Portales Post Office Made Record Stamp Sale on Dec. 21st

On Saturday, Dec. 21 the Portales post office made a record of the largest day of stamp sales in the history of the office.

The stamp sales for this day amounted to \$131.93.

The business of the postoffice has been exceptionally good throughout the holidays, and the force has been taxed to the limit to handle the Christmas business.

The great increase in the mailing of Christmas cards, was partly responsible for the exceptionally good business this season.

Christmas week the following was the outgoing sacks of parcel post from the Portales post office.

Thursday 19th, 59; Friday 20th, 58 sacks; Saturday 21st, 76 sacks. Parcel post received on Thursday, 19th, 69 sacks; Friday 20th, 86 sacks; Saturday 21st, 94 sacks; Sunday 22nd, 96 sacks.

From the above figures, it appears that old Santa Claus was on his job and many Portales people had full stockings Christmas morning.

That Santa Claus still had Portales in mind was demonstrated on Mon. Dec. 23 when 117 sacks of parcel post mail was unloaded at the Portales post office.

To All Gold

Star Mothers

WASHINGTON, Dec. 31.—All Gold Star Mothers in New Mexico, who desire to visit the battle fields of France, Belgium and England where their hero dead are buried, are requested to communicate with Senator Sam G. Bratton, at the earliest possible date. The trip will be starting next year to the American cemeteries in Europe. By act of Congress all widows who have not remarried and gold star mothers are entitled to make the pilgrimage at the expense of the government.

On receipt of the letter the Senator will send the applicant the necessary information and blanks that must be filled and returned to him. Reports coming from the state indicate that a large number of the gold star mothers will journey to the final resting places of their loved ones.

Bratton Favors Veterans Act

WASHINGTON, D. C.—Commenting on the various measures contemplated to extend the present clause for tuberculosis in the Veterans Act, Senator Sam G. Bratton, recently stated that he was heartily in accord with the movement. He added however that there was some question at this time as to what time limit should be set in the matter in order to grant World War veterans, who have contracted tuberculosis since their discharge, the greatest amount of good.

The present bill sets the time limit on tuberculosis cases at January 1st, 1925. This has been proven inadequate inasmuch as there are thousands of veterans who have contracted the malady since that time. In most cases the direct cause was traced to the effects of the war. Under existing regulations these veterans are not entitled to government compensation.

It is understood that Senator Bratton will make a thorough study of the problem and will probably confer with Veterans Bureau officials to determine the time limit that should be set in this instance. He stated emphatically that he was in sympathy with the movement and would give it his support. The sole question in the Senator's mind being the date which would take in all of these tubercular cases.

Harry K. Shields' Voice is Silent

The tens of thousands who have delighted in the marvelous voice and spontaneous good nature of Harry K. Shields, will be shocked to read the following telegram: "Winslow, Ariz., Dec. 13. H. K. Shields died today. Burial not set. R. M. Hensley."

Bro. Shields had given up his work in evangelistic meetings, and had taken up the ministry with the church at Winslow. His friends were aware that for several years he had been experiencing some trouble with his heart and blood pressure. His exuberant spirit was deceiving to many for he suffered two breakdowns in recent years concerning his passing.

He leaves, besides his wife, three children in their late teens, and a brother. To all of these there will go out the tender affection and sympathy of a great brotherhood, so many thousands of whom have been thrilled by his robust singing of that song of confidence, "There Is No Death," that they will sing it with the faith that we shall all hear his voice and enjoy his buoyant spirit again. Our confidence is in Him of whom Harry so often sang, "His eye is on the sparrow, and I know He cares for me."—Christian Standard.

For several months an agitation has been brewing that has for its object the straightening out of the Texico-Clovis highway, in order to eliminate two bad features, the dangerous underpass where the highway crosses from the north to the south side of the Santa Fe right of way, the Prince street crossing in Clovis, which is also a danger point and where traffic delays are the general rule from two to a half dozen times each day.

Proponents of the highway straightening plan would bring the road down the north side of the right-of-way, from the underpass turn, directly into the city of Clovis, shortening the route by approximately one and one-half miles and eliminating all railroad crossings.

From Clovis these plans propose to route traffic west along highway 77 to Airport City, thence south through Portales, shortening the route some three or four miles between Clovis and the Roosevelt county seat.

In referring to the latter route, men who have studied the scheme, point out that it would also take tourist traffic through some of the best farming country in both Curry and Roosevelt counties. As the road now runs through one of the poorest sections of Roosevelt—the sandhills—it is possible that the proposed highway to the west would gain considerable support at the south end.

That the new plans will meet favor in Clovis is taken for granted, as the present routing carries 50 per cent tourist traffic past the city, turning off at the corner where the two highways branch, one mile south of the city—Clovis Evening News-Journal.

Portales has discussed the above proposed change of the highway in the past week or so, and there is an united objection to such a change. Portales has no objection to Clovis bringing the highway from Texico on the north side of the track, but when it comes to carrying it west to the air port and then south to Portales through the sand hills, Portales is "agin it."

From a point of economy, this route would be very expensive to the state, and to secure Federal aid on such a project, the cost of the present highway would be deducted from the Federal aid.

If Clovis insists on such a route then Portales should also insist on Highway 366 being shortened by following the old Santa Fe right of way from the county line direct to Texico. This would mean a shorter route by several miles.

Then again to come south from the air port would make two railway crossings necessary, where one now exists.

It looks to the News as if Clovis is trying to hog the right of way and leave Portales out in the cold, but on the other hand as 366 is the shortest route to California, the Carlsbad Caverns, and other points of interest in the southern part of the state, the highway department will doubtless be in favor of the shortest route, instead of adding several miles of expensive structure through the sand hills.

The News believes that Clovis and Portales should get together and work for their mutual interests. Instead of for projects that would be a serious injury to either of the towns.

The crossing at Clovis is dangerous, and as the Santa Fe railway has built their line across this highway, the logical thing of them to do is to build an underpass to make traffic safe.

PORTALES A GOOD PLACE TO TRADE

The buying public has found that Portales is a good place to do their trading.

The increase in the Christmas business over the past years demonstrated that the buying public could get what they wanted and at prices that were right, from the Portales merchants.

The farmers have also found that they can get better prices for their farm products in Portales than in any section of the state.

This condition should tend to develop the town and also the farming industry of the county.

There is no better section in the west in which to run a farm than in Roosevelt county.

The lands are productive and readily respond to the efforts of the farmer who makes a business of his farming.

VERY FEW DRUNKS REPORTED
There were very few drunks reported in Portales during Christmas week, but these few made life miserable for all.

In some instances serious accidents were narrowly averted, where intoxicated drivers and pedestrians were running at large. Christmas is no time to make a hog of yourself, and now, that 1930 has dawned, it is to be hoped that every citizen will include in their New Year's resolutions, the resolve that they will not patronize or sanction the patronage of the bootlegger. That they will do all in their power to assist the officers in putting down this traffic.

SEASON OF FARM SALES

This is the season of the year when there are many farm sales. A number of these will be found in this issue of the News, and in these sales are being offered some real choice dairy stock.

Those interested in dairying are advised to watch the News, and attend these sales.

The dairying industry is now the biggest industry in Roosevelt county, and by adding to your herd, pure bred cattle of record production, you can greatly increase your cream profits.

If you have a cow that is a non-producer, then this cow should be

fattened and go the the butcher. It costs no more to feed a producer than to feed the boarder.

THE POULTRY SHOW
The Eastern New Mexico Poultry Show is now a matter of history, but the results will be felt for years to come. It has been demonstrated that the poultrymen of Eastern New Mexico, can compete with those from any section.

Better breeds of poultry, will bring the poultrymen better prices. Breeds that produce eggs in the winter months, when the price is at the highest peak, will return a profit greater than from those which lay in the summer only.

There is still room in Roosevelt county for many more flocks of poultry, and if these flocks are of the better type, the poultrymen will be returned a real profit from their flocks.

A HIGHWAY PATROL NEEDED

The increase of automobile accidents on the Portales-Clovis highway, reminds one that a highway patrol will soon be necessary.

There is possibly more accidents on this stretch of road than any highway in the state.

The grade is entirely too narrow, and the motorist travels at too high a speed for safety.

Road hogs crowd others into the ditch, and in many instances cars are found parked on the highway without lights, sometimes too near the center of the grade to permit others to pass.

Then again, the regulation requiring both lights to be burning is ignored.

In going to Clovis one night in the past year, the writer passed 35 cars running with only one light.

A motor cycle patrol would make this highway safer for the traveling public.

Game Warden Says "Kill a Few Does"

SANTA FE.—An open season on does in some sections of the state was favored by state game warden Edgar Perry here recently, as a result of a study which he has completed of the number of deer in the state.

"There can, however, be no remedy for overstocked conditions at present or next season," Mr. Perry said, "because only the legislature has the right to declare an open season."

The latest compilation, including reports from 2,923 hunters reduces the percentage to 77 out of every 100 hunters who got a buck. Mr. Perry said "the rate, however, is sufficiently high to classify New Mexico as a happy hunting ground."

The kill was listed as follows: white tail 211; muledeer 1,844; turkey 198; squirrel 6.

The game seen was reported as: Bucks 14,566; does, 53,429; fawns 12,943; turkey 4,112. The ratio of fawns to does of 1 to 4.90 is too small, Mr. Perry said.

Mr. and Mrs. Geo. Beaty, of Roswell visited Mr. and Mrs. J. O. Beaty, their parents, during the holidays.

Mrs. Virgil Reed, Nanna Rhea are visiting Mr. and Mrs. C. L. and Rex, of Napton, Washington, Height.

Arthur C. Woodburn Announces for county School superintendent

In announcing my candidacy for Superintendent of Schools of Roosevelt County subject to the action of the Democratic Primaries, I do so with the knowledge of the heavy responsibility of that important office.

Roosevelt County has been my home since 1902. I began teaching school in West Texas. After teaching several years in Texas I married and came to New Mexico,

where I have resided. My home is in the Bethel community eight miles northwest of Portales. For the past fifteen years I have been closely identified with the schools of Roosevelt county, as teacher in the Floyd and Portales schools. Also other sections of the county. I am very much interested in the public schools of our county, not only as a teacher in the county, but also as a patron. My children attend the Portales schools. I am also interested in the financing of our schools, since I am a tax payer and realize what it means to support our public schools. I am a high school graduate, with several years training in Normal schools of Texas, and New Mexico. I have had a varied experience in the teaching profession from the one room school to the principal of grade schools; also principal of high schools. At present I am principal of the Pleasant Valley school eight miles southeast of Elida.

I believe in progressive schools maintained efficiently with the least possible cost to the tax payers and should I be selected as your next County School Superintendent, I will give my best efforts to deal fairly with each community and strive for the continuance of the upbuilding of the schools of Roosevelt county. I will appreciate your support and influence.

Arthur C. Woodburn. New Bodies But No Mechanical Change in Ford

A showing of new bodies for the Model A Ford, each one of which will soon be available in a variety of new colors, was announced today by P. E. Jordan, local Ford dealer.

Emphasis was placed on the fact that the car is unchanged mechanically; that nearly 3,000,000 Model A type Fords are now on the highways proving that they are thoroughly dependable.

The policy of the Ford Motor Company in this respect has been to make minor alterations whenever a new device has shown itself worthy to be included in the mechanical plan of the car, but not to bring out a new car as a whole.

Beautiful New Bodies
"The new body types will have a distinctly refreshing appearance," said Mr. Jordan. "They have all the beauty and charm of contour, line and proportion usually associated with the large cars."

"As one looks at them, the first thing that catches the eye is the new radiator. Still retaining the Ford individuality, it is high and narrow, and in excellent style. This with the higher and longer hood and the shorter cowl, give the front of the car a distinctly new and pleasing appearance, to which an added touch of brightness comes from the finish strip at the junction of the hood and cowl."

"Moulding treatment is new and the fenders are of more generous dimensions, flowing with the lines of the car."

Fenders Are Fuller
"The fenders, much fuller than heretofore, contribute a great deal to the improved appearance of the car. Higher at the front, with high crown and sweeping well down over the wheels, the new front fenders flow back in graceful curves to the running boards. The rear fenders, which also have high crowns, sweep down over the rear wheels to a point lower than formerly."

"The head lamps, set higher on a new arched tie rod, also contribute to better appearance."

"A new atmosphere of stability is produced by the smaller steel spoke wheels and larger tires which bring the bodies closer to the ground, resulting in a lower center of gravity and consequently increased safety on the road, especially in rounding turns at high speed. Riding quality also is improved."

"The most notable changes in the body types have been made in the Tudor Sedan, the Coupes and the open cars."

The Northeastern zone of the New Mexico District N. Y. P. S. met with the Portales Church December 28, 29. The Clovis, Chaves, La Lande, Tucuman and Portales churches were well represented. Our hearts were stirred to be loyal to the great cause. Her message was enjoyed by all present.

At the eleven o'clock hour of the 29th, we had the privilege of listening to a great message which was delivered by Rev. Miss Leona Forbes, pastor of the Merkel Texas church. Just after the morning service we enjoyed an old fashion dinner in the basement of the church. Service again opened at 2 p. m. after a good rousing devotional service conducted by Rev. D. A. Davis pastor of the La Lande church, district president Rev. Mrs. W. A. Henry efficiently conducted the business session of the convention.

Rev. A. K. Scott, District Superintendent of the New Mexico District brought the closing message Sunday evening. His theme was the wonderful Christ. We were made to feel that He is truly wonderful. We also had in this convention the privilege of listening to many good papers read on important subjects, and several good special songs for which we thank God.

We do thank God for His presence with us and for the good things we enjoyed in this convention. We are sure that we, the young people have had our vision enlarged, our faith inspired, and our hearts encouraged to do more for the advancement of the cause of Christ.

LOSE CAR BY FIRE
On Thursday night, Mr. and Mrs. E. B. Hill were awakened by the loud honking of the horn on their car. Upon looking out they saw that the car which was sitting beside the house was all aflame. A short in the wiring probably caused the fire. The car was almost completely destroyed.

Mrs. J. G. Greaves and her mother, Mrs. J. B. King and Miss Elizabeth Greaves, drove to Elida Saturday and were guests of Mr. and Mrs. J. R. Miller for dinner. Other guests were Mr. and Mrs. Henry Miller and two sons of Lamasa, Mrs. Frank King and two daughters, of Big Springs, Miss Rosalie Lindfred and the Messrs. Lott. In the afternoon Mrs. Justin Click came over and they all spent a most pleasant afternoon visiting and recalling old times.

More Mothers each year - treat COLDS EXTERNALLY

When Vicks VapoRub was introduced, mothers especially were quick to appreciate it, because it is just rubbed on and cannot upset children's delicate stomachs, as "dosing" is so apt to do. Of course it is equally good for adults.

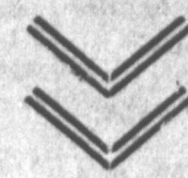

Today, the whole trend of medical practice is away from needless "dosing," and the demand for Vicks has grown until it is necessary to again raise the figures in the famous slogan. There are now "Over 26 Million Jars Used Yearly."

VICKS VAPORUB

Misses Branom and Paddock returned from a delightful vacation at home.

Mr. M. T. Stout and Mr. Burleson went to Carlsbad Sunday on business.

"The morning after the night before."

Here I lie upon the bed,
Throat so dry, and throbbing head
Blood-shot eyes and body sore
The morning after the night before.

Can eat nothing, got no pep,
Lost my money, lost my rep.
Can't get up, I feel so bad,
Boy! what a wonderful time I had.
Never felt so bad before
When my darned old tongue is sore
When I sneeze I still taste gin,
Gosh, what a party it must have been.

Can't remember where I went,
Don't know where the time was spent,
But how what a time it must have been,
Because look what a hellava fix I'm in.

EARLY DETECTION OF TB AIDS IN ITS ERADICATION

Post-mortem examinations are often regarded as the final word in determining the presence of disease in animals, although such examinations are valuable, the tuberculin test used in the eradication of bovine tuberculosis, is actually more reliable than the customary post-mortem for determining the presence of tuberculosis, according to Dr. John R. Mohler, chief of the Bureau of Animal Industry, United States Department of Agriculture.

"The tuberculin test indicates the presence of the disease but does not show the progress which the infection has made within the body. Doctor Mohler states, "Hence in the early stages of the disease it is entirely possible for an animal which is actually infected with tuberculosis to show no visible signs on either ante-mortem or post-mortem examination."

"Tuberculin is a product prepared by sterilizing, filtering, and concentrating the liquid upon which the tubercle bacilli have been allowed to grow. It contains the sterile product of the growth of the germs, but not the germs themselves. When properly used it can have no possible injurious effect on healthy cattle. Tuberculin commonly used in livestock in the United States as made under

Government supervision, which assures its purity and potency.

The results obtained thus far in systematic tuberculin testing show the effectiveness of this means for eliminating infected animals. During the last 12 years more than 1,500,000 tuberculous cattle have been removed from herds in the United States and more than 2,000,000 herds have been freed of the disease.

CHRISTIAN CHURCH TREE AND PROGRAM

On Tuesday evening, December 24th, the members of the Christian church and Sunday school gathered for their tree and program. The program rendered by the Junior Endeavors, was very good and the tree resplendent with tinsel.

Brother Lorts was very much pleased with the black Baptismal Robe which the Senior Endeavors and his Sunday school class instructed old Santa to leave on the tree for him.

The Junior Endeavors gave Mrs. Lorts a beautiful cake knife.

The Ladies Aid gave her a set of waffle irons and him a lovely wrist watch.

These gifts express the appreciation of the givers and are a token of the high esteem in which Brother and Sister Lorts are held. After Santa had distributed the gifts and treats he departed until next Christmas eve.

M. E. TREE AND PROGRAM

On Christmas eve, amid the soft lights of red, green, blue and white thrown from the machine above, was enacted once again the sacred Christmas pageant by the primary and junior departments.

The program, though short was quite good and after a few remarks by Rev. Sowell, old Santa came in to distribute the presents, placed beneath the glittering and beautifully decorated tree. Quite a bit of merriment was created in the distributing of the treats, which were generously provided.

ORPHANS HOME NEWS
 The children of the home had
 one of the happiest Christmas
 times in the history of the home.
 Immediately following the tree
 at the Baptist church, the 36 chil-
 dren with a number of friends
 gathered to enjoy a short program
 and a well loaded tree. After a
 prayer by Rev. Ball, Mr. W. B.
 Oldham, who had charge of the
 ceremonies, introduced a number
 of the children to the guests.

Dr. Owen made a short but in-
 teresting talk and the opening of
 the packages created a great deal
 of happiness. Every child in the
 home now has a society or indi-
 vidual that helps to care for that
 child's needs and each child got
 to open and enjoy his own pack-
 age this year. Many nice gifts
 came to the home and the chil-
 dren were made very happy by
 them. The board provided sweets
 for each child and it was indeed
 one big, happy family on Christ-
 mas eve. Mrs. Oldham, who had
 been ill in bed with flu and pneu-
 monia for a week, at the chil-
 dren's request, ventured to
 come in for the hour. Ruby Cooley,
 who is attending Montezuma Col-
 lege as the protegee of Mrs. Gib-
 son, was at home.

The church of Clovis sent each
 child a silver dollar to spend as
 he pleased for Christmas, and how
 they did enjoy the spending.

Mr. Markham and son, of Lov-
 ington, came up one day and
 brought six fine turkeys as a gift
 from that community.

Mr. R. L. Yoachum sent out
 two nice boxes of oranges and one
 of apples for Christmas.

Both children and friends of the
 Home regret to see Mr. and Mrs.
 Oldham leave as it has been a
 happy time there during their
 stay.

Mr. and Mrs. W. B. Oldham are
 with the children for a few days
 until the new managers take charge.

All good wishes for a Happy New
 Year at the Home and for those
 who helped to make the Home pos-
 sible.

FIRST METHODIST CHURCH
 Thomas B. Sowell, Pastor

The last Sunday of the year is
 past and a great throng made their
 way to the Portales to hear Rev.
 Sowell.

Next Sunday the first Sunday of
 1930 and a good time for all to
 go to church, so start the year
 in the best possible way.

A wonderful treat for all who
 come to the Methodist church
 Sunday. Brother Carter will preach
 his annual birthday sermon, he will
 be 97 years old, surely every per-
 son who can get out at all will
 want to hear this good man.

The pastor will be in charge of
 the service and will preach the
 evening sermon.

Do not forget that Sunday school
 begins at 9:45, try to be on time.

A warm welcome, and that good
 old time hospitality, will be worth
 while. Come with your family and
 bring your friends.
