THURSDAY

Americans Give Thanks Through Veil Of Grief

By The Associated Press

Americans throughout the world gave thanks through a veil of grief this Thanksgiving Day. President Kennedy's death appeared to have given deeper meaning to an observance uniquely American.

Christians and Jews pray together in many services.

President Kennedy's Thanksgiving Day proclamation, issued before his death, was to be read in many churches.

Most public celebrations were canceled and Thanksgiving became essentially a family day.

President Johnson, addressing a joint session of Congress on Thanksgiving eve, urged the nation to "resolve that John Fitzgerald Kennedy did not live or die—in vain. As we gather together in the Lord's blessing, and give him our thanks, let us unite in those familiar and cherished words:

"America, America,
"God shed his grace on thee,
"And crown thy good
"With brotherhood
"From sea to shining sea."
Kennedy's widow flies from Washington to Hyannis Port, Mass., with her two children for the traditional Thanksgiving reunion of the Kennedy family.

President Johnson, his wife and their two daughters planned to attend Thanksgiving Day services at a Methodist church in the capital. The Johnsons will have Thanksgiving dinner at home in Washington.

At 6:15 p.m., Johnson will deliver a nationwide radio-television address described as a personal Thanksgiving message from the President to the American people.

At their home, the new President and his family have Thanksgiving dinner. Navy Ensign Bernard Rosebach, fiancé of daughter Lynda Bird, is expected to join the First Family.

Johnson had a general discussion "in terms of the friendship between Cambodia and the United States."

Mrs. Jacqueline Kennedy and Atty. Gen. Robert F. Kennedy spent about 15 minutes with Johnson.

Assistant White House press secretary Malcolm Kilduff said the President's widow came primarily to thank Johnson for his "many kindnesses and courtesies."

Kilduff said Johnson and the attorney general talked about the problems that face the new administration.

THANKSGIVING BREAKFAST was served this morning by the Snyder Jaycees to well over 100 persons who attended the annual Thanksgiving worship service sponsored by the Snyder Ministerial Alliance and the Jaycees. Dr. A. B. Lightfoot gave the Thanksgiving Day message.

Summit Meet Said Possible

By LEWIS GULICK
Associated Press Diplomatic Affairs Writer

WASHINGTON (AP)—A Western summit meeting in the early part of next year remains a possibility.

High U.S. sources noted that North Atlantic Treaty Organization meetings include gatherings by government heads from time to time, and that four of the five big NATO powers—the United States, Britain, West Germany and Italy—recently have had changes at the top.

President Johnson has tentative agreements for talks with French President Charles de Gaulle, British Prime Minister Alec Douglas-Home and West German Chancellor Ludwig Erhard early in 1964.

Precise arrangements for these meetings have yet to be worked out. One alternative is to have the leaders meet as a group. This possibility could be discussed at the NATO foreign ministers meeting starting in Paris Dec. 16.

Proposals for such a top-level party have not yet come under active consideration, U.S. sources said. Johnson first has much domestic business to tend to.

Further in the future is being met between Johnson and Soviet Premier Khrushchev, U.S. sources believe that Khrushchev, like the U.S. leadership, is inclined against a summit conference without preparatory work and conditions likely to

make the meeting fruitful. In the U.S. opinion, such circumstances do not exist now.

Anastas I. Mikoyan, Soviet first deputy premier who was Khrushchev's representative at the funeral of John F. Kennedy, was reported not to have mentioned the subject of a Johnson-Khrushchev meeting nor pressed other business during his talks here with Johnson and Secretary of State Dean Rusk.

HARVEY SHULER

H. F. Shuler Dies; Rites Set Friday

Funeral services will be held at 2:30 p.m. Friday for Harvey Franklin Shuler, 74, of 2201 Avenue M.

Mr. Shuler, whose boyhood ambition was to be a cowboy, spent his life as a banker and civil servant. He died at 8:15 p.m. Wednesday at the Hogan-Malone Hospital in Big Spring. Born Nov. 19, 1889 in Kosciusko, Miss., he came to Texas as a child in October, 1897. His family stopped first in Waco, but in November, 1898, they came to Scurry County. The trip was made in a covered wagon.

On July 16, 1912, Mr. Shuler was married to the former Miss Lottie Putman here. Mrs. Shuler survives.

Also surviving are a daughter, Mrs. Jack Wright, one sister, Mrs. Lyman Wren of Snyder; a son, Henry of Ruidoso, N. M., Holly and Edgar, both of Snyder.

Mr. Shuler attended school here at Draught's Business College. In 1917-18 and 1922-23 he was city secretary-treasurer here.

As a banker, Mr. Shuler served as a bookkeeper, teller and assistant cashier. He was employed at the First National Bank, the First State Bank, and finally, Snyder National Bank. He retired from Snyder National in 1956.

From 1945 to 1950 Mr. Shuler was postmaster in Snyder, retiring when he felt the work became too demanding during the hectic boom days of Snyder.

The funeral services will be held at the First Baptist Church where Mr. Shuler had served as a deacon and as superintendent of the Sunday School for many years.

Conducting the services will be The Rev. C. F. Ferguson of Lubbock, a former pastor of the church here, and Dr. A. B. Lightfoot, present pastor of the church. Burial will be in Snyder cemetery under the direction of Bolger Funeral Home.

Palbearers will be Cecil Borden, Rex Robinson, Jessie King, J. P. Nelson, James Stewart and Garth Austin. Honorary palbearers will be the board of deacons and the men's Bible class of the First Baptist Church.

Air Strike Scheduled

WASHINGTON (AP)—A strike that could tie up one-fourth of the nation's holiday air passenger traffic is scheduled against United Air Lines a week before Christmas.

There are no more procedures under the law for settling the dispute with the AFL-CIO International Association of Machinists, an airline spokesman said.

"They can negotiate," said a union spokesman after the machinists rejected a presidential emergency board's recommendations and set a strike for 12:01 a.m., Dec. 1.

The airline accepted the presidential board's report on the dispute.

The board recommended pay increases of 36 cents an hour over a 43-month period for most United employees and 30 cents for the others. Journeymen mechanics average \$13.10 an hour, the airline said. The union is asking a 39-cent increase over three years.

United carries about 25 percent of the nation's air passenger traffic on its 87 jets and 151 propeller craft, the spokesman said.

The airline serves every major area of the country except the Southwest.

The spokesman said the strike if called would shut down all United flights.

California Family Has True Reason For Thankfulness

By DIAL TORGERSON

BAKERSFIELD, Calif. (AP)—"She's so pink, so well! Her face is like a light, a shining light. So pink!"

This, today, is what Carolyn Deborah Gable alive 9 1/2 years—all her life—and started baking the pumpkin pie for Debbie's first real Thanksgiving.

Wednesday night they wheeled away the oxygen tank that kept Debbie's heart from stopping.

Last Thanksgiving the Gable family planned to visit relatives at Yosemite—but the excitement strained Debbie's heart so badly she spent the holiday in bed, her tiny face nuzzled in the oxygen mask.

"Her face was truly blue—not just bluish, but a dark blue," said Mrs. Gable. "Her lips and gums were black. Her eyes were shot through with dark blue veins."

A month ago she was near death. Her blood had thickened. She needed oxygen most of the time. Once the fire department resuscitator squad barely saved her life.

Debbie's trouble was that the great vessels of her heart—the aorta and the pulmonary arteries—were transposed. Only a fraction of the oxygenated blood she needed was pulsing through her body.

Her mother and father, Chance Gable, general foreman on a railroad, took her to a Hollywood hospital, where a physician told them of a new procedure for correcting the problem—and

Centaur Launch Paves Moon Path

By HOWARD BENEDICT

CAPE CANAVERAL, Fla. (AP)—America's path to the moon appears smoother as a result of the first successful launching of the high-energy Atlas-Centaur program Wednesday with a flawless performance on the booster's second development flight.

The Centaur second stage engines burn liquid hydrogen—and for the first time this powerful propellant was ignited in space.

The two Centaur engines, with total thrust of 30,000 pounds, functioned 380 seconds and shot the spent upper stage into an earth orbit.

The Centaur proved that liquid hydrogen—a tricky fluid which must be maintained at 423 degrees below zero—is practical as a rocket fuel. It produces 40 per cent more punch than conventional chemical rocket fuels.

The National Aeronautics and Space Administration has committed itself to liquid hydrogen for the upper stages of large space boosters, including the Saturn 5 rocket which is to launch the first three-man Project Apollo team toward the moon late in this decade.

Atlas-Centaur will pave the way for the manned lunar landings. It is the only large U.S. rocket that will be ready in time to carry the unmanned Project Surveyor spacecraft to the moon to help select landing sites and to determine what dangers await the astronauts.

Wednesday's success buoyed hopes of officials planning to launch a Saturn 1 rocket on its first two-stage development flight in mid-December. The second stage is powered by six Pratt-Whitney hydrogen engines identical to those flown on the Centaur stage.

The Saturn 1, forerunner of the Saturn 5 moon rocket, will attempt to hoist the world's job.

Search On For Kidnaped US Officer

By PAUL FINCH

CARACAS, Venezuela (AP)—FALN—telephoned newspapers for a U.S. Army officer kidnaped by persons identifying themselves as pro-Castro terrorists. All exits from the Venezuelan capital were blocked.

Persons who said they were members of the outlawed Armed Forces for National Liberation—FALN—telephoned newspapers that Lt. Col. James K. Chenault, 47, Sherman, Tex., would be released Saturday afternoon, on the eve of Venezuela's presidential election.

Chenault, deputy chief of the U.S. Army mission in Venezuela, was abducted by four armed teen-agers Wednesday, as he was about to enter his car outside his home in the capital.

Two hours later, the U.S. Embassy received a call from a man who said he was a FALN member.

"We just want him for propaganda purposes," he said. "We are not going to harm him."

The FALN has been waging a campaign of propaganda and terror to bring down the government of anti-Castro President Romulo Betancourt and disrupt Sunday's presidential election in which Betancourt's candidate is expected to win.

It was Chenault's second personal encounter with the FALN. He and his son, James K. Jr., 16, were at the U.S. Military mission's headquarters last June 5 when eight terrorists invaded the building and burned it out. Neither was harmed.

The government announced special security measures for all members of foreign military missions. The United States has more than 70 officers and men in Army, Air Force, Navy and Marine training missions in Venezuela.

Johnson's Condition Excellent

WASHINGTON (AP)—"You can give Lyndon Johnson a clean bill of health. His heart is in excellent condition," says Dr. George W. Calver, official physician to members of Congress.

Calver said he gave Johnson a complete physical examination within the last six or eight weeks—including an electrocardiogram test.

The then vice president was found to be in excellent shape, the physician said in a telephone interview. He is in Florida.

Johnson suffered a heart attack in 1955.

"I'd bet that Lyndon Johnson is as good a health risk as anyone you could get hold of, considering his age and everything," Calver said. "And by everything I mean the stress that the man has been subjected to."

When she came out of the operating room her face was already getting a little pink," said Mrs. Gable. "But there was a blockage in a blood vessel that kept the circulation from correcting itself immediately.

"Then, six days after the surgery, the blockage disappeared, and I doubt it."

By stress Calver referred to Johnson's 32 years in Congress, camping in the hospital—and many of them as a key member you could see the color just to and to his nearly three years as changing in front of your eyes.

"In just a few hours, she was, all pink, so well," said Mrs. Gable. "and that the odds were one in 100,000 that she would survive the operation."

The doctors transposed the veins on her heart to match the aorta and the pulmonary artery—an operation devised by Swedish surgeon Ake Senning.

"When she came out of the operating room her face was already getting a little pink," said Mrs. Gable. "But there was a blockage in a blood vessel that kept the circulation from correcting itself immediately.

"Then, six days after the surgery, the blockage disappeared, and I doubt it."

By stress Calver referred to Johnson's 32 years in Congress, camping in the hospital—and many of them as a key member you could see the color just to and to his nearly three years as changing in front of your eyes.

"In just a few hours, she was, all pink, so well," said Mrs. Gable. "and that the odds were one in 100,000 that she would survive the operation."

The doctors transposed the veins on her heart to match the aorta and the pulmonary artery—an operation devised by Swedish surgeon Ake Senning.

"When she came out of the operating room her face was already getting a little pink," said Mrs. Gable. "But there was a blockage in a blood vessel that kept the circulation from correcting itself immediately.

"Then, six days after the surgery, the blockage disappeared, and I doubt it."

PIONEER PROGRAM—The Halliburton Ladies Club met Tuesday evening at the Snyder Savings and Loan community room for their regular meeting. A group of the ladies were in pioneer costumes for their Thank-

giving program. Pictured above from left, front row: Janette Brown, Barbara Tune, Gail Myers and Oletha O'Neal. Second row, Charlene Shockley, Helen Allen, Glenda Glasscock, Ruth Bookout and Sue Hart.

Let Honey Flow Into Your Holiday Cookery

The happy confusion, the delightful aroma and the wonderful treats of holiday baking have returned. Traditional recipes for holiday goodies come out of the file and elaborate, new creations are tried. Cookie making becomes a party affair when all members of the family take part in mixing, rolling and cutting and even your youngest will be content for hours if his own cookie cutter and given a piece of dough.

Perhaps your family has used honey in Christmas baking for generations. If not, you might start the tradition this year. Honey adds a marvelous flavor to cookie and cake batters; a sparkling glaze to fruit cakes, cookies and roasts; and a freshness which lasts and lasts to a longer. Work with a small quantity of the chilled dough at a time, leaving remaining dough in refrigerator. Roll dough to 1/2-inch thickness. Cut with Christmas cookie cutters. Place on greased cookie sheet. Combine egg whites and water. Brush surface of cookies. Sprinkle sugar and cinnamon; sprinkle on surface of cookies. Bake in a 375 de. F. (moderate) oven 8 to 10 minutes. Immediately loosen from pan. When cool, decorate as desired. Makes 6 dozen cookies.

PECAN BUTTERBALLS
1 cup butter
1/2 cup honey
2 cups sifted flour
1/2 teaspoon salt
2 teaspoons vanilla extract
2 cups finely-chopped pecans
Cream butter, add honey gradually; add flour, salt and vanilla. Mix well and add chopped nuts. Form into very small balls on a greased baking sheet and bake in a moderate oven (300 de. F.) for 40 to 45 minutes. Roll in powdered sugar while still hot. Cool, roll again

HONEY LACE WAFERS
1/2 cup cake flour
1/2 teaspoon double-acting baking powder

1/4 cup honey
2 tablespoons sugar
1/4 cup butter
1/2 cup shredded coconut, cut
1 1/2 teaspoons grated orange rind

Sift flour once, measure, add baking powder and soda, and sift again. Combine honey, sugar, and butter in saucepan. Bring to a full boil and cook 1 minute. Remove from heat. Add sifted dry ingredients; then add coconut and orange rind and mix well. Drop by 1/2 teaspoon on greased baking sheet. (Bake only 6 at a time for ease in handling cookies.) Bake in moderate oven (350 de. F.) 8 to 10 minutes. Remove each wafer carefully from baking sheet while still warm and roll quickly over handle of wooden spoon. Place on rack

Pour orange- and rum-flavored sugar syrup over slices of fruitcake and top with scoops of vanilla ice cream. Devastatingly rich, but good!

GLAZED CHRISTMAS COOKIES

2 cups sifted all-purpose flour
1 teaspoon baking soda
1 teaspoon salt
1/2 cup butter or margarine
1 teaspoon vanilla extract
1/2 teaspoon almond extract
2-3 cup honey
1 egg, well beaten
1/4 cup vinegar
1/2 cup finely-cut mixed candied peel
1/2 cup finely-cut red or green glacé cherries
1/2 cup finely-cut shredded coconut
1 egg white, slightly beaten
Red sugar sand
Split, blanched almonds

Mr. Erwin Speaks To H-D Club

Tri-Community Home Demonstration Club met Friday morning in the community room of Snyder Savings and Loan with six members present.

Plans were made for the club Christmas party to be held Dec. 13 and a Thanksgiving supper which was held Nov. 25 at the Union community center.

A council Christmas party will be held Dec. 11 at the community room of Snyder Savings and Loan. The council county tour will be Dec. 6 from 9 a.m. to 2:30 p.m. The tour will visit places of interest in the county.

Mr. Jim Erwin, visiting teacher for Snyder Public Schools presented the program. He explained some of the tests used in our schools. He said in part: "The tests are used to find out if a child's ability to learn. How fast he learns and what he has learned. Standardized tests are used. These are prepared and printed by a publishing company. The research for such tests is also done by the publishing company."

"Intelligence tests help a teacher to know how fast to expect a child to learn and his capacity to learn. Achievement tests show how much he has learned. With achievement test results, schools can be compared to other schools."

Our Snyder schools are above average on achievement in these comparisons of what children have learned.

In sifted dry ingredients gradually: blend well. Mix in candied peel, cherries, and coconut. Chill dough several hours or overnight. Shape one-quarter of dough at a time, leaving remaining dough in refrigerator. Shape into balls 3/4 inches in diameter. Place 2 inches apart on greased cookie sheet. Grease the bottom of a 2-inch diameter glass tumbler, then dip in flour. Press cookies with greased and floured tumbler, dipping tumbler in flour as needed. Brush surface of cookies with slightly-beaten egg white; sprinkle with red sugar. Arrange split blanched almond in flower-petal pattern on each. Bake in a 375 de. F. (moderate) oven about 12 minutes. Remove from pan immediately. Makes about 6 dozen cookies.

China Grove News

By MRS. N. F. HALL

Recent guests of Mr. and Mrs. T. J. Webb were Mr. and Mrs. Ivan Bezeley of Snyder and Tommy Lee Cotton of Buford.

Don Hairston of the University of Texas is visiting his parents, Mr. and Mrs. Bill Hairston.

Mr. and Mrs. Billy Ray and Kathy of Midland recently visited Mr. and Mrs. O. N. Laster.

Mrs. J. D. Hall of Happy is visiting Mr. and Mrs. N. F. Hall and Donna.

Mr. and Mrs. Lucky Market of Colorado City recently visited Mr. and Mrs. Floyd W. Merkel.

Howard Cox of Colorado City accompanied by N. F. Hall recently visited in Maleshoo.

Mr. and Mrs. T. H. Webb visited Mr. and Mrs. Whit Farmer of Ira Thursday night.

Miss Sharon Harlow of Thompson Ranch near Colorado City visited Miss Pearlene Mize and Miss Donna Hall over the weekend.

Tommy Lee Cotton is recovering from a broken arm. The accident occurred recently at school when he fell from a slide.

Refreshments were served and games were played.

Inadale 4-H Club Meeting

The Inadale 4-H Club held its regular meeting recently at the Inadale community center.

Answering roll call was Bruce and Jimmy Hess, Larry Schwarz, Jerry Wenken, Gary Bowen, Ralph Stiri and Mr. Walter Stiri.

Election of officers were held with the following named: Jimmy Hess, president, Ralph Stiri, vice president, Robert Peiper, secretary, Gary Bowen, reporter, Jerry Wenken, key collector, and recreation committee, Randy Roemisch, Ronny Helms and Larry Schwarz.

A Christmas party will be held at the Walter Stiri home on December 16.

WOMEN'S CALENDAR

Johnson Never Realized How True His Slogan Was

BY INEZ ROBB
During the night following Mr. Kennedy's nomination, the only real order of business facing the convention on the morrow was the selection of a Vice-Presidential candidate...

...and when Lyndon Johnson was mentioned in connection with the Vice-Presidency, there was speculation, first, whether he would be acceptable to Mr. Kennedy, and second, that a man of his (Johnson's) pride and next, his power in the Senate would want the job.

Junior Editors Quiz on THE EARTH

QUESTION: How was the earth formed?
ANSWER: The earth is a planet revolving around the sun and is part of our solar system. Scientists have often speculated as to how this system may have been formed...

Be Thankful For These Good Things

BY HAL BOYLE
NEW YORK (AP)—What's to be thankful for on this day of national thanksgiving?
There is an old saying that "Some people would cry with a loaf of bread under each arm."

Connally Relives Tragic Moments That Took Life Of John Kennedy

DALLAS, Tex. (AP) — "My God, what a horrible, horrible tragedy..."
Wounded Texas Gov. John Connally said this was one of his first conscious thoughts when he awoke in a hospital hours after a sniper shot him and assassinated President Kennedy.

Discipline Brings Suit

MARTINSVILLE, Ind. (AP) — Two pupils who were disciplined for driving to Martinsville High School are suing for damages totaling \$300,000.

Snyder Cadet Is Honored At Tech

LUBBOCK — Seven Texas Tech senior Air Force ROTC cadets have received distinguished Air Force ROTC cadet honors.

The seven cadets included Robert S. Klinger and Jerry Don Casstevens of Lubbock; Ronald Gaston, Colorado Springs, Colo.; Gerald R. Farney, Dallas; Carl Franklin Sweetwater; Keith Moffett, Snyder; and Wilson Blakeley of Odessa.

Lt. Col. George R. Hull, professor of air science class as well, he rated in the upper half of their summer training units, possess outstanding qualities of leadership and high moral character, and demonstrate leadership ability through achievements while participating in recognized campus activities," Col. Hull said.

Col. Hull added, "This is the first step toward regular Air Force commissions. Those who maintain these high standards through graduation will become distinguished Air ROTC graduates and eligible for appointment in the regular Air Force."

Klinger is the son of Mrs. Lois Klinger of Lubbock. He is a history major and holds the rank of cadet Lt. Col.

Casstevens, an economics major at Tech, also is a cadet Lt. Col. His mother, Mrs. Dorothy Gordon, is a former Lubbock resident now living in Wiesbaden, Germany.

Gaston is currently serving as Tech cadet wing commander with the rank of cadet Col. A park management major, he is the son of Mr. and Mrs. John L. Gaston, Colorado Springs, Colo.

An electrical engineering student, cadet Lt. Col. Blakeley's parents are Mr. and Mrs. E. D. Blakeley of Odessa.

Moffett's parents are Mr. and Mrs. B. P. Moffett of Snyder. He is also a cadet Lt. Col., and is working toward a degree in secondary education at Tech.

Franklin is an accounting major and a cadet Lt. Col. in Air

BEAUTY AND THE BEST—Kenneth Moffett (center), a Texas Tech senior from Snyder, receives a distinguished cadet badge from Miss Carolyn McDuff, Air Force ROTC cadet wing sweetheart. Moffett is the son of Mr. and Mrs. B. P. Moffett, 2605 Ave. K. Snyder. Moffett received the award signifying that he is one of the top seven cadets in the Tech cadet wing.

ROTC. His parents are Mr. and Mrs. C. Franklin of Sweetwater.

The son of Mr. and Mrs. R. C. Farney of Dallas, Farney holds the rank of cadet Lt. Col., and is completing his work toward a degree in Mechanical engineering.

Klinger, Gaston, Franklin and Farney all have completed the Air Force's flight instructions program for Tech cadets and will enter pilot training when they go on active duty.

Two Texans Win FCC Safety Awards

WASHINGTON (AP) — Two Texans have won in the Federal Aviation Agency's Aviation Mechanic Safety Awards. They are Donald Perkins, Trans - Texas Airways at San Angelo, and Edward Swearington Jr., of San Antonio.

The FAA cited them for developing an "outstanding contribution" to aviation safety through maintenance practices during 1962.

Brownsville Chosen

BROWNSVILLE (AP) — The Texas AFL-CIO will meet here for its 12-day convention next summer. Bill Rudd, manager of the Greater Brownsville Commission, said the Valley city was chosen over Dallas, Galveston and Austin.

Offers Assistance To Mrs. Oswald

By MIKE COCHRAN
FORT WORTH (AP) — Mrs. Lee Harvey Oswald, Russian-born wife of President Kennedy's alleged assassin.

All she wants to do is help, she said on arriving here Tuesday night. She wants Mrs. Oswald to join her family and live in their three-bedroom home at San Antonio.

Mrs. Pultz, 36, who speaks fluent Russian and fast English, interspersed with American slang, said: "I feel sorry for her, living in America and not speaking the language. She needs someone who understands."

You'd say Mrs. Pultz understands, all right. Her husband is an airline employe and she has three teen-age children. She finds time to sell real estate.

She came to the United States 15 years ago from Kiev in Russia's Ukraine. Asked if she is an American citizen, she replied: "I think I much better citizen

than most people in state, but sometimes I get screwed up in my talking."

The attractive redhead told reporters in her plush motel room here:

"Mrs. Oswald can learn English by living with me. I can teach her things she might never learn."

"With two kids it's kinda rough in strange country. I need to get started some way to get hold of her."

Newsmen in Fort Worth believe Secret Service agents are keeping Mrs. Oswald and her family out of sight.

Asked how she thought people would feel about Mrs. Oswald living with her family, Mrs. Pultz tossed her red hair and said: "I don't care what Americans think. This is free country. I believe most Americans good. They understand. . . ."

"I really want to do it out of my heart. I hear of it, I think by golly, if I can get hold of that girl, she definitely don't want to

Two years ago a determined Mrs. Pultz spoke to Soviet Premier Nikita Khrushchev's son-in-law in New York City.

"I was able to get my mother in Russia to come to United States for five months," she said.

Earl Sande rode his last thoroughbred race at the age of 54.

Agent Shows 'Tremendous Courage'

By ADREN COOPER
 WASHINGTON (AP) — The moment a Secret Service agent wounded President half-sat and half-sprawled on top of him. John F. Kennedy and seriously wounded Texas Gov. John B. Connally. "It could have been a firecracker, a bomb or a shot," he was—then Johnson's car at this point was closer to the killer than the presidential car. Youngblood said Mrs. Johnson and Sen. Ralph Yarborough, D-Tex., who were riding in the rear seat with the man who be-

came President not many minutes later, also responded to commands and got down below window level. Youngblood kept the three down during the five-minute drive to Parkland Hospital, where Kennedy and Connally were taken. The next day, Johnson wrote a letter to Secret Service Chief James J. Rowley, suggesting that Youngblood's action "deserves the highest commendation your service can-

offer for his tremendously courageous action." Secret Service agents say an act of equal heroism was performed by Clint Hill, an agent who was in the convertible following the presidential limousine. Hill leaped out, caught up with the President's car even though it was traveling at 12 miles an hour and, with an assist from Mrs. Kennedy, climbed onto the trunk and covered the wounded President and Mrs. Kennedy. Youngblood, now assigned to the detail guarding President Johnson, said of his and Hill's actions: "Any agent in the service would have done the same thing." Youngblood, his wife Peggy, and their four children live in nearby Virginia.

Draft Quota Set
 AUSTIN (AP) — The state draft quota for December is 667 men, Col. Morris Schwartz, state selective service director said today. The Texas quota for November was 862. The national call is for 13,000 Army men in December.
