THREE DIE AS FIRE WRECKS HOTEL

OVER SCORE OF OTHER GUESTS MISSING BUT CHECK OF RUINS FAILS TO REVEAL ANY BODIES

(By The Associated Press) SHELBY, N. C., Feb. 23.—Three persons were killed, three injured and damage estimated at \$400,000 was done by fire that destroyed the Central hotel today. The fire, which was discovered about 5:30 o'clock this morning, was extinguished at noon and a search of the ruins for additional dead completed. No bodies were found in the debris, fire department officials said, although a score or more of the 65 guests in the hotel last night had not been found. The known dead are: J. R. Henderson and H. H. Armichael, of Charlotte, N. C., and Henry Kerr, 55-year old clerk who died from burns received while awakening guests.

LATE BULLETINS

(By Associated Press)

Lindy Forced Down

DETROIT, Feb. 23.—Colonel Charles A. Lindbergh and Major Thomas G. Lanphier, flying single seats, pursued planes from Selfridge field to the Ford airport, 35 miles away, were forced down today by a heavy fog at Southfield, Mich. ten miles from the airport. Neither plane was damaged. The other three planes, carrying four St. Louis business men, who accompanied Lindbergh here, landed safely at the airport.

Storm Warning

NEW ORLEANS, Feb. 23.—The weather bureau here today issued the following storm warning: Advisory hoist northwest storm warnings ordered eight forty five a. m. Texas coast Port Arthur to Matagorda, and small craft west of Matagorda to Brownsville, increasing northerly winds today continuing strong on East Texas coast tonight.

Libel Law Ruling

AUSTIN, Feb. 23.—Though the state libel law allows fair and reasonable criticism of public officials, the ruling which protects a private individual from false statements of facts also applies to an officer, the third court of civil appeals held Thursday. Reversing a suit technically won by C. H. Jenkins, former state representative from Brown county, against Holman Taylor, as secretary of the state medical association, the opinion ruled that trial court's charge to the jury instructed it to find damages for Jenkins only if it believed he was injured as an attorney.

Trial Of Helms

EASTLAND, Feb. 23.—Because of inadequate heat, the trial of Henry Helms, charged with robbery by firearms of the First National bank of Cisco, today was transferred from the auditorium of the city hall to a smaller room in the same building. Testimony was begun late yesterday after the twelfth juror was selected. Alex Spear, cashier of the Cisco bank, pointed out Helms from the witness stand and identified him as one of the four men who on December 23 entered the bank and robbed it of \$12,200 in cash and more than \$100,000 in non-negotiable paper.

Accused Robber Is Given Bond Today

OKLAHOMA CITY, Feb. 23.—The Oklahoma criminal court of appeals today ordered the release on bond of Vernon Liddell, held in the Love county jail on murder and robbery charges growing out of the looting of the Love County National bank at Marietta in January, in which Sheriff Sam C. Long was fatally wounded. Bond on the murder charge was set at \$20,000 and on the robbery charge, \$10,000. A Marietta justice of the peace denied bond to Liddell and he brought a habeas corpus application to the appellate court.

Sweeping Cleanup Of Case Planned

WASHINGTON, Feb. 23.—A sweeping clean-up of all persons involved in the Burns-Fall contempt case, for which Harry F. Sinclair and his associates were convicted, was decided upon today by District Attorney Gordon who said he would ask attachments for Edward J. Kidwell, jr., alleged talkative juror and every detective that took part in shadowing the Falls-Sinclair oil jury.

Thornton To Renew Fight Against Fire

AMARILLO, Feb. 23.—Tex Thornton, oil and gas well fire fighter, left here early today for Corpus Christi to renew his battle against a fire in Rachel No. 7 at White Point. Thornton extinguished a fire at the same well about two weeks ago, but late yesterday he received word that it was blazing again.

Midland Man Given 15 Years In Murder

MIDLAND, Feb. 23.—H. W. Haynie today was found guilty and sentenced to 15 years in the penitentiary for the slaying of John Lane in a Stanton cafe on March 28, 1926. The jury deliberated 19 hours.

NEW ORLEANS, Feb. 23.—Use of search warrants to raid private residences was denied prohibition agents in a written decision handed down by federal District Judge Louis H. Burns here today.

MYSTERY MAN ADMITS SLAYING

WOMAN SMOKER IS BARRED FROM AUDITORIUM USE

(By The Associated Press) DALLAS, Feb. 23.—Agnes Maude Royden English, clergywoman and welfare worker, and youngest daughter of Sir Thomas Royden, will not be allowed to speak in the Southern Methodist University auditorium here because she smokes in private, Elmer Scott, director of the civic federation, said today. Her lecture, instead, will be delivered at the fair park auditorium. "Although she is one of the world's most renowned religious workers, and a former assistant preacher at the city temple, London, Dr. Charles C. Seelman, president of Southern Methodist University, thinks it best to bar from the auditorium any woman who smokes," Scott said. Dr. Seelman neither admitted nor denied this statement.

UNSIGNED NOTE TELLS DETAILS OF CRUEL ACT

(By The Associated Press) BERNARDSVILLE, N. J., Feb. 23.—An anonymous letter containing \$2,000 in bonds and \$500 in cash, today disrupted the theory of police that robbery was the sole motive of the killer who burned Miss Margaret Brown, New York governess to death by the roadside near here on Monday night. Miss Brown is believed to have had about \$9,000 in bonds and cash with her when she left her employer's home Monday. "I am writing you this letter and sending you these bonds of Miss Brown knowing you will take care of them before anyone else gets them. I am very remorseful. I had been drinking."

DRIVES INTO SEA

FRANK LOCKHART (Story Below)

LOCKHART HAS CLOSE CALL IN PLUNGE IN SEA

(By Associated Press) DANTONIA BEACH, Fla., Feb. 23.—Because he let his standards of sportsmanship outweigh his better judgment, Frank Lockhart, youthful racing driver, must temporarily dispel his dream of driving a powerful automobile at a greater speed than has ever been attained. His tiny Stutz Blackhawk special was smashed beyond hope of immediate repair when it capsized from the beach into the ocean here yesterday afternoon at the turn of 225 miles per hour, and Lockhart is recovering from severe shock and minor injuries at a hospital. "I drove through Bernardsville where I threw the rest of the stuff in the river as this was all the money she had and I drove around and slept in the car the rest of the night."

CHICAGO COPS GUARD HOMES IN BOMB WAVE

(By The Associated Press) CHICAGO, Feb. 23.—Homes of 14 prominent Chicagoans including those of mayor, police chief, comptroller, city collector and some city judges—all more or less closely aligned with the administration—were under guard today as fear of the bomb wave spread. Guards were placed last night about the residences of Superior Judge Emmanuel Eller and his father, Morris Eller, city collector. The Morris Eller-home was boomed September 2, 1926. The police on guard duty have been told to bring in no prisoners. They are to shoot to kill if bombers appear. In a few instances the police protection has taken the form of patrolling detective squads which drove past the houses under guard. Guards were placed last night about the residences of Mayor Thompson, Police Chief Hughes, State Attorney Crowe and Judge Eller, officers stand on duty constantly.

CLARK RECOVERY DOUBTED DUE TO INTERNAL HURTS

The condition of Ad Clark, local cotton man, who was injured when his car plunged down a 60-foot embankment yesterday several miles east of Crosbyton, was still considered very serious at noon today, according to attending physicians in the Lubbock sanitarium, although he was conscious this morning. He gradually regained consciousness during last night, they said. His injuries consist of a serious head blow and complicated internal injuries. He had several internal blood hemorrhages during the morning, the attendants reported. Because of these his recovery is doubtful, they say. According to reports from Crosbyton from men who viewed the wrecked automobile this morning, the car was some 150 feet from the highway and apparently had not turned over after plunging off the embankment.

GOP GOVERNOR SEES SMITH OR HOOVER NAMED

(By Associated Press) BOSTON, Feb. 23.—Alvan T. Fuller, republican governor of this state, believes Herbert Hoover or Alfred E. Smith will be the next president of the United States, he holds that opinion despite efforts of friends to place his own name before the forthcoming republican national convention. Fuller boom starts. He gave his views to the ancient and honorable artillery company of Boston in the course of a Washington's birthday address while, almost simultaneously, Congressman A. Piatt Andrew of Massachusetts in telegrams from Washington was urging that all candidates on the official republican slate in this state for delegate at large or alternate at large to the republican convention to back Mr. Fuller's nomination for the presidency. The governor expressed his views in the face of cries of "No, no," from many who thought the governor himself was of presidential timber. Pausing for a moment and dropping his prepared manuscript, he shouted above the din of protest, "I'm telling you, not asking you."

Mrs. Rebecca Webb Dies Early Today

OLTON, Feb. 23.—Mrs. Rebecca Webb, 81, widow of John P. Webb, pioneer Lubbock and Lamb county citizen, died here shortly after one o'clock this morning, following an illness of 17 months. Funeral arrangements were scheduled for this morning at 2:30 o'clock with interment to follow here. Surviving Mrs. Webb are a son and a daughter, H. P. Webb, superintendent of the consolidated schools here, and Mrs. J. F. Wiles. Mr. Webb was formerly principal of the Lubbock high school and later superintendent of schools at Plainview. The deceased and her husband came to West Texas from Tennessee and Arkansas nearly 30 years ago, settling first in eastern Lubbock county then moving here five years ago. Mrs. Webb died in August, 1926, and Mrs. Webb has been confined to her bed ever since. Two grand-daughters of Mrs. Webb reside in Lubbock. They are Mrs. Charles A. Guy, 2434, 16th street, and Miss Juanita Wiles, a Tech student. Miss Wiles left for Olton this morning to attend the funeral services.

Convicted Youth To Seek New Trial

FORT WORTH, Feb. 23.—Motion for new trial for Robert McKinley, 18, who late last night was given a 7 year sentence for killing his stepfather William L. Holloway, near Mansfield last August, was expected to be filed today. Notice that motion would be filed was given the court by defense attorneys immediately after the verdict was read. The jury was out one hour and 40 minutes.

16 Hurt When Bus Dives Off Highway

MICHIGAN CITY, Ind., Feb. 23.—Sixteen passengers of an Oriole motor bus enroute from Detroit to Chicago, were injured, some of them seriously, when the bus ran off the Dunes highway four miles west of Michigan City, went into a ditch and turned over on its side against a tree.

BONDS SECURED FROM FIRE VICTIM ARE RETURNED TODAY

(By The Associated Press) BERNARDSVILLE, N. J., Feb. 23.—An anonymous letter containing \$2,000 in bonds and \$500 in cash, today disrupted the theory of police that robbery was the sole motive of the killer who burned Miss Margaret Brown, New York governess to death by the roadside near here on Monday night. Miss Brown is believed to have had about \$9,000 in bonds and cash with her when she left her employer's home Monday. "I am writing you this letter and sending you these bonds of Miss Brown knowing you will take care of them before anyone else gets them. I am very remorseful. I had been drinking."

YOUTH IDENTIFIED AS DRUGGIST'S SLAYER IN TRIAL TODAY

LOS ANGELES, Feb. 23.—William Edward Hickman, already under death sentence for the kidnaping and murder of Marian Parker, was pointed out today as the killer of Ivy Toms, suburban druggist, who was shot to death in a holdup. Testifying in the joint trial of Hickman and Weby Hunt on a charge of murder, E. J. Oliver, an officer who exchanged shots with the youths in the attempted robbery, said that Toms was in direct line of fire from Hickman's gun when he fell mortally wounded. "I drove to Newark the next morning where I am in hiding. I have a good car and new tires and I am striking out. God knows where I'll hit I suppose. By the time you get this letter I shall have a good start on you. I am going until my money gives out and then when I am caught I have something with me to end it all before they can do anything. "Au revoir."

45 Scouts To Ask Court Advancement

Fifty-five boys will be candidates for advancement in the February Scout court of honor which will be held in the district court room, Friday night, at 7:30. It was learned in the scout headquarters this morning. The boys went before the first aid and civics board of review Saturday night, the merit badge board last night and are scheduled to appear before the first and second class board of review tonight in the headquarters. Judge Clark M. Mullican, court of honor president, will preside at the meeting.

LINDBERGH CONFERS WITH DETROIT MEN AND FLIGHT COMMANDER OVER REPORTED BIG TRANSPORTATION CO.

(By Associated Press) DETROIT, Feb. 23.—An answer to the ever present question of what Col. Lindbergh proposes to do next, may hinge on a conference today between the trans-Atlantic flyer, business men and Major Thomas G. Lanphier of Selfridge field. Although rumor has linked Major Lanphier, flight commander at the army air base, and the flying colonel with a reported new air transportation project between Chicago and New York, with Detroit, Buffalo and Ithaca, N. Y., as terminals, verification was not forthcoming. Lindbergh refused to discuss the report. Lanphier said that as he was still in the United States army, he was prevented from taking part in private enterprise. He would not

SENATE BOARD WINS POINT IN TEAPOT PROBE

STEWART DENIED WRIT AND BLACKMER ACT TOLD COMMITTEE

(By The Associated Press) WASHINGTON, Feb. 23.—The government struck at the long standing oil case from three directions today, winning a point in its contention that the senate had a right to arrest Robert W. Stewart of the Standard Oil company of Indiana; developing that H. M. Blackmer got \$763,000 of the Continental Trading company bonds, and starting a move to bring another batch of men to court on contempt charges. In the District of Columbia supreme court, Stewart's contention that the senate had no right to ask him questions about the bonds, some of which the government charges reached Albert B. Fall, was held to be frivolous and he was ordered remanded to congressional custody. He appealed, however, and remained at liberty under bond. Blackmer Gets Bonds. Before the senate oil committee, Karl C. Schuyler, lawyer for Blackmer, a missing witness in the oil trials, testified Blackmer received the bonds, and that they were now in a New York bank. He said his client told him he knew of no illegal use having been made of the profits of the Continental either in the lease of Teapot Dome or otherwise. Following his success in convicting Harry F. Sinclair, William J. Burns and others of contempt for shadowing the Fall-Sinclair oil jury, District Attorney Gordon announced he would proceed against Edward J. Kidwell, the alleged talkative juror and all of the Burns detectives who participated in the jury surveillance.

OFFICER SAYS HICKMAN SHOT TOMS TO DEATH

LOS ANGELES, Feb. 23.—The insanity skeleton in the Hickman family closet today was under summons to show itself in court again as relatives of the young killer gathered to add their bit in defending him against the charge of murdering Ivy Toms, suburban druggist, who was shot to death in a holdup. Testifying in the joint trial of Hickman and Weby Hunt on a charge of murder, E. J. Oliver, an officer who exchanged shots with the youths in the attempted robbery, said that Toms was in direct line of fire from Hickman's gun when he fell mortally wounded. "I drove to Newark the next morning where I am in hiding. I have a good car and new tires and I am striking out. God knows where I'll hit I suppose. By the time you get this letter I shall have a good start on you. I am going until my money gives out and then when I am caught I have something with me to end it all before they can do anything. "Au revoir."

Stewart Writ Is Denied By Justice

WASHINGTON, Feb. 23.—For a fleeting moment today, the senate got its hands on Robert W. Stewart, chairman of the board of the Standard Oil company of Indiana, but he quickly slipped away into the arms of the courts when a writ of habeas corpus, which the senate had arrested him from the congressional grasp. A writ of habeas corpus, which the oil man obtained after the senate had arrested him from the congressional grasp. A writ of habeas corpus, which the oil man obtained after the senate had arrested him from the congressional grasp. (Turn to Page 5, Column 5, Please)

Youths Face Trial In Potter Murder

AMARILLO, Feb. 23.—Jack Davis and Clayton Tontz must go to trial in district court here on March 12 for the slaying of Leo J. Laley, druggist, September 10, last. Judge Henry Bishop said today. Yesterday the judge granted a third continuance in the trial. It was requested by District Attorney W. J. Fleisher. The two men have been in jail for six months while legal discussions and the discovery of new evidence have delayed trial. Two other men, now serving a term for automobile theft in the federal prison at Leavenworth, Kans., were implicated in the Laley murder case by a girl arrested in El Paso. The girl said she was with the men the night of the killing. These men may be brought to Amarillo before Davis and Tontz are tried.

Would Name Field For Crash Victim

AUSTIN, Feb. 23.—A movement to have the war department's new \$10,000,000 air training camp in honor of Captain W. M. Randolph, killed in a plane crash at Gorman, Texas, last Friday, is being started by Kelly field aviation authorities and San Antonio and Austin business and civic organizations, the Austin American says. The new field is to be located between Seguin and San Antonio.

Committees Named For Scouts Drive

Following the announcement last week that a membership campaign would be launched by the South Plains Boy Scout council in the near future, T. A. White, executive chairman of the campaign, gave out the following committees this morning: Prospecting and listing: J. D. Hassell, jr., chairman, R. A. Holland, A. C. Jackson, Clayton Gamm and R. P. Cook; Equitization: F. A. Norman, chairman, R. D. Maxley, C. L. Adams and I. P. Holland; Publicity: Spencer A. Wells, chairman, Charles W. Ratliff and Garnett O. Reeves. Auditing: L. S. Harkey, F. A. Norman and T. A. White. Meetings of the various committees to lay plans for the campaign will be called by the various chairmen in the near future, it was learned.

SUB MATE HONORED WASHINGTON, Feb. 23.—The congressional medal of honor was conferred by President Coolidge today upon Thomas Eadie, chief gunner's mate of the Navy, for heroic services during the attempted rescue of the crew of the submarine S-4.

Life's Niceties HINTS OF ETIQUET

1. How can the annoying habit of making folks wait be prevented in adults?
2. When do adults' table manners begin to form?
3. How young can a child be taught to hold his table silver properly, and have other good table manners?

The Answers
1. By teaching them when children are to be prompt at meals and in getting off to school and quick to execute orders.
2. When, as babies, they first eat out of a cup or spoon.
3. In his high-chair.

MARYE and MOM Their Letters

By RUTH DEWEY GROVES

Darling Mother:
I could ask you why so many men had indignation in your day but I won't, because you would write back and declare that they still have it.

Then I'd have to tell you that it's not the food, they eat, but the pace they keep. I can't deny that we live fast but I don't know anyone who wants to slow up just to cure indignation. I think one reason why people used to be slow is that they were always too stiff with home cooking to get up any pep. Imagine doing the Charleston after eating three pieces of lemon meringue pie!

But I don't see why you object so much to our way of living. You didn't live as your mother or grandmother did. And all we moderns have the same values so no one is hurt. No doubt the Driscolls knew perfectly well why we were entertaining them but what did that matter? It's a compliment when people spend money on you these days and no one expects a hostess to make a servant of herself.

Only I wish I'd brought them home and served ham sandwiches instead, because Mr. Driscoll threw Alan down. It was that ridiculous wife of his, I'm sure.

I was going to send Betty a luncheon set but now I've got to buy a new pair of slippers with the money. Anyway, I think Alan sends her money on the sly. Naturally I don't expect him to tell me what he does with his money but I do think that a man's family should realize that it does make a difference when he marries. Alan sent both his sisters through business college, you know, and what Betty is married to a man who's always out of a job they still seem to think that Alan ought to send them money. I'd never think of asking Frank for help—I do wash your back for Betty's and have a talk with her and find out what's the trouble with Clyde. Of course I don't want her to suffer, but Clyde's her misfortune, not mine, and Alan kicked the other day because I bought an import. It's a knock-out, too, what there is of it, but I guess you wouldn't call it a dress at all. Do go over to Betty's.

With all my love, MARYE

give a benefit at the high school auditorium next Friday evening.

Mrs. J. T. Hale and Miss Alene Bartly were Lubbock visitors Wednesday.

H. E. Robinson was in from his farm north of Lorenzo Wednesday. Mr. Robinson is one of Crosby county's successful wheat farmers. He has over twelve hundred acres in wheat this year and prospects for a bumper crop are fine.

Mrs. R. S. Watkins was elected at a recent meeting of the school board to fill the vacancy caused by the resignation of Miss Vesta Cart, who was married Sunday evening.

The Woman's Study club is sponsoring a patriotic program to be held in the high school auditorium March 2.

City Federation And Board Are Meeting Tomorrow

A meeting of the City Federation executive board is to be conducted at 2:45 o'clock tomorrow afternoon at the First Baptist church preceding a meeting of the Federation at 3 o'clock. Mrs. J. F. Hankins, president, announced today.

Important committee reports are to be made at the federation business meeting. Mrs. Hankins said.

Farewell Courtesies Are Extended To W. A. Bowen

Honoring Rev. and Mrs. W. A. Bowen, a reception is to be extended friends of the couple this evening in the First Baptist church parlors, the First Baptist congregation entertaining.

Bidding farewell to Mrs. Bowen, organizations and individuals are entertaining in her honor. Announcement has been made of an Eastern Star entertainment from 3 until 4:30 o'clock Saturday afternoon at the home of Mrs. I. F. Holland, 1920 13th street. This party

was originally scheduled for Friday afternoon but was postponed because of a Friday-Needle club meeting at the home of Mrs. J. A. Long, 2303 10th street, that is to compliment Mrs. Bowen.

Members of other churches and other friends of the Bowens are to attend the reception this evening. It has been announced. The reception hours begin at 7:30 o'clock.

Ko-Jo-Kai Members Picnic Hostesses On Wednesday

Ko-Jo-Kai club members were hostesses at a picnic Wednesday, taking their guests to Buffalo Springs. The group left town about 2:30 in the afternoon, returning early in the evening, after a picnic lunch had been served at dusk.

The hours were spent hiking and in other outdoor diversions. Marjorie Ann Ainsworth, Virginia Murray, Margaret Conner, Bobbie Woodson, Georgia Bolds, Juanita Meredith, Louise Bates, Mr. and Mrs. Sam Leffette, Mrs. Wanda Banker, Milas McCoy, Brooks Penney, Cap Parkinson, Edward Blackwell, Gordon Dickinson, Ray Johnson, James Whiteside and Jimmie Kennedy.

Mr. and Mrs. Arthur Adams and daughter, Susan, of Sweetwater were in Lubbock today enroute home from a trip into New Mexico. They are former residents of this city.

M. T. Walker of Amherst was listed as an out of town visitor in Lubbock today.

Durwood Bradley, district attorney, was still unable to attend to the duties of his office this morning and as a result procedure in the Third district court was suspended until next Monday.

A. E. Herring is in Dallas today on business.

Miss Fiera Green, district clerk, is ill today and unable to be in her office.

CHINESE BALLS
Mix one and a half cups of ground mild cottage with a tablespoon of flour or a little more into three whites of eggs beaten stiff season, shape into balls, roll in cracker dust and fry in deep fat. Serve with crackers.

MRS. FIELDS TO ATTEND MEETING ON OUSTER MOVE

DALLAS, Feb. 22.—Mrs. J. O. Fields of Haskell, proposed state chairman of the committee for arrangements for the biennial of the Federation of Women's clubs at San Antonio in May, announced today that she intends to attend a meeting here of the Texas board on Feb. 27 to consider her ouster.

The meeting, called by Mrs. W. R. Potter of Bowie, president of the Texas Federation, probably will decide problems which originated when Mrs. Fields was relieved by the national board of her chairmanship of the state committee on the grounds that her position and that of Mrs. Henry Drought of San Antonio, local chairman on arrangements, conflicted. The executive board meeting to be held here Monday was called as a result of the demand of other board members that such a session be held. Mrs. Potter declared.

Dallas members of the federation point out that unless some action is taken by the Texas board, the national board probably will transfer the meeting to some other state.

Accused Girl Has No Parents, Claim
OTTAWA, Feb. 22.—The Journal today says that Doris Palmer McDonald, who with her husband, George McDonald, is under sentence of death for the murder of a taxi driver, has no living parents.

The Journal says it was given this information by J. A. Legault of Montreal, counsel for the condemned couple, who arrived last night to intercede with Ernest Lapoint, minister of justice, in an attempt to obtain a reprieve. The McDonalds are scheduled to hang next month.

Legault, the paper says, denied that Mrs. Snyder of Chicago is the girl's mother, as stated in newspaper dispatches.

The paper adds that Legault said the girl is dying of tuberculosis and at present is critically ill in the women's jail at Montreal.

NEVER SUCH VALUE

ONLY an event like our Removal Sale could bring such wonderful values in every department of this apparel shop. And one of the most important features of the sale is the sensational savings that are offered in our hosiery department. Hosiery that is known the world over for its sheer fine quality and serviceability is offered at prices you usually pay for the most ordinary kinds. Anticipate your future requirements and save nearly as much as you pay.

GIANTS' BOSS, DENYING RUMOR OVER COBB, GREATLY DISTURBED

REPORTS AVER TY IS WORKING IN GIANT CAMP

ATTEMPT TO SECURE VETERAN DENIED BY M'GRAW TODAY

(By the Associated Press.)
 NEW YORK, Feb. 23.—Ty Cobb's future has Manager McGraw up in the air even though he says he doesn't intend to sign the Georgia Peach.

Out at the Giants' camp at Hot Springs, Ark., Manager McGraw is busily denying reports that the veteran Ty will appear in a New York uniform in the coming struggle.

"I have not even spoken to Ty," said McGraw, "and I certainly have not signed him."

Swamped by Queries
 However, the Giants' pilot is swamped by inquiries probably caused by reports that Cobb will work out with the McGrawmen at Augusta.

The first casualties to the New Yorkers involve Bill Walker, Denver southpaw, who strained a tendon in the right leg and Leo Mangum who has a bruised knee, the result of a mountain hike. The injuries are minor.

Braves Are Stiff After Hard Work

BOSTON, Feb. 23 (AP).—The Braves were stiff today after a holiday that was a loss to everyone but them in their St. Petersburg, Fla., ball park. Doc Cautreau worked out at third base and Ed Brown at first. Whether the former will be given the hot corner remains to be seen but indications were that Jack Slatery means to allow to him his chance to make good. Brown's status is more doubtful if Burrus shows any sort of form.

In Brandon the Red Sox pulled in and were greeted by a brass band and a healthy delegation of local enthusiasts. The roll showed 22 of Carrigan's boys on hand, all the squad except Ruffing and Slim Harris, who has a cold. Ruffing is holding out.

Donohue Refuses Contract Of Reds

FORT WORTH, Feb. 23 (AP).—Pete Donohue, one of the leading pitchers in the National League for the last six years, will not report to the Cincinnati Reds' training camp at Orlando, Fla., with the other members of the staff February 26, as he has today refused to sign a contract with them. "They are trying to make me a big cut in salary because the club had a bad season last year," he said.

MATADORS AND COWBOYS SIGN FOR FOOTBALL

TURKEY DAY TILTS TO BE PLAYED IN 1929, 1930 AND 1931

A three year contract, calling for Thanksgiving Day games between the football teams of the two schools, has been signed by athletic officials of Texas Tech and Simmons university, of Abilene. It was announced from the college here last night. The first of the three contested tilts, however, will not be played until Thanksgiving Day, 1929, both the schools having already contracted for the 1928 classic.

Since the opening of the Tech college the local school has been meeting the West Texas State Teachers college Buffaloes and on Turkey Day of this year will journey to Canyon to play a tilt already provided for. After the same this year, however, football relations will be retained with the Buffalo herd but the game between Tech and the Buffs will be matched earlier each year than here-to-fore.

There is no secret surrounding the fact that both Tech and Simmons are seeking an early entry into the Southwestern conference and since the two institutions are the largest in West Texas athletic officials believe that beginning with Thanksgiving Day, 1929, that the game between the Matadors and Cowhands will be acknowledged as one of the Turkey Day yipid classics of the state.

Waits 15 Years To Eat Fried Onions

"After 15 years I eat anything I want—even fried onions. Adierka ended gas and sourness, and I enjoy life now."—Mrs. L. Branton.

Just ONE spoonful Adierka relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adierka will surprise you. City Drug Co. and Lubbock Drug Co.—adv.

DON'T ENVY IKE DORGAN HIS JOB HANDLING RICKARD'S PUBLICITY HARD TASK

IKE DORGAN

BY HENRY L. FARRELL
 NEA Service Sports Writer

Ask any young man, who has paid large money to see a pair of young financial bulls go through the motions of a fight, who has the best job in the country—and a good number of them will answer: "Ike Dorgan."

Ask any number of publishers, editors, managing editors, city editors and sport editors, particularly who is the lowest-lived person in the universe. If it is around a big fight time, they will tell you that Ike Dorgan has no inferior.

Back in the days before the business of doing a lot of things rose into the powers of giant buildings and before office boys became empowered with the authority of inspectors of police, the men of the calling of Mr. John L. (that's his real name) were known as press agents.

Now in these days when giants of industry have to be annoyed with young men seeking information for the newspapers, the men who give the information or try to conceal it are known as "public relations counsel."

Ike Dorgan, old and experienced newspaperman that he is, has not fallen for the new title stuff. He still has his office in Tex Rickard's building, with an old desk and a chair in it, some cigar butts on the floor and a copy of a few newspapers about. No one is on the door.

Handling publicity for Tex Rickard isn't much of a labor. There are about two dozen reporters around all the time and they even know his home number for exclusive tips about broken hands, sprained arms, twitching eyes and the like before the usual run of fights.

But handling publicity for Tex Rickard when there is a world's championship fight coming up is, pardon the emphasis, a helluva job and no one but one with the kind soul and the genial disposition of Ike Dorgan could have held it for

these many years.

Dorgan estimates there are two legitimate demands: for every press seat he has for a big fight and three to five demands that are not legitimate.

The ones who do get their seats do not like the positions, some want spots in one of the fighters' corners, others want to get away from the water and blood between rounds. Some want in the first row and others wouldn't sit in the first row. No two demands are alike.

We'll say this for Ike Dorgan—we never got a raw deal from him and always got something very near like what we wanted because we were willing to go half way with him. Ike Dorgan is the kind of a guy that if you offer to go half way you'll have to go only one-quarter.

Before one of Rickard's big fights Ike Dorgan has one of the toughest jobs in the country. But he gets away with it because he can be hard when someone tries to get hard with him. Those tickets belong to T. Rickard, if they belonged to I Dorgan he'd give them to the elevator man and go home.

Mechanical Cop
 BALTIMORE. — Now a mechanical traffic cop. A motorist stops ten feet from an intersection and sounds his horn. Mikes pick up the sound and change the signal so the main highway can be crossed.

FROG DIAMOND HOPES BRIGHT FOR THIS YEAR

27 MEN ON SQUAD TO BEGIN WORK MARCH 1 AT T. C. U. CAMP

(Special To The Journal)
 FORT WORTH, Feb. 23.—Coach Leo Meyer will have a squad of 27 prospects from which the built T. C. U.'s 1928 baseball entry in the Southwest Conference race. The full squad will not be in uniform until March 1 as eight of the men are on the varsity basketball squad and the Southwest Conference schedule will not be completed until then.

However, all except three of the candidates on the basketball squad are experienced players. The rest will set to work for their old positions as soon as they report. As the squad lines up now, including the eight basketballers, Meyer will have eleven candidates for infield berths, nine working for outfield positions, four catchers and five pitchers.

Outfield Candidates
 Captain Jimmy Grant heads up the outfield candidates. Jimmy has presided over the centerfield interests of the Frogs for the past two years. He will have plenty of competition this year even with the veteran outfielders occupied by veterans of one season, Lowell Parrish and Albert Acker played right field for the Frogs most of the season last year and Steadman was in left field a great part of the season. Others who will work for these veteran positions are Bob Barker, Roselle, G. Smith, Tomlinson and Eddie Man.

Meyer must pick two catchers from four men of comparatively little experience. Melbourne Moore of Fort Worth played with the Frogs two seasons ago but was out of school last year. "Rag" Matthews played about 36 innings as a reserve catcher last year. Two new candidates are N. L. Clark and Cecil Provine.

Bambino Busy With Autographing Work

NEW YORK, Feb. 23 (AP).—Babe Ruth is on his way to becoming the world's busiest autographer. And he doesn't use a secretary.

"Yes, I keep busy writing my name and the biggest job this winter came from Minneapolis on a batch of seventeen dozen baseballs," he said.

"The fellow who sent them to me is in anti-tuberculosis work out there. I ran across him on a barnstorming trip. I told him I'd be glad to help so he sent along the 204 baseballs."

TEXAS SLUGGER ALMOST WINS IN WALKER TUSSLE

(Special To The Journal)
 SAN FRANCISCO, Feb. 23.—The fighting reputation of Jack Willis, Texas cowboy slugger, was enhanced today as the result of his surprising showing in a ten round bout with Middleweight Champion Mickey Walker here yesterday.

Walker won the decision, but had as hard a fight on his hands as he has experienced since he won the title.

An obscure fighter and a tremendous short ender, Willis rushed the champion from rope to rope in the third and sixth rounds and in the seventh round he had Walker so bewildered that the champion did not hear the bell. Ringside critics gave the Texan a slight margin at the end of the seventh round. A terrific attack was launched by the champion in the eighth round and Willis was strogy at the bell from heavy rights and lefts to the face and mid-section. In the ninth Willis suffered severe body punishment and his momentary rally in the last round was nipped quickly by Walker.

The title was not at stake as Willis weighed 163 pounds and Walker 161-4. Some 12,000 persons saw the bout, and gross receipts were estimated at \$30,000.

ANNUAL INTERSCHOLASTIC LEAGUE BASKETBALL TOURNAMENT OPENS FRIDAY IN TECH GYM; FREELAND IN CHARGE

However, there are several teams over the district that have not been played up quite as well as the teams from Floyd, Hale, Dawson, Lubbock, and Crosby counties that might be considered as "dark horses."

Ewing Y. Freeland looks forward to a record breaking attendance of the games during the meet.

The annual South Plains Interscholastic League basketball tournament will begin tomorrow as the representative teams of 19 South Plains counties flock into the Texas Technological college gymnasium for the meet. The 19 counties that constitute the South Plains district are: Martin, Andrews, Gaines, Dawson, Borden, Yoakum, Terry, Lynn, Garza, Cochran, Hockley, Lubbock, Crosby, Dickens, Bailey, Lamb, Hale, Floyd, and Motley.

The tournament will be under the direction of Ewing Y. Freeland athletic director of Texas Tech and also athletic director of the South Plains league district. Since the district includes such a vast territory and with only two days to play the meet off the elimination route will be taken to determine the championship.

Strong Meet Expected
 It is anticipated that this year's district tournament will be the strongest that has ever been exhibited as the teams of the loop are stronger and are playing a much improved brand of basketball as a whole. The strongest contenders of the district are the Floydada Whirlwinds, Lubbock Westerners, Golden Sandstormers, Hale Center high school, and the Ralls Jackrabbits.

TEXAS COLFERS TEE OFF TODAY IN STATE PLAY

HOUSTON, Feb. 23.—Held up for a day by wet weather, the first of more than 200 golfers began teeing off to 10 o'clock Thursday in the qualifying round of the Houston County club's annual invitation tournament.

All the starting times previously assigned held good except that the players travel in threesomes rather than in twosomes.

Dudley Golding of Wichita Falls, Louis Jacoby of Dallas, and W. S. Mackay, of Houston, made up the

RALLS CAPTURES CLASS A TITLE FOR BASKETBALL

DICKENS, Feb. 22.—The Ralls Jackrabbits took the basketball class A championship of Crosby county here last night, defeating their fast and bitter rivals, the Crosbyton Chiefs, by a score of 14 to 13. The game was a nip and tuck affair from the opening whistle to the final gun, in addition the class A title, gave the winning club the edge in games won between the two for the season.

The first half closed with the count knotted 12-12. The Rabbits negotiating a field looper and the Chiefs a free toss in the final period.

Tonight Robinson, winners of the class B division of the county, will meet the Rabbits in the new municipal auditorium for the county title. Robinson won the class B championship last at Ralls, defeating Owens with a score of 94 to 4.

At Sherman: Austin college 37, St. Edwards university 28.

William T. Tilden 2nd to protect his throat, smokes Luckies

"The voice is essential to stage work and its care one of the actor's greatest worries. During the course of some of my stage appearances, I am called upon at intervals to smoke a cigarette and naturally I have to be careful about my choice. I smoke Lucky Strikes and have yet to feel the slightest effect upon my throat. I understand that toastings free this cigarette from any throat irritants. They're 100% with me."

KLAN DISCARDS MASK IN PLAN FOR NEW WORK

NEW DEGREE STARTED ALL OVER NATION IN EVANS EDICT

(By Associated Press) WASHINGTON, Feb. 23.—The klan is officially reformed as part of the regalia of the ku klux klan. An edict to all klansmen from the headquarters here of Dr. H. W. Evans, imperial wizard, discards the mask effective today and inaugurates a new degree. Knights of the Great Forest. The edict gave no details concerning the new degree but advised every klansman to become a member at once.

The action, said a statement from headquarters, was in preparation for "new and larger activities in the national life." Dr. Evans' statement said also that the order had no political ambitions and added that it was now ready for new work because its policy of promoting "100 per cent Americanism by stopping unrestricted immigration" has been made "a part of our national policy."

Assimilation of Aliens
The new activities, the statement said, will concern the "assimilation of those aliens now in America, for the sturdy support of our constitution and law."
The edict by the imperial wizard set forth that after today no klansman shall wear a mask or visor upon his helmet and that members "are forbidden to fraternize with, or remain in klanshish fidelity to," any who violate this order.
Dr. Evans said the departure had been contemplated for some time and that "there has been inside the order a gradually increasing sentiment toward unmasking."

ARMOUR WIDOW DIES
NEW YORK, Feb. 23 (AP)—Mrs. Jane Livingston Armour, widow of the late Herman Ossian Armour, of Chicago and New York, died of pneumonia at her home last night. She was 82 years old. Mr. Armour was a partner in the packing firm of Armour and Company from the time it was founded until he died in 1901.

HOW TO FIGHT EXCESS FAT

There are hard ways, like starvation, but fewer and fewer employ them. There is a pleasant way, modern and scientific, which combats the cause. A vast number of people now use it. And the slender figures now seen everywhere are largely due to that.
That method is embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. And every body, in almost every circle, sees the change. New beauty, new health, new vitality.
Each box of Marmola contains the formula, also the scientific reasons for results. So users have no fear of harm. Learn the facts about Marmola, because of the good it has done. Ask your druggist—now—for a \$1 box with the book. Then decide.

'GET IT WHILE THE GETTING IS GOOD' IS POLICY OF THE OIL PRODUCERS, ACCORDING TO RODNEY DUTCHER

EDITOR'S NOTE: The reasons for the present inefficiency in the production of crude oil are discussed in this, the third of 12 articles by Rodney Dutcher, Washington correspondent for the Journal and NEA Service.

By **RODNEY DUTCHER**
NEA Service Writer

(Copyright, 1928, NEA Service, Inc.) WASHINGTON, Feb. 23.—Under a general policy of "get your neighbor's oil before he gets yours," hundreds of million of barrels of oil and hundreds of millions of dollars have been wasted during the development of the American oil industry to its present chaotic period of overproduction.

It is not due so much to overproduction, but rather to overcompetition among producers. Here is how the present system which even so cautious a man as President Coolidge has called "wasteful to an alarming degree"—actually works:

Gas Pressure Determines Flow
Oil deposits, especially the largest and richest, spread out under large areas of land, the surface ownership of which is divided among many individuals and competing companies. Once a reservoir is tapped, the oil spouts and flows under the pressure of natural gas within. When the gas gives out, the oil stops flowing or subsides to negligible proportions.

The first man to drill gets the oil. To use a concrete example, suppose 40 companies each own ten acres in 400 acres covering an oil deposit of like dimensions. If 39 of them agree to leave the oil in the ground, the other owner is still able, under the present disorganized condition of the industry, to drill his own wells and pump off all the extractable oil in the entire field. The result is a mad scramble to get the largest amount of oil while the getting is good. And the natural gas pressure that produces the oil is reduced as each new well begins to flow.

It is this sort of thing which occurred in the great Seminole field of Oklahoma and force devalued oil prices down from \$2.80 to \$1.30 a barrel. The most serious feature of it is that it involves wasteful methods of production at a time when no one knows how long the oil reserves of the country are going to last and when some experts predict a famine within a few years.

Left Half of the Oil
In one instance where 45 oil companies scrambled for oil in a new field, the Federal Oil Conservation board—consisting of cabinet Secretaries Hoover, Work, Wilbur and Dwight Davis—found that competi-

This remarkable picture shows what happens when an oil tank explodes. It was taken near El Segundo, Calif. Oil fires are extremely difficult to combat.

tion caused a dissipation of gas pressure which left in the upper sands of the field as much oil as was actually produced.

This was the Santa Fe Springs field of California, the largest flush pool in recent years, which contributed 11 per cent of the national oil production in 1923. If the oil board is correct, nearly 70,000,000 barrels of oil were lost because the 45 companies went the limit in competition instead of resorting to some method of the financial loss, which could have been avoided, at \$200,000,000.

Other Kinds of Waste
To continue to use the Santa Fe Springs field as an example of wasteful forms of waste, it may be pointed out that the competitive struggle caused serious overproduction and drastic price cuts. The loss of oil itself seems most serious of all, in view of the uncertain longevity of the national supply, but there are other wastes and losses in the industry, some of them as

store oil above ground while smaller companies are forced to sell oil at below cost, face ruin. The average storage cost is 50 cents a barrel and the above ground stores always are endangered by fire from lightning or other causes.

Unnecessary oil wells drilled and equipped at a cost of \$200,000 each are another large source of economic waste.

The waste of natural gas in oil wells has already been mentioned as it affects the rate of extractability of oil. One owner may so squander gas pressure that he will prevent owners of neighboring land from obtaining any oil at all and at the same time obtain only a small proportion of what he would get from beneath his own land with efficient operation.

The waste of this natural gas has reached astonishing proportions. Some idea of the unknown total waste of gas may be gained by the estimate that at one period during the heyday of the Cushing field in Oklahoma, more than 300,000,000 cubic feet of gas was wasted every day. This amounted to more than one hundred billion cubic feet in a year, the fuel equivalent of 5,500,000 tons of coal.

Henry Doherty has cited a case where gas waste figures were four times as large as those at the Cushing field! The oil board explains that the gas is wasted by blowing it into the air to hasten the flow of wells — another result of the unrestricted competition.

Another form of waste, speaking in a broad sense, is the unrestricted use of oil, a limited resource, instead of coal, a practically unlimited resource. Some uses of oil obviously are more essential than others. Apparently restriction will not come before oil prices go so high as to force a widespread return to coal.

Oil men are sharply divided as to the best method of reducing waste in the industry.

"Overproduction today is injuring millions who have their wealth invested in oil companies," says Secretary Work. "It is injuring the great producing and refining companies; it is depleting a national resource that can never be replaced. Oversupply of an expendable resource is the sure portent of future famine."

TOMORROW: Dutcher discusses production plans that would halt the waste of oil.

State Highway Aid Taboo During March

AUSTIN, Feb. 23 (AP)—Delegations seeking state road aid or designations will not be heard by the state highway commission at any time during March because engineering forces need to "catch up with their work," R. S. Sterling, Houston, chairman, announced late Wednesday.

The commission ordinarily receives delegates once a month. The next open hearing, Mr. Sterling said, will be some time in April on a date not yet set, but bids on various projects will be opened at a meeting March 19 and 20.

"A Nice Place For Nice People"

JOYLAND AUDITORIUM

Opening Feb. 25th.

THE FIRST BIG DANCE

A message to the good people of Lubbock and the South Plains:

Joyland Auditorium will be run and conducted so that anyone need not hesitate to take their mother or sister.

We have been assured of the cooperation of Lubbock county officials and in turn shall heartily cooperate with them. At all dances an officer will be present.

It is our plan to have the auditorium used for other purposes than dancing alone. Good entertainments of various kinds will be furnished. The management expects to make improvements regularly.

You will be surprised to find that the Auditorium is built for comfort in either winter or summer and is modern in every respect and and that it will be conducted along the order of those in larger cities.

The management earnestly solicits the cooperation of all good citizens and welcome suggestions for furnishing good clean amusements. We hope for and shall strive to merit the good will and confidence of the entire South Plains. Every individual will be treated as a guest of the very highest type.

Yours For More And Better Amusements

Joyland Auditorium

Located one mile and half southwest of Lubbock, just off Slaton Highway. Look for the bright lights!

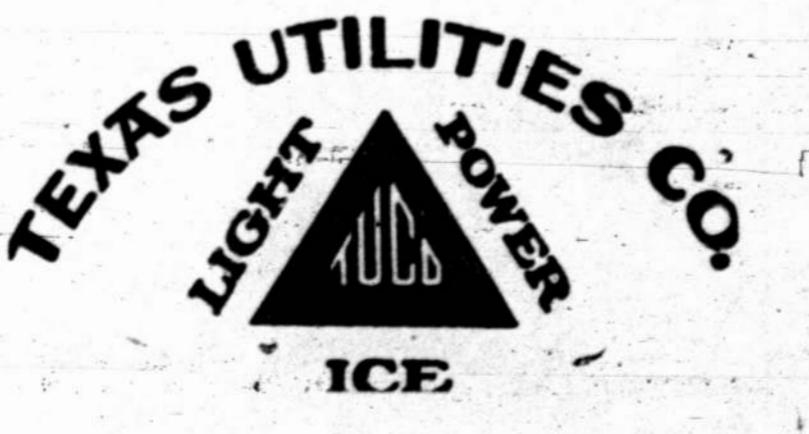

Auditorium Open Tuesdays, Thursdays and Saturdays

Who Can Estimate The Future Development of this Section?

When one reflects back on the progress made on the South Plains within the last five years, stops to contemplate the present situation and vision the future one is astounded!

Visions of millions of people living on the South Plains with development in like proportion gives one a glimpse of the problem constantly facing this company whose greatest aim is utility leadership.

Constant building and modernizing of equipment and expansion of services is our present policy.

U. S. MARINES IN NICARAGUA KILL FOUR IN DRIVES

(By Associated Press) MANAGUA, Nic., Feb. 23.—After slaying four rebels in different encounters in the Jinotega region, American marines today were keeping small bands on the run. In three encounters at scattered points in the region, the marines also wounded several rebels but suffered no casualties themselves. The bands encountered are believed to be part of the party of

75 which recently seized the town of Trinidad, looted stores and disappeared before the marine arrived. Two members of a small band observed east of Marajo, which is southeast of Jinotega, were slain by machine gun fire from a scout plane. Captain George T. Hall, whose base is at Estel, signalled to airplanes that while on patrol near the same locality he encountered a band of rebels and killed two of them. Six miles from Homomico, between Jinotega and Matagalpa, a patrol under Lieut. H. A. Fiebler surprised a small band of Guerrillas, who opened fire. The marines returned the fire, wounding two and

routing the insurgents. Some stolen property was recovered. **Violent Quake Is Felt In Jerusalem** JERUSALEM, Feb. 20 (AP)—A violent earthquake was felt here last night. It was equal in violence to the one experienced last July when some 200 persons were killed and heavy property damage done. No casualties were reported. A slight tremor occurred early in the morning also. **BEAN SALAD** Canned French beans make a good salad when mixed with picadillo and French dressing. Serve on Romaine.

Flashes Of Life (By The Associated Press) **Gold In Music** NEW YORK.—There is gold in music. Americans are estimated by George Engles, manager for various artists, to spend \$20,000,000 a year to hear the best. **Sweeter Tooth** WASHINGTON.—Uncle Sam's tooth is much sweeter than when he was a young fellow. The average per capita consumption of sugar last year was 107 pounds, in 1823 it was 28.

MRS. JENNINGS IS BURIED HERE THIS AFTERNOON The funeral of Mrs. J. W. Jennings, wife of J. W. Jennings, former resident of Lubbock for a number of years is being held at the First Baptist church this afternoon at three o'clock with Rev. W. A. Bowen, pastor in charge. Burial followed in the Lubbock cemetery with Rix funeral directors in charge of arrangements. Mrs. Jennings died early yesterday at her home in Terrell. The body arrived here this morning accompanied by Mr. Jennings and his daughter, Kathleen, and a sister, of Mrs. Jennings, Mrs. A. P. Scarborough of Jasper, Texas. Pallbearers were: active, W. B. Atkins, G. K. Watkins, R. E. Overstreet, N. L. Peters, L. C. Montgomery, D. L. Jones and Neil H. Wright, and honorary, E. L. Robertson, John Denman, D. F. Easton, C. E. Maedgen and Ray Mowery. Mrs. Jennings was a sister-in-law of Mrs. M. C. Overton and Leslie Jennings of this city.

Teapot Probe (Continued from Page 1) to answer questions of the Teapot Dome committee, was dismissed by Justice Bailey in the District of Columbia supreme court, and for a moment the waiting senate sergeant-at-arms really had custody of the reluctant witness. **Theoretical Control** But it was only a theoretical control, for Stewart's attorneys immediately noted an appeal and placed a bond of \$5,000 for him, and now he has forty days in which to perfect the appeal and the record in the case for the court of appeals. The court held the grounds on which the oil man refused to testify on the question of the Liberty bonds of the Continental Trading company "were frivolous and with out legal basis." "The writ of habeas corpus will be discharged and the petitioner remanded to the custody of the respondents," he said. The courts action and the appeal means that Stewart now cannot be taken before the senate until after the supreme court decides the issue. If the court appeals decision is against the oil man he will appeal to the highest tribunal. This may mean a year or longer before the final decision. **Review Of Stewart Plea** Reviewing the plea of Stewart, who specifically declined to reply to questions as to whether he had discussed the Continental Trading company's Liberty bonds with Harry F. Sinclair, Justice Bailey held that the senate resolution authorizing the Teapot Dome inquiry called for an investigation supplementary to one previously authorized and on which the committee had made no final report. The former investigation, he said "had resulted in legislation directing the prosecution of suits, one of which resulted in the recovery of valuable property of the government, and in other legislation, and it may be assumed that the senate had in mind the possibility of need of further legislation, when the latest resolution was passed." "The petitioner states that he appeared voluntarily before the committee to give his testimony," the Justice continued. "He took an oath to tell the truth, the whole truth and nothing but the truth. **No General Objection** "He raised no general objection to the scope of the inquiry but after being asked to answer numerous questions, he finally refused to answer as to his knowledge of any one who received the Liberty bonds mentioned in the resolution, or whether he had discussed any of the bond transactions with Sinclair, and other questions of similar character. He voluntarily testified in part but refused to tell the whole truth, and a partial truth may be as misleading as a falsehood. These questions were clearly relevant to the inquiry and involved no question of privilege. The inquiry did not involve the private affairs of the witness, and the witness cannot make such a claim on behalf of others when he does not appear to be acting in a representative capacity. "But even such a ground will not be an excuse for failure to answer questions relevant to any matters which were the subject of proper inquiry." **Ruling On Senate Power** To Stewart's contention that the senate was without power to arrest him while he was a witness before the committee in obedience to a subpoena issued by it, Justice Bailey said: "If the committee was seeking information as a basis for legislation by congress and if the question asked the petitioner were pertinent to such inquiry and did not invade any of his constitutional rights, it was his duty to answer, and his refusal to do so could be treated as an act of contempt of the senate. "The senate is not necessarily controlled by the practice of the courts in similar cases."

\$750,000 Profits in the Continental Trading Company Deal The Teapot Dome committee was told today by its attorney, Karl Schuyler, of Denver. Schuyler said the former chairman of the board of Midwest Refining company gave him this information in Montreal in July 1926 when he asked the attorney to act for him. The witness testified that Blackmer had informed him "unequivocally" that he had no knowledge that any funds of the Continental had been used to influence the lease of the Teapot Dome naval oil reserve or for any unlawful purpose. **Believes Statement** "I believed him, then and I have had no cause to change my mind since," Schuyler declared. Blackmer told him, Schuyler said, that he had not volunteered as a witness in the Teapot Dome civil case at Cheyenne in 1925 because he had appeared his private affairs would have been gone into. The oil man added, the witness said, that he had made a public statement in response to letters. After conferring with Blackmer at Montreal for three days, Schuyler said he was made trustee for Blackmer's bonds, placing them in a safety box in the Equitable Trust company in New York. **Open To Inspection** "Those bonds are in there now," he said, "they are intact. They total \$763,000. I hand you the serial numbers. Your committee can inspect them at any time." Schuyler disclosed that Blackmer had apprehended possible litigation over the bonds by both the Midwest Refining company and its parent organization, the Standard Oil company of Indiana. Schuyler testified that on last

January 24, he wrote to Blackmer advising him that the senate was to reopen its investigation and advising him that he should make a statement for him. With Schuyler's disclosure the committee now has unearthed \$1,922,000 of the \$3,080,000 Liberty bonds the Continental concern bought with its profits in buying oil at \$1.50 a barrel and selling it to the Prairie Oil and Gas company for \$1.75. Besides the \$763,000 of Blackmer bonds, the committee has evidence of \$800,000 returned to the Prairie Oil and Gas by James H. O'Connell, another missing witness in the Fall-Sinclair case, \$61,000 as legal fees of H. S. Oiler, president of the Continental, \$233,000 which Sinclair gave to Fall after the Teapot Dome lease and \$75,000 given to the republican national committee presumably by Sinclair. **Paying for a home is like paying rent. Buy a home this year through The Classified Ads.**

for your Car's sake stick to the Correct Oil

TWO expensive evils constantly threaten the happiness—and the pocketbook—of every automobile owner. One is the danger that the car won't last as long as it was made to. The other is the prospect of heavy repair bills. More than half of motor repairs are caused by faulty lubrication. The loss of car value from the same cause is colossal. Oil that flows poorly the first few seconds of starting does more damage than collisions. Prolong your car's life and save repair bills by using Conoco Motor Oil, the product of years of scientific experience. And get it in the special grade for your make and model of car—as shown by the special chart.

CONTINENTAL OIL COMPANY, Producers, Refiners and Marketers of high-grade petroleum products in Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming

CONOCO MOTOR OIL (The same assurance of excellence in a 100% Pure Pennsylvania Oil comes with the use of Conoco Amalie) Extra Life for Your Car 56887.3 49c

Steamer Trade NEW YORK.—One of the Honorevells is trying to twist the lion's tail. Kermit's steamship company got away from British vessels some of the business of carrying jute and bur-lap from the far east. Kermit cut rates a bit, and then his rivals proceeded to win a race with cargoes to New York.

Frenzied Trading LONDON.—King SHK! The vogue for it has enabled Courtauld, Ltd., which controls most of the world's artificial silk, to declare a \$60,000,000 bonus and there ensued wild trading in the stock such as the old lady of Threadneedle street the Bank of England opposite the exchange, never before witnessed in her 234 years of observation of changes in styles.

Knees Covered NEW YORK.—The boys who watch the waterfront for news are detecting the influence of the latest modes decreed by Paris. Knees on incoming liners are covered.

Men And Shawls NEW YORK.—He men once wore shawls and in summer at the annual meeting of the New England Historic Genealogical society was a black and white checked shawl worn by Colonel William Sprague in the first battle of Bull Run—in July.

Kaiser Or Car BERLIN.—Friedrich Wilhelm Hohenzollern has a red car and a livered chauffeur which lots of folks don't like. Uninvited to the ceremonies welcoming king of Afghanistan, he drove through the thickest of the crowd and there were hisses with cheers.

Quite A Shock NEW YORK.—Love laughs at distance. Princess Xenia returning from the Caribbean got a surprise in a welcome from her husband, William B. Leeds, whom she supposed to be in the South Seas. He flew across country and then hired a tug to meet her ship.

Baby Pullman

There's no guess work in the every day goodness of Baby Pullman bread—we never take chances on you getting a poor quality loaf of that name! Ingredients that go into the making of Baby Pullman bread are the finest that money can buy—nationally known high quality products. The original formula by which Baby Pullman bread was created is rigidly adhered to in every baking. You will find that Baby Pullman stays fresh longer—and that its shape is a style that makes possible a daintier slice.

Date-Nut Cakes

The newest creation of this bakery is made to sell at 25c each. Fresh eggs, finest cocoa and other of the best quality ingredients, fresh fruits, etc., are reasons why Date-Nut Cakes are so popular wherever they have been introduced.

Snowflake Rolls

Probably no other product of this bakery has such a practical place as Snowflake rolls—they are packed in packages of 12—so that only a moment's time in the oven is required to make them hot and for 10c we don't know where you can equal the value.

WORK OF BEES IN GATHERING HONEY UNIQUE

NECTAR FROM FLOWER CHEMICALLY MADE INTO HONEY

By the Associated Press.
HOUSTON, Tex., Feb. 23.—Bees do not gather honey direct from flowers, as is commonly supposed, according to Prof. H. P. Atwater, widely known Houston naturalist.

They collect nectar from the blossoms, swallow it and after it has undergone a chemical change in the form of honey, Prof. Atwater says. To make a pound of honey a honey bee must visit 50,000 clover blossoms, the professor said.

Thousands of pounds of honey are wasted every year, because Prof. Atwater says, bees are lacking to gather it. Texas leads in honey output with 5,000,000 pounds of the 70,000,000 pounds produced annually in the United States. Uvalde is the banner bee county and Beeville and San Antonio are important bee keeping centers.

Big Yields Recorded
In favorable seasons, Prof. Atwater has found, immense yields are often recorded. One bee keeper in Bexar county, he says, took over

WOMAN IS FOUND NOT GUILTY OF FATHER'S DEATH

(By Associated Press)
WENTWORTH, N. C., Feb. 23.—

Accused by a jury of Rockingham county farmers, Mrs. Alma Petty Gatlin stood free today of a charge of having murdered her father, a charge that she shifted to her mother, now dead, in defending herself.

The jury reached its verdict last night in little more than three hours after a trial based entirely on an evangelist's story to state authorities that the woman had confessed the murder to him at a revival service.

Acting on directions given by the judge, the jury returned a verdict of a year in prison for the woman on account of the climatic and other favorable conditions in Texas, he said, "the bee keeping industry offers great inducements and financial returns, especially for the reason that bees work for nothing, board themselves and never go on strike."

The chapparel region of Southwest Texas was pointed to as a region which abounds with many varieties of honey-producing plants and trees. Among them, Prof. Atwater said, are mesquite, Husache, cactus, cactus huajilla, horsemint, broomweed, blue bonnets and many others.

"Bee keeping," he asserted, "is one of the most fascinating vocations in all the fields of agriculture."

MAN HUNTED IN MYSTERY CASE OF FIRE DEATH

(By Associated Press)
SOMERVILLE, N. J., Feb. 23.—

A man who is believed to have drugged, robbed and burned to death Miss Margaret Brown, 40-year-old governess, after leading her to believe he was taking her to California on a wedding journey, was sought by detectives of New York and New Jersey today.

Clue From New York
The clue to the slayer came from the family of James Park Gillespie, of Park Avenue, New York, where the woman had been employed for nine months. She resigned on Jan. 15, after telling her employers she was withdrawing \$1,000 in cash and \$8,000 in bonds from a New York bank and going to Pasadena, Calif., to see a sick sister. That night she was found, her clothing ablaze in a patch of woods near Barnardville. She died without regaining consciousness. One of the Gillespie children said Miss Brown frequently met a man in Central park and the family and another governess corroborated this. The man was known to them only as "Dr." and in the words of

EPIDEMIC OF COLDS IS SWEEPING CITY

Lubbock is fraught with an epidemic of bad colds and cases of influenza which continues to grip several hundred homes, Dr. J. W. Rello, city health officer, said today.

For the past several weeks, the colds have been going on, he said, with only a slight abatement. The cases are not of serious nature, however, he said.

No other diseases are prevalent in the city, he said.

FITCH TO VISIT SCOUT COUNCIL HERE ON MARCH 6

J. P. Fitch, regional scout executive, of Dallas, will be in Lubbock, March 6 to visit the headquarters of the South Plains Council here.

It was announced from headquarters this morning. Mr. Fitch is regional director of three states, Texas, Oklahoma and New Mexico, and his visit here will be of vital importance to the local council.

While here he will be guest of honor at the Training School Banquet which will be held that night in the basement of the First Presbyterian church. He will present the national and local Training Certificates to the members of the school for their work during the past six weeks. The local certificates are cumulative and are given for credit in the incomplete courses, the national certificates being for the completion of the courses.

Other features of the banquet will be the completion of special patrol contests and award announcements, and the completion and presentation of the ten-foot training school totem pole. The banquet will be in charge of a committee composed of W. G. McMillan, chairman, F. D. Rupe and Carroll Thompson.

About 150 members of the school

Town Is Saved From Fire As Ship Sinks

BOGOTA, Colombia, Feb. 23 (AP)—The sinking of a burning ship saved the town of Quibdo from a

major disaster yesterday. The steamer Bogota moored in the Attrato river off Quibdo caught fire. The blaze spread rapidly and the crew saved themselves by jumping overboard. Lack of sufficient fire fighting equipment and the proximity of several wooden houses put the city in danger, which was only averted when the flaming ship sank.

Re-Roofing Made Easy

ARE you going to re-roof? Lay Edgwood Shingles right over the old roof. Saves the labor and expense of removing the old shingles—eliminates the unsightly litter and possible damage to shrubs and plants—and provides protection in the event of sudden storms during construction.

- ☞ Makes your home a lot cooler, too—the double roof with air space between acts like a parasol. Professor Grondal, of the Washington University has made tests which show that Edgwood shingles have from 10 to 61.11 per cent. greater insulation qualities than any other roofing material.
- ☞ In re-roofing with Edgwood shingles the new shingles are applied in the same manner as you would on solid sheathing, excepting that longer nails are used and you start with a double course at the eaves.
- ☞ Applying Edgwood shingles in this manner is not new, as it has long been the practice in cold climates to apply Red Cedar shingles over tight sheathing and building paper. It is a fallacy to assume that Edgwood shingles will decay if laid

- over old shingles. Rot-promoting fungi can find no weakness in the preservative oils with which Nature has endowed British Columbia Red Cedar.
- ☞ Edgwood shingles are cut Edge-Grain and positively will not warp, cup, or curl—he tight and flat to the old roof for 40 years or more.
- ☞ You can save yourself a lot of money too. Comparative cost figures show that an Edgwood roof will cost you from 14 to 315 per cent. less than other materials.
- ☞ Re-roofing with Edgwood shingles over the old shingles is an easy and practical solution to re-roofing. You then have a roof that possesses all five essentials of home building—Appearance, Durability, Economy, Safety and Insulation.

A cigarette, I call it!

YES, I made it myself, but I'm talking about the tobacco. Good old Prince Albert. Cool and even-burning. Mild. Mellow. Plenty of rich, tasty body. The kind of cigarette you can make and take, end on end, from morning to midnight. P.A. is crimp-cut. It stays where you put it and burns even and cool. The taste is one you can't forget. It's like inhaling mountain air that has filtered through sun-drenched pines. You'll get poetic, too, when you try rolling 'em with P.A. All that I've said here about P.A. for cigarettes goes for Prince Albert in a pipe, too. Try it!

OCB

The papers DO make a difference

Direct from the famous Bollore Mills, in France, come OCB cigarette-papers. Proudest product of the world's acknowledged leaders. Put P.A. in OCB and you have the A B Cs of home-rolled perfection. 150 leaves, 5c, where you buy your P.A.

PRINCE ALBERT

—no other tobacco is like it!

DAILY MARKETS

Cotton Markets

NEW YORK FUTURES
NEW YORK, Feb. 23 (AP)—Cotton futures opened firm; March 18.12, May 18.35, July 18.40, Oct. 18.22, Dec. 18.30.

NEW ORLEANS FUTURES
NEW ORLEANS, Feb. 23 (AP)—Cotton futures opened steady; Mar. 18.02, May 18.10, July 18.13, Oct. 17.96, Dec. 18.01 bid.

LIVERPOOL SPOTS
LIVERPOOL, Feb. 23 (AP)—Cotton spot steady; American strict good middling 10.83; good middling 10.63; strict low middling 10.28; low middling 10.23; strict good ordinary 9.58; good ordinary 9.38. Sales 8,000 bales, 5,300 American. Receipts 24,000 American 23,700.

NEW YORK TRADING
NEW YORK, Feb. 23 (AP)—The cotton market opened firm at an advance of 9 to 13 points on buying prospects by relatively firm Liverpool cables and apparent lack of further rain in West Texas.

Trade buying, covering and commission house demand were supplied by realizing, and the market eased off to 18.30 for May and 18.17 for October, or within 6 or 7 points of last Tuesday's closing quotations.

The market eased later under continued near month liquidation, combined with some local selling which may have been promoted by private reports of over-holiday rains in Texas.

NEW ORLEANS TRADING
NEW ORLEANS, Feb. 23 (AP)—The cotton market opened steady today in sympathy with better Liverpool advice and the relative firmness of that market during the double holiday here.

March traded off to 17.91, May 18.02 and July 18.03, 9 to 13 points off from the opening and 1 to 5 points under the previous close. At the end of the first half hour the market was steady and prices were a shade above the lowest.

Livestock Prices

LUBBOCK LIVESTOCK
The following report furnished by McDonald Packing company:
Cattle—Receipts for today, none; today's killing none; calves—choice white face 8.00 @ 8.50; good medium 7.50 @ 8.00; good heavy 7.50 @ 8.00; good medium 7.50 @ 8.00; common 6.00 @ 6.50; cow—choice 3.50 @ 4.00; good medium 3.00 @ 3.50; common and cutters 4.00 @ 4.50; canners 2.50 @ 3.00; bulls—heavy butchers 5.00 to 5.50; heavy butchers 4.50 @ 5.00; medium and common 4.00 @ 4.50.

Hogs—Receipts for today, none; today's killing none; choice light weight 6.00 @ 6.50; medium 5.50 @ 6.00; heavy 5.40 @ 5.90; heavy 5.50 @ 6.00; stocker pigs 5.00 @ 6.00.

FORT WORTH SALES
FORT WORTH, Feb. 23 (AP)—Hogs 2,000; steady; top 7.75; packing sows 6.50 @ 6.75; pigs 6.00 @ 6.25. Cattle and calves 2,400; steady; slaughter yearlings up to 11.75; fat cows 8.10; butchers cows 7.00; slaughter calves 11.75.

ST. LOUIS SALES
ST. LOUIS, Feb. 23 (AP)—Hogs 18,500; steady; top 8.20; pigs 5.50 @ 7.25; packing sows 6.50 @ 6.75. Cattle 2,200; calves 830; steady; cows 11.40-12.35; butcher yearlings 8.50 @ 11.50; cows 7.25 @ 8.75; bulls 8.00 down; choice vealers 16.00.

KANSAS CITY SALES
KANSAS CITY, Feb. 23 (AP)—Hogs 9,000; slow; top 8.00; packing sows 6.00 @ 8.35; stock pigs 6.50 @ 7.25. Cattle 3,500; calves 500; fat steers opening slow; steady; fat cows strong to 15c higher; vealers and calves unchanged; stockers and feeders, weak; early sales 11.75; latter, price paid for weight clipped horned red Texan choice vealers 12.00 @ 12.40; Sheep, 4,000; higher; top wooled

lamb 15.50; clippers 13.10; choice yearling wethers 12.75; fat, ewes downward from 9.25.

FOREIGN EXCHANGES
NEW YORK, Feb. 23 (AP)—Foreign exchanges steady; Great Britain demand 4.87 1/2-16; cables 4.83 7/8. France demand 3.93 1/4; cables 3.93 1/2. Italy demand 5.29 1/2. Belgium 13.91 1/2. Germany 23.81 1/2. Tokyo 46.77. Montreal 99.78 1/2.

GRAIN MARKET
CHICAGO, Feb. 23 (AP)—Wheat weather over the domestic winter wheat belt together with reports of foot scald in central Europe led to early higher prices for wheat today. Better conditions for the corn crop movement tended to ease down the corn market.

CHICAGO SALES
CHICAGO, Feb. 23 (AP)—Hogs, 62,000; steady; top 8.15; packing sows 6.75 @ 7.00; pigs 6.50 @ 7.00. Cattle, 9,000; fat steers 10c and 15c higher; others slow; fat cows and butchers heifers dull; milk strong; vealers steady; medium light steers 14.00 downward; best weighty steers 16.00; cows 6.00 @ 6.25; bulls 8.00 @ 8.50; light vealers 14.00 @ 14.50. Sheep, 10,000; fat lambs strong; top 16.25; fat ewes 9.00 @ 9.25.

STOCKS AND MONEY
WALL STREET TRADING
NEW YORK, Feb. 23 (AP)—Accumulation of buying orders over the holiday prompted by the recovery exhibited by the market Tuesday caused an upsurge of prices at the opening of the stock market today.

Buying of numerous specialty issues continued, but at a moderate pace. Recognized leaders such as General Motors and U. S. Steel, however, were carried up a point or so. Victor Talking Machine issues were extensively accumulated, reaching new record levels.

CHICAGO POULTRY
CHICAGO, Feb. 23 (AP)—Poultry alive weaker; turkeys 23 @ 24; springs 22 @ 23; turkeys 23 @ 24; roasters 20; ducks 22 @ 23; geese 18 @ 23.

BUTTER AND EGGS
CHICAGO, Feb. 23 (AP)—Butter higher; creamery extras 46; standard 45 1/2-2; extra firsts 41 1/2-2; 45; firsts 42 1/2-2; 43 1/2-2; seconds 39 @ 41 1/2. Eggs higher; firsts 28 @ 28 1/2; ordinary firsts 27.

CHICAGO POTATOES
CHICAGO, Feb. 23 (AP)—Potatoes stronger; Wisconsin sacked round whites 2.00 @ 2.10; Idaho sacked russets Burbanks 2.15 @ 2.25; Florida crates Bliss Triumphs No. 1, 2.50 @ 2.75; Cuba Bliss Triumphs 3.00.

LOCKHART
Lockhart had yesterday decided conditions were too unfavorable for an attempt against the Campbell record and was about to withdraw from the beach when he covered his decision in consideration for the thousands who had gathered to watch his effort.

For several hours after the accident, Lockhart was unable to give an account of what happened to his machine, but William F. Stum, Lockhart's representative, after talking to the pilot late last night, said he believed the disastrous behavior of the car was caused by sudden application of the brakes.

When Lockhart entered an area of poor visibility he jammed on the brakes too quickly, causing the rear of the machine to swing around, while running at speed of more than 200 miles an hour.

Lockhart's chief injuries were cuts on his left wrist and a bad cut on the chin.

LOCKHART
Lockhart had yesterday decided conditions were too unfavorable for an attempt against the Campbell record and was about to withdraw from the beach when he covered his decision in consideration for the thousands who had gathered to watch his effort.

For several hours after the accident, Lockhart was unable to give an account of what happened to his machine, but William F. Stum, Lockhart's representative, after talking to the pilot late last night, said he believed the disastrous behavior of the car was caused by sudden application of the brakes.

When Lockhart entered an area of poor visibility he jammed on the brakes too quickly, causing the rear of the machine to swing around, while running at speed of more than 200 miles an hour.

GOVERNOR
JERSEY CITY, N. J., Feb. 23 (AP)—President Nicholas Murray Butler of Columbia university believes either Governor Smith or Maryland will be the democratic choice for president and that the eastern states will be the pivotal ones in the coming election.

He said he did not believe the democrats, unaided, could elect the next president but that "republican blundering might easily put it in their power to do so."

HEALTHY FERNS
Never keep ferns in glazed cast-ironware. They should be raised from the bottom of their pots by putting pebbles or broken crockery under the dirt. Give them a shower bath once a week. Never let them stand in a dish of water.

CHINESE AGREE TO SETTLEMENT IN BOYCOTT ROW
AMOIY China, Feb. 23 (AP)—The Edmore incident growing out of the shooting of a Chinese boatman by an American steamship officer which threatened a boycott of American goods in this port, was settled today.

On Feb. 9 Chief Officer F. R. Willards of the Edmore attempted to shoot a Chinese alleged to have been stealing flour from the ship and the bullets struck a Chinese boatman, who died later.

No prosecution of Willards is planned as his action in firing on the alleged stevedore is not considered blameable.

OIL IS TOPIC OF MEETING TODAY OF KIWANIS CLUB
Cooperation between wholesalers in the oil and gasoline business was the plea of T. E. May, chairman of the Kiwanis meeting today noon at Hotel Lubbock.

Miss Dorothy McDonald, violinist gave two numbers, accompanied by Prof. W. R. Wagborne; while Mr. Muse, of Dallas, a radio performer of note, sang two popular ballads.

Besides the musical numbers, there was a reading by Miss Bernice Hardberger with a short encore number about Kiwanis. Rev. Jack M. Lewis talked on cooperation in connection with Mr. May's program.

Rev. E. E. White, who presided in the absence of Dr. Fred Standefer, president of the club, announced the meeting of Kiwanis next Thursday at the Canyon community.

It was announced that a number of Kiwanians were attending the district meet in Plainview today.

BLIND PIG CLERK KILLED IN RAID BY TWO-GUN MAN

(By the Associated Press) CHICAGO, Feb. 23—A two-gun terrorist, apparently crazed by drinks or drugs, shot up a blind pig

in dime novel style shortly after midnight today, calmly reloaded his guns, ordered three drinks and then shot the bartender dead, robbed the cash register, and escaped, while 20 men and women looked on helpless.

Robert Wilson, 45, reported part owner of the alleged saloon, was killed.

All the patrons of the place fled after the shooting, except Daniel Johnson, who reported the matter to the police.

Johnson said he had been in the

place but a few minutes when the killer entered, drew two guns and emptied the mat floor and ceiling as he walked to the bar. He said the man terrorized them for a half hour, reloaded his guns and demanded a drink.

With the remark "Well, I guess your work is done," Johnson said the man shot Wilson and fled.

James Casey, 44, was arrested today and identified as the man who did the shooting. Police said he was known as a drug addict. Casey denied any knowledge of the shooting.

ADDITION FOR HOTEL HERE IS LAUDED TODAY

FOUR MORE STORIES TO BE ADDED UNDER ANNOUNCED PLANS

Although in expectancy for the past several months, the announcement this morning that the Lubbock Hotel would be built four stories higher was greeted with enthusiasm by scores of citizens today who expressed themselves as being in accord with the development of the hotelery or any other project which would add to the growth of the city.

The plan, as learned here yesterday, calls for the addition of four stories to the present building at a cost of \$290,000, making the hotel with a capacity of 222 commercial rooms and the total cost of the hotel at around \$700,000.

Presented March 1

The plan will be presented to the stockholders of the holding company, builders of the building, all local men, on March 1. W. A. Myrick, sr., president of the Lubbock Hotel Operating company, who have a ten year lease on the property, said yesterday when approached regarding the proposed development.

Not only will the addition of the four stories be considered, either by the holding company or the operating company, but the erection of a 16-story unit on the Cova-annex site, next door to the hotel, will be eventually undertaken, it was learned. The Cova site is owned by the operating company.

The plan of the four stories calls for duplication of the same type of construction and floor and room plan as is now in the present building, which was originally planned and prepared for ten stories.

16-Story Annex

The sixteen story building, which will follow in the course of time, will be of similar construction and built so as to allow a modern roof garden on the tenth floor of both structures.

Should the stockholders not vote to add the four stories, the 16-story building will eventually follow, it was said.

Summers of large hotel companies

REED CONTINUES "PLAIN TALK" IN TOUR OF KANSAS

(By Associated Press) TOPEKA, Kans., Feb. 23—A democratic platform devoted only to "major" issues was proposed here last night by Senator James A. Reed, of Missouri, in some "plain talk" to the Kansas Democratic club.

The outspoken Missourian declared controversial issues must be dropped if the party succeeds and he termed those party leaders who would force such issues into the platform "the best assistants the republican party can have."

He mentioned no names nor did he discuss the controversial issues.

"Restoration of honesty in government," he argued as the paramount issue and "that work can only be done by the democratic party."

But, he said, "we can only win by putting into the platform the things upon which we agree."

Humble Injunction Dissolved Today

AUSTIN, Feb. 23 (AP)—A temporary injunction restraining the Humble Oil company from laying crude oil loading pipe line into gulf waters near Corpus Christi was dissolved Thursday by the third court of civil appeals here, reversing a Travis county district court's decision.

The attorney general's department obtained the restraining order, claiming such a line would be on state property in unwarranted trespass and on the further contention that marine life would be endangered from possible leaks in the pipe.

coming here have been floating in the city for some time but have been all discounted through reliable sources. A rumor that one company had bought out the Merrill property was rated as entirely false by the agent of the interests this afternoon.

McMillan Defense Would Fix Motives

LOS ANGELES, Feb. 23 (AP)—Defense attorneys in the trial of Dr. Charles M. McMillan today summoned witnesses in an avowed effort to prove that another person had greater motives for killing Mrs. Amelia Appleby, wealthy widow, than did the former Texas physician.

Jerry Giesler, chief of McMillan's counsel, declared he had in readiness witnesses who could testify that another man had a "powerful" motive that might have induced him to commit murder. He declared the police were called at one time to stop a quarrel between Mrs. Appleby and the "other man."

Dr. McMillan, who was Mrs. Appleby's business manager, was accused of having slain the woman for her money. He has persistently maintained his innocence.

Giesler said McMillan would take the stand today in his own defense.

Northeast Texas Shivering In Cold

WICHITA FALLS, Feb. 23—A 48 degree drop in temperature within a few hours sent the mercury down to a minimum of 27 degrees Wednesday night and left Wichita Falls shivering.

Since 5 p. m. Wednesday the maximum temperature was 75 degrees. The norther struck about 10 o'clock Wednesday night.

At 3 a. m. Thursday the mercury registered 23 degrees with a high north wind and cloudy skies.

The Fort Worth and Denver reported flurries of snow around Texline Wednesday night. The temperature at 5 a. m. was 20 at Texline, 15 at Amarillo and 34 at Childress.

Oil Firm Wins In Rentals Argument

AUSTIN, Feb. 23 (AP)—Oil companies obtaining leases from others than the land owners have a right either to drill or to pay rentals, the supreme court held Wednesday in reversing the former successful suit brought by former Governor G. B. Colquitt, Dallas, against the Stimmis Oil company.

Colquitt obtained drilling rights to land with the understanding he could prospect or pay rentals. He transferred the lease to the Stimmis company, the opinion said, for \$7,000 cash and with the understanding that an additional \$7,000 should be paid him from the first net production. The company apparently elected not to drill and its contention that if such an arrangement were satisfactory to the soil owner, Colquitt's action for the second \$7,000 could not lie, was upheld.

KAISER'S KIN IS HELD IN ATTACK ON PAGE IN CAFE

(By Associated Press) BERLIN, Feb. 23—Alexander Subkoff, brother-in-law of the former German emperor, was arrested early this morning at the Casanova cafe. The youthful husband of Princess Victoria Schaumburgippe was charged with having knocked a page boy senseless.

Subkoff was taken to the police station in a taxicab and released after his name and address had been recorded.

The page boy said Subkoff desired to talk in private with another guest at the cafe in the alcove where the page boy was stationed and ordered him to go away. The page boy said he replied that he must remain on duty. Thereupon Subkoff is alleged to have knocked him down and kicked him.

The page was taken to a hospital where examination revealed numerous outward marks of brutal treatment. The page also complained of internal pains.

Subkoff's wife, when the couple arrived in Berlin several days ago, denied all charges that her 27-year-old husband had been leading a riotous life since their marriage. She declared they were looking for a cozy little nest in Berlin.

GRAPEFRUIT COCKTAIL
Grapefruit pineapple and preserved raspberries make a good cocktail to start a meal. Add enough grapefruit juice to give it tartness.

STUFFED CELERY
If you add some Roquefort cheese to the cream cheese and sour cream you are stuffing celery with you will get an appetizing dish.

Thought For Today
Hope deferred maketh the heart
sick.—Prov. 13:12.

Take hope from the heart of man
and you make him a beast of prey.
—Ouida.

Age Of Hope

CLARENCE DARROW, who laid
aside his rose-colored glasses long
ago, thinks we are in serious danger
of losing our freedom.

"The yearning desire for freedom
come from the poor," he says.
"The rich have it anyway and
don't care about it. Freedom and
liberty produce wealth and wealth
destroys liberty."

"Liberty can't live long in a rich
country. There is no denying that we are
a rich country. Are we, as Dar-
row says, getting to the point
where we don't care what hap-
pens to our liberties so long as
we continue to make money? A
great many students of the times
share Darrow's fears."

It isn't surprising that they do.
For the news is always strange and
a bit terrifying. And we in the
United States have embarked on
a new kind of life. We are build-
ing up a culture that is not like
any other that ever appeared be-
fore. It is founded on a new basis:
the removal from the path of ev-
ery man of every material discom-
fort that science or machinery can
conquer.

Of course, we haven't perfected
it yet. There are still slums in our
big cities; there are still the "hot
coal" fields, for instance, where
thousands of men and women are
fighting dirt war. But we have
gone far. The average laboring
man in America has more luxuries
than the rich-man had a genera-
tion ago.

We don't often comprehend what
a revolution this has involved. Did
you ever realize that until very
recently it was taken for granted,
by everyone, that the world would
be a place of material poverty,
the most prosperous country always
would be very poor? Did you ever
realize that everyone not long ago
assumed that it was impossible to
form a society in which the huge
majority of inhabitants would not
be forever struggling in poverty?

We have gotten away from that.
Without exactly meaning to, we
have set up our society on a new
basis. We have decided that pros-
perity can extend to all. We take
it for granted that carpenters and
masons who are building a house
shall drive to work in their own
automobiles—automobiles that are
often more expensive than the car
of the man whose house they are
building. We take it for granted
that a factory hand may buy a
radio, deck his lawn with stylish
clothes and send his boy to college
if he sees fit.

And all of this means that we
are erecting an entirely new civ-
ilization. We have completely re-
versed some of the most funda-
mental tenets of all other cultures.
No wonder that some men, like Mr.
Darrow, get pessimistic! The new
edifice cannot be measured by the
old yard-sticks.

But there is, more reason for
hope than for discouragement. We
are making for ourselves a new
freedom—freedom from material
care, freedom from heart-
breaking worry, freedom from the
chains of want. We are broadening
our horizons; why should we think
that the vision of spiritual freedom
need be lost?

This is not an age for pessimists.
It is an age of hope. We are on
the threshold of a new day. The
gleaming skyscrapers of our great
cities are symbolic—symbolic of
the shining white cities of brother-
hood for which we are even now
laying the foundations.

Miss Grace Moore from Tennes-
see crashed into stardom in Metro-
politan opera the other night. The
queer part of that is that she
weighs only 120 pounds.

Lieutenant LeBrix says one of his
reasons for wanting to marry an
American girl is that he could learn
to speak English. Quite an opti-
mistic young man.

THE PLAINSMAN

Says:
That Girl on Broadway says that
the only time some women take a
back seat is when they want to di-
rect their husbands in the oper-
ation of the family auto.

Charles "Speed" Holman, who
last summer won a cross-coun-
try air derby, has established a
new record for making air-
planes loop-the-loops, but he'll
get no sideline buzzes from
The Plainsman.

The men who are risking their
lives in accomplishing aerial feats
to advance the cause of aviation
are doing a laboratory work for the
benefit of the world at large. But
the "stunters," who seem to be en-
veloped by an epidemic of fool-
hardiness, are only making harder
the tasks of the sensible aviators.

Mr. Holman made 1,088 to break
the record of 515, but just because
he did is no reason that commer-
cial aviation will take the center
of the transportation stage any
time. Every time the public as a
whole gets a good opinion of avia-
tion, through the sensible experi-
ments of birdmen like Lind-
bergh, Chamberlin, Byrd and Bal-
chen some stunter sets out to dis-
cover a new method of nose-diving
and, after breaking his neck, the
people who really wish aviation to
be seen in its just light, discover
the majority of the folks have
thrown up their hands again in
fear and horror.

So, in aviation, as in other
lines of endeavor, we have one
serious-minded group of aviators
struggling to remove a fog of mis-
directed public opinion, and another
group, seemingly as insistent upon
being seen, doing its best to make
average citizens feel that no-
body but fools do and should
operate or ride in planes. The
sensible group, of course, is
bound to triumph in the end
but from all indications they are
going to have to put up a
stiff battle doing it.

That Man on Avenue Q says that
the folks who are booming will
begetters for the presidency are at-
tempting to carry a joke entirely
to far.

In a recent meeting of one of
Lubbock's women clubs one
member, so The Plainsman is
informed, arose quite solemnly
and suggested that the members
of the club do and should
refrain from printing crime
news. At least two other mem-
bers, however, immediately put
a stop to the discussion by
pointing out to the first mem-
ber that "news" is something
that happens—something which
arises through the thought or
action of the people who make
it—and that a newspaper, un-
less it prints the news, is not,
in reality, a newspaper.

Papers, and the men and women
who make them, do not make
the news. The news is made by
the people who read the papers after
they are built. It is a wonderful
theory that newspapers should be
filled with what people should read
rather than with what they want
to read, but the theory has been
found too many times to be just a
theory. Furthermore, a theory
which will not work out in prac-
tice.

The Plainsman readily admits
that the reading public should be
protected from that portion of the
news which is not fit to print. Sor-
did, revolting, nauseating intima-
cies of the news, although secretly
appealing to many people, should
not, as The Plainsman sees the
matter, be permitted to sneak into
decent homes and it is to shield
the majority of the people from
the garbage of current events that
we have editors.

It is entirely in order to protect
our homes from this type of news,
which of course nearly always finds
its way into criminal cases. But to
say that ALL-CRIME news should
be suppressed in its entirety is not
only impossible and too impractical
even to mention, but is likewise
unnecessary and dangerous.

Crime news should be, and gener-
ally is, presented in such a way
as to be a warning to others who
are wavering upon a career of
crime. To do away with it entirely
would remove from the wayward
that ever-present warning, in ad-
dition to depriving the general
public from some information to which
it is justly due.

The good lady who suggested
that a petition be drawn up in
an effort to stop publication of
crime news undoubtedly meant
to do her part in bettering what
to her is a sorry situation. But
had she considered the matter
in its entirety she would prob-
ably never have mentioned her
well-meaning but entirely im-
practical suggestion.

All work—no play.
From day to day.
Helps the digestion, it is said.
Take time today.
For wholesome play.
For you won't have time
To frolic when you're dead.

The Gleaners

"Without-Or-With, Offense To Friends Or Foes, We
Sketch Your World Exactly As It Goes."—Byron

Plea Of Domestic Sugar Growers Places Tariff Talk
On Business Basis At Last, Rodney Dutcher Reports

BY RODNEY DUTCHER
NEA Service Writer
WASHINGTON, Feb. 23.—Probably
everyone who ever wrote a
story about the tariff wondered
whether anyone else would
read it. The doubt has discourag-
ed many tariff stories which have
not been missed.

Recent developments, such as
the Senate's passage of the Mc-
Master resolution, however, indi-
cate that some day the tariff may
be put on a business basis. Mean-
while there may be more tariff
stories to read. The question is
tied up with such important matters
as prosperity, commodity prices, wages
and international relations, so why
not?

The key to the tariff situation
is that those interests which don't
benefit from the tariff don't want
any and that those which benefit
from a tariff want all they can get.
These two classes no doubt will
clash endlessly, with occasional
compromises.

Perhaps one way to make a tariff
story more or less interesting is to
tie it up with some particular com-
modity. Present efforts for legisla-
tion by the beet sugar industry
come to mind and will be cited be-
cause the industry is now asking
for the earth, and its arguments
concern the national consumption
of sugar, which nearly all of us
have eaten at one time or another.

The world eats 25,000,000 tons
of sugar a year. About nine million
tons of it is beet sugar. The
United States consumes 6,000,000
tons a year. Half of that is Cuban
cane sugar, a sixth is domestic
beet sugar and most of the rest
comes from Hawaii, the Philip-
pines, and Porto Rico, with 50,000,
or 60,000 tons of cane from Louisi-
ana. Beets furnish nearly all our
domestic sugar production.

Hawaiian, Filipino and Porto
Rican sugar is imported free of duty.
Other foreign nations are sub-
jected to a tariff of \$2.20 a ton,
except in the case of Cuban sugar,
on which the duty is \$1.76.

Lately the sugar industry has
been cursed with overproduction.
Beet sugar factory earnings have
been low in recent years as a result
and some factories have been closed
down. There are, incidentally,
now 84 such factories operating in
19 states.

The beet sugar companies want
some curb put on Filipino sugar's
free to 1913 Philippine sugar was
duty free to 300,000 tons, which next
year was reached. In that year, re-
striction was removed altogether.
Now the annual importation from
the islands is 500,000 tons, an in-
crease of 300 per cent since 1913.

The beet sugar industry wants
the duty free importation limited to
500,000 tons, recalling that the Cu-
ban production once doubled in
three years.

Congress is being informed that
the government is now sacrificing
a domestic industry for a possess-
ion 7000 miles away—that Fili-
pino sugar is raised by a cheap
tenant farmer system which has
sometimes almost approached pen-
ury, whereas American beet farm-
ers are paid at a fixed rate, an ag-
gregate of \$55,000,000 a year.

The beet sugar industry hopes
to develop to the point where it
may supply half the domestic sug-
ar consumption. It has no hope
of obtaining any bars against the
daughters of struggle can find
berths that actually include bath-
rooms and heat.

OUT TO FIGHT COMMON COLDS
The vast plant of Johns Hopkins
hospital is to be devoted to an effort
to free mankind from the scourge
of the common cold. Here is a sub-
ject that interests every man, wo-
man and child in all the land. Ev-
erybody has colds, summer and
winter, and nobody knows precisely
what to do about them.

The great life insurance compan-
ies have made statistical studies of
common colds and have decided
that the amount of absenteeism in
large business and industrial estab-
lishments due to minor illnesses,
chilly colds, is appalling, running
as high as 25 per cent of all employes,
and taking from two days to a week
on the average out of each person's
earning capacity every year.

Colds, according to a United
States public health survey, head
the list of illnesses with an annual
rate of 415 per 1,000 persons or al-
most 50 per cent of the population.
Influenza and grippe are next in
frequency with a rate of 143 per 1,000
and out of these cases it is fair
to assume grew the 87 cases per
1,000 of pneumonia.

Yet despite the fact that doctors
see more of colds than of any other
disease, practically nothing is
known of the cause of common
colds. The scientists will have to
start from the bottom. It is an-
other case of Mark Twain's com-
ment on the weather: "A great deal
has been said about it, but very lit-
tle has ever been done." Every dis-
ease, including colds, scientists be-
lieve is bound up with the chem-
istry of the human body, a chemistry
which when normal is called health,
and which when its functions are
deranged is called sickness. Millions
of dollars are now spent on reme-
dies which do not relieve and other
millions are lost through the dis-
location of industry due to sickness
from the cause. If the Johns Hop-
kins scientists can conquer the com-
mon cold, they will have conferred
an inestimable boon upon mankind
—Amarillo News-Globe.

It is the little things and the in-
significant things that we very of-
ten neglect, and allow to arrange into
more serious and more fatal type
of disease or illness.

Colds have been known among
the human race as long as people
have known themselves, and we
presume that very few have ever
tried to find out exactly what causes
it. We have countless remedies for
this trouble, but as to the actual
cause of the trouble, we suppose
that it has been considered too
small a thing to bother about.

WEST TEXAS: Tonight fair, col-
der, temperature will be 22 to
25 in north, 26 to 29 over the
interior of south, and 29 to 34 on
the coast; Friday fair, colder on
the coast, not so cold in extreme north-
west portion. Livestock warnings:
Increasing northerly winds on the
coast.

EAST TEXAS: Tonight fair, col-
der, cold wave except in northwest
portion, temperature will be 22 to
25 in north, 26 to 29 over the
interior of south, and 29 to 34 on
the coast; Friday fair, colder on
the coast, not so cold in extreme north-
west portion. Livestock warnings:
Increasing northerly winds on the
coast.

While the country is talking about
this disappearance and that, wouldn't
it be a good idea to find out
what become of those fellows who
used to make their living playing
Hawaiian guitars?

Hawaiian and Porto Rican cane
sugar crops. Contending that the
beet industry should be developed,
it recalls the time when depen-
dence on Cuban sugar cost
Americans 24 cents a pound for the
stuff.

The beet pulp, after sugar has
been extracted, is used for cattle
vegetable. An acre of beets, in
this manner, is supposed to produce
as much human food in the form
of meat as an acre of corn and the
industry claims to create 240,000-
000 pounds of meat a year by dis-
posal of the leaving. It has made
Denver the world's greatest sheep
feeder market.

This being the plea of the do-
mestic sugar industry, Congress
will have to determine whether it
deserves to be helped.

FORMER MAYOR
OF MESQUITE IS
GIVEN 50 YEARS

(DALLAS, Feb. 23.—) Unheeding
his plea that he shot because he
feared for his life after having been
found in a hotel room with another
man's wife, a jury here last night
found John Lawrence, Mesquite
banker and former mayor, guilty of
the murder of Jack Kimbell and
fixed his punishment at 50 years
imprisonment. Kimbell was slain on
the public square at Mesquite, on
October 6.

Lawrence, who showed no emo-
tion when the verdict was read,
gave notice of appeal. His wife and
mother sobbed aloud while friends
who had helped elect him mayor
of Mesquite three times shook his
hand before he was led back to jail.

Testimony offered at the trial
was to the effect that Kimbell was
slain in the back while fleeing from
Lawrence, who had obtained a gun
from his bank after a fight with
Kimbell and two of his brothers on
the square at Mesquite.

America is a country where ju-
ries decide whether or not a crim-
inal is insane, but where the jury
always gets the benefit of the doubt.

New Coats

—and—

Coat Suits

You are most cordially invited to view the magnificent showing of Spring Coats and Coat Suits here. Every lovely new material and style development shown in a wonderful array of the most popular fabrics.

Many of these will be specially priced for this End of Month Event!

'Cravenette'

The clothes for boys up to 18 years! They are guaranteed to outwear any other clothes made. A new, secret scientific process of treating wool makes these Cravenette Suits the greatest contribution to boys' wear. They are in the most popular shades for spring and in short and long trouser styles. Sizes from 8 years to 18 years.

5 Days Only!

Beginning Friday and through Wednesday the above good values—extra values—may be had as long as lots last. Be sure and come!
