Tornado Season

Texans are reminded that the tornado season is with us again. Statistics from the United States Weather Bureau show that Texas led the nation again last year in total number of tornadoes, with a total of 232, which was an all time record. Only two months of last year were free from tornadoes in Texas, January and November. More than half of them, 124, came in September, 115 of them in connection with Hurricane Beulah.

Weather alerts may give that extra margin of time which might mean the difference between life and death, but it is still up to each individual to take the safety measures necessary to protect himself in case of a tornado. The safest place to be is still a storm cellar.

The voting period is tentatively set for May 13 through May 17. If approved by at least two-thirds of the county's cotton farmers who vote, it will permit such transfers for 1969.

LIONS ROAR

A very worthwhile Lions Club project just completed is the baseball park. The grandstand has been redone and new net wire erected. Little League, Pony League and softball games can be played at night, high school and adult games in the day time.

The project was scheduled to cost \$300. However with a lot of volunteer help the cost was con-

siderably less. Go by and see the improvement or better still attend some of the games.

Kent Bennett of Vernon brought last week's Lions Club program. Mr. Bennett represents the National Cotton Council and his talk was on cotton. Of course the 18th annual Cotton Festival to be held Friday and Saturday, Oct 11 and 12 was mentioned. Attendance was fair. The program and food was extra good.

Don't forget the Lions district convention at Amarillo this Friday, Saturday and Sunday.
