Re-Elect Officers

Ex-Students Plan Fall Reunion in '61

The annual Wellington Ex-Students reunion in 1961 will be held in the autumn, and will be tied in with the traditional Wellington-Shamrock football game, President Donald Curry announced following a meeting of directors Monday, Nov. 28.

The ex-students directors approved this change after an agreement was reached between school officials of the two towns to have the game on a Saturday afternoon instead of Friday night. The date will not be set until January, but it is always one of the late games of the season.

In the same meeting, all officers of the association were re-elected, with Curry as president, Mrs. Hubert Bowen (Ineva Cudd) vice president, and Miss Bessie Rainer secretary-treasurer.

Three new directors were elected; three were re-elected and one was named to fill an unexpired term. Chosen for the first time were Mrs. Velman Warrick (Dora Fern Durfey), C. A. Crawford and Horace Small. Re-elected were Mrs. Bowen, Miss Rainer and Lola Lee Longino Roark. Mrs. R. L. Maberry (Louise Cox) was named to replace Patsy Bawcom Dodge, who resigned with one year left on her term.

The top ten in the Lubbock contest will be eligible to participate in the state contest and the winner of that event will compete on a national level at Denver Jan. 23.

Call Brucellosis Control Meeting Here Dec. 12

A brucellosis education meeting will be held for county stock raisers Monday, Dec. 12 when Dr. C. M. Patterson of College Station will be here to explain the formation and operation of a brucellosis control district.

The meeting will be held in the district court room at 7:30 p.m. Dr. Patterson is veterinary from the Texas Agricultural Extension Service.

Bob Lynch, county agent, will be in charge.

Interest in the organization of a brucellosis control area is growing here, the county agent pointed out, and it will become a matter of more importance when proposed organization is completed in Childress county.

Work of the Extension Service is educational, and any steps toward the organization of a control district will be up to the cattle owners themselves, Lynch said.

The county agent outlined briefly what is necessary in organizing a district: Upon petition by 75% of the cattle owners owning at least 51% of the cattle rendered for taxation may petition the Texas Animal Health Commission for designation as a control area.

Upon approval, representatives of the commission come into the county at no cost to the cattle owners and test the herds.

Twenty per cent of all herds in the county are tested and if no reactor is found after 20 per cent of any herd is tested, it is considered free of brucellosis.

All reactors must be sold as part of the control.

In addition to Childress county, now seeking organization, Cottle and King counties are organized and in the process of cleaning out the disease.

"Here is how this affects us," Lynch explained.

"When a county next to you goes into a control area, you cannot ship any female cattle over 6 months of age into that county unless they undergo a 30-day quarantine after arrival. This applies to the man who owns land in the two counties as well as anyone seeking to sell cattle into a control area. This means that

Annual Cantata

Methodist Choir to Give Program Sunday

The chancel choir of First Methodist Church will present its annual cantata Sunday evening, Dec. 11, using the well-loved "Music of Christmas."

The cantata will begin at 7 p.m. and will be preceded by an organ and piano interlude, beginning at 6:30, and presented by Miss Vicki Glenn and Miss Shirley Peters.

"The Music of Christmas is an especially melodious cantata, based on Christmas carols and songs. As you hear the story of Christmas in song, you will go in thought with the wise men on their rhythmically swaying camels and hear the quiet lullaby to the Christ child," Mrs. Jack Davis, cantata director, declared.

There will be a number of special songs, including "The Prophet's Word," a quartet, by Mrs. E. F. Bartlett, Mrs. Robert Lewis, Gene Nelson and R. R. Crawley.

Mrs. Lawrence Warrick and Mrs. Hiram Cudd will sing "I Bring You Good Tidings," and the alto solo, "Little Lord Jesus" will be sung by Mrs. Jack Kopp.

Robert Weir will be presented in a tenor solo, and there will be songs by the girls chorus, men's chorus and women's chorus.

Water Board Sets Election for January 10; Report Due Soon

EX-STUDENT OFFICERS

Officers for the Wellington Ex-Student Association were re-elected in the annual meeting of the directors last week. From left, they are Mrs. Hubert Bowen (Ineva Cudd), vice president; Miss Bessie Rainer, secretary - treasurer; and Donald Curry, president. The three will direct activities of the annual reunion, which next year will be held in late October or early November to include a football game with Shamrock as part of the activities.

Three members of the board of directors of the Collingsworth County Water Control and Improvement District will be voted upon in the regular election set for Tuesday, Jan. 10.

The three are John Coleman, chairman; Temple Slay, who is filling an unexpired term; and Louis Patterson of Dodson.

Five voting boxes were approved in the meeting of the board Monday night, Dec. 5, the board's legal advisor, Paul Spillman, reported.

These will be at Wellington, Dodson, Quail, Dozier and Lutie.

The deadline for candidates to file is 30 days before the election, or Saturday midnight, Dec. 10.

The election takes on added importance in that the men chosen on the board at this time will be confronted immediately with the action that follows receipt of the report on the proposed Salt Fork dam by the Bureau of Reclamation, expected in mid-January. This report is one of the crucial points in efforts to secure the dam on Salt Fork, and what has been for some months a waiting period is expected to end.

In other action on the dam, John Coleman, chairman, has requested the Water Committee of the West Texas Chamber of Commerce to assist the district and the Collingsworth Coanty Chamber of Commerce in securing mapping of additional quadrangles in the water district.

Ten quadrangles have been mapped already by the U.S. Geodetic Survey. Request for the mapping will go first to the State Board of Water Engineers, Austin. Coleman presented his request to Frank Kelley, Colorado City, vice chairman of the WTCC water committee. Coleman is a member of the board of directors of WTCC.

Four of the requested quadrangles (each quadrangle is an

Electrical Wonders

Electrical conveniences that almost all of us use would have seemed inconceivable to our grandfathers. But electric living is still in its infancy.

The chief officer of one of our leading utility companies recently looked into the future. Here are some of the developments he foresees:

Food will be prepared, cooked and served at the direction of an electric computer programmed days ahead of time. An appliance will take food from the freezer to the range, then cook and serve it. A small electric machine will manufacture disposable dishes, thus eliminating the dishwashing chore.

The lght bulb will be a thing of the past. People will use area sources of light where whole walls will glow with electroluminescense.

When dirt collects on a carpet, a closet will open and a vacuum cleaner will emerge. It will automatically do the needed cleaning, then put itself away and close the closet door.

One wall will probably consist of a giant TV screen. Programs will come to you live from every corner of the world, with the signals bounced to your living room by earth-circling satellites.

There'll be no fussing with heating and cooling systems. Once the control is set, your house will be kept in perfect comfort, automatically, the year round.

Driveways and paths around the house will be heated too, and the snow will become a curiosity.

Fantastic? Yes — but these are only a few of the wonders that will become commonplace in the era of electric living that lies ahead.

—The Obebolt (Iowa) Chronicle

CROSSROADS REPORT

Dear Editor:

I see where next-President Kennedy reports that his man Johnson brought down a deer the other day with a shot in the heart at 600 yards.

My short-range neighbor says he has hunted some in his time, but never hit anything at such a distance except a ranch house which he thought was a deer sending up smoke signals.

Says he expects Mr. Johnson's one-third mile shot was sort of a miracle, and if he was Mr. Kennedy he'd be a little nervous about having an understudy who was that lucky.

I see where the Santa Claus season is now upon us and we have ample opportunity to buy items for giving purposes.

My anti-Santy neighbor says he is tired of this old gentleman going around every year, agitating families to want stuff and then pulling out to leave fathers holding the bag.

Says Old Santa is just about as bad as the government, on account of he got his big reputation for generosity by using other people's money.

I see where Germany and other countries wet-nursed by Uncle Sam while they were getting back on their feet after the war are not rushing to return the favor now that he is financially embarrassed.

Some say this proves these foreigners are a bunch of ungrateful bums, but my compact brain neighbor says you can't reasonably blame them for being smarter than we are.

Says, anyhow, in trying to help these people we have wasted a heap of money if they haven't learned from our costly demonstration that even good-intentioned fools and their money are rapidly separated.

I see where the great Get-Out-the-Vote Campaign was a howling success, and numerous people are still howling.

My habitual voter neighbor says he reads where one precinct with 22 voters polled 80-odd votes, which is very good, considering that some people have scruples against voting more than twice in the same election.

Says he notes that some of the vote-wranglers worked very hard for good government, ringing every door bell, getting votes in from every street, alley and cemetery in their precincts.

I see where it says in the papers that cannibalism is coming back in style in the Congo.

But my practical neighbor is not much shocked, as he figures that our American highway habits waste even more people, and we get funeral expenses to boot.

Says if that old Congolese custom is revived, maybe we can save some African aid money and let these people solve their own problems, by just sending them a good recipe for Communist burgers.

I see where the President's Commission on National Goals says lots of newspapers are inadequate in their coverage of significant public affairs.

But my world-hep neighbor says he guesses he is lucky to live in the territory of newspapers which are mighty careful to report all of the really important information.

Says his favorite paper keeps him up-to-the-minute on all vital matters, such as the gold market, Liz's new hairdo, and Prince Jack's feeding formula.

Boys Win Consolation

Gruver Sportsmanship Trophy to Eaglettes

Samnorwood Eaglettes won the sportsmanship trophy of the Gruver tournament, and that team and the Eagles placed three players on the all-tournament team.

In play, the Eaglettes placed third and the Eagles won the consolation bracket, Coach Don Ward reported.

The Samnorwood teams met the two Gruver teams in the first game, with the boys losing 60 to 49 and the girls winning 32 to 27.

Randall Murry of Norwood and John Sturman of Gruver tied for high point spot with 18 each.

Barbara Stembridge was high scorer in the girls game with 15 points and Jane Gammill was high for Gruver with 13. Norwood led 10 to 3 at the end of the first quarter; 19 to 6 at the half, and 28 to 18 at the third period.

In the second go-round, the Eagles, playing in the consolation bracket, defeated Hartley 58 to 55 in one of the thriller games of the tournament. Norwood led 15 to 13 at the end of the first quarter, but trailed 32 to 29 at halftime. The score was tied 43-all at the third quarter. Then, with only two minutes and 55 seconds left in the game, the Eagles came from behind 45 to 53 to win. Joel Lowry and Randall Murry scored 15 points between them in the last quarter, and for the game, Lowry had 26 points and Murry 23. Jerry Cansler was high for Hartley with 19.

In the consolation finals with Morse, Murry scored 25 points and Lowry 20 to give Samnorwood a 70 to 51 victory.

Tom Womble was high for Morse with 18 points.

The Eaglettes lost their second bracket game to Hedley in the last second, 54 to 52—the heart-breaker for the Norwood girls.

They had led 11 to 10 at the first quarter, 28 to 24 at half, and 38 to 36 at the third quarter. Hedley jumped ahead however and led 2 points, 52 to 50, with five seconds to go. Darlene Rainey then hit the basket and tied the game, but with time running out, Tabytha Sanders hit a long jump shot for Hedley, and while it was in the air, the final buzzer sounded. Under the rules, the score counted.

Susan Cox of Hedley was high scorer with 27 points and Sanders had 21. Darlene Rainey scored 20 for Norwood and Barbara Stembridge 19.

Playing for third place, the girls easily defeated Stratford 49 to 36, a game more lopsided than the score indicated. Norwood led 13 to 9 at the quarter and 29 to 15 at the half. Coach Don Ward then began substituting freely and at third quarter time the score was 47 to 28. Stembridge was high for the game with 25 points; Mary Reesing of Stratford had 19 and Carlene Myers of Norwood 15.

Mrs. H. A. Phillips Dies Nov. 28 in Dallas

Mrs. H. A. Phillips, who lived in Wellington for a number of years during the 1920's and 1930's, died Monday, Nov. 28 in Dallas, where she had made her home with a daughter and son-in-law, Dr. and Mrs. George L. Porter, for two and a half years.

Mrs. Phillips came here with her family from Amarillo, when he was named manager of Baker-Hanna Dry Goods Company. Their children, Harris, Virginia and Florence were reared here.

Funeral services were conducted at First Baptist Church in Boyd Tuesday at 2 p.m. by the Rev. E. J. Ashley, pastor, the Rev. John J. Swartz, of Boyd, and Dr. R. E. Bell of Decatur. Burial was in Boyd cemetery by Christian Funeral Home of Decatur.

Mrs. Phillips was the former Sarah Elizabeth Green, daughter of a pioneer Colorado county couple, Professor and Mrs. Harris T. Green. Her father was a teacher in Baylor University when it was located at Independence. She was born at Weimer Dec. 2, 1884 and grew up there. After attending Sam Houston State College she taught several years in Weimer and Whorton public schools, and was married to Mr. Phillips in November 1907.

They lived at Crockett until 1915, when they returned to Weimer, and in 1921 moved to Amarillo. Upon leaving here, Mr. Phillips was in business in Quanah, and after his retirement in 1947, the couple moved to Boyd. He died in December 1953, and Mrs. Phillips continued to make her home there until her health failed.

She was a member of the Baptist church and active in the Boyd Chapter of the Eastern Star.

Surviving are her three children: Harris Allison Phillips and Mrs. Porter of Dallas; and Mrs. Artis Zorns of Boyd. Other survivors are two brothers and three sisters: Dr. Harris T. Green of Beaumont; Dr. James Green of Harlingen; Mrs. Claude Harris of Houston, who is her twin sister; Mrs. Wilbur Seydler and Mrs. George Freeland of Tyler.

There are five grandchildren.

Visiting here over the week end in the home of Mr. and Mrs. T. H. Rainer and Miss Bessie Rainer were Mr. and Mrs. Dan Massey and Patty of Hugoton, Kan. Mrs. Massey is their daughter and sister. They also visited in the home of two other sisters, Mr. and Mrs. Cliff Campbell and Mr. and Mrs. Dick Richards. Also visiting in the Rainer home Saturday was an aunt and uncle of Massey's, Mr. and Mrs. Steward of Altus.

Visiting in the home of Mr. and Mrs. Ted Wheeler recently were their daughter and family, Mr. and Mrs. Lacy R. Borger, Carolyn, Mike and Jeanese of Amarillo; also their sons, Eddie, who is attending West Texas State College and Danny of Lubbock Christian College.

Troop 31 to Sandspur Lake

Boy Scout troop No. 31, sponsored by the American Legion Post 249 of Wellington, went on a camping trip which lasted from Saturday morning, Dec. 3 until Sunday evening at Sandspur Lake near McLean. Making the trip were Joe Rury, Jim Rudy, Bobby Holtzclaw, Jimmy Hodge, Bill Spillman, Chester McLain, Skippy Duncan, John James, Phillip Hughey, Jimmy Black, Tommy Franklin, Sammy Hollingsworth, Gary Judd, Jackie Needham and Kenneth McClendon.

This was the first camping for some of the younger boys and the trip was spent fishing and working on camping and cooking and scoutcraft. It is the aim of this troop to have at least one camping trip each month for the remainder of the scouting year.

Glen McLain, scoutmaster, accompanied the boys on the trip, with his younger son, Ted McLain.

Kenneth Hodge, Troy Marsh and Paul Spillman assisted with the camp.

In Oklahoma City to attend the Basketball Thanksgiving Day Tournament and Homecoming at Oklahoma Christian College were Eddie, Danny and Buford Wheeler. Eddie is a former student of the college, attending school there two years, and Danny is a member of the Lubbock Christian College basketball team, the Pioneers, playing in the Thanksgiving Tournament.

GOD'S WORD

BIBLE QUESTION:

Does Adam's sin separate us from God at birth?

BIBLE ANSWER:

"But your iniquities have separated between you and your God." (Isa. 59:2.)

We do not answer for the iniquity of our fathers or their fathers. We are responsible for our own lives. As a consequence for sin, since Adam all suffer physical death. But this has nothing to do with spiritual death. We die spiritually when we separate ourselves from God by our own iniquities.

City Classroom Teachers Hear Tulia Women

Each stressed that anything that improves teaching conditions and a teacher's situation benefits the children as well and makes the teacher a better teacher.

During the business session, C. A. Crawford, president, appointed two committees, one to head a curriculum study in the local system, and the other to determine the possibility of inaugurating a program of workshops and in-service training for teachers who have already met all state requirements.

Junior Hospital Auxiliary Gives Opportunity for Girls to Serve

A group of approximatelv 30 high school girls are devoting regular periods each week to service to hospital patients. They are members of the recently reorganized St. Joseph's Junior Hospital Auxiliary.

In the organization meeting, Lynda Orr was elected president. Serving with her are Celia Anderson, vice president; Frances Hill, secretary-treasurer; and Carolyn Duvall, reporter-historian.

A work schedule has been set up and each member spends time at the hospital. Sister Mary Rupert, hospital administrator, has praised the work of the girls to Mrs. L. C. Hill, president of the St. Joseph's Hospital Auxiliary, sponsoring organization.

The girls do non-nursing and non-technical duties, such as serving supper trays, typing, telephone answering, and working in central supply at such things as folding gauze.

The junior auxiliary is open to any girl of high school age in the county. Dues are $1.00 per year.

Much Irrigation Water Wasted on Sloping Land

"We are wasting our valuable irrigation water by applying the water to land with a 1% to 3% slope," James Valliant, water engineer at Halfway, said today.

Valliant is completing the first of several years' testing at the High Plains Research Foundation to determine the value of water applied to grain sorghum on a level bench and on sloping land.

Three plots of the same area were planted in grain sorghum —one on a bench and the other two directly down the slope, varying from 1% to 3%.

The level bench received 16.9 inches of irrigation water per acre with no run-off. The grain sorghum yield was 5,800 pounds per acre.

One of the sloping areas received the same 16.9 inches of water but 2.5 inches per acre or 15% of the applied water was lost in run-off. The yield on this plot was 3,900 pounds per acre.

The second area on the slope was irrigated both pre-plant and during the growing season so that the soil contained adequate moisture at all times, This irrigation procedure required 24.5 inches of water per acre, with 5.9 inches lost by run-off. Grain sorghum on this area was 3,700 pounds per acre.

The loss in water run-off and top soil erosion alone would be enough to justify benching, Valliant said. However, the additional profits from the 2,000 pounds per acre increase on the bench yield makes benching even more profitable.

Weeds were controlled and the borders on the benches maintained with a custom-made bordering machine and by use of a propane burner.

Concerning the number of clergymen in the United States, reports showed the following: 230 religious bodies reported 243,203 ministers with pastorates, and a total of 373,589 ordained persons.

Falls a Major Hazard to Many Texans

Statistics indicate that this year we can expect approximately 560 Texans to die from injuries sustained in falls. In 1959 there were 595 such deaths—down from 627 in 1958.

There is no guarantee that the downward trend will continue.

The sad fact is that these are not injuries to workmen on telephone poles or oil derricks. Except for a few they are mostly same-level falls occurring to older citizens.

Final tabulations are not available for 1959, but in 1958 a majority total of 420 accidental deaths from falls involved persons between the ages of 70 and 94.

This same pattern evolves year after year. Most deaths occurring among the rest of the age span are also the result of home accidents from falls.

Older people are naturally more prone to falls because of varying degrees of infirmity accompanying the aging process.

However, many home falls are preventable, provided a sound plan of battle is followed to combat this number one home-accident killer.

For instance: In stairwells and hallways adequate light must be provided night and day to avoid tripping or missing a step. A lamp or flashlight should be handy by the bedside. Another safety factor is to have hand rails even for a one or tow step stairway.

Carelessness with electric cords make ideal trippers for old people and high-heeled ladies. Make sure no cords are exposed in walking areas.

Many a throw rug has thrown someone for a permanent loss. They should be tacked down or have non-slip pads underneath to prevent this all-too-common accident.

Spilled liquids need to be wiped up immediately. There is nothing slicker than a kitchen floor with bacon grease spilled on it.

Many accidents occur in the bathtub or shower. A rubber mat and grab bar for the bathtub or shower makes good sense. Put a grab bar by the toilet also. A practical Christmas present for grandparents would be the installation of such bars in their home.

From South Africa

Wellington Rotarieklub Sends Its Greetings

Greetings from the Rotary Club of Wellington, South Africa, to the club in Wellington, Texas, were read at the regular luncheon meeting Tuesday, Dec. 6, by President Jack Sanford.

The letter, which came unexpectedly, was from Dr. G. R. Pienaar, international contacts chairman of the club.

"As the latest recruit to the family of nine Wellington clubs around the world, it is our pleasure and privilege to introduce ourselves.

"The Wellington, S.A. club consists of 20 active members, and we have been in existence only six months. We are in Rotary District 235, covering the south of South Africa.

"We assemble for lunch each Friday, and it is our intention to toast the other eight Wellington Rotary Clubs at our lunch meeting preceding Christmas. With our thoughts, our best wishes for a prosperous and fruitful new year and blessings at yuletide will go out to you."

The club letterhead carries the name both in English and Afrikaner, spoken by the descendents of Dutch settlers in South Africa. This reads: Die Rotarierklub, van Wellington.

Program speaker at the meeting was Eldon Holley, manager of the Lone Star Gas Company, who discussed business classifications.

Safety Council Sets "Safety Sunday" Dec. 11

The Wellington Safety Council, headed by Henry Sullivan, has endorsed Governor Price Daniel's designation of Sunday, Dec. 11 as "Safety Sunday" in Texas, to mark the opening of the Christmas-New Year Holiday traffic safety campaign.

In a special proclamation the governor urged each citizen to "join in this united religious campaign to awaken the conscience of every driver to the understanding that negligence at the wheel is a transgression of God's own command "thou shalt not kill."

The governor added: "I respectfully encourage the pastor of every church in Texas to remind each member of his personal and moral responsibility to drive carefully and obey the traffic laws as a means of protecting the sanctity of human life in our state."

The governor said the official traffic safety campaign in which participation has been assured from many statewide organizations of all kinds, will last throughout December, although special emphasis will again be focused on the holiday period itself. These exact dates will be announced by the Texas Department of Public Safety when its statistical service issues the official prediction on the number of traffic fatalities expected during the long Christmas-New Year holiday period.

Four Gins Report Fires

Four county gins had minor fires recently, three of them to bur piles.

The Wellington fire department answered a call to the Wellington Gin Sunday evening, Dec. 4, when minor fires had started in two trailers loaded with cotton. There was little damage, and the blazes were believed to have caught from the nearby bur burner, Johnny Cagle said.

The bur pile at Tindall Gin No. 1 in Wellington was reported on fire at 7 a.m. Tuesday, Dec. 6, and this also was believed caught from the bur burner. Firemen had to make a return trip at 9 a.m.

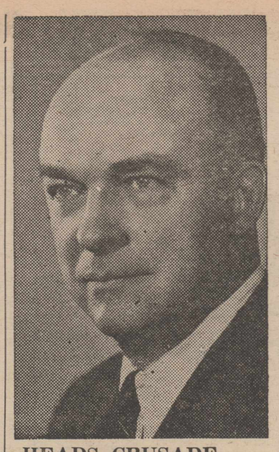

A spontaneous type fire started in the stands of the Dodson Farmers Co-op Gin recently but it was blown outside the building by the fans immediately. It did, however, set the bur pile on fire and that was lost. There was no damage to the inside of the gin, Fred Powers said.

Sunday night at 9:30 firemen were called to put out a fire in the front seat of a car parked at the Ritz Theatre. Cagle said there was little damage. The owner did not appear during the fire and his name was not learned.

One other fire was put out, and this was a minor blaze in the wash room of Smith Rest Home, Cagle said

NEWS LETTER from Congressman WALTER ROGERS

White House Conference on Aging

A much heralded and long expected event will occur here in Washington on Jan. 9, when the White House Conference on Aging convenes in Constitution Hall. With its announced theme of "Aging With a Future," the Conference will culminate many months of hard work and research accomplished by dedicated persons all over the United States.

Since the authorization for the Conference by Congress in 1958, much fruitful work has been done by communities, counties and by all of the States and Territories. Each of these States and Territories has conducted their own Conference on aging and named some 2,800 delegates to the January White House Conference. These delegates have made reports and recommendations which will form the basis of the studies undertaken at this Conference.

The inception of the White House Conference on Aging envisioned that it would provide a focal point for bringing together the problems, recommendations and resolves of an informed citizenry representing the grass roots all over the country.

At the Governors' Conference on Aging in September, our own State of Texas made some 60 recommendations and named delegates to the White House Conference.

While it is to be hoped that the White House Conference will permit an exchange of ideas and of the aforementioned problems, recommendations and resolves, it should not be expected that it will, in any manner, culminate in a solution of them.

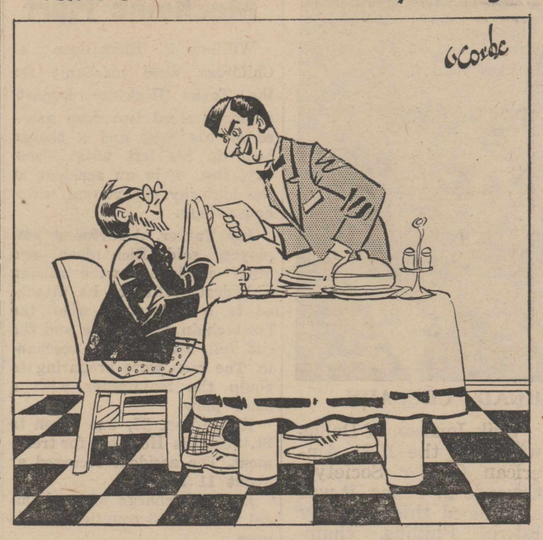

In my opinion, these problems, like many others, should be approached at a local level with a solution arrived there if possible. Whatever the outcome of this Conference, one prime fact will be apparent—that our population lives longer than it once did. This is a pleasant truth, but has unquestionably altered our American society and must be dealt with intelligently. In 1900 there were only 3 million Americans over the age of 65. Today there are 16 million, and in 1970 there will be an estimated 20 million.

In Texas, there are an estimated 700,000 people 65 years of age or older, and it is expected this will increase to 1,200,000 by 1975. At the turn of the century, some 4% of the United States population had reached the age of 65, compared with 9% today. With our expanding population and our continuing advances in the field of medicine, these figures will undoubtedly increase.

These facts are inescapable, as is our obligation as individuals to recognize them and to continue our age-old practice of making the Golden Years of our senior citizens useful and happy ones.

It was pointed out by the keynoter at the Texas Conference in September that "we don't have a problem with the aged. Some of the aged have problems."

'NO HANDS' FLIGHT—Two new supersonic F-105 Air Force jets, above, are shown as they flew from Florida to California under robot control. The 1,400-mile-an-hour fighter bombers flew each of the two 1,600-mile legs in 3½ hours, their pilots handling the controls only during take-off and landings. The nuclear bomb-carrying F-105s have been described as "a reusable guided missile" capable of striking a target anywhere in the world in a matter of hours.

Avoid "Slip-ups" on Slippery Winter Roads

Seven rules were outlined today for avoiding "slip-ups" on slippery roads of early winter by J. O. Musick, general manager of the Texas Traffic Safety Association.

Based on National Safety Council research by a committee of authorities, the rules are:

1. Learn to adjust your speed to varying road, weather and traffic conditions.

2. Get the "feel" of the road by trying your brakes or gently pressing your accelerator while driving slowly and away from traffic on snowy or icy days and rainy days.

3. Follow other vehicles at a safe distance. You may find it hard to explain why you couldn't stop when the driver ahead did.

4. Pump your brakes rapidly to maintain best steering control when braking on ice or slippery snow. This gives short intervals of maximum braking separated by short intervals of effective steering while front wheels are rolling.

5. Signal your intention to turn or stop well in advance, as a means of alerting the driver behind you regarding your plans to turn or come to a halt.

6. Keep your windshield and windows clear. You must see danger in time to avoid it. Be sure your windshield wiper arms and blades are in good condition and have recommended arm pressure to sweep rain, snow and sleet off instead of sliding over it.

7. Have good tires and always carry a pair of reinforced tire chains for severe conditions. Tests show that chains cut stopping distances in half and give four to seven times more "go" traction often needed on snow or ice.

"Driving is a convenience that helps us conduct our business and enjoy life more completely," Musick declared. "Between now and March some severe weather conditions will cover our streets and highways. By following these fundamental rules we can overcome these hazards that face us each winter."

Christmas Will Be in Hong Kong

Wellington Girl Writes of A Teachers Life in Japan

Christmas in Hong Kong, following Thanksgiving in Tokyo, is the plan of Miss Rita Lowrie, who teaches in an armed services school in Japan. The daughter of Mrs. Z. T. Lowrie, she began her work there in September, making the trip by air.

In letters to Miss Bonnie Willis, Miss Lowrie has told something of her work and busy life in Japan. Here are excerpts:

"Here I am in Japan and it all seems like a wonderful dream. I have had many interesting experiences and school is very interesting. I'll just give you the high high points.

"We landed in Hawaii and Wake coming over. Landed at Tachikawa and went into Tokyo for four days. Was in Tokyo during Typhoon Bess. We saw the Imperial Hotel and Diet building.

"I am on the southern island of Kyushu at Itazuke Air Base, which is near the town of Fukuoka. Mountains surround us and the countryside is beautiful. The rainy season is on at the present. (My first purchase was an umbrella.)

"People on the base are very nice to teachers. One squadron rolled out the real red carpet for us, which I understand is an honor with the military.

"My classroom has children from different countries and races, mainly American children, with negroes, Japanese, white and one from Hawaii. All the children have traveled and are very interesting. I'm teaching third grade.

"My contact with the Japanese has been very pleasing. They are mannerly and willing to help you. I am trying to take Japanese conversation and flower arrangement. Both are very interesting.

"Teachers live in the BOQ and eat at the officers club. The teachers are from different states and extremely interesting. Many of them have taught in other overseas schools.

"We had a holiday Nov. 11 which made for a long week end. We went to Sasebo, which is on the seaboard. I have been there once before but went again as it was so beautiful and enjoyable.

"The day of presidential election returns I took my radio to school. We listened to the reports. You have never seen such interested children. We learned a lot of history that day.

"I am so thrilled about my next trip. Friday we leave for the Far East Education meeting in Tokyo. We will be through on Wednesday before Thanksgiving and have four days in Tokyo on our own.

"I am saving my pennies for a trip to Hong Kong at Christmas time.

"Every time you walk out the door you see and learn something new. You live in a happy rushed manner all the time."

Miss Lowrie is a graduate of Wellington high school and West Texas State College, and she taught in Carlsbad, N.M., and Amarillo before going to Japan.

Norwood Girl No. 1 on CJC Dean's Roll

Margaret Oldham, a graduate of Samnorwood high school and valedictorian of her class has ranked number one scholastically at Clarendon Junior College with a straight A average in all her subjects for the first nine weeks of the current school year.

Running close in the top ranking students of the college is another Samnorwood girl, Alice Johnson, who has maintained an A-minus average for the first nine weeks and ranks number six scholastically in the entire student body.

Both of these girls are in their second year of attendance at CJC; however, because of illness, Margaret had to skip the second semester of last school year.

Dean Oliver Abel reports that Margaret and Alice do not rank high only in their scholastic attainment but also in their loyalty and service to their class, their college, their student body, and honor for Samnorwood school by their high standing at the college.

Deck's DIDACTICS

—By Deskins Wells

Now that our gold reserves have dwindled and the dollar has been weakened this nation is awakening to the fact our generosity has not yielded the expected results. We are having to go to our allies to ask them for a little help and find them inclined to do some hard bargaining. Some thoughtful people who do not consider themselves experts on monetary matters but who do know human nature fairly well have been saying this is exactly what would happen ever since 1945 when the U.S. started pouring out peace time aid by the billions.

Our tax dollars helped establish the modern industries in Europe and Asia that are now competing with U.S. business. Now Germany and Japan are rich and Britain, Italy and France are prosperous and their supplies of gold and dollar credits are tremendous and their currencies are sounder than the dollar. It is high time this country start insisting that these and other nations start carrying their share of the financial load in the fight against Communism.

Better remember to pay your poll tax this year. No sooner will the holidays be over than the people of Texas will be engaged in another hectic campaign to elect a U.S. senator. If we follow precedent the man we elect next year will keep his seat for the next 20 to 30 years. It is a far more important election than one for governor. We generally turn our governors out to graze after two terms.

If you paid your ad valorem taxes in October the odds are 2 to 1 that you did not pay your poll tax, because it is not on the tax rolls as was the case in former years. Rather than making it a New Year's Resolution, make it a pre-Christmas act.

The price of hogs has been very good this fall, but that does not mean you need to jump into the hog raising business unless you intend to stay with it. The men who make money out of hogs, that is besides the packers, truckers, etc. are those who keep on raising hogs year after year, such as Ben Farmer and Bert Weaver. When the price goes down they simply reduce the amount and improve the quality of their breeding stock, waiting for the rise that is sure to come.

Farm magazines report that grain sorghum plus supplements can compete successfully with corn. L. A. Gilmore says that Fred Bourland says that a grower can use grain sorghum plus supplements and produce pork cheaper than by feeding grain and letting them run on alfalfa. It used to be necessary to have alfalfa or some other green pasture as well as your own maize for a local producer to compete with the corn-hog farmer of the mid-west.

Dick Richards says he has seen a lot of football games in his time; but that he has never seen anything like the thriller between the Baltimore Colts and the Detroit Lions last Sunday. The game went like this: the two teams used up over 59 minutes in a fairly orthodox game to give the Lions a 13 to 9 lead. With 25 seconds left Unitas whipped a 34 yard pass to a closely-guarded Lennie Moore who made an unbelievable catch to put the Colts ahead 15 to 13. With 10 seconds left on the clock the Lions got the kick-off and the teams took ten minutes out for a free for all fist fight. With both of the veteran Lion quarterbacks knocked out of the game. rookie Morrell threw a pass to Jim Gibbons to make the score 20 to 15. It was two touchdowns and a rousing fist fight all delivered in 25 seconds by the clock.

It looks like the Wellington area is going to sport a number of basketball teams again this year.

Leave Store Lights On

Officers Urge Added Caution During the Holiday Season

As the holiday season approaches, Wellington Police Chief Troy Marsh has offered suggestions to help local business men and residents protect themselves against the possibility of burglary or theft of belongings from their cars or homes.

Again, Marsh is requesting that a light be left on in all business houses from now until the first of the year. "The more light you can leave on, the better," he commented. A light should be left on in a location so that as much of the interior can be seen as possible by night officers on duty.

To the public in general, Chief Marsh gave these suggestions:

Remove keys from car when leaving it unattended.

Lock car if there are valuables left in it.

Do not leave packages and purses in cars unattended.

Advise guests to remove luggage and clothing from car.

When taking trips, do not leave clothing hanging in car.

Do not leave purses and packages unattended in a store while shopping.

Lock house while away. An unlocked home with presents visible from the street is an invitation to a thief.

Report to the county sheriff's office or the police department any cases of attempted theft or abnormal behavior.

Report all persons in your neighborhood who appear to be "misfits."

Report all persons who seek locations or directions and do not appear to be sincere.

Report any instances of phone calls when the calling party hangs up when you answer. They may be calling to see if anyone is at home.

Should you receive a phone call requiring you to leave your home and you are not certain of the caller, hang up and call the person back for verification.

Report any and all lost, misplaced or stolen articles to the sheriff's office or the police department.

Brucellosis

cattle growers are penalized in their trading operations regarding breeding cattle.

"It sometimes means that if you are the only county around not having brucellosis control, you will become a dumping ground for diseased, even though under the law infected females are supposed to be sold only as slaughter cattle.

"It is imperative that every cattle owner be at the meeting, for if control goes into effect, every herd will be checked. This applies whether you own one family milk cow or several hundred head of cattle."
