Panama Efforts Stalled; Commission Seeks Key

WALKERS ON SNOW - COVERED FIFTH AVENUE—Bundled against the cold, pedestrians trudge across snow-covered Fifth Avenue at 42nd Street in New York as they head for work. The Weather Bureau warned that the snowfall in New York metropolitan area could accumulate in drifts of 4 to 6 feet. (AP Wirephoto)

Many Die In East's Storm

By RICHARD F. WHALEN
Associated Press Writer

The howling snowstorm that blasted much of eastern United States—worst in years in spots—left scores dead in its wake today. Huge drifts marooned thousands of travelers overnight.

The death toll was at least 71.

The storm system that swirled into blizzard proportions in the Northeast dumped more than two feet of snow in some sections. Gale force winds whipped the snow into drifts—some 20 feet high.

Many school systems, including those in New York City and Philadelphia, closed today. Business closings were widespread.

About 3,000 travelers spent the night at Kennedy International Airport in New York after all flights were canceled because of drifts on the runways. In Pennsylvania, 250 pupils were marooned overnight at a high school.

Their reaction, as one put it: "Down with snowplows. This is the swingingest party of the year."

Although the snowfall tapered off, winds with gusts up to 60 miles an hour continued and near-zero cold was expected as far south as Tennessee tonight.

The Midwestern half of the storm battered Illinois, Indiana and Ohio, leaving thousands snowbound Sunday night and Monday. Drifts were reported 20 feet high in some Ohio areas.

Youngstown, Ohio, with 16 inches, called it the worst snowstorm in 13 years. St. Louis had 8.1 inches, the most in six years.

The southern half of the storm brought Florida its first snow in six years. It melted quickly, but plunging temperatures were the main concern with below - freezing temperatures recorded in central Florida.

The storms converged and their combined punch smacked the Northeast. Washington's nine inches was the heaviest snowfall in nearly six years. Morgantown, W. Va., had 16 inches.

New York City and environs were hit by a foot or more of snow that slowed homebound commuters Monday night. The principal suburban highways on Long Island were virtually impassable for several hours.

Trains were late and some 6,000 to 8,000 commuters doubled and tripled-up in city hotel rooms.

About 300 motorists stranded on and near the Marine Parkway bridge were taken in Army trucks to a nearby base and then given lifts home.

The metropolitan airports were socked in. Newark Airport was under 15 inches of snow.

Snow depths in New England ranged around 12 inches with some drifts up to five feet high.

At Ashland, N.Y., 35 miles from Albany, the snow was 30 inches deep. In Albany, where 14 inches fell, cots were set up in state Capitol corridors for legislators. About 100 state employes spent the night at the employment offices.

Durocher Is Served With Writ In Suit

MIDDLEBURY, Vt. (AP) — Leo Durocher, former baseball manager, has been served with a writ in a civil suit, says Sheriff Alan Chandler.

Durocher was brought before Judge Leon Bushey Monday and ordered to post $30,000 bail.

Chandler declined to say what the suit involved.

Durocher declined comment.

Eastland Passes Law Banning Cigs

EASTLAND, Tex. (AP(—An ordinance prohibiting the sale or smoking of cigarettes within the city limits has been passed by the Eastland City Council.

Mayor Don Pierson says he expects the law to become effective Feb. 20.

The city fathers, in a meeting Monday, provided a penalty for violation of the no-fag ordinance of a fine up to $1,000 and imprisonment for three years.

The action came soon after a federal panel reported that smoking constitutes a health hazard.

The ordinance exempts persons traveling through the town from its prohibitions. There is also no ban on possession of cigarettes.

The Eastland Council perhaps exceeded its powers a bit.

S. G. Johndroe Jr., Fort Worth city attorney, said a city may not fine anyone more than $200 and may only jail persons who cannot pay their fines, or who are held in contempt of court.

Johndroe, questioned about the council action, said also that Eastland smokers can puff cigarettes all they want without reprisal — and tobacco vendors there won't have to become bootleggers.

He said the state government has, in effect, approved the sale of cigarettes by placing a tax on them.

"It isn't unlawful to sell them if they are taxed," he said, noting there is no local option law on tobacco sales as there is on sales of alcoholic beverages.

Pierson said the "severe penalties were written into the ordinance just to make people understand that the council is serious about this thing."

RFK Named As Trouble-Shooter

WASHINGTON (AP) — Atty. Gen. Robert F. Kennedy leaves today on a trouble-shooting mission for President Johnson — a meeting with Indonesian President Sukarno on the Malaysian situation.

The White House said Monday that Kennedy probably will see Sukarno Thursday in Tokyo where the Indonesian leader will be vacationing. Details were to be announced after Kennedy conferred with Johnson this morning.

Assistant White House press secretary Andrew Hatcher said Monday that Kennedy would be discussing with Sukarno the Malaysian situation.

Sukarno has publicly and repeatedly vowed his intention to crush "neo-colonialism" in Malaysia — meaning British support of the newly formed state.

Only last week Johnson sent Sukarno a message. It is believed to have dealt with U.S. concern over the rising frequency of border incidents in North Borneo, a Malaysian state which borders Indonesia.

Another possible topic in the Kennedy-Sukarno talks is a provision in the new foreign aid bill. It would prohibit U.S. assistance to Indonesia unless Johnson makes a positive finding that it is in the best interests of the United States.

Kennedy visited Indonesia for a week in February, 1962 on a round-the-world trip. He spent much of his time defending U.S. policies—domestic and foreign—in sharp exchanges with Indonesian students. He also conferred with Sukarno about Indonesian demands for the Dutch-held territory of West New Guinea.

The attorney general pressed the point that the United States wanted a peaceful solution — and would view with disfavor either country which might start a conflict. Within a month Indonesian and Dutch representatives, with an American sitting in, began talks in Washington that led to a peaceful solution of the problem.

WEATHER

SNYDER TEMPERATURES. High Monday 37 degrees; low, 10 degrees. Reading at 7 a.m. today, 16 degrees.

North Central Texas: Clear to partly cloudy and warmer today and tonight. Increasing cloudiness and a little warmer Wednesday. Low tonight 20 to 30. High Wednesday 40 to 50.

Northeast Texas: Partly cloudy to clear and a little warmer today and tonight. Increasing cloudiness and slightly warmer Wednesday. Low tonight 15 to 25. High Wednesday 42 to 48.

Northwest Texas: Fair and warmer tonight. Mostly cloudy and slightly warmer Wednesday. Low tonight 13 in north to 25 in south. High Wednesday 44 to 50.

Coast: Variable mostly north to northeast winds 5 to 15 knots today and tonight, becoming southeast Wednesday.

South Central Texas: Partly cloudy today and Wednesday, except for increasing cloudiness in south today and tonight and in north Wednesday. A little warmer. Low tonight 22 to 32 in north and 30s in south. High Wednesday in 50s.

Southeast Texas: Partly cloudy today and a little warmer today and tonight. Increasing cloudiness Wednesday. Low tonight 24 to 34. High Wednesday in 50s.

Southwest Texas: Clear to partly cloudy and warmer today. Increasing cloudiness tonight and Wednesday. Low tonight 16 to 24 in north, 22 to 32 in south. High Wednesday 48 to 55.

1st Refugees Report From Zanzibar

By DENNIS NEELD

DAR ES SALAAM, Tanganyika (AP)—The first U.S. refugees from turbulent Zanzibar reported today that Spanish-speaking men in Castro-like uniforms appeared to be the hard core of African rebels who overthrew the island's Arab government.

The Americans arrived aboard the U.S. destroyer Manley. The state Department had ordered the removal of all but two of the 63 Americans on Zanzibar because bands of Africans were roaming streets, shooting and looting.

Stuart Lillicoe, public affairs officer of the U.S. Embassy in Zanzibar, told reporters here that a Cuban-looking type was the leader of the rebels who captured the cable and wirless company's office. He said the man understood English but but replied Spanish and spoke no Swahili, the most common language of Zanzibar.

Most of the Americans arriving from Zanzibar were on the staff of a U.S. Project Mercury satellite tracking station. A staff member said the station was abandoned, but was intact when he left. Asked if the staff had saved anything from the station, he replied: "Yes, 40 heads," meaning Americans.

Firing still was reported in the city of Zanzibar as the Manley pulled out and there were indications that the fighting was more savage than originally indicated when African nationalists seized power Sunday.

The latest casualties reported are six dead and more than 2,000 wounded. But this is expected to grow.

Sheik Abdul Rahman Mohamed Babu, an extreme leftist who was caught in Dar es Salaam when the revolt broke out, returned secretly to Zanzibar to take up his post as foreign minister under the rebel regime.

The State Department in Washington has expressed fear that the Zanzibar revolt will make the old spice island, independent from Britain little more than a month, a stepping stone to communist infiltration in Africa.

Babu has visited the Soviet Union and China and is considered an admirer of Fidel Castro of Cuba.

Zanzibar would be a convenient steppingstone for communism in Africa if that is the design of the new regime. The island lies about 20 miles off the east African coast near the borders of Tanganyika and Kenya.

Sun Hints Of Warmup

By The Associated Press

Bright sunshine brought promise today of a slight warming trend in Texas after a bone-chilling night that brought a record low of 4 degrees to Fort Worth

Freezing weather before dawn moved into the upper portions of the Rio Grande Valley but a cloud cover saved vegetables and citrus crops in the mid and lower valley regions.

The minimum of 4 degrees was reported both by Dalhart in the upper Panhandle and at Fort Worth in the central section of the state.

Lubbock had a low of 7 degrees. Waco and Amarillo 8. Other lows included Dallas and Wichita Falls 11, Texarkana and Abilene 12, El Paso 13, Marfa and San Angelo 15, San Antonio 17, Austin 18, and Beaumont 19.

Rio Grande City in the upper Rio Grande Valley had a low of 23, which could damage vegetables although farmers said it would be late Wednesday before the exact damage could be determined.

The cloud cover kept the minimum at Mercedes at 30 degrees, while McAllen had a 36 and Brownsville a 37.

Cut Oil Prices

OIL CITY Pa. (AP) — Joseph Seep Purchasing Agency of Pennzoil Co. cut the prices of four types of Pennsylvania crude oil today by 15 cents a barrel

The new prices are Bradford District oil in Bradford Transit Co. $4.48, Middle District grade oil in National Transit Co. $4.20, Pennsylvania Grade oil in National Transit Co. (Southwest Division) $3.93 and Buckeye Pennsylvania grade oil in Buckeye Pipe Line Co. $3.61.

Germans To Give Report On Cancer

DUESSELDORF, Germany (AP)—A German scientist says a detailed study soon to be published will prove that air pollution—not smoking—is the chief cause of lung cancer.

Prof. Reinhard Poche of the Duesseldorf Medical Academy said the study is based on findings from seven pathological institutes in the steel-producing Rumr State of North Rhine Westphalia.

"On the basis of our examinations covering many years I am obligated to state that the importance of smoking in causing lung cancer is certainly not as great as has been suggested," he said in an interview Monday.

Poche said the institutes examined 1,229 cases of acute lung cancer during the past five years and also analyzed more than 26,000 official autopsy reports filed since 1908.

Poche said the highest rate of lung cancer was among people particularly exposed to car exhausts, including traveling salesmen, traffic policemen and other people who spend much time on the roads.

Office workers and other people least exposed to polluted air had the lowest rate of lung cancer, although these were known to be among the heaviest smokers, Poche said.

The professor is a nonsmoker.

LBJ Will Cut Aid Fund Again

WASHINGTON (AP) — President Johnson has told congressional leaders he plans to earmark $3.4 billion for foreign aid spending in the new $97.9 billion budget he will submit next week.

The figure, confirmed by Senate Democratic leader Mike Mansfield of Montana, would represent a modest $269 million cut under the actual amount available to the Agency for International Development in the current year ending next July 1.

Such a reduction seemed likely to prove disappointing to many members of Congress who have been insisting that steps be taken toward bringing the program to an end.

A presidential committee reviewing overseas assistance is expected to recommend sweeping changes in the AID setup as a result of growing congressional reluctance to vote funds for the program.

Without professing to know any details of these recommendations, Mansfield called in an interview for a division of responsibility among the non-Communist powers that would permit the United States to concentrate economic assistance in Latin America.

He said Britain, France and West Germany should be charged with providing necessary econimic and military help to fledgling nations in Africa. He suggested that the responsibility for economic aid to Asia be shared with Commonwealth nations in that area.

"Latin America is the most important area to us," Mansfield said. "The crisis in Panama has pointed up the necessity for further implementation of the Alliance for Progress. We should give our assistance primarily to nations in this hemisphere."

Merger Of Banks Okd

WASHINGTON (AP) — Two Houston banks have been given approval to merge. Their deposits total more than $860 million.

Comptroller of the Currency James Saxon agreed Monday to the merger of the National Bank of Commerce of Houston, the city's second largest bank, and the Texas National Bank of Houston, fourth in size.

The Justice Department was reported opposed on the grounds the merger violates anti-trust laws.

The new bank still will have $20 million in deposits less than the First National Bank.

Revision Of Pact Asked

By ARY MOLEON

PANAMA (AP) — The Inter-American Peace Commission launched efforts today to break a deadlock between Panama and the United States on the proceedings for a settlement of the Canal Zone crisis.

The five-member commission met in closed session with Edwin M. Martin, chief negotiator for the United States, and Panama Foreign Minister Galileo Solis amid reports Panama has demanded the withdrawal of U.S. diplomats.

Talks aimed at restoring diplomatic relations, severed by Panama at the height of the crisis last week, broke down after a midnight meeting on a Panamanian demand for a U.S. pledge for full revision of the Panama Canal treaty, diplomatic sources said.

It was reported in Washington that Panama has notifed the United States it intends to go through with a complete break in diplomatic relations and is calling for the U.S. diplomats to get out.

In that situation President Johnson would appear to have no choice, under normal international procedure, but to order the departure of the ranking U.S. diplomat, Wallace Stuart, and his staff.

Solis told newsmen that when diplomatic relations are broken, diplomats lose their status as such and should leave. But he added that, if they choose to remain, they remain as private citizens.

Solis said Panama's present position is that there will be no resumption of diplomatic relations until the United States gives an assurance that it will undertake talks immediately for a new treaty.

In the past, he said, the United States has taken the position whenever similar situations have arisen in recurrent crisis, that it will not negotiate under pressure. But when things quieted down again, he said, nothing happened.

Solis said his government would decide within 24 hours on a country to take over Panamanian affairs in Washington—the final step in severance of relations.

In Washington, the White House said the United States has an obligation to operate the Panama Canal "efficiently and securely" and "cannot allow the security of the Panama Canal to be imperiled."

"The United States continues to believe that when order is fully restored, it should be possible to have direct and candid discussions between the two governments," said the statement, issued after Assistant Secretary of State Thomas C. Mann returned from Panama and conferred with President Johnson for 2 hours and 20 minutes.

There were no outbreaks of violence Monday, although anti-U.S. sentiment was still apparent. Signs reading "Avenue of the Martyrs" appeared on President Kennedy Avenue, the street dividing the Canal Zone from Panama City, where some of the fiercest rioting occurred last week.

Heavy Seas Searched For Lost Schooner

JACKSONVILLE, Fla. (AP)—Air and surface vessels searched heavy seas 160 miles east of Jacksonville today for five persons forced to abandon a sinking schooner.

The Coast Guard identified them as Mr. and Mrs. John Pelton, their two children, and Capt. Christopher de Grabowski, skipper of the schooner Enchantress owned by Pelton.

Pelton is from Whittier, Calif. De Grabowski is believed to be from Florida.

Pelton and Grabowski are said to be in their 40s; Mrs. Pelton is 21; and the boys 11 and 12.

The vessel left Charleston, S.C., Jan. 10 for St. Thomas in the Virgin Islands.

The last word from the 58-foot schooner was a distress message radioed Monday that water was knee-deep in the cabin and that the passengers and skipper were going over the side in two dinghies. All had life jackets.

Hope High For Airmen As Appalachian Search Begins

By JOHN A. WOODFIELD

CUMBERLAND, Md. (AP)—A search started in clear weather today for four Strategic Air Command fliers who are believed to have parachuted from a stricken jet bomber which carried two nuclear weapons.

The pilot of the eight-engine B52 which crashed in a snowstorm Monday staggered through a forest to safety in a farmhouse. He is Maj. Thomas W. McCormick of Yawkey, W. Va.

McCormick said he ordered his crew to jump. Although that was at least 36 hours ago over mountains covered by up to 18 inches of snow and although overnight temperatures were zero and below, an Air Force spokesman expressed optimism about their safety.

He said the men had been thoroughly trained in survival. "They've been trained to stick together," he said.

Maj. Gen. James W. Wilson, director of material for the Strategic Air Command headquarters at Omaha, arrived to take charge of two disaster control teams which will inspect the nuclear weapons for damage.

When assured they have all the components, the men will take the weapons to an Air Force Logistics Command base. The Air Force declined to say how or when the weapons would be transported but emphasized there was no danger of atomic blast or radioactivity.

The plane crashed into a forest on the Appalachian range about 20 miles west of Cumberland.

McCormick was taken in good condition to a Cumberland hospital.

He said "it was real rugged when I came down and I hit a tree stump, injuring my left leg. I immediately set up a tent from my survival kit, started a fire and settled down for the night."

He waited for sunrise, then trudged to a farmhouse near Grantsville, Md., about three miles from where the plane went down.

He said he believed the other four men also had parachuted before the crash.

They were identified as Capt. Parker C. Peeden, 29, Smithfield, N.C.; Maj. Robert L. Payne, 41, Tulsa, Okla.; Maj. Robert E. Townley, 42, Gadsden, Ala., and T. Sgt. Melvin Wooten, 37, Tatum, N.M.

High level military authorities swarmed into the western Maryland hill country during the night to take control of the search and the investigation of the crash.

They said there was no danger of explosion from two nuclear weapons aboard the plane because the bombs had not been primed.

They ordered the crash area sealed off for a radius of about 1,500 yards and declined to discuss the exact nature or disposition of the weapons.

A spokesman for Strategic Air Command Headquarters at Omaha, Neb., said both nuclear devices had been recovered.

Waiting for an end to the blizzard conditions which stymied ground and air searches for the other crew members Monday were Civil Air Patrol pilots, volunteers and state police from Maryland, West Virginia and Pennsylvania.

More than two feet of snow had fallen in the area earlier this winter and nearly that much again was dumped onto the forested mountainside during the new 24-hour snowstorm.

THOUSANDS ATTEND MASS BURIAL OF RIOT VICTIMS — A casket containing the body of one of the 14 victims of the riot in Panama is carried over the heads of mourners during a mass burial service in Panama City. (AP Wirephoto)

FBI Agents Get One Of Ten Most Wanted Men

OKLAHOMA CITY (AP) — FBI agents walked through a songfest Monday night to arrest one of the FBI's 10 most wanted fugitives.

Thomas Asbury Hadder, 22, charged with the slaying last May of a Maryland policeman, was captured without incident at the Salvation Army Service Center.

He was picked up on a warrant charging interstate flight to avoid prosecution for murder, and was lodged in the Oklahoma County jail after U.S. Commissioner William Page set bond at $100,000.

He will be returned to Maryland as soon as officers can arrange his transfer.

Jim Nagle, assistant agent in charge of the FBI here, said Hadder, who escaped last September from a Mafyland mental hospital, had registered at the service center under the name of Thomas L. Longstreet.

Nagle said the FBI had been alerted that Hadder might be passing through Oklahoma from the west, so officers started checking spots frequented by transients.

"We had a few aliases he had been known to use," Nagle said, "and we found a man registered at the center under a similar name."

Nagle said he and six other agents walked through an assembly room where a group was taking part in a songfest.

The husky, sandy-haired fugitive was arrested and removed. He offered no resistance and was unarmed.

Nagle said, "I doubt if any of the others knew what was going on." The singing continued as the officers left.

Hadder was named on a federal flight warrant after he and a companion sawed through a bor on a second floor cell and escaped from the Clifton T. Perkins State Hospital at Jessup, Md., last Sept. 13.

He was awaiting trial for the slaying last May 2 of police officer Alfred Stinet, Prince Georges County, Md. Hadder is accused of slaying the officer after he was stopped for refusing to pay for a tire at a service station.

Witnesses Make Plans For Assembly

Special instruction was given last night to Jehovah's Witnesses, Clairemont Road, relative to their coming circuit assembly, Jan. 24-26 in Carlsbad, N. M.

D. F. Shropshire, presiding minister, told the local group, "You are associated with one of the worlds fastest growing ministerial societies that never graduates its ministers. Christian development never ends and the Chrisitan minister can always advance in ministerial qualifications."

For that reason the organization provides a continuous training program of activity for young and old. A featured part of that program is the semi-annual assemblies held earth wide.

Travel arrangements were also discussed. Shropshire said that almost the entire membership had expressed intention of attending the training session. He added that free transportation has been arranged for interested persons.

The local membership will incorporate instructions and organizational procedure learned at the Carlsbad meet in their congregational activity. "Feed My Little Sheep" is the theme around which the program parts will be developed. The main talk will be given by H. A. Fetzik, district supervisor of Jehovah's Witnesses from Brooklyn, N. Y., speaking Sunday, Jan. 26 at 3 p.m. on the subject "The Bible Triumphs in a Scientific World."

Installation By Honor Society Set

The local chapter of 1275 of the National Honor Society, sponsored by the National Association of Secondary School Principals, will holds its installation ceremony at 5 p.m. Wednesday.

The Snyder chapter was chartered in 1932, but was inactive for a number of years. It was reactivated in 1962.

Throught the constitution, as suggested by the National Association of Secondary School Principals, only 10 per cent of the junior class and 15 per cent of the graduating class may be selected as members of the chapter.

Selection of the following students as appointees to the chapter was made by the faculty advisory committee, headed this year by Dr. Robert Clinton, Snyder High School Principal:

Seniors — Ann Patterson and Jimmy Feather.

Juniors — Steve Crowell, Millijon Smyth, Barbara Buchanan, Linda Jane McBeth, Judy Mixon, Shelia Cox, Connie Zimmerman, Cynthia Hale, Jerry Vestal, Jeffrey Graham, Sherrea Belt, Drew Bullard, Connie Reynolds, Nancy Hollis, Carroll Brush, Susan Pickering, Barbara Williamson, Margaret Zeck, Bill Wiman, Marie Jackson, Jimmy Featherston, Connie Robinson, Vickie Mebane and Evelyn Starnes.

Seniors already members are Brenda Boyd, Vicki Vice, Dwain Butler, Carol Young, Janice Cartwright, Tommy Hallmark, Jerry Beard, Sue Wiman, Tom Bennett, Jan McLeod, James Starnes and Nina Proctor.

Those chosen this year were selected from an eligibility list of 65. Selections were based on scholarship, leadership, service and character. The public is invited to attend the installation ceremony Wednesday.

Theft Investigated

Snyder city police are investigating the break-in of a service station at the corner of Twenty-fifth Street and Avenue K.

Reported missing are a number of quarts of oil, transmission fluid, and headlights.

Entrance to a storage room at the station was apparently made by breaking out a rear window.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: I am 23 years old (male) and need your help. Recently, in a joking way, I gave a girl a cheap, imitation ring I picked up at a dime store. Now she's trying to tell me that no matter how cheap the ring is, as long as I gave it to her, we are officially engaged. I tried to tell her it was all a gag, but she is threatening to sue me for breach of promise. Can she do this? A buddy of mine who is attending law school says she can.

GETTING WORRIED

DEAR GETTING: I am no lawyer, but I can tell you that anybody can sue whomever he (or she) wants to sue and all the defendant can do is try to defend himself. If she brings suit against you (which I think is unlikely) she will have to prove that the ring was given to her together with your promise to wed. If she can do that, Brother, you are in trouble.

• • •

DEAR ABBY: Do you remember way back when you invited people over for a meal and they came and ate with such enthusiasm that it made you feel that it was worth every bit of trouble you went to? What has happened to those days? I had a Thanksgiving dinner for 20 and I carried more than half the food off the table untouched. Nobody wanted any sweet potatoes (too fattening!) and all my lovely home-made rolls were passed up. Somebody asked me if the peas had butter on them and only 5 out of 20 would even taste my pecan pie! Everybody is either on a diet or watching their cholesterol. It's no fun to cook any more. What's the answer?

DISAPPOINTED HOSTESS

DEAR HOSTESS: Next time take the whole lot of 'em to a restaurant and let them order what they want.

• • •

DEAR ABBY: I just had a thirty-minute argument with a boy on the phone and hope that you can settle the question: When a boy talks to a girl, who is supposed to hang up first? I really don't think it makes much difference, but he says the girl is definitely supposed to hang up first. Is there any such rule?

BILL'S FRIEND

DEAR FRIEND: As far as I know, there is no such rule, but it really doesn't make much difference as long as SOMEBODY hangs up after thirty minutes.

No Injuries Reported In Area Mishaps

The Snyder police department investigated a two-car mishap at 8:45 this morning at Thirtieth Street and Avenue L.

Involved were a 1958 Ford driven by Earl Winifred Hardy, West Thirtieth Street, and a 1960 Ford driven by Judson W. McGaha. Damage to the Hardy car was estimated at $175 and to the McGaha car at $150.

The Texas Highway Patrol investigated a one-car mishap at 6:10 p.m. Monday two miles south of Snyder on the Round Top Road.

Involved was a 1958 Buick driven by Tommy Bryan McKinley, 15, of 1910 Forty-second Street. McKinley was alone in the car which apparently went out of control and overturned.

The Highway Patrol also investigated a mishap at 2:15 p.m. Monday at the Highway 84 bypass and Huffman Avenue.

Involved were a 1961 Tempest driven by M. E. Stanfield, 3702 Avondale and a 1958 Chevrolet driven by Eulice Wilford Pilgrim, 2804 Avenue M. Each car suffered about $100 damage.

There were no injuries reported in any of the mishaps.

GRANDDAUGHTER GETS FIRST SAM HOUSTON STAMPS — Mrs. Jennie Morrow Decker, 92, left, granddaughter of Sam Houston, receives the first sheet of Sam Houston commemorative stamps from Sen. Ralph Yarborough. More than one million of the 5-cent black-on-white Sam Houston stamps went on sale in Houston, Texas. Sen. Yarborough pushed legislation that made the stamp possible. Liz' Wedding May Be Postponed

PUERTO VALLARTA, Mexico (AP)—Richard Burton and Elizabeth Taylor may have to forego their expressed hope of being married here.

Burton is due to leave for Toronto near the end of this month to rehearse for his production of "Hamlet," which opens in New York in April.

He said Monday he and Miss Taylor may be unable to marry for six months. "Miss Taylor still has problems with Mr. Fisher," Burton said.

Miss Taylor added, "Possibly we'll have to leave Puerto Vallarta without my getting a divorce. The matter is in the hands of lawyers."

Lawyers in Mexico City were reported preparing to fly to Puerto Vallarta with a new proposal from Miss Taylor's husband, singer Eddie Fisher. Details of the proposal, said to have resulted from talks in New York with Fisher's lawyer, were unknown.

Fisher and Liz are partners in a firm which controls profits from Miss Taylor's movie "Cleopatra."

To Curb Smoke Ads

NEW YORK (AP)—The Federal Trade Commission is planning curbs that it hopes will change the entire tone of cigarette advertising, the New York Times said today.

The commission will attempt to force the elimination from cigarette advertising of statements or indications that people "feel good" when smoking and that smoking is a social grace and a sign of maturity, the paper said in a Washington dispatch.

According to the commission's present thinking, the story said, advertisements aimed at making smoking attractive to young people and those that mention athletes may be banned entirely, the Times added.

Fast In Field, Tasty On Table

SACRAMENTO, Calif. (AP) — A speedy, colorful bird imported from Asia is providing fast action for hunters in California and other western states with vast stretches of arid land.

The bird is the Indian chukar, and it's fast becoming a popular target for sportsmen because of its dizzying speed, sporty flight and good size.

The chikar is about the size of a hen pheasant, and is as much a delight on the table as in the field.

In northeastern California, the chukar roosts in the lava rimrocks at night and flies down to the sagebrush and grass flats to feed in the daytime. The common western grass known as cheat grass is the staple of the bird's diet.

The chukar is best hunted by big parties with dogs moving quickly through the flats and bordering hills. When first contacted, the birds run swiftly along the ground in coveys.

Hunters often fire a few shots at improbable range just to scatter the birds, a trick used by some quail hunters. Then the action starts as the chukars scatter and whiz into flight ahead of the guns.

The chukar gets its name from its taunting call, which sounds something like "chuck, chuck, chuck, chuckaar, chuckaar. . ."

The bird is a brownish gray with white breast, black and white barred sides, a black mask across its eyes and black throat border.

California first imported the Indian chukar, or chukar partridge, and released birds in the wild in the 1930s. The populations took hold and grew slowly until finally a brief hunting season was held in 1954.

By 1962 the season had extended to six weeks to two months, depending on the area, and some 18,000 hunters were hunting them. The bag was about 52,000 that year.

Final 1963 figures aren't in, but record bird populations were drawing heavier, hunting pressure than ever before.

The idea of importing game birds to supplement native upland game isn't new. The colony of New York imported English pheasants in 1733, and set a penalty of 10 shillings or five days in gaol for disturbing the birds or eggs.

That first planting didn't take hold. It wasn't until Judge O. N. Denny released Chinese ringnecks in Oregon's Willamette Valley that pheasants became established in this country. Now pheasants are hunted in most states north of the Mason-Dixon line.

And hunting populations of the birds are present in California and in parts of Oregon, Washington, Idaho, Nevada, Montana, Utah and Wyoming. Several other western states are making trial plants.

Oldtime Oatmeal Cookies

1 cup sifted flour
¼ teaspoon sach baking soda and salt
¼ teaspoon each cinnamon and cloves
1 cup regular (not quick cooking) rolled oats
¼ cup each lard and butter
½ cup sugar
1 large egg
5 teaspoons milk
¼ cup each finely - cut dates and halved raisins

Sift together the flour, baking soda, salt, cinnamon and cloves; stir in the rolled oats. Cream the lard, butter and sugar; beat in egg thoroughly. Stir in the sifted ingredients, milk, dates and raisins. Drop level tablespoonfuls, about 2 inches apart, onto a greased cookie sheet Bake in a moderate (350 degrees) oven 8 to 10 minutes or until lightly browned. Remove with spatula to wire rack to cool. Store in tightly covered container. Makes about 2½ dozen.

Note: Rinse raisins in hot water and drain before cutting.

Friday

Fish Sticks with Catsup
Whole Kernel Corn
English Peas
Hot Rolls & Butter
Lettuce Wedge with French Dressing
Gingerbread w-Lemon Sauce

Hasty Pudding

2 cups milk
1-3 cup enriched cornmeal
¾ cup dark brown sugar
¼ teaspoon salt
2 eggs, separated

Scald 1½ cups of the milk in a heavy saucepan over low heat. Mix the cornmeal with the remaining ½ cup milk. Stirring constantly, gradually add to scalded milk. Add sugar and salt; cook about 15 minutes, stirring occasionally. Gradually stir a little of the hot mixture into the well - beaten egg yolks, then stir back into rest of hot mixture. Cook and stir over low heat for 2 to 3 minutes. Cool slightly; fold in the stiffly beaten egg whites. Spoon into sherbet glasses; chill. Nice served with a dollop of sweetened whippel cream and a few toasted almonds. Makes 5 servings.

BRIDE-ELECT HONORED—Miss Helen Patricia Carrell, shown with her mother, Mrs. Edna Carrell, was honored with a miscellaneous gift shower at the Katherine Ryan School Cafetorium on Saturday evening. Miss Carrell is the bride - elect of Bates L. Hoffer III of Austin. The wedding has been set for Jan. 25 at St. Elizabeth's Church. Hostesses for the gift shower were Mrs. J. E. Dupont, Mrs. E. H. Miller, Mrs. Jack Plymell, Mrs. Bob Hood, Mrs. C. F. Dugas, Mrs. T. W. Holder, Mrs. John Mengwasser, Mrs. Mildred Ward and Mrs. R. D. White.

Interesting seasoning: one good cook likes to sprinkle a pinch of powdered tarragon and cinnamon over eggs that are to be shirred; then she adds some heavy cream.

Novel Of Theatre Realistic

THE DEVIL'S PROFESSION. By Russell O'Neil. Simon & Schuster. $5.95.

In their anxious struggles to get their names up in Broadway lights, actors and actresses often have to sacrifice their personal lives — sometimes willingly, sometimes not. These sacrifices are the major theme of O'Neil's novel about the theater.

Most of the action is keyed to the efforts of producer Irving Straus—making one last effort for a comeback — to bring a play out of the summer theater wilderness into Broadway.

His guest star for the summer version is Miriam Croydon, and Straus persuades her that with a revised script the play can reach the big time. Miriam's personal problem is that for years she has been estranged from her husband, and for religious reasons cannot get a divorce She is very successful on the stage, but would rather have a home and children.

The second lead is played by a beautiful young actress, Liz Goodyear. She and her fiance, an ambitious young director named David Roth, enter into marriage with the hope that their professional careers will not endanger their private lives, but the odds seem to be against them.

One young actor, Buck Tone, leaves the Straus roster for an off-Broadway show and is determined to fight his way to stardom in the theater or the movies at any cost. He is a handsome self - centered heel who gets into a sorbid episode with a major theatrical agent, and has no qualms about deserting the girl he has seduced.

The world of play - casting, agents, Broadway restaurants, after-theater parties, the long battle to whip the play into shape, the tryouts in New Haven and Philadelphia, are all woven into the narrative.

O'Neil uses a wide variety of show business characters and—for the uninitiated reader at least—catches the atmosphere of the profession realistically. His dialogue tends to be a bit wordy, and he may win no literary prizes, but he spins an interesting yarn.

China Grove News

THE WINNER—John J. McKeithen, 45, his wife Margie and two of their six children, Melissa, lower right, and Rebecca, make a happy family group at their home in Columbia after vote totals gave McKeithen a decisive victory in the Democratic runoff for governor of Louisiana. (AP Wirephoto)

Aid And Comfort Offered Stricken Illinois Family

By ROBERT GOLDENSTEIN

WHEATON, Ill. (AP) — When an early-morning fire destroyed the William Rodgers home Friday, killing a son and daughter and injuring four other members of the family of nine, the tragedy touched the hearts of hundreds of persons.

Many persons telephoned the College Church in Wheaton which the Rodgers family attended, asking: "How can I help?"

Rodgers, 46; his wife, Emily, 45; and their sons, James, 13, and Joel, 5, were in a hospital suffering from burns and cuts and frostbite suffered when they fled the blazing two-story home. His daughter, Cynthia, 17, and son, Robert, 11, were dead. The three other children were sheltered in the homes of friends.

Rodgers is a free lance commercial artist. In addition to the deep personal tragedy, the fire meant the loss of the family home, its furnishings and and the immediate means of support. Rodgers maintained an art studio in the home and he had lost all his working tools and some finished work.

The offers of help included cash donations, home furnishings and four empty homes available rent free for immediate occupancy.

The deaconesses of College Church organized committees to provide food, clothing, furnishings, and living quarters for the family.

A two-story, four-bedroom brick home offered by fellow church member George B. Nevitt was selected. Up for sale at the time, the home had only a stove and refrigerator.

Mr. and Mrs. Rodgers and James were brought home from the hospital Monday, but all had to remain in bed for further recuperation.

"The place was furnished from top to bottom and there was ample food on hand," said Dr. L.P. McClenny, church pastor.

"I wasn't there at the time but I understand they were really overjoyed at the goodness of the people."

Dobbs Houses To Integrate

MEMPHIS, Tenn (AP) — Dobbs Houses, Inc., a snack bar and restaurant chain, has announced desegregation of some of its facilities in the South.

The announcement came after the annual stockholders' meeting, which Negro comedian Dick Gregory, a stockholder, had said he would attend. He didn't.

J. D. Dobbs Jr., president of the firm which operates Dobbs Houses and Toddle Houses, said the company's cafes in Atlanta and some in Tennessee and Texas had been desegregated. He would not say which Tennessee and Texas cities were involved.

Dobbs said desegregation of outlets would be decided individually because "the racial climate of the communities in which we are operating has so much to do with it."

Gregory's wife was arrested recently during a sit-in at a Dobbs restaurant in Atlanta.

Livestock Publication Honors Amarillo Man

DENVER (AP)—A Livestock magazine honored Jay Taylor, Amarillo rancher, oilman and financier, as its 1964 Man of the Year.

Presenting the award Monday for the Record Stockman, Publisher Harry Green Jr. said Taylor was one of the great leaders in the livestock industry.

Taylor, 62, owns ranches at Vega and Magdalena. He is a past president of the American National Cattlemen's Association and founder and former president of the National Beef Council.

He has been general manager and executive vice president of the Halliburton Oil Enterprises, and chairman of the Federal Reserve Bank in Dallas.

He is a co-owner of the Amarillo Livestock Auction Co. and was named to the board of American Telephone and Telegraph Co. in 1959.

Solons Won't Hurry Bills On Tobacco

WASHINGTON (AP) — The federal report on smoking is not likely to rush Congress into action on bills dealing with cigarettes. No one else seems to be in a rush either.

The federal report issued Saturday branded cigarettes a health hazard and called for corrective action.

Four bills on cigarettes are now before the House Commerce Committee. The oldest has been there almost a year. The newsest, almost a month.

Rep. Oren Harris, D-Ark., the chairman of this powerful committee, said in an interview, "I have made no decision about them and have not scheduled any hearings.

Harris is known in Congress as a man who measures his words carefully. His comment can be taken to mean that headlines about the Public Health Service report on smoking hazards are not going to rush him into quick hearings. But his words to not rule out the possibility of hearings sometime this year.

Meanwhile, on the New York Stock Exchange, cigar stocks advanced Monday, but most cigarette issues were generally lower, although the late trading was in their favor.

It was a comparatively gentle reaction considering the strength of the federal report condemning cigarette smoking—but brokers explained that stocks were already near their lows for 1963-64, and the late recovery indicated the harshness of the report had been expected.

Mexico Plans New Colony

MEXICO CITY (AP)— About 3,000 women and children will leave the northern city of Torreon Thursday to join 500 men opening a remote area of southern Mexico to colonization.

The men's families will travel in a railroad convoy of 70 passenger cars.

They are expected to arrive Saturday in Campeche, where the men will await them. From there they will travel by motor vehicles and boats to the colonization area.

The men went last year to prepare homes and plant crops.

The colonists are being moved out of an area around Torreon known as La Laguna, a sprawling area of communal farms on the edge of disaster.

US Junior Chamber Of Commerce Picks Ten Outstanding Men Of '63

SANTA MONICA, Calif. (AP) —Ten men named the outstanding young men of 1963 by the U.S. Junior Chamber of Commerce will be honored at a televised ceremony Jan. 25.

Picked as the recipients of the junior chamber's annual honors were:

Sen. Birch E. Vayh Jr., 35, of Terre Haute, Ind., who defeated 18-year Senate veteran Homer Capehart last year.

Dr. Zbigniew Brzezinski, 36, Warsaw-born director of Columbia University's research institute on Communist affairs. He is consultant to the State Department and the Rand Corp.

John Mack Carter, 35, New York City, who has been editor of McCall's magazine for two years.

Jerome P. Cavanaugh, 35, mayor of Detroit, elected in 1961 by a margin of 40,000 votes. He has concentrated on industrial progress and creation of jobs.

Rep. Edgar F. Foreman Jr., 30, Odessa, Tex., was an oil industry engineer before becoming the youngest member of the 88th Congress.

A. Leon Higginbotham Jr., 35, Philadelphia, Pa., member of the Federal Trade Commission, is the youngest commission member in history, and is the first Negro to be named to a federal regulatory agency.

Thomas S. Mackey, 33, Texas City, Tex., general manager of the world's largest tin smelter, helped negotiate a contract last year to smelt Bolivian tin concentrates which was hailed as stalemating a Russian offer to build a tin smelter in Bolivia.

George Stevens Jr., 31, Washington, D.C., son of Hollywood director George Stevens, is a producer-director for the U.S. Information Agency and is credited with revolutionizing the quality of motion pictures made by the agency.

James W. Whittaker, 34, Redmond, Wash., planted the U.S. flag atop 29,028-foot Mt. Everest last May 1. He has been climbing mountains since he was 13.

Ted Yates, 33, Washington, D.C., is a specialist in television documentary films, has been producing NBC's "David Brinkley's Journal" for two years.

TEAR GAS DRIVES BACK PANAMAN ANS—U. S. soldiers with gas masks and bayonets string barbed wire barricade in the Canal Zone after using tear gas to disperse a crowd of demonstrators who had attempted to plant Panamanian flags in the area. In the background at left the Panamanians flee past the burned out Pan American building. (AP Wirephoto)

These People Just Seem Calloused

By JON LOWELL
Muskegon Chronicle Writer
For The Associated Press

MUSKEGON, Mich. (AP)—Residents of this Lake Michigan port city smile condescendingly when you tell them New York is buried under 12 inches of snow.

Not that they're unsympathetic, mind you, it's just that they've almost forgotten that snow can be measured in inches. They have shoveled out from under more than 13 feet of it so far this winter. Anything less than a foot goes almost unnoticed.

Things are pretty clear now—most of it has melted away and there is only about a foot on the ground.

People are different here from early December to March.

Here, happiness is when the guy next door gets a mechanical snow blower.

Misery is slithering around on the roof, knocking off snow and ice so when it finally melts the water won't back up under the shingles and drop chunks of soggy plaster on the television set.

Muskegon, an industrial area of 10,000 persons, had more than 12 feet of snow last winter and more than six feet this past December alone.

The snowfall records posted in this winter's opening blast included 17.9 inches in one day, 45.5 inches in one week, and 78.8 inches during December.

Muskegon long ago learned to live with its snow, and Muskegonites even take a certain masochistic pride in the clucking noises it produces among residents of cities where snow-shoveling technique isn't the chief topic of barroom conversation.

When it snows in Muskegon, schools don't close, factories operate at full tilt, people go shopping—and the boss still wants to know why you were late for work.

Seek Answer In Jordan Diversion

By GEORGE MCARTHUR

CAIRO (AP)—The Arab summit conference buckled down today to the hard facts of what the Arab states can—and can't—do about Israel's plans to divert waters of the Jordan River.

The chiefs of state and government leaders of the 13-nation Arab League were to hear reports from the league's permanent joint military committee and from the Arab Technical Commission for Jordan Waters.

A spokesman for President Gamal Abdel Nasser of the United Arab Republic said after the opening conference session Monday the leaders unanimously agreed the meeting must adopt "definite resolutions."

Nasser, moving spirit behind the conference, indicated to the opening session that the meeting would be asked to implement recommendations made in 1961 by the Arab Defense Council. These never were put into force because the other Arab states feared they would give Nasser control of the Arab world.

The 1961 recommendations include establishment of a joint Arab general command, a survey of each nation's fighting forces and the ultimate placing of these armies "at the disposal of a supreme command."

Before the conference, Nasser said the Arabs could not use force against Israel "because our circumstances do not enable us to do so." But he told the conference Monday the 1961 recommendatioons look toward unified military action, with the Arab world using "all its forces together with foreign aid."

"This means Arab countries must be ready to destroy Israel's military preparations," Nasser declared.

The conference was being accompanied by moves to end quarrels between individual Arab states.

Cold, Drought Hindering Texas Crops

AUSTIN (AP)—Cold weather kept growth of small grains, winter grass and weeds at a standstill and supplemental feeding of livestock continued heavy last week, the U.S. Department of Agriculture reported Monday.

"Dry ranges and pasture grass was practically eaten out," the department said.

Other farm activity continued seasonally slow in moderate weather.

Cotton harvest in the northwest sections neared completion. In the Lower Valley, start of planting for the 1964 cotton crop was less than three weeks away.

Wheat remained dormant in cold weather, and dryland acreage on the High Plains "urgently needs moisture."

Oats in North Texas continued showing leaf burn, but are expected to recover. South Texas flax is in fair to good condition.

In the Rio Grande Valley, the harvest of beets, broccoli, cabbage, carrots, cauliflower, lettuce and spinach are available. Around Laredo, cabbage, carrots and cauliflower are being harvested.

In the Coastal Bend onions are making satisfactory progress.

Will Watch Snuffed Well

CARLSBAD, N.M. (AP)—Veteran fire fighter Red Adair said today he will remain in the Carlsbad area a few days to keep an eye on the gas well he capped Monday after a 10-day fight.

Adair and his crew, from Houston, Tex., braved sub-freezing temperatures and spewing gas that burned their skin to set the cap.

This was the final act of the drama in which they battled the well's raging five-pronged fires. The blaze, set by an explosion Jan. 2, consumed about one billion cubic feet of gas.

The blaze was snuffed out Sunday with a carefully set explosive charge.

Tippit Family Now Wealthy

DALLAS (AP) — The bank account of the J. D. Tippit family, once meager, contained $600,849 today.

Dallas police concluded their official count of more than 40,000 donations Monday, although contributions are still trickling in.

Patrolman Tippit was killed Nov. 22 as he sought to question Lee Harvey Oswald, the accused assassin of President Kennedy, about an hour after the President was shot.

His widow and three children, Allen, 14, Brenda, 10, and Curtis Ray, 5, have avoided publicity since then. Mrs. Tippit once said she hoped to keep on living the kind of life she always had. Her lawyers are known to be working on different forms of trust funds to handle the money.

Citizens from many countries responded to the Tippit family's situation with an incredible, steady outpouring of money in all amounts.

It took a 10-man team a full 30 working days to process the donations, avalanche of mail, and at times the officials were as much as a month behind the stacked-up avalanche of mail.

Police Lt. V. K. Hipskind disbanded his team of auditors and rookie policemen who counted the donations, after the last large deposit Monday.

Tigers Surprise Chiefs

Loop Opener Won, 52-47

SAN ANGELO — Snyder's Tigers, barred from any laurels that might accrue for a district champion, served notice here Monday night that they nevertheless will have a few words to say about naming District 3-AAA's playoff representative in the high school basketball playoffs this year.

The Tigers made a big surge in the third period to clip the Lake View Chiefs, 52-47, in the Lake View wig wam. The Chiefs have been regarded in some quarters as favorites for the district title.

Monday night's victory, the first league game of the season for both teams, set the stage for a Friday night engagement in Snyder between the Tigers and the Lamesa Golden Tornadoes, ranked as title contenders along with the Chiefs in preseason speculation.

The Tigers fought the Chiefs all the way Monday night. Both teams managed a mere 25 per cent average on shooting from the field in the first half, and the score of the game reflected the performance. They were all tied up at 12-12 at the end of the first quarter and 21-21 at the half-time intermission.

The Tigers made the third their big quarter, out - scoring the Chiefs 16-8, and it proved to be enough for victory.

Drew Bullard connected on six field goals and two free shots for 14 points to pace the Bengal attack. Two other Tigers were in double figures, as Jimmy Wilson was a close second with 13 points and Jerry Vestal produced 11.

Wilson also led the Tigers in rebounding with 12, while Brown grabbed 10 off the boards and Vestal came up with 9.

In the second half, the Tigers connected on 44 per cent of their shots from the field, compared to 33 per cent for Lake View. However, over the entire game, the Chiefs led in rebounds, 45-41.

Joe Hartman was the big man on the scoreboard for Lake View, he hit 7 field goals and 3 free shots for 17 points.

In the preliminary game Monday night, Snyder B bounced Lake View B, 55-45. Snyder B led 27-21 at the half and increased its advantage to 44-29 at the end of the third period.

Glen Patterson roped 16 points for Snyder B, while Ronnie Detrich also was in double figures with 11.

ON THEIR WAY to San Angelo and the first district game are the three senior game captains of the Snyder Tiger basketball squad. Pictured on the steps of the Tiger bus are Jimmy Wilson, Billy Stewart and Jackie Stewart. They, and the rest of the squad are wearing the new jackets, donated by Snyder business firms and individuals, which are worn by athletes when visiting other cities.

Ralph Houk's Infield Dips In 'Value'

NEW YORK (AP) — Ralph Houk's $5 million infield is worth $105,000.

The recession began the day Houk stepped up from manager to general manager of the New York Yankees.

And the market hit bottom Monday when Houk and the Yankees decided to mail out contracts to the American League baseball champions. The entire payroll figures to come to an estimated $800,000.

As for the four men Houk valued at $5 million in a word battle with Baltimore Manager Billy Hitchcock last year, here's the way the salaries go, from first to third:

1b—Joe Pepitone, $15,000.

2b—Bobby Richardson, $30,000.

ss—Tony Kubek, $35,000.

3b—Clete Boyer, $25,000.

The left side — Kubek and Boyer—stands about the same as last year. The gains were made on the right side. Pepitone gets a hefty raise from $8,000 after hitting 271 with 27 homers and a club high 89 runs batted in. Richardson, a .265 hitter and a team leader, gets about a $5,000 hike to $30,000.

The big hunk of the $800,000 payroll—one-eighth of it to be exact—goes to Mickey Mantle, who played in only 65 games last season because of a broken left foot and a damaged left knee cartilage that had to be operated on this winter.

Mantle had said he would have accepted a cut, but Houk said:

Royal Is Mum On Oklahoma Post

SAN ANTONIO (AP)—Coach Darrell Royal of the front-ranked Texas Longhorn football team has no comment on reports he may go to Oklahoma to replace Bud Wilkinson.

Wilkinson resigned as head coach for the "Big Red" but retained the athletic director post Monday he asked that Gomer Jones, his assistant for many years, be named to the head coaching spot.

Travis JH Wins Pair

Travis Junior High basketball teams swept two games from Sweetwater Junior High cagers Monday. Travis 9th walloped Sweetwater 9th, 63-42, while Travis 8th turned in a 38-18 victory.

David Lester paced Travis 9th scorers with 15 points, while Bobby Clardy had 12, David Cadena 11, Kenny Haskell 7, Randy Feagan, Vernon Moore and Delbert Bruns 6 each. Ruffin had 11 points for Sweetwater 9th, and Wood and Powell had 10 each.

Travis 9th led by 16-7 at the end of the first quarter, 33-18 at the half and 45-28 at the end of the third period.

Jerry Smedley was top scorer for Travis 8th with 8 points. Bennie Garret and Gary Floyd had 6 each, Ken Pollard, Jimmy Ramage, Jerry Luttrell and Gomez Tovar had 4 each. Alcala had 4 points for Sweetwater 8th.

Travis 8th held an 11-4 lead at the end of the first quarter and increased it to 21-6 at the half and 31-9 at the end of the third.

Travis 9th next action will be in its own tournament this weekend, while Travis 8th will play Lamar 8th Thursday in Tiger Gym.

Bruins Increase Margin In Poll

By BEN OLAN
Associated Press Sports Writer

The unbeaten UCLA Bruins have increased their lead in The Associated Press' weekly major college basketball poll on the strength of back-to-back victories over Southern California and Kentucky's second loss of the season.

The Bruins beat USC 79-59 and 78-71 last week and lifted their record to 13-0. Kentucky, runner-up a week ago, was defeated by Vanderbilt in its first of three games last week and tumbled to fourth.

UCLA drew 35 first place votes and 404 points in the latest vote by a special panel of 41 regional selectors. Loyola of Chicago moved up one place to second with 312 points while Michigan also advanced one place to third with 298 points. Kentucky had 242. Points were awarded on a basis of 10 for a first place vote, 9 for second etc.

Loyola of Chicago beat Marquett 96-80 in its only outing last week for an 11-1 record. Michigan has the same won-lost mark after turning back Purdue 77-70. Kentucky, after its loss to Vanderbilt whipped LSU and Tulane to put its record at 12-2.

Undefeated Davidson remained in the No. 5 spot followed by Vanderbilt, Oregon State Cincinnati, Villanova and Duke.

The Top Ten with first place votes in parentheses and total points:

1.	UCLA (35)	404
2.	Chicago Loyola (1)	312
3.	Michigan (2)2	298
4.	Kentucky	242
5.	Davidson (2)	217
6.	Vanderbilt	205
7.	Oregon State (1)	107
8.	Cincinnati	100
9.	Villanova	91
10.	Duke	72

Texans Nip Roscoe B

Lamar's 9th grade Texans edged the Roscoe B team, 56-53, in a basketball game here Monday evening.

The game with Roscoe B was arranged when Stamford Junior High cancelled its scheduled games here, because of mid-term exams.

Although battling close all the way, the Texans played catch-up until the third period. Roscoe B led by 16-12 at the end of the first quarter and by 31-28 at halftime. The Texans inched ahead, 44-41, by the end of the third period and maintained their three-point margin until the final buzzer.

Rob Golden scored 25 points in leading the Texans to victory. Gordon Stokes had 11 points, Billy Noel 9, Murray Bowden 8 and Robert Jones 5. Stokes pulled 16 rebounds off the boards. Britt was high scorer for Roscoe B with 19 points.

Next action for the Texans will come this weekend when they face Colorado City 9th in the 9th grade tournament to be unreeeled at Travis Junior High.

Peters' New Contract Is As Fat As His Curve Ball

By MIKE RATHET
Associated Press Sports Writer

Gary Peters has a fat contract, and a curve ball in the same condition.

A 26-year-old left-hander who nailed down American League Rookie of the Year honors last season by posting a 19-8 record, Peters received the fat contract Monday when he signed for the 1964 baseball season with the Chicago White Sox.

Peters signed for an estimated $20,000-from a distance of some 1,000 miles. While the announcement was made in Chicago, Peters was in Sarasota, Fla. working with pitching coach Ray Berres in an effort to reduce his portly curve ball.

"That's his only weakness—too big of a curve," says Berres. "He leaves the ball hanging up there for home runs some times, or it breaks so much it hits the feet of a right-handed batter. It's so big that batters can anticipate it."

Nevertheless, Peters proved difficult to anticipate last year after stepping into the White Sox' starting rotation, reeling off 11 straight victories and eventually winning the league's earned run title with a 2.33 average.

While Peters became the first White Sox player to sign, third baseman Rich Rollins signed with Minnesota, catchers Ed Bailey and Gene Oliver with Milwaukee and pitchers Bob Garibaldi and Al Stanek with San Francisco.

Rollins, who had a broken jaw and a hip injury last season, signed for a contract in the neighborhood of $15,000-$20,000 after winding up third in the American League batting race with a .307 average. He hit 16 homers and collected 61 runs batted in.

Bailey, obtained from San Francisco, and Oliver, acquired from St. Louis, are expected to supply the Braves with additional power. Bailey hit .263 last season with 21 homers and 68 RBI while Oliver batted .241 with 17 homers and 65 RBI.

The New York Yankees' minor league players will train at Hollywood& Fla., next spring.

Nicklaus Eyes Crosby Meet Cash

PEBBLE BEACH, Calif. (AP) —Jack Nicklaus looks for an early birthday present and a way to break veterans' early monopoly of 1964 professional golf titles when he makes his year's debut this week in the $60,000 Bing Crosby National Pro-Amateur Championship.

He'll join a star-studded field of 174 pros in an event branded as unofficial this year because of its concurrent pro-am scramble.

Nicklaus, the U.S. Open king in 1962, earned $100,000 last year and won the Masters and PGA titles. But where he sat on the sidelines in early 1964, veterans Paul Harney and Art Wall won the Los Angeles and San Diego Opens.

Harney is a 34-year-old seldom-touring club pro and Wall, at 40, is strictly in the veteran class. Nicklaus, by contrast, will celebrate his 24th birthday next Tuesday — two days after the Crosby's final round.

The tournament opens Thursday over three long, wind-swept, ocean-bordering courses: Pebble Beach, Cypress Point and Monterey Peninsula.

7th Grade Teams Swap Victories

Lamar and Travis 7th grade basketball teams swapped out in the victory column in a doubleheader Monday. Lamar Red defeated Travis Blue, 34-24, while Travis White defeated Lamar Gray, 29-22.

Mitch Rambin was top scorer for Lamar Red with 18 points, while Williamson had 7, Herod and Gallman 4 each and Alexander 1. Ken Sehested scored 8 for Travis Blue, while Hollis had 8, Kay 3, Rushing 2, and Brinner 1.

Bennie Ward had 12 points for Travis White, and Rios had 7, January and Lee 5 each. Ritchie Thompson scored 11 points for Lamar Gray, while Holder had 7, Smith and Blythe 2 each and Johnson 1.

Davidsons Like Their Davidson

By BOB GREEN
Associated Press Sports Writer

Down in Davidson they love Davidson. And Davidson.

In fact, Davidson is one of the big reasons Davidson loves Davidson so.

Lest this get confusing, let us explain:

There is a certain town in North Carolina called Davidson. The good people of the community have a great affection for a certain college there, also called Davidson. One of the reasons they have that affection is a certain basketball player, also called Davidson. Don Davidson.

Another reason is that the Davidson Wildcats keep on winning. The nation's fifth-ranked college basketball team reeled off victory No. 13 in an unbeaten season Monday night, beating The Citadel 88-67.

Vanderbilt, No. 6, the only other ranked team in action, beat Mississippi 88-81 and ran its record to 13-1. In other major action, Dayton romped over Portland 82-60 and Oklahoma State took over undisputed possession of first place in the Big Eight with a 77-58 clouting of Kansas State.

Davidson, the player and the Wildcats' top defensive operative, sparked a harassing, pressing defense that helped Davidson, the team, bomb out to a 16-point lead in the first 10 minutes. The Citadel was held to just two field goals in the span.

Vanderbilt was never in serious trouble against Ole Miss., with the Rebels closing up against Vandy subs only late in the game. The Commodores had a 60-40 halftime lead.

Fluvanna's Teams Win

FLUVANNA — Fluvanna Junior High teams swept both boys and girls games from Westbrook cagers Monday night.

Nannette Bruner cashed in on a free shot with two seconds left in the game to give the Fluvanna Junior High girls a 16-15 decision, while the Fluvanna Junior High boys won by 39-25.

Miss Bruner scored 12 points, while Sandra Stansell accounted for the other 4 points for Fluvanna. Pat Bell scored 5 points for Westbrook, while Chris Reed and Carylon Putman had 4 each and Sue Bell had 2.

Victor Contreras scored 10 points for Fluvanna boys. Joe Belew, Johnny Stansell and Paul Bilano had 6 each and Johnny Dunnam had 3. Boggs was high man for Westbrook with 14 points.

Tors, Cubs Win Openers

Lamesa and Brownfield joined Snyder in the victory column last night as District 3-AAA basketball teams launched conference play.

Lamesa downed Sweetwater, 76-50, at Lamesa, while Brownfield's Cubs won a squeaker, 61-58, over the Colorado City Wolves at Brownfield.

The Tornadoes held a 37-17 lead over Sweetwater at halftime as Bubba Robertson led the way with 19 points to take scoring honors. Benny Pace had 18 for Sweetwater.

Bill Spears scored 18 points to pace Brownfield, while Ron Hillhouse of Colorado City was top scorer of the game with 20.

Ford Wins Motor Trend's "Car of the Year" Award

January 8: Motor Trend magazine's "Car of the Year" Award goes to an engineering breakthrough! It honors all the '64s from Ford "For engineering advancement in the concept of Total Performance, proven in open competition."

Thunderbird, Falcon, Super Torque Ford, Fairlane (reading counterclockwise): winners of Motor Trend's "Car of the Year" Award

Here's what the Motor Trend Award means to you...

The editors of Motor Trend, America's largest general automotive magazine, watched Ford's *total performance* in open competition . . . saw competition-modified Fords win every 500-mile stock car race in the last year, saw Ford-built engines end an era at Indianapolis and sweep the sports car circuits.

Then they drove the 1964 Fords, Falcons, Fairlanes and Thunderbirds and discovered how the lessons of open competition have helped breed into them a new kind of *total performance* for the open road, for your kind of driving. And then they made their award!

The "Car of the Year" Award is an impressive testimonial, but see for yourself—take the wheel of a '64 from Ford. These cars speak for themselves with their ease of handling in a supermarket parking lot or their greater stability on a rain-slick blacktop.

Before you buy any new car this year, test-drive *total performance* in a Solid, Silent Super Torque Ford, now hundreds of pounds *more* car than anything in its field. Try America's only *total performance* compact, the Falcon V-8, totally new, totally changed. Or, any of the '64 Cars of the Year from Ford!

TRY TOTAL PERFORMANCE FOR A CHANGE!

FORD

FALCON • FAIRLANE • FORD • THUNDERBIRD

That's Total Performance!

Probe Pledged In Ventures Of Baker, Sen. Smathers

WASHINGTON (AP) — Senate investigators pledged today a full inquiry into a joint land venture by former Senate aide Robert G. Baker and Sen. George A. Smathers, D-Fla.

But today's open hearing remained focused on the vending machine aspects of Baker's business dealings.

The Senate Rules Committee is investigating whether Baker, who resigned under fire last Oct. 7 as Senate Democratic secretary, engaged in business dealings that conflicted with his duties or involved other improprieties.

Called back for more testimony today was Eugene A. Hancock of Miami, Fla., president of Automatic Vending Services, Inc., and former president of another vending machine company known as Serv-U Corp.

The committee was told Monday by another witness that Baker received $650 a month for helping land a defense plant franchise for another vending machine company.

Smathers' name came up in the testimony late Monday of Milton Hauft, a veteran of 15 years in the Internal Revenue Service, who said he has assisted Baker in preparing his federal income tax returns.

Asked if Baker had reported about $4,000 in income on his 1962 return from a land operation in Florida, Hauft replied he was not quite sure of the amount. But he said the income represented Baker's share of a joint Florida land venture with Smathers and the senator's former administrative assistant, Scott I. Peek.

In a statement issued after the hearing, Smathers said that early in 1957 he took a one-fifth interest in a real estate transaction in central Florida. He didn't give any dollar figure or identify the land venture further.

Smathers said that a few months later at his invitation both Peek and Baker bought one-eighth interests in his share for $1,500 each.

The undeveloped acreage has been sold in small lots and Peek and Baker each has received "a return of slightly over $1,000 a year on his investment over the past seven years," Smathers said.

Peek said in Miami that he had not been in business with Baker and did not want to comment while the investigation is under way.

Cases Heard In County Court

A jury trial was in progress this morning in county court in the case of Amy Irving who is charged with a liquor law violation.

The case was expected to go to the jury late this afternoon.

Before the Irving case was called to trial, a non-jury case was heard in which G. W. Johnson pleaded nolo contendere to a DWI charge which had been filed by Snyder city police.

He was fined $100 plus costs of $26.35 and assessed a three-day jail sentence.

Brazos Authority Hopes To Start Dam In 1964

WACO (AP) — Officials of the Brazos River Authority hope to start construction of De Cordova Bend Dam in Central Texas as before the end of the year.

Work on the $21 million project moved a step closer Monday as Texas Power & Light Co. and Texas Electric Service Co. contracted to purchase enough power and water from the BRA to finance the undertaking.

Signing the agreement were W. E. Boger of Cleburne, president of the Brazos River Authority; W. W. Lynch of Dallas, president of Texas Power & Light, and Beeman Fisher of Fort Worth, president of Texas Electric Service.

Besides the 2,500-foot dam, the project includes a power plant at De Cordova Bend near Granbury, in Hood County, and a third power generating unit at Possum Kingdom Dam, near Mineral Wells.

The dam, reinforced with concrete, would rise 82 feet above the river bottom to create a lake stretching 33 miles upriver into Parker County. This reservoir would store 50 billion gallons more water.

Generating capacity of the De Cordova plant will be about 32,000 kilowatts. At Possum Kingdom, where there are already two power plants, the added capacity will be 34,000 kilowatts.

BRA directors agreed to proceed two weeks ago after a land cost study indicated the required acreage could be bought at reasonable prices, and after an informal agreement with the two power firms. Revenue from power and water will help retire a bond issue to finance construction.

LIGHTEST MEXICO

BY J

IXTAPAN, Mexico — Everybody just sit back and relax now because barely over the medical horizon we have a set of computing gadgets that will diagnose everything simply by getting on the frequency.

It says in this magazine that tiny electronic sensors attached to strategic points of your anatomy will make this possible. And chronically ill out-patients would wear these tiny sensors as they go through their daily routine so the doctors can listen in.

For example, you would have a group of medics sitting around a computer trying to figure out their horoscopes when one of them would suddenly say, "Tune in on Gonzalez and let's check his diagnosis."

After the dials are set and lights flash and bells ring, the computer would announce, "Patient's condition satisfactory, had good lunch and is responding normally to medication."

The doctor would then say, "Ain't that a dinger? Now let's get back to the horoscopes."

According to this new feature of science, there are several types of computers and each one has its place in the world of tomorrow. And the article says one of the most widely known is a tiny, transistorized battery-powered radio oscillator the doctors imbed in the abdominal walls of patients suffering from heart block.

Apparently they put you on the table and the chief surgeon says, "All right, apply the anesthetic." So one of his aides gives you a wallop with a padded mallet.

The surgeon checks you cautiously and says, "His eyes are spinning. Let's open him up." But as soon as the incision is made and the surgeon calls in the radio mechanic, he takes a look and shouts, "What in Heaven's name is that?"

The mechanic replies, "Gee doctor, I couldn't find none o them tiny batteries so I brough this old six volt telephone ba tery but it's working all right."

The doctor shakes his head and says. "Well stuff it in. People will probably think this man is pregnant but science can't take any backward steps at this point."

And the author of this treatise on internal electronics say there are scores of other instruments that will aid in every thing including monitoring key body functions during critical operations.

Like they get you unconscious and open and all the doctors begin peering inside but they can't find anything except a pair of pliers another doctor forgot during the last operation.

The chief surgeon finally says, "We better connect his wires to the main computer and see what's happening." They do and in a minute the main computer drops out a slip of paper which says, "His left knee is dislocated."

All of which is very well but the one that intrigues me is the ingenious little radio pill which the patient swallows and the radio orbits around transmitting all sorts of data about what is going on inside the patient.

In rare instances, you might find the doctors hovered around their computer and one of them decides to tune in on Mr. Fernandez who is somewhere downtown with the radio pill in him. As soon as they get on frequency, the computer feeds out a long tape which says, "Scattered high clouds this afternoon with winds at 6 mph from the northwest, no change in temperature."

Like this article said though, the system is still just over the horizon and hasn't been perfected yet.

YOU CAN'T SAY THERE ISN'T A DIFFERENCE

Presence Of Foreigners Stirred Both Canal Revolts

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — While there is some similarity between events now involving the Panama Canal and what happened at the Suez Canal in 1956 there is small chance the outcome will be the same.

The Egyptians seized Suez in 1956 and have run it since. But Secretary of State Dean Rusk says this country cannot afford to pull out of the Panama Canal Zone even though the Panama Assembly has demanded Panamanian control.

What was similar at both canals was the rising nationalism of Egyptians and Panamanians and their resentment of a foreign presence on their soil: the British at Suez and Americans in Panama.

In both cases, Egyptian and Panamanian nationalism was a by-product of World War II, which left the European colonial powers so prostrated they had to yield their colonies.

To Panamanians and others, particularly in Latin America, Americans in Panama no doubt mean sheer colonialism even though this country has a treaty with Panama to be there and run the canal.

Because this country is so big, considers itself the leader of the free world, and is trying to keep small and backward countries away from communism, it cannot help but feel self-conscious in its dispute with poor and tiny Panama.

For this reason the Panamanians can feel encouraged to push and push for concessions. By the same token, this country undoubtedly will feel compelled to make them although, from what Rusk says, not total withdrawal.

The background of the two canals is not identical.

While the French built the Suez Canal in 1869, the British became the canal company's biggest stockholder in 1875. They subsequently built a huge military base at Suez.

After the war, the Egyptians, like the rest of the Arab world, had enough of colonialism. They saw the British give up India in 1948. In 1952 an army revolt threw out King Farouk and took over Egypt. Not long afterward Col. Gamal Abdel Nasser became president.

He pressured the British into pulling their troops out of Suez. The United States and Britain hoped to win him over, offered to help him build a huge dam across the Nile. He dickered with the Soviet Union and tried to play both ends against the middle. He proclaimed himself a neutralist.

The United States and Britain withdrew their offer of help on the dam. Nasser retaliated by seizing the canal. Not long afterward Britain, France and Israel began an invasion of Egypt. This came to a quick stop when the United States and the Soviet Union disapproved.

The canal company's contract with Egypt was to run until 1968 after which the Suez was to be turned over to Egypt. Nasser took it 12 years ahead of time. The situation is different with the Panama Canal.

This country's 1903 treaty with Panama for American control of the canal completely lacks a limit like the British had at Suez. It says American control is to run forever, or at least indefinitely. This alone has irritated Panamanians.

But they benefit from the canal although whether they could benefit more if they tried to run it themselves is something else.

Panama gets almost $2 million a year from this country for use of the canal. Any income from the canal above operating costs is spent on improvements.

The Panamanians get money from jobs they hold in the zone and from money spent in Panama itself by ships crews and tourists.

The canal has commercial importance to this country but not nearly so much military value as when it was built and this country had a one-ocean navy. But it is, in a sense, a military base. There are 36,000 Americans in the zone, including 10,000 troops and their families.

The Panamanians—at this time—will probably settle for less than control of the canal. They have made other demands: more money for use of the canal, some changes in the treaty, better pay for Panamanians working in the zone.

Nasser could seize Suez without declaring war on Britain because the last British troops had left before he acted.

Efficiency Of New Year Temporary

By HAL BOYLE

NEW YORK (AP)—Life is getting back to normal in the average American business office, and everybody feels better.

At the start of a new year, there is always a tremendous surge of efficiency.

The suggestion box is stuffed with big ideas from the hired hands on how the company can dominate its industry, ideas which a thoughtful management promptly dumps in a wastebasket.

Everyone is full of pep, and attacks his duties with the frenzy of an eager beaver who is afraid there'll be no tomorrow.

Each employe rushes through breakfast to get to work on time. The time spent on coffee breaks drops.

The bunch that usually trade gossip at the water cooler now bend busily over their desks. Even the office boy quits spending half his day looking at himself in the washroom mirror while he combs his hair, and decides to take a course in night school to prepare himself for taking over the company's leadership.

At the end of five days of this extraordinary activity, Harry Quibble, the union shop steward, voices a worry: "If we keep up this pace, fellows, we'll have all the year's work done by April—and then they'll cut the office staff in half."

His concern is unnecessary. Enthusiasm for reform usually is short-winded.

By the close of the first week, backsliding begins.

The secretary who got to work five minutes early now starts arriving five minutes late, then 10, then 15.

The vice presidents who were so intent on solving their problems go back to shuffling papers, writing cloudy memos and passing the buck.

The coffee breaks get longer.

Those who couldn't find enough to do last week now are complaining if they have to do anything. Clock watching is popular again, and it seems like a long, long time until quitting time.

Yes, the annual perfection binge is over. The boss is pleased rather than displeased. Confident now that no executive on his staff will knife him out of his job, he packs his golf bags for a well-earned rest in Florida.

Junior Editors Quiz on HUMMINGBIRDS

QUESTION: Where do hummingbirds go in the winter?

• • •

ANSWER: The hummingbird is truly a tiny creature. An ordinary teaspoon will hold four newly hatched hummers, each about the size of a bee. If you look closely at the bottom of the picture you will see a hummingbird sitting on a blade of timothy grass, proving how light they are. With all their lightness, however, they are among the most remarkable fliers in the bird world. They not only hover in the air, they can actually fly backward (3) being the only birds which can do so.

The most familiar American hummingbird is the Ruby Throat. These jewel-like little creatures breed from Labrador down to the southern states. In autumn, they perform their greatest flying trick. Working down through the South to Florida, these mighty mites strike out boldly across the Gulf of Mexico. Without rest or food they fly some 500 miles directly to Yucatan or Central America. There they travel to their winter homes, which are in various parts of Mexico and Central or South America. For such tiny birds to make a sustained 500 mile flight is truly astonishing.

• • •

FOR YOU TO DO: Study the large hummingbird head and bill in (4). Most people think of these birds as living entirely on flower nectar. They do feed on this, but the long tongue coming from the bill has a sticky tip, with which the little bird catches small insects. 1-14

(Riki Raymond of Bremerton, Wash., wins today's grand prize of a 20 volume set of the World Book Encyclopedia for this question. Mail yours on a postcard to Junior Editors in care of this newspaper, and you may win a set too.)

Wirth Earned Credit For Fine Nat'l Park System

By J. W. DAVIS

WASHINGTON (AP) — If you've ever enjoyed the natural wonders of one of America's national parks, the chances are you owe a debt of thanks to Conrad Wirth, one government official who has rarely been turned down when seeking an appropriation from Congress.

Wirth, who has headed the National Park Service since 1951, goes into retirement next week a happy man. He is not even upset by the egg-shell scatterers, beer-can tossers and initial carvers who once in a while mess up the scenic and historic spots it's been his privilege to supervise.

Wirth's career and the park service's have been unusual in the federal government.

For one thing, Congress has almost fallen over itself to give the park service what it wants.

An example: When Wirth came up with the idea for Mission 66, a mammoth program of improvement and expansion that will run until 1966, the House Appropriations Committee voted $17 million more for the first year than Wirth had asked for.

Congress usually reflects the feeling of the people.

Wirth once wrote for an Interior Department book:

"Truly the parks are being loved to death."

George B. Herzog Jr., who has been associat director of the park service under Wirth, succeeds him as director.

Wirth, who was born in the City Park of Hartford, Conn.—his father was park superintendent and the family had a house there—was 61 on December 1. There was no urgency to retire.

"I could stay on until I'm 70," he said in an interview. "But I believe 60-65 is a good time to retire. A person should retire while he is healthy and feeling good, leaving the organization in good shape."

Wirth has been in government service since 1928, starting with the National Capital Parks and Planning Commission.

He is turning over to Herzog the world's finest park system, one that other nations are glad to copy so far as they can, and one that has become steadily more popular with its owners, the American people.

Here are a few figures:

The billionth visit to park areas, since records began 58 years earlier, was recorded in August 1962. The second billion is due to be recorded in 1973, only 11 years later. Visits now are running around 90 million a year.

There are 26 million acres in the 201 park areas of all sorts —including 31 national parks, 83 national monuments and memorials, plus various historical areas, battlefield sites, national cemeteries, parkways, etc.

State GOPs Plan Preferential Poll

DALLAS (AP) — Republican State executive committeemen may decide Saturday whether to let Texas GOP voters ballot on aspirants for the party's presidential nomination.

State Chairman Peter O'Donnell Jr. said Monday "It is entirely possible" the executive committee will decide this weekend whether to hold a presidential preferential poll as part of the party's May 2 primary.

O'Donnell said he believes most executive committee members favor such a poll.

The Republican leaders will meet Saturday in Houston.

Some observers feel the poll would draw many independent conservatives to the Republican primary instead of the Democratic primary, held the same day.

O'Donnell is just back from a Washington meeting of the Republican national committee and state chairmen. He said those at the gathering concluded:

1. Lyndon Johnson will "be an easier candidate to beat" than President Kennedy.

2. Sen. Barry Goldwater remains the front runner for the GOP nomination.

3. Even though President Johnson is a Texan, the Republican presidential candidate has a good chance of carrying the state next November.

O'Donnell, who served as national chairman of the "Draft Goldwater" committee, said he will concentrate on strengthening the party's Texas organization in the months ahead.

"We feel our committee accomplished its purpose when Goldwater agreed to seek the nomination," O'Donnell said. 'I will still be available for consultations with his staff, but will devote much of my time to strengthening the party in Texas."

Wheat Sale May Become Vote Issue

By OVID A. MARTIN
Associated Press Farm Writer

WASHINGTON (AP) — The recent sale of American wheat appears likely to become a major issue this presidential election year.

Some Republican critics of the Democratic administration contend that the sale of 37 million bushels of the grain gave the Soviet Union—an avowed foe of American democracy—an undeserved bargain.

They contend the bargain was contained in a subsidy the Agriculture Department will pay the big grain company which engineered the deal.

The company sold the wheat to the Russians for around $64 million at U.S. ports. It will pay an estimated total of $90 million for it delivered by freight cars at these ports. It will buy some of the wheat from government surplus stocks and some from private grain dealers.

Why the difference between the price the company pays and the price it receives for the wheat? For many years the Agriculture Department has been holding prices of wheat in this country above world price levels under a farm-price-support program.

In order to enable exporters to sell the higher-priced U.S. wheat abroad in lower-priced markets, the department has been paying shippers the difference in the form of an export subsidy. Without this subsidy, officials say, no U.S. wheat would move abroad.

To enable the grain company to make the deal with Moscow, the department committed itself to pay the concern an export subsidy of around $26 million.

While the Russians will pay roughly $64 million for the 37 million bushels of wheat, it will cost them $14.5 million additional in ocean shipping costs, thus bringing the total cost at Soviet ports to about $78.5 million.

The controversy regarding the export subsidy relates to only a part of the wheat sale, about 13 million bushels of durum wheat, the type used mainly for making macaroni, spaghetti and similar products.

Reno Holds Class On Tax Forms

RENO, Nev. (AP)—The University of Nevada evening division is offering a course in how to fill out individual income tax returns.

The course lasts 10 weeks and costs $20.

The course ends March 24, leaving students three weeks to complete their forms and file them with the Internal Revenue Service.

Oklahoman Winner In Steer Wrestling

DENVER (AP) — Billy Hale of Checotah, Okla., was named winner Monday night of the first go-round in steer wrestling at the National Western Rodeo. He was one of 97 entrants.

Cowboy competition in five events will end Saturday night.

In girls' barrel racing, which reached the halfway mark Monday, Sherry Combs, also of Checotah, led with 64.9 seconds for four trips through the clover-leaf-shaped course. Fay Ann Horton of Kilgore, Tex., was third with 65.2.

Hilsman Claims Aid Cuts Give Reds Time Advantage

By SPENCER DAVIS

WASHINGTON (AP) — Asst. Secretary of State Roger Hilsman predicts that congressional cuts in foreign aid will lengthen the period of high risk and danger to Asian countries vulnerable to Communist aggression.

Hilsman, the State Department's top expert on the Far East, characterized the problems confronting this region as "big and bold." They could not be solved in 1964 or in any single year, he said in an exclusive interview.

"All you do with cutting in aid is to stretch out the time when some of these countries are vulnerable to communism and to stretch out the time when you are running high risks, stretching out the period of danger," he said.

"The more aid we have, the sooner we will solve some of these problems and the less time there will be risk and danger to the whole of our foreign policies and national security.

"So I think that an aid cut is a serious matter."

Hilsman was referring to the action of Congress in reducing the foreign aid program from an administration request of $4.5 billion to about $3 billion.

Hilsman said he has not detected any sign of moderation on the part of Communist China's present leaders. Among the unsolved basic problems of the Far East, he also cited Communist aggression, poverty, the need for modernization and development.

Highlights of Hilsman's replies to questions follow:

Q. South Viet Nam—Is the situation worsening?

A. I don't think I would agree with the latter judgment. We have always been aware that the most serious area of all in Viet Nam was the delta. The war effort and the attempt to extend security to the countryside has gone very well in the coastal regions and the mountain provinces. There has been a change of government there which means that there is a period, which we are still in where the new government has to get itself fully organized.

The Viet Cong, the Communists, have attempted to take advantage of this by stepping up their military campaign. The new government has also stepped up its military campaign to a higher level. As a consequence there are more battles and more casualties. Actually the casualty rate between the Viet Cong and the government has turned more in the favor of the government in these last three years. Whether this will remain, we will have to see. I would sum up by saying that there is a serious problem in the delta but I believe it can be resolved.

Q. What do you think of efforts to neutralize South Viet Nam?

A. On the question of applying a neutrality scheme to Viet Nam, this is totally unacceptable. The Vietnamese people in a valiant struggle over several years have demonstrated that they want to eject Communists that have been inspired and infiltrated from the north in what constitutes aggression. The U.S. government is determined to support the Vietnamese government in eliminating this Communist terrorism.

Q. Will the United States be able to withdraw its training mission from South Viet Nam by 1965?

A. There has been some misunderstanding of what this announcement of Oct. 2 meant and said. It was not intended to end our training or support for South Viet Nam. It was not meant that this was ending in 1965. What were referred to were personnel whose particular tasks by this time—1965—the Vietnamese could take over. Our purpose is to help them but the major task is theirs. We will continue to have a training mission. We will continue with whatever aid is necessary to win.

Q. Is there any way the United States can join in an international inspection and guarantee of Cambodia's borders?

A. Since 1954, Cambodia has declared it would follow a neutralist policy. We have always accepted this and always assumed that this was a central theme of our Cambodian foreign policy. As far as more recent proposals go these will have to be looked at very carefully, it seems to me.

Q. On Communist China do you see any trend in the direction of moderation that might evolve among Chinese Communist leaders. In your recent speech on the open door policy toward Communist China were you talking in the historical sense of a trend that might take place?

A. I didn't use the word moderate or "moderation" and I really don't expect this out of the Chinese Communists. The speech enunciated a policy of firmness, flexibility and dispassion. Firmness in our support of the Republic of China on Taiwan (Formosa) and of our commitments to them and our determination to honor these commitments. Firmness in dealing with any aggression from the Chinese Communists; flexibility, to keep an open door to developments in this part of the world, and in terms of looking at developments cooly and objectively; and dispassion in terms of not being ruled by emotion as you deal with complicated problems.

Wide Trade Gap Seen With Soviet

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—Washington is talking up another gap between the United States and the Soviet Union. This one is economic.

And the Central Intelligence Agency says that the gap between the two economies is much wider and more to our advantage than many Americans had been led to believe.

The CIA view is that the Soviet economy is badly in need of assistance from the West and largely on a credit basis.

Many American businessmen have industrial goods they'd like to sell the Soviets, if Washington permitted; and many consumer items they'd like to sell, if Moscow would allow it. But the CIA adds that Moscow hasn't as much gold to pay for such trade as had generally been assumed.

Previously Americans have worried about a possible missile gap, but of late have been assured that U.S. defenses are far ahead.

U.S. trade with the Soviet Union is currently being increased by contracts for sale of surplus wheat and other grains. Otherwise it doesn't amount to much, either in volume or in percentage of U.S. foreign trade.

Western Europe's trade with the East is larger. And it is growing, despite the frowns of Washington on some of the items the West is furnishing. In return, Europe is taking Soviet oil, to the distress of American oil companies and of State Department officials who see it as beefing up a faltering Communist economy. The Soviet Union will soon have a pipeline delivering its oil to the edge of the Iron Curtain.

The comforting word on how much better the American economy is doing than the Soviet's is spelled out in figures by the CIA. It says that in the last two years the Soviet economic growth has been less than 2.5 per cent annually.

Despite all the worrying about it, the U.S. economic growth has been well above that and currently is put as high as 5 per cent on an annual basis.

Moscow's gold reserves go unreported officially. American experts have estimated them as high as $4 billion. But the CIA says they've fallen below $2 billion since Moscow started selling in volume to raise foreign currency for purchase of wheat and other needed commodities.

American businessmen regard the CIA estimates as largely aimed at trying to discourage Europeans from extending credit to the hard-pressed Communists. But they also see it as perhaps a foreshadowing of future refusals of Washington to permit extended trade here with the Soviets, who might be wanting chemical plants or fertilizer among other things.

In 1962 our exports to the U.S.S.R. totalled $15.3 million out of $20.5 billion for all exports; and imports $16.2 million out of $16.1 billion. The wheat deals will raise the figures this year.

But businessmen hoping to follow up the wheat exports with sales of more American goods apparently will still face tough Washington restrictions on just what can be sold, and discouragement on granting credit.

Oklahomans Put To Test With Daily Sonic Booms

By JERRY SCARBROUGH

OKLAHOMA CITY, Okla. (AP)—Think your nerves could stand eight sonic booms a day for the next six months? Residents here are going to find out.

Gordon Bain, deputy Federal Aviation Agency administrator, says public reaction to the disturbances will have a great deal to do with the future of overland flights in supersonic transport planes.

The FAA, beginning in February, will conduct a program during which eight flights daily pass over residential areas at speeds greater than the speed of sound.

Air Force F104 fighter planes will create the booms on flights at 30,000 to 40,000 feet over Oklahoma City.

Bain said Monday night the FAA believes the supersonic transport plane may be the finest commercial transport that has ever flown.

"But it is necessary to find out how people feel about this phenomenon," he said. "The only true judge of acceptability has to be the people who live below in these sonic boom paths.

"We can have the finest and safest aircraft, but if it is disturbing to those below, it may not be practical."

He said the first of 1,212 scheduled flights will be made Feb. 3. Bain stressed that the sonic booms will be controlled and will not equal some of the brain-rattling booms of the past.

Sonic booms cannot be eliminated, Bain said, so people will either have to live with them or an alternate solution must be considered.

He said the alternative could be avoiding flights over residential areas or just scrapping the supersonic transport plane program.

"People might well, even if it's objectionable, tolerate it for two or three weeks," Bain said. "But we hope to find out by longer study their true reaction."

Bain said acceptability of the booms will be determined by a public opinion survey.

He said "we have found that after people hear a few booms at this level, they hardly pay attention."

Gov. Love Skeptical Of State's Windfall

DENVER (AP) — A resident of Utah has shown concern for financial problems of the state of Colorado.

In the mail Monday for Gov. John Love was a savings deposit withdrawal slip — equivalent to a check—made out for $2 billion. Love declined to identify the sender.

"I think I'll check the size of the man's bank account before turning it in for cash," said Love.

Eric the Red established the first Viking colony in Greenland about 987 A. D.

5 Die In Ravine

MEXICO CITY (AP) — Five persons were killed and seven others injured when a truck fell down a 450-foot ravine near El Novillo dam, 134 miles from here.

The accident was caused by a broken steering rod.

KHRUSHCHEV HAS A VISITOR — Cuban Premier Fidel Castro stands with his arm around Nikita Khrushchev's shoulder during a surprise visit to the Soviet premier in the Kremlin. This picture is from Tass, the Soviet agency. (AP Wirephoto via cable from Moscow)

Oil Production Up

TULSA (AP)—New production allowables sent U. S. oil production upward last week, the Oil and Gas Journal said today.

Average daily production was 7,537,725 barrels, up 38,210 from the previous week.

The biggest increase was in Oklahoma, up 32,400 barrels to 5 5,000 daily.

Arkansas produced 76,280, Colorado 100,900, Louisiana 1,491,825, New Mexico 299,500, and Texas 2,618,450.

FBI Report Due In Dallas Office

DALLAS (AP) — The FBI report on its investigation of the assassination of President John F. Kennedy should be in the hands of Dallas Dist. Atty. Henry Wade "in the next few days," says Atty. Gen. Waggoner Carr.

Carr told the Highland Baptist Brotherhood Monday night he had asked Lee Rankin, chief counsel for the presidential commission investigating Kennedy's death to make the report available to Wade.

Carr said he believed the Warren commission's investigation would be "complete and thorough" but he indicated he would call a state court of inquiry after the commission makes its report.

The attorney general said he believed proof gathered in the commission's investigation sould be made public "at the proper time" and translated into foreign languages.

Carr told questioners he knew of no link established between Lee Harvey Oswald, President Kennedy's accused assassin, and Jack Ruby, the Dallas night club operator who shot Oswald.

Carr said evidence had been uncovered which made it likely the gun used to kill President Kennedy was also used in a sniper's attempt on former Gen. Edwin A. Walker. The reported attempt on Walker's life came in April, 1963.

Carr emphasized he agreed with Chief Justice Earl Warren in calling off the state court of inquiry, at least for the time being.

He also said he and lawyers Leon Jaworski of Houston and Robert Storey of Dallas had been asked by Warren to sit in with the presidential commission in its probe.

"We examined all the evidence which has been placed in the hands of the commission, as well as the future plans of the commission, and I can honestly tell you that we were impressed by the thoroughness of the investigation that is planned," Carr said.

"Play Piggly Wiggly's BEVERLY HILLBILLIES Game" WIN UP TO $200.00

FREE 21" ADMIRAL COLOR TV

plus GOLDEN JALOPIES FOR THE KIDS!

Boys and girls can win a GOLDEN CHARM replica of the Beverly Hillbillies' car.

HERE'S HOW TO PLAY:

VISIT PIGGLY WIGGLY AND RECEIVE A BEVERLY HILLBILLIES GAME TICKET. Take it home with you, wipe off the black squares by rubbing with tissue or cloth, using any household oil, margarine or butter. CASH WINNERS UP TO $200.00 will be indicated on the face of the ticket.

Underneath the black square on the car radiator, there will appear the name of one of the four members of the Clampett family. Collect one each and you win an ADMIRAL COLOR TV SET, retail value $500.00.

Reverse side of ticket will show a variety of numbered pictures. A complete set of ten consectively numbered pictures entitles you to win a miniature golden charm replica of the BEVERLY HILLBILLIES CAR.

Persons under 16 years of age and employees of Piggly Wiggly and their immediate families are not eligible to play.

EMPIRE COLLAPSES—Paul Amos Sandblom, in shirtsleeves, his handcuffed hands hidden by his folded coat, enters the office of the U. S. Commissioner at Corpus Christi, Tex., where his bond was set at $25,000. Sandblom, whose multi-million dollar investment business is in voluntary bankruptcy, is charged with using the mails to sell securities without having a registration statement on file with the Securities and Exchange Commission. At right is his attorney, Oscar Spitz, and left, is U. S. Deputy Marshal Hilton Schorre. (AP Wirephoto)

Dozers Plow Out Houses Left After Flood Disaster

By ROBERT M. BURNETT

LOS ANGELES (AP)—Wrecking crews marked the one-month anniversary of the Baldwin Hills Dam disaster today by ramming bulldozers through homes left mangled by the devastating flood.

The area below the broken reservoir—once a tranquil and attractive residential neighborhood—now looks like an urban renewal project as trucks in an endless string haul away rubble and mud.

Homes on each side of the flood path, sliced open by the rampaging waters, gape on the busy scene, grim reminders of the Dec. 14 tragedy that killed five persons, injured 27, and caused damage estimated at more than $11 million.

Stricken residents, still shocked by the sudden loss, watch demolition crews rip apart the wreckage of their dwellings.

Mrs. Mollie Kaplan voiced a typical reaction as a giant crane tore the roof from her home and dropped it into a truck.

"Somebody is going to have to pay us for this."

Like most victims, she isn't sure just who that will be.

Authorities say 41 homes were swept away or smashed beyond repair.

An estimated 1,500 dwellings were damaged, including 400 of the 650 apartments in Village Green, a garden-court development.

More than 3,000 autos were damaged by mud-laden water that surged up to 10-feet deep through business and residential streets. Two schools were closed temporarily, 45 streets blocked off and 56 business and industrial establishments damaged.

Estimates of damage ran as high as $50 million but Col. Earl Peacock, chief area engineer for the Army Engineers, late said that replacement costs would be about $11.3 million.

Cost of the cleanup alone will run about $1 million.

Several inquiries are under way in an effort to determine the cause and to fix responsibility.

C-C's Man Of Year Suspected Embezzler

BROWNSVILLE (AP) — Lamar Evans, the Bay City Junior Chamber of Commerce's 1963 young man of the year, has been indicted on three counts of embezzling funds from the Bay City Bank and Trust Co. where he worked.

A federal grand jury indictment returned Monday accuses the 29-year-old former assistant vice president of the bank of embezzling a total of $861 on July 11, 1963, Aug. 12, 1963 and Aug. 16, 1963.

U.S. Atty. Gerald Mize of Houston said Evans will be arraigned in Houston in about two weeks.

Little Pony's Starter Didn't Freeze Up

BOULDER, Colo. (AP)—Neither of Mrs. Stevie Noblitt's two cars would start in Monday's zero weather. She rode the three miles to work on a Shetland pony owned by her three children.

Prison System Has Guard Shortage

HOUSTON (AP)—Dr. George J. Beto, director of the prison system, says there is a severe shortage of guards.

He told the Texas Board of Corrections Monday the system now has eight fewer guards than it did Sept. 1 last year.

"In case of an emergency we will just be in a bad way," he said. "We are operating with awfully thin security."

H. H. Coffield of Rockdale, board chairman, said the system is more than 150 men short, despite a $50 raise voted by the last legislature.

BIRTHS

Mr. and Mrs. Gilbert Ramos, Box 334, are the parents of a 6 lb. 6½ oz. baby boy born at 12:52 a.m. Jan. 14 at Cogdell Hospital.

Mr. and Mrs. Johnny Everts, Route 3, are the parents of a 9 lb. 6½ oz. baby boy born at 3:30 a.m. Jan. 14 at Cogdell Hospital.

JANUARY CAN BE FUN: OR, LET'S ALL GO TO THE BUICK SPORTS CAR RALLY.

REALLY.

You say you're just plain sick and tired of spending another dreary winter in that car you've got now? You say you'd like a very, very good buy? You're exactly the person we've been looking for.

Let's get together soon, during our Buick Sports Car Rally—which is your chance to drive a sporty Skylark, Wildcat or Riviera. Have a sporting good time of it!
