Drought prompts FmHA farm loans

The summer drought across West Texas has resulted in Scurry County farmers being named eligible for emergency farm loans through the Farmers Home Administration.

Applications for these will now be accepted each Wednesday during the weekly visit in Snyder of this area's FmHA County Supervisor John B. Smith of Rotan.

He will meet with county farmers from 9 a.m. until noon at the USDA Service Center, 3423 Ave. T, located in the Snyder Shopping Center.

Scurry County is one of 62 in Texas recently named by Secretary of Agriculture John R. Block as eligible for loans to cover part of actual production losses resulting from the drought.

According to Smith, farmers may be eligible for loans of up to 80 percent of their actual losses, or the operating loan needed to continue in business, or $500,000 — whichever is less.

For farmers unable to obtain credit from private commercial lenders, the interest rate on the first $100,000 borrowed is 5 percent. On the balance borrowed over that amount, the interest rate is 8 percent.

For farmers who can obtain commercial credit but who choose to borrow from FmHA, the interest rate is 13.75 percent.

See FmHA, page 12

WTC board given report on energy, telephone survey

Western Texas College trustees met Thursday night to consider several bids and hear reports on a variety of topics ranging from a telephone survey to an update on the energy grant recently granted to the college.

Trustees also reviewed a budget report for the 1983-84 school year.

Dr. Don Newbury, college president, told trustees that Jack Roberts, an engineer with Fanning, Fanning and Agnew in Lubbock, had visited the WTC campus this week. His visit was in conjunction with the energy grant which the Department of Energy recently granted the college.

According to Newbury, Roberts had been in contact with a DOE official who assured him that increasing the size of he chiller from 340 ton to 450 ton would not affect the grant already approved for the WTC energy program. Confirmation in writing is to follow.

The DOE grant approved totals $127,330, leaving the college to cover the balance of the project which is estimated at $233,460.

Trustees were told that pool covers — to be added at the swimming facility as an energy-saver — were in and were being installed. Roy Baze, board president, asked that a report be prepared in a couple of months regarding how the pool covers are affecting the amount of energy used to heat the pool.

New filters have also been installed at the swimming pool.

In other business, trustees accepted "with regret" the resignation of Margie Shawn, mid-management instructor, who will leave at the end of the semester. Shawn and her husband have purchased a business out-of-town and will be leaving Snyder.

Newbury reported that several applicants for the position have already been interviewed.

Trustees were told that the current liability insurance for faculty and board members will expire Nov. 30 and that the insuring company--Polly, Simon and Associates of New York--will not renew the contract. The reason for this is that the company is no longer going to be providing coverage in this area.

WTC had held that policy with the company for the past six years. The policy was written for $2 million in liability coverage.

Newbury explained that they received written notification of this a few days ago, adding that there was no way to anticipate the decision by the company.

Other possibilities for liability insurance are already being checked into and the intent is to obtain a new policy prior to the expiration.

Dr. Joe Reaves, president of the WTC Faculty Association, presented a report on the telephone survey which college students have been conducting regarding local feeling about House Bill 72 recently passed by the Texas Legislature.

Reaves said they had already made around 400 calls and were still shooting for the 500 mark. Of the first 100 calls, 39 percent disagreed with H.B. 72, but of the individual questions pertaining to things the bill is trying to do, callers agreed with the majority of items.

Reaves said when the survey is complete the results will be fully analyzed at Texas Tech Universi-

New York photos exhibited

Photographs made in New York City by Jay Huckabee will be featured in an exhibit opening Sunday in the Fine Arts Gallery at Western Texas College.

A reception marking the opening is planned from 1:30 until 3 p.m. Sunday with the public invited.

Huckabee made the photographs during visits to New York in 1982 and 1983. The exhibit is to remain in the gallery through Dec. 12 and may be seen on weekdays from 8 a.m. until closing.

Photography has been a hobby of Huckabee's since he obtained his first camera in 1930. It was a Kodak box camera, a giveaway from the Eastman Kodak company made especially to celebrate the firm's 50th anniversary. The camera was distributed through dealers and Huckabee's came from the Bryant Link department store on the west side of the Snyder square.

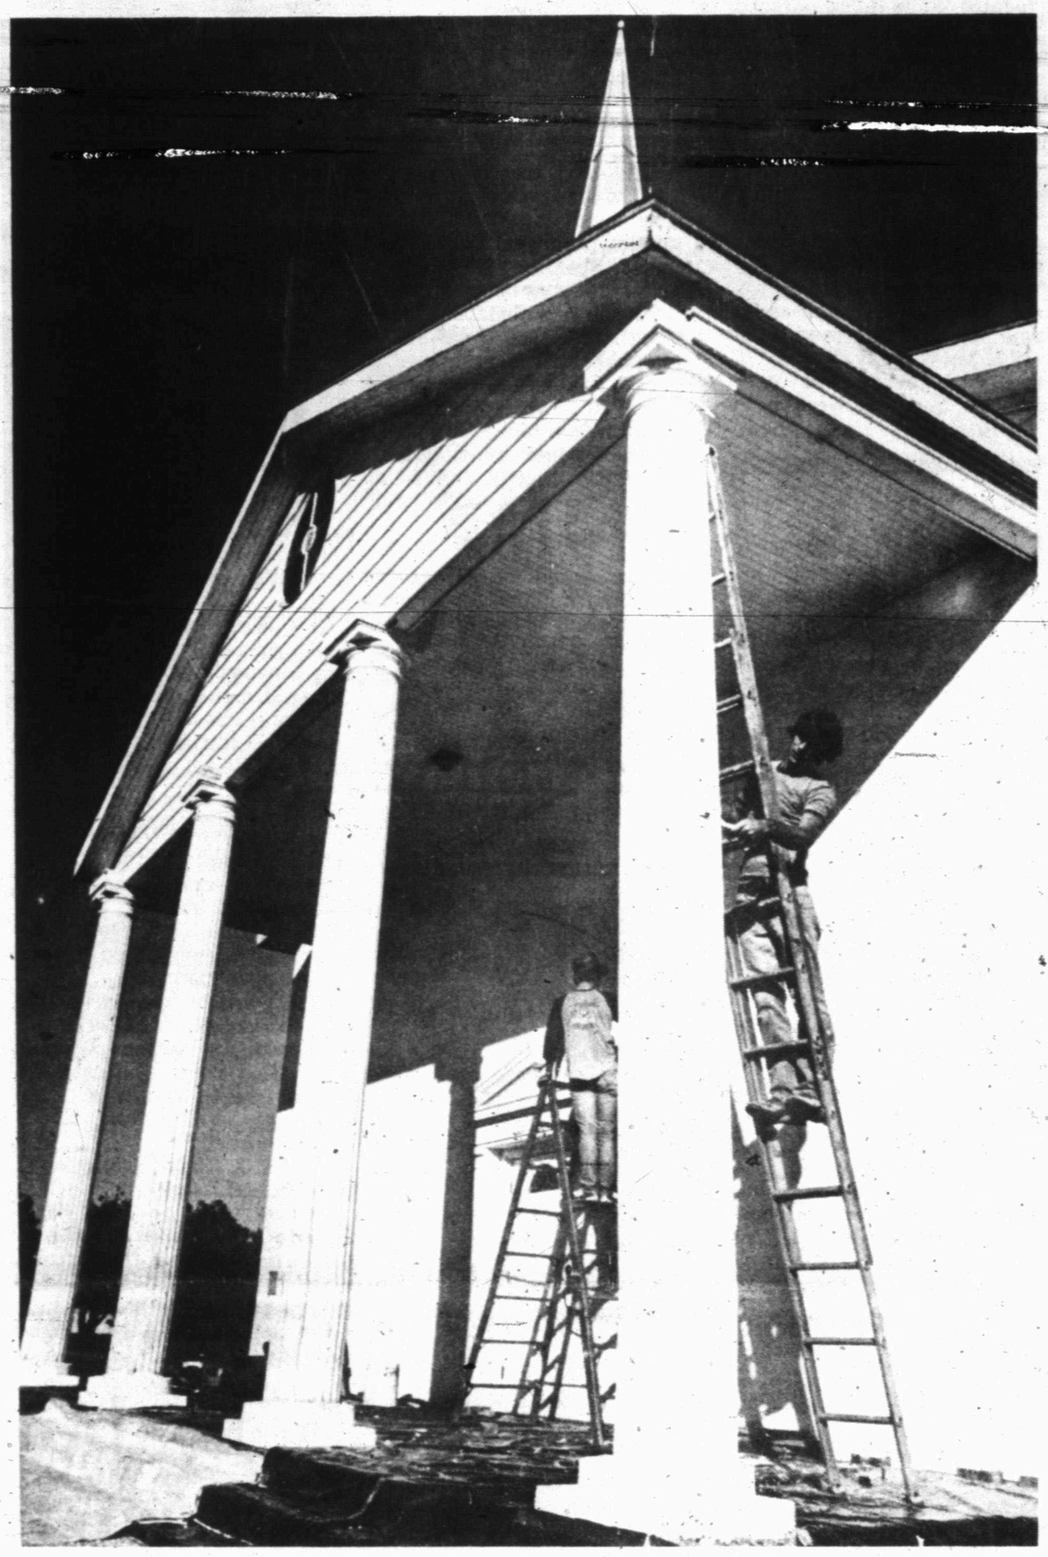

"I still use the camera once in a while just for the heck of it," Huckabee says. It uses 120 film, still available at most film outlets.

Through the years, Huckabee has used a variety of cameras. He now uses a 35 mm. The photos in the WTC exhibit were shot with a Nikon. A variety of special lenses are also in Huckabee's collection of photographic equipment.

Huckabee first visited New York in the World War II era. He says he has always found the city fascinating, although not a place he would like to work.

Photos he has made over the

Court hears four guilty pleas

Four defendants — including two indicted Monday by the November grand jury — entered guilty pleas to felony charges in 132nd District Court Thursday.

Bruce Wayne Nelson of Snyder, indicted by the grand jury in October for aggravated robbery, received a prison sentence of five years without probation.

Nelson pleaded guilty to a reduced charge of simple robbery in connection with an incident here Sept. 15. In addition, the suspect had two probationary terms for five-years each revoked. These had been granted him in 1983 on charges of burglary of an auto and burglary of a habitation.

He will now serve all three sentences concurrently.

Sentenced to probated prison terms Thursday were Eric Knight Heasley of California and Alvin Into Koski of Snyder. Both were indicted Monday.

Koski entered a guilty plea to a charge of indecency with a child in exchange for a five-year probated prison term.

Heasley, who was charged with felony possession of marijuana, was given a three-year probated term in exchange for his plea.

A fourth defendant, previously indicted for felony theft in connection with the passing of several worthless checks, was granted a deferred adjudication after entering a preliminary plea of guilty.

The SDN Column

By Roy McQueen

The feller on Deep Creek says, "A hypochondriac is a person who gets a clean bill of health, then seeks a second opinion."

Keeping tabs on our neighbors:

"O. G. Nieman, in the Hereford Brand, says there are at least three times when you should never say anything important to another person.

"When he is tired, when he is angry and when he has just made a mistake."

Danny Hukel, in the Gatesville Messenger, had an explanation why the game of golf continues to intrigue millions.

"Golf is the easiest game in the world before you take it up, and the toughest after you have been at it for 10 or 12 years.

"Golf is played with little white balls, and as many clubs as a player can afford. The course consists of 18 holes--seventeen of them unnecessary, but included simply to multiply frustration.

"A hole is a tin cup in the center of the green. A green is a small patch of grass costing $1.98 a blade, and a number of abandoned excavations called sand traps.

"The idea is to hit the ball from a point into each of the 18 holes, usng the fewest strokes and the most words. The ball must be propelled by any one of a number of ridiculous-looking implements, cleverly designed to provoke the owner.

"After each hole, the golfer counts his strokes, subtracts two and says, 'Made that five in just one over par.' After the 18th hole, he shakes hands with those he played with, and thanks them for helping him enjoy a wonderful afternoon of sportsmanship. Then he goes home and takes it out on his wife and children."

First building month slow by comparison

The first month of Snyder's new building year was relatively light when figured beside October of 1984.

This October's building list did include one new business project — a commerical storage facility now being built at 4609 Ave. R.

The 2,600 sq. ft. structure is being built by Clarence Payne and will be located behind an associated business, City Realty at 4610 College Ave.

Payne said 15 storage units will be built and these should be ready for occupancy by December.

During 1984, the City of Snyder began the permit year with a $1.3 million month which included the largest single project applied for during the entire 12-month period, the Gulf Coast Construction Apartment complex.

By comparison, this October's building total was just over $560,000.

Two major projects are already announced this year, however, and to date neither has officially shown up on the permit books.

This includes the construction of the new Furr's Super Market here and the construction of

Ask Us

Q. — Who were the players chosen for the Dallas Cowboys All-Time team.?

A. — They were: **Offense:** Roger Staubach, Don Meredith (QB); Tony Dorsett, Walt Garrison, Don Perkins (RB); John Fitzgerald (C); John Niland, Herb Scott (G); Ralph Neely, Rayfield Wright (T); Billy Joe DuPree (TE); Drew Pearson, Bob Hayes (WR); Rafael Septien (K); and Danny White (P); and **Defense:** Ed Jones, Harvey Martin (DE); Bob Lilly, Randy White (DT); Lee Roy Jordan, Chuck Howley, D.D. Lewis (LB); Mel Renfro, Everson Walls, Cornell Green (CB); Charlie Waters, Cliff Harris (S).

In Brief

Craft update

CAPE CANAVERAL, Fla. (AP) — Discovery's astronauts are making small adjustments in their orbit to catch up, slowly but steadily, to two off-course satellites that will be salvaged by space-walking astronauts.

Three more engine firings were planned today to further reduce the gap between hunter and hunted in the intricate game of celestial cat-and-mouse. The goal: Catch the first satellite, Palapa B2, on Monday and the second, Westar 6, on Wednesday.

Prices off

WASHINGTON (AP) — Wholesale prices, off for a third straight month, fell a modest 0.2 percent in October, the government said today. It was the first time in 17 years that prices have been down for three months running.

The Labor Department said all the credit for last month's good news went to prices for newly introduced 1985-model cars and trucks, which proved after the department's seasonal adjustment process to be lower than September close-out prices for the 1984 models.

Indeed, other major components of the index rose and department analysts said that if car and truck prices were not counted, the overall index would be unchanged from September.

Food prices, down in four of the previous five months, rose 0.1 percent.

Storm death

MIAMI (AP) — Hurricane Klaus, which killed one person and caused millions in damage in the eastern Caribbean before it gained strength, remained far out in the Atlantic Ocean today with no indication it would strike land, forecasters said.

"It doesn't look like it's ever going to affect land," said forecaster Gil Clark, of the National Hurricane Center. "It's a big system, so it may turn into a non-tropical system. ... That takes a few days."

Weather

Snyder Temperatures: High Thursday, 82 degrees; low, 50 degrees; reading at 7 a.m. Friday, 56 degrees; no precipitation; total precipitation for 1984 to date, 14.31 inches.

Snyder Area Forecast: Tonight fair and cooler with a low in the lower 40s. Wind west to northwest 10 to 20 mph. Saturday sunny but cooler with a high in the upper 60s. Wind west 10 to 15 mph.

Arms control, tax reform, spending cuts...

Second term priorities set

SANTA BARBARA, Calif. (AP) — President Reagan, determined to preside over an aggressive second term, has set arms control, income tax reform and spending cuts as his top [illegible] four years.

These items emerged by consensus as top White House officials held private, informal meetings in the past several weeks to discuss post-election goals.

"We knew that our success in 1981 was based on selecting important goals and sticking with those goals," deputy White House press secretary Larry Speakes said in an interview with The Associated Press on Thursday.

"That's our plan in the new term."

Many people credited Reagan's success in getting his economic package, including a 25 percent cut in income tax rates, through Congress in 1981, with the fact the White House pursued its objective almost single-mindedly and was able to fashion a legislative coalition though the House was controlled by Democrats.

The strategy paid off, especially when compared with how little success former President Jimmy Carter had with a Congress his party controlled when he bombarded it with "priority" legislative proposals.

In addition, Speakes said Reagan was planning an organized effort, not yet fully shaped, "to reach out to special constituencies, to groups we want to get together with." He specifically mentioned Democrats, blacks, labor, agriculture and business.

"It will be an aggressive second-term, as aggressive as the first," Speakes said.

"The goals we set in 1981 are not over and have not been accomplished in four years and there's much that remains," Speakes added.

Mindful that the administration will have to fashion an ad hoc congressional coalition if it wants to get its programs passed by Congress, Speakes said Reagan wants to "meet as soon as possible with the new Senate leadership and the House Democratic and Republican leadership too."

Speakes said Reagan was likely to have a news conference in the next three or four weeks partly to show he feels an obligation to do such things. "It's a necessary thing to do," said Speakes.

Reagan asked the Treasury Department months ago to embark on a study of how to change the federal income tax system, and he is due to receive its report about Dec. 1.

So far, it is known that the department is looking at a so-called flat tax or perhaps a consumption tax. Reagan has said only that he doesn't want the new system, whatever it is, to end up as a tax raising device.

Arms control would be a new priority for Reagan too, since he spent his first term building up [illegible] defense system.

But Reagan has started to think about the legacy he will leave, Speakes said, and is ready to become more flexible with the Russians.

Flap is false alarm

DALLAS (AP) — A brief flap over who'll have the biggest Christmas has ended with the city of Dallas coming out on top — by fir.

City Hall officials reacted defensively early Thursday when they learned that a chic North Dallas shopping mall is buying a Christmas tree 5 feet taller, packed with 20 times as many lights and scheduled to be erected three weeks earlier than the municipal tree.

As it turns out, however, City Hall's claim to the largest Christmas tree was never seriously in danger, Galleria mall officials admitted later Thursday to fudging on a news release about their tree.

"I'm going to have to tell you something," Galleria spokeswoman Barbara Womble said. "This tree was not cut down in the forest. This is a 'faux' tree."

A what tree?

"F-A-U-X. That's a fancy word for artificial," she said.

Manufactured in San Francisco by the Berango Co., the 75-foot tree will rise four stories above the middle of the Galleria ice rink and sport 40,000 lights.

It's scheduled to be erected Nov. 18.

Dear Abby

By Abigail Van Buren

© 1984 by Universal Press Syndicate

DEAR ABBY: I don't want to brag, but I'm considered one of the best cooks in Brooklyn. I spent two days preparing a delicious company dinner, and all my guests ate very well with the exception of one woman who is always watching her figure.

She took one bite of the appetizer (chopped liver) and a taste of the soup (matzo ball) and that was all.

I asked her why she wasn't eating the roasted chicken and noodle pudding, and she said she was afraid if she took even a taste, she wouldn't be able to stop.

She turned down my dessert, too. Abby, if she didn't want to eat, why did she accept my invitation? Doesn't it show bad manners to come to dinner and refuse the food?

HURT IN BROOKLYN

DEAR HURT: Perhaps the lady wanted the company but not the calories. I'm sure you're a fine cook, but a gracious hostess pretends not to notice how much (or little) a guest is eating.

Your guest could be a compulsive overeater, in which case just one little taste could trigger an eating binge.

These days, the caring hostess will serve an abundance of vegetables and fruit for calorie-counting guests who are fighting the battle of the bulge.

* * *

DEAR ABBY: I work for a company that has roughly 1,700 employees. Every year we are treated to an outstanding Christmas party, and each employee is entitled to bring one guest.

A fellow employee I hardly know has a married son and an unmarried daughter. They both live out of town.

Yesterday, this woman came up to me and said, "My son and his wife are coming in to spend Christmas with me, and my daughter will also be here. I'm taking my son to the Christmas party as my guest and 'so and so' is taking my daughter-in-law. Would you mind taking my daughter as your guest? I'm sure you won't mind—you are single, and I know you don't date."

I was so angry I lost my voice, but here is what I want to say to her:

"Lady, listen up good. No, your daughter may not come as my guest. This party is for the employees and their guests—not a family reunion. And besides, this year I have a date! Merry Christmas!"

BURNED UP

DEAR BURNED UP: The speech is wonderful. Now deliver it to this office turkey before Thanksgiving.

* * *

DEAR ABBY: Some time ago, you published some incredible remarks mourners had made to the widow at the funeral. This one should be added:

Duncan was a sheep farmer in the Scottish Highlands. One sunny day he went on the loch alone in his small boat to fish. A sudden, violent wind and rainstorm hit the area, capsizing his boat and drowning him.

At the wake, people were giving condolences to the grieving widow. One prying woman, a casual acquaintance, offered, "I'm very sorry about your husband."

The widow nodded, "Thank you."

The "friend" added, "I hear he left you quite well off."

The widow replied, "Quite—200,000 pounds, to be exact."

The nosy one, shaking her head, exclaimed, "My, my, such a lot of money from a man who couldn't read or write."

"Nor swim," replied the widow with a wry smile.

JACK McGINLEY, WESTMINSTER, CALIF.

Neighbors say they want to keep blacks off island

CHICAGO (AP) — Many residents of "the island," an all-white neighborhood where a black family endured two nights of brick-throwing and racial slurs before fleeing the apartment they had just rented, say they want to keep blacks out.

"Once you let one in, they're all gonna come in," said a bartender in a tavern near Spencer Goffer's apartment. Goffer, his wife and his 8-year-old son fled early Wednesday, leaving their possessions in the modest apartment, its windows shattered from missiles hurled in the night by angry whites.

Most area residents questioned Thursday applauded the violence.

"Because they were niggers!" was the reply of one patron at Muggsy's Bar, when asked why bricks, rocks and a tire iron were thrown through the windows of the apartment after the Goffers moved in Monday. Like many of those interviewed, the patron would not give his name.

When he rented the five-room, $280-a-month apartment, Goffer was unaware the four-square block area on the West Side was occupied only by whites. There are integrated areas near the neighborhood, which borders the mostly white suburb of Cicero.

"Ten years ago there were not too many black people in the area, now they're all over," said the bartender, who also refused to give his name. "People who've lived here 40 years don't want that."

Anthony Cappetta, a lawyer whose office is a block from the apartment, said he thought the troublemakers were outsiders. Several of the bars in the area attracted motorcycle gang members, who had vandalized the empty storefront below Goffer's second-floor apartment in the past, he said.

"I feel bad about it," Cappetta said. "It's not right and I don't think it was residents of the area. I think it was just an isolated thing."

Cappetta said he didn't think area residents, most of whom are retired and elderly, would mind blacks moving in.

Informs members about foundation

Members of the American Association of University Women met for their regular meeting Nov. 7 in the Martha Ann Woman's Club.

Carla Bavousett presented a program describing AAUW's educational foundation. A short business session followed.

Peggy English and Ruby Butts served as hostesses for the meeting.

Palette members host painting day

Members of the Snyder Palette Club met at the home of Lila Guinn in the Camp Springs Community on Nov. 8 for a day of sketching and painting.

LaNelle Joplin was added as a new member during the meeting which included a sandwich and salad luncheon.

For the first time since the Great Depression of the 1930s, America's home ownership rate is faltering, says the American Council of Life Insurance. A drop was recorded in the first six months of 1983, following steady increases every year since 1940. It says the proportion of American households owning their own home reached 65.3 percent in 1981 and remained there through 1982. But in the first half of 1983, it slipped to 64.7 percent. Since then, the rate of home ownership has hovered around that figure.

In 1889, the first Pan-American conference was held in Washington.

It makes nine, 10 or 11

By James Jacoby

Here is another chapter in the saga of not taking finesses. That principle is combined with an unusual type of dummy reversal in this deal. First let's see where declarer went wrong.

Declarer ducked the opening heart lead. He won the heart continuation, played a diamond to the ace and low diamond back to his jack. West won, cashed the third heart, and later made another diamond to set the contract.

South started on the right track, but was derailed when he went for the diamond finesse. Instead, the key to success is making all his small trumps. After winning the heart ace at trick two, he should play ace of clubs and trump a club. Next he should lead a spade to the king and trump another club. A spade lead to the queen allows declarer to trump dummy's last club. Now the spade ace is played. If West trumps in, he is end played in diamonds. If West does not trump, declarer can cash the king and ace of diamonds for 10 tricks. If declarer wants something better, he can play to the diamond ace and put West on lead with the last heart, forcing the lead into declarer's K-J of diamonds for 11 tricks.

(NEWSPAPER ENTERPRISE ASSN.)

Thurgood Marshall was sworn in as an associate justice of the U.S. Supreme Court in 1967. He was the first black to be so appointed.

CALENDAR SALES KICK-OFF — D'Antoinnet (on the left) and Tamara Johnson, daughters of Raymond and Yvonne Johnson of Snyder, are pictured with the new Girl Scout calendar. The West Texas Girl Scout Council calendar sales began Nov. 1 and will continue through Nov. 30. The profits from local sales will remain in the community for use by local troops. (SDN Staff Photo)

BEAUTY BRIEFS

Florence De Santis

Psyching your diet

Breaking bad old eating habits for good new ones can be hard. Help yourself with small psychological aids.

Set a limited weight goal — not a big one — such as 10 pounds in the next month. Then set the next step, and so on, until your final desired weight is reached.

Reward yourself, if you've kept your regime, by a weekend treat of whatever caloric goodie appeals to you most.

You can save a few calories from each day's total for the treat, so you won't even do damage to your regime.

Soap in winter

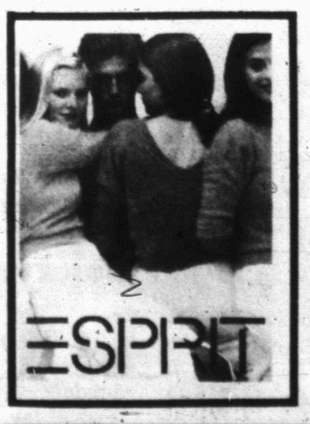

Because winter weather is cold and dry, you should be more careful about using soap. Even if you use it regularly at other times, in cold months always use moisturizing lotion or cream after every soap cleansing.

On the face, work up lather with fingers rather than using a washcloth, which can add to irritation. Rinse thoroughly, with warm, never hot water.

Churches Of Snyder And Area Support Them Every Week

YOUTH SPONSOR ACTIVITIES FOR FUND — Virginia Garcia became queen of the Gethsemani Assembly of God youth group because her sponsor, Isabel Luna, collected the most money on her behalf. The queen contest was one of several projects sponsored by the group to raise money for the church's building fund. Pictured are the candidates (seated) and their sponsors (left to right) Cindy Martinez sponsored by Adelita Martinez, Virginia Garcia by Isabel Luna, and Alecia Domiguez by Mary Helen Cervantez. Through the queen contest, bake sales, garage sales and food sales, the youth have contributed over $3,000 to the fund. (SDN Staff Photo)

Dr. Lamb

Lawrence E. Lamb, M.D.

By Lawrence Lamb, M.D.

DEAR DR. LAMB — My mother's doctor told her she needs to cut back on foods that are high in triglycerides. I tried to find out what these foods were and all my mother could tell me was they were foods from animals. I cautioned her against eating pork because I equated triglycerides with cholesterol. However, she says the doctor told her that pork was no problem.

I am thoroughly confused, and my mother seems to be, also. I would like to be able to prepare appropriate foods for her when she visits and would feel better if I knew she had accurate information. Do you have a booklet that describes this problem?

DEAR READER — I do not know what your mother's doctor told her and I'm not sure she does, either. Triglyceride is just the chemical name for fat. From the information given in your letter, it seems that your mother should not eat fat. Triglycerides are found in almost any food that contains fat, including all the cooking oils, animal products, most dairy products, rolls and baked goods, so you do need to know what her doctor wants and why.

If he wants her on a diet to help prevent fatty-cholesterol deposits in the arteries, then she should be on a low-fat, low-cholesterol diet. That would include limiting her fat intake to no more than 30 percent of her total calorie consumption; limiting her saturated fat intake to no more than 10 percent of the total calories; and limiting her cholesterol to less than 300 mg. a day.

I have discussed this diet in The Health Letter 15-4, Diet to Prevent Heart Attacks and Strokes, which I am sending you. Others who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it to me in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

You can apply these guidelines to a balanced diet. Just construct the diet from the low-fat, low-cholesterol items in each of the four basic food groups. Skim milk fortified with 2 percent nonfat milk solids is an excellent example. It provides more calcium and more protein than whole milk and is very low in fat and cholesterol.

DEAR DR. LAMB — I was taught to always cover the toilet seat in a public bathroom with toilet paper before I sat down. It became a lifelong practice. I'm 63.

I was indoctrinated about the dangers of not doing it. What is your opinion about the spread of syphilis and other venereal diseases, such as herpes and AIDS, through the use of public bathrooms? I'd be grateful if I didn't have to bother with covering the seat.

DEAR READER — You cannot get syphilis from a toilet seat. Viruses cannot survive long on a dry surface, only minutes at most. That automatically means that you need not worry about getting herpes or AIDS from a toilet seat.

Genital herpes depends upon a break in the surface of the skin to be able to inoculate a person. The friction involved in sex provides this, which is why herpes simplex II is spread by sexual activity.

AIDS seems to require that the virus be transmitted in blood or semen, or at least in body fluids, and that it enter the bloodstream — as in the case of drug abuse, blood transfusions and sexual transmission.

The only danger I really see is that one might contract a parasitic disease if a seat has crabs on it, but in that case, the paper won't help you. Therefore, I would recommend that you just use a clean seat and forget about covering it with paper.

Board considers makeup grades

AUSTIN (AP) — A proposal that high school athletes, along with band and pep squad members, be allowed to continue their out-of-classroom activities while making up failing grades has been placed in the hands of the State Board of Education.

The proposal was approved Thursday, 6-2, by the Legislature Education Board, which monitors actions of the new appointed Education panel.

The state board also will consider an LEB-approved provisions that limits out of school practice, such as athletics, band and pep squad, to eight hours per week for each activity.

John Brumley, chairman of the state board, told the LEB another matter to come before the board today and Saturday was the problem of providing competency tests for public school teachers. He said the state has enough money to present the initial tests to teachers but studies are being made of future more detailed tests on the subjects taught.

One estimate calls for $5 million to prepare the second round of tests and another $8 million to administer them.

Speaker Gib Lewis and Rep. Bill Haley, D-Center, an author of the 1984 school reform bill that barred participation in athletics by students who fail one course, strenously opposed the grade makeup provision at Thursday's LEB meeting.

Lt. Gov. Bill Hobby and Sen. Carl Parker, D-Port Arthur, Senate sponsor of the reform act, said the proposal carried out the "spirit" of the public school changes made in the summer special sessiol.

Haley said he agreed with the eight-hour limit on out of school practice but the makeup plan put too much responsibility on teachers and added to their duties.

"Dont' put all this on the teacher to have to deal with something other than their academic duties," Haley said.

Jack Strong, Longview, chairman of the students committee of the State Board of Education, said the proposal actually would strengthen the Legislature's intent that public school students devote more time to their studies during school hours and leave extracurricular activities to after school time.

Breast cancer research...

New process is reported

SAN FRANCISCO (AP) — Researchers say the marriage of two new technologies has brought an "explosion of progress" in breast cancer treatment and promises to improve the chances of surviving a disease that kills 40,000 American women each year.

The technologies — monoclonal antibodies and nuclear magnetic resonance scanning, or NMR — are making possible a rapid advance in diagnostic technique, said doctors at the International Workshop on Monoclonal Antibodies and Breast Cancer on Thursday.

The monoclonal antibodies, which when injected into the body will gather at a tumor, can be loaded with tiny bits of metal. An NMR examination of the area gives a brilliant contrast, providing doctors with a more detailed picture than previously possible.

The man-made monoclonal antibodies "will mean a turning point in the diagnosis and treatment of breast cancer," said Dr. Roberto L. Ceriani, a research endocrinologist with the John Muir Cancer and Aging Institute in Walnut Creek, Calif.

Monoclonal antibodies, similar to the antibodies all animals make naturally to fight disease, can be injected into the blood to search out cancer cells and, researchers believe, to kill them.

Unlike radiation and chemotherapy, Ceriani said, "the use of these antibodies will permit the attack of the breast tumor directly. They can pinpoint the attack and leave the rest of the body healthy."

There are three ways the antibodies can attack, he said. They can induce the cancer cells to kill themselves through a mechanism in the blood or they can search for lymphocytes in the blood to go kill the cancers.

"A third way, which is an experimental one we are all extremely interested in, is that you can put toxins, or poisons, on the antibodies that will kill the cancer," said Ceriani.

Dr. John Hilkins of The Netherlands Cancer Institute in Amsterdam, Netherlands, presented data similar to Ceriani's, [illegible] simple, relatively inexpensive blood tests using monoclonal antibodies can determine the presence of antigens, or components of the tumors.

These tests, which are being developed or tested by about 20 companies worldwide, will be ready for use in clinics in a year or two, Ceriani said.

Failing grade is given

HOUSTON (AP) — Houston "has a failing grade in traffic safety," a situation that makes it the deadliest city for driving in the country, says the chairman of the Safety Council of Greater Houston.

Speaking at a forum Thursday to discuss traffic safety, officials with the safety council and the Texas Safety Association said that for the past six years Houston has been the nation's most deadly city in which to drive.

"Some people seem to take a perverse glee ... when they find out we are dead last," said Ron Starcher, safety council chairman. "We kill more of our fellow citizens in Houston than in cities of our size anywhere else in the country."

Although the rate of traffic deaths is declining in the nation's fourth largest city, officials said they were not hopeful legendary traffic congestion could be eased.

Astro-Graph

By Bernice Bede Osol

Your Birthday

Nov. 10, 1984

This coming year offers many surprises that could bring about welcome changes. A series of unusual happenings will breed new life into your personal affairs.

SCORPIO (Oct. 24-Nov. 22) Recognize the difference between kindness and foolishness today so you won't be maneuvered into a position where you pay for another's mistakes. Find out why you may be having trouble with your romance by sending for the Astro-Graph Matchmaker set. Mail $2 to Astro-Graph, Box 489, Radio City Station, New York, NY 10019.

SAGITTARIUS (Nov. 23-Dec. 21) Valued relationships must be handled with extreme tact and skill today so you do not unintentionally do something that could alienate one who is fond of you.

CAPRICORN (Dec. 22-Jan. 19) Do not try to take shortcuts today in tasks that require time and patience. This could end up making things much harder for you than they should be.

AQUARIUS (Jan. 20-Feb. 19) You might meet someone today who will make a wonderful first impression. However, you'd be wise to get to know this person better before getting too deeply involved.

PISCES (Feb. 20-March 20) Timing is important today for your career. Don't do anything impulsively that your better judgment tells you needs more thought and study.

ARIES (March 21-April 19) Think before you speak today because your concentration may not be up to par and you might let comments slip out that would be difficult to retract.

TAURUS (April 20-May 20) Be extremely careful today if you are the guardian of the possessions of another. Treat what has been put in your trust as if it were your own.

GEMINI (May 21-June 20) If you require a staunch ally today, avoid one who has a history of indecision. He might abruptly switch sides and leave you standing alone.

CANCER (June 21-July 22) Failing to take care of your duties today is inviting future problems. Later you might have to pay a bigger price for your negligence than you anticipated.

LEO (July 23-Aug. 22) Even if you link up with a friend today who usually fares well with fliers, this could still be a bad day for you to gamble on risky ventures.

VIRGO (Aug. 23-Sept. 22) If you present yourself too forcefully in career situations today the end results could be just the opposite of what you had hoped to achieve.

LIBRA (Sept. 23-Oct. 23) Be a good listener today and be certain you have all the facts before jumping to conclusions. There's a chance you may hear only what you want to hear.

Tonight at 8 o'clock...

Tigers ready for Monahans

MONAHANS -- Snyder's Ragin' Tigers face a tough task here tonight but there's no question they are looking to put forth a good all around effort.

Game time is 8 o'clock in Monahans. The Loboes go into the game with a 4-1 record which has them in second place in the District 2-4A race. They are 7-1 overall. Snyder is 1-4 and 2-6.

Both teams come off of wins. Monahans defeated Andrews 14-9 last week while Snyder pegged San Angelo Lake View, 14-8.

In other 2-4A games tonight, all at 8, Pecos is at Sweetwater, Lamesa is at Fort Stockton and Andrews is at Lake View.

Only 27 yards separate Monahans and Snyder offensively, but that's where the similarity ends.

The Loboes are the No. 1 defensive team in the district, allowing just 8.2 points and 174.1 yards a game. Monahans is also first against the rush, allowing just 86.8 yards an outing, and seventh against the pass, allowing 87.2.

The task for Snyder was made even more uncertain last week when the Ragin' Tigers lost junior fullback Justin Webb to a broken wrist. Webb was the district's No. 3 rusher with 724 yards.

Picking up the slack will be 138-pound senior Thomas Quintela, [illegible] yards against Lake View. Snyder will also probably hand the ball more to senior tailback James Powell, who for the year has 331 yards.

But for the Tigers to be successful, they will probably have to find success via the airways. Quarterback Jimmy Cain leads the loop in passing with 678 yards and four touchdowns. Key receivers are swingman Willie Greathouse, who has 207 yards on 11 catches, and end Kyle Freeman, who has 196 on 11. Powell also has 152 yards on 9 catches.

While Snyder is averaging 249.9 yards worth of offense to Monahans' 277.3, the Tigers are putting only 11.2 points up each game. Monahans is second in district scoring, with a 24.1 average.

"One of the reasons Monahans doesn't have that many yards (per game) is because they have gotten the turnovers and their defense has left them in good field position," said Snyder Coach Dennis Tomlin.

The Monahans offense has plenty of talent. Wayne Willmon is the top scorer in the district with 65 points (5 TDs, 23 conversions, 4 field goals). Jimmy Hines, a 165-tailback, leads the rushing game with 606 yards - fourth in the district - while Dana Amos has 267.

Quarterback Steve Hernandez has hit 23 of 59 tosses for 440 yards and eight touchdowns. Leading the receivers is Trey Ford, who has 182 yards on 10 catches.

Snyder junior varsity rips Monahans club here, 27-15

Snyder junior varsity grabbed its fifth consecutive win here Thursday night, defeating Monahans, 27-15.

Snyder is 7-2 and will close out with Andrews here next week at 7.

Monahans scored first, taking the opening kickoff and marching seven plays. The TD came on a 26-yard pass. A conversion kick made it 7-0.

Snyder tied the game with 4:41 left in the second quarter on a Joe Martinez 4-yard run and a Mitch Page conversion kick.

Late in the half, Snyder drove to the 20 and tried a 30-yard field goal but it was unsuccessful.

The game stayed tied until the Cats scored again in the third quarter. Snyder marched 7 plays on 62 yards with Dennis Martinez hitting Alan Holt on a 6-yard pass for the touchdown. The PAT kick was blocked.

Monahans was penalized on the ensuing kickoff and Troy Menix booted the ball into the end zone. Monahans fumbled the ball around until Snyder's Reggie Price covered it in the end zone for another quick touchdown.

Snyder was stopped on a conversion run but led 19-7.

In the fourth quarter, Snyder recovered a fumble on the Cat 37-yard line and drove the distance to score with less than four minutes in the game. Joe Martinez took it in on an 8-yard run. The two-point conversion came on a quick slant by Holt.

Monahans scored its final touchdown on a pass with 1:37 left in the game. The conversion was also a pass.

For the night, Snyder had 282 yards total offense and Monahans 220. The Cats had 250 of theirs on the ground and 32 in the air. Quarterback Dennis Martinez was five of 10 in passing.

Joe Martinez led the rushing with 133 yards on 26 carries. Mike Long added 87 yards on 13.

Cotton Merritt intercepted one Monahans pass which set up Snyder's second touchdown of the game.

"The kids played well against a good team. They (Monahans) were tough," said Coach Albert Lewis. "We had a hard time with them. After their first drive our defense was able to shut them down though. After the half we made some adjustments on blocking assignments and we were able to move the ball on them."

Texas and TCU heavy favorites

by The Associated Press

Third-ranked Texas and No. 15-rated Texas Christian were heavily favored Saturday to emerge victorious from Southwest Conference scrapes, clearing the way for their showdown for the Cotton Bowl in two weeks.

Texas, unbeaten but once tied, was a 14-point pick at home over the University of Houston although the Longhorns have had to produce weekly "Mandrake the Magician" escapes.

The Horned Frogs, beaten only by Southern Methodist and the NCAA's Division I most improved team, were 10-point choices over Texas Tech in Fort Worth.

Texas has a 4-0 SWC ledger while TCU is 4-1. All other league teams have two losses and no team has ever made it to the Cotton Bowl with that many SWC setbacks.

In other games, Baylor celebrates homecoming in Waco by hosting the bowl-minded Arkansas Razorbacks and SMU, which has post-season hopes of its own, will play the winless Rice Owls in Houston.

Oddsmakers made Arkansas a five-point favorite over the Bears and SMU was rated a 22-point choice over the Owls, who've lost 23 consecutive SWC contests.

The Longhorns have been winning on defense and Jeff Ward's field goal kicking but Burnt Orange partisans were heartened by the return of running back Edwin Simmons to practice.

Simmons hasn't played since last year but the sputtering Longhorn running game needs him, particularly if Kevin Nelson's ankle doesn't heal.

Texas has gone down to the wire to beat Arkansas, SMU and Texas Tech after tying Oklahoma on a last-second field goal.

The TCU-Tech series has been bizarre. Tech has won the last two games played in Amon Carter Stadium. The last three played in Lubbock ended in ties.

TCU has a slender 19-18-3 all-time lead.

TCU's current record of 7-1 represents as many victories in eight games as the Horned Frog football program produced in the preceeding four seasons combined. Horned Frog Coach Jim Wacker was 1-8-2 in his first season and has already been rewarded with a new seven-year contract.

One of the keys to the Horned Frog success has been conditioning.

All players on TCU's original preseason depth charter are still active.

Tech could be a severe test fo the TCU rushing game which is second in the nation with 310.8 yards per game.

The Red Raiders are 10th in the nation in total defense.

Moore said Tech, which lost to Texas 13-10 on a field goal with three seconds left, will come fighting back.

Freshmen run past Ballinger Cubs, 20-6

Snyder freshmen won 20-6 over Ballinger here Thursday evening.

The Cats, now 4-3, complete the 1984 season by playing in Andrews next Thursday.

Snyder's first touchdown against Ballinger came on a 3-yard run by Lawrence Barrera. He also ran the conversion.

The score stayed 8-0 until Barrera scored again in the third quarter on a 4-yard run. The PAT run was stopped short.

In the fourth quarter, Brad Gartman found Steve Harper on a sprint-out pass that went for 16 yards and a touchdown. The conversion failed.

Ballinger's lone TD was on a 65-yard pass-and-run play with about two minutes left in the game.

Barrera ran for 183 yards on 28 carries. Harper had 126 on 17 carries. For the game, Snyder tallied 347 yards rushing and 22 passing. Gartman was two-of-five with one TD and one interception.

On offense, "David Martinez, Thance Springer and Bryant Mitchell did an outstanding job blocking," said Coach Ricky Howell, who added, "The key to the game was our defensive play. Ballinger made only four first downs and we swarm-tackled better than we have all year. The whole defensive unit deserves credit."

Free agents

NEW YORK (AP) - Of 56 eligible free agents, pitchers Steve Trout of the Chicago Cubs and Don Aase of the California Angels attracted the most attention at major league baseball's free-agent draft.

Trout was selected a draft-leading 17 times, Aase's name was called out by 13 clubs.

Three teams - the Cubs, New York Mets and world champion Detroit Tigers - opted not to select anybody.

Hester aces No. 5 at SCC

Juanita Hester made a hole in one on number 5, a 126-yard, par 3, with a five-iron at Snyder Country Club this week.

She shot the ace, into a strong headwind, on Thursday.

Mrs. Hester has come within inches twice this year but said she never expected to ace a hole.

Playing with her were Carolyn Greene, Jo Sterling, Rhylene Stoker, Gwen Sealy and Ethel Wadleigh.

WGA OFFICERS -- Elected as Women's Golf Association officers for the coming season were, left to right, Juanita Hester, president; Charlene Light, first vice-president; Dena Ellis, second vice-president; Mary Blackmon, secretary; Lou Keeble, treasurer; Ethel Wadleigh, reporter, and Suzy Reed, parlimentarian. (SDN Staff Photo by Noble Young)

Officers elected

Snyder Country Club's Women's Golf Association elected officers and named Play Day winners recently.

Juanita Hester was chosen president for 1984-85. Other officers elected were Charlene Light, first vice-president; Dena Ellis, second vice-president; Mary Blackmon, secretary; Lou Keeble, treasurer; Ethel Wadleigh, reporter, and Suzy Reed, parlimentarian.

Play Day winners were as follows:

Oct. 2, Least and Most Strokes to Green: Ethel Wadleigh, Betty Hildreth, Juanita Hester, Finnie Seale, Kathryn Dodson, Lounette Null, Chris Jordan, Nona Morrison.

Oct. 16, Queen of Hill Playoff: Low Gross- Cheri Thomas; Low Net- Ethel Wadleigh; Two Person Low Ball- Lounette Null, Doris Gard.

Oct. 30, Bingle, Bangle, Bungle: Juanita Hester, Cheri Thomas, Margie Briggs, Kaye Cypert.

WIN FIFTH – Western Texas' Dusters defeated Lubbock Christian College 100-34 Thursday to post their fifth win of the season. The Dusters, 5-1, are to play New Mexico Junior College at 6 tonight as action continues in the South Plains Classic. Above, Clara Campbell puts in two points in a recent contest. WTC's Westerners are also in tourney action tonight, taking on Navarro College at 6 in Waco's McLennan College Tournament. (SDN Staff Photo by Noble Young)

Dusters roll, 100-34; battle NMJC tonight

LEVELLAND — Western Texas College's Dusters grabbed 'em, bagged 'em and put the lid on Lubbock Christian College here Thursday afternoon in first-round action of the South Plains Classic, 100-34.

Coach Joe Cushing, whose Dusters are now 5-1 for the season, said the game was a historical first for him.

"It gave us a good chance to play everybody. It's the first time since I've been here we had everybody on the team score. We've been close before, had like 13 girls on the team and 12 of them score, but not all of them," said the coach.

In other tournament games played Thursday, New Mexico Junior College defeated Cisco, 95-81, Western Oklahoma State ripped Dodge City, 79-56, and host South Plains popped Southwestern Christian, 77-60.

Friday's action calls for LCC and Cisco to vie at 2, Dodge City to play Southwestern Christian at 4, Western Texas to challenge NMJC at 6 and South Plains to take on Western Oklahoma State at 8.

Western had no trouble in topping the Lubbock team. The Dusters rolled to a 42-13 first-half lead, then added 58 second-half points.

Four girls hit in double-digits for the Dusters. Rhonda Chisum led with 20, followed by Renvy Evans with 14 and Clara Campbell and Diana Quincy with 12 each.

Highpoint girl for Lubbock was Beth Swanson, with 7 points.

According to Cushing, not only did every player get to see action, but most of them played well.

"I was real pleased, especially with some of our freshmen. Rhonda Chisum had an outstanding game."

Chisum, from Lubbock Cooper High School, had six steals in addition to her 20 points.

"She did good job of running the team and playing defense. She had six steals and nearly every one of those she scored a layup on," he added.

Campbell and Jill Rippentrop led WTC's 39-rebound effort with five each.

Cushing said he was expecting a tough game with NMJC tonight. New Mexico is a conference opponent, but it will not be a conference game.

"They are going to be improved and they are going to be sky high because they are playing Western Texas. We're expecting that," he said. "We're approaching it from the standpoint of this is a tournament game and we want to get in the tournament finals."

The championship game is slated for 8 p.m. Saturday.

Western 100, Lubbock CC 34

WESTERN TX (100)– Diana Quincy 6 0 12; Lyndy French 0 1 1; Rhonda Hoelting 2 0 4; Rhonda Chisum 7 6 20; Judy Wiseman 1 2 4; Renvy Evans 7 0 14; Lenetta Richardson 2 0 4; Rene Ramaekers 4 0 8; Leslie Rose 3 0 6; Patti Hayes 4 0 8; Jill Rippentrop 2 3 7; Clara Campbell 6 0 12; TOTALS 44-86, 12-17, 100.

LUBBOCK CHRISTIAN (34)– Beth Swanson 3-1 7; Pam Garcia 3 0 6; TOTALS 12-57, 10-21, 34.

Halftime: WTC 42, LCC 13.

Holmes to defend heavyweight crown

LAS VEGAS, Nev. (AP) - Larry Holmes returns to the ring for the first time in nearly a year tonight, meeting a suddenly aging James "Bonecrusher" Smith in a scheduled -roun defe se of his share of the hea yweig t crown.

The undefeated Holmes is such a prohibitive favorite against Smith that bookmakers have r fused to post a line on the fight. A bettor can, however, get 13-10 odds that Smith doesn't last past the seventh round.

"I'm not in this thing to take this man 15 rounds," said Holmes.

Holmes turned 35 last week and Smith made much of his age and inactivity in the past year while predicting a knockout win for himself.

Hogie gets start; White not happy

DALLAS (AP) - Gary Hogeboom will be the starting quarterback for the Dallas Cowboys in their crucial National Football League game against the St. Louis Cardinals Sunday, says Dallas coach Tom Landry.

Danny White, who has started the past two games for the Cowboys, had expected to start in the contest matching two of the four teams now tied for the lead in the NFL East Division, but Landry said Thursday Hogeboom will start.

White suffered a shoulder injury in last week's 19-7 loss to the New York Giants, but had believed he would be able to start against the Cardinals.

"Danny might be able to play some. But, we don't want to risk him getting hurt," Landry told the Dallas Morning News. "That's the worst part. I don't want to risk the same thing happening and Danny being lost for 2-3 weeks, when we've got Gary healthy and ready to go."

Hogeboom had a tough time against the Cardinals in their first game at Texas Stadium earlier in the season. He completed 13 of 28 passes and had two interceptions before White replaced him in the third quarter with St. Louis leading 31-13. The Cowboys scored one more touchdown in that game, White's first appearance of the year as quarterback for the Cowboys.

Hogeboom realizes the pressure will be on him in the crucial contest that the Cowboys must win to have any realistic hopes of making the NFL playoffs.

"This will be same as the rest of the season, as far as the pressure," Hogeboom said. "Every game there is pressure, and I'm not looking at this any differently."

White was surprised Thursday to learn that he wasn't going to start.

"I think our position now is our backs are against the wall and we need to win at all costs. I don't imagine he (Landry) feels that way," White said.

"My injury just may be an excuse. Gary may have played anyway, whether I was injured or not," White added.

"I think I could play. My shoulder is better, certainly not 100 percent, but it's better," White said. "There is pain, but as long as I know I'm not doing any more damage to the shoulder, I can live with the pain."

OIL FIELD QUILT--Cleo Wemken made this quilt from an original design and won a first place ribbon at the Scurry County Fair this year. The quilt is one of several included in a handwork exhibit opening Sunday in the Scurry County Museum. Mrs. Wemken is pictured at the left with Lucille House at the right. The handwork exhibit is on loan from Women & Their Work, Inc. of Austin and remains in place through Dec. 21. (WTWI Photo)

Trevinos among those recognized

AUSTIN (AP) — Antonio and Evangelina Trevino, current owners of the 217-year-old Circle T Ranch near Zapata, were among the 92 families recognized Thursday by the Texas Department of Agriculture's Family Land Heritage Registry.

The registry is for those who have kept their land in continuous agricultural production for 100 years or more.

A total of 1,821 Texas farms and ranches have been recognized since the program began in 1976.

Siege forces dissidents into hiding; fear disappearances

SANTIAGO, Chile (AP) — Chile's abrupt return to a state of siege is driving hundreds of dissidents into hiding and raising fears that the military regime will again resort to what one priest calls the "terrible practices" of the mid-1970s.

Leftist organizers have abandoned their party offices and homes to avoid arrest, according to priests in Santiago's slums, where many of the organizers live, and others are quietly burning literature that might offend the Gen. Augusto Pinochet's government.

University students defied the siege Thursday with two small demonstrations, and 63 of them were briefly detained. There were whispered rumors of a massive protest being planned against Pinochet.

The 90-day state of siege, declared by the president Tuesday to combat growing political unrest and violence, suspended judicial controls on his regime's emergency power to arrest and banish critics.

Thursday he broadened it to prohibit unauthorized gatherings, ban six opposition magazines and eliminate political reporting and commentary by the rest of Chile's news media.

The office of Solidarity, the Roman Catholic Church human rights agency in Santiago, reported at least 32 people have been seized by security agents since Tuesday night, without any word from the government on their whereabouts.

One of them, Renato Mella de Mazza, a young man under treatment for polio, was dragged from his home before dawn Wednesday by gunmen who forced his mother to sign a statement they would not allow her to read, according to her testimony to the rights agency.

By the office's count, 668 prisoners vanished after the 1973 coup toppled President Salvador Allende, an elected Marxist. Church leaders say they are concerned about new disappearances under cover of nightly curfews imposed this week in Chile's five largest cities.

"The disappearances stopped in 1978 at the very time that the first state of siege and curfews were lifted," said Alejandro Gonzalez, director of the Solidarity legal department. "We are afraid this terrible practice will start again."

Even before the latest state of siege, 20 people arrested this year had been held more than a week before police, without admitting their detention, set them free, Gonzalez said.

In two well-publicized cases recently, uniformed police held a 23-year-old leftist 51 days before his beheaded body turned up in a river, and a 50-year-old Christian Democrat activist died of internal bleeding after interrogation by the secret police.

The new decrees against unauthorized gatherings and the media had a stunning effect on this highly literate country, which had begun to air its sharp political divisions just over a year ago under a limited liberalization.

Farmworker leaders preparing for a nationwide meeting this weekend at a Catholic church retreat were told to stay in their fields. Five well-known commentators, who gathered for a popular weekly radio forum, were told it could not be aired but taped it anyway for posterity.

Cautious habits learned during Chile's last siege were quickly remembered. At a defiant news conference by the centrist opposition Democratic Alliance, its six leaders were vague about new demonstrations and looked nervously out the window for signs of the police.

In 1934, the Mutual Broadcasting System began as a cooperative made up of four radio stations: WOR New York; WGN Chicago; WLW Cincinnati, and WXYZ Detroit.

Cotton

NEW YORK (AP) — Cotton futures No. 2 were higher at midday dealings today.

The average price for strict low middling 1 & 1-16-inch spot cotton declined 10 points to 60.72 cents a pound Thursday for the eight markets, according to the New York Cotton Exchange.

Midday prices were unchanged to $1.90 a bale higher the previous close. Dec 66.01, Mar 67.69, May 69.00, Jul 70.19, Oct 69.50, Dec b69.65 and Mar b70.65

Tax rebel is free on $100,000 bond

HOUSTON (AP) — A tax rebel convicted of 120 counts of violating federal tax laws is free on bond of $100,000 until his Dec. 3 sentencing — 10 times the amount originally set in his case.

U.S. District Judge Carl O. Bue raised the bail of David M. Martin on Wednesday, refusing a prosecutor's request to keep him in jail until the sentencing.

Bue also warned Martin not to violate tax laws before he is sentenced.

Martin, of Brazoria, was convicted Oct. 26 of one count of conspiracy, 104 counts of aiding in preparing false tax returns and 15 counts of presenting false refund claims to the government.

Varied agenda faced by board

Continued From Page 1

ty. A full report will be available for anyone interested, he said.

The survey was prompted by State Senator Ray Farabee who wanted to know the feelings of people in this area regarding recent education changes, Reaves said.

Reaves said they received assistance from school personnel in preparing the 20 questions to be asked. All calls were made by WTC student volunteers. No teachers were involved, he said.

The survey is being conducted without spending tax dollars, Reaves explained, adding that he feels it is a "good learning teaching tool."

He went on to say that some 75 hours of telephoning is involved in the survey and that if such a survey were to be commissioned it would cost around $15,000.

Reaves said for the most part people were cooperative in answering questions and he credited recent publicity in the Snyder Daily News regarding the project as a major help in smoothing the way.

During the discussion portion of the meeting, Newbury told trustees that Billy Arpe, building trades instructors hired this semester, is interested in having his students build "permanent" structures. In line with this, the building trades instructor has suggested the construction of additional student apartments on campus.

If the project is okayed by trustees, it would begin this spring and would be targeted for completion by 1986.

In order for the project to work, it has to begin with the spring semester in order to follow class instruction in its proper sequence.

This semester there are eight in the class and three high school students who attend morning classes.

Newbury told trustees that all but three beds have been occupied this semester in the present student housing.

Trustees indicated if there is a need for more student apartments, they might consider the student project.

They indicated there should be a need, however, not just construction as a learning exercise for students.

Newbury said the project would be placed on the agenda for Dec. 10 for their consideration.

The current budget does not include expenditures for the construction of additional student apartments.

Trustees also reviewed budget revenue comparison figures for the 1983-84 school year.

Trustees also approved a proclamation signed by County Judge Preston Wilson and Mayor Rod Waller declaring the week of Nov. 11-17 as Texas Community College Week. Several activities are being planned.

More than 1½ million persons annually enroll for academic and occupational-technical classes in Texas Community Colleges.

During the president's report, Newbury reported that a 40x50 concrete slab had been installed on campus and that basketball goals and a volleyball net would be added for use by students.

He also reported that building trade students would be building a gazebo-style band stand on the courthouse lawn. The WTC Faculty Association and the Scurry County Commissioners have endorsed the project.

He also reported that a new WTC sign has been installed near Cogdell Memorial Hospital. The sign came about due to the combined efforts of the chamber of commerce, Board of County Develpment, and the City of Snyder, Newbury said. Mrs. John Voss donated the space for the sign to be installed.

He also reported that the northeast part of the campus has been bladed and mowed and that more work is expected in the future.

Trustees also accepted several bids.

The low bid accepted for janitorial supplies was submitted by Snyder Janitorial Supplies in the amount of $5,051.

Trustees approved a bid in the amount of $5,475 from Associated Supply Co. of Lubbock for an aerator.

Other bids submitted were Watson Distributing Co., Inc. of Irving, $6,869; and Colonial Motors Co. of Dallas, $5,390.

The next two bids items were approved by a split 4-1 vote with Baze voting no because he said he felt bid specifications were written in such a way as to exclude certain companies. He said he didn't think it was fair to ask companies to submit bids which likely would not be accepted in advance.

Trustees approved, by the split vote, a Triplex riding greens mower in the amount of $9,340 from Colonial Motors Company in Dallas. It was the high bid of two submitted. The other bid was from Goldwaithe of Texas Inc. in Fort Worth in the amount of $8,052.

Trustees also accepted by split vote a turf top dresser from Colonial Motors in Dallas in the amount of $4,800, again the higher of two bids submitted. The other bid was Goldwaithe of Texas in Fort Worth in the amount of $3,150.

Dr. Bob Hargrove, who voted in favor of accepting the higher bids, said "I believe in the people who are taking care of the golf course. If the equipment they are using is getting the job done and they think it is the best--even if it is higher--then I think it is okay."

Baze added that he doesn't object to the products only to sending out for bids which "we know won't be accepted."

Trustees Edwin Parks and Bill Jones also noted they felt they should okay the bid for the equipment which the WTC personnel recommended.

Dr. Hargrove said, "We could re-write the specs and get cheaper bids but we might not get what we want or need to do the job."

Trustees attending the meeting were Baze, Jones, Parks, Hargrove, and R.C. Patton. Absent were trustees Howard Sterling and Bill Wilson Jr.

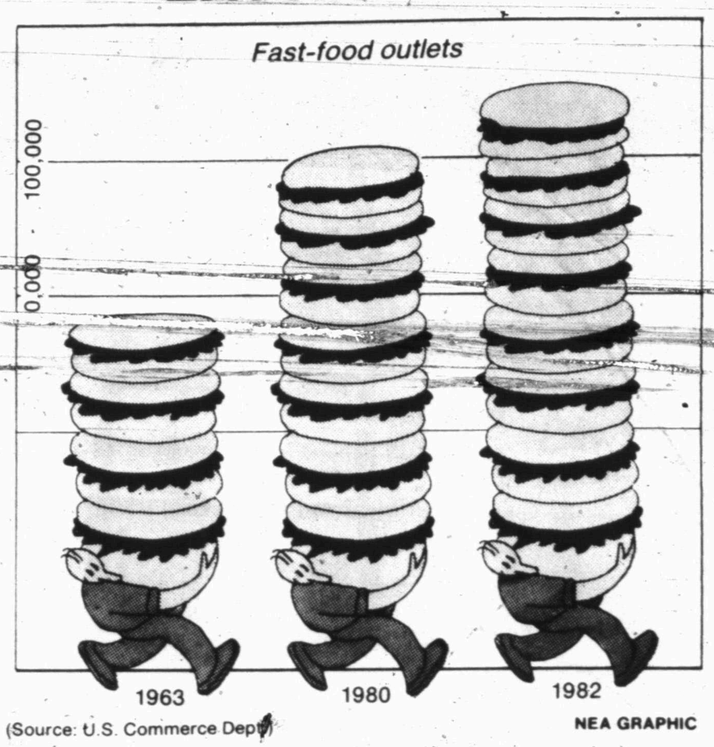

Lewis names 8 ... to committee

AUSTIN (AP) — House Speaker Gib Lewis named an eight-member advisory committee Thursday to work with the House Agriculture Committee in making recommended changes in proposed pesticide regulations.

Lewis said the committee would meet and work with the Department of Agriculture officials Sam Briscoe and Ron White.

Members of the advisory committee are Tommy Fondren, Lorenzo; George Mitchell, Beaumont; Ray Prewett, Mission; Dr. Tony Mollhagen, Harlingen; Perry Adkisson, Bryan-College Station; Rebecca Harrington and Bobby L. Davis, both of Austin, and Lester Cranek, Garwood.

EAT AND RUN

With eating out becoming a great American pastime, fast-food outlets have thrived since the 1960s. Between 1963 and 1982, their number more than tripled — rising from 40,000 to 122,000.

FmHA to offer disaster loans

Continued From Page 1

As a general rule, a farmer must have suffered at least a 30 percent loss of production to be eligible for an FmHA emergency loan, Smith points out. Farmers participating in the PIK or federal crop insurance programs will have to figure in proceeds from those programs in determining their loss.

Applications for loans under this emergency designation will be accepted until June 24, 1985, but farmers should apply as soon as possible. Delays in applying could create backlogs in processing and possibly carry over into the new farming season, Smith said.

FmHA is a credit agency of the U.S. Dept. of Agriculture. It is authorized to pro

years reflect changes which have taken place in the city and also show some things which have changed very little.

"In spite of the congestion, crime and filth in many areas, New York is still the center of commerce, communication and culture and means all things to all people," he observed.

Huckabee operates his own business, Jay Huckabee Co., at 2001 25th St. His hobbies also include painting and he is a member of the Texas Watercolor Society.

His photographs, drawings and a watercolor were used in the Snyder Ranching Heritage Association's historical publication in 1972 and 1973.

Arrests reported

Snyder police logged three misdemeanor arrests.

One man was arrested for soliciting without a city permit while another was jailed for driving while intoxicated and the third person was jailed for public intoxication.

Diabetes group will meet Monday

Dr. Harold Miller will present "Self Monitoring of Blood Glucose and New Methods for Insulin Dependent Diabetics" at the Nov. 12 meeting of the American Diabetes Association. The meeting will be held at 7:30 p.m. in the board room of Cogdell Memorial Hospital.

Building permits down for October

Continued From Page 1

Golden Terrace Village, Snyder's first residential area designed for the elderly.

Preliminary survey work as begun for both and each project is expected to be issued a building permit during November.

Other building permits issued during this past October included two new single-family residential homes and one permit for a new duplex unit here.

These three building permits accounted for $295,000 of the month's total.

New homes were applied for by August Homes for a structure at 4200 Lubbock; and by Two G's, for a structure at 1507 Augusta Drive.

The duplex structure will be built at 2309 and 2311 28th St. with Mildred Carpenter listed as owner and John Bailey as contractor.

The October permit total included also nine applications for mobile home move-ins. These accounted for almost $171,000 of the month's total.

Mobile home permits were issued to Jimmy Jack, 2209 26th St.; Jesse Ornelas, 706 N Ave. T; Sychael Colvin, 701 N Ave. T; Brady Cobb, 2901 Ave. I; Barrie Bowlin, 806 16th St.; Tommy DeLoera, 2200 Ave. L; Billy Newton, 2210 Gilmore; Gerald Latson, 903 27th St.; and Linda Quinney, 2509 28th St.
