OFFICIAL COUNTY PAPER OF OCHILTREE COUNTY

VOLUME VI.

PERRYTON, OCHILTREE COUNTY, TEXAS, FRIDAY, MAY 18, 1923.

NUMBER 15

TO GIVE PRIZE FOR BEST NAME SUGGESTED

G. R. Wilson and A. J. Miller have gone into the pure bred hog business and they are offering a cash prize of \$2.00 for the best name suggested for their farm, which is two miles northeast of Perryton. The name must not be over four words and the last two words must be Duroc Farm. Here is an opportunity for you to make two "plunks" with very little effort. Get your thoughts working and send in one or more suggestions, there is no limit to the number you can enter. The only condition is that all suggestions must be mailed to the office of the Ochiltree County Herald, not later than June 1st.

We are pleased to see these gentlemen getting into the pure bred hog game. They are the kind of men that will make a success of it and when their place is conveniently situated to our city. They will breed the well known Duroc hogs. Their farm now contains some of the best hogs in this country and they expect to add several more good animals in the near future.

RUPPRECHT-SHINDLER

The climax of a romance that many had been looking forward to came on Wednesday evening of this week when Mrs. Viola Rupprecht became the wife of Mr. R. T. Shindler. The ceremony was performed at the home of Mr. and Mrs. E. M. Allen by Judge M. Grigsby. The only witnesses besides Mr. and Mrs. Allen were Miss Ruby Hall and Mr. Edward Adgett. Mrs. Shindler is now serving her second term as County Treasurer and is a very competent and efficient official. She has a wide acquaintance and possesses a knack of making a friend of every person she meets. She has resided in this county for about 15 years. Mr. Shindler, "Bob" as he is known to everybody, is the popular owner of the Shindler Drug Co. of this city. He is a wide awake business man and is always been active in any movement for the development of our own and country. We have been able to learn the plans of the newly weds for the future but the report we obtained, they were on their way to Liberal, Kansas. The Herald joins with a host of friends in wishing them a long and peaceful journey on the sea of matrimony.

MURPHY-PENNINGTON

John W. Pennington, better known as "Kid Penny" and Miss Fairy Murphy slipped one over on their friends when they went to Beaver on last Sunday and were there made man and wife by Judge H. D. Meese. Mr. Pennington has been a resident of Perryton for the past year and during that time he has made many friends among the younger set. Mrs. Pennington is a daughter of Mr. and Mrs. B. H. Murphy, who are among the foremost pioneer citizens. Fairy is a very accomplished young lady and has always been one of the most popular girls in the county. She was a student in the Perryton High School until her unheralded departure to embark upon the sea of matrimony. Immediately after the ceremony the young couple left for Marillo. As to their future plans, we have been unable to ascertain. The Herald joins with their many friends in wishing them a long and happy married life.

CLASS ENTERTAINMENT

The Sophomore Class entertained at Chapel Monday morning. They presented an amusing program composed of a class song, a pantomime, solo, recitations and a playlet. All enjoyed many hearty laughs. Quite a few visitors were present and expressed their appreciation of the entertainment.

A number of Perryton people attended the play given by the pupils of the Lone Tree School on last Saturday evening and they all report that it was one of the best rendered amateur plays that they have ever witnessed. Those going from here were Mrs. Ernest Williams, Mr. and Mrs. Frank Dodson, R. H. Francis and family, Prof. L. L. Price and R. James.

PICNIC AT ADOBE WALLS IN JUNE

Mayor F. P. Reid announces that Mrs. Billy Dixon and Mrs. W. G. Coble have notified him that the date has been set for the big picnic and barbecue at Adobe Walls for June 14th and 15th.

The festivities will be in charge of Mesdames Dixon and Coble, who will be assisted by a number of others.

During the two-day celebration on the historical old battle ground the Adobe Walls Highway Association will be organized and other matters of interest discussed, among them being plans for raising a fund to erect a memorial at Adobe Walls dedicated to the white men who so valiantly defended the old adobe fort against the savage Indians. Next year, 1924, will be the 50th anniversary of the battle of Adobe Walls, and it is desired that a suitable memorial be erected before that time.

A trip to Adobe Walls is well worth the time of anyone not familiar with the country and the historical setting. Government archaeologists have explored the vicinity several times, and upon one of their more recent visits unearthed evidences of cliff dwellers having resided there many years ago. Several specimens of ancient pottery were also unearthed. Arrow heads found in the vicinity have been known to bear emblems upon them similar to the designs on the French coins, and this strange co-incidence is accounted for by historians through the fact that in 1690 a party of 300 French explorers set out from New Orleans in the general direction of the Rocky Mountains, and were never afterward heard from. It is possible that they were conquered by the Indians, which were no doubt numerous in that section at that date.

State highway officials and other prominent men from over the state will attend the celebration at Adobe Walls, June 14th and 15th. More detailed information will be given out later.—Pampa News.

S. P. ALLEN LOSES LIFE AT CORSICANA

S. P. Allen, field manager for the Hughes-McKie oil well near Corsicana, Texas, was a son of Judge H. A. Allen, brother of Judge S. J. Allen of this city. This was one of the worst oil well fires that has ever been known in the history of the oil development. Sixteen men are known to have been burned to death. Mr. Allen's body was burned to a crisp but he was recognized by a watch found on his body.

A THREE-INCH RAIN

And still it rains. On last Sunday night and Monday afternoon we had a rain which measured a little over three inches. This is the record breaker for this year. It came at a time when we really did not need the moisture but then it will not hurt a thing. Watch out for the Panhandle this year. It looks like a bumper crop year.

ALFALFA NEWS

School closed Friday but on account of the rainy weather Friday night the program and pie supper were postponed until Saturday night. The pies sold well, and brought a total of \$21.95.

George Seitz, Lyman McLanahan and Charley Dutcher shopped in Perryton Saturday afternoon.

Singing was given at the home of Mr. and Mrs. Frank Cox Sunday night. Everyone present reported a pleasant evening.

Sam Handley and Miss Clara McDougal spent Sunday evening at the home of Mr. and Mrs. Val McLanahan and family.

H. M. Samples' are moving on the Guffey place this week, and Mr. Guffey's are moving on the Jines place where Frank Horton's recently lived.

Mr. and Mrs. H. M. Small shopped in Canadian Friday.

B. L. Drake returned from Hazelton, Kansas, this week, where he visited several days with relatives and friends.

Mr. and Mrs. Charley Jackson and family were shopping in Perryton Friday.

Ed Burran of Spearman was a visitor in our city last Sunday.

"NOTHING BUT THE TRUTH" MADE A DISTINCT HIT

The Annual Senior Class Play, "Nothing But The Truth," presented by the members of the 1923 class of the Perryton High School, on Tuesday evening, of this week, made an instantaneous hit with the large crowd present. The work of the boys and girls who were members of the cast was as good if not better than the average run of professionals that visit our city. Every boy and girl that had a part in the play acted his or her character to perfection. Their portrayals of their different parts showed clearly that much work had been done both by the actors and their director, Prof. John F. Meade. Despite the inclement weather a large number were present. We believe that it would be a good idea for the class to repeat this play some night next week for it was impossible for many people to attend. Very few people from the country were in on account of the almost impassible condition of the roads.

The lead of the play was taken by Herring Lance and his work in the part of Robert Bennett was excellent. He was perfectly at ease at all times. Miss Nora Richardson, who played opposite the lead in the part of Miss Gwendolyn Ralston also put over her work in great shape. The two character parts were taken by Miss Ruth Puckett and Merl Jackson and while these were no doubt the hardest parts in the play, these two young people got away like professionals. The other members of the cast Misses Alwayne Conley, Dorothy Ahlman, and Edith and Verna Lawrence and Oscar Gamel, Roger Pearson and Roy Beever, rendered their parts with credit to themselves, their director and their school.

SISTER OF MRS. CLIFFORD TEPE DIES SUDDENLY

Mr. and Mrs. Clifford Tepe of this city were called to Canadian last Saturday afternoon on account of the serious illness of Mrs. Tepe's sister, Mrs. J. P. Lindley of Gemf Oklahoma. Mrs. Lindley was operated on at the Canadian Hospital on Saturday afternoon and died the following day. She was the daughter of Mr. and Mrs. D. Jones of Canadian. She is survived by the parents and husband, one brother, Walter Jones of Canadian, and Mrs. Tepe of this city. Mrs. Lindley was an intimate friend of Mrs. W. C. Barber of this city. Burial was at the Prairie Dell Cemetery near Canadian on Tuesday afternoon, the funeral services being conducted from the Canadian Baptist Church.

BIG RABBIT HUNT ON THIS AFTERNOON

Arrangements have been made by a number of local hunters for a big rabbit drive this afternoon. Thos. Thompson is Captain of one side and M. R. Coffee is at the head of the other side. All who desire to participate in this hunt will assemble at the Court House at 1:30 this afternoon. Be there in your car with plenty of ammunition. There is no limit to the shooters who can get in on this hunt. If you can be there notify one of the captains. The rules of the hunt are that all rabbits must be killed within the confines of this county, all rabbit ears must be in for counting at the American Theatre by 8:00. Those that have been signed by Thompson's side are Fred W. Hood, Gene Coffee, J. B. Nash, Chas. W. Callaway, Wm. Tenny, J. S. Talley and J. H. Scott. Coffee's side are M. R. Todd, R. T. Correll, Lyle Lewellen, Clyde Cofer, W. H. Dunlavy, Lane, and W. M. Myers.

SHRINERS ATTENTION

There will be a meeting of the Perryton Shrine Club at 4:00 p. m. on Monday, May 21st, at the offices of the H. C. Coffee Investment Co. All Shriners are requested to be present at this meeting. New officers will be elected and other business discussed. Be there without fail, you Sons of the Desert and Camel's Milk Friends.

M. R. COFFEE, President.

Leonard Records and mother, Mrs. F. A. Records, of Huntoon, visited at the home of Chas. W. Callaway and family last Sunday.

MEETING TO ORGANIZE FOR FAIR MONDAY NIGHT

The first meeting for the purpose of selecting the various officers and committees who will have charge of the Perryton Fair next fall will be held at the Courthouse in Perryton at 8:30 on next Monday evening, May 21st. Every business man in Perryton, every school teacher in the surrounding territory and last but not least every farmer, stock and hog man in this section is requested to attend this meeting. This is going to be a real fair. All the people of the surrounding country will be here. Some preliminary work has already been done as to quarters and place for displaying exhibits. Let everybody attend this first meeting and then let every faction and clique rub off the sore spots and work shoulder to shoulder for the success of this undertaking.

WILL WED LATTER PART OF JUNE

Mrs. H. I. Hudson and Misses Helen and Ruth Spencer were hostesses at a party at the Spencer home on Monday afternoon of this week at which time a miscellaneous shower was given to Miss Kathryn Wood, who will soon become the bride of Jack Allen of this city. Miss Wood received many valuable and useful gifts. Miss Wood is one of the popular and efficient teachers of our schools and during the two years which she has been in our midst, she has made a host of friends. Jack Allen is one of our most prominent and successful attorneys. He has lived in this county practically all of his life and is known and esteemed by everybody. We have been unable to learn the exact date of the coming nuptials but Dame Rumor says that it will be the latter part of June. The invited guests at the shower were Misses Harriet Perry, Annabelle Shindler, Marjorie Bray, Ruth Allen, Ida Lofton, Zura Howard, Helen Van Kirk, Jewell Carter, Lurline Grigsby, Grace Brewer, Lorena Holland, Virgie Richardson, Mesdames Hugh Shannon, Spencer Whipps and Van W. Stewart.

EMPIRE NO. 1 DOWN ELEVEN HUNDRED FEET

The drillers on the Empire No. 1, northwest of Perryton, are down over 1,000 feet and are making better time every day. They have completed setting the 15 1/2-inch casing at 800 feet and are now drilling a 15 1/2 inch hole in which to set the 12 inch casing. They are now working in a dry hole, having been able to case off all the water. From all indications they will be able to finish this well in a very few months now, unless unforeseen difficulties develop. Materials are all on the ground for finishing and it looks as though it will not be many days before we know the future of the Perryton field. The Empire people are sparing no expense in making this test and we confidently await the result of this first test.

JUDGE W. T. ALLEN DIES AT HENRIETTA

Judge W. T. Allen, brother of Judge S. J. Allen of this city, died at his home at Henrietta, Texas, on last Sunday night. Burial was at the cemetery in his home town on Monday afternoon. Judge Allen was one of the ablest jurists of North Texas. Many of the old timers in this county will recall his brilliant work as head of the defense in the Simmons murder case about 14 years ago. He was also Assistant United States District Attorney for Northern Texas under the administration of President Wilson. He leaves a wife and four daughters and a host of other relatives to mourn his departure.

Miss Carrys Dodson returned home last Sunday after an extended visit with friends and relatives at Brownwood and Temple, Texas. Miss Dodson has been away from Perryton about seven months.

Albert Burran, manager of the White House Lumber Co., at Booker, Texas, visited friends here last Saturday and Sunday.

MOLER GETS THIRTY-FIVE FOR SAMPLES MURDER

William Moler, age 21, must serve thirty-five years in the Texas penitentiary for the murder of Noah Samples of Canadian. Noah Samples was slain about sixteen miles southwest of Canadian on or about March 9th. Moler was arrested on March 13 and the body was found the following day. The trial was first set for trial in the District Court at Canadian but it was found to be impossible to obtain a jury in that county so it was taken to Lipscomb on a change of venue. It was necessary to call 183 men before a jury of 12 men could be secured to try the case. It appears to us that Moler is fortunate to get off with a thirty-five year sentence. From what we have heard of the case this is one instance where capital punishment would have been justified.

GIDDENS PLEADS GUILTY AT LIPSCOMB COURT

Norvel Giddens plead guilty in the district court at Lipscomb one day last week to the charge of murder and robbery, following the death of the Mexican Catarino Martinez, near the Santa Fe yard offices in this city on the morning of November 7, 1922, when he was shot while he and a companion were being held up and robbed of some \$900.00.

Jim Anderson and Hugh Howell had been previously convicted and sentenced under the same charge. They each received 11 years.—Canadian Record.

COMMENCEMENT ANNOUNCEMENTS

Following are the announcements for the close of the Perryton School: Thursday night, May 17th, general Exercises from the Grades will be held.

Sunday Morning at 11:00 o'clock, May 20th, at the High School Auditorium the Commencement Sermon will be preached by Rev. W. A. Hitchcock.

Monday night, will be Graduates' Night. At that time they will give a program and will receive diplomas. All of these exercises are free. Friends and patrons are cordially invited to be present.

HUNTOON NEWS

Huntoon and Booker locked horns in the first ball game of the season, last Saturday. The score was 11 to 14 in favor of Huntoon.

The Huntoon boys spent the day Monday in arranging the stage for the play that will be given Thursday night. They expect a large crowd, as the play will be fine.

O. A. Cook has been out with some oil men the last few days. They have been leasing and for oil.

The blacksmith shop is now in running order.

Mrs. Angley spent three or four hours carrying water out of the basement yesterday.

There was about thirty out Sunday to Prof. Angley's and Levi Morgan's birthday dinner.

Dewey Thrasher, Buck Wade, Glen Morgan and Prof. Angley went on a fishing trip Saturday and caught eighty nice fish.

Wayne Emberson left Saturday for his home in Alva, Oklahoma.

Everybody enjoyed the rain this week.

Mr. Kimble shipped a car load of cattle Saturday.

Rev. Meadors was water bound here the first of the week.

Everyone is busy at School this week, taking examinations.

Rev. Carter of Beaver, Oklahoma, filled his regular appointment here Sunday.

Mr. and Mrs. J. M. Bull returned last Thursday from a visit at the home of their daughter, Mrs. W. L. Fain, at Fulton, Mississippi. Mr. Fain is back in the telephone business at the latter place. Mr. Bull said that "Billie" said that he would take our sand storms and the wind and dust every time in preference to the everlasting mud and rain that they have in that country. If he would step in on us now, he might change his mind and decide that this is a wet country also.

PERRYTON AT THE HEAD OF PANHANDLE ASSOCIATION

The Perryton Gun Club is leading the Panhandle Trapshooters Association by a good safe margin and it looks as though they have a cinch on the championship cup. "Ad" Topperwein, the world's famous marksman, who is being sent here by the Winchester Repeating Arms Co., and the Plainview Hardware Co., will be here on Thursday, June 21st, to give an exhibition of his marksmanship. At the shoot last Sunday afternoon the five high scores totaled 119. Individual scores as follows: Edwards 25; Lane 25; Nash 23; Castleman 23; Dunlavy 23. Standing of club members to date as follows:

Name	S.A.	BK.	AV.
Nash	200	186	930
Edwards	200	185	925
Castleman	200	181	905
Cofer	200	179	895
M. Coffee	200	174	870
Correll	200	172	860
Lane	200	172	860
Lewellen	200	168	840
Smith	150	123	820
Hobbs	200	162	810
Dunlavy	200	161	805
Brandt	175	140	800
G. Coffee	200	158	790
Tepe	75	57	740
Thompson	200	147	735
Tenney	75	48	640
Wilbanks	25	15	600
Scott	200	118	590
Meyers	50	22	440
Green	75	11	146

From the looks of the above standing, one would be led to think that Abe Green is acting rather hog-ish in the way he is going after the cellar championship honors. All other aspirants for this medal had just as well pull down for Abe has got the jinx on the entire field.

JUST A MERE MAN

The writer was present at the play given by the Senior Class of the Perryton High School in the beautiful large auditorium of the new school auditorium on last Tuesday evening. The play was well rendered and we enjoyed every word that was spoken by the several players, but we cannot say that we enjoyed every move that was made by the different actors, for unfortunately a large lady wearing a still larger hat (which remained on her head during the entire performance) occupied a seat immediately in front of us. The writer happens to be one of those insignificant runt types of the male species, consequently we could not see over. We tried peering around until our neck was stretched out of shape. In looking over the large audience there was not a man to be seen who had not removed his head-gear. That's one of man's so called rights, "to remove his hat when in a gathering of that nature." Then what I want to know is this; if the ladies who have been so insistent in their demand for equal rights for women want to practice what they preach, then why don't they start in and remove their hats just as men do at similar gatherings? I venture to say that a least 50 per cent of the women in this particular audience did not remove their hats. Contributed.

WALTER MORRIS IN CAPPER "PEP" RACE

Walter Morris of Huntoon is the only boy that we know of in this county who has entered the "Pep" race of the Capper Interstate Pig Club for 1923. In this contest the members take a pure bred sow with a litter of pigs. They are awarded credits for the best record made in the gain for the pigs. They keep an accurate account of all feed fed and the gain made, number of pigs farrowed and number raised. There are fourteen states represented in the contest and Walter is a member of a team of six in Texas.

The boys of the Huntoon community have shown their interest in the pure bred hog business by organizing a Pig Club. Walter has been elected President of their organization.

Allen M. Wilbanks and Chas. Endicott of Spearman left the latter part of last week on a visit to the Tonkawa, Oklahoma, oil fields.

BUILT WITH BRICK AND TILE

Walls properly laid with brick or hollow tile comprise the best resistance to the elements.

FORD OR PULLMAN

(By C. H. Claudy)

"Been planning it for years," announced Smith. "Never could see my way clear before. But this summer I am taking Friend Wife and the lad and lass, and we are going to the Yellowstone and the Grand Canyon and Los Angeles and San Francisco and up through Seattle and back through Glacier and see something of this America of ours."

"Wish I could do it," answered Jones, enviously. "You must have a whale of a bank roll to face all that railroad fare. Let's see—that's about ten thousand miles. At three cents a mile that's twelve hundred dollars, just for transportation."

"Who said anything about railroad fare? Railroads are for people who have plenty of money and no time. I have some time and not much money."

"I didn't see how you could afford it," replied Jones. "But how are you going to manage?"

"You're right. I can't afford railroad fare. But I can a-Ford the distance," smiled Smith. "I'm going to motor my way across the continent and back."

"And the poor fool thinks it's cheaper to automobile than to go by train," commented Jones.

"No, he doesn't think. He knows," answered the "poor fool." "Care to listen to the facts?"

"Open to conviction," answered Jones, "but hard to convince. You haven't even a Ford."

"No, but I have the necessary \$298, and the \$12.00 war tax. Call it \$310 in round figures."

"Yes, yes, go on," grinned Jones. "That's the least of your expenses."

"Oh, is it? Well, let's look at 'em." Smith shot out his cuff, produced a pencil and put down, "Ford \$310."

"Now," he went on, "a Ford normally comes provided with four tires. The general experience of all Ford owners is that they over-run the guarantee on their tires. Any tire man will tell you that of every hundred tires sold for Fords—good tires, mind you, not 'seconds' or nameless castings—only two or three come back for mileage adjustment. But to be on the safe side, let's call the four tires good for just the normal guarantee of 6,000 miles. For ten thousand miles, then, I have to have at least three more tires. Call it, including tubes," and Smith used his pencil again, "an even \$40."

"Then, there is gas. It's hard to make an exact estimate, because the price of gas varies so, and drivers vary and roads vary and weather varies. But records made all over the country show that twenty miles to the gallon of gas is an under, rather than an over-estimate for Ford travel in warm weather. If I put the average price of gas at twenty-five cents a gallon—it's less in many places—and divide the ten thousand miles you have given me as my distance by miles per gallon, I find I need 500 gallons of gas, of—" the pencil again—" \$125 for fuel."

"Oil? Say a quart to a hundred miles—a hundred quarts at a quarter—\$25.00."

"Of course there is up-keep. Suppose I have carbon cleaned out and valves ground three times; suppose I replace transmission bands three times; suppose I buy three new fan belts—I'll have to find a robber every time if the total bill exceeds \$40. And—well, let's see what that makes."

Smith totaled rapidly. When he had finished, Jones' cut in with, "You haven't put anything down for incidentals." But Smith grinned triumphantly and answered "There they are," and showed his cuff. It looked like this:

New Ford	\$310
Extra tires	40
Gas	125
Oil	25
Replacements	40
Incidentals	160
Total	\$700

"One hundred and sixty dollars for incidentals is unnecessary. Keep oil, gas and water in your Ford, give the engine reasonable care and you won't have any extras." Smith really inserted that to cover any argument Jones might put up as to his gas cost or miles per gallon or tire wear.

"But ten thousand miles at \$700 for transportation figures out seven cents per mile," cried Jones, triumphantly, "and a railroad fare is three."

"Just a minute. At the end of my ten thousand miles I can sell the flivver for something, can't I? It's a car with a high second-hand value, you know. But call it \$200, and my mile cost is but five cents. And with five people in the car it comes to one cent per mile per person, not three, as the railroad wants."

"But you have meal bills and hotel bills and—"

"Guess I have to feed the family whether they move or stay home, travel via Pullman, airplane, Ford or foot," laughed Smith.

"Er—one cent a mile. Darn it, if it's that reasonable, why can't Mary

and I and the kids go along?" "Damiknow," said Smith, "why you can't."

There is no reason why Jones can't. There is no reason why any one can't, who can travel for pleasure at all. Smith's figures are fair, but if they lean either way, it is to too great generosity.

Travel by Ford is cheaper than rail travel when two or more people use the car at the same time. There will be readers who dispute this, on the ground that many a Ford never goes its allotted mileage. To them this argument must be presented: they, you, the writer, every one of us, pays for the maintenance and up-keep of the railroads. It makes no difference whether or not we ever travel via rail—every mouthful of food we eat, everything we wear, smoke, drink, play with—everything in the world which comes to us, has to pay freight. We pay the freight.

"I didn't see how you could afford it," replied Jones. "But how are you going to manage?"

"You're right. I can't afford railroad fare. But I can a-Ford the distance," smiled Smith. "I'm going to motor my way across the continent and back."

"And the poor fool thinks it's cheaper to automobile than to go by train," commented Jones.

"No, he doesn't think. He knows," answered the "poor fool." "Care to listen to the facts?"

"Open to conviction," answered Jones, "but hard to convince. You haven't even a Ford."

"No, but I have the necessary \$298, and the \$12.00 war tax. Call it \$310 in round figures."

"Yes, yes, go on," grinned Jones. "That's the least of your expenses."

"Oh, is it? Well, let's look at 'em." Smith shot out his cuff, produced a pencil and put down, "Ford \$310."

"Now," he went on, "a Ford normally comes provided with four tires. The general experience of all Ford owners is that they over-run the guarantee on their tires. Any tire man will tell you that of every hundred tires sold for Fords—good tires, mind you, not 'seconds' or nameless castings—only two or three come back for mileage adjustment. But to be on the safe side, let's call the four tires good for just the normal guarantee of 6,000 miles. For ten thousand miles, then, I have to have at least three more tires. Call it, including tubes," and Smith used his pencil again, "an even \$40."

"Then, there is gas. It's hard to make an exact estimate, because the price of gas varies so, and drivers vary and roads vary and weather varies. But records made all over the country show that twenty miles to the gallon of gas is an under, rather than an over-estimate for Ford travel in warm weather. If I put the average price of gas at twenty-five cents a gallon—it's less in many places—and divide the ten thousand miles you have given me as my distance by miles per gallon, I find I need 500 gallons of gas, of—" the pencil again—" \$125 for fuel."

"Oil? Say a quart to a hundred miles—a hundred quarts at a quarter—\$25.00."

"Of course there is up-keep. Suppose I have carbon cleaned out and valves ground three times; suppose I replace transmission bands three times; suppose I buy three new fan belts—I'll have to find a robber every time if the total bill exceeds \$40. And—well, let's see what that makes."

Smith totaled rapidly. When he had finished, Jones' cut in with, "You haven't put anything down for incidentals." But Smith grinned triumphantly and answered "There they are," and showed his cuff. It looked like this:

New Ford	\$310
Extra tires	40
Gas	125
Oil	25
Replacements	40
Incidentals	160
Total	\$700

"One hundred and sixty dollars for incidentals is unnecessary. Keep oil, gas and water in your Ford, give the engine reasonable care and you won't have any extras." Smith really inserted that to cover any argument Jones might put up as to his gas cost or miles per gallon or tire wear.

"But ten thousand miles at \$700 for transportation figures out seven cents per mile," cried Jones, triumphantly, "and a railroad fare is three."

"Just a minute. At the end of my ten thousand miles I can sell the flivver for something, can't I? It's a car with a high second-hand value, you know. But call it \$200, and my mile cost is but five cents. And with five people in the car it comes to one cent per mile per person, not three, as the railroad wants."

"But you have meal bills and hotel bills and—"

"Guess I have to feed the family whether they move or stay home, travel via Pullman, airplane, Ford or foot," laughed Smith.

"Er—one cent a mile. Darn it, if it's that reasonable, why can't Mary

and I and the kids go along?" "Damiknow," said Smith, "why you can't."

There is no reason why Jones can't. There is no reason why any one can't, who can travel for pleasure at all. Smith's figures are fair, but if they lean either way, it is to too great generosity.

Travel by Ford is cheaper than rail travel when two or more people use the car at the same time. There will be readers who dispute this, on the ground that many a Ford never goes its allotted mileage. To them this argument must be presented: they, you, the writer, every one of us, pays for the maintenance and up-keep of the railroads. It makes no difference whether or not we ever travel via rail—every mouthful of food we eat, everything we wear, smoke, drink, play with—everything in the world which comes to us, has to pay freight. We pay the freight.

"I didn't see how you could afford it," replied Jones. "But how are you going to manage?"

"You're right. I can't afford railroad fare. But I can a-Ford the distance," smiled Smith. "I'm going to motor my way across the continent and back."

"And the poor fool thinks it's cheaper to automobile than to go by train," commented Jones.

"No, he doesn't think. He knows," answered the "poor fool." "Care to listen to the facts?"

"Open to conviction," answered Jones, "but hard to convince. You haven't even a Ford."

"No, but I have the necessary \$298, and the \$12.00 war tax. Call it \$310 in round figures."

"Yes, yes, go on," grinned Jones. "That's the least of your expenses."

"Oh, is it? Well, let's look at 'em." Smith shot out his cuff, produced a pencil and put down, "Ford \$310."

"Now," he went on, "a Ford normally comes provided with four tires. The general experience of all Ford owners is that they over-run the guarantee on their tires. Any tire man will tell you that of every hundred tires sold for Fords—good tires, mind you, not 'seconds' or nameless castings—only two or three come back for mileage adjustment. But to be on the safe side, let's call the four tires good for just the normal guarantee of 6,000 miles. For ten thousand miles, then, I have to have at least three more tires. Call it, including tubes," and Smith used his pencil again, "an even \$40."

"Then, there is gas. It's hard to make an exact estimate, because the price of gas varies so, and drivers vary and roads vary and weather varies. But records made all over the country show that twenty miles to the gallon of gas is an under, rather than an over-estimate for Ford travel in warm weather. If I put the average price of gas at twenty-five cents a gallon—it's less in many places—and divide the ten thousand miles you have given me as my distance by miles per gallon, I find I need 500 gallons of gas, of—" the pencil again—" \$125 for fuel."

"Oil? Say a quart to a hundred miles—a hundred quarts at a quarter—\$25.00."

"Of course there is up-keep. Suppose I have carbon cleaned out and valves ground three times; suppose I replace transmission bands three times; suppose I buy three new fan belts—I'll have to find a robber every time if the total bill exceeds \$40. And—well, let's see what that makes."

Smith totaled rapidly. When he had finished, Jones' cut in with, "You haven't put anything down for incidentals." But Smith grinned triumphantly and answered "There they are," and showed his cuff. It looked like this:

New Ford	\$310
Extra tires	40
Gas	125
Oil	25
Replacements	40
Incidentals	160
Total	\$700

stream beds, miscalled roads. Fording is inexpensive and enjoyable when, and only when, the roads over which the little car is to go are reasonably well surfaced and reasonably well drained.

America is the country where no sooner has it been announced that it can't be done, than some man gets up and does it. The Panama Canal, for instance; or shipping two million men over-sea, or building a few transcontinental railroads.

There is no question that this America of ours can build roads. But so far, it hasn't done so, very much. There are two-and-a-quarter million miles of roads—the quarter of a million is improved, the two million are not. We have tried every conceivable scheme of getting roads but one—the right one. We have left it to towns, and counties and states. We have left it to town, county and state helped by political body next above

in authority. Today we have aid, in which the Nation is to state to build roads.

But—we have as yet no roads. If Smith and Jones would find uniform routes of travel, government maintained roads, state roads, good roads, county roads, mostly township roads, unspokeable.

There is a better way. The way is and how this thing done is being worked out, about it, believe in it, and when National Highways roads everywhere are a fact, motor from Maine to California, Seattle to Florida, from the Canada, at less than a cent per person and with more wholesome enjoyment than packed in the best Pullman made!

**MRS. J. H. RHODES
PASSES AWAY**

The following article concerning the death and burial of a former resident of this county was taken from the Farmington, New Mexico, Times-Rustler. Mrs. J. H. Rhodes was a woman and during the many years she spent in this section, she endeared herself to all.

Mary Addie Love, daughter of Pauline Love, was born near Carthage, Jasper County, Mo., April 4, 1856, and died at Farmington, N. M., April 4, 1923, at the age of 67 years and 30 days.

She removed with her parents to Crittenden County, Ky., at the age of nine years, where she grew to womanhood.

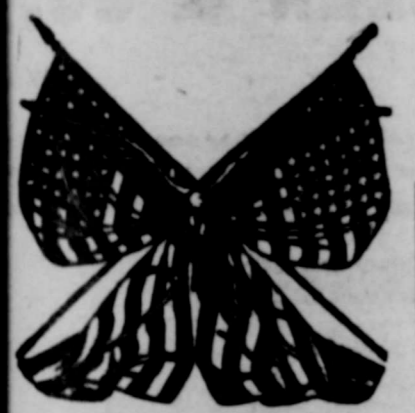

She was married to John H. Rhodes in Livingston County, Ky., December 23, 1875, with whom she lived until her death, for forty-seven years and four months. To this union five children were born, three sons and two daughters, as follows: Dr. W. H. Rhodes, of Enid, Oklahoma; Mrs. Nellie Burns, of Golconda, Illinois; Walter Rhodes, of Portland, Oregon; L. Rhodes, of Farmington, New Mexico; and Mrs. M. M. Cudd of Greenville, New Mexico. All were present at the funeral except Mrs. Burns and Walter Rhodes.

She made a profession of faith in Christ and united with the Methodist Church when she was a small child, and has ever been a faithful and consistent member during all the years of her life, ever willing to minister to the needs of people about her, and living consistent with the teachings of the Master.

She with her family removed to Dexter, Missouri, in the year 1905, moving from there to Ochiltree County, Texas, in the year 1910, and again removing to Farmington, N. M., in 1920, where they have since lived and where they have made many new friends, who held her in the highest esteem as a woman of true Christian principals, and a good citizen of the community.

She was a very faithful and affectionate wife and mother, ever willing to make any sacrifice necessary for the comfort of her family.

She leaves besides her companion,

five children, one brother, J. S. Love, of Florida, one sister, Mrs. J. W. Bowen of Rockfield, Ky., and many friends.

The funeral services were held in the Farmington Methodist church of which she was a member by her pastor using as text Rev. 14:13; where many friends gathered to pay their respect to her good life.

ORDINANCE NO. 61

An Ordinance providing the time and place, and manner of payment of bills for light and water; providing for and fixing penalties for non-payment; procedure in collecting; tapping charges for re-tapping after default and discontinuance of service; and designating the proper officers to discharge the duties herein imposed and the manner of such performance.

Be it Ordained, by the City Council of the City of Perryton:

Section 1. All accounts due the City of Perryton for Electrical Energy, Light, Power and Water shall be due and payable at the office of the City Secretary on the first of each month after said account shall have accrued.

Section 2. It shall be the duty of the City Secretary to mail out to each customer using Electrical Energy, Light, Power or Water from the Municipal Plant of said City, a statement of his, her, their or its account, setting forth the amount used of Electrical Energy, Light Power and Water for the preceding month together with the amount due therefor, which statement shall also notify said customer that the same shall be payable at the office of the City Secretary on or before the Tenth day of the succeeding month after said account accrued.

Section 3. All accounts, not paid on or before the 10th of the succeeding month after they accrued, and after the statement provided for in Section Two hereof has been sent out, directed to the address of such customer or customers with proper postage, shall be declared delinquent.

Section 4. It shall be the duty of the City Secretary to make up a list of all parties who shall be delinquent in the payment of their said accounts as herein provided for, and to furnish the same to the Superintendent of the Light and Water Plants, and in the absence of the Superintendent, to the Assistant Superintendent or to the person in charge at said time, in case both the Superintendent and Assistant should not be available, which said list shall be delivered on the 11th day of each month for the accounts delinquent.

Section 5. It shall be the duty of the Superintendent, Assistant Superintendent or the person to whom said list provided for in Section Four hereof are delivered, to proceed immediately to cut off further service to such delinquent customer without further notice; provided further that if said account is not paid before the severance of service, that any such customer shall be required to pay in addition to the amount of the account a further charge of One Dollar as a retapping charge for each line of service discontinued.

Section 6. Before the Superintendent, Assistant Superintendent, or any authorized person shall remove the meters from the premises of such delinquent customer, he shall take the readings of the meters to be removed and deliver said readings to the City Secretary, who shall render a statement of all accounts due the City of Perryton, by such delinquent customer at the time of such readings and deduct the amount of such statement from the deposit of said delinquent customer and deliver receipted statement, together with a check for the balance due said delinquent customer to the person authorized to remove the meters, who in turn shall deliver same to such delinquent customer and at once remove the meter.
C. E. FORBES, Mayor.

Should you desire to insure your grain against hail, I will appreciate the favor if you will call and let me write your insurance.
15-4t-c F. P. ROGERS

Attorney Norman Coffee of Miami, Texas, transacted business here the latter part of last week.

All the members of the Board of County Commissioners were in Perryton the first three days of this week. On Monday the Commissioners disposed of the regular run of county business. They have been acting as a County Board of Equalization the remainder of the time.

Looks like the courts are going to take "Shiloh", Jack and the game from the bewhiskered Benjamin.

SAVE SUGAR BY USING DATES

Due to the present high price of sugar housewives are particularly interested now in finding means to reduce the amount of sugar used in their kitchens. Many of them have resolved to cut down their consumption of sugar by at least one-third until present prices have been materially reduced. One method by which this can be done is to employ dates, prunes and other fruits more freely.

The date is especially valuable for this purpose, for it is rich in sugar of the "invert" variety which is more healthful than cane sugar, since it can immediately be assimilated by the body without any chemical change. It is calculated that two dates equal in sweetening power a teaspoonful of sugar. If dates are added to oatmeal or other cereals, the amount of sugar required with them will be reduced, or the sugar can even be entirely eliminated. In baking and making desserts dates can also be substituted for sugar. Following are some recipes which do not require the use of sugar:

Date Souffle
1 package dates.
1 cup water.
1/4 teaspoon salt.
1 tablespoon lemon juice.
3 egg whites.
Remove pits from dates. Cover with cold water and allow to stand at least five hours. Cook slowly in same water until tender and rub through coarse strainer. Add salt and lemon juice and fold in stiffly beaten egg whites. Pour into buttered baking dish. Set in pan of hot water and bake in moderate oven 30 minutes, or until firm. Serve hot or cold.

Health Muffins
1 cup flour.
4 teaspoons baking powder.
1/2 teaspoon salt.
1 1/2 cups bran.
1 cup chopped dates.
1 egg.
1 cup milk.
1 tablespoon melted butter or other fat.

This recipe makes twelve muffins. Sift flour, baking powder and salt together. Add bran and dates and mix thoroughly. Add well beaten egg, milk and butter. Beat until thoroughly mixed and pour into greased muffin pans. Bake in moderate oven 25 to 30 minutes.

Date Gems
1 cup flour.
5 teaspoons baking powder.
1/2 teaspoon salt.
1 cup graham flour.
1 cup chopped dates.
1 1/2 cups milk.
2 tablespoons melted butter or other fat.

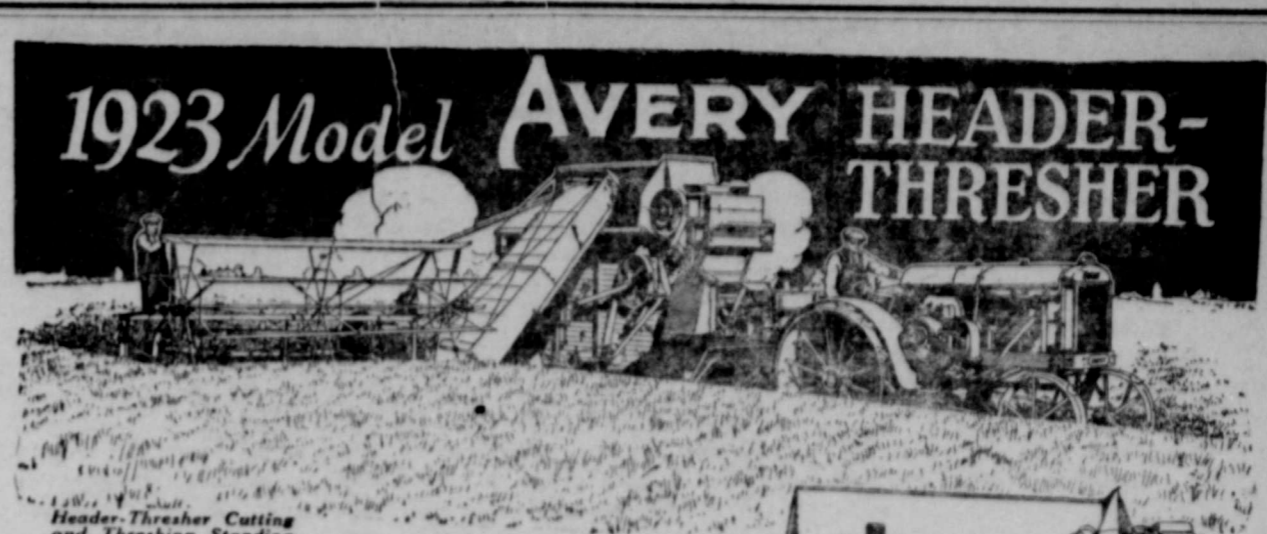

This recipe makes twelve gems. Sift flour, baking powder and salt together. Add graham flour and dates and mix thoroughly. Add milk and butter slowly, stirring constantly. Pour into greased muffin pans and bake in moderate oven 25 to 30 minutes.

Gypsy Brown Buns
1 cup fresh-keeping cocoanut.
1 package dates.
1/2 cup figs.
Spread cocoanut on a pan and put in moderate oven. Stir frequently until a delicate brown. Put dates through food chopper. Add half the cocoanut and knead. Shape into rolls about inch long and roll in the remainder of the cocoanut.

Date Tapioca Pudding
3 tablespoons tapioca.
1 1/2 pints milk.
3 egg whites.
3 egg yolks.
1 tablespoon cornstarch.
3/4 cup dates.
Soak tapioca in a little water until soft. Boil the milk and add tapioca. Put in well beaten egg yolks and cornstarch mixed with a little milk. Add dates. Let the mixture just come to a boil and then pour into a dish to cool. Beat the egg whites to a stiff froth and put on top of pudding.

Date Corn Bread
1 cup cornmeal.
1 cup flour.
4 teaspoons baking powder.
1/2 cup chopped dates.
1/2 teaspoon salt.
3/4 cup milk.
2 eggs.
1/4 cup shortening.
Sift and mix cornmeal, flour, baking powder, and salt. Add milk slowly, well beaten eggs and shortening. Finally add dates and bake in a greased shallow pan in a quick oven.

BUY COAL NOW—A car of good Colorado Lanco Lump in transit. Price on track, \$10.00 per ton; Small nut, none better for ranges, \$8.50 per ton on track. These prices for a short time only in order to induce you to store coal. **WHITE HOUSE LUMBER CO.** 15-1t-c

1923 Model AVERY HEADER-THRESHER

The Only Machine That Meets All Conditions of Harvesting and Threshing All Kinds of Grain

HERE is the machine that solves your harvesting and threshing problems the way you always have wanted to solve them. It enables you to cut and thresh and put your headed grain into the wagon box all in one operation in the cheapest, quickest and best way—then with the same machine and same small crew of men thresh your bundles and headed stacks, thus cutting out the expense of hiring a custom thresher.

Low is first cost—no cutting mechanism to buy as it works with any standard make of header, new or old, taking the same position under the header elevator as the large or stacker wagon. Meets all climatic, crop and labor conditions. Pays for itself as used—makes you an independent in harvesting and threshing your crop as you were in planting it.

For stationary threshing it is equipped with common stacker, also with Band Cutter and Self-Feeder if desired. Can also be equipped with special topping attachment for handling row crops the cheapest and best way possible.

The 1923 model Avery Header-Thresher has many improvements including powerful, heavy duty four-cylinder motor. Built by a reliable company—backed by the strongest grain-saving and grain-cleaning guarantees possible—fully tested and is a proven success—sells at a low price. Sample Header-Thresher is now being shown. Come in and see it or ask for special booklet giving full description.

**SPECIAL COAL SALE
FOR ONE DAY ONLY**

PRICE OF BEST COLORADO LUMP COAL, \$13.00 PER TON

Monday, May 21st, we will give free with every load of coal of not less than one ton your choice of the following:

- 48 lb. sack Kelly's Famous Flour.
- One Bushel Cane Seed.
- 100 lb. Sack Oyster Shells.
- 100 lb. Sack Chops.
- 25 lb. Sack Meat Meal or Tankage
- 150 lb. Block Salt.
- 25 lb. can Hard Oil.
- 100 lb. Sack Oil Cake.
- One Bushel Potatoes
- One Box of Apples.

We will have men to help load and weigh your coal promptly. Come and get the advantage of this special gift. Will make the same deal at Farnsworth with the exception you will have to come to Perryton with your ticket to get your gift.

Remember, from all the information we can gather we will experience the greatest car shortage this summer and fall we have ever had; naturally if this be true we will experience quite a coal shortage.

We have recleaned canesed at \$1.25 and \$2.25 per bushel.

**PERRYTON EQUITY
EXCHANGE**

OCHILTREE COUNTY HERALD

Published Weekly by THE STEWART PRINTING CO. Paul F. and Van W. Stewart Editors

Subscription price: \$1.50 a year strictly in advance.

Entered as second class matter, October the 10th, 1919, at the Post Office at Perryton, Texas, under the Act of March 3rd, 1879.

Published Weekly on Friday

All copy must be in this office by Wednesday noon to insure publication.

TENDING THE HOME PLACE

Some people's idea of beautifying a home is to set out shrubs and plants and then let them take care of themselves entirely.

Perhaps some plants may grow all right without attention particularly in rich soils, but as a rule their appearance can be much improved by care.

Many homes around which the plants have been neglected get a run down and tangled appearance that is worse than if nothing had been set out.

BOOST PERRYTON

Let's all boost for Perryton. The merchants hereabouts are here to stay. They chose to locate here because they believe in this community.

Nothing can contribute to the growth of any place like a strong mercantile backing. Nothing is asked of the merchants that they are not glad to give of freely.

You can help them to help this community—you can help yourself by trading at home. And the best of it is, when you keep your money in this community, you save money.

Let every man who owns or operates an automobile or motor truck resolve to repeat the slogan each day—I will cross the crossing cautiously.

You laugh at prohibition laws; the libertine laughs at the marriage laws; the anarchist laughs at the property laws. Let's quit laughing at any laws!

Now that all stores have delivery service, about the only thing the average householder takes home is his grouch.

Man is an able creature, but he has made 32,647,389 laws and hasn't yet been able to improve on the Ten Commandments.

In starting a spring garden, always make it small enough for your wife to finish.

The average motorist would rather run into debt than run out of gas.

The only way to save daylight is to use it.

CO-OPERATIVE MARKETING

There are many people who believe that co-operative marketing offers more of advantage to the producer than any other means now proposed.

The co-operative idea should be developed largely in the state during the coming season in many fields and with many products.

SUGAR PRICES

It will soon be time to dig up those old recipes on how to can fruit with the minimum of sugar, judging by the way that commodity is soaring skyward.

CLEAN UP PERRYTON

Along with the arrival of Spring comes the annual drive on refuse which has accumulated during the winter.

Even if Perryton is busy with its broom, the residents should find sufficient time to make their surroundings clean and more attractive.

Paderewski has made another fortune in his present concert tour. He has cleaned up in the ivory business what he lost in politics.

In the old days a ford was the place where you crossed the river. Now it's every place you try to cross the street.

That cafeteria man who is advertising for a slogan might try: "Heaven helps those who help themselves."

"Woman, you make me see red," said the youth as he gazed at her rouged cheeks and painted lips.

Be flush and the world is with you. Be broke and you must go it alone.

You can help others by helping yourself.

DON'T SAY IT

I shot an arrow into the air; it fell in the distance, I know not where, till a neighbor said it killed his calf, and I had to pay him six and a half.

LET US SMILE

The thing that goes the farthest towards making life worth while, That costs the least and does the most is just a pleasant smile.

"The person who hasn't read the Bible from cover to cover has missed one of the finest things in life, including the greatest literary work ever written.

Maw Creek Says: "Pa has always pouted a lot. When we was first married I could make him happy with kisses, but now it takes fried chicken.

Someone has discovered that it takes one hundred and forty nuts to hold a Ford together and only one to hold it in the road.

Uncle Sam is going to give a bitter taste to the dose it will hand out to the sugar profiteers.

To get to the top one usually has to get in on the ground floor.

A narrow mind is one that has not had wide experience.

ORDER OF SALE

STATE OF TEXAS, County of Ochiltree. File No. 438. E. C. Gray, Plaintiff, vs. Robert M. Morris, Sidney Alice Morris, The First National Bank of Perryton, R. T. Correll and O. P. Beagle, Defendants.

Whereas, by virtue of an order of sale issued out of the District Court of Ochiltree County, Texas, on a judgment rendered in said Court on the 10th day of April A. D. 1923,

On the 5th day of June, A. D. 1923, being the first Tuesday in said month, between the hours of ten o'clock a. m. and four o'clock p. m. on said day, at the Court House door of said county, in Perryton, Texas, I will offer for sale, and sell at public auction, for cash, all the right, title and interest of the said Robert M. Morris in and to said property.

Judgment was also rendered in said cause dismissing suit as to defendant, O. P. Beagle, and cancelling all the right, interest and claim of said First National Bank of Perryton, R. T. Correll and Sidney Alice Morris in the above described land.

Dated at Perryton, Texas, this the 5th day of May A. D. 1923.

J. S. TALLEY, Sheriff, 14-4t-c Ochiltree County, Texas.

Troubles and thunder clouds usually seem black in the distance, but grow lighter as they approach.

Turn your worries into thoughts and your liabilities will become assets.

NOTICE!

To those who own cows in and about Perryton. The service fee for the use of my Bull is \$2.00, payable in advance. Anyone turning a cow over the fence or tying to fence or turning into pasture without first making arrangements at the house by paying the service fee will be considered a trespasser and will be treated as such.

W. E. LILLY.

Cheaper money to loan on land. See McLain & Willis. 48-tfc.

One trouble with a good many members of the rising generation is that they don't rise until about noon.

Ever didn't appreciate the seriousness of her sin until she had to do the first week's washing.

You will may grin at the speeder who throws dust in your face. They will soon be throwing dirt in his.

Sugar sold at retail during March, 1923, at an average of 10.2 cents a pound. In the same month in 1922 the average price was 6.6 cents a pound.

HE'S A RARE BIRD

There is always someone who takes a public slam at the States, and that some one is a citizen of the United States is not only a citizen, but he is money here, enjoys his pleasure and is indebted to his country everything that he has.

He is the fellow who thinks thing wrong, and yet does not remedy the conditions of which complains. He is the one who over the election of inefficient public office, and yet does not secure the election of men known to be efficient. He is who criticizes the authorities, making soft births for politicians, and yet would grab one of those berths in a holy cause.

Real "women's activities" days are cutting the grass in a garden.

GARDENING FOR FUN AND FOR BEAUTY

We Americans are a busy bunch. We find time, however, to enjoy ourselves. Yet, as a nation we have not found much fun in keeping flower gardens.

It is not that we do not enjoy the pleasure that beautiful gardens give. If our flower bill could be compared with that of other nations it would doubtless appear that Americans spend many times what other nations do for flowers. Yet for the most part we are not a people devoted to cultivating plants that shall bloom in gardens about our homes. Perhaps we have not the time. We have become specialists in our work. And we have grown to think of the florist as one who shall supply all our needs in this direction. And if we have a flower garden, that calls for a gardener. Seldom do we find a man with a hobby for cultivating flowers. If any gardening is done, it is more often to provide something to eat. Yet is the utility of cabbages and onions more necessary to the body than is the sight and the breath of flowers to the refreshment of our spirits?

Since the first garden was planted men have found pleasure of the purest kind in tending and admiring the blossoms. A house without a touch of verdure about it is not lovely. The handiwork of man is not complete without the touch of heaven that the grass, the flowers and the tree give.

Perhaps we are not yet rooted firmly enough in the soil to garden finely. Maybe we have not yet sensed the delight of training clusters on trellises and of playing around in the fashion of a gardener. And we scarcely miss the elegance which a flower garden could express about the home.

The Herald \$1.50 a year in advance.

"LET'S GO" IS THE C.M.T.C. SLOGAN FOR 1923 CAMP

Thirty days filled with good fun, good sports, good health and good training that will cost you nothing and will be yours for the asking if you wish to become a candidate in the Citizen's Military Training Camps.

You will receive your transportation and your food en route to and from the camp, and while at the camp will be fed, clothed, housed and taken care of by trained leaders, without one cent of cost to you or to your family.

Rich with a fine experience and life-long friendships made, you will return from your vacation with a clean mind, a sound body and with a new enthusiasm for the day's work and a renewed loyalty as a son and citizen.

All the Government asks is that you come and give your time and obey the rules and regulations of the camp. It will do the rest, and in a way that will make you and your parents boosters for the C. M. T. C. forevermore. Could you have seen the thousands of young Americans on their arrival at camp in their "civies" and then have seen those same thousands after thirty days of camp life, on their departure, taking special trains or going home on the regular scheduled trains cheering and yelling in the good old American fashion, "we are coming back again next year and bring a buddy with us," you would understand then what team-work and leadership have done for these youngsters, and you would resolve to come this year and get the same benefits for yourself and family.

Here is what is done for you at the Citizen's Military Training Camps. You are given individual athletic training that teaches you self-control, and then you are given team-work that enables you to coordinate your work with that of other members of the team and to sub-ordinate your work to what the team captain wants you to do. For instance, think of base ball or foot ball and you will understand. You are taught how to carry yourself and to make your body bend to your will. You are taught how to compete with others in running, jumping, vaulting, boxing, wrestling, marching and shooting. You are taught how to fire with the Government rifle so that you will hit your mark from any position at different ranges, firing slowly or rapidly. You will see demonstrations put on for you by "crack troops" of the Regular Army, who will show you perfection of training in self-control and team-work, that will show you the pride these soldiers take in their uniform, and will enable you to go back home with a new sense of security. You are given a chance to show your skill not only in the games like base ball, tennis, swimming, etc., but also in dancing, Glee Clubs, orchestras and the like, so bring your tennis racket, baseball glove, musical instrument and enjoy life, for there is always a part of the afternoon that is set aside for your own fun and athletic sports. Fine military bands will play and you will take part every evening around six o'clock, in a parade or a review that will make your pulses jump as your flag goes by.

When the week's work is done and Saturday afternoons and Sundays are yours, there will be fine dances in the camps and in the cities adjoining the camps, where there are nice girls, chaperoned by our hostesses, or pleasant trips to nearby points of interest. Also, during these two days, boys are permitted to receive their parents, go into the city with them or have them visit at the camp as their guests. You will then see that we realize that "all work and no play makes Jack a dull boy" and consequently, you will be returned to your home a happy, cheerful, contented and well-set-up, eager youngster full of health and in the best of spirits, grateful to your government for your summer's wonderful training and experience and pleased with yourself for having taken advantage of the opportunity offered by your Uncle Sam.

If you have not already secured an application to attend one of these Citizen's Military Training Camps you are advised to get in touch with Lt. J. A. Gilruth, C. M. T. C. Officer, 8th Corps Area, Ft. Sam Houston, Texas, and request that an application blank and full information be rushed to you so that you can file an application and be given the benefits of priority in the selection of students to attend the camps this summer.

You Can Rent A House But You've Got To Own A Home!!

Just think of a cozy home that reflects your own individual ideas of beauty; that is planned to give you every comfort and convenience, and if you will do that you just can't escape the desire to "own your own."

Think what it will mean to your loved ones, and if you will just continue in this line of thought long enough, but one thing will be the result, and that is, you'll soon become a home owner.

Whenever you want a reasonable thing had enough you are mighty apt to get it. Remember, where there's a will there's a way.

We have a large and choice collection of pictures and plans of modern homes that we would be very pleased to have you look over. Make us a visit and look them over, ask all the questions you desire.

All "the Makin's" of a Modern Home—Plus Service

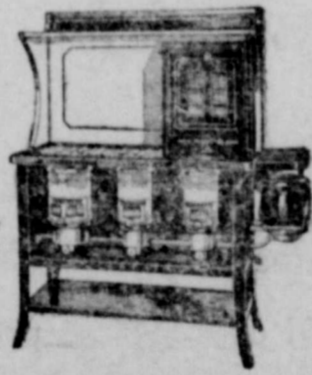

Our Aim—To Help Improve the Panhandle.

UNKNOWN NOW USED
A Year Ago Nation Wide
IN CITY AND FARM HOMES

NEW PERFECTION OIL RANGE
With SUPERFEX Burners

Is answering the call for greater cooking speed.

"The most revolutionizing invention in cook stoves made in a quarter of a century." The wonderful performance of the "fast as gas" Superfex Burners has proven this statement many times. One Giant Superfex Burner is regular equipment on all stoves, the other burners being Standard or "Little Giants."

Literally tens of thousands of women in City, Suburban and Farm homes are now enthusiastic users of these newest New Perfection Ranges with Superfex Burners—announced only a year ago.

The powerful "fast as gas" Superfex Burners are the secret of their success, making them the ideal stove for year 'round use.

Their speed, intensity and wide range of clean cooking heat are unsurpassed by that of any other stove.

The stoves themselves are marvels of beauty and convenience. Their Sturdy, Straight Line Frame—Black Porcelain Enameled Cooking Top—Two-tone Porcelain Enameled Chimneys and patented Reversible Glass Oil Reservoir—make them worth their somewhat higher Price.

PERRYTON TEXAS

ALL BIRTHS SHOULD BE PLACED ON RECORDS

County Clerk David D. Shanks is in receipt of a letter from the Texas State Board of Health, requesting that this county do its share toward putting our state in the United States Registration Area. To do this 90 per cent of all births must be reported and recorded. At present the Texas standing is only 65 percent and only 63 per cent of this county during the past twelve months have been recorded. Following are a few of the many reasons why all births should be recorded.

Determine whether minor defendants shall be tried in Juvenile or District Courts.

In illegitimacy proceedings. Proof of age and legitimacy of heirs.

As proof of age in order to determine the validity of a contract entered into by an alleged minor.

To determine the liability of a parent for the debts of a minor.

In accident cases to determine the age of persons injured when the casualty company carrying the risk sets up the defense that the injured was under the age of persons permitted in their contract with the defendant to operate machinery.

To settle disputes as to age arising out of insurance claims.

As evidence upon which to correct a record of marriage or of death, particularly to age.

As evidence of legal age in order to obtain marriage license.

As evidence of age in order to enlist in the army or navy.

As evidence of age in order to obtain the discharge from the army or navy of boys who have enlisted without their parents' consent.

As evidence of school age to gain admission to school.

As evidence that a child is over 16 years of age, and therefore, does not require a permit to work.

As evidence of the required age in order to obtain employment certificates between ages of 14 and 16.

As evidence of age and citizenship in order to obtain entrance to civil service examinations.

As proof of citizenship in order to vote.

As proof of citizenship in order to obtain a passport.

The Widow's and Orphans' pension law, which has just been enacted, has created a new demand for certificates of birth.

Establishes proof of age in a case involving age as consent.

FARMS TURNED INTO LAKES

A. L. Hanes, W. A. Riddle, A. O. Ballard, Ballie Morris, Cull Stallings, L. Sidders and Charles Persall returned this week from a fishing trip to the lakes near Gate, Oklahoma. They report a splendid trip with plenty of fish to eat in camp, and they returned with a string of more than one hundred nice catfish.

The lakes in which they fished were formed only a few years ago when a twelve-inch rain fell in that locality within a few hours. The largest of the lakes is one mile wide and three miles long and covers what was formerly twelve of the best agricultural quarters in that vicinity. It is not practical to drain the lakes so the farms are lost. In places the tops of fences can be seen. There are a number of other large lakes. The fish stock came from a small reservoir which had been stocked with catfish and which overflowed during the downpour.—Gage (Okla.) Record.

FIRST SHRINE TEMPLE IN NEW YORK CITY

There has always been and will continue to be much discussion and not a little uncertainty as to the origin of the older fraternal societies of the world. By reason of its antiquity, the exact time of the founding of the Masonic institution will never be known. But the shrine is comparatively a modern institution, it is eleven years younger than the State of Kansas and not as old as the Potentate, and he is yet a young man.

The official history of the Ancient Arabic Order Nobles of the Mystic Shrine of North America compiled by a committee of the Imperial Council, with past Imperial Potentate William B. Mellish as chairman, gives to William J. Florence the honor of being the originator and founder of the order in North America. Associated with him in the organization work was the eminent doctor and distinguished Mason, Walter M. Fleming, of New York and a member of Knights Templar and thirty-second and thirty-third degree Masons.

Mr. Florence was an actor of great prominence and made frequent trips to Europe. The story goes that while on one of these trips he visited the city of Marseilles, France, in August, 1870, and was invited by friends to join and participate in a function of great interest. The ceremony proved to be of such unusual and attractive character that he requested and received a copy of the ritual used in that ceremony. He returned to New York some time later and communicated to his friend, Dr. Fleming, the ceremony he had witnessed while abroad and proposed that a similar order be organized in New York City. As a result after much discussion and many preliminary and informal meetings, on Sept. 26, 1872, eleven Knight Templars or Scottish Rite Masons met in Masonic Hall, East 23rd St., New York City, and formally organized Mecca Temple Nobles of the Mystic Shrine. Thus was instituted fifty years ago, a fraternal order that has grown from 11 men to over half million of the best brain and heart of the nation, and that holds in its circles the highest order of fraternal fellowship the world has ever known.

From the mother Temple Mecca in New York City, and by authority of the Imperial Council it has instituted its Temples in all parts of North America. The present Imperial Potentate lives in Honolulu, Hawaiian Islands, and will preside at the next session of the Imperial Council to be held in Washington, D. C., in June of this year.—Wichita Eagle.

DID YOU EVER HEAR OF OKLAHOMA CITY, TEXAS

If anybody should make inquiry as to the location of Oklahoma City, Texas, there is perhaps no one except those intimately acquainted with the early history of Hemphill County that knows anything about that city. To even suggest such a name indicates a too familiar knowledge of the midnight routes of the corn juice peddlers, and yet it is a very same query and there are several hundred people over the United States who would like to know more about it.

An inquiry came only last week from Sheffield, England, wanting to know something about lots on that section, which is No. 11 in the southeast corner of Hemphill County and now belongs to J. L. Warren. The section was sold in 1900 for taxes and has since passed through several hands. It is now owned by J. L. Warren. W. S. Deffenbaugh, the first newspaper man in Canadian, purchased the section at sheriff's sale for taxes eleven years after the sale of the town lots, and the statute of limitations has long since wiped out any claim the purchasers may have had on their town lots in Oklahoma City, Texas.

In 1889, when Oklahoma City began to take on some promise of making a city, one Fred G. Bonfils platted this whole section of land in the southeastern corner of Hemphill County into a city which he named Oklahoma City, Texas. He maintained offices in Kansas City and had a huge banner across the main street of that city advertising lots in Oklahoma City, the name of the town being in very large letters, and the name of the state, Texas, being in very small letters. He also had offices in New York City and other large eastern centers. He sold a large number of lots. J. H. Hopkins, who was then county clerk, made a few thousand dollars in fees recording the deeds recorded.

The recent attention of the United States to the Canadian River Oil field in this county has made people all over the world dig up age-worn deeds to land in Oklahoma City, Texas, and write in to know something about the size of the city at this time. The land has of course never been anything but a part of a cattle ranch.

After the sale of the town lots of Oklahoma City, Texas, Bonfils sold the townsite, or rather an addition to the townsite, of Hansford, maintaining offices in New York City.

He is now the owner of the Denver Post and is rated a millionaire. Many of the old timers in Canadian know him quite well, and were intimately

acquainted with him, holding him in high esteem. He was a man of pleasing personality and made friends wherever he went.

Oklahoma City, Texas, had it developed into a metropolis, would have been forty miles from Canadian, the nearest railroad point.—Canadian Record.

Our High School Baseball Team lost to the boys from the Canadian School by a decisive score on last Saturday afternoon. This probably will be the last game of the season for the local team.

The City Board of Equalization, composed of B. B. Kent, Fred W. Hood and F. P. Rogers, has been in session the greater part of this week, making adjustments up and down on the city assessment returns.

AMONG LEGION FUNMAKERS

Howard E. MacDonald of Seattle, Holds Office of "Correspondent National" of the Organization.

Although the Forty Hommes et Huit Cheveaux organization is known as the "playground society" of the American Legion, its formation and development required the strenuous efforts of a number of Legionnaires.

Among the leaders in the funmaking body is Howard E. MacDonald, of Seattle, who holds the office of "correspondent national" or national adjutant of the organization.

MacDonald was a charter member of the third Legion post organized in Seattle, Rainier No. 21, and served as assistant adjutant and adjutant. This post later was consolidated with Elmer J. Noble Post No. 1, and became Rainier Noble No. 1.

He went to Kansas City as a delegate to the first Promenade Nationale

Howard E. MacDonald.

of the Forty and Eight. It was largely through his efforts that order was brought out of the chaos then existing in the national organization.

Upon the election of Edward J. Elvers, of Portland, Ore., as chief de chemin de fer (national president) of the order, MacDonald was made "correspondent national," and was reappointed to that office following the last convention at New Orleans.

MacDonald served 22 months in the army. He was overseas 14 months as a sergeant major, senior grade, Coast Artillery corps, at First Army Artillery headquarters.

LEGION WILL WAR ON DOPE

Americanism Commission Director Powell Makes First Announcement of Organization's Activity.

Ninety-five per cent of the ever-increasing dope peddlers in America are of alien birth or parentage, declared Garland W. Powell, director of the Americanism commission of the American Legion, in an address at Indianapolis recently.

Mr. Powell said that if the drug menace is not checked this country will become a drug-soaked nation within 25 years.

This is the first official announcement that the American Legion would enter the war on illicit narcotic dealers and dispensers of habit-forming drugs.

Mr. Powell urged that the restriction of immigration to this country would check the traffic in dope and that the Legion would proceed to that end.

In describing the activities of the dope peddlers, Mr. Powell made these assertions: "One person in every seventy-three uses drugs as a habit. There are 1,500,000 persons now in America who cannot face existence without drugs, and who are swiftly sinking into a condition of hopelessness and death."

"The death of the drug addict is premeditated murder on the part of the peddler, for he knows the fatal result of the habit. If I were in a position to introduce a bill in congress or in state legislatures, I would make capital punishment the penalty for peddling drugs."

Mr. Powell made the statement that the use of dope is steadily growing among children. He declared that federal investigators had recently found cases of drug addiction among high school students and also among the pupils of lower grades.

He cited one instance where a peddler was arrested as he waited outside for his "customers" to come from their classes.

Alaska Women Active. Women enrolled in the American Legion Auxiliary at Juneau, Alaska, are so earnest in their efforts to aid the disabled ex-service men that they have decided to "adopt" a hospital.

They have written to R. E. Arne, director of war service, Pacific division of the Red Cross, suggesting that Walla Walla, Wash., hospital doubtless would be pleased to be "adopted" by the Auxiliary and receive the comforts they are eager to supply.

Drive for Better Streets. The American Legion post of Rockdale, Tex., led a drive by the citizens there on the bad streets of the town. Every man, woman and child took a day off to repair the thoroughfares.

CITATION BY PUBLICATION

The State of Texas, To the Sheriff or any Constable of Ochiltree County, Greeting:

You are hereby Commanded to summon The First National Bank of Tulsa, Oklahoma, a corporation; the unknown officers, directors and stockholders of the First National Bank of Tulsa, Oklahoma; The Union National Bank of Tulsa, Oklahoma, a corporation, and the unknown officers, directors and stockholders of the Union National Bank of Tulsa, Oklahoma, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 31st Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 31st Judicial District, to appear at the next regular term of the District Court of Hemphill County, to be holden at the Court House thereof in Canadian, Texas, on the second Monday in August A. D. 1923, the same being the 13th day of August A. D. 1923, then and there to answer an amended petition filed in said Court on the 19th day of April, A. D. 1923, original petition filed Dec. 21, 1922, in a suit numbered on the docket of said Court No. 1699, wherein Eli P. Clark is Plaintiff, and The First National Bank of Tulsa, Oklahoma, a corporation; the unknown officers, directors and stockholders of the First National Bank of Tulsa, Oklahoma; The Union National Bank of Tulsa, Oklahoma, a corporation; the unknown officers, directors and stockholders of the Union National Bank of Tulsa, Oklahoma; T. V. Ellzey; Callie Ellzey, a widow, individually and as community administratrix of the estate of Frank T. Ellzey, deceased; W.A. Johnson and A.V. McQuiddy are Defendants, and being a suit to foreclose a deed of trust lien on Sections Numbers 536, 581, 582, 583, 650, 651, 670, 671, and the West 1/2 and the Southeast 1/4 of Section number 561, all in Block 43, H. & T. C. Ry. Co., Ochiltree County, Texas, given by T. V. Ellzey and Callie Ellzey, individually and as community administratrix of the estate of Frank T. Ellzey, deceased, to secure the payment of a promissory note for the sum of \$5,369.32, dated September 1, 1922, due November 1, 1922, bearing interest at ten per cent per annum, and providing for ten per cent attorney fees, payable to Eli P. Clark or order at Canadian, Texas, said Deed of Trust made to Hugh Mackie, Trustee for Eli P. Clark; alleging that said note evidences an indebtedness for a loan made by Eli P. Clark, plaintiff, to said Ellzeys with which to pay the annual interest and appurtenant charges for two years on a loan of \$32,000.00, made by the Southwestern Life Insurance Company, and alleging the transfer and assignment by said Southwestern Life Insurance Company to plaintiff of the interest coupons attached to said \$32,000.00 note and an assignment of the lien securing same subject to the first lien in favor of Southwestern Life Insurance Company; alleging that plaintiff paid said interest to said Southwestern Life Insurance Company, also court costs and attorneys fees accrued by reason of suit on same, took an assignment of same, and renewed and extended the same by the note sued upon in this suit; alleging that all the other defendants named are claiming some sort of lien or interest in or to said real estate, the exact nature of which is to him unknown, but that said lien or interest is subordinate to plaintiff's lien and inferior to it, and he joins them to bar their interest or equity of redemption.

Plaintiff prays for citation, for judgment for his debt, for foreclosure of Deed of Trust Lien against said real estate, and for decree establishing his lien as superior to the liens or interest of all other defendants for general relief.

Herein Fail Not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and the Seal of said Court, at Office in Canadian, Texas, this the 19th day of April, 1923.

(L. S.) R. C. JACKSON, Clerk, District Court, Hemphill County. 12-4t-c

Harvest Time, Blistering Heat—

IT is in these times of pressure that the farmer thanks his lucky stars he chose an Allis-Chalmers tractor!

For in the Allis-Chalmers you find the ability to work as efficiently in hot weather as in the dead of winter! An oversize copper fin-and-tube type radiator positively prevents overheating, even though motor be held at full-rated horse power, hour after hour.

Cuts 40 Acres in 10-Hour Day

Hitched to two 8-foot binders, the A-C 15-25 holds a steady four-acres-an-hour gait. You forget about the weather—take the field and cut before the grain is over-ripe. The Allis-Chalmers water air-washer always gives plenty of cool, moist air—keeps the motor running smoothly even on scorching, dust-heavy days.

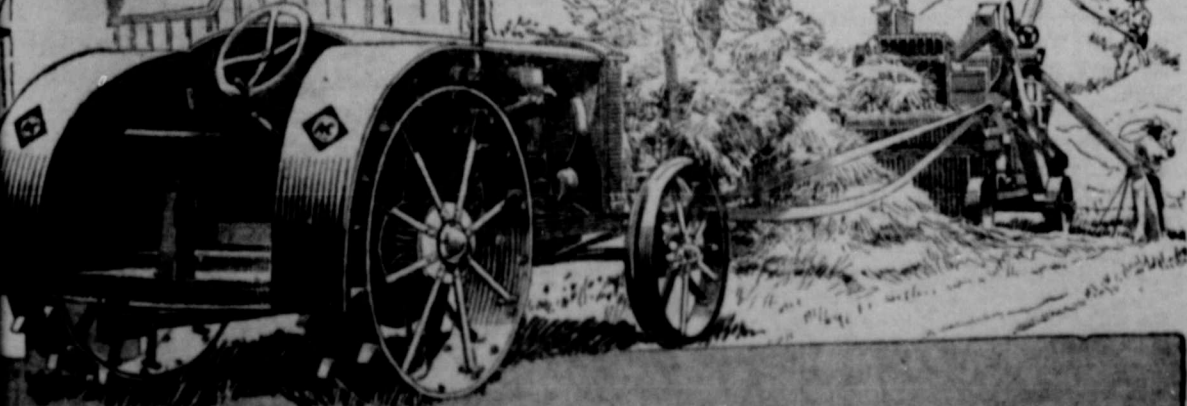

Operates 24-Inch Separator

Irregular feeding, matted bundles—of course you need an Allis-Chalmers tractor with its tremendous reserve! Equipped with automobile-type steering, the A-C 15-25 can be easily "lined-up" for belt work. Should it be necessary to stop thresher for a moment you don't have to "throw the belt"—just disengage the pulley clutch and motor runs idle. The A-C 15-25 motor holds a constant speed, too. As the load varies, an automatic governor advances or retards the throttle—keeps belt travel the same at all times.

By doing their own and custom work, many farmers have paid for their Allis-Chalmers tractors in one season. Come in—ask for a demonstration!

G. T. LEATHERMAN, Agent PERRYTON, TEXAS

R. H. Francis, First National Bank of Perryton, Texas, C. E. McLarty, Twentieth Century Mill Manufacturing Company, Fischer Machine Works Company, Defendants.

In the District Court of Ochiltree County, Texas, April Term, 1923.

Whereas, by virtue of an order of ale issued out of the District Court of Ochiltree County, Texas, on a judgment rendered in said Court on the 12th day of April, A. D. 1923, in favor of the plaintiffs Hattie V. Steiner, David Steiner, Leah Zook and Jo. L. Zook, and against R. H. Francis, and said judgment also running in favor of the defendants Twentieth Century Mill Manufacturing Company, and the First National Bank of Perryton, Texas, and against the defendant R. H. Francis rendered on their answers and cross actions in said suit, said suit being number 420 on the Civil Docket of said court. I did, on the 9th day of May A. D. 1923, at 10 o'clock a. m., levy upon the following described real estate situated in the city of Perryton, Ochiltree County, Texas, to-wit: All of Lots No. 5 and 6 in Block No. "B", and Lot No. 8 in Block No. 2, as the same appears upon the plat of said town on file with the County Clerk of Ochiltree County, the same levied upon as the property of the defendants, R. H. Francis and I also levied on the same date, May 9th, 1923, at 10 o'clock a. m. levied upon and took into my possession the following described personal property belonging to the defendant R. H. Francis, to-wit: One complete Twentieth Century Flouring Mill, capacity fifty barrels; one Twentieth Century Ball Bearing Double Scourer; one Forty Bushel Milling Separator, medium screens; one Twenty-two Wegner Dust Collector for scourer; one O-Twentieth Century Dust Collector; one Electric Motor. And on the 5th day of June A. D. 1923, being the first Tuesday in said month, between the hours of 10 a. m. and four o'clock P. M., on said day at the court house door of said County, in Perryton, Texas, I will offer for sale, and sell at public auction, for cash, all the right, title and interest of the said R. H. Francis and other parties named defendant in said suit in and to said above described real estate.

That on the same day, between the hours above specified, I will also offer for sale, on the premises, to wit, Lots No. 5 and 6 in Block No. "B" he personal property last, above herein described, and sell the same at public auction, for cash, to the highest and best bidder therefor.

Judgment extinguishes the interest of the Fischer Machine Works Company, if any it had in and to said property.

Said judgment decrees the lien of the plaintiffs a first lien on the said Lots above described, and to the extent of \$800.00 on said milling machinery; the lien of the First National Bank, aforesaid, a second lien on said Lots 5 and 6 above, and a third lien on said milling machinery, and a first lien on said electric motor. It also directs that the said lots be sold first, the proceeds to apply on the amount due plaintiffs, that the milling machinery be next sold, and the proceeds to be applied to any balance due the plaintiffs up to \$800.00, then to the payment of the Mill Mfg. Co., any balance to any deficiency due said Bank.

Dated at Perryton, Texas, this 9th day of May, A. D. 1923.

J. S. TALLEY, Sheriff, Ochiltree County, Texas.

Good Printing

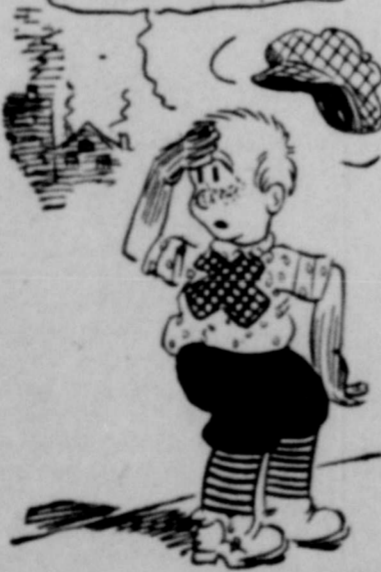

THE kind of printing that pays dividends is the kind you should have. Pale, muddy, poorly arranged printed matter is worse than none. The quality of your business is often judged by the quality of your stationery—inferior printing gives an impression of cheapness that is hard to overcome, while good printing carries with it a desirable suggestion of quality.

We produce only Quality Printing. Whether you want an inexpensive handbill or a letterhead in colors, if you order it from us you will be sure of getting good work. We have the equipment and the "know how" that enables us to get out really good printing—printing that impresses people with the good taste of its users. That is the only kind of printing that

The KITCHEN CABINET

It never troubles the sun that some of his rays fall wide and vain into ungrateful space, and only a small part on the reflected planet. Thus art enlarged by thine own smiling.—Emer-son.

GOODIES THAT WILL KEEP

Stuffed dates, figs and prunes are always a dainty enjoyed by young and old.

Ginger Dates.—Remove the stones from large dates and fill with equal quantities of chopped ginger and nuts, using the preserved ginger and moisten with a little of the ginger sirup. After filling the dates, roll them in granulated sugar and pack in boxes, covering with waxed paper.

Fruit Rocks.—Cream two-thirds of a cupful of butter with one cupful of sugar, add two beaten eggs and when well mixed add one and one-half cupful of flour which has been sifted with one teaspoonful each of cinnamon and cloves. Add one pound of walnuts, one pound each of raisins and dates. When all are well mixed add a teaspoonful of soda dissolved in one and one-half tablespoonfuls of hot water. Stir well and drop on buttered tins by half teaspoonfuls. Bake in a moderate oven.

Tutti-Frutti Candy.—Dissolve one-half pound of granulated sugar in three-fourths of a cupful of water, bring to the boiling point and boil to the soft-ball stage. Chop one-fourth pound of crystallized fruit and add with one teaspoonful of vanilla. Beat until creamy, pour into a buttered tin and when cool cut into squares.

Cinnamon Cakes.—Take one-half cupful of butter; work until creamy; add one-half pound of sugar and gradually three beaten eggs. Add flour to make a mixture to roll, add cinnamon until brown and work it into the dough. Let stand in a cool place over night. Roll out in the morning as thin as possible, cut into shapes and brush with the yolk of egg; sprinkle with sugar. Bake in a quick oven.

Sea Foam.—Take two cupfuls of sugar, one-half cupful of corn sirup and one-half cupful of water. Boil to the soft-ball stage, add almond flavoring and pour over two stiffly beaten egg whites; beat until stiff, add chopped almonds and finely-minced candied cherries. When stiff, drop by small spoonfuls on a waxed paper.

The man who is ever seeking to do his best is the one who is keen, active, wide awake and aggressive. He is ever watchful of himself in trifles. His standard is not "What will the world say?" but "What is worthy of me?"

SEASONABLE DAINTIES

During the winter months when fruit, such as oranges, lemons and grapefruit are plentiful, most delicious candied sweets may be prepared from the peel.

Candied Orange Peel.—Cover the peel of four oranges with two quarts of water, bring slowly to a boil and simmer until the peel is tender. Drain and let stand for two hours. Remove all the white inner skin and when the peel is dry cut into strips. Boil two cupfuls of sugar with one-half cupful of water until it spins a thread. Put in part of the peel and boil for five minutes; remove with a fork and roll in granulated sugar. Grapefruit or lemon peeling may be treated in the same way; a mixture of the three makes a very nice confection to serve with a cup of tea.

Candied Cranberries.—Put two cupfuls of sugar on to boil with three-fourths of a cupful of water. Boil slowly for five minutes. Wash and dry two cupfuls of large, hard, dark red cranberries, pierce each with a darning needle, then spread the berries in a single layer on a granite pan. Pour the sirup over the berries and set them into a moderate oven until they are almost transparent. Remove and dust with powdered sugar if desired.

Fruit and Nut Paste.—Take two cupfuls of dates after stoning, one cupful of peanut butter, one teaspoonful of salt. Wash and dry the dates and put through a meat chopper, add the peanut butter and mix well with the salt. Take spoonfuls of the mixture, shape into small apples, put a currant for the blossom end and a piece of candied lemon or orange peel for the stem.

Raisin Pie.—Line a pie plate with pastry. To one cupful of seeded raisins add the grated rind and juice of a lemon; beat two egg yolks and mix with one-half cupful of sugar, add a cupful of water, a bit of salt and a few bits of butter. Put into the pastry shell, cover with a crust and bake thirty-five minutes.

DOULTRY

DISCARD ALL DOUBTFUL EGGS

Farmer Should Give More Attention to Candling Before Shipping Product to Market.

(Prepared by the United States Department of Agriculture.)

Farmers, merchants and shippers in the country districts will improve the reputation of the market egg if they give more and more attention to careful candling of eggs before they let them go any farther on the way toward the consumer. The presence of doubtful eggs hurts the reputation of all the eggs marketed and has a corresponding effect on the price. The wag responsible for the saying "A doubtful egg is a bad egg even if it is

Candling is Surest Way of Taking Doubt Out of Egg Case.

a good egg" said something no poultryman or egg dealer ever should forget.

Candling is the surest way to take doubt out of the egg case. The United States Department of Agriculture has a bulletin on the best methods and equipment for doing the work. Those who desire it should write to the department at Washington, D. C., for Department Bulletin 565, How to Candle Eggs. It contains descriptions of candlers for the handling of small numbers of eggs and for handling large quantities.

CLEAN EGGS ARE PREFERRED

Bring Five to Eight Cents More Per Dozen Than Dirty Stock—Change Nest Material.

Clean nests will go a long way toward securing fresh eggs, which will bring all the way from five to eight cents per dozen more than dirty eggs in the city market. Change the nesting material frequently, keep the dropping boards clean and renew the litter as soon as it becomes dirty. The house, litter and dropping boards must be clean or the layers will have dirty feet. Hens with dirty feet will soil a whole nest full of eggs.

LIME NECESSARY FOR FOWLS

Essential in Manufacture of Eggshells and Heavy Layers Need Big Quantities of It.

Hens without lime can come as near laying heavily as a race horse could win with a hobble about its legs. Lime is necessary in the manufacture of the shells, and heavy layers need enormous quantities of it. Oyster shell is the most economical form in which to supply it, and one of the best paying investments you'll make.

DOULTRY NOTES

By a trio is meant a male and two females.

Keep pure fresh water always within reach.

What is known as a yearling hen is one having laid twelve months.

In selecting a location for a poultry yard, choose a light, sandy soil.

A male bird less than a year old is known as a cockerel. When over a year old it is a cock.

It costs no more to keep a hen that lays 150 eggs a year than one that lays only 75. Why keep the latter?

Dry quarters free from drafts and with ample room for the birds housed there are the best preventives of roup.

Cramming is a system of forcing feed into young fowls, either by hand or machine, so as to put on extra flesh.

Lameness in poultry is a symptom of a number of poultry troubles and diseases, the most common one being tuberculosis.

A hen must lay 80 eggs a year to earn her feed alone, and at least 95 eggs to pay her board, keep and care, it is figured.

The drakes can be distinguished from ducks when seven or eight weeks old by the curl in their tails. They have larger heads and a straighter carriage.

Hidden In the Walls

Hidden in the walls of your home is the strength, the durability, of your dwelling. The framework is the real "foundation" of your construction. You can cover up inferior material so that at first the appearance is pleasing, but sooner or later your home will suffer in value. Your home is no better than the materials used in the construction that build it. You can buy Long-Bell lumber here—its good manufacture and its dependability known—at a price that pledges the most building value for your money. It is economical—and it puts permanent construction into your home without any doubt.
