First of all this week, we would like to apologize to Robert Ervin for inadvertently leaving off his name in the Little League story recently. Robert was also a coach for the Red team along with James Kinser.

Sorry about that neighbor.

—J—
The rain we received in this area on Monday night was truly a blessing from the Lord. Reports from different sections of the area showed from about half an inch to over three inches. Areas to the southwest and west of Gorman reported the largest measurements. It sure did cool things down a great deal and the moisture was badly needed. Folks are thanking the Lord for the nice rain.

—J—
Received the following letter the other day:
Dear Joe,

I would like to ask your help in a matter concerning the health and welfare of some of the citizens of Gorman. I would like to ask everyone to refrain from entering the old Blackwell Hospital building on West Roberts Street. The condition of this old building has deteriorated to the point that it is unsafe for anyone to walk around inside the building. The stairways and the floors will no longer support the weight of people walking around on them. I understand the feelings most people have for this building but due to lack of repairs on the roof, when the tar paper was blown away several years ago, the weather has finally taken its toll. If someone was to fall through a floor, or a stairway, they might not be found for several days and could even die before someone found them.

Due to the poor condition of this old building, I will be tearing it down. I know it will be missed by everyone, but it is now beyond saving and it is best that it now be removed. I hope everyone will cooperate for their own welfare and please stay out of this building.

Thank you,

Kenneth Good

Thanks for the note Kenneth. I am sure that it is very, very dangerous for anyone to even be in any portion of the building. So folks, please listen to the warning of Mr. Good.

—J—

Also received a note from Walt Ward concerning the news of leases, wells drilled, producing, locations, etc in the area.

As most everyone knows, the oil situation in this area is really nill at this time. However, there is a little activity and we will try and get some of the activity in the paper. Thanks for the interest Walt.

Got a note from Ruth Dunn with her renewal the other day stating that she enjoys reading the new column of local events. She urges us to keep it going.

Thanks, Ruth. It is really great to have news from local folks concerning their visits and visitors in our town and community. If more folks would just call us, we could have a nice long list of nice local news each week. Please call us at 734-2401 or Estelle at 734-2363.

There has been a good bit of talk and concern here over the closing of the TESCO office in Gorman. I had a conversation with the district manager Carl Conger the other day and he stated that the closing of the office was strictly an economic move by the company by his recommendation. He stated that the office only served folks mainly for paying their bills, and that the company had secured the services of Edna Joyce Brinegar at the City Office to collect the payments from folks. Mr. Conger stated that he thought it would actually be better for most customers to do this since most of those paying their bills at the TESCO office also have to go to the City Office to pay their water bills. He stated that TESCO is just like any other company and have to cut their costs anywhere possible to save money. He stated that he will be glad to come down and hear anything local

REWARD OFFERED

Sometime during the night of Saturday, July 19, or in the early morning hours of Sunday, July 20, the front doors of Southwestern Peanut Growers Association were damaged by a vehicle being driven into them.

Gorman Crimestoppers and SWPGA are offering a reward of \$200.00 for information leading to the arrest and conviction of the person or persons responsible for the damage. If you have information about this incident, please call the Gorman Police Department at 734-2730, and your name will be held in confidence. If you wish, you do not have to give your name to the police.

Republican Rally To Feature Kent Hance

All Eastland Countians are invited to a Republican Rally to be held Saturday, July 26, at La Mancha Rancho near Lake Leon. County GOP Chairman Jim Keffer has an-

nounced.

Principal speaker will be former U.S. Congressman Kent Hance, well-known in this county, who will speak on behalf of Governorial Candidate Bill Clements.

There will be hot dogs and cokes for everybody and everyone is welcome.

Hours are from 11 a.m. to 3 p.m., Keffer emphasized.

Other speakers will be David Davidson, candidate for Lt. Governor; Roy Barrera, candidate for Attorney General; Joe Brannon, candidate for State Representative, District 65, Jammie Fry, candidate for County Commissioner, Precinct Four and other state and area candidates.

Tom Brashier and his band of Ranger and other groups will provide musical entertainment.

It is all free and the public is invited.

In other Republican activities, Mrs. Bill (Rita) Clements will be hosted at a reception at the Eastland Chamber of Commerce on Wednesday, July 30, speaking in behalf of her husband's candidacy.

KEEPING UP WITH FRIENDS

Frank Leazar visited Saturday to Wednesday with his brother, Mr. and Mrs. Junie Leazar of Arlington. On his return home on Interstate 20, he took a wrong turn on I-35 and ended up at Lake Whitney.

Pat McCormick of Waco visited last week with her mother Alvena Reynolds.

Folks have to say about the closing if a meeting date can be set up. He would be glad to give the company's side of the story.

Due to the outcome of the conversation I had with Carl, I think it would be a waste of time to have the meeting. However, if there are a sufficient number of folks who want to have the meeting that will contact us, then we will try and set up a meeting on the issue. However, I personally, think that the decision will stand to close the office no matter what folks say.

—J—

There was a very good crowd in town on Saturday for the Tradin Days event on the third Saturday. The event is growing in popularity and in size and the Gorman Business Alliance is to be congratulated on the job they are doing to bring people to Gorman. The Alliance expects the Third Saturday Event to keep on growing and be one of the top tradin days around these parts. Good luck gang!

Noticed that the Gibbs have repainted the Exxon Station out on Hwy. 6 west. It sure looks good now.

Also the expansion project on the Bill Gressett home is coming right along. Maybe we can get a picture of the new addition soon.

The G. E. Marshalls are in the midst of a new siding project at their home next door to the Ben R. Townleys and Bert Witts. They are putting new exterior siding on their home and it is looking real good.

CITY CHIT CHAT

By Mayor Charlie Garrett

The Commission met in regular session on July 17, 1986, with the Mayor and all Commissioners except Commissioner Simpson present. Others present were Mrs. Brinegar, Mr. Funderburgh and Mr. Arlton Smith.

The main item on the agenda was the setting of water rates. You will recall that I told you last week that this would be done at this meeting. The vote of the Commission was to leave the minimum at \$7.50 for 2,000 gallons and to raise the cost of each 1,000 gallons above the two by 25 cents. This may seem like a big raise, but it was the thinking of the Commission that by raising it by that amount that it should take care of raises from the Water District for several years. The Texas Health Department has informed us that we are to put a security fence around the water tower as well as doing some changes in the overflow system. We hope that this increase will help cover these expenses. We will continue to try to supply you with plenty of good drinking water at the lowest possible rate. I am sure that we can all conserve on water usage and help keep our cost down.

As you will recall, I had told you that we had requested Texas Department of Highways and Transportation to install a stop light on Highway 6 where the caution light is now. They came over and made traffic counts on both Highway 6 and FM Road 8. They informed the commission that the count did not warrant any changes be made. According to their rules and regulations, they state that it can not be done. If any of you would like, you can contact Mr. Schultz at the District Office in Brownwood. Citizens might have some impact. You may have noticed that Mr. Keesee has removed the sign that was blocking some view on Hwy. 6 and is not parking cars there as were in the past. We appreciate him doing this.

While I am thanking someone, I want to thank Milton Jensen for all of the work that he did the past few years on the Frank Gray Park. He put in many hours out there without pay, trying to improve the park. Due to the work he did along with some help he had, the park has been greatly improved. I feel that we will miss Milton and his contribution to the park. Thanks, Milton, for all you have done.

I want to express my appreciation to the Gorman Business Alliance for their continued efforts in sponsoring the Third Saturday Trades Day. This is a project that could help to bring some life to our town at least once a month. The thing that I have noticed is that there are only a few people doing most of the work each time. These people should be thanked for their efforts in trying to make this project go. With what they and the Chamber of Commerce are doing, we should see some results in Gorman. I want to thank all of those in both of these organizations for what they are doing.

I attended a workshop last Thursday in Abilene that was sponsored by the West Central Texas Council of Governments. We spent the day

Over 200 People Enjoy Tradin Day Sales Event

Over 200 people enjoyed a barbecue bun or a hamburger for lunch or supper Saturday, July 19, at the Gorman Trading Day. A number of new booths were added to some that had been here before. Each Trading Day has been better than previous ones. If you have not been attending, you have been missing lots of fun.

As you know, the Business Alliance was formed several months ago for the purpose of promoting our home town--Gorman. Some have the mistaken idea that you must have a business to be part of the Business Alliance. All you have to be is a concerned citizen who would like to see Gorman revived.

We are inviting everyone interested in helping the Buisiness Alliance put on a Peanut Festival this fall to a meeting. The meeting will be at 8 p.m. at the Senior Citizens Center this Wednesday, July 23. We cannot have a Peanut Festival unless we get enough public interest. If you want to have a booth at the festival, or are a part of an organization that wants a booth, come to the meeting and let's get organized. We can have a Peanut Festival if we all work together.

CARD OF THANKS

Frances Sanders and family wish to thank all our families and friends for sharing the loss of our loved one, Gus Sanders. We want to thank each person who brought food to our home and to the church. Also all the ladies who served.

Thank you for your prayers, cards, food and all the beautiful flowers. It was deeply appreciated.

May God bless you

Frances Sanders and family

discussing and dealing with problems that are causing concern for most cities. Some areas covered were liability insurance, loss of sales tax, loss of revenue sharing, more restrictions placed upon cities by both state and federal governments. Some of these things can cause an increase in local taxes in the future. We will try to keep your taxes down as low as possible and still provide the services that are needed.

SOME PEOPLE BUY AIR CONDITIONERS LIKE THERE'S NO TOMORROW.

When it's time to replace your old air conditioner, it'll probably only take you a little while to find a new one that looks pretty good and doesn't cost much. But it'll take a lot longer to realize a quick bargain is likely to cause a slow burn on your wallet every month.

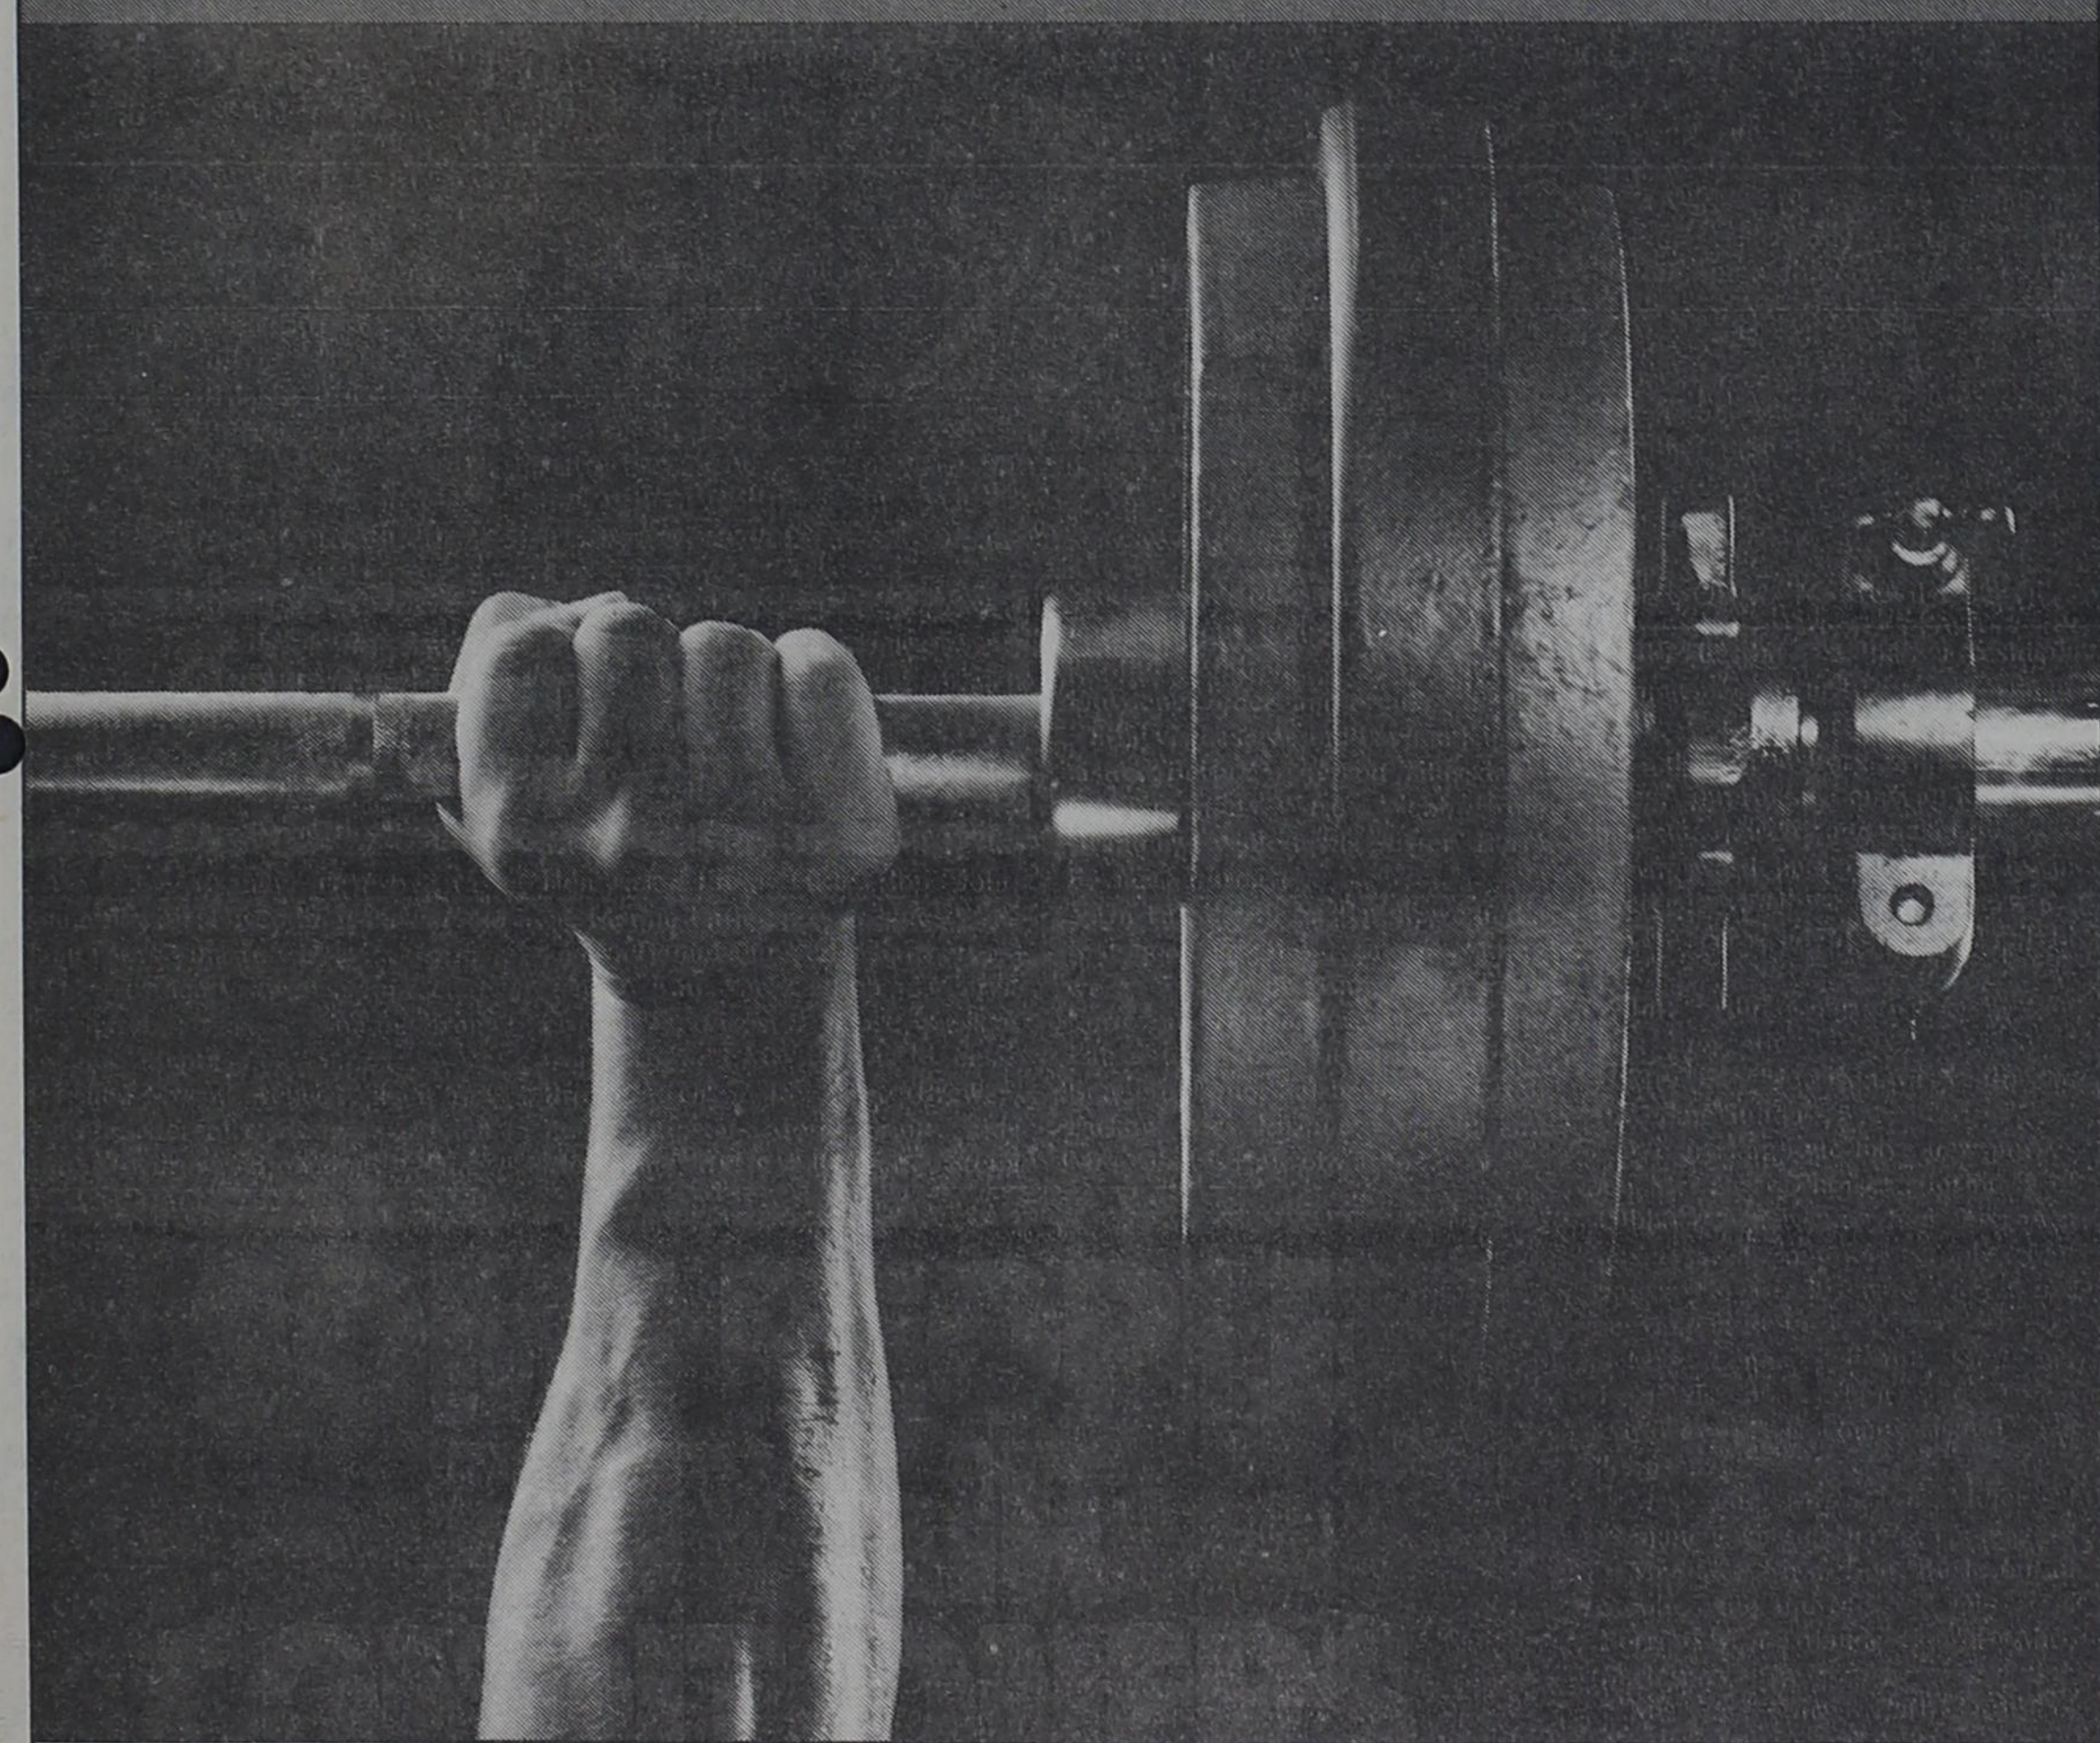

A high-efficiency air conditioner could make a difference in your cooling costs this summer and every summer. A high-efficiency choice means steady savings because you're getting the same amount of cooling using less electricity than with a low-efficiency unit. On top of this, you'll get a valuable rebate from your electric company if your central air conditioner or window unit meets our Energy Action standards.

See your recognized Energy Action air conditioning contractor or dealer for help in choosing a high-efficiency air conditioner or heat pump. Tomorrow, you'll be way ahead of the game.

Cindy and Danny Decker just returned from a few days in Las Vegas, Nevada. They reported having a great time. Daniel stayed with J.C. and Patsy Moon.

Danah Ruth and Digger Proctor of Freer spent Friday night with Blake and Delilah Morrison then on Saturday they, along with Patricia and Johnny Corbell left for Arkansas where they will spend a few days. Bob Proctor was playing in a ball tournament at Graham this weekend.

Patsy and J.C. Moon left Saturday for Colorado where they will spend a few days.

Several attended the supper in the home of Mr. and Mrs. Lee Tannihill on Saturday night and reported having a good time.

I would like to thank everyone for the cards, pretty flowers, prayers, visits and calls while I was sick. We took a fast ride in the ambulance to Brownwood Hospital, had surgery spent a week in the hospital, rested at Leslie's for a week, then spent a week in Galveston. I've been busy. I've never seen so many nearly nude bodies in my life. Then I got out of the hospital and on to Galveston!! Just kidding. When the ambulance attendants wheeled me into the emergency room there, a nurse said, "No, don't put her in there, bring her in here, feet first." I knew I was in trouble. I had three doctors and each of them looked like a movie star and they treated me like I was a V.I.P. Wish I had some more parts to give, I'd go again.

I rode a barge, went deep sea fishing, saw everything in Galveston at least three times and saw 32 miles of bodies. I'm glad to be home.
