New York's Mount Sinai Hospital. He was 90 years old. (AP Wirephoto)

Lynda Johnson Is Wed To Handsome Marine Captain

By FRANCES LEWINE
Associated Press Writer

WASHINGTON (AP) — Lynda Bird Johnson, dark-haired elder daughter of the President, was married today in the elegant white and gold East Room of the White House to Charles S. Robb, the handsome young Marine captain she met a year ago.

President Johnson escorted Lynda to the specially-built altar before which, in a brief Episcopal ceremony, she became history's 14th White House bride.

Lynda, 23, wore the traditional long-sleeved white bridal gown and Robb, 28, who is due to go to Vietnam in March, wore his dress blue uniform.

Christmas greenery and hundreds of sparkling candles blended with mistletoe, white roses, orchids and gardenias in the great halls, filled with 500 standing guests. The guests included top figures of government, relatives and many of the couple's young friends.

After the ceremony, Lynda and Chuck walked down the aisle as the 32-member Marine Band chamber orchestra played Mendelssohn's Wedding March, then went under the arch of swords held aloft by six of the groom's Marine comrades.

A gay reception with champagne and dancing to Peter Duchin's orchestra and cutting of the six-foot white wedding cake with Robb's sword came next.

Lynda walked a 190-foot route down red-carpeted, marble and parquet floors on the arm of her father, the President, to the white carpeted altar in the East Room.

Behind the altar hung a 2½-foot gold cross amid Christmas greenery with scores of glistening tiny electric candles.

Six groomsmen in cutaways and seven bridesmaids in ruby red velvet gowns preceded Lynda and stood in a semi-circle around the altar.

Standing on the altar as matron of honor was Lynda's younger sister, Luci Nugent, 20. And the best man was Robb's fellow Marine and roommate, Capt. William Douglas Davidson of Kershaw, S.C., in dress blues.

A Texas minister, the Rev. Canon Gerald N. McAllister of San Antonio, married the young couple in the traditional Episcopal ceremony from the Book of Common Prayer. They promised to love, comfort, cherish, honor and keep each other in sickness and health "until death do us part."

Lynda and Chuck exchanged golden wedding rings.

By ABIGAIL VAN BUREN

DEAR ABBY: I am so upset I hardly know how to start this letter. While straightening up my teen - aged daughter's room, I came across a letter from a friend of hers in another state. I read it, partly out of curiosity, and partly to determine if it was something which could be discarded.

I was horrified at the filthy language, and also at the girl's delight in having found a theater which shows only dirty movies!

This letter also described family possessions and "vacations," but Abby, I know the girl's parents and correspond with them, and this girl was writing lies.

What should I do? Now I suspect my daughter must be responding to these letters in equally filthy language, and since this girl is my daughter's best friend, I must assume that my daughter's taste run toward dirty movies, too.

Don't these kids know that filling their minds and mouths with garbage will do them no good?

Should I write to this girl's mother and tell her to talk with her daughter? Should I talk with my daughter and tell her what I've learned? Or by age 15, are we too late to shape our children's morals?

A FAILURE

DEAR "FAILURE": If you have done your best to shape your daughter's morals, you need not consider yourself a "failure." Some teen - agers feel "big" and grown - up using gutter language, exaggerating and even lying a little for effect, but that doesn't mean they are "no good." If they have been properly brought up (and even the best reared children have gone thru this stage) they will outgrow it.

At the appropriate time, subtly warn your daughter that mucking around in the lower registers of speech and entertainment can be habit forming. In the meantime, keep the avenues of communication open between you and your daughter, and don't shake her confidence in you by letting her know that you were snooping. You were, you know.

• • •

DEAR ABBY: This isn't my problem, it's my sorority sisters. She really a swell kid, and she's not dumb or anything like that, but she doesn't come over very strong. She's not bad looking, but this poor kid can't seem to get any dates on her own. We've fixed her up with several real sharp guys, but they never ask her out again because she's so quiet. They all say it's like pulling teeth to get a work out of her. Any suggestions?

A. E. PHI

DEAR A. E. PHI: Yes. Get her a date with a dental student.

• • •

DEAR ABBY: We have a real problem in our neighborhood. Every morning at 3 our neighbor woman wakes up the entire neighborhood. She is a nurse and has to be at work at 4, so she leaves her house at 3. When she backs out of her garage she honks her horn. Then her husband, who is a doctor, waves to her from the window, she honks again, waves back to him and drives off.

This is terribly annoying to the neighbors, Abby, but they are such lovely people we hate to mention it. If you print this, perhaps they will take the hint. I know they read your column.

WIDE AWAKE AT 3 A.M.

DEAR WIDE: All right. I've done my part. If you get any more honking from Florence Nightingale, call her husband and ask him to give you something for your nerves.

• • •

CONFIDENTIAL TO Exhausted Mother in Portland: Perhaps the reason your baby is spoiled is because you can't spank two grandmothers.

Troubled? Write to Abby, Box 69700, Los Angeles, Cal., 90069. For a personal reply, inclose a stamped, self-addressed envelope.

Hate to write letters? Send $1 to Abby, Box 69700, Los Angeles, Cal., 90069, for Abby's booklet, "How to Write Letters for All Occasions."

Soviets Try Four Young Intellectuals

MOSCOW (AP) — The Soviet Union has brought four young intellectuals to trial on charges of being part of an armed terrorist network trying to undermine or overthrow the Communist state, informed sources said today.

An information blackout made independent confirmation of the report impossible, but the sources said the case was regarded as so serious that the Soviet Communist party's ruling Central Committee met secretly to discuss its implications.

With the arrest of the four in Leningrad, the scene of the trial, secret police discovered caches of arms that included machine guns and grenades, the sources said. A Soviet military officer is suspected of having supplied the weapons, one source said.

The Leningrad group was linked with similar secret groups in the region of the Soviet Ukraine and in the big industrial city of Sverdlovsk in the Ural Mountains, the sources said.

The report of the Leningrad trial came as the government prepared to open its case Monday against four young writers and editors in what was described as the biggest crackdown on dissent since the Sinyavsky-Daniel trial of 1966.

Sources said they will be charged with anti-Soviet propaganda.

The case is separate from the Leningrad trial.

Satirists Andrei D. Sinyavsky and Yuli M. Daniel were sentenced respectively to seven and five years in labor camps for smuggling abroad articles which a court branded as anti-Soviet.

Christmas Program At North P-TA

Fifth and Sixth grade pupils of North Elementary Schools will present a Christmas program at the North Parent - Teacher Association meeting at 7:30 p.m. Monday.

The program will be directed by Mrs. Margaret Dell Pilcher. The public is invited to attend.

The term rum is derived from the Devonshire word "rumbullion," meaning "a great tumult."

FRANK MINTON

Frank Minton Honored By Publication

Frank Minton, former Snyder High School football star and now head coach at Groveton, has been selected to appear in the 1967 edition of Outstanding Personalities of the South.

Other recipients of the honor include governors, U.S. Senators and Congressmen of various southern states.

The publication includes many citizens such as educators, leading businessmen, members of state legislative bodies, civic and political leaders, farmers, ministers, officers and officials of trade organizations, leading sports figures and many other individuals who, because of past achievements and service to the nation, are recognized as outstanding personalities of the south.

Minton, the son of Mr. and Mrs. Louie Minton of Snyder, played college football and received his degree at Stephen F. Austin State College. Later he was assistant coach and head coach at the University of Corpus Christi. He and his wife, Barbara, have two children, Melody and Mark.

Faces Charge In Missouri Shooting

JOPLIN, Mo. (AP)— Ronald David Hogue, 24, of Dallas, Tex., was charged with first degree murder Friday in the fatal shooting of Joplin Policeman Robert Clifton, 34.

Hogue, shot five times by another policeman, remained in critical condition. One bullet severed his spinal cord.

Clifton was killed and Hogue was wounded after the officer stopped a car Wednesday to question four men and a 13-year-old girl.

The other four were returned to Bowie, Tex., Friday to face armed robbery charges in the holdup and beating of James Hudson, 48, Bowie grocer, earlier this week.

They are Billy Frank Rainey and Robert Mulkey, both 18 and of Dallas, Victory B. Mankin Jr., 23, Garland, Tex., and the girl.

Ft. Worth Dentist Put On Committee

AUSTIN (AP) — Dr. J. D. Tomme Jr., a Fort Worth dentist, was named by Lt. Gov. Preston Smith Saturday as the third member of Smith's campaign advisory committee in his race for governor.

Tomme was born in Orange and raised in Ft. Worth. He was graduated from Texas Christian University and the University of Texas Dental School in Houston.

Politics Threat To Reagan Plans

SACRAMENTO, Calif. (AP) — Gov. Ronald Reagan's "Creative Society" planners are forging ahead in drafting his 1968 program but it is certain to become snarled in election-year politics.

The Republican governor emerged Saturday from a five-week long special legislative session without most of the legislation he asked, and Democrats showed increasing eagerness to fight his economy programs.

When Republicans in the Assembly refused last week to waver from the governor's position on a controversial health care issue, Democratic Speaker Jesse Unruh accused them of "worrying about whether the governor is going to lose a couple of percentage points in a popularity poll."

Unruh showed an increasing ability to keep his majority Democrats in line while there were growing signs of discontent by some GOP members over how far they should go in supporting the governor.

Democrats control the assembly 42-38 but share a 20-20 tie with the GOP in the Senate, where Republican Lt. Gov. Robert Finch has the tie-breaking vote.

George Steffes, a legislative aide, said the governor is preparing a series of messages that will outline the major long-range problems facing restless California, scheduled to pass 20 million in population next year.

Specific legislative proposals will emerge from these reports, Steffes said.

Reagan's first-year program was submitted on a "crash basis" because of the governor's short time in office.

Reagan originally called the meeting in response to a state Supreme Court demand that the legislature reapportion the 38 congressional districts to meet "one man, one vote" rulings. A bill was enacted.

The governor later asked the legislature for authority to impose planned cutbacks in the state's program of medical care for the needy after the state Supreme Court said the way he intended to accomplish them was illegal.

The legislature rejected the governor's solution and instead got him to agree to postpone reductions until after a special legislative committee had investigated the financial condition of the program serving about 1.5 million persons.

Words Are Softer In Record Book

WASHINGTON (AP) — Future historians relying on The Congressional Record may never know that Senate Democratic Leader Mike Mansfield told another senator during debate that he was off his rocker.

The historians will read a tamer exchange between Mansfield and Sen. Frank J. Lausche, D-Ohio, which occurred Wednesday during debate on the federal aid to education bill.

Lausche, complaining about the defeat of an amendment he sponsored, declared he had been "bljtzed by orders which came down from the mountain top." In Washington, this could only mean the White House.

Mansfield replied: "I think the senator from Ohio is off his rocker."

But The Record, official journal of Congress, reports the exchange went this way:

Lausche: "I know when I am outvoted on the basis of merit and I know when I am blitzed on the basis of fear of the elections in 1968."

Mansfield: "I think the senator from Ohio is off base in making a statement to that effect."

Senators can revise the stenographic transcript of debate before it's published in The Record.

Connally Backing Drive On Measles

AUSTIN (AP) — Gov. John Connally has thrown his weight behind a campaign to rid Texas of measles by June 1968.

Connally urged Texas parents to have their children immunized against measles. Nearly on-fourth of all measles cases reported in the nation this year were in Texas, Connally noted Friday.

Texas has had 12,988 cases in 1967, he said, and it is estimated that 48 of these children will be mentally retarded as a result of the disease.

Awards To Scholars By WTCC

"Outstanding West Texas Scholar Awards" have been announced by J. Fike Godfrey, Spur, chairman of the West Texas Chamber of Commerce education committee.

The new awards are to be presented to not more than two students from each of the 490 high schools in West Texas. Selection will be made by school officials in each school on the basis of grade average, school and civic honors, offices held, membership in school and civic groups, and other special accomplishments.

To be eligible to win such an award, the student must be a senior student, have an impeccable character, demonstrate good citizenship characteristics and show aptitudes of leadership.

Nomination forms have been sent to all of the high schools in the 132-county area of the WTCC and when final selections are made the awards will be presented in public ceremonies early in 1968.

"We feel that outstanding students in all schools should be publicly recognized for their contributions to the high aims and purposes of public education," Don Wooten, Abilene, WTCC president, said when the Board of Directors approved the awards.

"Though we would not detract from athletic achievement, we think that scholastic achievement should also be rewarded with appropriate notice by the public and the news media," he concluded.

Fire Is Put Out

City Firemen extinguished a truck fire one mile south of Ira at 10:05 p.m. Friday.

They said minor damage resulted to the "bed and spare tire" of a 1963 Model Chevrolet pickup owned by H. D. Sneed.

23 From Scurry In San Marcos College

SAN MARCOS — There are 23 students from Scurry County enrolled at Southwest Texas State College for the 1967 fall semester.

The students are Terrell R. Austin, Powers A. Boothe, Joe H. Breeden, Douglas W. Burney, Vanna L. Butler, James R. Campbell, Pamela A. Cole, Bob R. Covey, Paula D. Cumbie, Billy D. Durham, Jr., Joyce A. Greenway, Ray A. Kizer, and Roy A. Kizer.

Also, John C. Mayes, Shirley K. Mitchell, Kelly A. Murray, Lynda K. Pitner, Karen G. Robertson, Roy G. Rogers, Barbara B. Schiebel, Suzanne Shearburn, Gary D. Walton, and Robert L. Wesson.

Woman Is Hit By Car

Mrs. Merle Clardy, 65, remained in Cogdell Memorial Hospital overnight Friday for observation after she was struck by a car on Twenty-fifth Street at Avenue Y about 6:47 p.m.

She was taken to the hospital by Snyder Ambulance Service. Her condition was described as good.

The mishap occurred as the woman walked north across Twenty-fifth and the car was going west toward Lamesa, according to officers, who said the driver was Ernest Lee Brewer, 2706 Thirty-fourth Street. Damage to the 1963 Model Chrysler he was driving was placed at $15.

Police Patrol Sergeant H. E. Woolsey investigated the mishap.

"THE STORE WITH MORE OF WHAT YOU ARE LOOKING FOR"

BIG SPRING HIGHWAY PHONE HI 3-9333

PETER VAN DAAN looks disgustedly at his mother and father as they engage in one of their countless violent arguments. From left, Joe Wilson, Cynthia Phillips and Jack Green.

MIEP and Mr. Kraler, Dutch citizens, bring another Jewish citizen, Mr. Dussell, to the attic hideaway of the Franks to help them escape the Nazi's. From left, Pam Black, Mike Levens and Max Moreland.

Snyder High School Students — In Fall Production —

THE DAIRY OF ANNE FRANK will be presented by the Drama Department of Snyder High School as it's fall production December 15 and 16. Performances are scheduled for 8 P. M. each evening in the high school auditorium.

The drama is the true story of a young Jewish girl whose family, along with another family, hid from Nazi tyranny for two years in the attic of a warehouse building in Amsterdam, Holland. The play was adapted from the actual diary of Anne Frank. When it opened on Broadway, it won all the major awards for theatre, including the 1956 Pulitzer Prize and the Critics Circle Award.

Sharon Carter has been cast as Anne Frank. Her parents, Mr. and Mrs. Frank will be played by Royce Starnes and Cheril Stevenson. LaVerne Nix will portray her sister, Margot.

Members of the other family in hiding include: Peter Van Daan, to be played by Joe Wilson. His parents will be played by Jack Green and Cynthia Phillips in the roles of Mr. and Mrs. Van Daan.

Other members of the cast are: Mike Levens as Mr. Dussel a Jewish dentist who also hides out in the attic. Pam Black and Max Moreland take the roles of Miep and Mr. Kraler, Dutch citizens who help the hiding families by providing communications with the outside world and the items necessary to their survival.

A set as used in the Broadway version has been constructed on the high school stage and intricate new techniques in lighting and sound have been implemented to give the production as much of a professional touch as can be mastered by high school students.

Technical and administrative tasks will be handled by: Susie Hendrix and Beth Vestal, publicity; Chere Reneau, costumes; Diane Lewallen, assistant to the director; lighting, Terry McNair and Bobby Wright; set construction, Gill Potgeiter (AFS South African Student) Otis Archie, Jamie Boren; sound, Mike Martin and Larry Wesson; programs, Susie Hendrix. Other technical personnel will be announced later.

Jerry Worsham, Speech and Drama Teacher will direct.

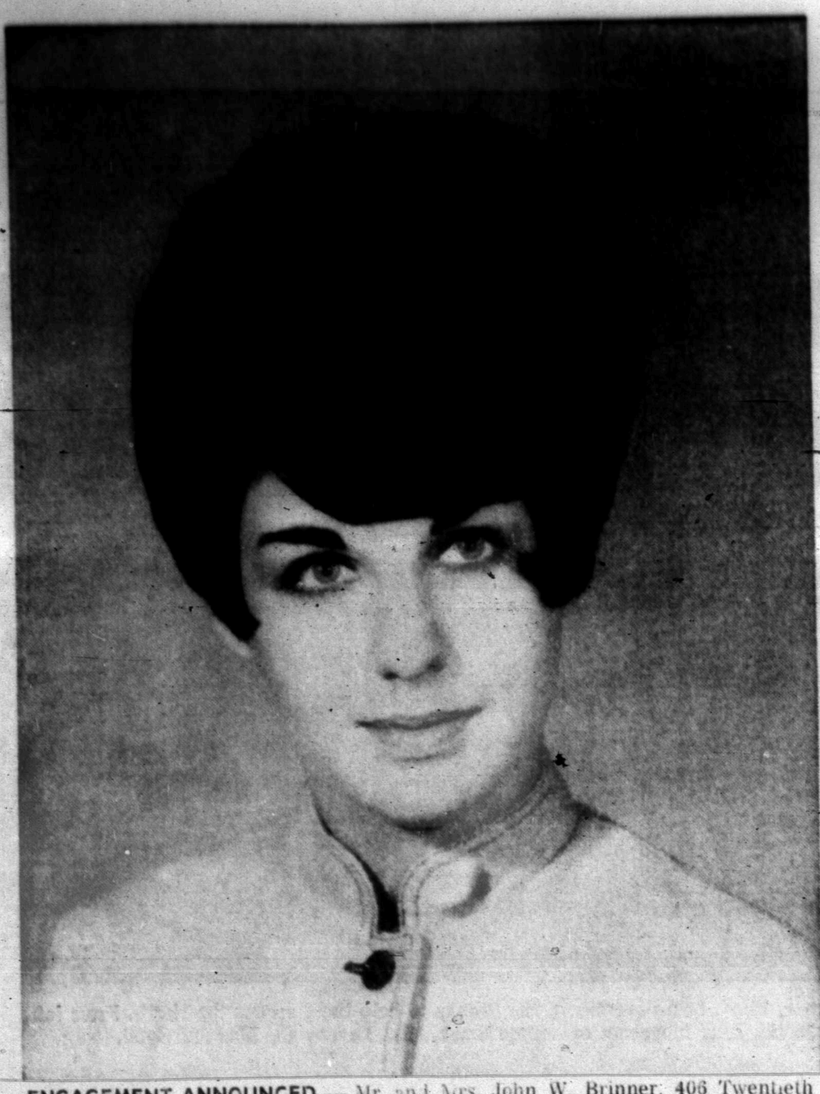

REALIZING that they have been discovered in their attic hideout, members of the Frank family are stunned by sounds of the approaching Nazi's. From left, LaVerne Nix, Cheril Stevenson (seated) and Royce Starnes.

MRS. VAN DAAN boasts fondly of her younger days when she had "good looking legs" much to the surprise of Mr. Frank and the disdain of Mrs. Frank, (rear). From left, Cynthia Phillips, Cheril Stevenson and Royce Starnes, (seated).

ANNE FRANK tries to instill in a distraught Peter, Joe Wilson and Sharon Carter. some of her intense faith in the goodness of mankind.

ENGAGEMENT ANNOUNCED — Mr. and Mrs. John W. Brinner, 406 Twentieth Place, announce the engagement of their daughter, Sandra Kay, to Robert Shelton Coursey, son of Mr. and Mrs. R. L. Coursey of Ellenwood, Georgia. The couple have set their wedding date for December 30th, in the Trinity Methodist Church of Snyder. (Photo by Craft Studio)

Golden Anniversary To Be Observed

Fifty years of marriage will be rounded out this Christmas season by Mr. and Mrs. Leonard M. Allen, long time residents of China Grove on Route 1, Hermleigh.

Celebrating the anniversary will be a reception for "all friends" at Dunn community center from 2 until 5 p.m. on Sunday, December 17. Their son, Rocky Allen of Big Spring, and his wife and other relatives who are arranging the reception extend an invitation to friends, everywhere to attend.

The Allens were married on December 23, 1917, in the home of her parents, the late Mr. and Mrs. L. R. Shoemaker, who lived at that time in the Little Sulphur Community, just over the Scurry County line from China Grove. Mr. Allen's maternal uncle - by - marriage, the late Rev. W. D. Green, widely known Baptist minister who died in Loraine a few years ago, performed the ceremony.

The couple has always lived in the China Grove Community. Mr. Allen's father, the late Geo. Matthew (Uncle Matt) Allen, had established a home there when the children were small. Their mother was the former Lizzie Collier. Leonard M. Allen was born while they lived in Sterling County.

Mrs. Allen's maiden name was Lona Shoemaker. Her parents were living near Colorado City when they died.

Mr. and Mrs. Allen belong to the Dunn Baptist Church. Their one son, Rocky, has three sons, and being grandparents is the Allen's favorite pasttime.

MR. AND MRS. RONNEL DUANE LOVELL
(Photo by Craft Studio)

Neita Higgins, Ronnel Lovell Exchange Double Ring Marriage Vows In Snyder

The First Baptist Church of Snyder was the setting for the marriage of Miss Neita Dianne Higgins and Mr. Ronnel Duane Lovell on November 25th, at 5 p.m. Dr. A. B. Lightfoot officiated at the doublering ceremony before an altar of 14 white tapers flanked by baskets of white mums.

Parents of the couple are Mrs. Thurman Higgins of Snyder, and Mr. and Mrs. Doyle Lovell of Murphy Community.

Miss Barbara Carter served as organist and accompanied Mrs. Wade Davis who sang "Whither Thou Goest".

Guests were seated by Travis Withers and Billy Sullivan.

Given in marriage by her grandfather, Mr. N. A. Brown, the bride wore a traditional gown of white crepe fashioned with an Empire bodice and long pointed sleeves of Chantilly lace. The removable train of Chantilly lace bordered by crepe was caught at the shoulders by crepe bows. Her elbow-length veil of illusion was attached to a headpiece of white roses and lace leaves, accented by seed pearls and crystal teardrops. She carried out the something old, new, borrowed and blue tradition and had a six pence in her shoe.

She carried a cascade bouquet of carnations and English ivy atop a lace covered prayer book.

Mrs. Travis Withers served her niece as matron of honor. She was attired in a royal blue satin brocade dress with long sleeves and Empire bodice, with matching shoes. She carried an arrangement of white mums. Shirley Higgins of Midland attended her cousin as bridesmaid. Her costume was identical to the matron of honor.

David Higgins, brother of the bride, and Beth Wheeler, cousin of the bride, lighted candles.

Mr. Doyle Lovell served his son as best man, and Harold Steadman was groomsman.

A reception followed in fellowship hall. The refreshment table was laid with white lace over blue and held the three-tiered wedding cake topped with white doves. Becky and Kathy Higgins presided. Mary Hill registered guests.

For her wedding trip the bride chose a navy blue A-line dress with matching coat and accessories. She wore an orchid corsage.

The couple are home at 1909 Coleman. The bride attended Snyder High School and is employed at the Child Development Center as a teacher's aide. The groom attended Borden County High School and McMurry College. He is employed at Piggly Wiggly Super Market.

The bride's mother wore a two-piece double knit suit with black accessories. The groom's mother wore a blue A-line dress with black accessories. Both wore white carnation corsages.

Mr. and Mrs. Brent Murphy of Ira hosted the rehearsal dinner at their home.

Out-of-town guests were from Tulsa, Okla., Cross Plains, Luther, Ira, Baird, Gilmer, Colorado City, Sweetwater, Lubbock and Midland, Texas.

Want a quickly made sweet? Melt a large package (2 cups) of semi-sweet chocolate pieces with a tablespoon of butter. Add chopped walnuts (about 1½ cups) and drop mounds of the mixture on wax paper. Refrigerate until firm. Store any of these chocolate-nut clusters that are not served in the refrigerator.

Church Women Set Dates

The thirty-fourth annual Assembly of Church Women United in Texas will for the first time be held in three different cities: Big Spring, February 5 and 6; San Antonio, February 6 and 7; and Lufkin, February 8 and 9. The three area assemblies are planned to enable more women throughout the state to participate. Theme for the Assembly is "Open Wide For New Dimensions."

The national president of Church Women United, Mrs. James M. Dolbey of Cincinnati, Ohio, will be the featured speaker at all area meetings. Mrs. Dolbey, a Methodist, served four terms as a member of the Cincinnati City council, eight months of this time as acting mayor.

State Assembly chairman in charge of all arrangements is Mrs. E. C. Rowand, Jr., of Dallas. Mrs. Truman West, Fort Worth, is president of Church Women United in Texas.

Women across the state may choose the area assembly they wish to attend. The local Church Women United president Mrs. Dave Harlin, 3301 Avenue U, will accept registrations and reservations now.

The meeting in Big Spring at the Settles Hotel will begin with a noon luncheon February 5 and end the following day at noon. That same afternoon, beginning at 1:30 p.m., sessions will be held in San Antonio in the Menger Hotel. The meeting will close with a special luncheon February 7. The Lufkin meeting will begin February 8 at 1:30 p.m. in the Hotel Angelina with a closing luncheon the following day.

Church Women United is a movement of over eleven million women who come together in a visible fellowship to witness to their faith in Jesus Christ and seek ways of performing responsible Christian action.

Cranberries have been used as a pie filling over the years. Nowadays some good cooks like to team the cranberries with raisins to achieve a pleasant combination of tart and sweet.

Thin French pancakes (crepes) may be made and stored in the freezer. The pancakes may be used, stuffed with a creamy meat or poultry stuffing, as a main course.

CHRISTMAS GIFTS — Junior GA Girls at Templo Bautista collected clothing for the Mexican Baptist Orphans Home in San Antonio. They are, from left to right, Front Row, Arlene Sanchez, Rosie Cervantez and Brenda Ubando; Middle Row, Cynthia Cadena, Evangelina Hill and Adriana Sanchez; and, Top Row, Mrs. Sam Delgado (director) and Vera Ubando (counselor).

Meat Loaf

2 eggs, slightly beaten
½ cup milk
2 tablespoons dried onion soup mix (just as it comes from envelope or can)
¼ cup minced parsley
1 teaspoon salt
Fresh ground pepper to taste
½ teaspoon prepared mustard
1 teaspoon Worcestershire sauce
1 cup (about 2 slices) soft bread crumbs
1 pound beef (top round), ground
½ pound ground pork

In a medium mixing bowl, beat eggs slightly. Add milk with onion soup mix, parsley, salt, pepper, mustard, Worcestershire sauce and soft bread crumbs; let stand for about 5 minutes to soak bread; add meat and mix thoroughly. Shape into a loaf about 8 by 4 by 3 inches in a shallow pan. Bake in a moderate (350 degrees) oven about 50 minutes.

Creamed tuna becomes something extra-special when it is served in patty shells.

LIBRARY NOTES

Books which give advice to women on hair care, makeup, clothes, posture and figure control are available at the Scurry County Library.

Books on beauty and charm are in great demand.

Excellent recent guides include "Glamour's Beauty Book," by the editors of Glamour magazine; "Leslie Uggams Beauty Book"; "Professional Beauty Secrets For Every Woman," by Lisa Morrow; "Natural Beauty Secrets," by Deborah Rutledge; "Finishing Touches," by Candy Jones; "Lily Dache's Glamour Book,"; "Mirror, Mirror On The Wall," by Gayelord Hauser.

Figure control, frequently requested, is covered in Norman Joliffe's "Reduce And Stay Reduced"; "What's Your Calo-ric Number," by Justus J. Schifferes; Debbie Drake's "Debbie Drake's Easy Way To A Perfect Figure And Glowing Health,; Bonnie Prudden's "How To Keep Slender And Fit After 30"; and "Live Longer And Better" by Norman Vincent Peale.

Hints about applying cosmetics are offered in "Lets Make Faces,; by Candy Jones.

Dorothea Hanle's "The Hairdo Handbook" is devoted to hair care and beauty.

Still another book, Helena Rubinstein's recent autobiography, "My Life For Beauty" tells how the author built up her famous business, and also includes much advice on skin, hair, and figure care.

The library also has special diet cook books and material on nutrition and correct eating.

Interested patrons will be pleased to note that the Borden County Independent School District has contributed 15 years, 1953-1967 inclusive, of their school annual "Coyote." Come by your Scurry County Library for a visit soon and look over other contributed annuals, which are on display.

Couple two vegetables and you'll need only one serving dish to bring to the table. Carrots and celery make an excellent combination; so do creamed potatoes and green peas.

Know how to fill plastic freezer bags? Place food to be frozen in a jar, then slip the bag over the jar and invert. The bag is quickly filled, and the top is clean for sealing.

TODAY'S REEL GENERATION

US Youth Loves Movies

EDITOR'S NOTE — The young generation is a "cinemate" one. It was born and bred in an age of the moving image and had seen more movies by high school graduation than some of their parents see in a lifetime. Movies have become a medium of, by and for the young. This growing rapport between film and youth is just beginning to change the course of the movie industry and influence approaches in education.

By NORMAN GOLDSTEIN
Associated Press Writer

Youth is in love. With the movies.

Film, the only new art medium born in this century, is the literature of today's young generation. It is the medium in which they both find and express themselves most directly and most passionately. It is a course of study in an increasing number of their schools: it is the possessor of their leisure time, the lively topic of their conversations. It is their language.

"To young college people, film is the new goddess—an Aphrodite, form-risen full-splendored on a thousand campuses," says Jack Valenti, president of the Motion Picture Association of America—MPAA.

"Today's students have a special thing going with the movies. They get turned on when the projector gets turned on," says the Rev. John M. Culkin, director of the center for communications at Fordham University in New York.

A preliminary market research study being done for the MPAA indicates that except for young people, the public's regular movie-going habit is decreasing. It is the exception, however, that is reshaping the thinking and planning of moviemakers.

The decline in movie attendance, the report shows, starts after age 29. That sharp drop is offset by increased attendance on the part of younger people, increased to a point where one industry spokesman estimated that 50 per cent of the total movie-going audience is under 25.

At a recent gathering of movie theater owners, Valenti outlined the industry's involvement with the young: The MPAA cosponsors the Student Film Festival, a forum for collegiate filmmakers to exhibit their wares; it is working with university officials to organize film seminars with distinguished filmmakers attending and personally discussing their works; it is joining with independent school districts and school boards to promote and enlarge film study in high schools.

Valenti noted there were six million students in colleges and universities last year and that number will reach 7.4 million in three years—and 11.1 million in 12 years. At the same time, he said, in a dozen years there will be 100 million Americans under 25, "most of whom will have whetted their cultural appetites and sharpened their entertainment perspective."

That's an awful lot of potential box-office money, and potential talent, and the industry is seeking ways to get at it, while educators are searching for ways to get with it.

In the 1952-53 school year, 575 film courses were offered in the country's 100 largest colleges and universities. The total number of courses in these schools in 1964-65 was 825, a gain of 43 per cent.

Arthur Mayer, 79-year-old industry veteran, author and now teacher of film courses, feels the movie education development is only in its infancy, its growth hindered by the expenses involved and the traditional disdain of the popular arts among educators. "You have to fight your way against a certain contemptuous attitude, a snobbishness," he says.

But, he adds, these obstacles are being hurdled each semester because of the interest of students. When Mayer began his first course at Dartmouth five years ago, there were 200 applicants for the single class of about 30. "The younger generation feels motion pictures are their art. These kids take it seriously," said Mayer.

What, then, is it about film, or about today's younger generation, that has created this marriage of an age group to an art medium? What makes for this intense identification of youth with film? In an era beset by a deep communications chasm between the ages, a giant generation gap, what makes film the message method—and possibly the generation bridge-builder?

Much of the answer is supplied by the movies' old nemesis: television. This is the television generation growing up. They were born to the moving image, bred in an electronic environment.

"The TV set was waiting for them when they came home from the hospital," says Father Culkin, "and they liked it enough to clock 15,000 hours of viewing by high school graduation." They also had seen 500 movies by then and spent 10,800 hours in the classroom.

"Their psychological intake system is programed for the moving image. The latest in cinematic techniques is served up daily in the sophisticated production of the commercials. The Late Late Show has much of the history of film waiting for them each evening," adds Father Culkin.

Mayer, too, feels television had a great deal to do with the youth-film development. The sale of great film classics to television created an enormous interest among the young and acquainted them with both current and past films, he notes.

At the same time a shortage of product forced exhibitors to play foreign and experimental films and the Supreme Court's "consent decree" against block booking by the major companies gave the independents a chance to be seen. With this increasing liberty of choice came a better audience and it demanded better caliber and more serious films.

These films proved profitable, to the surprise of most industry veterans, and left the major companies desperately seeking the product of foreign film directors who were proving so popular—and a need to encourage similar production at home.

It was in this "reel world" of foreign product and experimental homegrown films that youth sought the "real world."

In a more abstract sense, films communicate with the young because they deal with experiences, immediate experiences.

It is this demand of youth, the bulk of the movie-going audience, for a different type of film, something more than the purely escapist kind, something more realistic, more involving, that is changing the world of movies, the world of the young. It is their medium and they love it.

Medical Concerns Aid Spacemen

DALLAS (AP) — Ben James, chief of plans and operations at the National Aeronautics and Space Administration Center in Houston, says medical concerns account for 30 to 40 per cent of the preparation for and assessing a manned space flight.

In a recent talk here, he said the physical condition of the astronauts is checked rigoriously before, during and after a flight.

Dr. Gilbert Grosvenor, chairman of the board of trustees of the National Geographic Society at the time of his death, combined a halfdozen careers in his active lifetime. He was a distinguished editor, geographer, scientist, writer and administrator.

Junior Editors Quiz on SPARTANS

QUESTION: *What did the ancient Spartans do to exercise their muscles?*

• • • •

ANSWER: Ancient Greece was composed of individual cities or states which were like small nations, each living according to its own ideas. The city of Sparta developed a special plan. The Spartan citizens were to be the ruling class. They would own the land but do no actual work. The work would be done by other Greek peoples they had enslaved, called helots. In order to keep the helots from revolting, Spartan men were trained to be powerfully strong, to be able to endure any kind of discomfort and to suppress feelings of compassion and humanity. Boys were taken from their families by the state and trained in courage and endurance, though in little else. reading and writing being considered unnecessary. Their exercises were running, jumping, wrestling and wielding weapons. Hardened by this system, Spartan armies conquered the other Greek states. However, the Spartan training had made them overbearing and cruel. The helots and other Greek peoples revolted. In 371 B.C., the Spartan state went down in defeat.

MANY NEW PRODUCTS

Santa Favoring Sportsmen

By BERNIE SMITH

DALLAS (AP) — Blame the space age, electronics and the urge for status symbols. The men who have everything class does not include outdoorsmen. All manner of new products are being made for them, available to shoppers this Christmas.

Products which will become gifts to sportsmen range widely in price, from several dollars to several thousand.

Among the timely new products, for example, are electric socks, warmed by a small battery carried on the calf of the leg. Paper-thin space blankets, made of superinsulated material developed for the space program, are hot on the market but reasonable in price. They fold into a small bundle and can be carried in a coat pocket.

Guns are in fairly good supply. Prices run from around $30 to $3,000. You will have to hurry to get the latter one.

For next season's water sports there's an exciting combination sled and pneumatic raft called an Aeroski. Chances are we will see it used on the coast as a surfboard and on the lakes like water skis.

For boaters sporting the still new outdoor carpeting, and car and pickup camper owners too, a vacuum cleaner which plugs into the cigarette lighter socket is being sold.

Outboard widows can be expected to steer their husbands clear of posh new 16-foot stern-drive fiberglass dreamboats powered by the familiar 6-cylinder Chevrolet engine—until hey get their mink stoles.

Gasoline vapor detector systems with alarms, are available in kit form or installed for cruisers and such. (Fire from gasoline fumes in the bilge must be constantly guarded against in large boats.)

Camper buses are being sold with self-contained electric power supply and air conditioning, for those desiring to rough it in comfort. There is room on the back for a couple of motorbikes.

Whole families frequently become outdoor buffs, then tire of journeying to various water-fun spots and yearn for a little piece of land. For them building lots near water are for sale in many parts of the state, from several hundred dollars up.

Improvements range from the barest essentials to those having every luxury and convenience possible. Water front lots are always the costliest. In one plushy development such lots sell for $9,000 and up. There are cases where $16,000 was paid for very choice water front lots.

Or maybe you would like to surprise your favorite fisherman-hunter with a marsh buggy that could take him to any duck blind or fishing hole. One make of buggy glides over the deepest water as well as rough, dry terrain. And the passengers stay dry too.

In addition to varmint and crow calls for hunters and photographers there is an elk call, made in Marble Falls, mmm. Maybe it would atract reinder!

RANGE SEEDING — Milam Fowler, Chairman of the Upper Colorado Soil and Water Conservation District Board, stands in a sea of grass on the Dewey Everett ranch west of Gail. This upland pasture had a dense stand of mesquite and a cover of undesirable grasses. This pasture was root plowed and seeded to a mixture of blue panic, sideoats grama, K.R. bluestem and green sprangletop back in the early spring. Pasture is being deferred during the first growing season to allow the seeded grasses to become established.

SCS Head Named To Receive High Public Service Award

Donald A. Williams, the man who has headed up the U.S. Department of Agriculture's Soil Conservation Service for almost half of its 32-year history, has been selected as one of five outstanding federal careerists to recive the 1967 Rockefeller Public Service Award.

The honor, made possible by a grant by John D. Rockefeller III and administered by Princeton University, recognizes Williams' guidance of the SCS from the dustbowl age to today's complex soil and water conservation programs.

A tax-free cash award of $10,000 was made to Williams and the other awardees at the Washington Hilton Hotel on December 6.

The Rockefeller Awards were created in 1960 to "bring to the public attention the high caliber of men and women in the federal career service," according to Robert F. Goheen, president of Princeton.

Williams early recognized the revolutionary changes that were taking place in agriculture and conservation programs when he took the helm of the SCS in 1952. From a basically erosion control job, he has guided his agency through growth that has brought flood control, urban conservation, regional resource development, and many additional responsibilities. His philosophy is that soil and water conservation is interwoven into eeryone's existence.

"Conservation is everybody's business because it affects everybody — in the cities as well as on the farms," Williams says.

"For example, it is necessary to keep silt out of harbors, in addition to keeping topsoil on the land. We have long recognized that much of the choicest agricultural land was being diverted to other uses — subdivisions, factories, airports, housing development.

Williams joined the Soil Conservation Service in 1935, and held a number of jobs as a field engineer before coming to Washington in 1950.

He now serves as consultant to the Ford Foundation and has been advisor to the governments of 17 countries on problems of soil and water conservation. He has been consultant to the Agency for International Development in Latin America and Asia, and directs projects in several countries. He recently returned from three weeks in India where he reviewed the Soil Conservation Service technical assistance program there.

LETTERS TO SANTA

Dear Santa: My name is Brenda. Mother says I haven't been very good this year, but I think I have been an average five year old who is ok.

This year I want some binoculars, western clothes, boots, a Barbie doll and three dresses. Please remember my sisters, Chris and Jeana and my brother David. We love you Santa Claus. Merry Christmas.

Brenda

Dear Santa: I want a rock portable geology lab and a walkie-talkie and I would like a lost in space robot.

Bill Bass

Dear Santa: Please bring me a pair of cowboy boots so that I can play cowboy with Auntie's kids, a gun that has a motor, a pencil that I can write with, a pair of pajamas and a lunch bag so that I can carry my lunch up to Auntie's. Don't forget all the other little boys and girls. I have been a good boy most of the time.

Randy Bowers

Dear Santa: I am a little girl 8 years old and in the second grade. Please bring me a Betsy Wetsy, an electric toothbrush, a game named operation and a typewriter. Bring all the little kids something for Christmas.

Debrah Sewell

* * *

Dear Santa: Please bring me some creepy Crawlers and a rocket. If you can, please come to see Sandra, Wayne and Bobby. Bless you Santa.'

David Lee Burleson

* * *

Dear Santa: I am 8 years old, Jackie is 5. I want a watch, hula hoop and a jewelry box. Jackie wants a Superman suit, guns, projector.

Ens. Kayser's Service Set

Funeral service will be held at 2 p.m. Monday at the First Methodist Church in Colorado City for Ens. Richard Kayser, 23, who lost his life in an air mishap Thursday near Pensacola, Fla.

The Rev. Billy Wilkinson, pastor of the church, will officiate, and burial will be in Colorado City.

Ens. Kayser's father, J. Merrill Kayser of Snyder, was notified Thursday that his son had been lost in an air mishap in the Gluf of Mexico. Late Friday, the Navy advised that the body had been recovered.

REBOUND FIGHT — Texas Tech's Mike Oakes (No .41) goes high for a rebound between McMurry's Eddie Jones and David Cain (white jerseys, foreground) during the exhibition thriller at the Canyon Reef Basketball Tournament here Friday night. The Tech Frosh emerged triumphant 94-83.

Tigers Put Down Ft. Stockton In Opener

Snyder's fighting Tigers had a good chance to reach the final round of the Thirteenth Annual Canyon Reef Basketball Tournament. They clipped a good Ft. Stockton team 82-74 in first round action Friday night and were to tangle with Seminole at noon Saturday in the second round. The Tigers defeated Seminole here in an earlier game last week.

Big Spring, however, continued to hold the favorite's role after a convincing 75-42 triumph over Brownfield. Crane waxed Phillips 63-43, and Seminole advanced on a bye over Brownwood in other first round tilts.

The championship clash was slated for 8 p.m. Saturday following a 5 p.m. tussle for Consolation honors and a 6:30 p.m. tilt for third place.

Texas Tech's Freshmen registered an impressive team performance in downing McMurry's Junior Varsity 94-83 in a special exhibition match Friday night. Tech received twin - figure performances from five men — Larry Wood (17), Clay Van Loozen (16), Steve Williams (13), Jerry Turner (13) and Pat McKeon (10). Randall Caussey, McMurry guard from Sweetwater, was perhaps the outstanding player on the court. He pumped in 23 points before fouling out in the final frame.

The college tilt was close most of the way, although Tech held the upperhand in every quarter. McMurry committed 18 more personal fouls than the Raiders.

Snyder benefitted from a great team performance to beat Ft. Stockton. Tommy Bullard paced the win with 27 points. It was perhaps his finest game of the season as the little senior guard also grabbed more rebounds — eight — than anyone else.

Mickey Almond dunked in 19 points, and Benny Ward pitched in 10 as the Bengals clicked well offensively. Five other Tigers got on the scoreboard. Mitch Rambin, Bullard and Almond did well at the free throw line in the fourth quarter when every point became crucial.

Rambin dunked in a crip shot just before the gun ending the third quarter to give Snyder a 5 point cushion. It was their biggest lead during the first three quarters as Ft. Stockton remained in contention with some sharp shooting.

Lionel Rubio collected 24 points for the visitors, and he did some great inside shooting. Runner up was Dee Broyles with 21. The closeness of the match is reflected in the score. Snyder trailed 14-15 after one frame, then led 38-37 at halftime.

The Tigers were cold in the first quarter, hitting only 6 of 17 for 38 per cent, but two solid middle quarters in which the Bengals hit for 50 and 52 per cent respectively, paved the way for their success. Success at the free throw line combined with a 36 per cent shooting average in the last quarter preserved the victory.

Both teams made few mistakes, but Fort Stockton lost the ball more often than the Tigers on turnovers.

Wayne Johnson and Jerry McGuire sparked the Big Spring attack with 23 points apiece as the Streers went ahead early and never were threatened. Barry Moris pitched in 17 to cop scoring honors for Brownfield.

Phillips pulled within five points of Crane in the third quarter, but the Cranes bombed the nets for 22 points while holding the Blackhawks to seven points in the last quarter to win going away.

Mike Pearl and Glen Fletcher sank 16 and 15 points respectively for Crane, and Wayne Johnston posted the lion's share — 19 — for Phillips.

'B' Team In Consolation Finals Tilt

KERMIT — The Snyder High B team was to face either Kermit or Pecos in the consolation finals of a basketball tournament here Saturday afternoon.

Snyder B dropped its opener in the tournament to Seminole, 62-54, and then downed Monahans, 67-45.

In the Seminole game Wesley Bishop paced the Snyder scorers with 22 points, while Dennis Carlton had 13, Bill Hood 8, Randy Rushing 6, Lee McNair and Ronald Ward 2 each and Don Light 1.

In the Monahans game, Bishop roped 25 points, Rushing and Hood 10 each, McNair 7, Randy Levens and Ronald Gladson 4 each, Carlton, Light Ward and Gary Terrell 2 each.

Hard Times Fall On Boston, Bills

BOSTON (AP) — What a difference a year can make in the American Football League.

Just 12 months ago, the Buffalo Bills and the Boston Patriots battled for the Eastern Division title and packed Fenway Park with 39,350 fans, the largest Boston crowd in AFL history.

Today only about 18,000 were expected to turn out to see the same two teams, now struggling as also-rans.

The Patriots ruled a slim favorite in the NBC nationally televised meeting. Boston boasted four straight victories, including a preseason exhibition, over the Bills.

Boston took the field with a 3-8-1 record, just a tie better than Buffalo's 3-9 mark. One of the Patriots' victories was a 23-0 decision in Buffalo earlier in the season. It was the Bills' first shutout in history.

The Patriots were set to unveil former Harvard star Bobby Leo in their 1967 home finale. Leo, a fifth round draft choice after earning All-East honors as a halfback, was released from Army duty in midseason. Coach Mike Holovak planned to test him as a flanker and on punt and kickoff returns.

Veteran Jack Kemp was named to start at quarterback as usual for the Bills. However, 37-year-old Babe Parilli was due to ride the bench for Boston. Don Trull, acquired from Houston a few weeks ago, was set to direct the Patriots' attack.

In AFL action Sunday, Kansas City is at New York, Oakland at Houston and San Diego at Miami. Denver is idle.

The Green Bay Packers invaded Los Angeles for a showdown in the National League today. NFL games Sunday include Detroit at New York, Cleveland at St. Louis, Minnesota at Chicago, New Orleans at Baltimore, Philadelphia at Dallas, San Francisco at Atlanta and Washington at Pittsburgh.

Funds OK'd For Military Construction

WASHINGTON (AP) — President Johnson signed Friday an appropriation bill providing $75.3 million for military construction projects in Texas.

The Texas amount was part of the total appropriation of $2.09 billion for projects at home and abroad.

The total appropriation was $344 million less than was budgeted by Johnson, $49 million under that originally voted by the House and $6 million less than first approved by the Senate.

The Texas projects and amounts:

Army—Aeronautical maintenance center, $419,000; Ft. Bliss, $1,193,000; Red River Army Depot, $376,000; Ft. Hood, $3,075,000; Ft. Wolters, $1,419,000.

NINTH GRADE TEAMS ADVANCE IN TOURNEY

BIG SPRING — Both 9th grade teams from Snyder reached the second round of the Big Spring Tournament with opening victories Friday night. Lamar 9th tripped the Toros of Big Spring 45-31 while Travis 9th whipped Sweetwater 34-22.

Neither local team had much difficulty in the opening round. Travis 9th was to tangle with the Brahmas of Big Spring — conquerors of John Glenn — in the second round at 12 p.m. Saturday. Lamar 9th was to play Lamesa at 1:30 p.m. Saturday in the second round. Victory in the second round is an automatic ticket to the finals.

Bid Cooper and Max Falls, with 16 and 14 points respectively, paced the Lamar 9th win over the Toros. Evans posted 16 for the Big Springers.

Travis 9th built a 30-4 lead going into the final quarter with Jesse Speer pacing the offense. He dunked in 15 points. A tight defense kept the Ponies from scoring in the third quarter.

LAMAR 9TH (45) — Breedlove 0-1-1; Dillaha 1-0-2; Rambin 4-0-8; Stewart 1-1-3; Cooper 5-6-16; Almond 5-4-14; Falls 0-1-1; Totals 16-13-45.

TOROS (31) — Plunkett 1-1-3; Rubio 1-4-6; Evans 8-0-16; Vasquez 1-0-2; Gamboa 1-0-2; Price 1-0-2; Totals 13-5-36.

* * *

TRAVIS 9TH (34) — Sims 3-3-9; Pinkerton 1-2-4; Speer 7-1-15; Phariss 1-0-2; Tovar 1-2-4; Totals 13-8-34.

SWEETWATER (22) — Johnson 0-1-1; Brown 1-5-7; Hampton 0-1-1; Howard 1-1-3; Tidwell 0-4-4; Hernandez 3-0-6; Totals 5-12-22.

Henderson Church Damaged By Blast

HENDERSON, Tex. (AP) — An explosion, tentatively linked to a heating system, extensively damaged the First Methodist Church Friday.

No one was injured.

The church secretary, Mrs. Bob Brown, was returning from lunch and only a few blocks away when the explosion occurred.

The pastor, the Rev. Eugene Craig, who was out of town at the time, said upon his return that the sanctuary and the educational facilities part of the church were damaged.

Fire Marshal D. T. Loudermilk said a preliminary investigation indicated the explosion originated in the church's heating system.

Roscoe Tests Cards In Tournament Finals

HERMLEIGH — The host Cardinals whacked Fluvanna 71-65 here Friday night to qualify for the finals of their own invitational basketball tournament. Hermleigh met Roscoe at 8:45 p.m. Saturday for the title.

Earlier, the Redbirds tripped Noodle 80-55 in the first round. Roscoe qualified for the championship match with a 48-41 victory over Highland in the second round Friday.

In other Friday tilts, Loraine tripped Noodle 62-54 and Hobbs bested Old Glory 54-34. Hobbs met Loraine Saturday morning in the Consolation finals, and Fluvanna tangled with Highland at 6:15 p.m. in the battle for third place.

In the girls division, Fluvanna and Hobbs were to collide at 7:30 p.m. Saturday for the championship. The Buffalo Gals from Fluvanna qualified for the finals with a 45-40 win over Hermleigh while Hobbs pounded Old Glory 42-35 for its second round victory.

Other girls games Saturday saw Highland nip Roscoe 53-46 and Noodle top Loraine 41-33. Old Glory was to meet Hermleigh at 5 p.m. Saturday in a battle for third place while Noodle and Highland were to tangle Saturday morning for the Consolation prize.

Tommy Chorn and Ted Winter paced the Hermleigh attack against Noodle in the first round and against Fluvanna in the second round. Chorn pitched in 23 points in the first game and 13 in the second one while Ted was notching 27 against Noodle and 28 against Fluvanna.

Noodle had an outstanding player — Robert Servin — who scored 34 points, but they never were in the game. Hermleigh jumped into a 42-30 halftime lead with a 26-point outburst in the second quarter against Fluvanna, then held off a Buff rally in the last half.

Roscoe, led by Danny Pitts, outscored Highland in every quarter except the last one to get into the finals. Pitts netted 14 points, but it was a team victory for Roscoe as each member of the squad made important contributions. Wayne Allen dunked in 21 points in a losing cause for Highland.

Fluvanna's girls fell behind 28-30 in the third quarter, but outscored Hermleigh by seven points in the last quarter to gain a championship berth. Three Buffalo Gals were in twin figures — Nanette Bruner (21), Sandra Stansell (14) and Charlotte Toombs (10). Sharon Pieper pitched in 20 points for Hermleigh.

Old Glory made up nine points in the last half, but they were too far behind to overcome Hobbs' 28-12 lead in the first half. Brenda Hull ripped the cords for 21 points for the victorious Panthers while teammates Doris Medrano and Tachi Martinez put in 11 and 10 points respectively. Leva Letz paced the Old Glory attack with 15 points.

Loop Expansion?

DALLAS (AP)—Expansion of the Lone Star Conference will be considered at the 1968 spring meeting but how many new schools will be added has not been determined.

The league now has eight members.

The conference wound up a two-day meeting here Friday with the announcement that expansion was thought necessary to make the scheduling of athletic events less difficult.

There are no applications for membership on file at this time.

The spring meeting will be in May at Nacogdoches.

Decision Due In SWC

DALLAS, Tex. (AP)—Limits on athletic scholarships in the spring sports, with freshmen being made eligible for varsity competition in all of them, will be matters of decision today when the Southwest Conference winds up its winter meeting.

Athletic directors and football coaches made no recommendation on scholarship limitations since they were sharply divided on the question, thus leaving it up to the faculty committee, governing body of the conference, to act.

But they did suggest that freshmen become eligible for varsity competition in track, baseball and swimming to go with golf and tennis which were voted this privilege at the last meeting of the conference.

They also recommended that freshmen be barred from participation as individuals in open track, golf, tennis and swimming meets when school was in session.

The athletic officials, including business managers and coaches of all sports, asked the committee to delay action until the May meeting on whether basketball teams would be permitted to compete in post-season play other than the NCAA.

The basketball coaches had recommended that their teams be permitted to compete in the NIT and other post-season tournaments but if the matter is delayed until May, there will be no such competition in the current basketball season.

Athletes entering the Armed services will lose no eligibility if another recommendation is accepted by the committee.

There were a number of other minor recommendations in what seemed to be about the quietest and most routine meeting of the conference in years.

Charlie Ravenel scored 17 touchdowns and 6 extra points for 108 tallies in his three varsity football seasons at Harvard — 1958-60.

Mrs. Jeannette Hawakawa, who runs a San Francisco beauty shop, followed a recent 170 game with 300 in a bowling league match.

AGGRESSIVE DEFENSE — The Snyder Tigers threw up an aggressive defense against Ft. Stockton here Friday night and took an 82-74 verdict in the first round of the Thirteenth Annual Canyon Reef Tournament. Finals were set for 8 p.m. Saturday in the Scurry County Coliseum, following Consolation Finls at 5 p.m. and the battle for third place at 6:30 p.m.

Chaparrals Win 123-110

BY THE ASSOCIATED PRESS

The Dallas Chaparrals still have a long way to go, but at least Bob Verga and John Beasley have them moving in the right direction.

The two rookies combined for 58 points, 33 by Verga, to lead the Chaparrals to a 123-110 victory over Anaheim Friday night and move them into a tie for second place in the Western Division of the American Basketball Association.

In the only other game Pittsburgh relied on Charley Vaughn and Art Heyman to sink Kentucky 93-89 in Louisville.

Dallas, playing at home, trailed through most of the first half before Verga and Beasley rallied the Chaps and they outscored the Amigos 35-23 in the third period and 31-27 in the finale. Beasley also pulled in 20 rebounds.

Warren Davis had 33 points for Anaheim.

Now tied with Denver at the .500 mark, the victory still left the Chaps 5½ games behind leading New Orleans.

Vaughn connected for 28 points and Heyman 22 as the Pipers held off the Colonels, who closed within two points late in the game.

The victory moved Pittsburgh within four games of Minnesota and Indiana, the Eastern Division leaders.

In the National Basketball Association, Los Angeles halted Detroit 115-103, Boston clouted Baltimore 123-108, Philadelphia beat New York 117-109, St. Louis defeated Cincinnati 101-95, Chicago nipped Seattle 115-114 and San Diego blasted San Francisco 137-107.

Snyder 8th Grade Teams Triumph

BIG SPRING — Lamar and Travis 8th grade basketball teams both advanced to the second round of the Big Spring Tournament here Friday with triumphs over Goliad and Sweetwater respectively.

Lamar took a close 34-29 verdict over the Big Spring team while Travis thumped Sweetwater 44-22.

Travis Bunch and Mike Line each rang the hoops for nine points to lead the Lamar 8th grade crew. Goliad's Carter tipped in 16 points.

Travis 8th spotted the Ponies a 14-13 halftime lead, then rallied in the second half for the win. Travis tallied 15 and 16 points respectively in the last two quarters while holding Sweetwater to four points in each of the final two frames.

Butch Buchanan captured scoring laurels with 13 points.

Travis was to tackle John Glenn at noon Saturday in the second round. Glenn defeated Runnels to qualify for a berth opposite Travis.

Lamar 8th was to meet the winner of the Edison- Lamesa tilt at 1:30 p.m. in the second round.

LAMAR 8TH (34) — Bunch 4-1-9; Line 4-1-9; Brice 4-0-8; Spears 0-2-2; Thompson 3-0-6; Totals 15-4-34.

GOLIAD (29) — Johnson 1-0-2; Brock 0-1-1; Carter 7-2-16; Newman 1-0-2; Stanley 4-0-8; Totals 13-9-29.

* * *

TRAVIS (44) — G. Durst 3-2-8; D. Durst 2-0-4; Glasscock 3-1-7; Murray 3-0-6; Buchanan 3-7-13; Patterson 1-0-2; Loyd 1-0-2; Horsley 1-0-2; Totals 17-10-44.

SWEETWATER (22) — Turner 1-1-3; Hout 2-2-6; Williams 1-2-4; Houston 2-0-4; Lee 1-1-3; Rushton 1-0-2; Totals 8-6-22.

TAKES TIPOFF — Snyder's Jim Patrick (No. 51, dark jersey) beats Ft. Stockton's Lionel Rubio (No. 10) to the ball in tipoff that started action in the first round of the Thirteenth Annual Canyon Reef Basketball Tournament here this weekend. Other Tigers identifiable, from left to right, are Jerry January, Frankie Grimmett and Tommy Bullard.

Packers Underdogs!

LOS ANGELES (AP) — It's been quite a while since a Vince Lombardi-coached football team was a seven-point underdog, but the Green Bay Packers were in that position today.

The Packers were picked to lose by six or seven points in facing the Los Angeles Rams in today's National Football League game at the Coliseum.

The reason? The Packers have won the Central Division of the NFL while the Rams are battling Baltimore for the title in the Coastal Division.

But Rams fans feared the seven-point advantage given by the odds makers would be the kiss of death.

During Lombardi's nine years with the Packers, the Rams were favored twice in 18 games. In 1959 the Rams were a seven-point choice. They lost 38-20.

Last year the odds favored the Rams by 3½ points. Again they lost, 27-23.

Los Angeles, in the midst of its greatest season ever, sports a 9-1-2 record and trails the Baltimore Colts, 10-0-2.

For the Rams to win the world championship of professional football, they would have to beat Green Bay and Baltimore to capture the Coastal Division, then beat Green Bay again for the right to meet either Dallas, Cleveland or St. Louis for the NFL crown.

Then they'd have to beat the American Football League champion.

Oddsmakers in Las Vegas will bet 12½-1 they can't win those five games in a row.

The Rams' front defensive four was ready for the Packers. The Fearsome Foursome and three tough linebackers had limited opponents to about 70 yards per game rushing.

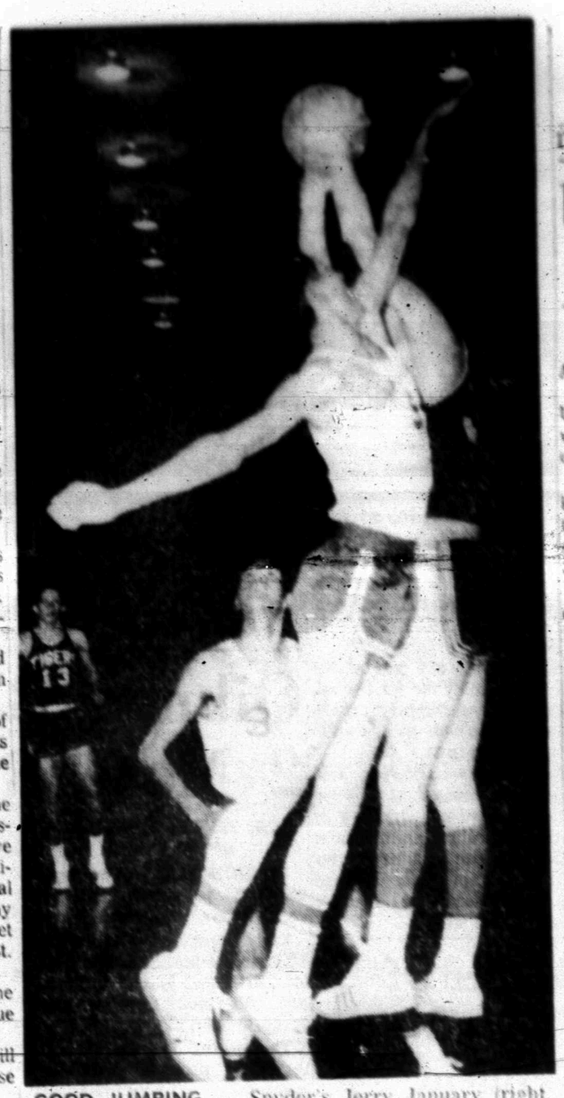

One Ram player spoke of the Packer defense:

"They just sit in that 4-3 defense and defy you to beat them. No tricks, nothing fancy —that's Green Bay."

Actually, the Packers' three linebackers often play so close to the line, Green Bay often appears to be playing with seven men on the defensive line.

In Sunday's NFL action, Detroit is at New York, Philadelphia visits Dallas, Cleveland plays at St. Louis, New Orleans is at Baltimore, Atlanta hosts San Francisco, Pittsburgh entertains Washington, and Minnesota travels to Chicago.

In the American League, Boston hosts Buffalo Saturday while Kansas City is at New York, San Diego travels to Miami and Houston entertains Oakland in Sunday's action.

GOOD JUMPING — Snyder's Jerry January (right, with ball) goes high to take the ball in a jumping match with Ft. Stockton's Felix Garza. The Tigers took the first round match 82-74.

UCLA, Huskies Are Impressive

By TED MEIER
Associated Press Sports Writer

That two-point squeaker that UCLA scored over Purdue last week turned out to be just one of those things.

The national collegiate basketball champions routed Wichita State 120-86 in their home opener Friday night for their 36th straight victory.

Purdue, which took UCLA down to the final second before losing 73-71 at home, ran into an aroused Washington team at Seattle and lost 98-87.

Dayton, sixth-ranked in The Associated Press poll, also was upset on the road. The Flyers, beaten by UCLA in the NCAA championship final last March, went down before Eastern Kentucky 76-75.

Nebraska and Iowa State also suffered surprise setbacks on the road. Washington State whipped Nebraska 93-70 and San Fernando Valley State took Iowa State 87-72.

Tennessee Tech, playing at home, was upset by Howard Payne 80-69 while the home team Cincinnati Bearcats barely managed to edge Miami of Ohio 60-59.

Southern California opened an Eastern tour by beating Villanova 82-65 at Philadelphia. In other games Wyoming defeated Oklahoma State 72-62, Oregon downed Portland 62-52, Princeton crushed Colgate 71-43 and Pitt and Duquesne advanced to the final of the Steel Bowl at Pittsburgh. Pitt edged Massachusetts 73-71 after the Dukes had beaten Air Force 64-52.

With big Lew Alcindor scoring 28 points Wichita proved no match for UCLA, the team many feel will break this season the all-time winning streak of 60 UCLA scored over Purdue last set by San Francisco 12 years ago.

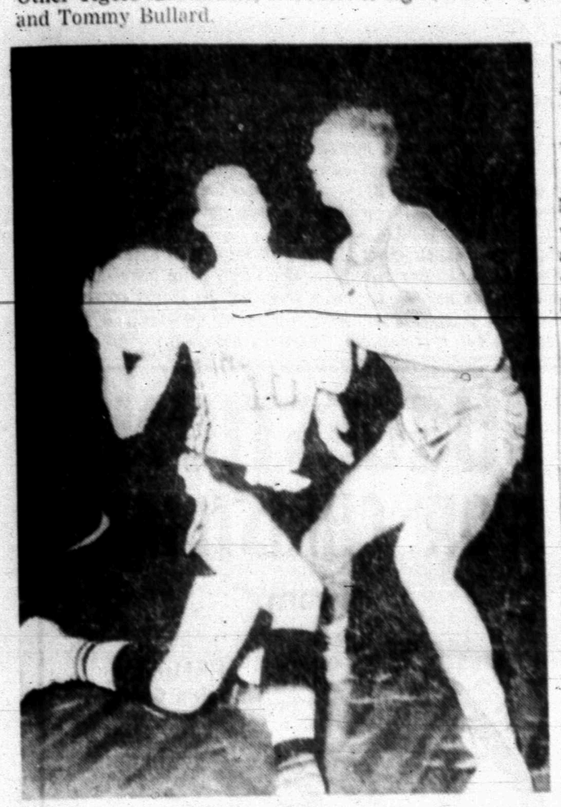

The nation's top-ranked team at one time led by 34 points before a sellout 12,233 at UCLA's Pauley Pavilion.

Purdue's star soph, Rick Mount who nearly upset UCLA in his varsity debut, got 23 points against Washington, but the unbeaten Huskies had the upper hand all the way. Dave Carr's 24 points topped the Huskies against the seventh-ranked Boilermakers.

Four free throws by Gary Paul in the last 31 seconds gave Eastern Kentucky its upset over Dayton. Don May scored only three field goals, but 11 free throws to be high for the Flyers with 17 points. Boyd Lynch, a soph making his first start, led the Colonels with 28.

Gary Elliot led Washington State over Nebraska with 22 points. Tony Pazaricky, with 25 points, paced San Fernando in the upset victory over Iowa State.

GOES IN — McMurry's Randall Caussey goes in for a quick shot against Texas Tech in their exhibition basketball tilt here Friday night. The former Sweetwater schoolboy turned in an outstanding performance while scoring 23 points.

Majors To Ames Post

AMES, Iowa (A) P— Johnny Majors, a former All-America who knew nothing but success as a player, has been entrusted with the task of revitalizing Iowa State University's long sagging football fortunes.

The 32-year-old Majors, who has been an assistant at Arkansas, agreed Friday evening to a five-year contract at $21,000 year to replace Clay Stapleton as coach at the Big Eight school.

Majors was not available for comment Friday night, but was scheduled to appear at a news conference today.

Johnny, a ferociously elusive tailback, was one of the University of Tennessee's greatest performers ever back in the middle 1950s.

He cocaptained the undefeated Vols team that went to the 1957 Sugar Bowl. He was named to the 1956 All-America team, and placed second to Notre Dame's great Paul Hornung that year in competition for the Heisman Trophy.

After graduation, he served on Bowden Wyatt's staff at Tennessee until moving on to Mississippi State as defensive coach in 1960. In 1964, he went to Arkansas under Coach Frank Broyles.

Stapleton, who also played college football at Tennessee, quit to devote full time to being athletic director, a post he assumed during the summer.

He said Majors "has never known anything but success in athletics, and I think he is the ideal man to coach Iowa State football."

Cougars Shine

HOUSTON (AP) — The University of Houston golf team has won the championship of the first Forest Cove Intercollegiate Golf Tournament.

The Cougar five-man team finished the 54 hole tournament Friday with a 12 under par 1,068.

Hal Underwood of Houston won the individual championship with a nine under par 207. Teammates Bob Barbarossa and Doug Olson tied for second with 212s.

Jerry Griner of North Texas State and Martin Warnica of Houston were next with 214s.

North Texas State was second in team scoring with 1,099, followed by Stephen F. Austin's 1,142 and Sam Houston State's 1,205.

Walter Johnson holds the American League record for pitchers leading the circuit in strikeouts. He was the whiff king 12 years between 1910-24.

No National League pitcher has won 30 games since 1934 when Jerome (Dizzy) Dean won 30 and lost 7 for the St. Louis Cardinals.

Crown On Line

FORT WORTH (AP) — Midwestern and Texas Wesleyan clash tonight for the championship of the Cowtown basketball tournament.

Midwestern, the defending champion, reached the finals Friday night with a 66-53 victory over Sul Ross.

Texas Wesleyan got there by dumping Le Tourneau 90-82.

Le Tourneau and Sul Ross clash for third place.

House Won Money Battle On Social Security Bill

By JOE HALL
Associated Press Writer

WASHINGTON (AP) — Key senators involved with the Social Security bill agreed the House won the money battles over the measure, with the result being smaller benefit increases than were sought by President Johnson.

The bill is expected to be passed and put before the President for signature by the middle of next week.

Nearly every important Senate change made in the bill was either thrown out or greatly watered down in the Senate-House conference which finished its work Thursday night.

"We were told by the House to accept their provisions or that there would be no bill," said one Senate conferee who asked that his name not be used.

He added that during the discussion of what would happen if the bill didn't survive, "we were told that we could announce to the old people that we had killed a bill which would raise their benefits 13 per cent."

As accepted by both sides, the final version provides a new benefit schedule calling for a 13 per cent boost for the 24 million people now on the social security rolls, with a minimum monthly check of $55.

This was slightly above the increases originally voted by the House but far below the administration version calling for hikes ranging from 15 to 59 per cent for those now getting benefits.

A revolt against the compromise bill broke out on the Senate floor Friday, with half a dozen Democrats denouncing it and demanding that it be rejected.

But Chairman Russell B. Long, D-La., of the Finance Committee, floor manager for the bill, said he was confident it would be approved.

The anonymous Senate conferee said Rep. Wilbur D. Mills, D-Ark., powerful chairman of the House Ways and Means Committee, and other members of the House delegation, were adamant against the Senate changes.

"They said they were too costly and that the money was not available to pay for them," he explained.

He added that he felt the recent Ways and Means hearings on President Johnson's proposed income tax increase, and the committee's decision to reject it for this year, had hardened House attitudes.

The Senate conferee said Mills came to the sessions with an unusually large House delegation picked to give extra representation to the fiscal conservatives on the Ways and Means Committee.

In addition to the proposed monthly minimum of $55, compared with the present $44, the bill would raise the maximum monthly check from $142 to $160.50 with an additional 50 per cent of these sums when the worker's wife reaches 65.

Other key provisions:

—The maximum annual Social Security tax will go from $290.40 to $343.20.

—The maximum that retired persons may earn annually without losing part of their benefits will go from $1,500 to $1,680.

Although it's not part of the bill, the monthly fee for the voluntary, supplementary medicare plan probably will go up in April from $3 to $4.

Senate-House conferees said they were advised of this by John W. Gardner, secretary of health, education and welfare. Gardner is due to announce his official decision in January and the hike would be effective three months later.

Table Shows Changes As Approved

WASHINGTON (AP) — Here are tables showing Social Security benefits and tax levels in present law and in the compromise Social Security bill agreed upon Thursday night:

Retirement benefits (these are maximum potential payments and are not available in all cases to a person retiring now):

Individual

Average Monthly Earnings	Present Law	Bill
$67	$44.00	$55.00
$150	$78.20	$88.40
$250	$101.70	$115.00
$350	$124.20	$140.00
$450	$146.00	$165.00
$550	$168.00	$189.90
$650	$168.00	$218.00
COUPLE		
$67	$66.00	$82.50
$150	$117.30	$132.60
$250	$152.60	$172.50
$350	$186.30	$210.60
$450	$219.00	$247.50
$550	$252.00	$284.90
$650	$252.00	$323.00

Maximum taxes (payable each by employer and employe):

Period	Present Law	Bill
1968	$290.40	$343.20
1969-70	$323.40	$374.40
1971-72	$323.40	$405.60
1973-75	$356.40	$440.70
1976-79	$359.70	$444.60
1980-86	$366.30	$452.40
1987 and thereafter	$372.90	$460.20

The maximum annual earnings now subject to the Social Security tax is $6,600. Under the pending bill this would increase to $7,800 next year.

Nab Suspect In Robbery

LOS ANGELES (AP)— FBI agents have custody of one of three men charged in the $34,157 robbery of the First National Bank of tiny Byers, Tex.

Roy Allen Slusser, 24, of Burkburnett, Tex., was turned over to federal officials Friday to await transportation to Texas to face charges in the robbery. Slusser was arrested last month in Costa Mesa, Calif.

None of the money taken has been recovered.

Two other men, Charles Sidney Maupin, 26, of Poplar Bluff, Mo., and Terry Lee Letcher, 19, of Electra, Tex., have been charged in the robbery. Maupin and Letcher were arrested in Texas.

Three armed men, described by witnesses as police, held up the bank last Nov. 8 and fled with $34,157.

U.S. Commissioner Arthur Bradley of Los Angeles had reduced Slusser's bail to $10,000 fcom $50,000 before turning him over to the FBI, which said Slusser would be returned to Texas as soon as transportation was arranged.

Byers is 16 miles northeast of Wichita Falls.

Soldier Of Today More Resilient

SAN ANTONIO (AP) — American fighting men in Vietnam are more resilient emotionally and mentally than soldiers of earlier generations, an Army psychiatrist said Friday.

Lt. Col. Edwin T. Cooke, a psychiatrist at Brooke Army Medical Center said only three per cent of the medical evacuees from Vietnam are psychiatric casualties. The figure for World War I was 23 per cent and was 11 per cent for the Korean War.

The American soldier today, said Cooke, "is better able to withstand the stress" than earlier generations.

He said the U. S. soldier in Vietnam is more aware, more sophisticated and better educated than the average World War II fighting man and thus is more stable under combat conditions.

A set limit to the length of a combat tour of duty and the rapid and expert handling of the wounded has given the modern U. S. warrior a higher morale, also.

After World War II, he said, medical men recommended that open-ended combat assignments be replaced with a set schedule for out-of-combat rotation.

The Vietnam combat tour is limited to 12 months, he said, and it has helped to cut down disciplinary problems, mental illness and casualties.

Unpopularity of the Vietnam conflict back home has little effect on the men doing the fighting, he said, because "a soldier for a long period of time, out of necessity, walls off thoughts about a whole lot of things. He can't be preoccupied."

HUP, HUP, HO, MO — Santa was on a float in a Chamber of Comerce parade in Parma, Ohio, and stepped in — as Donald C. Iredell of North Royalton, Ohio, for roll call of the 350th Psychological Operations Co. also marching in the suburban Cleveland parade. (AP Wirephoto)

Oilmen Break 2 More Records

By MAX B. SKELTON
AP Oil Writer

HOUSTON (AP) — Two more domestic petroleum industry records have been broken.

Early December crude production has boosted the nation's total 1967 output beyond the record 3.038 billion barrels produced in 1966.

The amount of crude oil processed at domestic refineries reached an all-time high of 10,268,000 million barrels the week ending Dec. 1.

The production record results from a healthy increase in domestic demand and a sharp three-month buildup to supply Western Europe and Great Brian during the Israeli-Arab war.

The processing record is a seasonal matter resulting from the industry's bolstering heating oil inventories in anticipation of heavy winter demand. The 1966 high of 9,757,000 barrels a day also was set in December.

The new refining mark erases the previous 1967 high of 10,178,000 barrels a day set the week of Sept. 8.

Latest crude production figures place the early December output at 9,030,000 barrels compared to the all-time high of 9,434,310 barrels a day set in the final days of the Middle East emergency buildup the final week in August.

The rate at which the emergency's peak production is being cutback is being checked very closely. State conservation officials have warned repeatedly that mistakes surrounding a rapid cutback after a similar 1956-57 Middle East crisis must not be repeated.

During the recent June-August crisis, domestic production was increased about 940,000 barrels a day. So far, the cutback has dropped the average daily flow by about 400,000 barrels.

By contrast, the buildup 10 years ago boosted daily output by only 837,000 barrels a day but, after the reopening of the Suez Canal, production rate was slashed 1,598,000 barrels a day before reaching its low point in mid-1958.

The 1957-1958 problems were blamed primarily on a world surplus of crude and too much foreign oil being shipped to the United States. The Interior Department's mandatory oil imports program became effective in early 1958.

So far, there is indication the mistakes of 10 years ago can be avoided.

Domestic demand has maintained its growth pace and is expected to continue the trend in 1968. Also, holders of import quotas that were not used during the emergency have had good reason not to try to cash them in at a rapid pace.

Interior Secy. Stewart Udall had indicated holders of the unused 1967 quotas would be permitted to carry them over into 1968. Udall made his decision official Dec. 1 and went a step further, saying the unused quotas not only could be carried into 1968 but into 1969.

The action, he said, was designed to minimize the impact of imports on the domestic industry.

Udall added, however, that it had not been determined whether the unused quotas would fall under the mandatory program's ratio that limits controlled imports east of the Rocky Mountain area to 12.2 per cent of domestic crude production.

This hits a sore spot for some operators, particularly independents. They contend failure to include some imports within the 12.2 ratio amounts to circumvention of the controls program.

Independent operators are spearheading efforts to get Congress to write the ratio into law, current oil import control procedures are established by presidential proclamation.

Singers Due For Sunday Program

The Gloryland Singers of Midland and other groups will present a special program at 3 p. m. Sunday at Norris Chapel, Thirty-fifth Street and Avenue H.

The public is invited to attend.

Nepotism Ban Is Object Of Bill

By ROBERT T. GRAY
Associated Press Writer

WASHINGTON (AP) — Congress is about to pass a delayed-action law prohibiting members from putting relatives on their office payrolls.

The ban against nepotism won't affect the various wives, sons, in-laws and other kin now employed in congressional offices.

But representatives and senators would, under the bill, no longer be able to hire relatives or seek jobs for them elsewhere on the congressional payroll.

An Associated Press survey earlier this year showed more than 50 members of Congress had relatives on their payrolls at the time or had employed them at some period in the previous year.

The antinepotism ban was attached as a rider to a bill to raise postal rates and salaries of federal employes.

The bill appears headed for final congressional passage next week and President Johnson is expected to sign it.

The antinepotism provision applies to the executive and judicial branches of government as well as to Congress.

Officials in any agency with hiring and promoting authority could not put relatives on the agency payroll.

It does not apply to military assignments.

One grass-roots effect will be a ban on hiring of relatives by postmasters, said to be a frequent practice in smaller communities.

At the top levels of government, it bars, for example, a president from appointing a relative to a Cabinet post.

That happened in 1961 when Robert F. Kennedy, now a senator, was named attorney general by his brother, President John F. Kenpedy.

The architects and floor managers of the postal rate-pay bill had no plans for striking at nepotism in the bill.

Congressional leaders have long been cool to such prohibitions.

House Speaker John W. McCormack, commenting on the Associated Press survey, said he did not see that a congressman's putting a relative on his payroll was wrong in itself. The sole question, he said, was whether the person hired was capable and did the job properly.

But Rep. Neal Smith, D-Iowa, didn't agree. He introduced this year, for the fourth consecutive session of Congress, a bill to outlaw nepotism.

TRANSPLANTING OF HEARTS

Medical History Made

By ALTON BLAKESLEE
and
JOHN BARBOUR
AP Science Writers

NEW YORK (AP) — "When you enter the unknown, you feel a particular excitement," said Dr. Christian Barnard.

For him, the unknown was to cut out a man's still beating heart, and replace it with a new human heart.

"I could do nothing else for his heart," he said. "It was so damaged—it was destroyed—and I knew, if he was to live, it would have to be replaced."

Thus in a steady, tenor-pitched voice the lean South African surgeon told of his personal feelings of the history-making operation that gave new life to a 55-year-old grocer only a week ago. The grocer, Louis Washkansky, has taken to his new heart so well that he may return home in three weeks, Dr. Barnard told the Associated Press in a trans-Atlantic telephone interview.

This audacious step was made possible by steady progress in heart surgery and successes in tranplanting other human organs. Medical teams all over the world are on the verge of similar substitutions of human hearts.

Just four days after Barnard and his medical team brought new life to Washkansky, Dr. Adrian Kantrowitz in Brooklyn, N.Y., tried and failed to save the life of a 2½ week old baby boy with the two-day old heart of a dead infant.

"What we want to do essentially is to make one whole infant from two who cannot survive," he said afterwards when he told newsmen he would try again.

Kantrowitz said that it was "more difficult emotionally, and perhaps more difficult technically" working with the infant heart that measured barely 1¾ inches from top to bottom. The adult man's heart is usually the size of a fist.

Yet there were similarities in the two dramatic operations. Both took place in the small hours of the morning, not by choice but by necessity, and both required the coordinated skills of more than a score of doctors, nurses and technicians.

Dr. Barnard, whom everyone calls "professor," recalled the difficult and daring hours in the Groote Schuur Hospital, Cape Town, at the very tip of South Africa.

Ten days before the operation actually took place, the medical team was fully alerted to the chance of a transplant operation. A possible donor had been admitted to the hospital. But just two hours before he died, the doctors discovered by electrocardiogram that his heart, too, had been damaged by disease. It would not be worth the try. They decided to wait.

Then came the fateful Saturday when Denise An Darvall, 25, who operated an accounting machine in a bank, was struck and fatally injured by an automobile. Her father, told there was little chance that his daughter would live, agreed to giving her heart to Washkansky.

But Barnard said, the doctors had not given up on Miss Darvall yet. They kept a watch on the electrical activity of her brain after her death, watched it slowly fail. They watched for five more minutes, and the brain that dies without blood oxygen showed no signs of life. Still, they opened the chest of the young woman and tried to revive her with the heart-lung machine—to no avail. Her life was beyond recall.

Now, they perfused her heart with blood and cooled it to 30 degrees below normal body temperature to keep its tissues alive. They brought it from the room where she had died to the room where Washkansky lived.

Deliberately, at the moment of "particular excitement," Barnard cut out almost all of the living heart of Louis Washkansky, leaving only a bed of upper chamber tissues into which the woman's heart might be connected with more ease. Then with the heart in place, doctors shocked it into action and it began the regular beat of Washkansky's life. The operation took five hours.

"It was very straight forward," Dr. Barnard remembered. "There were no unexpected problems . . We encountered no difficulties . . We didn't have any notion of stopping or reconsidering."

With the coolness of a surgeon long experienced in operating on hearts Dr. Barnard thought that what he was doing that morning might make some local headlines for a few days, but "None of us expected this to make such big news all over the world."

Washkansky is recuperating so well and the South African team has gained such confidence that they plan to repeat the transplantation in another patient perhaps as early as six weeks. They have a man waiting for a new heart—a middle-aged patient with severe heart disease for the last six months.

But first the medical team must be freed of the necessity of watching Washkansky's recovery around the clock, and a proper donor for the second patient must be found.

"We'll just have to feel our way," Dr. Barnard said. The immediate concern is that Washkansky's body may reject his new heart, as the body rejects infections or other foreign invasions. To guard against this, they are giving him Prednisone and Immuran, drugs which suppress the body's immunity response, and at the same time they are watching for signs of rejection—fever, malise, loss of appetite, changes in blood cells and heart activity.

For the first week, Washkansky received X-rays as well as another means of beating down the forces in his body that might reject the heart. For the future, "he may have to remain on the drugs indefinitely," Dr. Barnard said.

There is no concern, Dr. Barnard said, that Washkansky's new heart does not quite fill the cavity left by his old heart, abnormally enlarged by its disease. There is a slight wobble as it beats, but Dr. Barnard said he foresaw no problems in this.

Washkansky will never be completely free. Doctors will have to see him three times a week at least for a time after he is released. They said after the operation that even five or ten years later the heart might be rejected. Washkansky will remain on a kind of medical leash—but the alternative was death.

In the Brooklyn operation at Maimonides Hospital, Kantrowitz and his team cooled the tiny heart to be transplanted down to about sixty degrees below body temperature, just some seven degrees above freezing. It beat for 6½ hours and then failed. Kantrowitz said he did not yet know why.

But even the day before he performed this operation, Kantrowitz told a medical group that human heart transplants will never be a common answer to the epidemic of heart disease. Unless and until heart disease can be prevented, the more logical answer is the mass production of electrically operated, mechanical pumps that can be implanted in human breasts without fears of rejection.

"There are 400,000 persons who are going to die of coronary occlusions (heart attacks) in this country this year," he told fellow doctors. "It's going to be hard to get 400,000 other people to give up their hearts."

Crash Kills First Negro Astronaut

EDWARDS AIR FORCE BASE, Calif. (AP) — Maj. Robert H. Lawrence Jr., America's first Negro astronaut, has been killed in the crash of an F104 Starfighter jet as it landed after a routine training flight.

An Air Force spokesman ncalled him "one of those young bright guys with everything going for him."

Lawrence, 31, was preparing a project for the Defense Department to orbit two men on a space laboratory in 1970.

The Chicago-born Lawrence was the ninth U.S. astronaut to die. The others were assigned to the National Aeronautics and Space Administration. Five died in accidents earlier this year.

The F104, "a missile with a man in it" which travels twice the speed of sound, smashed onto a runway after the flight Friday at Edwards Air Force Base and spurted "a little fire," an Air Force spokesman said.

A second occupant, Maj Harvey J. Royer, was injured. Royer, 36, chief of operations for the Air Force's Aerospace Research Pilot School, was hospitalized with undisclosed injuries.

The Air Force appointed a board of officers to investigate. No other details of the crash were made public.

Lawrence, selected as an astronaut-designee in June, was one of 16 military officers in training for the MOL Project—the Manned Orbiting Laboratory program. The group was made up of 12 Air Force Officers, three Navy men and one Marine.

Lawrence's widow, Barbara, and their 8-year-old son, Tracey, live at the base.

Another Negro pilot, Capt. Edward J. Dwight, was selected as the first Negro to enter the space pilot training program in 1963, but he did not complete the program.

Nixon Urges War On Race 'Injustices'

NEW YORK (AP) — Former Vice President Richard M. Nixon urges new initiatives in the war against racial injustice and says the struggle is more important than the war in Vietnam.

"The war in Asia is a limited one with limited means and limited goals. The war at home is a war for survival of a free society," he says.

Nixon, an unannounced candidate for the 1968 Republican presidential nomination, told a dinner meeting of the National Association of Manufacturers Friday night, "the ultimate testing place of America is America itself."

"If we are divided, if we default on the promises we have made to ourselves, the foundation on which we are attempting to build a better future will crumble," he said.

Nixon said the Negro was the chief victim of urban violence. He added that if the trend toward racial guerrilla warfare continues "the law-abiding Negro—the great quiet majority—will feel most cruelly and unfairly the weight of repression."

A central cause of the violence in the cities, he said, is that "extravagant promises have been made to the Negro. Worse than not keeping a promise is making a promise that cannot be kept."

Snyder Jaycees Plan Projects

The Snyder Jaycees met Friday for their regular meeting, with president Dave Harlin presiding. Invocation was given by John Bollinger with the pledge of allegiance by Jim Johns and creed by Joe Sentell. The minutes of the last regular meeting and the recent board meeting were read and approved.

Jim Johns reported that as a result of the Jaycees "Speak-up" project, a Toastmaster International club has been chartered in Snyder. He said the purpose of the club was to build self confidence and improve public speaking ability. He urged all Jaycees to attend the meetings of the club, and stated that membership is open to all in the community.

Junior McCormick reported on the Jaycees "Shopping Spree" planned for Saturday, Dec. 16. He said $200 had been allocated for the project and children 10 years of age and under from the Snyder schools will be selected to participate.

President Harlin reported the annual Santa Claus calls will be Dec. 18 and 19. Santa's number will be announced at a later date. The Jaycees will also sponsor the annual Christmas Lighting contest this year, with prizes furnished by Texas Electric Service Co. There will be two divisions in the contest — outdoors and religious.

The program, presented by City Councilman Herb Reed, concerned the city sales tax election which has been slated Jan. 9, 1968. Reed stated that the city ad valorem rate of $1.65 has been constant for the last 10 years. He attributed this to good management by city government and officials. He said, however, that projections by the city point toward the need for about $25,000 in the coming two years even though the city is in good shape financially at present.

In response to questions Reed estimated that an estimated $94,640 would be collected by the proposed 1 per cent city sales tax. This estimate is based on the collection of... sales tax. The city tax would be collected in the same manner as the state tax. Reed estimated that if passed, the sales tax could lower the ad valorem tax by 10 cents or more and expressed the belief that the sales tax is a more equal tax than the ad valorem. The same items would be subject to city tax that are now taxed by the state sales tax.

Any registered voter in the city of Snyder will be eligible to vote.

The United States population reached 200 million at about 11 a.m. Nov. 20, 1967.

YOUR BEST CURB AGAINST INFLATION IS

A HOME OF YOUR OWN!

IT'S A PROVEN FACT — Real Estate prices have kept pace with inflation. A home is a good buy today. It will be higher tomorrow. Why wait for real estate prices to get higher and higher? If you are now renting your home . . . chances are you can actually buy and own your own home for less money.

SELECT A BEAUTIFUL BANNER HOME

FHA TODAY!!!

CONSIDER THE FOLLOWING CAREFULLY:

- All FHA owned properties are totally reconditioned and are ready for immediate occupancy.
- There are lovely FHA homes available in all sections of Snyder. All homes are convenient to the best schools — churches — parks — and shopping centers.
- Terms of up to 30 years are available to all purchasers.

NOW IS THE TIME TO INVEST IN YOUR OWN FUTURE!

BUT THAT'S NOT ALL . . . HERE'S THE BEST PART . . . BUY WITH

NO DOWN PAYMENT - ANYONE!

SIMPLY CONTACT ANY

REAL ESTATE BROKER

LEGAL NOTICE

ORDINANCE NO. 354

AN ORDINANCE REPEALING ORDINANCE NO. 225 OF THE CITY OF SNYDER, SCURRY COUNTY, TEXAS; GRANTING TO SNYDER COMMUNITY ANTENNA TELEVISION COMPANY, INC. A FRANCHISE TO OPERATE A COMMUNITY TELEVISION ANTENNA SYSTEM AND TO RECEIVE, AMPLIFY AND DISTRIBUTE TELEVISION SIGNALS AND SIGNALS FOR A CLOSED CIRCUIT CHANNEL WITHIN THE CITY OF SNYDER, TEXAS; GRANTING TO SAID COMPANY THE RIGHT TO USE THE STREETS, ALLEYS, HIGHWAYS AND PUBLIC GROUNDS OF SAID CITY FOR THE PURPOSE OF INSTALLING, MAINTAINING AND OPERATING COMPANY'S POLES, WIRES, TOWERS, TRANSMISSION LINES AND APPURTENANCES THERETO FIXING RATES; PROVIDING FOR ACCEPTANCE BY SAID COMPANY; AND PROVIDING FOR PUBLICATION.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SNYDER, TEXAS:

SECTION 1: There is hereby granted to Snyder Community Antenna Television Company, Inc. hereinafter called Company, the right, privilege and permission for a period of thirty (30) years from the effective date of this franchise to construct, maintain and operate in the present and future streets, avenues, alleys and public grounds and places of the City of Snyder, Texas, and its successors, towers, poles, lines, cables, necessary wiring and other apparatus and appurtenances for the purpose of receiving, amplifying and distributing television signals and signals on a closed circuit channel to its customers within the City and outside the city limits of the City of Snyder, Texas, and to use and occupy such present and future streets, avenues, alleys and public grounds and places for such purposes. The rights herein granted shall not be assigned except by approval of the City Council by ordinance.

SECTION 2: No towers, poles or guy-wires shall be erected by the Company upon any street, avenue, alley or public grounds of the City of Snyder without the express consent of the City of Snyder, and at locations to be approved by said City of Snyder, which consent shall be evidenced by written permit authorized by the City Council. Company shall, at its own expense, move its lines, cables, wiring, towers, poles and other apparatus, to other locations when the City Council, though its officers and employees, may require such change of location for the safety or convenience of said City or other franchise holders, and inhabitants affected thereby.

SECTION 3: All installations made by Company shall be made in good, substantial, safe conditions and maintained in such condition at all times. Company shall make no excavations in the streets, alleys and public places without first procuring a written permit from the City Manager or other authorized representative of the City, and all work of such kind shall be done under the supervision of the City authorities and so as to meet the approval of the City's engineer.

SECTION 4: Company shall comply with all rules and regulations now in force or which may hereafter be put in force with respect to the installation and construction of lines, cables, wiring and other apparatus authorized hereunder to be installed. The right to change and adopt new regulations from time to time is reserved to the City.

SECTION 5: In consideration of the grant of said privilege and franchise by the City and as full payment for the privilege of using and occupying the streets, alleys, highways, easements, public grounds and other public places within the City, and in lieu of any and all other tax or other imposition, assessment, levy, license, rental or charge which the City of Snyder might impose or hereafter be authorized or impowered by law to levy and collect (excepting only the usual general or special ad valorem tax as well as any city sales tax which might subsequently be authorized by law), the Company shall pay to the City of Snyder, Texas, annually and upon the same dates upon which such franchise tax is presently being paid, an amount equivalent to two per cent (2 percent) of the gross revenues received by the Company from the sale of television signals and signals on the closed circuit channel by the said Company to residential, commercial and industrial users of Company's system located in said City during the year next preceding the payment of such gross receipts tax. Provided, however, that should section 3 of article 11.03, Chapter 11, Title 122-A of the Vernon's Annotated Civil Statues be amended during the term hereof as to provide for a change in the per cent of gross receipts hereinabove specified, then this provision relating to such per cent shall be subject to re-negotiation, otherwise this franchise and consent shall remain in full force and effect for the full term thereof.

SECTION 6: Nothing herein contained shall ever be held or construed to confer upon the Company exclusive rights or privileges of any nature whatsoever.

SECTION 7: The City of Snyder shall have the right and privilege, through its auditor or other authorized persons designated by it, to free access to the books and records including substantiating documents of Company, its successors and assigns, for the purpose of ascertaining the gross receipts derived from the distribution and sale of said signal service.

SECTION 8: The Company shall at all times keep its cables and other appurtenances used for transmitting signals shielded in such a manner as to eliminate any interference with signals received by the television sets of private receivers owned by persons not subscribing to Company's service. In the event Company's operations and distribution of television signals causes interference with television sets belonging to any person not subscribing to Company's service, the Company shall immediately take steps to eliminate such interference, and if the Company fails to eliminate such interference, the City of Snyder may cause the same to be eliminated at the expense of the Company, or, in the alternative, the City of Snyder may, after due notice and hearing, revoke this charter for the persistant refusal of the Company to cure defects which are causing such interference.

SECTION 9: The Company shall charge for its services such fees and rates as may be prescribed by the City Council from time to time after due notice and hearing in compliance with law; and, until such time as the charges, fees and rates are changed by such City Council, the Company shall charge the following sums for the services stated:

Connection Fees

Residences (first connection) (each subsequent outlet)	$6.50 15.00
Re-connect after termination for failure to pay monthly charges	2.50
Apartments — if building owner or manager pays entire fee with a single billing (first connection) (additional outlets if single billing no charge	$6.50
Apartments — if each tenant billed separately - same as residential rates.	
Motels — If distribution system furnished by Company (first outlet) Additional outlets — no charge	6.50
Motels — if building owner furnishes own distribution system -(first outlet) Additional outlets — no charge	$6.50
Monthly Charges	
Residences - one outlet	$6.50
All subsequent outlets (irrespective of number) - No Charge	
Apartments — if building owner or manager pays entire fee with single billing (if four or more outlets, first outlet)	$6.50
Each additional outlet (if three or less outlets, each outlet)	3.25 6.50
Apartments — if each tenant is billed separately - Same as residential rates	
Motels — if Company furnishes distribution system, (first outlet) Each additional outlet (with minimum charge of $15.50)	$6.50 1.00
Motels — if building owner furnishes own distribution system (first outlet) Each additional outlet (with minimum charge of $10.50)	6.50 .50

Company may negotiate rates with schools, hospitals, governmental buildings, and other institutions of a like nature. In the event of a disagreement over the reasonableness of the rates to be charged a particular institution or building, the City Council shall, by ordinance, fix the rates to be charged in each case.

SECTION 10: The franchise created herein may be revoked by action of the City Council, after due notice and hearing, in the event Company fails to properly maintain its system and provide good and effective service to its subscribers.

SECTION 11: The rights, privileges, grants and authority herein provided for and herein granted to Company, its successors and assigns, unless sooner forfeited and terminated for causes herein set forth, or other just causes, shall endure and continue for a period of thirty (30) years from and after the effective date hereof.

SECTION 12: This franchise shall become effective sixty (60) days after final passage, provided Company notifies City in writing of its acceptance of all terms and proivsions hereof within such sixty (60) day period. Prior to such effective date, and after final passage, the full text of this ordinance shall be published once each week for four consecutive weeks in the Snyder Daily News, a newspaper of general circulation in the City of Snyder, Texas, and the Snyder Community Antenna Television Company, Inc. shall bear the expense of such publication.

SECTION 13: Ordinance No. 225 is hereby repealed, provided that such repealer shall not take effect until this ordinance No. 354 shall become effective according to the terms and provisions of the next preceding paragraph.

PASSED on first reading October 2, 1967.

PASSED on second reading November 13, 1967.

APPROVED: M. L. Broman
Mayor

ATTEST: K. O. Pitner
City Secretary
