Lamesa-Lubbock Highway Slated For \$190,000 in Improvements

Highway to Be Widened, Reworked from Lamesa to Dawson County Line

Work on improvement and widening of U. S. Highway 80 between Lamesa and Lubbock will begin after the first of the year, the State Highway Department has informed County Judge Kilmer Corbin. Work will be done on the section from Lamesa north to the Dawson County line.

The \$190,000 project will start, Kilmer said, simultaneously with construction of farm-to-market roads in Dawson.

Approval of four farm-to-market projects, totalling 21 miles of improved roads, was given Dawson County last summer by the State Highway Department.

Construction of the farm-to-market roads will be done by the State Highway Department at state expense and maintenance will be continued just as highway systems are maintained, the county judge added. Dawson County's responsibility on the roads is limited to securing the right-of-ways.

Lions Program Features Lamesa Trumpet Player

Program for the Thursday noon Lions Club program featured appearance of Richard Crawley, discharged armyman, who played trumpet selections. He was accompanied by Mrs. Weldon Lindsey.

Crawley, who was with the headquarters detachment of Gen. George S. Patton's Third Army and later with a Seventh Army band unit, spent 31 months in the European theater of war. Son of Mr. and Mrs. W. K. Crawley, he has been honorably discharged.

Reports from the zone meeting at Snyder, attended by 14 Lamesans, were made at the Plaza luncheon. Leslie Pratt, vice president, was in charge of the meeting.

Other guests included Lion Joe Clark, on leave from the navy; J. M. McDonald and John H. Biggs, Midland; and Pete Newman of Danville, Ill.

Lamesa Fireboys Win Hockup Race At Permain Meet

Lamesa Volunteer Fire Department walked away with first place in the two-man hose hockup race and a cash prize of \$15 last Sunday at a Permain Basin firemen's convention in McCamey. Eighteen Lamesans attended.

The winning two-man hose hockup team was composed of Jack Mitchell and J. D. McAmis. Their time, declared by Chief John W. Hildreth to be plenty fast, was 12-3-4 seconds.

Next convention will be in Alpine in the early months of 1946, the Lamesa fire chief reported.

Attendants for the McCamey meeting from Lamesa included Mr. and Mrs. Hildreth, Mr. and Mrs. Pete Carnes, Mr. and Mrs. McAmis, Mr. and Mrs. Blaine Wiggins, Mr. and Mrs. Hiram Vaughn, Mack McGill, Mitchell, Mr. and Mrs. Rufus Pruitt, Rube Kelly, Miss Bessie Lisenbee and Mr. and Mrs. T. J. Middleton.

The Lamesa Volunteer Fire Department has 22 members.

Baptist Pastor In Brownwood

Dr. Clarence A. Morton, pastor of Lamesa's First Baptist Church, and Mrs. Morton are in Brownwood early this week. Dr. Morton will return here in time to conduct prayer meeting at his church Wednesday night.

The Baptist minister will attend a trustee meeting for Howard Payne College, Brownwood, and will participate in ground breaking for the \$100,000 building to house returning veterans and their wives who attend HPC.

Tornado B Team Ties Midland 7-7

The Tornado "B" team and the Midland Bulldog "B" team battled to a 7-7 deadlock on McCollum Field Thursday afternoon.

Midland's reserves held the upper hand and grabbed a seven-point lead in the first half, but the Lamesa lads took charge of the contest in the second half to earn a tie with the visitors.

T. J. Corbett crashed through from the 2 yard line for the Tornado tally, and Jim Rowbotham plunged over with the tying extra point.

Lamesa's Breezes, lately under the tutelage of former Tornado center Darrel Beck who has recently been discharged from the service, will play the Midland youngsters here Thursday afternoon, November 1.

Leathernecks Back Dawson County

Recently receiving their discharges from the Marines, three Lamesa leathernecks have returned here to live. The news was issued out of the Marine procurement station in El Paso.

The trio includes First Sgt. Carl C. Wiggins of Star Route, Pfc. Melvin E. Boothe of 410 Austin Avenue and Ralph A. Phillips of Route B. Wiggins and his wife plan to operate a Lamesa farm. Boothe, who participated in the Rio-Namur, Salpan-Tinian and two Jima campaigns, is headed for the variety store business. Phillips, who took active part in operation at Guadalcanal, Tarawa and the Marianas, has no definite plans for his civilian life.

Better Register Those Souvenir Guns, Fellows

A reminder to war souvenir packin' soldiers and to the public generally that certain types of firearms must be registered with the federal government has been issued by the bureau of internal revenue. J. M. Watson, alcohol tax unit investigator for the Lamesa area, said Friday.

Firearms which come under the federal registration act are those which fire more than one shot with a single continuous squeeze of the trigger, such as sub-machine guns and machine guns.

Further, it is illegal to transfer arms of this type without informing the bureau and filling out proper forms, Watson said.

Details on the regulations may be secured from the investigator in charge, Alcohol Tax Unit, Box 5566, Dallas.

The National Firearms Act provides a penalty of fine not to exceed \$2,000, or imprisonment not to exceed five years, or both, in any event any person is convicted on a charge of violating any provision of the act, which includes failure to register a firearm of the type described and transfer of such firearm without payment of the \$200 tax.

Collegiates Are Eligible in State Historical Contest

The Texas State Historical Association has announced the Louis Wiltz Kemp Essay Contest in Texas History. The contest, established by Hon. Harry Pennington of San Antonio, is open to all undergraduate students beneath the age of twenty five enrolled in Texas colleges. Prizes totalling \$175 will be offered.

Papers may be written about any phase of the historic past of Texas—political, economic, cultural, social, geographical, biographical or industrial. Original research and contributions to the fund of knowledge about Texas will be given consideration over re-statements of known facts.

The contest closes April 1, 1946. Full information regarding it may be secured by writing the Texas State Historical Association, University Station, Austin 12, Texas.

Navy Releases Four Lamesans

From the Eighth Naval District branch public information office, Dallas, came news that four Lamesans had been discharged from the U. S. Navy.

They were Grady C. Flowers, 24, seaman second class; R. B. Hobbs, 40, painter third class; William S. Cox, 30, machinist's mate second class; and Billie E. Griffith, WAVE, daughter of Mr. and Mrs. S. L. Wooten.

Air Force Vet Visits in Lamesa

Paul W. Burton, 26 is visiting his parents, Mr. and Mrs. J. E. Burton in Lamesa. He has just been given his discharge from the army air force after nine years' service, two of which were spent overseas.

Line chief with the Eighth Air Force, Burton's rating was master sergeant. His overseas duty was in Newfoundland and England. The AAF veteran and Mrs. Burton spent last week end in Fort Worth and Tyler. Burton attended the Texas-Oklahoma football game in Dallas.

Harold R. Scott, veteran of 20 months service in the European war theatre, has received his military discharge. Scott, private in the infantry, participated in the Normandy, France, Belgium, Holland, and Germany campaigns. He holds the Purple Heart with an oak leaf cluster and the Bronze Star. After completing his tour of foreign duty, Scott was returned to the states September 18 and was discharged at Fort Sam Houston 10 days later. He is the son of Mr. and Mrs. H. M. Scott of Sparenberg. His wife and son, Harold R. Jr., live at 1407 North First Street, Lamesa. Prior to entering the service three years ago, Scott was a farmer.

Santa Fe's Gross Income Decreases During September

The Santa Fe's gross railway operating income for September, 1945, was \$36,852,481 according to a statement released by President F. G. Gurley to F. J. Barkhurst, local agent. This is a decrease of \$8,335,161 compared with September, 1944.

Adjustments in operating expenses and tax accruals to give effect to Presidential proclamation of September 29, 1945, ending the emergency period for amortization of defense facilities, resulted in a red figure of \$11,122,991 for September, 1945.

Comparative figures for the month and nine months period for three years are:

September gross, 1945, \$36,852,481; 1944, \$45,187,642; 1943, \$38,740,853.

September net railway operating income 1945, \$11,122,991; 1944, \$5,796,882; 1943, \$3,974,679.

Operating income (red) nine months' gross 1945, \$415,964,873; 1944, \$389,834,622; 1943, \$342,862,399.

Nine months' net railway operating income 1945, \$28,622,136; 1944, \$40,125,367; 1943, \$45,359,031.

Serviceman Takes Active Charge of Lamesa Business

Earnest Barrett is back in Lamesa with honorable discharge from an infantry unit to take charge of his service station and grocery store at the corner of South First and Bryan. The business has been in charge of Mrs. Barrett during the local man's period of service.

Barrett will be glad to greet old customers, and he will appreciate new business.

The infantryman fought in Germany, France, Belgium and Luxembourg. He holds the Purple Heart for injuries received in action, the Good Conduct medal and the European theater of operations ribbon with three battle stars. He was overseas 18 months.

Elementary School Makes 37-Second Fire Drill Record

Fire Chief J. W. Hildreth is passing out compliments these days on the teachers in the Lamesa Elementary School, in regard to their well-trained students.

Recently Hildreth, who has been chief of the Lamesa Volunteer Fire Department four years, and Leslie Pratt drove up to the school to speak on "Fire Hazards."

Follows the talks, the firemen decided to see what sort of fire drill training the students had. The fire alarm sounded, the elementary students marched out of the building in orderly fashion and were lined up on the campus all in 37 seconds.

That's the kind of cooperation firemen get in Lamesa, the fire chief boasted. "And we appreciate it!"

Feed Store Under New Ownership

Jones-Landers Grain & Feed is the new name for the former Henningsen Feed Department. New owners are Dick Jones and T. J. Landers, who has managed the store for Henningsen.

Landers will continue as active manager of the feed store, which features sale of Rocking H and Lamesa Brand feeds. Jones-Landers also will continue buying all kinds of grain.

Sweetwater Mustangs Win 14 to 0 Over Tornados

By BILL WARREN

Sweetwater's Mustangs kept their 3-AA record unblemished Friday night as they scored touchdowns in the first and fourth quarters before a big crowd in the fine \$85,000 Mustangs bowl to defeat Lamesa's Golden Tornados 14 to 0.

Lamesa made 10 first downs to the Mustangs' 4, but the Tornados lacked the vital scoring punch and they were caught off guard twice on the defense as the Mustangs scored both times on long gains that fell in the "shouldn't have happened" category.

Elmer Shaw, listed as an end on the Mustang roster, subbed in for Mustang quarterback Degalish late in the first quarter and went around Lamesa's right end 40 yards to tally. Robinson, Mustang halfback, converted the Tornado end was followed by a Mustang blocker, and the Lamesa secondary was sucked in completely out of position.

Then with less than two minutes to play Lambert, Mustang fullback, tossed a pass to Doil Feagan, shifty little Sweetwater halfback, on the Tornado 8 and Feagan, converted over the goal line. Robinson's diversion kick hit the crossbar and tumbled over for the extra point. The play was good for 30 yards. Lambert standing back as if to kick. Two Tornado defenders went back with Feagan but the ball slipped in between them and into his arms.

The Tornados kicked offensively throughout the game but they never reached paydirt. Lambert, whose fine punting helped keep Lamesa at bay, kicked out on the Lamesa 10 in the second period. Nieman passed to Patterson for 16 yards. Patterson made 8, Rippy picked up 4, and Nieman made 4 yards. Then Nieman quickkicked 40 yards.

Sweetwater was forced to punt, and Lamesa threatened again as Nieman passed to end Donald Hoover for a 28 yard gain. Lambert intercepted for Sweetwater to halt this drive, but the Tornados held and threatened again as the half-time neared. A long pass from Taylor to Nieman, and another from Nieman to Clark were just a fingertip away from completion. Rippy laid a punt out on the Mustang 10, and Sweetwater was penalized to the 1. The first half ended with the pigskin on Sweetwater's 28.

Orvil Nieman intercepted a Sweetwater pass early in the third quarter to stop a Mustang drive that had carried to Lamesa's 15, and ran it back to the Tornado 14. From that point the Lamesa lads marched the locals best effort with an before they lost the ball a yard short of a first down. Nieman started the locals best effort with an 11 yard pick-up when he couldn't spot a receiver. Rippy gained 6 yards, Patterson picked up two yards, and Nieman made it another first down on the Lamesa 36. Rippy threw a good block that helped Patterson go to the Mustang 46. Taylor heaved the ball to Nieman in the flat and he went down to the Sweetwater 14. Patterson drove to the 9, and Nieman legged it to the 5 gain and attempted pass.

Patterson took a long pass and got inside the Sweetwater 20 in the fourth period but the play was called back. Feagan went 15 yards soon after but the Mustangs were called back and penalized this time. Sweetwater recovered 3 of Lamesa's 4 fumbles, and intercepted 4 Tornado passes. These seven instances of alertness on the part of the Mustangs cost the Lamesans heavily.

Both lines played good ball from end to end. Hoover, Hurley, Matlock and Bizzell led the Tornado defense with Lincoln, Smith and Timmons standing out for Sweetwater. Patterson was a defensive power in the Lamesa secondary.

Statistics and starting line-ups:

Lamesa	Sweetwater
10 first downs	4
101 yards rushing	178
100 yards passing	33
21 passes attempted	4
7 passes completed	2
6 for 202 punts, ydgs. 11 for 329	3 for 15 pen. ydgs. 7 for 65

Lamesa	Sweetwater
Hoover	Left End
Fortenberry	Left Tackle
Bizzell	Left Guard
Hurley	Center
Eudy	Right Tackle
Matlock	Right Tackle
Clark	Right End
Taylor	Quarterback
Nieman	Left Half
Patterson	Right Half
Rippy	Fullback

Substitutes: Lamesa—Tanker-wiggins, Helms, Rowbotham.

Farmers Discuss Problems Today In Bureau Meet

Dawson County members of the Texas Farm Bureau Federation, recently formed with 18 members, will attend a district meeting in Big Spring today. Reconversion and postwar problems confronting agriculture will be the principal topics for discussion of area producers at the meeting.

County membership for the local organization is R. A. Stricklin, and W. M. Yates is temporary secretary. Precinct chairman is Welton Blair. The meeting is sponsored by the Texas Farm Bureau Federation as one of a series of 14 scheduled throughout the state. J. Walter Hammond, president, announced. Purpose is to bring farm and ranch people first-hand information on the immediate problem of postwar prices.

"These is a growing sentiment to lower agricultural prices," Hammond said. "A collapse of farm prices, such as followed World War I, will lead to a break in the entire price structure of our economy. It will take the combined thinking of the minds in agriculture to map a sound and practical farm program that will insure fair prices and prevent endangering the postwar economy of our nation."

The Farm Bureau strives to represent the true thinking of the producers of this state, Hammond continued. It is therefore necessary to call the farm and ranch people in to district conferences to give them an opportunity to express their views on the issues of such paramount importance at this particular time, so that as an organization the Farm Bureau will know what course of action to pursue, he declared.

C. H. DeVaney of Coahoma, member of the state board of directors from this district, will preside. The session will begin at 10 a. m., in the Hotel Settles at Big Spring.

Tornadoes Play Abilene Nov. 9

The Golden Tornados, chagrined by their 14 to 0 loss to Sweetwater but thankful that they suffered no casualties in the tussle with the Mustangs, have an open date next week which gives them a fortnight to get ready for the strong Abilene Eagles.

Abilene, one of the best teams in the district, got off to a bad start but the Eagles have looked promising again in their recent victory over Lubbock 12 to 6 and their latest triumph a 27 to 6 win over Midland Friday. Coach Bentley's crew has won three and lost three games thus far, and his Abilene eleven will be favored to trounce the Tornados by several touchdowns.

Lamesa and Abilene will clash on McCollum Field on Friday night, November 9. This is the next to last home encounter for the Tornados, Odessa furnishing the final opposition on the local gridiron on November 16. The home club will wind up the season by meeting the Bulldogs in Midland on November 22.

Coach Sanders and his lads will need every minute of the two weeks they have to get ready for Abilene. It is likely that several changes will be made in the starting line-up, and that more attention will be given to pass defense. Lamesa's lack of scoring punch was a decisive factor in their two-touchdown loss to Sweetwater, for the locals gained a huge superiority in first downs.

A long pass gained Sweetwater's second tally, despite the fact that two Tornado defenders were right beside the receiver.

It is quite possible that Lamesa fans have already seen Bud Eudy, big Tornado guard who is one of the fastest men on the squad, play his last game in the line. Eudy may be shifted to a regular starting berth in the backfield where his speed and power will be figured to give the offense more versatility.

Next week Abilene meets Sweetwater, still undefeated in conference competition although the Mustangs have played only Midland and Lamesa. Midland clashes with San Angelo, and Odessa, practically sure of winning the district flag since edging by San Angelo 7 to 0 Friday, plays Ysleta in a non-conference melee.

Odessa plays the Mustangs at Sweetwater, and Big Spring meets the Bobcats in San Angelo on November 9.

Cpl. Walter F. Harper, former student in local schools, has been in service for the past three years. Tail gunner on a B-17, corporal Harper spent three months in England, during which time he earned a Presidential Citation among other decorations. He returned to the states June 29 and is now stationed at Las Vegas, N. M. Corporal Harper, who was employed on a sheep ranch in Olathe, Colorado, prior to entering the service, is the son of Mrs. F. A. Lauderdale of Olathe and the grandson of Mrs. T. L. Hahn, former Lamesan.

Last Rites For Mrs. Rosa Skeen Friday, Oct. 26

Funeral services for Mrs. Rosa A. Skeen of Brownfield, who died October 25, were held at the Higginbotham Funeral Chapel Friday, October 26, at three o'clock p. m. with O. H. Taboy, pastor of the Church of Christ officiating.

Mrs. Skeen was born to Mr. and Mrs. G. D. Caskey in Florence, Williamson County, Texas, October 27, 1880. She had been a member of the Church of Christ for many years.

Funeral bearers were Matt McCall, O. H. Morris, H. Harris, Elzie Burelson, Gus Schmidt, all of Lamesa and E. B. McBride of Brownfield.

Surviving Mrs. Skeen is one brother, Otho Caskey of Florence, Texas, and two sisters, Mrs. W. J. Savage of Florence and Mrs. H. B. Shafer of Roscoe. One son, Elmo, died February 20, 1928.

Science Points to New Butter Values Following Research

Two years of research by Dr. W. R. Bloor have revealed interesting and vital information concerning butterfat.

Dr. Bloor is professor of biochemistry and pharmacology at the University of Rochester, and is a renowned authority on the chemistry of fats.

It was long been known that there are marked differences in the composition of the various food fats. Some contain a large variety of fatty acids and others contain comparatively few types. When extracted from fat of these fatty acids are solid, some are liquid and some are volatile.

Dr. Bloor extracted and purified all of the fatty acids of butterfat, grouping them into the solid, liquid and volatile fractions. These fractions were then fed to different series of animals.

Animals receiving the liquid fatty acids grew best and stored about twice as much vitamin A in their livers as did the animals which received the solid fatty acids. Those fed the volatile fatty acids not only made the poorest growth but also stored the least amount of vitamin A.

This preliminary report, stated the National Dairy Council, indicates that the chemical composition of food fats helps to determine the nutritive efficiency of other foods in the diet. It is highly probable that some fats are more efficient than others in so far as their influence on the utilization of carotene of a mixed diet is concerned.

It appears that butterfat is superior to vegetable fats in this respect. This is especially significant since, according to a recent government survey, over half of the vitamin A potency in the average American diet is derived from food, leafy, and yellow vegetables—foods which are virtually fat free.

Wright G. Boyd Gets Discharge

First Lt. Wright G. Boyd, stationed at Baer Field, I Troop Command base, Fort Wayne, Ind., was given honorable discharge from the U. S. armed forces October 20. He is the son of Mr. and Mrs. Wright Boyd of Lamesa. Graduate of Lamesa high school, he also attended Baylor University, Waco, before entering the service.

Veterans Volunteer Workers In Victory Loan Drive

Mrs. Tom Wood Is Made Co-Chairman of Bond Event, Leader Report

Four Lamesa ex-servicemen have volunteered their services as co-workers in the Victory Loan Drive, Chairman J. P. White said Saturday. Mrs. Tom Wood has been made co-chairman for the Victory drive in Dawson County.

Kickoff for the bond selling drive came today and is scheduled to close December 9. Overall quota for Dawson County bond sales has been set at \$480,000, with the series E goal at \$250,000.

The veterans who have volunteered to assist with the drive are Weldon A. Lindsey, Stansell Clement, John T. Agee and Vernon Adcock. Bond booths in the First National and Lamesa National Banks will be open during banking hours. Mrs. Noble H. Price has been made chairman for the booths this week. Mrs. Walter Harold Collins will be in charge the second week of the drive, White reported.

County Judge Kilmer Corbin will serve through the Victory Loan as chairman of speakers. Corbin will select speakers for bond rallies, club meetings and other occasions during the month-long bond event. First Roosevelt Bond of the \$200 variety was purchased today by Joe M. Peterson of Lamesa, Chairman White said.

Approximately six million volunteer bond salesmen participated in the Seventh War Loan. More volunteers will be working for the Victory Loan than in any other previous drive, officials declared.

"The shooting is over, but the war cannot be considered over until the bills are paid," the Dawson County chairman said. "The bills are enormous, but when we look at the items, no American will shirk one of them," he added.

He listed costs of the occupation forces, transportation of the wounded, mustering-out pay, rehabilitation costs, unpaid bills for war material and war contract termination commitments as the prominent cost items which the Victory Loan is intended to defray.

"Every hour of every day from December 7, 1941, the gallant people of Dawson County were on the job—at home and throughout the world—performing their tasks in winning the war. Everyone who went forth to foreign soil, or who remained at his post at home, had an individual and vitally-important job to do in the operation of the greatest war machine ever assembled by man."

Just how well every single duty was performed will not be left to the colorful pages of history alone, but is already known throughout the world. Let's pull together to put the finishing touches on the victory by surpassing our Victory Loan quota in record time," was White's final appeal.

Chairman White has announced Victory Loan E bond quotas and chairmen for the county's drive, as follows:

Mr. Olive Willie Stovall, \$6,000; O. K. Jesse Merrick, \$4,750; Mullins, L. I. Dean, \$6,000; Sunset, W. L. Lee, \$1,000; Grandview, C. G. Anthony, \$4,500; Woody, D. L. Adcock, \$3,250; Bartlett, Alton Addison, \$3,250; Liberty, Mrs. Eric Barron, \$6,000.

McCarty, R. S. Jackson, \$4,250; Muncer, Cecil Broyles, \$3,250; Harmony, Cecil Gillespie, \$4,000; Ackery, E. G. Murphy, \$9,500; Welch (Dawson Independent), C. E. Green and J. A. Johnson, \$15,000; Hancock, Ben Dopsos, \$5,250.

Key, H. L. Jeter, \$4,750; Klondike, W. W. Beeman, \$17,500; Sparenberg, Otto Reithmayer, \$17,500; Union, W. B. Marshall, \$10,000; and Lamesa \$122,250.

The quotas are based on the distribution of population in the county, White said.

Lamesa Major Helps With AAF Work In Tokyo

Maj. John G. McBride of Lamesa, holder of the Legion of Merit medal, is now serving with the Allied occupational forces in Japan. He is a radio officer of the communications section of the Fifth Air Force, headquartered in Tokyo.

The son of Mr. and Mrs. W. C. McBride, 308 Wesson Avenue, Lamesa, Major McBride has been overseas 23 months and has seen service in Australia, New Guinea, Owi Island, the Philippines and Okinawa. He participated in the third anniversary celebration of the Fifth Air Force on September 3.

Graduated from Lamesa High School in 1936, and Texas Technological College, Lubbock, in 1940, Major McBride was an accountant for the McBride Gin Company before entering service January 14, 1942. He was commissioned May 15, 1942, at Scott Field, Ill.

Major McBride's wife and their son live at 2113 Tyler Street, Amarillo.

Christmas Seal Sale Scheduled To Open Soon

Annual sale of Christmas seals by the Dawson County Tuberculosis Association will begin soon, C. C. Terry, chairman, announced today.

A great amount of health work is financed each year by proceeds from the sale, he reminds.

Beginning today, skin testing will start in the Harmony, Hancock, Grandview and Dawson Schools. Thursday will be skin testing day for Lamesa High School.

Terry's message to county citizens is as follows:

"We come again to the beginning of another program in our school for the testing of our children for tuberculosis. This is done every year through our health service, and it is made possible by your buying of Christmas seals.

"No better service has ever been done for our school children. We thank the parents and teachers for their cooperation in the past, and we hope it will continue.

"Last year the X-ray pictures were made by local doctors and sent to tuberculosis specialists to be read. Over 100 X-rays were made last year as a result of the testing. Money cannot pay for the good that has been done through this service. This year we are asking the parents who are financially able to do so to pay for any X-ray that may be necessary for their child."

Baseball Meeting Set for Thursday

Meeting of Lamesa baseball fans has been called for Thursday night, 7:30 o'clock, in the district courtroom. Plans will be made for getting in line with the West Texas-New Mexico Baseball League.

All fans and players are urged to attend the meeting by J. R. (Dutch) Leuenberger, long-time baseball backer in this area, and other fans.

Lamesa will send a delegation to Lubbock Sunday, Leuenberger said, to attend the 1945-46 organization meeting of the West Texas-New Mexico league. Milton Price of Dallas, president of the league, will be in Lubbock.

The first year Lamesa organized a baseball club for participation in the baseball league, the town won the attendance cup for the West Texas-New Mexico area. Other clubs in the league include Amarillo, Borger, Clovis, Lubbock, Pampa and Albuquerque.

School Carnival To Be Wednesday

Food donations are still in order for the Parent-Teacher sponsored Hallowe'en Carnival Wednesday night on McCollum Field. The event will open at 7 p. m. Coronation of a carnival queen will be one feature. Proceeds from the carnival will foster P. T. work plans, said President Kilmer Corbin.

Women who are in charge of the PTA food booth will provide good eats for carnival attendants, and they urged that citizens come hungry.

Sandwiches, doughnuts, coffee, pie, cookies and hotdogs will be on the menu at the food booth. Donations of cash or food may be made by telephone to Mrs. J. H. Baldwin or Mrs. J

A Dollar-A-Year Man Goes Home

By JACK STINNETT

WASHINGTON — The other day a big, quiet-spoken, ruddy-faced "bureaucrat" packed his bags in his suite at the Mayflower hotel and left Washington and the government after more than 11 years.

He was Leo Thomas Crowley, just the champion dollar-a-year man. Crowley hasn't drawn any federal salary for six years although he held numerous jobs for which salaries were appropriated.

As this "bureaucrat" departed, both Democratic and Republican leaders rose in the senate to pay tribute to "his worth, his ability, his sagacity, and his fearlessness" as a public servant. It was a tribute rarely paid an appointive official by men of both parties.

Most people think of Crowley (if they think of him at all for he certainly never advertised himself or his jobs) as the man who stepped into several of Jesse Jones' shoes; or perhaps as the alien property custodian.

His work in the latter job as a sort of combination J. Edgar Hoover, international banker, patent office, and director of numberless businesses would furnish material for a volume or two.

But the truth is that his first, last and only love was the Federal Deposit Insurance Corp. (FDIC)

When FDIC was set up by Congress in 1934, even its backers admitted it was an experiment. Even President Roosevelt was a degree less than lukewarm, but that didn't keep him from looking around for a good man to become chairman of the new corporation.

He found him in Madison, Wis., where Crowley was one of the town's leading citizens and on the board of many banks and corporations. Incidentally he was a prominent Democrat.

Crowley accepted the job with the idea of at least getting the infant measure to the walking stage. When he left the government the other day, he was able to report:

"Today (covered by FDIC) there are 90,000,000 insured accounts and as of June 30, 1946, the corporation will have built up capital and surplus amounting to \$1,000,000,000. We are proud of this record; particularly of the fact that after 11 1/2 years of deposit insurance protection, FDIC could liquidate today, reimburse the government the money it invested plus a dividend of 22 per cent and return every penny of the assessment the banks paid to the corporation."

Crowley started his business career at the age of 12 as a grocery clerk. When he graduated from college nine years later, he owned the grocery.

It was typical of Crowley's indifference to public opinion, and his deep certainty of his own integrity, that in 1939 he accepted chairmanship of the Standard Gas and Electric Co., at \$50,000 a year, without giving up his government post.

As Sen. Wagner pointed out, whenever the committee on banking and currency found out Crowley was for a piece of legislation, the members would be "75 per cent in favor of it even before hearings were held."

West Texas Carbon Black Plant

WEST TEXAS CARBON BLACK PLANT—To provide more carbon black, a derivative of natural gas used to give stiffness to synthetic rubber, Uncle Sam is rushing to completion the first of three units of a gigantic carbon black plant near Odessa. Above are two views of the project. At the top are some of the 158 housing units comprising "Victory Village." Below are the No. 1 burner houses.

SUPERINTENDENT — Jack Hardin is superintendent of Boys Ranch, near Amarillo, where underprivileged youngsters go to "find themselves."

PIECEFUL SOLUTION

ROCKFORD, Ill. (AP) — As a man and his wife motored in an early morning brownout, they debated whether they should go home or stop somewhere for a bit to eat. The argument waxed warm. Their car rammied into a parked automobile. Both were cut and bruised — and the issue was resolved. They went to a hospital.

RUSSIAN MINERS GET ARTIFICIAL SUNLIGHT

MOSCOW—(AP)— Soviet scientists at Voroshilovgrad are setting up an ultraviolet ray health chamber for the mass treatment of coal miners whose work keeps them out of the sun's rays for long periods.

The apparatus consists of a corridor along which the workers slowly move on an escalator past banks of powerful lamps which expose them to rays from all sides within a few minutes.

Called "photarii," the device is

THE AWFUL TRUTH

BALTIMORE—(AP)—Mrs. Thomas W. Fullington of Baltimore received an annulment immediately when she testified that her husband married her "because we had been going together so long — and told her so right after the ceremony."

The Soviet Union's first and was developed by the Ukrainian Institute of Labor and Hygiene in Charkov.

The Pan American highway extends 13,794 miles.

TEXAS MEN HOME FROM EUROPE—The army transport Sea Pike, which docked in New York recently, brought these Texas soldiers home from Europe. Left to right, front row: Pfc. John Godinich, Galveston; T-4 Elsworth C. Ezzell, Alpine; and Pfc. Ray O. Coers, Houston, all of Texas. Left to right, back row: Pvt. Joe L. Luna, San Antonio; T-5 John Paul Camp, Paris; Pvt. Dale Chapman, Sulphur Springs; and Pfc. Archie C. Roscoe, Galveston, all of Texas. (AP Photo).

Save Persimmons By Preserving

Large tame persimmons which begin to ripen in early fall are a delicacy, and since the fruit is nearly one-third sugar it should not go to waste. Often, since the birds spoil the ripe fruit, it is wise to gather the persimmons when they are firm and just before they are ripe enough for eating. The fruit may be wrapped in newspaper or tissue and stored in a cool dark place, according to Gwendolyn Jones, specialist in food preservation for the Texas A. and M. College Extension Service. Persimmons stored at a temperature of 60 to 70 degrees, will keep three or four months. Cooler storage keeps them good even longer.

After the fruit ripens it may be canned or frozen. Here is one method for canning tame persimmons. Miss Jones recommends:

Wash the ripe fruit, remove stem, peel and blemishes. Crush fruit and remove seed. Add 1 tablespoon sugar per cup pulp. Put in top of double boiler and heat until the fruit is simmering. Remove from the fire. Add 1 teaspoon lemon juice to each cup of fruit. Pack in hot jars or "R" enamel cans. Allow 1-2 inch head space in jars and 1-4 inch for cans. Seal according to type of container. Process in a water bath—pints for 20 minutes, quarts for 25 minutes, cans for 15 minutes.

To freeze the ripe persimmons, prepare the fruit by washing, stemming and peeling as in the canning method, crushing the fruit and removing seed. Add 1 tablespoon sugar per cup of pulp. Add 1 teaspoon lemon juice to each cup of fruit, and stir well. Then pack into air tight containers. Seal and freeze immediately, storing at zero degrees temperature.

Other methods of preservation may be obtained from your county home demonstration agent or from the Extension Service, College Station.

OKAY SAILOR—YOU ASKED FOR IT!

GREAT LAKES, Ill. (AP)—Robert Effler, a recruit at the Naval Training Center here, penned this complaint to a civilian friend who had failed to write him: "Fine thing. I enter the service and you forget all about me." His pal made amends promptly by sending 102 postal cards in one mail.

FOR SALE

Well improved 700 acre stock farm, southwest Lamesa, electric lights, butane gas, plenty extra good water. Well drained feed lots.

Petroleum Gadget Forecasts the Oil Fields' Behavior

AP Newsfeatures
NEW YORK—You can't walk down into an oil well to see what is there, but the industry has developed a machine that will show how much oil can be taken out of a field and how long the field will be in operation.

Oil underground is contained in minute pores of rocks. The oil is brought to the surface when the oil is replaced by other liquids and gases. Control of the flushing or replacement process may determine how much oil is recovered.

By making a model of an oil field, complete with simulated wells set in a water and glycerol mixture, an apparatus devised by the Carter Oil Company, affiliate of Standard Oil (New Jersey), can predict the natural flow of the oil gases and replacing liquids underground.

An electrical current flows through the model field and an elaborate system of gauges and dials records the results. From the information thus obtained, mathematicians can give engineers the data from which control measures for the field can be developed.

The machine uses data recorded by a delicate apparatus lowered into the actual wells.

BOYS RANCH FOUNDER—Cal Farley, Amarillo businessman who founded Boys Ranch, is a former wrestler and baseball player. He went to Amarillo in the early '20s and stayed on to become one of the city's leading business men and civic workers.

LODZ, POLAND, RESUMES TEXTILE PRODUCTION

LODZ, Poland—(AP)—Lodz, great textile industry center and one of the few Polish cities untouched by the war, is reported to have reached 70 per cent of its prewar production capacity.

The Russians' action in bypassing Lodz in their drive toward Berlin left intact not only the city itself but factories, communications and transport systems. The city's population is now estimated at 700,000.

The Nazis paused before the Russian advance only long enough to burn out a section of Place Wolinski, where lived 7,000 Jews, of whom 800 survive.

SINCLAIR'S 10 great refineries cover 2300 acres of land—an area large enough for a city of 100,000 inhabitants.

The same refining skill which is turning out Sinclair products for planes, tanks and other mechanized equipment for war is also producing Sinclair products for your car.

Let your Sinclair Dealer apply tough, wear-resisting Sinclair Lubricants to your car regularly to help save wear and breakdowns. Stop where you see the Sinclair H-C Gasoline sign.

SINCLAIR LUBRICANTS

Two Veterans are Back--
Sinclair H-C
and
Sinclair Ethyl Gasolines
Better Than Ever

Sinclair H-C and Sinclair Ethyl Gasolines are back from the wars . . . BETTER than ever before.

BETTER because of improved refining processes developed in producing 100-octane gasoline for war-planes.

BETTER because Sinclair is now able to put into Sinclair Gasolines certain important components heretofore used exclusively for fighting gasolines.

As a result, the new, higher-octance Sinclair Gasolines will give you better mileage, speedier take-offs and less ping or knock in your motor.

SO drive in for Sinclair H-C or Sinclair Ethyl Gasoline today and notice how much better your car performs.

LOOK TO SINCLAIR FOR BETTER PRODUCTS--

Locker Plans Call for 150 Other Signers

Takers for 150 more frozen food lockers will be required to sign on the dotted line before construction of a new 300-locker co-operative plant may begin, officials in charge said Saturday.
The new locker plant, with a meat curing unit included, will be built as a co-operative by the Lamesa Co-Op Gin with locker renters listed as owners. Dividends will be paid to the list of owners from the surplus after operating costs are paid, said R. L. Jones, gin manager, who is accepting rental on the lockers.
Only 15 percent non-farmers will be accepted in the list of locker renters-owners, Jones said.

STATE OF TEXAS COUNTY OF DAWSON CITY OF LAMESA

ON THIS THE 9th day of October, A. D. 1945, a meeting of the City Council of the City of Lamesa was held in regular session in said city with the following present, namely: Sam Richardson (Mayor), W. Nelson Cope, Geo. D. Norman, T. F. Vaughn, J. H. Norris and W. T. Webb (City Secretary).
Then came on for consideration the petition of the inhabitants of the Replat of the Rose Addition to Lamesa, Dawson County, Texas, whereupon the following ordinance was proposed by Commissioner Geo. D. Norman and seconded by Commissioner W. Nelson Cope, which motion was unanimously carried, to-wit:

AN ORDINANCE
Approving the application of the residents of the Rose Replat Addition to the City of Lamesa, Dawson County, Texas and providing for the annexation of same to the City of Lamesa, and declaring an emergency: **BE IT ORDAINED** by the City Council of the City of Lamesa, Texas:

Section 1
That the petition filed with the City Secretary on the 9th day of October, 1945 requesting the incorporation of the Replat of the Rose Addition to the City of Lamesa, as replated on October 2, 1945, was signed by a majority of those residing in said addition, who thereupon voted to become incorporated in the City of Lamesa, and same constituted a majority of the inhabitants qualified to vote for members of the States Legislature of Texas.

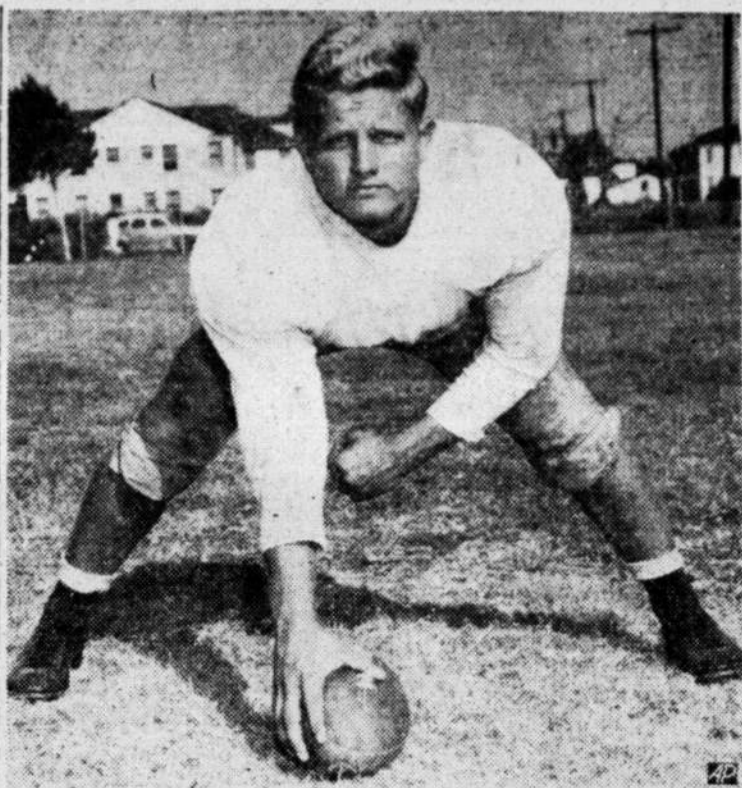

Section 2
That said action is in all respects legal and in conformity with law and that it is to the best interest of said inhabitants and of the City of Lamesa that said action be approved and that said replat of said Rose Addition become a part of the incorporation of the City of Lamesa.

Section 3
That the boundary lines of the City of Lamesa are hereby changed and amended so as to take in and include said Rose Addition to the City of Lamesa, as same was replated on October 2, 1945, and same is made a part of the City of Lamesa for all purposes, and as completely as if it were originally within the boundary lines of said city.

Section 4
The fact that said addition does not have city water or sewerage and same is badly needed, the rules are suspended and this ordinance shall be in effect on and after its passage and publication as required by law.

PASSED AND APPROVED this 9th day of October, 1945.
SAM RICHARDSON, Mayor.
Attest:
W. T. WEBB, City Secretary.

CANDIDATE FOR ALL STATE—Jimmy Flowers, 205-pound center of Highland Park (Dallas) is among leading candidates for all-state in Texas High School football. He has been outstanding with his defensive work for Highland Park. (AP Photo).

Girl Scout Week Pays Tribute to Juliette Lowe

Preparation for Girl Scout Week, October 23 to November 3, Halloween parties and handicraft work were features of last week's Girl Scout and Brownie meeting. Girl Scout Week will be observed all over the world in tribute to Juliette Lowe, founder.

Mrs. Leslie Pratt's Brownie Troop 8 was entertained Thursday at a Halloween party. Host for the party was Mrs. Sam Richardson, troop committee chairman.

Handicraft and games furnished an entertaining meeting for Brownie Troops 3 and 7. Mrs. Fred Mitchell, Mrs. Davie Jones and Mrs. S. M. Loop are leaders.

Back with Scout Troop 1 at its Friday meeting was Mrs. Bob Huff, leader. The Girl Scouts worked at sewing and played outdoor games.

Mrs. Leonard Scott, leader of Scout Troop 10 that met Saturday, reported that her girls were busy working on their carved wooden serving trays.

PERSONALS

Miss Marylyn Sandefor of Breckenridge arrived here Wednesday to participate in the wedding of Miss Helen Ruth Cope.

Mrs. Tom Burnside, Mrs. J. E. Garland and Mrs. Truman Campbell spent Thursday afternoon in Lubbock visiting with Mrs. Robert Koger.

Auction Sale Is Set For Friday

Postponement for the A. W. (Dock) Mathew public auction sale has been announced. The sale has been rescheduled for Friday, November 2.

Tragic accident deaths of Mr. and Mrs. A. B. Cates and two children in California caused delay of the sale. Mrs. Cates was the daughter of Mr. and Mrs. Joe W. Smith, neighbors of Mathew.

Eat Hearty For Beauty Say Bronx Bustin' Queens

BY BETTY CLARK
AP Newsfeatures Beauty Editor
NEW YORK — Texas has beautiful women as well as fine cattle. And we can take some beauty cues from these strong-boned, bright-cheeked ladies of the Lone-Star State.

Besides all the fresh air the average Texas girl makes sure she gets, she is also a good eater. She doesn't nibble on bunny food such as lettuce and carrots to keep her beauty. Of course she eats carrots, but she makes sure she eats a good solid meal too.

It's the quality and not the quantity that helps keep her slim and pretty.

Eating with the Texas girls who are here for the rodeo, one gasps at their amazing appetites. But they don't load up on carbohydrates such as spaghetti and bread. Nor, on the other hand, do they neglect to eat potatoes, which aren't as fattening, taken in moderation, as some people seem to think.

Texas girls are meat-and-vegetable fans. They attribute their strong bones to meat and their good coloring to vegetables.

Of course there are all sorts of vegetables—and wilted looking ones or those that have been cooked until they are devitalized are not going to do anybody a bit of good.

If you want to get the most out of your vegetables, make sure they are fresh from the soil, frozen or otherwise in excellent condition.

Be sure to get your quota of meat and drink plenty of milk. Exercise will help too, to bring the color to your cheeks.

The golden-skinned Texas girls have that well-scrubbed look and use very little make-up. When they do, it is usually just lipstick and a rosy red shade to blend with their colorful costumes and brilliant coloring.

Until the middle of the 19th century, Argentina had a high percentage of illiteracy.
Lemon oil is found in the rind of lemon.

J. W. Thompson (above), great running back of Odessa High School, is among leading candidates for All-State in Texas high school football. Thompson, 185-pound fullback, has been a sensation all season, getting at least one long touchdown run per game. (AP Photo).

RAILROADERS TOOK FALL OUT OF SPOKANE

SPOKANE, Wash.—(AP) E. P. Malloy, veteran railroader, recalls that dispatchers, plotting a new schedule in early days, wired the superintendent of telegraph and asked permission to change the name of Horse Plains to Plains, Hell Gate to something softer and Spokane Falls to Spokane. The answer said, O.K. Take the horse out of Plains, take the falls out of Spokane—but don't take the gate off hell.

In the United States privately operated motor trucks represent 87 per cent of all trucks in use.

Bolivia gained her freedom from Spain in 1825.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like aches and nervous strain of functional periodic distress. Here's how it may help!

- 1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
- 2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

MORE LIGHT MAKES MY KITCHEN TASKS EASIER
WHAT A BIG DIFFERENCE A LARGER BULB MAKES

 Experience in Texas war plants proved that Better Light meant faster work, fewer mistakes, and greater production. In your kitchen, the workshop of your home, Better Light can keep you from having to work in your own shadow, can help you finish daily tasks more quickly.
 Put a 150-watt lamp bulb in your kitchen lighting fixture and notice how much easier it is to see, how much brighter and more attractive is your kitchen.
 Nearly all stores sell bulbs—buy 'em when you shop.
TEXAS ELECTRIC SERVICE COMPANY
 C. E. CAMERON, Manager

154,000 RED POINTS—The San Antonio union stockyards market was topped for 1945 by these 38 steers. They were grown by J. L. Hiler of Frio County, averaged 1,389 pounds, and were sold to C. B. McCall, order buyer, at \$15.65 a hundred, believed to be the highest price ever paid for grass steers in Texas. A. W. Grant, managing editor of the San Antonio Express and president of the Texas stastical council, figured the steers represented 154,000 in red points. In the picture, left to right are L. R. Hiler, son of J. L. Hiler, Jim Parker, of John Clay County, who made the sale, and W. B. Hiler, another son.

W. T. S. T. C. Is Campaigning For Chapel
 CANYON, Texas — A steady stream of small contributions, and occasional large ones, marks the progress of the West Texas State chapel drive.
 Funds are being received by Dr. J. A. Hill, president, who is giving personal attention to the campaign. Cash and pledges total more than \$16,000. The goal is \$50,000.
 Building of the religious edifice at West Texas State has been endorsed by Panhandle churches, civic clubs, and many other organizations. The structure would be used for lectures, concerts, weddings, conferences between plains pastors and their student patrons, special religious services, and quiet meditation. The program would not conflict with worship periods or projects of local churches.
 Appropriateness of the project has attracted nationwide attention. Presidents of many other colleges have written for details.
 Student religious organizations at West Texas State are among the most active in the state.

Latest News From COUNTY AGENT T. A. BARFIELD
PRACTICES FOR CONSERVING PROTEIN FEED
 More grain and less protein for turkeys, broilers and late hatched chicks, and culling of old hens and slowly maturing birds, are measures recommended by S. A. Moore for stretching the present limited amount of protein feed. He is the poultry husbandman for the A. and M. College Extension Service.
 Moore believes that if these recommendations are adopted generally, Texas poultrymen should feel no alarm about the supply of protein feeds after the new crop of vegetable proteins is on the market. This program will especially be helpful in the weeks immediately ahead, he says.
 Turkey raisers can stretch their protein mash or pellets by feeding two to three times as much grain, such as barley, oats, sorghum grains, wheat or corn, as customary, in proportion to the amount of protein fed. This method will take a little longer to put on the same weight, but it will finish out your birds and enable you to hold and market them at the regular time.
 The same method may be used for broilers, but be sure to have your feed supplies lined up before starting more chicks. Moore says that well-matured pullets hatched before June are the birds for which growing and laying mash should be saved. These are the fall and winter layers.
 Year-old and older hens should be kept for breeding purposes only. But Moore says these should be culled closely and the culs marketed as soon as possible. If they cannot be marketed quickly, place them in a separate building or on a separate range and feed barley, oats, sorghum grains, wheat or corn freely. The laying mash, Moore emphasizes should be saved for the

OUT OF THE WASH TUB INTO THE FRYING PAN
 CUMBERLAND, Md. — (AP) — Clem Hubbe has a sure eye afield, but in the kitchen it's different. He banged some squirrels, came home and thought he'd surprise his absent sister by frying them. When she entered the kitchen, one whiff was enough. Clem had mistaken her soft soap for frying grease.

FRENCH DEBT JUMPS
 PARIS — (AP) — The French national debt has jumped from \$8,920,000,000 in 1939 to \$38,000,000,000 in May of this year.

early pullets which should begin to lay this fall, and for breeding hens.

SWISS TO LET OUT THEIR BELTS
 BERNE (AP)—Swiss food prospects for the coming winter, bleak a few weeks ago, have taken a turn for the better with the release of stored commodities into trade channels.
 Materially increased rations for October were based on the arrival in the harbor of Toulon, France, late in September of three Swiss ships laden with overseas commodities. Daily an empty freight train leaves Switzerland to bring back a trainload of wheat and sugar from Toulon.
 The United States bought the Virgin Islands from Denmark in 1916.

GOVERNOR GETS GERMAN PLAQUE — Governor Coke Stevenson (left) receives a metal plaque once belonging to the German 36th division, and captured by the Texas 36th division in the Austrian Tyrol, from S-Sgt. Aldrice L. Smith of Wortham, Texas. Smith was a veteran of the Texas 36th, is now discharged. Smith (center) delivered plaque at the order of Maj. Gen. John Bahlquist, commander of the 36th. Col. Ernest O. Thompson (right) looks on.

Elizabeth Smith Became The Bride Of Richard B. Holton In Lubbock Tuesday

Miss Elizabeth Jane Smith, daughter of Dr. and Mrs. A. H. Smith of the Elwanda Heights addition, became the bride of Richard B. Holton, son of R. H. Holton of Spearman Tuesday October 22, in the Presbyterian Parsonage of Lubbock at 1:30 o'clock p. m. Rev. J. M. Lewis, pastor of the Presbyterian Church read the double ring ceremony.

The bride was attired in a black street length crepe with a fuchsia inset and shoulder trim. Her accessories were black and her corsage was of white gardenias.

Mrs. Holton is a graduate of the Lamesa High School and of Texas Technological College and before her marriage was a reporter on the Dawson County Courier, having been employed here for the past two years.

Mr. Holton is a graduate of the Spearman High School and attended Texas Technological College prior to entering the Army Air Corps three years and seven months ago. He served approximately three years of that time in the European Theater of Operations and received his discharge October 25, at San Antonio.

After a short wedding trip the young couple will be at home in Spearman, Texas.

TEL Class Has Monthly Meet And Hallowe'en Social

The TEL class of the First Baptist Church met at the home of Mrs. J. W. McDonald Thursday October 25 for their monthly meeting and social. Hostesses for the occasion were Mmes. Ethyl Stuart, A. B. Heffernan, J. B. Shackelford and J. W. McDonald.

Mrs. Shackelford greeted the guests as they arrived at the door dressed in a Hallowe'en robe and the Hallowe'en theme was carried out by decorations used in the living room.

After a short business meeting Mrs. McDonald taught an interesting lesson on Eschatology.

Refreshments of hot spiced tea, sandwiches and pumpkin pie topped with whipped cream were served to Mmes. Z. T. McMullen, G. C. Wilkes, C. C. Coleman, Bertha Mitchell, W. H. Green, E. A. Barrett, W. H. Bridges, W. E. Odum and the hostesses.

Ackerly HD Club Elects Officers

The Ackerly Home Demonstration Club met at the home of Mrs. George H. Rhea for their October meeting, with a demonstration on useful and inexpensive home made Christmas gifts.

Following the demonstration officers for the coming year were elected. Mrs. Alvin Hogg was elected president; Mrs. Jess Pylant, vice-president; Mrs. Joe Monroe, Secretary-treasurer; Mrs. George Rhea, reporter; and Mrs. Author Reed, council delegate.

Gingerbread topped with whipped cream and coffee were served to Mrs. Myrtle Dickle Negy, County Home Demonstration Agent, Mrs. Jess Pylant, Mrs. Author Reed, Mrs. Buester Reed, Mrs. Leon White and Mrs. Alvin Hogg.

The November meeting will be held in the home of Mrs. Leon White.

What It Means ABC of the ATOM

By JOE WING

Q Can atoms in other substances be split?

A Presumably they can be, but no one knows how yet. Uranium is just one of 92 elements.

Q Why is the uranium atom easier than others to split?

A It is the largest of atoms and comparatively unstable. Smaller atoms seem to be tougher, harder to break.

Q What was the cost of developing the atomic bomb?

A About two billion dollars.

Q Where are the atomic bombs made?

A Chief plants are at Oak Ridge, near Knoxville, Tenn., and at Richland, near Paso, Wash.

Q Why were such locations picked?

A Because they were remote and probably because they were near large electrical supplies.

Q Can the atomic bomb be manufactured safely?

A Greatest possible safety is insured by handling the processed materials in separate concrete cells by remote control.

Q When was the first atomic bomb exploded?

A Before daybreak July 16, 1945, on the desert 120 miles south-east of Albuquerque, N. M.

Q How big is the atomic bomb?

A Its size has been estimated at 400 pounds, including about 11 pounds of explosive substance plus casing and activating apparatus.

Q How is an atomic bomb set off?

A That's a secret but presumably it is done with neutrons. Before the war plans were to set off such a bomb by directing radium particles against beryllium which would give off high-speed, penetrating neutron rays. These would be slowed down by being passed through paraffin. The slowed down rays directed against uranium would split off some atoms and start a chain series of atomic explosions.

Q Does the atomic bomb utilize all available energy of the atom?

A No. Only a fraction of one per cent. Full use will be impossible until atoms are actually smashed instead of being merely divided as at present.

Q How powerful is the atomic bomb?

A The one first used had more power than 20,000 tons of TNT, or more than 2,000 times as much as the British 11-ton bomb.

Q How widespread is the effect of an atomic bomb?

A The blast of the experi-

mental bomb knocked down observers 10 miles away, jarred windows 250 miles away. The first bomb on Japan wiped out more than four square miles of Hiroshima.

Q When an atomic bomb goes off, why doesn't the world explode?

A There's no more reason for it to explode than for it to catch fire when an ordinary bomb goes off. A far greater, more intense explosion than anything now possible would be necessary to touch off a world explosion.

Q Why isn't the crew of the plane that does the bombing blown sky high?

A The plane has time to get out of the way, either because of the distance the bomb must fall, because of dropping the bomb by parachute, or because of delayed detonation.

Q Is the atomic bomb too costly for frequent use?

A Experts call it cheaper for the attacker in money as well as lives than ordinary bombing.

Q Is controlled atomic energy, as opposed to explosive energy now available?

A Yes. It has been produced during the production of some of the bomb elements, but is not yet practical for ordinary use.

Q Does the atomic bomb on exploding leave deadly emanations in its wake?

A The War Department says no.

Q How was America able to keep secret this greatest of secret weapons?

A The government ordered strict secrecy; the work was so compartmentalized that few people knew the over-all picture; and newspapers and other publications and radio under voluntary censorship kept mum.

Q Who owns the atomic bomb?

A The governments of the United States and Great Britain. All persons engaged in the work were required to assign any rights to their governments.

Q How long will it be before atomic energy can be utilized in industry?

A Certainly many years, say officials. That may mean five years or 50.

Q Why can't atomic power be put to peaceful purposes at once?

A Because knowledge of how to control it is insufficient, because its production is not now economic, and because uranium is rare.

Q How does uranium-235 compare with coal as a potential source of energy?

A One pound might give off as much heat as 1,000 tons of coal and therefore would be worth \$5,000 a pound as fuel. As a gasoline substitute it might be worth \$10,000 a pound; as a substitute for electricity \$100,000 a pound.

In addition to ginger, ginger ale frequently is flavored with cloves, cinnamon, lemon essence, or malt.

Bolivia's president is not eligible for immediate re-election after his term of four years.

Mrs. Bill Minnix Is Honored With Bridal Shower

Mrs. Bill Minnix, the former Miss Irene Penn, was honored with a bridal shower at the City Recreation Hall, Thursday, October 18, from 7:30 to 10:00 p. m. by Mrs. Harold Merritt and Mrs. Floyd Hildreth, assisted by Miss Marie Ruggles and Mrs. Cecil Medlin.

The reception room was beautifully decorated with cosmos and chrysanthemums and the service table was covered with a lace cloth and centered with an arrangement of bronze chrysanthemums. Hot spiced tea and individual cake squares were served to those attending.
Mrs. Cecil Medlin presided at the Bride's Book at which approximately 78 guests registered during the evening. Mrs. H. B. Miller ren-

Gaston Palewski: Gen. DeGaulle's 'Harry Hopkins'

By ROBERT WILSON
AP Newsfeatures

PARIS — If France has a Harry Hopkins, he is Gaston Palewski, former Paris newspaperman now called Gen. DeGaulle's "guardian angel."

Little known Palewski, 54-year-old chef de cabinet, or roughly, private secretary, is known to the press as "regent," "emperor," or "his grey eminence," as Father du Tremblay was confidant to Louis XIII.

Some French political savants profess doubt that Palewski has any real influence with DeGaulle, as Hopkins was supposed to have had with President Roosevelt. They argue that DeGaulle is a lone wolf.

Others, impressed by Palewski's tactfulness and his refusals to see even newspapermen, say that a year ago DeGaulle wanted to make him ambassador to Washington or Moscow, two of the most important foreign posts for Frenchmen.

Premier Stalin is supposed to have said, "I have no need for two ambassadors from Poland."

He's French

Despite his name, Palewski is a Frenchman. Smooth-mannered and impeccably dressed, Palewski is quite a social success in smart salons, where he is said to dance "like a marquis."

Withdrawing from St. Cyr, France's West Point, he joined a Moroccan regiment and was demobilized about 1923. He then became a journalist in Paris.

He met Paul Reynaud, then minister of colonies, with whom he made a long flight to Indo-China. Enroute their plane was beset by storms, but despite the rough and dangerous trip Reynaud decided to fly back.

Palewski decided to fly back too, and "thus assured his career," according to the Paris weekly, Samedi Soir.

Championed DeGaulle

He became Reynaud's chef de cabinet. After he met a colonel named DeGaulle, Palewski battled to get the war ministry to listen to the newcomer's theories about tank warfare.

In 1940 Palewski was in the French air force; at the armistice he was in North Africa. He escaped to London, where he joined DeGaulle, who sent him to East Africa to command French troops fighting in Ethiopia. He returned to London in 1942 and was named director of DeGaulle's cabinet. Since then, he has worked closely with the general in creating the Provisional Republic.

DRUM CORPS MAKES OFFICER'S JOB EASIER

ABERDEEN PROVING GROUNDS, Md. —(AP)—Salvatore A. Pelle and his cadre were tired of yelling "Hep! Hep!" for tired young rookies, so they organized a drum corps. The lieutenant, who finds the new arrangement easier on the throat, said he would have organized a rifle and drum corps if he could have got rifles.

More than 75 per cent of Argentine foreign trade is handled through the port of Buenos Aires.

Pinkham's Tablets—one of the best-known ways to help build up red blood in such cases. Pinkham's Tablets are one of the greatest blood-iron tonics you can buy. Follow instructions.

Rubber On The Boom In Brazil

AP Newsfeatures
RIO DE JANEIRO — Brazil's vast rubber resources, stimulated by war demands, reached new production, export and consumption peaks during the period 1940-44 and holds promise for important future development.

Production of natural rubber increased 83 per cent from 1940 through this year, according to government figures covering 1940-44 and the first half of 1945. The increase was from 16,178 tons to 29,408 tons.

Consumption of natural mixtures of synthetic and natural rubber by Brazilian manufacturers, increased 138 per cent for the same period.

Export of tires increased from 3,600 in 1940 to 171,990 in 1944. Tube exports increased for the same period from 300 to 117,608.

The same figures show that the value of manufactured rubber goods exported increased from about \$81,000 in 1940 to \$2,842,000.

Agreements with the United States call for the purchase, through June 30, 1947, of all of Brazil's exportable rubber surplus.

In 1943 there were 30,888,134 motor vehicles of all types in the United States.

EIGHT-ROOM HOUSE IS BLIND MAN'S BUFF

TAMPA, Fla.—(AP)—Blind since 1931, M. F. Jones of Tampa is building an eight-room house. Entirely unaided, he has spent six years laying foundations, measuring lumber and installing plumbing.

"I may be able to finish it in about three years," Jones says.

BEST PRISONERS? LIFERS, SAYS EXPERT

CAMBRIDGE, Md. (AP)—E. Murray Benson, state parole commissioner, says "lifers" make the best prisoners.

"We have strata of society in the institutions," he says. "Reputation and character are rated about the same inside as outside, and the lifers are well regarded. In fact, most of the heads of the various departments and shops are lifers."

About one-seventh of Bolivia's population is engaged in mining.

14 Additional Servicemen Are Given Discharge

Official War Department discharges have been listed by eight servicemen, one Marine and five navymen. These 14 Dawson County servicemen have returned to civilian status and have fulfilled the requirement of having their discharges recorded in the county clerk's office.

Honorably discharged from the U. S. armed forces have been James E. Barrett, Odie L. Harris, John T. Agoe, Howard D. Huddle, Curtis A. Morris, Frank McGallen, Almos W. Neill, David Bartlett Phillips, Charles Albert Price, Jr., Richard Daniel Slough, Young Dalton Heflin, Billie Chelton Harrington, Russell C. Lott, Jr., Earl D. Newman.

Twice wounded in the European war theater James E. Barrett has been discharged from the army. Pfc. Barrett, who served as a rifleman with the 12th infantry, was released at Camp Rucker, Ala. on October 19.

Barrett received the Purple Heart for wounds on June 11 this year, and the cluster for injuries July 2. His battle stars represent the Rhineland, Ardennes and Central Europe. He was inducted April 10, 1944, shipped to the European area five months later and returned to the states August 3.

A photographic laboratory technician with the 312th bombardment group, Sgt. Odie L. Harris of Ackerly, spent a year and a half in the Asiatic Pacific fighting zone. He was given discharge at Fort Bliss October 31.

Harris took part in campaigns in the Bismarck Archipelago, New Guinea, Southern Philippines and Luzon, returning to the states October 19. He was inducted into service April 6, 1942.

John T. Agoe, general clerk with a detachment at Fort Lewis, Wash., was discharged there October 12. He was inducted April 20 at Fort Bliss, El Paso.

McGallen General Hospital, Temple, was the discharge place on October 21 of Pfc. Howard D. Huddle, Star Route 4, of the army air force. He served as a light truck driver in the New Guinea and Southern Philippines campaigns.

Date of Huddle's induction was April 6, 1942, and he went overseas June 27, 1943. He returned to the states August 14.

Earl D. Newman, who trained as a light truck driver with the army, was discharged at Camp Plauche, La., October 21. His induction date was April 19.

Marine Sgt. Russell C. Lott, Jr. has been discharged as of October 28 at Ilwaco, Ore. He enlisted in Oklahoma City in January, 1942.

His South Pacific campaigns between January, 1943, and December, 1944, included Woodlark Island, New Guinea Area and Camp Gloucester, New Britain Islands.

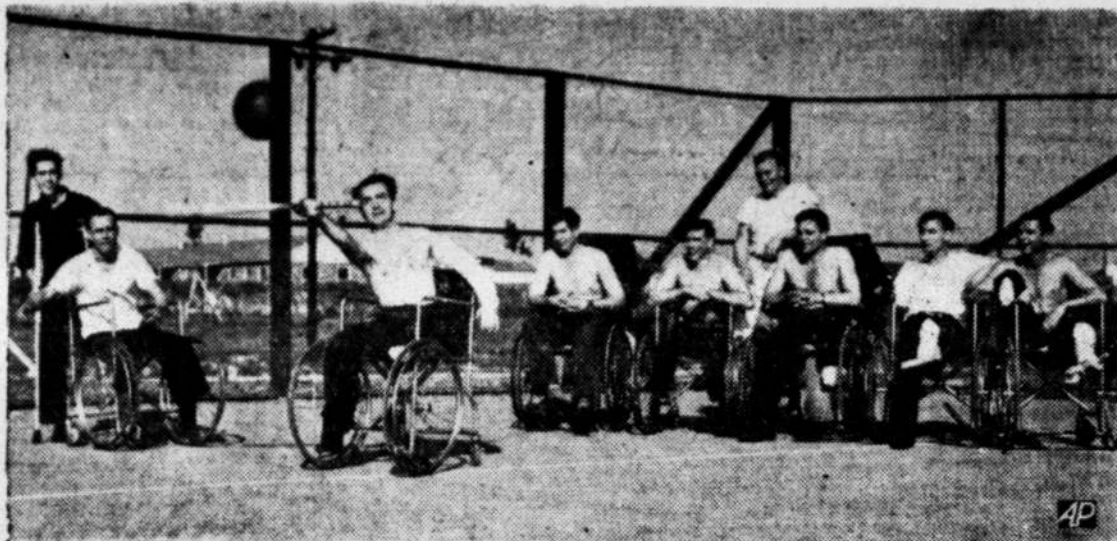

A certificate of service has been recorded for Billie Chelton Harrington, AAF captain, who served as a pilot in the Pacific battle areas. His service record extended from his enlistment November 10, 1942, through his release at Fort Bliss, October 5.

Harrington was awarded the Air Medal with three clusters, the Asiatic-Pacific campaign medal with six service stars, the Philippines Liberation ribbon with a star. He participated in action over New Guinea, the Bismarck Archipelago, Northern and Southern Philippines, Western Pacific and Luzon.

Charles Albert Price, Jr., storekeeper second class in the navy, was given honorable discharge October 21 at New Orleans, La. He enlisted August 8, 1942.

After service in the Asiatic-Pacific War Theater, David Bartlett Phillips has been released from the navy. His rating was machinist's mate second class and he was discharged at the Great Lakes Naval Training Station, Ill., on October 3.

His honorable discharge marked

ITS A HIT—T-5 Stanley Heck, Chicago, of the Wheel Chair baseball league at the Army's McCloskey General Hospital, Temple, Texas, has just made a hit. Catcher is Cpl. W. R. Hanna, Sioux City, Ia.; Umpire is Pfc. Leo Michelson, Chicago. In chairs waiting turns at bat are (left to

right): T-5 Clarence Powell, Fort Worth, Texas; Cpl. Bill Moomey, Muscatine, Iowa; Pvt. Willard L. Fox, Tulsa, Okla.; Pfc. James Driscoll, Dubuque, Ia., and S-Sgt. Warren Bradbury, Tulsa, Okla. Standing (rear right) is T-5 Robert Collett, Pineville, Ky., of the hospital's reconditioning division. (AP Photo).

From Tanks to Football

FROM TANKS TO FOOTBALL — Helmets once used in tanks now released for sports by war department order are shown above. Homer Krueger, Ross Griffing and Hershel McAlister, Dallas youngsters are shown toying with the mass helmets released from war use for civilian use after the downfall of Germany.

up for Pfc. Frank McGallen, a demolition specialist with the army engineers. The date was October 19 and the place, Camp Fannin, Tyler. He holds the Purple Heart for having been injured on November 14, 1941 in the European Theater of War.

Slough, Naples-Foggia Rome-Arno, Southern France, the Rhineland and Central Europe list McGallen's battle stars. He was inducted October 14, 1942, shipped across the Atlantic in June, 1943, and reached home soil again October 2.

With over three years' foreign service to his credit, Pfc. Curtis A. Morris was with a military police battalion in Northern France.

He was inducted into the service February 10, 1941, shipped out in August, 1942, and landed back in the states October 8.

Almos W. Neill private first class in the air force, was discharged at Ellington Field October 20. He has been an airplane and engine mechanic since his enlistment October 24, 1942.

Discharged October 19 at San Pedro, Calif., Seabee Richard Daniel Slough has marked up overseas service with both the 14th and 26th Naval Construction Battalions. He enlisted March 20, 1942, and his rating, at the time of his release was machinist's mate first class.

Young Dalton Heflin, radioman first class in the navy, was released from service at St. Louis, Mo., October 19. He served in Pacific waters on the U.S.S. Orion and the U.S.S. Cabrilla. Heflin enlisted October 31, 1942.

Patronize The Advertisers

Courier's Error

Congratulatory advertisement of the Holt Tire Company for the formal opening of McPhaul Motor Company's new building was inadvertently omitted from Thursday's Courier. The Courier's advertising staff regrets the error.

Elvin L. Bearden, seaman first class in the navy, is spending a 30-day leave in this vicinity. Seaman Bearden, former resident of Lamesa, now lives in Big Spring. For the past year he has been on a merchant ship, the S. S. Alcoa Patriot, as a summer. He is slated to report back to Dallas at the end of his leave.

Rehearsal Dinner For Miss Helen Cope And J. C. Norris Held At The Lamesa Country Club Friday, October 26

The rehearsal dinner for Miss Helen Ruth Cope, daughter of Mr. and Mrs. Nelson Cope of 408 South Houston Street, and J. C. Norris, son of Mr. and Mrs. Will Norris of the Elwanda Heights Addition, was held at the Lamesa Country Club Friday, October 26 at 6:45 p.m.

The long dining table, placed in front of the fire place, was covered with a white linen cloth and centered with a miniature bride standing in a sea of pale blue net spangled with silver and white stars and surrounded by tiny white chrysanthemums. Crystal candle holders with tall blue tapers were placed at intervals down either side of the table with stars scattered intermittently.

Places for the wedding party were marked by cards with two blue and white wedding bells bearing the inscription "Helen-J. C." and the date "October 27, 1945" on the streamers. The guests names were inscribed in blue letters.

Norris' gift to his bride-elect was a single strand of pearls, presented at the rehearsal dinner. The menu for the dinner was spiced tomato juice cocktail, avocado and grapefruit salad, chicken and spaghetti, whole green beans, harvard beets, pickled peaches, and hot rolls, followed by cherry pie alamide with coffee.

Those attending were Miss Helen Ruth Cope, J. C. Norris, Mr. and Mrs. Perry Cox, Mrs. Joe Harold, Mrs. Bob Crawley, Dr. and Mrs. C. A. Morton, Mr. and Mrs. Will Norris, Wright Grant Boyd, Miss Teenie Gambill, Miss Lois McBride, Mr. and Mrs. Nelson Cope, Joe Morris, Miss Elwanda Gilbert, Mrs. Richard Young, Miss Jessie Norris, Mrs. R. A. Noret and Miss Marylyn Sandefur of Breckenridge.

Hostesses for the pre-nuptial affair were Mmes. J. H. Harp, W. K. Crawley, Wright Boyd, Earl Jacobs, and E. J. Yates.

TO MY FRIENDS:

I have received my discharge from the armed forces after 18 months in the service, and have now taken charge of the store which my wife cared for while I was gone.

I will be glad to greet my friends and make new ones in the old location—
