Cotton Harvest Reaches Peak in Greenbelt

Ideal weather in the Greenbelt this past week allowed the farmers to strip cotton at full speed, according to Wiley Cain at the USDA Consumer and Marketing Service Cotton Classing Office at Memphis.

"We are about six classing days behind," said Cain, "and we also worked Sunday to keep from falling further behind."

Last week, 14,875 samples were classed to bring the season total to 38,836. It is estimated that the crop is now about 50% classed.

Light spots continued to dominate the grades. They accounted for 76%, being mostly middling light spot and strict low middling light spot.

Staples classed showed 6% 29/32, 64% 15/16, and 22% 31/32.

Micronaire readings last week showed 80% in the 3.5 to 4.9 range. Readings of 3.4 and below were 15%.

Pressley readings showed 74% reading 80,000 to 95,000 psi.

The market for Greenbelt cotton showed a slight improvement last week. Buyer interest increased and average prices made a comeback of 15 to 75 points over the previous week on qualities in demand. The most active qualities were Mid Lt Sp 15/16, at 19.75; and SLM Lt Sp 15/16, at 19.50.

Average price paid for cottonseed at the gin was \$59 per ton.

Bond Sales Total \$4,060

United States Savings Bond sales in Collingsworth County totaled \$4,060 for the month of October. Sales for the ten-month period were \$32,547, representing 33% of the 1970 goal for the county, according to John Forbis, county bond chairman.

Sales in Texas during October were \$15,665,738 while year-to-date sales for January thru October totaled \$151,968,956 for 84% of the 1970 goal of \$179.9 million.

THE JOACHIMSTHALER
Did you know the term "dollar" is not American? In a sense it isn't even British.

Joachim's Dale, a mining district in Bohemia, is where the term originated. There the silver from the mines was minted into a coin called a "Joachimsthaler." The first minting was in 1516.

Within two years the coin gained widespread popularity. It appeared all over Europe and even in Britain. For semantic convenience the name was shortened to "thaler".

The British, however, found this term difficult to pronounce. So as they've done with other Continental terms, they revised the revision. The "thaler" became the "dollar" and eventually the dollar came to America.

In a way it's best that we use "dollar" today anyway. Can you imagine asking someone if he'll lend you a few Joachimsthalers until payday?

Holiday Delights

As pretty as if they'd been made in a far off land of Oohs and Aahs are these whimsical treats all made from the same buttery cookie dough. Shewy Drop Cookies, Dates in a

Blanket, Jelly Peek-a-Boos, Open-Face Fruit Bars, traditional Cut-Outs and forget-me-not Fruit Tarts are sure to send smiles beaming around your holiday table.

More Cookies for Your Holiday Dough Brings Sweet Surprises

By Leta Hill,
Home Demonstration Agent

Make things easy on yourself and your budget this Christmas by creating a whole array of dainty delights from the very same cookie dough. Sweet surprises give each an exciting flavor of its own, and no one will guess you made so many shapes from one recipe.

Start with a basic butter cookie mixture. The butter makes all the flavor difference here, so be sure to use the real thing. If used as is, the recipe can be dropped from a teaspoon sprinkled with colored sugar or topped with a nutmeat for an easy delightful drop cookies.

Just oozing with Christmasy goodness are these "Dates in a Blanket." Roll out the dough, cut into squares, then roll up dates inside - blanket style. Bake, then while still warm, dust lightly with confectioners' sugar.

Or how about creating another effect by cutting rounds of dough and centering each with a half teaspoon of jelly, marmalade or cranberry sauce. Now frame with edges of the dough turned up to form little cups. Then bake and you have one more idea in this many-way cookie-Jelly Peek-a-Boos.

You're not through yet. Set taste buds a-tingling with Open-Face Fruit Bars. Just roll half of the dough into a large flat triangle. Then cut into smaller rectangles, and spread with a spicy filling and bake.

Complete your collection with traditional Cut-Outs, Santa

Clauses come tastefully alive and bells ring out with flavor as you shape them from this very same dough.

For an out-of-the-ordinary snack or dessert, serve forget-me-not Fruit Tarts... cookie style. Using the same butter cookie dough, roll out and cut into three-inch squares. Place half of the square on a cookie sheet and spread with fruit filling. Top each with another square and seal edges with a fork. Decorate with candied cherry pieces.

Special Lighting Conveys the Holiday Message in Most Homes

COLLEGE STATION—Special lighting has become an important way of conveying Christmas messages in many homes.

For a bright and safe holiday season, follow tips for safer, easier installation and maintenance of lighting decorations, advises Jan Slabaugh, Extension housing and home furnishings specialist.

Before hanging Christmas lights, examine the strings carefully, replacing those that have frayed wires or damaged sockets. Next check the bulbs, replacing old ones with new in places that may be difficult to reach once the strings are positioned.

Protect spots where outdoor plugs and connectors join with wrappings of plastic film. Seal the ends with plastic tape.

For outdoor Christmas lights, sockets must be waterproof, and bulbs should be made of glass that is resistant to sudden temperature change, in case of rain or snow. Bulbs for

outdoor strings are larger than indoor bulbs.

For hanging outdoor decorations, use brass cup hooks. Clothesline hooks may be used to support heavier displays. Always use insulated staples to fasten electrical cord or string sets to wooden or cardboard surfaces. Keep the string set wire or lamp from rubbing against eaves by taping the string to brass cup hooks fastened every 12 to 18 inches along the path of the wire.

Corrugated cardboard may be used to protect doors and walls from being scratched by decorations.

Before decorating the indoor Christmas tree, stand it in a pail of water for a few days before setting it up, then use a tree holder with a water container. Examine the branches daily, and if there are dried needles near or around lights, move the lights to another position. Never leave lights burning for extended periods of time.

2 tablespoons chopped candied green cherries
1/2 cup chopped walnuts
1 tablespoon sugar
1/4 teaspoon cinnamon
1/2 teaspoon ground cloves
Dash of mace
1 egg, slightly beaten

In a bowl combine dates, raisins, cherries, nuts, sugar, cinnamon, cloves, mace and egg until blended.

FRUIT TARTS: Chill dough for ease in handling. On lightly floured surface roll dough

to 1/8-inch thickness. Cut into 3-inch squares. Using spatula place one-half of the squares on baking sheet. Spread with 1 tablespoon Fruit Filling. Top with another square. Press the edges together with a fork. Cut a slit in top of each; decorate with pieces of candied cherries. Bake 10-12 minutes. Remove to wire rack to cool. Serve as a dessert. Yield: approx. 2 dozen.

Wedding Anniversaries Observed by Two Couples on Thanksgiving

Mr. and Mrs. M. C. Parrigin were hosts at a dinner on Thanksgiving Day which honored two couples on their wedding anniversaries.

They were Mr. and Mrs. O. L. McBride of Fort Worth, who were observing their 42nd anniversary, and Mr. and Mrs. R. C. Stephenson of Wellington, who celebrated their 55th anniversary.

After the traditional dinner, the day was spent quietly visiting.

There is a special tie between the McBrides and the Parrigins.

Mr. and Mrs. Parrigin, not then married, "stood up with" Mr. and Mrs. McBride at their marriage, November 26, 1928.

Mrs. McBride was the former Estelle Land.

A little more than two months later, Mr. and Mrs. McBride participated in the same way at the Parrigin wedding February 9, 1929.

The McBride family left in the mid-1930's and lived in Fort Worth a number of years.

They have two children, Joy Marie and O. B. of Fort Worth. Another son died a few years ago.

The Stephensons are good friends of both couples. Mr. McBride, in fact, lived in the Stephenson home about five years before he was married.

Both Mr. and Mrs. Stephenson spent their childhood near Bowie, but in different communi-

ties. The former Ella Bridgewater, she moved with her family to Wichita Falls where they were married.

Except for a year at Clovis, N.M., they lived at Bowie until 1923, when they came to the Houselog community. He farmed there for many years, and later operated a feed store in Wellington.

Both are members of the Church of Christ and she is also active in the Wellington Garden Club and the Good Neighbor Club.

The couple's only child died in infancy. A nephew whom they reared, Hinton Bridgewater, died two years ago.

Visiting recently in the home of Mr. and Mrs. Milford Harris were Mr. and Mrs. Doyle Fowler, Mr. and Mrs. C. W. Fowler, all of Memphis, Mr. and Mrs. Carrol Johnston, Jackie and Sidney of Plainview, Mr. and Mrs. Bryant Harris of Bovina, and Miss Sharon Gaston of Canyon.

Mr. W. D. Harris returned home over the week end after visiting in Irving in the home of Mr. and Mrs. LeRoy Harris. Mrs. LeRoy Harris and Diane brought her home and went on to Shamrock to visit other relatives.

reading of those letters.

During the presentation of the cheerleaders and mascot by Larry Wright, their honor-escorts were Ricky Norman, John O'Rear, Danny Fowler, George Brewer, David Null, Bill Havens and Mike Cummings. Dave Peterson awarded the coaches' gifts.

Decorations of red and white paralleled the entertainment theme. Large cartoon characters wearing football gear of teams the Firecrackers defeated centered the banquet tables. Individual places were marked with monogrammed dimensional football programs.

Excelsior Has Christmas Party in Shadid Home Thursday Evening

The home of Miss Marie Shadid and Miss Rose Shadid was the setting of the annual Christmas party of Excelsior Club on Thursday evening, December 3.

In continuing the club's study of famous artists, Miss Rose Shadid presented a program on Claude Monet, French artist whose career spanned 60 years until his death in 1926.

It was he who introduced "open air" painting, said Miss Shadid. He maintained that being shut in a studio, the artist missed the play of light and shadow. He loved the sea and did many marine paintings, as well as those along the River Seine in Paris. He maintained that one had only fleeting moments to catch the effect of light.

Monet introduced "group" exhibits, explained the speaker, and among these were some of his better known works, including "The Poplars" and "Haystacks."

Gifts were exchanged from a gaily decorated Christmas tree, and the traditional Christmas dinner was served.

Attending were Mrs. Robert Barjenbruch, Mrs. E. F. Bart-

Is God Dead?

BY GAYLORD COOK

In recent years many of us have been greatly disturbed to hear certain theologians proclaim that God is dead. The fact is that in the lives of the majority of our nation today, God is dead! Do not misunderstand the statement. Jehovah, the Creator of heaven and earth, the God of Abraham, Isaac and Jacob, the Father of Christ is certainly not dead, in fact he has not even been sick. But many have allowed Him to die in their lives. Those who do not obey God, do not worship Him, do not talk with Him regularly in prayer, who do not depend upon Him for life itself have in effect let God die, so far as they are concerned. He no longer has effect upon their lives. It is not a matter of god lacking power, it is a matter of man failing to let God be active in his life. Have you killed God—in so far as His influence in your life is concerned? Isn't it about time for you to let Him live—IN YOUR LIFE?

Club Has Study of Communism

Members of 1924 Study Club met in the home of Mrs. L. W. Wells December 3.

"The Frightening World of Communism" was the study theme for the day, with the guest speaker, Mrs. Jack Davis. Her subject, "A Bit of Light on Red China," was further portrayed with a graphic map and Chinese lantern.

Mrs. Davis has spent several years in research on the importance of Mao Tse-tung's influence upon the peoples of the world.

"To the oriental mind he is a god; his book of quotations is a bible; his followers are steeped in communism from cradle to the grave," she said.

"The three powers of United States, Soviet Union and Red China stand face to face in mortal combat which must resolve in a victory for the East or the West. It behooves us to warn of the dangers and to dare to speak out against communism," Mrs. Davis declared.

Those attending were Mrs. Ralph Owens, Mrs. Bill Estes, Mrs. Chester Fires, Mrs. Truitt Holland, Mrs. Dennis Holland, Mrs. Don Van Pelt, Mrs. Byron Duncan, Mrs. Les White, Mrs. Sam Adams, Mrs. Dee Coleman, Mrs. J. F. Michael and Mrs. Davis.

pecially welcome a tree or shrub gift. Select a plant that can be used in the home landscape design. It should also be native or adapted to the area.

Some of the ornamental plants that would make good gifts include the many varieties of holly, deodar cedar, pyracantha, elaeagnus, magnolia and pine, Janne says. The local nurseryman or florist can help you in the final selection.

If you are considering a house plant gift, Janne suggests such foliage plants as philodendron, English ivy, Christmas cactus, or even a potted azalea or camellia. Other plants popular for indoor landscaping, particularly during the holiday season, are poinsettia, Jerusalem cherry, chrysanthemum and Christmas pepper.

You can easily make an attractive package from a house plant or tree. Just wrap the base of the plant with Christmas paper and tie with bright colored bow.

While you are plant shopping, Janne adds you may want to select a living Christmas present for your own family. A balled or burlapped, or container-grown evergreen can be used as the family Christmas tree. If care is taken to prevent the ball of soil from drying out, it can be placed in the home landscape after the holiday season.

Week end guests in the home of Mr. and Mrs. Denny Judd and Kim were Mr. and Mrs. Sam Adams and Lisa and Mona Woodman of Dumas, Gary Judd and Miss Jane Ragsdale of Amarillo.

Mr. and Mrs. Ace Rainey and Mr. and Mrs. John Rainey were in Brownwood over the week end to attend the funeral of Ace Rainey's brother, Jack Rainey.

UT Dedicates New Building

AUSTIN.—The University of Texas has dedicated its newest building—a conference center that will bring closer together diverse groups from the academic, business and professional communities.

The building is the \$1.3 million Joe C. Thompson Conference Center, named for a late member of the UT System Board of Regents and chairman of the Southland Corporation of Dallas.

About 1,000 conference participants can be accommodated at one time in the classrooms of the new glass-and-stone structure, which is located adjacent to the Lyndon B. Johnson Library on the UT Austin campus.

Studies by AEC Top \$71 Million

The Atomic Energy Commission is currently sponsoring more than 1,000 contracts for environmental research at a cost of \$71,217,000 for fiscal year 1971.

The projects are described in a new AEC publication "Summaries of USAEC Environmental Research and Development."

The book, number TID-4065, is for sale at \$3 from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151.

Since 1947 the AEC has made available more than one billion dollars for research related to man and his environment.

University of Texas Re-locates Offices

AUSTIN.—Offices of The University of Texas System have moved from the UT Austin campus to a downtown location in the Commodore Perry Building.

Frank C. Erwin, Jr., chairman of the UT System Board of Regents, said the move gives physical emphasis to the long-contemplated policy of defining more sharply the chain of command for the System.

The University of Texas System has 17 component units in Austin, Arlington, El Paso, Dallas, Houston, Galveston, Odessa and San Antonio.

Don't Play Santa Claus For Active Sneak Thieves

Christmas is the month for giving, and sometimes in our rush to get things ready for this happy season, we forget there are some who have larceny in their hearts.

No town is immune. You can become a victim with an unlocked car full of gaily wrapped packages, or at your unlocked home where gifts pile high beneath your tree.

And if you leave your car unlocked, with the keys in it, some thief just might make a grand slam.

The Insurance Information Institute gives these tips to shoppers:

Don't leave package on the seats or floor of your parked car. Put them in the trunk and lock it.

Roll your windows up tight and lock your car doors.

Don't forget to remove your ignition key.

Don't park in a remote dimly lit spot.

Take these precautions for a Merry Christmas.

The Essential "E"

Everyone in the printing or writing business knows that the letter "e" is the most overworked letter in the English language. But "Nod" (Niles) Dillingham, editor of the Dawson Springs (Kentucky) Progress says that "there is more to the 'e' than meets the eye."

In some ways, "E" is the most unfortunate letter in the alphabet, because it is always out of cash, forever in debt, never out of danger, and in torment all the time.

Still, it is never in war; always in peace; and it's always in something to eat.

It is the beginning of existence, the commencement of ease, and the end of trouble.

Without it there would be no life or heaven. It is the center of honesty and is always in love. It is the beginning of encouragement and endeavor, and the end of failure.

Capital NEWS

By VERN SANFORD

AUSTIN.—Legislative Budget Board staff members added little to the season's cheer for legislators with their estimate that even a rigidly-conservative 1972-73 budget will require a \$643.5 million tax bill.

Lawmakers, who report for the biennial session in January, must pass a \$51.4 million emergency finance measure to head off a 20% welfare cut in April, the Budget Board warned. And early approval of a constitutional amendment to raise the \$80 million welfare ceiling also will be necessary to avert eventual sharp reductions in aid to the needy.

Board stressed that its budget compilations allow for no new construction funds for any purpose (not even new colleges already authorized) and no money for state employee salary raises.

Sharp growth in welfare rolls and long-range educational programs already enacted are primary reasons cited for the record tax need.

Boundary Hearing Set

Texas-Louisiana boundary dispute will be argued before U.S. Supreme Court in Houston on Dec. 16.

Judge Van Pelt is a senior federal district judge for Nebraska.

Texas claims that midstream of the Sabine River, Sabine Lake and Sabine Pass were established in 1848 by Congress as the dividing line. Louisiana claims the entire river.

Millions in oil lease income are at stake.

Texas Fourth

Texas now is the fourth most populous state in the nation. New census figures show 11,298,787 population which includes 102,067 Texans abroad.

California still is No. 1, with more than 20 million. New York remains second with 18.2 million and Pennsylvania third with nearly 11.9 million.

Texas barely nosed out Illinois for fourth. Illinois' head count is 11,184 million.

Turkey Prices Holding

Price of the Christmas turkey in Texas will be about the same, or maybe even less than in 1969, Agriculture Commissioner John C. White figures.

A wire service story on Nov. 25 stated that prices of Thanksgiving turkeys over the nation were 9% higher this year, but White said this was not true in Texas.

White based this statement on a survey of prices in leading markets of San Antonio, Houston and Dallas.

About 19% more turkeys were produced in Texas this year than in 1969.

Hearing Set

A Dec. 21 public hearing will be held in the McAllen civic center on proposed piece rates for hand harvesting of agricultural commodities.

Rate system, under the state Minimum Wage Law, will be based on average worker productivity by commodity and will become effective Feb. 1.

A comprehensive statewide field study of actual worker productivity has been under way since September 1969. Proposed rates will be recommended at the December hearing for harvesting citrus fruit and all Texas vegetables.

A later hearing will take up piece rates for harvesting pecans, blackberries and cotton, plus a few fruits and vegetables produced in limited quantities.

Piece rates apply to piecework harvesters who are not covered under the federal minimum wage statute.

Courts Speak

Reversing itself, the State Supreme Court upheld a \$10,000 libel judgment against a Denton publishing company as the result of an erroneous report (which the Court said was not privileged).

Story reportedly stated that a local developer was bankrupt. In an earlier opinion, the High Court, by a 5 to 4 vote, had held for the newspaper publisher. Newspaper had quoted a statement made at a city council meeting but through oversight did not say who made the statement.

In other cases the High Court:

—Set arguments for Jan. 20 over the validity of an incorporation of West Lake Hills, an Austin suburb.

—Upheld a lower court decision invalidating a Comanche County local option election to permit liquor sale.

—Affirmed the right of a Fort Worth school district to prevent students from belonging to secret clubs.

Court of Criminal Appeals, in Smith and Tarrant County cases, found that a 1969 legislative act wiped out parts of the state law against ex-convicts carrying concealed weapons.

Attorney General Opinions

Federal navigation powers under the commerce clause of the U.S. Constitution are superior to state powers or rights where the waters involved form a part of navigable waters of the U.S. says Attorney General

CROSSROADS REPORT

A self-certified pundit calls it a paradox when people say we can't afford more multi-billion dollar welfare programs but can spend more for defense.

And my taxed-down-to-poorness neighbor says he doesn't know exactly what a paradox is, but he knows an idiosyncrasy when he sees it, and a prime one would be letting our defenses sag so we could afford to buy more beggar votes.

But he says it can happen, and when out welfare is up and our defenses down, the Reds can or-else us and we will be the fattest bunch of slaves they ever took over.

al Crawford Martin.

Same applies, Martin said, where alteration of the flow of non-navigable tributaries there of would affect navigable waters. He further held that: federal authorization of a Texas water project preempts a state project on the same river site unless federal consent is obtained by law; federal government can retard, impound and use waters behind government dams in Texas if use is reasonably related to powers under the commerce clause, and suits over federal projects could be removed to a federal district court.

In other recent opinions, Martin concluded that:

—Law prohibiting deer hunting with artificial lights was not repealed in Smith County by the Uniform Wildlife Regulatory Act.

—Maximum salary for Orange County Court at Law judges is \$6,000 a year.

Appointments

Gov. Preston Smith has recommended Col. Melvin N. Glantz of Plainview to succeed the late Col. Morris Schwartz as State Selective Service Director.

Byron Tunnell will serve as chairman of the State Railroad Commission for 1971-72.

Smith named Byron L. McClelland of Gatesville 52nd District Judge to succeed Judge Truman Roberts who will move to the Court of Criminal Appeals.

Leslie B. Vance of Clifton will succeed McClelland as 32nd district attorney.

Roy Barrera of San Antonio Al Henry of Houston and Dr. Herman Widgotsky of San Antonio have been named to the Board of Trustees of Texas Educational Foundation Inc., which supervises Texas Job Corps vocational training centers at San Marcos, McKinney and El Paso.

Timothy C. Moore of Kermit and Melvin Houston Jr. of Houston will represent Texas at 1970 U.S. Senate Youth Pro-

gram and Conference in Washington on Jan. 30 to Feb. 6.

Short Snorts

• Francis X. Tolbert, columnist for the Dallas Morning News, Mrs. Lucille Walker, waitress at Big Bend National Park lodge, and the entire community of Albany were cited by Gov. Smith for tourist development work at the Governor's tourism conference here.

• A sub-panel of the Speakers Committee of the House has recommended bullet-proof glass to seal off the House chamber from the gallery.

• Former Vice President Hubert Humphrey will head a list of dignitaries attending the Dec. 15 appreciation dinner for Sen. Ralph Yarborough.

• Norman Newton of McAllen announced he will resign as executive director of the State Republican Party about Dec. 23, when William M. Steger of Tyler will step down as state chairman to accept judgeship.

• Veterans Land Board has authorized the sale of \$25 million in veterans land bonds—if buyers can be found at the 4½% interest limit.

• Beltway Bank of Houston has filed an application for a charter with the State Banking Commission.

• Real income levels of Texans probably declined in 1970 (considering the consumer price increases), says the University of Texas Bureau of Business Research.

• Further auto insurance hearings will be held in Dallas and Houston before that regulatory agency makes its decisions on rates.

Texas Water Supplies Checked

The Texas State Department of Health, through its Interstate Carriers Certification Program, makes regular checks of the water supplies used on buses, trains, airplanes and ships and boats. The result is safe water for the traveler.

In addition, motorists who travel in and through Texas can be assured of safe water because of another phase of the certification program which deals with water systems in the small towns and large cities throughout the state.

More Range, Brush Control Needed

Some 82% of Texas range-lands are infested with one of more species of woody plants. They have reduced forage production by one-half to two-thirds of potential and caused the efficiency of livestock production to decline, says G. O. Hoffman, Extension range brush and weed control specialist. He notes that control measures are being carried out on some 1.2 million acres annually, about 10 percent of the acreage that should be under control each year.

Deer Attacks Man at Home

AUSTIN.—Just mention Bambi to Joe McKinney, and he'll flinch.

McKinney, a Kendall County construction worker, is recuperating at his home near Boerne where he was attacked recently in his driveway by a 150-pound buck deer.

The victim suffered multiple lacerations on his head, chest and both legs from the incident and might have been hurt even worse if his wife had not felled the berserk animal with two shots from a .38-calibre pistol.

McKinney told Texas Parks and Wildlife Department game management officers he had no time to escape. He noticed the deer trotting toward him as he was leaving his car and walking down the driveway toward

his house. The deer lowered his head and ran full tilt into McKinney, knocking him to the ground.

Mrs. McKinney saw the attack from a window, grabbed the pistol and rushed outside to see her husband pinned to the ground under the buck's antlers. She fired pointblank at the deer, hitting it in the chest both times.

Observers speculated that the deer, which perhaps was someone's pet at one time, became spooked when a child's T-shirt accidentally became impaled on its antlers when it ran under a clothesline.

The shirt was still on the deer's antlers when the battle ended.

Department officials remind Texans to consider any deer potentially dangerous, regardless of how "tame" they might act. Moreover, keeping wild deer as pet is illegal in Tex-

Quail Win Memphis Basketball Tourney

Quail Quails won the Memphis Invitational Basketball crown, defeating Hedley 52 to 44 in the finals Saturday night, Dec. 5.

The Quails defeated Arnett 65 to 48 in the first round Thursday night, Dec. 3, and the Rocket B was winner 77 to 72 in a good, high scoring game.

"This is unusual for a B team to score in the 70s in the season," said Coach Jimmy Forrester.

Skyrocket B Downs Memphis

Wellington Rockette B team lost to Memphis girls 26 to 12 here Thursday night, Dec. 3, but the Rocket B was winner 77 to 72 in a good, high scoring game.

Jay Thomas led Wellington scoring with 37 points, while Bruce Oney and Gary Wright had 14 each.

Charley Slaughter led Memphis scoring with 22.

Memphis led during the first and third quarters by about 6 points, but Wellington managed to pull the game out late in the fourth.

"It was a closer game even than the score indicates," said Coach Forrester. "It was nip and tuck and brought the crowd to their feet."

Edi Watkins led Wellington girls scoring with 5 points and Teresa Patterson had 3. Janet McNally, with 8, was high for Memphis.

The third quarter they were trailing 34-32. In the final period, the Quails outscored Hedley 10 points to win the tournament.

"Quail was playing on the strong side of the bracket, and we feel we did fairly well," said Coach Bill Wilson. "We played three of the best teams in the tournament and won. We feel this was due to team effort."

Darrell Feemster led Quail's scoring with 24 points, while David Bolin had 12 for Hedley.

Tommy Oatman was the Quails' high point man in the game with Arnett, scoring 20 points, while T. J. Bogle had 19 points for the Indians.

Oatman again was the high point man when the Quails met Memphis, with 26. Other Quails who scored were Feemster, 22, Mark White 20, Jerry Barton 5 and Terry Canada 1.

Quails who played were Oatman, Feemster, White, Barton, Julian Torres, Terry Canada, Laron Peters, James Culpepper, Redgie Souder, Larry McCann, Lonnie Needham and Jerry Alston.

The Arnett girls won over the Quail girls in the first round, 55 to 31, with the Bobwhites trailing all the way.

Cathy Carter of Arnett led the game scoring with 23 points, while Brenda Childers had 14 for Quail.

Going into the consolation bracket, the Quail girls lost the semi-finals to Paducah girls 42 to 28.

Great Pyramid of Cheops was constructed with 2,300,000 stone blocks, each averaging 2½ tons.

Rev. W. C. Hutchins
Hutchins Gets M. Div. Degree

FT. WORTH.—William Clifford Hutchins, son of Mrs. Lucy Hutchins of Wellington will receive the Master of Divinity degree during the commencement exercises to be held in Truett Auditorium at Southwestern Baptist Theological Seminary Dec. 18 at 10 a.m.

Seminary President Robert E. Naylor will present degrees and diplomas to approximately 125 candidates from the seminary's three schools: theology, religious education and church music. H. Franklin Paschall, pastor, First Baptist Church at Nashville, Tenn., will deliver the commencement address.

Dr. Paschall is a former president of the Southern Baptist Convention. He has served many churches in Kentucky and Tennessee.

Rev. Hutchins, whose home is at 4021 Sandage, Ft. Worth, received the A.A. degree from Southwest Baptist College in 1964; the B.A. degree from Ouachita Baptist University at Arkadelphia, Ark.; and he has attended Southwestern Baptist Seminary since August 1966.

He plans to enter pastoral work.

Drug Abuse Figures Cited by Pastor for Kiwanians

Arrests of young people, 18 and under, for violations concerning drugs, increased over 1800% between 1961 and 1968, the Rev. Roy Collins told Wellington Kiwanis Club Friday, Dec. 4.

This was the first of two discussions on drug abuse, said Rev. Collins, pastor of First Baptist Church and Kiwanis program director for December. Drug alert is the year-long emphasis for Kiwanis International.

Hardy Stevens, a dean of Amarillo College, will speak Dec. 18.

Some people estimate today that there are as many as 20

million drug abusers in the country, Rev. Collins continued, but even with this staggering figure, alcohol remains the chief drug abused in the United States.

Over two-thirds of the population 15 years of age or older drink alcoholic beverages to some extent, and there are four million alcoholics working on the labor force, costing the economy annually an estimated \$63 billion, the speaker declared.

THE WELLINGTON (TEXAS) LEADER
Thursday, December 10, 1970

Rev. Collins explained the drug classifications:
—The hallucinogens, which includes mescaline and LSD.
—Glue sniffing, of which the most commonly used are gasoline, airplane glue and nail polish.
—Barbituates.
—Amphetamines, along with methamphetamines.

—Marijuana, of which an estimated five tons is smuggled into the U.S. each week.
—The hard drugs including opiates, morphine, codeine, etc.
Mr. Stevens' talk will take up what the youth are thinking, their problems, and basically what kind of situation a person finds himself in that leads him to a drug program.

Expanded Great Plains Program Effective for SCD Co-operators

An expanded Great Plains Conservation Program for the 1970's was announced Friday, Dec. 4 for co-operators in Salt Fork Soil Conservation District.

In its new form, the program includes pollution control, wildlife development, conservation of non-farm land, and promoting economic use of the land, said Gary Reed, unit conservationist of Soil Conservation Service.

The new program will go into effect here about March 1, he said.

Funds will become available with the beginning of the next

fiscal year, July 1.

In the 12 years of its operation in Salt Fork SCD, the Great Plains Programs have brought cooperating farmers \$457,235. This covers only payments, but beyond this is the valuable technical help and assistance given by trained personnel which enabled the co-operators to carry out the program.

To date, 296 Great Plains contracts have been in force. Most of these have been completed, and at present approximately 40 co-operators have con-

tracts. More money will be available July 1, 1971.

Congress has now extended the Great Plains Conservation Program to Dec. 31, 1981 by enacting Public Law 91-118.

This broadens both the use of technical help and the existing cost-shared practices to deal with special problems and opportunities.

The new provisions include:

- Disposal of animal wastes, which is the concern of many rural communities. Cost shared practices to reduce or control agriculture-related pollution can now be made a part of the conservation plan.

- Developing recreation, fish and wildlife resources. Although no farm or ranch conservation plan in the program can be based entirely on recreation and fish and wildlife development, such development can be a useful part of the plan. Broadened uses of existing practices permit cost sharing for these incidental purposes.

- Conservation work on non-farm land adversely affecting a farming area. Uncontrolled runoff or blowing soil from nearby land may interfere with the successful operation of a farm or ranch. If the owner of the adjoining land is willing, the program provides him technical assistance and cost sharing to relieve the problem.

- Promoting economic use of land.

Women Pass LVN Exam

Mrs. Sandra Baker and Mrs. Luella Hartman have been notified they passed the state examinations for Licensed Vocational Nurses.

They completed the one-year course for LVNs at Hall County Memorial Hospital, Memphis, on July 31 and took the 8-hour examination in Austin Oct. 18.

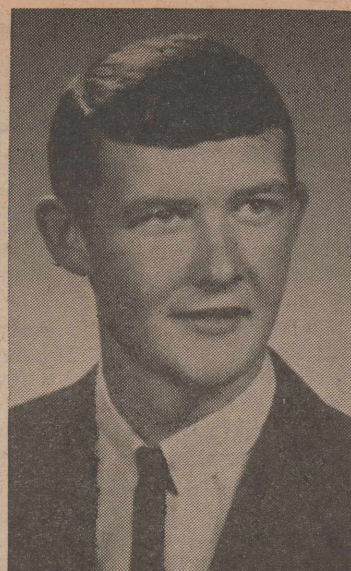

Mrs. Baker is now working at Golden Spread Nursing Home in Shamrock.

Weather Deadly During 1969

The worst catastrophe in 1969 weather was the hurricane that struck the coast line of Louisiana and Mississippi in August when 200 persons died. Floods in Virginia and California resulted in 123 deaths that year.

Christmas Mail Schedule Given

Postmaster L. B. Bratten has reminded that it's time for Christmas mailing.

Parcels going to distant states should be mailed immediately, and greeting cards by Dec. 15.

Parcels going to local or nearby areas should be mailed by Dec. 11 and greeting cards by Dec. 15.

Both parcels and greeting cards going to Alaska and Hawaii should be sent airmail by Dec. 14.

They're bound to cause talk.

And not just among the neighbors. This is the kind of conversation people make over phones like these: "Ah, mon cherie je t'aime, je t'adore..."

Or maybe: "Tell Schafhausen to call me from Beirut. In three days or the deal's off."

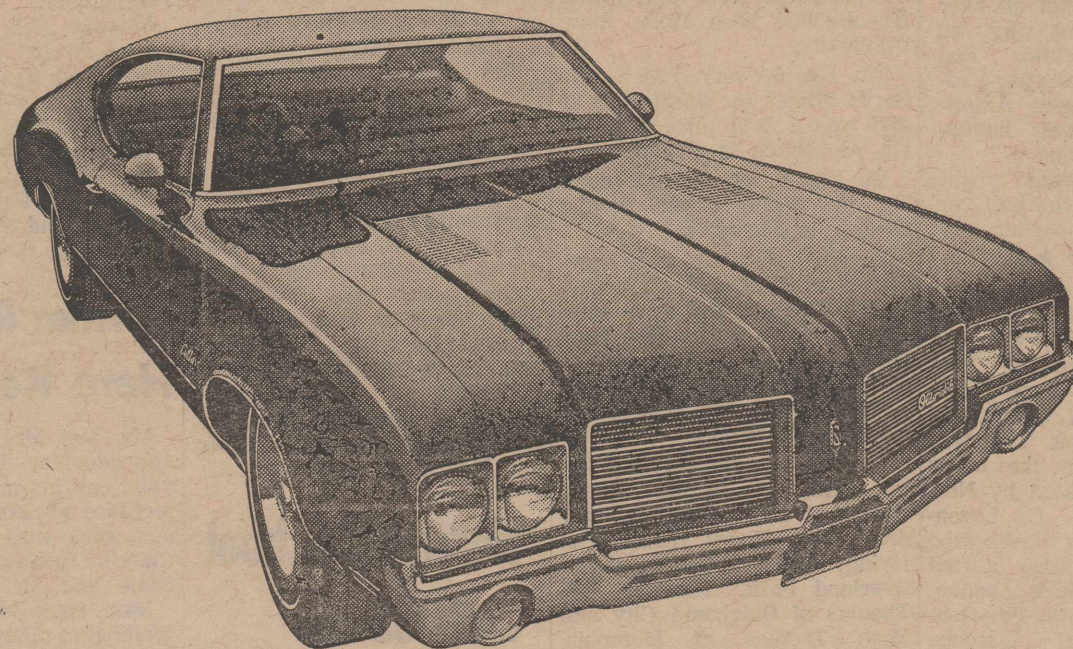

• Call your General Telephone business office to order one of these glamorous new Decorator Telephones.

And if you only order the groceries over it, it'll still make peanut butter and milk sound like caviar and champagne.

FEEDING T-E LIQUID FEED IS SO EASY IT COULD SPOIL YOU

When you get out of bed in the morning, your supplement feeding chores may already be done for days to come—if you're feeding T-E Liquid Feed Supplement.

Because one refill of the free-choice range feeders will take care of your herd for about ten days, using a T-E feeder for every 75 to 100 head. All you have to do is make the rounds, once every ten days, stopping at each feeder long enough to watch it fill up.

T-E Liquid Feed Supplement cuts out most of the time, labor and equipment connected with dry supplements... saves you money.

The proof of T-E Liquid Feed Supplement is in the extra quality your animals will show—extra energy, extra good health, extra gain. And that means extra profits from your range feeding program.

T-E Liquid Feed Supplement along with adequate roughage, minerals and water, is the easy way to be sure your animals are getting the protein, phosphorus, vitamins and trace minerals they need for energy and growth.

Of course, you do have to get out of bed—at least every ten days. Otherwise it could spoil you.

T-E LIQUID FEED SUPPLEMENT IS MADE FROM A PATENTED FORMULA

The basic ingredients of T-E Liquid Feed Supplement are urea, phosphoric acid, molasses, vitamins A, D and E and trace minerals. The urea is chemically inhibited (by the patented formulation with phosphoric acid and molasses) to control the release of nitrogen and pace its conversion into protein for more efficient use by the animal.

Deck's DIDACTICS

—By Deskins Wells

The Saturday Evening Post will be revived next June as a Quarterly magazine, Curtis Publishing Company announced last week. That will be something "devoutly to be hoped for" if the contents of the new quarterly have the excellence and entertainment of the old Saturday Evening Post from 1910 until 1960. However, if the new quarterly resembles the fantastic journalistic contortions of the magazine during the last five years of its existence, it would be a mistake to revive it either weekly, quarterly or yearly.

Beurt R. Servaas said: "Since the Post has shut down, we've received not hundreds or thousands but millions of letters from all over the world, asking why we suspended publication and stating that the Saturday Evening Post was more American than any other institution they could think of."

Those people were writing about the Post of the half century I mentioned earlier.

If you want to revive some nostalgic memories of The Post during its greatest years, buy or borrow a copy of "The Saturday Evening Post Treasury" published by Simon and Schuster, New York. This was in the days when the cover pages were illustrated by Norman Rockwell, J. C. Leyendecker and other celebrated artists. The Post also started such writers as Jack London, Paul Gallico, Edith Wharton, Booth Tarkington, Clarence Budington Kelland and many others on their road to fame.

Such was the magazine those millions of people were writing about. It was a product of the times and a United States that was not the same. It would be about as easy to restore Irvin S. Cobb, Ring Lardner and Stephen Crane to the flesh as it will be to revive "The Saturday Evening Post" as a quarterly.

The roles of Representative Tom Christian and newly-elected Max Sherman are not to be envied as they approach the next session of the Texas Legislature. In the first place they will be confronted with the task of raising half a billion dollars in new taxes for welfare, education, more state officials and any number of other highly controversial issues.

The main problem will be how to raise the money—more sales tax, state income tax, more property tax or how. Any kind of a tax is distasteful. We want all these government services; but when it comes to paying for them, that is a different matter. The man who wants better teachers for his children is the first to protest a raise in his school tax rate. It goes from the local government to the state and the nation.

The new census will add to the problems of the legislators who will also be confronted with the problem of redistricting. This can change our congressional district as well as those for state senator and state representative. Some changes could help us here in Collingsworth. As it is now our state representative district stretches from Collingsworth to Randall and this latter county includes South Amarillo in which half the voting strength of the district is located. We have nothing against South Amarillo for it is a lovely place filled with wonderful people; but we see no reason for an agricultural community such as ours being outvoted by a strictly urban segment if we can help it by legal means. We should be in a legislative district such as Collingsworth, Hall, Donley, Childress, Wheeler and whatever other counties are required to make a compact district.

Frank Anderson says the Texas line has not received enough credit for its share in the victory over Arkansas. I thought they received considerable. Steve Worster, the injured fullback, was quoted as saying that his eleven year old brother could have gone through the holes made by the Texas line.

Arkansas has a much better football team than they seemed to be against the fired-up Longhorns. Like the Oklahoma game this is not a group of Arkansas players against Texas players. In the main it is Texans against Texans. It is too bad that the Hogs will not be in a bowl game. On the right day they could defeat three out of four

mined by the drillers. Mayor Coleman said that the well will be drilled to the red bed, about 150 feet, and the casing sunk 15 feet into that formation for stability.

A price of 50 cents per foot for the small hole and \$11.00 per foot for the standard well was agreed upon, according to the mayor.

Mr. Coleman also said that additional right of way has been secured from the Fort Worth and Denver Railway, from Milepost 253 southward to Fifth Street. This was for a nominal fee of \$50, said the mayor.

of the teams that will be playing.

Last Saturday the Longhorns played inspired football. They were ready. They were fed up with all the publicity on Shootout No. 2 and they remembered the Baylor game of this year in which the Bears played aroused football and the Longhorns did not. Baylor may not have made Baptists out of any Longhorns; but they sure made Christians out of a bunch of them.

John Brim came by to compliment me on the column on soil conservation and "The Fragile Ocean." This man who has such a model farm, now wants to learn more about the ocean.
