VOL. 10, NO. 15 SNYDER, TEXAS, MONDAY, MAY 18, 1959 EIGHT PAGES—PRICE 5c

Emphasis On Gas, Business

AUSTIN (AP)—Gov. Price Daniel revised his tax program today to emphasize gas and business levies and put less on the average taxpayer to balance the budget.

In a message to the special Legislature, the governor went along with compromises worked out in the House during the regular session on portions of his selective sales tax items.

Daniel recommended the natural gas severance beneficiary tax at 5 per cent of value instead of 3 per cent. He suggested a cut in the production tax from 7 to 5 per cent. The "beneficiary" tax is designed to tax the eventual users of Texas gas, regardless of the location of the person or corporation.

He said arguments that further taxes on gas will increase the price and reduce sales "is pure bunk." He said Texas collected more money from cigarettes than natural gas.

Daniel again raked gas lobbyists and said if higher prices discourage consumption why did Lone Star Gas Co. petition the Railroad Commission for approval of an increase in the price of gas delivered.

He also submitted a plan revising the corporation franchise tax on companies engaged in interstate business "to eliminate the discrimination which now exists in favor of the foreign corporations and against our own domestic companies."

Daniel recommended a gross receipts tax now levied on public utilities be set at the same rate now levied on telephone companies of 2.3 per cent.

He agreed to an increase in the cigarette tax of one cent a pack plus a tax at the same rate on cigars and other tobacco products, except snuff. He recommended the $1.40 a gallon liquor tax be increased to $2.50 and the motor vehicle sales from 1.1 per cent to 1.5 per cent.

Representatives, in advancing the ill-fated omnibus tax measure in the regular session, agreed to the same motor vehicle sales and cigarette tax plans but increased the whisky tax to $1.50.

Daniel also submitted information—without a recommendation—that a one cent increase in the gasoline tax will raise 69 million dollars.

Daniel said two thirds of the 69 millions will be available to the general fund and the public schools if farm roads are paid out of the new tax instead of the general fund. He also "mentioned" that a one cent a bottle or $3.30 a barrel tax on beer will leave our rates below Oklahoma and Louisiana and yield 13 million a year.

"To those who want to place the entire burden of the new tax program on general or selective sales, directly or indirectly, I respectfully remind you that the family budgets of the individual citizens of this state are already hard pressed.

"Family incomes are not going up in the same proportion as corporate incomes and profits from natural gas," he said.

In urging immediate action on solving the deficit, Daniel calculated that each month of delay will raise the eventual tax bill by seven million dollars. He again submitted his comptroller's bookkeeping bill, a one-year increase in the franchise tax and a revised abandoned property bill.

Daniel warned lobbyists openly advocating several special sessions that the Legislature may slap the extra cost "on their own vested interests."

He said he was not referring to all lobbyists but to a few "who want all the new taxes to be put upon the family budgets of the people of this state—those who have openly boasted that it could be done if they wear down the governor and sweat out the Legislature with two or three special sessions. He said:

"My reply to them is that the governor is feeling fine.

"The members of the Legislature look good to me and I believe we can stay here just as long as it is necessary to write a tax bill which is fairly distributed upon the people and the corporations in proportion to their ability to pay."

Elevated Trains Crash; 119 Injured

By EARL AYKROID

CHICAGO (AP) — At least 119 persons were injured, two seriously, today in a head-tail collision of two jammed rush-hour elevated trains carrying riders to downtown Chicago.

The impact telescoped a four-foot section of the Logan Square trains and threw standing passengers to the floor like tenpins.

Scores were treated at the scene. Others were taken to hospitals for treatment or examination.

The collision of the two six-coach trains of all steel construction occurred when the first train stopped after leaving a station and was rammed by the second.

A passenger, Jerry Rogus, was in the rear car of the train that was hit. He said he turned his head and saw the other train approaching.

"There was a big bang and sparks were flying," he said. "All the people started running for the front of the car.

"One girl who had been standing near me started screaming for her mother. 'God help me,' she cried. Her leg was cut off near the bottom. Then there was a Japanese man. His arm was cut and he was bleeding from the mouth."

Ronald Nowok, a passenger on the train that rammed the second, said "Everything went black" upon impact. He said a side door in his car flew open, a woman beside him fell backward and he hit his head on a seat.

Witnesses said passengers in the rear car of the standing train ran forward to the other cars while those in the front car of the rear train tried to crowd into the rear cars.

Passengers in elevated trains can step from car to car through front-rear exits.

The crash occurred at 1800 Milwaukee Ave., at the highest point of the northwest elevated route and between the Damen and Western avenue stations. The El structure there is as high as a three-story building.

The motorman of the rear train, Dominick Paris, was trapped in his cab for more than a half hour. He complained of a leg injury but was able to walk unaided.

Passengers said the rear train had just pulled away from the Western avenue station and was traveling slowly when the collision occurred. The first coach of the second train telescoped about four [illegible]

Frank Thielmann, second deputy fire marshal in charge of rescue operations, estimated a total of 800 passengers were on the two trains.

Paris, freed from his cab by firemen using portable electric saws, told police and newsmen he had pulled away from the station about 8:18 or 8:20 a.m. when "a train stalled in front of me and I came up behind it." He said he couldn't estimate his speed because the straight stretch of tracks at the scene had no signals.

There was no immediate explanation of why the first train stopped.

A spokesman at St. Elizabeth said the number of injured brought there was "at least 92 and probably more."

St. Mary's of Nazareth Hospital said 27 injured were brought there but none was believed in serious condition.

Health Unit Needs Up For Discussion

Possible needs at the Scurry County Health Unit were brought up before the county commissioners court this morning.

J. Ray Martin, county judge, read an unsigned letter to the court which purported to be from a group of citizens interested in the unit. The letter asked for a close-up look by the court at the health unit building and facilities there.

In the letter, possible need for an X-ray machine, a dentist's chair and other facilities were cited, as well as the possibility of a board of disinterested citizens to govern the health unit.

The letter called the health unit building a costly one, the "lion's portion" of which was paid by the county. It said there was some resentment among those interested in tuberculosis care because there was no X-ray machine in a "rather expensively-prepared X-ray room."

The court discussed but took no action on the letter. There was indication, however, that the court would further investigate the health unit, its functions, and possible needs.

The idea of an X-ray machine at the unit met with little favor in the court's discussion. Pat Moore, commissioner of precinct 3, said he did not favor the idea for several reasons. He expressed belief that the X-ray room at the unit was not designed with the needed lead-insulated walls. Also, he said, when the state had free X-rays here annually those needing the X-rays the most were the hardest to get to take advantage of the free services. He said an X-ray machine at the unit would require a technician to operate it and that he did not favor the county's hiring a technician for the health unit. He said he favored keeping high-priced equipment at the hospital for more facility.

J. C. Massingill, commissioner of precinct 4, noted that the county is now paying an estimated $500 to $600 annually for X-rays of indigents, the same persons who would be served by an X-ray if one were placed at the health unit, and that that amount would not begin to buy an X-ray machine.

The question arose as to whether the county hospital board could add the health unit to its responsibilities. T. B. Knight, commissioner of precinct 1, said he believed the commissioners court should handle the health unit itself.

The court granted an entrance to the south side of Towle Memorial Park on request of James

Two Persons Are Hurt In 3-Car Crash

Two persons were hospitalized with injuries suffered in a three-car accident at about 5:35 p.m. yesterday three miles north of Snyder on U. S. Highway 84.

They are Erwin Gus Bruns, 47, and W. L. Hazlewood, 52, of Snyder. Bruns, taken from the accident scene to Cogdell Memorial Hospital by Bolger ambulance, was taken on to Lubbock Memorial Hospital by Bolger for treatment of a serious arm fracture.

Hazlewood, taken by Bell ambulance to Cogdell Hospital, was still in that hospital today with a head injury. One other person, Mrs. David Naranjo, 25, of Wilson, was taken to Cogdell by Bolger for first aid and then released.

Gordon Johnson, Texas highway patrolman who investigated the accident, said a 1953 Studebaker driven by Bruns and a 1955 Pontiac sedan driven by Edward Eugene George, 49, of Snyder, were both headed south on the highway as Bruns attempted to pass the car driven by George.

The Studebaker sideswiped an oncoming 1949 Plymouth coach driven by David Naranjo, 30, and glanced off, hitting the left rear of the Pontiac, Johnson said, adding that none of the cars overturned.

Hazlewood was riding in the Bruns car. The Naranjos were accompanied by a small child, but only Mrs. Naranjo was injured in that car. George was not injured.

Moderate Cut In Foreign Aid Seen

By JACK BELL

WASHINGTON (AP) — Two influential Democratic senators predicted today Congress will make only moderate reductions in President Eisenhower's $3,930,000,000 Foreign Aid Program.

Sens. Mike Mansfield (D-Mont) and John Sparkman (D-Ala) said in separate interviews they think the Senate Foreign Relations Committee, of which they are members, will approve an authorization of around 3½ billion dollars.

This amount looks like a target figure for action by the House Foreign Affairs Committee, which will begin its item-by-item scanning of the bill Wednesday. The Senate committee will not get to this phase until next week.

Sparkman said President Eisenhower, who has backed up his request vigorously, can expect some reductions in the over-all amount "but I don't believe they are going to be substantial."

Mansfield, the Assistant Democratic Leader, agreed that the Senate committee is likely to reach a figure of about 3½ billions. But he said he can't predict what will happen in the Senate itself.

Mansfield has proposed eliminating defense support and economic assistance grants from the program within a three year period, beginning next year. Defense support involves payments to other governments to help keep their military forces at a higher level than their economies can sustain.

The Montana senator also wants to abolish the International Cooperation Administration and put full responsibility on the State Department for administering economic loans. He would have the Defense Department carry out the military program, under the supervision of the secretary of state.

While Eisenhower has rallied the Republican leadership behind his $3,930,000,000 request, not all of his party members will go along with him. There also has been a shift away from the Foreign Aid Program by some Democrats who supported it in the past.

Mrs. Truman Has Surgery

KANSAS CITY (AP)—Surgeons removed a breast tumor today from Bess Wallace Truman, 74-year-old wife of the former President.

A Research Hospital spokesman described Mrs. Truman's condition as "very satisfactory" after the two hour and 45 minute operation.

The spokesman said it would be two or three days before it is determined whether the tumor was malignant.

Earlier her husband, Harry S Truman, told newsmen the operation was "not as serious as we thought."

The hospital spokesman said laboratory tests will have to be made before a final determination.

The former President told newsmen.

Truman had remained close to the operating room on the fifth floor of Research Hospital from the start of the operation until he came to the ground floor to visit the office of the hospital director, Robert E. Adams. Newsmen caught him as he started to enter the elevator to return to the fifth floor.

He was solemn-faced when he came down the elevator but was smiling as he started the return trip.

Jailed Youth May Strike

SAN ANTONIO (AP)—A young civilian Air Force clerk jailed because he tried to kiss a preacher's pretty daughter, threatened today to stage a hunger strike.

Bill Gilbreath, 23, said he is not going to eat a bite of food until the girl, Shirley Norville, 16, turns up at the city jail to help get him out.

Gilbreath was jailed yesterday after the Rev. Leonard Norville filed complaints charging him with aggravated assault and disturbing the peace.

2 Children Die In Fire

CARLSTADT, N.J. (AP) — Two young girls burned to death early today in a fire that destroyed their home.

Their father, a patrolman, was tackled by a fellow officer as he tried to dash into the flaming house after driving up in a patrol car.

The officer, William Lown, 34, had been cruising with patrolman Paul Occhiuzzo when the police radio ordered them to a burning house at 8th and Broad St.

"That's my house," said Lown. His was the only home on the corner.

When he arrived the house was sheathed in flames. He tried to run inside but Occhiuzzo tackled him.

It was half an hour before firemen could enter the house. They found Lown's two children, Linda Elizabeth, 8 months, and [illegible] 3½, dead in a second-floor bedroom.

Fluvanna Man Joins Fire Department Here

Dan Blair, 21, native of Fluvanna community, has been added to the staff of paid firemen of the Snyder Fire Department.

D. A. Porter, fire chief, said that Blair, who lives with a sister and widowed mother in Fluvanna community, will move his family to Snyder when school ends.

He will work at the central station.

HERTER IN ROME—U. S. Secretary of State Christian Herter, right, shakes hands with Italian President Giovanni Gronchi at the Quirinale Palace in Rome. Herter said his one-day flying visit to Rome from Geneva gave him an opportunity to confer with Italian leaders on "matters of concern not only to our two countries but to the entire world." (AP Wirephoto via radio from Rome)

West Offers To Separate Berlin Crisis

By JOHN M. HIGHTOWER

GENEVA (AP) — The Western powers offered today to discuss the Berlin crisis with the Soviet Union apart from other German issues. But they declared the Berlin issue cannot be "settled in isolation" from German reunification and European security problems.

The Western offer was made in a statement issued in an apparent effort to calm a stormy dispute within the Western camp over whether to seek a stopgap arrangement on Berlin.

The row ranged the United States and Britain against France and West Germany.

The U.S. and British delegations let it be known over the weekend that they felt the Soviet Union's adamant rejection of the Western package proposal for German reunification and a European security system necessitated negotiations on the immediately pressing question of Berlin.

French and West German officials insisted on continued firm support for the package program and a very tough line in negotiating with Soviet Foreign Minister Andrei Gromyko.

The joint Western statement denied that the Allies had decided to break up the Western package plan.

It said the Western powers had already stated that "the various questions included in the plan can be discussed one by one. But as they are, in fact, all connected, they cannot be settled in isolation."

"As to Berlin," the statement said, "the Western foreign ministers expect to discuss this problem along the line of the proposals on Berlin contained in Phase I of the Western peace plane."

The plan proposes that West and East Berlin be united by free election and the unified city be guaranteed by the Big Four. This would be the first step toward German reunification.

Special Session Is Launched Today

By ED OVERHOLSER

AUSTIN (AP)—The 56th Legislature's first special session began today a new effort to solve Texas' fiscal crisis.

Gov. Price Daniel asked the lawmakers to retire the deficit and balance the budget in 30 days with taxes mainly aimed at big business and not at family budgets.

Speaker Waggoner Carr's gavel got the House off to a late start at 11:03 a.m.

Lt. Gov. Ben Ramsey's gavel rapped in the Senate at 11:07 a.m. Sen. Jarrard Secrest was elected president pro tem.

By law the session has 30 days in which to finish its job, limited already by the governor to spending and taxing. Failure will bring on another special session.

One of the first items on the agenda is to invite Gov. Price Daniel to deliver his budget message later today.

Payments to schools, hospitals, courts, colleges, pensioners and others will stop Sept. 1 if an appropriation bill is not passed along with a tax measure to finance it.

"If the emergency is not met, the name of Texas will be added to that of Michigan as a state which cannot pay its debts," Daniel said.

Most legislators, arriving at the capitol after a 5-day break from affairs of state, tempered Daniel's optimism with cautious guesses on whether or not 30 days will produce a solution.

Daniel said he thinks "the spirit of cooperation will be a little different" than during the fiscal flop the legislature completed and that it will have more success now because there will be no side issues to get into hassles on.

Speaker Waggoner Carr, who backed a broad-based tax plan in contrast to Daniel's predominantly gas and selective sales tax program, said the Legislature laid a "strong foundation" to complete the task in 30 days.

State Comptroller Robert Calvert submitted his official estimate of the deficit which he said will be $65,890,592 by the end of the fiscal year, Aug. 31.

Another 77 million a year will be needed in new revenues to carry on the state's operations for the next two years.

No delay is likely in getting a joint conference committee to work on the general spending bill. Daniel said his tax program, which got nowhere in the regular session, will be sufficient to cover the House version of the appropriations.

Representatives passed a bill calling for 333½ million dollars from the general revenue fund. The Senate whacked this to 307 millions.

Man Is Injured While Loading Pipe

A Snyder man was slightly injured at about 10:30 a.m. today near Vealmoor in south Borden County.

He is Thomas J. Francis, Ray's Apartments, an employe of Musslewhite Trucking Co.

Francis' leg was caught between a section of pipe and a truck while he was loading pipe.

He was taken by Bell ambulance to Cogdell Memorial Hospital, where he was admitted for treatment for a sprain.

West Texas: Partly cloudy and warm through Tuesday with scattered thundershowers east of the Pecos Valley this afternoon and early tonight.

King Baudouin Paying Visit To Belgian Army Unit Today

By CLAYTON HICKERSON

DALLAS (AP)—King Baudouin of the Belgians, after a weekend here of speech making and relaxation, took off today for El Paso to visit a Belgian army unit in training at Tobin Wells, near Ft. Bliss.

A Military Air Transport Service plane took off with the royal visitor at 9:07 a.m.

Last night the king was the guest of honor at a garden party given here by Wiley T. Buchanan, U.S. State Department chief of protocol, who heads the king's traveling group.

Earlier he had flown in a light private plane to Fort Worth, 30 miles west of here, and played 18 holes of golf with Ben Hogan on the new, plush 6,320-yard, par 71, Shady Oaks Country Club.

Forty invited guests and the official party traveling with the king relaxed last night in the garden of Buchanan's mother, Mrs. W. T. Buchanan of Dallas.

The garden setting was described by members of the king's party a superb. Crystal chandeliers hung from huge trees and fountains tinkled in pink and white lights. Two crystal candlesticks from a Turkish sultan's palace decorated the king's table.

The guests arrived at 7:30 p.m. to greet the smiling 28-year-old monarch on his arrival. The party broke up after midnight.

In the golf match with Hogan, who has won 65 major golf tournaments in his long career as a professional, the fast-playing king proved he could hold his own with the best.

No score was kept during the 18-hole match, but the king parred several as he attentively listened to Hogan's almost ceaseless coaching. His drives and approach shots were very good, veteran golfers who saw him said, but his putting left something to be desired. This, they said, probably was caused to some extent because of the larger American-style ball with which he played for the first time.

When he met Hogan in the carpeted, air-conditioned and marble-trimmed Shady Oaks locker room, the young king shook hands warmly with the golfer and conveyed the regards of his father, Leop[illegible] of Belgium.

Photographs Show Potential Of 'Spy-In-The Sky' Project

By ELTON C. FAY

WASHINGTON (AP) — A new series of photographs made from a missile out in the edge of space indicated today the potentialities of the "Sentry" Spy-in-the-Sky Satellite Project of the Air Force.

The pictures were made public by the Air Force, which said only that their purpose was to show how the nose cone of a missile looks as it separates from the rocket. But the pictures themselves showed a quality which gave promise of bigger things.

The tiny movie camera used was carried aloft by a Thor missile launched from Cape Canaveral, Fla., on May 12. The nose cone bearing the camera was picked up about 1,400 miles from the launch point after it had climbed to approximately 300 miles altitude.

The four pictures copied from the movie footage represent the first time, the Air Force said, that a graphic record has been made of the separation of a nose cone from a rocket. Hitherto, all records had been merely electronic instrument recordings showing the time of separation, altitude of the rocket, speed etc.

The new pictures show in clear detail the dropping away of the carrier rocket from the still-climbing nose cone. The first picture, made at an altitude of about 125 miles, is a close-up of the blunt end of the rocket as it drops back from the cone in which the camera was mounted. The following three frames of picture, presumably made only seconds apart, show the diminishing size of the carrier as the nose cone streaks on aloft toward its 300-mile high point. The Air Force said it hasn't yet determined the height of the other pictures.

The Air Force explanation of the pictures avoided any discussion of the relationship of this photographic test to Project Sentry.

The Sentry Satellite Project, expected to cost about 100 million dollars, probably will use an Atlas ICBM as the main booster rocket for putting the satellite into a polar orbit after firing from Vandenberg Air Force Base in California.

Red Guns Turned On Matsu Again

By SPENCER MOOSA

TAIPEI, Formosa (AP) — Red China turned its guns on little Matsu Island for the first time in two years Sunday heightening Nationalist fears the Communists may be preparing a new crisis in the Formosa Strait.

A Nationalist officer and two soldiers were reported killed as the Reds lobbed over 444 shells at the offshore island group at the northern end of the Formosa Strait. The Nationalists said 162 Red shells hit Matsu, 112 landed on near Peikantang Island and 170 dropped into the sea.

The barrage reportedly destroyed six civilian homes on the two islands.

The nationalist Defense Ministry said the Red mainland batteries were silenced after 90 minutes by effective counter-fire.

An hour before the Red guns opened up on Matsu, 10 Communist ships fired on Nationalist warships which sight them west of the little island. The Defense Ministry said the Nationalist ships returned the fire and the Red craft fled.

A few hours before the Reds had hurled 84 shells at their usual target — the Quemoy Islands — 150 miles south of Matsu.

It was the first time the Reds have shelled Matsu since April 28, 1957, but Communist batteries hit Pekantang with 23 shells in a 14-minute barrage last Wednesday.

Nationalist circles have been predicting for several weeks that the Reds might try to stage a new crisis in the Formosa Strait to warn the West there could be trouble in this area unless concessions are made to the Soviets on Berlin and Germany.

Foreign observers are inclined to make light of such fears.

Rear Adm. Liu Hoh-tu, spokesman of the Defense Ministry, declined to say whether he thought the attack was a prelude to major action.

Matsu — less than 4 square miles in area — lies 9½ miles from the mainland. Peikantang, covering about 2½ square miles, is seven miles from the mainland.

The average family in the United States uses 860 tin cans a year.

NUMBER 10 ARRIVES—Mr. and Mrs. Antonio Suarez of Houston, Tex., beam over their latest arrival, Loretta, 5 pounds 7 ounces, their 10th. Mrs. Suarez, 26, has borne a child each year since her marriage in 1949. All ten babies were delivered at Memorial Hospital and by the same doctor, B. J. Wilkerson. (AP Wirephoto)

Fire Claims Five Victims

PHILADELPHIA, Pa. (AP) — "Mommy will put out the fire. Everything will be all right."

Dorothy Stocker, 38, reassured her five children with these words Sunday when a fire started in her bed in the Negro family's third floor West Philadelphia apartment.

She tried to extinguish the flames with a pillow and pans of water before leaving the apartment to seek help from others in the building. When she tried to return to her apartment the fast-spreading flames drove her back.

The children all perished in the blaze. They were James, 7, Marsha, 4, twins Gail and Dale, 3, and Stephanie, 17 months.

"This was a case of human error," said Deputy Fire Commissioner George E. Hink. "We keep telling the public to get all persons out of the premises when a fire breaks out. In this case, the mother tried to fight the fire first."

Mrs. Stocker said she smoked a cigarette before she retired for the night about 12:15 a.m.

"I laid down in bed but I felt sure I had snuffed out the cigarette butt," she said.

Her husband, an Air Force enlisted man, has been hospitalized for 13 months, paralyzed from a fall.

Optimists Attend Meet

Four members of the Snyder Optimist Club attended the District 7, Optimist International, convention at Amarillo last weekend.

Heading the Snyder delegation was President V. T. Tracy.

Other Snyder members attending were secretary-treasurer Harold Hunt, incoming president Bob Dryden and incoming secretary-treasurer Jerry Jackson.

The convention was held Thursday through Saturday.

Zone F, of which Snyder is a member, was split for the coming year in a major business matter Saturday. The three Odessa clubs and two Midland clubs were transferred from Zone F to another zone.

The old members of Zone F who remain are Abilene Noon, Abilene Breakfast, San Angelo, Big Spring and Snyder.

Herb Emory, San Angelo, was elected Lt. Gov. of Zone F for the 1959-60 term.

Also attending the convention was Mrs. Bob Dryden of the Opti-Mrs. Club.

The 1960 District 7 convention will be held at Sherman, Tex.

Scattered Showers Predicted In State

By The Associated Press

More widely scattered showers were predicted for Texas Monday as a low pressure area over Oklahoma continued to pull in warm, moist air from the Gulf.

Skies were mostly cloudy over the eastern part of the state Monday morning and clear in the western section. Early morning temperatures ranged from 57 degrees at Wink to 76 at Galveston.

Light showers fell in the Tyler and Longview areas Sunday afternoon. Maximum temperatures Sunday ranged from 82 degrees at Galveston to 101 at Presidio.

HEALTH

Continued From Page 1

Rosser, attorney, and B. F. Darby, Jr., civil engineer, who had made the request on behalf of Mrs. Mary Towle, developer of some property south of the park. The entrance was granted by the court on condition that if further development is made in the area, Forty-seventh Street will be opened to the Big Spring Highway.

The water office formerly used at Hermleigh was ordered closed by the court, which also authorized Massingill to have a pump jack repaired at a Hermleigh water well.

Martin was authorized by the court to complete and sign a project construction application to the State Department of Health in connection with the pending construction of an additional wing on Cogdell Memorial Hospital.

Several streets in the Whitacre addition of Inadale were ordered closed. Hearing on the proposal had been set for today, and there was no opposition.

Suspect Held In Burglary Of Bank

WAXAHACHIE (AP) — Ellis County officers arrested yesterday a man wanted for questioning in Central East Texas burglaries.

Officer ssaid that they believe he is linked with the burglaries of the post office at Aledo and a bank at Iredell. The latter burglary netted $250 early Saturday morning.

An attempt by a man driving a pickup truck to cash a money order led to the arrest of the man in nearby Italy.

Science Shrinks Piles
New Way Without Surgery
Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all — results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne*) — discovery of a world-famous research institute.

This substance is now available in suppository or ointment form under the name *Preparation H*.* At your druggist. Money back guarantee.

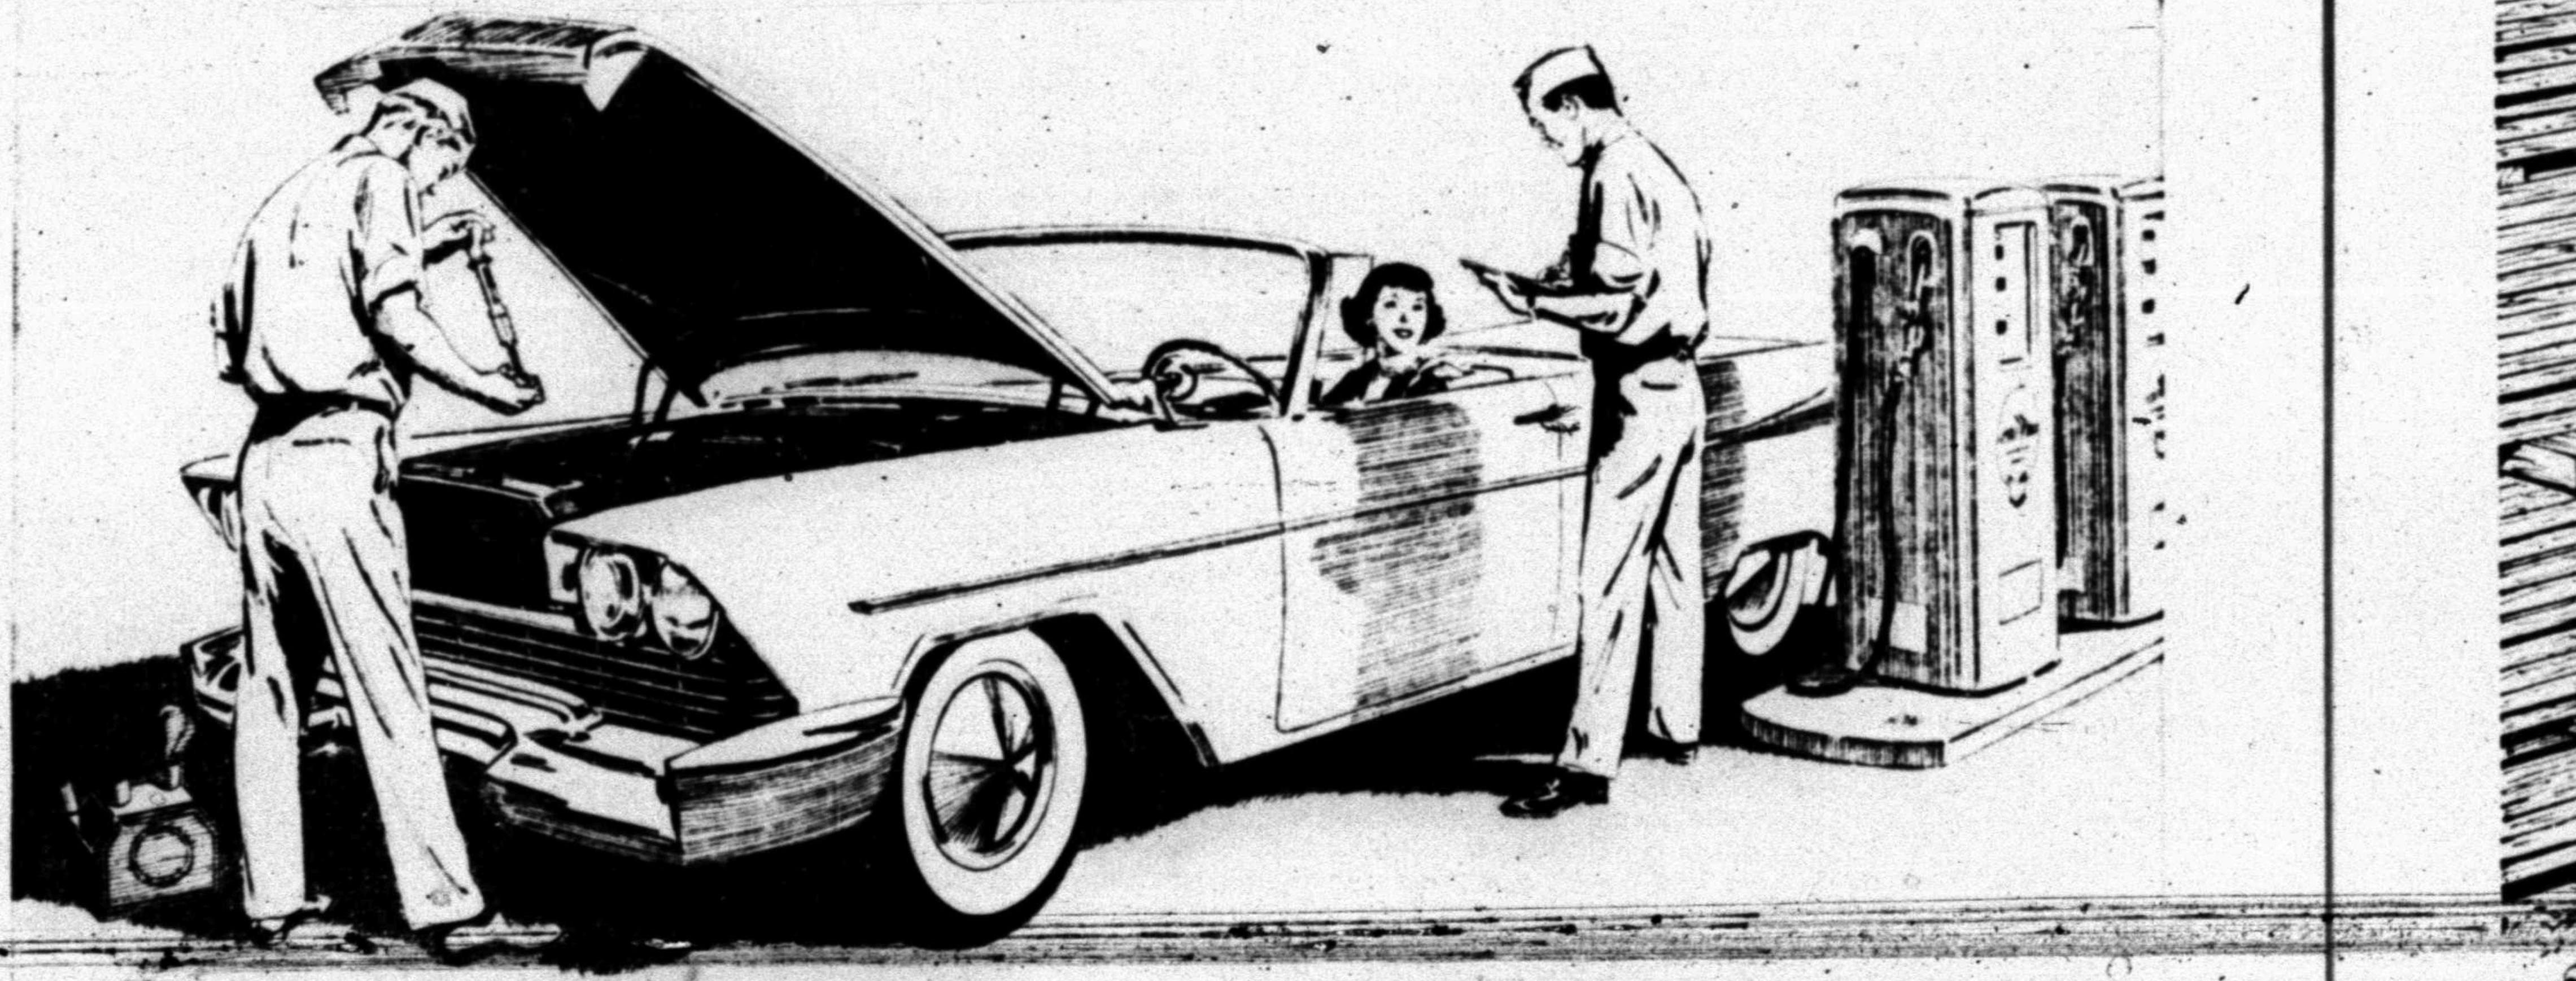
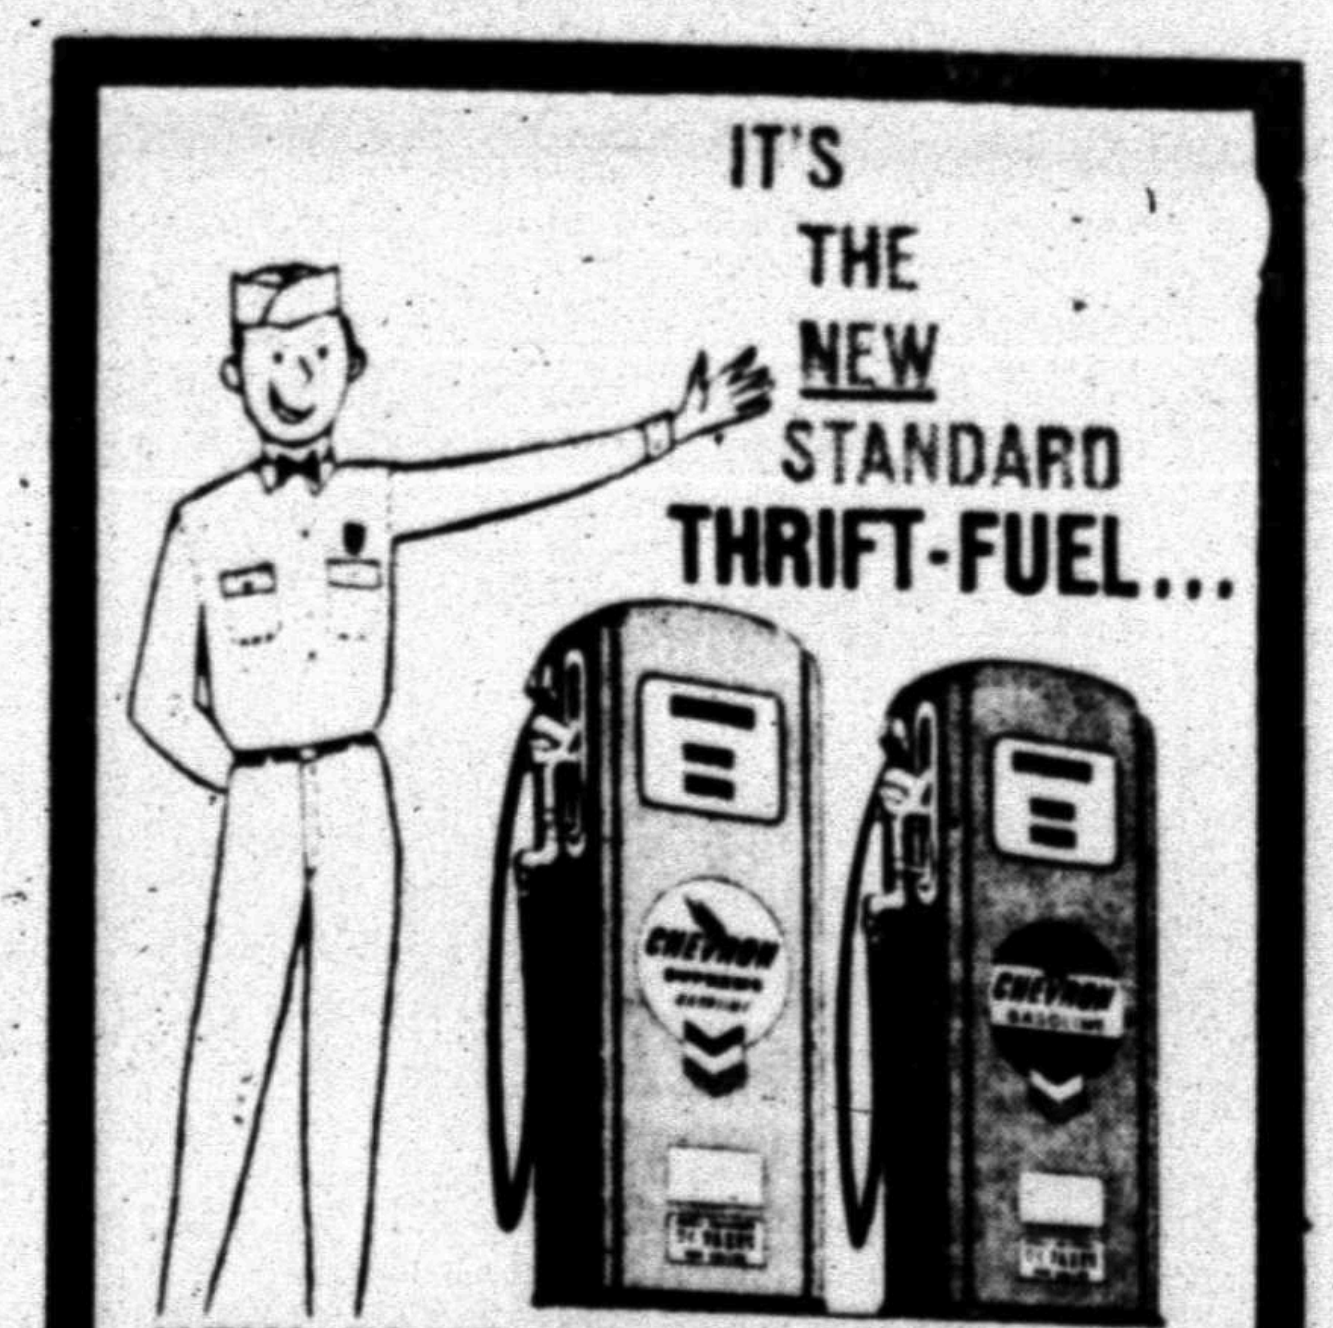
...SPRING CHECKUPS
THAT SAVE YOU
REAL MONEY!



Meet Mr. Chevron Dealer, "M.D." — doctor of motoring. For many a springtime, the men at the sign of the Chevron have been winning friends and influencing customers to come back year after year for their superior Spring Checkups. Car owners know that Chevron and Standard men really can stop radiator rust, forestall overheating and corrosion, prevent cooling system leaks, detect worn thermostats and fanbelts, and guard against a score of costly summer car complaints. . . . Of course it's experience that makes the difference when it comes to spring servicing, and most Chevron and Standard men have been around cars — and around these parts — for a long, long time. . . . NOW is the time to drain antifreeze to prevent annoying boilover and other troubles. So take your car today to spring servicing headquarters. . . . One trial, and you'll make it a yearly *custom* to get your spring checkup At the Sign of the Chevron.



NEW BLUE CHEVRON SUPREME
Stepped up for latest-model cars — but not a red cent more in price. New power, longer mileage, for unsurpassed economy. . . . And money-saving CHEVRON also has new high octane at no increase in price!

WOMEN

AWARDS were presented to these Girls Auxiliary members at an annual coronation service at the First Baptist Church last night. They are, left to right, front row, Marianne Askins, Jill Dawson, and Peggy White, maidens; second row, Judy Nance and Docina Howerton, princesses; Shelia Duke, Pam Cole, and Patsy Ann Orms, ladies-in-waiting; Frances Cummings and Carmen Grant, princesses; back row, Keitha Walton, queen regent-in-service; Sherry Patton and Anita Holt, queens; and Donna Lenoir, queen regent-in-service. (Staff photograph)

15 Girls Get GA Awards In Coronation At First Baptist

Fifteen girls were given awards of the Baptist Girls Auxiliary last night at the annual GA coronation service of the First Baptist Church.

Presenting the awards was Mrs. Homer Godair, president of the church's Women's Missionary Union. Narrator for the coronation was Mrs. Barbara Bigham.

The awards were for work done by the girls in the organization during the past year. Two of the girls, Donna Lenoir and Keitha Walton, were presented awards of queen regent-in-service, highest GA awards ever made here.

Those receiving awards and members of the court:

Queen regent-in-service — Donna Lenoir, escorted by John Weaver, flower girl Karen Dawson; Keitha Walton, escorted by David Wiman, flower girl Wanda Lou Raborn.

Queens — Sherry Patton, escorted by Billy Stewart, flower girl Tomalyn Fulton, crownbearer Todd Lambert; Anita Holt, escorted by Jackie Stewart, flower girl Dorinda Arnold, crownbearer Steve Holt; Raye Herring, absent because of illness.

Princesses — Docina Howerton, escorted by Louise Cole; Judy Nan escorted by Truett Roberts; Frances Cummings, escorted by Phillip Kimmel; Carmen Grant, escorted by Glenn Thomas.

Ladies-in-waiting — Patsy Ann Orms, escorted by Kenneth Duke; Pam Cole, escorted by Robert Thomas; Shelia Duke, escorted by Chapman Mott.

Maidens — Jill Dawson, escorted by Stacy Cole; Marianne Askins, escorted by Steve McMahan; Peggy White, escorted by Roy Mack White.

Other members of the court included Paul McBeth, trumpeter; Jerry Wooldridge, heralder; Marguerette Holt and Kathy Vernon, candle lighters; intermediate GA members, ushers; Mrs. Virgil Mott, organist; Kathy Mott, soloist. Decorations were by Watson and Carroll WMU circles. The Reid Circle was hostess for a tea following the coronation service.

Director for the GA program at the church is Mrs. Hugh Nance. Councellors are Mrs. Percy Tate and Mrs. O. L. Ferrell, intermediates; Mrs. Bob Sinner and Mrs. Jack German, 11 and 12-year-olds; Miss Rita Johnston and Mrs. Kenneth Cole, 9 and 10-year-olds.

Nowadays sweetbreads come in frozen as well as fresh form. Either way they need to be simmered in enough water to cover them until they are tender. Membranes and tubes are removed after simmering.

A ready-to-cook duckling weighing between four and five pounds will serve four persons nicely.

Altrurians End Year

The Altrurian Club closed its year's activities Friday with a breakfast meeting.

Hostesses for the event were Mrs. Dave Harlin, Mrs. J. C. Stinson, Mrs. H. G. Towle and Mrs. John R. Williams.

Toastmistress for the program was Mrs. J. C. Ezell.

Mrs. W. D. McNair reviewed the book, "Quiet, Yelled Mrs. Rabbit."

Approximately 15 guests were present for the meeting.

WOMEN'S CALENDAR

MONDAY

Rainbow Girls Snyder Assembly No. 230 called meeting 7:30 p. m., for initiation.

Junior High School P-TA will meet at 7:30 p.m., in Junior High School auditorium when new officers will be introduced. Program will be the Junior High Band directed by Tim Dennis.

Night circles of the First Methodist Church will meet in Fellowship Hall at 7:30 p.m.

TUESDAY

United Presbyterian Women of Snyder luncheon at home of Rev. and Mrs. R. Charles Spivey, 3100 Avenue T, 12 noon.

Junior Guild of First Methodist Church will meet in Towle Memorial Park for a picnic, 7 p.m.

Twentieth Century Club meets with Mrs. Elton Wyatt at Trinity Methodist Parsonage.

WEDNESDAY

High School P. T. A. bake sale at the following four food stores: Cash Foods, Piggly Wiggly, Safeway and D&H.

Circles of the First Methodist Church will meet in Fellowship Hall at 9:30 a.m.

THURSDAY

Snyder Palatte Club outdoor sketching with Mrs. Mabel Belscher, 1700 Twenty-sixth Street, 8 a.m.

Central Elementary School P-TA will hold its last meeting of the season at 3:45 o'clock in speech arts room. New officers will be introduced and committee reports given.

Mary Ann Doak To Get NTSC Degree

Mary Ann Doak of Snyder is one of more than 550 seniors who have applied for bachelor's degrees at North Texas State College this semester.

Baccalaureate services will be held at 11 a.m. May 31 in the main auditorium. Dr. Noel Keith, professor of religion at Texas Christian University, will be the speaker. Commencement exercises are scheduled at 8 p.m. the same day at Fouts Field.

Miss Doak, daughter of Mr. and Mrs. Herman E. Doak, 3101 Avenue V, is a candidate for the bachelor of science degree in education. She is a member of the Association for Childhood Education and Zeta Tau Tau Alpha, national social sorority.

Poultry seasoning is good added to a meat loaf or sprinkled over pork chops before cooking.

Texas telephone people think up 25,700 new ways to give you better service

Telephone employees build better jobs, too, through constant search for new ideas

NEW TESTING DEVICE identifies wires in telephone cable twice as fast as before, cuts down customer complaints of noise. Determining which wire is which is necessary in repairing cable damage and hooking up phones. Cable Splicer Charles Thone, above, shows how the device works.

By Don Davis
TELEPHONE NEWS REPORTER

"I hear a strange sound on my phone. What on earth can it be?"

This was a call from a telephone customer who thought something was wrong with his phone. It was not an isolated case but one that was repeated many times. Then a Houston telephone man, one of many who had been puzzling over the problem, got an idea.

He knew the strange sound was an electrical tone, or signal, used to identify telephone lines in cable. The tone is used by telephone men who need to know which line is which as they repair damage or hook up phones. Working in teams, one man, outside, places a tone on a wire with a test set. Inside the telephone office, another man listens for the signal. Together they identify the right wires.

Only trouble was a lot of people besides the telephone men heard the tone, *too*. These were the customers who thought their phone was out of order.

Rummaging around a radio store, the Houston telephone man got some parts and built an attachment for a test set that produced a tone so high it couldn't be heard. An amplifier inside the telephone office reconverted the tone to a signal that could be heard and the wires identified in half the time as previously. And customers no longer heard the strange sound.

In fact, this idea works so well a tone can be placed on wires even while people are talking—without causing interference, without stirring up reports of strange sounds.

IDEAS UP FROM THE RANKS

Home-grown ideas—suggestions from telephone people *on the job*—happen all the time.

Last year, for example, telephone employees in Texas communities served by Southwestern Bell volunteered 25,700 original ideas for evaluation and trial. Some are being tested now. Many have already been adopted. Eventually the best of them will be passed along for use in other states—and good ideas from other states will be put to use in Texas to benefit you.

Most employee suggestions involve specific solutions to specific problems. Doubtless, no single one of them will revolutionize your telephone service. But each, in its own way, will benefit everyone who uses a telephone.

TRANSPARENT: Spare parts, other small items may soon be packaged in clear plastic. Installer Jerry Howell, above, shows how they'll make it easier to keep track of materials he carries on truck.

TELEPHONE OPERATORS like these found numerous ways of putting through Long Distance calls even faster. Additional ideas dealt with quicker handling of other calls, increasing office efficiency.

WHY IDEA HUNTING IS EVERYONE'S JOB

Telephone people never quit looking for new ways to serve you better. And for good reason.

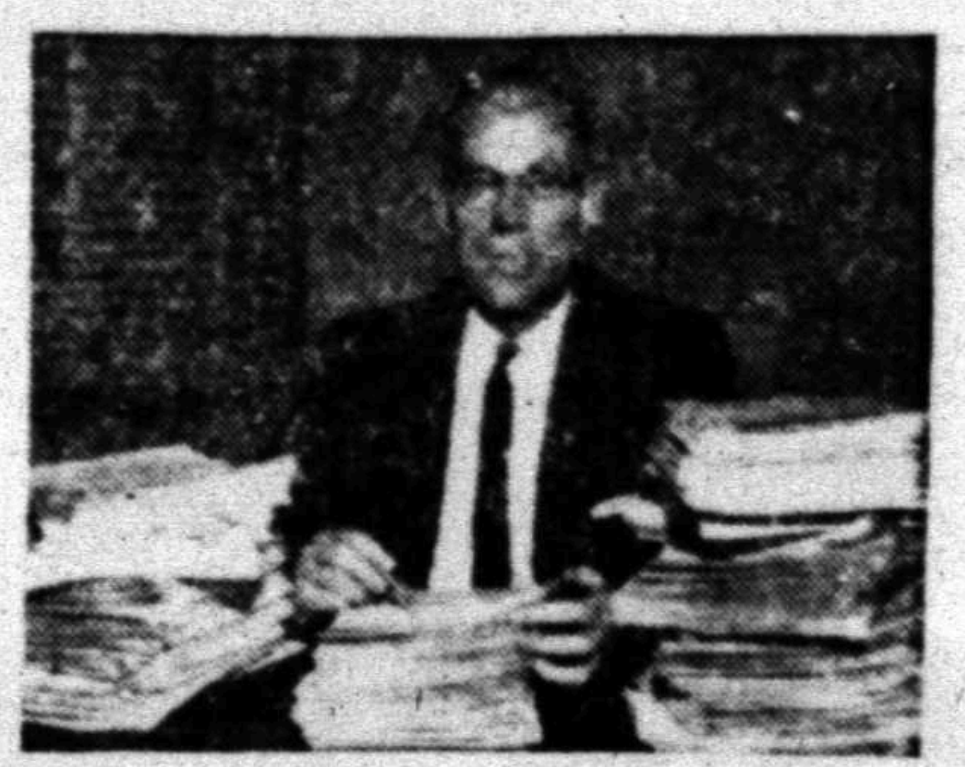
First, because new ideas are actively encouraged. After all, the telephone itself was born of one man's great, original idea.

Second, because new ideas spur progress. Progress creates growth and growth brings more jobs, better jobs and greater job security for telephone people.

How every telephone employee gets a chance to submit ideas without interference or delay

Last year telephone people tried something new—an organized idea hunt. In every city, town and village where we operate, they met for the sole purpose of exchanging and submitting new ideas. Hundreds of such idea sessions were held in Texas. *Every* employee got a chance to submit his or her pet projects—with no "ifs," "ands" or "buts."

The result was an outpouring of good ideas. Many were good enough to be adopted and put into practice right away. Others, which required further examination or testing, were forwarded up the line immediately. Hundreds of the ideas submitted either had already been adopted or were still under consideration.



Employee suggestions get personal attention from department heads like General Plant Manager Budd Reinhold.

Accidents A Human Problem

The Texas Safety Association has started promotion work on its annual "Slow Down And Live" campaign, which continues from Memorial Day through Labor Day, two holiday periods which in times past have produced many traffic accidents.

In calling attention to the campaign this year, the association already has emphasized the speed factor in the Texas accident toll.

"More than half of all rural fatal accidents in 1958 were caused by driving too fast for conditions," said J. O. Musick, general manager of the Texas Safety Association.

"This fact alone takes a major problem of traffic accident prevention from the realm of engineering, licensing or laws and marks excessive speed as basically a human problem," the association general manager declared.

Marvelous strides have been made in engineering and safety gadgets on modern automobiles. At the same time, Texas, along with other states, has up-dated its traffic code from time to time in an effort to keep abreast of progress in other areas of society.

Still, as the accident records reveal all too clearly, the human factor remains greatest, and it is the factor that cannot be engineered out, or legislated from existence.

Musick also reminded that signs and slogans won't do the job, although they may help make motorists aware of the problem.

Editorials and news features pointing up the dangers and responsibilities which face drivers will not do the job, either, but most publications will continue them with the hope that they will help make drivers safety-conscious. That is the purpose of the "Slow Down and Live" campaign, and that is why it merits the support of the press and the entire motoring public.

Battle Of Nerves Rages In Mid-East

By WILLIAM L. RYAN
AP Foreign News Analyst

TEHRAN, Iran (AP)—A David and Goliath battle of nerves rages in the Middle East today between Iran and world Communism. A dangerous period lies ahead, but Iran seems to have a better than even chance of keeping its giant Soviet neighbor at bay.

Backed by massive United States economic and military support, Iran is stronger now than at any time since the cold war began.

A tour of the Kurdish area in the northwest tends to ease fears that the Soviets might try to use it as a corridor to Communist-influenced Iraq. The Kurds in the area are bitterly anti-Communist.

Inside the country the Communist Tudeh Party, although one of the strongest organized political forces, seems to have been crippled. Many of its members have fled the country. Others have been disillusioned with Moscow. The party now seems to have little real hold on any substantial segment of the population.

Neighboring Iraq's drift toward Communism is considered by many in Iran to be a greater problem than that of Moscow pressure itself.

With the Iraqi revolution last July, Moscow apparently decided the decisive moment had arrived to break the Baghdad Pact and the West's northern tier linking Turkey, Iraq, Iran and Pakistan in a defense chain.

The Soviets made important concessions to Iran. But when the prospect arose of Iran's signing a bilateral defense agreement with the United States, the Soviets rolled out their big propaganda guns for a heavy attack on Mohammed Reza Pahlevi.

Both honey and threats failed. Iran signed the treaty, and Moscow's predictions of dire consequences failed to materialize. Moscow suffered a loss of prestige.

There's a strong feeling here that the Soviet Union will not move with force against Iran and risk World War III. Instead the Soviets seem to be pinning their hopes on propaganda, spreading rumors of internal Iranian trouble and hoping to stir any sort of political upheaval which could be exploited or pave the way for an attempt at a Tudeh comeback.

But if neighboring Iraq comes under total domination by the Communists, in fact if not in name, there are a number of dangerous possibilities.

Iraq obviously could be a training ground and transmission belt for subversive elements and exiled Tudeh members.

There could be interference with the Shatt Al Arab Waterway, which leads from Abadan — site of Iran's huge oil refinery — to the Persian Gulf. At present it's the chief means of shipping Abadan's output and Iranian crude oil to the outside world. Oil is the backbone of Iran's economy.

Iraq administers the waterway. Years of effort failed to get agreement to internationalize the control, even when Iran was a partner of Iraq in the Baghdad Pact.

Alert to the danger, Iran is seeking to make herself independent of the Shatt Al Arab. The government is talking about a pipeline from Abadan to the gulf and dock and harbor facilities.

Apart from external dangers, there are real internal ones.

The Shah has emerged as a strong ruler. His determination and drive are behind a vast network of hopeful programs under way in Iran. But if anything should happen to the ruler his program might be crippled and there also would be a strong possibility of internal political chaos.

Ike Must Depend More On Himself

By JAMES MARLOW

WASHINGTON (AP) — President Eisenhower has never been so much on his own in the presidency as he is now, on problems at home and abroad.

With the departure of the two men upon whom he relied most completely—Sherman Adams and John Foster Dulles—he has had to depend more on himself.

The result has been more vigor and aggressiveness in dealing with domestic issues and foreign affairs.

Adams, who quit under unhappy circumstances last September, was more than just Eisenhower's top White House aid.

He was a combination buffer, filter, work-remover and very tough chief of staff.

No President ever relied more absolutely on his secretary of state than Eisenhower did on Dulles until cancer forced Dulles' resignation last month.

Although the President is the one ultimately responsible for American foreign policy, there was not much doubt it was Dulles who made the policy.

With the exception of the former secretary of the treasury, George Humphrey, no other man was ever credited with as much influence on Eisenhower as Adams and Dulles.

Humphrey, who quit in mid-1957, reportedly still has Eisenhower's very attentive ear on matters economic, financial and budgetary. But he is no longer a day-to-day adviser.

Eisenhower's increased aggressiveness shows clearly in his relationship with Congress.

For most of his White House years — except around election time — Eisenhower leaned over backward to avoid conflict with Congress.

One of the outstanding examples was in 1957.

That year he, Humphrey, and the budget director had worked months on the national budget, supposedly to keep expected expenses to the lowest possible figure.

Eisenhower even said his budget was as tight as he could make it. But Humphrey startled the country by saying it could be cut. In no time at all Eisenhower was urging Congress to cut it any place it could find a soft spot.

This year it's different. Eisenhower has fought Congress, and fought it hard, in a completely opposite direction.

Anxious now that the budget be balanced — that is, that spending doesn't exceed income — he has repeatedly slugged the Democratic-run Congress for any suggestion he has asked too little and that spending be boosted.

This by itself illustrates an odd spectacle.

Any President who is not going to run again supposedly loses influence during his last White House years not only in Congress but in his party generally. And, because of the constitutional two-term limit, Eisenhower can't run again.

But his influence with his own Republican Party has not noticeably diminished at all. Perhaps this is one of the reasons:

Eisenhower, in two presidential elections, has shown himself so infinitely better liked than his party, which has lost Congress three times in a row, that the Republicans there don't dare cross or forsake him.

Actually, the party has no leadership but Eisenhower's anyway. So it's no surprise they trail along with him. If there is any surprise, it's in the way the Democrats have acted.

They were extremely careful not to rough him up—and by so doing antagonize the voters—in his first term. They were just as careful in his next two years. But then came the 1958 congressional elections.

The Democrats won so overwhelmingly they seemed in good position—particularly because of the supposedly waning influence of a last-term President—to do as they please and ride over him rough-shod.

They made sounds of doing that with his budget this year until he fought back. Now they're playing cautious, especially since he has the power to veto them, and maybe make it stick, any time they cross him.

The result has been a very conservative performance in Congress, which is the way Eisenhower wants it.

Notes From The Oddity Almanac

By HAL BOYLE

NEW YORK (AP)—The Oddity Almanac.

What do people lie about most —their age, their weight or their height. My opinion is, based on my experience as a reporter, that people actually lie most about their height. The majority would rather not discuss their real age or weight.

Is this true about you?

Most people have heard about a lynx but they have never seen one. According to "Outdoor California" the average lynx weighs between 12 and 25 pounds.

What was your father's favorite song? "I'll Take You Home Again, Kathleen," sung so sweetly and so clearly and so memorably by that voice across the waters, Ireland's tenor—John McCormack, played on the old one-sided record, had the power to stir my father to tears. He liked to hear it all alone in a room without other noise, a problem in a crowded house.

What was your mother's favorite song? I never knew. It is my opinion that mothers hum an individual and nameless tune of their own and make it up and change it as their life goes along. It is usually a croon of acceptance of life.

There is now available for more than $50,000 a 66-foot, 2-wheel vehicle that can carry up to 300 tons and requires a driver fore and aft.

The drivers are connected by phone.

It is a commercial vehicle, basically, but it has family possibilities. A back-seat-driving wife, for example, might have to dial her husband to predict a corner. And if he saw a curve ahead and forgot to dial her—well, steer today or gone tomorrow."

Almanac editorial: If you must make do-it-yourself space flights, do them in your own back yard. Don't annoy your neighbors. Quiet, please. The peace you disturb may be your own.

SNYDER BUSINESS NEWS

CARLOS' EL RANCHO—The interior of Carlos' El Rancho restaurant at Avenue E and the East Highway during the noon hour yesterday is pictured above. A complete noon luncheon service is now offered by both the El Rancho and the Little Mexico Cafe, also owned and operated by Mr. and Mrs. Carlos Mijares. (Lee Watson photograph)

El Rancho, Little Mexico Add Service

A complete noon luncheon service has been added at both Carlos' El Rancho and the Little Mexico Cafe.

The luncheon consist of a choice of meats with vegetables, soup and salad with a choice of salad dressings, desserts, hot rolls and coffee or tea.

Both the El Rancho and Little Mexico Cafe, also owned and operated by Mr. and Mrs. Carlos Mijares, serve luncheons.

The El Rancho, located at Avenue E on the East Highway, has two dining rooms, a large main dining room seating about 60 persons, and a smaller dining room in which about 40 persons may be served. The smaller room is equipped with television for the enjoyment of patrons who wish to watch ball games, or other programs during their lunch hour.

An atomsphere of discreet good taste in the Mexican decorative motif, quick pleasant service and expert preparation of food makes the El Rancho one of West Texas favorite restaurants.

"We have added the luncheons to offer a variety of foods to fit the desires of all our customers," the owner said.

However, with warm weather approaching, Carlos has designed a number of Mexican food dishes to please the appetite during the warmer weather.

"Our summer Mexican dishes have already proven very popular," he said.

The Little Mexico Cafe closes at 5:30 each afternoon except Saturday when it is closed at 8:30, and is closed on Sunday. However, it is used for special parties at night, offering complete privacy to each party.

"All foods at the Little Mexico are prepared with the same discrimination which has made both the Little Mexico and El Rancho popular here," Carlos said.

For party reservations at the Little Mexico call HI 3-9169.

40 Million Africans To Join World's Free People In '60

By LYNN HEINZERLING

JOHANNESBURG, South Africa (AP)—Forty million Africans will join the free peoples of the world next year. The flame of nationalism, ignited in World War II, is creeping down the African continent. Bound up with its steady advance are new perils and immense challenges for the statesmen of Africa and the world.

The most recently emancipated states, Ghana and French Guinea, will be joined by four new and independent nations in 1960 — the French Cameroons, French Togoland, Nigeria, and Somalia.

Togoland, the French Cameroons and Somalia, a former Italian colony, now are United Nations trust territories. Their total population is about six million. Nigeria is a rich British colony with 34 million.

Nationalistic ferment has spread far ahead of the advancing tide of freedom. Impoverished and uneducated Africans in their mud huts and cheerless shacks have found new hope and encouragement in the advancement of their brothers.

In the Belgian Congo, where rioting took dozens of lives in January, African political leaders are demanding an African government by Jan. 1, 1961. The Belgian government, which has invested millions in this colony, has promised independence at an unstated time in the future.

Even ardent friends of the Africans in the Congo say they are totally unprepared to take over the administration of this huge area, more than four times as large as France, by 1961.

Illiteracy among Africans south of the Sahara runs 60-90 per cent and sometimes higher throughout the colonial regions.

This is one of the blocks between subjection and freedom. Even in such carefully prepared colonies as Ghana and Nigeria, outside technical and administrative experts will be required for years.

Ghana, Guinea, the Belgian Congo, Angola, Nigeria and some of the autonomous republics in the French community in Africa are studying hydroelectric projects to provide power for industry. Millions of dollars in foreign capital will be needed to bring the living standards in these areas up to a reasonable level.

But economic considerations will not deter the surge toward independence. Most of the new political leaders in Africa know that the white man's talents and capital will be needed for a long time to bring Africa to its real potential.

This situation of dire poverty and urgent need of outside assistance is attractive to Moscow. The Soviet Union has sought a foothold in Ghana and each new independent state is certain to be exposed to Moscow's blandishments.

150 Persons Hurt As Bleachers Fall

MAYETTA, Kan. (AP) — A rodeo arena bleachers buckled "with a pop and a bang" Sunday in this eastern Kansas hamlet, injuring 150 persons.

Twenty-three of the victims required hospitalization. The others were released after treatment at hospitals in Topeka, Holton and Lawrence.

"There was a pop and a bang and it collapsed," said C. W. Lawson of Perry, Kan. "There was no warning that it was going to give way."

Lawson was one of about 500 persons in the recently installed bleachers when it crashed to the ground. He was not hurt.

Witnesses said the spectators had just started to file out after the last performance of the four-day rodeo when the accident occurred. Performers and other fans in the crowd of about 6,000 plunged into the wreckage to free the victims.

"There was a lot of screaming and shouting," said one witness. "Some of the people clung to girders but most of them piled up into just a big heap. It took several minutes to get them unpiled."

Cause of the accident hasn't been determined. The bleachers had been built for this year's rodeo. They were constructed of a metal frame and wooden seats. The section was 75 feet long and had 10 rows, the highest of which was about 16 feet from the ground.

One of the injured, Donald Troughton of Topeka, said a liquefied gas line was broken, setting on edge the nerves of victims and rescuers.

"We could smell the gas and we were afraid it would ignite," he said.

Victims had to be taken as far as 50 miles away, to Lawrence for medical treatment. Mayetta, with a population of only 230, has no hospital.

Most of the injured were taken 20 miles south to Topeka, the state capital. Sixteen persons were hospitalized there. Another 105 were treated and released.

Nine miles away at Holton, seven remained in a hospital and 20 were released after treatment. The other two injured received treatment at Lawrence and were sent home.

Patrons Mob Armed Bandit

LOS ANGELES (AP)—Bar patrons mobbed an armed bandit and beat him senseless after he killed one man and critically wounded another man who tried to stop him.

James A. Cathey, 27, was battered with bottles, fists and his own gun Sunda. Police said most of the 30 persons in the bar were pounding Cathey when they arrived.

The gunman's left ear was partly ripped off, his head was cut in several places and his eyes were swollen shut.

Police said Jose Lara, 21, was shot to death and Paul Merchain, 30, was wounded when they jumped Cathey after he took $150 from the bar's cash register.

A third bullet struck Ceferino Rodriguez, 30, in the back during the melee. The would was not serious.

Police said Cathey was released from a California mental hospital three weeks ago and that he had killed a fellow prisoner while serving a prison sentence in Arizona.

Australian Beauty Wants To See Koala

SAN FRANCISCO (AP) — Joy Lightly, Perth beauty queen arriving from Australia aboard the liner Orcades Sunday, told reporters she never had seen a koala.

"The first thing I want to do here is visit your koalas at your zoo."

The koalas recently arrived from their native Australia, have been a top attraction at the zoo in Golden Gate Park.

Dulles Papers To Princeton

WASHINGTON (AP) — Personal diplomatic papers of John Foster Dulles will be given to Princeton University.

A group of Dulles' friends will finance the building of a library of diplomatic history which will bear his name. Film copies of many official State Department documents of the past six years also will be housed in the two-story structure at Princeton, N.J.

The library will be a tribute to the former secretary of state who is now seriously ill with cancer. He has been further weakened by pneumonia.

Dulles, 71, has been a patient at Walter Reed Army Hospital since Feb. 12, except for a brief rest in Florida. He resigned April 15 as secretary of state but was retained by President Eisenhower as a personal consultant with cabinet rank.

Dulles already has given thousands of his personal papers to Princeton to start the library. Plans also have been made to release 10 more filing cabinets of his personal papers, some of them dating back to his views on the 1907 Hague Peace Conference.

Several years will be needed to collect and catalog all the papers, officials estimated.

Eddie Cantor Mourns Death Of Daughter

HOLLYWOOD (AP) — Eddie Cantor joked about his five daughters, because he wanted a son.

But when his first-born, Marjorie, died Sunday the little comedian broke down and sobbed so hard a physician had to put him to sleep.

Cantor, 67, has heart trouble.

The news was not exactly a shock to Eddie. He had known, ever since she entered Cedars of Lebanon Hospital March 26 — her second visit there in a year — that Marjorie was dying of cancer.

Marjorie, 44, and unmarried, had never sought to share her father's limelight. But she was famous, she and her four sisters, because Eddie made them real to the millions in his radio and TV audiences.

There was a time when, publicly, Eddie was going to fire his wife Ida. Then he was going to see what kind of a trade he could make with Bing Crosby for one or more of his four boys.

But those were only public jokes, to draw him closer to his fans. His daughters understood and took the joking with good nature.

The jibes were never repeated in family talk because Eddie didn't mean them. He loved his daughters deeply.

Marjorie's four sisters, Natalie, Edna, Marilyn and Janet, were at her bedside when she died.

She had been ill two years but the sisters kept the gravity of the disease from their ailing parents until Marjorie was hospitalized for the last time.

Cantor was supposed to attend Eddie Fisher's recent wedding to Liz Taylor at Las Vegas, but the imminent death of his daughter kept him at home, waiting.

"That's all we can tell you about Marjorie," Marilyn said Sunday night. "She wrote several articles for magazines and traveled extensively.

"This is a very difficult time. Please understand."

Arrangements for the funeral have not been made, but it will be private.

Pan American Day on April 14 is the only special day that is recognized by the governments of all 21 of the American republics.

Mineral Wells Hosts In Bi-District Opener

Mineral Wells will host the first game of the bi-district baseball series with the Tigers tomorrow afternoon starting at 4.

Arrangements were made by phone yesterday between officials of the two schools.

Snyder will host the second game Thursday and if the series goes three games, Mineral Wells will be the hosts Friday.

Only one coin flip was made in making arrangements for the series. The coin toss was for the third game and Mineral Wells won it.

Mineral Wells wanted to play a one-game "sudden death" playoff but Tiger coach Speedy Moffett wouldn't agree to this. The rules state that unless both coaches agree on a one-game playoff, a best two-out-of-three games series must be played.

This will mark the second straight year that the Tigers and Mineral Wells will be meeting in a state playoff series. Last year the Tigers defeated the Mountaineers two games to one for the regional title and a berth in the state tournament.

Mineral Wells is the 4-AAA champion, having defeated Vernon, the only other school in the district playing baseball, in a three-game series, two games to one. The Mountaineers downed Vernon in the first game, 7-4, and after Vernon evened the series, 6-2, Mineral Wells captured the rubber game 4-1.

The Tigers won the right to compete in bi-district by taking a special playoff series from the Lamesa Tornadoes, two games to one. The Tigers and Tornadoes wound up in a two-way deadlock for the regular season crown, each with 5-1 records, necessitating the playoff for the right to represent District 3-AAA in the playoffs.

The Tigers won the first game of the series with Lamesa, 6-4, with Lamesa squaring the series in the second game, 5-0. The Tigers then clinched the series Saturday with a 12-5 victory.

Mineral Wells will carry a 9-7 record into bi-district play as compared to the Tigers' 15-13.

Norman Gladson of the Tigers and Jackie Ingle of the Mountaineers are tomorrow's probable mound starters. Gladson is sporting a 7-6 season record while Ingle has a seven wins against one loss.

Ingle is also the leading Mountaineer batsman with a .366 mark. Two other Mountaineers are hitting above .300, first baseman Ronnie Martin and left fielder Charles Daves, each with .311 marks.

Ingle played shortstop for the Mountaineers last season and led the team at the plate with a .652 mark prior to the series with the Tigers.

Mineral Wells' ace pitcher last season, David Grable, graduated but the Mountaineers have four returning starters. In addition to Ingle, first baseman Martin, centerfielder Bill Eubanks and catcher Marlin Daughtery were Mountaineer starters last season. Daughtery, however, has moved to catcher from centerfield which he held down last year.

The Tigers have three starters back, the Drake twins, Kenny and Johnny, and pitcher Norman Gladson. The Bengals have still another starter back, Tim Roberts, but Roberts is ticketed to start Thursday's game for the Bengals.

Coach Moffett plans to start the same lineup tomorrow that took the field against Lamesa Saturday with exception of pitcher. Gladson, of course, will start in place of Roberts who pitched the Tiger victory Saturday over Lamesa.

The remainder of the Tiger lineup will be Spencer Dyer in left field, Steve Free, second base, Jerry Fleming, shortstop, Johnny Drake, center field, Kenny Drake, right field, Ronnie Wylie, catching, Mike Moffett, first base, Bubba Fleming, third base, and Gladson pitching.

Mineral Wells victories this season have been over Carter of Fort Worth, 13-9; Castleberry of Fort Worth, 11-7 and 6-2; Lake Worth 12-0; Granbury 4-3 and 11-7; Stephenville 9-3; and Vernon 7-4 and 4-1.

Mountaineer losses were to Carter of Fort Worth, 0-1 and 0-10; Laneri of Fort Worth 4-6 and 0-3; Cisco 0-3; Lake Worth 3-4 and Vernon 2-6.

Tomorrow's game will be carried by Radio Station KSNY.

Bears Get Fullback

WACO, Tex. (AP) — William Boyd, 205-pound fullback of Sugar Land High School who averaged 9.2 yards carrying the ball and scored 110 points last fall, has signed a letter of intent with Baylor University.

New Weslaco Coach

WESLACO, Tex. (AP) — Cozel Foster is coming here from Eagle Pass to become head coach of Weslaco High School. He will succeed Martin Stuart, who resigned several weeks ago.

Three Rochester players, Rudy Migay, Gary Aldcorn and Bill Hicke, were named to the American Hockey League All-Star team.

BUCKIN' THE LINE

By BUCK FRANCIS

News Sports Editor

THAT WAS A NOISY CROWD on hand for Saturday's "sugar" game between the Tigers and Tornadoes. There's no doubt about it, the kids just play better with that kind of support.

The crowd, estimated at about 600, was the largest of the season here but even than it didn't measure up to some of the crowds we've had here in the past, quantity-wise. However, the enthusiasm Saturday was about as good as we've seen.

Tiger coach Speedy Moffett pointed out three plays in the game that made the difference in winning or losing. They were:

(1) Bubba Fleming's pop bunt in the fourth inning that Lamesa pitcher Ken Barr dived for but didn't make it; (2) Steve Free's bases loaded single in the fifth that centerfielder Ronnie Reeves had in his glove momentarily but dropped after hitting the ground on an attempted shoe-string catch; and (3) Mike Moffett's single that skimmed off the top of second baseman Bobby Wilson's glove that drove in the first Tiger run in the fifth.

While there were some other big plays in the game, Moffett believed had the Tornadoes made the above defensive plays Lamesa probably would have won.

Explaining the above three plays, Fleming's bunt single in the fourth loaded the bases with none away and the Tigers went from there to score two runs and a 2-0 lead.

Then in the fifth, Moffett's single over the head of second baseman Wilson drove in Kenny Drake with the tying run with two away. It looked like Wilson was going to be able to make the catch but the ball dropped behind him and Drake, off and running at the crack of the bat, scored from second to tie the score at 3-3.

Had Wilson made that catch the Tigers would have been retired in the fifth without a run. As it was the Bengals erupted for nine big runs for the victory.

Free's single gave the Tigers more breathing room as the hit drove in two runs for a 6-3 lead amid the big fifth inning rally. Here again a Lamesa defensive try almost stopped the Tiger rally. The Tigers went on to score five more runs after Free's hit for an 11-3 advantage and the Bengals coasted home the final two innings.

There Were Other Crucial Plays, Too

Other big plays singled out by Moffett in the Tiger victory were left fielder Spencer Dyer's shoe-string catch of dangerous hitting Ken Barr's foul with two mates aboard in the third. Barr may have delievered a damaging blow had he gotten another chance; centerfielder Johnny Drake's perfect throw to the plate that nailed a Lamesa runner in the fourth; Kenny Drake's two big doubles in the fifth, the latter scoring three runs, and Free's squeeze bunt that drove in run No. 2 for the Tigers when the Bengals broke the scoring ice in the fourth.

A near sensational play by Tiger shortstop Jerry Fleming in the fifth almost halted a Lamesa uprising but as it was the Tors scored three runs for a 3-2 lead. Johnny Moffatt of the Tornadoes lined one just to the second base side of Fleming with the bases loaded and Fleming got his glove on the ball but couldn't hold it and the ball rolled into centerfield, two runs scoring on the play.

Fleming, perhaps, could have turned Moffatt's rap into a triple play had he held the ball because he had the runner on second trapped easily for the second out and it's a possibility he could have gotten the runner scrambling back to first.

On the surface Barr's steal of home on two occasions appeared to be heads-up baseball. Actually though, it was bad baseball in each instance.

Each time that Barr broke for home there were two away and two strikes on the batter. The batter had no choice of swinging at the ball because if he did his bat would hit Barr right smack on the head. A bunt would have done no good either because unless the batter beat it out Barr's run wouldn't count.

The batter in these two instances saw Barr coming down the line each time and they let the ball go by and just hoped that it would be a ball. Had they been strikes Barr's efforts would have gone for naught. Fortunately for Barr, though, both pitches were balls.

We don't believe we've ever seen so many crucial plays in one game than what cropped up in Saturday's game.

There was a lot of action throughout and the 600 fans or so who showed up Saturday saw what they came to see — a good ball game.

Aaron Well On Way To .400 Season

By JOE REICHLER

Associated Press Sports Writer

Henry Aaron, who may become the National League's first .400 hitter in 29 years, must feel like a guy swimming against the tide.

The Milwaukee mauler rapped a home run and single in the Braves' 8-3 victory over Los Angeles Sunday. That gave him a spectacular run of eight consecutive games in which he's made two or more hits. Yet, during that time he's tacked on only one percentage point to an average that now stands at .484.

That's not all. The slugging outfielder has hit safely in each of his last 21 games. Yet, during those three weeks, he's actually lost 16 points. He was batting an even .500 when he started the streak. Hammerin' Hank is in a spot now where his average drops if he collects two hits in five times at bat.

Aaron's homer No. 11 came in the fifth inning, broke a 2-2 tie, and set the stage for the Dodgers' fourth straight defeat. The victory enabled the Braves to retain their 2½ game margin over the runner-up San Francisco Giants, who defeated the Cincinnati Reds, 9-1.

Chicago's Cubs crept to within two percentage points of the fourth place Reds, pulling out a split in their doubleheader with Pittsburgh. Ernie Banks' ninth home run provided them with a 7-6 triumph after Pittsburgh had won the opener 5-4. Rain forced the postponement of the scheduled doubleheader between the Philadelphia Phils and Cardinals in St. Louis.

All three American League doubleheaders resulted in splits.

In the only single contest, the Boston Red Sox snapped a five-game losing streak, pounding out a 10-1 triumph over Detroit.

Cleveland defeated Baltimore 8-3 after the Orioles had snatched an 8-7 decision from the Indians in 11 innings. Chicago's White Sox atoned for a first game 4-2 loss to Washington by winning the second game 10-7. Kansas City, after losing a heart-breaking 3-2 opener when the New York Yankees scored three runs in the ninth, won the second game 10-0.

Lew Burdette made only 84 pitches in subduing the Dodgers for a 6-2 record. The Milwaukee right-hander permitted eight hits including home runs by Don Demeter and Charlie Neal. Del Crandall had four hits, including a homer.

Shortstop Andre Rodgers supported Stu Miller's five-hit pitching with a pair of home runs and a single as the Giants won the rubber of their three-game set with Cincinnati. Willie Mays, continuing his hitting spree, slammed a homer and double. The defeat was charged to Bob Purkey, who defeated the Giants four times in five decisions last year.

Ten home runs featured the Pirates-Cubs twin bill. Bill Mazeroski hit two for Pittsburgh in the opener. Vern Law was the winner but he needed help from Elroy Face in the ninth.

Face, who has a 6-0 record in relief, came on with runners on first and third, none out and Pittsburgh ahead 5-3. He retired the side with only one run scoring, that on a double play.

TONIGHT AT 6

Little Leaguers Kick Off Season

The stage is all set for the opening of the 1959 Snyder Little League season tonight.

Opening night ceremonies will begin at 6 with the first scheduled game set for 7.

All eight teams in the two Little Leagues will be suited out tonight although only four will play. Each of the eight teams will be introduced in the opening night ceremonies.

Mayor Harold Bennett and Judge J. Ray Martin will form the opening night battery.

Mutt Herod, Snyder Little League comissioner, will make an introductory address afterwhich he'll introduce the presidents of the two Little Leagues, Bentley Baize of the American League and Dan Cotton of the National League.

The two prexies will then introduce their staff of officers and the teams will introduce the players.

Also to be recognized tonight will be Mrs. Fred Kizer, president of the Little League Auxiliary.

Rev. Harry Vanderpool, pastor of the First Methodist Church, will give the invocation.

Meeting in the opening game tonight will be the Quarterback Club Giants and Kiwanis Braves in the first game and the Trinity Methodist White Sox and Von Roeder Seed Indians in the second game.

Tomorrow night it will be the Lions Club Cubs and the Rotary Cardinals in the first game and the West Texas State Bank Athletics and Legion Yankees in the second game.

Snead 'Fades'

By GEORGE BOWEN

Associated Press Sports Writer

WHITE SULPHUR SPRINGS, W.Va. (AP)—A phenomenal 59 followed by a tidy 63. An 11-stroke victory in his own Sam Snead Festival. It may not be too late after all for Slammin' Sam to win that elusive National Open Golf championship.

Snead wound up his competitive tuneup for the open Sunday by shooting the lowest 72-hole total score of his 25-year professional career, 259 — 21 under par.

Giambra In Dallas Bout

DALLAS (AP)—Joey Giambra will show tonight whether he has tried to recover lost ground too quickly in his fight for recognition in the middleweight boxing picture.

The Dallas fighter, who has pulled back to sixth place in the NBA ratings after long inactivity caused by an injured elbow, will be making only his third start and he'll be facing one of the toughest men in the game, Ralph (Tiger) Jones.

Jones, spoiler of championship hopes, also is driving toward the top and feels that a victory over Giambra will be a long step.

Giambra and Jones, the wily veteran from New York, clash over the 10-round route at 10 p.m. (CST).

Jones will give away four years. The clever veteran is 31, Giambra 27.

A crowd of 7,000 that will pay Dallas' biggest boxing gate, $30,000 to $40,000, is expected to see the fight at Memorial Auditorium.

Each is due to weigh in at 157 pounds. Giambra will put a 60-5-2 record on the line. Jones shows 48-25-4.

Crosby Boys Feel They're On Spot

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP) — Phillip Crosby was the first to arrive at his brother Gary's house, high above the Sunset Strip.

A husky athlete with a stubble of white hair, he had just come from visiting his wife and their new-born daughter, first after a long line of Crosby males. Phillip reported a wire from father Bing, expecting his sixth child: "Congratulations. Hope it's a trend. Love, dad."

Dennis came in next. Balding, pale and soft-spoken, he chided his twin for naming the new-born Dixie Lee. Dennis had also hoped to name a future daughter after his mother.

Next, the master of the house stormed in. Chunky in a one-piece zipper suit, Gary had just finished a day's work at 20th Century-Fox. The big living room started ringing with his jokes and caustic comments.

Lindsay, the youngest, strolled in almost unnoticed. A tanned, handsome lad, he listened to the banter of his brothers.

They gathered around a piano with vocal coach Bill Thompson and started singing "Blues in the Night," a number for the brother act with which they plan to tour the country. It was an intricate arrangement, that required many rehearsals. Finally, they mastered it.

These sessions have been going on almost nightly for weeks and will continue until the June 15 debut at Hesperia, Calif. The boys are pouring $35,000 into the act. The reason for their effort and expense is simple: they know they are on a spot. Being Bing's boys, they must produce—or else.

The public scrutiny has played a large part in shaping their lives. They are bewildered and sometimes embittered by the kind of publicity they get.

Gary, the sharpest-tongued of the four, declared: "There will always be the blood-suckers who can only write about the drunk driving arrests, the fights and the other things that make the headlines. I don't think we drink any more or get in any more trouble than anyone else our age." (Gary is 25, the twins 24, Lindsay 21.)

Because of their famous father and publicity that has pictured them as trouble-makers, the Crosby brothers have failed to register in the public mind as individuals. Yet they are interesting personalities in their own right.

In some ways they are similar. They all have the same breathless delivery of buoyant humor that reminds you immediatedly of their dad. They share a deep reverence for their mother, who died of cancer in 1952.

Their regard for Bing is by no means as unanimous. In this and many other ways, the brothers differ. Succeeding articles will consider these differences and how the four shape up as individuals. Tuesday we'll discuss Gary, leader of the Crosby boys.

Nine Accused In Vandalism

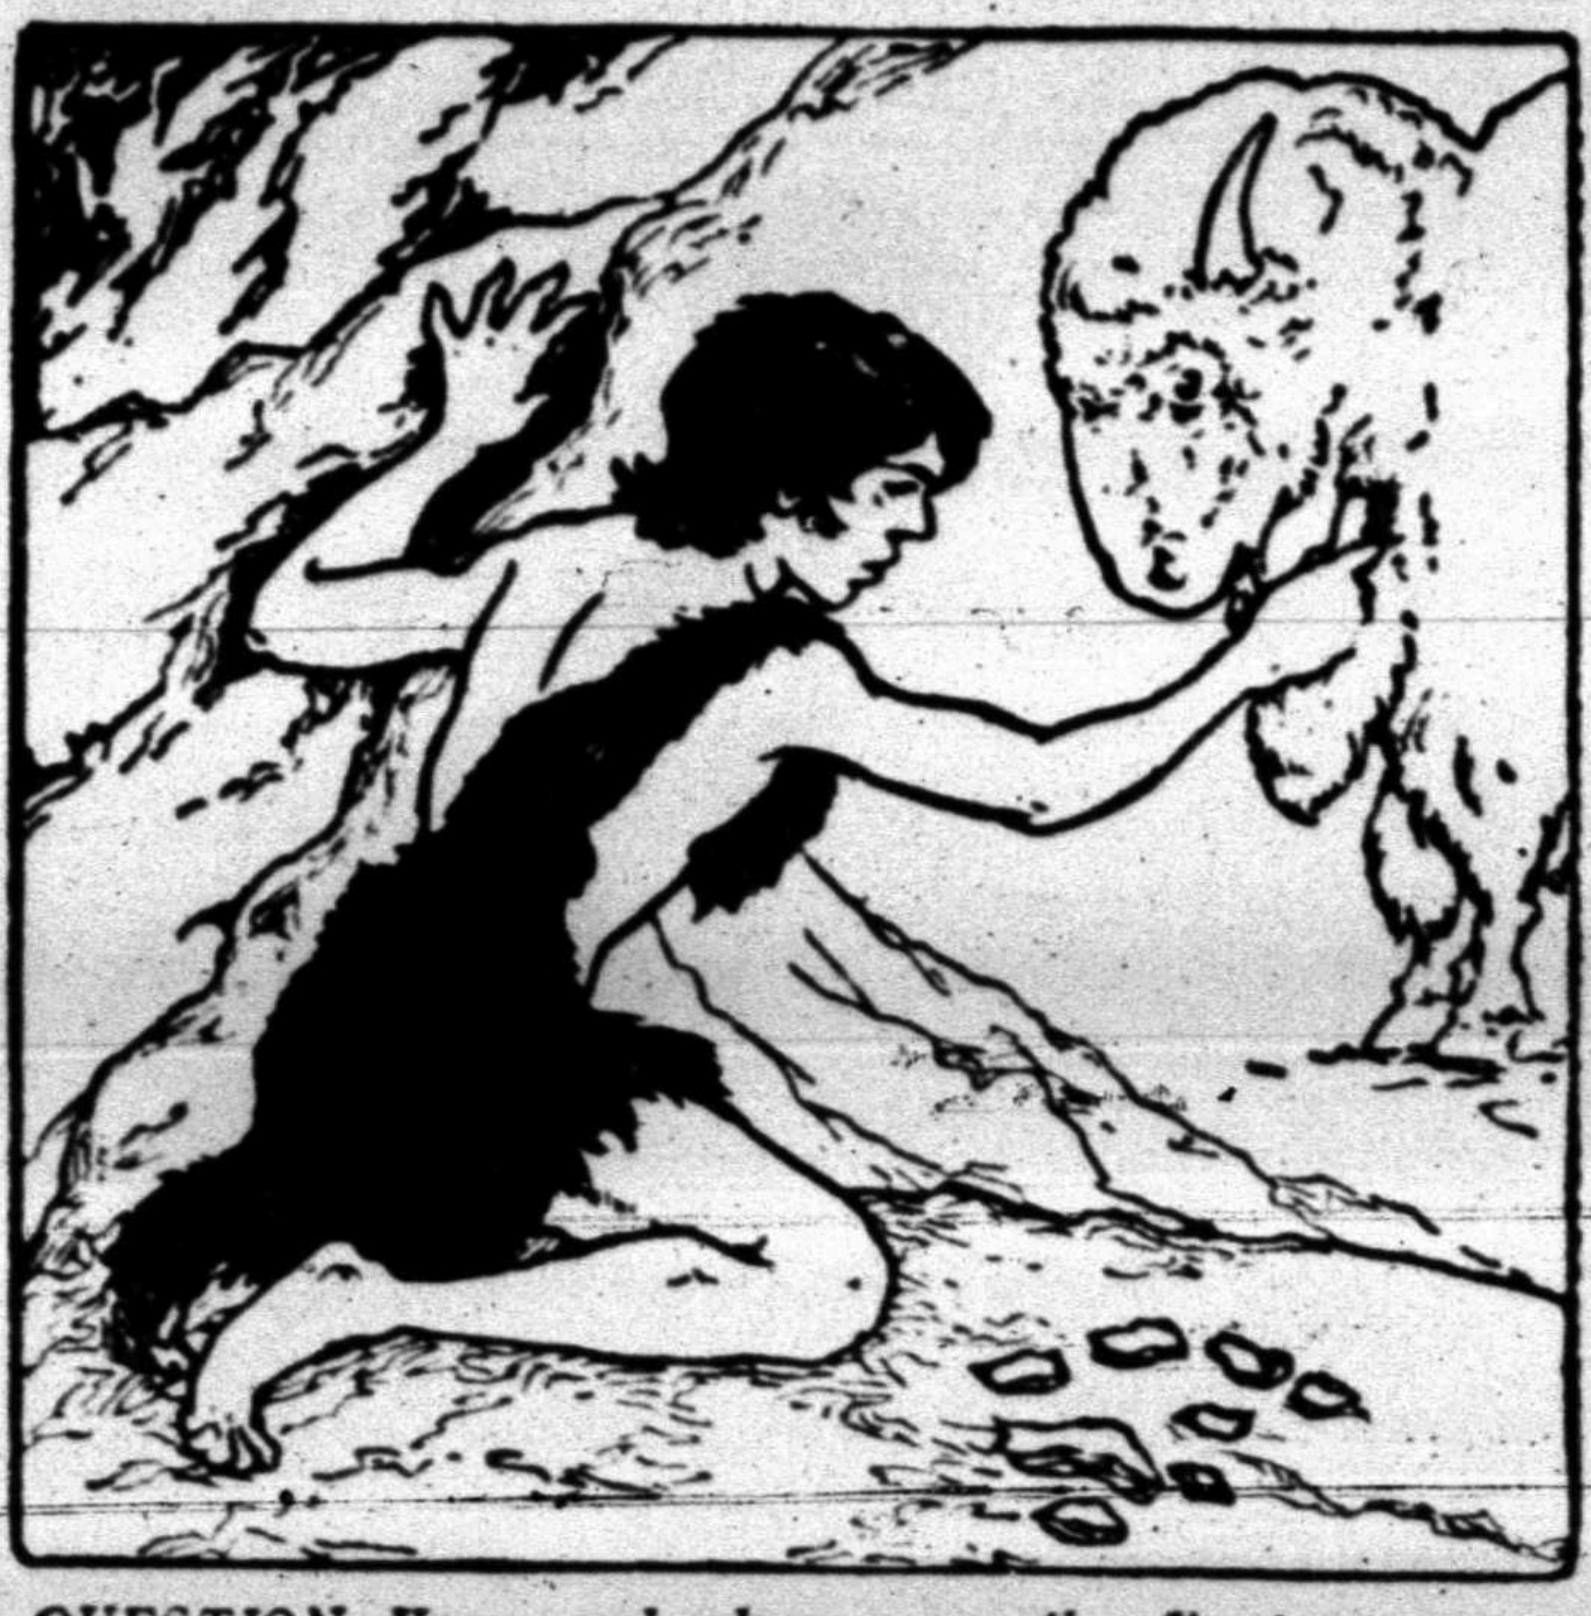
PHILADELPHIA (AP) — Nine boys, four of them brothers, have been accused of vandalizing four schools in five days. They said they took Sunday off "because we don't do anything wrong on Sunday."

The damage was done, at the rate of one school a day, between Thursday, May 7, and last Monday. The havoc at one school was so bad classes were cancelled the following day.

The boys were arrested at their homes Sunday and charged with burglary, larceny and receiving stolen goods. Police said they emptied fire extinguishers, ransacked desks, and stole equipment. They are 10 to 13 years old.

Most of the stolen equipment, police said, was found at their homes.

Junior Editors Quiz on ART



QUESTION: How and when were the first crayons made and used?

• • •

ANSWER: Most crayons are made from colored clays. Wax is added to the clay and the mixture is ground into paste. Then it is moulded into pencil-like sticks. Color is added to make different shade crayons. The first crayons probably were crude sticks of clay and soft rock, used by cavemen to make drawings on the walls of their caves. In recent times caves have been discovered in France which have their walls covered with pictures of animals. These pictures were drawn with red, black and tan clay. Much later, in the 16th Century, some of the Old Masters of the art world used crayons and chalk for some of their finest paintings.

• • •

FOR YOU TO DO: See if you can find some different colored clay and soft stones, such as charcoal. Then make a drawing on a piece of wood or flat rock, as the cavemen did.

• • •

(The $10 award for today's question goes to Linda A. McIntyre of Cuyahoga Falls, Ohio. Mail your question on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. If duplicate questions are received, Mrs. Higgins will select a winner.)

5-18

Plain Work Urged To Curb Delinquency

WASHINGTON (AP) — Sen. Lyndon B. Johnson (D-Tex) last night urged "a return to the old-fashioned qualities of courage, confidence and plain old work" to solve juvenile delinquency.

Speaking on his weekly Sunday broadcast over a number of Texas stations, the Senate majority leader said that the cure for juvenile delinquency must be found in the field of human relations rather than in passing new laws.

He said that a Senate subcommittee is now making an intensive study of the problem of juvenile delinquency throughout the country.

Atomic Plane Talk Draws Challenge

By JOE F. KANE

WASHINGTON (AP) — An Air Force officer's statement that the United States is going to push development of an atomic powered airplane has been challenged from two angles.

Lt. Gen. Roscoe C. Wilson, Air Force Research Chief, said in a speech Friday the last decision by Donald A. Quarles before the deputy secretary of defense died May 8 was to ask President Eisenhower's permission to step up development of such a plane. He said such a recommendation had been sent to the President. The final technical obstacle to construction of a nuclear powered plane — shielding of crew and equipment from radiation — has been overcome, Wilson said.

But a Defense Department public information spokesman said Saturday no decision has been made on expediting development of the plane. He said the matter still is under study and no recommendation has gone to the White House.

And Rep. Melvin Price (D-Ill) said Sunday: "I'm afraid we haven't solved all the problems. I don't think we ever will until we actually get a plane in the air." Price, as Chairman of the Senate-House Atomic Energy Subcommittee on Research and Development, has long been fighting for more speedy development of such a plane.

It appeared, however, that the Air Force has asked the Defense Department to push the nuclear plane project.

Wilson could not be reached for reply to the later comments.

Price said he plans to try again to hold public hearings this year on whether the Pentagon is moving fast enough in developing a nuclear plane. The date of the hearing will depend on how quickly Quarles is replaced and whether the successor or some other official is designated to handle the atomic plane program, Price said.

Price said he did not believe the shielding mentioned by Wilson had been a serious problem for more than a year.

400 Boats Complete Biggest River Run

MOAB, Utah (AP)—Nearly 400 boats completed the world's biggest river run Sunday night, but a few spent the night along the Colorado River.

Some 1,000 men, women and children started Saturday from Green River, Utah. They went down the Green River, camped overnight, and chugged back up the Colorado Sunday. The two rivers meet about 60 miles south of here.

There were no major mishaps. A couple of boats were reported swamped, and one smashed on rocks.

An estimated 30 boats and 90 passengers needed fuel or engine repairs before they could finish the jaunt today.

Monkey Discovered Hanging From Roof

SANTA CRUZ, Calif. (AP) — Mrs. Kester Krieg, doing her chores Sunday, looked out the window, saw a monkey peering at her. The monkey, dressed in yellow pants, was hanging from the edge of the roof. Mrs. Krieg let out a yelp. Her husband came running and, between them, they caught the monkey and put it in the garage. The monkey, about two feet tall, tame and friendly, carried no identification.

The Kriegs say the owner can claim it any time—and the sooner the better.

AT NORFOLK—Joe D. Rhoder, aviation structural mechanic, second class, is now stationed at the U. S. Naval Receiving Station in Norfolk, Va. Rhoder is the son of Mr. and Mrs. Joe Rhoder, 3707 Muriel Dr., Snyder, and his wife, Mrs. Anna Rhoder, lives on route three.

The Danube River, Western Europe's longest waterway, touches nine nations on its way from the Alps to the Black Sea.

The hobby of Maj. Gen. William Donald Old, commander of the Ninth Air Force, is gardening.

The King James version of the Bible was published in 1611.

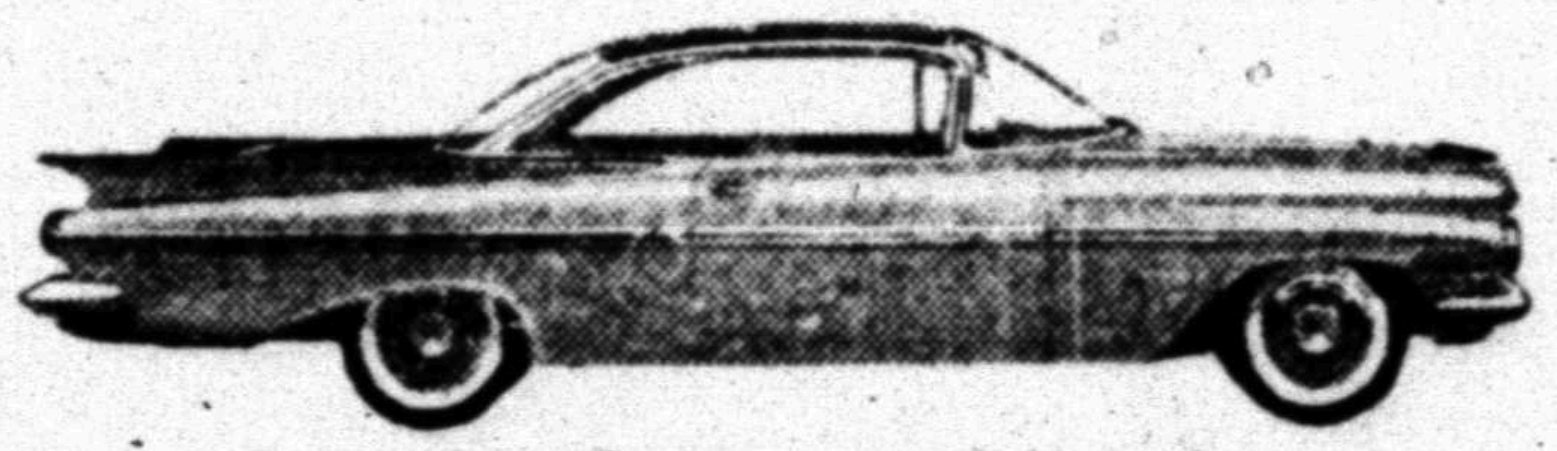
HERE'S WHAT OTHER LOW-PRICED CARS HOPE YOU'LL DO WITHOUT!

(BUT HOW THEY WISH THEY HAD 'EM)

CHEVROLET
NO WONDER MORE PEOPLE ARE BUYING CHEVROLETS THAN ANY OTHER CAR!



Impala Sport Coupe—unmistakably modern.

CHEVY'S ROOMINESS
(MOST SPACIOUS IN ITS FIELD . . . MAKE THE YARDSTICK TEST)
You'll find Chevrolet seats are up to a full 5.7 inches wider than those of the other leading low-priced sedans. And Chevy gives you even more head room than most of the highest priced sedans.

CHEVY'S BIGGER BRAKES
(BUILT FOR UP TO TWO-THIRDS LONGER LINING LIFE)
Chevrolet's new brakes are the biggest in their field—bigger, in fact, than those of many heavier, higher priced cars. And Chevy's bonded linings do away with drum-scoring rivets.

CHEVY'S FULL COIL RIDE
(NO OTHER LEADING LOW-PRICED CAR HAS A RIDE LIKE THIS)
A few minutes behind the wheel will show you why Chevrolet engineers have put leaf springs out to pasture. No other car near the price has come up with a ride that coddles you like this one.

CHEVY'S FRESH STYLING
(THE ONLY UNMISTAKABLY MODERN LINES IN ITS FIELD)
You don't have to look twice at Chevy's clean-swept silhouette to know it's a new car. And, besides the satisfaction it brings, Chevy's style will mean a higher allowance at trade-in time.

CHEVY'S BIGGER SAVINGS
(MORE MILES TO THE GALLON THAN ANY OTHER FULL-SIZE CAR)
A pair of Chevrolet 6's proved this emphatically—coming in first and second in their class in this year's Mobilgas Economy Run. And the winning mileage was a whopping 22.38 m.p.g.

CHEVY'S HIGHER TRADE-IN VALUE
(BY NATIONAL AUTOMOBILE DEALERS ASSOCIATION FIGURES)
The N.A.D.A. Official Used Car Guide Book shows that Chevy consistently brings a higher trade-in allowance than any other low-priced car. Last year Chevrolets averaged up to $128 higher than comparable models of the "other two."

CHEVY'S ADVANCED-DESIGN ENGINES
(AND YOU GET THE WIDEST CHOICE IN THE INDUSTRY!)
Chevy's the only car in its field that gives you oil-hushed hydraulic valve lifters on all standard engines for smoother, quieter performance. It's the only American car at any price with a high-performance V8 that packs more than one horsepower into every cubic inch of displacement. And you get nine engines in all to choose from . . . every one of them with the convenience of automatic choke.

Make sure you get the most for your money—see your local authorized Chevrolet dealer!
