Sharp Increase Hinted In July Oil Allowable

Austin. — Railroad Commissioner Chairman Jim C. Langdon hinted Wednesday, after a meeting with representatives of major oil companies, at a sharp increase in the July oil allowable.

He said producers have enough excess capacity to meet the emergency requirements caused by the Middle East crisis.

"However, even though the mechanics of setting allowables and obtaining the production can be achieved with relative ease," said Langdon, "the logistical problems of suddenly transporting large additional volumes of crude to tidewater and subsequent movement to desired points of delivery are complex and will require the exercise of ingenuity and determination on the part of both industry and government, which is assured . . ."

The commission is scheduled to set the July allowable at a hearing here June 15.

Langdon said he believes the state's production can be boosted one million to 1.5 million barrels daily "within a reasonable length of time" if necessary.

The commission met here with representatives of Mobile Oil Corp., Atlantic Richfield Co., Texaco Inc., Gulf Oil Corp., Pan American Petroleum Corp., Shell Oil Co., and Humble Oil & Refining Co.

The discussions, Langdon reported, concerned the Middle East situation's effects on both the United States and its allies.

"Joint studies of plans are continuing," he said, "to devise the best and most efficient means of making the necessary amounts of crude available for future delivery as and when needed."

Close contact also is continuing, he added, with the Department of Interior, Defense and State.

SPECIAL SESSION? — Legislators knew their job was little more than half finished when they adjourned at midnight May 29.

Governor John Connally cheerfully reminded them that he would "see them in the fall or next year," meaning that that is when the 1969 budget and a balancing tax bill must be written.

Later, Connally told reporters that it is highly unlikely he will call the special finance session before next year. He hinted that next year's tax bill may be less than the predicted \$150,000,000 to \$200,000,000 and he does not intend to recommend an increase in the general sales tax rate.

AIRPORT FUNDS AVAILABLE — Legislature appropriated \$475,000 for building and improving small town airports. Big Bend National Park will get \$150,000 plus federal aid for new airport; Lake Whitney State Park, \$40,000, and \$25,000 will go to aviation research at a higher education institution.
