Price Slates Town Hall Meeting Here

Congressman Bob Price has announced that he will be in Wellington for a Townhall Meeting Monday, August 20, at 9:30 a.m.

This will be in Bura Handley Community Center. Congressman Price announced that this is one of a series of non-partisan, open to the public townhall meetings which he will hold during the last half of August. Their purpose is to exchange views and discuss problems facing the citizens, their communities, Texas and the Nation.

Congressman Price has been asked by the Chairman of the House Agriculture Committee to accompany him and other Members of the Committee on an agricultural and industrial inspection tour, August 4-12, of Venezuela, South America. The invitation was made by the Venezuelan Government to the —See #4, page 2

Annual OM Reunion Set For Saturday

The 48th Annual OM Reunion will be held at Lake Hall north of Hollis Saturday, August 18, president J.C. Thomason has announced.

Registration will begin at 10:30 a.m. and visiting will continue through the day.

The noon meal will be catered by Underwoods of Altus, and there will be a charge.

"Everyone interested is invited to attend, and we expect around 150 to be there," Mr. Thomason said.

There will be a short business session, and a program will be presented by residents of Westview Boys Home.

There will be much reminiscing of early days by the reunion group.

Serving with Mr. Thomason this year is Mrs. Raymond (Eunice) Estes, secretary.

Historical Body Designates Marker Site and Name Change

The name of the county's history preservation organization has been changed.

It is now the Collingsworth County Historical Commission, a designation made in accordance with the state body, now the Texas Historical Commission.

Mrs. Clyde Drake, chairman, made the announcement.

Plans have been made for the county commission to meet Sunday, August 19, at Hay Camp Country Club. This will be a dutch treat luncheon, followed by a meeting.

"The 1972 Historical Marker Committee had chosen the old Mill Iron's Hay Camp Headquarters as one of the prime sites where we needed to place a marker. Before this could be done, the state body placed a moratorium on the approval of any additional historical markers.

"Approval is again being given, and we will have the money to do this," said Mrs. Drake.

Those attending the luncheon will be free to come early or stay after lunch, to walk a-

SKYROCKET CHEERLEADERS

These six are the Skyrocket cheerleaders for 1973 season. Recently they returned from the Southern Methodist University Cheerleaders School. At the top of the triangle is Edie Watkins. In the middle row are Debra Long, left, and Karen Jeffrey.

In front are Renee Mitchell, Kim Goforth and Lucy Sullivan. The girls flew from Dallas to Amarillo Airport and earned the money for this by holding car washes and rummage sales.

Post Office to Issue Food Stamps; Dodson Route Moved

Two changes relating to the Wellington Post Office were announced by Postmaster L.B. Bratten this week.

The Post Office will begin issuing food stamps effective with the first issuance notices in September, around the first of the month.

On Saturday, August 18, R.V. Savage, carrier on Route 2, will take on rural Route 1, Dodson, carrying it in conjunction with his present route. There will be no change of address, the patrons on the Dodson route continuing to receive their mail as Route One, Dodson, Texas 79230.

This will be handled just as Route One, Wellington and Route One, Quail are presently cared for by Harold Caldwell.

Mr. Savage will drive Route Two as he now does to the Louis Patterson place at Kelley. He will then travel to Dodson, case the mail, make the delivery on Route One, Dodson, then return to pick up Route Two, Wellington, at the Orville Vaughan place. From that point,

through Rolla and Swearingen, delivery will be approximately one and one-half hours later than at present.

That part of Route Two presently known as the Buck Creek Loop, west of Wellington to the Buck Creek area and westward to the Quail-Memphis highway, will be transferred to Route One, Wellington. Patrons on this area who have received mail from 11:30 to 12:30, will get it between 9:15 and 10:00 a.m. after the change is made.

FOOD STAMPS

Issuance of food stamps by the post office will begin September 1, Mr. Bratten said. This was announced from Washington some months ago, but neither County Judge Zook Thomas or Mr. Bratten had received any instructions until last week.

The north window in the post office lobby, the old money window, will be used for issuing food stamps, each day, between 10:00 a.m. and 3:00 p.m.

Mr. Bratten said that to prevent this from interfering with

mail delivery, it is necessary that groups not stand in the lobby to visit. No extra help will be added to the present post office staff, according to the postmaster.

Interest Runs High in Lions Golf Tournament

Interest is high in the Florida Best Ball Scramble, the Lions Golf Tournament slated for Saturday and Sunday, August 25 and 26, president Jack Neeley reports.

It is the first time this type of golf tournament has been held locally, and a large number of both men and women golfers have indicated they will be playing.

Prizes were announced this week by Noel Overton, tournament chairman.

The four members of the winning team will receive golf bags; the second place team, putters; third place team, one dozen golf balls; and fourth place team, either one-half dozen golf balls or three wood head covers.

To make the game more interesting, there will be a circle around No. 1 hole. A player may attempt to put a ball in this circle off the tee. If he does, a golf ball will be his award. There is a separate small entry fee for this event.

Play will begin at 1:30 p.m. Saturday with a shotgun start, and on Sunday at 1:45 p.m., again with a shotgun start.

Those wishing additional information may contact Mr. Overton at Collingsworth General Hospital or Mr. Neeley at the Wellington State Bank.

Apply for Free School Lunches

Supt. Thayne Amonett has announced that all students who wish to apply for free lunches during the coming school year should come to his office in the high school Thursday or Friday, August 16 or 17.

Applications for free lunches will be given the students at the time of registration on those two days by the principals. These applications should then be brought to Mr. Amonett's office.

Three County Schools to Open 73-74 Terms Monday Morning

The three county schools, Wellington, Quail and Samnorwood, will open their 1973-74 terms Monday, August 20, with classes beginning that day. Wellington students will register Thursday and Friday, August 16 and 17.

Superintendents of the three schools this week announced completed faculties, as well as other plans.

WELLINGTON

Eleven new faculty members have joined the Wellington School System for the coming year, Supt. Thayne Amonett revealed this week as he announced the completed list of teachers.

Some of these were elected within days of the opening of school. These teachers, new to the Wellington Schools, replace some who retired and others who resigned to enter new fields of work or to teach elsewhere.

At the same time, Mr. Amonett reminded that the 1973-74 school term will open Monday, August 20.

Enrollment is expected to reach 700 or more, Mr. Amonett said, up approximately 30 from the number enrolled at the close of school in May. Part of the increase is due to the addition of kindergarten. The large first grade, some 50 to 60 children, will more than offset the unusually small class of 34 graduates at the end of last year.

Buses will run at their regular time for classes to begin at 8:10 a.m., and the cafeteria will be open for Monday.

The faculty list, in addition to Mr. Amonett includes:

High School: E.W. Clement, principal; Mrs. Bob McAlister, Mrs. Clinton Norman, Mrs. Lonnie Roberson, Charles Floyd, Mrs. Bill Wilson, Mrs. Raymond Hodges, Danny Howard, Robert Hicks, Philip Bailey, Rodney Myrick, Mrs. Perry M. Scott, Mrs. Gary Killian, Mrs. Ben Ratliff who is librarian, Head Coach

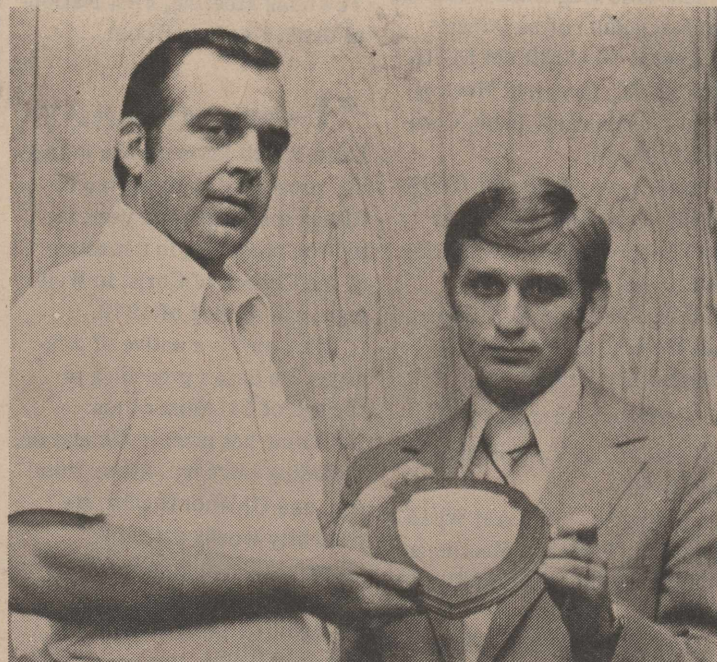

James Williams and Band Director Keith Wood. Mrs. Billy R. Long is with the Eastern Panhandle Co-operative Program (EPCO), assigned to Wellington High School.

Junior High: Dick Hamilton, principal; Mrs. Rufus Sweat, Jerry Dale Gooch, Mrs. Chester White, Mrs. Ralph Word, Mrs. James Williams, and Carroll Nunnelley. Mrs. Dick Pendleton

will be teacher aide for the entire school and Miss Rita Lowrie, now with the EPCO program, will have her office in junior high and will serve the entire school.

Elementary School: Bob Copeland, principal; Mrs. Vernon Peters, Mrs. Sam Thompson, Mrs. Walter Camp, Mrs. Charles Floyd, Mrs. Dan Henard, Mrs.

FOR COMMUNITY SERVICE

Don Welch, left, retiring president of the Collingsworth Chamber of Commerce, is presented a plaque in token of his service to the community. Making the presentation is Dan Hiett, the new president.

Hiett Advanced To C-C President

Dan Hiett was elevated to the presidency of the Collingsworth Chamber of Commerce in a directors meeting Monday night, August 13. He succeeds Don Welch, who resigned that post upon being transferred by his company to Alpine.

A vice president of Wellington State Bank, Mr. Hiett has been serving as vice president. Succeeding him in that office is Garner Altom, administrator of Collingsworth General Hospital.

The directors also approved the chamber's going into the joint program with the Texas

Highway Department to sponsor large sign boards advertising the county and town at three points on Interstate Highway 40.

Shamrock and Wheeler are also in this program. These will be official highway department signs, telling something of the towns and counties, and designed to attract travelers off the interstate and into the designated towns. Wellington and Collingsworth will be featured on three of these bulletin boards, east and west of Shamrock on I-40, and at the intersection of I-40 with State Highway 70,

Only a few tools were missing, the sheriff said. Mr. Brinkley discovered the loss Sunday.

Sheriff Rainey said there are still no leads on the burglary of five business houses and farm buildings that occurred during the last days of July and the first few days of August.

MRS. ORAN WILSON SAIN

Miss Peters, Oran Sain Marry in Trinity Methodist Church Saturday

Wedding vows were repeated by Miss Karon Gwynn Peters and Oran Wilson Sain in Trinity United Methodist Church Saturday, August 11, at four in the afternoon. The officiant was the Reverend C.R. Hankins, pastor.

Parents of the couple are Mr. and Mrs. Richard Henry Peters of Quail and Mr. and Mrs. William Doyle Sain of Dodson.

Altar decorations were two candelabras entwined with ivy, and bouquets of turquoise and ice blue flowers with accents of baby's breath, arranged in white urns. Garlands of ivy were placed along the chancel rail.

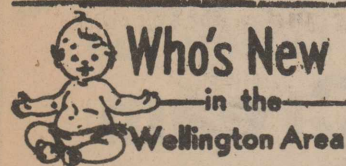

Presenting the wedding music were Miss Becky Sain of Muleshoe, vocalist, who is a cousin of the bridegroom, and Mrs. Billy Wall of Hereford, organist, and an aunt of the bride.

Mr. Peters gave his daughter in marriage.

Her gown of bridal satin was designed with a high neck, short puffed sleeves and an empire bodice accented with ruffles and bridal pearls. The chapel train was attached with a bow at the waistline. Her veil was an illusion capelet which fell from a headpiece of satin petals, sprinkled with seed pearls. She carried a bouquet of white carnations atop a white Bible.

Miss Debbie Sain of Muleshoe, cousin of the bridegroom, was maid of honor. Miss Kathryn Scott was the bridesmaid. Their floor length dresses of turquoise satin were also of empire design and they carried nose-gays of turquoise and ice blue flowers. Their headpieces were of matching petals.

Mr. and Mrs. James Marks, 4601 Hollandale, Wichita Falls, are the parents of a daughter, Angela Lynn, born August 10. She weighed six pounds and four ounces. Mrs. Marks is the former Nancy Sanford. Grandparents are Mr. and Mrs. Jack Sanford and Mr. and Mrs. Jennings Marks of Wichita Falls. Maternal great grandparents are Mr. and Mrs. E.A. Sanford and Mrs. N.A. Burnside, also of Wichita Falls.

Dr. and Mrs. Michael L. Deason of Vidor, both former Wellington residents, are the parents of a daughter, Deanna Kay, born August 1. She weighed eight pounds and six ounces. Mrs. Deason is the former Margaret Rose Sisk. The maternal grandparents are Mrs. Helen Sue Willford of Mesquite and Robert Lee Sisk, Sr. of Marion, Indiana, while Mrs. E.A. Singley is the great grandmother.

Mr. and Mrs. Calvin Hurst and Lyn, and one of his friends, Don Lewis went to El Paso, and Juarez, New Mexico, on vacation. While there they visited with some friends, Mr. and Mrs. Pete Melton.

and Randy Jolley of Gould, Oklahoma, brother and cousin of the groom.

His sister, LuWana Sain of Dodson, and Danny Wischkaemper of Quail lighted the candles. The flower girl and ring bearer were Ada Sain of Dodson and Lloyd Harper of Sacramento, Calif., sister and nephew of the bridegroom.

After the ceremony, Mr. and Mrs. Peters honored the couple with a reception in the fellowship hall of the church.

The bride's table was laid with an ecru lace cloth and appointed with milk glass. The centerpiece was an arrangement of white gladioli and daisies in a low bowl.

Fix-It Tip

Take a good look at metal items that are left outdoors — lawn furniture, toys and forgotten garden tools. If rust has formed on a painted surface, sand down to the bare metal, prime with a rust preventive paint and finish with enamel.

The best way to protect metal items is with wax. Use auto wax since it is designed to withstand weathering. Apply a light film of oil to tools, even those in the basement. Moisture-laden air will rust them.

The spigot at the bottom of the water heater is there to prevent corrosion. Drain a pail or two of water every month, stop when the water runs clear. Never drain the tank completely since the air that gets in will cause faster corroding.

Program, Singing and Visiting Fills Reunion

Former and present residents of three west-central Collingsworth County communities gathered Saturday night and Sunday, August 11 and 12, for their third annual reunion.

There was not only the traditional reunion activities of visiting, taking pictures, reminiscing and eating good home-cooked picnic foods, but there was more than the usual amount of laughter.

Skits — some going back to the years when the reunion visitors were young folks in one or the other of the communities — gave fun to the Saturday night gathering. There were readings, talks, and Sunday afternoon, singing brought back more memories — for no one in Collingsworth ever sang more than the people of these three communities.

In the short business session, the two reunion officers were re-elected: Mrs. R.H. Isbell, president and Raymond Horton, secretary.

Mrs. S.L. Maxwell was honored as the oldest person present. She will be 91 years of age in October and lives in Wellington Nursing Center. Mrs. Maxwell and her family lived in the Salt Fork Community and attended Lillie Baptist Church. She has lived in the county more than 60 years.

IRS Qualifying Exams Slated

Lubbock, — Application forms for the examination which qualifies persons to practice before the Internal Revenue Service (IRS) are now available at the IRS office in Lubbock, Texas at Room 315, Fed. Office Bldg., 1205 Texas Ave., Lubbock, Texas 79401.

The two-day examination is scheduled for September 24 and 25, 1973 and is for tax practitioners who are not attorneys or Certified Public Accountants.

W.T. Coppinger, District Director of the IRS for North Texas, emphasized that the right to represent clients in tax and other matters before the

IRS is limited to persons who meet the highest standards of technical proficiency and ethical conduct.

"The Special Enrollment Examination is not a test to obtain employment," Mr. Coppinger said, "It presents an opportunity each year for those who are not attorneys or CPA's to establish proof of competence. This is required of tax practitioners who seek to acquire enrollment status in order to represent their clients at all levels of procedure before the IRS."

Completed applications, accompanied by a fee of \$25 payable to the IRS, should be mailed by August 31, 1973 to the Director, Audit Division, Internal Revenue Service, Washington, D.C. 20224; Attention: CP-A:C:T-SEE.

To The People Of Wellington

The high cost of material and supplies and new State and Federal laws, such as sanitation, has forced the City to look for additional revenues.

The homestead exemptions for persons over 65 will reduce our taxes by about \$8,000.00 and we must spend approximately \$30,000.00 for a land fill to comply with the State Health Department rules.

We feel that a City sales tax will produce the required income and we can reduce the tax rate on property from \$1.30 to \$1.05.

Without the sales tax it will be necessary to have a tax re-evaluation and raise the tax rate. The city has some reserve funds for emergencies and these funds are being used for capital improvements.

We believe the sales tax is the fairest tax and it will furnish the necessary money for a continued sound operation of the city.

Changes Apparent as Schools Open for 1973-74 Year Monday

Next Monday, approximately 900 boys and girls return to the schoolroom, and the county million and a half dollar educational enterprise gets under way. Beyond doubt, this is one of the most valuable and most influential of all county institutions.

Not in recent years have there been so many changes in the schools. The three schools, Wellington, Quail and Samnorwood, have faculty, administrative staff and aides totaling 71. Approximately one-fifth of these are new to their systems this year—the largest number of new teachers the county has had at the beginning of school in many years. Some of these are home town people—others come to us from a number of other cities.

New to our schools also are several programs. Kindergarten is now mandatory under state law. Many states have had kindergarten programs for years. The Eastern Panhandle Co-operative Program offers help to students needing assistance in a variety of ways. This is a pilot program incorporating some of the newest instructional methods.

New also to Wellington High School is a vocational home economics program, in which girls are able to work as well as attend classes.

All of these, as well as other programs, are aimed at giving our students an education that will help them meet their future needs.

Service Record Bares Need

For four decades the United States Employment Service, through the Texas Employment Commission and its affiliates in the other states, has worked to be a place where people looking for jobs can get them and employers looking for workers can find them.

The result has been 400 million job placements—42,000 for each working day since 1933, in this nation.

The Texas Employment Commission is more than a labor exchange today. It tries to anticipate change and to prepare for it. That is why it tells job-seekers about new occupations, why it trains and re-trains workers for the available jobs, why it uses computer technology to speed up placements, and why it keeps employers informed of labor market changes.

The Employment Service is certainly not the only job-finding organization in this nation. People also find jobs through their own individual channels. Private employment agencies abound. Nevertheless, 42,000 job placements each working day prove there is a need for a public employment service.—Wichita Falls Record News.

The Road to Higher Education

AUSTIN, Tex. — Rewriting the nearly-century-old Texas constitution is turning out to be stickier job than many figured.

The Constitutional Revision Commission went into overtime at a recent threeday meeting near here, but still failed to complete its agenda and slated another August 10-11 cleanup meeting.

Meanwhile, legislative planners for the 1974 Constitutional Convention, at which lawmakers will actually propose a revised constitution, disagreed on routine stage-setting.

House members suggested a new voting machine (which was later ordered) and new desks for delegates. Senate planning committee spokesmen indicated they would be satisfied to bring their own desks over from across the capitol rotunda and set them up in the House middle aisle.

The revision panel agreed: * To keep the provision for real property taxation in the constitution for state purposes, but leave it to the legislature to write separate laws governing personal property taxation.

* To retain the state highway users gasoline tax, with three-fourths of the revenue earmarked for highway building and one-fourth for public schools. A provision was made for abolishing the highway fund levy on statewide referendum with support of two-thirds of the legislature.

* To keep the Permanent University Fund and Permanent School funds in the constitution. The university fund would be altered somewhat to include present and future branches of the University of Texas and Texas A&M University.

* To add to the constitution a guarantee of "equitable" financial support for all schools and districts rich and poor.

* To retain as constitutional elected members of the executive branch only the governor, lieutenant governor and attorney general, with the legislature empowered to decide if the comptroller, treasurer, secretary of state, land commissioner and railroad commission should be elected or appointed by the governor.

"HOUSES" CLOSED — Two landmark bawdy houses — in La Grange and Sealy — were closed by local officials on request of state officials.

Gov. Dolph Briscoe, Atty. Gen. John Hill and Department of Public Safety Director Wilson E. Speir sought action after reports aired by a Houston television station.

Briscoe acknowledged he had received calls from La Grange area citizens both supporting and opposing the action. He said he had been told he would be petitioned by a group who want the famed "Chicken Ranch" reopened.

Hill and Speir said they found no link with organized crime in operation of the houses, but Attorney General Hill added: "It's an illegal operation. The local officials were requested to take action. They took it."

RATE RAISE EXPECTED — An increase in some workmen's compensation insurance rates is due under a new law increasing benefits for those injured or killed in job accidents.

An average 19.5 per cent hike in the rates employers must pay for the coverage is anticipated under a State Insurance Board staff proposal, which would become effective if approved between September 1 and September 15.

Rates would have gone up 22.8 per cent in the absence of the federal anti-inflation program, a Board actuary indicated.

Rural People Develop Own Quality of Life

Rural and small town people are increasingly turning to the development of their community or area as a way of making possible otherwise unattainable quality characteristics in their everyday life.

"And with State and local people in the drivers seat, a Federal action program is being launched to help them make the most of what development has to offer." That from Will Erwin, U.S. Assistant Secretary of Agriculture for Rural Development.

Speaking before the first nationwide school for rural development leaders, Erwin said, "This is New Federalism. It means helping people help themselves. Assistance will be largely in the form of self-liquidating loans and providing technical practical know-how."

"Putting action in the Federal rural development program was made possible by passage of the Rural Development Act of 1972. This landmark legislation, recommended by President Nixon, gives Federal recognition to the fact that the well-being of rural America requires more than adequate farm income."

"Rural development is aimed at enriching the quality of life

in rural America, and an indirect result is increasing the tax and job base of an area. It stimulates the economy and otherwise makes possible activities, services and facilities which contribute to 'the full good life'.

"One great advantage of countryside development is curbing the continuing widespread family-scattering which occurs when rural people must migrate to distant cities in search of work. Such scattering has involved over 25 million rural Americans since World War II. And this has sapped at the vitality of community and family ties and has weakened the benefits of neighborhood togetherness."

"Rural development", Erwin continued, "involves four categories - community facilities, economic development, people building, and improvement of the environment."

August Social Security Checks Due September 1

Social Security checks for August will be delivered on September 1 this year, which is "unusually early," according to Travis Briggs Social Security District Manager in Amarillo.

"Checks for a given month are usually delivered on the 3rd of the following month," Briggs said. "When the 3rd falls on a day mail isn't delivered - a Sunday or a national holiday - the checks are usually delivered a day ahead, the 2nd of the month."

"This year September 2nd is a Sunday and September 3rd is Labor Day; so social security checks will be delivered on Saturday the 1st. It doesn't happen very often," he said.

Social security pays over \$4 billion a month in retirement, disability, and survivor benefits to almost 29 million people.

Mr. and Mrs. Joe Lennon will teach during the coming year in the Arnett Schools, he said this week. They and their son have already moved back.

Last year, Mr. and Mrs. Lennon taught at Needville, 45 miles from Houston.

At Arnett, she will teach first and second grades, while he will teach music, physical education and possibly social studies.

Spanish Shipwrecks Studied Off Texas

PORT MANSFIELD - The second summer of underwater surveying and recovery of the 16th-century Spanish shipwrecks which lie off Padre Island began June 10 under the sponsorship of the Texas Antiquities Committee, it was announced by Dr. Fred Wendorf, chairman of the committee.

The effort is a continuation of the first scientifically conducted investigation of these wrecks, which are believed to have foundered in a storm off the Gulf Coast about 1554. They are of particular scientific importance in that they represent the earliest verified shipwrecks discovered to date in the Western Hemisphere.

Carl Clausen, state underwater archeologist with the Texas State Historical Survey Committee, will supervise this summer's project; he also headed last summer's effort.

In speaking of the activities being carried out this summer, Wendorf said that a 15-day survey using a proton magnetometer (an electronic sensing device for finding various components of shipwrecks) is planned, along with 30 full days of underwater excavation.

The archeological team plans to complete last year's investigation of a small wreck from the Spanish fleet and then move to another site believed to be part of the same fleet. They will also investigate, under a National Park Service grant, an additional Spanish ship thought to be from the fleet. The project is expected to end in late August.

Port Mansfield on the South Texas coast is serving as home base for the crew, which will work in a six-square-mile area located north of the Port Mansfield Cut, off Padre Island.

The work is being carried out by approximately seven persons under contract to the Texas Antiquities Committee and 13 students enrolled in a nine-week field course in underwater archeology which is being offered by the University of Texas at Austin.

The University of Texas at Austin, the Marine Science Institute at Port Aransas, the Marine Biomedical Institute, and the University of Texas Medical Branch at Galveston are also aiding the project in various ways. The project is the only team effort in underwater archeology offered in the United States.

All Fiddling Contests Point to Big One Here

By Mrs. Bill King

July was a busy month in our fiddling world, as well as in our cotton farming world.

We missed some very good contests such as the one in Bowie, but we played hooky from the cotton field and went to the Fiddle Contest there.

We had a very good time and met up with some good friends, such as the Ollie Millers of Jayton and the Bartow Rileys of Childress, also the Glen Wardlows of Hale Center and the Doris Vinyards of Shamrock were there.

The winners of that contest were Bill King and Bartow Riley, who tied for first place, so they took first and second money and divided it equally between them. Ray David won third place.

Everyone was too busy for a fiddle party, so we all just went home and were back at work the next day.

Our next contest was at Childress on the 21st of July and it could be called a star-studded day, for some very good fiddlers came up from Fort Worth, and Wichita Falls. For us, the hit of the show was a lovely young girl from Amarillo playing the wildest fiddle! Her

name was Karen Smith and we asked her to come to Wellington on Sept. 8, as our special attraction. I know everyone will be anxious to see and hear her.

The winners in this contest were Norman Soloman, first; Ace Sewell, second; Dale Morris third; Claude Maloch, fourth; Shorty Loter, fifth; Bill King, sixth; Jay Horton, seventh; Walt Edney, eighth; Glen Hopkins, 9th and Jim Lewis, tenth.

After the contest, most of the fiddlers met in the Bartow Riley home for much food and fiddling.

We really heard some wonderful twin fiddling by Dale Morris and Norman Soloman. Dale won fourth place in the big Grand Masters Fiddle Contest in Nashville in June.

A lot of the top fiddlers have promised to come to the Wellington Contest and we will have more news about it later, but from here everything looks just great!

Veterans Due Dental Care

Many veterans are unaware of the fact that they may be eligible for dental care at Government expense after they are released from the Armed Forces. This announcement was made today by J.R. Bowen, Veterans Service Officer for Collingsworth County.

Under the current Veterans Administration dental care program, a veteran qualifies for one episode of dental care, provided he applies to the VA within one year following discharge or release from military service.

"One episode" for this purpose means the veteran may receive a dental program only once, sufficient to correct all cavities and other dental defects revealed by the dental examination.

Dental care for eligible veterans may be authorized and paid by the Veterans Administration, and may be rendered by a private dentist in the veteran's home town. An exception might be the veteran who lives within easy commuting distance of a VA dental clinic, in which case

Tire Safety Group Pledges Education Drive

Washington, D.C. - The new Chairman of the Tire Industry Safety Council, Malcolm R. Lovell, Jr., has pledged an all-out campaign to bring the facts of tire care and safety home to the nation's 118 million registered auto drivers.

the work would be done by a VA dentist.

When a veteran is discharged or released from military service, and he finds that dental care is needed, he should report to his local Service Officer and file an application with the VA. If he is found to be eligible, the Veterans Administration will authorize the necessary examination and treatment. The veteran should not obligate himself for any dental care expense, since the Veterans Administration will pay for any service which is authorized.

Dental care at VA expense is generally available, without any time limit, for former prisoners of war. The Government may also provide care when a dental condition is aggravating a service-connected medical disability.

"We want to make sure that everyone who drives a car knows how to get the most safety and mileage out of its tires," said Mr. Lovell.

"A recent study by the General Accounting Office showed that tires themselves don't cause many accidents," Mr. Lovell pointed out. "So, along with continued industry attention to maintaining our record on safety, consumer education in the proper care and maintenance of tires becomes increasingly important."

Mr. Lovell, President of the Rubber Manufacturers Association, was installed as Chairman of the Tire Industry Safety Council on July 1. He succeeded Ross R. Ormsby, who retired as Chairman of the Council of RMA.

"Ross Ormsby helped found the Council, and got it off to a good start," said Mr. Lovell. "We are going to make it even more effective in the future with an expanded communications program."

The new program will include regional meetings with news media representatives, special material for driver education classes and service station personnel, public service announcements on tire safety for television stations, and news releases on tire safety subjects.

Reeves Visit World's Largest Space Exhibit

TRANQUILITY BASE, HUNTSVILLE, ALABAMA. Mr. and Mrs. W.C. Reeves of Wellington, visited the world's largest space exhibit during a recent trip to Huntsville, Alabama.

The Alabama Space and Rocket Center is designed to let the visitor be the astronaut. The Center contains many educational exhibits that permit involvement in rocketry and space travel.

The Reeves viewed space-ships used by astronauts, saw a full-size moon rocket close-up, and walked on a simulated moon crater. They snacked on space food, fired a rocket engine, operated a lunar landing computer, and viewed a futuristic space station mock-up.

The Alabama Space and Rocket Center features the world's largest collection of rockets, missiles and space vehicles. The Center is located five miles west of Huntsville, Alabama, on Highway 20, and is open to the public every day.

ial was in Plymouth Cemetery. Mr. Seymour was a Baptist.

DPS Applicants Now Recruited

The Texas Department of Public Safety is actively recruiting applicants to fill the ranks of its uniformed services. Major C.W. Bell, Regional Commander of the DPS, announced that the training school for new uniformed law enforcement personnel will begin September 25, 1973.

The Major noted that the DPS has been increasingly successful in recruiting persons from minority groups to these positions and said efforts in this direction will continue.

Also in keeping with the current trend, female applicants will be considered for these rewarding careers in law enforcement.

Major Bell said general qualifications for DPS officers are these: applicants must be 20 through 35 years of age; height not less than 68 inches; weight not less than two pounds per inch of height; visual acuity of 20/40 correctable to 20/20; and a minimum of 45 semester hours of college credit.

Applications may be obtained by contacting any DPS employee or any DPS office. The completed application form should be taken to offices in Lubbock, Amarillo or Wichita Falls where the competitive examination is given each Tuesday and Wednesday at 9:00 AM.

Major Bell said persons selected as cadets will be assigned to Austin for training at the DPS Academy. The salary during training will be \$625.00 per month. Upon being commissioned the salary is raised to \$719.00 monthly with the opportunity to advance to \$848.00 per

month.

Uniformed personnel receive additional longevity pay for each five years of service to 25 years. They are also granted a monthly uniform cleaning allowance, and receive travel expenses when away from their station.

Uniforms, vehicles, weapons, ammunition and related equipment are furnished. Group life and hospitalization are paid for the employee and dependent coverage is available at reasonable rates. Officers participate in the Employees Retirement System of Texas as well as Social Security. Vacation, holidays and sick leave are as provided for all State employees.

Successful graduates will be assigned to the Highway Patrol, License and Weight Service, Motor Vehicle Inspection Service, or Drivers License Service, according to the needs of the DPS and consideration of personal preference.

All officers are eligible to compete for promotions after two years of service. Experienced uniformed DPS personnel interested in criminal investigation may apply for appointment to positions in the Criminal Law Enforcement Division, which includes Narcotics, Intelligence, Motor Vehicle Theft and Texas Ranger services as vacancies occur.

Arrangements will be made for a physical examination. A character investigation will be conducted and those persons who are accepted for employment will be notified prior to the beginning of the September recruit school.

Integrated Cattle Feeding Profitable

An integrated system for feeding cattle could mean quite a bit more money in the cattle-man's pocket, according to Dr. Donald Farris and Ed Williams of the Texas Agricultural Experiment Station.

The more common open market system sometimes results in higher marketing costs per head and more stress caused by transfers - resulting in

weight loss and some cases of sickness and death, the Texas A&M University System researchers said.

The integrated system, in which the whole process from the weaning age calf to slaughtering is pre-arranged, lowers marketing costs and cuts down on the transfers and resulting losses. The idea is to plan and organize for minimizing stress

Reunion Held Here and at Mobeetie Brings Together Jones Family

Children of the late Mr. and Mrs. John E. Jones of Wheeler County, gathered for two reunions, one held at Mobeetie recently and the other at the Heritage Room Sunday, August 5.

Between the two gatherings, six of the seven living children attended.

Food Prices to Continue High in Months Ahead

AUSTIN - Whether we like it or not, all signs point to a continuation of food prices at present levels or even increasing levels in the months ahead. The era of "cheap food" apparently is gone for the foreseeable future.

In the meantime, there are several things consumers can do to assist themselves in getting the most for their food dollars. Texas Department of Agriculture home economists recommend the following:

1. Do not resort to panic buying. Revert to your normal buying habits. Food supplies are plentiful. One of the biggest problems now is that consumers are rushing out and buying everything in sight. Hoarding only aggravates the situation. The law of supply and demand is working in relation to food supplies. Right now, demand is outstripping supplies. As a result, prices are continuing to increase.

2. Shop around; look for the best bargains. Read the grocery advertisements carefully in your local newspaper. Compare prices and values. Make out your shopping list in advance, giving top priority to basic needs. Get the best price possible by comparison pricing in your newspaper advertisements; then decide what you can spend for luxury items.

3. Use the cost per serving comparison rather than the cost per pound. Determine which is the best buy. Boneless meat which is all edible is certainly a better buy if prices per serving are considered.

4. Get a copy of the Texas Department of Agriculture's bulletin, "Save on Your Beef Dollars." Information in the bulletin will explain to you what "grade" means, what "yield" means, and how to choose bargain beef. Write to John C. White, Commissioner, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

5. Do not "buy up" commodities that cannot be kept indefinitely. Bacon, for example, can be kept only about a week.

6. If you live in a rural area, check with some of the vegetable farmers about buying directly from him. Freezing fresh produce is not difficult if you follow directions. Write for the booklet, "Freezing and Canning Texas Agricultural Products," from the Texas Department of Agriculture address above.

Bill, Kelly, and Dennis Howard of Mobeetie and Darryl Vernon of Wellington, recently visited one week with their grandparents, Mr. and Mrs. W.A. Gollighugh of Quail.

Entertaining here Sunday were one of the daughters, Mrs. Ray Turner, and her niece, Mrs. Richard Fourmentin.

The day was spent visiting, reminiscing, and hearing about family happenings.

Entertaining the earlier reunion was Mrs. Frank Risner of Mobeetie, also a daughter. This event was held at her home.

Other relatives present were Mr. and Mrs. Richard Fourmentin, Mark and Patricia; Mrs. Donna Garst, Butch, Jan and Teresa of Amarillo; Mr. and Mrs. Charles Risner, William and Sue of Perryton; Bobby Risner of Mobeetie;

Mrs. Sue Harris Tracy of Magadore, Ohio; Mr. and Mrs. Frank Fourmentin; Mr. and Mrs. Dwight Jones and Kasaura of Shamrock; and Troy Jones of Amarillo.

The only one of the brothers and sisters unable to attend were the Rev. and Mrs. Earl Jones of Westville, Oklahoma.

The six children and their immediate families attending one or the other of the reunions included Mr. and Mrs. Bill Jones and Sandy of Peoria, Ill.; Mr. and Mrs. Gilbert Jones of Oklahoma City; Mr. and Mrs. Ray Turner; Harold Jones of Wheeler; and Mr. and Mrs. Billy C. Mills, Allen, Judy and Mike, of Hampton, Virginia; and Mr. and Mrs. Frank Risner of Mobeetie;

Services Held For Mrs. Begert

Mrs. Josephine Begert of Allison, who lived here for many years, died in a nursing home in Sayre, Oklahoma, about 9:00 p.m. Saturday, August 11. She had been critically ill about three months.

Mrs. Begert was the former Hattie Josephine Fourmentin, daughter of the late Mr. and Mrs. Henry Fourmentin. She was born at Altus October 25, 1906, and came here with her family while still a small child.

She lived here until the 1940s when she was married to Bill Begert of Allison. She had lived there since that time. Mr. Begert preceded her in death in January 1971. She was a member of Allison United Methodist Church.

Funeral services were conducted at the Allison School Auditorium Monday, at 2:30 p.m. with the Rev. Ross Dunn of Wheeler and the Rev. Frank Matthews of Dalhart officiating. Burial was in Zybach Cemetery. Richard Fourmentin, a nephew, was among the casket bearers.

Survivors include a son, Hiram Begert of Allison; a daughter, Mrs. Virginia Puryear of Kennewick, Washington; a brother, Frank Fourmentin of Wellington; three sisters, Mrs. M.L. James of Wellington, Mrs. J.R. Yell of Dumas and Mrs. J.E. Bowen of Plainview; 8 grandchildren and two great grandchildren. A son, Ace Winders, preceded her in death.

Going from here were Mr. and Mrs. Richard Fourmentin, Mr. and Mrs. Frank Fourmentin, Mr. and Mrs. M.L. James, Mr. and Mrs. Bob Barton, Mrs. Billy Wilkerson, Mrs. Hubert Bowen, King Bowen, Mrs. Melvin Seale, Mr. and Mrs. Robert Posey and Mr. and Mrs. Frank Falk.

and time in the market channel.

The potential advantage of the integrated system, Farris and Williams found, came to \$9 to \$11 per head in savings during 1966-70. About half of that was saved marketing costs.

They developed estimates for several types of cattle. The standard was a choice steer evaluated from 350 to 1050 pound weights.

The greatest savings came from calves weaned at a light weight. The smaller animals are more sensitive to stress - giving the integrated system the advantage.

Savings for heavy weaned calves ready to move directly to the feedlot were only one-third as much, they said.

Integrated systems in cattle operations are only a small part of the total business but appear to be becoming more popular, said the professor and former research assistant in the Department of Agricultural Economics and Rural Sociology. Not all producers can take advantage of this, but to the extent the industry can design its business to reduce stress and transfer charges, costs can be reduced.

Complete details of the study will be available the first of the year as a Texas Agricultural Experiment Station bulletin.

Deck's DIDACTICS

—by Deskins Wells

WHAT COULD be the most spectacular comet of this century is on its way. It is Comet Kohoutex which will be visible to the naked eye as early as December 28 of this year and will reach its greatest brilliance by Jan. 15 and will continue to be visible for another month after that.

THIS IS a show that you should see more than once; for it will be 10,000 before any member of the so-called human race will have an opportunity of seeing it again provided any eye of any kind beholds it. Comets have a way of disappearing either by departure or disintegration. Sometimes they wear out just like people.

ONCE there was a comet named Biela's Comet. Comets are named after the astronomers who discover them. It was observed frequently in the 18th and 19th centuries; but in 1846 it split apart. The two halves traveled along a parallel course 150 million miles apart. By 1852 both halves returned to this solar system; but in those six years they were traveling more than a million miles apart. This comet has not been seen since.

HALEY'S Comet is the one I remember as it came into view in 1910. First it was seen in the west and preachers predicted the end of the world, which my mother said was nonsense. She also said that it would be seen for days in the west and for a briefer time in the east. That is the way it happened. It was a magnificent sight and all of us in our family sat out and watched for hours. Scientists say the tail reached out 90 million miles.

COMET Kohoutex is supposed to be a greater display than Halley's Comet. The best time to see it will be between Jan. 10 and Jan. 15 when the full moon will have waned.

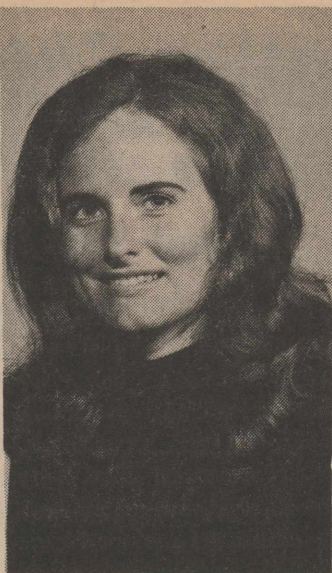

IN THE middle of August we have the best prospects for bountiful yields of cotton and maize that this region has known in years. And the present price for each of these commodities is fantastic. People are going about their work with their fingers crossed hoping that the present prices will hold good until they can sell their grain and their cotton.

TAKE a drive in any direction from Wellington if you want to see beautiful fields of cotton and maize. Be sure to take a little time to travel over some of the dirt roads. The grass in the pastures is still green. Many years the grassland is a dull yellow by this time of the year. Get out and enjoy the countryside for it looks different in 1973.

AS SUMMER nears its close children have a longing to hold back the end. The care-free days of sunlight and flowers, swimming and hiking, moonlight and laughter, have a way of coming to an end all too soon. Next Monday these young vibrant people will enter the classrooms for what is to them an entirely different way of life.

FOR the child entering the Kindergarten or the first grade, this change can be a traumatic event or it can be a happy opening to new horizons. What happens to the child depends so much on the teacher and the parents. If either fails, it can be sad for the child and if both fail it can be tragic.

MY HEART goes out to the teachers and the pupils as the school year begins.

it was pointed out. It encompasses a wide range of objectives and programs.

The overall purpose of the committee's work is the development of local history as a scholarly resource and a tourist attraction.

"County survey commissions work with local historians, county commissioners courts, and tourist-related organizations to insure the preservation of history for future generations of Texas," said County Judge Zook Thomas in appointing the members earlier this year.

Mrs. Drake reminded that county historical commissions are being urged to take the lead in setting up plans for the nation's bicentennial in 1976, which will also be the centennial year for those counties in this area created out of the original Bexar and Young Counties. Collingsworth is one of these.

Members of the commission are Mrs. Drake, chairman; Mr. Drake, co-chairman; Mr. and Mrs. Bobo Castleberry, Mr. and Mrs. Bob McAlister, Mr. and Mrs. B.M. Sims, Mr. and Mrs. John Holton, Mr. and Mrs. Jack Sanford, Mr. and Mrs. James Sullivan, Mr. and Mrs. Dalton Vaughan,
